2825 P	Steam turbines and components	Includes: Marine steam turbines only.
3950 P	Winches, hoists, cranes, and derricks	Includes: Equipment for use aboard ships herein assigned only:
4010 P	Chain and wire rope	Includes: Anchor chain; and anchor chains (shots, no attachments) for use aboard ships herein assigned only.
4110 P	Self-contained refrigeration units and accessories.	Includes: Units and accessories for use aboard ships only.
4120 P	Self-contained air conditioning units and accessories.	Includes: Units and accessories for use aboard ships herein assigned only.
4130 P	Refrigeration and air conditioning plants and components.	Includes: Plants and components for use aboard ships herein assigned only.
4140 P	Fans and air circulators, non-industrial.	Includes: Fans and air circulators for use aboard ships herein assigned only.
4220 P	Marine lifesaving and diving equipment.	Includes: Diving equipment only.
4310 P	Compressors and vacuum pumps	Includes: Reciprocating air compressors; and rotary air compressors for use aboard ships herein assigned only.
4320 P	Power and hand pumps	Includes: Power driven pumps; and air ejector assemblies for use aboard ships herein assigned only.
4330 P	Centrifugals, separators, and pressure and vacuum filters.	Includes: Oil purifiers; and oil filters, for use aboard ships herein assigned only.
4410 P	Industrial boilers	Includes: Boilers for use aboard ships herein assigned only.
4420 P	Heat exchangers and steam condensers.	Includes: Heat exchangers for use aboard ships herein assigned only.
4450 P	Industrial fan and blower equipment	Includes: Equipment for use aboard ships herein assigned only.
4510 P	Plumbing fixtures and accessories	Includes: Troughs, wash (personnel); troughs, water closet; and troughs, urinal; for use aboard ships herein assigned only.
4620 P	Water distillation equipment, marine and industrial.	Includes: Distilling plants for use aboard ships herein assigned only.
5430 P	Storage tanks	Includes: Tanks, metal (enclosure only, not part of ship's structure), for use aboard ships herein assigned only.
5670 P	Architectural and related metal products.	Includes: Gratings and floors, metal (does not include deck structure) for use aboard ships herein assigned only.
5985 P	Antennae, waveguides, and related equipment.	Includes: Antenna poles; and masts, antenna for use aboard ships herein assigned only.
6105 P	Motors, electrical	Includes: Motors for use aboard ships herein assigned only.
6115 P	Generators and generator sets	Includes: Gasoline, diesel and steam engine-generator sets; generators, electric; and steam turbine-generator sets for use aboard ships herein assigned only.
6125 P	Converters, electrical	Includes: Motor-generator sets for use aboard ships herein assigned only.
6220 P	Electric vehicular lights and fixtures	Includes: Fixed lights for use aboard ships herein assigned only.
6320 P	Shipboard alarm and signal systems	Includes: Alarm systems: fire alarm systems; indicating systems; telegraph systems (signals and signaling) (less electronic type); for use aboard ships herein assigned only.
6605 P	Navigational instruments	Includes: Hand leads (soundings); lead reels; sounding machines; stands, pelorus, for use aboard ships herein assigned only.
6650 P	Optical instruments	Includes: Stands, telescope, for use aboard ships herein assigned only.
6665 P	Hazard-detecting instruments and apparatus.	Includes: Hazard-determining safety devices, for use aboard ships herein assigned only.
8140 P	Ammunition boxes, packages, and special containers.	Includes: Boxes, ammunition, for use aboard ships herein assigned only.
8345 P	Flags and pennants	Includes: Boxes, signal flag, for use aboard ships herein assigned only.
	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT—Continued	
6645 P [8]	Time measuring instruments	Includes: All clocks, chronometers, and spare parts thereof, as follows: alarm clocks; boat clocks; cans, chronometer shipping and storage; carrying cases, chronometer; carrying cases, make-break circuit, chronometer; cases, chronometer, gimbal; cases, chronometer, padded; chronometers; chronometers, make-break-circuit; clocks, direct reading; clocks, electric; clocks, floor; clocks, interval timer; clocks, marine, mechanical; clocks, master control clocks, master program; clocks, master regulating; clocks, mechanical; clocks, message center; clocks, nurses'; clocks, program; clocks, shelf; clocks, wall; clocks, watchmen's; clock motors; clock movements, electric; deck clocks; dials, clock; hour-meters; interval timers; keys, clock, mariner clocks; meters engine running time; meters, hour recording; meters, time totalizing, electric; program control instruments; program timers; stop clocks; time period counters; timers, bombing; timers, engine hour; timers, sequential; timers, stop.
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION AND EXPLOSIVES [9]	
1095 P	Miscellaneous weapons	Includes: Guns, line throwing only.
1310 P	Ammunition, over 30-mm up to 75mm	Includes: 40-mm ammunition only.
1325 P [13]	Bombs	Includes: Armor-piercing; depth bombs, externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlet 1280 and OP 988.
1340 P [14]	Rockets and rocket ammunition	Includes: 2.25 in. Rocket SCAR, Practice; Heads Mk 3 and Mods; Motors Mk 15 and Mods; Mk 16 and Mods. 2.75 Inc. Rocket FFAR, service and practice; Heads Mk 1 and Mods (General Purpose); Mk 5 and Mods (HEAT); Motors Mk 1 and Mods; Mk 2 and Mods; Mk 3 and Mods. 5 In. Rocket HVAR, service and practice; Heads Mk 2 and Mods (Common) Mk 6 and Mods (GP); Mk 4 and Mods (smoke) Mk 25 and Mods (ATAR); Motors Mk 10 and Mods. 5 In. Rocket FFAR service and practice; Heads Mk 24 and Mods (General Purpose); Mk 32 and Mods (Shaped Charged); Mk 26 and Mods (illum); Motors Mk 16 and Mods. Excludes: Rockets included under above assignment to the Army.
1390 P	Fuzes and primers	Includes: Fuzes and Primers for Navy assigned ammunition and V.T. fuzes, rotating type, only.
4925 P [7]	Ammunition maintenance and repair shop specialized equipment.	Includes: Sets, kits, and outfits of explosive Ordnance tools and equipment as defined in OPNAV 8027.1B, AR 755–1300–6; AFR 136–8 and further, as described in Ord Pamphlet 1851(C) and other similar documents of other services. Excludes: All others not included above.
8140 P	Ammunition boxes, packages, and special containers.	Includes: Boxes, packages and containers for 40-mm ammunition, only.

§ 5.1201–3 Department of the Air Force.

Federal supply class code	Commodity	Content
	ELECTRICAL AND ELECTRONIC COMPONENTS	
5960 P	Electron tubes, transistors, and rectifying crystals.	Includes: Only gas filled or evacuated electronic tubes which a common coordinated specification as set forth in MIL–E/1D and which are common to two or more Military Departments.
	ELECTRONIC EQUIPMENT [1] FIRE FIGHTING, RESCUE AND SAFETY EQUIPMENT (AIRPORT)	
2320 P	Trucks and truck-tractors	Includes: Airport crash rescue vehicles only.
2330 P	Trailers	Includes: Airport crash rescue trailer units only.
4210 P	Fire fighting equipment	Includes: Airport crash fire fighting vehicles only.

Federal supply class code	Commodity	Content
	LIGHTING FIXTURES, AIRPORT	
6210 P	Indoor and outdoor electric lighting fixtures.	Includes: Fixtures for airport lighting, alarm and signal systems only.
	PHOTOGRAPHIC EQUIPMENT [15]	
6710 P	Cameras, motion picture	Excludes: Submarine periscope and underwater cameras.
6720 P	Cameras, still picture	Excludes: Submarine periscope and underwater cameras.
6730 P	Photographic projection equipment	Excludes: 35 mm theatre projectors.
6740	Photographic developing and finishing equipment.	
6750 P	Photographic supplies	Excludes: Photoflash lamps, which are mandatory for purchase under the provisions of Federal Supply Schedule Class 62, Part II, Electric Lamps.
6760	Photographic equipment and accessories.	
6780	Photographic sets, kits, and outfits	

[1] The implementing procedure for this DOD Procurement Assignment also covers selected mechanical smoke generators, which are classified under FSC Class 1040 Chemical Weapons and Equipment. The entire FSC Class 1040 is under DOD Procurement Assignment to the Department of the Army.

[2] Each Department is assigned procurement responsibility for those items which the Department either designed or sponsored development, as listed in JANAP 140 and Supplemental Departmental Listings.

[3] This listing has been modified to reflect the addition of selected paper cutlery and flatware and paper tableware formerly included in the Paper and Paper Products assignment.

[4] Navy and Marine Corps requirements for Box, Crate, and Package Shook are excluded from this assignment.

[5] The following items in FSC 6645 are not assigned: chronographs; clocks, job recorder; job recording devices, racks, timecard; recorders, payroll time; recorders, time; recorders, watch movement; stamps, time; stations, watchmen's clock; time recorders; and time stamps.

[6] For purposes of procurement, Naval Ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance procured from the Army).

[7] Requirements of commercial tires and tubes, when the item to be procured is less than $10,000 per line item (for tires costing less than $1,000 per tire) or when the item to be procured is less than $25,000 per line item (for tires costing $1,000 or more per tire), shall be purchased in accordance with the mandatory provisions of Federal Supply Class 26 Part II, Tires and Tubes, Pneumatic (except aircraft). These mandatory provisions do not apply to Military tires and tubes over the above specified dollar amounts in accordance with the procedures implementing this DOD procurement assignment. This DOD procurement assignment does not include FSC Class 2620, Tires and Tubes, Pneumatic, Aircraft. These items are mandatory for purchase in accordance with the provisions of Federal Supply Class 26—Part I, Tires and Tubes, Pneumatic, Aircraft.

[8] The Department of the Army portion of this DOD procurement assignment is covered by two sets of implementing procedures. One set covers items under the cognizance of the Army Ordnance Corps and the other covers items under the cognizance of the Army Chemical Corps.

[9] Mechanical smoke generators included in this FSC Class are covered in the implementing procedures for Chemical Warfare Equipment and Supplies.

[10] Army responsible for loading, assembling and packing toxicological smoke and incendiary shells.

[11] The implementing procedures for this DOD Procurement Assignment also cover airborne and shipborne pneumatic lifeboats, which are classified under FSC Class 1940—Small Craft. The entire FSC Class 1940 is under DOD Procurement Assignment to the Department of the Navy.

[12] Airborne and shipborne pneumatic lifeboats included in this FSC Class are covered in the implementing procedures for Lifesaving Equipment, Marine.

[13] Army responsible for loading, assembling and packing toxicological, smoke, and incendiary shells. Loading, assembling, and packing in excess of Navy owned capacity to be done by Army.

[14] Filler and filling of all smoke and toxicological rockets are assigned to the Army.

[15] Excludes photographic equipment controlled by the Congressional Joint Committee on Printing and Micro-Film Equipment and Supplies.

PART 6—FOREIGN PURCHASES

Sec.
6.000 Scope of part.

Subpart A—Buy American Act—Supply and Service Contracts

6.100 Scope of subpart.
6.101 Definitions.
6.102 Statutory requirements.
6.103 Exceptions.
6.103–1 Use outside the United States.
6.103–2 Nonavailability in the United States.
6.103–3 Unreasonable cost or inconsistency with the public interest.
6.103–4 Scrap.
6.103–5 Canadian supplies.
6.103–6 Panamanian supplies for use in the Canal Zone.
6.104 Procedures.
6.104–1 Applicability.
6.104–2 Solicitation of bids and proposals.
6.104–3 Certificate.
6.104–4 Evaluation of bids and proposals.
6.104–5 Contract clause.
6.104–6 Contract administration.
6.105 List of excepted articles, materials, and supplies.

Subpart B—Buy American Act—Construction Contracts

6.200 Scope of subpart.
6.201 Definitions.
6.201–1 Construction.
6.201–2 Construction materials.
6.201–3 Components.
6.201–4 United States.
6.201–5 Domestic construction material.
6.201–6 Nondomestic construction material.
6.202 Statutory requirements.
6.203 Exceptions.
6.203–1 Nonavailability in the United States.
6.203–2 Unreasonable costs or impracticability.
6.203–3 Panamanian materials for use in the Canal Zone.
6.204 Procedures.
6.204–1 Applicability.
6.204–2 Solicitation of bids and proposals.
6.204–3 Evaluation of bids and proposals.
6.204–4 Contract listing of excepted nondomestic construction materials.
6.204–5 Contract clause.
6.204–6 Canal Zone contracts.
6.205 Penalty for violation.
6.206 List of excepted articles, materials, and supplies.

Subpart C—Appropriation Act Restrictions on Procurement of Foreign Supplies

6.300 Scope of subpart.
6.301 Definition.
6.302 Restriction.
6.303 Exceptions.
6.304 Procedures.
6.304–1 Procurement of food, clothing, spun silk yarn for cartridge cloth, or items containing mohair or cotton.
6.304–2 Procurement of items containing wool (except mohair).
6.305 Contract clause.

Subpart D—Purchases From Soviet-Controlled Areas

6.401 Restrictions.
6.401–1 General policy.
6.401–2 Soviet-controlled areas.
6.401–3 Certain supplies of foreign origin.
6.401–4 Certain supplies from Hong Kong, Macao, and Soviet-controlled areas.
6.401–5 Supplies from North Korea or China.
6.402 Exceptions.
6.403 Contract clause.

Subpart E—Canadian Purchases

6.501 Purchases from Canadian suppliers.
6.502 Guarantee by Canadian Government.
6.503 Agreement with Department of Defence Production (Canada).
6.504 Mutual Canadian-American interests.

Subpart F—Duty and Customs

6.601 Customs duties on foreign purchases.
6.602 Emergency purchases of war material abroad.
6.602–1 General.
6.602–2 War materials.
6.602–3 Emergency purchases.
6.602–4 Use of duty-free entry certificates.
6.602–5 Limitations.
6.602–6 Duty-free entry certificate.
6.603 Supplies for vessels or aircraft operated by the United States.
6.604 Customs duties and drawbacks.
6.605 Duty-free entry of listed Canadian supplies.
6.605–1 Policy.
6.605–2 Contract clause.
6.605–3 Listed supplies for unlisted end items.
6.605–4 Amending existing contracts.

Subpart G—Mutual Security Act Procurements

6.701 Exemption from examination of records requirement.
6.701–1 General.
6.701–2 Contracts with foreign governments.
6.701–3 Contracts with other foreign contractors.

AUTHORITY: §§ 6.000 to 6.701–3 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 6.000 Scope of part.

This part deals with (a) restrictions upon the procurement, or the use in construction, of supplies originating in foreign countries, (b) purchases from Soviet-controlled countries or areas, (c) purchases from Canadian sources, (d) duty and customs, and (e) certain Mutual Security Act procurements.

Subpart A—Buy American Act—Supply and Service Contracts

§ 6.100 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10a-d) and the policies set forth in Executive Order 10582, dated 17 December 1954, with respect to supply and service contracts.

§ 6.101 Definitions.

As used in this subpart, the following terms have the meanings set forth below.

(a) "End products" means articles, materials, and supplies, which are to be acquired for public use. As to a given contract, the end products are the items to be delivered to the Government, as specified in the contract, including supplies to be acquired by the Government for public use in connection with service contracts.

(b) "Components" means those articles, materials, and supplies, which are directly incorporated in end products.

(c) "United States" means the States, the District of Columbia, Puerto Rico, American Samoa, the Canal Zone, the Virgin Islands, Guam, and any other areas subject to the complete sovereignty of the United States.

(d) "Domestic source end product" means an unmanufactured end product which has been mined or produced in the United States, or an end product manufactured in the United States if the cost of its components which are mined, produced, or manufactured in the United States exceeds 50% of the cost of all its components. A component shall be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind (1) determined by the Government to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, or (2) as to which the Secretary concerned has determined that it would be inconsistent with the public interest to apply the restrictions of the act.

(e) "Canadian end product" means an unmanufactured end product mined or produced in Canada, or an end product manufactured in Canada if the cost of its components which are mined, produced, or manufactured in Canada or the United States exceeds 50 percent of the cost of all its components.

(f) "Foreign end product" means an end product other than a domestic source end product.

(g) "Domestic bid" means a bid or offered price for a domestic source end product, including transportation to destination.

(h) "Foreign bid" means a bid or offered price for a foreign end product, including transportation to destination and duty (whether or not a duty-free entry certificate may be issued).

§ 6.102 Statutory requirements.

Except as provided in § 6.103, the Buy American Act requires that in the procurement of supplies and services, only domestic source end products shall be acquired for public use. In determining whether an end product is a domestic source end product, only the end product and its components shall be considered.

§ 6.103 Exceptions.

§ 6.103–1 Use outside the United States.

The restrictions of the Buy American Act do not apply to articles, materials, or supplies for use outside the United States.

§ 6.103–2 Nonavailability in the United States.

The Buy American Act does not apply to articles, materials, or supplies of a class or kind which the Government has determined are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality. See § 6.105.

§ 6.103–3 Unreasonable cost or inconsistency with the public interest.

The restrictions of the Buy American Act do not apply when it is determined by the Secretary concerned that the cost of a domestic source end product would be unreasonable or that its acquisition would be inconsistent with the public interest. Such determinations shall be made in accordance with § 6.104–4.

§ 6.103–4 Scrap.

Scrap generated in, collected in, and prepared for processing in the United States shall be considered as of domestic origin.

§ 6.103–5 Canadian supplies.

(a) *Listed.* The Secretaries of the Departments have determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act with respect to certain supplies, which have been determined to be of a military character or involved in programs of mutual interest to the United States and Canada, where such supplies are mined, produced, or manufactured in Canada and either (1) are Canadian end products or (2) are incorporated in end products manufactured in the United States. Each Department maintains a list of these supplies, which is approved by the Secretary concerned. (The Departmental lists provide that end equipment parts for listed supplies are considered to be included in the lists, even though not separately listed, when they are procured under a contract that also calls for listed supplies.)

(b) *Not listed.* The Secretaries of the Departments have also determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act (1) to the acquisition of any unlisted Canadian end product that is offered by a bid or proposal which is the lowest acceptable bid or proposal after any applicable duty (whether or not a duty-free entry certificate may be issued) is included for evaluation purposes, and (2) with respect to any supplies mined, produced, or manufactured in Canada that are incorporated in end products manufactured in the United States.

(c) *Application of Canadian exception.* The effect of paragraphs (a) and (b) of this section may be summarized as follows:

(1) As to any end product that is manufactured in the United States, all Canadian components are treated as components mined, produced, or manufactured in the United States for the purpose of determining whether the end product is a domestic source end product.

(2) Listed Canadian end products are treated as domestic source end products and neither duty nor the evaluation factors prescribed by § 6.104–4 shall be used for evaluation.

(3) Unlisted Canadian end products are evaluated by including any applicable duty, whether or not a duty-free entry certificate may be issued.

(d) *Limitations.* The above exceptions from the provisions of the Buy American Act which are applicable solely with respect to Canadian supplies, and the special procedures relating thereto which are set forth in this subpart, do not apply to, or affect determinations made with respect to (1) items contained in the list set forth in § 6.105 or (2) the purchase of supplies for civil works acquired with funds appropriated for Civil Functions, Department of the Army.

§ 6.103–6 Panamanian supplies for use in the Canal Zone.

In accordance with the Memorandum of Understandings ancillary to the Treaty with the Republic of Panama signed January 25, 1955, the Secretaries have determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act to articles, materials, or supplies that are mined, produced, or manufactured in Panama and are purchased for use in the Canal Zone.

§ 6.104 Procedures.

§ 6.104–1 Applicability.

The following procedures apply to all contracts involving the procurement of supplies except contracts exclusively for articles, materials, or supplies, for use outside the United States (but see § 6.103–5(a)).

§ 6.104–2 Solicitation of bids and proposals.

Invitations for Bids and Requests for Proposals shall state that specific information as to articles, materials, and supplies excepted from the Buy American Act (see § 6.105) is available to prospective contractors upon request.

§ 6.104–3 Certificate.

Invitations for Bids and Requests for Proposals shall require that each bid or proposal include a certificate substantially as follows:

BUY AMERICAN CERTIFICATE

The bidder or offeror hereby certifies that each end product, except the end products

excluded below, is a domestic source end product (as defined in the contract clause entitled Buy American Act); and that components of unknown origin have been considered to have been mined, produced, or manufactured outside the United States.

Excluded items: ----------

§ 6.104–4 Evaluation of bids and proposals.

(a) In accordance with the Buy American Act, the Secretaries of the Departments have determined that where the following procedures result in the acquisition of foreign end products, the acquisition of domestic source end products would be (1) unreasonable in cost or (2) inconsistent with the public interest (see §§ 6.103–3 and 6.103–5).

(b) Except as provided in paragraph (d) of this section, bids and proposals shall be evaluated so as to give preference to domestic bids. For the purpose of evaluation, a factor of 6 percent of each foreign bid (which does not offer a Canadian end product) shall be added to that foreign bid, except that where the firm submitting the low acceptable domestic bid is a small business concern, or a labor surplus area concern, or both—

(1) The proposed award shall be submitted to the Secretary if required pursuant to paragraph (c) of this section, or

(2) If not required to be submitted under paragraph (c) of this section then a factor of 12 percent (in lieu of the 6 percent factor) of each such foreign bid shall be added to that foreign bid, except that where small purchase procedures (see Part 3, Subpart F of this Subchapter) are used the 6 percent factor shall apply.

Except for those cases forwarded to the Secretary pursuant to paragraph (c) of this section, award shall be made to the low acceptable bidder. When more than one line item is offered in response to an invitation for bids or request for proposals, the appropriate factor shall be applied on an item-by-item basis, except that the factor may be applied to any group of items as to which the invitation for bids or request for proposals specifically provides that award may be made on a particular group of items.

(c)(1) Notwithstanding that the low acceptable bid or proposal as to any item or group of items under paragraph (b) of this section may be a foreign bid, proposed awards shall be submitted, in accordance with Departmental procedures, to the Secretary concerned for decision where all acceptable domestic bids exceed the low acceptable foreign bid plus 6 percent (determined in accordance with paragraph (b) of this section) and the sum of any low acceptable domestic bid from any single (i) small business concern or (ii) labor surplus area concerned, exceeds $100,000: *Provided,* That this subparagraph shall not apply where the low foreign bid offers a Canadian end product.

(2) Proposed awards shall be submitted, in accordance with Departmental procedures, to the Secretary concerned for decision where:

(i) Rejection of an acceptable low foreign bid is considered necessary to protect essential national security interests, such as maintenance of a mobilization base; or

(ii) Rejection of any bid or proposal for other reasons of the national interest is considered necessary.

Prior to final action, cases within this subparagraph (2) shall be referred by the Secretary concerned to the Assistant Secretary of Defense (Supply and Logistics).

(d)(1) Bids offering Canadian end products on the lists described in § 6.103–5(a) shall be evaluated on a parity with domestic bids, i.e., neither a price differential nor duty shall be added.

(2) Bids offering Canadian end products of the type described in § 6.103–5(b) shall be evaluated on a parity with domestic bids (whether or not a duty-free entry certificate may be issued) except that any applicable duty shall be added.

§ 6.104–5 Contract clause.

The clause set forth below shall be inserted in all contracts for supplies and, when applicable, in contracts for services; except that it need not be inserted in contracts exclusively for articles, materials, or supplies for use outside the United States.

BUY AMERICAN ACT (JULY 1960)

(a) In acquiring end products, the Buy American Act (41 U.S.C. 10a–d) provides that the Government give preference to domestic source end products. For the purpose of this clause:

(i) "components" means those articles, materials, and supplies, which are directly incorporated in the end products;

(ii) "end products" means those articles, materials, and supplies, which are to be acquired under this contract for public use; and

(iii) a "domestic source end product" means (A) an unmanufactured end product which has been mined or produced in the United States and (B) an end product manufactured in the United States if the cost of the components thereof which are mined, produced, or manufactured in the United States or Canada exceeds 50 percent of the cost of all its components. For the purposes of this (a)(iii)(B), components of foreign origin of the same type or kind as the products referred to in (b)(ii) or (iii) of this clause shall be treated as components mined, produced, or manufactured in the United States.

(b) The Contractor agrees that there will be delivered under this contract only domestic source end products, except end products:

(i) which are for use outside the United States;

(ii) which the Government determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality;

(iii) as to which the Secretary determines the domestic preference to be inconsistent with the public interest; or

(iv) as to which the Secretary determines the cost to the Government to be unreasonable.

(The foregoing requirements are administered in accordance with Executive Order No. 10582, dated December 17, 1954.)

In contracts for civil works acquired with funds appropriated for Civil Functions, Department of the Army, delete the words "or Canada" in paragraph (a)(iii)(B) of the clause in this section.

§ 6.104–6 Contract administration.

In appropriate cases, the contracting officer should advise the contractor of the effect of exceptions to the Buy American Act on the contractor's obligations under the clause required by § 6.104–5. For example, in furtherance of mutual Canadian-American interests as described in § 6.504, the contracting officer may advise the contractor that all components of Canadian manufacture will be treated as manufactured in the United States for purposes of the Buy American Act clause.

§ 6.105 List of excepted articles, materials, and supplies.

Pursuant to the Buy American Act and §§ 6.103–2 and 6.103–3, the Secretaries have determined that the articles, materials, and supplies listed below may be acquired for public use without regard to country of origin, except as provided in Subpart D of this part. Additional determinations pursuant to 6.103–2 covering individual procurements may be made in accordance with Departmental procedures.

List of Excepted Articles, Materials, and Supplies

Acetylene, black.
Agar, bulk.
Antimony, as metal or oxide.
Asbestos, amosite.
Bananas.
Beef extract.
Bismuth.
Books, trade, text, technical or scientific; newspapers; magazines; periodicals; printed briefs and films; not printed in the United States and for which domestic editions are not available.
Brazil nuts.
Cadmium, ores and flue dust.
Calcium cyanamide.
Capers.
Cashew nuts.
Castor beans.
Chalk, English.
Chicle.
Chrome ore or chromite.
Cinchona bark.
Cobalt, in cathodes, rondelles, or other primary forms.
Cocoa beans.
Coconut and coconut meat in shredded, desiccated or similarly prepared form.
Coffee, raw or green bean.
Copra.
Cork, wood or bark and waste.
Damar gum.
Diamonds, industrial.
Emetine, bulk.
Ergot, crude.
Fiber, coir, abaca, and agave.
Goat and kid skins.
Graphite, natural, crystalline, crucible grade.
Hog bristles for brushes.
Hyoscine, bulk.
Iodine, crude.
Ipecac, root.
Jute and jute burlaps.
Kaurigum.
Lac.
Logs, veneer, and lumber from Alaskan yellow cedar, angelique, balsa, ekki, greenheart, lignum vitae, mahogany, and teak.
Menthol, natural, bulk.
Mica.
Nickel, primary, in ingots, pigs, shot, cathodes, or similar forms; nickel oxide and nickel salts.
Nitroguanidine (also known as picrite).
Nux vomica, crude.
Oiticica oil.
Olive oil.
Olives, green; plain (unpitted) and stuffed, bulk.
Opium, crude.
*Petroleum, crude oil; petroleum, finished products; and petroleum, unfinished oils.
Platinum and platinum group metals refined, as sponge, powder, ingots, or cast bars.
Pyrethrum flowers.
Quartz crystals.
Quebracho.
Quinidine.
Radium salts.
Rubber, crude and latex.
Rutile.
Santonin, crude.
Shellac.
Silk, unmanufactured.
Sperm oil.
Spices and herbs.
Talc, block, steatite.
Tapioca, tapioca flour and cassava.
Tartar, crude, tartaric acid and cream of tartar.
Tea.
Tin, in bars, blocks, and pigs.
Vanilla beans.
Wax, carnauba.

Subpart B—Buy American Act—Construction Contracts

§ 6.200 Scope of subpart.

This subpart implements the Buy American Act (41 U.S. Code 10 a–d) and the policies set forth in Executive Order 10582, dated 17 December 1954, with respect to construction contracts.

§ 6.201 Definitions.

As used in this subpart, the following terms have the meanings set forth below.

§ 6.201–1 Construction.

"Construction" means construction, alteration, or repair of any public building or public work in the United States.

§ 6.201–2 Construction materials.

"Construction materials" means articles, materials, and supplies, which are brought to the construction site for incorporation in the building or work.

§ 6.201–3 Components.

"Components" means those articles, materials, and supplies, which are directly incorporated in construction materials.

§ 6.201–4 United States.

United States means the States, the District of Columbia, Puerto Rico, American Samoa, the Canal Zone, the Virgin Islands, Guam, and any other areas subject to the complete sovereignty of the United States.

§ 6.201–5 Domestic construction material.

"Domestic construction material" means an unmanufactured construction material which has been mined or produced in the United States, or a manufactured construction material which has been manufactured in the United States if the cost of its components which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. A component shall be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the construction material in which it is incorporated is manufactured in the United States and the component is of a class or kind determined by the Department concerned to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

§ 6.201–6 Nondomestic construction material.

"Nondomestic construction material" means a construction material other than a domestic construction material.

§ 6.202 Statutory requirements.

Except as provided in § 6.203, the Buy American Act requires that in the performance of contracts for construction, only domestic construction materials shall be used. In determining whether a construction material is a domestic construction material, only the construction material and its components shall be considered.

§ 6.203 Exceptions.

§ 6.203–1 Nonavailability in the United States.

The Buy American Act does not apply to articles, materials, or supplies of a class or kind which the Department concerned has determined are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality. See § 6.206.

§ 6.203–2 Unreasonable costs or impracticability.

The restrictions of the Buy American Act do not apply when it is determined by the Secretary concerned that the use of a particular domestic construction material would (a) unreasonably increase the cost, or (b) be impracticable. Such determinations shall be made in accordance with § 6.204–3.

§ 6.203–3 Panamanian materials for use in the Canal Zone.

In accordance with the Memorandum of Understandings ancillary to the Treaty with the Republic of Panama signed January 25, 1955, articles, materials, and supplies that are mined, produced, or manufactured in Panama and are purchased for use in the Canal Zone are excepted from the Buy American Act.

§ 6.204 Procedures.

§ 6.204–1 Applicability.

The following procedures apply to all contracts for construction in the United States only.

§ 6.204–2 Solicitation of bids and proposals.

Invitations for Bids and Requests for Proposals for construction shall include the following provision:

INFORMATION REGARDING BUY AMERICAN ACT

(a) Pursuant to the Buy American Act (41 U.S. Code 10 a–d), it is generally required that only domestic construction materials will be used in the performance of the contract. See clause ---- of the General Provisions, entitled Buy American Act. This requirement does not apply to construction materials, or their components, included either in the list set forth in 6.206 of this Regulation or set forth below:

(Insert list here.)

(b) Additional exceptions are permitted if the Government determines as to particular construction materials that the requirement would be impracticable or would unreasonably increase the cost. Therefore, bids or proposals proposing the use of nondomestic construction materials (other than those referred to in paragraph (a) above) may be eligible for award if such nondomestic construction materials are specifically designated in the bid or proposal and if accompanied by data demonstrating that, as to each such designated nondomestic construction material, use of any corresponding domestic construction material would be impracticable or would unreasonably increase the cost. If the Government determines that an exception from the Buy American Act should be made, an exception for the particular construction materials designated will be noted in the contract and the findings which justified the exception may be inspected upon request.

(c) To show that the use of a particular domestic construction material would unreasonably increase the cost, accompanying data must show that the cost of any available acceptable domestic construction material, delivered at the construction site, would exceed by more than six percent (6 percent) the cost of the designated nondomestic construction material delivered at the construction site (including any applicable duty). The accompanying data shall reflect a thorough canvass of dealers and suppliers handling the construction materials involved.

§ 6.204–3 Evaluation of bids and proposals.

(a) *Determinations.* In accordance with the Buy American Act, the Secre-

*Petroleum definitions, as used in this Subpart. (a) Crude oil means crude petroleum as it is produced at the wellhead;

(b) Finished products means any one or more of the following petroleum oils, or a mixture or combination of such oils, which are to be used without further processing except blending by mechanical means:

(i) Liquefied gases—hydrocarbon gases recovered from natural gas or produced from petroleum refining and kept under pressure to maintain a liquid state at ambient temperatures;

(ii) Gasoline—a refined petroleum distillate which by its composition, is suitable for use as a carburant in internal combustion engines;

(iii) Jet fuel—a refined petroleum distillate used to fuel jet propulsion engines;

(iv) Naphtha—a refined petroleum distillate falling within a distillation range overlapping the higher gasoline and the lower kerosenes;

(v) Fuel oil—a liquid or liquefied petroleum product burned for lighting or for the generation of heat or power and derived directly or indirectly from crude oil, such as kerosene, range oil, distillate fuel oils, gas oil, diesel fuel, topped crude oil, residues;

(vi) Lubricating oil—a refined petroleum distillate or specially treated petroleum residue used to lessen friction between surfaces;

(vii) Residual fuel oil—a topped crude oil or viscous residuum which, as obtained in refining or after blending with other fuel oil, meets or is the equivalent of Military Specification Mil–F–859 for Navy Special Fuel Oil and any other more viscous fuel oil, such as No. 5 or Bunker C;

(viii) Asphalt—a solid or semi-solid cementitious material which gradually liquefies when heated, in which the predominating constituents are bitumins, and which is obtained in refining crude oil.

(c) Unfinished oils means one or more of the petroleum oils listed in (b) above, or a mixture or combination of such oils, which are to be further processed other than by blending by mechanical means.

taries have determined that where the procedures set forth in paragraph (b) of this section result in the use of nondomestic construction materials, the use of domestic construction materials would unreasonably increase the cost. (See § 6.203–2.)

(b) *Unreasonable cost.* If a bid or proposal is submitted in accordance with paragraph (b) of the provision set forth in § 6.204–2 and if such bid or proposal would be the low acceptable bid or proposal but for the Buy American Act, award will be made on such bid or proposal if all the following conditions are satisfied:

(1) The bid or proposal specifically designates the nondomestic construction materials (not listed as exceptions in the Invitation for Bids or Request for Proposals) proposed for use;

(2) As to each such nondomestic construction material, accompanying data show that the cost of any available acceptable domestic construction material, delivered at the construction site, would exceed by more than 6 percent the cost of the designated nondomestic construction material delivered at the construction site (including any applicable duty);

(3) As to each such nondomestic construction material, the contracting officer is satisfied that the showing required by subparagraph (2) of this paragraph is correct as of the date of the opening of bids or proposals; and

(4) The lowest acceptable bid or proposal using only domestic construction materials and construction materials excepted in § 6.206 or in the Invitation for Bids or Request for Proposals exceeds the bid or proposal designating nondomestic construction materials by more than 6 percent of the aggregate cost of the designated nondomestic construction materials delivered at the construction site (including any applicable duty).

(c) *Impracticability.* If a bid or proposal is submitted in accordance with paragraph (b) of the provisions set forth in § 6.204–2 and if such bid or proposal would be the low acceptable bid or proposal but for the Buy American Act, the proposed award shall be submitted, in accordance with Departmental procedures, to the Secretary concerned for decision, if the following conditions obtain:

(1) The bid or proposal specifically designates the nondomestic construction materials (not listed as exceptions in the Invitation for Bids or Request for Proposals) proposed for use; and

(2) As to each such nondomestic construction material, accompanying data show that it would be impracticable to use domestic construction materials.

§ 6.204–4 Contract listing of excepted nondomestic construction materials.

(a) The clause set forth below shall be included in all contracts for construction, and any articles, materials, and supplies which have been the subject of additional determinations pursuant to § 6.206 shall be listed thereunder.

NONDOMESTIC CONSTRUCTION MATERIALS

The requirements of the clause of this contract entitled Buy American Act do not apply to construction materials or their components either included in the list set forth in § 6.206 of 32 CFR or as set forth below:

(Insert list here.)

* * * * *

(b) If a contract is for award under § 6.204–3 and the use of designated nondomestic construction materials is to be permitted, the designated nondomestic construction materials shall be listed under the clause required by paragraph (a) of this section. As to each such nondomestic construction material, the contracting officer shall place in the contract file (1) a copy of the data and justification in the case of an exception under § 6.204–3 (b), or (2) a copy of the Secretarial finding of impracticability in the case of an exception under § 6.204–3 (c), and copies thereof will be available for public inspection.

§ 6.204–5 Contract clause.

The clause set forth below shall be inserted in all contracts for construction.

BUY AMERICAN ACT

(a) The Buy American Act (41 U. S. Code 10 a–d) provides that the Government give preference to construction materials which have been mined, produced, or manufactured in the United States. For the purpose of this clause:

(i) the term "construction materials" means articles, materials, and supplies, which are brought to the construction site for incorporation in the building or work;

(ii) the term "components" means those articles, materials, and supplies, which are directly incorporated in construction materials; and

(iii) the term "domestic construction material" means an unmanufactured construction material which has been mined or produced in the United States, or a manufactured construction material which has been manufactured in the United States if the cost of its components which are mined, produced, or manufactured in the United States exceeds fifty percent (50%) of the cost of all its components. A component shall be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the construction material in which it is incorporated is manufactured in the United States and the component is of a class or kind determined by the Government to be not mined, produced or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(b) The Contractor agrees that there will be used in the performance of this contract only domestic construction materials, except as to particular construction materials which the Government has determined are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, or which are noted in the clause of this contract entitled Nondomestic Construction Materials as being excepted from the Buy American Act.

§ 6.204–6 Canal Zone contracts.

In accordance with § 6.203–3, with respect to contracts for construction in the Canal Zone, the following will be inserted in (a) the space providing for listing excepted supplies following paragraph (a) of the provision in § 6.204–2 and (b) the space following the clause in § 6.204–4:

Panamanian Materials. Any construction material or component that is mined, produced, or manufactured in the Republic of Panama. (Any such component shall be considered to be a United States component for the purpose of the "Buy American Act" clause.) (JUL. 1960)

§ 6.205 Penalty for violation.

If the Secretary concerned finds that in the performance of a construction contract there has been a failure to comply with the clause required by § 6.204–5, he shall make public his findings, including therein the name of the contractor obligated under the contract, and no other contract for construction in the United States or elsewhere shall be awarded to such contractor, or to subcontractors, materialmen, or suppliers with which such contractor is associated or affiliated, within a period of three years after such finding is made public. (See Part 1, subpart F of this chapter.)

§ 6.206 List of excepted articles, materials, and supplies.

Pursuant to the Buy American Act and § 6.203–1, the Secretaries have determined that the articles, materials, and supplies listed below may be used in construction without regard to country of origin, except as provided in Subpart D of this part. Additional determinations pursuant to § 6.203 covering individual contracts for construction may be made in accordance with Departmental procedures.

Antimony, as metal or oxide.
Asbestos, amosite.
Bismuth.
Cadmium, ores and flue dust.
Chalk, English.
Chrome ore or chromite.
Cobalt, in cathodes, rondelles, or other primary forms.
Cork, wood or bark and waste.
Damar gum.
Graphite, natural, crystalline, crucible grade.
Jute and jute burlaps.
Kaurigum.
Lac.
Logs, veneer, and lumber from Alaskan yellow cedar, angelique, balsa, ekki, greenheart, lignum vitae, mahogany, and teak.
Mica.
Nickel, primary, in ingots, pigs, shot, cathodes, or similar forms; nickel oxide and nickel salts.
Rubber, crude and latex.
Shellac.
Tin, in bars, blocks, and pigs.

Subpart C—Appropriation Act Restrictions on Procurement of Foreign Supplies

§ 6.300 Scope of subpart.

This subpart implements the customary Defense Appropriation Act restriction on the availability of appropriated funds for the procurement of any article of food, clothing, cotton, wool, or spun silk yarn for cartridge cloth, as it has recurred in Defense Appropriation Acts for several years. However, reference should be made to the current Department of Defense Appropriation Act as a check on the current applicability of this Part. Nothing herein shall affect the applicability of the Buy American Act (see Subparts A and B of this part).

§ 6.301 Definition.

For the purpose of this part, the term "possessions", as used in the phrase "United States or its possessions", includes Puerto Rico.

§ 6.302 Restriction.

Except as provided in § 6.303, there shall not be procured supplies consisting in whole or in part of any food, clothing, cotton, wool, or spun silk yarn for cartridge cloth, which have not been grown or produced in the United States or its possessions; but this does not restrict the procurement of cotton or wool reprocessed or reused in the United States or its possessions or of foods manufactured or processed in the United States or its possessions.

§ 6.303 Exceptions.

The restriction of § 6.302 does not apply to the following:

(a) Procurements outside the United States in support of combat operations.

(b) Procurements by vessels in foreign waters.

(c) Emergency procurements or procurements of perishable foods by establishments located outside the United States for the personnel attached thereto.

(d) Procurements of supplies listed in § 6.105.

(e) Small purchases of items containing wool or cotton in amounts not exceeding $5,000. For the purposes of this exception, a small purchase in an amount not exceeding $5,000 shall mean a procurement action involving a total dollar amount not in excess of $5,000, as distinguished from a single line item.

(f) Procurements of end items incidentally incorporating cotton, or wool, of which the estimated value is not more than 10 percent of the total price of the end item, provided that the estimated value does not exceed $10,000 or 3 percent of the total price of the end item, whichever is greater.

(g) Any articles of food or clothing or any form of cotton, spun silk yarn for cartridge cloth, or wool, as to which the Secretary concerned has determined that a satisfactory quality and sufficient quantity grown or produced in the United States, or its possessions cannot be procured as and when needed at United States market prices.

§ 6.304 Procedures.

§ 6.304–1 Procurement of food, clothing, spun silk yarn for cartridge cloth, or items containing mohair or cotton.

In general, food, clothing (not covered by § 6.304–2), spun silk yarn for cartridge cloth, or any form of mohair or cotton, will be procured only if grown, reprocessed, reused, or produced in the United States or its possessions. However, if the contracting officer finds that prices for such domestic supplies are unreasonable, he may refer the matter to the Secretary concerned for determination with respect to § 6.303(g) in accordance with Departmental procedures.

§ 6.304–2 Procurement of items containing wool (except mohair).

(a) The Secretaries have determined that to the extent that application of the procedures in this section results in the procurement of any articles of wool (except mohair) not grown, reprocessed, reused, or produced in the United States or its possessions, a satisfactory quality and sufficient quantity of such articles grown, reprocessed, reused, or produced in the United States or its possessions cannot be procured as and when needed at United States market prices.

(b) Bids and proposals for supplies of which wool is a part will be solicited on the following alternative bases:

(1) Manufactured in the United States or its possessions from domestic wool;

(2) Manufactured in the United States or its possessions from foreign wool; and

(3) Manufactured in the United States or its possessions from a blend of (percent) domestic wool and (percent) foreign wool.

(c) Each Invitation for Bids and Requests for Proposals for supplies of which wool is a component part will contain the following additional clause:

Domestic Wool Preference

(a) It is Congressional policy that, in Department of Defense procurements, preference shall be given to wool grown, reprocessed, reused, or produced in the United States, its Territories, its possessions, or Puerto Rico, to the extent that articles containing such wool can be procured as and when needed at United States market prices.

(b) If, on the date of opening of bids or evaluation of proposals, the average market price of domestic wool of usable grades (as reported by grade and type in the four issues of the Department of Agriculture "Market News" immediately preceding the date of bid opening or evaluation of proposals) is not more than 10 percent above the average of the prices (for usable grades and types) which reflect the current incentive price established by the Secretary of Agriculture, award will be made only on bids or proposals offering domestically produced articles of which the wool component is 100 percent domestic wool, provided that such bids or proposals are considered reasonable and otherwise acceptable.

(c) If, on the date of opening of bids or evaluation of proposals, the average market price of domestic wool of usable grades (as reported by grade and type in the four issues of the Department of Agriculture "Market News" immediately preceding the date of bid opening or evaluation of proposals) is more than 10 per cent above the average of the prices (for usable grades and types) which reflect the current incentive price, or to the extent that the Government's requirement cannot be filled by awards based on paragraph (b) hereof, there will be added to each bid or proposal offering articles of which the wool component is 100 per cent foreign wool an evaluation factor of $_____ per yard or per item, and there will be added to each bid or proposal offering articles of which the wool component is a blend of domestic and foreign wool that part of the evaluation factor which is in direct proportion to the percentage of foreign wool to be used, and award will be made to the low acceptable bidder.

(d) For the purposes of (b) and (c) above, the average market price of domestic wool of usable grades shall be the average market price of the representative types and grades set forth in § 6.304–2 (f) within that one of the categories therein set forth which includes wool which would meet the specifications, and the average of the prices which reflect the current incentive price established by the Secretary of Agriculture shall be the average of the prices set forth in § 6.304–2 (f) for that category.

(e) While bids or proposals offering articles using foreign wool may be considered and evaluated, as stated above, all stages of manufacturing of wool (whether foreign or domestic) must be performed in the United States, its Territories, its possessions, or Puerto Rico, as required by the contract clause entitled "Preference for Certain Domestic Commodities." This requirement is satisfied as to wool noils, reprocessed or reused wool if the reprocessing (i. e., garnetting or combing) and ensuing manufacture is performed in the United States, its Territories, possessions, or Puerto Rico.

(f) The Secretary has determined that, to the extent that any foreign wool is used under an award made pursuant to paragraph (c) hereof, a satisfactory quality and sufficient quantity of domestic wool cannot be procured as and when needed at United States market prices.

The evaluation factor will be computed in accordance with paragraph (f) of this section, and the amount of the factor will be inserted in place of the blank in paragraph (c) of the above clause.

(d) If, on the date of opening of bids or evaluation of proposals, the average market price of domestic wool of usable grades is not more than 10 percent above the average of the prices of representative types and grades of domestic wools in the wool category which includes the wool required by the specifications (see paragraph (f) of this section), which prices reflect the current incentive price as established by the Secretary of Agriculture, and if reasonable bids or proposals have been received for the advertised quantity offering 100 percent domestic wools, the contract will be awarded for domestically produced articles using 100 percent domestic wools and the procedure set forth in paragraphs (e) and (f) of this section will be disregarded.

(e) In the evaluation of bids and proposals under this subpart, an evaluation factor computed in accordance with paragraph (f) of this section will be added to that portion of the offered price which represents foreign wool to be furnished or used in performance of the contract, and award will be made accordingly. In the event that tie bids or proposals result from such evaluation, award will be made to the offeror proposing to furnish or use the most domestic wool.

(f) The evaluation factor to be used under paragraph (e) of this section will be 10 percent of the average of the following prices of representative types and grades of domestic wools within that one of the following categories which includes the wool required by the specifications. (The following prices reflect the current incentive price of 62 cents per pound grease basis converted to grade and type clean basis.)

Representative Type and Grade	Price, clean basis (per pound)
GROUP 1—GRADES 60'S AND FINER	
Category 1—Staple, Average and Good French Combing (worsted type)	
The average of the following grades:	
Territory original bag wool, average and good French combing, 64's and finer	$1.7748
Graded territory and Texas wool, staple and good French combing, one-half blood, 60's/62's	1.6946
Graded Fleece Wool:	
Staple and good French combing, 64's and finer	1.7862
Staple and good French combing, one-half blood, 60's/62's	1.6259
Category 2—Short, Average and Good French Combing and Clothing (woolen type)	
The average of the following grades:	
Territory original bag wool, short, French combing and clothing, fine (64's, not to exceed 15 percent of 60's/62's)	1.5801
Graded territory and Texas wool, average and good French combing, one-half blood, 60's/62's	1.6145
Graded Fleece Wool:	
Average and good French combing, 64's and finer	$1.7061
Average and good French combing, one-half blood, 60's/62's	1.5343
GROUP 2—GRADES 50'S–60'S	
Category 3—Staple and Good French Combing (worsted)	
The average of the following grades:	
Graded territory and Texas wools:	
Staple and good French combing, three-eighths blood, 56's/58's	1.4656
Staple and good French combing, 50's/48's, one-quarter blood	1.3397
The average of the following grades:	
Graded Fleece Wool:	
Staple and good French combing, three-eighths blood, 56's/58's	1.3626
Staple and good French combing, 50's/48's, one-quarter blood	1.2710
Category 4—Average French Combing (woolen type)	
The average of the following grades:	
Graded Territory and Texas Wool:	
Average French combing, three-eighths blood, 56's/58's	1.3053
Average French combing, 50's/48's, one-quarter blood	1.2023
Graded Fleece Wool:	
Average French combing, three-eighths blood, 56's/58's	1.2137
Average French combing, 50's/48's, one-quarter blood	1.0878
GROUP 3—GRADES BELOW 50'S	
Category 5—Staple and Good French	
The average of the following grades:	
Graded Fleece Wool:	
Low one-quarter blood, 46's, 4 inches or more in length	1.1565
Common and braid, 44's/36's, 5 inches or more in length	1.0763

§ 6.305 Contract clause.

In accordance with the requirements of § 6.302, the clause set forth below shall be inserted in all contracts for supplies and when applicable, in contracts for services.

Preference for Certain Domestic Commodities

The Contractor agrees that there will be delivered under this contract only such articles of food, clothing, cotton, spun silk yarn for cartridge cloth, or wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles) as have been grown, reprocessed, reused or produced in the United States, its Territories, its possessions, or Puerto Rico: *Provided*, That this clause shall have no effect to the extent that the Secretary has determined as to any such articles that a satisfactory quality and sufficient quantity cannot be procured as and when needed at United States market prices: *Provided further*, That nothing herein shall preclude the delivery of foods under this contract which have been manufactured or processed in the United States, its Territories, its possessions, or Puerto Rico.

Subpart D—Purchases From Soviet-Controlled Areas

§ 6.401 Restrictions.

§ 6.401–1 General policy.

It is the general policy of the Department of Defense that supplies originating from sources within Soviet-controlled areas shall not be acquired for public use, notwithstanding the provisions of any other subpart of this part, and that Government contractors and subcontractors shall not acquire for use in the performance of any Government contract or subcontract thereunder any supplies or services originating from Soviet-controlled areas.

§ 6.401–2 Soviet-controlled areas.

For the purpose of this subpart, Soviet-controlled areas are the following:

Albania.
Bulgaria.
China, excluding Taiwan (Formosa), but including Manchuria, Inner Mongolia, the provinces of Tsinghai and Sikang, Sinkiang, Tibet, the former Kwantung Leased Territory, the present Port Arthur Naval Base Area, and Liaoning Province.
Communist-controlled area of Viet Nam and Communist-controlled area of Laos.
Czechoslovakia.
East Germany (Soviet Zone of Germany and the Soviet Sector of Berlin).
Estonia.
Hungary.
Latvia.
Lithuania.
North Korea.
Outer Mongolia.
Poland and Danzig.
Rumania.
Union of Soviet Socialist Republics.

§ 6.401–3 Certain supplies of foreign origin.

The following supplies, if of foreign origin and however processed, shall be presumed to have originated from Soviet-controlled (Chinese) sources and shall not be acquired for public use unless (a) such supplies have been lawfully imported into the United States, its Territories, its possessions, or Puerto Rico, or (b) the supplies are acquired directly from the countries indicated:

Bamboo, split	None.
Braids, straw	Italy, Japan.
Bristles, hog, including such bristles in knots or other processed condition.	None.
Brushes, paint (including parts thereof), containing hog bristles, if any such bristle is more than 1½ inches in total length or more than 1¼ inches in length out of the ferrule.	None.
Eggs, poultry:	
Whole in the shell, other than chicken	None.
Whole, dried	None.
Albumen, dried	None.
Yolks, dried	None.
Floor coverings, grass and straw, including seagrass mats and squares.	Japan.
Fur skins:	
Goat and kid	Argentina, Ethiopia (including Eritrea), Iran, Iraq.
Kolinsky	Republic of Korea.
Weasel	Canada.
Garments, Chinese type	None.
Jade, stones, cut but not set and suitable for use in jewelry	None.
Menthol, natural and synthetic (other than racemic)	Brazil.
Silk, piece goods, tussah and muga	None.
Silk, tussah and muga	None.
Tea, Chinese type	Formosa.
Tung oil	Argentina, Brazil, Paraguay.
Walnuts	France, Iran, Italy, Turkey.

§ 6.401–4 Certain supplies from Hong Kong, Macao, and Soviet-controlled areas.

The following supplies, however processed, which are or were located in or transported from or through Hong Kong, Macao, or any Soviet-controlled area (see § 6.401–2) shall be presumed to have originated from Soviet-controlled (Chinese) sources, and shall not be acquired for public use unless such supplies have been lawfully imported into the United States, its Territories, its possessions, or Puerto Rico:

Agar-agar.
Bamboo:
Bags, baskets and other manufactures, excluding furniture.
Poles and sticks.
Brocades and brocade articles.
Camphor, natural and synthetic.
Camphor oil, natural and synthetic.
Carpets.
Castor bean.
Castor oil.
Chinaware, other than Dresdenware and Meissenware.
Citronella oil.
Cotton manufactures.
Cotton waste.
Earthenware.
Edible marine products.
Embroideries and embroidered articles.
Feather manufactures.
Glass, sheet (window).
Graphite.
Hair nets, regardless of the material from which made.
Handkerchiefs.
Hardwood manufactures, including furniture other than bentwood furniture.
Hats, paper.
Honey.
Ivory manufactures.
Lace and lace articles.
Linen manufactures, excluding wearing apparel other than wearing apparel made in whole or in part of brocade, embroidery or lace.
Ores and metals:
Antimony.
Bismuth.
Quicksilver.
Molybdenum.
Tin.
Tungsten.
Peanuts and peanut products.
Poultry, including pigeons, frozen or otherwise prepared or preserved.
Ramie.
Rugs.
Seagrass and straw manufactures, excluding floor covering.
Sesame, oil and seed.
Shoes, leather-soled with non-leather uppers, except ladies' high-heel shoes.
Silk:
Raw and manufactures other than Western style suits and Indian saris.
Waste.
Skins, deer and goat.
Stones, semiprecious, and manufacture thereof, including jewelry.
Tapestries, including needlework tapestries.
Tapioca, including tapioca flour.

§ 6.401–5 Supplies from North Korea or China.

All supplies, however processed, which are or were located in or transported from or through North Korea or China (as described in § 6.401–2) shall be presumed to have originated from Soviet-controlled (Chinese) sources, and shall not be acquired for public use unless such supplies have been lawfully imported into the United States, its Territories, its possessions, or Puerto Rico.

§ 6.402 Exceptions.

(a) Exceptions from the general policy will be made only pursuant to paragraphs (b) and (c) of this section. Such exceptions shall be made only in unusual situations, for example, in cases of emergency or where supplies are not available from any other source and a substitute supply is not acceptable.

(b) Supplies, other than those whose procurement is prohibited by § 6.401–3, § 6.401–4 or § 6.401–5, originating from sources within Soviet-controlled areas (see § 6.401–2) may be procured only when:

(1) The purchase is for $2,500 or less and the contracting officer determines there is need for an exception in accordance with Departmental procedures; or

(2) The purchase is for more than $2,500 and an exception is approved by the Secretary of the Department concerned.

Before granting an exception under (2) above, the Secretary concerned shall obtain the advice of the Assistant Secretary of Defense (International Security Affairs): *Provided*, That such advice is not required in the case of emergency purchases or where supplies are not available from any other source and substitute supplies are not acceptable.

(c) Supplies whose procurement is prohibited by §§ 6.401–3, 6.401–4, or § 6.401–5, may be acquired if the acquisition is approved by an authorized Treasury Department representative. Where a request for such approval has been denied by the Treasury Department representative, an appeal may be made to the Secretary of the Treasury. Such appeals, with all pertinent information, shall be submitted through Departmental channels to the Assistant Secretary of Defense (International Security Affairs), for further transmission to the Secretary of the Treasury.

§ 6.403 Contract clause.

(a) Except as provided in paragraph (b) of this section, in contracts for supplies, services, or construction, where acceptance is to take place outside the United States, its Territories, its possessions, or Puerto Rico, the Soviet-controlled areas listed in § 6.401–2 shall be set forth in the contract schedule, and the following clause shall be included in the contract:

SOVIET-CONTROLLED AREAS

(a) The Contractor shall not acquire for use in the performance of this contract any supplies or services originating from sources within Soviet-controlled areas, as listed in the Schedule of this contract, or from Hong Kong or Macao, without the written approval of the Contracting Officer.

(b) The Contractor agrees to insert the provisions of this clause, including the Soviet-controlled areas listed in the Schedule and this subparagraph (b), in all subcontracts hereunder.

(b) The requirements of paragraph (a) of this section do not apply to purchase orders for small purchases (see Part 3, Subpart F of this chapter) where there is other reasonable assurance of compliance with the policy set forth in this subpart.

Subpart E—Canadian Purchases

§ 6.501 Purchases from Canadian suppliers.

Any contract with a supplier or contractor located in the Dominion of Canada may be made with and administered through the Canadian Commercial Corporation (a corporation owned and controlled by the Government of Canada), which has offices at 2450 Massachusetts Avenue NW., Washington, D.C. and 56 Lyon Street, Ottawa, Canada. Under any such contract made with the Canadian Commercial Corporation, direct communication with the Canadian supplier or contractor is authorized only in connection with problems of inspection and technical matters: *Provided*, That, if any such problem would affect the contract price, approval of the Canadian Commercial Corporation shall be obtained. All payments under any such contract made with the Canadian Commercial Corporation shall be made to that Corporation at its Washington office.

§ 6.502 Guarantee by Canadian Government.

The Canadian Government guarantees to the United States Government all commitments, obligations, and covenants of the Canadian Commercial Corporation in connection with any contract or order issued to said Corporation by any procuring activity of the United States Government. The Canadian Government has likewise waived notice of any change or modification which may be made from time to time in these commitments, obligations, or covenants.

§ 6.503 Agreement with Department of Defence Production (Canada).

(a) An agreement, dated 27 July 1956, as amended 17 December 1956, between the Department of Defence Production (Canada) and the Departments of the Army, Navy, and Air Force, sets forth policies and provides procedures with respect to all contracts for supplies and services placed with the Canadian Commercial Corporation on or after October 1, 1956.

(b) The Agreement provides, in pertinent part, that the Canadian Commercial Corporation may, in submitting proposals for negotiated contracts, provide for prices or cost reimbursement, as the case may be, in terms of Canadian currency and that the resulting contract will provide for payment to be made in such currency. In evaluating proposals submitted by the Canadian Commercial Corporation in terms of Canadian currency, the rate of exchange in effect on the date of evaluation of all proposals, submitted in response to a given Request for Proposals, shall be used. When required, the precise rate of exchange of Canadian currency may be obtained from a financial paper of general circulation which reflects the rate as fixed and published by the Federal Reserve Bank of New York, such as the Wall Street Journal or the Journal of Commerce.

§ 6.504 Mutual Canadian-American interests.

Because of the close geographical proximity of the United States and Canada and of the mutual interest of both nations in the defense of North America, various steps have been taken during and since World War II to coordinate their economic efforts in the common defense, so as to achieve:

(a) Greater integration of military production,

(b) Greater standardization of military equipment,

(c) Wider dispersal of production facilities,

(d) Establishment of supplemental sources of supply, and

(e) Greater flow of defense supplies and equipment between the two countries.

Accordingly, it is Department of Defense policy to seek the best possible coordination of the materiel programs of Canada and the United States and to assure Canada a fair opportunity to share in the production of military equipment and materiel involving programs of mutual interest to Canada and the United States and in the research and development connected therewith. Accomplishment of these purposes required the allevation of the restrictions of the Buy American Act with respect to procurements for public use of supplies mined, produced, or manufactured in Canada in the manner prescribed in Subpart A of this part.

Subpart F—Duty and Customs

§ 6.601 Customs duties on foreign purchases.

Duty must ordinarily be paid in connection with the importation of supplies purchased outside of the United States, except that the importation (a) of "emergency purchases of war material abroad" by a Military Department is exempt from duty (10 U.S.C. 2383), and (b) of certain supplies (not including equipment) for vessels or aircraft operated by the United States is also exempt from duty (19 U.S.C. 1309). Where the importation of supplies is subject to customs duties, a Military Department is exempt from any requirements of a customs bond.

§ 6.602 Emergency purchases of war material abroad.

§ 6.602–1 General.

This section furnishes guidance as to what constitutes "emergency purchases of war material abroad," prescribes the conditions under which duty-free entry certificates may be issued in connection with the importation of such purchases and sets forth the form of certificate to be utilized. The procedures to be followed in the issuance of such certificates shall be as prescribed by the respective Departments.

§ 6.602–2 War materials.

As used in this section the term "war material" includes the following:

(a) Weapons, munitions, aircraft, vessels, or boats;

(b) Agricultural, industrial, or other supplies used in the prosecution of war or for the national defense;

(c) Supplies, including components or equipment, necessary for the manufacture, production, processing, repair, servicing, or operation of the supplies set forth in paragraphs (a) and (b) of this section above.

§ 6.602–3 Emergency purchases.

As used in this section, the term "emergency purchases" includes the following:

(a) War material purchased by any Department in time of war or a national emergency, including any war material received in exchange for anything of value obtained under reciprocal aid or other statutory authority;

(b) War material purchased because of a shortage of domestic supply, pursuant to a decision that the supplies are necessary for the adequate maintenance of the Armed Services;

(c) Captured enemy war material;

(d) Materials requisitioned by United States Forces abroad;

(e) Materials rebuilt from other materials owned by, captured by, or turned over to United States Forces; and

(f) War materials procured for the use of United States Forces abroad or United States vessels in foreign waters.

§ 6.602–4 Use of duty-free entry certificates.

The issuance of duty-free entry certificates in appropriate situations will result in important savings for military appropriations. At the same time, any procedure established for the issuance of such certificates must recognize that anything other than a careful selection of the proper situations where such certificates are to be issued may fail to save funds and may result in unanticipated advantages to contractors, especially in situations involving fixed-price contracts. Considerations which are pertinent to the selection of those cases where such certificates should be issued include (a) the savings to be accomplished by the issuance of the certificate; (b) the administrative burden and cost of processing the certificate; and (c) the degree of supervision which can be exercised by the Government over the supplies or materials to be imported to verify that the full benefit of the certificate inures to the Government. The latter consideration is particularly significant in the case of fixed-price contracts since title to the importation does not generally vest in the Government until delivery of the end product.

§ 6.602–5 Limitations.

Subject to the considerations set forth in §§ 6.602–4 and 6.605, a duty-free entry certificate may be issued in accordance with Departmental procedures when an "emergency purchase of war material" is made under the following circumstances:

(a) Direct purchases abroad regardless of whether title passes at point of origin or at destination in the United States: *Providing*, The contract states that the final price is exclusive of duty;

(b) Purchases abroad by a Government prime contractor under a cost-reimbursement type contract or by a cost-reimbursement type subcontractor (where no fixed-price prime or fixed-price subcontract intervenes between the purchaser and the Government), regardless of whether title passes at point of origin or at destination in the United States. If a fixed-price prime or fixed-price subcontract intervenes, the criteria stated in paragraph (c) of this section should be followed; and

(c) Purchases abroad by a fixed-price contractor, fixed-price subcontractor, or cost-type subcontractor where a fixed-price prime or fixed-price subcontract intervenes: *Provided*, (1) The fixed-price prime and, where applicable, fixed-price subcontract prices are, or are amended to be, exclusive of duty; (2) the prime contractor and, where applicable, the subcontractors concerned certify that the supplies so purchased are to be delivered to the Government or incorporated in Government-owned property or in an end product to be furnished to the Government, and that duty will be paid if such supplies or any portion thereof are utilized for other than the performance of the Government contract or disposed of other than for the benefit of the Government in accordance with the contract terms; and (3) such procurement abroad is authorized by the terms of the prime contract, the applicable subcontract, or by the contracting officer.

§ 6.602–6 Duty-free entry certificate.

The duty-free entry certificate referred to in this section will be printed, stamped, or typed on the face of Customs Form 7501 or attached thereto, and will be executed by a duly designated officer or civilian official of the appropriate Department in the following form:

I certify that the procurement of this material constituted an emergency purchase of war material abroad by the Department of the (indicate Army, Navy, or Air Force) and it is accordingly requested that such material be admitted free of duty pursuant to 10 U.S.C. 2383.

---
(Grade)

(Organization)

§ 6.603 Supplies for vessels or aircraft operated by the United States.

(a) Subject to the considerations set forth in § 6.602–4, a duty-free entry certificate may be issued when "certain supplies (not including equipment)" are purchased for vessels or aircraft operated by the United States. As used in this section, the term "certain supplies (not including equipment)" includes articles known as "stores", such as food, medicines and toiletries, and, in addition, all consumable articles necessary and appropriate for the propulsion, operation and maintenance of the vessel or aircraft, such as fuel oil, gasoline, grease, paint, cleansing compounds, solvents, wiping rags and polishes. It does not include portable articles necessary and appropriate for the navigation, operation or maintenance of the vessel or aircraft and for the comfort and safety of the persons on board, such as rope, bolts and nuts, bedding, china and cutlery, which are included in the term "equipment". The procedures to be followed in the issuance of such certificates shall be as prescribed by the respective Departments.

(b) The duty-free entry certificate referred to in this section will be printed, stamped, or typed on the face of Customs Form 7501, or attached thereto, and will be executed by a duly designated officer or civilian official of the appropriate Department in the following form:

I certify that the procurement of this material constituted a purchase of supplies by the United States for vessels or aircraft operated by the United States, and is admissible free of duty pursuant to 19 U.S.C. 1309.

(Name)

(Title)

(Organization)

§ 6.604 Customs duties and drawbacks.

Whenever any Department purchases supplies with respect to which there might arise a claim to a refund or drawback of customs duties paid thereon (to the extent such drawback is authorized pursuant to the Tariff Act of 1930, 19 U.S. Code, Chapter 4), the price to be paid shall ordinarily include the customs duties, and accordingly the supplier will have no claim to a drawback. On the other hand, when the price to be paid for any such purpose does not include the cusoms duties, then the supplier will have the right to claim any drawback with respect to duties paid by the supplier: *Provided*, (a) He has reserved such right in connection with such sale or consignment and (b) he produces evidence that such reservation was made with the knowledge and consent of the exporter.

§ 6.605 Duty-free entry of listed Canadian supplies.

§ 6.605–1 Policy.

(a) In keeping with the policy to enhance economic cooperation with Canada in the interests of continental defense (§ 6.504), duty-free entry should generally be accorded Canadian supplies that constitute, or that are directly or indirectly incorporated in, end items included in the Departmental lists of supplies maintained pursuant to § 6.103–5(a). (These Departmental lists include supplies of a military character or which are involved in programs of mutual interest to the United States and Canada. Parts and equipment for listed supplies, even though not separately listed, are considered to be included in the lists when they are procured under a contract that also calls for listed supplies.) Duty-free entry should be accorded such supplies by the issuance of duty-free entry certificates in accordance with §§ 6.605 through 6.605–3 and, in particular, as provided in the contract clause prescribed in § 6.605–2.

(b) In connection with contracts with United States prime contractors for the procurement of end items that are not included in the Departmental lists maintained pursuant to § 6.103–5(a) of this part, Canadian supplies that are themselves listed and are specifically identified in the contract as supplies that will be directly or indirectly incorporated in such unlisted end items, should be accorded duty-free entry as provided in § 6.605–3.

§ 6.605–2 Contract clause.

Every contract in excess of $10,000, except construction contracts, that includes the procurement of end items contained in the list maintained by the Department concerned pursuant to § 6.103–5(a) of this part shall include the following clause unless it is reasonably certain that no supplies will be imported from Canada by the contractor or any first- or lower-tier subcontractor in connection with the performance of the contract. The clause will be included in invitations for bids or requests for proposals that are expected to lead to such a contract.

DUTY-FREE ENTRY—CANADIAN SUPPLIES (JULY 1960)

(a) Except as otherwise approved by the Contracting Officer and except with respect to individual shipments on which the duty is $50 or less, no amount is or will be included in the contract price on account of duty with respect to—

(i) all end items which constitute "Canadian end products" (as defined in paragraph 6–101 of the Armed Services Procurement Regulation) to be delivered under this contract; and

(ii) all supplies (including, without limitation, raw materials, components and intermediate assemblies) produced or made in Canada which are to be incorporated in the end items to be delivered under this contract; provided, that such end items are made in the United States or Canada; except supplies imported into the United States prior to the date of this contract, or, in the case of supplies imported by a first- or lower-tier subcontractor hereunder, prior to the date of its subcontract.

(b) All shipping documents submitted to Customs, covering such Canadian end products or supplies for which duty-free entry is to be claimed, shall bear the notation "UNITED STATES (insert name of Military Department)—DUTY FREE ENTRY TO BE CLAIMED under 10 U.S.C. 2383. Collector of Customs kindly notify (insert name and address of Government official and office) upon arrival of shipment at port of entry." The notation will also identify this contract by its contract number.

(c) The Contractor warrants that all such Canadian supplies, for which such duty-free entry is to be claimed, are to be delivered to the Government or incorporated in the end items to be delivered under this contract, and that duty shall be paid by the Contractor to the extent that such supplies, or any portion thereof, are not delivered to the Government or incorporated in such end items or disposed of pursuant to the provisions of this contract.

(d) The Government agrees to execute duty-free entry certificates and to afford such assistance as appropriate in order to obtain the duty-free entry of Canadian end products or supplies as to which the shipping documents bear the notation specified in paragraph (b) above, except as the Contractor may otherwise agree and except with respect to individual shipments on which the duty is $50 or less.

(e) The Contractor agrees to insert the substance of this clause, including this paragraph (e), in all subcontracts for supplies hereunder that exceed $5,000. Each such subcontract shall require the subcontractor to identify this contract by its contract number on any shipping documents submitted to Customs covering supplies for which duty-free entry is to be claimed pursuant to this clause. If the procurement covers both listed and unlisted end items, the foregoing clause should be modified so as to limit its application to the listed end items.

§ 6.605–3 Listed supplies for unlisted end items.

In connection with negotiated contracts in excess of $10,000 with United States prime contractors for the procurement of end items that are not included in the Departmental lists maintained pursuant to § 6.103–5(a), if the prospective contractor specifically identifies listed Canadian supplies that will be directly or indirectly incorporated in such unlisted end items and if the contract price does not include any amount on account of duty with respect to such supplies, the contract should provide for the duty-free entry of such supplies by including provisions substantially as follows. The Schedule should identify the particular listed Canadian supplies that are to be accorded duty-free entry. The contract should include a clause like that in § 6.605–2, but modified so as to cover only the particular Canadian supplies that are specifically identified in the Schedule. Thus, the clause may be modified by:

(a) In paragraph (a), deleting (i) and (ii) and substituting the words "those supplies that are specifically identified in the Schedule as Canadian supplies to be accorded duty-free entry."

(b) In paragraph (b) of the clause, deleting the words "end products or,"

(c) In paragraph (d) of the clause, deleting the words "Canadian end products or supplies" and substituting a reference to the particular Canadian listed supplies, as in paragraph (a) of this section, and

(d) As to paragraph (e) of the clause, limiting the "flowdown" provision to subcontracts for supplies specifically identified in the Schedule, or, if appropriate, deleting the provision.

§ 6.605–4 Amending existing contracts.

Any existing contract may be amended so as to be made consistent with § 6.605–2 or § 6.605–3; provided that, in the case of a fixed-price type contract, the contract price is reduced by the amount of the applicable duty. Under any cost-reimbursement type contract that has not been so amended, duty-free entry shall be accorded Canadian supplies to the extent permitted by § 6.602 except with respect to individual shipments on which the duty is $50 or less.

Subpart G—Mutual Security Act Procurements

§ 6.701 Exemption from examination of records requirement.

§ 6.701–1 General.

With respect to purchases authorized to be made outside the United States under the Mutual Security Act of 1954, as amended, Executive Order No. 10784, dated October 1, 1958, as amended by Executive Order No. 10845, dated October 12, 1959, exempts:

(a) Contracts with foreign contractors to be performed outside the United States from the examination of records requirements of 10 U.S.C. 2313(b); and

(b) Contracts, and amendments and modifications thereof, entered into pursuant to Public Law 85–804 (§ 17.501 of this chapter), from the examination of records requirements of section 3(b) of that law: *Provided*, That, with respect to such contracts and amendments and modifications thereof, inclusion of the "Examination of Records" clause or compliance therewith is determined by the Department concerned to be impracticable. Such determinations may

be made by any officer or official authorized to approve contracts, and amendments and modifications thereof, pursuant to § 17.201 of this chapter.

§ 6.701–2 Contracts with foreign governments.

(a) *Fixed-price contracts.* The Examination of Records clause set forth in § 7.104–15 of this chapter shall be omitted from government-to-government contracts within the scope of § 6.701–1(a).

(b) *Cost-reimbursement type contracts.* In government-to-government contracts within the scope of § 6.701–1(a), the Records clause set forth in § 7.203–7(a) of this chapter shall be modified as follows. Subparagraph (3) of the clause shall be deleted; the references in subparagraphs (4) and (5) to "documentary evidence delivered pursuant to subparagraph (3)" shall be deleted; the references to "the Comptroller General" and "his authorized representatives" shall be deleted from subparagraphs (2), (4), (5), and paragraph (b), and the word "Department" shall be inserted in lieu of the reference to Comptroller General in the proviso in subparagraph (4). In such cases, where the Records clause required by § 7.203–7 of this chapter is to be modified as provided in § 7.203–7(b) of this chapter, subparagraph (4) as set forth therein shall be modified to correspond with the modifications prescribed above.

§ 6.701–3 Contracts with other foreign contractors.

In any particular contract within the scope of § 6.701–1(a) which is made with a foreign contractor other than a foreign government, the Examination of Records clause set forth in § 7.104–15 of this chapter may be omitted (in the case of a fixed-price contract) and the Records clause set forth in § 7.203–7 of this chapter may be modified as indicated in § 6.701–2(b) (in the case of a cost-reimbursement type contract) if such omission or modification is approved by the contracting activity concerned in accordance with Departmental procedures, following a determination that such omission or modification will further the purposes of the Mutual Security Act of 1954.

PART 7—CONTRACT CLAUSES

Sec.
7.000 Scope of part.

Subpart A—Clauses for Fixed-Price Supply Contracts

7.100 Scope of subpart.
7.102 Applicability.
7.103 Required clauses.
7.103–1 Definitions.
7.103–2 Changes.
7.103–3 Extras.
7.103–4 Variation in quantity.
7.103–5 Inspection.
7.103–6 Responsibility for supplies.
7.103–7 Payments.
7.103–8 Assignment of claims.
7.103–9 Additional bond security.
7.103–10 Federal, State and local taxes.
7.103–11 Default.
7.103–12 Disputes.
7.103–13 Renegotiation.
7.103–14 [Reserved]
7.103–15 Soviet-controlled areas.
7.103–16 Eight-hour law of 1912.
7.103–17 Walsh-Healy Public Contracts Act.
7.103–18 Nondiscrimination in employment.
7.103–19 Officials not to benefit.
7.103–20 Covenant against contingent fees.
7.103–21 Termination for convenience of the Government.
7.103–22 Authorization and consent.
7.103–23 Notice and assistance regarding patent infringement.
7.104 Clauses to be used when applicable.
7.104–1 Davis-Bacon Act.
7.104–2 Copeland Act.
7.104–3 Buy American Act.
7.104–4 Notice to the Government of labor disputes.
7.104–5 Patent indemnity.
7.104–6 Filing of patent applications.
7.104–7 Patent rights.
7.104–8 Reporting of royalties.
7.104–9 Rights in data.
7.104–10 Ground and flight risk.
7.104–11 Excess profit.
7.104–12 Military security requirements.
7.104–13 Preference for certain domestic commodities.
7.104–14 Utilization of small business concerns.
7.104–15 Examination of records.
7.104–16 Gratuities.
7.104–17 Convict labor.
7.104–18 Priorities, allocations and allotments.
7.104–19 Cargo preference act.
7.104–20 Utilization of concerns in labor surplus areas.
7.104–21 Limitation on withholding of payments.
7.104–22 Defense subcontracting small business program.
7.104–23 Subcontracts.
7.104–24 Government-furnished property.
7.104–25 Special tooling.
7.104–26 Changes to make or buy program.
7.104–27 Payment for overtime and shift premiums.
7.104–28 Quality Control System.
7.105 Additional clauses.
7.105–1 Alterations in contract.
7.105–2 Approval of contract.
7.105–4 Notice of shipments.
7.105–5 Liquidated damages.
7.105–6 Bill of Materials.
7.105–7 Material inspection and receiving report.
7.105–8 Stop work orders.
7.106 Price escalation clauses (established prices).
7.106–1 Escalation clause for basic steel, aluminum, brass, bronze or copper mill products.
7.106–2 Escalation clause for non-standard steel items.
7.106–3 Escalation clause for standard supplies.
7.106–4 Escalation clause for semi-standard supplies.
7.107 Price escalation clause (labor and material).
7.108 Incentive price revision clause.
7.109 Price redetermination clauses.
7.109–1 General.
7.109–2 Prospective periodic price redetermination at stated intervals.
7.109–3 Prospective price redeterminations on request.
7.109–4 Retroactive and prospective price redetermination at a stated time prior to completion.
7.109–5 Retroactive and prospective price redetermination including further prospective redetermination on request.
7.109–6 Retroactive price redetermination after completion.
7.109–7 Modified retroactive and prospective price redetermination for follow-on contracts.

Subpart B—Clauses for Cost-Reimbursement Type Supply Contracts

7.200 Scope of subpart.
7.202 Applicability.
7.203 Required clauses.
7.203–1 Definitions.
7.203–2 Changes.
7.203–3 Limitation of cost.
7.203–4 Allowable Cost, Fee, and Payment.
7.203–5 Inspection of supplies and correction of defects.
7.203–6 Assignment of claims.
7.203–7 Records.
7.203–8 Subcontracts.
7.203–9 Utilization of small business concerns.
7.203–10 Termination.
7.203–11 Excusable delays.
7.203–12 Disputes.
7.203–13 Renegotiation.
7.203–14 [Reserved]
7.203–15 Convict labor.
7.203–16 Eight-Hour Law of 1912—Overtime compensation.
7.203–17 Walsh-Healey Public Contracts Act.
7.203–18 Nondiscrimination in employment.
7.203–19 Officials not to benefit.
7.203–20 Covenant against contingent fees.
7.203–21 Government property.
7.203–22 Insurance; liability to third persons.
7.203–23 Authorization and consent.
7.203–24 Notice and assistance regarding patent infringement.
7.203–25 Soviet-controlled areas.
7.203–26 Utilization of concerns in labor surplus areas.
7.203–27 Payment for overtime and shift premiums.
7.204 Clauses to be used when applicable.
7.204–1 Davis-Bacon Act.
7.204–2 Copeland Act.
7.204–3 Buy American Act.
7.204–4 Notice to the Government of labor disputes.
7.204–5 Patent indemnity.
7.204–6 Filing of patent applications.
7.204–7 Patent rights.
7.204–8 Reporting of royalties.
7.204–9 Rights in data.
7.204–10 Quality Control System.
7.204–11 Excess profit.
7.204–12 Military security requirements.
7.204–13 Preference for certain domestic commodities.
7.204–14 Gratuities.
7.204–15 Priorities, allocations and allotments.
7.204–16 Negotiated overhead rates.
7.204–17 Cargo preference act.
7.204–18 Limitation on withholding of payments.
7.204–19 Defense subcontracting small business program.
7.204–20 Changes to make or buy program.
7.205 Additional clauses.
7.205–1 Alteration in contract.
7.205–2 Approval of contract.
7.205–4 Bill of materials.
7.205–6 Materiel inspection and receiving report.
7.205–7 Stop work orders.

Subpart C—Clauses for Fixed-Price Research and Development Contracts

7.301 Applicability.
7.302 Required clauses.
7.302–1 Definitions.
7.302–2 Payments.
7.302–3 Standards of work.
7.302–4 Inspection.
7.302–5 Assignment of claims.
7.302–6 Examination of records.
7.302–7 Federal, State, and local taxes.
7.302–8 Utilization of small business concerns.
7.302–9 Default.
7.302–10 Termination for convenience of the government.
7.302–11 Disputes.
7.302–12 Renegotiation.
7.302–13 Buy American Act.
7.302–14 Convict labor.
7.302–15 Walsh-Healey Public Contracts Act.
7.302–16 Eight-Hour Law of 1912—overtime compensation.
7.302–17 Nondiscrimination in employment.
7.302–18 Officials not to benefit.
7.302–19 Covenant against contingent fees.
7.302–20 Gratuities.
7.302–21 Authorization and consent.
7.302–22 Notice and assistance regarding patent infringement.
7.302–23 Patent rights:
7.302–24 Basic data clause.
7.302–25 Military security requirements.
7.302–26 Utilization of labor surplus area concerns.
7.303 Clauses to be used when applicable.
7.303–1 Clauses for contracts involving construction work.
7.303–2 Filing of patent applications.
7.303–3 Reporting of royalties.
7.303–4 Excess profit.
7.303–5 Preference for certain domestic commodities.
7.303–6 Priorities, allocations, and allotments.
7.303–7 Government-furnished property.
7.303–8 Soviet-controlled areas.
7.303–9 Notice to the government of labor disputes.
7.303–10 Limitation on withholding of payments.
7.303–11 Defense subcontracting small business program.
7.303–12 Subcontracts.
7.303–13 Changes to make or buy program.
7.303–14 Payment for overtime and shift premiums.
7.303–15 Quality Control System.
7.304 Additional clauses.
7.304–1 Changes.
7.304–2 Alterations in contract.
7.304–3 Approval of contract.
7.304–4 Bill of materials.
7.304–5 Notice of shipments.
7.304–6 Stop work orders.
7.304–7 Reports of work.

Subpart D—Clauses for Cost-Reimbursement Type Research and Development Contracts

7.400 Scope of subpart.
7.401 Applicability.
7.402 Required clauses.
7.402–1 Definitions.
7.402–2 Limitation of cost.
7.402–3 Allowable cost, fixed fee, and payment.
7.402–4 Standards of work.
7.402–5 Inspection and correction of defects.
7.402–6 Assignment of claims.
7.402–7 Records
7.402–8 Subcontracts.
7.402–9 Utilization of small business concerns.
7.402–10 Termination.
7.402–11 Disputes.
7.402–12 Renegotiation.
7.402–13 Buy American Act.
7.402–14 Convict labor.
7.402–15 Walsh-Healey Public Contracts Act.
7.402–16 Eight-Hour Law of 1912—overtime compensation.
7.402–17 Nondiscrimination in employment.
7.402–18 Officials not to benefit.
7.402–19 Covenant against contingent fees.
7.402–20 Authorization and consent.
7.402–21 Notice and assistance regarding patent infringement.
7.402–22 Patent rights.
7.402–23 Basic data clause.
7.402–24 Military security requirements.
7.402–25 Government property.
7.402–26 Insurance—liability to third persons.
7.402–27 Utilization of labor-surplus area concerns.
7.402–28 Payment for overtime and shift premiums.
7.403 Clauses to be used when applicable.
7.403–1 Clauses for contracts involving construction work.
7.403–2 Filing of patent applications.
7.403–3 Reporting of royalties.
7.403–4 Excess profit.
7.403–5 Excusable delays.
7.403–6 Preference for certain domestic commodities.
7.403–7 Priorities, allocations, and allotments.
7.403–8 Soviet-controlled areas.
7.403–9 Negotiated overhead rate.
7.403–10 Notice to the Government of labor disputes.
7.403–11 Gratuities.
7.403–12 Limitation on withholding of payments.
7.403–13 Defense subcontracting small business program.
7.403–14 Changes to make or buy program.
7.403–15 Quality control system.
7.404 Additional clauses.
7.404–1 Changes.
7.404–2 Alterations in contract.
7.404–3 Approval of contract.
7.404–4 Bill of materials.
7.404–5 Stop work orders.
7.404–6 Reports of work.

Subpart E—Clauses for Personal Services Contracts

7.500 Scope of subpart.
7.502 Applicability.
7.503 Required clauses.
7.503–1 Definitions.
7.503–2 Payments.
7.503–3 Assignment of claims.
7.503–4 Disputes.
7.503–5 Officials not to benefit.
7.503–6 Covenant against contingent fees.
7.503–7 Termination.
7.503–8 Approval of contract.
7.503–9 Patents.
7.504 Clauses to be used when applicable.
7.504–1 Military security requirements.
7.504–2 Data and copyrights.
7.505 Additional clause.
7.505–1 Alterations in contract.

AUTHORITY: §§ 7.000 to 7.505–1 issued under R. S. 161, sec. 2202, 70A Stat. 120; 5 U. S. C. 22, 10 U. S. C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314.

§ 7.000 Scope of part.

This part sets forth uniform contract clauses for use in connection with the procurement of supplies and services.

Subpart A—Clauses for Fixed-Price Supply Contracts

§ 7.100 Scope of subpart.

This subpart sets forth uniform contract clauses for use in fixed-price supply contracts as defined in § 7.102.

§ 7.102 Applicability.

As used throughout this subpart, the term "fixed-price supply contract" shall mean any contract (a) entered into either by formal advertising or by negotiation, other than (1) purchase orders (but see §§ 7.104–15 and 7.104–16), (2) short form negotiated supply contracts (see § 16.202 of this chapter), (3) letter contracts, (4) notices of award, and (5) amendments or supplemental agreements to contracts or purchase orders, which do not effect new procurement; (b) at a fixed price (with or without provision for price redetermination, escalation or other form of price revision as covered in § 3.403); and (c) for supplies other than (1) the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property, (2) experimental, developmental, or research work, or (3) facilities to be provided by the Government under a "Facilities Contract" as defined in Part 13 of this subchapter.

§ 7.103 Required clauses.

The following clauses shall be inserted in all fixed-price supply contracts:

§ 7.103–1 Definitions.

DEFINITIONS (JAN. 1958)

As used throughout this contract, the following terms shall have the meanings set forth below:

(a) The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of the Department, and the head or any assistant head of the Federal agency; and the term "his duly authorized representative" means any person or persons or board (other than the Contracting Officer) authorized to act for the Secretary.

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or civilian employee who is a properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of a Contracting Officer acting within the limits of his authority.

(c) Except as otherwise provided in this contract, the term "subcontracts" includes purchase orders under this contract.

Additional definitions may be included: *Provided,* They are not inconsistent with the foregoing clause of the provisions of this subchapter.

§ 7.103–2 Changes.

CHANGES (JAN. 1958)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in any one or more of the following: (i) Drawings, designs, or specifications, where the supplies to be furnished are to be specially manufactured for the Government in accordance therewith; (ii) method of shipment or packing; and (iii) place of delivery. If any such change causes an increase or decrease in the cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Department procedures.

§ 7.103–3 Extras.

EXTRAS (JULY 1949)

Except as otherwise provided in this contract, no payment for extras shall be made unless such extras and the price therefor have been authorized in writing by the Contracting Officer.

§ 7.103–4 Variation in quantity.

VARIATION IN QUANTITY (JULY 1949)

No variation in the quantity of any item called for by this contract will be accepted unless such variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified elsewhere in this contract.

§ 7.103–5 Inspection.

INSPECTION (MAY 1958)

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and end products) shall be subject to inspection and test by the Government, to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance.

(b) In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity with the requirements of this contract, the Government shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the Contracting Officer, corrected in place by and at the expense of the Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirments of correction is disclosed. If the Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed, or promptly to replace or correct such supplies or lots of supplies, the Government either (i) may by contract or otherwise replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby, or (ii) may terminate this contract for default as provided in the clause of this contract entitled "Default." Unless the Contractor corrects or replaces such supplies within the delivery schedule, the Contracting Officer may require the delivery of such supplies at a reduction in price which is equitable under the circumstances. Failure to agree to such reduction of price shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(c) If any inspection or test is made by the Government on the premises of the Contractor or a subcontractor, the Contractor without additional charge shall provide all reasonable facilities and assistance for the safety and convenience of the Government inspectors in the performance of their duties. If Government inspection or test is made at a point other than the premises of the Contractor or a subcontractor, it shall be at the expense of the Government except as otherwise provided in this contract: *Provided,* That in case of rejection the Government shall not be liable for any reduction in value of samples used in connection with such inspection or test. All inspections and tests by the Government shall be performed in such a manner as not to unduly delay the work. The Government reserves the right to charge to the Contractor any additional cost of Government inspection and test when supplies are not ready at the time such inspection and test is requested by the Contractor or when reinspection or retest is necessitated by prior rejection. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this contract; but failure to inspect and accept or reject supplies shall neither relieve the Contractor from responsibility for such supplies as are not in accordance with the contract requirements nor impose liability on the Government therefor.

(d) The inspection and test by the Government of any supplies or lots thereof does not relieve the Contractor from any responsibility regarding defects or other failures to meet the contract requirements which may be discovered prior to acceptance. Except as otherwise provided in this contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

(e) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the supplies hereunder. Records of all inspection work by the Contractor shall be kept complete and available to the Government during the performance of this contract and for such longer period as may be specified elsewhere in this contract.

§ 7.103–6 Responsibility for supplies.

RESPONSIBILITY FOR SUPPLIES (JAN. 1958)

Except as otherwise provided in this contract, (i) the Contractor shall be responsible for the supplies covered by this contract until they are delivered at the designated delivery point, regardless of the point of inspection; (ii) after delivery to the Government at the designated point and prior to acceptance by the Government or rejection and giving notice thereof by the Government, the Government shall be responsible for the loss or destruction of or damage to the supplies only if such loss, destruction, or damage results from the negligence of officers, agents, or employees of the Government acting within the scope of their employment; and (iii) the Contractor shall bear all risks as to rejected supplies after notice of rejection, except that the Government shall be responsible for the loss, or destruction of, or damage to the supplies only if such loss, destruction or damage results from the gross negligence of officers, agents, or employees of the Government acting within the scope of their employment.

§ 7.103–7 Payments.

PAYMENTS (JAN. 1958)

The Contractor shall be paid, upon the submission of proper invoices or vouchers, the prices stipulated herein for supplies delivered and accepted or services rendered and accepted, less deductions, if any, as herein provided. Unless otherwise specified, payment will be made on partial deliveries accepted by the Government when the amount due on such deliveries so warrants; or, when requested by the Contractor, payment for accepted partial deliveries shall be made whenever such payment would equal or exceed either $1,000 or 50 percent of the total amount of this contract.

In contracts for the furnishing of transportation and accessorial services there will be substituted for the word "proper" above, the words "properly certified."

§ 7.103–8 Assignment of claims.

ASSIGNMENT OF CLAIMS (JAN. 1958)

(a) Pursuant to the provisions of the Assignment of Claims Act of 1940 as amended (31 U. S. Code 203, 41 U. S. Code 15), if this contract provides for payments aggregating $1,000 or more, claims for monies due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Notwithstanding any provisions of this contract, payments to an assignee of any monies due or to become due under this contract shall not, to the extent provided in said act, as amended, be subject to reduction or set-off.

(b) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret," "Secret," or "Confidential," be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same: *Provided,* That a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer.

The last sentence of paragraph (a) of the foregoing clause shall be included in contracts only in time of war, or national emergency proclaimed by the President (including the National Emergency Proclamation of December 16, 1950) or by Act or Joint Resolution of the Congress and shall not be included in contracts entered into after such war or national emergency has been terminated: *Provided,* That in cases where special circumstances make it advisable in the best interests of the Government, and in accordance with Departmental procedures, such sentence may be omitted. In any event the sentence will be deleted from negotiated contracts entered into with foreign contractors.

Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended by Public Law 30, 82d Congress, the effect of the last sentence of paragraph (a) of the foregoing clause is that payments to be made to an assignee after 15 May 1951 of any monies due or to become due under the contract shall not be subject to reduction or set-off for any liability of any nature of the contractor to the Government which arises independently of the contract, or for any liability of the contractor on account of (i) renegotiation under any renegotiation statute or under any statutory renegotiation clause in the contract, (ii) fines, (iii) penalties (which term does not include amounts which may be collected or withheld from the contractor in accordance with or for failure to comply with the terms of the contract), or (iv) taxes, Social Security contributions, or the withholding or nonwithholding of taxes or Social Security contributions, whether arising from or independently of the contract.

The assignee is required by said act, as amended, to "File written notice of the assignment together with a true copy of the instrument of assignment with (a) the contracting officer or the head of his department or agency; (b) the surety or sureties upon the bond or bonds, if any, in connection with such contract; and (c) the disbursing officer, if any, designated in such contract to make payment."

§ 7.103–9 Additional bond security.

ADDITIONAL BOND SECURITY (JULY 1949)

If any surety upon any bond furnished in connection with this contract becomes unacceptable to the Government, or if any such surety fails to furnish reports as to his financial condition from time to time as requested by the Government, the Contractor shall promptly furnish such additional security as may be required from time to time to protect the interests of the Government and of persons supplying labor or materials in the prosecution of the work contemplated by this contract.

§ 7.103–10 Federal, State and local taxes.

Insert the clause set forth in § 11.401–1 or § 11.401–2 of this chapter, as the case may be.

§ 7.103–11 Default.

Insert the clause set forth in § 8.707 of this chapter.

§ 7.103–12 Disputes.

(a) Except as provided in paragraph (b) of this section, insert the following clause:

DISPUTES (JAN. 1958)

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) of this section: *Provided,* That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law. In accordance with Departmental procedures, the foregoing clause may be modified to provide for intermediate appeal to the Head of the Procuring Activity concerned. The decision of the contracting officer referred to in the above clause shall, if mailed, be sent by certified mail, return receipt requested.

(b) In procurements to be performed outside the United States, its possessions and Puerto Rico, where it is anticipated that the contractor will be a foreign firm, either the clause in (a) above will be used after modifying it to insert "United States" before "court of competent jurisdiction" or the following clause will be inserted:

DISPUTES (JAN. 1960)

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive to the extent permitted by United States law. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above: *Provided,* That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

In accordance with Departmental procedures, the foregoing clause may be modified to provide for intermediate appeal.

(c) The form in which the contracting officer shall notify the contractor of his decision under the Disputes clause is set forth in § 1.314 of this subchapter.

§ 7.103–13 Renegotiation.

(a) Except as provided in paragraph (b) of this section, insert the following clause:

RENEGOTIATION (OCT. 1959)

(a) To the extent required by law, this contract is subject to the Renegotiation Act of 1951 (50 U.S.C. App. 1211, et seq.), as amended, and to any subsequent act of Congress providing for the renegotiation of Contracts. Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of Congress heretofore or hereafter enacted. Subject to the foregoing this contract shall be deemed to contain all the provisions required by section 104 of the Renegotiation Act of 1951, and by any such other act, without subsequent contract amendment specifically incorporating such provisions.

(b) The Contractor agrees to insert the provisions of this clause, including this paragraph (b), in all subcontracts, as that term is defined in section 103g of the Renegotiation Act of 1951, as amended.

(b) A Renegotiation clause is not required in contracts with foreign governments or agencies thereof. Except in such contracts, the clause set forth below should be inserted, in lieu of the clause in paragraph (a) of this section, in contracts which are to be wholly performed outside the United States by a contractor which is not engaged in a trade or business in the United States and is:

(1) An individual who is not a national of the United States;

(2) A partnership or joint venture in which individuals who are not nationals of the United States or corporations which are not domestic corporations are entitled to more than 50 percent of the profits; or

(3) A corporation (other than a domestic corporation) more than 50 percent of the voting stock of which is owned directly or indirectly by persons described in subparagraph (1) and (2) of this paragraph:

RENEGOTIATION (OCT. 1959)

(a) This contract has been determined to be exempt from the provisions of the Renegotiation Act of 1951 (50 U.S.C. App. 1211, et seq.), as amended, since it is intended to be wholly performed outside the United States and the Contractor is not engaged in a trade or business in the United States and is—

(i) An individual who is not a national of the United States;

(ii) A partnership or joint venture in which individuals who are not nationals of the United States or corporations which are not domestic corporations are entitled to more than 50 percent of the profits; or

(iii) A corporation (other than a domestic corporation) more than 50 percent of the voting stock of which is owned directly or indirectly by persons described in (i) and (ii) above.

(b) This contract shall cease to be exempt from the Renegotiation Act of 1951, as amended, if all of the requirements for exemption set forth in paragraph (a) above are not met at all times during the performance of this contract. If the Contractor does not meet all of these requirements during the entire performance of this contract, this contract shall be subjected to the Renegotiation Act of 1951, as amended, and to any subsequent act of the United States Congress providing for the renegotiation of contracts, *Provided, however,* That nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the United States Congress heretofore or hereafter enacted. In the event this contract becomes subject to the Renegotiation Act of 1951, it shall be deemed to contain all the provisions required by Section 104 of that Act, and by any such other act, without subsequent contract amendment specifically incorporating such provisions.

(c) The Contractor agrees to insert the provisions of this clause, including this paragraph (c), in all subcontracts, as that term is defined in Section 103g of the Renegotiation Act of 1951, as amended, which meet the requirements for exemption from the Renegotiation Act of 1951 set forth in paragraph (a) hereof. The Contractor agrees to insert the following clause in all subcontracts which do not meet the requirements set forth in paragraph (a):

RENEGOTIATION

(a) To the extent required by law, this contract is subject to the Renegotiation Act of 1951 (50 U.S.C. App. 1211, et seq.), as amended, and to any subsequent act of the United States Congress providing for the renegotiation of contracts. Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the United States Congress heretofore or hereafter enacted. Subject to the foregoing this contract shall be deemed to contain all the provisions required by Section 104 of the Renegotiation Act of 1951, and by any such other act, without subsequent contract amendment specifically incorporating such provisions.

(b) The Contractor agrees to insert the provisions of this clause, including this paragraph (b), in all subcontracts, as that term is defined in Section 103g of the Renegotiation Act of 1951, as amended.

§ 7.103–14 [Reserved]

§ 7.103–15 Soviet-controlled areas.

In accordance with the requirements of § 6.403 of this subchapter, insert the contract clause set forth therein.

§ 7.103–16 Eight-hour law of 1912—overtime compensation.

Insert the contract clause set forth in § 12.303–1 of this subchapter. Note the introductory provision required by § 12.303–2 of this subchapter in the case of contracts with a State or political subdivision thereof.

§ 7.103–17 Walsh-Healey Public Contracts Act.

Insert the clause set forth in § 12.604 of this subchapter.

§ 7.103–18 Nondiscrimination in employment.

Insert the clause set forth in § 12.802 of this subchapter.

§ 7.103–19 Officials not to benefit.

OFFICIALS NOT TO BENEFIT (JULY 1949)

No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

§ 7.103–20 Covenant against contingent fees.

COVENANT AGAINST CONTINGENT FEES (JAN. 1958)

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

§ 7.103–21 Termination for convenience of the Government.

Insert the contract clause appropriate for use in fixed-price supply contracts as set forth in Part 8, Subpart G, of this subchapter, §§ 8.701 and 8.705.

§ 7.103–22 Authorization and consent.

Insert the contract clause set forth in § 9.102–1 of this subchapter.

§ 7.103–23 Notice and assistance regarding patent infringement.

Insert the contract clause set forth in § 9.104 of this subchapter.

§ 7.104 Clauses to be used when applicable.

§ 7.104–1 Davis-Bacon Act.

In accordance with the requirements of Subpart D of Part 12 of this subchapter, insert the applicable contract clauses set forth in § 12.403–1 or § 12.403–4 of this subchapter, as the case may be.

§ 7.104–2 Copeland Act.

In accordance with the requirements of Subpart D of Part 12 of this subchapter, insert the applicable contract clauses set forth in §§ 12.403–1 or 12.403–4, as the case may be.

§ 7.104–3 Buy American Act.

In accordance with the requirements of § 6.104–5 of this chapter, insert the clause set forth therein.

§ 7.104–4 Notice to the Government of labor disputes.

Insert the clause set forth below in all contracts involving the furnishing or production of any item on the Department of Defense Master Urgency List and in any other contract of a class or kind which the Head of the Procuring Activity concerned determines to be appropriate for the use of such a clause.

NOTICE TO THE GOVERNMENT OF LABOR DISPUTES (SEPT. 1958)

(a) Whenever the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice thereof, including all relevant information with respect thereto, to the Contracting Officer.

(b) The Contractor agrees to insert the substance of this clause including this paragraph (b), in any subcontract hereunder as to which a labor dispute may delay the timely performance of this contract; except that each such subcontract shall provide that in the event its timely performance is delayed or threatened by delay by any actual or potential labor dispute, the subcontractor shall immediately notify its next higher tier subcontractor, or the prime contractor, as the case may be, of all relevant information with respect to such dispute.

§ 7.104–5 Patent indemnity.

In accordance with the requirements of § 9.103 of this chapter, insert the appropriate contract clause, with additional provisions as prescribed, set forth in said section.

§ 7.104–6 Filing of patent applications.

In accordance with the requirements of § 9.106 or § 9.106–1 of this subchapter, insert either of the contract clauses set forth therein, as appropriate.

§ 7.104–7 Patent rights.

In accordance with the requirements of § 9.107 of this chapter, insert the appropriate clause with additional provisions as prescribed, set forth in said section.

§ 7.104–8 Reporting of royalties.

In accordance with the requirements of § 9.110 of this chapter, insert the contract clause set forth therein.

§ 7.104–9 Rights in data.

In accordance with the requirements of Subpart B of Part 9 of this chapter, insert one of the contract clauses set forth in § 9.203 or § 9.204 of this chapter, as appropriate.

§ 7.104–10 Ground and flight risk.

In all negotiated fixed-price typed contracts for production or modification of aircraft (or missiles having the general characteristics of aircraft), insert the clause set forth in § 10.404 of this subchapter.

§ 7.104–11 Excess profit.

(a) Pursuant to 10 U.S.C. 2382 and 7300 and except as provided in (b) and (c) below, any contract in an amount which exceeds or may exceed $10,000 known to be for the construction or manufacture of all or part of any complete aircraft or naval vessel, shall contain the following clause, except that the words "if this contract is in an amount which exceeds $10,000" may be inserted at the beginning of the clause in formally advertised contracts:

EXCESS PROFITS (JUNE 1957)

The Contractor agrees that, unless otherwise provided by law, this contract shall be subject to all the provisions of 10 U. S. C. 2382 and 7300 and shall be deemed to contain all the agreements required by those sections: *Provided, however,* That this clause shall not be construed to enlarge or extend by contract the obligations imposed by those sections. The Contractor agrees to insert in the subcontracts specified in those sections either the provisions of this clause or the provisions required by those sections.

(b) In any contract where only certain items or lots totaling more than $10,000 are subject to 10 U. S. C. 2382 or 7300, the foregoing clause should be modified to make the agreement of the contractor applicable only to such items or lots. In any contract where only certain items or lots totaling $10,000 or less would otherwise be subject to 10 U. S. C. 2382 or 7300, the foregoing clause should not be included in the contract even though the total amount of the entire contract exceeds $10,000.

(c) In any contract, otherwise subject to 10 U. S. C. 2382 or 7300, for scientific equipment used for communication, target detection, navigation or fire control, as designated by the Secretary, the clause prescribed in (a) above shall not be included, and the following clause shall be inserted in lieu thereof:

EXCESS PROFIT (JUNE 1957)

The Secretary having designated the supplies called for by this contract to be scientific equipment used for communication, target detection, navigation or fire control, the provisions of 10 U. S. C. 2382 and 7300, are not applicable to this contract.

§ 7.104–12 Military security requirements.

Insert the following clause in all contracts which are classified by a Department as "Confidential," including "Confidential—Modified Handling Authorized," or higher and in any other contracts the performance of which will require access to such classified information or material, except that this clause shall not be used in contracts performed outside the United States, its Territories, its possessions, and Puerto Rico. In those cases where the situation so warrants because of the nature of the item, or conditions under which it is to be produced, the contract shall provide and establish by a separate contract provision such additional security safeguards as may be required for the protection of that item. When the "Military Security Requirements" clause is inserted in any contract, the contracting officer or his authorized representative shall prepare and transmit to the contractor, material inspector, security office of the cognizant Military Department of the facility receiving the prime contract, and such other agencies as may be determined by the Departments, a Security Requirements Check List (DD Form 254) in accordance with § 16.811 of this subchapter. The Security Requirements Check List will also be furnished by the contracting Military Department to the cognizant security office when a classified subcontract is placed under a prime contract which contains the "Military Security Requirements" clause. However, if the procurement is for a research contract, consultant service, or graphic arts service, in which there is no requirement for a breakdown by classification of the various elements of the contract, or subcontract, a letter or other written notice of classification for the entire contract may be used in lieu of the Security Requirements Check List.

MILITARY SECURITY REQUIREMENTS (JUNE 1958)

(a) The provisions of this clause shall apply to the extent that this contract involves access to information classified "Confidential" including "Confidential—Modified Handling Authorized" or higher.

(b) The Government shall notify the Contractor of the security classification of this contract and the elements thereof, and of any subsequent revisions in such security classification, by the use of a Security Requirements Check List (DD Form 254), or other written notification.

(c) To the extent the Government has indicated as of the date of this contract or thereafter indicates security classification under this contract as provided in paragraph (b) above, the Contractor shall safeguard all classified elements of this contract and shall provide and maintain a system of security controls within its own organization in accordance with the requirements of:

(1) The Security Agreement (DD Form 441), including the Department of Defense Industrial Security Manual for Safeguarding Classified Information as in effect on date of this contract, and any modification to the Security Agreement for the purpose of adapting the Manual to the Contractor's business; and

(2) Any amendments to said Manual made after the date of this contract, notice of which has been furnished to the Contractor by the Security Office of the Military Department having security cognizance over the facility.

(d) Representatives of the Military Department having security cognizance over the facility and representatives of the contracting Military Department shall have the right to inspect at reasonable intervals the procedures, methods, and facilities utilized by the Contractor in complying with the security requirements under this contract. Should the Government, through these representatives, determine that the Contractor is not complying with the security requirements of this contract the Contractor shall be informed in writing by the Security Office of the cognizant Military Department of the proper action to be taken in order to effect compliance with such requirements.

(e) If subsequent to the date of this contract, the security classifications or security requirements under this contract are changed by the Government as provided in this clause and the security costs under this contract are thereby increased or decreased, the contract price shall be subject to an equitable adjustment by reason of such increased or decreased costs. Any equitable adjustment shall be accomplished in the same manner as if such changes were directed under the "Changes" clause in this contract.

(f) The Contractor agrees to insert, in all subcontracts hereunder which involve access to classified information, provisions which shall conform substantially to the language of this clause, including this paragraph (f) but excluding the last sentence of paragraph (e) of this clause.

(g) The Contractor also agrees that it shall determine that any subcontractor proposed by it for the furnishing of supplies and services which will involve access to classified information in the Contractor's custody has been granted an appropriate facility security clearance, which is still in effect, prior to being accorded access to such classified information.

§ 7.104–13 Preference for certain domestic commodities.

In accordance with the requirements of § 6.305 of this chapter, insert the clause set forth therein.

§ 7.104–14 Utilization of small business concerns.

Insert the clause set forth below in all fixed-price supply contracts, in amounts exceeding $5,000, except those contracts entered into with foreign contractors which are to be performed outside of the United States, its Territories, its possessions, and Puerto Rico.

UTILIZATION OF SMALL BUSINESS CONCERNS (JAN. 1958)

(a) It is the policy of the Government as declared by the Congress that a fair proportion of the purchases and contracts for supplies and services for the Government be placed with small business concerns.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to small business concerns that the Contractor finds to be consistent with the efficient performance of this contract.

§ 7.104–15 Examination of records.

Pursuant to 10 U.S.C. 2313(b), the following clause will be inserted in all negotiated fixed-price supply contracts in excess of $2,500, except as provided in § 6.701 of this subchapter.

EXAMINATION OF RECORDS (JAN. 1959)

(a) The Contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under this contract, have access to and the right to examine any directly pertinent books, documents, papers and records of the Contractor involving transactions related to this contract.

(b) The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under the subcontract, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (i) purchase orders not exceeding $1,000 and (ii) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

§ 7.104–16 Gratuities.

Insert the clause set forth below in all fixed price supply contracts and purchase orders, except contracts and purchase orders with foreign governments obligating solely funds other than those contained in Department of Defense appropriation acts.

GRATUITIES (MAR. 1952)

(a) The Government may, by written notice to the Contractor, terminate the right of the Contractor to proceed under this contract if it is found, after notice and hearing,

by the Secretary or his duly authorized representative, that gratuities (in the form of entertainment, gifts, or otherwise) were offered or given by the Contractor, or any agent or representative of the Contractor, to any officer or employee of the Government with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing, of such contract: *Provided*, That the existence of the facts upon which the Secretary or his duly authorized representative makes such findings shall be in issue and may be reviewed in any competent court.

(b) In the event this contract is terminated as provided in paragraph (a) hereof, the Government shall be entitled (i) to pursue the same remedies against the Contractor as it could pursue in the event of a breach of the contract by the Contractor, and (ii) as a penalty in addition to any other damages to which it may be entitled by law, to exemplary damages in an amount (as determined by the Secretary or his duly authorized representative) which shall be not less than three nor more than ten times the costs incurred by the Contractor in providing any such gratuities to any such officer or employee.

(c) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

§ 7.104–17 Convict labor.

In accordance with the requirements of Subpart B of Part 12 of this subchapter, insert the contract clause set forth in § 12.203 of this subchapter.

§ 7.104–18 Priorities, allocations and allotments.

In accordance with the requirements of § 1.307–2 of this subchapter insert the following clause:

PRIORITIES, ALLOCATIONS AND ALLOTMENTS (JAN. 1955)

The Contractor agrees, in the procurement and use of materials required for the performance of this contract, to comply with the provisions of all applicable rules and regulations of the Business and Defense Services Administration, including Defense Materials System regulations.

§ 7.104–19 Cargo preference act.

In accordance with the requirements of § 1.1404 of this subchapter, insert one of the contract clauses set forth therein as appropriate.

§ 7.104–20 Utilization of concerns in labor surplus areas.

Insert the clause set forth below in all fixed-price supply contracts, in amounts exceeding $5,000, except those contracts entered into with foreign contractors which are to be performed outside of the United States, its possessions, and Puerto Rico.

UTILIZATION OF CONCERNS IN LABOR SURPLUS AREAS (OCT. 1960)

It is the policy of the Government to place supply contracts with suppliers who will perform such contracts substantially in areas of persistent or substantial labor surplus where this can be done, consistent with the efficient performance of the contract, at prices no higher than are obtainable elsewhere. The Contractor agrees to use the best efforts to place his subcontracts in accordance with this policy. In complying with the foregoing and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns," the Contractor in placing his subcontracts shall observe the following order of preference: (i) persistent labor surplus area concerns which are also small business concerns; (ii) other persistent labor surplus area concerns; (iii) substantial labor surplus area concerns which are also small business concerns; (iv) other substantial labor surplus area concerns; and (v) small business concerns which are not labor surplus area concerns.

§ 7.104–21 Limitation on withholding of payments.

(a) Except as provided in paragraph (b) of this section, the following clause shall be inserted in contracts which include more than one clause or Schedule provision authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed:

LIMITATION ON WITHHOLDING OF PAYMENTS (SEPT. 1958)

If more than one clause or Schedule provision of this contract authorizes the temporary withholding of amounts otherwise payable to the Contractor for supplies delivered or services performed, the total of the amounts so withheld at any one time shall not exceed the greatest amount which may be withheld under any one such clause or Schedule provision at that time: *Provided*, That this limitation shall not apply to:

(1) Withholdings pursuant to any clause relating to wages or hours of employees;

(2) Withholdings not specifically provided for by this contract; and

(3) The recovery of overpayments.

(b) The clause set forth in paragraph (a) of this section is not required where:

(1) The contracting officer or the procuring activity determines that the withholding limitation in the said clause is incompatible with the purpose of the particular withholding provisions involved; or

(2) All of the contract clauses or Schedule provisions (in excess of one) which provide for the withholding of payments either (i) are exempt from the limitations in the clause set forth in paragraph (a) of this section under the proviso thereof, or (ii) provide that their withholding provisions do not require any additional withholdings where the amounts required to be withheld under them is being withheld under other provisions of the contract.

If it is determined that the withholding limitation in the clause set forth in paragraph (a) of this section is incompatible with the purpose of particular withholding provisions, the said clause may be omitted or modified to make it inapplicable to such withholding provisions.

§ 7.104–22 Defense Subcontracting Small Business Program.

In accordance with § 1.707–2(b) of this subchapter insert the following clause:

DEFENSE SUBCONTRACTING SMALL BUSINESS PROGRAM (OCT. 1960)

(a) The Contractor agrees to establish and conduct a program to afford small business concerns an equitable opportunity to compete for Defense subcontracts within their capabilities. In this connection, the Contractor shall:

(i) designate a small business liaison officer, who will (A) maintain liaison with duly authorized representatives of the Government on small business matters, (B) supervise compliance with the clause of this contract entitled Utilization of Small Business Concerns, and (C) administer the Contractor's Small Business Program;

(ii) assure that small business concerns will have an equitable opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate small business participation;

(iii) maintain records showing (A) whether each prospective subcontractor is a small business concern; and (B) procedures which have been adopted to comply with the policies set forth in this clause;

(iv) include the "Utilization of Small Business Concerns" clause in subcontracts which offer substantial small business subcontracting opportunities; and

(v) submit DD Form 1140 reports, in triplicate, to the Military Department that reviews his subcontracting program, except that where the Contractor elects to report on a corporate rather than a plant basis, he may submit his reports to the Military Department having industrial readiness planning responsibility at the corporate headquarters.

(b) A "Small business concern" is a concern that:

(i) is independently owned and operated, is not dominant in its field of operations and with its affiliates, employs fewer than 500 employees; or

(ii) is certified as a small business concern by the Small Business Administration.

(c) The Contractor further agrees to insert, in any subcontract hereunder which is in excess of $1,000,000 and which contains the clause entitled "Utilization of Small Business Concerns," provisions which shall conform substantially to the language of this clause, including this paragraph (c); except that a subcontractor will submit the DD Form 1140 reports to the Military Department having industrial readiness planning responsibility or plant cognizance. (A subcontractor may request advice from the nearest military purchasing or contract administration activity as to the Military Department to which he should submit his reports.)

§ 7.104–23 Subcontracts.

In accordance with the requirements of § 3.903–1 of this chapter, insert an appropriate Subcontracts clause.

§ 7.104–24 Government-furnished property.

In accordance with the requirements of § 13.502 of this subchapter, insert the appropriate Government-furnished Property clause.

§ 7.104–25 Special tooling.

In accordance with the requirements of § 13.504 of this subchapter, insert the appropriate Special tooling clause.

§ 7.104–26 Changes to make or buy program.

In accordance with the requirements of § 3.902(d) of this subchapter, insert the clause set forth therein.

§ 7.104–27 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in §12.102–3(c) of this chapter.

§ 7.104–28 Quality Control System.

In all contracts for complex supplies other than (a) standard commercial items and (b) items being purchased under specifications which in themselves contain adequate inspection and quality control provisions, insert the following clause:

QUALITY CONTROL SYSTEM (JULY 1960)

The Contractor shall provide and maintain a quality control system acceptable to the Government for the supplies covered by this contract. The system of quality control shall be in accordance with Military Specification MIL–Q–9858.

The last sentence of the foregoing clause may be omitted if the application of Military Specification MIL–Q–9858 would be incompatible with the technical objective of the contract, required procurement, management flexibility, or military urgency: *Provided*, That when it is so omitted, the control shall provide by specification, exhibit, or otherwise, that the contractor shall maintain quality control measures for all manufacturing processes and documentation pertinent to quality, testing and inspection, fabrication, and delivery.

§ 7.105 Additional clauses.

The following clauses shall be inserted in fixed-price supply contracts in accordance with Department procedures when it is desired to cover the subject matter thereof in such contracts.

§ 7.105–1 Alterations in contract.

ALTERATIONS IN CONTRACT (JULY 1949)

The following alterations have been made in the provisions of this contract:

§ 7.105–2 Approval of contract.

APPROVAL OF CONTRACT (JULY 1949)

This contract shall be subject to the written approval of ---------- or his duly authorized representative and shall not be binding until so approved.

§ 7.105–4 Notice of shipments.

NOTICE OF SHIPMENTS (JULY 1949)

At the time of delivery of any shipment of supplies to a carrier for transportation, the Contractor shall give prepaid notice of shipment to the consignee establishment, and to such other persons or installations designated by the Contracting Officer, in accordance with instructions of the Contracting Officer. If such instructions have not been received by the Contractor at least 24 hours prior to such delivery to a carrier, the Contractor shall request instructions from the Contracting Officer concerning the notice of shipment to be given.

§ 7.105–5 Liquidated damages.

In accordance with § 1.310, where a liquidated damages provision is to be used in a supply contract, the following provision shall be inserted as paragraph (f) of the Default clause (§ 8.707 of this subchapter) and the present paragraph (f) of that clause shall be redesignated "(g)":

(f) If the Contractor fails to deliver the supplies or perform the services within the time specified in this contract, or any extension thereof, the actual damage to the Government for the delay will be difficult or impossible to determine. Therefore in lieu of actual damages the Contractor shall pay to the Government as fixed, agreed, and liquidated damages for each calendar day of delay the amount set forth elsewhere in this contract. Alternatively, the Government may terminate this contract in whole or in part as provided in paragraph (a) of this clause, and in that event the Contractor shall be liable, in addition to the excess costs provided in paragraph (b) above, for such liquidated damages accruing until such time as the Government may reasonably obtain delivery or performance of similar supplies or services. The Contractor shall not be charged with liquidated damages when the delay arises out of causes beyond the control and without the fault or negligence of the Contractor, as defined in paragraph (c) above, and in such event, subject to the "Disputes" clause, the Contracting Officer shall ascertain the facts and extent of the delay and shall extend the time for performance of the contract when in his judgment the findings of fact justify an extension.

§ 7.105–6 Bill of Materials.

A Bill of Materials consists of a report by a supplier which specifies the quantities of various materials required to produce a designated quantity of supplies of a particular kind. A Bill of Materials, with respect to all or part of the supplies to be furnished pursuant to a contract, shall be required only if the Contracting Officer, in accordance with the procedures of the Department concerned, shall determine that such bill is necessary to develop materials or components requirements for production and maintenance programs, for industrial mobilization purposes, or for other specified purposes. In such event, the contract shall specify, with respect to such bill, the following:

(a) The supplies or parts thereof to be covered by the Bill of Materials;

(b) The type of bill or bills (Detailed, Modified, Expanded Summary, or Abbreviated Summary) to be furnished, with applicable instructions;

(c) The compensation to be paid the contractor for furnishing such bill and any revisions thereto, or a statement that the price of the item to which the bill relates includes compensation for the furnishing of such bill;

(d) The number and kind of copies of such bill to be furnished; and,

(e) Delivery dates.

In such event, the contract shall also include the following clause:

BILL OF MATERIALS (APR. 1955)

(a) With respect to the supplies to be delivered pursuant to the contract, for which a Bill of Materials is required, the Contractor shall furnish a Bill of Materials in the required number of copies on Department of Defense Forms 346, and 347 if applicable, or authorized reproductions thereof, in accordance with the instructions specified in the Schedule.

(b) The Contractor shall furnish to the Government, at such intervals as designated in the Schedule, revised pages of the Bill of Materials incorporating the effect of any changes, pursuant to the clause hereof entitled "Changes," in the quantity of any material or part, or any other information contained in the Bill of Materials, or a statement that no revision is necessary. A final revision, or statement that no revision is necessary, shall be furnished upon completion of performance of the contract.

(c) The Bill of Materials and all revisions or statements subsequent thereto shall be subject to inspection and acceptance by the Government.

Where a Bill of Materials is procured by contract separate from the supplies to which such Bill of Materials relates, such contract shall include such of the terms mentioned above as may be appropriate and shall specify that the Bill of Materials shall be furnished on DD Forms 346, and 347 if applicable, or authorized reproductions thereof. The contractor shall not be required to obtain data for the Bill of Materials in greater detail from a subcontractor than he is to furnish under the terms of the above clause.

§ 7.105–7 Material inspection and receiving report.

The following clause may be inserted to the extent authorized by Departmental procedures.

MATERIAL INSPECTION AND RECEIVING REPORT (JULY 1958)

At the time of each delivery under this contract the Contractor shall prepare and furnish to the Government, in the manner and to the extent required by the Contracting Officer, a Material Inspection and Receiving Report (DD Form 250 or comparable form). The Government shall furnish the required forms to the Contractor upon request.

§ 7.105–8 Stop work orders.

(a) *Use of clause.* The clause set forth in paragraph (c) of this section is authorized for use in any negotiated fixed-price type contract under which work stoppage may be required for reasons such as advancements in the state of the art, production or engineering break-throughs, or realignment of programs.

(b) *Use of orders.* (1) Inasmuch as stop work orders may result in increased costs to the Government by reason of standby costs, such orders will be issued only with prior approval at a level above the contracting officer. Generally, use of a stop work order will be limited to those situations where it is advisable to suspend work pending a decision by the Government and a supplemental agreement providing for such suspension is not feasible. Although a stop work order may be used pending a decision to terminate for convenience, it will not be used pending a decision to terminate for default, nor will it be used in lieu of the issuance of a termination notice after a decision to terminate has been made.

(2) Stop work orders should include (i) a clear description of the work to be suspended, (ii) instructions as to the issuance of further orders by the contractor for material or services, (iii) guidance as to action to be taken on subcontracts, and (iv) other suggestions to the contractor for minimizing costs. Promptly, after issuance, stop work orders should be discussed with the contractor and should be modified, if necessary, in the light of such discussions.

(3) As soon as feasible after a stop work order is issued, (i) the contract will be terminated; or (ii) the stop work order will either be canceled or—if necessary and if the contractor agrees—be extended beyond the period specified in the order. In any event, this must be done before the specified stop work period expires. Where an extension of the stop work order is necessary, it shall

be evidenced by a supplemental agreement. Any cancellation of a stop work order shall be subject to the same approvals as were required for the issuance of the order.

(c) *Clause.*

STOP WORK ORDER (JULY 1960)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of ninety (90) * days after the order is delivered to the Contractor, and for any further period to which the parties may agree. Any such order shall be specifically identified as a Stop Work Order issued pursuant to this clause. Upon receipt of such an order, the Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of ninety (90) * days after a stop work order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either—

(i) cancel the stop work order, or

(ii) terminate the work covered by such order as provided in the "Termination for Convenience" clause of this contract.

(b) If a stop work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. An equitable adjustment shall be made in the delivery schedule or contract price, or both, and the contract shall be modified in writing accordingly, if—

(i) the stop work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract, and

(ii) the Contractor asserts a claim for such adjustment within thirty (30) days after the end of the period of work stoppage; provided that, if the Contracting Officer decides the facts justify such action, he may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(c) If a stop work order is not canceled and the work covered by such order is terminated for the convenience of the Government, the reasonable costs resulting from the stop work order shall be allowed in arriving at the termination settlement.

*The clause may provide for less than ninety days.

§ 7.106 Price escalation clauses (established prices).

This section sets forth uniform clauses for use when it is desired to provide for price escalation in the event of changes in the contractor's established prices. Each clause is preceded by a statement of the conditions under which it may be used.

§ 7.106–1 Escalation clause for basic steel, aluminum, brass, bronze or copper mill products.

The following price escalation clause is authorized for use in advertised or negotiated fixed-price supply contracts for basic steel, aluminum, brass, bronze or copper mill products, such as sheets, plates and bars, when an established price exists for the particular supply being procured. The percentage figure to be used in paragraph (d)(3) of the clause shall not exceed 10 percent.

PRICE ESCALATION (FEB. 1958)

(a) The Contractor warrants that the unit prices stated herein, excluding any part of the prices which reflects requirements for preservation, packaging and packing, beyond standard commercial practice, are not in excess of the Contractor's applicable established prices in effect on the date set for opening of bids (or the contract date, if this is a negotiated contract rather than one entered into by means of formal advertising) for like quantities of the supplies covered by this contract.

(b) The Contractor shall promptly notify the Contracting Officer as to the amount and effective date of each decrease in any established price, and each applicable unit price shall be decreased by the amount of the decrease in the applicable established price. Any such decrease in a unit price shall apply to those supplies delivered on and after the effective date of each applicable decrease in the Contractor's established price, and this contract shall be amended accordingly. The Contractor shall certify on each invoice submitted under the contract that each unit price stated therein reflects all decreases, if any, which the Contractor had made in the established price applicable thereto, since the date set for opening of bids (or the contract date, if this is a negotiated contract rather than one entered into by formal advertising), or shall certify on the final invoice that all such decreases have been applied to supplies delivered on and after the effective date of each such decrease in the Contractor's established prices.

(c) The Contractor may from time to time after the date of this contract and during the performance hereof, by written notice to the Contracting Officer, request an upward adjustment in any of the contract unit prices to be effective as of a date to be specified by the Contractor. Such request shall be acted upon in accordance with the following provisions of this clause.

(d) An upward adjustment in a contract unit price may be made under this clause only in accordance with the following conditions:

(1) Such an upward adjustment shall be made only if the Contractor's applicable established price has increased subsequent to the date set for opening of bids (or the contract date, if this is a negotiated contract rather than one entered into by means of formal advertising).

(2) No unit price shall be increased by an amount greater than the amount of the increase in the Contractor's applicable established price.

(3) The aggregate of the increases in any unit price made under this clause shall not exceed _____ percent of the original applicable contract unit price.

(4) No adjusted unit price shall be effective earlier than the effective date of the increase in the applicable established price, but if the Contractor's request for adjustment is received by the Contracting Officer more than ten days after the effective date of the increase in the Contractor's applicable rate, no adjusted unit price shall be effective earlier than the date of receipt by the Contracting Officer of such request.

(5) No upward adjustment in unit prices hereunder shall apply to supplies which were required by the contract delivery schedule to be delivered prior to the effective date of the related increase in the applicable established price, unless the Contractor's failure to deliver supplies in accordance with the delivery schedule results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of paragraph (c) of the clause of this contract entitled "Default," in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(e) In the event the requested upward adjustment in any contract unit price is acceptable to the Contracting Officer, he shall so notify the Contractor, and the contract shall be amended accordingly. In the event the requested upward adjustment is not acceptable to the Contracting Officer, or if the Contracting Officer does not reach an agreement with the Contractor with respect to a price increase, the Contracting Officer may, within 30 days after receipt of the Contractor's request, cancel without liability to either party the Contractor's right to proceed with performance of that portion of the contract which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the company shall certify were completed or in the process of manufacture at the time of receipt of notice of such cancellation. In such event the Government shall pay for all supplies so delivered at the applicable unit price contained in the Contractor's request, and the contract shall be amended accordingly; provided, that such certification is made within 10 days after receipt of notice of such cancellation, and provided further that such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (d). In the event this contract is for standard steel supplies, they shall be deemed to be in the process of manufacture when the steel therefor is in any state of processing after the beginning of the furnace melt.

(f) During the period after the Contractor has requested an upward adjustment, and prior to an agreement between the parties with respect to the request or cancellation of the contract pursuant to paragraph (e), the Contractor shall continue deliveries according to the terms of the contract. The Contractor shall be paid for such deliveries at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d), and provided further that if the parties agree on an increase less than that requested, payments previously made at the requested amount shall be adjusted accordingly. If the Contracting Officer neither reaches an agreement with the Contractor on the requested adjustment, nor cancels the contract, the Contractor shall continue deliveries according to the terms of the contract, and the Contractor shall be paid therefor at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d).

§ 7.106–2 Escalation clause for nonstandard steel items.

The following price escalation clause is authorized for use in advertised or in negotiated fixed-price supply contracts when:

(a) The contractor is a steel producer and actually manufactures the standard steel mill item referred to in paragraph (d) of the clause; and

(b) The items being procured are nonstandard steel items made wholly or in major part of standard steel mill items. When this clause is included in invitations for bids, Note (8) is inapplicable and shall be omitted. Invitations for bids or requests for proposals shall instruct bidders or offerors, as appropriate, to complete all blanks in accordance with the applicable notes.

PRICE ESCALATION (MAR. 1958)

(a) The Contractor represents that the unit prices set forth in this contract do not include any contingency allowance to cover the possibility of increased costs of performance resulting from increases in either (i) the Contractor's rates of pay for labor employed by it, or (ii) the prices which the Contractor charges its manufacturing shops for the steel required in the performance of this contract.

(b) Each contract unit price shall be subject to revision, pursuant to the provisions of this clause, to reflect changes in the cost of labor and steel. For the purpose of any such price revision, the proportion of the contract unit price attributable to costs of labor not otherwise included in the price of the steel item identified in paragraph (d) below shall be _____ percent, and the proportion of the contract unit price attributable to the cost of steel shall be _____ percent. [See Note (1).]

(c) For the purposes of this paragraph, the term "labor index" shall mean the average straight time hourly earnings of the Contractor's employees in the _____ shop of the Contractor's _____ plant [see Note (2)] for any particular month. The word "month" as used herein means "calendar month"; *provided*, however, that if the Contractor's accounting period does not coincide with the calendar month, then such accounting period shall be used throughout the clause in lieu of "month." Unless otherwise specified in this contract, the labor index shall be computed by dividing the total straight time earnings of the Contractor's employees in the particular shop identified above for any given month by the total number of straight time hours worked by such employees in that month. Any revision in a contract unit price to reflect changes in the cost of labor shall be computed solely by reference to the "base labor index," which shall be the average of the labor indices for the three months consisting of the month of _____, 19__, [see Note (3)] the month immediately preceding and the month immediately following, and to the "current labor index," which shall be the average of the labor indices for the month in which delivery of supplies is required to be made in accordance with the terms of this contract and the month preceding.

(d) Any revision in a contract unit price to reflect changes in the cost of steel shall be computed solely by reference to the "base steel index," which shall be the Contractor's established or published price to the public [see Note (8)] including all applicable extras of $_____ per _____ [see Note (4)] for _____ [see Note (5)] on _____, 19__ [see Note (6)] and the "current steel index," which shall be the Contractor's established or published price to the public [see Note (8)] of said item including all applicable extras in effect _____ days [see Note (7)] prior to the first day of the month in which delivery of supplies is required to be made in accordance with the terms of the contract.

(e) Each contract unit price shall be revised for each month in which, by the terms of this contract, delivery of supplies is required to be made, and such revised contract unit price shall apply to the deliveries of those quantities of supplies required to be made in that month regardless of when actual delivery be made of said quantities of supplies. Each revised contract unit price for any month shall be computed by adding together the following three amounts: (i) the amount (representing the adjusted cost of labor) obtained by multiplying _____ percent of the contract unit price by a fraction, the numerator of which shall be the current labor index and the denominator of which shall be the base labor index; (ii) the amount (representing the adjusted cost of steel) obtained by multiplying _____ percent of the contract unit price by a fraction, the numerator of which shall be the current steel index and the denominator of which shall be the base steel index; and (iii) the amount equal to _____ percent of the original contract unit price (representing that portion of such unit price which relates neither to the cost of labor nor to the cost of steel and which is therefore not subject to revision); [see Note (1)]: *Provided, however*, That any revised contract unit price made pursuant to the provisions of this clause shall in no event exceed 110 percent of the original contract unit price. All computations shall be made to the nearest one-hundredth of one cent.

(f) Pending revisions of the contract unit prices, if any, to be made pursuant to this clause, the Contractor shall be paid the contract unit prices for deliveries made. Within thirty days after the final delivery of supplies, or within such further period of time as may be authorized by the Contracting Officer, the Contractor shall furnish a statement setting forth and certifying the correctness of (i) the average straight time hourly earnings of the Contractor's employees in the shop of the Contractor identified in paragraph (c) above which earnings are relevant to the computations of the "base labor index" and the "current labor index," and (ii) the Contractor's established or published prices to the public [see Note (8)] including all applicable extras, for like quantities of the item identified in paragraph (d) above, which prices are relevant to the computation of the "base steel index" and the "current steel index." Upon request of the Contracting Officer or his duly authorized representative, the Contractor shall make available its records used in the computation of the labor indices. After the receipt of such certificate by the Contracting Officer, the revised contract unit prices shall be computed in accordance with the provisions of this clause, and this contract shall be amended accordingly.

(g) In the event of any total or partial termination of any item of this contract for the convenience of the Government, the month in which notice of such termination is received by the Contractor, if prior to the month in which delivery is required by this contract, shall be considered the month in which delivery of such terminated or partially terminated item is required for the purpose of determining the current labor and materials indices under paragraphs (c) and (d) hereof: *Provided, however*, That as to the quantity of such item which is not terminated for convenience, the month in which delivery is required by this contract shall continue to apply for determining said indices. In the case of termination of any item for default on the part of the Contractor, any price revision shall be limited to the quantity of each item which has been delivered by the Contractor and accepted by the Government prior to receipt by the Contractor of notice of termination for default.

(h) As used in this clause the phrase "the month in which delivery of supplies is required to be made in accordance with the terms of this contract" shall mean any month in which under the terms of this contract a specific quantity of units of the supplies called for by this contract is required to be delivered: *Provided, however*, That in case the failure of the Contractor to make delivery of such quantity shall have arisen out of causes beyond the control and without the fault or negligence of the Contractor, within the meaning of paragraph (c) of the clause of this contract entitled "Default," the quantity not delivered shall be required to be delivered as promptly as possible after the cessation of the cause of such failure, and the delivery schedule set forth in this contract shall be amended accordingly.

(i) Failure to agree upon any determination to be made under this clause shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

Notes

(1) Bidder insert the same percentage figures for the corresponding blanks in paragraphs (b) and in (e) (i) and (ii). In paragraph (e) (iii), bidder insert the percentage representing the difference between the sum of the percentages inserted in paragraph (b) and 100 percent.

(2) Bidder identify the shop and plant in which the standard steel mill item identified in paragraph (d) will be finally fabricated or processed into the contract item.

(3) Bidder insert the month of bid opening, or the month in which the Contractor submitted its proposal if this is a negotiated contract.

(4) Bidder insert the unit price and unit of measure of the standard steel mill item used by the Contractor in the manufacture of the contract item.

(5) Bidder identify the standard steel mill item used by the Contractor in the manufacture of the contract item.

(6) Bidder insert the date set for bid opening, or the date of the Contractor's quotation if this is a negotiated contract.

(7) Bidder insert the number of days which represents the Contractor's best estimate of the period of time required for processing the standard steel mill item in the shop identified in paragraph (c).

(8) In negotiated procurements of nonstandard steel items, when there is no established or published price to the public, or when it is not desirable to use such price, this paragraph may refer to another appropriate price basis, such as an established interplant price.

§ 7.106–3 Escalation clause for standard supplies.

The following price escalation clause is authorized for use in negotiated fixed-price supply contracts for standard supplies for which established prices exist. The clause may be used only when the total contract price is over $5,000 and delivery is not to be completed within six months after the contract date. The percentage figure to be used in subparagraph (d)(3) of the clause shall not exceed 10 percent. If any standard trade discounts offered by the contractor against its list or catalog price are taken into account in negotiating the contract unit price, the Contracting Officer's file should contain a statement setting forth the list or catalog price and the discounts. The discounts referred to do not include prompt payment or cash discounts.

PRICE ESCALATION (MAY 1957)

(a) The Contractor warrants that the unit prices stated herein, excluding any part of the prices which reflects requirements for preservation, packaging, and packing beyond standard commercial practice, are not in excess of the Contractor's applicable established prices in effect on the contract date for like quantities of the supplies covered by this contract. The term "established price" as used in this clause is the net price after applying any applicable standard trade discounts offered by the Contractor from its list or catalog price.

(b) The Contractor shall promptly notify the Contracting Officer as to the amount and effective date of each decrease in any applicable established price, and each applicable contract unit price shall be decreased by the same percentage that the applicable established price is decreased. Any such decrease in a unit price shall apply to those supplies delivered on and after the effective

date of each applicable decrease in the Contractor's established price, and this contract shall be amended accordingly. The Contractor shall certify on each invoice submitted under the contract that each unit price stated therein reflects all decreases, if any, which the Contractor had made in the established price applicable thereto, since the contract date; or shall certify on the final invoice that all such decreases have been applied to supplies delivered on and after the effective date of each such decrease in the Contractor's established prices.

(c) The Contractor may from time to time after the date of this contract and during the performance hereof, by written notice to the Contracting Officer, request an upward adjustment in any of the contract unit prices to be effective as of a date to be specified by the Contractor. Such request shall be acted upon in accordance with the following provisions of this clause.

(d) An upward adjustment in a contract unit price may be made under this clause only in accordance with the following conditions:

(1) Such an upward adjustment shall be made only if the Contractor's applicable established price has increased subsequent to the contract date.

(2) No unit price shall be increased by a percentage greater than the percentage increase in the Contractor's applicable established price.

(3) The aggregate of the increases in any unit price made under this clause shall not exceed ------ percent of the original applicable contract unit price.

(4) No adjusted unit price shall be effective earlier than the effective date of the increase in the applicable established price, or the date of receipt by the Contracting Officer of the Contractor's request for adjustment, whichever is the later.

(5) No upward adjustment in unit prices hereunder shall apply to supplies which were required by the contract delivery schedule to be delivered prior to the effective date of the related increase in the applicable established price, unless the Contractor's failure to deliver supplies in accordance with the delivery schedule results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of paragraph (c) of the clause of this contract entitled "Default," in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(e) In the event the requested upward adjustment in any contract unit price is acceptable to the Contracting Officer, he shall so notify the Contractor, and the contract shall be amended accordingly. In the event the requested upward adjustment is not acceptable to the Contracting Officer, or if the Contracting Officer does not reach an agreement with the Contractor with respect to a price increase, the Contracting Officer may, within 30 days after receipt of the Contractor's request, cancel without liability to either party the Contractor's right to proceed with performance of that portion of the contract which is undelivered at the time of such cancellation.

(f) During the period after the Contractor has requested an upward adjustment, and prior to an agreement between the parties with respect to the request, or cancellation of the contract pursuant to paragraph (e), the Contractor shall continue deliveries according to the terms of the contract. The Contractor shall be paid for such deliveries at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d), and provided further that if the parties agree on an increase less than that requested, payments previously made at the requested amount shall be adjusted accordingly. If the Contracting Officer neither reaches an agreement with the Contractor on the requested adjustment, nor cancels the contract, the Contractor shall continue deliveries according to the terms of the contract, and the Contractor shall be paid therefor at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d).

§ 7.106–4 Escalation clause for semistandard supplies.

The following price escalation clause is authorized for use in negotiated fixed-price supply contracts for semistandard supplies, the prices of which can be reasonably related to the prices of nearly equivalent standard supplies for which established prices exist. The clause may be used only when the total contract price is over $5,000 and delivery is not to be completed within six months after the contract date. A clear understanding should be set forth in writing prior to making the contract as to the identity of the standard supply items which are applicable. The percentage figure to be used in subparagraph (d)(3) of the clause shall not exceed 10 percent. If any standard trade discounts offered by the Contractor against its list or catalog price are taken into account in negotiating the contract unit price, the Contracting Officer's file should contain a statement setting forth the list or catalog price and the discounts. The discounts referred to do not include prompt payment or cash discounts. When the supplies being purchased are standard supplies in all respects except for preservation, packaging, and packing requirements, the following clause should not be used; in such cases the Escalation Clause for Standard Supplies, in § 7.106–3, is the appropriate clause.

PRICE ESCALATION (MAY 1957)

(a) The Contractor warrants that the supplies covered by this contract are supplies which the Contractor customarily offers for sale commercially, except for modifications in accordance with the specifications of this contract, and that as of the contract date any differences between the unit prices stated herein and the Contractor's established prices for like quantities of the supplies which are the nearest commercial equivalents of the supplies covered by this contract (herein referred to as "the established prices") are due to compliance with such specifications, and to compliance with any requirements which this contract may contain for preservation, packaging, and packing beyond standard commercial practice. The term "established price" as used in this clause is the net price after applying any applicable standard trade discounts offered by the Contractor from its list or catalog price.

(b) The Contractor shall promptly notify the Contracting Officer as to the amount and effective date of each decrease in any applicable established price, and each applicable contract unit price shall be decreased by the same percentage that the applicable established price is decreased. Any such decrease in a unit price shall apply to those supplies delivered on and after the effective date of each applicable decrease in the Contractor's established price, and this contract shall be amended accordingly. The Contractor shall certify on each invoice submitted under the contract that each unit price stated therein reflects all decreases, if any, which the Contractor had made in the established price applicable thereto, since the contract date, or shall certify on the final invoice that all such decreases have been applied to supplies delivered on and after the effective date of each such decrease in the Contractor's established prices.

(c) The Contractor may from time to time after the date of this contract and during the performance hereof, by written notice to the Contracting Officer, request an upward adjustment in any of the contract unit prices to be effective as of a date to be specified by the Contractor. Such request shall be acted upon in accordance with the following provisions of this clause.

(d) An upward adjustment in a contract unit price may be made under this clause only in accordance with the following conditions:

(1) Such an upward adjustment shall be made only if the Contractor's applicable established price has increased subsequent to the contract date.

(2) No unit price shall be increased by a percentage greater than the percentage increase in the Contractor's applicable established price.

(3) The aggregate of the increases in any unit price made under this clause shall not exceed ---- percent of the original applicable contract unit price.

(4) No adjusted unit price shall be effective earlier than the effective date of the increase in the applicable established price, or the date of receipt by the Contracting Officer of the Contractor's request for adjustment, whichever is the later.

(5) No upward adjustment in unit prices hereunder shall apply to supplies which were required by the contract delivery schedule to be delivered prior to the effective date of the related increase in the applicable established price, unless the Contractor's failure to deliver supplies in accordance with the delivery schedule results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of paragraph (b) of the clause of this contract entitled "Default," in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(e) In the event the requested upward adjustment in any contract unit price is acceptable to the Contracting Officer, he shall so notify the Contractor, and the contract shall be amended accordingly. In the event the requested upward adjustment is not acceptable to the Contracting Officer, or if the Contracting Officer does not reach an agreement with the Contractor with respect to a price increase, the Contracting Officer may, pursuant to the clause of the contract entitled "Termination for Convenience of the Government," terminate the Contractor's right to proceed with performance of that portion of the contract which is undelivered at the time of such termination.

(f) During the period after the Contractor has requested an upward adjustment, and prior to an agreement between the parties with respect to the request, or termination of the contract pursuant to paragraph (e), the Contractor shall continue deliveries according to the terms of the contract. The Contractor shall be paid for such deliveries at the applicable increased unit prices as requested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d), and provided further that if the parties agree on an increase less than that requested, payments previously made at the requested amount shall be adjusted accordingly. If the Contracting Officer either reaches an agreement with the Contractor on the requested adjustment, nor terminates the contract, the Contractor shall continue deliveries according to the terms of the contract, and the Contractor shall be paid therefor at the applicable increased unit prices as re-

quested, provided that such requested increases satisfy all the conditions and do not exceed the limitations of paragraph (d).

§ 7.107 Price escalation clause (labor and material).

(a) The following price escalation clause is authorized for use in negotiated fixed-price supply contracts where (1) the price exceeds $50,000, (2) the period of performance exceeds six months, (3) there is no major element of design engineering or developmental work involved in producing the items being procured, and (4) one or more identifiable labor or material cost factors are subject to change.

(b) The Schedule shall describe in detail the types of labor and materials subject to escalation, the labor rates (including fringe benefits, if any), and unit prices of materials, which may be increased or decreased, and the quantities of labor and specified materials allocable to each unit of supplies to be delivered under the contract. The following sample format illustrates a type of schedule description that may be used:

The following types of labor and material are subject to price escalation pursuant to clause ---- of this contract.

CONTRACT ITEM NO. 1

Types of labor and materials	*Rates of pay and material prices*	*Quantities and direct costs per unit of procurement*
Drill Press Operator.	$3.00/hour, no fringe benefits included.	20 min—$1.00.
Welder	$2.75/hour .05/hour—vacation pay .20/hour—pension plan	
	$3.00	10 min.—$0.50.
Copper Sheet	$0.40/lb.	2 lb.—$0.80.
Purchased parts:		
(1) ABC tube X5721.	$1.00 each	3 ea.—$3.00.
(2) XYZ part No. 9348.	$0.50 each	10 ea.—$5.00.

The percentage figure to be used in subparagraph (d) (vi) of the clause shall not exceed 10 percent.

(c) In negotiating adjustments under the clause, the contracting officer shall consider work in process and materials on hand at the time of changes in labor rates or materials prices since these elements may have a significant impact on equitable price adjustments.

PRICE ESCALATION (JAN. 1958)

(a) The Contractor warrants that the prices set forth in this contract do not include any allowance for any contingency to cover increased costs of performance resulting from increases (i) the Contractor's rates of pay for labor or (ii) the unit prices for materials, set forth in the Schedule.

(b) If at any time during the performance of this contract there is an increase or decrease in the rates of pay for labor or unit prices for materials set forth in the Schedule, the Contractor shall notify the Contracting Officer thereof within 60 days of such increase or decrease or within such further period as may be approved in writing by the Contracting Officer, but in any event not later than final payment under the contract. Such notice shall include the Contractor's proposal for an equitable adjustment in the contract unit prices to be negotiated in accordance with paragraph (c) below and shall be accompanied by data, in such form as the Contracting Officer may require, explaining (i) the causes, (ii) the effective date, and (iii) the amount, both of the increase or decrease and of the Contractor's proposal for an equitable adjustment.

(c) Promptly upon receipt of any notice and data described in (b) above, the Contractor and the Contracting Officer shall negotiate an equitable adjustment, and the effective date thereof, in the contract unit prices to reflect any change in the cost of performance of this contract due to the increase or decrease in rates of pay for labor or unit prices for materials set forth in the Schedule: *Provided, however,* That such negotiations may be postponed by the Contracting Officer until an accumulation of such increases and decreases results in an adjustment allowable under (d) (v). The equitable adjustment and the effective date thereof, shall be set forth in an amendment or supplemental agreement to this contract. Such amendment or supplemental agreement shall also revise the rates of pay for labor or unit prices for materials set forth in the Schedule to reflect the increase or decrease therein. Failure of the parties to agree to an adjustment under this clause shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." Pending agreement on, or determination of, any such adjustment and its effective date, the Contractor shall continue performance.

(d) Notwithstanding any other provision of this clause, any price adjustment under this clause shall be subject to the following limitations:

(i) There shall be no adjustment for supplies whose production cost is not affected by a change in the rates of pay for labor or unit prices for materials set forth in the Schedule;

(ii) There shall be no adjustment other than for increases or decreases in the rates of pay for labor or unit prices for materials set forth in the Schedule;

(iii) There shall be no adjustment for any increase or decrease in the quantities of labor or materials set forth in the Schedule for each item to be delivered hereunder;

(iv) No upward adjustment shall apply to supplies which were required by the contract delivery schedule to be delivered prior to the effective date of the adjustment, unless the Contractor's failure to deliver supplies in accordance with the delivery schedule results from causes beyond the control and without the fault or negligence of the Contractor within the meaning of the clause of this contract entitled "Default," in which case the contract shall be amended to make an equitable extension of the delivery schedule;

(v) Except as provided in (e) below, there shall be no adjustment for any change in rates of pay for labor or unit prices for materials which would not result in a net change of at least three percent of the then current total contract price; and

(vi) There shall be no adjustment upward which would cause any adjusted contract unit price to exceed ------ percent of the corresponding original contract unit price.

(e) If, after delivery of the last unit called for by this contract, either party requests negotiation pursuant to (c) above, the limitations of (d) (v) shall not apply.

(f) The final invoice submitted under this contract shall include a certification that the Contractor has not experienced a decrease in rates of pay for labor or unit prices for materials set forth in the Schedule or that it has given notice of all such decreases in compliance with (b) above.

(g) The Contracting Officer may examine the Contractor's books, records, and other supporting data relevant to the costs of labor and materials during all reasonable times until three years after final payment under this contract.

§ 7.108 Incentive price revision clause.

When in accordance with the provisions of Part 3, Subpart D of this title, the fixed-price incentive contract described in § 3.403–4 (a) (2) is to be used, the following clause shall be made a part of the contract. As to each item, which is to be subject to incentive price revision, the contract schedule shall set forth the target cost, target profit, and target price. Subparagraph (d) (2) of the following clause may be modified to provide, within the price ceiling, for a ceiling, a floor, or both on the final profit.

INCENTIVE PRICE REVISION (JULY 1960)

(a) *Definitions.* As used in this clause, the following terms shall have the meanings set forth below:

(1) The term "target price" means the unit price of any supplies or services under this contract, which is subject to adjustment in accordance with this clause, and is composed of "target cost" and "target profit".

(2) The term "target cost" means that part of the target price which, at the time of its negotiation, was agreed to as the estimate of the unit cost of the supplies or services being procured.

(3) The term "target profit" means that part of the target price which, at the time of its negotiation, was agreed to as the unit profit for furnishing the supplies or services at a cost equal to the target cost.

(4) The term "total target price" means the sum of the target prices.

(5) The term "total target cost" means the sum of the target costs.

(6) The term "total target profit" means the sum of the target profits.

(7) The term "total adjusted cost" means the final negotiated cost of all supplies or services which are subject to price revision under this clause.

(8) The term "total adjusted price" means the final contract price, as computed in accordance with this clause, for all supplies or services which are subject to price revision under this clause.

(b) *General.* The supplies or services identified in the Schedule as Items ------ are subject to price revision in accordance with the provisions of this clause: *Provided,* That in no event shall the total adjusted price of such Items exceed ------ percent (------ percent) of the total target cost. Any supplies or services which are to be ordered separately under, or otherwise added to, this contract, and which are to be subject to price revision in accordance with the provisions of this clause, shall be identified as such in a modification to this contract.

(c) *Submission of data.* Within ------ (------) days after the end of the month in which the Contractor has delivered the last unit of supplies and completed the services called for by those Items listed in paragraph (b) above, the Contractor shall submit in such form as the Contracting Officer may require, (i) a detailed statement of all costs incurred up to the end of that month in performing all work under such Items, and (ii) an estimate of costs of such further performance, if any, as may be necessary to complete performance of all work with respect to such Items.

(d) *Price revision.* Upon submission of the data required by paragraph (c) above, the Contractor and the Contracting Officer shall promptly establish the total adjusted price in accordance with the following:

(1) On the basis of the information required by paragraph (c) above, together with any other pertinent information, there shall be established by negotiation the total ad-

justed cost reasonably incurred or to be incurred for and properly allocable to the supplies delivered (or services performed) and accepted by the Government, which are subject to price revision under this clause.

(2) The total adjusted price shall be established by adding to the total adjusted cost an allowance for profit determined as follows:

When the total adjusted cost is—	*The allowance for profit is—*
Equal to the total target cost.....	Total target profit.
Greater than the total target cost..	Total target profit less .. percent (..%) of the amount by which the total adjusted cost exceeds the total target cost.
Less than the total target cost....	Total target profit plus .. percent (..%) of the amount by which the total adjusted cost is less than the total target cost.

(e) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The Contractor shall segregate the costs of any supplies or services for which the price is fixed and not subject to revision under this clause. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis in connection with the furnishing of the supplies or services identified in paragraph (b) above as being subject to price revision (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence, pertinent to the performance of this contract.

(f) *Certification.* An authorized responsible official of the Contractor shall certify on each statement of costs submitted to the Contracting Officer pursuant to (c) above that the incurred costs are based upon records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs to complete is considered reasonable.

(g) *Subcontracts.* (1) No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve a total price in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may at all reasonable times make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(h) *Contract modifications.* The total adjusted price, as determined in accordance with paragraph (d) above, shall be evidenced by a modification to this contract signed by the Contractor and the Contracting Officer and shall apply to supplies delivered and to services performed under this contract.

(i) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (h) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the target prices set forth in this contract: *Provided*, That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (j) (3) below, the parties may agree to revised billing prices, which shall be reflected in a modification to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the determination of the total adjusted price under paragraph (d) above. After execution of the contract modification referred to in paragraph (h) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the total adjusted price and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(j) *Limitation on payments.* (1) This paragraph (j) shall not apply after final price revision to the full extent permitted by this contract.

(2) Within forty-five (45) days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and as of the end of each quarter, the Contractor shall submit to_____* a cumulative statement setting forth:

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total target profit which is in direct proportion to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established, increased or decreased in accordance with the incentive profit formula set forth in (d) (2) above when the amount of costs stated under (ii) above differs from the aggregate target costs of such supplies or services; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2) (iv) above exceeds the sum of (2) (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4) modified as outlined in (i) above.

(k) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon the total adjusted price within 60 days after the date on which the data required by (c) above are to be submitted, or within such further time as may be specified by the Contracting Officer, such failure to agree shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder.

(l) *Termination.* If this contract is terminated prior to establishment of the total adjusted price, prices of supplies or services subject to price revision under this clause shall be established pursuant to this clause for (i) completed supplies accepted by the Government and services performed and accepted by the Government, and (ii) in the event of a partial termination, supplies and services which are not terminated. All other elements of the termination shall be resolved pursuant to other applicable provisions of this contract.

In the foregoing clause, in the space designated by an asterisk (_____*), insert, in contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the office or offices prescribed by Departmental procedures.

In the event the contract calls for spare parts or other supplies or services, which are to be ordered under a provisioning document or Government option, and the prices of such supplies or services are to be made subject to incentive price revision in accordance with the above clause, the following provision (m) shall be included in such clause:

(m) *Spare parts.* Spare parts, other supplies, or services, which are to be furnished under this contract pursuant to a provisioning document or Government option, shall be subject to price revision in accordance with the provisions of this clause, and any prices established for such spare parts, other supplies, or services, pursuant to such provisioning document or Government option, shall be deemed to be target prices. Target cost and profit covering such spare parts, other supplies, or services may be established

either separately, in the aggregate, or in any combination thereof, as the parties may agree.

§ 7.109 Price redetermination clauses.

§ 7.109–1 General.

When it is determined, in accordance with § 3.402, to use a fixed-price contract providing for redetermination of price as described in § 3.403–3, the applicable clause of those set forth below shall be used.

§ 7.109–2 Prospective periodic price redetermination at stated intervals.

(a) *Description; applicability, and limitations.* See § 3.403–3(b)(1).

(b) *Clause.*

PRICE REDETERMINATION (TYPE A)
(JULY 1960)

(a) *General.* The unit prices and the total price set forth in this contract shall be periodically redetermined in accordance with the provisions of this clause.[1] The prices for supplies delivered and services performed prior to the first effective date of price redetermination shall remain fixed.

(b) *Price redetermination periods.* For the purpose of price redetermination the performance of this contract is divided into successive periods. The first period shall extend from the date of this contract to _____,[2] and the second and each succeeding period shall extend for _____ (_____) months from the end of the last preceding period, except that the final period may be varied by agreement of the parties. The first day of the second and each succeeding period shall be the effective date of price redetermination for the period.

(c) *Price redetermination.* Not more than ____[3] days nor less than ____[3] days before the end of each redetermination period, except the last, and as otherwise provided in (iii) below, the Contractor shall submit:

(i) Proposed prices for supplies which may be delivered or services which may be performed in the next succeeding period under this contract, together with—

(A) An estimate and breakdown of the costs of such supplies or services on DD Form 784 or in any other form on which the parties may agree;

(B) Sufficient data to support the accuracy and reliability of such estimate; and

(C) An explanation of the differences between such estimate and the original (or last preceding) estimate for the same supplies or services;

(ii) A statement of all costs incurred in the performance of this contract through the end of the _____[4] month prior to the date of the submission of proposed prices, on DD Form 784 or in any other form on which the parties may agree, together with sufficient supporting data to disclose unit costs and cost trends for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

(iii) Supplemental statements of costs incurred subsequent to the date set forth in (ii) above for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(iv) Any other relevant data which may reasonably be required by the Contracting Officer.

Upon receipt of the data required by this subparagraph (c), the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for supplies which may be delivered and services which may be performed in the period following the effective date of price redetermination. Where the Contractor fails to submit the data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

(d) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. However, no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the cost data required to be furnished under (c) above are readily ascertainable therefrom. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times until the expiration of three years after final payment under this contract make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence, pertinent to the performance of this contract, for any period.

(e) *Certification.* An authorized responsible official of the Contractor shall certify on each statement of costs submitted to the Contracting Officer pursuant to (c) above that the incurred costs are based upon the records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs is considered reasonable.

(f) *Subcontracts.* (1) No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve an estimated amount in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may at all reasonable times until the expiration of three years after final payment under such subcontract make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(g) *Contract modifications.* Each negotiated redetermination of prices shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer, setting forth the redetermined prices for supplies delivered and services performed hereunder during the applicable price redetermination period.

(h) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (g) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the prices set forth in this contract: *Provided*, That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (i)(3) below, the parties may agree to greater or lesser billing prices, which shall be reflected in an amendment or supplemental agreement to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the redetermination of prices under this clause. After execution of the contract modification referred to in paragraph (g) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed prices, and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(i) *Limitation on payments.* (1) This paragraph (i) shall apply only during a period for which firm prices have not been established.

(2) Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and as of the end of each quarter, the Contractor shall submit to the Contracting Officer[5] a statement cumulative from the inception of the contract, setting forth:

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (i), Limitation on Payments), which is in direct proporton to the supplies delivered (or services performed) and ac-

[1] Where a ceiling is applicable, the following proviso shall be added: "*Provided*, That in no event shall the total amount paid under this contract exceed _____ Dollars ($_____)." Alternatively, the contract may provide ceiling amounts for each or any of the price redeterminations under the contract.

[2] This point may be expressed in terms of units delivered, or as a calendar date, but in either case the period shall generally end on the last day of a month.

[3] Insert in the blanks numbers of days so that the Contractor's submission will be late enough to reflect recent cost experience (having in mind the Contractor's accounting system), but early enough to permit review, audit if necessary, and negotiation prior to the start of the prospective period.

[4] Insert the word "first," except the word "second" may be inserted if necessary to achieve compatibility with the contractor's accounting system.

[5] Insert, in contracts of the Department of the Navy, the words "with a copy thereof to the office or officer designated in this contract to make payments thereunder.

cepted by the Government for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments); *Provided*, That such statement need not be submitted for any quarter for which either no costs are to be reported under (ii) above or revised billing prices have been established in accordance with paragraph (h) above and do not exceed the existing contract price, the Contractor's price-redetermination offer, or a price based on the most recent quarterly statement, whichever is least.

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2) (iv) above exceeds the sum of (2) (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4) modified as outlined in (i) above.

(j) ***Disagreements.*** If the Contractor and the Contracting Officer fail to agree upon redetermined prices for any price redetermination period within sixty (60)[6] days after the date on which the data required by (c) above is to be filed, or within such further time as may be agreed upon by the parties, the failure to agree upon redetermined prices shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder. For the purpose of (g), (h), and (i) above, and pending final settlement of the disagreement on appeal, or by failure to appeal, or by agreement, such a decision shall be treated as an executed contract modification. Pending such final settlement, price redetermination for subsequent periods, if any, shall continue to be negotiated as hereinbefore provided.

(k) *Termination.* If this contract is terminated, prices shall continue to be established pursuant to this clause (i) for completed supplies accepted by the Government and services performed and accepted by the Government, and (ii) in the event of a partial termination, for supplies and services which are not terminated. All other elements of the termination shall be resolved pursuant to other applicable provisions of this contract.

[6] This period may be varied by the parties at the time of negotiating the contract.

§ 7.109–3 Prospective price redetermination on request.

(a) *Description applicability, and limitations.* See § 3.404–3(b)(2).

(b) *Clause.*

PRICE REDETERMINATION (TYPE B) (JULY 1960)

(a) *General.* The unit prices and the total price set forth in this contract may be periodically redetermined in accordance with the provisions of this clause: *Provided*, That in no event shall the total amount paid under this contract exceed _____ dollars ($_____).[1] The prices for supplies delivered and services performed prior to the first effective date of price redetermination shall remain fixed.

(b) *Price redetermination.* Upon delivery of a written request by the Government to the Contractor or by the Contractor to the Government, and upon receipt of proposed prices and the supporting data required by (c)(2) below, the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for the supplies to be delivered and services to be performed by the Contractor after the effective date of price redetermination. The written request shall specify the effective date of price redetermination, which shall be the first date of a month and which in no event shall be prior to delivery of the request or later than _____ (_____) days after the delivery of the request. No such request shall be made before _____.[2] Neither party shall request another price redetermination having an effective date within _____ (_____) days of the effective date of the last preceding price redetermination. The period of each price redetermination shall be from the effective date of that redetermination until the effective date of the next redetermination.

(c) *Submission of data.* (1) Within _____ (_____)[3] days after the date of this contract or within such further time as may be specified or approved by the Contracting Officer and periodically thereafter every _____ (_____) months, the Contractor shall submit a statement of all costs incurred in the performance of this contract through the end of the _____[4] month prior to the date of the submission, on DD Form 784 or in any other form on which the parties may agree, together with sufficient supporting data to disclose unit costs and cost trends for:

(i) Supplies delivered and services performed; and

(ii) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary).

(2) Upon any written request by the Contractor for price redetermination, or within _____ (_____) days after receipt by the Contractor of any written request by the Government for price redetermination, the Contractor shall submit:

(i) Proposed prices for supplies which may be delivered or services which may be performed in the next succeeding period under this contract, together with—

(A) An estimate and breakdown of the costs of such supplies or services on DD Form 784 or in any other form on which the parties may agree;

(B) Sufficient data to support the accuracy and reliability of such estimate; and

(C) An explanation of the differences between such estimate and the original (or last preceding) estimate for the same supplies or services;

(ii) Supplemental statements of costs incurred subsequent to the closing date of the last preceding statement of incurred costs provided under (1) above, for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(iii) Any other relevant data which may reasonably be required by the Contracting Officer.

(3) Where the Contractor fails to submit the data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

(d) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. However, no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the cost data required to be furnished under (c) above are readily ascertainable therefrom. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times until the expiration of three years after final payment under this contract make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence, pertinent to the performance of this contract, for any period.

(e) *Certification.* An authorized responsible official of the Contractor, shall certify on each statement of costs submitted to the Contracting Officer pursuant to (c) above that the incurred costs are based upon the records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs is considered reasonable.

(f) *Subcontracts.* (1) No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve an estimated amount in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may, at all reasonable times until the expiration of three years after final payments under such subcontract make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(g) *Contract modifications.* Each negotiated redetermination of prices shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer, setting forth the redetermined prices for supplies delivered and services performed hereunder during the applicable price redetermination period.

(h) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (g) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the prices set forth in this contract: *Provided* That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (i)(3) below, the parties may agree to greater or lesser billing prices, which shall be reflected in an amendment or supplemental agreement to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the redetermination of prices under this clause. After execution of the contract modification referred to in paragraph (g) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed prices, and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(i) *Limitation on payments.*

(1) This paragraph (i) shall apply only during a period for which firm prices have not been established.

(2) Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and as of the end of each quarter, the Contractor shall submit to the Contracting Officer[5] a statement cumulative from the inception of the contract, setting forth:

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (i), Limitation on Payments), which is in direct proportion to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments); *Provided*, That such statement need not be submitted for any quarter for which either no costs are to be reported under (ii) above or revised billing prices have been established in accordance with paragraph (h) above and do not exceed the existing contract price, the Contractor's price-redetermination offer, or a price based on the most recent quarterly statement, whichever is least.

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2) (iv) above exceeds the sum of (2) (i), (ii), and (iii) above the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified as outlined in (i) above.

(j) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices for any price redetermination period within sixty (60)[6] days after the date on which the data required by (c) above is to be filed, or within such further time as may be agreed upon by the parties, the failure to agree upon redetermined prices shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder. For the purpose of (g), (h), and (i) above, and pending final settlement of the disagreement on appeal, or by failure to appeal, or by agreement, such a decision shall be treated as an executed contract modification. Pending such final settlement, price redetermination for subsequent periods, if any, shall continue to be negotiated as hereinbefore provided.

(k) *Termination.* If this contract is terminated, prices shall continue to be established pursuant to this clause (i) for completed supplies accepted by the Government and services performed and accepted by the Government, and (ii) in the event of a partial termination, for supplies and services which are not terminated. All other elements of this termination shall be resolved pursuant to other applicable provisions of this contract.

§ 7.109–4 Retroactive and prospective price redetermination at a stated time prior to completion.

(a) *Description, applicability and limitations.* See § 3.403–3(b)(3).

(b) *Clause.*

PRICE REDETERMINATION (TYPE C) (JULY 1960)

(a) *General.* The unit prices and the total price set forth in this contract shall be redetermined in accordance with the provisions of this clause; *provided* that in no event shall the total amount paid under this contract exceed _____ dollars ($_____).

(b) *Price redetermination.* Within _____ (_____) days after the end of the month in which there is completion of _____,[1] the Contractor shall submit:

(i) Proposed prices for supplies delivered and to be delivered and services performed and to be performed under this contract;

(ii) A statement of all costs incurred in the performance of this contract through the end of the month specified above, on DD Form 784 or in any other form on which the parties may agree, together with sufficient supporting data to disclose unit costs and cost trends for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

(iii) An estimate of costs of all supplies delivered and to be delivered and all services performed and to be performed under this contract, using the statement of costs incurred plus an estimate of costs to complete performance, on DD Form 784 or in any other form on which the parties may agree, together with—

(A) Sufficient data to support the accuracy and reliability of such estimate; and

(B) An explanation of the differences between such estimate and the original estimate used in establishing the unit prices set forth in this contract for the same supplies or services;

(iv) Supplemental statements of costs incurred subsequent to the end of the month specified in (ii) above for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(v) Any other relevant data which may reasonably be required by the Contracting Officer.

Upon receipt of data required by this subparagraph (b), the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for supplies delivered and to be delivered and services performed and to be performed under this contract. Where the Contractor fails to submit the data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

(c) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever

[1] This proviso shall be deleted where ceilings are not applicable.

[2] The end of the first period may be expressed in terms of units delivered, or as a calendar date, but in either case the period shall end on the last day of a month.

[3] The specified number of days should be such that the end of the period for which the Contractor submits data shall coincide with the end of a month and should accommodate the objective that the periods for which the Contractor submits data should end at dates which are compatible with the contractor's accounting system.

[4] Insert the word "first," except the word "second" may be inserted if necessary to achieve compatibility with the contractor's accounting system.

[5] Insert, in contracts of the Department of the Navy, the words: "with a copy thereof to the office or offices designated in this contract to make payments thereunder."

[6] This period may be varied by the parties at the time of negotiating the contract.

[1] The degree of completion may be based on units delivered to the Government, percentage of contract performance, or any other reasonable basis.

nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. However, no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the cost data required to be furnished under (b) above are readily ascertainable therefrom. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times until the expiration of three years after final payment under this contract make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence, pertinent to the performance of this contract, for any period.

(d) *Certification.* An authorized responsible official of the Contractor shall certify on each statement of costs submitted to the Contracting Officer pursuant to (b) above that the incurred costs are based upon the records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs is considered reasonable.

(e) *Subcontracts.* (1) No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve an estimated amount in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may at all reasonable times until the expiration of three years after final payment under such subcontract make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(f) *Contract modification.* The negotiated redetermination of price shall be evidenced by a modification to this contract signed by the Contractor and the Contracting Officer, setting forth the redetermined prices for supplies delivered and to be delivered and services performed and to be performed hereunder.

(g) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (f) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the prices set forth in this contract: *Provided,* That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (h)(3) below, the parties may agree to greater or lesser billing prices, which shall be reflected in an amendment or supplemental agreement to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the redetermination of prices under this clause. After execution of the contract modification referred to in paragraph (f) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed prices, and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(h) *Limitation on payments.* (1) This paragraph (h) shall apply only during a period for which firm prices have not been established.

(2) Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and as of the end of each quarter, the Contractor shall submit to the Contracting Officer [2] a statement cumulative from the inception of the contract, setting forth:

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (h), Limitation on Payments), which is in direct proportion to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments);

Provided, That such statement need not be submitted for any quarter for which either no costs are to be reported under (ii) above or revised billing prices have been established in accordance with paragraph (h) above and do not exceed the existing contract price, the Contractor's price-redetermination offer, or a price based on the most recent quarterly statement, whichever is least.

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2)(iv) above exceeds the sum of (2) (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified as outlined in (i) above.

(i) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices within sixty (60) [2] days after the date on which the data required by (b) above is to be filed, or within such further time as may be agreed upon by the parties, the failure to agree upon redetermined prices shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder. For the purpose of paragraphs (f), (g), and (h) above, and pending final settlement of the disagreement on appeal, or by failure to appeal, or by agreement, such a decision shall be treated as an executed contract modification.

(j) *Termination.* If this contract is terminated prior to price redetermination, prices shall be established pursuant to this clause (i) for completed supplies accepted by the Government and services performed and accepted by the Government, and (ii) in the event of a partial termination, for supplies and services which are not terminated. All other elements of the termination shall be resolved pursuant to other applicable provisions of this contract.

§ 7.109–5 Retroactive and prospective price redetermination including further prospective redetermination on request.

(a) *Description, applicability and limitation.* See § 3.403–3(b)(4).

(b) *Clause.*

PRICE REDETERMINATION (TYPE D)
(JULY 1960)

(a) *General.* The unit prices and the total price set forth in this contract shall be redetermined in accordance with the provisions of this clause: *Provided,* That in no event shall the total amount paid under this contract exceed _____ dollars ($ _____).

(b) *Price redetermination.* (1) *Mandatory.* Within _____ (_____) days after the end of the month in which there is completion of _____,[3] the Contractor shall submit:

(i) Proposed prices for supplies delivered and to be delivered and services performed and to be performed under this contract;

(ii) A statement of all costs incurred in the performance of this contract through the end of the month specified above on DD Form 784 or in any other form on which the parties may agree, together with sufficient supporting data to disclose unit costs and cost trends for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

(iii) An estimate of costs of all supplies delivered and to be delivered and all services performed and to be performed under this contract, using the statement of costs incurred plus an estimate of costs to complete performance, on DD Form 784 or in any other form on which the parties may agree, together with—

(A) Sufficient data to support the accuracy and reliability of such estimate; and

(B) An explanation of the differences between such estimate and the original estimate used in establishing the unit prices set forth in this contract for the same supplies or services;

(iv) Supplemental statements of costs incurred subsequent to the end of the month specified in (ii) above for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary); as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(v) Any other relevant data which may reasonably be required by the Contracting Officer.

Upon receipt of data required by this subparagraph (b)(1), the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for supplies delivered and to be delivered and services performed and to be performed under this contract. Where the Contractor fails to submit the data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

(2) *Optional.* *a.* Upon delivery of a written request by the Government to the Contractor or by the Contractor to the Government, and upon receipt of proposed prices and the supporting data required by *b.2.* below, the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for the supplies to be delivered and services to be performed by the Contractor after the effective date of price redetermination. The written request shall specify the effective date of the requested price redetermination, which shall be the first day of a month and which in no event shall be prior to delivery of the request or later than _____ (____) days after the delivery of the request. No such request shall be made before _____ (____) days after the price redetermination required by subparagraph (1) above has been effected either by agreement or by decision of the Contracting Officer under paragraph (i) below. Neither party shall request another price redetermination having an effective date within _____ (____) days of the effective date of the last preceding price redetermination. The period of each price redetermination shall be from the effective date of that redetermination until the effective date of the next redetermination.

b.1. Within _____ (_____)[2] days after the price redetermination required by subparagraph (1) above has been effected either by agreement or by decision of the Contracting Officer under paragraph (i) below, or within such further time as may be specified or approved by the Contracting Officer and periodically thereafter every _____ (_____) months, the Contractor shall submit a statement of all costs incurred in the performance of this contract through the end of the month prior to the date of the submission, on DD Form 784 or in any other form on which the parties may agree, together with sufficient data to disclose unit costs and cost trends for:

(i) Supplies delivered and services performed; and

(ii) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary).

2. Upon any written request by the Contractor for price redetermination or within _____ (_____) days after receipt by the Contractor of any written request by the Government for price redetermination, the Contractor shall submit:

(i) Proposed prices for supplies which may be delivered or services which may be performed in the next succeeding period under this contract, together with—

(A) An estimate and breakdown of the costs of such supplies or services, on DD Form 784 or in any other form on which the parties may agree;

(B) Sufficient data to support the accuracy and reliability of such estimate; and

(C) An explanation of the differences between such estimate and the original (or last preceding estimate) for the same supplies or services;

(ii) Supplemental statements of costs incurred subsequent to the closing date of the last preceding statement of incurred costs provided under *b.1.* above, for—

(A) Supplies delivered and services performed; and

(B) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(iii) Any other relevant data which may reasonably be required by the Contracting Officer.

3. Where the Contractor fails to submit the required data within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

(c) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. However, no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the cost data required to be furnished under (b) above are readily ascertainable therefrom. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times until the expiration of three years after final payment under this contract make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence pertinent to the performance of this contract, for any period.

(d) *Certification.* An authorized responsible official of the Contractor shall certify on each statement of costs submitted to the Contracting Officer pursuant to (c) above that the incurred costs are based upon the records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs is considered reasonable.

(e) *Subcontracts.* (1) No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve an estimated amount in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may at all reasonable times until the expiration of three years after final payment under such subcontract make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(f) *Contract modifications.* Each negotiated redetermination of prices shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer, setting forth the redetermined prices for supplies delivered and services performed hereunder during the applicable price redetermination period.

(g) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (f) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the prices set forth in this contract: *Provided,* That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (h)(3) below, the parties may agree to revised billing prices, which shall be reflected in an amendment or supplemental agreement to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the redetermination of prices under this clause. After execution of the contract modification referred to in paragraph (f) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed prices, and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(h) *Limitation on payments.* (1) This paragraph (h) shall apply only during a period for which firm prices have not been established.

(2) Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract and as of the end of each quarter, the Contractor shall submit to the Contracting Officer [2] a statement cumulative from the inception of the contract, setting forth:

(i) The total contract price of all supplies

[2] This period may be varied by the parties at the time of negotiating the contract.

[3] The degree of completion may be based on units delivered to the Government, percentage of contract performance, or any other reasonable basis.

[2] The specified number of days should be such that the end of the period for which the contractor submits data shall coincide with the end of the month.

[2] Insert, in contracts of the Department of the Navy, the words: "with a copy thereof to the office or officer designated in the contract to make payments thereunder."

delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (h), Limitation on Payments), which is in direct proportion to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments);

Provided, That such statement need not be submitted for any quarter for which either no costs are to be reported under (ii) above or revised billing prices have been established in accordance with paragraph (h) above and do not exceed the existing contract price, the Contractor's price-redetermination offer, or a price based on the most recent quarterly statement, whichever is least.

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2)(iv) above exceeds the sum of (2) (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified as outlined in (i) above.

(l) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices for any price redetermination period within sixty (60)[4] days after the date on which the data required by (b) above is to be filed, or within such further time as may be agreed upon by the parties, the failure to agree upon redetermined prices shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder. For the purpose of paragraphs (f), (g), and (h) above, and pending final settlement of the disagreement on appeal, or by failure to appeal, or by agreement, such a decision shall be treated as an executed contract modification. Pending such final settlement, price redetermination for subsequent periods, if any, shall continue to be negotiated as hereinbefore provided.

(j) *Termination.* If this contract is terminated, prices shall continue to be established pursuant to this clause (i) for completed supplies accepted by the Government and services performed and accepted by the Government, and (ii) in the event of a partial termination, for supplies and services which are not terminated. All other elements of the termination shall be resolved pursuant to other applicable provisions of this contract.

§ 7.109–6 Retroactive price redetermination after completion.

(a) *Description, applicability, and limitations.* See § 3.403–3(b)(5).

(b) *Clause.*

PRICE REDETERMINATION (TYPE E) (JULY 1960)

(a) *General.* The unit prices and the total price set forth in this contract shall be redetermined in accordance with the provisions of this clause: *Provided,* That in no event shall the total amount paid under this contract exceed _____ dollars ($_____).

(b) *Price redetermination.* Within _____ (_____) days after delivery of all supplies to be delivered and completion of all services to be performed under this contract, the Contractor shall submit (i) proposed prices, (ii) a statement of all costs incurred in the performance of this contract, on DD Form 784 or any other form on which the parties may agree, and (iii) any other relevant data which may reasonably be required by the Contracting Officer. Upon receipt of the required data, the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable contract prices for supplies delivered and services performed by the Contractor under this contract. Where the Contractor fails to submit the required data within the time specified, payment of all invoices may be suspended by the Contracting Officer until the data are furnished.

(c) *Records.* (1) The Contractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred for the performance of this contract. However, no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the cost data required to be furnished under (b) above are readily ascertainable therefrom. Each subcontract placed by the Contractor hereunder on other than a firm fixed-price basis (i) shall provide that the subcontractor shall maintain books, records, documents, and other evidence, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred in the performance of such subcontract and (ii) shall require each such subcontractor to insert the entire substance of this subparagraph, including this (ii), in all its subcontracts which are on other than a firm fixed-price basis.

(2) The Government may at all reasonable times until the expiration of three years after final payment under this contract make such examination or audit as the Contracting Officer may require of the Contractor's books, records, documents, and other evidence, pertinent to the performance of this contract.

(d) *Certification.* An authorized responsible official of the Contractor shall certify on each statement of costs submitted to the Contracting Officer pursuant to (c) above that the incurred costs are based upon the records of the Contractor, that such records reflect generally accepted accounting principles and practices normally followed by the Contractor, that such costs are correct to the best of his knowledge and belief, and that the accompanying estimate of costs is considered reasonable.

(e) *Subcontracts.* (1) No subcontract under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis; and the Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which is on a cost-plus-a-fee basis and which would involve an estimated amount in excess of $10,000, including the fee. The Contracting Officer may, in his discretion, ratify in writing any such cost-plus-a-fee subcontract and such action shall constitute the consent of the Contracting Officer as required by this subparagraph (1).

(2) Each subcontract placed by the Contractor hereunder (i) shall provide that the Government may at all reasonable times until the expiration of three years after final payment under such subcontract make such examination or audit as the Contracting Officer may require of the subcontractor's books, records, documents, and other evidence, pertinent to the performance of the subcontract, and (ii) shall require each such subcontractor whose subcontract is on other than a firm fixed-price basis to insert the entire substance of this subparagraph, including this (ii) in all its subcontracts. The term "subcontract," as used in this subparagraph (2) only, excludes firm fixed-price subcontracts not in excess of $2,500 and subcontracts for utility services at rates established for uniform application to the general public.

(f) *Contract modification.* The negotiated redetermination of price shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer, setting forth the redetermined prices which shall apply to supplies delivered and to services performed by the Contractor hereunder.

(g) *Adjustment of payments.* Pending execution of the contract modification referred to in paragraph (f) above, the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the prices set forth in this contract: *Provided,* That if at any time it appears that the then current billing prices do not provide for payments consistent with the provisions of subparagraph (h)(3) below, the parties may agree to greater or lesser billing prices, which shall be reflected in an amendment or supplemental agreement to this contract. Billing prices are for the sole purpose of providing for interim payments and shall not affect the redetermination of prices under this clause. After execution of the contract modification referred to in paragraph (f) above, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the agreed prices, and any additional payments, refunds, or credits, resulting therefrom shall be promptly made.

(h) *Limitation on payments.* (1) This paragraph (h) shall apply until final price redetermination to the full extent permitted by this contract.

(2) Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and as of the end of each quarter, the Contractor shall submit to the Contracting Officer[1] a statement cumulative from the inception of the contract, setting forth:

[4] This period may be varied by the parties at the time of negotiating the contract.

[1] Insert, in contracts of the Department of the Navy, the words: "With a copy thereof to the office or offices designated in the contract to make payments thereunder."

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for and properly allocable solely to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established;

(iii) That portion of the total interim profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (h), Limitation on Payments), which is in direct proportion to the supplies delivered (or services performed) and accepted by the Government for which final prices have not been established; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(3) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount of (2) (iv) above exceeds the sum of (2) (i), (ii), and (iii) above, the Contractor shall immediately refund or credit to the Government against existing unpaid invoices or vouchers covered by such statement the amount of such excess less (i) the cumulative total of any previous refunds or credits under this clause (exclusive of any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954) and (ii) any applicable tax credits under Section 1481 of the Internal Revenue Code of 1954. If any portion of such excess has been applied to the liquidation of progress payments, such amount (less all tax credits under the Internal Revenue Code) may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payments clause of this contract, instead of direct refund thereof.

(4) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of this "Limitation on Payments" provision, including this subparagraph (4), modified as outlined in (i) above.

(l) *Disagreements.* If the Contractor and the Contracting Officer fail to agree upon redetermined prices within sixty (60)[2] days after the date on which the data required by (b) above is to be filed, or within such further time as may be agreed upon by the parties, the failure to agree upon redetermined prices shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the Contracting Officer shall promptly issue a decision thereunder. For the purpose of paragraphs (f), (g), and (h) above, and pending final settlement of the disagreement on appeal, or by failure to appeal, or by agreement, such a decision shall be treated as an executed contract modification.

(j) *Termination.* If this contract is terminated prior to price redetermination, prices shall be established pursuant to this clause (i) for completed supplies and services which are not terminated. All other elements of the termination shall be resolved pursuant to other applicable provisions of this contract.

§ 7.109–7 Modified retroactive and prospective price redetermination for follow-on contracts.

(a) *Descriptions, applicability, and limitations.* See § 3.403–3(b)(6) of this chapter.

(b) *Clause.* Where a follow-on contract is to be geared to a preceding contract for pricing purposes and is to provide for retroactive and prospective price redetermination at a stated time prior to completion, the clause in § 7.109–4 shall be used except that the caption will read "Price Redetermination (Modified Type C)" and the paragraph set forth below will be substituted for the text of paragraph (b) of the clause in § 7.109–4. Where such a follow-on contract is to provide for retroactive and prospective price redetermination including further prospective redetermination upon request, the clause in § 7.109–5 shall be used except that the caption will read "Price Redetermination (Modified Type D)" and the paragraph set forth below will be substituted for the text of subparagraph (b)(1) of the clause in § 7.109–5.

Upon completion of deliveries under Contract No. _____, herein called the preceding contract, or at such other time as the Contracting Officer may fix after negotiation of a mandatory price redetermination is to begin under the preceding contract, and as otherwise provided in (ii) below, the Contractor shall submit:

(i) Proposed prices for supplies delivered and to be delivered and services performed and to be performed under this contract;

(ii) Statements of incurred costs and cost estimates, on DD Form 748 or in any other form on which the parties may agree, to be submitted separately both for this contract and for the preceding contract until its completion, covering each of the following:

(A) All costs incurred in the performance of such contracts through the end of the _____[1] month before the submission, together with sufficient supporting data to disclose unit costs and cost trends for:

(I) Supplies delivered and services performed; and

(II) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

(B) An estimate of costs of all supplies delivered and to be delivered and all services performed and to be performed under such contracts, using the statement of costs incurred plus an estimate of costs to complete performance, together with:

(I) Sufficient data to support the accuracy and reliability of such estimate; and

(II) An explanation of the differences between such estimate and the original estimate used in establishing the unit prices set forth in this contract for the same supplies or services; and

(C) Supplemental statements of costs incurred subsequent to the end of the month specified in (A) above for:

(I) Supplies delivered and services performed; and

(II) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary); as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(III) Any other relevant data which may reasonably be required by the Contracting Officer.

Upon the receipt of the data required above, the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable prices for supplies delivered and to be delivered and services performed and to be performed under this contract. Where the Contractor fails to submit data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

[2] This period may be varied by the parties at the time of negotiating the contract.

[1] Insert the word "first," except the word "second" may be inserted if necessary to achieve compatibility with the contractor's accounting system.

Subpart B—Clauses for Cost-Reimbursement Type Supply Contracts

§ 7.200 Scope of subpart.

This subpart sets forth uniform contract clauses for use in cost-reimbursement type supply contracts as defined in § 7.202.

§ 7.202 Applicability.

As used throughout this subpart, the term "cost-reimbursement type supply contract" shall mean any contract (other than a letter contract, letter of intent, preliminary notice of award; or amendment or a supplemental agreement to a contract which does not effect new procurement) entered into on a cost or cost-plus-a-fixed-fee basis as covered in § 3.404 of this subchapter for supplies other than (a) the construction, alteration or repair of buildings, bridges, roads, or other kinds of real property, (b) experimental, developmental, or research work, or (c) facilities to be provided by the Government under a "facilities contract" as defined in Part 13 of this subchapter.

§ 7.203 Required clauses.

The following clauses shall be inserted in all cost-reimbursement type supply contracts.

§ 7.203–1 Definitions.

Insert the contract clause set forth in § 7.103–1. Additional definitions may be included in such clause provided they are not inconsistent with such clause or the provisions of this subchapter.

§ 7.203–2 Changes.

CHANGES (JAN. 1958)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (i) drawings, designs, or specifications, where the supplies to be furnished are to be specially manufactured for the Government in accordance therewith; (ii) method of shipment or packing; (iii) place of delivery; and (iv) the amount of Government-furnished property. If any such change causes an increase or decrease in the estimated cost of, or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, or otherwise affects any other provision of this contract, an equitable adjustment shall be made (i) in the estimated cost or delivery

schedule, or both, (ii) in the amount of any fixed fee to be paid to the Contractor, and (iii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the day of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted may be varied in accordance with Departmental procedures.

In the interest of economy, the Government has a basic responsibility fully to utilize its property. Consistent therewith the Government has reserved the right in the above clause to make changes in the amount of Government-furnished property, including the right to increase the amount of Government-furnished property. Prior to exercising the right to increase the amount of Government-furnished property, contracting officers will consider fully any inequities which may result to the contractor as against the net benefits which may accrue to the Government.

§ 7.203–3 Limitation of cost.

LIMITATION OF COST (OCT. 1953)

(a) It is estimated that the total cost to the Government, exclusive of any fixed fee, for the performance of this contract will not exceed the estimated cost set forth in the Schedule, and the Contractor agrees to use its best efforts to perform the work specified in the Schedule and all obligations under this contract within such estimated cost. If at any time the Contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding thirty (30) days, when added to all costs previously incurred, will exceed eighty-five percent (85%) of the estimated cost then set forth in the Schedule, or if at any time, the Contractor has reason to believe that the total cost to the Government, exclusive of any fixed fee, for the performance of this contract will be substantially greater or less than the then estimated cost thereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving its revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the Schedule, and the Contractor shall not be obligated to continue performance under the contract or to incur costs in excess of the estimated cost set forth in the Schedule, unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. When and to the extent that the estimated cost set forth in the Schedule has been increased, any costs incurred by the Contractor in excess of such estimated cost prior to the increase in estimated cost shall be allowable to the same extent as if such costs had been incurred after such increase in estimated cost.

§ 7.203–4 Allowable Cost, Fee, and Payment.

(a) Except as provided in paragraphs (b) and (c)(5) of this section, the following clause shall be inserted in all cost-reimbursement type supply contracts. Additional instructions for use are in paragraph (c) of this section.

ALLOWABLE COST, FIXED FEE, AND PAYMENT (APR. 1959)

(a) For the performance of this contract, the Government shall pay to the Contractor:

(i) The cost thereof (hereinafter referred to as "allowable cost") determined by ----------* to be allowable in accordance with—

(A) Subpart B as in effect on the date of this contract; and of Part 15 of this Subchapter.

(B) The terms of this contract; and

(ii) Such fixed fee, if any, as may be provided for in the Schedule.

(b) Once each month (or at more frequent intervals, if approved by ----------*) the Contractor may submit to an authorized representative of ----------*, in such form and reasonable detail as such representative may require, an invoice or public voucher supported by a statement of cost incurred by the Contractor in the performance of this contract and claimed to constitute allowable cost.

(c)(1) As promptly as may be practicable after the receipt of each invoice or voucher and statement of cost, the Government shall, except as otherwise provided in this contract, and subject to the provisions of paragraph (d) below, make payment thereon, as approved by ----------,* to the extent of:

(i) 100 percent of such approved costs representing progress payments to subcontractors under fixed price type subcontracts: *Provided,* That such payments by the Government to the Contractor shall not exceed 70 percent of the costs incurred by such subcontractors,

(ii) 100 percent of such approval costs representing cost reimbursement to subcontractors under cost reimbursement type subcontracts: *Provided,* That for cost reimbursement type subcontracts not covered by the exceptions listed in § 3.404–3(d)(2) of this subchapter, as in effect on the date of this contract, such payments by the Government shall not exceed 80 percent of the costs incurred by such subcontractors, and

(iii) 80 percent of all other such approved costs.

The cumulative amount of such invoices or vouchers from time to time approved but not paid pursuant to the foregoing provisions (regardless of whether they are paid under the next sentence hereof) shall constitute a gross withheld payments amount. Upon acceptance and delivery of articles called for by item ------** of this contract, the Government shall pay to the Contractor an amount which, when added to any amounts previously paid under this sentence, shall be the same percentage of the gross withheld payments amount as the cumulative number of articles accepted and delivered under item ------** of this contract is of the total number of articles called for by such item.

(2) Payment of the fixed fee, if any, shall be made to the Contractor as specified in the Schedule: *Provided, however,* That after payment of eighty-five percent (85%) of the fixed fee set forth in the Schedule, further payment on account of the fixed fee shall be withheld until a reserve of either fifteen percent (15%) of the total fixed fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(3) The total of the amounts which may be withheld at any one time under both (c)(1) and (c)(2) above shall not exceed the greatest amount which may then be withheld under either (c)(1) or (c)(2), whichever permits the greater withholding at that time.

(4) In the event of complete termination of the work remaining to be performed under this contract or in the event of cessation of performance pursuant to the clause of this contract entitled "Limitation of Cost," the Government shall, subject to the provisions of paragraph (d) below, pay the balance of the gross withheld payments amount to the Contractor within sixty (60) days from the effective date of termination or date of written notice to the Government that performance has been discontinued pursuant to the clause entitled "Limitation of Cost," as the case may be.

(d) At any time or times prior to final payment under this contract ----------* may have the invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by ----------,* on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(e) On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including, without limitation, the provisions relating to patents and the provisions of (f) below), the Government shall promptly pay to the Contractor any balance of allowable cost, and any part of the fixed fee, which has been withheld pursuant to (c) above or otherwise not paid to the Contractor. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than one (1) year (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(f) The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer. Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions—

(A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract: *Provided,* That such claims are not known to the Contractor on the date of the execution of the release: *And provided further,* That the Contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

(g) Any cost incurred by the Contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specifications or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the Contractor at its expense or without cost to the Government.

(b) When, pursuant to § 3.404–4 of this subchapter, incentive revision of the fee in a cost-reimbursement type supply contract is to be provided, the clause set forth below shall, except as provided in paragraph (c)(5) of this section, be included in the contract. Additional instructions for use of the clause are in paragraph (c) of this section.

ALLOWABLE COST, INCENTIVE FEE, AND PAYMENT (APR. 1959)

(a)(1) For the performance of this contract, the Government shall pay to the Contractor:

(i) The cost thereof (hereinafter referred to as "allowable cost") determined by ----------* to be allowable in accordance with—

(A) Subpart B of Part 15 of this subchapter as in effect on the date of this contract; and

(B) The terms of this contract; and

(ii) A fee determined as provided in this contract.

(2) The target cost and target fee of this contract are set forth in the Schedule and shall be subject to adjustment in accordance with (h) and (i) below. As used throughout this contract the term:

(i) "Target cost" means the estimated cost of this contract initially negotiated, adjusted in accordance with (h) below; and

(ii) "Target fee" means the fee which was initially negotiated on the assumption that this contract would be performed for a cost equal to the estimated cost of this contract initially negotiated, adjusted in accordance with (h) below.

(b) Once each month (or at more frequent intervals, if approved by ----------*) the Contractor may submit to an authorized representative of ----------,* in such form and reasonable detail as such representative may require an invoice or voucher supported by a statement of cost incurred by the Contractor in the performance of this contract and claimed to constitute allowable cost.

(c)(1) As promptly as may be practicable after the receipt of each invoice or voucher and statement of cost, the Government shall, except as otherwise provided in this contract, and subject to the provisions of paragraph (d) below, make payment thereon, as approved by ----------,* to the extent of:

(i) 100 percent of such approved costs representing progress payments to subcontractors under fixed price type subcontracts: *Provided,* That such payments by the Government to the Contractor shall not exceed 70 percent of the costs incurred by such subcontractors,

(ii) 100 percent of such approval costs representing cost reimbursement to subcontractors under cost reimbursement type subcontracts: *Provided,* That for cost reimbursement type subcontracts not covered by the exceptions listed in § 3.404–3(d)(2) of this subchapter, as in effect on the date of this contract, such payments by the Government shall not exceed 80 percent of the costs incurred by such subcontractors, and

(iii) 80 percent of all other such approved costs.

The cumulative amount of such invoices or vouchers from time to time approved but not paid pursuant to the foregoing provisions (regardless of whether they are paid under the next sentence hereof) shall constitute a gross withheld payments amount. Upon acceptance and delivery of articles called for by item ------** of this contract, the Government shall pay to the Contractor an amount which, when added to any amounts previously paid under this sentence, shall be the same percentage of the gross withheld payments amount as the cumulative number of articles accepted and delivered under item ------** of this contract is of the total number of articles called for by such item.

(2) Payment of fee shall be made to the Contractor as specified in the Schedule: *Provided, however,* That after payment of ninety-five percent (95%) of the minimum fee provided for in (i) below, further payment, on account of the fee shall be withheld until a reserve of either fifteen percent (15%) of the target fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(3) The total of the amounts which may be withheld at any one time under both (c)(1) and (c)(2) above shall not exceed the greatest amount which may then be withheld under either (c)(1) or (c)(2), whichever permits the greater withholding at that time.

(4) In the event of complete termination of the work remaining to be performed under this contract or in the event of cessation of performance pursuant to the clause of this contract entitled "Limitation of Cost," the Government shall, subject to the provisions of paragraph (d) below, pay the balance of the gross withheld payments amount to the Contractor within sixty (60) days from the effective date of termination or date of written notice to the Government that performance has been discontinued pursuant to the clause entitled "Limitation of Cost," as the case may be.

(d) At any time or times prior to final payment under this contract, ----------* may have the invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by ----------*, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(e) On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including, without limitation, the provisions relating to patents and the provisions of (f) below), the Government shall promptly pay to the Contractor any balance of allowable cost, and any part of the fee, which has been withheld pursuant to (c) above or otherwise not paid to the Contractor. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than one (1) year (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(f) The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer. Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions—

(A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract: *Provided,* That such claims are not known to the Contractor on the date of the execution of the release: *And provided further,* That the Contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

Payments under the assignment and the claims excepted from the release shall be subject to adjustment by reason of the adjustment of fee in accordance with (i) below.

(g) Any cost incurred by the Contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specifications or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the Contractor at its expense or without cost to the Government.

(h) When the work under this contract (including any supplies or services which are ordered separately under, or otherwise added to, this contract) is increased or decreased by contract modification, appropriate adjustments in the target cost and target fee shall be set forth in an amendment

or supplemental agreement to this contract.

(i) The fee payable hereunder shall be the target fee increased by (insert contractor's participation) cents for every dollar by which the total allowable cost is less than the target cost or decreased by (insert contractor's participation) cents for every dollar by which the total allowable cost exceeds the target cost. In no event shall the fee be greater than ------%, nor less than ------%, of the target cost; and within these limits such fee shall be subject to adjustment, by reason of increase or decrease of total allowable cost, on account of payments under the assignment required by (f)(i) above, and claims excepted from the release required by (f)(ii) above.

In the event the contracts call for spare parts or other supplies and services which are to be ordered under a provisioning document or Government option, the following provision (j) shall be included:

(j) Compensation for supplies (including spare parts) and services which are to be furnished under this contract pursuant to a provisioning document or Government option shall be determined in accordance with the provisions of this clause notwithstanding any inconsistent provision in such provisioning document or Government option.

(c)(1) In the foregoing clauses, insert, in contracts of the Department of the Army and the Department of the Air Force, the words, "the Contracting Officer," and insert, in contracts of the Department of the Navy the words "the Comptroller of the Navy (Contract Audit Division)" in the spaces designated by an asterisk (----------*). For approvals with regard to fixed-price type subcontracts, pursuant to paragraph (c)(1)(i) of the foregoing clauses, the standards shall be the same as those governing progress payments on fixed-price type prime contracts. For approvals with regard to cost-reimbursement type subcontracts, pursuant to paragraph (c)(1)(ii) of the foregoing clauses, the standards shall be the same as those contained in § 3.404–3(d) of this subchapter for prime contracts.

(2) In subparagraph (c)(1) of the foregoing clauses, insert the item number of the principal end item being procured under the contract in the space designated by a double asterisk (------**).

(3) In accordance with Departmental procedures, the following sentence may be substituted for the third sentence of subparagraph (c)(1) of the foregoing clauses: "Upon the completion of increments of work as specified in the Schedule, the Government shall pay to the Contractor an amount which, when added to any amounts previously paid under this sentence, shall be the same percentage of the gross withheld payments amount as the total of the completed increments is of the total increments of the work called for by this contract." Increments of work specified in the Schedule pursuant to the above provision may be stated in units, percentages of completion, stages of work, or in any other appropriate manner.

(4) In paragraph (f)(ii)(B) of the foregoing clauses, the period of years may be increased to correspond with any statutory period of limitation applicable to claims of third parties against the contractor: *Provided*, That a corresponding increase is made in the period for retention of records required in paragraph (a)(4) of the clause set forth in § 7.203–7.

(5) In all cost-reimbursement type supply contracts covered by any one of the exceptions listed in § 3.404–3(d)(2) of this subchapter, insert the appropriate one of the foregoing clauses modified as follows:

(i) If the clause set forth in paragraph (a) of this section is used, delete paragraph (c) thereof and substitute the following:

(c) Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (d) below, make payment thereon as approved by ----------*. Payment of the fixed fee, if any, shall be made to the Contractor as specified in the Schedule: *Provided, however*, That after payment of eighty-five percent (85%) of the fixed fee set forth in the Schedule, further payment on account of the fixed fee shall be withheld until a reserve of either fifteen percent (15%) of the total fixed fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(ii) If the clause set forth in paragraph (b) of this section is used, delete paragraph (c) thereof and substitute the following:

(c) Promptly after receipt of each invoice or voucher, the Government shall, subject to the provisions of (d) below, make payment thereon as approved by ----------*. Payment of fee shall be made to the Contractor as specified in the Schedule: *Provided, however*, That after payment of ninety-five percent (95%) of the minimum fee provided for in (i) below, further payment on account of the fee shall be withheld until a reserve of either fifteen percent (15%) of the target fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(6) In subparagraph (c)(2) of the clauses set forth in paragraphs (a) and (b) of this section and in the (c) paragraphs set forth in subparagraph (5) of this paragraph, the percentages and amounts set forth therein may be varied in accordance with Departmental procedures, except that the percentage of minimum fee in the incentive fee clause shall not exceed 95 percent.

(7) The measure of the increase and the decrease in the fee, representing "the contractor's participation" as set forth in paragraph (i) of the incentive fee clause, shall normally be the same. Under some circumstances the use of a sliding scale may be appropriate (for example, $0.01 for the first $100, $0.02 for the next $100, etc.) in which case necessary changes in the wording of paragraph (i) of the incentive fee clause are authorized. The maximum and minimum fee shall normally be equidistant from the target fee.

(8) In the case of cost-reimbursement type supply contracts without fee:

(i) Insert the following sentence in lieu of the second sentence of paragraph (c) of the clause set forth in subparagraph (5)(i) of this paragraph: "After payment of an amount equal to eighty percent (80%) of the total estimated cost of performance of this contract set forth in the Schedule, further payment on account of allowable cost shall be withheld until a reserve of either one percent (1%) of such total estimated cost, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside"; and

(ii) Delete the words "and any part of the fixed fee" from paragraph (e) of the clause set forth in paragraph (a) of this section.

§ 7.203–5 Inspection of supplies and correction of defects.

INSPECTION OF SUPPLIES AND CORRECTION OF DEFECTS (MAY 1960)

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and end products) shall be subject to inspection and test by the government, to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance. The Contractor shall provide and maintain an inspection system acceptable to the Government covering the supplies, fabricating methods, and special tooling hereunder. The Government, through any authorized representative, may inspect the plant or plants of the Contractor or of any of its subcontractors engaged in the performance of this contract. If any inspection or test is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government inspectors in the performance of their duties. All inspections and tests by the Government shall be performed in such a manner as will not unduly delay the work. Except as otherwise provided in this contract, acceptance of any supplies or lots of supplies shall be made as promptly as practicable after delivery thereof and shall be deemed to have been made no later than sixty (60) days after the date of such delivery, if acceptance has not been made earlier within such period.

(b) At any time during performance of this contract, but not later than six (6) months (or such other period as may be provided in the Schedule) after acceptance of the supplies or lots of supplies last delivered in accordance with the requirements of this contract, the Government may require the Contractor to remedy by correction or replacement, as directed by the Contracting Officer, any supplies or lots of supplies which at the time of delivery thereof are defective in material or workmanship or otherwise not in conformity with the requirements of this contract. Except as otherwise provided in paragraph (c) of this section, the cost of any such replacement or correction shall be included in Allowable Cost determined as provided in the clause of this contract entitled "Allowable Cost, Fixed Fee and Payment," but no additional fee shall be payable with respect thereto. Such supplies or lots of supplies shall not be tendered thereafter for acceptance unless the former requirement of correction is disclosed. If the Contractor fails to proceed with reasonable promptness to replace or correct such supplies or lots of supplies, the Government (1) may by contract or otherwise replace or correct such supplies and charge to the Contractor any increased cost occasioned the Government thereby, or may reduce any fixed fee payable under this contract (or require repayment of any fixed fee theretofore paid) in such amount as may be equitable under the circumstances, or (2) in the case of supplies not delivered, may require the delivery of such supplies, and shall have the right to reduce any fixed fee payable under this contract (or to require repayment of any fixed fee theretofore paid) in such amount as may be equitable under the circumstances, or (3) may terminate this contract for default as provided in the clause of this contract entitled "Termination." Failure to agree to the amount of any such increased cost to be charged to the Contractor or to such reduction in, or repayment of, the fixed fee shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(c) Notwithstanding the provisions of paragraph (b) hereof, the Government may at any time require the correction or replacement by the Contractor, without cost to the Government, of supplies or lots of supplies which are defective in material or workmanship, or otherwise not in conformity with the requirements of this contract, if such defects or failures are due to fraud, lack of good faith or willful misconduct on the part of any of the Contractor's directors or officers, or on the part of any of his managers, superintendents, or other equivalent representatives, who has supervision or direction of (i) all or substantially all of the Contractor's business, or (ii) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (iii) a separate and complete major industrial operation in connection with the performance of this contract. The Government may at any time also require correction or replacement by the Contractor, without cost to the Government, of any such defective supplies or lots of supplies if the defects or failures are caused by one or more individual employees selected or retained by the Contractor after any such supervisory personnel has reasonable grounds to believe that any such employee is habitually careless or otherwise unqualified.

(d) Corrected supplies or replaced supplies shall be subject to the provisions of this clause in the same manner and to the same extent as supplies originally delivered under this contract.

(e) The Contractor shall make its records of all inspection work available to the Government during the performance of this contract and for such longer period as may be specified in this contract.

(f) Except as provided in this clause and as may be provided in the Schedule, the Contractor shall have no obligation or liability to correct or replace supplies or lots of supplies which at the time of delivery are defective in material or workmanship or otherwise not in conformity with the requirements of this contract.

(g) Except as otherwise provided in the Schedule, the Contractor's obligation to correct or replace Government-furnished property (which is property in the possession of or acquired directly by the Government and delivered or otherwise made available to the Contractor) shall be governed by the provisions of the clause of this contract entitled "Government Property."

§ 7.203–6 Assignment of claims.

In accordance with the instructions set forth in § 7.103–8, insert the contract clause set forth in § 7.103–8.

§ 7.203–7 Records.

(a) Except as provided in (b) of this section and in § 6.701, insert the following clause:

RECORDS (JAN. 1960)

(a) (1) The Contractor agrees to maintain books, records, documents and other evidence pertaining to the costs and expenses of this contract (hereinafter collectively called the "records") to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs and expenses of whatever nature for which reimbursement is claimed under the provisions of this contract. The Contractor's accounting procedures and practices shall be subject to the approval of ------*; *Provided, however*, That no material change will be required to be made in the Contractor's accounting procedures and practices if they conform to generally accepted accounting practices and if the costs properly applicable to this contract are readily ascertainable therefrom.

(2) The Contractor agrees to make available at the office of the Contractor at all reasonable times during the period set forth in subparagraph (4) below any of the records for inspection, audit or reproduction by any authorized representative of the Department or of the Comptroller General.

(3) In the event the Comptroller General or any of his duly authorized representatives determines that his audit of the amounts reimbursed under this contract as transportation charges will be made at a place other than the office of the Contractor, the Contractor agrees to deliver, with the reimbursement voucher covering such charges or as may be otherwise specified within two years after reimbursement of charges covered by any such voucher, to such representative as may be designated for that purpose through ------* such documentary evidence in support of transportation costs as may be required by the Comptroller General or any of his duly authorized representatives.

(4) Except for documentary evidence delivered to the Government pursuant to subparagraph (3) above, the Contractor shall preserve and make available his records (i) for a period of three years from the date of final payment under this contract, and (ii) for such longer period, if any, as is required by applicable statute, by any other clause of this contract, or by (A) or (B) below.

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date or any resulting final settlement.

(B) Records which relate to (i) appeals under the Disputes clause of this contract, (ii) litigation or the settlement of claims arising out of the performance of this contract, or (iii) cost and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall be retained by the Contractor until such appeals, litigation, claims, or exceptions have been disposed of.

(5) Except for documentary evidence delivered pursuant to subparagraph (3) above, and the records described in subparagraph (4)(B) above, the Contractor may in fulfillment of its obligation to retain its records as required by this clause substitute photographs, microphotographs, or other authentic reproductions of such records, after the expiration of two years following the last day of the month of reimbursement to the Contractor of the invoice or voucher to which such records relate, unless a shorter period is authorized by the Contracting Officer with the concurrence of the Comptroller General or his duly authorized representative.

(6) The provisions of this paragraph (a), including this subparagraph (6), shall be applicable to and included in each subcontract hereunder which is on a cost, cost-plus-a-fixed-fee, time-and-material or labor-hour basis.

(b) The Contractor further agrees to include in each of his subcontracts hereunder, other than those set forth in subparagraph (a)(6) above, a provision to the effect that the subcontractor agrees that the Comptroller General or the Department, or any of their duly authorized representatives, shall, until the expiration of three years after final payment under the subcontract, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor involving transactions related to the subcontract. The term "subcontract," as used in this paragraph (b) only, excludes (i) purchase orders not exceeding $2,500 and (ii) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

In the foregoing clause, insert, in contracts of the Department of the Army, and the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the words "the Comptroller of the Navy (Contract Audit Division)," in the space designated by an asterisk (----------*).

(b) In the case of contracts which establish separate periods of performance, the following alternate subparagraph (a)(4) may be substituted for the corresponding subparagraph of the clause prescribed by paragraph (a) of this section.

(4) Except for documentary evidence delivered to the Government pursuant to subparagraph (3) above, the Contractor shall preserve and make available his records (i) for a period of three years from the date of payment of the voucher or invoice submitted by the Contractor after the completion of the work performed during any separate period of performance established by this contract or by any amendment or supplemental agreement, without regard to former or subsequent periods of performance, and (ii) for such longer period, if any, as is required by applicable statute, by any other clause of this contract, or by (A), (B), or (C) below.

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date of any resulting final settlement.

(B) Records which relate to (i) appeals under the Disputes clause of this contract, (ii) litigation or the settlement of claims arising out of the performance of this contract, or (iii) cost and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall be retained by the Contractor until such appeals, litigation, claims, or exceptions have been disposed of.

(C) If the Contractor plans to destroy any records sooner than three years after the date of the voucher or invoice to be submitted after the completion of the work performed during the total of the periods of performance established by this contract and all amendments and supplemental agreements thereto, which voucher or invoice shall be designated "completion voucher" or "completion invoice," it shall give written notice to the Contracting Officer and to the Comptroller General of the United States, specifying any records which it plans to destroy after the expiration of 90 days from the receipt of such notice, and shall retain any records which either the Contracting Officer or the Comptroller General, by written notice within 90 days after receipt of the Contractor's notice, requires to be retained for a further specified period of time.

In the case of such contracts which do not contain the foregoing alternate subparagraph (a)(4), that subparagraph may be inserted by amendment, or in the alternative, the retention of records may be administered in accordance with the procedures set forth in the foregoing alternate subparagraph (a)(4).

§ 7.203–8 Subcontracts.

SUBCONTRACTS (JULY 1960)

(a) The Contractor shall give advance notification to the Contracting Officer of any proposed subcontract hereunder which (i) is on a cost or cost-plus-a-fixed-fee basis, or (ii) is on a fixed-price basis exceeding in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract.

(b) The Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which (i) is on a cost or cost-plus-a-fixed-fee basis, or (ii) is on a fixed-price basis exceeding in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract, or (iii) provides for the fabrication, purchase, rental, installation or other acquisition, of any item of industrial facilities, or of special tooling having a value in excess of $1,000, or (iv) is on a time-and-material or labor-hour basis. The Contracting Officer may, in his discretion, ratify in writing any such subcontract; such action shall constitute the consent of the Contracting Officer as required by this paragraph (b).

(c) The Contractor agrees that no subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(d) The Contracting Officer may, in his discretion, specifically approve in writing any of the provisions of a subcontract. However, such approval or the consent of the Contracting Officer obtained as required by this clause shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost.

(e) The Contractor shall give the Contracting Officer immediate notice in writing of any action or suit filed, and prompt notice of any claim made against the Contractor by any subcontractor or vendor which, in the opinion of the Contractor, may result in litigation, related in any way to this contract with respect to which the Contractor may be entitled to reimbursement from the Government.

(f) Notwithstanding (b) above, the Contractor may enter into subcontracts within (ii), or, if the subcontract is for special tooling, within (iii), of (b) above, without the prior written consent of the Contracting Officer if the Contracting Officer has, in writing, approved the Contractor's purchasing system and the subcontract is within the limitations of such approval.

(g) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of the "Limitation on Payments" provision set forth in paragraph (j) of the clause prescribed by paragraph 7–108 of the Armed Services Procurement Regulation, including subparagraph (4) thereof, modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) thereof relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of the "Limitation on Payments" provision, including subparagraph (4) thereof, modified as outlined in (i) above.

In paragraph (a) of the foregoing clause, the percentage and amount set forth therein may be revised downward only in accordance with Departmental procedures. In paragraph (b) of the foregoing clause, the percentage and amount set forth in (ii) thereof may be varied, the dollar amount set forth in (iii) may be increased, and in (i) and (iv) thereof dollar amounts not in excess of $10,000 may be established below which the prior written consent of the contracting officer need not be obtained, in accordance with Departmental procedures.

§ 7.203–9 Utilization of small business concerns.

Insert the contract clause set forth in § 7.104–14, except in those contracts entered into with foreign contractors which are to be performed outside of the United States, its Territories, its posessions, and Puerto Rico.

§ 7.203–10 Termination.

Insert the contract clause set forth in § 8.702.

§ 7.203–11 Excusable delays.

Insert the clause set forth in § 8.708.

§ 7.203–12 Disputes.

Insert the contract clause set forth in § 7.103–12. In accordance with Department procedures, the foregoing clause may be modified to provide for (a) decision by the activity within a Department performing audit functions of any dispute concerning a question as to allowability of cost, and (b) intermediate appeal to the Head of the Procuring Activity concerned. The decision of the Contracting Officer or of the Activity performing the audit function shall, if mailed, be sent by certified mail, return receipt requested.

§ 7.203–13 Renegotiation.

In accordance with the requirements of § 7.103–13, insert the appropriate contract clause set forth therein.

§ 7.203–14 [Reserved]

§ 7.203–15 Convict labor.

Insert the contract clause set forth in § 12.203 of this subchapter.

§ 7.203–16 Eight-Hour Law of 1912—Overtime compensation.

Insert the contract clause set forth in § 12.303–1 of this chapter. Note the introductory provision required by § 12.303–2 of this chapter in the case of contracts with a State or political subdivision thereof.

§ 7.203–17 Walsh-Healey Public Contracts Act.

Insert the contract clause set forth in § 12.604 of this subchapter.

§ 7.203–18 Nondiscrimination in employment.

Insert the contract clause set forth in § 12.802.

§ 7.203–19 Officials not to benefit.

Insert the contract clause set forth in § 7.103–19.

§ 7.203–20 Covenant against contingent fees.

Insert the contract clause set forth in § 7.103–20.

§ 7.203–21 Government property.

Insert the contract clause set forth in § 13.503 of this subchapter.

§ 7.203–22 Insurance; liability to third persons.

INSURANCE—LIABILITY TO THIRD PERSONS (JAN. 1960)

(a) The Contractor shall procure and thereafter maintain workmen's compensation employer's liability, comprehensive general liability (bodily injury) and comprehensive automobile liability (bodily injury and property damage) insurance, with respect to performance under this contract, and such other insurance as ---------- [1] may from time to time require with respect to performance under this contract: *Provided*, That the Contractor may with the approval of ---------- [1] maintain a self-insurance program: *And provided further*, That with respect to workmen's compensation the Contractor is qualified pursuant to statutory authority. All insurance required pursuant to the provisions of this paragraph shall be in such form, in such amounts, and for such periods of time, as ---------- [1] may from time to time require or approve, and with insurers approved by ---------- [1].

(b) The Contractor agrees, to the extent and in the manner required by ------*, to submit for the approval of ------* any other insurance maintained by the Contractor in connection with the performance of this contract and for which the Contractor seeks reimbursement hereunder.

(c) The Contractor shall be reimbursed: (i) For the portion allocable to this contract of the reasonable cost of insurance as required or approved pursuant to the provisions of this clause, and (ii) for liabilities to third persons for loss or damage to property (other than property (A) owned, occupied or used by the Contractor or rented to the Contractor or (B) in the care, custody, or control of the Contractor), or for death or bodily injury, not compensated by insurance or otherwise, arising out of the performance of this contract, whether or not caused by the negligence of the Contractor, its agents, servants or employees, provided such liabilities are represented by final judgments or by settlements approved in writing by the Government, and expenses incidental to such liabilities, except liabilities (i) for which the Contractor is otherwise responsible under the express terms of the clause or clauses, if any, specified in the Schedule, or (ii) with respect to which the Contractor has failed to insure as required or maintain insurance as approved by ------* or (iii) which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who has supervision or direction of (1) all or substantially all of the Contractor's business, or (2) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (3) a separate and complete major industrial operation in connection with the performance of this contract. The foregoing shall not restrict the right of the Contractor to be reimbursed for the cost of insurance maintained by the Contractor in connection with the performance of this contract, other than insurance required to be submitted for approval or required to be procured and maintained pursuant to the provisions of this clause, provided such cost would constitute Allowable Cost under the clause of this contract entitled "Allowable Cost, Fixed Fee and Payment."

[1] In the foregoing clause, insert, in contracts of the Department of the Army the words "the Contracting Officer," and insert, in contracts of the Department of the Navy and the Department of the Air Force, the activity designated in accordance with Departmental procedures.

(d) The Contractor shall give the Government or its representatives immediate notice of any suit or action filed, or prompt notice of any claim made, against the Contractor arising out of the performance of this contract, the cost and expense of which may be reimbursable to the Contractor under the provisions of this contract, and the risk of which is then uninsured or in which the amount claimed exceeds the amount of coverage. The Contractor shall furnish immediately to the Government copies of all pertinent papers received by the Contractor. If the amount of the liability claimed exceeds the amount of coverage, the Contractor shall authorize representatives of the Government to collaborate with counsel for the insurance carrier, if any, in settling or defending such claim. If the liability is not insured or covered by bond, the Contractor shall, if required by the Government, authorize representatives of the Government to settle or defend any such claim and to represent the Contractor in or take charge of any litigation in connection therewith: *Provided, however*, That the Contractor may, at its own expense, be associated with the representatives of the Government in the settlement or defense of any such claim or litigation.

In the foregoing clause, insert, in the contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert, in the contracts of the Department of the Navy, the words "the Department," in the space designated by an asterisk (------*).

§ 7.203–23 Authorization and consent.

Insert the contract clause set forth in § 9.102–1 of this subchapter.

§ 7.203–24 Notice and assistance regarding patent infringement.

Insert the contract clause set forth in § 9.104 of this subchapter.

§ 7.203–25 Soviet-controlled areas.

In accordance with the requirements of § 6.403 of this subchapter, insert the contract clause set forth therein.

§ 7.203–26 Utilization of concerns in labor surplus areas.

Insert the contract clause set forth in § 7.104–20 of this part, except in contracts of which the estimated cost does not exceed $5,000 and in contracts with foreign contractors which are to be performed outside the United States, its possessions, and Puerto Rico.

§ 7.203–27 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

§ 7.204 Clauses to be used when applicable.

§ 7.204–1 Davis-Bacon Act.

In accordance with the requirements of Subpart D of Part 12 of this subchapter insert the applicable contract clauses set forth in § 12.403–1 or § 12.403–4 of this subchapter, as the case may be.

§ 7.204–2 Copeland Act.

In accordance with the requirements of Subpart D of Part 12 of this subchapter, insert the applicable contract clauses set forth in § 12.403–1 or § 12.403–4 of this subchapter, as the case may be.

§ 7.204–3 Buy American Act.

In accordance with the requirements of § 6.104–5 of this chapter, insert the clause set forth therein.

§ 7.204–4 Notice to the Government of labor disputes.

Insert the clause set forth in § 7.104–4 in all contracts involving the furnishing or production of any item on the Department of Defense Master Urgency List and in any other contract of a class or kind which the Head of the Procuring Activity concerned determines to be appropriate for the use of such a clause.

§ 7.204–5 Patent indemnity.

In accordance with the requirements of § 9.103 of this chapter, insert the appropriate contract clause with additional provisions as prescribed, set forth in said section.

§ 7.204–6 Filing of patent applications.

In accordance with the requirements of § 9.106 or § 9.106–1, insert either of the contract clauses set forth therein, as appropriate.

§ 7.204–7 Patent rights.

In accordance with the requirements of § 9.107 of this chapter, insert the appropriate clause with additional provisions as prescribed, set forth in said section.

§ 7.204–8 Reporting of royalties.

In accordance with the requirements of § 9.110 of this chapter, insert the contract clause set forth therein.

§ 7.204–9 Rights in data.

In accordance with the requirements of Subpart B of Part 9 of this Subchapter, insert one of the contract clauses set forth in § 9.203–1, § 9.204–2, or § 9.206 of this chapter, as appropriate. When the contract clause in § 9.203–1 of this chapter, is used, the appropriate additional provisions shall be added in accordance with the requirements of § 9.203, § 9.203–2, § 9.203–3, or § 9.203–4 of this chapter; and the additional provision in § 9.204–1 of this chapter may be added under the circumstances set forth in § 9.204–1 of this chapter.

§ 7.204–10 Quality Control System.

In accordance with the instructions in § 7.104–28 of this part, insert the contract clause set forth therein.

§ 7.204–11 Excess profit.

In accordance with the instructions set forth in § 7.104–11, insert the appropriate contract clause set forth in said section.

§ 7.204–12 Military security requirements.

In accordance with the requirements of § 7.104–12, insert the contract clause set forth in said section, deleting paragraphs (e) and (f) therefrom and substituting therefor the following paragraphs (e) and (f):

(e) If, subsequent to the date of this contract, the security classifications or security requirements under this contract are changed by the Government as provided in this clause, and if such change causes an increase or decrease in the estimated cost of performance of this contract, the estimated cost and fixed fee shall, to the extent appropriate, be subject to an equitable adjustment. Any such equitable adjustment shall be accomplished in the manner set forth in the "Changes" clause in this contract.

(f) The Contractor agrees to insert, in all subcontracts hereunder which involve access to classified information, provisions which shall conform substantially to the language of this clause, including this paragraph (f) but excluding paragraph (e) of this clause. The Contractor may insert in any such subcontract, and any such subcontract entered into thereunder may contain, in lieu of paragraph (e) of this clause, provisions which permit equitable adjustments to be made in the subcontract price or in the estimated cost and fixed fee of the subcontract (as appropriate to the type of subcontract involved) on account of changes in security classifications or requirements made under the provisions of this clause subsequent to the date of the subcontract involved.

§ 7.204–13 Preference for certain domestic commodities.

In accordance with the requirements of § 6.305 of this chapter, insert the clause set forth therein.

§ 7.204–14 Gratuities.

In accordance with the requirements of § 7.104–16, insert the contract clause set forth in said section.

§ 7.204–15 Priorities, allocations and allotments.

In accordance with the requirements of § 1.307–2 of this subchapter, insert the contract clause set forth in § 7.104–18.

§ 7.204–16 Negotiated overhead rates.

Insert the contract clause set forth in § 3.704–1 of this subchapter in all contracts with commercial concerns where negotiated overhead rates pursuant to Part 3, subpart G, are to be used.

§ 7.204–17 Cargo preference act.

In accordance with the requirements of § 1.1404(b) of this subchapter, insert one of the contract clauses set forth therein as appropriate.

§ 7.204–18 Limitation on withholding of payments.

In accordance with the instructions in § 7.104–21, insert the contract clause set forth therein.

§ 7.204–19 Defense subcontracting small business program.

In accordance with § 1.707–2(b), insert the contract clause set forth in § 7.104–22.

§ 7.204–20 Changes to make or buy program.

In accordance with the requirements of § 3.902(d) of this subchapter, insert the clause set forth therein.

§ 7.205 Additional clauses.

The following clauses shall be inserted in cost-reimbursement type supply contracts in accordance with Department procedures when it is desired to cover the subject matter thereof in such contracts.

§ 7.205–1 Alteration in contract.

The contract clause set forth in § 7.105–1 may be inserted.

§ 7.205–2 Approval of contract.

The contract clause set forth in § 7.105–2 may be inserted.

§ 7.205–4 Bill of materials.

The contract clause set forth in § 7.105–6 of this regulation may be inserted pursuant to the provisions of that section.

§ 7.205–6 Materiel inspection and receiving report.

The contract clause set forth in § 7.105–7 may be inserted to the extent authorized by Departmental procedures.

§ 7.205–7 Stop work orders.

The clause set forth in § 7.105–8 of this part, if modified by changing (a) the words "the 'Termination for Convenience' clause of this contract" to "the 'Termination' clause of this contract" and (b) the words "an equitable adjustment shall be made in the delivery schedule or contract price, or both" to "an equitable adjustment shall be made in the delivery schedule, the estimated cost, the fee, or a combination thereof, and in any other provisions of the contract that may be affected," is authorized for use in any cost-reimbursement type contract under the criteria and in accordance with the instructions in § 7.105–8.

Subpart C—Clauses for Fixed-Price Research and Development Contracts

§ 7.301 Applicability.

As used throughout this subpart, the term "fixed-price research and development contract" means any contract (other than a letter contract, a notice of award, or a modification not affecting new procurement) which (i) is entered into at a fixed price in an amount exceeding $2,500 (with or without any provision for price redetermination, escalation, or other form of price revision as covered in § 3.403, of this chapter), and (ii) is for experimental, developmental, or research work. See § 3.402(b) of this chapter limiting use of fixed-price contracts for research and development work.

§ 7.302 Required clauses.

The following clause shall be inserted, as required, in all fixed-price research and development contracts, except as may otherwise be indicated in this subpart.

§ 7.302–1 Definitions.

Insert the contract clause set forth in § 7.103–1. Additional definitions may be included in such clause provided they are not inconsistent with such clause or the provisions of this subchapter.

§ 7.302–2 Payments.

PAYMENTS (JUNE 1959)

The Contractor shall be paid, upon submission of proper invoices or vouchers, the prices stipulated herein for work delivered or rendered and accepted, less deductions, if any, as herein provided. Unless otherwise specified, payment will be made upon acceptance of any portion of the work delivered or rendered for which a price is separately stated in the contract.

§ 7.302–3 Standards of work.

STANDARDS OF WORK (JUNE 1959)

The Contractor agrees that the performance of work and services pursuant to the requirements of this contract shall conform to high professional standards.

§ 7.302–4 Inspection.

(a) The following clause shall be used where the primary contract objective is delivery of end items other than designs, drawings or reports, except where the contracting officer determines that the use of such clause is impracticable. Where this clause is not used, the clause provided in paragraph (b) of this section shall be used.

INSPECTION (JUNE 1959)

(a) All work under this contract shall be subject to inspection and test by the Government, to the extent practicable, at all times (including the period of performance) and places, and in any event prior to acceptance. The Government through any authorized representative may inspect the premises of the Contractor or any subcontractor engaged in the performance of this contract.

(b) The Government may reject any work that is defective or otherwise not in conformity with the requirements of this contract. If the Contractor fails or is unable to correct or to replace such work, the Contracting Officer may accept such work at a reduction in price which is equitable under the circumstances. Failure to agree on the reduction in price shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(c) If any inspection or test is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide, without additional charge, all reasonable facilities and assistance for the safety and convenience of the Government inspectors in the performance of their duties. If the Government inspection or test is made at a point other than the premises of the Contractor or subcontractor, it shall be at the expense of the Government. All inspections and tests by the Government shall be performed in such a manner as not unduly to delay the work. Final inspection and acceptance or rejection of the work shall be made as promptly as practicable after delivery except as otherwise provided in this contract; but failure to inspect and accept, or reject the work shall neither relieve the Contractor from responsibility for such of the work as is not in accordance with the contract requirements nor impose liability on the Government therefor.

(d) The inspection and test by the Government of any work shall not relieve the Contractor from any responsibility regarding defects or other failures to meet the contract requirements which may be discovered prior to acceptance. Except as otherwise provided in this contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

(e) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the work hereunder. Records of all inspection work by the Contractor shall be kept complete and available to the Government during the performance of this contract and for such longer period as may be specified elsewhere in this contract.

(b) The following clause shall be inserted in all contracts subject to this part where the clause in paragraph (a) of this section is not used.

INSPECTION (JUNE 1959)

The Government, through any authorized representatives, has the right, at all reasonable times, to inspect, or otherwise evaluate the work performed or being performed hereunder and the premises in which it is being performed. If any inspection, or evaluation is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require its subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.

§ 7.302–5 Assignment of claims.

In accordance with the instructions set forth in § 7.103–8, insert the contract clause set forth therein.

§ 7.302–6 Examination of records.

In negotiated fixed-price research and development contracts, insert the clause set forth in § 7.104–15 in accordance with the requirements set forth therein.

§ 7.302–7 Federal, State, and local taxes.

In accordance with the requirements of § 11.401 of this chapter, insert the contract clause set forth in §§ 11.401–1 or 11.401–2 of this chapter as appropriate.

§ 7.302–8 Utilization of small business concerns.

Insert the contract clause set forth in § 7.104–14 in all contracts in amounts exceeding $5,000, except contracts with foreign contractors which are to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

§ 7.302–9 Default.

In accordance with the requirements of § 8.710 of this chapter, insert the clause set forth therein.

§ 7.302–10 Termination for convenience of the government.

In accordance with the requirements of §§ 8.701 and 8.704 of this chapter, insert the appropriate contract clause.

§ 7.302–11 Disputes.

In accordance with the instructions in § 7.103–12, insert the contract clause set forth in § 7.103–12.

§ 7.302–12 Renegotiation.

In accordance with the requirements of § 7.103–13, insert the appropriate contract clause set forth therein.

§ 7.302–13 Buy American Act.

In accordance with the requirements of § 6.104–5 of this chapter, insert the contract clause set forth therein.

§ 7.302–14 Convict labor.

In accordance with the requirements of § 12–202, insert the contract clause set forth in ASPR 12–203.

§ 7.302–15 Walsh-Healey Public Contracts Act.

In accordance with the requirements of Part 12, subpart F of this chapter, insert the contract clause set forth in § 12.604 of this chapter.

§ 7.302–16 Eight-hour law of 1912—overtime compensation.

In accordance with the instructions of § 12.303 of this chapter, insert the clause set forth therein.

§ 7.302–17 Nondiscrimination in employment.

In accordance with the requirements of § 12.802 of this chapter, insert the contract clause set forth therein.

§ 7.302–18 Officials not to benefit.

Insert the contract clause set forth in § 7.103–19.

§ 7.302–19 Covenant against contingent fees.

Insert the contract clause set forth in § 7.103–20.

§ 7.302–20 Gratuities.

In accordance with the requirements of § 7.104–16, insert the contract clause set forth therein.

§ 7.302–21 Authorization and consent.

In accordance with the requirements of § 9.102 of this chapter, insert the appropriate contract clause set forth therein.

§ 7.302–22 Notice and assistance regarding patent infringement.

In accordance with the requirements of § 9.104 of this chapter, insert the contract clause set forth therein.

§ 7.302–23 Patent rights.

In accordance with the requirements of § 9.107 of this chapter, insert the appropriate contract clause set forth therein with additional or alternate paragraphs as prescribed therein. However, in the case of contracts awarded on the basis of no profit, the percentage amount specified to be withheld under paragraph (*f*) of the clause set forth in § 9.107–2 of this chapter, or paragraphs (c) and (*d*) of the clause set forth in § 9.107–3 of this chapter, may be changed from "ten percent (10%)" to "one percent (1%)."

§ 7.302–24 Basic data clause.

In accordance with the requirements of § 9.202 of this chapter, insert the clause set forth in § 9.203–1 of this chapter with appropriate additional or alternate paragraphs as prescribed by the instructions in §§ 9.203 and 9.204–1 of this chapter.

§ 7.302–25 Military security requirements.

(a) Except as provided in paragraph (b) of this section, insert the contract clause prescribed by § 7.104–12: *Provided*, That the clause may be modified in accordance with § 7.104–12 with respect to contracts outside the United States, its Territories, its possessions, and Puerto Rico, with respect to additional security safeguards.

(b) In any research and development contract with an educational institution when the contract is awarded on the basis of no profit, insert the clause set forth in § 7.402–24(b), except that such clause may be appropriately modified for contracts to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

(c) The contracting officer or his authorized representative shall prepare and transmit to the contractor and the Government representative having security cognizance over the contract involved a Security Requirements Check List (DD Form 254) or other written notification, in accordance with § 16.811 of this chapter.

§ 7.302–26 Utilization of labor surplus area concerns.

Insert the contract clause set forth in § 7.104–20, except in contracts of which the contract price does not exceed $5,000 and in contracts with foreign contractors which are to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

§ 7.303 Clauses to be used when applicable.

§ 7.303–1 Clauses for contracts involving construction work.

In accordance with the requirements of § 12.403 of this chapter, insert the clauses entitled:

Davis-Bacon Act.
Eight-Hours Laws—Overtime Compensation.
Apprentices.
Payroll Records and Payrolls.
Copeland ("Anti-Kickback") Act.
Withholding of Funds To Assure Wage Payment.
Subcontracts—Termination.

§ 7.303–2 Filing of patent applications.

In accordance with the requirements of § 9.106 of this chapter, insert the contract clause set forth in § 9.106 or § 9.106–1 of this chapter, as appropriate.

§ 7.303–3 Reporting of royalties.

In accordance with the requirements of § 9.110 of this chapter, insert the contract clause set forth therein.

§ 7.303–4 Excess profit.

In accordance with the requirements of § 7.104–11, insert the appropriate contract clause set forth therein.

§ 7.303–5 Preference for certain domestic commodities.

In accordance with the requirements of § 6.305 of this chapter, insert the contract clause set forth therein.

§ 7.303–6 Priorities, allocations, and allotments.

In accordance with the requirements of § 1.307–2 of this chapter, insert the contract clause set forth in § 7.104–18.

§ 7.303–7 Government-furnished property.

In accordance with the requirements set forth in §§ 13.502 and 13.505 of this chapter, insert the appropriate contract clause.

§ 7.303–8 Soviet-controlled areas.

In accordance with the requirements of § 6.403 of this chapter, insert the contract clause set forth therein.

§ 7.303–9 Notice to the Government of labor disputes.

Insert the clause set forth in § 7.104–4 in all contracts involving the furnishing or production of any item on the Department of Defense Master Urgency List and in any other contract of a class or kind which the Head of the Procuring Activity concerned determines to be appropriate for the use of such a clause.

§ 7.303–10 Limitation on withholding of payments.

Insert the clause in § 7.104–21(a) when required by § 7.104–21.

§ 7.303–11 Defense subcontracting small business program.

In accordance with § 1.707–2(b), insert the contract clause set forth in § 7.104–22.

§ 7.303–12 Subcontracts.

In accordance with the requirements of § 3.903–1 of this chapter, insert an appropriate Subcontracts clause.

§ 7.303–13 Changes to make or buy program.

In accordance with the requirements of § 3.902(d) of this subchapter, insert the clause set forth therein.

§ 7.303–14 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

§ 7.303–15 Quality Control System.

In accordance with the instructions in § 7.104–28 of this part, insert the contract clause set forth therein.

§ 7.304 Additional clauses.

The following clauses shall be inserted in accordance with Departmental procedures where it is desired to cover the subject matter thereof in such contracts.

§ 7.304–1 Changes.

CHANGES (JUNE 1959)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (i) drawings, designs, or specifications, (ii) method of shipment or packing, (iii) place of inspection, delivery, or acceptance, and (iv) the amount of Government-furnished property. If any such change causes an increase or decrease in the cost of, or the time required for performance of, this contract, or otherwise affects any other provisions of this contract, whether changed or not changed by any such order, an equitable adjustment shall be made (i) in the contract price or time of performance, or both, and (ii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change; *Provided, however*, That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the

clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted, may be varied in accordance with Departmental procedures.

§ 7.304–2 Alterations in contract.

The contract clause set forth in § 7.105–1 may be inserted.

§ 7.304–3 Approval of contract.

The contract clause set forth in § 7.105–2 may be inserted.

§ 7.304–4 Bill of materials.

The contract clause set forth in § 7.105–6 may be inserted pursuant to the provisions of said paragraph.

§ 7.304–5 Notice of shipments.

The contract clause set forth in § 7.105.4 may be inserted.

§ 7.304–6 Stop work orders.

The clause set forth in § 7.105–8 of this part is authorized for use under the criteria and in accordance with the instructions in § 7.105–8.

§ 7.304–7 Reports of work.

In accordance with the instructions in § 7.404–6, the contract clause set forth therein may be inserted.

Subpart D—Clauses for Cost-Reimbursement Type Research and Development Contracts

§ 7.400 Scope of subpart.

This subpart sets forth uniform contract clauses for use in cost-reimbursement type research and development contracts as defined in § 7.401.

§ 7.401 Applicability.

As used throughout this subpart, the term "cost-reimbursement type research and development contract" shall mean any contract (other than a letter contract, notice of award, or modification not effecting new procurement) which (i) is entered into on a cost, cost-sharing, or cost-plus-a-fee basis as covered in § 3.404, and (ii) is for experimental, developmental, or research work.

§ 7.402 Required clauses.

The following clauses shall be inserted, as required, in all cost-reimbursement type research and development contracts.

§ 7.402–1 Definitions.

Insert the contract clause set forth in § 7.103–1. Additional definitions may be included in such clause: *Provided,* They are not inconsistent with such clause or the provisions of this subchapter.

§ 7.402–2 Limitation of cost.

LIMITATION OF COST

(a) It is estimated that the total cost to the Government, exclusive of any fixed fee, for the performance of this contract will not exceed the estimated cost set forth in the Schedule, and the Contractor agrees to use its best efforts to perform the work specified in the Schedule, and all obligations under this contract within such estimated cost. If at any time the Contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the estimated cost then set forth in the Schedule, or if at any time, the Contractor has reason to believe that the total cost to the Government, exclusive of any fixed fee, for the performance of this contract will be substantially greater or less than the then estimated cost thereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving the revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the Schedule, and the Contractor shall not be obligated to continue performance under the contract or to incur costs in excess of the estimated cost set forth in the Schedule, unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. When and to the extent that the estimated cost set forth in the Schedule has been increased, any costs incurred by the Contractor in excess of such estimated cost prior to the increase in estimated cost shall be allowable to the same extent as if such costs had been incurred after such increase in estimated cost.

The words "exclusive of any fixed fee," occurring twice in paragraph (a) of the foregoing clause, may be deleted in any contract not providing for the payment of a fixed fee. The words "Task Order" or other appropriate designation may be substituted, as appropriate, for the word "Schedule," occurring twice in each of paragraphs (a) and (b) of the foregoing clause.

Where the contract is of the installment type, the above clause may be appropriately modified in accordance with Departmental procedures.

§ 7.402–3 Allowable cost, fixed fee, and payment. (Feb. 1959).

(a) Subject to the instructions set forth in (b) below, insert the following clause in those contracts covered by any of the exceptions listed in § 3.404–3 (d) (2)

ALLOWABLE COST, FIXED FEE, AND PAYMENT

(a) For the performance of this contract, the Government shall pay to the Contractor:

(i) The cost thereof (hereinafter referred to as "allowable cost") determined by _____* to be allowable in accordance with—

(A) Subpart B of Part 15 of this Subchapter as in effect on the date of this contract; and

(B) the terms of this contract; and

(ii) Such fixed fee, if any, as may be provided for in the Schedule.

(b) Once each month (or at more frequent intervals, if approved by _____*) the Contractor may submit to an authorized representative of _____*, in such form and reasonable detail as such representative may require, an invoice or public voucher supported by a statement of cost incurred by the Contractor in the performance of this contract and claimed to constitute allowable cost.

(c) Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (d) below, make payment thereon as approved by _____*. Payment of the fixed fee, if any, shall be made to the Contractor as specified in the Schedule: *Provided, however,* That after payment of eighty-five percent (85%) of the fixed fee set forth in the Schedule, further payment on account of the fixed fee shall be withheld until a reserve of either fifteen percent (15%) of the total fixed fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(d) At any time or times prior to final payment under this contract_____* may have invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by_____*, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(e) On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including, without limitation, the provisions relating to patents and the provisions of (f) below, the Government shall promptly pay to the Contractor any balance of allowable cost, and any part of the fixed fee which has been withheld pursuant to (c) above or otherwise not paid to the Contractor. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than one (1) year (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(f) The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer. Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions—

(A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract; *provided* that such claims are not known to the Contractor on the date of the execution of the release: *And provided further,* That the Contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

(g) Any cost incurred by the Contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specifications or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the Contractor at its expense or without cost to the Government.

(b) (1) In the foregoing clause, insert, in contracts of the Department of the Army and the Department of the Air Force, the words, "the Contracting Officer," and insert, in contracts of the Department of the Navy the words "the Comptroller of the Navy (Contract Audit Division)" in the spaces designated by an asterisk (_____*).

(2) In subparagraph (f) (ii) (B) of the foregoing clause, the period of years may be increased to correspond with any statutory period of limitation applicable to claims of third parties against the contractor: *Provided,* That a corresponding increase is made in the period for retention of records required in subparagraph (a) (4) of the clause prescribed by § 7.402–7.

(3) In paragraph (c) of the foregoing clause, the percentages and amounts set forth therein may be varied in accordance with Departmental procedures.

(4) In the case of contracts without fee:

(i) Insert the following sentence in lieu of the second sentence of paragraph (c) of the foregoing clause—"After payment of an amount equal to eighty percent (80%) of the total estimated cost of performance of this contract set forth in the Schedule, further payment on account of allowable cost shall be withheld until a reserve of either one percent (1%) of such total estimated cost, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside";

(ii) Change the title of the clause set forth in (a) above to "Allowable Cost and Payment";

(iii) Change paragraph (a) of the clause set forth in (a) above, as follows: "(a) For the performance of this contract, the Government shall pay to the Contractor the cost thereof (hereinafter referred to as 'allowable cost') determined by _____* to be allowable in accordance with:

(i) Subpart B of Part 15 of this subchapter as in effect on the date of this contract; and

(ii) The terms of this contract."; and

(iv) Delete, from paragraph (e) of the clause set forth in (a) above, the words "and any part of the fixed fee" and the comma immediately before such words.

(5) In the case of contracts without fee with nonprofit institutions, the words "ten thousand dollars ($10,000)" may be substituted for the words "one hundred thousand dollars ($100,000)" as they appear in the sentence set forth in (4) (i) above.

(6) In the case of contracts with educational institutions, the reference in the alternate paragraph (a) of the foregoing clause, set forth in (4) (iii) above, to "Part 2 of Section XV" shall be deleted, and, in lieu thereof, reference shall be made to "Part 3 of Section XV".

(7) In the foregoing clause, the words "Task Order" or other appropriate designation may be substituted for the word "Schedule" as appropriate.

(c) Subject to the instructions set forth, or referred to, in (d) below, insert the following clause except in those contracts covered by any of the exceptions listed in § 3.404–3 (d) (2).

ALLOWABLE COST, FIXED FEE, AND PAYMENT
(JULY 1960)

(a) For the performance of this contract, the Government shall pay to the Contractor:

(i) The cost thereof (hereinafter referred to as "allowable cost") determined by _____* to be allowable in accordance with—

(A) Subpart B of Part 15 of this Subchapter as in effect on the date of this contract; and

(B) The terms of this contract; and

(ii) Such fixed fee, if any, as may be provided for in the Schedule.

(b) Once each month (or at more frequent intervals, if approved by _____*) the Contractor may submit to an authorized representative of _____*, in such form and reasonable detail as such representative may require, an invoice or public voucher supported by a statement of cost incurred by the Contractor in the performance of this contract and claimed to constitute allowable cost.

(c) (1) As promptly as may be practicable after the receipt of each invoice or voucher and statement of cost, the Government shall, except as otherwise provided in this contract, and subject to the provisions of paragraph (d) below, make payment thereon, as approved by _____*, to the extent of:

(i) 100 percent of such approved costs representing progress payments to subcontractors under fixed price type subcontracts, *provided* that such payments by the Government to the Contractor shall not exceed 70 percent of the costs incurred by such subcontractors,

(ii) 100 percent of such approved costs representing cost reimbursement to subcontractors under cost reimbursement type subcontracts, *provided* that for cost reimbursement type subcontracts not covered by the exceptions listed in § 3.404–3(d)(2) of this Subchapter, as in effect on the date of this contract, such payments by the Government shall not exceed 80 percent of the costs incurred by such subcontractors, and

(iii) 80 percent of all other such approved costs.

The cumulative amount of such invoices or vouchers from time to time approved but not paid pursuant to the foregoing provisions (regardless of whether they are paid under the next sentence hereof) shall constitute a gross withheld payments amount. Upon acceptance and delivery of articles called for by item _____** of this contract, the Government shall pay to the Contractor an amount which, when added to any amounts previously paid under this sentence, shall be the same percentage of the gross withheld payments amount as the cumulative number of articles accepted and delivered under item _____** of this contract is of the total number of articles called for by such item.

(2) Payment of the fixed fee, if any, shall be made to the Contractor as specified in the Schedule: *Provided, however,* That after payment of eighty-five percent (85%) of the fixed fee set forth in the Schedule, further payment on account of the fixed fee shall be withheld until a reserve of either fifteen percent (15%) of the total fixed fee, or one hundred thousand dollars ($100,000), whichever is less, shall have been set aside.

(3) The total of the amounts which may be withheld at any one time under both (c)(1) and (c)(2) above shall not exceed the greatest amount which may then be withheld under either (c)(1) or (c)(2), whichever permits the greater withholding at that time.

(4) In the event of complete termination of the work remaining to be performed under this contract or in the event of cessation of performance pursuant to the clause of this contract entitled "Limitation of Cost," the Government shall, subject to the provisions of paragraph (d) below, pay the balance of the gross withheld payments amount to the Contractor within sixty (60) days from the effective date of termination or date of written notice to the Government that performance has been discontinued pursuant to the clause entitled "Limitation of Cost," as the case may be.

(d) At any time or times prior to final payment under this contract _____* may have the invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by _____*, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(e) On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including, without limitation, the provisions relating to patents and the provisions of (f) below), the Government shall promptly pay to the Contractor any balance of allowable cost, and any part of the fixed fee, which has been withheld pursuant to (c) above or otherwise not paid to the Contractor. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than one (1) year (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(f) The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer. Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions—

(A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract; *provided* that such claims are not known to the Contractor on the date of the execution of the release: *And provided further,* That the Contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the Contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

(g) Any cost incurred by the Contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specifications or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the Contractor at its expense or without cost to the Government.

(d)(1) In the clause in (c) above, insert, in contracts of the Department of the Army and the Department of the Air Force, the words, "the Contracting Officer," and insert, in contracts of the Department of the Navy, the words, "the Comptroller of the Navy (Contract Audit Division)" in the spaces designated by an asterisk (*). In subparagraph (c)(1) of the clause in (c) above, insert the item number of the principal end item being procured under the contract in the space designated by a double asterisk (**).

(2) In accordance with Departmental procedures, the following sentence may be substituted for the third sentence of subparagraph (c)(1) of the clause in (c) above:

Upon the completion of increments of work as specified in the Schedule, the Government shall pay to the Contractor an amount which, when added to any amounts previously paid under this sentence, shall be the same percentage of the gross withheld payments amount as the total of the completed increments is of the total increments of the work called for by this contract.

Increments of work specified in the Schedule pursuant to the above provision may be stated in units, percentages of completion, stages of work, or in any other appropriate manner.

(3) In subparagraph (c)(2) of the clause set forth in (c) above, the percentages and amounts may be varied in accordance with Departmental procedures.

(4) The instructions set forth in paragraph (b) (1), (2) and (7) of this section, relating to the clause set forth in (a) of this section, apply with equal force to the clause set forth in paragraph (c) of this section.

§ 7.402–4 Standards of work.

STANDARDS OF WORK (FEB. 1959)

The Contractor agrees that the performance of work and services pursuant to the requirements of this contract shall conform to high professional standards.

§ 7.402–5 Inspection and correction of defects.

(a)(1) The following clause shall be used where the primary contract objective is the delivery of end items other than designs, drawings, or reports, except where the contracting officer determines that the use of such clause is impracticable.

INSPECTION AND CORRECTION OF DEFECTS (MAY 1960)

(a) All work under this contract shall be subject to inspection and test by the Government (to the extent practicable) at all times (including the period of performance) and places, and in any event prior to acceptance. The Contractor shall provide and maintain an inspection system acceptable to the Government covering the work hereunder. The Government, through any authorized representative, may inspect the plant or plants of the Contractor or of any of its subcontractors engaged in the performance of this contract. If any inspection or test is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government inspectors in the performance of their duties. All inspections and tests by the Government shall be performed in such a manner as will not unduly delay the work. Except as otherwise provided in this contract, final inspection, and acceptance shall be made at the place of delivery as promptly as practicable after delivery and shall be deemed to have been made no later than ninety (90) days after the date of such delivery, if acceptance has not been made earlier within such period.

(b) At any time during performance of this contract, but not later than six (6) months (or such other period as may be provided in the Schedule) after acceptance of all of the end items (other than designs, drawings, or reports) to be delivered under this contract, the Government may require the Contractor to remedy by correction or replacement, as directed by the Contracting Officer, any failure by the Contractor to comply with the requirements of this contract. Any time devoted to such correction or replacement shall not be included in the computation of the period of time specified in the preceding sentence, except as provided in (d) below. Except as otherwise provided in paragraph (c) below, the allowability of the cost of any such replacement or correction shall be determined as provided in the clause of this contract entitled "Allowable Cost, Fixed Fee, and Payment," but no additional fee shall be payable with respect thereto. Corrected articles shall not be tendered again for acceptance unless the former tender and the requirement of correction is disclosed. If the Contractor fails to proceed with reasonable promptness to perform such replacement or correction, the Government (i) may by contract or otherwise perform such replacement or correction and charge to the Contractor any increased cost occasioned the Government thereby, or may reduce any fixed fee payable under this contract (or require repayment of any fixed fee theretofore paid) in such amount as may be equitable under the circumstances, or (ii) in the case of articles not delivered, may require the delivery of such articles, and shall have the right to reduce any fixed fee payable under this contract (or to require repayment of any fixed fee theretofore paid) in such amount as may be equitable under the circumstances, or (iii) may terminate this contract for default. Failure to agree to the amount of any such increased cost to be charged to the Contractor or to such reduction in, or repayment of, the fixed fee shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(c) Notwithstanding the provisions of paragraph (b) above, the Government may at any time require the Contractor to remedy by correction or replacement, without cost to the Government, any failure by the Contractor to comply with the requirements of this contract if such failure is due to fraud, lack of good faith or willful misconduct on the part of any of the Contractor's directors or officers, or on the part of any of his managers, superintendents, or other equivalent representatives, who has supervision or direction of (i) all or substantially all of the Contractor's business, or (ii) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (iii) a separate and complete major industrial operation in connection with the performance of this contract. The Government may at any time also require the Contractor to remedy by correction or replacement, without cost to the Government, any such failure caused by one or more individual employees selected or retained by the Contractor after any such supervisory personnel has reasonable grounds to believe that any such employee is habitually careless or otherwise unqualified.

(d) The provisions of paragraph (b) above shall apply to any corrected or replacement end item or component until six months after its acceptance.

(e) The Contractor shall make its records of all inspection work available to the Government during the performance of this contract and for such longer period as may be specified in this contract.

(f) Except as provided in this clause and as may be provided in the Schedule, the Contractor shall have no obligation or liability to correct or replace articles which at the time of delivery are defective in material or workmanship or otherwise not in conformity with the requirements of this contract.

(g) Except as otherwise provided in the Schedule, the Contractor's obligation to correct or replace Government-furnished property (which is property in the possession of or acquired directly by the Government and delivered or otherwise made available to the Contractor) shall be governed by the provisions of the clause of this contract entitled "Government Property."

(2) In the foregoing clause, the words "Task Order" or other appropriate designation may be substituted for the word "Schedule", as appropriate.

(3) In contracts not providing for payment of a fee, insert the following in lieu of paragraph (b) of the clause set forth in (1) above.

(b) At any time during performance of this contract, but not later than six (6) months (or such other period as may be provided in the Schedule) after acceptance of all of the end items (other than designs, drawings, or reports) to be delivered under this contract, the Government may require the Contractor to remedy by correction or replacement, as directed by the Contracting Officer, any failure by the Contractor to comply with the requirements of this contract. Any time devoted to such correction or replacement shall not be included in the computation of the period of time specified in the preceding sentence except as provided in (d) below. Except as provided in paragraph (c) below, the allowability of the cost of any such replacement or correction shall be as provided in the clause of this contract entitled "Allowable Cost and Payment". Corrected articles shall not be tendered again for acceptance unless the former tender and

the requirement of correction is disclosed. If the Contractor fails to proceed with reasonable promptness to perform such replacement or correction, the Government (i) may by contract or otherwise perform such replacement or correction and charge to the Contractor any increased cost occasioned the Government thereby, or (ii) in the case of articles not delivered, may require the delivery of such articles, or (iii) may terminate this contract for default. Failure to agree to the amount of any such increased cost to be charged to the Contractor shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes".

(b) The following clause shall be inserted in all contracts subject to this Subpart where the clause set forth in (a)(1) above is not used.

INSPECTION (FEB. 1959)

The Government, through any authorized representatives, has the right at all reasonable times, to inspect, or otherwise evaluate the work performed or being performed hereunder and the premises in which it is being performed. If any inspection, or evaluation is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require its subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.

§ 7.402–6 Assignment of claims.

In accordance with the instructions in § 7.103–8, insert the contract clause set forth therein.

§ 7.402–7 Records.

(a) In accordance with the instructions in § 7.203–7, insert the contract clause set forth therein. In the case of contracts which establish separate periods of performance but which do not contain the alternate subparagraph (a)(4) authorized by § 7.203–7(b), such subparagraphs may be inserted by amendment or, in the alternative, the retention of records may be administered in accordance with the procedure set forth in the alternate subparagraph (a)(4) of the clause prescribed by § 7.203–7(a).

(b) In the case of research and development contracts with nonprofit institutions and subcontracts thereunder, and pursuant to procedures approved by the Comptroller General, original documentary evidence in support of costs of the transportation of things will not be required pursuant to paragraph (a)(3) of said clause.

§ 7.402–8 Subcontracts.

(a) Subject to the instructions set forth in paragraph (b) of this section, and except as provided in paragraph (c) of this section with respect to contracts without fee with educational and nonprofit institutions, insert the following clause.

SUBCONTRACTS (JULY 1960)

(a) The Contractor shall give advance notification to the Contracting Officer of any proposed subcontract hereunder which (i) is on a cost or cost-plus-a-fixed-fee basis, or (ii) is on a fixed-price basis exceeding in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract.

(b) The Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which (i) is on a cost or cost-plus-a-fixed-fee basis, or (ii) is on a fixed-price basis exceeding in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract, or (iii) provides for the fabrication, purchase, rental, installation, or other acquisition, of any item of industrial facilities, or of special tooling having a value in excess of $1,000, or (iv) is on a time-material or labor-hour basis, or (v) has experimental, developmental, or research work as one of its purposes. The Contracting Officer may, in his discretion, ratify in writing any such subcontract; such action shall constitute the consent of the Contracting Officer as required by this paragraph (b).

(c) The Contractor agrees that no subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(d) The Contracting Officer may, in his discretion, specifically approve in writing any of the provisions of a subcontract. However, such approval or the consent of the Contracting Officer obtained as required by this clause shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost.

(e) The Contractor shall give the Contracting Officer immediate notice in writing of any action or suit filed, and prompt notice of any claim made against the Contractor by any subcontractor or vendor which, in the opinion of the Contractor, may result in litigation, related in any way to this contract with respect to which the Contractor may be entitled to reimbursement from the Government.

(f) Notwithstanding (b) above, the Contractor may enter into subcontracts within (ii), or, if the subcontract is for special tooling, within (iii), of (b) above, without the prior written consent of the Contracting Officer if the Contracting Officer has, in writing, approved the Contractor's purchasing system and the subcontract is within the limitations of such approval.

(g) The Contractor shall (i) insert in each price redetermination or incentive price revision subcontract hereunder the substance of the "Limitation on Payments" provision set forth in paragraph (j) of the clause prescribed by paragraph 7–108 of the Armed Services Procurement Regulation, including subparagraph (4) thereof, modified to omit mention of the Government and reflect the position of the Contractor as purchaser and of the subcontractor as vendor, and to omit that portion of subparagraph (3) thereof relating to tax credits, and (ii) include in each cost-reimbursement type subcontract hereunder a requirement that each price redetermination and incentive price revision subcontract thereunder will contain the substance of the "Limitation on Payments" provision, including subparagraph (4) thereof, modified as outlined in (i) above.

(b) In paragraph (a) of the foregoing clause, the percentage and amount set forth therein may be revised downward only in accordance with Departmental procedures. In paragraph (b) of the foregoing clause, the percentage and amount set forth in (ii) thereof may be varied, the dollar amount set forth in (iii) may be increased, and, in (i), (iv), and (v) thereof, dollar amounts not in excess of $10,000 may be established below which the prior written consent of the contracting officer need not be obtained, in accordance with Departmental procedures.

(c) In contracts without fee with educational institutions, insert the following paragraph in lieu of paragraph (b) of the clause set forth in paragraph (a) of this section, and change (iii) in paragraph (f) to (iv).

(b) The Contractor shall not, without the prior written consent of the Contracting Officer, place any subcontract which (i) is on a cost-plus-a-fixed-fee basis, or (ii) is on a fixed-price basis exceeding in dollar amount either $25,000 or five percent (5%) of the total estimated cost of this contract, or (iii) provides for the construction, purchase, rental, installation, or other acquisition of nonseverable industrial facilities, or (iv) provides for the fabrication, purchase, rental, installation or other acquisition, of any item of either (A) severable industrial facilities having a value in excess of $1,000 or the amount, if any, specified in the Schedule or Task Order, whichever is the lesser, or (B) special tooling having a value in excess of $1,000, or (v) is on a time-material or labor-hour basis, or (vi) has experimental, developmental, or research work as one of its purposes. The Contracting Officer may, in his discretion, ratify in writing any such subcontract; such action shall constitute the consent of the Contracting Officer required by this paragraph (b). (Oct. 1959).

In the foregoing paragraph (b), the percentage and amount set forth in (ii) thereof may be varied and, in (i), (v), and (vi) thereof, dollar amounts not in excess of $10,000 may be established below which the prior written consent of the contracting officer need not be obtained, in accordance with Departmental procedures. In (iv) thereof, the $1,000 limit may, in the discretion of the contracting officer, be decreased where it is determined to be in the interest of the Government, in view of such circumstances of each particular contract, as, for example, the nature of the contractor's operations, previous experience with the contractor on comparable procurements, the accounting and purchasing systems of the contractor, accounting and supply systems of the procurement activity, and the capability of the procuring activity to effect close surveillance of the contractor's purchasing and accounting practices. Also, in the discretion of the contracting officer, the cumulative total of such acquisitions of severable industrial facilities may be limited to a stated dollar amount or an amount equal to a stated percentage of the estimated cost beyond which the contractor will be required to obtain written consent of the contracting officer for any additional acquisitions of such facilities. With respect to special tooling, the $1,000 limit may be increased.

§ 7.402–9 Utilization of small business concerns.

Insert the contract clause set forth in § 7.104–14, except in contracts of which the estimated cost does not exceed $5,000 and in contracts with foreign contractors which are to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

§ 7.402–10 Termination.

In accordance with the requirements of §§ 8.702 and 8.704, insert the appropriate contract clause.

§ 7.402–11 Disputes.

In accordance with the instructions in § 7.203–12, insert the clause set forth in § 7.103–12.

§ 7.402–12 Renegotiation.

In accordance with the requirements of § 7.103–13, insert the appropriate contract clause set forth therein.

§ 7.402–13 Buy American Act.

In accordance with the requirements of § 6.104–5, insert the contract clause set forth therein.

§ 7.402–14 Convict labor.

In accordance with the requirements of § 12.202, insert the contract clause set forth in § 12.203.

§ 7.402–15 Walsh-Healey Public Contracts Act.

In accordance with the requirements of Part 12, Subpart F of this Subchapter, insert the contract clause set forth in § 12.604.

§ 7.402–16 Eight-Hour Law of 1912—Overtime compensation.

In accordance with the instructions of § 12.303, insert the clause set forth therein.

§ 7.402–17 Nondiscrimination in employment.

In accordance with the requirements of § 12.802, insert the contract clause set forth therein.

§ 7.402–18 Officials not to benefit.

Insert the contract clause set forth in § 7.103–19.

§ 7.402–19 Covenant against contingent fees.

Insert the contract clause set forth in § 7.103–20.

§ 7.402–20 Authorization and consent.

In accordance with the requirements of § 9.102, insert the appropriate contract clause set forth therein

§ 7.402–21 Notice and assistance regarding patent infringement.

In accordance with the requirements of § 9.104, insert the contract clause set forth therein.

§ 7.402–22 Patent rights.

In accordance with the requirements of § 9.107, insert the appropriate contract clause set forth therein with additional or alternate paragraphs as prescribed therein. However, in the case of contracts without fee, the percentage amount specified to be withheld under paragraph (f) of the clause set forth in § 9.107–2, or paragraph (c) and (d) of the clause set forth in § 9.107–3, may be changed from "ten percent (10%)" to "one percent (1%)."

§ 7.402–23 Basic data clause.

In accordance with the requirements of § 9.202, insert the clause set forth in § 9.203–1 with appropriate additional or alternate paragraphs as prescribed by the instructions set forth in §§ 9.203 and 9.204–1.

§ 7.402–24 Military security requirements.

(a) Except in contracts without fee with educational institutions, insert the clause set forth in § 7.104–12, modified in accordance with § 7.104–12: *Provided,* That the reference to "fixed fee" may be deleted in any contract not providing for the payment of a fixed fee: *Provided further,* That the clause may be modified in accordance with § 7.104–12 with respect to contracts outside the United States, its Territories, its possessions, and Puerto Rico, and with respect to additional security safeguards.

(b) The following clause shall be used in all contracts without fee with educational institutions, except that this clause may be appropriately modified for contracts to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

MILITARY SECURITY REQUIREMENTS (FEB. 1959)

(a) The provisions of this clause shall apply to the extent that this contract involves access to information classified "Confidential", including "Confidential—Modified Handling Authorized", or higher.

(b) The Government shall notify the Contractor of the security classification of this contract and the elements thereof, and of any subsequent revisions in such security classification, by the use of a Security Requirements Check List (DD Form 254), or other written notification.

(c) To the extent the Government has indicated as of the date of this contract, or thereafter indicates, security classification under this contract as provided in paragraph (b) above, the Contractor shall safeguard all classified elements of this contract and shall provide and maintain a system of security controls within its own organization in accordance with the requirements of:

(i) The Security Agreement (DD Form 441), including the Department of Defense Industrial Security Manual for Safeguarding Classified Information as in effect on the date of this contract, and any modification to the Security Agreement for the purpose of adapting the Manual to the Contractor's business; and

(ii) Any amendments to said Manual made after the date of this contract, notice of which has been furnished to the Contractor by the Security Office of the Military Department having security cognizance over the facility.

(d) Representatives of the Military Department having security cognizance over the facility and representatives of the contracting Military Department shall have the right to inspect at reasonable intervals the procedures, methods, and facilities, utilized by the Contractor in complying with the security requirements under this contract. Should the Government, through these representatives determine that the Contractor is not complying with the security requirements of this contract the Contractor shall be informed in writing by the Security Office of the cognizant Military Department of the proper action to be taken in order to effect compliance with such requirements.

(e) In the event a change in security requirements, as provided in paragraphs (b) and (c), results (i) in a change in the security classification of this contract or any element thereof from a nonclassified status to a classified status or from a lower classification to a higher classification, or (ii) in more restrictive area controls than previously required, the Contractor shall exert every reasonable effort compatible with its established policies to continue the performance of work under the contract in compliance with such change in security classification or requirements. If, despite such reasonable efforts, the Contractor determines that the continuation of work under this contract is not practicable because of such change in security classification or requirements it shall so notify the Contracting Officer in writing.

(f) After receiving such written notification, the Contracting Officer shall explore the circumstances surrounding the proposed change in security classification or requirements and shall endeavor to work out a mutually satisfactory method whereby the Contractor can continue performance of the work under this contract.

(g) If, upon the expiration of fifteen (15) days after receipt by the Contracting Officer of the notification of the Contractor's stated inability to proceed, (i) the application to this contract of such change in security classification or requirements has not been withdrawn, or (ii) a mutually satisfactory method for continuing performance of work under this contract has not been agreed upon, the Contractor may request the Contracting Officer to terminate the contract in whole or in part. Thereupon, the Contracting Officer shall terminate the contract in whole or in part, as may be appropriate, and such termination shall be deemed a termination under the provisions of the clause of this contract entitled, "Termination for the Convenience of the Government."

(h) The Contractor agrees to insert, in all subcontracts hereunder which involve access to classified information, provisions which shall conform substantially to the language of this clause, including this paragraph (h) but excluding paragraphs (e), (f), and (g) of this clause. In addition, the Contractor may insert in any subcontract, not involving fee or profit, with an educational institution, and any like lower-tier subcontract entered into thereunder may contain, in lieu of paragraphs (e), (f), and (g) of this clause, appropriate provisions extending to such subcontracts relief consistent with that provided for in those paragraphs, on account of changes in security classifications or requirements made under the provisions of this clause subsequent to the date of the subcontract involved. With respect to subcontracts other than those covered by the preceding sentence, "the mutually satisfactory method" provided for in paragraph (f) above may include a provision amending this contract to provide for an equitable adjustment on account of changes in security classifications or requirements made under the provisions of this clause subsequent to the date of the subcontract involved; and the Contractor may insert in any such subcontract, and any like lower-tier subcontract entered into thereunder may contain, in lieu of paragraphs (e), (f), and (g) of this clause, appropriate provisions with respect to such equitable adjustment. Failure of the Contractor and Contracting Officer to agree to any adjustment pursuant to the preceding sentence shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(i) The Contractor also agrees that it shall determine that any subcontractor proposed by it for the performance of a subcontract hereunder which will involve access to classified information in the Contractor's custody has been granted an appropriate facility security clearance which is still in effect, prior to being accorded access to such classified information.

(c) The Contracting Officer or his authorized representative shall prepare and transmit to the contractor and the Government representative having security cognizance over the contract involved a Security Requirements Check List (DD Form 254), or other written notification, in accordance with § 16.811.

§ 7.402–25 Government property.

Insert the contract clause set forth in §§ 13.503 or 13.506, as appropriate.

§ 7.402–26 Insurance—liability to third persons.

(a) Except as provided in paragraph (b) of this section, in accordance with the instructions set forth in § 7.203–22, insert the contract clause set forth therein. If the contractor claims partial immunity from tort liability as a state agency or as a charitable institution (as where work may be performed under the contract in a place or under conditions where the contractor is not immune from tort liability), the following may be added to the clause in § 7.203–22:

(e) Notwithstanding paragraphs (a) and (c) of this clause, (i) the Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for his liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract hereunder; and (ii) the Contractor need not procure or maintain insurance coverage as provided in paragraph (a) of this clause; provided, the Contractor may obtain any insurance coverage he deems necessary subject to approval by _____* as to form, amount, and duration, in which event the Contractor shall be reimbursed (A) for the cost of such insurance and (B) to the extent provided in paragraph (c) above, for liabilities to third persons for which the Contractor has obtained insurance coverage as provided in this paragraph, but for which such coverage is insufficient in amount (OCT. 1960)

In the foregoing clause, insert, in contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert in contracts of the Department of the Navy, the words "the Department," in the space designated by an asterisk (_____*).

(b) If the contractor claims total immunity from tort liability as a State agency or as a charitable institution, the following clause may be used in lieu of the clause in § 7.203–22:

LIABILITY TO THIRD PERSONS (OCT. 1960)

(a) The Government does not assume any liability to third persons, nor will the Government reimburse the Contractor for his liability to third persons, with respect to loss due to death, bodily injury, or damage to property resulting in any way from the performance of this contract or any subcontract hereunder.

(b) The Contractor shall give the Government or its representatives immediate notice of any suit or action filed, or prompt notice of any claim made against the Contractor arising out of the performance of this contract, the cost and expense of which may be reimbursable to the Contractor under the provisions of this contract. The Contractor shall furnish immediately to the Government copies of all pertinent papers received by the Contractor. The Contractor shall, if required by the Government, authorize representatives of the Government to settle or defend any such claim and to represent the Contractor in or take charge of any litigation in connection therewith. The Contractor may, at his own expense, be associated with the representatives of the Government in the settlement or defense of any such claim or litigation.

§ 7.402–27 Utilization of labor-surplus area concerns.

Insert the contract clause set forth in § 7.104–20, except in contracts of which the estimated cost does not exceed $5,000 and in contracts with foreign contractors which are to be performed outside the United States, its Territories, its possessions, and Puerto Rico.

§ 7.402–28 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

§ 7.403 Clauses to be used when applicable.

§ 7.403–1 Clauses for contracts involving construction work.

In accordance with the requirements of § 12.403, insert, as appropriate, the clauses entitled:

Davis-Bacon Act.
Eight-Hour Laws—Overtime Compensation.
Apprentices.
Payroll Records and Payrolls.
Copeland ("Anti-Kick-back") Act-Nonrebate of Wages.
Withholding of Funds to Assure Wage Payment.
Subcontracts-Termination.

§ 7.403–2 Filing of patent applications.

In accordance with the requirements of § 9.106, insert the contract clause set forth in § 9.106 or § 9.106–1, as appropriate.

§ 7.403–3 Reporting of royalties.

In accordance with the requirements of § 9.110, insert the contract clause set forth therein.

§ 7.403–4 Excess profit.

In accordance with the requirements of § 7.104–11, insert the appropriate contract clause set forth therein.

§ 7.403–5 Excusable delays.

In all contracts containing the Termination clause set forth in § 8.702 of this chapter, insert the contract clause set forth in § 8.708 of this chapter. In contracts containing the Termination clause set forth in § 8.704 of this chapter, the contract clause set forth in § 8.708 of this chapter may be inserted.

§ 7.403–6 Preference for certain domestic commodities.

In accordance with the requirements of § 6.305, insert the contract clause set forth therein.

§ 7.403–7 Priorities, allocations, and allotments.

In accordance with the requirements of § 1.307–2, insert the contract clause set forth in § 7.104–18.

§ 7.403–8 Soviet-controlled areas.

In accordance with the requirements of § 6.403, insert the contract clause set forth therein.

§ 7.403–9 Negotiated overhead rates.

Where negotiated overhead rates are to be used in contracts with commercial concerns pursuant to Part 3, Subpart G, insert the contract clause set forth in § 3.704–1. Where negotiated overhead rates are to be used in contracts with nonprofit institutions, pursuant to that subpart, insert the contract clause set forth in § 3.704–2.

§ 7.403–10 Notice to the Government of labor disputes.

Insert the clause set forth in § 7.104–4 in all contracts involving the furnishing or production of any item on the Department of Defense Master Urgency List and in any other contract of a class or kind which the Head of the Procuring Activity concerned determines to be appropriate for the use of such a clause.

§ 7.403–11 Gratuities.

Insert the clause set forth in § 7.104–16, except in contracts with foreign governments obligating solely funds other than those contained in Department of Defense appropriation acts.

§ 7.403–12 Limitation on withholding of payments.

(a) Except as provided in (b) below, the following clause shall be inserted in contracts which include more than one clause or Schedule provision authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed:

LIMITATION ON WITHHOLDING OF PAYMENTS

If more than one clause or Schedule provision of this contract authorizes the temporary withholding of amounts otherwise payable to the Contractor for work performed under this contract, the total of the amounts so withheld at any one time shall not exceed the greatest amount which may be withheld under any one such clause or Schedule provision at that time; *Provided,* That this limitation shall not apply to:

(i) Withholdings pursuant to any clause relating to wages or hours of employees;

(ii) Withholdings not specifically provided for by this contract; and

(iii) The recovery of overpayments.

(b) The clause set forth in (a) above is not required where:

(i) The contracting officer or the procuring activity determines that the withholding limitation in the said clause is incompatible with the purpose of the particular withholding provisions involved; or

(ii) All of the contract clauses or Schedule provisions (in excess of one) which provide for the withholding of payments either (A) are exempt from the limitations in the clause set forth in (a) above under the proviso thereof, or (B) provide that their withholding provisions do not require any additional withholdings where the amounts required to be withheld under them is being withheld under other provisions of the contract.

If it is determined that the withholding limitation in the clause set forth in (a) above is incompatible with the purpose of particular withholding provisions, the said clause may be omitted or modified to make it inapplicable to such withholding provisions.

§ 7.403–13 Defense subcontracting small business program.

In accordance with § 1.707–2(b), insert the contract clause set forth in § 7.104–22.

§ 7.403–14 Changes to make or buy program.

In accordance with the requirements of § 3.902(d) of this subchapter, insert the clause set forth therein.

§ 7.403–15 Quality control system.

In accordance with the instructions in § 7.104–28, insert the contract clause set forth therein.

§ 7.404 Additional clauses.

The following clauses shall be inserted in accordance with Departmental procedures where it is desired to cover the subject matter thereof in such contracts.

§ 7.404–1 Changes.

CHANGES (FEB. 1959)

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (i) drawings, designs, or specifications, (ii) method of shipment or packing; (iii) place of inspection, delivery, or acceptance, and (iv) the amount of Government-furnished property. If any such change causes an increase or decrease in the estimated cost of, or the time required for, performance of this contract, or otherwise affects any other provisions of this contract, whether changed or not changed by any such order, an equitable adjustment shall be made (i) in the estimated cost or delivery schedule, or both, (ii) in the amount of any fee to be paid to the Contractor, and (iii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

In the foregoing clause, the period of "thirty (30) days" within which any claim for adjustment must be asserted, may be varied in accordance with Departmental procedures.

§ 7.404–2 Alterations in contract.

The contract clause set forth in § 7.105–1 may be inserted.

§ 7.404–3 Approval of contract.

The contract clause set forth in § 7.105–2 may be inserted.

§ 7.404–4 Bill of materials.

The contract clause set forth in § 7.105–6 may be inserted pursuant to the provisions of said paragraph.

§ 7.404–5 Stop work orders.

The clause set forth in § 7.105–8, if modified as prescribed in § 7.205–7, is authorized for use under the criteria and in accordance with the instructions in § 7.105–8.

§ 7.404–6 Reports of work.

REPORTS OF WORK (JULY 1960)

(a) The contractor shall submit reports making full disclosure of all work done and the results thereof, in the manner, at the times, and to the extent set forth in the Schedule; provided that, unless otherwise specified in the Schedule, the Contractor shall submit such reports in triplicate from time to time as requested and upon completion (or earlier termination) of the work. Except as may be otherwise specified in the Schedule, or unless the Contractor is otherwise instructed, the Contractor shall, upon completion (or earlier termination) of the work, deliver any working drawings and specifications of any prototypes as may have been developed.

(b) If the Contractor becomes unable to complete the contract work and to deliver at the time specified in the Schedule because of technical difficulties, notwithstanding the exercise of good faith and diligent efforts in performance of the work, he shall give the Contracting Officer written notice of the anticipated delays with reasons therefor, not less than forty-five (45) days before the completion date specified in the Schedule or within such time as the Contracting Officer deems sufficient. When notice is so required, the Contracting Officer may, in his discretion, extend the time specified in the Schedule for such period as he deems advisable.

In the above clause, the words "Task Order" or other appropriate designation may be substituted for the word "Schedule," as appropriate. Paragraph (a) may be used without paragraph (b). The last sentence of paragraph (b) may be omitted.

Subpart E—Clauses for Personal Services Contracts

§ 7.500 Scope of subpart.

This subpart sets forth uniform contract clauses for use in personal services contracts referred to in § 7.502.

§ 7.502 Applicability.

As used throughout this subpart, the term "personal services contract" applies only to a contract entered into with an individual, other than an alien scientist, for personal services to be performed by that individual under Government supervision and paid for on a time basis. It does not apply to contracts with firms or organizations.

§ 7.503 Required clauses.

The following clauses shall be inserted in all personal services contracts, except as indicated:

§ 7.503–1 Definitions.

Insert the contract clause set forth in § 7.103–1, omitting paragraph (c).

§ 7.503–2 Payments.

PAYMENTS (JAN. 1958)

Payment for the services performed by the Contractor, as set forth in the Schedule of this contract, shall be made at the rates prescribed, upon the submission by the Contractor of proper invoices or time statements to the office or officer designated herein and at the time provided for herein. In addition to the foregoing the Contractor shall be paid (i) a per diem rate in lieu of subsistence for each day the Contractor is in a travel status away from his home or regular place of employment in accordance with Standardized Government Travel Regulations as authorized in appropriate Travel Orders; and (ii) such other transportation expenses as may be provided for in the Schedule.

§ 7.503–3 Assignment of claims.

ASSIGNMENT OF CLAIMS (JAN. 1953)

No claim arising under this contract shall be transferred or assigned by the Contractor.

§ 7.503–4 Disputes.

Insert the contract clause set forth in § 7.103–12. In accordance with Department procedures, the foregoing clause may be modified to provide for intermediate appeal to the Head of the Procuring Activity concerned. The decision of the Contracting Officer referred to in the above clause shall, if mailed, be sent by certified mail, return receipt requested.

§ 7.503–5 Officials not to benefit.

Insert the contract clause set forth in § 7.103–19, omitting the final clause which begins, "but this provision * * *."

§ 7.503–6 Covenant against contingent fees.

Insert the contract clause set forth in § 7.103–20.

§ 7.503–7 Termination.

TERMINATION (JAN. 1953)

This contract may be terminated by the Government at any time within the period of its duration upon not less than 15 days' written notice by the Contracting Officer to the Contractor. The Contractor, with the written consent of the Contracting Officer, may terminate this contract upon not less than 15 days' written notice to the Contracting Officer, and the consent of the Contracting Officer shall not unreasonably be withheld.

§ 7.503–8 Approval of contract.

APPROVAL OF CONTRACT (JAN. 1953)

This contract shall be subject to the written approval of the Secretary or his duly authorized representative and shall not be binding until so approved.

§ 7.503–9 Patents.

Insert the clause set forth in § 9.108 of this subchapter, which is based on Executive Order 10096, provided, however, that upon written request by the prospective contractor and approval by the head of the procuring activity or his authorized representative, the clause may be modified or omitted, as the case may be, where (a) the period of employment is to be not more than 90 days in any one calendar year, or (b) both the following conditions are present: (1) the period of employment called for in the contract, or in any renewal thereof, is more than 90 days but not more than one year of full-time service, and (2) the prospective contractor is bound by an obligation which existed prior to entering into the proposed contract with the Government and which was not entered into in contemplation thereof, the discharge of which would be inconsistent with the discharge of any obligation arising under Executive Order 10096.

§ 7.504 Clauses to be used when applicable.

§ 7.504–1 Military security requirements.

Insert the clause set forth below in all contracts involving security information which are classified "Top Secret," "Secret," or "Confidential," by a military department, and in any other contract, the performance of which will require access to classified matter, except that this clause is not required to be used in contracts performed outside the United States, its Territories, its possessions, and Puerto Rico.

MILITARY SECURITY REQUIREMENTS (MAR. 1954)

(a) The provisions of the following paragraphs of this clause shall apply only if and to the extent that this contract involves access to security information classified "Top Secret," "Secret," or "Confidential."

(b) The Contractor (i) shall be responsible for safeguarding all classified security information in accordance with instructions furnished by the Contracting Officer and shall not supply, disclose or otherwise permit access to classified security information to any unauthorized person, (ii) shall not make or permit to be made any reproductions of matter classified "Top Secret" except with the prior written authorization of the Contracting Officer, (iii) shall not make or permit to be made any reproductions of security information classified "Secret" or "Confidential," except as may be essential to performance of the contract, (iv) shall submit to the Contracting Officer, at such times as the Contracting Officer may direct, an accounting of all reproductions of security information classified "Top Secret," "Secret," or "Confidential," and (v) shall not incorporate in any other project any matter which will disclose classified security information except with the prior written authorization of the Contracting Officer.

(c) Except with the prior written consent of the Secretary or his duly authorized representative, the Contractor (i) shall not permit any alien to have access to classified security information, and (ii) shall not permit any individual to have access to security information classified "Top Secret" or "Secret." Access to security information classified "Confidential" will be granted only in accordance with governing regulations of the Department of Defense.

(d) The Contractor agrees to submit immediately to the Contracting Officer a complete confidential report of any information which the Contractor may have concerning existing or threatened espionage, sabotage, or subversive activity.

(e) The Government agrees that when necessary it shall indicate by security classification ("Top Secret," "Secret," or "Confidential"), the degree of importance to the national defense of information to be furnished by the Contractor to the Government or by the Government to the Contractor, and the Government shall give written notice of such security classification to the Contractor and of any subsequent changes thereof. The Contractor is authorized to rely on any letter or other written instrument signed by the Contracting Officer changing the security classification of matter.

(f) Any disagreement concerning a question of fact arising under this clause shall be considered a dispute within the meaning of the clause of this contract entitled "Disputes."

§ 7.504–2 Data and copyrights.

If it is probable that the contractor will prepare and deliver to the Government in the performance of the contract writings, sound recordings, pictorial reproductions, drawings or other graphical representations and works of any similar nature (whether or not copyrighted), insert an appropriate clause in accordance with departmental procedures.

§ 7.505 Additional clause.

The following clause shall be inserted in personal services contracts in accordance with Department procedures when it is desired to cover the subject matter thereof in such contracts.

§ 7.505–1 Alterations in contract.

Insert the contract clause set forth in § 7.105–1.

PART 8—TERMINATION OF CONTRACTS

Sec.
8.000 Scope and applicability of part.

Subpart A—Definitions of Terms

8.101 Definitions.
8.101–1 Amount of claim or settlement.
8.101–2 Common items.
8.101–3 Continued portion of the contract.
8.101–4 Contractor-acquired property.
8.101–5 Contractor inventory.
8.101–6 Disbursing officer.
8.101–7 Effective date of termination.
8.101–8 Government-furnished property.
8.101–9 Material.
8.101–10 Other work.
8.101–11 Partial termination.
8.101–12 Plant clearance period.
8.101–13 Plant equipment.
8.101–14 Prime contract.
8.101–15 Production equipment.
8.101–16 Salvage.
8.101–17 Scrap.
8.101–18 Serviceable or usable property.
8.101–19 Settlement agreement.
8.101–20 Settlement proposal.
8.101–21 Special machinery and equipment.
8.101–22 Special tooling.
8.101–23 Subcontract.
8.101–24 Termination claim.
8.101–25 Termination inventory.
8.101–26 Terminated portion of the contract.

Subpart B—General Principles Applicable to the Settlement of Fixed-Price Type Contracts Terminated for Convenience and to the Settlement of All Terminated Cost-Reimbursement Type Contracts

8.200 Scope of subpart.
8.201 Authority of contracting officers.
8.202 Notice of termination.
8.203 Methods of settlement.
8.204 Duties of prime contractor after receipt of notice of termination.
8.205 Duties of contracting officer after issuance of notice of termination.
8.206 Fraud or other criminal conduct.
8.207 Audit of settlement proposals and of subcontract settlements.
8.208 Settlement of subcontract claims.
8.208–1 Subcontractor's rights.
8.208–2 Prime contractor's rights and obligations.
8.208–3 Settlement procedure.
8.208–4 Authorization for subcontract settlements of $10,000 or less without approval or ratification.
8.208–5 Recognition of judgments and arbitration awards.
8.208–6 Delay in settlement of subcontractor claims.
8.208–7 Government assistance in settlement of subcontracts.
8.208–8 Assignment of rights under subcontracts.
8.209 Settlement agreements.
8.209–1 General.
8.209–2 Excepted items.
8.209–3 Government property.
8.209–4 No-cost settlement.
8.209–5 Partial settlements.
8.209–6 Joint settlement of two or more claims.
8.209–7 Settlement by determination.
8.210 Contracting officer's negotiation memorandum.
8.211 Review and approval of proposed settlements.
8.211–1 Settlement review boards.
8.211–2 Required review and approval.
8.211–3 Scope of review.
8.211–4 Action by board.
8.212 Payment.
8.212–1 Partial payments upon termination.
8.212–2 Final payment.
8.213 Cost principles applicable to the settlement of research and development contracts with educational institutions.

Subpart C—Additional Principles Applicable to the Settlement of Terminated Fixed-Price Type Contracts

8.300 Scope of subpart.
8.301 General.
8.302 Cost principles.
8.303 Allowance for profit.
8.304 Adjustment for loss.
8.305 Deductions.
8.306 Completed end items.
8.307 Settlement proposals.
8.307–1 Submission of settlement proposals.
8.307–2 Bases for settlement proposals.
8.308 Limitation on settlements.

Subpart D—Additional Principles Applicable to the Settlement of Terminated Cost-Reimbursement Type Contracts

8.401 General considerations.
8.402 Election to discontinue vouchers.
8.403 Notice to the General Accounting Office.
8.404 Procedure where contractor continues to submit vouchers.
8.404–1 Submission of settlement proposal.
8.404–2 Submission of cost vouchers.
8.405 Procedure where contractor discontinues use of vouchers.
8.405–1 Submission of settlement proposal.
8.405–2 Interim negotiations.
8.405–3 Information concerning previous cost vouchers.
8.405–4 Notice to General Accounting Office of audit status date.
8.405–5 Exceptions by the General Accounting Office.
8.405–6 Final settlement.
8.406 Partial termination.
8.407 Termination for default.

Subpart E—Disposition of Termination Inventory

Sec.
8.501 General.
8.501–1 Methods of disposal.
8.501–2 General restrictions on contractor's authority.
8.502 Contractor-acquired property; purchase or retention at cost, or return to suppliers.
8.502–1 Purchase or retention at cost.
8.502–2 Return of property to suppliers.
8.502–3 Cost-reimbursement type contracts.
8.503 Inventory schedules.
8.503–1 Submission of inventory schedules.
8.503–2 Separate schedules.
8.503–3 Inventory descriptions.
8.503–4 Inventory schedule certificate.
8.503–5 Common items.
8.503–6 Withdrawals from inventory schedules.
8.503–7 Rejection and correction of inadequate schedules.
8.504 Scrap and salvage.
8.504–1 General.
8.504–2 Scrap warranty.
8.505 Screening of serviceable and usable property.
8.505–1 Scope of screening.
8.505–2 Screening period.
8.505–3 Acquisition by government.
8.506 Government-furnished property.
8.507 Sale or other disposition of termination inventory.
8.507–1 General.
8.507–2 Competitive sales.
8.507–3 Other sales.
8.507–4 Proceeds of sale.
8.507–5 Applicability of antitrust laws.
8.507–6 Foreign contractor inventory.
8.508 Donations.
8.509 Destruction or abandonment.
8.510 Special machinery, tooling and equipment.
8.511 Removal and storage.
8.511–1 Special storage at the expense and risk of the contractor.
8.511–2 Storage at the expense and risk of the Government.
8.512 Review of property disposal.
8.512–1 Property disposal review boards.
8.512–2 Required review.
8.513 Subcontractor termination inventory.
8.513–1 General policy.
8.513–2 Inventory schedules.
8.513–3 Scrap and salvage.
8.513–4 Serviceable and usable property.
8.514 Adjustment prior to final settlement.
8.514–1 Duty of contractors to inform government.
8.514–2 Right of government to review inventory schedules.
8.515 Accounting for termination inventory.

Subpart F—Termination for Default

Sec.
8.600 Scope of subpart.
8.601 General.
8.602 Termination of fixed-price supply contracts for default.
8.602–1 The Government's right to terminate for default.
8.602–2 Effect of termination for default.
8.602–3 Procedure for default.
8.602–4 Procedure in lieu of termination for default.
8.602–5 Memorandum by the contracting officer.
8.602–6 Repurchase against contractor's account.
8.602–7 Other damages.
8.603 Termination of fixed-price construction contracts for default.
8.603–1 Termination of the contractor's right to proceed.
8.603–2 Effect of termination for default.
8.603–3 Procedure for default.
8.603–4 Procedure in lieu of termination for default.
8.603–5 Memorandum by the contracting officer.
8.603–6 Other damages.

Subpart G—Clauses

8.700 Scope of subpart.
8.701 Termination clause for fixed-price contracts.
8.702 Termination clause for cost-reimbursement type contracts.
8.703 Termination clause for fixed-price construction contracts.
8.704 Research and development contracts with educational and other nonprofit institutions.
8.704–1 Termination clause.
8.704–2 Suggested clause for subcontracts.
8.705 Short form termination clauses for fixed-price type contracts.
8.705–1 Supply and service contracts.
8.705–2 Construction contracts.
8.706 Subcontract termination clause.
8.707 Default clause for fixed-price supply contracts.
8.708 Excusable delays clause for cost-reimbursement type supply contracts.
8.709 Default clause for fixed-price construction contracts.
8.710 Default clause for fixed-price research and development contracts.

Subpart H—Forms

8.800 Scope of subpart.
8.801 Notice of termination.
8.801–1 Telegraphic notice of termination.
8.801–2 Letter notice of termination.
8.802 Forms for settlement of fixed-price contracts.
8.802–1 DD Form 540—Settlement Proposal—Inventory Basis.
8.802–2 DD Form 541—Settlement Proposal—Total Cost Basis.
8.802–3 DD Form 881—Settlement Proposal—Short Form.
8.802–4 DD Form 542—Inventory Schedule A—Metals in Mill Product Form.
DD Form 542c—Inventory Schedule A—Continuation Sheet.
8.082–5 DD Form 543—Inventory Schedule B—Raw Materials.
DD Form 543c—Inventory Schedule B—Continuation Sheet.
8.802–6 DD Form 544—Inventory Schedule C—Work in Process.
DD Form 544c—Inventory Schedule C—Continuation Sheet.
8.802–7 DD Form 545—Inventory Schedule D—Dies, Jigs, Fixtures, etc., and Special Tools.
DD Form 545c—Inventory Schedule D—Continuation Sheet.
8.802–8 DD Form 882—Inventory Schedule E-Short Form for Use with DD Form 881 Only.
8.802–9 DD Form 546—Schedule of Accounting Information.
8.802–10 DD Form 548—Application for Partial Payment.
8.803 DD Form 547—Settlement Proposal for Cost-Reimbursement Type Contracts.
8.804 DD Form 547s—Notice of Audit Status Date.
8.805 Scrap Warranty.
8.806 Forms of Settlement Agreement.
8.806–1 Settlement Agreement for Use in Settling Fixed-Price Prime Contracts after Complete Termination.
8.806–2 Settlement Agreement for Use in Settling Fixed-Price Prime Contracts after Partial Termination.
8.806–3 Partial Settlement Agreement, for Use in Settling Fixed-Price Prime Contracts after Complete or Partial Termination where Settlement Pertains Only to Settlements with Subcontractors.
8.806–4 Settlement Agreement for Use in Settling Cost-Reimbursement Type Prime Contracts after Complete Termination where Settlement Includes Costs.
8.806–5 Settlement Agreement for Use in Settling Cost-Reimbursement Type Prime Contracts after Complete Termination where Settlement Is Limited to Fee.
8.806–6 No Cost Settlement Agreement—Partial Termination.
8.806–7 No Cost Settlement Agreement—Complete Termination.
8.807 DD Form 1114—Instructions for Use of Contract Termination Settlement and Inventory Schedule Forms.

(NOTE: A facsimile of each of the forms listed above in §§ 8.802 to 8.807 has been filed with the Federal Register Division; copies of forms may be obtained through the contracting officer in any of the military departments.)

AUTHORITY: §§ 8.000 to 8.807 issued under R. S. 161, sec 2202, 70A Stat. 120; 5 U. S. C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 8.000 Scope and applicability of part.

(a) This part establishes uniform policies and procedures relating to the complete or partial termination of contracts for the convenience of the Government or for default. It includes uniform contract clauses with respect to termination and excusable delay, and approved termination and settlement forms.

(b) This part applies to contracts which by their terms provide for termination for the convenience of the Government or for the default of the contractor, whether or not the clauses in the contract with respect to termination and excusable delay are those set forth in Subpart G of this part. In the event the clauses actually used in the contract are inconsistent with the provisions of this part, the clauses actually used shall control to the extent of the inconsistency. Contracts which do not contain the applicable clauses may, where it is in the best interest of the Government, be amended by agreement prior to or after termination of the contract, to include or substitute such a clause.

(c) This part also applies to the disposal of contractor inventory arising out of any modification of a cost-reimbursement type contract pursuant to the Changes clause.

(d) When the Head of a Procuring Activity so authorizes, the provisions of this part may be utilized—

(1) In determining any equitable adjustment as a result of modification of any contract other than a cost-reimbursement type contract pursuant to the Changes clause;

(2) In the disposal of any property which has become obsolete or excess for any reason under a contract whenever the cost of such property is made the basis of a claim by the contractor against the Government; or

(3) In the disposal of contractor inventory generally.

Subpart A—Definitions of Terms

§ 8.101 Definitions.

As used in this part, the following terms have the meaning stated below:

§ 8.101–1 Amount of claim or settlement.

When the action to be taken under this part depends upon the amount of a termination claim or settlement, then, in determining such amount, (a) credits for retention or other disposal of termination inventory allocated to the claim and for advance or partial payments shall not be deducted from the gross claim or settlement; but (b) amounts payable for completed articles or work at the contract price, or for the settlement or discharge of termination claims of subcontractors, shall be deducted.

§ 8.101–2 Common items.

"Common items" means material which is common in nature to both the terminated contract and the contractor's other work.

§ 8.101–3 Continued portion of the contract.

"Continued portion of the contract" means that portion of a partially terminated contract which relates to work or end items not already completed and accepted prior to the effective date of termination and which the contractor must continue to perform.

§ 8.101–4 Contractor-acquired property.

"Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, whether or not the Government has title by the terms of the contract, or exercises its contractual right to take title.

§ 8.101–5 Contractor inventory.

"Contractor inventory" means (a) any property acquired by and in the possession of a contractor or subcontractor (including Government-furnished property) under a contract pursuant to the terms of which title is vested in the Government, and in excess of the amounts needed to complete full performance under the entire contract; and (b) any property which the Government is obligated to or has an option to take over under any type of contract as a result either of any changes in the specifications or plans thereunder or of the termination of such contract (or subcontract thereunder), prior to completion of the work, for the convenience or at the option of the Government.

§ 8.101–6 Disbursing officer.

"Disbursing officer" means the officer or agent of the office designated as the paying office under the contract, including as appropriate, Army finance and accounting officers, Air Force accounting and disbursing officers, and Navy regional accounts officers.

§ 8.101–7 Effective date of termination.

"Effective date of termination" means the date upon which the notice of termination first requires the contractor to stop performance, in whole or in part, under the contract. If, however, the termination notice is received subsequent to the date fixed for termination, then the effective date of termination means the date on which the notice is received.

§ 8.101–8 Government-furnished property.

"Government-furnished property" is property in the possession of or acquired directly by the Government, and subsequently delivered or otherwise made available to the contractor.

§ 8.101–9 Material.

"Material" means property which may be incorporated into or attached to an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of the contract.

§ 8.101–10 Other work.

"Other work" means any current or scheduled work of the contractor, whether Government or commercial, other than work related to the terminated contract.

§ 8.101–11 Partial termination.

"Partial termination" means the termination of a part, but not all, of the work which has not been completed and accepted under a contract.

§ 8.101–12 Plant clearance period.

"Plant clearance period" means a period beginning with the effective date of the termination for convenience and ending, for each particular property classification (such as raw materials, purchased parts, and work in process) at any one plant or location, 90 days after receipt by the contracting officer of acceptable inventory schedules covering all items of that particular property classification in the termination inventory at that plant or location, or ending on such later date as may be agreed to by the contracting officer and the contractor. Final phase of a plant clearance period means that part of a plant clearance period after the receipt of acceptable inventory schedules covering all items of the particular property classification at the plant or location.

§ 8.101–13 Plant equipment.

"Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, and accessory and auxiliary items, but excluding special tooling) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

§ 8.101–14 Prime contract.

"Prime contract" means any contract as defined in § 1.201–4 of this chapter entered into by any Department or procuring activity.

§ 8.101–15 Production equipment.

"Production equipment" means those items of plant equipment located within a manufacturing, processing, assembly, or service establishment, and used for cutting, abrading, grinding, shaping, forming, joining, measuring, testing, heating, or treating production materials or work in process.

§ 8.101–16 Salvage.

"Salvage" means property which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations but which has some value in excess of its scrap value.

§ 8.101–17 Scrap.

"Scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

§ 8.101–18 Serviceable or usable property.

"Serviceable or usable property" means property that has reasonable prospect of sale or use either in its existing form or after minor repairs or alterations.

§ 8.101–19 Settlement agreement.

"Settlement agreement" means a written agreement, in the form of an amendment to the contract, between the contractor and the Government settling all or a severable portion of a settlement proposal.

§ 8.101–20 Settlement proposal.

"Settlement proposal" means a termination claim submitted by a contractor or subcontractor in the form, and supported by the data, required by this part.

§ 8.101–21 Special machinery and equipment.

"Special machinery and equipment" means that part of plant equipment which was acquired or constructed solely for the performance of the terminated contract or the terminated contract and other Government contracts, and as to which the contractor claims loss of useful value.

§ 8.101–22 Special tooling.

"Special tooling" means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the contractor for use in the performance of a contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include: (a) Items of tooling or equipment acquired by the contractor prior to the contract, or replacements thereof, whether or not altered or adapted for use in the performance of the contract, (b) consumable small tools, or (c) general or special machine tools, or similar capital items.

§ 8.101–23 Subcontract.

"Subcontract" means any contract as defined in § 1.201–4 of this chapter other than a prime contract, entered into by a prime contractor or a subcontractor, calling for supplies or services required for the performance of any one or more prime contracts.

§ 8.101–24 Termination claim.

"Termination claim" means any claim by a contractor or subcontractor, permitted by the terms of a prime contract, for compensation for the termination, in whole or in part, of the prime contract or a subcontract thereunder, and any other claim which this Section authorizes to be asserted and settled in connection with a termination settlement.

§ 8.101–25 Termination inventory.

"Termination inventory" means any items of physical property purchased, supplied, manufactured, furnished, or otherwise acquired for performance of the terminated contract and properly allocable to the terminated portion of the contract. The term does not include any facilities, material, production or other equipment, or special tooling, which are subject to a separate contract or a special contract provision governing the use or disposition thereof. Termination inventory may include contractor-acquired property and Government-furnished property as defined in § 8.101–4 and § 8.101–8.

§ 8.101–26 Terminated portion of the contract.

"Terminated portion of the contract" means that portion of a terminated contract which relates to work or end items not already completed and accepted prior to the effective date of termination and which the contractor is not to continue to perform.

Subpart B—General Principles Applicable to the Settlement of Fixed-Price Type Contracts Terminated for Convenience and to the Settlement of All Terminated Cost-Reimbursement Type Contracts

§ 8.200 Scope of subpart.

This subpart deals with:

(a) The authority of contracting officers to terminate contracts in whole or in part (1) for the convenience of the Government; and (2) in the case of cost-reimbursement type contracts for default;

(b) Duties of the contractor and the contracting officer after issuance of the notice of termination;

(c) General procedures for the settlement of terminated contracts; and

(d) Settlement agreements.

Subpart C sets forth additional principles applicable only to fixed-price type contracts. Subpart D sets forth additional principles applicable only to cost-reimbursement type contracts. Subpart F sets forth the principles applicable to the termination of fixed-price type contracts for default.

§ 8.201 Authority of contracting officers.

The authority of contracting officers to terminate contracts for convenience, and for default in the case of cost-reimbursement type contracts, and to enter into settlement agreements under this subchapter is usually found in the termination clause or other provisions of the contract. Contracts shall be terminated for the convenience of the Government or for default only when such action is in the best interest of the Government, as determined in accordance with Departmental procedures.

§ 8.202 Notice of termination.

Contracts shall be terminated for convenience, or for default in the case of cost-reimbursement type contracts, only by a written notice to the contractor (see 8.801), stating:

(a) That the contract is being terminated for the convenience of the Government (or for default) pursuant to the contract provisions authorizing such termination;

(b) The effective date of termination;

(c) The extent of termination and, if a partial termination, the portion of the contract to be continued; and

(d) Any special instructions.

A copy of the notice of termination shall be sent to any known assignee, guarantor, or surety of the contractor.

§ 8.203 Methods of settlement.

Settlement of terminated cost-reimbursement type contracts and of fixed-price type contracts terminated for convenience may be effected by (a) negotiated agreement, (b) determination by the contracting officer, (c) in the case of cost-reimbursement type contracts, costing-out under vouchers using Standard Form 1034, or (d) a combination of these methods. Every effort shall be made to reach a fair and prompt settlement with the contractor. The negotiated agreement is the most expeditious and most satisfactory method of settling termination claims and shall be used whenever feasible. Settlement by determination shall be used only when a termination claim cannot be settled by agreement.

§ 8.204 Duties of prime contractor after receipt of notice of termination.

The contractor, after receipt of the notice of termination and except as otherwise directed by the contracting officer, must comply with the termination clause of the contract and the notice of termination which generally require, among other things, that the contractor:

(a) Stop work immediately on the terminated portion of the contract and discontinue placing subcontracts thereunder;

(b) Terminate all subcontracts related to the terminated portion of the prime contract;

(c) Immediately advise the contracting officer of any special circumstances precluding the stoppage of work;

(d) If the termination is partial, perform the continued portion of the contract and submit promptly any request for an equitable adjustment of price with respect to the continued portion of the contract, supported by evidence of any increase in the cost thereof;

(e) Take such action as may be necessary, or as the contracting officer may direct, to protect and preserve property in the possession of the contractor in which the Government has or may acquire an interest; and, to the extent directed by the contracting officer, deliver such property to the Government;

(f) Promptly notify the contracting officer in writing of any legal proceedings against the contractor growing out of any subcontract or other commitment related to the terminated portion of the contract;

(g) Settle all outstanding liabilities and all claims arising out of termination of subcontracts, obtaining any approvals or ratifications required by the contracting officer;

(h) Promptly submit its own settlement proposal, supported by appropriate schedules; and

(i) Dispose of any termination inventory, as directed or authorized by the contracting officer.

§ 8.205 Duties of contracting officer after issuance of notice of termination.

(a) In accordance with the termination clause in the contract and with the notice of termination, the contracting officer shall, among other things:

(1) Direct the action required of the prime contractor;

(2) Examine the settlement proposal of the prime contractor and, when appropriate, the settlement proposals of subcontractors;

(3) Promptly negotiate settlement with the contractor and enter into a settlement agreement; and

(4) To the extent that he is unable to negotiate settlement after due and diligent effort, promptly settle the contractor's claim by determination.

(b) To expedite settlement, the contracting officer shall seek assistance from specially qualified personnel (such as negotiating, legal, accounting, inspecting, engineering, and property disposal personnel) to:

(1) Assist the contracting officer in dealings with the contractor;

(2) Render advice on legal and contractual matters;

(3) Conduct accounting reviews and render advice and assistance on accounting matters; and

(4) Perform the following functions with respect to the termination inventory—

(i) Verify its existence;

(ii) Determine qualitative and quantitative allocability;

(iii) make recommendations concerning serviceability and unserviceability.

(iv) Undertake necessary screening and redistribution; and

(v) Assist the contractor in accomplishing other disposition.

(c) An initial conference shall be held with the contractor as promptly as possible to develop a definite program for effecting the settlement. Where appropriate in the judgment of the contracting officer, principal subcontractors should be present. Topics discussed at the conference should include:

(1) General principles relating to the settlement of any termination claim, including obligations of the contractor under the termination clause of the contract;

(2) Extent of the termination, point at which work is stopped, and status of any plans, drawings, and information which would have been delivered had the contract been completed;

(3) Status of any continuing work;

(4) Obligation of the contractor to terminate subcontracts and general principles to be followed in settlement of subcontractor claims;

(5) Names of subcontractors involved and the respective dates termination notices were issued to them;

(6) Contractor personnel handling, and methods for, review and settlement of subcontractor claims;

(7) Arrangements for transfer of title and delivery to the Government of any materials required by the Government;

(8) General principles and procedures to be followed in the protection, preservation, and disposition of contractor's and subcontractor's termination inventory, including the preparation of termination inventory schedules;

(9) Contractor accounting practices and preparation of DD Form 546 (Schedule of Accounting Information) (§ 8.802–9);

(10) Form in which settlement proposals shall be submitted;

(11) Accounting review of settlement proposals;

(12) Any requirement for interim financing in the nature of partial payments; and

(13) Tentative time schedule for negotiation of the settlement, including submission of settlement proposals, termination inventory schedules, and accounting information schedules by the contractor and subcontractors.

§ 8.206 Fraud or other criminal conduct.

Whenever the contracting officer has reason to suspect fraud or other criminal conduct in connection with the settlement of a terminated contract, he shall discontinue all negotiations with the contractor and shall report the facts in accordance with § 1.111, of this chapter.

§ 8.207 Audit of settlement proposals and of subcontract settlements.

(a) Each settlement proposal of $2,500 or over submitted by a prime contractor shall be referred by the contracting officer to the cognizant audit agency for appropriate examination and recommendation. The contracting officer may, in his discretion, refer for audit settlement proposals of less than $2,500. The contracting officer's referral shall be in writing and shall recommend the scope of the audit, but the auditor may expand the scope of the audit if deemed advisable. The audit agency shall submit a written report and recommendations to the contracting officer, in accordance with Departmental procedures.

(b) Subcontract settlements submitted by the prime contractor to the contracting officer for approval or ratification in accordance with § 8.208 shall be referred to the cognizant audit agency for review and recommendations if (1) the settlement involves $25,000 or more; or (2) the contracting officer considers an audit, in whole or in part, desirable. The audit agency shall submit a written report and recommendations to the contracting officer, in accordance with Departmental procedures.

§ 8.208 Settlement of subcontract claims.

§ 8.208–1 Subcontractor's rights.

A subcontractor has no contractual rights against the Government upon the termination of a prime contract. The rights of a subcontractor are against the prime contractor or intermediate subcontractor with whom it has contracted. Upon termination of a prime contract, the prime contractor and each subcontractor are responsible for the prompt settlement of the termination claims of immediate subcontractors.

§ 8.208–2 Prime contractor's rights and obligations.

Each termination clause provides that, after receipt of a notice of termination and except as otherwise directed by the contracting officer, the prime contractor shall terminate all subcontracts to the extent that they relate to the performance of any work terminated by notice of termination. Prime contractors should therefore, for their own protection, include a termination clause in their subcontracts. A suggested subcontract termination clause is set forth in § 8.706. The failure of a prime contractor to include an appropriate termination clause in any subcontract, or to exercise its rights thereunder, shall not (a) affect the right of the Government to require the termination of the subcontract, or (b) increase the obligation of the Government beyond that which would have arisen if the subcontract had contained an appropriate termination clause. In any such case, the reasonableness of the prime contractor's settlement with the subcontractor should normally be measured by the aggregate amount which would be due under subparagraphs (1), (2), and (3) of paragraph (e) of the suggested subcontract termination clause. Reimbursement in excess of that amount shall be allowed only in unusual cases, and then only when the contracting officer is satisfied that the terms of the subcontract were negotiated in good faith and did not unreasonably increase the rights of the subtractor.

§ 8.208–3 Settlement procedure.

(a) Settlements with subcontractors shall be made in general conformity with the policies and principles relating to settlement of prime contracts as set forth in this subpart and in subpart C or D of this part as applicable. However, the basis and form of the subcontractor's settlement proposal must be acceptable to the prime contractor or the next higher tier subcontractor. Each such settlement shall be supported by accounting and other data sufficient for adequate review by the Government. In no event shall the Government pay to the prime contractor any amount for loss of anticipatory profits or consequential damages resulting from the termination of any subcontract (but see § 8.208–5).

(b) Except as provided in § 8.208–4 (1) all subcontractor termination inventory shall be disposed of and accounted for in accordance with Subpart E of this part, and (2) the contracting officer shall require the prime contractor to submit to him for approval or ratification all termination settlements with subcontractors. In submitting each settlement, the prime contractor shall certify that it has examined the subcontractor's claims included therein, that they are allocable to the terminated portion of the prime contract, and that the settlement is fair and reasonable, was negotiated in good faith, and is not more favorable to the subcontractor than if the Government were not involved. The contractor shall also certify that it has received from all its immediate subcontractors certifications substantially in the form of its own certification. With respect to settlements with more remote subcontractors, the contractor shall certify that it has no information leading it to doubt their reasonableness or their allocability to the terminated portion of the prime contract.

(c) The contracting officer shall promptly examine such subcontract settlement required to be submitted to him (including the basis and form of the proposal upon which the settlement was based) to satisfy himself that the subcontract termination was made necessary by the termination of the prime contract, and that the settlement was arrived at in good faith, is reasonable in amount, and is allocable to the terminated portion of the contract (or if allocable only in part, that the proposed allocation is reasonable). In considering the reasonableness of any subcontract settlement, the contracting officer shall be guided generally by the provisions of this part relating to the settlement of prime contracts, and shall comply with any applicable requirements of §§ 8.207 and 8.211 relating to audit and review. Upon completion of the examination, the contracting officer shall notify the contractor in writing of (1) his approval or ratification, or (2) his reasons for disapproval.

§ 8.208–4 Authorization for subcontract settlements of $10,000 or less without approval or ratification.

(a)(1) The contracting officer may, upon the written request of the prime contractor, authorize it in writing to conclude settlement of $10,000 or less (see § 8.101–1) of its terminated subcontracts, without approval or ratification by the contracting officer, if:

(i) The contracting officer is satisfied with the adequacy of the procedures used by the contractor in settling termination claims (including proposals for retention, sale, or other disposal of termination inventory) of its immediate and lower tier subcontractors.

(ii) Any termination inventory included in determining the amount of the settlement will be disposed of in accordance with § 8.513, except that the dis-

position of such inventory shall not (a) be subject to review by the contracting officer under §§ 8.513–1 or 8.513–3, or (b) be subject to § 8.513–4; and

(iii) The settlement will be accompanied by a certificate substantially similar to the certificate set forth in the settlement proposal forms in § 8.802;

Provided, That the contracting officer shall not grant to the contractor any authority hereunder for settlements between $2,500 and $10,000 without the written approval as to that contractor of the Head of the Procuring Activity concerned, or of a deputy or principal assistant responsible for contract matters. Except as provided in subparagraph (3) of this paragraph authority granted to a prime contractor pursuant to this subparagraph (a) (1) by any contracting officer within the Department of Defense shall be applicable to all terminated prime contracts of all procuring activities within the Department of Defense.

(2) Except as provided in subparagraph (3) of this paragraph, the contracting officer without further approval or ratification shall accept, as part of the prime contractor's termination claim, any settlement of terminated lower tier subcontracts concluded by any of its immediate or lower tier subcontractors who, pursuant to subparagraph (1) of this paragraph, have been granted, by any contracting officer within the Department of Defense, authority as prime contractors to settle subcontracts: *Provided,* that the settlement of such lower tier subcontracts is within the limit of such authority.

(3) The provisions of subparagraphs (1) and (2) of this paragraph shall not apply to any contracts under the administration of any contracting officer within the Department of Defense if such contracting officer so notifies the prime contractor concerned. Such notice (i) shall be in writing, (ii) shall be issued only after written approval thereof by the Head of the Procuring Activity concerned or of a deputy or principal assistant responsible for contract matters, and (iii) if subparagraph (2) of this paragraph is involved shall specify any subcontractor affected.

(b) § 8.513 shall apply to any disposal of completed end items allocable to the terminated subcontract, except that completed end items allocable to the terminated subcontract may be disposed of without review by the contracting officer under §§ 8.513–1 or 8.513–3, and without screening under § 8.513–4, if the total amount thereof (at the subcontract price) when added to the amount of the settlement does not exceed the amount authorized under paragraph (a)(1) of this section.

(c) A contracting officer granting the above authorization to a contractor shall be responsible for periodically making a selective review of settlements to determine whether the contractor is making adequate reviews and fair settlements, and whether such authorization shall remain in effect. Whenever the contracting officer determines that the contractor's procedures are not adequate or that improper settlements are being made, he shall revoke the authorization by written notice to the contractor. The revocation shall take effect only from the date of receipt.

(d) Any number of separate settlements of $10,000 or less may be made with a single subcontractor. However, claims which would normally be included in a single settlement proposal, such as those based on a series of separate orders for the same item under one contract, shall be consolidated wherever possible, and shall not be divided in order to bring them within the authorization.

§ 8.208–5 Recognition of judgments and arbitration awards.

(a) In the event a subcontractor obtains a final judgement against a prime contractor, the contracting officer shall, for the purposes of settling the prime contract, treat the amount of the judgment as a cost of settling with the subcontractor, to the extent such judgment is properly allocable to the terminated portion of the prime contract if:

(1) The prime contractor has made reasonable efforts to include in its subcontract the termination clause in § 8.706 or a similar clause excluding payment of anticipatory profits or consequential damages;

(2) The provisions of the subcontract relating to the rights of the parties upon its termination, in whole or in part, are fair and reasonable and do not unreasonably increase the common law rights of the subcontractor;

(3) The contractor has made reasonable efforts to settle the claim of the subcontractor;

(4) The contractor has given prompt notice to the contracting officer of the initiation of the proceedings in which the judgment was rendered and has not refused to give the Government control of the defense of the proceedings; and

(5) The contractor has diligently defended the suit or, if the Government has assumed control of the defense of the proceedings, has rendered such reasonable assistance as has been requested by the Government.

If the foregoing conditions are not all met, the contracting officer may allow the contractor such part of the judgment as he considers a fair amount for settling the termination claim under the subcontract, giving due regard to the policies set forth in this part for settlement of such claims.

(b) Where a contractor and his subcontractor submit a subcontractor termination claim to arbitration under any applicable law or contract provision, the contracting officer shall recognize the amount of the arbitration award as the cost of settling the claim of the subcontractor to the same extent and under the same conditions as specified in paragraph (a) of this section.

§ 8.208–6 Delay in settlement of subcontractor claims.

Where a prime contractor is unable to settle with a subcontractor and such inability is delaying the settlement of the prime contract, the contracting officer may settle with the prime contractor, excepting from the settlement the whole or any part of the claim of such subcontractor and reserving the rights of the Government and of the prime contractor with respect thereto.

§ 8.208–7 Government assistance in settlement of subcontracts.

In unusual cases the contracting officer may determine that it is in the best interests of the Government to offer assistance to the prime contractor in the settlement of a particular subcontract. Such a situation may exist when the prime contractor has made all reasonable efforts to negotiate the settlement without success and the contracting officer believes that with the assistance of the Government a settlement can be reached. Such assistance shall be furnished only with the consent of the prime contractor. In such cases, an agreement may be entered into by the Government, the prime contractor, and a subcontractor, covering the settlement of one or more subcontracts. In any such case, payment to the subcontractor shall be effected through the prime contractor as part of the overall settlement with the latter.

§ 8.208–8 Assignment of rights under subcontracts.

(a) The termination clauses set forth in Subpart G of this part obligate the prime contractor to assign to the Government, in the manner, at the times, and to the extent directed by the contracting officer, all its right, title, and interest under any subcontracts terminated by reason of termination of the prime contract. The contracting officer shall not require such assignment unless he determines that it is in the best interest of the Government.

(b) In giving the Government the right to require the assignment of the prime contractor's interest in terminated subcontracts, the termination clauses set forth in Subpart G of this part also provide that the Government shall have the right, in its discretion, to settle and pay any or all claims arising out of the termination of such subcontracts. This right does not obligate the Government to settle and pay termination claims of subcontractors. As a general rule, the prime contractor is obligated to settle and pay such claims. Where, however, the contracting officer determines that it is in the best interest of the Government to settle and pay directly a subcontractor's termination claim, he shall first obtain approval in accordance with Departmental procedures. An example of a situation in which the best interest of the Government would be served by effecting a direct settlement would be where a subcontractor is the sole source for a product and it appears that a delay by the prime contractor in settlement or payment of the subcontractor's claim will jeopardize the financial position of the subcontractor. Direct settlements with subcontractors are not encouraged.

§ 8.209 Settlement agreements.

§ 8.209–1 General.

When a settlement has been negotiated with respect to the terminated portion of a contract, and all required reviews have been obtained, the contractor and the contracting officer shall enter into a settlement agreement, substantially in the form set forth in the appropriate subparagraph of § 8.806. The settlement shall cover (a) any setoffs and counterclaims which the Government may have against the contractor and which may be applied against the terminated contract, and (b) all claims of subcontractors, except claims which are specifically excepted from the agreement and reserved for separate settlement.

§ 8.209–2 Excepted items.

Where any rights or claims of the Government or of the contractor are to be excepted from the settlement, the settlement agreement shall specify the nature and extent of the excepted items. However, care shall be taken so that the wording of the exception does not create any new rights in the parties beyond those in existence prior to the execution of the settlement agreement. The separate settlement of excepted items shall be in accordance with the provisions of this Section and shall be set forth in settlement agreements.

§ 8.209–3 Government property.

Before any settlement agreement is executed, the contracting officer shall determine the status of the Government property account for the terminated contract. If the audit of such property required by § 30.2, Appendix B, paragraph 404, or § 30.3, Appendix C, paragraph 215, discloses property for which the contractor cannot account, the settlement agreement shall reserve the rights of the Government with respect to such property, or make an appropriate deduction from the amount otherwise due the contractor.

§ 8.209–4 No-cost settlement.

(a) If no costs have been incurred by the contractor with respect to the terminated portion of the contract or if the contractor is willing to waive the costs incurred by it and if no amounts are due to the Government under the contract, a no-cost settlement agreement shall be executed substantially in the form set forth in § 8.806–6 or § 8.806–7, as applicable.

(b) Under a terminated cost-reimbursement type contract, if the contractor elects to obtain reimbursement of costs by the submission of Standard Form 1034 vouchers (costing-out), the settlement agreement shall cover only the fee, if any.

§ 8.209–5 Partial settlements.

Every effort should be made by the contracting officer to settle in one agreement all rights and liabilities of the parties under the contract except those arising from any continued portion of the contract. Generally, contracting officers shall not attempt to make partial settlements covering particular items of the prime contractor's settlement proposal. However, when a contracting officer cannot promptly effect a complete settlement under the terminated contract, a partial settlement may be entered into: *Provided* (a), The issues on which agreement has been reached are clearly severable from other issues, and (b) the partial settlement will not prejudice the interests of the Government or the contractor in disposing of the unsettled part of the claim.

§ 8.209–6 Joint settlement of two or more claims.

With the consent of the contractor, the contracting officer or officers concerned may negotiate jointly two or more termination claims of the same contractor under different contracts, even though such contracts are with different Military Departments. In such cases, accounting work shall be consolidated to the greatest extent practical. The settlement resulting from such joint negotiation may be evidenced by one settlement agreement covering all contracts involved or by a separate agreement for each contract involved. Where the settlement agreement covers more than one contract, it shall (a) clearly identify the contracts involved; (b) apportion the total amount of the settlement among the several contracts on some reasonable basis; (c) have attached or incorporated therein a schedule showing the apportionment; and (d) be distributed and attached to each contract involved in the same manner as other contract amendments.

§ 8.209–7 Settlement by determination.

(a) *General.* To the extent that the contractor and contracting officer are unable to agree upon the settlement of a terminated contract or if a termination claim is not submitted within the period required by the termination clause in the contract, the contracting officer shall issue a determination of the amount due in accordance with the termination clause in the contract, including any cost principles incorporated therein by reference. The contracting officer shall comply with the provisions of §§ 8.209–1 through 8.209–6 in making any such determination.

(b) *Notice to contractor.* The contracting officer shall give the contractor not less than 15 days' notice by certified mail (return receipt requested) to submit, on or before a stated date, written evidence substantiating the amount claimed to be due.

(c) *Submission of evidence.* (1) The contractor has the burden of establishing by proof satisfactory to the contracting officer the amount claimed.

(2) The contractor may submit such vouchers, verified transcripts of books of account, affidavits, audit reports, and other documents as it may wish. The contracting officer may request the contractor to submit such additional documents and data, and may cause such accounting, investigations, and audits to be made, as he deems appropriate.

(3) The contracting officer may accept photostatic or other copies of documents and records, and shall not require original documents, unless there is a question of authenticity.

(4) If the contractor wishes to confer with the contracting officer, or if the contracting officer wishes additional information from Government personnel or from independent experts, or wishes to consult persons whose affidavits or reports have been submitted, the contracting officer, in his discretion, may hold such conferences as he deems appropriate.

(d) *Determinations.* After reviewing the information submitted or otherwise available to him, the contracting officer shall determine the amount due and shall transmit a copy of his determination to the contractor by certified mail (return receipt requested). The letter of transmittal shall advise the contractor that the determination is a final decision from which an appeal may be taken under the Disputes clause. The determination shall set forth the amount due the contractor and shall be supported by detailed schedules conforming generally to the forms for settlement proposals set forth in Subpart H of this part, and by additional information, schedules, and analyses, as appropriate. An adequate explanation shall be given for each major item of disallowance. The contracting officer need not reconsider (1) any settlement with a subcontractor, (2) any disposition of property, or (3) any other action relating to the terminated portion of the contract, where such settlement, disposition, or other action has been previously ratified or approved by him or another duly authorized contracting officer.

(e) *Preservation of evidence.* The contracting officer shall retain in appropriate files of the contracting agency all written evidence and other data or copies thereof, relied upon by him in making his determination, except that copies of original books of account, need not be made. Books of account together with other original papers and documents, shall be returned to the contractor within a reasonable time.

(f) *Appeals.* The contractor has a right of appeal, under the Disputes clause of the contract, from any settlement by determination, except that the contractor has no such right of appeal where it has failed to submit its settlement proposal within the time provided in the contract and has failed to request extension of such time. The pendency of an appeal shall not affect the authority of the contracting officer to settle the termination claim or any part thereof by a negotiated agreement with the contractor at any time before the appeal is decided.

§ 8.210 Contracting officer's negotiation memorandum.

The contracting officer shall, at the conclusion of the settlement negotiations, prepare a memorandum setting forth the principal elements of the settlement for inclusion in the contract file and for the use of reviewing authorities. If the settlement was negotiated on the basis of individual items, the contracting officer shall specify the factors considered with respect to each item. If the settlement was negotiated on an over-all lump-sum basis, the contracting officer need not evaluate each item or group of items individually, but the total amount of the recommended settlement shall be supported in reasonable detail. The memorandum shall include explana-

tions of matters as to which differences and doubtful questions were settled by agreement, and the factors taken into consideration in connection therewith, and any other matters which, in the opinion of the contracting officer, will assist reviewing authorities in understanding the basis for the settlement.

§ 8.211 Review and approval of proposed settlements.

§ 8.211–1 Settlement review boards.

The Head of each Procuring Activity shall establish Settlement Review Boards to review proposed settlements as required by § 8.211–2 (a). Such boards shall be established in the office of the Head of the Procuring Activity and may also be established in field or regional procurement offices, as appropriate. Each Settlement Review Board should be composed of at least three qualified officers or civilian employees of the Department concerned, who shall be persons with broad business and contracting experience. The membership of each Board should include at least one lawyer, one accountant and, in appropriate cases, an engineer or industrial specialist. No person shall serve as a member of a Settlement Review Board in reviewing a settlement in which he has participated.

§ 8.211–2 Required review and approval.

(a) *When required.* Prior to executing a settlement agreement, or issuing a determination of the amount due under the termination clause of a contract, or approving or ratifying a subcontract settlement, the contracting officer shall submit each such settlement or determination for review and approval by a Settlement Review Board if:

(1) The settlement or determination involves $25,000 or more (see § 8.101–1);

(2) The settlement or determination is limited to adjustment of the fee of a cost-reimbursement contract or subcontract and (i) in the case of a complete termination, the fee, as adjusted, is $25,000 or more; or (ii) in the case of a partial termination, the fee, as adjusted, with respect to the terminated portion of the contract or subcontract is $25,000 or more;

(3) The Head of the Procuring Activity concerned determines that a review is desirable; or

(4) The contracting officer, in his discretion, desires review by the Settlement Review Board.

The review and approval of each settlement or determination in excess of $1,000,000 shall be by a Board at the Head of the Procuring Activity level.

(b) *Submission of information.* The contracting officer shall, in accordance with Departmental procedures, submit to the Settlement Review Board a statement of the settlement, supported by such detailed information as is required for an adequate review. This information should normally include copies of (1) the contractor's or subcontractor's settlement proposal, (2) the audit report, (3) the property disposal report and any required approvals in connection therewith, (4) the contracting officer's memorandum explaining the settlement (§ 8.210), and (5) when appropriate, the opinion of any other Settlement Review Board which has previously reviewed the settlement. The Board may, in its discretion, require the submission of additional information.

§ 8.211–3 Scope of review.

The function of a Settlement Review Board is to determine the overall reasonableness of the proposed settlement agreement or determination from the standpoint of protecting the Government's interest. The Board may vary the scope and intensity of the review according to the size and complexity of the proposed settlement agreement or determination and any other relevant factors. It is not intended that the Board examine in detail every element entering into the proposed settlement agreement or determination, but the Board may inquire into selected elements of the proposed settlement agreement or determination to assure that it has been conducted competently and is based on adequate information.

§ 8.211–4 Action by board.

The Settlement Review Board shall submit to the contracting officer a written opinion with respect to the proposed settlement agreement or determination and any other matter considered by the Board setting forth its approval or disapproval thereof, or other decision thereon. Failure of the Board to submit a written opinion as to any proposed settlement agreement or determination within 30 days after submission to the Board of all the information required pursuant to § 8.211–2(b) shall operate as an approval by the Board.

§ 8.212 Payment.

§ 8.212–1 Partial payments upon termination.

(a) *General.* If the contract authorizes partial payments on termination claims prior to settlement, a fixed-price prime contractor, or a cost-reimbursement prime contractor whose settlement proposal includes costs, may request such partial payments in the form set forth in § 8.802–10 at any time after submission of interim or final settlement proposals. Applications for partial payments shall be processed promptly. Partial payments to a subcontractor shall be made only through the prime contractor.

(b) *Amount of partial payment.* Before approving any partial payment requested by the contractor, the contracting officer shall have made such accounting, engineering, or other specialized reviews as he deems proper of the data required by this part to be submitted in support of the contractor's settlement proposals. If such reviews and the contracting officer's examination of the data indicate that the requested partial payment is proper, the contracting officer may, in his discretion, authorize payments as follows:

(1) An amount up to 100 percent of the contract price, adjusted in accordance with § 8.306 for undelivered acceptable items completed prior to the termination date, or completed thereafter with the approval of the contracting officer, which are included in the contractor's settlement proposals pursuant to § 8.306;

(2) An amount up to 100 percent of the amount of any subcontract settlement effected and paid by the prime contractor: *Provided,* The settlement has been approved or ratified by the contracting officer pursuant to § 8.208–3 (c) or has been authorized pursuant to § 8.208–4;

(3) An amount up to 90 percent of the direct cost of termination inventory, including costs of raw materials, purchased parts, supplies, and direct labor;

(4) A reasonable amount, not to exceed 90 percent, of other allowable costs (including manufacturing and administrative overhead) allocable to the terminated portion of the contract and not included in subparagraph (1), (2), or (3) of this paragraph; and

(5) An amount up to 100 percent of partial payments made to subcontractors in conformance with this subparagraph. No partial payments shall be made on account of profit or fee which may be claimed with respect to the terminated portion of the contract. In exercising his discretion as to the extent to which partial payments shall be made, the contracting officer shall consider the diligence of the contractor in settling with its subcontractors and in preparing its own claim.

(c) *Recognition of assignments.* Where an assignment of claims has been made under the contract, partial payments shall not be made to other than the assignee unless the parties to the assignment consent to the payments.

(d) *Security for partial payments.* To the extent that any partial payment is made with respect to completed end items or for direct or indirect costs of termination inventory, the interests of the Government shall be protected by transfer of title to the Government of the completed end items or termination inventory concerned, or by the creation of a lien in favor of the Government, paramount to all other liens, on such completed end items or termination inventory, or by other means authorized by Departmental procedures.

(e) *Deductions in computing amount of partial payments.* There shall be deducted from the gross amount of any partial payment otherwise payable under § 8.212–1(b):

(1) All unliquidated balances of progress payments and advance payments (including interest thereon) theretofore made to the contractor, which are allocable to the terminated portion of the contract; and

(2) The amounts of all credits arising from the purchase, retention, or sale of property the costs of which are included in the application for partial payment.

(f) *Limitation on total amount: effect of overpayment.* The total amount of all partial payments shall not exceed the amount which will, in the opinion of the contracting officer, become due to the contractor by reason of the termination. If the total of partial payments made to the contractor should exceed the amount finally determined to be due to the contractor on its termination claim, the excess shall be repayable to the Government on demand, together

with interest computed at the rate of 6 percent per annum from the date such excess payment was received by the contractor to the date of repayment: *Provided,* That (1) no interest shall be charged for any such excess payment attributable to a reduction in the contract termination claim by reason of retention or other disposition of termination inventory, until 10 days after the date of such retention or disposition, or such later date as determined by the contracting officer by reason of the circumstances, and (2) no interest shall be charged for overpayment under cost-reimbursement type research and development contracts (without profit or fee to the contractor) if the overpayments are repaid to the Government within 30 days after demand.

(g) *Certification and approval of partial payments.* Partial payments in a specific amount shall be made on the basis of vouchers or invoices certified by the contractor. The certification shall include, in addition to any other provisions ordinarily required to be included in such certificate, the following:

> The payment covered by this voucher is a partial payment on account of the Contractor's termination claim under contract No. ------, made pursuant to 32 CFR Part 8.

The invoice or voucher, if proper, shall be approved by the contracting officer by noting thereon the following:

> Payment in the amount of $------ approved.

§ 8.212–2 Final payment.

(a) *Negotiated settlement.* Upon execution of a settlement agreement, a voucher or invoice showing the amount agreed upon, less any portion previously paid, shall be prepared and certified in the usual form and presented to the disbursing officer for payment. A copy of the settlement agreement shall be attached to the voucher or invoice.

(b) *Settlement by determination.* In the event of a settlement by determination:

(1) If the contractor has not appealed the determination, a voucher or invoice showing the amount so determined to be due, less any portion previously paid, shall be prepared and certified in the usual form and presented to the disbursing officer for payment; or

(2) If the contractor has appealed the determination, a voucher or invoice showing the amount finally determined on such appeal to be due, less any portion previously paid, shall be prepared and certified in the usual form and presented to the disbursing officer for payment. Pending determination of any appeal, an invoice or voucher pursuant to subparagraph (1) of this paragraph may be presented to the disbursing officer for payment, without prejudice to the rights of either party on the appeal.

(c) *Interest.* No interest shall be paid by the Government on the amount due under a settlement agreement or a settlement by determination.

§ 8.213 Cost principles applicable to the settlement of research and development contracts with educational institutions.

The cost principles and procedures set forth in Subpart C, Part 15, of this chapter shall, subject to the general policies set forth in § 8.301, be a guide for the negotiation of settlements under fixed price or cost-reimbursement type contracts for experimental, developmental or research work with educational institutions, in accordance with § 15.103 and Subpart F, Part 15 of this chapter.

Subpart C—Additional Principles Applicable to the Settlement of Terminated Fixed-Price Type Contracts

§ 8.300 Scope of subpart.

This subpart establishes the guiding principles and policies in connection with arriving at fair compensation for the settlement of terminated fixed-price contracts.

§ 8.301 General.

(a) A settlement should compensate the contractor fairly for the work done and the preparations made for the terminated portions of the contract, including an allowance for profit thereon which is reasonable under the circumstances. Fair compensation is a matter of judgment and cannot be measured exactly. In a given case, various methods may be equally appropriate for arriving at fair compensation. The application of standards of business judgment, as distinguished from strict accounting principles, is the heart of a settlement.

(b) The primary objective is to negotiate a settlement by agreement. The parties may agree upon a total amount to be paid the contractor without agreeing on or segregating the particular elements of costs or profit comprising this amount.

(c) Cost and accounting data may provide guides, but are not rigid measures, for ascertaining fair compensation. In appropriate cases, costs may be estimated, differences compromised, and doubtful questions settled by agreement. Other types of data, criteria, or standards may furnish equally reliable guides to fair compensation. The amount of record keeping, reporting and accounting, in connection with the settlement of termination claims, shall be kept to the minimum compatible with the reasonable protection of the public interest.

§ 8.302 Cost principles.

The principles set forth in the applicable subpart of Part 15 of this chapter shall be used as a guide for the evaluation of cost information in the negotiation of a termination settlement.

§ 8.303 Allowance for profit.

(a) *General.* Profit shall be allowed only on preparations made and work done by the contractor for the terminated portion of the contract but may not be allowed on the contractor's settlement expenses. Anticipatory profits and consequential damages shall not be allowed (but see § 8.208–5). Any reasonable method may be used to arrive at a fair profit, separately or as a part of the whole settlement.

(b) *Factors to be considered.* In negotiating profit, factors to be considered include:

(1) Extent and difficulty of the work done by the contractor as compared with the total work required by the contract; engineering estimates of the percentage of completion ordinarily should not be required, but if available should be considered;

(2) Engineering work, production scheduling, planning, technical study and supervision, and other necessary services;

(3) Efficiency of the contractor, with particular regard to (i) attainment of quantity and quality production, (ii) reduction of costs, and (iii) economy in the use of materials, facilities, and manpower;

(4) Amount and source of capital employed, and extent of risk assumed, but profit may not be allowed on interest on borrowings allowed as a cost;

(5) Inventive and developmental contributions, and cooperation with the Government and other contractors in supplying technical assistance;

(6) Character of the business, including the source and nature of materials and the complexity of manufacturing techniques;

(7) The rate of profit which the contractor would have earned had the contract been completed;

(8) Character, extent, and difficulty of subcontracting, including selection, placement, and management of subcontracts, settlement of terminated subcontracts, and engineering, technical assistance, and other services rendered but the profit shall not be measured by the amount of the contractor's payments to subcontractors for settlement of their termination claims; and

(9) The rate of profit both parties contemplated at the time the contract was negotiated.

(c) *Profit in settlements by determination.* The formula for determining profit, set forth in subparagraph (e) (2) (C) of the termination clause for fixed-price contracts (§ 8.701) and subparagraph (e) (1) (C) of the clause for fixed-price construction contracts (§ 8.703), is applicable only to a settlement by determination (see § 8.209–7), and shall not be used in establishing the profit allowed in a settlement by negotiation.

§ 8.304 Adjustment for loss.

(a) In the negotiation or determination of any settlement, no profit shall be allowed if it appears that the contractor would have incurred a loss had the entire contract been completed. The amount of loss shall be negotiated or determined and an adjustment in the amount of settlement shall be made as specified in paragraph (b) or (c) of this section. In estimating the cost to complete, consideration shall be given to expected production efficiencies and to other factors affecting the cost to complete.

(b) If the settlement is on an inventory basis, the contractor shall not be paid more than:

(1) The amount negotiated or determined for settlement expenses;

(2) The contract price, as adjusted, for acceptable completed end items (see § 8.306); and

(3) The remainder of the settlement amount otherwise agreed or determined (not excluding the allocable portion of initial costs (see § 15.205–42(c) of this chapter)), reduced by multiplying that remainder by the ratio of (i) the total contract price, to (ii) the total cost incurred prior to termination plus the estimated cost to complete the entire contract;

less all disposal credits and all unliquidated advance and progress payments previously made to the contractor under the contract.

(c) If the settlement is on a total cost basis, the contractor shall not be paid more than:

(1) The amount negotiated or determined for settlement expenses; and

(2) The remainder of the total settlement amount otherwise agreed or determined, reduced by multiplying that remainder by the ratio of (i) the total contract price, to (ii) that remainder plus the estimated cost to complete the entire contract;

less all disposal and other credits, all advance and progress payments, and all other amounts previously paid to the contractor under the contract.

§ 8.305 Deductions.

From the amount payable to the contractor under a settlement, there shall be deducted (a) the agreed price for any part of the termination inventory purchased or retained by the contractor, and the proceeds of sale of any materials sold by it, which have not otherwise been paid or credited to the Government; (b) the fair value, as determined by the contracting officer, of any part of the termination inventory which, prior to transfer of title to the Government or to a buyer pursuant to Subpart E of this part, is destroyed, lost, stolen, or so damaged as to become undeliverable, except for normal spoilage or to the extent the Government has expressly assumed the risk of loss; and (c) such other amounts as appropriate in the particular case.

§ 8.306 Completed end items.

Promptly after the effective date of termination, the contracting officer shall have all undelivered completed end items inspected and accepted if they comply with the prime contract requirements, and shall determine which accepted end items shall be delivered under the contract. The contractor shall be paid for completed end items so accepted and delivered by invoicing them at the contract price in the usual manner and shall not include such end items in its termination claim. Where completed end items, though accepted, are not to be delivered under the contract, the contractor shall include such end items in its settlement proposal at the contract price, appropriately adjusted for any saving of freight or other charges, together with any credits for their purchase, retention, or sale.

§ 8.307 Settlement proposals.

§ 8.307–1 Submission of settlement proposals.

(a) Subject to the provisions of the termination clause in the contract, the contractor shall promptly submit to the contracting officer a settlement proposal setting forth the amount claimed to be due by reason of the termination. The proposal shall be submitted within one year from the effective date of the termination, unless the period has been extended in accordance with the terms of the contract.

(b) The settlement proposal shall cover all elements of the contractor's claim, including settlements with subcontractors. With the consent of the contracting officer, proposals may be filed in successive steps covering separate portions of a claim. Such interim proposals shall include all costs of a particular type, except as the contracting officer may authorize otherwise.

(c) Settlement proposals shall be in the form specified in the appropriate subparagraph of § 8.802. Where none of those forms are adequate for a particular contract, the Head of the Procuring Activity concerned may authorize appropriate modifications. Settlement proposals shall be in reasonable detail supported by adequate accounting data. Actual, standard (appropriately adjusted), or average costs, may be used in preparing settlement proposals: *Provided*, That such costs are determined in accordance with generally recognized accounting principles consistently followed by the contractor. Where actual, standard, or average costs are not reasonably available, estimated costs may be used if the method of arriving at the estimates is approved by the contracting officer. A contractor shall not be required to maintain unduly elaborate cost accounting systems merely because its contracts may subsequently be terminated.

(d) DD Form 831 (§ 8.802–3) may be used when the total claim is less than $2,500, unless otherwise instructed by the contracting officer. Claims which would normally be included in a single settlement proposal, such as those based on a series of separate orders for the same item under one contract, shall be consolidated wherever possible and shall not be divided in such a way as to bring them below $2,500.

§ 8.307–2 Bases for settlement proposals.

(a) *Inventory basis.* Use of the inventory basis for settlement proposals is preferred. Under this basis the contractor shall claim only costs chargeable or allocable to the terminated portion of the contract, and the settlement proposal shall itemize separately:

(1) At purchase or manufacturing cost, each of the following—metals, raw materials, purchased parts, work in process, finished parts, components, dies, jigs, fixtures, and tooling;

(2) Charges such as engineering costs, initial costs, and general and administrative costs;

(3) Costs of settlements with subcontractors;

(4) Settlement expenses; and

(5) Other proper charges.

An allowance for profit (see § 8.303) or adjustment for loss (see § 8.304 (b)) shall be made to complete the gross termination claim. All unliquidated advance and progress payments, and all disposal and other credits known when the proposal is submitted, shall then be deducted.

(b) *Total cost basis.* (1) When use of the inventory basis is not practicable or will unduly delay settlement, the total cost basis may be used if approved in advance by the contracting officer.

(2) When the total cost basis is used under a complete termination, all costs incurred under the contract up to the effective date of termination shall be itemized and the costs of settlements with subcontractors and applicable settlement expenses shall be added. An allowance for profit (see § 8.303) or adjustment for loss (see § 8.304 (c)) shall be made. The contract price for all end items which have been or are to be delivered and accepted shall be deducted. All unliquidated advance and progress payments, disposal and other credits known when the proposal is submitted, shall also be deducted.

(3) When the total cost basis is used under a partial termination, the settlement proposal shall not be submitted until completion of the continued portion of the contract. The settlement proposal shall be prepared in accordance with subparagraph (2) of this paragraph except that all costs incurred to the date of completion of the continued portion of the contract shall be included.

(c) *Other bases.* Termination claims shall not be submitted on any basis other than paragraph (a) or (b) of this section without the prior approval of the Secretary concerned or his duly designated representative.

§ 8.308 Limitation on settlements.

The total amount payable to the contractor on account of a settlement, whether through negotiation or by determination, before deducting disposal or other credits and exclusive of settlement costs, shall not exceed the contract price less payments otherwise made or to be made under the contract.

Subpart D—Additional Principles Applicable to the Settlement of Terminated Cost-Reimbursement Type Contracts

§ 8.401 General considerations.

The termination clauses for cost-reimbursement type contracts (see §§ 8.702 and 8.704) provide for the settlement of costs and of fee, if any. The provisions of the particular contract governing costs shall determine what costs are allowable.

§ 8.402 Election to discontinue vouchers.

(a) After the effective date of termination, the contractor may elect to discontinue the use of Standard Form 1034 (Public Voucher). Such election shall be made in the manner required by the contracting officer (in the case of the Navy, the Comptroller of the Navy (Contract Audit Division)). Upon such election, the contractor shall not be permitted to resume the use of Standard Form 1034, and shall submit unvouchered costs on the settlement proposal form prescribed in § 8.803. On the basis of such settlement proposals, partial settlements may be made from time to time as appropriate.

(b) A contractor which continues to use Standard Form 1034 may at any time thereafter elect to discontinue the use of such vouchers. A contractor shall not, however, be permitted to recover costs by the use, during the same period of time, of both Standard Form 1034 and settlement proposals, except as provided in § 8.406.

§ 8.403 Notice to the General Accounting Office.

The contracting officer shall promptly send a copy of the notice of termination to the General Accounting Office, and shall promptly advise that office of any election by the contractor pursuant to § 8.402 to discontinue the use of Standard Form 1034.

§ 8.404 Procedure where contractor continues to submit vouchers.

§ 8.404–1 Submission of settlement proposal.

If the contractor elects to continue to submit reimbursable costs on Standard Form 1034, the contractor shall submit a settlement proposal which shall be limited as to amount to its claim, if any, for a fee. The proposal shall be submitted to the contracting officer within one year from the effective date of termination, unless the period has been extended in accordance with the terms of the contract. The proposal shall be submitted in the form prescribed in § 8.803. The fee to be paid, if any, shall be established in the manner provided by the contract. Percentage of completion of the contract is generally the basis used. Where this basis is used, factors such as the extent and difficulty of the work done by the contractor (including but not limited to planning, scheduling, technical study, engineering work, production and supervision, placing and supervising subcontracts to the extent reasonably required, and work done by the contractor in (a) stopping performance, (b) settling claims of subcontractors, and (c) disposing of termination inventory) shall be compared with the total work required by the contract. The ratio of costs incurred to the total estimated cost of performing the contract is only one factor in computing the percentage of completion of the contract. This percentage may be either greater or less than that indicated by the ratio of costs incurred, depending upon the evaluation by the contracting officer of the above factors and other relevant considerations.

§ 8.404–2 Submission of cost vouchers.

The contractor shall submit on Standard Form 1034 all costs reimbursable under the contract, including (a) its own costs allocable to the terminated portion of the contract, (b) costs of settlements with subcontractors, and (c) applicable settlement expenses. The contractor shall not be reimbursed for the costs of settlements with subcontractors unless the approvals or ratifications required pursuant to the contract have been obtained (see § 8.208).

§ 8.405 Procedure where contractor discontinues use of vouchers.

§ 8.405–1 Submission of settlement proposal.

If the contractor discontinues the use of Standard Form 1034, it shall submit a settlement proposal covering both its costs and its claim, if any, for a fee. The proposal shall be submitted to the contracting officer within one year from the effective date of termination, unless the period has been extended in accordance with the terms of the contract. The proposal shall be submitted in the form prescribed in § 8.803, unless the Head of the Procuring Activity concerned authorizes modification thereof. The proposal shall contain only unvouchered costs and the contractor may not include in its settlement proposal those costs which have been finally disallowed or are the subject of a reclaim voucher.

§ 8.405–2 Interim negotiations.

The contracting officer and the contractor shall proceed immediately to take all action required by the termination clause of the contract and by this part (including negotiation of settlements with fixed-price subcontractors), but no final settlement agreement shall be executed until there has been full compliance with § 8.405–3 through § 8.405–5.

§ 8.405–3 Information concerning previous cost vouchers.

(a) The contracting officer (in the case of the Navy, the Comptroller of the Navy (Contract Audit Division)) shall notify the appropriate disbursing officer in writing of the number of the last Standard Form 1034 cost voucher submitted to him for payment.

(b) Within 10 days from the date of payment of the last Standard Form 1034 voucher or from the date of receipt of the notice referred to in paragraph (a) of this section, whichever is later, the disbursing officer shall prepare and transmit to the contracting officer a list of all Standard Form 1043 vouchers paid under the contract, showing (1) Disbursing Office voucher number, (2) amount of voucher, (3) date of payment, (4) disbursing officer's name, symbol, and address, and (5) total amount of vouchers paid. The contracting officer shall verify the number and amounts of the vouchers listed against the records of the procuring activity, and if any discrepancies exist, shall request the disbursing officer to reconcile them. After reconciliation, the verified list shall be returned to the disbursing officer. (In the case of the Navy, the disbursing officer shall, in lieu of transmitting the list of vouchers to the contracting officer, transmit it to the Comptroller of the Navy (Contract Audit Division), for verification.)

§ 8.405–4 Notice to General Accounting Office of audit status date.

Upon receipt of the verified list of vouchers, the disbursing officer shall immediately transmit a Notice of Audit Status Date (DD Form 547s) by certified mail (return receipt requested) to the Regional Office of the General Accounting Office zone in which the work on the terminated contract was being performed. Such notice fixes as the "Audit Status Date" (a) the day 60 days from the date of the receipt of the notice by the General Accounting Office, or (b) the date of the receipt by the procuring activity of the final General Accounting Office audit status letter, whichever is earlier. The disbursing officer shall send a copy of the notice to the contracting officer (in the case of the Navy, also to the Comptroller of the Navy (Contract Audit Division)), and shall state when the notice was received by the General Accounting Office.

§ 8.405–5 Exceptions by the General Accounting Office.

(a) During the first 30 days after receipt by it of the audit status notice, the General Accounting Office will continue to issue informal inquiries before issuing exceptions; thereafter, and until the audit status date, it will issue exceptions without issuing informal inquiries. Only those exceptions listed in the General Accounting Office final audit status letter will be considered as outstanding at that time; all informal inquiries will either be converted by the General Accounting Office to exceptions at the time of issuance of that letter or be deemed to have been cleared. Upon receipt of replies to exceptions, the General Accounting Office will promptly furnish notice that the reply is satisfactory or will promptly issue a revised exception. No exceptions (other than pro forma exceptions) will be issued after the audit status date.

(b) All replies to exceptions and informal inquiries shall advise the General Accounting Office of the disposition to be made of the particular item in the final settlement and shall contain complete information justifying the payments in question. Replies shall be submitted promptly in accordance with Departmental procedures. After the audit status date, a final attempt shall be made by the contracting officer to clear with the General Accounting Office all outstanding exceptions and reclaim vouchers prior to final settlement.

§ 8.405–6 Final settlement.

(a) The contracting officer may proceed with completion of the settlement and execution of an appropriate settlement agreement at any time after receipt of the final audit status letter. If no such letter has been received on or before the 15th day following the audit status date, the contracting officer may proceed on the basis that there are no outstanding exceptions.

(b) The fee shall be adjusted as provided in § 8.404–1.

(c) The final settlement agreement may include all claims of the Government and of the contractor under the terminated contract, except that no amount may be allowed for any item of cost which is the subject of a General

Accounting Office exception, either cleared by deduction or uncleared, or for any other item of cost of the same nature, unless a reclaim voucher covering such cost has been presented by the contractor and authorized by the General Accounting Office for payment.

(d) The provisions of the contract governing the types of reimbursable costs shall constitute the basis of negotiation; however, if an overall settlement of costs is agreed upon, agreement on each separate element of cost is not necessary. In appropriate cases, differences may be compromised and doubtful questions settled by agreement. An overall settlement shall not, under any circumstances, be made the means of reimbursing contractors for costs which under the provisions of the contract are clearly not allowable.

§ 8.406 Partial termination.

In the event of a partial termination of a cost-reimbursement type contract, the settlement shall be limited to adjustment of the fee, if any, unless the contracting officer determines that:

(a) The terminated portion is clearly severable from the balance of the contract; or

(b) Performance of the contract is virtually complete, or that performance of any continued portion is only on subsidiary items or spare parts, or is otherwise not substantial.

Subject to the foregoing exceptions, all costs under the contract, including those arising out of the partial termination, will continue to be presented in the same manner as prior to the notice of termination.

§ 8.407 Termination for default.

The right to terminate a cost-reimbursement type contract for default is provided for in the Termination clause set forth in § 8.702. In the event of termination, the contractor shall be reimbursed its allowable costs in accordance with the clause, and an appropriate reduction shall be made in the total fee, if any, computed in accordance with the default provisions of the contract (see paragraph (e)(1)(D)(II) of the clause in § 8.702). The costs of preparing the contractor's settlement proposal are not allowable. A cost-reimbursement type contract does not contain any provision for recovery of excess costs of reprocurement after termination for default, but see paragraph (b) of the clause set forth in § 7.203–5 of this chapter with respect to failure of the contractor to replace or correct defective supplies. The procedures set forth in §§ 8.602 and 8.603 shall be used to the extent appropriate in considering the termination for default of a cost-reimbursement type contract. A ten-day notice to the contractor prior to termination for default is required in every case by the Termination clause in § 8.702.

Subpart E—Disposition of Termination Inventory

§ 8.501 General.

§ 8.501–1 Methods of disposal.

Subject to the Government exercising its right under the termination clause in a contract to acquire title to, and require delivery of, any items of termination inventory, the contractor shall dispose of all termination inventory in the manner most favorable to the Government by the following methods, in the order of priority indicated:

(a) Purchase or retention by the prime contractor or subcontractor at cost;

(b) Return to suppliers;

(c) Sale (including purchase or retention at less than cost by the prime contractor or subcontractor); or

(d) Other disposition as hereinafter provided.

§ 8.501–2 General restrictions on contractor's authority.

(a) The following general restrictions are in addition to specific restrictions set forth in this Subpart E.

(b) The authority of a contractor to purchase, retain, or dispose of termination inventory or to authorize or approve a purchase, retention, or disposition by a subcontractor is subject to (1) any applicable Government restrictions on the disposition of property which is either classified by reason of military security or is dangerous to public health, safety or welfare, and (2) any contract provisions regarding the disposition of material subject to a lien.

(c) Contractors shall not sell termination inventory to persons known by them to be officers, enlisted personnel, or civilian employees of the Department of Defense.

(d) The authority of a contractor to approve a sale or a purchase or retention at less than cost, by a subcontractor and the authority of a subcontractor to sell, or to purchase or retain at less than cost, termination inventory with the approval of the next higher-tier contractor does not include (1) a sale by a subcontractor to the next higher-tier contractor or to an affiliate of such contractor or of the subcontractor, or (2) a sale, or a purchase or retention at less than cost, by a subcontractor affiliated with the next higher-tier contractor. Each such excluded sale, purchase, or retention requires the written approval of the contracting officer. A firm shall be considered to be affiliated with another firm if they are under common control or if there is any common interest between them, by reason of stock ownership or otherwise, which is sufficient to create a reasonable doubt that the bargaining between them is completely at arm's length.

§ 8.502 Contractor-acquired property; purchase or retention at cost, or return to suppliers.

§ 8.502–1 Purchase or retention at cost.

Contractors shall be encouraged to purchase or retain contractor-acquired property at cost. No part of the cost of property so purchased or retained shall be included in settlement proposals. In any instance in which a contractor purchases or retains any allocable contractor-acquired property for use in other continuing Government contracts or commercial operations, handling and transportation charges necessitated by the purchase or retention of such property may be included in the contractor's settlement proposal as "other costs"; *Provided*, That such costs are reasonable. Where property purchased or retained is for use on a continuing Government contract and is not in excess of the quantitative requirements for completion of that contract, that property shall be considered properly allocable to the continuing contract if that contract is subsequently terminated, even though its procurement would otherwise constitute undue anticipation of production schedules. If, as a result of the purchase or retention of property from a terminated contract for use on a continuing Government contract, the contractor terminates subcontracts under the continuing Government contract, the charges incurred by reason of the termination of such subcontracts may be included in the termination claim under the terminated contract.

§ 8.502–2 Return of property to suppliers.

Contractors are authorized and shall be encouraged to return allocable quantities of contractor-acquired property to suppliers for full credit less the supplier's normal restocking charge, or 15 percent of cost, whichever is less. Contractors shall not include in their settlement proposals the cost of such property returned to suppliers in accordance with this section. Contractors may include in their settlement proposals as "other costs" the transportation, handling, and restocking charges with respect to the property so returned.

§ 8.502–3 Cost-reimbursement type contracts.

Under cost-reimbursement type contracts, the contractor's right to purchase or retain contractor-acquired property at cost (§ 8.502–1) or return such property to suppliers (§ 8.502–2) shall be subject to the approval of the contracting officer after adjustment of previously reimbursed costs for such property.

§ 8.503 Inventory schedules.

§ 8.503–1 Submission of inventory schedules.

As promptly as possible after receipt of a Notice of Termination, the prime contractor is required to submit inventory schedules to the contracting officer covering all items of termination inventory, including Government-furnished property: *Provided*, That termination inventory purchased or retained at cost, or returned to suppliers, pursuant to § 8.502 shall not be listed. Inventory schedules may be submitted prior to submission of the settlement proposal. Submission shall not be delayed in order to supply complete cost data on items of work in process where such data is not readily available. Partial schedules may be submitted from time to time when they cover substantial portions of a particular property classification in the termination inventory. Each schedule submitted shall be designated by the contractor as "partial" or "final."

§ 8.503–2 Separate schedules.

Separate sets of schedules shall be submitted on the forms prescribed in §§ 8.802–4 through 8.802–8, for contractor-acquired property and for Government-furnished property, and, within each of those categories, for each of the following classifications:

(a) Production equipment;

(b) Serviceable aircraft or aircraft components;

(c) Other serviceable or usable materials; and

(d) Scrap or salvage.

Classification of property by the contractor in the schedules shall be subject to the approval of the contracting officer.

§ 8.503–3 Inventory descriptions.

A commercial description, adequate for disposal and screening purposes, of all items having commercial value shall be included in the inventory schedules. Where any items of termination inventory bear a Government identification number, such number shall be listed on the inventory schedules. In the case of other items, the contractor shall furnish a description sufficient to enable the contracting officer to determine the proper disposition thereof. The contractor shall consult the contracting officer when in doubt as to the extent of description required. The contractor need not itemize material believed to be scrap or salvage if (a) such material is physically segregated in the contractor's plant; and (b) the contractor submits a statement describing the material generally, setting forth its approximate cost, and giving such other information as may be necessary for the contracting officer to determine whether the material is scrap or salvage. If the material is determined by the contracting officer to be scrap or salvage (see § 8.504), the contractor may make a single descriptive entry on an inventory schedule covering such material and indicating its approximate total cost.

§ 8.503–4 Inventory schedule certificate.

The certificate on the inventory schedules prescribed in § 8.802–4 through § 8.802–8 shall be executed by the contractor on each schedule submitted. The certificate, among other things, tenders title to the Government of the property listed therein, unless the Government already has title thereto.

§ 8.503–5 Common items.

Under no circumstances shall the contractor's inventory schedules include any items (except for property delivery of which has been required by the Government and except for Government-furnished property) reasonably usable on other work of the contractor without loss to it. (See § 15.205–42.)

§ 8.503–6 Withdrawals from inventory schedules.

If at any time prior to final disposition any items of contractor-acquired property listed in the contractor's inventory schedules become reasonably usable on other work of the contractor without loss to it and this fact is known to the contractor, the contractor is required to purchase or retain such items at cost in accordance with §§ 8.502–1 or 8.502–3, whichever is applicable, and shall amend its inventory schedules and its settlement proposal accordingly. Upon notification to the contracting officer, the contractor may similarly purchase or retain at cost any other items of property included in its inventory schedules. Withdrawal of Government-furnished property included in inventory schedules is subject to approval by the contracting officer.

§ 8.503–7 Rejection and correction of inadequate schedules.

(a) *General.* Contracting officers shall cause to be verified, to the extent practicable, the physical count and condition of inventories, including Government-furnished property, listed on the contractor's inventory schedules. If any inventory schedule submitted by a contractor is found to be inadequate, the contractor shall be promptly notified and required to correct or supplement the schedule as to the items which are deficient. Inventory schedules shall not be rejected if the information contained therein is adequate for disposal purposes, even if complete cost data on work in process are not available. Rejection of an inventory schedule shall be limited where possible to specific items thereon and shall not necessarily render the entire schedule unacceptable.

(b) ***Effect on plant clearance period.*** (1) Where only individual items on the inventory schedules covering all items of a particular property classification are in need of correction or amplification, the inventory schedules as submitted shall be considered acceptable for purposes of starting the final phase of a plant clearance period (see § 8.101–12). However, where the inadequacy of an inventory schedule requires the return of the entire schedule to the contractor for correction or revision, the final phase of the plant clearance period as to the property classification covered thereby shall not begin until acceptable final schedules covering that property classification have been submitted.

(2) The contracting officer shall advise the contractor of any deficiencies apparent in the inventory schedule within 15 days after receipt of the final schedule, or the schedules shall be deemed acceptable for purposes of starting the final phase of a plant clearance period. However, should substantial errors develop which were not apparent from the inventory schedules previously deemed acceptable, the final phase of a plant clearance period shall not be deemed to have commenced until corrected schedules have been submitted unless the contracting officer determines that no unwarranted delay in disposal operations was occasioned thereby.

§ 8.504 Scrap and salvage.

§ 8.504–1 General.

Promptly after the submission of inventory schedules by the contractor, the contracting officer shall review, or cause to be reviewed, the contractor's treatment of any items of termination inventory as scrap or salvage (see § 8.503–3). The review shall include a careful examination of the inventory schedules and in appropriate cases physical inspection of the property involved. Prior to determining that such items are scrap or salvage, the contracting officer shall obtain such approvals as may be required by Departmental procedures. If the contracting officer determines that any of the materials listed by the contractor as scrap or salvage are serviceable or usable materials, the contractor shall, in accordance with such determination, submit revised inventory schedules (see § 8.503–7). Property determined to be scrap and which, by other Government regulations, is required to be segregated by alloy or otherwise, shall be so segregated by the contractor. Property determined to be scrap or salvage may, with the approval of the contracting officer, be sold or otherwise disposed of by the contractor in accordance with the provisions of §§ 8.505–3, 8.507, or 8.509. In appropriate cases, when approved by the contracting officer, such sales may be consolidated with the contractor's sales of scrap and salvage generated from its other work and, in such cases, the scrap warranty required by § 8.504–2 may be waived in the discretion of the contracting officer.

§ 8.504–2 Scrap warranty.

(a) If any termination inventory is sold as scrap, a scrap warranty, substantially as set forth in § 8.805 shall be obtained.

(b) The scrap warranty may be released on behalf of the Government by the contracting officer if, as consideration for the release, the Government is paid the difference between (1) the price for which the material was sold as scrap and (2) an amount, approved by the contracting officer, not less than that which the material would bring if it were sold at a fair and reasonable price as set forth in § 8.507–2 (a), for purposes other than use as scrap. The release of the scrap warranty shall be given by the Government and the consideration paid to the Government, even though the contract containing the warranty was not made directly with the Government.

(c) In the event of resale of any material subject to a scrap warranty, the seller is required to obtain an appropriate scrap warranty from the purchaser thereof. Upon tender of this warranty to the Government, the seller shall be released by the Government from liability under his own warranty.

§ 8.505 Screening of serviceable and usable property.

§ 8.505–1 Scope of screening.

(a) Subject to (c), (d), (e), and (f) below, serviceable and usable property, other than production equipment, included in the contractor's inventory schedules shall be screened as follows:

(1) Inventories of aircraft and aircraft components shall be screened for possible redistribution within the Departments of the Air Force and Navy;

(2) Items, such as reserved materials, strategic and critical materials, and narcotics, shall be reported for any special screening as required by Departmental procedures; and

(3) Inventories of other items shall be

screened to the extent required by the procuring activity, which may include reporting to the Utilization Division, Armed Forces Supply Support Center.

(b) Production equipment inventories shall be reviewed by the procuring activity for utilization purposes. Items of production equipment in the Federal Supply Classification Codes (FSCC) listed below which are excess to the needs of the procuring activity shall be reported to the Utilization Division, Armed Forces Supply Support Center, Washington 25, D.C. for Department of Defense utilization screening when the acquisition value of the item is $500 or more, and the condition of the item is N3, E3, O3, R2 or better, except as otherwise indicated by asterisks. See §§ 8.802–4 through 8.802–8 for condition codes listed on Inventory Schedules.

PRODUCTION EQUIPMENT

Present Standard Commodity Classification Code	Area title	Federal Supply Classification Code	Area title
3411 through 3419	Metalworking Machinery	3411	Boring Machines.
		3412	Broaching Machines.
		3413	Drilling Machines.
		3414	Gear Cutting and Finishing Machines.
		3415	Grinding Machines.
		3416	Lathes.

NOTE. Pt—as used in conjunction with the FSCC above indicates that a part of a class is applicable to industrial production equipment.
*Minimum reportable acquisition value—$300.
**Minimum reportable condition—N3, E3, O3.

(c) If the contractor has been directed by the Notice of Termination to deliver any items of termination inventory to the Government no further screening of those items shall be required.

(d) If the total serviceable and usable property, other than production equipment, included in the contractor's inventory schedules has an original cost of $2,500 or less, such property need not be screened within the procuring activity unless the contracting officer determines that screening is desirable.

(e) Line items included in the contractor's inventory, having an original cost of $300 or less, need not be screened if such items are listed by the contractor on a separate schedule or schedules unless the contracting officer determines that screening is desirable. The term "line item" means all substantially similar articles under any one contract at any one location and which should be listed as a single entry in an inventory schedule.

(f) Termination inventory to which § 8.208–4 is applicable does not require screening.

§ 8.505–2 Screening period.

Production equipment, and other property voluntarily reported by the procuring activity to the Utilization Division, Armed Forces Supply Support Center, in accordance with Departmental procedures, shall be screened within the Department of Defense for a period not to exceed 30 calendar days after the issue date of the Excess Listing covering that property prepared by the Utilization Division. Upon expiration of the screening period the contracting officer shall notify the contractor promptly that the listed inventory, except that portion for which the contracting officer has received instructions from the Utilization Division, may be sold or otherwise disposed of as hereinafter set forth.

§ 8.505–3 Acquisition by Government.

If any item of serviceable or usable property is desired by any activity of the Department of Defense, or other agency of the Government, for stock, diversion to other contracts, or other purposes, the contractor shall deliver such property as directed by the contracting officer. The order of priority of such acquisition shall be: the procuring activity, other activities of the Department of Defense, and other Government agencies.

§ 8.506 Government-furnished property.

Government-furnished property included in termination inventory, return of which has not been required by the Government, may be disposed of in the same manner as other termination inventory after screening in accordance with the requirements of § 8.505. The contracting officer is required to approve all such dispositions and may specify methods for preparing and routing inventory schedules covering such property.

§ 8.507 Sale or other disposition of termination inventory.

§ 8.507–1 General.

Under the standard termination clauses, the contractor is required to use its best efforts to sell termination inventory, in the manner, at the times, to the extent, and at the prices directed or authorized by the contracting officer, except that the contractor (a) is not required to extend credit to any purchaser, and (b) may purchase or retain at less than cost any items of termination inventory not retained by it at cost. Any property which is included in the contractor's inventory schedules, which has not been acquired by the Government under § 8.505–3, may be purchased or retained at less than cost by the contractor or sold by the contractor to a third party as provided in § 8.507–2 or § 8.507–3 at any time after notification by the contracting officer that screening has been accomplished or will not be required. Any such purchase, retention or sale shall be subject to the approval of the contracting officer, as part of or prior to the final settlement (see § 8.512 as to review by Property Disposal Review Boards).

§ 8.507–2 Competitive sales.

(a) Except as provided in § 8.507–3, termination inventory shall be offered for sale on a competitive basis. Generally, 3 bids shall be obtained, one of which may be submitted by the contractor. However, solicitations shall not be restricted to three bids, unless the circumstances clearly justify such a restriction. The property shall be sold to that responsible bidder whose bid is most advantageous to the Government, price and other factors considered, or purchased or retained by the contractor if his bid is most advantageous to the Government; provided, that the price shall be fair and reasonable in the light of reasonable knowledge or test of the market, due regard being had for current prices for any raw materials or products for which quotations are published, and to the circumstances, nature, condition, quantity, and location of property. Any bid by the contractor shall be submitted in the same manner as and concurrently with other bids. The contractor shall not be entitled to preference in any sale.

(b) Bids shall be solicited sufficiently in advance of the opening of bids to allow bidders an adequate opportunity to prepare and submit their bids. The contracting officer shall furnish the contractor from available records and bidders lists the names of prospective purchasers. Bids shall be solicited from the original suppliers and those prospective bidders designated by the contracting officer. Bids shall be solicited by any one of the methods set forth below; provided, that when deemed necessary by the contractor to assure full and free competition, more than one method may be used; and provided further that where the original acquisition cost of serviceable material available for sale at any one time and location is $25,000 or more, in addition to any other method of solicitation used, the sale shall also be advertised in a newspaper of general circulation as provided in subparagraph (4) of this paragraph.

(1) A notice of the proposed sale may be mailed or delivered to all prospective bidders; if this method is used, the bidders list shall include all responsible prospective purchasers known to the contractor and located in the general area in which the property is located;

(2) A notice of the proposed sale may be displayed at appropriate public places;

(3) A notice of the proposed sale may be published in appropriate trade journals or magazines;

(4) A notice of the proposed sale may be published in a newspaper of general circulation in the locality in which the property is located; or

(5) Where the amount or value of the property is not large enough to warrant preparation of a formal notice of the proposed sale, or other special circumstances are present, invitations to bid may, with the contracting officer's approval, be issued orally, by telephone, or by other informal media, so long as the element of competition is maintained, and each such sale is fully documented.

(c) Any notice of a proposed sale under paragraph (b) of this section shall indicate in general terms the types of material for sale, shall give the date on or after which such material will be available for sale, and shall reserve the right to reject any or all bids submitted. So far as feasible, lots shall be offered in such reasonable quantities as to permit all bidders, small as well as large, to compete on equal terms.

§ 8.507–3 Other sales.

(a) Sales, or purchases or retentions at less than cost by the contractor, may, if the Government's interests are adequately protected, be authorized by the contracting officer without competitive bids when essential in the interest of making a fair and prompt settlement (including the expeditious clearance of the contractor's plant).

(b) After such screening as may be required by Departmental procedures, scientific equipment allocated to terminated research and development contracts with educational institutions may be sold to or retained by the contractor for use in educational or research pursuits without obtaining competitive bids. Prices under which such equipment is transferred shall be negotiated between the contractor and the contracting officer.

(c) Sales, purchases, and retentions under paragraph (a) or (b) of this section shall be at prices which are fair and reasonable, and not less than the proceeds that could reasonably be expected to be obtained if the property were offered for competitive sale.

§ 8.507–4 Proceeds of sale.

Unless otherwise provided in the contract, the proceeds of any sale, purchase or retention shall be credited to the Government as part of the settlement agreement, or otherwise credited to the price or cost of the work covered by the contract, or paid in such manner as the contracting officer may direct.

§ 8.507–5 Applicability of antitrust laws.

Whenever any termination inventory which has or may cost the Government $3,000,000 or more (or any patents, processes, techniques, or inventions, irrespective of cost) is to be sold or otherwise disposed of to private interests, the Department concerned shall promptly notify the Attorney General and the Administrator of General Services of the proposed disposal and the probable terms or conditions thereof; and shall await advice from the Attorney General as to whether, so far as he can determine, the proposed disposition would tend to create or maintain a situation inconsistent with the antitrust laws. If the Attorney General advises that the proposed disposition would tend to create or maintain a situation inconsistent with the antitrust laws, such disposition will not be made.

§ 8.507–6 Foreign contractor inventory.

(a) To prevent diversion, transshipment or reexport of contractor inventory located in foreign countries to Sino-Soviet bloc countries and the use of such inventory adversely to the interests of the United States, the sale or other disposition of such inventory shall be made in accordance with property disposal regulations in oversea commands including security trade control regulations over foreign excess sales and regulations dealing with integrity and reliability checks. Such regulations apply to the sale of contractor inventory located in foreign countries except (1) sales to friendly foreign governments and (2) inventory located in Canada.

(b) Sales contracts or other documents for passing title to foreign contractor inventory shall include a special warranty appropriately providing that (1) the property will be used in the country in which sold or will be exported only for use and to a destination acceptable to the United States, and (2) the buyer will notify in writing subsequent purchasers or receivers of the property of export destination restrictions.

(c) Before authorizing or approving sales or other disposition of foreign contractor inventory, contracting officers shall communicate with the United States diplomatic mission in the country concerned to initiate integrity and reliability checks and to obtain the necessary suggestions, recommendations, and approvals relative to the disposition and use of foreign contractor inventory.

§ 8.508 Donations.

(a) Termination inventory which is to be sold or otherwise disposed of in accordance with § 8.507 may be donated for educational public health, or civil defense purposes, including research, upon allocation by the Department of Health, Education, and Welfare, subject to approval by the General Services Administration, as authorized by the Federal Property and Administrative Services Act of 1949, as amended. To assist the Department of Health, Education, and Welfare in locating property which is available for donation, each Military Department shall furnish that Department with a directory of activities where donable property files are maintained and may be examined.

(b) Schedules of termination inventory available for donation shall be maintained in a donable property file for a period of 15 days from the date of the decision to dispose of the property in accordance with § 8.507. Within that time the Department of Health, Education, and Welfare has the responsibility (1) to notify the contracting officer of the items selected for donation and (2) to initiate a request to the appropriate General Services Administration regional office for approval of the donation. Disposition of the property selected shall be postponed pending action by the General Services Administration; otherwise, the property shall be disposed of in accordance with § 8.507. Notification to the contracting officer by the General Services Administration of the action on the request shall constitute authority for the contracting officer to hold the property for a period not to exceed 40 days from the date of the notification required by subparagraph (1) of this

paragraph or to take such action as the General Services Administration may direct. If shipping instructions are not received for the property within the 40-day period, together with provision for payment of costs of care, handling, and transportation, incurred incident to donation, the contracting officer shall dispose of the property in accordance with § 8.507.

(c) Property required for use by the Department of Defense may be withdrawn from the items available for donation at any time prior to shipment or delivery to the donee.

§ 8.509 Destruction or abandonment.

(a) Termination inventory which is Government-furnished property or contractor-acquired property and which is not otherwise disposed of under this part, may, in accordance with General Services Administration and Departmental regulations, be destroyed or abandoned: *Provided*, That the contracting officer has determined that it has no commercial value and no value to the Government, or that the estimated cost of its care and handling is greater than the probable sale price, or that because of its nature it constitutes a danger to public health, safety, or welfare. Any such determination shall be subject to review in accordance with § 8.512.

(b) Termination inventory which has been classified by reason of military security, and which is not required for the Government's needs, shall, unless such classification is removed or changed by proper authority, be disposed of in accordance with applicable security regulations.

(c) No termination inventory shall be abandoned on the contractor's premises without the contractor's consent.

§ 8.510 Special machinery, tooling and equipment.

Except as otherwise provided in the contract, if the settlement is to include any item of cost on account of special machinery and equipment, or special tooling, the contracting officer shall take appropriate steps to protect the Government's interest by:

(a) Requiring transfer of title to such property to the Government;

(b) Requiring the inclusion of such property in the contractor's inventory schedules, to be treated in the same manner as termination inventory; or

(c) In the event of purchase or retention by the contractor, making an equitable adjustment of the costs to be included in the settlement for such property, which adjustment shall take into account the rate of amortization thereon, the possible use thereof on other work of the contractor, the ultimate disposal value thereof, and any rights to be retained by the Government.

§ 8.511 Removal and storage.

§ 8.511–1 Special storage at the expense and risk of the contractor.

The contractor may, at any time during the plant clearance period, upon written notice to the contracting officer, store any items of termination inventory, not previously disposed of, in a warehouse or other storage location, on or off its own premises, unless otherwise directed by the contracting officer within 10 days of the receipt by the contracting officer of such notice. Such storage shall in no way modify the responsibility of the contractor with respect to such property. The expense of such storage, including any removal incident thereto, shall be borne by the contractor, unless the contracting officer determines that such removal or storage is for the convenience of the Government.

§ 8.511–2 Storage at the expense and risk of the Government.

At any time after expiration of the plant clearance period, the contractor may submit to the contracting officer, a list certified as to quantity and quality, of any items of termination inventory not previously disposed of, exclusive of items the disposition of which has been directed or authorized by the contracting officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than 15 days thereafter, the Government shall accept title to such items and remove them or enter into a written storage agreement covering the same: *Provided*, That the list submitted shall be subject to verification by the contracting officer upon removal of the items (or if the items are stored, within 45 days from the date of submission of the list). Any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

§ 8.512 Review of property disposal.

§ 8.512–1 Property disposal review boards.

The head of each procuring activity shall establish one or more Property Disposal Review Boards. Each such Board shall be composed of at least three qualified officers or civilian employees. No person shall serve as a member of a Property Disposal Review Board in reviewing any property action in which he has participated.

§ 8.512–2 Required review.

The following property disposal matters shall be reviewed by a Property Disposal Review Board which shall sumit its recommendations to the contracting officer prior to approval or ratification by the contracting officer:

(a) A determination that material is scrap or salvage, if the original acquisition cost of the material is $25,000 or more;

(b) A release from a scrap warranty, if the original acquisition cost of the material is $10,000 or more;

(c) Any sales, purchases or retentions at less than cost made without competitive bids (see § 8.507–3) where the original acquisition cost of the materials involved exceeds $25,000;

(d) A determination to destroy or abandon material (see § 8.509) if the original acquisition cost of the material exceeds $1,000;

(e) Any property disposal matter when requested by the contracting officer; and

(f) Any property disposal matter when required by Departmental procedures.

§ 8.513 Subcontractor termination inventory.

§ 8.513–1 General policy.

(a) The prime contractor and each subcontractor are primarily responsible for the disposition of the termination inventory of their respective next lower-tier subcontractors, but all such disposals shall be subject to review by the contracting officer as provided in § 8.208–3 (c) (but see § 8.208–4). The policies and provisions set forth in §§ 8.501, 8.502, 8.506, 8.508, 8.509 and 8.512, shall be applicable in the case of subcontractors. Any rights which the prime contractor has or acquires in the termination inventory of its first-tier or lower-tier subcontractors shall, to the extent directed by the contracting officer, be exercised for the benefit of the Government, in accordance with the provisions of the contract between the Government and the prime contractor.

(b) Subcontractors in all tiers will prepare inventory schedules in accordance with the requirements of this part. Normally disposition instructions for termination inventory, except serviceable and usable property, will be furnished by the next higher-tier subcontractor or the prime contractor, as the case may be. Each subcontractor may submit its next lower-tier subcontractors' inventory schedules of serviceable and usable property directly to the contracting officer for review and disposition instructions, unless otherwise directed by the contracting officer. In the interest of expediting disposition of termination inventory, the cognizant contracting officer will permit such direct submission, unless he determines that the submission of inventory schedules through all intermediate tiers of subcontractors is necessary in the best interest of the Government. When such a determination is made, it must be in writing and a copy submitted to the Head of the Procuring Activity concerned for review.

§ 8.513–2 Inventory schedules.

The prime contractor and each higher-tier subcontractor shall obtain adequate information concerning the termination inventory for which its subcontractors claim reimbursement. For this purpose, the forms of inventory schedules set forth in §§ 8.802–4 through 8.802–8 may be used, but their use is not required if substantially equivalent information is obtained, as called for by § 8.503. In any event, full information on the condition and usability of such inventory shall be furnished, and certificates similar to those set forth in such schedules shall be obtained from the subcontractor.

§ 8.513–3 Scrap and salvage.

The prime contractor and each higher-tier subcontractor shall review any recomendations of their respective subcontractors concerning scrap and salvage. If the prime contractor or the higher-tier subcontractor determines that any of the materials are serviceable and

usable materials, it shall require the subcontractor to submit revised inventory data in accordance with such determination. The Government shall not be bound by any determination that material is scrap or salvage unless the determination, and any sale of the material as scrap or salvage, have the prior approval of the contracting officer. A scrap warranty running to the Government shall be obtained wherever such material is sold as scrap.

§ 8.513–4 Serviceable and usable property.

Subcontractor termination inventory, which is not purchased or retained at cost, and which is determined to be serviceable and usable property shall be disposed of by:

(a) Submission for screening and possible redistribution within the Government pursuant to § 8.505; and

(b) Sales to third parties (including purchases or retentions at less than cost by the subcontractor, a higher-tier subcontractor, or the prime contractor) made in general conformity with § 8.507.

§ 8.514 Adjustment prior to final settlement.

§ 8.514–1 Duty of contractors to inform Government.

By the terms of the Inventory Schedule Certificate set forth in Inventory Schedules A, B, C, D, and E (see §'8.802–4 through 8.802–8) the contractor or subcontractor is required to inform the Government of any substantial change in the status of its termination inventory arising between the date of submission of its termination inventory schedules and final disposition of such inventory.

§ 8.514–2 Right of government to review inventory schedules.

(a) Regardless of any disposition of termination inventory pursuant to this subpart, the Government shall continue to have the right, prior to final settlement, to require additional information concerning such inventory, to contest its allocability to the terminated portion of the contract, or to exclude such inventory from the settlement on any proper grounds.

(b) If, prior to final settlement, the Government determines that any portion of the termination inventory is not allocable to the terminated contract or should be excluded from the settlement on any other grounds, the cost thereof, and any credits related thereto, shall be excluded from the settlement. If the contractor has actually paid to the Government the proceeds realized from the disposition of such inventory, the Government shall repay such proceeds to the contractor. If such inventory has been delivered to the Government, normally it should be returned to the contractor at the contractor's expense and risk.

§ 8.515 Accounting for termination inventory.

(a) Prior to final settlement with the prime contractor, all termination inventory of the prime contractor and its subcontractors must be accounted for as follows:

(1) By purchase or retention at cost by the contractor or subcontractor, or by return to suppliers, and omission or withdrawal of such inventory from the contractor's inventory schedules (see § 8.502);

(2) By transfer to the Government (see § 8.505–3);

(3) By sale (including purchase or retention at less than cost by the contractor or subcontractor) and application of the proceeds or agreed value in reduction of the contractor's claim, or otherwise to the credit of the Government (see § 8.507);

(4) By destruction or abandonment (see § 8.509);

(5) By donation (see § 8.508); or

(6) By other disposition in accordance with the terms of the contract and of this part.

(b) In the event that any termination inventory not disposed of is lost, destroyed, damaged, or for any reason cannot be delivered by the contractor at the time of settlement of its termination claim, such termination inventory, unless the Government has expressly assumed the risk involved, or unless the contract provides otherwise, shall be accounted for as inventory purchased or retained by the Contractor, and the fair value of the inventory, as determined by the contracting officer, shall be deducted from the termination claim.

Subpart F—Termination for Default

§ 8.600 Scope of subpart.

This subpart sets forth policies and procedures for the utilization and application of the Default clause set forth in § 8.707 for fixed-price supply contracts, and the "Termination for Default—Damages for Delay—Time Extensions" clause set forth in § 8.709 for fixed-price construction contracts. (For cost-reimbursement type contracts, see § 8.407.)

§ 8.601 General.

(a) Termination for default is generally the exercise of a contractual right of the Government to terminate the contract in whole or in part by reason of the contractor's failure, actual or anticipatory, to perform its obligations under the contract.

(b) If the contractor can establish that its failure to perform arose out of causes beyond its control and without its fault or negligence, the contract clauses in §§ 8.707 and 8.709 provide that a termination for default shall be deemed to have been a termination for the convenience of the Government, and the rights and obligations of the parties shall be governed accordingly.

(c) The Government may also in appropriate cases exercise termination or cancellation rights in addition to those set forth in the contract clauses (see for example, paragraph (f) of the Default clause in § 8.707).

§ 8.602 Termination of fixed-price supply contracts for default.

§ 8.602–1 The Government's right to terminate for default.

Under contracts containing the Default clause in § 8.707 the Government has the right, subject to the notice requirements of the clause, to terminate the whole or any part of the contract for default if the contractor (a) fails to make delivery of the supplies or to perform the services within the time specified in the contract, (b) fails to perform any other provision of the contract, or (c) fails to make progress so as to endanger performance of the contract.

§ 8.602–2 Effect of termination for default.

Under a termination for default the Government is not liable for the contractor's costs on undelivered work, and is entitled to the repayment of any advance payments and of any progress payments applicable to such work. The Government may elect to take all or any part of the completed supplies and manufacturing materials (see paragraph (d) of the clause set forth in § 8.707). The Government shall pay to the contractor the contract price for such completed supplies delivered and accepted, and the amount agreed upon by the contractor and the contracting officer for such manufacturing materials delivered and accepted and for the protection and preservation of such property. The contractor shall be liable to the Government for any excess costs for supplies and services procured similar to those terminated (see § 8.602–6), and for any other damages, whether or not repurchase is effected (see § 8.602–7).

§ 8.602–3 Procedure for default.

(a) The contracting officer shall consider the following factors in determining whether to terminate a contract for default:

(1) The provisions of the contract, and applicable laws and regulations;

(2) The specific failure of the contractor and, unless time does not permit, the excuses, if any, for such failure;

(3) The availability of the supplies or services from other sources;

(4) The urgency of the need for the supplies or services and the period of time which would be required to obtain the supplies or services from other sources as compared with the time in which delivery could be obtained from the delinquent contractor;

(5) The degree of essentiality of the contractor in the Government procurement program and the effect of a termination for default upon the contractor's capability as a supplier under other contracts;

(6) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments; and

(7) Any other pertinent facts and circumstances.

(b) If the foregoing consideration indicates that termination for default is appropriate, the contracting officer should, if practicable, notify the contractor by letter of the possibility of such termination. This letter shall call the contractor's attention to its contractual liabilities in the event the contract is terminated for default and request an explanation of the contractor's failure to perform the contract. The letter may further state that failure of the con-

tractor to present such explanation may be taken as an admission that no valid explanation exists. When appropriate, the letter may invite the contractor to discuss the matter at a conference.

(c) If, after compliance with the foregoing procedures, the contracting officer determines that termination for default is proper, he shall, where the termination is predicated upon the contractor's failure to make timely deliveries, issue a notice of termination at once. If the termination is predicated upon any other failure of the contractor, the contractor shall be given written notice specifying such failure and providing a period of 10 days (or such longer period as the contracting officer may authorize) in which to cure such failure. Where appropriate, this notice may be made a part of the letter described in paragraph (b) of this section. Upon expiration of the 10 days (or longer period), the contracting officer may issue a notice of termination for default unless he determines that the failure to perform has been cured.

(d) The notice of termination for default shall:

(1) Set forth the contract number and date;

(2) Describe the acts or omissions constituting the default;

(3) State that the contractor's right to proceed further with performance of the contract (or a specified portion of the contract) is terminated;

(4) State that the supplies or services terminated may be procured against the contractor's account, and that the contractor will be held liable for any excess costs;

(5) State that the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs; and

(6) State that the notice constitutes a decision that the contractor is in default as specified, and that the contractor has the right to appeal as specified in the Disputes clause.

If the contracting officer has investigated the contractor's excuses for the failure to perform, the notice of termination shall also state that it constitutes a decision that the failure to perform was not due to causes beyond the control and without the fault or negligence of the contractor, and that the contractor has the right to appeal as specified in the Disputes clause.

(e) The same distribution shall be made of the termination notice as was made of the contract. In addition, a copy shall be furnished to the disbursing officer who shall be advised to withhold further payments under the terminated contract pending additional instructions, which shall be given when sufficient information is available.

(f) If the contracting officer determines that the contractor's failure to perform arose from causes beyond its control and without its fault or negligence, the contracting officer shall not terminate the contract for default. Under such circumstances, if it is in the best interests of the Government to do so, the contracting officer may terminate the contract for the convenience of the Government.

(g) If the contracting officer has not been able to determine, prior to issuance of the notice of termination, whether the contractor's failure to perform arose from causes beyond its control and without its fault or negligence, he shall make a written decision on that point as soon as practicable after issuance of the notice of termination. Such decision shall be delivered promptly to the contractor with a notification that it has the right to appeal as specified in the Disputes clause.

§ 8.602–4 Procedure in lieu of termination for default.

The following courses of action, among others, are available to the contracting officer in lieu of termination for default, when in the best interest of the Government:

(a) Permit the contractor, its surety, or its guarantor, to continue performance of the contract under a revised delivery schedule;

(b) Permit the contractor to continue performance of the contract by means of a subcontract, or other business arrangement with an acceptable third party: *Provided,* The rights of the Government are adequately preserved; or

(c) If the requirement for the supplies and services specified in the contract no longer exists, and the contractor is not liable to the Government for damages as provided in § 8.602–7, execute a no-cost termination settlement agreement utilizing the form set forth in §§ 8.806–6 and 8.806–7 as a guide.

§ 8.602–5 Memorandum by the contracting officer.

In all cases where a contract is terminated for default or where a procedure authorized by § 8.602–4 is followed, the contracting officer shall prepare a memorandum for the contract file explaining fully the reasons for the action taken.

§ 8.602–6 Repurchase against contractors account.

(a) Where the supplies or services are still required after termination, repurchase of supplies or services which are the same as or similiar to those called for in the contract, shall be made against the contractor's account as soon as practicable after termination. Such repurchase shall be at as reasonable a price as practicable considering the quality required by the Government and the time within which the supplies or services are required. The contract of repurchase may be made for a quantity in excess of the undelivered quantity terminated for default, when such excess quantity is needed, but excess costs may be charged against the defaulting contractor for no more than the undelivered quantity terminated for default (including variations in quantity permitted by the terminated contract).

(b) If the repurchase is for a quantity not in excess of the undelivered quantity terminated for default, the requirements of 10 U.S.C. 2304(a), with respect to formal advertising, are inapplicable. However, the contracting officer may use formal advertising procedures. If the contracting officer decides to negotiate the repurchase contract, he may either (1) use any authority listed in §§ 3.201 through 3.217 of this subchapter (10 U.S.C. 2304(a)(1)–(17)), as appropriate, or (2) if none of those authorities to negotiate are used, the contract shall identify the procurement as a repurchase in accordance with the provisions of the Default clause in the defaulted contract. If the repurchase is for a quantity in excess of the undelivered quantity terminated for default, the entire quantity shall be treated as new procurement.

(c) If repurchase is effected at a price in excess of the price of the supplies terminated, the contracting officer shall make a written demand on the contractor for the total amount of such excess and if the contractor fails to make payment, the contracting officer shall follow Departmental procedures for collecting claims in favor of the Government.

§ 8.602–7 Other damages.

(a) If a contract is terminated for default or if a course of action in lieu of termination for default is followed (see § 8.602–4), the contracting officer shall promptly ascertain and make demand for any liquidated damages to which the Government may be entitled under the contract. Pursuant to the contract provisions for liquidated damages in § 7.105–5, such damages are in addition to any excess cost of reprocurement.

(b) If the Government has suffered any other ascertainable damages as a result of the contractor's default, the contracting officer, on the basis of legal advice, shall take appropriate action to assert the Government's claim for such damages.

§ 8.603 Termination of fixed-price construction contracts for default.

§ 8.603–1 Termination of the contractor's right to proceed.

Under contracts containing the Termination for Default—Damages for Delay—Time Extensions clause set forth in § 8.709, the Government has the right to terminate the contractor's right to proceed with the work if the contractor (a) fails to prosecute the work required by the contract, or any separable part thereof, with such diligence as will insure its completion within the time specified in the contract or any extension thereof, or (b) fails to complete the work required under the contract within such time.

§ 8.603–2 Effect of termination for default.

If a contractor's right to proceed is terminated for default, the Government may take over and complete or cause to be completed the work, taking possession of and utilizing such materials, appliances and plant as may be on the site and necessary therefor, and the contractor and its sureties shall be liable to the Government for any excess costs caused thereby. If after taking over the work the Government is not reasonably able to complete it, or have it completed, within the time specified for completion in the defaulted contract, the contractor shall, in addition to any excess costs, be liable for liquidated damages for the delay as specified in the contract, or for actual damages caused by the delay if liquidated damages are not so specified.

§ 8.603–3 Procedure for default.

(a) The contracting officer shall consider the following factors in determining whether to terminate a contract for default:

(1) The provisions of the contract, and applicable laws and regulations;

(2) The specific failure of the contractor and excuses, if any, for such failure;

(3) The period of time which would be required for the Government or another contractor to complete the work as compared to the time required for completion by the delinquent contractor;

(4) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments; and

(5) Any other pertinent facts and circumstances.

(b) If the contracting officer determines that the contractor's failure to perform arises from causes beyond its control and without its fault or negligence, the contracting officer shall not terminate the contractor's right to proceed, nor shall the contractor be charged with liquidated or actual damages because of any delays occasioned by such causes.

(c) If the contracting officer determines that it is in the best interests of the Government to terminate for default the contractor's right to proceed, the contracting officer shall promptly send a written notice to the contractor terminating its right to proceed. The notice shall:

(1) Set forth the contract number and date;

(2) Describe the act or omissions, and the extent of the resultant delay, constituting the default;

(3) State that the contractor's right to proceed further with performance of the contract (or of a specified portion of the contract) is terminated;

(4) State that the Government may cause the contract to be completed and that the contractor will be held liable for any excess costs;

(5) State that the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs;

(6) State that the notice constitutes a decision, pursuant to the Disputes clause, that the contractor is in default as specified and that the delay is not excusable; and

(7) State that the contractor has the right to appeal as specified in the Disputes clause.

(d) The same distribution shall be made of the termination notice as was made of the contract, including a copy to the surety. In addition, a copy shall be furnished to the disbursing officer who shall be advised to withhold further payments under the terminated contract pending additional instructions which shall be given when sufficient information is available.

(e) Promptly after issuance of the termination notice, the contracting officer shall determine the manner in which the work is to be completed and whether the materials, appliances, and plant which are on the site will be needed.

§ 8.603–4 Procedure in lieu of termination for default.

If, after due consideration, the contracting officer determines that termination is not in the best interests of the Government although the contractor is in default, he may permit the contractor to continue the work, and the contractor and its sureties shall be liable to the Government for liquidated damages, as specified in the contract, or if liquidated damages are not so specified, to any actual damages occasioned by the failure of the contractor to complete the work in accordance with the terms of the contract.

§ 8.603–5 Memorandum by the contracting officer.

In all cases where a contractor's right to proceed is terminated for default or where the procedure authorized by § 8.603–4 is followed, the contracting officer shall prepare a memorandum for the contract file explaining fully the reasons for the action taken.

§ 8.603–6 Other damages.

In addition to any excess costs occasioned the Government in connection with the completion of the work, the contractor and its surety are liable for liquidated damages, if specified in the contract, or if liquidated damages are not specified, for any actual damages occasioned by such delay. All retained percentages of progress payments previously made to the contractor and any progress payments due for work completed prior to the termination of the right to proceed shall be used for the purpose of liquidating the liability of the contractor and its surety to the Government for such excess costs and liquidated or actual damages.

Subpart G—Clauses

§ 8.700 Scope of subpart.

This subpart contains certain contract clauses related to the termination of contracts for the convenience of the Government and for default. Special purpose clauses when authorized by Departmental procedures and consistent with the policies set forth in this subchapter may be used in appropriate cases.

§ 8.701 Termination clause for fixed-price contracts.

Except as otherwise permitted by § 8.705, the following clause shall be used in any fixed-price contract in excess of $1,000 for supplies or experimental, developmental, or research work other than (a) construction, alterations, or repair of buildings, bridges, roads, or other kinds of real property, or (b) experimental, developmental, or research work with educational or nonprofit institutions, where no profit is contemplated.

TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OCT. 1959)

(a) The performance of work under this contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government. Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective.

(b) After receipt of a Notice of Termination, and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(4) Assign to the Government, in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final for all the purposes of this clause;

(6) Transfer title and deliver to the Government, in the manner, at the times, and to the extent, if any, directed by the Contracting Officer, (A) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced as a part of, or acquired in connection with the performance of, the work terminated by the Notice of Termination, and (B) the completed or partially completed plans, drawings, information and other property which, if the contract had been completed, would have been required to be furnished to the Government;

(7) Use its best efforts to sell, in the manner, at the times, to the extent, and at the price or prices directed or authorized by the Contracting Officer, any property of the types referred to in (6) above: *Provided, however,* That the Contractor (A) shall not be required to extend credit to any purchaser, and (B) may acquire any such property under the conditions prescribed by and at a price or prices approved by the Contracting Officer; *And provided further,* That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract or shall otherwise be credited to the price or cost of the work covered by this contract or paid in such other manner as the Contracting Officer may direct;

(8) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and

(9) Take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which

the Government has or may acquire an interest.

At any time after expiration of the plant clearance period, as defined in 32 CFR Part 8, as it may be amended from time to time, the Contractor may submit to the Contracting Officer a list, certified as to quantity and quality, of any or all items of termination inventory not previously disposed of, exclusive of items the disposition of which has been directed or authorized by the Contracting Officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than fifteen (15) days thereafter, the Government will accept title to such items and remove them or enter into a storage agreement covering the same: *Provided*, That the list submitted shall be subject to verification by the Contracting Officer upon removal of the items, or if the items are stored, within forty-five (45) days from the date of submission of the list, and any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

(c) After receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer its termination claim, in the form and with certification prescribed by the Contracting Officer. Such claim shall be submitted promptly but in no event later than one year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer, upon request of the Contractor made in writing within such one year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one year period or any extension thereof. Upon failure of the Contractor to submit its termination claim within the time allowed, the Contracting Officer may, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (c), and subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit on work done: *Provided*, That such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount. Nothing in paragraph (e) of this clause, prescribing the amount to be paid to the Contractor in the event of failure of the Contractor and the Contracting Officer to agree upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, shall be deemed to limit, restrict, or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the Contractor pursuant to this paragraph (d).

(e) In the event of the failure of the Contractor and the Contracting Officer to agree as provided in paragraph (d) upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, the Contracting Officer shall, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amounts determined as follows:

(1) For completed supplies accepted by the Government (or sold or acquired as provided in paragraph (b) (7) above) and not theretofore paid for, a sum equivalent to the aggregate price for such supplies computed in accordance with the price or prices specified in the contract, appropriately adjusted for any saving of freight or other charges;

(2) The total of—

(A) The costs incurred in the performance of the work terminated, including initial costs and preparatory expense allocable thereto, but exclusive of any costs attributable to supplies paid or to be paid for under paragraph (e) (1) hereof;

(B) The cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b) (5) above, which are properly chargeable to the terminated portion of the contract (exclusive of amounts paid or payable on account of supplies or materials delivered or services furnished by subcontractors or vendors prior to the effective date of the Notice of Termination, which amounts shall be included in the costs payable under (A) above; and

(C) A sum, as a profit, equal to 2 percent of that part of the amount determined under (A) above which represents the cost of articles and materials not processed by the Contractor, plus a sum equal to 8 percent of the remainder of such amount, but the aggregate of such sums shall not exceed 6 percent of the whole of the amount determined under (A) above, which amount for the purpose of this subdivision (C) shall exclude any charges for interest on borrowings: *Provided, however*, That if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (C) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate of loss; and

(3) The reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to this contract.

The total sum to be paid to the Contractor under (1) and (2) of this paragraph (e) shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. Except for normal spoilage, and except to the extent that the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the Contractor as provided in (e) (1) and (2) (A) above, the fair value, as determined by the Contracting Officer, of property which is destroyed, lost, stolen, or damaged so as to become undeliverable to the Government, or to a buyer pursuant to paragraph (b) (7).

(f) Any determination of costs under paragraph (c) or (e) thereof shall be governed by the principles for consideration of costs set forth in 32 CFR 8.302, as in effect on the date of this contract.

(g) The Contractor shall have the right of appeal, under the clause of this contract entitled "Disputes," from any determination made by the Contractting Officer under paragraphs (c) or (e) above, except that if the Contractor has failed to submit its claim within the time provided in paragraph (c) above and has failed to request extension of such time, it shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (i) If there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer, or (ii) if an appeal has been taken, the amount finally determined on such appeal.

(h) In arriving at the amount due the Contractor under this clause there shall be deducted (i) all unliquidated advance or other payments on account theretofore made to the Contractor, applicable to the terminated portion of this contract, (ii) any claim which the Government may have against the Contractor in connection with this contract, and (iii) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the Contractor or sold, pursuant to the provisions of this clause, and not otherwise recovered by or credited to the Government.

(i) If the determination hereunder be partial, prior to the settlement of the terminated portion of this contract, the Contractor may file with the Contracting Officer a request in writing for an equitable adjustment of the price or prices specified in the contract relating to the continued portion of the contract (the portion not terminated by the Notice of Termination), and such equitable adjustment as may be agreed upon shall be made in such price or prices.

(j) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the terminated portion of this contract whenever in the opinion of the Contracting Officer the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: *Provided, however*, That no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until ten days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(k) Unless otherwise provided for in this contract, or by applicable statute, the Contractor, from the effective date of termination and for a period of three years after final settlement under this contract, shall preserve and make available to the Government at all reasonable times at the Office of the Contractor but without direct charge to the Government, all its books, records, documents, and other evidence bearing on the costs and expenses of the Contractor under this contract and relating to the work terminated hereunder, or, to the extent approved by the Contracting Officer, photographs, micro-photographs, or other authentic reproductions thereof.

§ 8.702 Termination clause for cost-reimbursement type contracts.

The following clause shall be used in any cost-reimbursement type contract, as defined in § 3.404, of this chapter, for supplies and experimental, developmental, or research work other than (a) construction, alterations, or repair of buildings, bridges, roads, or other kinds of real property, or (b) experimental, developmental, or research work with educational or nonprofit institutions, where no fee is contemplated.

TERMINATION (OCT. 1959)

(a) The performance of work under the contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part:

(1) Whenever the Contractor shall default in performance of this contract in accordance with its terms (including in the term "default" any such failure by the Contractor to make progress in the prosecution of the work hereunder as endangers such performance), and shall fail to cure such default within a period of ten days (or such longer periods as the Contracting Officer may allow) after receipt from the Contracting Officer of a notice specifying the default; or

(2) Whenever for any reason the Contracting Officer shall determine that such termination is in the best interests of the Government.

Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying whether termination is for the default of the Contractor or for the convenience of the Government, the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective. If, after notice of termination of this contract for default under (1) above, it is determined that the Contractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the Contractor pursuant to the provisions of the clause of this contract relating to excusable delays, the Notice of Termination shall be deemed to have been issued under (2) above, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(b) After receipt of a Notice of Termination and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(4) Assign to the Government, in the manner and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders or subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) With the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final and conclusive for all purposes of this clause, settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, the cost of which would be reimbursable in whole or in part, in accordance with the provisions of this contract;

(6) Transfer title (to the extent that title has not already been transferred) and, in the manner, to the extent, and at the times directed by the Contracting Officer, deliver to the Government (A) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced as a part of, or acquired in respect of the performance of, the work terminated by the Notice of Termination, (B) the completed or partially completed plans, drawings, information, and other property which, if the contract had been completed, would be required to be furnished to the Government, and (C) the jigs, dies, and fixtures, and other special tools and tooling acquired or manufactured for the performance of this contract for the cost of which the Contractor has been or will be reimbursed under this contract;

(7) Use its best efforts to sell in the manner, at the times, to the extent, and at the price or prices directed or authorized by the Contracting Officer, any property of the types referred to in (6) above: *Provided, however*, That the Contractor (A) shall not be required to extend credit to any purchaser, and (B) may acquire any such property under the conditions prescribed by and at a price or prices approved by the Contracting Officer: *And provided further*, That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract or shall otherwise be credited to the price or cost of the work covered by this contract or paid in such other manner as the Contracting Officer may direct;

(8) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and

(9) Take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this contract which is in the possession of Contractor in which the Government has or may acquire an interest. The Contractor shall proceed immediately with the performance of the above obligations notwithstanding any delay in determining or adjusting the amount of the fee, or any item of reimbursable cost, under this clause. At any time after expiration of the plant clearance period, as defined in 32 CFR Part 8, as it may be amended from time to time, the Contractor may submit to the Contracting Officer a list, certified as to quantity and quality, of any or all items of termination inventory not previously disposed of, exclusive of items the disposition of which has been directed or authorized by the Contracting Officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than fifteen (15) days thereafter, the Government will accept such items and remove them or enter into a storage agreement covering the same: *Provided*, That the list submitted shall be subject to verification by the Contracting Officer upon removal of the items, or if the items are stored, within forty-five (45) days from the date of submission of the list, and any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

(c) After receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer its termination claim in the form and with the certification prescribed by the Contracting Officer. Such claim shall be submitted promptly but in no event later than one year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer, upon request of the Contractor made in writing within such one year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one year period or any extension thereof. Upon failure of the Contractor to submit its termination claim within the time allowed, the Contracting Officer may, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (c), and subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid (including an allowance for the fee) to the Contractor by reason of the total or partial termination of work pursuant to this clause. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(e) In the event of the failure of the Contractor and the Contracting Officer to agree in whole or in part, as provided in paragraph (d), as to the amounts with respect to costs and fee, or as to the amount of the fee, to be paid to the Contractor in connection with the termination of work pursuant to this clause, the Contracting Officer shall, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amount determined as follows:

(1) If the settlement includes cost and fee—

(A) There shall be included therein all costs and expenses reimbursable in accordance with this contract, not previously paid to the Contractor for the performance of this contract prior to the effective date of the Notice of Termination, and such of these costs as may continue for a reasonable time thereafter with the approval of or as directed by the Contracting Officer: *Provided, however*, That the Contractor shall proceed as rapidly as practicable to discontinue such costs;

(B) There shall be included therein so far as not included under (A) above, the cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b) (5) above, which are properly chargeable to the terminated portion of the contract;

(C) There shall be included therein the reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of termination inventory: *Provided, however*, That if the termination is for default of the Contractor there shall not be included any amounts for the preparation of the Contractor's settlement proposal; and

(D) There shall be included therein a portion of the fee payable under the contract determined as follows—

(I) In the event of the termination of this contract for the convenience of the Government and not for the default of the Contractor, there shall be paid a percentage of the fee equivalent to the percentage of the completion of work contemplated by the contract, less fee payments previously made hereunder; or

(II) In the event of the termination of this contract for the default of the Contractor, the total fee payable shall be such proportionate part of the fee (or, if this contract calls for articles of different types, of such part of the fee as is reasonably allocable to the type of article under consideration) as

the total number of articles delivered to and accepted by the Government bears to the total number of articles of a like kind called for by this contract;

If the amount determined under this subparagraph (1) is less than the total payment theretofore made to the Contractor, the Contractor shall repay to the Government the excess amount; or

(2) If the settlement includes only the fee, the amount thereof will be determined in accordance with subparagraph (D) above.

(f) The Contractor shall have the right of appeal, under the clause of this contract entitled "Disputes," from any determination made by the Contracting Officer under paragraph (c) or (e) above, except that if the Contractor has failed to submit its claim within the time provided in paragraph (c) above and has failed to request extension of such time, it shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (i) If there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer, or (ii) if an appeal has been taken, the amount finally determined on such appeal.

(g) In arriving at the amount due the Contractor under this clause there shall be deducted (i) all unliquidated advance or other payments theretofore made to the Contractor, applicable to the terminated portion of this contract, (ii) any claim which the Government may have against the Contractor in connection with this contract, and (iii) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the Contractor or sold pursuant to the provisions of this clause and not otherwise recovered by or credited to the Government.

(h) In the event of a partial termination, the portion of the fee which is payable with respect to the work under the continued portion of the contract shall be equitably adjusted by agreement between the Contractor and the Contracting Officer, and such adjustment shall be evidenced by an amendment to this contract.

(i) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the terminated portion of the contract whenever in the opinion of the Contracting Officer the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: *Provided, however,* That no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until ten days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(j) The provisions of this clause relating to the fee shall be inapplicable if this contract does not provide for payment of a fee.

§ 8.703 Termination clause for fixed-price construction contracts.

The following clause shall be inserted in all fixed-price type construction contracts in excess of $10,000.

TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OCT. 1959)

(a) The performance of work under this contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interest of the Government. Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective.

(b) After receipt of a Notice of Termination, and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(4) Assign to the Government, in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Contracting Officer to the extent he may require, which approval or ratification shall be final for all the purposes of this clause;

(6) Transfer title and deliver to the Government, in the manner, at the times, and to the extent, if any, directed by the Contracting Officer, (A) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced as a part of, or acquired in connection with the performance of, the work terminated by the Notice of Termination, and (B) the completed or partially completed plans, drawings, information, and other property which, if the contract has been completed, would have been required to be furnished to the Government;

(7) Use its best efforts to sell, in the manner, at the times, to the extent, and at the price or prices directed or authorized by the Contracting Officer, any property of the types referred to in (6) above: *Provided, however,* That the Contractor, (A) shall not be required to extend credit to any purchaser, and (B) may acquire any such property under the conditions prescribed and at a price or prices approved by the Contracting Officer: *And provided further,* That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract or shall otherwise be credited to the price or cost of the work covered by this contract or paid in such other manner as the Contracting officer may direct;

(8) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and

(9) Take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which the Government has or may acquire an interest.

At any time after expiration of the plant clearance period, as defined in 32 CFR Part 8, as it may be amended from time to time, the Contractor may submit to the Contracting Officer a list, certified as to quantity and quality, of any or all items of termination inventory not previously disposed of, exclusive of items the disposition of which has been directed or authorized by the Contracting Officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than fifteen (15) days thereafter, the Government will accept title to such items and remove them or enter into a storage agreement covering the same: *Provided,* That the list submitted shall be subject to verification by the Contracting Officer upon removal of the items, or if the items are stored, within forty-five (45) days from the date of submission of the list, and any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

(c) After receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer its termination claim, in the form and with the certification prescribed by the Contracting Officer. Such claim shall be submitted promptly but in no event later than one year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer, upon request of the Contractor made in writing within such one year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one year period or extension thereof. Upon failure of the Contractor to submit its termination claim within the time allowed, the Contracting Officer may, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (c), and subject to any Settlement Review Board Approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit on work done: *Provided,* That such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount. Nothing in paragraph (e) of this clause, prescribing the amount to be paid to the Contractor in the event of failure of the Contractor and the Contracting Officer to agree upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, shall be deemed to limit, restrict, or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the Contractor pursuant to this paragraph (d).

(e) In the event of the failure of the Contractor and the Contracting Officer to agree as provided in paragraph (d) upon the whole amount to be paid to the Contractor by reason of the Termination of work pursuant to this clause, the Contracting Officer shall, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amounts determined as follows:

(1) With respect to all contract work performed prior to the effective date of the Notice of Termination, the total (without duplication of any items) of—

(A) The cost of such work;

(B) The cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in paragraph (b) (5) above, exclusive of the amounts paid or payable on account of supplies or materials delivered or services furnished by the subcontractor prior to the effective date of the Notice of Termination of work under this contract, which amounts shall be included in the cost on account of which payment is made under (A) above; and

(C) A sum, as a profit, equal to 2 percent of the part of the amount determined under (A) above which represents the cost of articles or materials delivered to the site but not incorporated in the work in place on the effective date of the Notice of Termination, plus a sum equal to 8 percent of the remainder of such amount, but the aggregate of such sums shall not exceed 6 percent of the whole of the amount determined under (A) above, which amount for purposes of this subdivision (C) shall exclude any charges for interest on borrowings: *Provided, however,* That if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (C) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate or loss; and

(2) The reasonable cost of the preservation and protection of property incurred pursuant to paragraph (b) (9); and any other reasonable cost incidental to termination of work under this contract, including expense incidental to the determination of the amount due to the Contractor as the result of the termination of work under this contract.

The total sum to be paid to the Contractor under (1) above shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. Except for normal spoilage, and except to the extent that the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the Contractor under (1) above, the fair value, as determined by the Contracting Officer, of property which is destroyed, lost, stolen, or damaged so as to become undeliverable to the Government, or to a buyer pursuant to paragraph (b) (7).

(f) Any determination of costs under paragraph (c) or (e) hereof shall be governed by the principles for consideration of costs set forth in 32 CFR 8.302 as in effect on the date of this contract.

(g) The Contractor shall have the right of appeal, under the clause of this contract entitled "Disputes," from any determination made by the Contracting Officer under paragraphs (c) or (e) above, except that if the Contractor has failed to submit its claim within the time provided in paragraph (c) above and has failed to request extension of such time, it shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (i) If there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer, or (ii) if an appeal has been taken, the amount finally determined on such appeal.

(h) In arriving at the amount due the Contractor under this clause there shall be deducted (i) all unliquidated advance or other payments on account theretofore made to the Contractor, applicable to the terminated portion of this contract, (ii) any claim which the Government may have against the Contractor in connection with this contract, and (iii) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things kept by the Contractor or sold, pursuant to the provisions of this clause, and not otherwise recovered by or credited to the Government.

(i) If the termination hereunder be partial, prior to the settlement of the terminated portion of this contract, the Contractor may file with the Contracting Officer a request in writing for an equitable adjustment of the price or prices specified in the contract relating to the continued portion of the contract (the portion not terminated by the Notice of Termination), and such equitable adjustment as may be agreed upon shall be made in such price or prices; however, nothing contained herein shall limit the right of the Government and the Contractor to agree upon the amount or amounts to be paid to the Contractor for the completion of the continued portion of the contract when said contract does not contain an established contract price for such continued portion.

(j) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the terminated portion of this contract whenever in the opinion of the Contracting Officer the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: *Provided, however,* That no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until ten days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(k) Unless otherwise provided for in this contract, or by applicable statute, the Contractor, from the effective date of termination and for a period of three years after final settlement under this contract, shall preserve and make available to the Government at all reasonable times at the office of the Contractor but without direct charge to the Government, all its books, records, documents, and other evidence bearing on the costs and expenses of the Contractor under this contract and relating to the work terminated hereunder, or, to the extent approved by the Contracting Officer, photographs, micro-photographs, or other authentic reproductions thereof.

§ 8.704 Research and development contracts with educational and other nonprofit institutions.

§ 8.704–1 Termination clause.

The following clause shall be used in any contract for experimental, developmental, or research work (whether fixed-price or cost-reimbursement type) with an educational or nonprofit institution: *Provided* such contract is placed on a no-fee or no-profit basis.

TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT (SEPT. 1958)

(a) The performance of work under this contract may be terminated, in whole or from time to time in part, by the Government whenever for any reason the Contracting Officer shall determine that such termination is in the best interests of the Government. Termination of work hereunder shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated and the date upon which such termination becomes effective.

(b) After receipt of the Notice of Termination the Contractor shall cancel its outstanding commitments hereunder covering the procurement of materials, supplies, equipment and miscellaneous items. In addition the Contractor shall exercise all reasonable diligence to accomplish the cancellation or diversion of its outstanding commitments covering personal services and extending beyond the date of such termination to the extent that they relate to the performance of any work terminated by the notice. With respect to such cancelled commitments the Contractor agrees to (i) settle all outstanding liabilities and all claims arising out of such cancellation of commitments, with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final for all purposes of this clause, and (ii) assign to the Government, in the manner, at the time, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts.

(c) The Contractor shall submit its termination claim to the Contracting Officer promptly after receipt of a Notice of Termination, but in no event later than one year from the effective date thereof, unless one or more extensions in writing are granted by the Contracting Officer upon written request of the Contractor within such one year period or authorized extension thereof. Upon failure of the Contractor to submit its termination claim within the time allowed, the Contracting Officer may, subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Any determination of costs under paragraph (c) shall be governed by the cost principles set forth in 32 CFR 8.213, as in effect on the date of this contract.

(e) Subject to the provisions of paragraph (c) above, and subject to any Settlement Review Board approvals required by 32 CFR Part 8 in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the termination under this clause, which amount or amounts may include any reasonable cancellation charges thereby incurred by the Contractor and any reasonable loss upon outstanding commitments for personal services which it is unable to cancel: *Provided, however,* That in connection with any outstanding commitments for personal services which the Contractor is unable to cancel, the Contractor shall have exercised reasonable diligence to divert such commitments to its other activities and operations. Any such agreement shall be embodied in an

amendment to this contract and the Contractor shall be paid the agreed amount.

(f) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments against costs incurred by the Contractor in connection with the terminated portion of this contract, whenever, in the opinion of the Contracting Officer, the aggregate of such payments is within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand: *Provided*, That if such excess is not so paid upon demand, interest thereon shall be payable by the contractor to the Government at the rate of 6 percent per annum, beginning 30 days from the date of such demand.

(g) The Contractor agrees to transfer title and deliver to the Government, in the manner, at the time, and to the extent, if any, directed by the Contracting Officer, such information and items which, if the contract had been completed, would have been required to be furnished to the Government, including:

(1) Completed or partially completed plans, drawings and information; and

(2) Materials or equipment produced or in process or acquired in connection with the performance of the work terminated by the notice.

Other than the above, any termination inventory resulting from the termination of the contract may, with the written approval of the Contracting Officer, be sold or acquired by the Contractor under the conditions prescribed by and at a price or prices approved by the Contracting Officer. The proceeds of any such disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract or shall otherwise be credited to the price or cost of work covered by this contract or paid in such other manner as the Contracting Officer may direct. Pending final disposition of property arising from the termination, the Contractor agrees to take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which the Government has or may acquire an interest.

(h) Any disputes as to questions of fact which may arise hereunder shall be subject to the "Disputes" clause of this contract.

§ 8.704–2 Suggested clause for subcontracts.

The above clause, suitably altered to indicate the relationship between the prime contractor and subcontractor, is suggested for use in subcontracts placed with educational or nonprofit institutions: *Provided*, Such subcontracts incorporate, or are negotiated on the basis of, the cost principles set forth in Part 15, Subpart C of this chapter; and *Provided further*, such subcontracts are placed on the no-fee or no-profit basis.

§ 8.705 Short form termination clauses for fixed-price type contracts.

§ 8.705–1 Supply and service contracts.

In order to facilitate:

(a) The handling of purchases under fixed-price supply contracts not to exceed $10,000; and

(b) The obtaining of services where it is intended that a termination claim will not be made in the event of termination for the convenience of the Government, such as contracts for, but not limited to, rental of unreserved garage space, meals for inductees, laundry, and dry-cleaning services;

the short form termination clause set forth below is authorized for use in lieu of any other clause providing for termination for the convenience of the Government; provided, such contracts obligate the Government to order or otherwise to be liable for a minimum quantity:

TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (JAN. 1960)

The Contracting Officer, by written notice, may terminate this contract, in whole or in part, when it is in the best interest of the Government. If this contract is for supplies and is so terminated, the Contractor shall be compensated in accordance with ASPR Section VIII, in effect on this contract's date. To the extent that this contract is for services and is so terminated, the Government shall be liable only for payment in accordance with the payment provisions of this contract for services rendered prior to the effective date of termination.

§ 8.705–2 Construction contracts.

Generally, there is no need for a termination clause in construction contracts not in excess of $10,000. However, where the contracting officer determines that a termination clause should be included in such a contract, the following clause shall be used.

TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OCT. 1960)

The Contracting Officer, by written notice, may terminate this contract, in whole or in part, when it is in the interest of the Government. If this contract is terminated, the Contractor shall be compensated in accordance with Section VIII of the Armed Services Procurement Regulation, in effect on this contract's date.

§ 8.706 Subcontract termination clause.

The following termination clause is suggested for use in fixed-price subcontracts:

TERMINATION (OCT. 1959)

(a) The performance of work under this contract may be terminated, in whole or from time to time in part, by the buyer in accordance with this clause. Termination of work hereunder shall be effected by delivery to the seller of a Notice of Termination specifying the extent to which performance of work under the contract is terminated, and date upon which such termination becomes effective.

(b) After receipt of a Notice of Termination and except as otherwise directed by the buyer, the seller shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portions of the work under the contract as may not be terminated.

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of any work terminated by the Notice of Termination;

(4) Assign to the buyer, in the manner, and to the extent directed by the buyer, all of the right, title and interest of its seller under the orders of subcontracts so terminated;

(5) Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts subject to the approval or ratification of the buyer to the extent he may require, which approval or ratification shall be final for all the purposes of this clause;

(6) Transfer title and deliver to the buyer in the manner, to the extent, and at the times directed by the buyer (A) the fabricated or unfabricated parts, work in process, completed work, supplies and other material produced as a part of, or acquired in connection with the performance of, the work terminated by the Notice of Termination, and (B) the completed or partially completed plans, drawings, information, and other property which, if the contract had been completed, would be required to be furnished to the buyer;

(7) Use his best efforts to sell in the manner, to the extent, at the time, and at the price or prices directed or authorized by the buyer, any property of the types referred to in (6) above: *Provided, however*, That the seller (A) shall not be required to extend credit to any purchaser, and (B) may acquire any such property under the conditions prescribed by and at a price or prices approved by the buyer: *And provided further*, That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the buyer to the seller under this contract or shall otherwise be credited to the price or cost of the work covered by this contract or paid in such other manner as the buyer may direct;

(8) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and

(9) Take such action as may be necessary or as the buyer may direct for protection and preservation of the property related to this contract which is in the possession of the seller and in which the buyer or the Government has or may acquire an interest.

(c) After receipt of a Notice of Termination, the seller shall submit to the buyer its termination claim, in the form and with the certification prescribed by the buyer. Such claim shall be submitted promptly, but not later than six (6) months from the effective date of termination. Upon failure of the seller to submit its termination claim within the time allowed, the buyer may determine, on the basis of information available to it, the amount, if any, due to the seller in respect to the termination and such determination shall be final. After the buyer has made a determination under this paragraph, it shall pay the seller the amount so determined.

(d) Subject to the provisions of paragraph (c) the seller and the buyer may agree upon the whole or any part of the amount or amounts to be paid to the seller by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit on work done and the buyer shall pay the agreed amount or amounts: *Provided*, That such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. Nothing in paragraph (e) below prescribing the amount to be paid to the seller in the event of the failure of the seller and the buyer to agree upon the whole amount to be paid to the seller by reason of the termination of work pursuant to this clause, shall be deemed to limit, restrict, or otherwise determine or effect the amount or amounts which may be agreed upon to be paid to the seller pursuant to this paragraph (d).

(e) In the event of the failure of the seller and the buyer to agree as provided in paragraph (d) upon the whole amount to be paid to the seller by reason of the termination of work pursuant to this clause, the buyer,

but without duplication of any amounts agreed upon in accordance with paragraph (d), shall pay to the seller the following amounts:

(1) For completed supplies accepted by the buyer (or sold or acquired as provided in paragraph (b) (7) above) and not theretofore paid for, forthwith a sum equivalent to the aggregate price for such supplies computed in accordance with the price or prices specified in the contract, appropriately adjusted for any saving of freight or other charges;

(2) In respect of the work terminated as permitted by this clause, the total (without duplication of any items) of—

(A) The cost of such work, including initial costs and preparatory expenses allocable thereto, exclusive of any costs attributable to supplies paid or to be paid for under (1) above; and

(B) The cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in paragraph (b) (5) above, exclusive of the amounts paid or payable on account of supplies or materials delivered or services furnished by the subcontractor prior to the effective date of the Notice of Termination of work under this contract, which amounts shall be included in the cost on account of which payment is made under (A) above; and

(C) A sum, as a profit, equal to 2 percent of the part of the amount determined under (A) above which represents the cost of articles and materials not processed by the seller, plus a sum equal to 8 percent of the remainder of such amount, but the aggregate of such sum shall not exceed 6 percent of the whole of the amount determined under (A) above, which amount for the purpose of this subdivision (C) shall exclude any charges for interest on borrowings: *Provided, however*, That if it appears that the seller would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (C) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate of loss; and

(3) The reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of the property allocable to this contract.

The total sum to be paid to the seller under (1) and (2) above shall not exceed the total contract price reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. Except for normal spoilage and except to the extent that the buyer or the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the seller under (1) and (2) (A) above the fair value as determined by the buyer of property which is destroyed, lost, stolen, or damaged so as to become undeliverable to the buyer or to a purchaser pursuant to paragraph (b) (7).

(f) The obligation of the buyer to make any payments under this clause shall be subject to deductions with respect to (i) all unliquidated advance or other payments on account theretofore made to the seller applicable to the terminated portion of this contract, (ii) any claim which the buyer may have against the seller, in connection with this contract, and (iii) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things retained by the seller or sold, and not otherwise recovered by or credited to the buyer.

(g) If the termination hereunder be partial, prior to the settlement of the terminated portion of this contract, the seller may file with the buyer a request in writing that an equitable adjustment be made in the price or prices specified in the contract for the work in connection with the continued portion not terminated by the Notice of Termination, and the appropriate equitable adjustment shall be made in such price or prices.

(h) The buyer may, from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the seller in respect to the terminated portion of the contract, whenever in the opinion of the buyer the aggregate of such payments shall be within the amount to which the seller will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed upon or determined to be due under this clause, such excess shall be payable by the seller to the buyer upon demand, together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the seller to the date on which such excess is repaid: *Provided, however*, That no interest shall be charged with respect to any such excess payment attributable to a reduction in the seller's claim by reason of retention or other disposition of termination inventory until ten days after the date of such retention or disposition, or such later date as determined by the buyer by reason of the circumstances.

(i) For the purpose of paragraphs (c) and (e) above, the amounts of the payments to be made by the buyer to the seller shall be determined in conformity with the policies and principles set forth in Section VIII of the Armed Services Procurement Regulation in effect at the date of this contract. Unless otherwise provided for in this contract, or by applicable statute, the seller, for a period of three years after final settlement under the contract shall make available to the buyer and the Government at all reasonable times at the office of the seller all its books, records, documents, or other evidence bearing on the costs and expenses of the seller under the contract and in respect of the termination of work hereunder or, to the extent approved by the Government, photographs, microphotographs, or other authentic reproductions thereof.

§ 8.707 Default clause for fixed-price supply contracts.

The following clause shall be used in all fixed-price supply contracts as defined in § 7.102.

DEFAULT (JUNE 1958)

(a) The Government may, subject to the provisions of paragraph (c) below, by written notice of default to the Contractor, terminate the whole or any part of this contract in any one of the following circumstances:

(1) If the Contractor fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or

(2) If the Contractor fails to perform any of the other provisions of this contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(b) In the event the Government terminates this contract in whole or in part as provided in paragraph (a) of this clause, the Government may procure, upon such terms and in such manner as the Contracting Officer may deem appropriate, supplies or services similar to those so terminated, and the Contractor shall be liable to the Government for any excess costs for such similar supplies or services: *Provided*, That the Contractor shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

(c) Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule.

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the Government, in the manner and to the extent directed by the Contracting Officer, (i) any completed supplies, and (ii) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing materials") as the Contractor has specifically produced or specifically acquired for the performance of such part of this contract as has been terminated; and the Contractor shall, upon direction of the Contracting Officer, protect and preserve property in possession of the Contractor in which the Government has an interest. Payment for completed supplies delivered to and accepted by the Government shall be at the contract price. Payment for manufacturing materials delivered to and accepted by the Government and for the protection and preservation of property shall be in an amount agreed upon by the Contractor and Contracting Officer; failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Dispute".

(e) If, after notice of termination of this contract under the provisions of paragraph (a) of this clause, it is determined that the failure to perform this contract is due to causes beyond the control and without the fault or negligence of the Contractor or subcontractor pursuant to the provisions of paragraph (c) of this clause, such notice of default shall be deemed to have been issued pursuant to the clause of this contract entitled "Termination for Convenience of the Government," and the rights and obligations of the parties hereto shall in such event be governed by such clause. (Except as otherwise provided in this contract, this paragraph (e) applies only if this contract contains such clause.)

(f) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

§ 8.708 Excusable delays clause for cost-reimbursement type supply contracts.

The following clause shall be used in all cost-reimbursement type supply contracts as defined in § 7.202 of this chapter and in all cost-reimbursement type research and development contracts that contain the Termination clause in § 8.702. It may be used in contracts that contain the Termination clause in § 8.704.

EXCUSABLE DELAYS (JULY 1958)

Except with respect to defaults of subcontractors, the Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by the Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if such failure arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to: acts of God or of the public enemy; acts of the Government in either its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes; freight embargoes; and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the failure of a subcontractor to perform or make progress, and if such failure arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be deemed to be in default, unless (i) the supplies or services to be furnished by the subcontractor were obtainable from other sources, (ii) the Contracting Officer shall have ordered the Contractor in writing to procure such supplies or services from such other sources, and (iii) the Contractor shall have failed to comply reasonably with such order. Upon request of the Contractor, the Contracting Officer shall ascertain the facts and extent of such failure and, if he shall determine that any failure to perform was occasioned by any one or more of the said causes, the delivery schedule shall be revised accordingly, subject to the rights of the Government under the clause hereof entitled "Termination."

§ 8.709 Default clause for fixed-price construction contracts.

(a) The following clause shall be used in all fixed-price construction contracts.

TERMINATION FOR DEFAULT—DAMAGES FOR DELAY—TIME EXTENSIONS (SEPT. 1958)

(a) If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within such time, the Government may, by written notice to the Contractor, terminate its right to proceed with the work or such part of the work as to which there has been delay. In such event the Government may take over the work and prosecute the same to completion, by contract or otherwise, and the Contractor and its sureties shall be liable to the Government for any excess cost occasioned the Government thereby, and for liquidated damages for delay, as fixed in the specifications or accompanying papers, until such reasonable time as may be required for the final completion of the work, or if liquidated damages are not so fixed, any actual damages occasioned by such delay. If the Contractor's right to proceed is so terminated, the Government may take possession of and utilize in completing the work such materials, appliances, and plant as may be on the site of the work and necessary therefor.

(b) If the Government does not terminate the right of the Contractor to proceed, as provided in paragraph (a) hereof, the Contractor shall continue the work, in which event the Contractor and its sureties shall be liable to the Government, in the amount set forth in the specifications or accompanying papers, for fixed, agreed and liquidated damages for each calendar day of delay until the work is completed or accepted, or if liquidated damages are not so fixed, any actual damages occasioned by such delay.

(c) The right of the Contractor to proceed shall not be terminated, as provided in paragraph (a) hereof, nor the Contractor charged with liquidated or actual damages, as provided in paragraph (b) hereof because of any delays in the completion of the work due to unforseeable causes beyond the control and without the fault or negligence of the Contractor, including, but not restricted to, acts of God or of the public enemy, acts of the Government, in either its sovereign or contractual capacity, acts of another contractor in the performance of a contract with the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather, or delays of subcontractors or suppliers due to such causes: *Provided*, That the Contractor shall within 10 days from the beginning of any such delay, unless the Contracting Officer shall grant a further period of time prior to the date of final settlement of the contract, notify the Contracting Officer in writing of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when in his judgment the findings of fact justify such an extension, and his findings of fact thereon shall be final and conclusive on the parties hereto, subject only to appeal as provided by the Disputes clause of this contract.

(d) If, after notice of termination of this contract under the provisions of paragraph (a) of this clause, it is determined that the failure to perform this contract was due to causes beyond the control and without the fault or negligence of the Contractor pursuant to paragraph (c) of this clause, such notice of termination shall be deemed to have been issued pursuant to the Termination for Convenience of the Government clause of this contract, and the rights and obligations of the parties hereto shall in such event be governed by such clause.

(e) The rights and remedies of the Government provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

(b) During a period of national emergency, paragraph (c) of the above clause may be changed by deleting the word "unforeseeable" and inserting the phrase "other than normal weather," after the word "causes" where it first appears in the first sentence.

(c) Standard Form 23a is prescribed for use in all formally advertised construction contracts. That Form contains, as clause 5, paragraphs (a) through (c) of the above clause. When that Form is used, paragraphs (d) and (e) of the above clause shall be added to the Form by means of an Alterations in Contract clause (see § 7.105–1 of this chapter).

§ 8.710 Default clause for fixed-price research and development contracts.

The following clause shall be used in all fixed-price research and development contracts as defined in § 7.301 of this chapter except contracts with educational or nonprofit institutions which are awarded on the basis of no profit:

DEFAULT (JUNE 1959)

(a) The Government may, subject to the provisions of paragraph (b) of this clause, by written Notice of Default to the Contractor terminate the whole or any part of this contract in any one of the following circumstances:

(i) If the Contractor fails to perform the work called for by this contract within the time(s) specified herein or any extension thereof; or

(ii) If the Contractor fails to perform any of the other provisions of this contract, or so fails to prosecute the work as to endanger performance of this contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(b) Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or service to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule or other performance requirements.

(c) In the event the Government terminates this contract in whole or in part as provided in paragraph (a) of this clause, the Government may procure, upon such terms and in such manner as the Contracting Officer may deem appropriate, work similar to the work so terminated and the Contractor shall be liable to the Government for any excess costs for such similar work: *Provided*, That the Contractor shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to transfer title and deliver to the Government, in the manner and to the extent directed by the Contracting Officer any of the completed or partially completed work not theretofore delivered to, and accepted by, the Government and any other property, including contract rights, specifically produced or specifically acquired for the performance of such part of this contract as has been terminated; and the Contractor shall, upon the direction of the Contracting Officer, protect and preserve property in the possession of the Contractor in which the Government has an interest. The Government shall pay to the Contractor the contract price, if separately stated, for completed work accepted by the Government and the amount agreed upon by the Contractor and the Contracting Officer for (i) completed work for which no separate price is stated, (ii) partially completed work, (iii) other property described above which is accepted by the Government and, (iv) the protection and preservation of property. Failure to agree shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(e) If, after notice of termination of this contract under the provisions of paragraph (a) of this clause it is determined that the failure to perform this contract or to prosecute the work so as to endanger performance of the contract is due to causes beyond the control and without the fault or negligence of the Contractor pursuant to the provisions of paragraph (b) of this clause, such Notice of Default shall be deemed to have been issued pursuant to the clause of this contract entitled "Termination for Convenience of the Government," and the rights and obligations of the parties hereto shall in such event be governed by such clause.

(f) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

Subpart H—Forms

§ 8.800 Scope of subpart.

This subpart contains certain forms related to the termination and settlement of contracts.

§ 8.801 Notice of termination.

§ 8.801–1 Telegraphic notice of termination.

(a) The following form of telegraphic notice is approved for use where a contract is being completely terminated:

TELEGRAPHIC NOTICE—COMPLETE TERMINATION (JAN. 1952)

Date _____

XYZ Corporation
New York, New York

Your contract No. _____ is hereby terminated in its entirety pursuant to clause _____ of the contract effective [Here insert "immediately" or "On _____, 19__." (Inserting the date) or "As soon as you have delivered thereunder including previous deliveries the following items" (listing items)]. Immediately stop all work, terminate subcontracts and place no further orders except to extent (Insert if applicable—Necessary to perform any portion thereof not terminated hereby or) that you or a subcontractor wish to retain and continue for own account any work in process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Letter and instruction follow.

_____
(Name and Rank)
Contracting Officer

(b) The following form of telegraphic notice is approved where a contract is being partially terminated:

TELEGRAPHIC NOTICE OF PARTIAL TERMINATION (JAN. 1952)

Date _____

XYZ Corporation
New York, New York

Your contract No. _____ is hereby partially terminated pursuant to clause _____ of the contract effective on _____ 19__, on which date you will reduce its total number of items to be delivered as follows (inserting instructions as to reduced deliveries). Immediately stop all work, terminate subcontracts and place no further orders except to extent necessary to perform any portion thereof not terminated hereby or that you or a subcontractor wish to retain and continue for own account any work in process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Letter and instructions follow.

_____
(Name and Rank)
Contracting Officer

§ 8.801–2 Letter notice of termination.

(a) The following form of Notice of Termination of prime contract is approved for use. With appropriate modifications it is suitable for use in terminating subcontracts.

LETTER NOTICE OF TERMINATION TO PRIME CONTRACTORS (SEPT. 1958)

[At the top of the Notice set out all special details relating to the particular termination: e. g., name and address of company, number of prime contract terminated, service involved, appropriation or allotment, etc.

Two alternative forms of paragraph No. 1 are set out below. If this written termination notice confirms a telegraphic notice previously sent, use the first of the alternative paragraphs No. 1 below. If no previous telegraphic notice has been sent, use the second.]

1. *Effective date of termination.* This letter will confirm the Government's telegram to you dated _____, 19__, terminating [in part] your Contract No. _____ (hereinafter referred to as "the contract") for the convenience of the Government, in accordance with the clause thereof entitled "Termination for the Convenience of the Government" [or, in the case of a cost-reimbursement-type contract, "Termination"]. Such termination is effective on the date and in the manner stated in such telegram, reference to which is hereby made [or copy of which is attached hereto].

(or)

1. *Effective date of termination.* You are notified that your Contract No. _____ (hereinafter referred to as "the contract") is hereby terminated [in part] for the convenience of the Government, in accordance with the clause hereof entitled "Termination for the Convenience of the Government" [or, in the case of a cost-reimbursement-type contract, "Termination"]. Such termination will be effective: _____ [Here insert either "immediately upon your receipt of this Notice" or "on _____, 19__," (inserting the date) or "as soon as you have delivered under the contract the following number of each of the items listed below, including those heretofore delivered, to wit: ____" or, "on _____, 19__, on which date you are hereby directed to reduce the total number of items to be delivered under the contract as follows": (here insert instructions as to reduced deliveries.)]

2. *Cessation of work and notification to your immediate subcontractors.* (a) You shall stop all work, make no further shipments, and place no further orders in connection with the contract, except (1) to the extent necessary to perform any portion thereof not terminated by this Notice, or (2) to the extent that you may wish to retain and continue any work in process or other materials for your own account, or (3) to the extent the Contracting Officer authorizes you to continue work-in-process for reasons of safety, or to clear [or avoid damage to] equipment or to avoid immediate complete spoilage of work-in-process having a definite commercial value, or otherwise to prevent undue loss to the Government. [If you believe the authorization referred to in subparagraph (3) above is necessary or advisable, you shall immediately notify the Contracting Officer by telephone or personal conference and obtain instructions.] You shall keep adequate records of your compliance with this paragraph 2 (a) showing (i) the date you received your Notice of Termination, (ii) the effective date of such termination, and (iii) the extent of completion of performance on such effective date.

(b) You shall give notice of termination to each of your immediate subcontractors (including suppliers) who will be affected by the termination of your contract. In such notice you shall (1) give him the number of your contract with the Government, (2) state that it has been terminated (or terminated in part, if that is the case) for the convenience of the Government, (3) give him the name and address of the Contracting Officer, (4) instruct him to stop all work, to make no further shipments, to place no more orders, and to terminate all subcontracts under this contract with you (subject to the same exceptions stated in paragraph 2 (a)), (5) direct him to submit his settlement proposal promptly in order to expedite settlement, and (6) request him to give similar notice and instructions to his immediate subcontractors.

(c) You shall notify the Contracting Officer of the number of articles completed under the contract and still on hand, and arrange with him for their delivery or other disposal.

(d) You shall forthwith transfer title to and deliver to the Government, in accordance with any instructions of the Contracting Officer, all items of termination inventory (including subcontractor termination inventory which under the terms of the subcontract or purchase order concerned you have the right to take over) of the following types or classes: [insert proper identification or "none".]

(e) You shall notify the Contracting Officer of any pending legal proceedings which relate to any subcontracts or purchase orders under the terminated contract or which have resulted in or which are intended to result in a lien or encumbrance on any termination inventory other than termination inventory you propose and are authorized to purchase, retain, or dispose of. (The Contracting Officer shall also be promptly notified of any such proceedings brought after receipt of this Notice.)

(f) You shall take such other action as may be required by the Contracting Officer or under the termination clause contained in your contract.

(3) *Termination inventory.* In connection with settlement of your claim, it will be necessary to establish that all your termination inventory and that of your subcontractors has been properly accounted for. For detailed information, see 32 CFR Part 8, Subpart F.

4. *Completed end items.* Subject to 32 CFR 8.306, you will invoice acceptable completed end items under the contract in the usual way and not include them in your settlement proposal.

5. *Submission of settlement proposal.* To assist you in prompt submission of your settlement proposal, there is enclosed one set of the standard forms.

6. *Patents.* Your attention is called to any provisions of the contract which may require you to make a disclosure of, and to deliver to the Government instruments of license or assignment respecting all inventions, discoveries, and patent applications made by you in the performance of the contract. You are urged to forward such disclosures and instruments of license or assignment to the Contracting Officer promptly, inasmuch as these contractual obligations must be complied with before execution of the final settlement agreement. This paragraph may be disregarded if the contract contains no such patent provisions.

7. *Settlements with subcontractors.* You remain liable to your subcontractors and suppliers for claims arising by reason of the termination of their subcontracts or orders. You are requested to settle such termination claims as promptly as possible. For

purposes of reimbursement by the Government, such settlements will be governed by the provisions of 32 CFR Part 8.

6. The Office named below will be in charge of the settlement of your claim. As to any matters not covered by this Notice, you should consult the Office named below.

9. Please acknowledge receipt of this Notice as shown below.

(Title)

§ 8.802 Forms [1] for settlement of fixed-price contracts.

The forms set forth below are prescribed for use in settling terminated fixed-price contracts.

§ 8.802–1 DD Form 540—Settlement Proposal—Inventory Basis.

§ 8.802–2 DD Form 541—Settlement Proposal—Total Cost Basis.

§ 8.802–3 DD Form 831—Settlement Proposal—Short Form.

NOTE: In order to facilitate more expeditious settlement of small termination claims, the short form settlement proposal (DD Form 831) was revised, increasing the limitation on its use from $1,000 to $2,500, 25 F. R. 1786, Mar. 1, 1960.

§ 8.802–4 DD Form 542—Inventory Schedule A—Metals in Mill Product Form. DD Form 542c—Inventory Schedule A—Continuation Sheet.

§ 8.802–5 DD Form 543—Inventory Schedule B—Raw Materials. DD Form 543c—Inventory Schedule B—Continuation Sheet.

§ 8.802–6 DD Form 544—Inventory Schedule C—Work in Process. DD Form 544c—Inventory Schedule C—Continuation Sheet.

§ 8.802–7 DD Form 545—Inventory Schedule D—Dies, Jigs, Fixtures, etc. and Special Tools. DD Form 545c—Inventory Schedule D—Continuation Sheet.

§ 8.802–8 DD Form 832—Inventory Schedule E—Short Form for Use with DD Form 831 only.

§ 8.802–9 DD Form 546—Schedule of Accounting Information.

§ 8.802–10 DD Form 548—Application for Partial Payment.

§ 8.803 DD Form 547—Settlement Proposal for Cost-Reimbursement Type Contracts.

§ 8.804 DD Form 547s—Notice of Audit Status Date.

§ 8.805 Scrap warranty.

A warranty in the general format set forth below shall be executed by a purchaser of material as scrap (on direct purchase from the Government or on subsequent resale) in accordance with the requirements of § 8.504.

SCRAP WARRANTY (JAN. 1952)

In consideration of the transfer to the undersigned of the property covered by this Agreement at a value based upon its being used as scrap, the undersigned represents and warrants to the United States as follows:

(1) The property covered by this Agreement will be used only as scrap, either in its existing condition or after further preparation, unless and until the undersigned is released from this warranty.

(2) In the event the undersigned is released from this warranty, any payment agreed on as consideration for such release shall be made to the United States, regardless of whether this warranty shall have been executed at the request of the United States.

(3) In the event the undersigned sells the property covered by this Agreement prior to release of this warranty, the undersigned will obtain from the purchaser and tender to the United States a warranty identical to this executed by the purchaser, and upon receipt of such other warranty, this warranty will be released by the United States.

(4) All obligations of the undersigned under this warranty shall expire five years from the date hereof.

§ 8.806 Forms of settlement agreement.

(See § 8.209.)

§ 8.806–1 Settlement agreement for use in settling fixed-price prime contracts after complete termination. (Sept. 1958)

This Supplemental Agreement of Settlement, entered into this------day of---------, 19-- between the United States of America (hereinafter called "The Government") represented by the Contracting Officer executing this contract, and ----------

(i) A corporation organized and existing under the Laws of the State of ----------;

(ii) A partnership consisting of----------;

(iii) An individual doing business as ----------

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No.------ under date of ----------, 19-- which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the Termination for Convenience of the Government clause of the contract provides that the performance of work under the contract may at the convenience of the Government be terminated by the Government in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government, and that the Contractor and the Contracting Officer may agree upon the whole or any part of the amount to be paid to the Contractor by reason of such termination; and

Whereas, by notice of termination dated ---------- the Government advised the Contractor of the complete termination of the contract for the convenience of the Government; and

Whereas, as used herein the following terms shall have the meanings hereinafter set forth:

The term "termination inventory" means any items of physical property purchased, supplied, manufactured, furnished, or otherwise acquired for performance of the contract which are properly allocable to the terminated portion of the contract, but shall not include any facilities, materials, production or other equipment, or special tooling, which are subject to a separate contract or a special contract provision governing the use or disposition thereof. Termination inventory may include Government-furnished property and contractor-acquired property as defined below.

(i) Government-furnished property is property in the possession of or acquired directly by the Government, and delivered or otherwise made available to the Contractor.

(ii) Contractor-acquired property is property procured or otherwise provided by the Contractor for the performance of a contract, whether or not the Government has title by the terms of the contract, or exercises its contractual right to take title.

The term "subcontract" means any contract as defined in 32 CFR 1.201–4 other than a prime contract, entered into by a prime contractor or a subcontractor, calling for supplies or services required for the performance of any one or more prime contracts.

The term "scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

Now, therefore, the parties hereto do mutually agree as follows:

ARTICLE 1. The Contractor certifies that all contract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, otherwise properly accounted for, and all proceeds or retention prices thereof, if any, have been taken into account in arriving at this agreement.

ART. 2. a. The Contractor certifies that, prior to the execution of this agreement, each of the Contractor's immediate subcontractors whose claim is included in the claim settled by this agreement has furnished to the Contractor a certificate stating (i) that all of its subcontract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, were taken into account in arriving at the settlement of the subcontract or subcontracts, and (ii) that the subcontractor has received from each of the immediate subcontractors whose claim was included in its claim for a substantially similar certificate.

b. The Contractor hereby transfers and conveys to the Government all the right, title, and interest, if any, which the Contractor has received, or is entitled to receive, in and to subcontract termination inventory, if any, not otherwise properly accounted for, and hereby assigns to the Government any and all of its rights relating thereto.

ART. 3. The Contractor certifies that, with respect to all items of termination inventory the costs of which were taken into account in arriving at the amount of this settlement, or in the settlement of any subcontract claim included in this settlement: (i) all such items are properly allocable to the terminated portion of the contract; (ii) such items are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; (iii) such items do not include any items reasonably usable without loss to the Contractor, on its other work; and (iv) the Contractor has informed the Contractor Officer of any substantial

[1] A facsimile of each of the forms listed below have been filed with the Federal Register Division; copies of forms may be obtained through the Contracting Officer in any of the military departments.

change in the status of such items between the dates of its termination inventory schedules and the date of this agreement.

ART. 4. In all cases where the Contractor has not previously made such payments, the Contractor shall, within ten (10) days after receipt of the payment provided for hereunder, pay to each of its immediate subcontractors (or to their respective assignees) the respective amounts to which they are entitled, after deducting, if the Contractor so elects, any amounts then due and payable to the Contractor by such subcontractors.

ART. 5. a. The Contractor has received the sum of $------ on account of work and services performed, or articles delivered, under the completed portion of the contract. The Government as part of this negotiated settlement hereby confirms and acknowledges the right of the Contractor, subject to the provisions of Article 6 hereof, to retain such sum heretofore paid and agrees that such sum constitutes a portion of the total amount to which the Contractor is entitled in settlement of the Contract.

b. In addition, upon execution of this agreement the Government agrees to pay to the Contractor or its assignee, upon presentation of properly certified invoices or vouchers, the sum of $------ [insert net amount of settlement], arrived at by deducting from the sum of $------ [for claim submitted on inventory basis, insert gross amount of settlement; for claim submitted on total cost basis, insert gross amount of settlement less amount set forth in 5a above], (1) the amount of $------ representing all unliquidated partial or progress payments previously made on account to the Contractor or its assignee and all unliquidated advance payments (with interest, if any, thereon), and (2) the amount of $------ representing all applicable property disposal credits [and (3) the amount of $------ representing all other amounts due the Government under this contract except as hereinafter provided in Article 6].* Said sum, together with all other sums heretofore paid, constitutes payment in full and complete settlement of the amount due the Contractor by reason of the complete termination of work under the contract and of all other claims and liabilities of the Contractor and the Government under the contract, except as hereinafter provided in Article 6.

ART. 6. Notwithstanding any other provision of this agreement, the following rights and liabilities of the parties under the contract are hereby reserved:

[The following list of reserved or excepted rights and liabilities is intended to cover those which should most frequently be reserved, and which should in any event be scrutinized at the time a settlement agreement is signed (see 32 CFR 8.209–2). The suggested language of the enumerated excepted items on the list may be varied in the discretion of the Contracting Officer to cover more accurately the exceptions needed in a particular case. Where greater accuracy or completeness may be achieved by a reference to the number of the contract clause or provision covering the matter in question, this method of enumerating reserved rights and liabilities may be followed. Omit any of the following which are not applicable and add any additional exceptions or reservations required.]

(1) All rights and liabilities, if any, of the parties under the Renegotiation Act of 19-- [insert reference to applicable Renegotiation Act].

(2) All rights and liabilities of the parties arising under the contract articles, if any, or otherwise which relate to reproduction rights, patent infringements, inventions, applications for patent and patents, including rights to assignments, invention reports and licenses, covenants of indemnity against patent risks and bonds for patent indemnity obligations, together with all rights and liabilities under any such bond.

(3) All rights of the Government to take the benefit of any adjustments of royalties under the Royalty Adjustment Act of 1942 (35 U. S. C. 89–96) and to take the benefit of agreements reducing or otherwise affecting royalties paid or payable in connection with the performance of the contract.

(4) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, covenants of indemnity.

(5) All rights and liabilities of the parties under agreements with respect to the future care and disposition by the Contractor of Government-owned property remaining in its custody.

(6) All rights and liabilities of the parties under the contract with respect to any contract termination inventory stored for the Government pursuant to Article 1 hereof.

(7) All rights and liabilities of the parties under the contract with respect to any and all Government property furnished to the Contractor for the performance of this contract.

(8) All rights and liabilities of the parties arising under the contract, or otherwise, concerning defects in, or guarantees or warranties relating to, any articles or component parts furnished to the Government by the Contractor pursuant to the contract or this agreement.

(9) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including without limitation, any applicable clauses relating to the following topics: labor law, contingent fees, domestic articles, employment of aliens, "officials not to benefit." [If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.]

In witness whereof, etc.

§ 8.806–2 Settlement agreement for use in settling fixed-price prime contracts after partial termination. (Sept. 1958)

This Supplemental Agreement of Settlement, entered into this ------ day of ---------, 19-- between the United States of America (hereinafter called "the Government") represented by the Contracting Officer executing this contract, and --------

(i) A corporation organized and existing under the Laws of the State of ----------;

(ii) A partnership consisting of ----------;

(iii) An individual doing business as ----------;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. ------ under date of ----------, 19-- which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the Termination for Convenience of the Government clause of the contract provides that the performance of work under the contract may at the convenience of the Government be terminated by the Government in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount to be paid to the Contractor by reason of such termination; and

Whereas, by notice of termination dated ---------- the Government advised the Contractor of the partial termination of the contract for the convenience of the Government as of the date and to the extent provided in such Notice, to which reference is hereby made as to the part terminated, and said part is hereinafter referred to as the "terminated portion of the contract"; and

Whereas, as used herein, the following terms shall have the meanings hereinafter set forth:

The term "termination inventory" means any items of physical property purchased, supplied, manufactured, furnished, or otherwise acquired for performance of the contract which are properly allocable to the terminated portion of the contract, but shall not include any facilities, materials, production or other equipment, or special tooling, which are subject to a separate contract or a special contract provision governing the use or disposition thereof. Termination inventory may include Government-furnished property and contractor-acquired property as defined below.

(i) Government-furnished property is property in the possession of or acquired directly by the Government, and delivered or otherwise made available to the Contractor.

(ii) Contractor-acquired property is property procured or otherwise provided by the Contractor for the performance of a contract, whether or not the Government has title by the terms of the contract, or exercises its contractual right to take title.

The term "subcontract" means any contract as defined in 32 CFR 1.201–4 other than a prime contract, entered into by a prime contractor or a subcontractor, calling for supplies or services required for the performance of any one or more prime contracts.

The term "scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

Now, therefore, the parties hereto do mutually agree as follows:

ARTICLE 1. The terminated portion of the contract is designated as follows: (specify the terminated portion clearly as to items, including (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit price of items, (v) total price of terminated items, and (vi) any other explanation necessary to avoid uncertainty or misunderstanding.)

ART. 2. The Contractor certifies that all contract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, have been taken into account in arriving at this agreement.

ART. 3. a. The Contractor certifies that, prior to the execution of this agreement, each of the contractor's immediate subcontractors whose claim is included in the claim settled by this agreement has furnished to the Contractor a certificate stating (i) that all its subcontract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, were taken into account in arriving at the settlement of the subcontract or subcontracts and (ii) that the subcontractor has received from each of the immediate subcontractors whose claim was included in its claim a substantially similar certificate.

b. The Contractor hereby transfers and conveys to the Government all the right, title and interest, if any, which the Contractor has received, or is entitled to receive, in and to subcontract termination inventory,

*To be inserted where appropriate.

if any, not otherwise properly accounted for, and hereby assigns to the Government any and all of its rights relating thereto.

ART. 4. The Contractor certifies that, with respect to all items of termination inventory the costs of which were taken into account in arriving at the amount of this settlement, or in the settlement of any subcontract claim included in this settlement: (i) all such items are properly allocable to the terminated portion of the contract; (ii) such items are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; (iii) such items do not include any items reasonably usable, without loss to the Contractor, on its other work; and (iv) the Contractor has informed the Contracting Officer of any substantial change in the status of such items between the dates of its termination inventory schedules and the date of this agreement.

ART. 5. In all cases where the Contractor has not previously made such payments, the Contractor shall, within ten (10) days after receipt of the payment provided for hereunder, pay to each of its immediate subcontractors (or to their respective assignees) the respective amounts to which they are entitled, after deducting, if the Contractor so elects, any amounts then due and payable to the Contractor by such subcontractors.

ART. 6. Upon execution of this agreement, the Government agrees to pay to the Contractor or its assignee, upon presentation of properly certified invoices or vouchers, the sum of $_____ [insert net amount of settlement], arrived at by deducting from the sum of $_____ [insert gross amount of settlement], (1) the amount of $_____ representing all unliquidated partial or progress payments previously made on account to the Contractor or its assignee and all unliquidated advance payments (with interest, if any, thereon) applicable to the terminated portion of the contract and (2) the amount of $_____ representing all applicable property disposal credits. Said sum, together with all other sums heretofore paid, constitutes payment in full and complete settlement of the amount due the Contractor with respect to the terminated portion of the contract, except as hereinafter provided in Article 7.

ART. 7. Upon payment of said sum of $_____ [insert net amount of settlement], all obligations of the Contractor to perform further work or services or to make further deliveries under the terminated portion of the contract and all obligations of the Government to make further payments or to carry out other undertakings in connection therewith shall cease: *Provided, however,* That nothing herein contained shall impair or affect in any way any covenants, terms or conditions of the contract relating to the completed or continued portion thereof: *And provided further,* That, with respect to the terminated portion of the contract, the following rights and liabilities of the parties are reserved.

[The following list of reserved or excepted rights and liabilities relating to the terminated portion of the contract is intended to cover those which should most frequently be reserved, and which should in any event be scrutinized at the time a settlement agreement is signed (see 32 CFR 8.209–2). The suggested language of the enumerated excepted items on the list may be varied in the discretion of the Contracting Officer to cover more accurately the exceptions needed in a particular case. Where greater accuracy or completeness may be achieved by a reference to the number of the contract clause or provision covering the matter in question, this method of enumerating reserved rights and liabilities may be followed. Omit any of the following which are not applicable and add any additional exceptions or reservations required.]

(1) All rights and liabilities, if any, of the parties under the Renegotiation Act of 19__ [insert reference to applicable Renegotiation Act].

(2) All rights of the Government to take the benefit of any adjustments of royalties under the Royalty Adjustment Act of 1942 (35 U. S. C. 89–96) and to take the benefit of agreements reducing or otherwise affecting royalties paid or payable in connection with the performance of the contract.

(3) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to the following topics: labor law, contingent fees, domestic articles, employment of aliens, "officials not to benefit." [If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.]

(4) All rights and liabilities of the parties arising under the contract articles, if any, or otherwise which relate to reproduction rights, patent infringements, inventions, applications for patent and patents, including rights to assignments, invention reports and licenses, covenants of indemnity against patent risks and bonds for patent indemnity obligations, together with all rights and liabilities under any such bond.

(5) All rights and liabilities of the parties arising under the contract, or otherwise, concerning defects in, or guarantees or warranties relating to, any articles or component parts furnished to the Government by the Contractor pursuant to the contract or this agreement.

(6) All rights and liabilities of the parties with respect to any contract termination inventory stored for the Government pursuant to Article 2 hereof.

In witness whereof, etc.

§ 8.806–3 Partial settlement agreement, for use in settling fixed-price prime contracts after complete or partial termination where settlement pertains only to settlements with subcontractors. (Sept. 1958)

This supplemental agreement of settlement, entered into this _____ day of _____, 19__ between the United States of America (hereinafter called "the Government") represented by the Contracting Officer executing this contract, and_____

(i) A corporation organized and existing under the Laws of the State of_____;

(ii) A partnership consisting of_____;

(iii) An individual doing business as _____;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. _____ under date of _____, 19__ which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the Termination for Convenience of the Government clause of the contract provides that the performance of work under the contract may at the convenience of the Government be terminated by the Government in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount to be paid to the Contractor by reason of such termination; and

Whereas, by notice of termination dated _____ the Government advised the Contractor of the [complete termination of the contract for the convenience of the Government;] * [partial termination of the contract for the convenience of the Government as of the date and to the extent provided in such Notice, to which reference is hereby made as to the part terminated, and said part is hereinafter referred to as "the terminated portion of the contract";] * and

Whereas, the Contractor, in connection with the performance of the contract, has entered into the following subcontracts [among others]: ** [insert here a list of the terminated subcontracts included in this settlement], which subcontracts were terminated by the Contractor in accordance with the termination for convenience clause of the contract and in accordance with the Notice of Termination received by it from the Government; and

Whereas, the parties desire to settle that portion of the termination claim of the Contractor which is based upon the termination of the subcontracts listed herein; and

Whereas, as used herein, the following terms shall have the meanings hereinafter set forth:

The term "termination inventory" means any items of physical property purchased, supplied, manufactured, furnished, or otherwise acquired for performance of the contract which are properly allocable to the terminated portion of the contract, but shall not include any facilities, materials, production or other equipment, or special tool—which are subject to a separate contract or a special contract provision governing the use or disposition thereof. Termination inventory may include Government-furnished property and contractor-acquired property as defined below.

(i) Government-furnished property is property in the possession of or acquired directly by the Government, and delivered or otherwise made available to the Contractor.

(ii) Contractor-acquired property is property procured or otherwise provided by the Contractor for the performance of a contract, whether or not the Government has title by the terms of the contract, or exercises its contractual right to take title.

The term "subcontract" means any contract as defined in 32 CFR 1.201–4 other than a prime contract, entered into by a prime contractor or a subcontractor, calling for supplies or services required for the performance of any one or more prime contracts.

The term "scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

Now, therefore, the parties hereto do mutually agree as follows:

ARTICLE 1. a. The Contractor certifies that, prior to the execution of this agreement, each of the Contractor's immediate subcontractors whose claim is included in the claim settled by this agreement has furnished to the Contractor a certificate stating (i) that all its subcontract termination inventory (including scrap), has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, were taken into account in arriving at the settlement of the subcontract or subcontracts and (ii) that the subcontractor has received from each of the immediate subcontractors whose claim was included in its claim a substantially similar certificate.

b. The Contractor hereby transfers and conveys to the Government all the right, title and interest, if any, which the Contractor has received, or is entitled to receive, in and to such subcontract termination inventory, if any, not otherwise properly accounted for, and hereby assigns to the Government any and all of its rights relating thereto.

ART. 2. a. The Contractor certifies that, prior to the execution of this agreement, each of the Contractor's immediate subcontractors whose claim is included in the claim settled by this agreement has furnished to the Contractor a certificate stating (i) that all of its subcontract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, were taken into account in arriving at the settlement of the subcontract or subcontracts and (ii) that the subcontractor has received from each of the immediate subcontractors whose claim was included in its claim a substantially similar certificate.

b. The Contractor hereby transfers and conveys to the Government all the right, title and interest, if any, which the Contractor has received, or is entitled to receive, in and to subcontract termination inventory, if any, not otherwise properly accounted for, and hereby assigns to the Government any and all of its rights relating thereto.

ART. 3. The Contractor certifies that, with respect to all items of termination inventory the costs of which were taken into account in arriving at the amount of this settlement, or in the settlement of any subcontract claim included in this settlement: (i) all such items are properly allocable to the terminated portion of the contract; (ii) such items are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; (iii) such terms do not include any items reasonably usable, without loss to the Contractor, on its other work; and (iv) the Contractor has informed the Contracting Officer of any substantial change in the status of such items between the dates of its termination inventory schedules and the date of this agreement.

ART. 4. In all cases where the Contractor has not previously made such payments, the Contractor shall, within ten (10) days after receipt of the payment provided for hereunder, pay to each of its immediate subcontractors (or to their respective assignees) the respective amounts to which they are entitled, after deducting, if the Contractor so elects, any amounts then due and payable to the Contractor by such subcontractors.

ART. 5. a. The Contractor has received the sum of $_____ on account of work and services performed, or articles delivered, under the contract prior to the effective date of termination. The Government as part of this negotiated settlement hereby confirms and acknowledges the right of the Contractor, subject to the provisions of Article 6 hereof, to retain such sum heretofore paid and agrees that such sum constitutes a portion of the total amount to which the Contractor is entitled in complete and final settlement of the contract.

b. In addition, upon execution of this agreement the Government agrees to pay to the Contractor or its assignee, upon presentation of properly certified invoices or vouchers, the sum of $_____ [insert net amount of settlement], arrived at by deducting from the sum of $_____ [insert net amount of settlement less amount set forth in Article 5a above], (1) the amount of $_____ representing all unliquidated partial or progress payments previously made on account to the Contractor or its assignee and all unliquidated advance payments (with interest, if any, thereon) and (2) the amount of $_____ representing all applicable property disposal credits [and (3) the amount of $_____ representing all other amounts due the Government under this contract except as hereinafter provided in Article 6].* Said sum, together with all other sums heretofore paid, constitutes payment in full and complete settlement of the amount due the Contractor by reason of the complete termination of work under the contract and of all other claims and liabilities of the Contractor and the Government under the contract, except as hereinafter provided in Article 6.

ART. 6. Notwithstanding any other provision of this agreement the following rights and liabilities of the parties under the contract are hereby reserved:

[The following list of reserved or excepted rights and liabilities is intended to cover those which should most frequently be reserved, and which should in any event be

* To be inserted where appropriate.

§ 8.806–4 Settlement agreement for use in settling cost-reimbursement type prime contracts after complete termination where settlement includes costs. (Sept. 1958)

This Supplemental Agreement of Settlement, entered into this _____ day of _____, 19__ between the United States of America (hereinafter called "the Government") represented by the Contracting Officer executing this contract, and _____

(i) A corporation organized and existing under the Laws of the State of _____;

(ii) A partnership consisting of _____;

(iii) An individual doing business as _____;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. _____ under date of _____, 19__ which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the Termination clause of the contract provides that the performance of work under the contract may at the convenience of the Government be terminated by the Government in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount to be paid to the Contractor by reason of such termination; and

Whereas, by notice of termination dated _____ the Government advised the Contractor of the complete termination of the contract for the convenience of the Government; and

Whereas, as used herein, the following terms shall have the meanings hereinafter set forth:

The term "termination inventory" means any items of physical property purchased, supplied, manufactured, furnished, or otherwise acquired for performance of the contract which are properly allocable to the terminated portion of the contract, but shall not include any facilities, materials, production or other equipment, or special tooling, which are subject to a separate contract or a special contract provision governing the use or disposition thereof. Termination inventory may include Government-furnished property and contractor-acquired property as defined below.

(i) Government-furnished property is property in the possession of or acquired directly by the Government, and delivered or otherwise made available to the Contractor.

(ii) Contractor-acquired property is property procured or otherwise provided by the Contractor for the performance of a contract, whether or not the Government has title by the terms of the contract, or exercises its contractual right to take title.

The term "subcontract" means any contract as defined in 32 CFR 1.201–4 other than a prime contract, entered into by a prime contractor or a subcontractor, calling for supplies or services required for the performance of any one or more prime contracts.

The term "scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

Now therefore, the parties hereto do mutually agree as follows:

ARTICLE 1. The Contractor certifies that all contract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, have been taken into account in arriving at this agreement.

ART. 2. a. The Contractor certifies that, prior to the execution of this agreement, each of the Contractor's immediate subcontractors whose claim is included in the claim settled by this agreement has furnished to the Contractor a certificate stating (i) that all of its subcontract termination inventory (including scrap) has been retained or otherwise acquired by it, sold to third parties, returned to suppliers, stored for the Government, delivered to the Government, or otherwise properly accounted for, and all proceeds or retention prices thereof, if any, were taken into account in arriving at the settlement of the subcontract or subcontracts and (ii) that the subcontractor has received from each of the immediate subcontractors whose claim was included in its claim a substantially similar certificate.

b. The Contractor hereby transfers and conveys to the Government all the right, title and interest, if any, which the Contractor has received, or is entitled to receive, in and to such subcontract termination inventory, if any, not otherwise properly accounted for, and hereby assigns to the Government any and all of its rights relating thereto.

ART. 3. The Contractor certifies that, with respect to all items of termination inventory the costs of which were taken into account in arriving at the amount of this settlement, or in the settlement of any subcontract claim included in this settlement: (i) all such items are properly allocable to the terminated portion of the contract; (ii) such items are not in excess of the reasonable quantitative requirements of the terminated portion of the contract; (iii) such items do not include any items reasonably usable, without loss to the Contractor, on its other work; and (iv) the Contractor has informed the Contracting Officer of any substantial change in the status of such items between the dates of its termination inventory schedules and the date of this agreement.

ART. 4. In all cases where the Contractor has not previously made such payments, the Contractor shall, within ten (10) days after receipt of the payment provided for hereunder, pay to each of its immediate subcontractors (or to their respective assignees) the respective amounts to which they are entitled, after deducting, if the Contractor so elects, any amounts then due and payable to the Contractor by such subcontractors.

ART. 5. a. The Contractor has received the sum of $_____ on account of work and services performed, or articles delivered, under the contract prior to the effective date of termination. The Government as part of this negotiated settlement hereby confirms and acknowledges the right of the Contractor, subject to the provisions of Article 6 hereof, to retain such sum heretofore paid and agrees that such sum constitutes a portion of the total amount to which the Contractor is entitled in complete and final settlement of the contract.

b. In addition, upon execution of this agreement the Government agrees to pay to the Contractor or its assignee, upon presentation of properly certified invoices or vouchers, the sum of $_____ [insert net amount of settlement], arrived at by deducting from the sum of $_____ [insert net amount of settlement less amount set forth in Article 5a above], (1) the amount of $_____ representing all unliquidated partial or progress payments previously made on account to the Contractor or its assignee and all unliquidated advance payments (with interest, if any, thereon) and (2) the amount of $_____ representing all applicable property disposal credits [and (3) the amount of $_____ representing all other amounts due the Government under this contract except as hereinafter provided in Article 6].* Said sum, together with all other sums heretofore paid, constitutes payment in full and complete settlement of the amount due the Contractor by reason of the complete termination of work under the contract and of all other claims and liabilities of the Contractor and the Government under the contract, except as hereinafter provided in Article 6.

ART. 6. Notwithstanding any other provision of this agreement the following rights and liabilities of the parties under the contract are hereby reserved:

[Insert here a list of the reserved or excepted rights and liabilities of the Government and the Contractor (see 32 CFR 8.209–2). Reference is made to instructions set forth in Article 6 of the agreement set forth in 32 CFR 8.806–1 and Article 7 of the agreement set forth in 32 CFR 8.806–2, and to the reserved or excepted rights and liabilities set forth in those articles, which may be used as appropriately modified to meet the requirements of any given settlement hereunder.]

In witness whereof, etc.

* Insert appropriate phrase.

** Insert where appropriate.

* Insert appropriate phrase.

scrutinized at the time a settlement agreement is signed (see 32 CFR 8.209–2). The suggested language of the enumerated excepted items on the list may be varied in the discretion of the Contracting Officer to cover more accurately the exceptions needed in a particular case. Where greater accuracy or completeness may be achieved by a reference to the number of the contract clause or provision covering the matter in question, this method of enumerating reserved rights and liabilities may be followed. Omit any of the following rights which are not applicable and add any additional exceptions or reservations required.]

(1) Claims by the Contractor against the Government for items of cost which are the subject of General Accounting Office exceptions (or other items of cost of the same nature), which are excluded from the settlement without prejudice to the rights of either party, as follows: [Insert the amounts and describe the claims not waived by Contractor.]

(2) Claims by the Contractor against the Government, as to which his right of reimbursement is disputed, which are excluded without prejudice to the rights of either party as follows: [Insert the amounts and describe the claims with respect to which findings have been made by the Contracting Officer disallowing the item and with respect to which the Contractor has taken, or intends to take, timely appeal.]

(3) Claims by the Contractor against the Government which are unknown in amount and which involve costs claimed to be reimbursable under the contract, as follows: [Insert the estimated amounts and describe the claims.]

(4) Claims by the Contractor against the Government whose existence is unknown, based upon responsibility of the Contractor to third parties and which involve costs reimbursable under the contract.

(5) Claims by the Government against the Contractor which are based upon refunds, rebates, credits, or other accounts not now known to the Government, together with interest thereon, now due or which may become due the Contractor from third parties to the extent that such amounts arise out of transactions for which reimbursement has been made to the Contractor under the contract. Any such amounts which may hereafter become due to the Contractor from any third party or other source shall be paid to the Government within 30 days after receipt by the Contractor. Interest at 6 percent per annum shall accrue and shall be paid to the Government on any such accounts as remain unpaid after the 30-day period.

(6) All rights and liabilities, if any, of the parties under the Renegotiation Act of 19__. [Insert reference to applicable Renegotiation Act.]

(7) All rights and liabilities of the parties arising under the contract articles, if any, or otherwise which relate to reproduction rights, patent infringements, inventions, applications for patent and patents, including rights to assignments, invention reports and licenses, covenants of indemnity against patent risks and bonds for patent indemnity obligations, together with all rights and liabilities under any such bond.

(8) All rights of the Government to take the benefit of any adjustments of royalties under the Royalty Adjustment Act of 1942 (35 U. S. C. 89–96) and to take the benefit of agreements reducing or otherwise affecting royalties paid or payable in connection with the performance of the contract.

(9) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, covenants of indemnity.

(10) All rights and liabilities of the parties under agreements with respect to the future care and disposition by the Contractor of Government-owned property remaining in its custody.

(11) All rights and liabilities of the parties under the contract with respect to any contract termination inventory stored for the Government pursuant to Article 1 hereof.

(12) All rights and liabilities of the parties under the contract with respect to any and all Government property, furnished to or acquired by the Contractor for the performance of this contract.

(13) All rights and liabilities of the parties arising under the contract, or otherwise, concerning defects in, or guarantees or warranties relating to, any articles or component parts furnished to the Government by the Contractor pursuant to the contract or this agreement.

(14) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to the following topics: labor law, contingent fees, domestic articles, employment of aliens, "officials not to benefit." [If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.]

In witness whereof, etc.

§ 8.806–5 Settlement agreement for use in settling cost-reimbursement type prime contracts after complete termination where settlement is limited to fee. (Sept. 1958)

This Supplemental Agreement of Settlement, entered into this ____ day, of _____, 19__ between the United States of America (hereinafter called "the Government") represented by the Contracting Officer executing this contract, and _____

(i) A corporation organized and existing under the Laws of the State of _____;

(ii) A partnership consisting of _____;

(iii) An individual doing business as _____;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. _____ under date of _____, 19__ which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the Termination clause of the contract provides that the performance of work under the contract may at the convenience of the Government be terminated by the Government in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interests of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount to be paid to the Contractor by reason of such termination; and

Whereas, by notice of termination dated _____ the Government advised the Contractor of the complete termination of the contract for the convenience of the Government; and

Whereas, settlement of said terminated contract has been limited to adjustment of the fee.

Now, therefore, the parties hereto do mutually agree as follows:

ARTICLE 1. a. The Contractor has received the sum of $_____ on account of its fee under the contract prior to the effective date of termination.

b. In addition, upon execution of this agreement, the Government agrees to pay to the Contractor or its assignee, upon presentation of properly certified invoices or vouchers, the sum of $_____ [insert net amount to be paid on account of fee]. Said sum, together with all other sums heretofore paid on account of fee, constitutes payment in full and complete settlement of the amount due the Contractor on account of its fee under the contract.

ART. 2. The Contractor's allowable costs under the contract will continue to be reimbursed on Standard Form 1034 cost vouchers in accordance with the applicable provisions of the contract and of 32 CFR Part 8.

ART. 3. Notwithstanding any other provision of this agreement the following rights and liabilities of the parties under the contract are hereby reserved.

[The following list of reserved or excepted rights and liabilities is intended to cover those which most frequently be reserved, and which should in any event be scrutinized at the time a settlement agreement is signed (see 32 CFR 8.209–2). The suggested language of the enumerated excepted items on the list may be varied in the discretion of the Contracting Officer to cover more accurately the exceptions needed in a particular case. Where greater accuracy or completeness may be achieved by a reference to the number of the contract clause or provision covering the matter in question, this method of enumerating reserved rights and liabilities may be followed. Omit any of the following which are not applicable and add any additional exceptions or reservations required.]

(1) All rights and liabilities, if any, of the parties under the Renegotiation Act of 19__ [insert reference to applicable Renegotiation Act].

(2) All rights and liabilities of the parties arising under the contract articles, if any, or otherwise which relate to reproduction rights, patent infringement, inventions, applications for patent and patents, including rights to assignments, invention reports and licenses, covenants of indemnity against patent risks and bonds for patent indemnity obligations, together with all rights and liabilities under any such bond.

(3) All rights of the Government to take the benefit of any adjustments of royalties under the Royalty Adjustment Act of 1942 (35 U. S. C. 89–96) and to take the benefit of agreements reducing or otherwise affecting royalties paid or payable in connection with performance of the contract.

(4) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), convenants not to compete, covenants of indemnity.

(5) All rights and liabilities of the parties under agreements with respect to the future care and disposition by the Contractor of Government-owned property remaining in its custody.

(6) All rights and liabilities of the parties under the contract with respect to any and all Government property, furnished to or acquired by the Contractor for the performance of this contract.

(7) All rights and liabilities of the parties arising under the contract, or otherwise, concerning defects in, or guaranties or warranties relating to, any articles or component parts furnished to the Government by the Contractor pursuant to the contract or this agreement.

(8) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to the following topics: labor law, contingent fees, domestic articles, employment of aliens, "officials not to benefit." [If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.]

In witness whereof, etc.

§ 8.806–6 No cost settlement agreement partial termination. (Sept. 1958)

This Supplemental Agreement of Settlement, entered into this _____ day of _____, 19__, between the United States of America (hereinafter called "the Government"), represented by the Contracting Officer executing this contract, and _____

(i) A corporation organized and existing under the Laws of the State of _____;

(ii) A partnership consisting of _____;

(iii) An individual doing business as _____;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. _____ under date of _____, 19__ which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the contract provides that the performance of work thereunder may at the convenience of option of the Government be terminated by the Government in whole, or from time to time in part, whenever any such termination is determined to be for the best interest of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of such termination; and

Whereas, by the Notice of Termination dated _____, 19__, the Government advised the Contractor of the partial termination of the contract for the convenience or at the option of the Government as of the date and to the extent provided in such Notice, to which reference is hereby made as to the part terminated, and said part is hereinafter referred to as "the terminated portion of the contract"; and

Whereas, the Contractor is willing to waive unconditionally any claim against the Government by reason of such termination.

Now, therefore, the parties hereto agree as follows:

ARTICLE 1. The terminated portion of the contract is designated as follows: (Specify the terminated portion clearly as to items including (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit price of items, (v) total price of terminated items, and (vi) any other explanation necessary to avoid uncertainty or misunderstanding.)

ART. 2. The Contractor hereby unconditionally waives any claim against the Government arising under the terminated portion of the contract or by reason of its termination including, without limitation, all obligation of the Government to make further payments or to carry out other undertakings in connection with said terminated portion, and the Government acknowledges that the Contractor has no obligation to perform further work or services or to make further deliveries of articles or materials under the terminated portion of the contract: *Provided, however,* That nothing herein contained shall impair or affect in any way any other covenants, terms or conditions of the contract. And *Provided further,* That, with respect to the terminated portion of the contract, the following rights and liabilities of the parties are reserved:

(List reserved or excepted rights and liabilities; see 32 CFR § 8.209–2 and Article 7 of the agreement set forth in 32 CFR § 8.806–2.)

In witness whereof, etc.

§ 8.806–7 No cost settlement agreement—complete termination.

This supplemental agreement of settlement, entered into this _____ day of _____, 19__, between the United States of America (hereinafter called "the Government"), represented by the Contracting Officer executing this contract, and _____

(i) A corporation organized and existing under the Laws of the State of _____;

(ii) A partnership consisting of _____;

(iii) An individual doing business as _____;

(hereinafter called "the Contractor").

Witnesseth that:

Whereas, the Contractor and the Government have entered into Contract No. _____ under date of _____, 19__, which, together with any and all amendments, changes, modifications, and supplements thereto, is hereinafter referred to as "the contract"; and

Whereas, the contract provides that the performance of work thereunder may at the convenience or option of the Government be terminated by the Government in whole, or from time to time in part, whenever any such termination is determined to be for the best interest of the Government, and that the Contractor and Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of such termination; and

Whereas, by the Notice of Termination dated _____, 19__, the Government advised the Contractor of the termination of the contract for the convenience or at the option of the Government; and

Whereas, the Contractor is willing to waive unconditionally any claim against the Government by reason of such termination;

Now, therefore, the parties hereto agree as follows:

ARTICLE 1. The Contractor hereby unconditionally waives any claim against the Government by reason of the termination of the contract and, except as set forth below, releases it from any and all obligations arising under the contract or by reason of its termination, and the Government agrees that all obligations arising under the contract or by reason of its termination, shall be deemed to be concluded; except as follows:

(List reserved or excepted rights and liabilities; see 32 CFR 8.209–2 and Article 6 of the agreement set forth in 32 CFR 8.806–1.)

In witness whereof, etc.

§ 8.807 DD Form 1114—Instructions for Use of Contract Termination Settlement and Inventory Schedule Forms.[1]

NOTE: In order to facilitate more expeditious settlement of contract terminations and inventory schedules, DD Form 1114 was revised, increasing the limitation on its use from $1,100 to $2,500, 25 F.R. 1786, Mar. 1, 1960.

[1] A facsimile of this form has been filed with the Federal Register Division; copies of the form may be obtained through the contracting officer in any of the military departments.

9.102 Authorization and consent.
9.102-1 Authorization and consent in contracts for supplies.
9.102-2 Authorization and consent in contracts for research or development.
9.103 Patent indemnification of Government by contractor.
9.103-1 Patent indemnification in formally advertised contracts; commercial status predetermined.
9.103-2 Patent indemnification in formally advertised contracts—commercial status not predetermined.
9.103-3 Patent indemnification in negotiated contracts.
9.103-4 Waiver of indemnity by the Government.
9.104 Notice and assistance.
9.105 Processing of infringement claims.
9.106 Classified contracts.
9.106-1 Classified contracts to be performed outside the United States.
9.107 Patent rights.
9.107-1 General.
9.107-2 License rights; domestic contracts.
9.107-3 License rights—foreign contracts.
9.107-4 Contracts relating to atomic energy.
9.107-5 Contracts relating to civil defense.
9.107-6 Patent license rights under product improvement programs or independent research programs.
9.107-7 Contracts placed for NASA.[1]
9.108 Patent rights under contracts for personal services.
9.109 Followup of patent rights.
9.110 Reporting of royalties.
9.111 Adjustment of royalties.
9.112 [Reserved]

Subpart B—Data and Copyrights

9.200 Scope of subpart.
9.201 Definitions.
9.202 Acquisition and use of data.
9.202-1 Acquisition of data.
9.202-2 Use of data.
9.202-3 Multiple sources of supplies.
9.202-4 Delivery of data for use in foreign countries.
9.202-5 Copyrights.
9.202-6 Data furnished on a restricted basis in support of a proposal.
9.203 Contract clauses; general.
9.203-1 Basic data clause.
9.203-2 Provision for addition to basic data clause for use in supply contracts.
9.203-3 Limited rights provision for addition to basic data clause.
9.203-4 Provision for addition to basic data clause for use in contracts for experimental, developmental, or research work.
9.204 Contract clauses; special.
9.204-1 Limitation on Government's right of publication for sale to the general public.
9.204-2 Production of motion pictures.
9.204-3 Histories and other works.
9.205 Contracts for acquisition of existing works.
9.205-1 Off-the-shelf purchase of books and similar items.
9.205-2 Contracts for existing motion pictures.
9.206 Contracts to be performed outside the United States.

Subpart C—Foreign License and Technical Assistance Agreements

9.301 General.
9.301-1 Background.
9.301-2 Policy.
9.302 Foreign license and technical assistance contracts between the Government and domestic concerns.
9.303 Supply contracts between the Government and second sources.
9.304 Foreign license and technical assistance agreements between domestic concern and foreign government or concern.
9.304-1 International traffic in arms regulations.
9.304-2 Review agreements.

AUTHORITY: §§ 9.000 to 9.304-2 issued under sec. 201, 55 Stat. 839, as amended, sec. 2202, 70A Stat. 120; 50 U. S. C. App. 611, 10 U. S. C. 2202. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U. S. C. 2301-2314, E. O. 9001, 6 F. R. 6787, as amended by E. O. 9296, 8 F. R. 1429, 3 CFR, 1943 Cum. Supp.

§ 9.000 Scope of part.

This part sets forth policies, instructions and contract clauses pertaining to patents and copyrights in connection with the procurement of supplies and services.

Subpart A—Patents

§ 9.100 Scope of subpart.

This subpart prescribes contract clauses and instructions which define and implement the policy of the Department of Defense with respect to—

(a) Inventions relating to experimental, developmental, or research work performed under Government contracts.

(b) Patent infringement liability resulting from work performed under Government contracts.

(c) Patent royalties payable in connection with the performance of Government contracts.

(d) Security requirements covering patent applications containing classified subject matter filed by contractors.

§ 9.101 [Reserved]

§ 9.102 Authorization and consent.

(a) Under 28 U.S. Code 1498, any suit for infringement of a patent based on the manufacture or use of a patented invention for the Government by a contractor or by a subcontractor (including lower-tier subcontractors) can be maintained only against the Government in the Court of Claims, and not against the contractor or subcontractor, in those cases where the Government has authorized or consented to the manufacture or use of the patented invention. Accordingly, in order that work by a contractor or subcontractor under a Government contract may not be enjoined by reason of patent infringement, authorization and consent may be given as herein provided. The liability of the Government for damages in any such suit against it may, however, ultimately be borne by the contractor or subcontractor in accordance with the terms of any patent indemnity clause also included in the contract, and an authorization and consent clause does not detract from any patent indemnification commitment by the contractor or subcontractor. Therefore, both a patent indemnity clause and an authorization and consent clause may be included in the same contract.

§ 9.102-1 Authorization and consent in contracts for supplies.

The contract clause set forth below may be included in all contracts for supplies (including construction work), except that it shall not be used:

(a) When prohibited by § 9.104; or

(b) In contracts exclusively for experimental, developmental, or research work which are subject to the provisions of § 9.102-2.

AUTHORIZATION AND CONSENT (JAN. 1955)

The Government hereby gives its authorization and consent (without prejudice to its rights of indemnification, if such rights are provided for in this contract) for all use and manufacture, in the performance of this contract or any part hereof or any amendment hereto or any subcontract hereunder (including any lower-tier subcontract), of any patented invention (i) embodied in the structure or composition of any article the delivery of which is accepted by the Government under this contract, or (ii) utilized in the machinery, tools, or methods the use of which necessarily results from compliance by the Contractor or the using subcontractor with (a) specifications or written provisions now or hereafter forming a part of this contract, or (b) specific written instructions given by the Contracting Officer directing the manner of performance. The Contractor's entire liability to the Government for patent infringement shall be determined solely by the provisions of the indemnity clause, if any, included in the contract and the Government assumes liability for all other infringement to the extent of the authorization and consent hereinabove granted.

§ 9.102-2 Authorization and consent in contracts for research or development.

Greater latitude in the use of patented inventions is to be allowed in a contract for experimental, developmental, or research work than in a contract for supplies. Unless prohibited by § 9.104, the clause set forth below shall be included in all contracts calling exclusively for experimental, developmental, or research work, and may be included in contracts calling for both supplies and experimental, developmental, or research work. If the clause set forth below is included in a contract, the clause in § 9.102-1 shall not be included.

AUTHORIZATION AND CONSENT (JAN. 1955)

The Government hereby gives its authorization and consent for all use and manufacture of any patented invention in the performance of this contract or any part hereof or any amendment hereto or any subcontract hereunder (including any lower-tier subcontract).

§ 9.103 Patent indemnification of Government by contractor.

In order that the Government may be reimbursed for liability for patent infringement arising out of or resulting from the performance of construction contracts or contracts for supplies which normally are or have been sold or offered for sale to the public in the commercial open market, or which are the same as such supplies with a relatively minor modification thereof, clauses providing for indemnification of the Government are to be included in such contracts in accordance with the instructions preceding the clauses set forth below. A patent indemnity clause shall not be used in contracts under the following circumstances:

(a) Where the contract is for supplies which clearly are not or have not been sold or offered for sale to the public in the commercial open market. However, even in the foregoing instance, a patent indemnity clause may be included where (1) in the case of contracts to be awarded by formal advertising it is desired to obtain an indemnity as to components and spare parts so sold or offered for sale, in which case the clause in § 9.103-2 may be used; or (2) in the case of contracts to be awarded either by formal advertising or negotiation, a patent owner contends that the prospective procurement would infringe his patent and the low bidder or offeror is willing to indemnify the Government as to such patent without increase in price on the basis that the patent is invalid or not infringed, or for other good reasons (see § 2.407-8 of this chapter); or

(b) Where both performance and delivery are to be outside the United States, its Territories, its possessions, or Puerto Rico, unless the contract indicates that the supplies are ultimately to be shipped into the United States, its Territories, its possessions, or Puerto Rico, in which case the instructions of §§ 9.103-1, 9.103-2, or 9.103-3 are applicable; or

(c) Where the contract is for an amount of $5,000 or less, except that, as a matter of administrative convenience, the clause need not be deleted where it is a part of a standard form being used for contracts of $5,000 or less, since it is self-deleting as to such contracts.

§ 9.103-1 Patent indemnification in formally advertised contracts; commercial status predetermined.

(a) Except as prohibited by § 9.103, the clause set forth below is appropriate in formally advertised construction contracts and shall be included in formally advertised contracts for supplies when it has been determined in advance of issuing the invitation for bids that the supplies (or such supplies apart from relatively minor modifications to be made thereto) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market.

PATENT INDEMNITY (PREDETERMINED) (JAN. 1955)

If the amount of this contract is in excess of $5,000, the Contractor shall indemnify the Government and its officers, agents, and employees against liability, including costs, for infringement of any United States letters patent (except letters patent issued upon an application which is now or may hereafter be kept secret or otherwise withheld from issue by order of the Government) arising out of the manufacture or delivery of supplies or out of construction, alteration, modification, or repair of real property (hereinafter referred to as "construction work") under this contract, or out of the use or disposal by or for the account of the Government of such supplies or construction work. The foregoing indemnity shall not apply unless the Contractor shall have been informed as soon as practicable by the Government of the suit or action alleging such infringement, and shall have been given such opportunity as is afforded by applicable laws, rules, or regulations to participate in the defense thereof; and further, such indemnity shall not apply if: (i) the infringement results from compliance with specific written instructions of the Contracting Officer directing a change in the supplies to be delivered or in the materials or equipment to be used, or directing a manner of performance of the contract not normally used by the Contractor; or (ii) the infringement results from the addition to, or change in, the supplies furnished or construction work performed, which addition or change was made subsequent to delivery or performance by the Contractor; or (iii) the claimed infringement is settled without the consent of the Contractor, unless required by final decree of a court of competent jurisdiction.

(b) Certain supply contracts call only in part for items which normally are or have been sold or offered for sale by any supplier to the public in the commercial open market, or such items with relatively minor modifications. For the purpose of excluding from patent indemnification such specific items as normally are not or have not been sold or offered for sale by any supplier to the public in the commercial open market, the following sentence may be added to the end of the clause set forth in paragraph (a) of this section:

The foregoing shall not apply to the following contract items:
(List the items to be excluded)

§ 9.103-2 Patent indemnification in formally advertised contracts—commercial status not predetermined.

Except as prohibited by § 9.103, the clause set forth below is appropriate in (a) formally advertised construction contracts and (b) formally advertised contracts for supplies or component parts thereof when it is not determined in advance of issuing the invitation for bids that such supplies or component parts (or such supplies or component parts apart from relatively minor modifications to be made thereto) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market:

PATENT INDEMNITY (NOT PREDETERMINED)

If the amount of this contract is in excess of $5,000, the Contractor shall indemnify the Government and its officers, agents, and employees against liability, including costs, for infringement of any United States letters patent (except letters patents issued upon an application which is now or may hereafter be kept secret or otherwise withheld from issue by order of the Government) arising out of the manufacture or delivery of supplies or component parts thereof, or out of construction, alteration, modification, or repair of real property (hereinafter referred to as "construction work") under this contract, or out of the use or disposal by or for the account of the Government, of such supplies, construction work, or component parts thereof, which supplies or component parts either normally are or have been sold or offered for sale to, and which construction work normally is of a type performed for, the public in the commercial open market by any supplier on or before the date set for opening of bids, or are such supplies, construction work, or component parts thereof, with relatively minor modifications made thereto. The foregoing indemnity shall not apply unless the Contractor shall have been informed as soon as practicable by the Government of the suit or action alleging such infringement, and shall have been given such opportunity as is afforded by applicable laws, rules, or regulations to participate in the defense thereof; and further, such indemnity shall not apply if: (i) the infringement results from compliance with specific written instructions of the Contracting Officer directing a change in the supplies to be delivered or in the materials or equipment to be used, or directing a manner of performance of the contract not normally used by the Contractor; or (ii) the infringement results from addition to, or change in, such supplies or components furnished or construction work performed which addition or change was made subsequent to delivery or performance by the Contractor; or (iii) the claimed infringement is settled without the consent of the Contractor, unless required by final decree of a court of competent jurisdiction.

§ 9.103-3 Patent indemnification in negotiated contracts.

A patent indemnity clause is not required to be included in negotiated contracts, but may be included in negotiated construction contracts and, except as otherwise authorized in § 9.103(a)(2), may be included in negotiated contracts for supplies only where such supplies normally are or have been sold or offered for sale by the contractor to the public in the commercial open market, or are such supplies with relatively minor modifications made thereto. Ordinarily, it should be quite feasible for the contracting officer to determine, in consultation with the contractor, whether the supplies being purchased normally are on sale or have been sold or offered for sale by the contractor to the public in the commercial open market.

(a) Subject to the foregoing and to the prohibitions in § 9.103, the clause set forth in § 9.103-1 (a) is approved for use in negotiated contracts for construction work or supplies.

(b) Certain supply contracts call only in part for items which normally are or have been sold or offered for sale by the contractor to the public in the commercial open market, or such items with relatively minor modifications. For the purpose of excluding from patent indemnification such specific items as normally are not or have not been sold or offered for sale by the contractor to the public in the commerical open market, the following sentence may be added to the end of the clause approved for use in paragraph (a) of this section.

The foregoing shall not apply to the following contract items:
(List the items to be excluded)

§ 9.103-4 Waiver of indemnity by the Government.

In the event that it is desired to exempt one or more specified United States patents from the indemnification provisions of the preceding clauses, authority shall first be obtained from the Secretary concerned or his authorized representative, and the following clause shall be included in the contract, in addition to the patent indemnity clause:

WAIVER OF INDEMNITY (JAN. 1955)

Any provision of this contract to the contrary notwithstanding, the Government hereby authorizes and consents to the use and manufacture, solely in the performance

of this contract, of any invention covered by the United States patents identified and listed below, and waives indemnification by the Contractor with respect to such patents: (Identify the patents by number or by other means if more appropriate)

§ 9.104 Notice and assistance.

The Government should be notified by the contractor of all claims of infringement in connection with the performance of a Government contract which come to the contractor's attention. The contractor should also assist the Government, to the extent of evidence and information in the possession of the contractor in connection with any suit against the Government, or any claim against the Government made before suit has been instituted, on account of any alleged patent infringement arising out of or resulting from the performance of the contract. Accordingly, the clause set forth below shall be included in all contracts in excess of $10,000 for supplies, construction, or experimental, developmental, or research work; except where Standard Form 32 is prescribed for use (in which case the clause may in the discretion of the contracting officer be used in lieu of that included in Standard Form 32): *Provided*, That the clause set forth below shall not be included in contracts—

(a) Where both performance and delivery are to be outside the United States, its Territories, its possessions, or Puerto Rico, unless the contract indicates that the supplies are ultimately to be shipped into the United States, its Territories, its possessions, or Puerto Rico; or,

(b) Of $10,000 or less, except that as a matter of administrative convenience, the clause need not be deleted when it is a part of a standard form being used for such contracts, since it is self-deleting:

NOTICE AND ASSISTANCE REGARDING PATENT INFRINGEMENT (OCT. 1958)

The provisions of this clause shall be applicable only if the amount of this contract exceeds $10,000.

(a) The Contractor shall report to the Contracting Officer, promptly and in reasonable written detail, each notice or claim of patent infringement based on the performance of this contract of which the Contractor has knowledge.

(b) In the event of any suit against the Government, or any claim against the Government made before suit has been instituted, on account of any alleged patent infringement arising out of the performance of this contract or out of the use of any supplies furnished or work or services performed hereunder, the Contractor shall furnish to the Government, upon request, all evidence and information in possession of the Contractor pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Government except in those cases in which the Contractor has agreed to indemnify the Government against the claim being asserted.

§ 9.105 Processing of infringement claims.

The Military Departments shall process claims for alleged unauthorized use of inventions in accordance with instructions of each respective Military Department.

§ 9.106 Classified contracts.

Unauthorized disclosure of classified subject matter, whether in patent applications or resulting from the issuance of a patent, may be a violation of 18 U.S. Code 791 et seq. (Espionage and Censorship) and related statutes and may be contrary to the interests of national security. Accordingly, except as otherwise provided in § 9.106–1, the following clause shall be included in every classified contract and in every unclassified contract which covers or is likely to cover classified subject matter:

FILING OF PATENT APPLICATIONS (JAN. 1955)

(a) Before filing or causing to be filed a patent application disclosing any subject matter of this contract, which subject matter is classified "Secret" or higher, the Contractor shall, citing the thirty (30) day provision below, transmit the proposed application to the Contracting Officer for determination whether, for reasons of national security, such application should be placed under an order of secrecy or sealed in accordance with the provisions of 35 U. S. Code 181–188 or the issuance of a patent should be otherwise delayed under pertinent statutes or regulations; and the Contractor shall observe any instructions of the Contracting Officer with respect to the manner of delivery of the patent application to the U. S. Patent Office for filing, but the Contractor shall not be denied the right to file such patent application. If the Contracting Officer shall not have given any such instructions within thirty (30) days from the date of mailing or other transmittal of the proposed application, the Contractor may file the application.

(b) The Contractor shall furnish to the Contracting Officer, at the time of or prior to the time when the Contractor files or causes to be filed a patent application disclosing any subject matter of this contract, which subject matter is classified "Confidential," a copy of such application for determination whether, for reasons of national security, such application should be placed under an order of secrecy or the issuance of a patent should be otherwise delayed under pertinent statutes or regulations.

(c) In filing any patent application coming within the scope of this clause, the Contractor shall observe all applicable security regulations covering the transmission of classified subject matter.

§ 9.106–1 Classified contracts to be performed outside the United States.

The following clause shall be included in classified contracts and in every unclassified contract which covers or is likely to cover classified subject matter where the work is to be performed outside the United States, its Territories, its possessions, or Puerto Rico, regardless of the place of delivery:

FILING OF PATENT APPLICATIONS (FOREIGN) (JAN. 1958)

While and so long as any subject matter of this contract is classified for reasons of security, the Contractor shall not file, or cause to be filed, in any country, an application or registration for a patent containing any of said subject matter without first obtaining written approval of the Contracting Officer.

§ 9.107 Patent rights.

§ 9.107–1 General.

(a) Under any contract or modification thereof having experimental, developmental, or research work as one of its purposes, the Government should receive a royalty-free, nonexclusive license to practice or have practiced any inventions conceived or first actually reduced to practice in the course of performing such work or in the course of performing any prior experimental developmental, or research work done upon the understanding in writing that a contract would be awarded. The contract cost or price should in no event be increased merely by reason of the inclusion of a patent rights clause.

(b) Except as expressly provided in § 9.107, and except with respect to contracts to be performed outside the United States, its Territories, its possessions, or Puerto Rico, patent license rights shall not be requested in the negotiation of contracts (other than contracts where the primary item of procurement is a license under or an assignment of a patent). It is the policy of the Department of Defense, except as otherwise provided in paragraph (a) of this section, to pay a reasonable compensation for the use of a valid patent enforceable against the Government, but the questions of infringement, validity, and enforceability of the patent shall be determined by personnel having cognizance of patent matters for the Department concerned.

§ 9.107–2 License rights; domestic contracts.

(a) *Exclusion of inventions from the license grant.* Upon request of the contractor, the contracting officer shall carefully consider and may exclude from the grant in the Patent Rights clause any invention which has not been actually reduced to practice, if it is covered by a United States patent issued or application for patent filed by or on behalf of the contractor prior to the award of a contract when he finds one or more of the following circumstances to be established:

(1) The contractor has expended sums in developing the invention (as represented by research and development costs and expenses for preparing and prosecuting the patent application) which are relatively large in comparison to the amount of the proposed contract or such portion of the proposed contract amount as can be allocated in advance for the development of such an invention (in determining the sums expended by the contractor there shall be included only amounts which can be allocated to the invention which is to be excluded; such sums shall not include the entire cost of a research department or program which cannot be allocated as above provided);

(2) The practicability of such an invention has been established as by engineering design;

(3) The invention covers a basic material and it is not the purpose of the contract to develop such material; or

(4) The invention is useful only for military purposes and the contractor does not have facilities for furnishing the item to the Government in production quantities.

Any inventions to be excluded from the license grant by reason of the foregoing circumstances shall be specifically identified and listed in the contract Schedule.

(b) *Contract clause.* The clause set forth below shall be included in every contract having as one of its purposes experimental, developmental, or research work which is to be performed within the United States, its Territories, its possessions, or Puerto Rico, except as provided in § 9.107–7 with respect to contracts on behalf of the National Aeronautics and Space Administration. See § 16.809 of this chapter for an approved form for optional use by contractors in reporting information required by paragraphs (c)(ii), (c)(iii), and (h) of the clause. In the administration of paragraph (e) of the clause, a request for conveyance of foreign rights to the Government is not required when the contractor does not file an application for patent in a foreign country under the conditions provided in that paragraph, unless the Government intends to apply for such patent.

PATENT RIGHTS (MAR. 1960)

(a) As used in this clause, the following terms shall have the meanings set forth below:

(i) The term "Subject Invention" means any invention, improvement, or discovery (whether or not patentable) conceived or first actually reduced to practice either—

(A) In the performance of the experimental, developmental, or research work called for or required under this contract; or

(B) In the performance of any experimental, developmental, or research work relating to the subject matter of this contract which was done upon an understanding in writing that a contract would be awarded: *Provided*, That the term "Subject Invention" shall not include any invention which is specifically identified and listed in the Schedule for the purpose of excluding it from the license granted by this clause.

(ii) The term "Technical Personnel" means any person employed by or working under contract with the Contractor (other than a subcontractor whose responsibilities with respect to rights accruing to the Government in inventions arising under subcontracts set forth in (g), (h), and (i) below) who, by reason of the nature of his duties in connection with the performance of this contract, would reasonably be expected to make inventions.

(iii) The terms "subcontract" and "subcontractor" mean any subcontract or subcontractor of the Contractor, and any lower-tier subcontract or subcontractor under this contract.

(b)(1) The Contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive, nontransferable, and royalty-free license to practice, and cause to be practiced by or for the United States Government, throughout the world, each Subject Invention in the manufacture, use, and disposition according to law, of any article or material, and in the use of any method. Such license includes the practice of Subject Invention in the manufacture, use, and disposition of any article or material, in the use of any method, or in the performance of any service acquired by or for the Government or with funds derived through Mutual Security Program of the Government or otherwise through the Government. No license granted herein shall convey any right to the Government to manufacture, have manufactured, or use any Subject Invention for the purpose of providing services or supplies to the general public in competition with the Contractor or the Contractor's commercial licensees in the licensed fields.

(2) With respect to:

(i) Any Subject Invention made by other than Technical Personnel;

(ii) Any Subject Invention conceived prior to, but first actually reduced to practice in the course of, any of the experimental, developmental, or research work specified in (a)(1) above; and

(iii) The practice of any Subject Invention in foreign countries; the obligation of the Contractor to grant a license as provided in (b)(1) above, to convey title as provided in (d)(ii)(B) or (d)(iv) below, and to convey foreign rights as provided in (e) below, shall be limited to the extent of the Contractor's right to grant the same without incurring any obligation to pay royalties or other compensation to others solely on account of said grant. Nothing contained in this Patent Rights clause shall be deemed to grant any license under any invention other than a Subject Invention.

(c) The Contractor shall furnish to the Contracting Officer the following information and reports concerning Subject Inventions which reasonably appear to be patentable:

(i) A written disclosure promptly after conception or first actual reduction to practice of each such Invention together with a written statement specifying whether or not a United States patent application claiming the Invention has been or will be filed by or on behalf of the Contractor;

(ii) Interim reports at least every twelve months, commencing with the date of this contract, each listing all such Inventions conceived or first actually reduced to practice more than three months prior to the date of the report, and not listed on a prior interim report, or certifying that there are no such unreported Inventions; and

(iii) Prior to final settlement of this contract, a final report listing all such Inventions including all those previously listed in interim reports.

(d) In connection with each Subject Invention referred to in (c)(i) above, the Contractor shall do the following:

(i) If the Contractor specifies that a United States patent application claiming such Invention will be filed, the Contractor shall file or cause to be filed such application in due form and time; however, if the Contractor, after having specified that such an application would be filed, decides not to file or cause to be filed said application, the Contractor shall so notify the Contracting Officer at the earliest practicable date and in any event not later than eight months after first publication, public use or sale.

(ii) If the Contractor specifies that a United States patent application claiming such Invention has not been filed and will not be filed (or having specified that such an application will be filed thereafter notifies the Contracting Officer to the contrary), the Contractor shall:

(A) Inform the Contracting Officer in writing at the earliest practicable date of any publication of such Invention made by or known to the Contractor or, where applicable, of any contemplated publication by the Contractor, stating the date and identity of such publication or contemplated publication; and

(B) Convey to the Government the Contractor's entire right, title, and interest in of any contemplated publication by the Contractor, stating the date and identity of such duly executed instruments (prepared by the Government) of assignment and application, and such other papers as are deemed necessary to vest in the Government the Contractor's right, title, and interest aforesaid, and the right to apply for and prosecute patent applications covering such Invention throughout the world, subject, however, to the rights of the Contractor in foreign applications as provided in (e) below, and subject further to the reservation of a nonexclusive and royalty-free license to the Contractor (and to its existing and future associated and affiliated companies, if any, within the corporate structure of which the Contractor is a part) which license shall be assignable to the successor of that part of the Contractor's business to which such Invention pertains;

(iii) The Contractor shall furnish promptly to the Contracting Officer on request an irrevocable power of attorney to inspect and make copies of each United States patent application filed by or on behalf of the Contractor covering any such Invention;

(iv) In the event the Contractor, or those other than the Government deriving rights from the Contractor, elects not to continue prosecution of any such United States patent application filed by or on behalf of the Contractor, the Contractor shall so notify the Contracting Officer not less than sixty days before the expiration of the response period and, upon written request, deliver to the Contracting Officer such duly executed instruments (prepared by the Government) as are deemed necessary to vest in the Government the Contractor's entire right, title, and interest in such Invention and the application, subject to the reservation as specified in (d)(ii) above; and

(v) The Contractor shall deliver to the Contracting Officer duly executed instruments fully confirmatory of any license rights herein agreed to be granted to the Government.

(e) The Contractor, or those other than the Government deriving rights from the Contractor, shall, as between the parties hereto, have the exclusive right to file applications on Subject Inventions in each foreign country within:

(i) Nine months from the date a corresponding United States application is filed;

(ii) Six months from the date permission is granted to file foreign applications where such filing had been prohibited for security reasons; or

(iii) Such longer period as may be approved by the Contracting Officer.

The Contractor shall, upon written request of the Contracting Officer convey to the Government the Contractor's entire right, title, and interest in each Subject Invention in each foreign country in which an application has not been filed within the time above specified, subject to the reservation of a nonexclusive and royalty-free license to the Contractor together with the right of the Contractor to grant sublicenses, which license and right shall be assignable to the successor of that part of the Contractor's business to which the Subject Invention pertains.

(f) If the Contractor fails to deliver to the Contracting Officer the interim reports required by (c)(ii) above, or fails to furnish the written disclosures for all Subject Inventions required by (c)(i) above shown to be due in accordance with any interim report delivered under (c)(ii) or otherwise known to be unreported, there shall be withheld from payment until the Contractor shall have corrected such failures either ten percent (10%) of the amount of this contract, as from time to time amended, or five thousand dollars ($5,000), whichever is less. After payment of eighty percent (80%) of the amount of this contract, as from time to time amended, payment shall be withheld until a reserve of either ten percent (10%) of such amount, or five thousand dollars ($5,000), whichever is less, shall have been set aside, such reserve or balance thereof to be retained until the Contractor shall have furnished to the Contracting Officer:

(i) The final report required by (c)(iii) above;

(ii) Written disclosures for all Subject Inventions required by (c)(i) above which are shown to be due in accordance with interim reports delivered under (c)(ii) above, or in accordance with such final reports, or are otherwise known to be unreported; and

(iii) The information as to any subcontractor required by (h) below.

The maximum amount which may be withheld under this paragraph (f) shall not exceed ten percent (10%) of the amount of this contract or five thousand dollars ($5,000), whichever is less, and no amount shall be withheld under this paragraph (f) when the amount specified by this paragraph (f) is being withheld under other provisions of this contract. The withholding of any amount or subsequent payment thereof to the Contractor shall not be construed as a waiver of any rights accruing to the Government under this contract. This paragraph (f) shall not be construed as requiring the Contractor to withhold any amounts from a subcontractor to enforce compliance with the patent provisions of a subcontract.

(g) The Contractor shall exert all reasonable effort in negotiating for the inclusion of a patent rights clause containing all the provisions of this Patent Rights clause except provisions (f) and (i) in any subcontract hereunder of three thousand dollars ($3,000) or more having experimental, developmental, or research work as one of its purposes. In the event of refusal by a subcontractor to accept such a patent rights clause, the Contractor shall not proceed with the subcontract without written authorization of the Contracting Officer or unless there has been a waiver of the requirement as hereinafter provided. The Contractor, if unable to comply with the requirement that such a patent rights clause be included in a subcontract after exerting all reasonable effort to do so, may submit to the Contracting Officer a written request for waiver or modification of such requirement. If, within thirty-five (35) days after the receipt of such request, the Contracting Officer does not mail or otherwise furnish the Contractor written denial of such request or notification that the Government requests the Contractor's cooperation with the Government, which the Contractor agrees to provide, in negotiating with the subcontractor for the acceptance of a suitable patent rights clause, the requirement shall be deemed to have been waived by the Contracting Officer as to all patent rights provisions with respect to Subject Inventions, except such provisions, if any, relating to the production or utilization of special nuclear material or atomic energy. Such request shall specifically state that the Contractor has used all reasonable effort to comply with said requirement and shall cite the waiver provision hereinabove set forth. The Contractor is not required, when negotiating with a subcontractor, to obtain in behalf of the Government any rights in Subject Inventions other than as provided herein. However, the Contractor is not precluded from separately negotiating with a subcontractor for rights in Subject Inventions for the Contractor's own behalf, but any costs so incurred shall not be considered as an allowable charge or cost under this contract. Reports, instruments, and other information required to be furnished by a subcontractor to the Contracting Officer under the provisions of such a patent rights clause in a subcontract hereunder may, upon mutual consent of the Contractor and the subcontractor (or by direction of the Contracting Officer) be furnished to the Contractor for transmission to the Contracting Officer.

(h) The Contractor shall, at the earliest practicable date, notify the Contracting Officer in writing of any subcontract containing one or more patent rights clauses; furnish the Contracting Officer a copy of each of such clauses; and notify the Contracting Officer when such subcontract is completed. It is understood that with respect to any subcontract clause granting rights to the Government in Subject Inventions, the Government is a third party beneficiary; and the Contractor hereby assigns to the Government all the rights that the Contractor would have to enforce the subcontractor's obligations for the benefit of the Government with respect to Subject Inventions. If there are no subcontracts containing patent rights clauses, a negative report is required. The Contractor shall not be obligated to enforce the agreements of any subcontractor hereunder relating to the obligations of the subcontractor to the Government in regard to Subject Inventions.

(i) When the Contractor shows that it has been delayed in the performance of this contract by reason of the Contractor's inability to obtain, in accordance with the requirements of (g) above, the prescribed or other authorized suitable patent rights clause from a qualified subcontractor for any item or service required under this contract for which the Contractor itself does not have available facilities or qualified personnel, the Contractor's delivery dates shall be extended for a period of time equal to the duration of such delay. Upon request of the Contractor, the Contracting Officer shall determine to what extent, if any, an additional extension of the delivery dates and increase in contract prices based upon additional costs incurred by such delay are proper under the circumstances; and the contract shall be modified accordingly.

(j) The Contractor recognizes that the Government, or a foreign government with funds derived through the Mutual Security Program or otherwise through the United States Government, may contract for property or services with respect to which the vendor may be liable to the Contractor for royalties for the use of a Subject Invention on account of such a contract. The Contractor further recognizes that it is the policy of the Government not to pay in connection with its contracts, or to allow to be paid in connection with contracts made with funds derived through the Mutual Security Program or otherwise through the United States Government, charges for use of patents in which the Government holds a royalty-free license. In recognition of this policy, the Contractor agrees to participate in and make appropriate arrangements for the exclusion of such charges from such contracts or for the refund of amounts received by the Contractor with respect to any such charges not so excluded.

§ 9.107–3 License rights—foreign contracts.

A patent rights clause shall be included in every contract having as one of its purposes experimental, developmental, or research work which is to be performed outside the United States, its Territories, its possessions, or Puerto Rico. The clause set forth below may be used except as provided in § 9.107–7 with respect to contracts on behalf of the National Aeronautics and Space Administration; however, any other clause tailored to meet requirements peculiar to foreign procurement may be used in lieu thereof: *Provided,* It incorporates the principles of the clause below, except that principles of paragraphs (c) and (d) thereof may be omitted if, in the opinion of the contracting officer (on a case-by-case basis), the inclusion of withholding or other enforcement provisions is neither desirable nor necessary.

PATENT RIGHTS (OCT. 1958)

(a) The Contractor agrees to and does hereby grant to the United States Government an irrevocable, nonexclusive, nontransferable, and royalty-free license to practice and cause to be practiced, by or for the United States Government, throughout the world, in the manufacture, use and disposition of any article or material, and in the use of any method, each invention (whether or not patentable) conceived or made in the performance of the experimental, developmental or research work called for or required under this contract.

(b) With respect to inventions referred to in (a) above, the Contractor:

(i) Shall submit to the Contracting Officer, promptly after the conception or making of each such invention, a descriptive written disclosure thereof, and shall specify concurrently with the submission of each disclosure whether or not a patent application has been filed or will be filed by or on behalf of the Contractor and in which countries such application has been or will be filed;

(ii) Shall upon request deliver to the Contracting Officer duly executed instruments fully confirmatory of the license rights granted in (a) above; but failure to execute such an instrument shall in no way detract from the license granted in (a) above;

(iii) Shall inform the Contracting Officer in writing at the earliest practicable date of any publication thereof made by or known to the Contractor or, where applicable, of any contemplated publication by the Contractor, stating the date and identity of such publication or contemplated publication;

(iv) Has, as between the parties hereto, the exclusive right except as hereinafter provided, to file a patent application thereon not later than nine (9) months after the date of submission to the Contracting Officer of the disclosure required in (i) above, or the date of first publication or public use or sale by or for the Contractor, whichever of such dates is earlier. Upon request of the Contractor, the nine-months period may be extended by the Contracting Officer. No patent application shall be filed by other than the United States Government, without the prior consent of the Contracting Officer, in any country and on any invention with respect to which the Contractor has either specified that it will not file an application or has not filed within the period set forth in this paragraph after having specified that it will file;

(v) Shall inform the Contracting Officer immediately of the filing of a patent application in any country, identifying the country or countries in which such filing occurs and the date and serial number of the application, and shall furnish a copy of each such application;

(vi) Shall notify the Contracting Officer promptly of an election to abandon any patent application filed thereon, whether by discontinuing the prosecution of the application or otherwise, and shall not proceed with such abandonment for a period of sixty (60) days after the date of such notice unless otherwise authorized in writing by the Contracting Officer;

(vii) Shall, upon written request of the Contracting Officer, execute and deliver an instrument conveying to the United States Government all right, title, and interest in each such invention in each country in which an application for patent either has not been filed within the time period specified in (iv) above or, if filed, is the subject of the notification referred to in (vi) above: *Provided,* That such conveyance shall be subject to the reservation of a nonexclusive and royalty-free license to the Contractor in countries other than the Contractor's own country and the United States together with the right of the Contractor to grant sublicenses in such other countries;

(viii) Shall enter into such arrangements, by contract or otherwise, with its employees and subcontractors as may be necessary to insure that the Contractor will be able to comply with this Patent Rights clause; and

(ix) shall, prior to final settlement of this contract, notify the Contracting Officer in writing in the event that no inventions are conceived or made in the performance of the experimental, developmental or research work called for or required under this contract.

(c) If the Contractor fails to deliver to the Contracting Officer the disclosures required by (b) (i) above, there shall be withheld from payment, until the Contractor shall have corrected such failure, either ten percent (10%) of the amount of this contract as from time to time amended or five thousand dollars ($5,000), whichever is less. After payment of eighty percent (80%) of the amount of this contract as from time to time amended, payment shall be withheld until a reserve of either ten percent (10%) of the amount of this contract or five thousand dollars ($5,000), whichever is less, shall have been set aside; such reserve or balance thereof to be retained until the Contractor shall have furnished to the Contracting Officers the written disclosures, information, notices, and instruments required by (b) (ii), (b) (iii), (b) (v), (b) (vi), (b) (vii), and (b) (ix), above.

(d) The maximum amount which may be withheld under (c) above shall not exceed ten percent (10%) of the amount of this contract or five thousand dollars ($5,000), whichever is less, and no amount shall be withheld under the provision of (c) above when the amount specified therein is being withheld under other provisions of this contract. The withholding of any amount or subsequent payment thereof to the Contractor shall not be construed as a waiver of any rights accruing to the United States Government under this contract.

§ 9.107–4 Contracts relating to atomic energy.

(a) Except as provided in (b) below, the following paragraph shall be inserted as a part of the Patent Rights clause set forth in § 9.107–2 in all research or development contracts relating to atomic energy.

(j) With respect to any Subject Invention made by employees of the Contractor (except clerical and manual labor personnel who do not have access to technical data), and relating to the production or utilization of special nuclear material or atomic energy within the purview of the Atomic Energy Acts of 1946 (42 U. S. Code 1801–1819) and of 1954 (42 U. S. Code 2011–2296), the Contractor agrees:

(i) To furnish to the United States Atomic Energy Commission (hereinafter in this paragraph (j) referred to as "the Commission") through the Contracting Officer complete information regarding such Subject Invention, the Commission to have the sole and conclusive power to determine whether and where a patent application shall be filed, and to determine the disposition of the title to and rights under any such application or any patent that may issue thereon;

(ii) To obtain the execution of and deliver to the Commission, all documents relating to each such Subject Invention and to do all things necessary or proper to carry out any determination of the Commission, made under (j) (i) above;

(iii) Unless otherwise authorized in writing by the Commission to obtain patent agreements from all such employees to effectuate the purposes of this paragraph (j); and

(iv) Unless otherwise authorized in writing by the Commission, to insert this paragraph (j) in all subcontracts.

No claim for pecuniary award or compensation under the provisions of the Atomic Energy Acts of 1946 and 1954 shall be asserted by the Contractor or its employees with respect to any Subject Invention covered by this paragraph. (Dec. 1955)

(b) Where the work to be performed or the material or equipment to be furnished by the contractor is of such character that any such Subject Inventions that may be made will probably (1) relate only incidentally (and not directly) to some phase of the basic research or development work which the Atomic Energy Commission conducts or sponsors, (2) relate to a field or work in which the contractor has an established industrial and patent position, or (3) result from routine development or production work by the contractor, a provision authorizing the contractor to retain license rights may be incorporated in the paragraph set forth in paragraph (a) of this section. Any such provision or any deviation from the paragraph set forth in paragraph (a) of this section, which the Military Department concerned proposes to authorize, shall be forwarded in accordance with Departmental procedures to the Atomic Energy Commission for recommendation and shall not be authorized except with the concurrence of the Atomic Energy Commission.

§ 9.107–5 Contracts relating to civil defense.

In all contracts for experimental, developmental, or research work relating primarily to supplies or services intended for the general public for civil defense purposes, in lieu of paragraph (b) (1) of the Patent Rights clause prescribed in § 9.107–2(b), the paragraph set forth below—

(a) Shall be inserted in all such contracts entered into on behalf of and funded in whole by the Office of Defense and Civil Mobilization, unless such Office agrees to its exclusion; and

(b) May be inserted in all such contracts other than those in (a) above.

(b) (1) The Contractor agrees to and does hereby grant to the Government an irrevocable, nonexclusive, nontransferable, and royalty-free license to practice, and cause to be practiced by or for the United States Government, throughout the world, each Subject Invention in the manufacture, use, and disposition of any article or material, and in the use of any method; with the right in the Government to sublicense others to practice each Subject Invention in the manufacture, use and sale of any article or in the use of any method for the purpose of providing supplies or services to the general public in the furtherance of the nation's civil defense. (Jan. 1958)

§ 9.107–6 Patent license rights under product improvement programs or independent research programs.

Where a Military Department, under its established procedures, provides substantial financial support to a contractor's—

(a) Specific product improvement program; or

(b) Specific projects within its independent research program;

the Military Department may obtain for the Government patent license rights to inventions, improvements, or discoveries conceived or first actually reduced to practice during or as a result of such support: *Provided,* The obtaining of such rights and the contractual arrangements for such rights are approved in the Army and the Navy by the Head of the Procuring Activity concerned, and in the Air Force by the Deputy Director/Procurement, Headquarters, Air Materiel Command or by the Director of Procurement, Headquarters, Air Research and Development Command.

§ 9.107–7 Contracts placed for NASA.

(a) *"Property rights in inventions" clause.* (1) The National Aeronautics and Space Administration (NASA) will from time to time request the Departments to perform work on behalf of NASA. Such requests will state whether or not the NASA "Property Rights in Inventions" clause is required in any contract let by the Departments on behalf of NASA for the performance of the work. The following rules explain the use of patent rights clauses in such contracts.

(i) If the request states that the NASA "Property Rights in Inventions" clause is required in any resulting contract and the work to be performed is not severable and is funded wholly or in part by NASA, then the NASA "Property Rights in Inventions" clause and no other patent rights clause shall be included in the contract.

(ii) If the request states that the NASA "Property Rights in Inventions" clause is required in any resulting contract and the work to be performed under the contract is severable and is only in part for NASA, then the work which is on behalf of NASA shall be identified in the contract and the NASA "Property Rights in Inventions" clause shall be made applicable thereto. That portion of the work for a Department shall likewise be identified and the clause contained in § 9.107–2(b), or that in § 9.107–3, as appropriate, shall be made applicable to such portion if a patent rights clause is required by this part.

(iii) If the request states that the NASA "Property Rights in Inventions" clause is not required in any resulting contract and the work to be performed under the contract is not wholly on behalf of NASA, then the clause contained in § 9.107–2(b) or that in § 9.107–3, as appropriate, shall be used if a patent rights clause is required by this regulation.

(iv) If the request states that the NASA "Property Rights in Inventions" clause is not required in any resulting contract and such contract is wholly on behalf of NASA, then no patent rights clause shall be included in such contract.

(v) If the NASA "Property Rights in Inventions" clause is stated as a requirement in any such contract, the then current "Property Rights in Inventions" clause will be furnished with the request for work and, if not furnished, it must be obtained from NASA and included in the contract.

(2) The price of any contract described in subparagraph (1) of this paragraph shall in no event be increased by reason of the inclusion of any patent rights clause in the contract.

(b) *Deviations.* No deviations shall be made under § 1.109 in any NASA "Property Rights in Inventions" clause except in paragraph (g), (h), (ii), (i), (j), and (k) thereof. Deviations from these paragraphs are hereby authorized if they parallel either variations authorized by the Regulation from the corre-

sponding provisions of the Patent Rights clause of § 9.107–2(b), or deviations from such corresponding provisions which have been approved under § 1.109–3 of this chapter. Deviations other than those indicated above shall not be made without prior approval of NASA. Requests for such deviations, whether individual or blanket, shall be processed in accordance with § 1.109–3 of this chapter.

§ 9.108 Patent rights under contracts for personal services.

The following clause shall, except as otherwise provided in § 7.503–9 of this subchapter, be inserted in all personal services contracts for services to be performed by an individual as set forth in § 7.502 of this subchapter.

PATENTS (DEC. 1953)

(a) For the purpose of determining the rights of the Government and the Contractor in and to inventions, the Contractor agrees to be bound by all provisions of Executive Order 10096, dated 23 January 1950, and any orders, rules, regulations, or the like issued thereunder.

(b) The Contractor shall: (i) make written disclosure promptly to the Contracting Officer of all inventions of the Contractor which are conceived or first reduced to practice during the term of this contract, and sign and execute all papers necessary for conveying to the Government the rights to which the Government is entitled in accordance with the determination made under the provisions of Executive Order 10096, or (ii) certify to the Contracting Officer that, to the best of the Contractor's knowledge and belief, no inventions have been conceived or first reduced to practice during the term of this contract.

§ 9.109 Followup of patent rights.

Appropriate systems of followup in connection with contracts for experimental, developmental, or research work shall be maintained by the Military Departments in order that inventions in which the Government may have an interest may be properly identified and formal agreements evidencing the Government's rights therein shall be obtained.

§ 9.110 Reporting of royalties.

(a) (1) The Government has acquired license and other rights under a large number of inventions as the result of Government-sponsored research and development and in other ways. In order that the Government may determine whether the charging of royalties to the Government is inconsistent with the rights which the Government has acquired or is otherwise improper, and in order that negotiation for the reduction of excessive royalties may be undertaken, the Departments should be informed of royalties charged or to be charged in connection with the performance of Government contracts. DD Form 633, Cost and Price Analysis (see § 16.206), and DD Form 784, Cost Analysis for Contract Price Redetermination (see § 16.207), provide for reporting royalty information as required in (2) below. Royalty information generally should not be required in formally advertised procurements.

(2) (i) Where it is expected that the work may be performed in the United States, its Territories, its possessions, or Puerto Rico, any solicitation which may result in a negotiated contract estimated to exceed $10,000 shall contain a special provision substantially as follows:

ROYALTY INFORMATION (APR. 1959)

When the response to this solicitation contains costs or charges for royalties totaling more than $250, the following information shall be furnished with the offer, proposal, or quotation on each separate item of royalty or license fee:

(i) Name and address of licensor;

(ii) Date of license agreement;

(iii) Patent numbers, patent application serial numbers or other basis on which the royalty is payable;

(iv) Brief description, including any part or model numbers of each contract item or component or which the royalty is payable;

(v) Percentage or dollar rate of royalty per unit;

(vi) Unit price of contract item;

(vii) Number of units; and

(viii) Total dollar amount of royalties.

In addition, if specifically requested by the contracting officer prior to execution of the contract, a copy of the current license agreement and identification of applicable claims of specific patents shall be furnished.

(ii) Where the work is to be performed in the United States, its Territories, its possessions, or Puerto Rico, the contracting officer, upon receipt of an offer, proposal, or quotation, which includes a charge for royalties, shall, prior to award of the contract, forward the information called for by subdivision (i) of this subparagraph to the office having cognizance of patent matters for the procuring activity concerned. The cognizant office shall promptly advise the contracting officer as to appropriate action. The contracting officer shall then take action in respect to such royalties, having due regard to all pertinent factors relating to the proposed procurement.

(iii) Where subcontract work is to be performed in the United States, its Territories, its possessions, or Puerto Rico, the contracting officer, when considering approval of a subcontract, shall require the same information and take the same action with respect to such subcontracts in relation to royalties as required for prime contracts under subdivision (ii) of this subparagraph.

(b) A reporting of royalties clause is not required in contracts where the work is to be performed in the United States, its Territories, its possessions, or Puerto Rico. In negotiated contracts to be performed outside the United States, its Territories, its possessions or Puerto Rico, regardless of the place of delivery, the clause set forth below shall be included. See § 16.806 for an approved form for optional use by contractors in submitting the required report.

REPORTING OF ROYALTIES (FOREIGN) (JAN. 1958)

If this contract is in an amount which exceeds $50,000, the Contractor shall report in writing to the Contracting Officer during the performance of this contract the amount of royalties paid or to be paid by the Contractor directly to others in the performance of this contract. The Contractor shall also (i) furnish in writing any additional information relating to such royalties as may be requested by the Contracting Officer and (ii) insert a provision similar to this clause in any subcontract hereunder which involves an amount in excess of the equivalent of fifty thousand United States dollars.

§ 9.111 Adjustment of royalties.

If the contracting officer believes that any royalties paid, or to be paid, under a contract or prospective contract are unreasonable or otherwise improper, he should promptly report the matter to personnel having cognizance of patent matters for the procuring activity concerned. Such personnel shall review the royalties thus reported and such royalties as are reported under § 9.110. In coordination with the contracting officer, such personnel shall:

(a) Take prompt action to protect the Government against payment of royalties on supplies or services (1) with respect to which the Government has a royalty-free license, or (2) at a rate in excess of the rate at which the Government is licensed, or (3) where the royalties in whole or in part constitute an improper charge;

(b) In appropriate cases enter into negotiation for a voluntary reduction of royalties.

§ 9.112 [Reserved]

Subpart B—Data and Copyrights

§ 9.200 Scope of subpart.

This subpart sets forth the Department of Defense policy, implementing instructions, and contract clauses with respect to acquisition and use of data and copyrights. The policy and procedures set forth in this subpart apply to all data required to be delivered to the Government under a contract whether such data originates with the contractor or a subcontractor.

§ 9.201 Definitions.

For the purpose of this subpart, the following terms have the meanings set forth below:

(a) "Data" means writings, sound recordings, pictorial reproductions, drawings, or other graphic representations and works of any similar nature whether or not copyrighted. The term does not include financial reports, cost analyses, and other information incidental to contract administration.

(b) "Proprietary data" means data providing information concerning the details of a contractor's secrets of manufacture, such as may be contained in but not limited to its manufacturing methods or processes, treatment and chemical composition of materials, plant layout and tooling, to the extent that such information is not disclosed by inspection or analysis of the product itself and to the extent that the contractor has protected such information from unrestricted use by others.

(c) "Other data" means all data other than "proprietary data" and includes:

(1) Operational data which provides information suitable among other things for instruction, operation, maintenance, evaluation or testing; and

(2) Descriptive data which provides descriptive or design drawings or descriptive material in the nature of design specifications which, although not including any "proprietary data," may nevertheless be adequate to permit manufacture by other competent firms.

(d) "Standard commercial items" means supplies or services which normally are or have been sold or offered to the public commercially by any supplier.

§ 9.202 Acquisition and use of data.

§ 9.202–1 Acquisition of data.

(a) *General.* It is the policy of the Department of Defense to encourage inventiveness and to provide incentive therefor by honoring the "proprietary data" resulting from private developments and hence to limit demands for data to that which is essential for Government purposes. The activity responsible for initiating a purchase request, after consultation with the procurement activity whenever feasible, will carefully determine the use contemplated for the data to be acquired and will specify only such data as is determined to be necessary to satisfy such use. All data received by the Government under a contract shall be identified with the number of the contract under which it is furnished. This may be accomplished by any appropriate means. Generally it should not be necessary to obtain "proprietary data" to satisfy Government requirements. The acquisition of data from a subcontractor shall be governed by the nature and circumstances of the subcontract, it being the intent of the Department of Defense that in obtaining data originating with subcontractors, the contractor shall, insofar as carrying out his obligations under a prime contract is concerned, be guided by the same policies and procedures as if the subcontractor were contracting directly with the Government and should not request unlimited rights in "proprietary data" where such rights are not required by the Government under the prime contract.

(b) *Supply contracts and subcontracts thereunder.* In advertised contracts and in contracts and subcontracts for standard commercial items, "proprietary data" shall not be requested. "Proprietary data" will be obtained for the Government under other supply contracts and subcontracts thereunder only when a clear Government need for such data is established and in such event the requirement for "proprietary data" will be specified in the contract Schedule (see the clause in § 9.203–2). When "proprietary data" is obtained under supply contracts, there shall be a specific negotiation for such data and the contractual requirement shall be listed as a separate contract item.

(c) *Contracts for experimental, developmental, or research work and subcontracts thereunder.* In a contract which has as one of its principal purposes experimental, developmental, or research work and also calls for models of equipment or practical processes, the contractor shall be required to furnish to the Government for the price of the work all data resulting directly from performance of the contract, whether or not it would otherwise be "proprietary data." In addition, the contractor shall be required to furnish all data necessary to enable reproduction or, where appropriate, manufacture of the equipment or performance of the process which is developed, and the Schedule of the contract shall set forth the data required, subject to the exceptions set forth below:

(1) Such data shall not be required for standard commercial items to be furnished under the contract and to be incorporated as component parts in or to be used with the product or process being developed if in lieu thereof the contractor shall furnish identification of source and characteristics (including performance specifications, when necessary) sufficient to enable the Government to practice the process or to procure the part or an adequate substitute; and

(2) "Proprietary data" shall not be required for other items, including minor modifications thereof, which were developed at private expense and previously sold or offered for sale and which are to be incorporated as component parts in or to be used with the product or process being developed, if in lieu thereof the contractor shall identify such other items and that "proprietary data" pertaining thereto which is necessary to enable reproduction or manufacture of the item or performance of the process.

Where the contractor asserts and it is determined in the negotiation preceding the execution of the contract that the contractor has previously developed "proprietary data," other than that described in subparagraph (2) of paragraph (c) of this section, that such data will be used in the product or process developed under the contract, and that such product cannot readily be manufactured or the process practiced without the use of such previously developed "proprietary data," a suitable price (or provision therefor) may be negotiated: *Provided*, That the contractor requests payment for such data, and the Government does not have rights to such data (other than the "Limited Rights" provided for by the paragraph of § 9.203–3).

§ 9.202–2 Use of data.

(a) *Other data.* When data other than "proprietary data" is obtained, it shall be obtained without any limitation on its use by the Government.

(b) *"Proprietary data"*—(1) *Supply contracts.* When "proprietary data" is obtained by negotiation under a supply contract, in accordance with § 9.202–1 (b), the purposes for obtaining it will govern its use. If it is obtained for the purpose of enabling the Government to establish additional sources of supply, it shall be obtained without limitation as to its use; in such case the contract clause in §§ 9.203–1 and 9.203–2 shall be included in the contract and the requirement for the "proprietary data" will be specified in the contract Schedule. However, where it has been determined to be necessary to obtain "proprietary data" for some limited purpose, such as emergency manufacture by the Government, such data may be obtained subject to limitation as to its use; in such case the contract clause in §§ 9.203–1, 9.203–2 and 9.203–3 shall be included in the contract and the contract Schedule shall suitably identify the data which shall be subject to limited use.

(2) *Contracts for experimental, developmental, or research work.* When "proprietary data" is obtained under a contract having as one of its principal purposes experimental, developmental, or research work, in accordance with § 9.202–1 (c), it shall be obtained without limitation as to its use; in such case the contract clause in §§ 9.203–1 and 9.203–4 shall be included in the contract.

§ 9.202–3 Multiple sources of supplies.

The Government's interest in establishing multiple sources for supplies and services arises when it is necessary to (i) insure fulfillment of its current and mobilization requirements or (ii) permit competition for defense procurement to avoid unreasonable prices. The policies in this subpart provide one means for accomplishing this objective and are particularly effective where data, other than "proprietary data," acquired by the Government, is useable, without more, to obtain multiple sources. Where the use of "proprietary data" is necessary for the production of an item developed at private expense, it is the policy of the Department of Defense to honor the proprietary nature of such data since it is recognized that it is in the Government's interest to foster private development of items having military usefulness. Accordingly, "proprietary data," not otherwise obtained pursuant to the policy set out in § 9.202–1 (c), will be obtained by the Government for the purpose of establishing multiple sources only where such sources cannot otherwise be established. This should occur only in isolated cases as necessary to achieve the objectives in (i) and (ii). In preference to having the Government obtain "proprietary data" for the purpose of creating multiple sources, it is the policy to achieve these objectives to the extent possible through one of the following procedures:

(a) The acquisition by the Government of "proprietary data" developed at private expense may be unnecessary where the primary source is willing to establish other sources by direct contractor licensing arrangements without Government participation. Where complex technical equipment is involved and the establishment of a satisfactory second source will require, in addition to data, technical assistance from the primary source or Government facilities or other unusual assistance, Government participation in any licensing and technical assistance arrangements between contractors may be necessary to protect the Government's interest with respect to such factors, among others, as (1) investment in facilities, (2) competency of source, (3) timing of establishment of second sources, and (4) allocation of orders among sources.

(b) The acquisition of "proprietary data" developed at private expense may be avoided in many cases by providing for the development of suitable substitutes for such sole source items through the use of performance specifications.

No single method can be prescribed for meeting the second source problem; each situation must be handled on its own merits.

§ 9.202–4 Delivery of data for use in foreign countries.

Where the Department of Defense proposes to make available any data in its possession for use in a foreign country, it shall, to the maximum extent practicable, give reasonable notice thereof to the contractor who furnished the data: *Provided*, That the contractor has previously requested such notice in order to protect its foreign patent position.

§ 9.202–5 Copyrights.

It is the policy of the Department of Defense generally to reserve only a license under copyright on any copyrighted data, leaving the contractor free to copyright the material. With respect to certain data produced, written, or compiled for the Department of Defense, such as (a) motion pictures and works relating thereto, and (b) histories and other works relating to operation of the Department of Defense, the Government may desire that no adverse claim of copyright be established in such data, and that the Government's right to reproduce and use such data shall be unlimited.

§ 9.202–6 Data furnished on a restricted basis in support of a proposal.

When an offeror has submitted data on a restricted basis in accordance with § 3.109 of this chapter in response to a request for a proposal, and it is proposed to award the contract to such offeror, the contracting officer shall ascertain whether it is desired to acquire rights to use all or part of the data furnished with the proposal. If it is desired to acquire such rights, the contracting officer shall determine in accordance with § 9.201 whether such data is proprietary in nature, and shall negotiate with the offeror in accordance with the policy prescribed in § 9.202 for the acquisition and use of such data. If the offeror agrees to furnish such data under the contract, the appropriate clause of § 9.203 shall be inserted in the contract, and the Schedule shall identify the data to be covered by such clause.

§ 9.203 Contract clauses; general.

In every contract in which data is specified to be delivered, insert the clause of § 9.203–1, except that this clause shall not be used in contracts (a) for the acquisition of existing works, in accordance with § 9.205, (b) wherein the clause of § 9.204 is used in accordance with the provisions of §§ 9.204–2 and 9.204–3, (c) utilizing DD Forms 1261 and 1270 or DD Form 1155, unless the contract is solely for the procurement of data, or (d) to be performed outside the United States, its Territories, or possessions, or Puerto Rico where the clause of § 9.206 applies. The additional sections of §§ 9.203–2, 9.203–3, and 9.203–4 will be added to the clause of § 9.203–1, in accordance with § 9.202 and the instructions contained in §§ 9.203–2, 9.203–3, and 9.203–4.

§ 9.203–1 Basic data clause.

DATA (MAR. 1960)

(a) The term "Subject Data" as used herein includes writings, sound recordings, pictorial reproductions, drawings or other graphical representations, and works of any similar nature (whether or not copyrighted) which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and other information incidental to contract administration.

(b) The Contractor agrees to and does hereby grant to the Government, and to its officers, agents, and employees acting within the scope of their official duties, a royalty-free, nonexclusive and irrevocable license throughout the world for Government purposes to publish, translate, reproduce, deliver, perform, dispose of, and to authorize others so to do, all Subject Data now or hereafter covered by copyright; *provided*, that with respect to the Subject Data now or hereafter covered by copyright and not originated in the performance of this contract, such license shall be only to the extent that the Contractor, its employees, or any individual or concern specifically employed or assigned by the Contractor to originate and prepare such Data under this contract, now has, or prior to completion or final settlement of this contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(c) The Contractor shall exert all reasonable effort to advise the Contracting Officer, at the time of delivery of the Subject Data furnished under this contract, (i) of all invasions of the right of privacy contained therein and (ii) of all portions of such Data copied from work not composed or produced in the performance of this contract and not licensed under this clause.

(d) The Contractor shall report to the Contracting Officer, promptly and in reasonable written detail, each notice or claim of copyright infringement received by the Contractor with respect to all Subject Data delivered under this contract.

(e) Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or otherwise granted to the Government under any patent.

(f) Subject to the proviso of (b) above and unless otherwise limited below, the Government may duplicate, use, and disclose in any manner and for any purpose whatsoever, and have others so do, all Subject Data delivered under this contract.

(g) The Contractor recognizes that the Government, or a foreign government with funds derived through the Mutual Security Program or otherwise through the United States Government, may contract for property or services with respect to which the vendor may be liable to the Contractor for charges for the use of Subject Data on account of such a contract. The Contractor further recognizes that it is the policy of the Government not to pay in connection with its contracts, or to allow to be paid in connection with contracts made with funds derived through the Mutual Security Program or otherwise through the United States Government, charges for data which the Government has a right to use and disclose to others, or which is in the public domain, or with respect to which the Government has been placed in possession without restrictions upon its use and disclosure to others. This policy does not apply to reasonable reproduction, handling, mailing, and similar administrative costs incident to the furnishing of such data. In recognition of this policy, the Contractor agrees to participate in and make appropriate arrangements for the exclusion of such charges from such contracts or for the refund of amounts received by the Contractor with respect to any such charges not so excluded.

(h) Notwithstanding any provisions of this contract concerning inspection and acceptance, the Government shall have the right at any time to modify, remove, obliterate or ignore any marking not authorized by the terms of this contract on any piece of Subject Data furnished under this contract.

§ 9.203–2 Provision for addition to basic data clause for use in supply contracts.

The paragraph set forth below shall be added to the clause of § 9.203–1 in all supply contracts in which data is specified to be delivered. This paragraph shall not, however, be included in a contract having as one of its principal purposes experimental, developmental, or research work.

(i) Notwithstanding any Tables or Specifications included or incorporated in the contract by reference, "proprietary data" need not be furnished unless suitably identified in the Schedule of the contract as being required. For the purpose of this clause, "proprietary data" means data providing information concerning the details of a Contractor's secrets of manufacture, such as may be contained in but not limited to its manufacturing methods or processes, treatment and chemical composition of materials, plant layout and tooling, to the extent that such information is not disclosed by inspection or analysis of the product itself and to the extent that the Contractor has protected such information from unrestricted use by others. (Oct. 1958)

When "proprietary data" is to be obtained in accordance with § 9.202–1 (b) and the above paragraph is included in the contract, the Schedule of the contract will state the extent of the proprietary data to be furnished.

§ 9.203–3 Limited rights provision for addition to basic data clause.

The paragraph set forth below shall be added to the clause set forth in §§ 9.203–1 and 9.203–2 in negotiated contracts for supplies calling for "proprietary data" which is to be obtained subject to limitations on its use as provided for in § 9.202–2(b)(1) and the Schedule of the contract will state the extent of the "proprietary data" to be furnished subject to such limitations. This paragraph shall not be included in a contract having as one of its principal purposes experimental, developmental, or research work.

(j) That portion of the Subject Data delivered under this contract which is identified in the Schedule as being subject to limitations shall not be released outside the Government, nor be duplicated, used, or disclosed in whole or in part for procurement or manufacturing purposes (other than for manufacture required in connection with repair or overhaul where an item is not procurable commercially so as to enable the timely performance of the overhaul or repair work; *Provided*, When Data is released by the Government to a Contractor for such purposes, the release shall be made subject to the limitation of this clause; *Provided further*, Such Data shall not be used for manufacture or procurement of spare parts for stocks), without permission of the Contractor, if the following legend is marked on each piece of Data so limited either in its entirety or only partially as to its content:

Furnished under United States Government Contract No. ------ and only those portions hereof which are marked (for example, by circling, underscoring or otherwise) and indicated as being subject to this legend shall not be released outside the Government (except to foreign governments, subject to these same limitations), nor be disclosed, used, or duplicated, for procurement or manufacturing purposes, except as otherwise authorized by contract, without the permission of ---------- This legend shall be marked on any reproduction hereof in whole or in part.

Provided, That such Data may be delivered to foreign governments as the national interest of the United States may require, subject to the limitations specified in this paragraph. The Contractor shall not impose limitations on the use of any piece of Data, or any portion thereof which the Contractor has previously delivered to the Government without limitation. (June 1959)

§ 9.203–4 Provision for addition to basic data clause for use in contracts for experimental, developmental, or research work.

The paragraph set forth below shall be added to the clause of § 9.203–1 in every contract having as one of its principal purposes experimental, developmental, or research work and the Schedule of the contract will specify the data to be required in accordance with § 9.202–1 (c).

(i) Data need not be furnished for standard commercial items or services which are normally or have been sold or offered to the public commercially by any supplier and which are incorporated as component parts in or to be used with the product or process being developed if in lieu thereof identification of source and characteristics (including performance specifications, when necessary) sufficient to enable the Government to procure the part or an adequate substitute, are furnished; and further, proprietary data need not be furnished for other items which were developed at private expense and previously sold or offered for sale, including minor modifications thereof, which are incorporated as component parts in or to be used with the product or process being developed, if in lieu thereof the Contractor shall identify such other items and that "proprietary data" pertaining thereto which is necessary to enable reproduction or manufacture of the item or performance of the process. For the purpose of this clause "proprietary data" means data providing information concerning the details of a Contractor's secrets of manufacture, such as may be contained in but not limited to its manufacturing methods or processes, treatment and chemical composition of materials, plant layout and tooling, to the extent that such information is not disclosed by inspection or analysis of the product itself and to the extent that the Contractor has protected such information from unrestricted use by others. (Oct. 1958)

§ 9.204 Contract clauses; special.

§ 9.204–1 Limitation on Government's right of publication for sale to the general public.

The paragraph set forth below may be added to the clause of § 9.203–1 when, in contracts for research, the contracting officer determines in accordance with Departmental procedures that public dissemination of the work or certain designated parts of the work specified to be delivered under contract is in the best interest of the Government and would be facilitated by the Government relinquishing its right to publish for sale or to have others publish for sale for it. This paragraph shall not be used otherwise.

(--) If, after final settlement of this contract, and within the period designated in the Schedule* for the purpose of this paragraph (--) or otherwise approved by the Contracting Officer, but in any event within a period no greater than 24 months, the Contractor publishes for sale any Subject Data which are (i) designated in the Schedule* as being subject to this paragraph (--) and (ii) delivered under this contract, the Government agrees not to publish such Data for sale or authorize others so to do. This limitation on the Government's right to publish for sale any such Data so published by the Contractor shall continue as long as the Data are protected by copyright. As to all such Data not so published by the Contractor, this paragraph shall be of no force or effect. (Oct. 1958)

§ 9.204–2 Production of motion pictures.

The clause set forth below is approved for use in contracts for the production of motion pictures with or without accompanying sound, and in all contracts for the preparation of motion picture scripts, musical compositions, sound tracks, translations, adaptations, and the like:

RIGHTS IN DATA (JAN. 1958)

(a) The term "Subject Data" as used herein includes writings, sound recordings, pictorial reproductions, drawings or other graphical representations, and works of any similar nature (whether or not copyrighted) which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and other information incidental to contract administration.

(b) All Subject Data first produced in the performance of this contract shall be the sole property of the Government. The Contractor agrees not to assert any rights at common law or equity and not to establish any claim to statutory copyright in such Data. The Contractor shall not publish or reproduce such Data in whole or in part or in any manner or form, nor authorize others so to do, without the written consent of the Government until such time as the Government may have released such Data to the public.

(c) The Contractor agrees to grant and does hereby grant to the Government and to its officers, agents, and employees, acting within the scope of their official duties, a royalty-free, nonexclusive, and irrevocable license throughout the world (i) to publish, translate, reproduce, deliver, perform, use, and dispose of, in any manner, any and all Data not first produced or composed in the performance of this contract but which is incorporated in the work furnished under this contract; and (ii) to authorize others so to do.

(d) The Contractor shall indemnify and save and hold harmless the Government, its officers, agents and employees acting within the scope of their official duties against any liability, including costs and expenses, (i) for violation of proprietary rights, copyright or right of privacy, arising out of the publication, translation, reproduction, delivery, performance, use or disposition of any Data furnished under this contract, or (ii) based upon any libelous or other unlawful matter contained in such Data.

(e) Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(f) Paragraphs (c) and (d) above are not applicable to material furnished to the Contractor by the Government and incorporated in the work furnished under the contract: *Provided*, Such incorporated material is identified by the Contractor at the time of delivery of such work.

§ 9.204–3 Histories and other works.

The contract clause set forth in § 9.204–2 is suggested for use in contracts for—

(a) Histories of the respective Departments or services or units thereof;

(b) Works pertaining to recruiting, morale, training or career guidance;

(c) Surveys of Government establishments; and

(d) Works pertaining to the instruction or guidance of Government officers and employees in the discharge of their official duties.

§ 9.205 Contracts for acquisition of existing works.

§ 9.205–1 Off-the-shelf purchase of books and similar items.

Notwithstanding the instructions of any other sections in this subpart, no contract clause contained in this subpart need be included in contracts for the separate, sole procurement of data, other than motion pictures, in the exact form in which such material exists prior to the initiation of a request for purchase (such as the off-the-shelf purchases of existing products) unless the right to reproduce such data is an objective of the contract.

§ 9.205–2 Contracts for existing motion pictures.

Contracts for the procurement of existing motion pictures or for the modification of existing motion pictures shall be made in accordance with Departmental procedures.

§ 9.206 Contracts to be performed outside the United States.

(a) Except as otherwise provided in § 9.204–2, § 9.204–3, or § 9.205, the clause set forth below shall be included in all contracts under which (1) technical information including reports, drawings, blueprints or other data is specified to be delivered to the Government, and (2) the work is to be performed outside the United States, its Territories, its possessions, or Puerto Rico, regardless of the place of delivery.

TECHNICAL INFORMATION (OCT. 1958)

The Government may duplicate, use, and disclose in any manner for its Government purposes, including delivery to other governments for the furtherance of mutual defense of the United States Government and such other governments, all or any part of the technical information including reports, drawings, blueprints, and other data specified to be delivered by the Contractor to the Government under this contract.

(b) The above clause may be modified by substituting "the United States Government" for "Government"; however, when the contractor is a foreign government, the above clause shall be modified by substituting "the United States Government" for "Government" and by substituting the name of the foreign government for "Contractor."

*The word "Schedule" may be replaced by the words "Task Order," or other appropriate reference, in accordance with Departmental procedures.

Subpart C—Foreign License and Technical Assistance Agreements

§ 9.301 General.

§ 9.301–1 Background.

In furtherance of the Mutual Security Program, or for other national defense purposes, the Government may undertake to develop or encourage the development of, foreign additional sources of supply. The development of such sources may be accomplished by an agreement, often called a foreign licensing agreement or technical assistance agreement, wherein a domestic concern, referred to in this part as a "primary source", agrees to furnish to a foreign concern or government, herein referred to as a "second source," foreign patent rights; technical assistance in the form of data, know-how, trained personnel of the primary source, instruction and guidance of the personnel of the second source, jigs, dies, fixtures, or other manufacturing aids; and such other assistance, information, rights, or licenses as are needed to enable the second source to produce particular supplies or perform particular services. Agreements calling for one or more of the foregoing may be entered into between the primary source and the Government, a foreign government, or a foreign concern. The consideration for providing such foreign licenses and technical assistance may be in the form of a lump sum payment, or payments for each item manufactured by the second source, or both, an agreement to exchange data and patent rights on improvements made to the article or service, capital stock transactions, or any combination of these. The primary source's bases for computing such consideration may include actual cost, charges for the use of patents, data, or know-how reflecting the primary source's investment in development and engineering and production techniques, and the primary source's "price" for setting up a second source. Such agreements often refer to the compensation to be paid as a royalty or license fee whether or not patent rights are involved.

§ 9.301–2 Policy.

It is Government policy not to pay in connection with its contracts, and not to be paid in connection with contracts made with funds derived through the Mutual Security Program or otherwise through the United States, charges for use of patents in which it holds a royalty-free license or charges for data which it has a right to use and disclose to others, or which is in the public domain, or which the Government has acquired without restriction upon its use and disclosure to others. This policy applies to foreign license and technical assistance agreements, first, in negotiating contract prices for foreign license and technical assistance contracts (§ 9.302) or supply contracts with second sources (§ 9.303), and second, in commenting on such agreements when they are referred to the Department of Defense by the Department of State pursuant to section 414 of the Mutual Security Act of 1954 and the International Traffic in Arms Regulations (§ 9.304).

§ 9.302 Foreign license and technical assistance contracts between the government and domestic concerns.

(a) Contracts between the Government and a primary source to provide technical assistance or patent rights to a second source for the manufacture of supplies or performance of services will, to the extent practicable, specify the rights in patents and data and any other rights to be supplied to the second source. Each contract shall provide in effect that, in connection with any separate agreement between the primary source (or any of its subcontractors) and the second source for patent rights or technical assistance relating to the articles or services involved in the contract, that:

(1) the primary source (and its subcontractors) will not make, on account of any purchases by the Government or by others with funds derived through the Mutual Security Program or otherwise through the Government, any charge to the second source (i) for royalties or amortization for patents or inventions in which the Government holds a royalty-free license, or (ii) for data which the Government has a right to possess, use, and disclose to others, or (iii) for any technical assistance provided to the second source for which the Government has paid under a contract between the Government and the primary source; and

(2) such separate agreement between the primary and second sources will conform to the requirements of the International Traffic in Arms Regulations (§ 9.304).

(b) The following factors, among others, shall be considered in negotiating the price to be paid the primary source under contracts within paragraph (a) of this section,

(1) The actual cost of providing data, personnel, manufacturing aids, samples, spare parts, etc.;

(2) The extent to which the Government has contributed to the development of the supplies or services, and to the methods of manufacture or performance, through past contracts for research and development or for manufacture of the supplies or performance of the services; and

(3) The Government's patent rights and rights in data relating to the supplies or services and to the methods of manufacture or of performance.

§ 9.303 Supply contracts between the government and second sources.

In negotiating contract prices with a second source, including the redetermination of contract prices, or in determining the allowability of costs under a cost-reimbursement type contract with a second source, the contracting officer:

(a) Shall obtain from the second source a detailed statement of royalties, license fees, or other compensation paid or to be paid to a primary source (or any of his subcontractors) for patent rights, rights in data, and other technical assistance provided to the second source, including identification and description of such patents, data, and technical assistance; and

(b) Shall not accept or allow charges which in effect are (1) for royalties or amortization for patents or inventions in which the Government holds a royalty-free license, or (2) for data which the Government has a right to possess, use, and disclose to others, or (3) for any technical assistance provided to the second source for which the Government has paid under a contract between the Government and a primary source.

§ 9.304 Foreign license and technical assistance agreements between domestic concern and foreign government or concern.

§ 9.304–1 International traffic in arms regulations.

Pursuant to section 414 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1934), the Department of State controls the exportation of data relating to articles designated in the United States Munitions List as arms, ammunition, or munitions of war. (The Munitions List and pertinent procedures are set forth in the International Traffic in Arms Regulations, 22 CFR, 121 et seq.) Before authorizing such exportation, the Department of State generally requests comments from the Department of Defense. Each Military Department will, on request of the Office of the Assistant Secretary of Defense (International Security Affairs), submit comments thereon as the basis for a Department of Defense reply to the Department of State. Such comments will be prepared in the light of the following excerpt from the International Traffic in Arm Regulations:

§ 124.3 *Required provisions in agreements.* (a) Proposed technical assistance or manufacturing license agreements which may involve the transfer or interchange of technical data (see §§ 121.8 and 121.9 of this chapter) should set out in detail the terms and conditions of such transfer or interchange and define in precise terms the following:

(1) The equipment and technology involved.

(2) The scope of the information to be furnished.

(3) The period of duration of the agreement.

(4) Statement of ownership.

(b) It is the general policy of the United States Government not to pay in connection with its purchases, or allow to be paid in connection with purchases made with Mutual Security Program funds, a charge for patent rights in which it holds a royalty-free license, or for technical data which it has a right to use and disclose to others for purposes of the Mutual Security Program, or which is in the public domain, or with respect to which it has been placed in possession without restriction upon its use and disclosure to others. Reasonable charges for reproduction, handling, mailing, and other similar administrative costs do not fall within this policy.

Pursuant to the above policy, agreements generally will not be approved unless written in such a way that (1) purchases of items by or for the United States Government or with funds derived through the Mutual Security Program, will not include a charge (a) for technical data in the possession of the United States Government, or in which the United States Government has a right to possession, and regarding which there is no prohibition against use by the United States Government and disclosure to others and (b) for royalties or amortization for patents or inventions in which the United States Government holds a royalty-free license; and (2) the license rights transferred by such agreements will be subject to existing rights of the United States Government.

§ 9.304–2 Review of agreements.

(a) In reviewing foreign license and technical assistance agreements between domestic concerns and foreign governments or concerns, the Military Department concerned shall, insofar as its interests are involved, indicate whether the agreement meets the requirements of § 124.3 of the International Traffic in Arms Regulations (22 CFR 124.3) (§ 9.304–1) or in what respects it is deficient. Paragraphs (b) through (g) of this section provide general guidance for such review.

(b) Where it is reasonably anticipated that the Government will purchase from the second source the supplies and services involved in the agreement or that Mutual Security Program funds will be provided for the purchase of the supplies or services:

(1) It may suffice to fulfill the requirements of § 124.3(b) (22 CFR 124.3), quoted in § 9.304–1, so far as the Department of Defense is concerned, if:

(i) The agreement is so written that:

(*a*) The second source is required to advise the primary source when it has knowledge of any purchase made by or to be made from it by or for the Government or with funds derived through the Mutual Security Program or otherwise through the Government; and

(*b*) The second source agrees in the event of any such purchase to reflect in the purchase price of the article or service any reduction in the charges specified in the agreement, which is made by the primary source in respect to such purchase; and

(ii) The primary source agrees with the Government that upon advice to him from the second source, or from the Government or otherwise, as to any such purchase or prospective purchase, he will negotiate with the Department concerned an appropriate reduction in his charges to the second source in recognition of any Government rights in patents or data.

(2) If the agreement provides that no charge is being made to the second source for data or patent rights in which the Government has rights, or that no charge is being made to the extent of the Government's rights, the Department should:

(i) Before indicating its approval, evaluate the acceptability of such provision, or

(ii) Explicitly condition its approval on the right to evaluate the acceptability of such provision at a later appropriate time.

(c) Where it is reasonably anticipated that the Department will procure from the second source supplies or services involved in the agreement, or that Mutual Security Program funds will be provided for the procurement of the supplies or services:

(1) If the agreement specifies a reduction in charges thereunder, with respect to purchases by or for the Government or by others with funds derived through the Mutual Security Program or otherwise through the Government, in recognition of the Government's rights in patents and data, the Department should, before indicating its approval, evaluate the amount of the reduction to determine whether it is fair and reasonable in the circumstances.

(2) If the agreement does not specify any such reduction in charges or otherwise fails to give recognition to the Government's rights in the patents or data involved, a recommendation should be made, as a condition to approval, that the agreement be amended to reflect a reduction acceptable to the Government in any charge thereunder with respect to purchases made by or for the Government or by others with funds derived through the Mutual Security Program or otherwise through the Government, in accordance with § 124.3(b) (22 CFR 124.3), quoted in § 9.304–1.

(3) If the agreement provides that no charge is being made to the second source for data or patent rights in which the Government has rights, or that no charge is being made to the extent of the United States rights, the Department should, before indicating its approval, evaluate the acceptability of such provision.

(4) If time or circumstances do not permit the evaluation of the reduction in charges provided for in the agreement as called for in subparagraph (1) of this paragraph, or the specifying of such a reduction as called for in subparagraph (2) of this paragraph, or the evaluation of the provision that no charge is made as called for in subparagraph (3) of this paragraph, the guidance in paragraph (b) of this section may be followed.

(d) Where there is a technical assistance contract between the primary source and the Government related to the separate agreement between the primary and second sources that is under review, such separate agreement should reflect the arrangements contemplated with respect thereto by the Government's technical assistance contract.

(e) Every agreement should provide that any license rights transferred by the agreement are subject to existing rights of the Government.

(f) In connection with every agreement within paragraph (c) of this section, a request should be made to the primary source to identify the patents, data, and other technical assistance to be provided to the second source by the primary source or any of his subcontractors; to identify any such patents and data in which, to the knowledge of the primary source, the Government may have rights; and to segregate the charges made to the second source for each such category or item of patents, data, and other technical assistance. Reviewing personnel will verify or obtain such information from Governmental sources so far as practicable.

(g) The Department concerned should make clear that its approval of any agreement does not necessarily recognize the propriety of the charge or the amount thereof or constitute approval of any of the business arrangements in the agreement, unless the Department intends by its approval to commit itself to the fairness and reasonableness of a particular charge or charges. In any event, such a disclaimer should be made to charges or business terms not affecting either the Government or any purchase made with funds derived through the Mutual Security Program or otherwise through the Government.

PART 10—BONDS AND INSURANCE

Subpart A—Bonds

Sec.
10.101 Definitions.
10.101–1 Bid bond.
10.101–2 Performance bond.
10.101–3 Payment bond.
10.101–4 Advance payment bond.
10.101–5 Patent infringement bond.
10.101–6 Construction contract.
10.101–7 Annual bid bond.
10.101–8 Annual performance bond.
10.101–9 Consent of surety.
10.101–10 Penal sum or amount.
10.102 Bid bonds.
10.103 Performance bonds.
10.103–1 Performance bonds for contracts other than construction contracts.
10.103–2 Performance bonds in connection with construction contracts.
10.103–3 Annual performance bonds.
10.104 Payment bonds.
10.104–1 Payment bonds in connection with contracts other than construction contracts.
10.104–2 Payment bonds in connection with construction contracts.
10.104–3 Furnishing information to subcontractors and suppliers.
10.105 Advance payment bonds.
10.106 Patent infringement bonds.
10.107 Other types of bonds.
10.108 Execution and administration of bonds.

Subpart B—Sureties on Bonds

10.201 General requirements of sureties.
10.202 Options in lieu of sureties.
10.202–1 United States bonds or notes.
10.202–2 Certified or cashier's checks, bank drafts, money orders, or currency.
10.203 Consent of surety.

Subpart C—Insurance; General

10.300 Scope of subpart.
10.301 General.
10.302 Notice of cancellation or change.
10.303 Responsibility for loss of or damage to Government property.
10.304 Insurance against loss of or damage to Government property.
10.305 Procedures to be followed in the event of loss of or damage to Government property.

Subpart D—Insurance Under Fixed-Price Contracts

10.400 Scope of subpart.
10.401 Policy.
10.402 Government-furnished property.
10.403 Workmen's compensation insurance overseas.
10.404 Aircraft—Ground and Flight Risk.
10.404–1 Negotiated fixed-price type contracts.
10.404–2 Cost-reimbursement type contracts.

Subpart E—Insurance Under Cost-Reimbursement Type Contracts

Sec.
10.500 Scope of subpart.
10.501 Policy.
10.501–1 Workmen's compensation and employers' liability insurance.
10.501–2 General liability insurance.
10.501–3 Automobile liability insurance.
10.501–4 Aircraft public and passenger liability insurance.
10.501–5 Vessel collision liability and protection and indemnity liability insurance.
10.502 Self-insurance.
10.503 Government property.

Subpart F—Insurance of Industrial Facilities Under Leases or Facilities Contracts

10.600 Scope of subpart.
10.601 Responsibility for liabilities to third persons.
10.602 Responsibility for loss or damage to facilities.
10.602–1 Facilities contracts.
10.602–2 Leases.

Subpart G—Special Casualty Insurance Rating Plans

10.700 Scope of subpart.
10.701 Purpose of plans.
10.702 Description of plans.
10.703 Use and eligibility for plans.

AUTHORITY: §§ 10.001 to 10.703 issued under sec. 201, 55 Stat. 839, as amended, sec. 2202, 70A Stat. 120; 50 U. S. C. App. 611, 10 U. S. C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314, E. O. 9001, 6 F. R. 6787, as amended by E. O. 9296, 8 F. R. 1429, 3 CFR, 1943 Cum. Supp.

Subpart A—Bonds

§ 10.101 Definitions.

As used in this subpart, the terms in §§ 10.101–1 to 10.101–6 shall have the meanings set forth therein.

§ 10.101–1 Bid bond.

A bid bond is a bond accompanying a bid in which the obligor obligates himself in an amount stated (the penal sum), which obligation, it is stated, is to be void if:

(a) The bid is not withdrawn after the opening within the period specified in the bid, or, if no shorter period is specified, within sixty days; and

(b) A written contract, with such bond or bonds as may be required, is executed within ten days after the prescribed forms are presented for signature.

§ 10.101–2 Performance bond.

A performance bond is a bond which is executed in connection with a contract and which secures the performance and fulfillment of all the undertakings, covenants, terms, conditions and agreements contained in the contract.

§ 10.101–3 Payment bond.

A payment bond is a bond which is executed in connection with a contract and which secures the payment of all persons supplying labor and material in the prosecution of the work provided for in the contract.

§ 10.101–4 Advance payment bond.

An advance payment bond is a bond which secures the performance and the fulfillment of a contractual provision for the making of advance payments.

§ 10.101–5 Patent infringement bond.

A patent infringement bond is a bond which secures the performance and fulfillment of the undertakings contained in a patent clause.

§ 10.101–6 Construction contract.

The term "construction contract" means any contract for the construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It does not include any contract for the manufacturing, producing, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property, regardless of the terms of any such contract as to payment or title.

§ 10.101–7 Annual bid bond.

An annual bid bond is a single bond (in lieu of separate bid bonds), without limitation as to penal amount, which secures all bids (on other than construction contracts) requiring bonds submitted by a contractor during a specific fiscal year of the Government in response to formal advertising.

§ 10.101–8 Annual performance bond.

An annual performance bond is a single bond (in lieu of separate performance bonds for each contract) which secures the performance of contracts (other than construction contracts) which require bonds and are entered into by a contractor during a specific fiscal year of the Government.

§ 10.101–9 Consent of surety.

A consent of surety is an acknowledgment by a surety that its bond given in connection with a contract continues to apply to the contract as modified.

§ 10.101–10 Penal sum or amount.

Penal sum or amount means the dollar amount shown in a bond and represents the maximum payment for which the surety is obligated.

§ 10.102 Bid bonds.

Bid bonds may be required when, and only when, the solicitation of bids for a contract to be entered into as a result of formal advertising specifies that the contract is to be supported by a performance bond or by performance and payment bonds. Whenever a bid bond is required, the penal sum thereof shall be not less than 20 percent of the bid price except that the maximum amount required shall be $3,000,000.

§ 10.103 Performance bonds.

§ 10.103–1 Performance bonds for contracts other than construction contracts.

(a) Generally performance bonds will not be required in connection with contracts other than construction contracts. Performance bonds will not be used as a substitute for determinations of contractor responsibility as required by Part 1, Subpart I of this subchapter.

(b) Subject to the general policy stated in paragraph (a) of this section, performance bonds may be required in individual procurements when, consistent with the following criteria, the contracting officer determines the need therefor. Justification for any such requirement must be fully documented.

(1) Where the terms of the contract provide for the contractor to have the use of Government material, property or funds and further provide for the handling thereof by the contractor in a specified manner so as to protect the Government's interests therein, a performance bond may be required.

(2) Where the circumstances applicable to a particular procurement are such that, for financial reasons, a performance bond is necessary to protect the interests of the Government. See for example, § 16.505–2(b)(3) of this chapter.

(c) Subject to the general policy stated in paragraph (a) of this section, determinations that performance bonds will be required in specified classes of cases (e.g., for particular types of supplies or services), may be made (1) for the Army, by the Deputy Chief of Staff for Logistics, (2) for the Navy, by the Chief of Naval Material, and (3) for the Air Force, by the Deputy Chief of Staff, Materiel. A copy of each such determination covering a class of cases shall be forwarded to the Office of Assistant Secretary of Defense (Supply and Logistics) for information.

(d) Performance bonds shall not be required unless the invitation for bids or request for proposals requires such a bond, or the requirement of such a bond is in the interest of the Government, and not prejudicial to other bidders. The requirement for a performance bond shall not be waived when the invitation for bids requires such bond.

(e) When the requirement for a performance bond is made by the terms of a contract, but the bond is not furnished by the contractor within the time specified, the contracting officer shall notify the contractor that the contract will be terminated for default if the bond is not furnished within the time specified in the contract clause providing for such termination (e.g., § 8.707(a)(2) of this chapter).

(f) Where a performance bond is required as a condition precedent to the formation of the contract, but is not furnished within the time specified, if the making of the award can be delayed without prejudice to other bidders and to the public interest, the contracting officer shall notify the bidder that if the bond is not furnished within 10 days (or such other period as the contracting officer may specify) after receipt of the notice, his bid will not be considered for award.

§ 10.103–2 Performance bonds in connection with construction contracts.

(a) Pursuant to the Miller Act, as amended (40 U. S. C. 270a.–270e.), in connection with any construction contract exceeding $2,000 in amount, except as provided in paragraph (c) of this section, a performance bond shall be required in a penal amount deemed adequate by the contracting officer for the protection of the Government. Generally, the penal amount of each performance bond shall be 100 percent of the contract price at the time of award. But where the contracting officer finds that to require a 100 percent performance bond would be disadvantageous to the Government, he may prescribe a lesser penal amount.

(b) Additional performance bond protection shall be required in connection with any modification effecting an increase in price under any contract for which a bond is required pursuant to paragraph (a) of this section if—

(1) The modification is for new or additional work which is beyond the scope of the existing contract; or

(2) The modification is pursuant to an existing provision of the contract and is expected to increase the contract price by $50,000 or 25 percent of the basic contract price, whichever is less.

The penal amount of the bond protection should generally be increased so that the total performance bond protection is 100 percent of the contract price as revised by (i) the modification requiring such additional protection, and (ii) the aggregate of any previous modifications: *Provided*, That lesser penal amounts may be authorized by the contracting officer as indicated in paragraph (a) of this section. The increased penal amount may be secured either by increasing the bond protection provided by the existing surety or sureties or by obtaining an additional performance bond from a new surety; but see § 10.203 with respect to requiring consent of surety.

(c) The Secretaries may waive for their respective Departments the requirement of a performance bond with respect to any or all cost-reimbursement type construction contracts. In addition, the contracting officer may waive the requirement for a performance bond for so much of the work under the contract as is to be performed in a foreign country: *Provided*, He finds that it is impracticable for the contractor to furnish such bond.

§ 10.103–3 Annual performance bonds.

Annual performance bonds may be used only in connection with contracts other than construction contracts. When such a bond is used and has been completely obligated in an amount equal to the penal sum thereof, an additional bond shall be obtained to cover additional contracts.

§ 10.104 Payment bonds.

§ 10.104–1 Payment bonds in connection with contracts other than construction contracts.

The extent to which payment bonds will be required in connection with contracts other than construction contracts shall be in accordance with procedures prescribed by each respective Department, except that the requirement of such a bond shall not be waived when an invitation for bids requires a payment bond. Conversely, a payment bond shall not be required unless (a) the solicitation of bids requires such a bond, or (b) requirement of such a bond is in the interest of the Government and not prejudicial to the other bidders. Whenever a payment bond is required, the penal sum thereof shall be in an amount deemed adequate by the Contracting Officer for the protection of the Government.

§ 10.104–2 Payment bonds in connection with construction contracts.

(a) Pursuant to the Miller Act, as amended (40 U. S. C. 270a–270e), in connection with any construction contract exceeding $2,000 in amount, except as provided in paragraph (c) of this section, a payment bond shall be required in a penal amount as follows:

(1) When the contract price is not more than $1,000,000, the penal sum shall be 50 percent of the contract price;

(2) When the contract price is more than $1,000,000 but not more than $5,000,000, the penal sum shall be 40 percent of the contract price; and

(3) When the contract price is more than $5,000,000, the penal sum shall be $2,500,000.

(b) Additional payment bond protection shall be required in connection with any modification effecting an increase in price under any contract for which a bond is required pursuant to paragraph (a) of this section if—

(1) The modification is for new or additional work which is beyond the scope of the existing contract; or

(2) The modification is pursuant to an existing provision of the contract and is expected to increase the contract price by $50,000 or 25 percent of the basic contract price, whichever is less.

The penal amount of the additional bond protection should generally be such that the total payment bond protection is 50 percent of the contract price as revised by (i) the modification requiring such additional protection, and (ii) the aggregate of any previous modifications: *Provided*, That when the contract price as so revised is more than $1,000,000 but not more than $5,000,000, the total payment bond protection shall be in a penal amount of 40 percent of the revised contract price: *Provided further*, That when the contract price as so revised is more than $5,000,000, the total payment bond protection shall be in the penal amount of $2,500,000. The additional protection may be secured either by increasing the bond protection provided by the existing surety or sureties or by obtaining an additional payment bond from a new surety; but see § 10.203 with respect to requiring consent of surety.

(c) The Secretaries may waive for their respective Departments the requirement of a payment bond with respect to any or all cost-reimbursement type construction contracts. In addition, the contracting officer may waive the requirement for a payment bond for so much of the work under the contract as is to be performed in a foreign country: *Provided*, He finds that it is impracticable for the contractor to furnish such bonds.

§ 10.104–3 Furnishing information to subcontractors and suppliers.

It is Department of Defense policy to furnish subcontractors or suppliers only general information with respect to the status of work and of payments made to prime contractors. Where a payment bond has been required, a subcontractor or supplier, after satisfying the contracting officer that he is a bona fide subcontractor or supplier and stating that he has not been paid for work performed or supplies delivered, may be furnished the name and address of the surety furnishing the required bonds on the contract in question. In addition, subcontractors and suppliers may be furnished general information on such matters as the progress of the work, the accomplishment of payments as of certain dates, and the estimated percentage of completion.

§ 10.105 Advance payment bonds.

The extent to which advance payment bonds will be required shall be in accordance with procedures prescribed by each respective Department. Whenever such a bond is required, the penal sum thereof shall be in an amount deemed adequate by the Contracting Officer for the protection of the Government.

§ 10.106 Patent infringement bonds.

Patent infringement bonds shall be required only in connection with contracts containing provision for patent indemnity, and then only if a performance bond has not been executed and if the financial responsibility of the contractor is unknown or doubtful. Whenever such a bond is required, the penal sum thereof shall be in an amount deemed adequate by the Contracting Officer for the protection of the Government.

§ 10.107 Other types of bonds.

Other types of bonds may be used only when, in the opinion of the head of the procuring activity concerned, such bonds are necessary or desirable in connection with the procurement of particular supplies or services.

§ 10.108 Execution and administration of bonds.

The forms and provisions of bonds, and their preparation, execution and administration, shall be in accordance with the provisions of this subchapter and with procedures prescribed by each respective Department.

Subpart B—Sureties on Bonds

§ 10.201 General requirements of sureties.

Every bond required or used in connection with the procurement of supplies or services shall be supported by good and sufficient surety (corporate or individual) in accordance with procedures prescribed by each respective Department.

§ 10.202 Options in lieu of sureties.

Any one or more of the following types of security listed below may be deposited by the contractor in lieu of furnishing corporate or individual sureties on bonds. Any such security accepted by the contracting officer shall be promptly turned over to the disbursing officer concerned for Army and Navy contracts, and to the accounting and finance officer concerned for Air Force contracts, or when United States bonds or notes are involved they shall be deposited as provided in § 10.202–1. Any such security or its equivalent shall be returned to the contractor when the obligation of the bond has by its terms ceased.

§ 10.202–1 United States bonds or notes.

In accordance with the provisions of the Act of February 24, 1919, as amended (6 U.S.C. 15) and Treasury Department Circular No. 154 (February 6, 1935), any person required to furnish a bond has the option, in lieu of furnishing surety or sureties thereon, of depositing United States bonds or notes in an amount equal at their par value to the penal sum of the bond, together with an agreement authorizing the collection or sale of such United States bonds or notes in the event of default on the penal bond. The contracting officer may turn these securities over to the disbursing officer or accounting and finance officer as provided in § 10.202, or deposit them with the Treasurer of the United States, a Federal Reserve Bank, branch Federal Reserve Bank having the requisite facilities, or other depositary duly designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the Department concerned and Treasury Department Circular No. 154. However, the contracting officer shall deposit with the Treasurer of the United States all such bonds and notes received by him in the District of Columbia.

§ 10.202–2 Certified or cashier's checks, bank drafts, money orders, or currency.

Any person required to furnish a bond has the option, in lieu of furnishing surety or sureties thereon, of depositing a certified or cashier's check, a bank draft, a Post Office money order, or currence, in an amount equal to the penal sum of the bond: *Provided*, That the penal sum of the bond is not in excess of $50,000 Certified or cashier's checks, bank drafts, or Post Office money orders shall be drawn to the order of the Treasurer of the United States.

§ 10. 203 Consent of surety.

In connection with any amendment, modification or supplemental agreement which would otherwise effect the release of a surety, or in any other situation as prescribed by each respective Department, the Contracting Officer shall obtain the written consent thereto of the surety or sureties on the existing bond or bonds notwithstanding the fact that there may be an additional bond supported by a new surety: *Provided*, That no such consent need be obtained if there is an increased or additional bond supported by the same surety or sureties.

Subpart C—Insurance; General

§ 10.300 Scope of subpart.

This subpart sets forth the general principles and policy applicable to insurance under contracts of the Departments for supplies or services.

§ 10.301 General.

Insurance will be required where (a) it is mandatory by law, (b) it is considered desirable to utilize the facilities and services of the insurance industry, or (c) in special instances it is deemed necessary or desirable in connection with the performance of a contract. The respective Departments may also authorize or require the purchase of insurance where commingling of property or the conditions of the contract make the carrying of insurance reasonably necessary for the protection of the several interests concerned.

§ 10.302 Notice of cancellation or change.

Where insurance is required by contract provision or in writing by the approving authority, the policies evidencing such insurance shall contain an endorsement to the effect that cancellation or material change in the policies, adversely affecting the interest of the Government in such insurance, shall not be effective unless the written notice as required by the approving authority is given.

§ 10.303 Responsibility for loss of or damage to Government property.

The responsibility of the Contractor for loss of or damage to Government property in the possession or control of Contractors is set forth in the clause in §§ 13.411, 13.502, and 13.503 of this subchapter.

§ 10.304 Insurance against loss of or damage to Government property.

In instances where insurance is required or approved to cover loss of or damage to Government property, such insurance may be provided either by specific insurance policies or by inclusion of such risks in the Contractor's existing insurance policies. In either event, the insurance policies shall make formal disclosure of the Government's interest in the property.

§ 10.305 Procedures to be followed in the event of loss of or damage to Government property.

Upon the happening of loss of or damage to any Government property, concerning which the Contractor is relieved of responsibility by contract provision, the procedure shall be as prescribed in subparagraph (f)(3) of the clause in § 13.502 or § 13.503 of this subchapter.

Subpart D—Insurance Under Fixed-Price Contracts

§ 10.400 Scope of subpart.

This subpart sets forth the policy of the Departments with respect to insurance under fixed-price contracts for supplies or services.

§ 10.401 Policy.

Ordinarily the Departments are not concerned with the insurance programs of fixed-price Contractors. However, the Departments may be concerned with a Contractor's insurance program when special circumstances exist. Examples of special circumstances are (a) where the Contractor is engaged principally in Government work, (b) where the Contractor has a segregated operation which is engaged principally in Government work, (c) where Government-furnished property is involved, (d) where the work is performed within a Government establishment, and (e) where the Government may desire to assume risks for which the Contractor ordinarily obtains commercial insurance.

§ 10.402 Government-furnished property.

The Contractor's responsibilities for loss of or damage to Government-furnished property under fixed-price contracts are set forth in the clause in § 13.502 of this subchapter.

§ 10.403 Workmen's compensation insurance overseas.

(a) The Defense Base Act, as amended (42 U.S.C. 1651 et seq.), extends the application of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901) to various classes of employees engaged in work outside the United States, including any employee engaged (1) in the performance of a public work contract or (2) in the performance of any contract approved or financed pursuant to the Mutual Security Act as amended (22 U.S.C. 1871 et seq.) other than (i) contracts approved or financed by the Development Loan Fund, or (ii) contracts exclusively for the furnishing of materials or supplies. As used in this paragraph, a "public work" contract includes any contract for a fixed improvement or any project whether or not fixed, involving construction, alteration, removal or repair for the public use of the United States or its allies, including projects or operations under service contracts and projects in connection with the national defense or with war activities, dredging, harbor improvements, dams, roadways, and housing, as well as preparatory and ancillary work in connection therewith at the site or on the project. The following clause shall be included in all public work contracts to be performed outside the United States:

WORKMEN'S COMPENSATION INSURANCE (DEFENSE BASE ACT) (JAN. 1960)

The Contractor before commencing performance under this contract shall provide and thereafter maintain such Workmen's Compensation Insurance or security as is required by the Defense Base Act, as amended (42 U.S.C. 1651). The Contractor further agrees to insert in all subcontracts hereunder to which the Defense Base Act is applicable, a clause similar to this clause, including this sentence, imposing on all such subcontractors a like requirement to comply with the Defense Base Act.

(b) Upon the recommendation of the secretary concerned, the Secretary of Labor may waive the applicability of the Defense Base Act with respect to any contract, subcontract, or subordinate contract, work location, or classification of employees.

§ 10.404 Aircraft—Ground and Flight Risk.

§ 10.404–1 Negotiated fixed-price type contracts.

(a) Negotiated fixed-price type contracts for the production, modification, maintenance, or overhaul of aircraft shall, except as provided in paragraph (b) of this section include the following clause.

GROUND AND FLIGHT RISK (MAY 1960)

(a) Notwithstanding any other provisions of this contract, except as may be specifically provided in the Schedule as an exception to this clause, the Government, subject to the definitions and limitations of this clause, assumes the risk of damage to, or loss or destruction of, aircraft "in the open," during "operation," and in "flight," as these terms are defined below, and agrees that the Contractor shall not be liable to the Government for any such damage, loss, or destruction, the risk of which is so assumed by the Government.

(b) For the purposes of this clause:

(i) Unless otherwise specifically provided in the Schedule, the term "aircraft" means—

(A) Aircraft (including (I) complete aircraft, and (II) aircraft in the course of being manufactured, disassembled, or reassembled: *Provided*, That an engine or a portion of a wing or a wing is attached to a fuselage of such aircraft) to be furnished to the Government under this contract (whether before or after acceptance by the Government); and

(B) Aircraft (regardless of whether in a state of disassembly or reassembly) furnished by the Government to the Contractor under this contract;

including all property installed therein, or in the process of installation, or temporarily removed from such aircraft: *Provided, however*, That such aircraft and property are not covered by a separate bailment agreement.

(ii) The term "in the open" means located wholly outside of buildings on the Contractor's premises or at such other places as may be described in the Schedule as being in the open for the purposes of this clause, except that aircraft furnished by the Government shall be deemed to be in the open at all times while in Contractor's possession, care, custody, or control.

(iii) The term "flight" means any flight demonstration, flight test, taxi test, or other flight, made in the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the _____.[1] With respect to land based aircraft, "flight" shall commence with the taxi roll from a flight line on the Contractor's premises, and continue until the aircraft has completed the taxi roll in returning to a flight line on the Contractor's premises; with respect to seaplanes, "flight" shall commence with the launching from a ramp on the Contractor's premises and continue until the aircraft has completed its landing run upon return and is beached at a ramp on the Contractor's premises; with respect to helicopters, "flight" shall commence upon engagement of the rotors for the purpose of take-off from the Contractor's premises and continue until the aircraft has returned to the ground on the Contractor's premises and the rotors are disengaged; and with respect to vertical take-off aircraft, "flight" shall commence upon disengagement from any launching platform or device on the Contractor's premises and continue until the aircraft has been re-engaged to any launching platform or device on the Contractor's premises: *Provided, however*, That aircraft off the Contractor's premises shall be deemed to be in flight when on the ground or water only during periods of reasonable duration following emergency landings, other landings made in the performance of this contract, or landings approved by _____[1] in writing.

(iv) The term "Contractor's premises" means those premises designated as such in the Schedule or in writing by the _____,[1] and any other place to which aircraft are moved for the purpose of safeguarding the aircraft.

(v) The term "operation" means operations and tests, other than on any production line, of aircraft, when not in flight, whether or not the aircraft is in the open or in motion during the making of any such operations or tests, and includes operations and tests of equipment, accessories, and power plants, only when installed in aircraft.

(vi) The term "flight crew members" means those persons in the aircraft who have been designated by the Contractor to conduct any flight as defined in subparagraph (iii) above on behalf of the Contractor.

(c) (1) The Government's assumption of risk under this clause, as to aircraft in the open, shall continue in effect unless terminated pursuant to subparagraph (3) below. Where the _____[1] finds that any of such aircraft is in the open under unreasonable conditions, he shall notify the Contractor in writing of the conditions he finds to be unreasonable and require the Contractor to correct such conditions within a reasonable time.

(2) Upon receipt of such notice, the Contractor shall act promptly to correct such conditions, regardless of whether it agrees that such conditions are in fact unreasonable. To the extent that the Contracting Officer may later determine that such conditions were not in fact unreasonable, an equitable adjustment shall be made in the contract price to compensate the Contractor for any additional costs it incurred in correcting such conditions and the contract shall be modified in writing accordingly. Any dispute as to the unreasonableness of such conditions or the equitable adjustment shall be deemed to be a dispute concerning a question of the fact within the meaning of the clause of this contract entitled "Disputes."

(3) If the _____[1] finds that the Contractor has failed to act promptly to correct such conditions or has failed to correct such conditions within a reasonable time, he may terminate the Government's assumption of risk under this clause, as to any of the aircraft which is in the open under such conditions, such termination to be effective at 12:01 a.m. on the fifteenth day following the day of receipt by the Contractor of written notice thereof. If the Contracting Officer later determines that the Contractor acted promptly to correct such conditions or that the time taken by the Contractor was not in fact unreasonable, an equitable adjustment shall, notwithstanding paragraph (f) of this clause, be made in the contract price to compensate the Contractor for any additional costs he incurred as a result of termination of the Government's assumption of risk under this clause and the contract shall be modified in writing accordingly. Any dispute as to whether the Contractor failed to act promptly to correct such conditions, or as to the reasonableness of the time for correction of such conditions, or as to such equitable adjustment, shall be deemed to be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(4) In the event the Government's assumption of risk under this clause is terminated in accordance with (3) above, the risk of loss with respect to Government-furnished property shall be determined in accordance with the clause of this contract, if any, entitled "Government-Furnished Property" until the Government's assumption of risk is reinstated in accordance with (5) below.

(5) When unreasonable conditions have been corrected, the Contractor shall promptly notify the Government thereof. The Government may elect to again assume the risks and relieve the Contractor of liabilities as provided in this clause, or not, and the _____[1] shall notify the Contractor of the Government's election. If, after correction of the unreasonable conditions, the Government elects to again assume such risks and relieve the Contractor of such liabilities, the Contractor shall be entitled to an equitable adjustment in the contract price for costs of insurance, if any, extending from the end of the third working day after the Contractor notifies the Government of such correction until the Government notifies the Contractor of such election. If the Government elects not to again assume such risks, and such conditions have in fact been corrected, the Contractor shall be entitled to an equitable adjustment

[1] In the foregoing clause, insert, in contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the activity designated in accordance with Departmental procedures.

for costs of insurance, if any, extending after such third working day.

(d) The Government's assumption of risk shall not extend to damage to, or loss or destruction of, such aircraft:

(i) Resulting from failure of the Contractor, due to willful misconduct or lack of good faith of any of the Contractor's managerial personnel, to maintain and administer a program for the protection and preservation of aircraft in the open, and during operation, in accordance with sound industrial practice (the term "Contractor's managerial personnel" means the Contractor's directors, officers, and any of its managers, superintendents, or other equivalent representatives, who has supervision or direction of all or substantially all of the Contractor's business, or all or substantially all of the Contractor's operations at any one plant or separate location at which this contract is performed, or a separate and complete major industrial operation in connection with the performance of this contract);

(ii) sustained during flight if the flight crew members conducting such flight have not been approved in writing by the _____;[2]

(iii) While in the course of transportation by rail, or by conveyance on public streets, highways, or waterways, except for Government-furnished property;

(iv) To the extent that such damage, loss or destruction is in fact covered by insurance;

(v) Consisting of wear and tear, deterioration (including rust and corrosion), freezing, or mechanical, structural, or electrical breakdown or failure, unless such damage is the result of other loss, damage, or destruction covered by this clause; *provided*, however, in the case of Government-furnished property, if such damage consists of reasonable wear and tear or deterioration, or results from inherent vice in such property, this exclusion shall not apply;

(vi) Sustained while the aircraft is being worked upon and directly resulting therefrom, including but not limited to any repairing, adjusting, servicing or maintenance operation, unless such damage, loss, or destruction is of a type which would be covered by insurance which would customarily have been maintained by the Contractor at the time of such damage, loss, or destruction, but for the Government's assumption of risk under this clause; or

(vii) Under this clause, where the total loss resulting from each event separately occurring is less than $500.

[2] Insert, in contracts of the Department of the Army, the words "the Contracting Officer," and insert, in contracts of the Department of Navy or the Department of the Air Force, the activity designated in accordance with Departmental procedures.

(e) A subcontractor shall not be relieved from liability for damage to, or loss or destruction of, aircraft while in its possession or control, except to the extent that the subcontract, with the prior written approval of the Contracting Officer, provides for relief of the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of such aircraft in as good condition as when received, except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of this contract. Where a subcontractor has not been relieved from liability for any damage, loss, or destruction of aircraft and any damage, loss, or destruction occurs, the Contractor shall enforce the liability of the subcontractor for such damage to, or loss or destruction of, the aircraft for the benefit of the Government.

(f) The Contractor warrants that the contract price does not and will not include, except as may be otherwise authorized in this clause, any charge or contingency reserve for insurance (including self-insurance funds or reserves) covering any damage to, or loss or destruction of, aircraft while in the open, during operation, or in flight, the risk of which has been assumed by the Government under the provisions of this clause, whether or not such assumption may be terminated as to aircraft in the open.

(g) In the event of damage to, or loss or destruction of, aircraft in the open, during operation, or in flight, the Contractor shall take all reasonable steps to protect such aircraft from further damage, separate damaged and undamaged aircraft, put all aircraft in the best possible order and, further, except in cases covered by (d) (vii) above, the Contractor should furnish to the _____[1] a statement of:

(i) The damaged, lost, or destroyed aircraft;

(ii) The time and origin of the damage, loss, or destruction;

(iii) All known interests in commingled property of which aircraft are a part; and

(iv) The insurance, if any, covering any part of the interest in such commingled property.

Except in cases covered by (d) (vii) above, an equitable adjustment shall be made in the amount due under this contract for expenditures made by the Contractor in performing his obligations under this paragraph (g) and this contract shall be modified in writing accordingly.

[1] In the foregoing clause, insert, in contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the activity designated in accordance with Departmental procedures.

(h) If prior to delivery and acceptance by the Government any aircraft is damaged, lost, or destroyed and the Government has under this clause assumed the risk of such damage, loss, or destruction, the Government shall either (1) require that such aircraft be replaced or restored by the Contractor to the condition in which it was immediately prior to such damage, or (2) shall terminate this contract with respect to such aircraft. In the event that the Government requires that the aircraft be replaced or restored, an equitable adjustment shall be made in the amount due under this contract and in the time required for its performance, and this contract shall be modified in writing accordingly. If, in the alternative, this contract is terminated under this paragraph with respect to such aircraft and under this clause the Government has assumed the risk of such damage, loss, or destruction, the Contractor shall be paid the contract price for said aircraft (or, if applicable, any work to be performed on said aircraft) less such amounts as the Contracting Officer determines (1) that it would have cost the contractor to complete the aircraft (or any work to be performed on said aircraft) together with anticipated profit, if any, on any such uncompleted work, and (2) to be the value, if any, of the damaged aircraft or any remaining portion thereof retained by the Contractor. The Contracting Officer shall have the right to prescribe the manner of disposition of the damaged, lost, or destroyed aircraft, or any remaining parts thereof; and, if any additional costs of such disposition are incurred by the Contractor, a further equitable adjustment will be made in the amount due to the Contractor. Failure of the parties to agree upon an equitable adjustment or upon the amount to be paid in the event of termination of the contract with respect to any aircraft, shall be a dispute concerning a question of fact within the meaning of the Disputes clause of this contract.

(i) In the event the Contractor is at any time reimbursed or compensated by any third person for any damage, loss, or destruction of any aircraft, the risk of which has been assumed by the Government under the provisions of this clause and for which the Contractor has been compensated by the Government, he shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such damage, loss, or destruction and, upon the request of the _____,[1] shall at the Government's expense furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment or subrogation in favor of the Government) in obtaining recovery.

(b) (1) In paragraph (b) of the foregoing clause, certain of the defined terms may be modified by insertion of appropriate additional definitions in the Schedule in accordance with the following. The purpose of the clause is to have the Government assume risks which generally entail unusually high insurance premiums and which are not covered by the contractor's "contents," "work-in-process," or other similar insurance. It is recognized that all of the definitions prescribed in the foregoing clause may not cover all situations which should be covered if the above purpose is to be accomplished. Therefore, changes may be effected in the Schedule as set forth below.

(i) Since the standard definition of "aircraft" contemplates conventional types of winged aircraft, a modified definition is necessary if the contract covers helicopters, vertical take-off aircraft, lighter-than-air airships or other non-conventional types of aircraft. The modified definition should take into consideration that the aircraft has reached a point of manufacture comparable to that required in the standard definition;

(ii) The definition of "in the open" may be modified to include "hush houses," test hangars, and comparable structures, and other designated areas;

(iii) "Contractor's premises" shall be expressly defined in the Schedule and shall be limited to those locations where aircraft, as defined in the above clause, may be located during and for the performance of the contract. "Contractor's premises" may include, but are not limited to, premises owned or leased by the contractor or premises as to which the contractor has a permit, license, or other right of use either exclusively or jointly with others, including Government airfields.

(2) The Government need not assume the risk of damage to, or loss or destruction of, aircraft, as provided by the foregoing clause, if the best estimate of premium costs to be included in the contract price for insurance coverage for such damage, loss, or destruction at any plant or facility is less than $500. If it is determined not to assume such risks, the foregoing clause shall not be made a part of the contract.

(3) Subparagraph (d) (iii) of the above clause may be varied to provide for Government assumption of risk of transportation by conveyance on streets or highways where the contracting officer determines that such transportation is limited to the vicinity of the contractor's premises and is merely an incident to work being performed under the contract.

§ 10.404–2 Cost-reimbursement type contracts.

(a) Cost-reimbursement type contracts for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involving the furnishing of aircraft to the contractor by the Government, shall, except as provided in (b) of this section, include the following clause.

FLIGHT RISKS (MAY 1960)

(a) Notwithstanding any other provision of this contract, and particularly subparagraph (f) (1) of the Government Property clause, and paragraph (c) of the Insurance-Liability to Third Persons clause, the Contractor shall not (i) be relieved of liability for, damage to, or loss or destruction of, aircraft sustained during flight, or (ii) be reimbursed for liabilities to third persons for loss of or damage to property, or for death or bodily injury, which are caused by aircraft during flight, unless the flight crew members have previously been approved in writing by _____.[1]

(b) For the purposes of this clause:

(i) Unless otherwise specifically provided in the Schedule, the term "aircraft" means any aircraft, whether furnished by the Contractor under this contract or furnished by the Government to the Contractor under this contract, including all Government Property placed or installed therein or attached thereto.

(ii) The term "flight" means any flight demonstration, flight test, taxi test, or other flight, made in the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the _____.[2] As to land based aircraft, "flight" shall commence with the taxi roll from a flight line and continue until the aircraft has completed the taxi roll to a flight line; as to sea planes, "flight" shall commence with the launching from a ramp and continue until the aircraft has completed its landing run and is beached at a ramp; as to helicopters, "flight" shall commence upon engagement of the rotors for the purpose of take-off and continue until the aircraft has returned to the ground and rotors are disengaged; and for vertical take-off aircraft "flight" shall commence upon disengagement from any launching platform or device and continue until the aircraft has been re-engaged to any launching platform or device.

(iii) The term "flight crew members" means those persons in the aircraft who have been designated by the Contractor to conduct any flight, as defined in subparagraph (ii) above, on behalf of the Contractor.

(b) In the foregoing clause, the definition of "aircraft" may be appropriately modified in the Schedule if the contract covers helicopter, vertical takeoff aircraft, lighter-than-air airships, or other nonconventional types of aircraft. If the contract includes the Government Property clause in § 13.506 of this chapter, the reference in paragraph (a) of the foregoing clause to paragraph (f) (1) of the Government Property clause should be changed to (i) (1).

[1] Insert, in contracts of the Department of the Army, the words "the Contracting Officer," and insert, in contracts of the Department of Navy or the Department of the Air Force, the activity designated in accordance with Departmental procedures.

[2] Insert, in contracts of the Department of the Army or the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the activity designated in accordance with Departmental procedures.

Subpart E—Insurance Under Cost-Reimbursement Type Contracts

§ 10.500 Scope of subpart.

This subpart sets forth the policy of the Departments with respect to insurance under cost-reimbursement type contracts for supplies or services.

§ 10.501 Policy.

The kinds of insurance listed in this subpart, with limits of liability as prescribed by each respective Department, shall ordinarily be required under cost-reimbursement type contracts and under those subcontracts where the provisions of the prime contract are extended to the subcontract. A program of self-insurance approved by the Department concerned, as provided in § 10.502, may be substituted for any of the kinds of insurance ordinarily required.

§ 10.501–1 Workman's compensation and employers' liability insurance.

Compliance with applicable workmen's compensation and occupational disease statutes will be required, and the insurance policy will also include employers' liability coverage, where available. In jurisdictions where all occupational diseases are not compensable under applicable law, insurance for occupational diseases will be required under the employers' liability section of the insurance policy; however, such additional insurance will not be required where contract operations are commingled with the contractor's commercial operations so that it would be impracticable to require such coverage. The clause set forth in § 10.403 shall be included in all construction contracts, as defined in § 10.101–6, to be performed outside the United States.

§ 10.501–2 General liability insurance.

Bodily injury liability insurance will be required on the compresensive form of policy. Property damage liability insurance will be required only in special circumstances as determined by the Departments concerned. Property damage liability insurance may be approved when the nature of the contract operations warrant its purchase or where they are not separable from the Contractor's commercial operations.

§ 10.501–3 Automobile liability insurance.

This insurance will be required on the comprehensive form of policy and will provide for bodily injury liability and property damage laibility covering the operation of all automobiles used in connection with the performance of the contract.

§ 10.501–4 Aircraft public and passenger liability insurance.

Where aircraft are used in connection with the performance of the contract, such insurance ordinarily will be considered required coverage.

§ 10.501–5 Vessel collision liability and protection and indemnity liability insurance.

Where vessels are used in connection with the performance of the contract, such insurance will be required whenever deemed necessary by the Department concerned.

§ 10.502 Self-insurance.

Qualified programs of self-insurance covering any kind of risk may be approved where an examination of the program indicates that its application to the cost-reimbursement type contract is in the best interests of the Government. However, a program of self-insurance for workmen's compensation in any jurisdiction where workmen's compensation does not completely cover employers' liability to employees may be approved only if:

(a) The contractor also maintains an approved program of self-insurance for any employers' liability which is not so covered, or

(b) The contractor shows that the combined cost to the Government of self-insurance for workmen's compensation and commercial insurance for employers' liability will not exceed the cost of covering both kinds of risks by commercial insurance.

§ 10.503 Government property.

The Contractor's responsibilities for loss of or damage to Government property under cost-reimbursement-type contracts are set forth in the clause in § 13.503 of this subchapter.

Subpart F—Insurance of Industrial Facilities Under Leases or Facilities Contracts

§ 10.600 Scope of subpart.

This subpart sets forth the policy with respect to insurance of industrial facilities under a facilities contract or under a lease made pursuant to 10 U.S.C. 2667.

§ 10.601 Responsibility for liabilities to third persons.

Where industrial facilities are provided by the Government under a facilities contract or a lease, the contract or lease shall require that during the period of construction, installation, alteration, repair, or use, and at any other time as directed by the Department concerned, the contractor or lessee shall insure or otherwise provide approved security for liabilities to third persons (including employees of the contractor or lessee) in the same manner and to the same extent as required in § 10.501.

§ 10.602 Responsibility for loss or damage to facilities.

§ 10.602–1 Facilities contracts.

Section 13.411 of this chapter defines the responsibilities of the contractor for loss or damage to Government facilities. Therefore, facilities contracts shall provide that the contractor shall not include the cost of insurance in any contract except to the extent of insurance required or approved by the Department

concerned. If a facilities contract does not restrict the use of the facilities to work performed for the Government, provision shall be made that the contractor shall procure and maintain insurance as the Department concerned may require against loss or damage to the industrial facilities.

§ 10.602–2 Leases.

(a) Where facilities are leased pursuant to 10 U.S.C. 2667, the Government may, consistent with the policies of § 13.411 of this chapter, require the lessee to provide and maintain insurance against loss or damage to the facilities. In any event the lease shall provide that:

(1) The lessee shall provide, maintain, change, or discontinue such insurance, as the Government may from time to time require: *Provided,* That the lessee's liability for loss or damage to the facilities is modified accordingly;

(2) If any insurance requirement is changed pursuant to (1) above, an equitable adjustment in the rent shall be made so as to reflect any resulting savings or increased costs to the lessee; and

(3) The lessee shall notify the Department concerned whenever the use of the facilities in the performance of Government contracts changes so as to become 75 percent or more of the total productive capacity thereof, and conversely whenever such use changes so as to become less than 75 percent of such capacity.

(b) Generally, whenever more than 75 percent of the total productive capacity of the facilities will be used for a substantial period of time in the performance of Government contracts and the insurance costs are significant, or whenever it is deemed to be in the best interest of the Government, the Department concerned will, consistent with the policies of § 13.411, relieve the lessee from liability for loss or damage to the facilities and eliminate any requirement for insurance relating thereto. Conversely, whenever less than 75 percent of such capacity will be so used, or whenever it is deemed to be in the best interest of the Government, the Department concerned will require the lessee to be responsible for loss or damage to the facilities and provide and maintain appropriate insurance. In such cases an equitable adjustment shall be made in the rent. In determining when the Government shall so modify the responsibilities of the lessee, the percentage of use shall not be regarded as an absolute standard, but rather as an important factor to be considered.

Subpart G—Special Casualty Insurance Rating Plans

§ 10.700 Scope of subpart.

This subpart sets forth principles and requirements for use of the National Defense Projects Rating Plan, which is available for application on both domestic and foreign contracts which meet the eligibility requirements set forth herein. This part likewise applies to the World War II War Department Insurance Rating Plan, also known as the War Projects Insurance Rating Plan, which is currently available for application only outside the United States. These plans provide a special rating formula for the purchase of the casualty insurance coverages listed in §§ 10.501–1 through 10.501–3, and are mandatory as to contracts which meet the use and eligibility standards set forth in § 10.703. Inclusion under the prime contractor's Rating Plan policies of similar coverages for subcontractors, whose contracts with the prime contractor provide that the insurance shall be furnished by the prime contractor, shall be automatic if the subcontract operations are at the project site, unless the military departments specifically direct otherwise. Subcontractors whose operations are away from the projects site will not be covered under the prime contractor's Rating Plan policies unless the prime contractor is specifically directed by the military departments to request inclusion of such subcontractors.

§ 10.701 Purpose of plans.

These plans are designed to utilize the services and organizations of the insurance industry for safety engineering and the handling of claims arising under eligible contracts at a minimum cost to the Government.

§ 10.702 Description of plans.

These plans are effected by endorsements attached to standard insurance policy forms for workmen's compensation, employer's liability, general liability, and automobile liability. The Rating Plans provide for a fixed deposit premium, for a reduced rate of current premium payments, for yearly adjustments of the premium depending upon loss experience during the period, and for final adjustment of the premium based upon the experience of the entire period covered by the policies. The final adjustment may be deferred for a maximum of 68 months after expiration of the policies. The total adjusted premium is the sum of the following:

(a) A fixed charge which is a percentage of the standard premium and is to compensate the insurance company for general expenses other than those referred to hereafter;

(b) Modified losses, which are the losses paid or incurred, multiplied by a conversion factor of 1.12 to compensate the insurance company for the claim department expense;

(c) Allocated claims expenses, which are expenses for claims services not of the type ordinarily rendered by the insurer's claim department, such as actual expenditures for attorney's fees and other trial or hearing expenses in connection with litigated cases;

(d) Special assessments imposed by the applicable jurisdiction for purposes such as second injury funds, rehabilitation funds, maintenance of workmen's compensation commissions, etc.; and

(e) Actual premium taxes.

Each of the above adjustments are subject to review by authorized representatives of the Department concerned, and the total adjusted premium derived therefrom cannot exceed a maximum premium which is a percentage of the standard premium developed by use of manual rates issued or approved by the appropriate rating organization. In general, the plans are variations of commercially available insurance rating plans, but have been specially developed to meet the requirements of the Departments.

§ 10.703 Use and eligibility for plans.

The Rating Plans described in this subpart shall be applied to all eligible defense projects where such application is determined by the Department concerned to be in the best interests of the Government. The Rating Plans may be applied to cost-reimbursement type contracts and also, in appropriate cases, to fixed-price contracts with price redetermination provisions. A defense project is eligible for application of a plan when (a) eligible Government contracts represent, at inception of the plan, at least 90 percent of the payroll for total operations at the specific locations of the project, and (b) the annual premium for insurance is estimated to be at least $10,000. A defense project may include contracts awarded by more than one Department to the same Contractor.

PART 11—FEDERAL, STATE AND LOCAL TAXES

Sec.

11.000 Scope of part.

Subpart A—Federal Excise Taxes

11.101 Retailers excise taxes.
11.101–1 General.
11.101–2 Jewelry and related items.
11.101–3 Furs.
11.101–4 Toilet preparations.
11.101–5 Luggage and handbags.
11.101–6 Special fuels.
11.102 Manufacturers excise taxes.
11.102–1 General.
11.102–2 Motor vehicles.
11.102–3 Tires and tubes.
11.102–4 Gasoline.
11.102–5 Lubricating oils.
11.102–6 Household type equipment.
11.102–7 Radio and television receiving sets, phonographs and records.
11.102–8 Musical instruments.
11.102–9 Sporting goods.
11.102–10 Photographic equipment.
11.102–11 Firearms, shells, and cartridges.
11.102–12 Business machines.
11.102–13 Pens, mechanical pencils, and lighters.
11.102–14 Matches.
11.103 Excise taxes on facilities and services.
11.104 Use tax on highway motor vehicles.

Subpart B—Exemptions From Federal Excise Taxes

11.201 Retailers excise taxes.
11.202 Manufacturers excise taxes.
11.203 Supplies and services for the exclusive use of the United States.
11.204 Exemptions from other Federal taxes.
11.205 Tax exemption forms.

Subpart C—State and Local Taxes

11.301 Applicability.
11.302 Tax exemption forms.

Subpart D—Contract Clauses

11.401 Fixed-price type contracts.
11.401–1 Clause for advertised and certain negotiated contracts.
11.401–2 Alternate clause for certain negotiated contracts.
11.402 Cost-reimbursement type contracts.
11.403 Foreign tax exemption clauses.
11.403–1 General.
11.403–2 Contract clauses.
11.404 Clause for use where foreign tax agreements do not apply.

AUTHORITY: §§ 11.000 to 11.402 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 11.000 Scope of part.

This part deals with Federal taxes imposed by the Internal Revenue Code upon certain supplies and services procured by any Department; exemptions from such Federal taxes; policy for obtaining exemption from State and local taxes; and contract clauses required or authorized for insertion in contracts. Except as otherwise indicated references are to the Internal Revenue Code of 1954 (26 U.S.C.). Subparts A and B of this part are only for general information of Government personnel. Reference should be made to the Internal Revenue Code and the applicable tax regulations, which may be amended from time to time, for guidance before taking action on any question involving taxes.

Subpart A—Federal Excise Taxes

§ 11.101 Retailers excise taxes.

§ 11.101–1 General.

Chapter 31 of the Internal Revenue Code imposes retailers excise taxes upon various types of articles, sold at retail. The tax is not imposed on sales for resale. The sale of taxable articles to the Government for use or consumption is a taxable retail sale. A lease of supplies is treated as a sale for the purpose of these taxes. In general, the tax attaches when title passes from the seller. The amount of tax is based on the sale price or the amount of rental payment. The sale price or rental payment for the purpose of computing the tax excludes:

(a) Whether or not separately stated, the retailers excise tax;

(b) If separately stated, any retail sales tax imposed by any State, Territory, or political subdivision thereof, or the District of Columbia, whether liability for such tax is imposed on the vendor or vendee; and

(c) All other service charges such as for transportation, delivery, insurance, and installation;

But includes any charges for packaging or packaging materials. If, after the tax has been paid, the sale price is adjusted for any reason, such as by discount, rebate, allowance, or return of containers, the amount of the tax applicable to such sale price also shall be adjusted by credit or refund. The retailer, in turn, is entitled to a refund or credit from the Internal Revenue Service for such tax adjustment.

§ 11.101–2 Jewelry and related items.

A tax of 10 percent of the sales price is imposed upon the following articles sold at retail: all articles commonly or commercially known as jewelry, whether real or imitation; certain specifically listed stones, whether real or synthetic; articles made of, ornamented, mounted, or fitted with precious metals or imitations thereof; watches, clocks, cases and movements therefor; gold, goldplated, silver, or sterling flatware or hollowware and silver-plate hollowware (which excludes silver-plated flatware); opera glasses, lorgnettes; and marine glasses, field glasses, and binoculars except those which, because of their size or weight, are ordinarily mounted on tripods or other bases. This tax does not apply to (a) articles used for religious purposes; (b) surgical and dental instruments; (c) frames or mountings for eyeglasses; (d) fountain pens, mechanical pencils, or smokers' pipes if the only parts of such articles which consist of precious metals are essential parts not used for ornamentation; (e) watches designed especially for the blind; (f) watches, clocks, cases and movements previously subjected to manufacturers tax or constituting a part of a nontaxable control or regulatory device; (g) or to buttons, insignia, and any other devices prescribed for use with the uniforms of the Armed Forces. Where the manufacturers excise tax has been imposed on a pen, mechanical pencil, or cigarette lighter, which is further processed so as to make it subject to the retailers excise tax on jewelry, the retailer, in computing the retailers excise tax due on the sale, is entitled to a credit or refund in the amount of the manufacturers excise tax paid on the article.

§ 11.101–3 Furs.

A tax of 10 percent of the sales price is imposed upon the following articles sold at retail: articles made of fur on the hide or pelt, and articles of which such fur is the component of chief value, i.e., its value is more than three times that of the next most valuable component material. The tax is not imposed upon the sale of raw fur. If the fur on the hide or pelt is supplied to a dresser or dyer of fur skins or a manufacturer or repairer of fur articles, who produces a taxable article for the use of the supplier of the fur, the transaction is deemed to be a sale at retail and is subject to the tax.

§ 11.101–4 Toilet preparations.

A tax of 10 percent of the sales price is imposed upon toilet preparations sold at retail and any other similar substance, article, or preparation by whatsoever name known which is used or applied, or intended to be used or applied for toilet purposes, but not including any article intended to be used or applied only in the care of babies, or to sales for use in barber shops and beauty parlors.

§ 11.101–5 Luggage and handbags.

A tax of 10 percent of the sales price is imposed upon certain specifically listed articles (including fittings or accessories sold therewith) sold at retail such as: luggage, handbags, cases, kits and similar items for use in carrying toilet articles or wearing apparel.

§ 11.101–6 Special fuels.

(a) *Diesel fuel.* A tax at the indicated rates is imposed upon diesel fuel, other than that taxable as gasoline under section 4081 of the Internal Revenue Code (see § 11.102–4), which is (*a*) sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle, for use as a fuel in such vehicle, or (*b*) used by any person as a fuel in a diesel-powered highway vehicle unless there was a taxable sale of such liquid pursuant to (*a*) above, as follows:

(1) At 3 cents per gallon, if sold for use or if used as fuel in a diesel-powered highway vehicle:

(i) Which, at the time of such sale or use, is registered, or is required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States, is used on the highway; or

(2) At 2 cents per gallon, if sold for use or if used as fuel in a diesel-powered highway vehicle:

(i) Which, at the time of such sale or use, is not registered, and is not required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States, is not used on the highway; and

(3) At an additional 1 cent per gal-

lon, if fuel on which a tax of 2 cents was paid pursuant to (2) above, is used as fuel in a diesel-powered highway vehicle:

(i) Which, at the time of such use, is registered, or is required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States, is used on the highway.

No tax is imposed on diesel fuel sold for use or used as fuel in a nonhighway vehicle, such as certain military vehicles, construction equipment, and equipment designed for use at mines, factories, railroad stations, and farms.

(b) *Special motor fuels.* A tax at the rates indicated below is imposed upon benzol, benzene, naphtha, liquefied petroleum gas, or any other liquid (other than kerosene, gas oil, fuel oil, or a product taxable as diesel fuel under paragraph (a) of this section, or as gasoline under section 4081 of the Internal Revenue Code (see § 11.102–4)), which is (*a*) sold by any person to an owner, lessee, or other operator of a motor vehicle, motorboat, or airplane for use as a fuel for the propulsion thereof, or (*b*) used by any person as a fuel for the propulsion of a motor vehicle, motorboat, or airplane, unless there was a taxable sale of such liquid pursuant to (*a*) above, as follows:

(1) At 3 cents per gallon, if such liquid is sold for use or is used as a fuel for a highway vehicle:

(i) Which, at the time of such sale or use, is registered, or is required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States, is used on the highway, or

(2) At 2 cents per gallon, if such liquid is sold for use or is used as a fuel for the propulsion of a motorboat or airplane, or a motor vehicle:

(i) Which, at the time of such sale or use, is not registered, and is not required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States, is not used on the highway; and

(3) At an additional 1 cent per gallon, if a liquid on which a tax of 2 cents was paid pursuant to (2) above, is used as fuel in a highway vehicle:

(i) Which, at the time of such use, is registered, or required to be registered, for highway use under the laws of any State or foreign country; or

(ii) Which, if owned by the United States is used on the highway.

(c) *Refunds and credits.* (1) A retailer, who has paid a tax on diesel fuel or special motor fuel, is entitled to a refund or credit of the tax paid, if such retailer has not included the tax in the sales price or otherwise collected the tax from the purchaser, has repaid the tax to the purchaser, or has the purchaser's written consent to take the refund or credit, as follows:

(i) A refund or credit of 3 cents or 2 cents per gallon, as appropriate, if a liquid upon which a tax of either 3 cents or 2 cents per gallon has been paid, is not used as fuel in a diesel-powered highway vehicle or to propel a motor vehicle, motorboat, or airplane;

(ii) A refund or credit of 1 cent per gallon, if diesel fuel, upon which a tax of 3 cents per gallon has been paid pursuant to paragraph (a)(1) of this section, is used as a fuel for a diesel-powered highway vehicle:

(*a*) Which, at the time of such use is not registered, and is not required to be registered, for highway use under the laws of any State or foreign country; or

(*b*) Which, if owned by the United States, is not used on the highway; or

(iii) A refund of 1 cent per gallon, if special motor fuel, upon which a tax of 3 cents per gallon has been paid pursuant to paragraph (b)(1) of this section, is used to propel a motorboat or airplane, or motor vehicle:

(*a*) Which, at the time of such use is not registered, and is not required to be registered, for highway use under the laws of any State or foreign country; or

(*b*) Which, if owned by the United States, is not used on the highway.

These refunds or credits shall be utilized, in accordance with Departmental procedures, by adjustment of the contract price whenever it is economically advantageous to do so.

(2) If the manufacturers excise tax on gasoline (see § 11.102–4) has been paid on any material used in the production of a special motor fuel taxable under paragraph (b) of this section, the manufacturer of the gasoline is entitled to a refund or credit of such tax, subject to the conditions similar to those stated in the opening lines of subparagraph (1) of this paragraph. The contract price for special motor fuels purchased by any Department shall not include an amount for manufacturers excise tax on gasoline used in the production of such special motor fuel.

§ 11.102 Manufacturers excise taxes.

§ 11.102–1 General.

Chapter 32 of the Internal Revenue Code imposes manufacturers excise taxes upon various types of supplies sold by a manufacturer, producer, or importer. In general, the tax attaches when title passes from the manufacturer. The amount of the tax is based on the amount of the sale price. A lease of supplies is treated as a sale for the purpose of these taxes, in which event the tax is measured by the rental payments until such payments equal the price or fair value of the article (but see § 11.102–12 with respect to lease of business machines by the Government). The sale price or rental payment excludes the tax itself and all service charges connected with the sale, such as transportation, delivery, insurance, or installation charges. However, charges for packaging materials are included. If, after the tax has been paid, the sale price is adjusted for any reason, such as by discount, rebate, allowance, or return of containers, the amount of the tax applicable to such sale price also should be adjusted. The manufacturer, in turn, is entitled to a refund or credit from the Internal Revenue Service for such tax adjustment. Articles subject to the retailers excise tax on jewelry (see § 11.101–2) are not subject to manufacturers excise taxes, except any clock or watch, or any case or movement for a clock or watch, sold as a part or accessory, or sold on or in connection with or with the sale of any article. Supplies of native Indian handicraft manufactured or produced by Indians on Indian reservations, or in Indian schools, or by Indians under the jurisdiction of the United States Government in Alaska are not subject to manufacturers excise taxes.

§ 11.102–2 Motor vehicles.

A tax at the rates indicated below is imposed upon the following articles (including parts and accessories sold therewith) sold by a manufacturer, producer, or importer:

(a) Chassis and bodies of trucks, buses, truck and bus trailers and semitrailers, and tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer—10 percent; except that this tax does not apply to equipment designed for off-the-road use, such as certain military vehicles, construction equipment, and equipment designed for use at mines, factories, railroad stations, and farms;

(b) Chassis and bodies of automobiles, and of trailers and semitrailers (other than house trailers) suitable for use with passenger automobiles—10 percent through June 30, 1960, and 7 percent thereafter; and

(c) Parts or accessories—when sold separately from an automobile, truck, or other item taxable as indicated in paragraphs (a) and (b) of this section—8 percent through June 30, 1960 and 5 percent thereafter. Parts or accessories are defined to include any article—

(1) The primary use of which is to improve, repair, replace or serve as a component part of a motor vehicle;

(2) Designed to be attached to or used in connection with a motor vehicle or to add to its utility or ornamentation; or

(3) The primary use of which is in connection with a motor vehicle whether or not essential to its operation or use.

Spark plugs, storage batteries, leaf springs, coils, timers, and tire chains, which are suitable for use on or in connection with, or as component parts of, a taxable motor vehicle are treated as parts or accessories whether or not primarily adapted for such use. However, the term "parts or accessories" does not include tires, inner tubes, or automobile radio and television receivers. The tax on parts or accessories does not apply to any article sold for use (or for a single resale for use) as material in the manufacture of, or as a component part of any article whether or not such article is subject to a manufacturers excise tax. The contract price of supplies purchased by any Department shall not include an amount for the manufacturers excise tax on automotive parts or accessories purchased for use in the manufacture of any article.

§ 11.102–3 Tires and tubes.

(a) A tax at the rates indicated below is imposed on the following supplies, made wholly or in part of rubber, including synthetic and substitute rubber, sold by a manufacturer, producer, or importer:

(1) Tires of the type used on highway vehicles, which includes motor vehicles which are highway vehicles, and vehicles of the type used with motor vehicles which are highway vehicles—8 cents per pound;

(2) Other tires, which include pneumatic and solid tires, casings, hoops, strips, and bands of all kinds which are designed to fit the wheel of any type of vehicle that is capable of transporting a person or burden—5 cents per pound;

(3) Inner tubes, which include any type of air container for pneumatic tires—9 cents per pound on total weight, including air valves and stem; and

(4) Tread rubber, which includes any material commonly or commercially known as tread rubber or camelback of a type used in retreading or recapping tires—3 cents per pound. An exemption exists for the sale of tread rubber or camelback by a manufacturer to a purchaser for use by that purchaser other than for recapping or retreading tires of the type used on highway vehicles. In addition, if tread rubber, upon which the tax has been paid, is sold for use or is used other than for recapping or retreading tires of the type used on highway vehicles, the manufacturer is entitled to a refund or credit of the tax: *Provided*, That the credit under (b) below is not available. The contract price for supplies purchased by any Department will not include an amount for the manufacturers excise tax on tread rubber to the extent that this exemption or refund or credit is available to the manufacturer. In determining weight of taxable tires under subparagraphs (1) and (2) of this paragraph, metal rims or rim bases are excluded, but any other material or fastening device that forms a part of the tire is included. The tax imposed under subparagraph (1) and (2) of this paragraph, does not apply to tires which are not more than 20 inches in diameter, and not more than 1¾ inches in cross section, if such tires are of all-rubber construction without fabric or metal reinforcement, nor does it apply to tires of extruded tiring with an internal wire fastening agent.

(b) The exemption for sales for further manufacture does not apply to taxable tires and tubes (see § 11.203). However, if tax-paid tires and tubes normally sold in connection with the sale by a manufacturer of a taxable motor vehicle are sold therewith, a credit against the tax on the motor vehicle is allowed to the extent of the motor vehicle tax rate applied to the manufacturers purchase price on the tires and tubes. The contract price for supplies purchased by any Department should not include an amount for manufacturers excise tax on tires and tubes to the extent that this credit is available to the manufacturer.

§ 11.102–4 Gasoline.

(a) A tax of 3 cents per gallon is imposed on gasoline sold by a producer or importer. Gasoline means all products commonly or commercially known as gasoline, including casinghead and natural gasoline, but excluding kerosene, gas oil, or fuel oil, and also excluding any product taxable as a special motor fuel under section 4041 of the Internal Revenue Code (see § 11.101–6). The tax does not apply to the sale of gasoline to a producer, which is defined to include a refiner, compounder, blender, or dealer who sells gasoline exclusively to producers of gasoline.

(b) The ultimate purchaser of gasoline is entitled to a refund of 1 cent per gallon for gasoline used otherwise than as fuel in a highway vehicle; for example, gasoline used in stationary engines, in cleaning tools, in motorboats, aircraft, fork lift trucks, bulldozers and earth movers. Refunds will also be made on gasoline used as fuel in a highway vehicle:

(1) Which, at the time of such use is not registered, nor required to be registered, for highway use under the laws of any State or foreign country; or

(2) Which, if owned by the United States is not used on the highway. In accordance with Departmental procedures, necessary data shall be compiled, to the extent economically advantageous, to support a direct application to the Internal Revenue Service for refund. Such application shall be in accord with pertinent requirements of the Internal Revenue Service.

§ 11.102–5 Lubricating oils.

(a) A tax at the indicated rates is imposed upon the following classes of lubricating oils sold, other than to another manufacturer or producer for resale, by a manufacturer or producer (but not upon oil sold by an importer):

(1) Cutting oils, which means oils sold for use in cutting and machining operations, including forging, drawings, rolling, shearing, punching, and stamping on metals—3 cents per gallon; and

(2) Other lubricating oils, which means all oils, regardless of origin, which are sold as lubricating oil or are suitable for use as a lubricant, not including products commonly known as grease—6 cents per gallon. Certain products, other than those commonly known as grease, are not considered to be lubricating oils, and accordingly are not subject to the tax. These include petrolatum, and fatty oils of vegetable, animal, fish, and marine origin which in their natural state are not sold as lubricating oils.

(b) An exemption is available for lubricating oils sold by a manufacturer directly to a purchaser who uses the oil for nonlubricating purposes. In applying this exemption, oils can be grouped into two classes:

(1) Oils which are exempted if the manufacturer obtains an exemption certificate from the purchaser in the form prescribed by the Treasury Regulations; and

(2) Oils which are exempted without an exemption certificate. Oils of the second class include crude neatsfoot oil; electrical transformer insulating oil; white oil; and lubricating oils which are packaged in sealed containers of one gallon or less, labeled and sold for nonlubricating purposes.

With the exception of oils which are packaged in sealed containers of one gallon or less, labeled and sold for nonlubricating purposes, oils of neither class may be sold tax-free to dealers for resale even though it is known that the oil will be used for nonlubricating purposes. If, however, oil upon which a tax has been paid is used for nonlubricating purposes, the manufacturer is entitled to a refund or credit, irrespective of whether the oil was sold directly to the consumer by the manufacturer or was sold through a dealer. A refund or credit is also allowed when lubricating oil, upon which the 6 cent per gallon tax has been paid, is used as a cutting oil taxable at 3 cents per gallon. When it is economically advantageous to do so, the exemption or refund or credit for oil sold for use or used for nonlubricating purposes, and the refund or credit for lubricating oil used as a cutting oil, shall be utilized in accordance with Departmental procedures by a tax exclusive purchase or by adjustment of the contract price.

§ 11.102–6 Household type equipment.

A tax at the rates indicated below is imposed upon the following supplies (including parts or accessories sold therewith) sold by a manufacturer, producer, or importer:

(a) Household type refrigerators, which include units not exceeding 14 cubic feet net storage space for single or multiple cabinet installations having, or designed for use with, a mechanical refrigerating unit operated by electricity, gas, kerosene, or gasoline; household type units for the quick freezing or frozen storage of foods operated by electricity, gas, kerosene, or gasoline—5 percent.

(b) Self-contained air-conditioning units—10 percent.

(c) Electric, gas and oil appliances—5 percent.

(d) Electric light bulbs and tubes, not subject to any other manufacturers tax—10 percent.

§ 11.102–7 Radio and television receiving sets, phonographs and records.

A tax of 10 percent is imposed upon the following articles (including parts and accessories sold therewith) sold by a manufacturer, producer, or importer:

(a) Radio and television receiving sets, automobile radio and television receiving sets, phonographs, and combinations of any of the foregoing, unless such articles are communication, detection or navigation equipment of the type used in commercial, military or marine installations. The contract price of any of these articles to be used for communication, detection or navigational purposes delivered to any Department shall not include any amount for the manufacturers excise tax, irrespective of the date of the contract, if the contract price is subject to adjustment for changes in the contractor's Federal excise tax burden. The exemption of sales for further manufacture does not apply to automobile radio and television receivers (see § 11.203); however, if tax-paid receivers are sold in connection with the sale by a manufacturer of a taxable motor vehicle, a credit against the tax on the motor vehicle is allowed to the extent of the motor vehicle tax rate applied to the

manufacturer's purchase price on the receiver; and

(b) Radio and television components, which means chassis, cabinets, tubes, speakers, amplifiers, power supply units, antennae of the built-in-type, phonograph mechanism and phonograph record players unless such articles are suitable for use only on or in connection with, or as a component part of, any communication, detection or navigation equipment. Exemption from the tax is available as to taxable components—which are sold for use, or are actually used as material in the manufacture of, or as a component part of, any article, whether or not such article is subject to a manufacturer's excise tax. The contract price for articles purchased by any Department shall not include an amount for the manufacturers excise tax on radio and television components if this exemption is available to the manufacturer.

§ 11.102–8 Musical instruments.

A tax of 10 percent is imposed upon musical instruments sold by a manufacturer, producer, or importer. The tax does not apply to musical instruments sold to a religious institution for exclusively religious purposes.

§ 11.102–9 Sporting goods.

A tax of 10 percent is imposed upon certain types of sporting equipment (including parts or accessories sold therewith) sold by a manufacturer, producer, or importer.

§ 11.102–10 Photographic equipment.

A tax at the rates indicated below is imposed upon the following articles (including parts or accessories sold therewith) sold by a manufacturer, producer, or importer:

(a) Cameras, not including X-ray cameras or cameras weighing more than four pounds exclusive of lens and accessories—10 percent;

(b) Camera lenses, not including still camera lenses having a focal length of more than 120 millimeters or motion picture lenses having a focal length of more than 30 millimeters—10 percent. Exemption from the tax is available as to camera lenses which are sold for use or are actually used as material in the manufacture of, or as a component part of any article, whether or not such article is subject to a manufacturers excise tax. The contract price for supplies purchased by any Military Department shall not include an amount for the manufacturers excise tax on camera lenses if this exemption is available to the manufacturer;

(c) Unexposed photographic film in rolls, including motion picture film—10 percent. This tax does not apply to X-ray film; unperforated microfilm; film more than 150 feet in length; or film more than 25 feet in length and more than 30 millimeters in width. A person who acquires unexposed film in a form not subject to tax and thereafter sells such unexposed film in form and dimensions subject to tax is treated as a manufacturer of the film so sold by him. The manufacturer of unexposed motion picture films is entitled to a credit or refund (but not an exemption) for film used or resold for use in making newsreel motion picture films covering current news events for immediate release for public exhibition; and

(d) Electric motion or still picture projectors of the household type—5 percent.

§ 11.102–11 Firearms, shells, and cartridges.

Although a tax is imposed upon pistols and revolvers at the rate of 10 percent, and other firearms, shells, and cartridges at the rate of 11 percent, sold by a manufacturer, producer, or importer, it does not attach to the sale or transfer of such articles purchased with funds appropriated for the Military Departments. In addition to this manufacturers excise tax, Chapter 53A of the Internal Revenue Code imposes a transfer tax and a tax on the manufacture of machine guns and certain other firearms, except that transfer to, or manufacture for, the United States is specifically exempted from these taxes.

§ 11.102–12 Business machines.

A tax of 10 percent is imposed upon a wide variety of business machines (including parts or accessories sold therewith), not including cash registers of the type used in registering over-the-counter retail sales or stencil cutting machines of the type used in shipping departments in making cutout stencils for marking freight shipments, sold by a manufacturer, producer, or importer. However, the Secretary of the Treasury has authorized an exemption effective 1 January 1959 on any payment made under leases of business machines directly to the United States for its exclusive use: *Provided*, That there is included in the lease agreement a statement to the effect that this "agreement is a lease of business machines directly to the United States for its exclusive use and qualifies for exemption under the order of the Secretary of the Treasury dated April 20, 1959, authorized by section 4293 of the Internal Revenue Code of 1954." To qualify for the exemption the lease agreement must be entered into by an officer or employee of the United States who is authorized to execute contracts for and on behalf of the United States.

§ 11.102–13 Pens, mechanical pencils, and lighters.

A tax of 10 percent is imposed upon fountain and ball point pens, mechanical pencils, and mechanical lighters for cigarettes, cigars, and pipes, sold by a manufacturer, producer, or importer; except that this tax does not apply if the article also is subject to the retailers excise tax on jewelry imposed by section 4001 of the Internal Revenue Code. If the manufacturers excise tax has been paid, but the article is further processed so as to subject it to the retailers excise tax, the retailer (but not the manufacturer who originally paid the tax) is entitled to a credit to the extent of the manufacturers excise tax paid on the article (see § 11.101–2).

§ 11.102–14 Matches.

A tax of 2 cents per 1,000, not to exceed 10 percent of the price for which sold, is imposed upon matches sold by a manufacturer, producer, or importer, except that the rate is 5½ cents per 1,000 for fancy wooden matches or matches having a stained, dyed, or colored stick or stem, whether packed in boxes or in bulk.

§ 11.103 Excise taxes on facilities and services.

Chapter 33 of the Internal Revenue Code imposes excise taxes on certain facilities and service, including admissions, dues, communications, transportation and safe deposit boxes. In general, the tax is based on the amount paid for the service, and is imposed upon the person paying for the service.

§ 11.104 Use tax on highway motor vehicles.

(a) A tax of $1.50 a year for each 1,000 pounds of taxable gross weight, or fraction thereof, is imposed upon the use of any highway motor vehicle which, together with semitrailers and trailers customarily used in connection with a vehicle of this type, has a taxable gross weight in excess of 26,000 pounds. The full tax is due for any vehicle which is used on the public highways of the United States at any time during the month of July, irrespective whether the vehicle is later removed from highway use. If the first use of a taxable vehicle occurs after the end of July, the tax is computed proportionately from the first day of the month in which the vehicle is first used, through the end of the following June. For example, if a vehicle is placed in use during August, 11/12 of the total tax is payable. No tax applies to vehicles, even though of a highway type, which are never used on the public highways during the taxable year.

(b) Taxable gross weight is the sum of:

(1) The actual unloaded weight of the vehicle and any semitrailers and trailers customarily used with such a vehicle, all units fully equipped for service; and

(2) The weight of the maximum load customarily carried by all units of a vehicle of this type.

(c) The tax is payable by the person in whose name the vehicle is, or is required to be, registered under the law of any State, or if owned by the United States, by the agency or instrumentality of the United States operating such vehicle. If a tax has been paid for a particular vehicle, no further liability can be incurred in the same taxable year, even though there is a change of ownership of the vehicle.

(d) The Secretary of the Treasury has authorized an exemption for vehicles used by the United States whether or not they are Government owned.

Subpart B—Exemptions From Federal Excise Taxes

§ 11.201 Retailers excise taxes.

No retailers excise tax is imposed on the sale of any article:

(a) For the exclusive use of any State, Territory of the United States, of any political subdivision of the foregoing, or the District of Columbia, or

(b) For export, or for shipment to a possession of the United States, and in due course so exported or shipped. This exemption shall be utilized, in accordance with Departmental procedures, by purchasing on a tax-exclusive basis and furnishing the required proof of exportation or shipment to a possession (which includes the Panama Canal Zone, the Virgin Islands, Guam, Puerto Rico, American Samoa, Wake and the Midway Islands) if:

(1) The purchase is substantial; and

(2) Exportation or shipment to a possession is intended to follow not more than 6 months after title passes to the Government.

(c) Upon sale to retailers for resale. Sales by the United States, or any agency or instrumentality thereof, are not exempt unless specifically made exempt by statute. However, the tax on special motor fuels imposed by section 4041(b) of the Internal Revenue Code (see § 11.101–6) does not apply to sales of supplies for use as sea stores, fuel supplies, ships' stores, or legitimate equipment necessary for the navigation, propulsion, and upkeep of vessels of war or military aircraft, including guided missiles and pilotless aircraft, owned or chartered by the United States. If supplies upon which a tax has been paid are sold for any of the exempt uses enumerated above, a credit or refund of the tax paid is due. When it is economically advantageous to do so, this exemption, credit, or refund shall be utilized, by purchase on a tax-exclusive basis and execution of the required exemption certificate, in accordance with Departmental procedures.

§ 11.202 Manufacturers excise taxes.

No manufacturers excise tax is imposed on the sale of any article:

(a) For use by the purchaser for further manufacture or for resale to a second purchaser for use by such second purchaser in further manufacture. (An article shall be treated as sold for use in further manufacture if sold for use by the purchaser as material in the manufacture or production of, or as a component part of, another taxable article to be manufactured or produced. In the case of automobile parts and accessories, radio or television components, or camera lens, it is not necessary that the produced article be a taxable article. This exemption does not apply to tires, inner tubes, or automobile radio or television receiving sets.);

(b) For export, or for resale to a second purchaser for export. This exemption shall be obtained only when the purchase is substantial and exportation or shipment to a possession is intended to follow not more than 6 months after title passes to the Government. (This exemption is limited to sales by a manufacturer, and is not applicable to sales for export or shipment to a possession from the stock of a dealer who was not the manufacturer, producer, or importer.);

(c) For use by the purchaser as supplies for vessels or aircraft, that is, on sales of supplies for use as sea stores, fuel supplies, ships' stores, or legitimate equipment necessary for the navigation, propulsion, or upkeep of vessels of war or military aircraft, including guided missiles and pilotless aircraft, owned or chartered by the United States. (If supplies upon which a tax has been paid are sold for any of the exempt uses enumerated above, the manufacturer is entitled to a credit or refund of the tax paid, irrespective of whether the supplies are sold directly to the consumer by the manufacturer or are sold through a dealer. When it is economically advantageous to do so, this exemption, credit, or refund shall be utilized, by purchase on a tax-exclusive basis and execution of the required exemption certificate, in accordance with Departmental procedures.);

(d) Or the Exclusive use of a State or local government; or

(e) To a nonprofit educational organization.

§ 11.203 Supplies and services for the exclusive use of the United States.

By virtue of action taken by the Secretary of the Treasury, pursuant to section 4293 of the Internal Revenue Code, exemption is available, and shall be obtained, to the extent indicated, from the following Federal excise taxes:

(a) Tax on communication services and facilities furnished directly to the United States (as distinguished from being furnished to a Government contractor) and paid for directly by the Government (Such exemption is obtained without any exemption certificate.);

(b) Tax on transportation of persons for transportation furnished the United States upon a Government transportation request (Such exemption is obtainable by use of such transportation request.); and

(c) Tax on rental of business machines (see § 11.102–12).

§ 11.204 Exemptions from other Federal taxes.

Any department that purchases supplies or services subject to a Federal excise tax, other than those outlined in Subpart A of this part, shall prescribe rules to govern the utilization of any exemptions from such tax.

§ 11.205 Tax exemption forms.

Standard Government exemption forms acceptable to the Internal Revenue Service shall be used in accordance with Departmental procedures (see §16.804 of this subchapter).

Subpart C—State and Local Taxes

§ 11.301 Applicability.

As a general rule, Government purchases are exempt from state and local taxes. This exemption shall be made use of to the fullest extent available, by means of purchase on a tax-exclusive basis and execution of an approved tax exemption certificate. Whenever there is any doubt as to the availability of such exemption, the matter shall be referred to the appropriate office of the Department concerned.

§ 11.302 Tax exemption forms.

Standard Form 1094 (U.S. Government Tax Exemption Certificate) Revised, shall be used to the extent prescribed in § 16.804 of this subchapter.

Subpart D—Contract Clauses

§ 11.401 Fixed-price type contracts.

§ 11.401–1 Clause for advertised and certain negotiated contracts.

Except in contracts to be performed entirely outside the United States, its possessions, and Puerto Rico, the following clause shall be inserted in (a) all formally advertised contracts (other than construction contracts not in excess of $10,000), and (b) negotiated fixed-price type contracts in excess of $10,000 where the contracting officer is satisfied that the contract price, by virtue of competition or otherwise, excludes contingencies for State and local taxes. In negotiated fixed-price type contracts in excess of $2,500 but not in excess of $10,000, the clause may, in the discretion of the contracting officer, be inserted.

FEDERAL, STATE, AND LOCAL TAXES (JAN. 1958)

(a) As used throughout this clause, the term "tax inclusive date" means the date of negotiated contracts and the date set for the opening of bids for contracts entered into through formal advertising. As to additional supplies or services procured by modification to this contract, the term "tax inclusive date" means the date of such modification.

(b) Except as may be otherwise provided in this contract, the contract price includes all Federal, State, and local taxes and duties in effect and applicable to this contract on the tax inclusive date, except taxes (other than Federal transportation taxes) from which the Government, the Contractor, or the transactions or property covered by this contract are then exempt. Unless specifically excluded, duties are included in the contract price, and, if freight is included in the contract price, Federal transportation taxes are likewise included.

(c) (1) If the Contractor is required to pay or bear the burden—

(i) Of any tax or duty, which either was not to be included in the contract price pursuant to the requirements of paragraph (b), or was specifically excluded from the contract price by a provision of this contract, or

(ii) Of an increase in rate of any tax or duty, whether or not such tax or duty was excluded from the contract price;

or of any interest or penalty thereon, the contract price shall be correspondingly increased: *Provided*, That the Contractor warrants in writing that no amount of such tax, duty, or rate increase was included in the contract price as a contingency reserve or otherwise: *And provided further*, That liability for such tax, duty, rate increase, interest, or penalty was not incurred through the fault or negligence of the Contractor or its failure to follow instructions of the Contracting Officer.

(2) If the Contractor is not required to pay or bear the burden, or obtains a refund or drawback, in whole or in part, of any tax, duty, interest, or penalty which (i) was to be included in the contract price pursuant to the requirements of paragraph (b), (ii) was included in the contract price, or (iii) was the basis of an increase in the contract price, the contract price shall be correspondingly decreased or the amount of such relief, refund, or drawback shall be paid to the Government, as directed by the Contracting Officer. The contract price also shall be correspondingly decreased if the Contractor, through its fault or negligence or its failure to follow instructions of the Contracting Officer, is required to pay or bear the burden,

or does not obtain a refund or drawback of any such tax, duty, interest, or penalty. Interest paid or credited to the Contractor incident to a refund of taxes shall inure to the benefit of the Government to the extent that such interest was earned after the Contractor was paid or reimbursed by the Government for such taxes.

(3) Invoices or vouchers covering any adjustment of the contract price pursuant to this paragraph (c) shall set forth the amount thereof as a separate item and shall identify the particular tax involved.

(4) Nothing in this paragraph (c) shall be applicable to social security taxes; net income taxes; excess profit taxes; capital stock taxes; Federal transportation taxes, except changes in the rate thereof, including repeal, pertaining to shipments from the Contractor to the Government; unemployment compensation taxes; or any State and local taxes, except those levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract, including gross income taxes, gross receipts taxes, sales and use taxes, excise taxes, or franchise or occupation taxes measured by sales or receipts from sales.

(5) No adjustment of less than $100 shall be made in the contract price pursuant to this paragraph.

(d) Unless there does not exist any reasonable basis to sustain an exemption, the Government agrees upon request of the Contractor, without further liability except as otherwise provided in this contract, to furnish evidence appropriate to establish exemption from (i) any Federal tax, which the Contractor warrants in writing was excluded from the contract price, or (ii) any State or local tax: *Provided*, That evidence appropriate to establish exemption from duties will be furnished, and Government bills of lading will be issued, only at the discretion of the Contracting Officer. In addition, the Contracting Officer may furnish evidence appropriate to establish exemption from any tax that may, pursuant to this clause, give rise to either an increase or decrease in the contract price.

(e) (1) The Contractor shall promptly notify the Contracting Officer of all matters pertaining to Federal, State, and local taxes and duties that reasonably may result in either an increase or decrease in the contract price.

(2) Whenever an increase or decrease in the contract price may be required under this clause, the Contractor shall take action as directed by the Contracting Officer, and the contract price shall be equitably adjusted to cover the costs of such action, including any interest, penalty, and reasonable attorney's fees.

of property, title to which is in the Government.

(5) No adjustment of less than $100 is required to be made in the contract price pursuant to this paragraph (d).

(e) Unless there does not exist any reasonable basis to sustain an exemption, the Government upon request of the Contractor, without further liability, agrees, except as otherwise provided in this contract, to furnish evidence appropriate to establish exemption from any tax which the Contractor warrants in writing was excluded from the contract price. In addition, the Contracting Officer may furnish evidence appropriate to establish exemption from any tax that may, pursuant to this clause, give rise to either an increase or decrease in the contract price. Except as otherwise provided in this contract, evidence appropriate to establish exemption from duties will be furnished only at the discretion of the Contracting Officer.

(f) (1) The Contractor shall promptly notify the Contracting Officer of all matters pertaining to Federal, State, and local taxes, and duties, that reasonably may be expected to result in either an increase or decrease in the contract price.

(2) Whenever an increase or decrease in the contract price may be required under this clause, the Contractor shall take action as directed by the Contracting Officer, and the contract price shall be equitably adjusted to cover the costs of such action, including any interest, penalty, and reasonable attorneys' fees.

§ 11.402 Cost-reimbursement type contracts.

No specific tax clause is required in any cost-reimbursement type contract. In all such contracts the problem of Federal, State, and local taxes (which presents solely a question of allowability of costs in connection with the performance of cost-reimbursement type contracts) is covered in the contract clause set forth in § 7.203–4 of this subchapter and is treated in Part 15 of this subchapter.

§ 11.403 Foreign tax exemption clauses.

§ 11.403–1 General.

(a) *Use of clauses.* Tax agreements have been made with Belgium, Denmark, France, Federal Republic of Germany (including West Berlin), Greece, Iceland, Italy, Japan, Luxembourg, the Netherlands, Norway, the Philippines, Portugal, Spain, Turkey, the United Kingdom, and Yugoslavia, under which the United States expenditures for the common defense are exempt from certain specified taxes of the countries in which these expenditures are made. The clauses in § 11.403–2 shall be included in all contracts to be performed by contractors or by foreign governments in those foreign countries with which such tax agreements have been made. However, such clauses need not be included in contracts under $1,000 if the contracting officer determines that the administrative burden of securing relief from such taxes would be out of proportion to the relief obtained; provided, that such clauses shall be included in all contracts in support of NATO infrastructure programs involving the expenditure of funds under section 104 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1814).

(b) *Exclusion of specific taxes from the contract price.* The contracting officer, at the time of negotiation of a contract that is to contain one of the clauses in § 11.403–2, shall obtain and make a part of the contract file detailed information concerning the specific taxes and amounts, normally applicable to the transaction, from which the Government of the United States is exempt under the provisions of applicable tax agreements.

§ 11.403–2 Contract clauses.

In accordance with § 11.403–1 and except as provided therein, the appropriate one of the clauses in paragraphs (a) through (d) of this section shall be included in each contract to which a tax agreement is relevant.

(a) *Fixed-price type contracts with foreign contractors other than foreign governments.*

TAXES (JULY 1960)

(a) The contract price, including the prices in any subcontracts hereunder, does not include any tax or duty which the Government of the United States and the Government of _____ have agreed shall not be applicable to expenditures made by the United States in _____, or any tax or duty from which the Contractor, or any subcontractor hereunder, is exempt under the laws of _____. If any such tax or duty has been included in the contract price, through error or otherwise, the contract price shall be correspondingly reduced.

(b) If for any reason after the contract date, the Contractor is relieved in whole or in part from the payment or the burden of any

§ 11.401–2 Alternate clause for certain negotiated contracts.

(a) *Use of clause.* (1) Except in contracts to be performed entirely outside the United States, its possessions, and Puerto Rico, the clause set forth in paragraph (b) of this section shall be inserted in all negotiated fixed-price type contracts in excess of $10,000 where the contracting officer is not satisfied that the contract price, by virtue of competition or otherwise, excludes contingencies for State and local taxes. Guidelines for using the clause are set forth below.

(2) Subparagraphs (d) (1) and (d) (2) of the clause, respectively, provide for upward and downward escalation for certain taxes. Subparagraph (d) (4) prohibits upward and downward escalation for social security, income, franchise, excess profit, capital stock, unemployment compensation and property taxes, except:

(i) Income and franchise taxes levied on or measured by (*a*) sales or receipts from sales, or (*b*) the contractor's possession of, interest in, or use of Government-owned property; and

(ii) Property taxes allocable to the contract which are assessed on completed supplies covered by the contract, or on the contractor's possession of, interest in, or use of property title to which is in the Government.

(3) Paragraph (e) of the clause provides for the furnishing by the Government of evidence of exemption from taxes which the contractor warrants were excluded from the contract price. Evidence of exemption shall be issued only where there is a reasonable basis therefor.

(4) Paragraph (f) (1) of the clause obligates the contractor to notify the contracting officer of any tax matters (e.g., unexpected tax assessments or new legislation) which reasonably may be expected to result in an increase or decrease in the contract price. Paragraph (f) (2) obligates the contractor to follow instructions of the contracting officer when an adjustment in the contract price may be required, and provides for adjustment of the contract price to cover the costs of such action.

(5) Paragraph (b) of the clause furnishes criteria for determining the taxes included in the contract price. However, the contract may provide for the exclusion of a specific tax from the contract price. Where the contracting officer has doubt as to the applicability or allocability of any tax, language appropriate to the particular circumstances should be included in the contract after obtaining any approval required by the Department concerned. Special consideration should be accorded taxes assessed on the contractor's possession of, interest in, or use of Government-owned real and personal property. In accordance with Departmental procedures, the following provision may be inserted in any contract under which the contractor has possession of property to which the Government has title on the tax assessment date, pursuant to progress payment clauses or otherwise:

All property taxes assessed on the Contractor's possession of, interest in, or use of property title to which is in the Government are excluded from the contract price.

(6) Where Government property is furnished under a facilities contract, the contracting officer shall review the facilities contract when negotiating a subsequent supply contract to assure that the contractor is not reimbursed twice for the same taxes.

(b) *Clause.*

FEDERAL, STATE, AND LOCAL TAXES (JULY 1960)

(a) As used throughout this clause, the term "contract date" means the date of this contract. As to additional supplies or services procured by modification to this contract, the term "contract date" means the date of such modification.

(b) Except as may be otherwise provided in this contract, the contract price includes, to the extent allocable to this contract, all Federal, State, and local taxes which, on the contract date:

(i) by Constitution, statute, or ordinance, are applicable to this contract, or to the transactions covered by this contract, or to property or interests in property; or

(ii) pursuant to written ruling or regulation, the authority charged with administering any such tax is assessing or applying to, and is not granting or honoring an exemption for, a contractor under this kind of contract, or the transactions covered by this contract, or property or interests in property.

(c) Except as may be otherwise provided in this contract, duties in effect on the contract date are included in the contract price, to the extent allocable to this contract.

(d) (1) If the Contractor is required to pay or bear the burden—

(i) of any tax or duty which either was not to be included in the contract price pursuant to the requirements of paragraphs (b) and (c), or of a tax or duty specifically excluded from the contract price by a provision of this contract; or

(ii) of an increase in rate of any tax or duty, whether or not such tax or duty was excluded from the contract price; or

(iii) of any interest or penalty on any tax or duty referred to in (i) or (ii) above; the contract price shall be increased by the amount of such tax, duty, interest, or penalty allocable to this contract; provided, that the Contractor warrants in writing that no amount of such tax, duty, or rate increase was included in the contract price as a contingency reserve or otherwise; and provided further, that liability for such tax, duty, rate increase, interest or penalty was not incurred through the fault or negligence of the Contractor or his failure to follow instructions of the Contracting Officer.

(2) If the Contractor is not required to pay or bear the burden, or obtains a refund or drawback, in whole or in part, of any tax, duty, interest, or penalty which:

(i) was to be included in the contract price pursuant to the requirements of paragraphs (b) and (c);

(ii) was included in the contract price; or

(iii) was the basis of an increase in the contract price; the contract price shall be decreased by the amount of such relief, refund, or drawback allocable to this contract, or the allocable amount of such relief, refund, or drawback shall be paid to the Government, as directed by the Contracting Officer. The contract price also shall be similarly decreased if the Contractor, through his fault or negligence or his failure to follow instructions of the Contracting Officer, is required to pay or bear the burden, or does not obtain a refund or drawback of any such tax, duty, interest, or penalty. Interest paid or credited to the Contractor incident to a refund of taxes shall inure to the benefit of the Government to the extent that such interest was earned after the Contractor was paid or reimbursed by the Government for such taxes.

(3) Invoices or vouchers covering any adjustment of the contract price pursuant to this paragraph (d) shall set forth the amount thereof as a separate item and shall identify the particular tax or duty involved.

(4) This paragraph (d) shall not be applicable to social security taxes; income and franchise taxes, other than those levied on or measured by (i) sales or receipts from sales, or (ii) the Contractor's possession of, interest in, or use of property, title to which is in the Government; excess profits taxes; capital stock taxes; unemployment compensation taxes; or property taxes, other than such property taxes, allocable to this contract, as are assessed either on completed supplies covered by this contract, or on the Contractor's possession of, interest in, or use

TAXES (JULY 1960)

Any tax or duty from which the United States Government is exempt by agreement with the Government of _____, or from which the Contractor or any subcontractor hereunder is exempt under the laws of _____, shall not constitute an allowable cost under this contract.

(d) *Cost-reimbursement type contracts with foreign governments.*

TAXES (JULY 1960)

Any tax or duty from which the United States Government is exempt by agreement with the Government of _____, or from which any subcontractor hereunder is exempt under the laws of _____, shall not constitute an allowable cost under this contract.

§ 11.404 Clause for use where foreign tax agreements do not apply.

The following clause may be used in lieu of the clauses in § 11.401 where contract performance will be entirely in a foreign country with which the United States does have a tax agreement.

TAXES (JULY 1960)

The contract price includes any and all applicable taxes.

PART 12—LABOR

Sec.
12.000 Scope of part.

Subpart A—Basic Labor Policies

12.101 Labor relations.
12.102 Overtime, extra-pay shift, and multi-shift work.
12.102–1 Definitions.
12.102–2 Policy.
12.102–3 Procedures.
12.102–4 Approvals.
12.102–5 Exceptions.
12.102–6 Construction contracts.
12.103 Federal and State labor requirements.
12.104 Meeting manpower requirements.

Subpart B—Convict Labor

12.201 Basic requirement.
12.202 Applicability.
12.203 Contract clause.

Subpart C—Eight-Hour Law of 1912 (Other Than Construction Contracts)

12.300 Scope of Subpart.
12.301 Statutory requirement.
12.302 Applicability.
12.303 Contract clauses.
12.303–1 Clause for general use.
12.303–2 Clause for contracts with a State or political subdivision.

Subpart D—Labor Standards in Construction Contracts

12.400 Scope of subpart.
12.401 Statutes and regulations.
12.402 Applicability.
12.403 Contract clauses.
12.403–1 Clauses for general use.
12.403–2 Contracts for $2,000 or less.
12.403–3 Overseas contracts.
12.403–4 Contracts with a State or political subdivision.
12.404 Administration and enforcement.
12.404–1 General.
12.404–2 Wage determinations.
12.404–3 Additional classifications.
12.404–4 Apprentices.
12.404–5 Subcontracts.
12.404–6 Payrolls and statements.
12.404–7 Investigations.
12.404–8 Reports of violations.
12.404–9 Suspensions and deductions of contract payments.
12.404–10 Restitution.
12.404–11 Contract terminations.
12.404–12 Cooperation with Department of Labor.

Subpart E—[Reserved]

Subpart F—Walsh-Healey Public Contracts Act

12.601 Statutory requirement.
12.602 Applicability.
12.602–1 General.
12.602–2 Department of Labor regulations and interpretations.
12.603 Responsibilities of contracting officers.
12.604 Contract clause.

Subpart G—Fair Labor Standards Act of 1938

12.701 Basic statute.
12.702 Suits against Government contractors.
12.703 Rulings on applicability or interpretation.

Subpart H—Nondiscrimination in Employment

12.801 Policy.
12.802 Basic requirement.
12.803 Applicability.
12.804 Special requirements or emergencies.
12.805 Interpretations.
12.806 Administration.
12.806–1 General.
12.806–2 Educational responsibility.
12.806–3 Posting of notices.
12.806–4 Compliance reviews.
12.806–5 Complaints.
12.806–6 Incomplete complaints.
12.806–7 Processing of complaints.
12.806–8 Reporting channels.
12.807 Contact with the President's Committee.

Subpart I—Employment Restrictions for Security Purposes

12.901 Restrictions on hiring of aliens and other individuals.
12.902 Responsibilities of contractors to employees.
12.903 Contracts classified "Atomic Energy Restricted."

AUTHORITY: §§ 12.000 to 12.903 issued under R. S. 161, sec. 2202, 70A Stat. 120; 5 U. S. C. 22, 10 U. S. C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314.

§ 12.000 Scope of part.

This part (a) deals with general policies regarding labor, so far as they relate to procurement, (b) sets forth certain pertinent labor laws and requirements, indicating in connection with each its applicability and any procedures thereunder, and (c) prescribes the contract clauses with respect to each labor law or requirement.

Subpart A—Basic Labor Policies

§ 12.101 Labor relations.

Each Department shall maintain and encourage the best possible relations with industry and labor in order that the Government may procure needed supplies and services without delay. All problems arising out of the labor relations of private contractors, and all communications with labor organizations or Federal agencies relative thereto, shall be handled in accordance with procedures prescribed by each respective Department and consistently with the following general policy:

(a) The Departments shall exchange information with respect to labor matters for the purpose of maintaining a uniform labor policy throughout the Department of Defense.

(b) With respect to labor relations matters in general, each Department shall not take any independent action, the result of which would have the effect of establishing major policy, unless each such action falls within an established policy of the Department of Defense, or unless prior approval of the Office of the Assistant Secretary of Defense (Manpower and Personnel) has been obtained. Each Department must determine for itself what actions involve major policy. Recommendations for plant seizure or for injunctive action against labor or management would be examples of actions establishing major policy.

(c) Where any labor dispute significantly affects, or so threatens to affect, important procurement, the Department concerned shall notify the Office of the Assistant Secretary of Defense (Manpower, Personnel, and Reserve) and any other interested Department of all information relevant thereto, in accordance with Department of Defense Directive Number 1135.3, dated 8 January 1953, Subject: Participation in Industrial Relations Matters Affecting Procurement.

(d) Each Department shall remain impartial in, and shall refrain from taking a position on the merits of, a dispute between labor and private management. No Department shall undertake the conciliation, mediation, or arbitration of a labor dispute.

(e) Each Department shall take other action in connection with labor relations problems which is consistent with its procurement responsibilities, as for example:

(1) Giving notice of the existence of a labor dispute, which affects, or threatens to affect, procurement of supplies or services, to the Government agency which has responsibility for conciliation, mediation, arbitration, or other action with respect thereto.

(2) Advising the Government agency, responsible for action with respect to labor disputes, or the parties to a labor dispute, of factual information pertaining to procurement of the supplies or services involved, to the extent consistent with security regulations.

(3) Seeking to obtain such voluntary agreement between management and labor as will permit, notwithstanding the general continuance of the dispute, uninterrupted procurement of military supplies and services, provided such activity does not involve the Department in the merits of a labor difference or dispute.

§ 12.102 Overtime, extra-pay shift, and multi-shift work.

§ 12.102–1 Definitions.

As used throughout this section, the following terms shall have the meanings set forth below:

(a) "Normal work week" and "normal work day" mean, generally, a work week of 40 hours and a work day of 8 hours, respectively: *Provided*, That, in any area outside the United States, its Territories, its possessions, and Puerto Rico, a work week longer than 40 hours, or a work day longer than 8 hours will be considered normal (1) if such work week or work day does not exceed that which is normal for such area, as determined by local custom, tradition, or law, and (2) if hours worked in excess of 40 in such work week, or 8 in such work day, are not compensated at a premium rate of pay.

(b) "Overtime" means time worked by a contractor's employee in excess of the employee's normal work week or normal work day.

(c) "Shift premium" means the difference between the compensation paid to an employee at the contractor's regular rate of pay for the base shift and that paid at the regular rate of pay for extra-pay-shift work.

(d) "Overtime premium" means the difference between the compensation paid to an employee at the contractor's regular rate of pay for the shift involved and that paid for hours worked overtime.

§ 12.102–2 Policy.

It is the policy of the Department of Defense that contracts will be performed, so far as practicable, without the use of overtime, extra-pay shifts, or multi-shifts, and, in particular, without the use of overtime as a regular employment practice. Overtime, extra-pay shifts, and multi-shifts, when required, shall, to the extent practicable, be limited to, and be the minimum needed for, the accomplishment of specific work.

§ 12.102–3 Procedures.

(a) Except as provided in § 12.102–4, invitations for bids and requests for proposals shall not specify delivery or performance schedules which may be reasonably anticipated to necessitate overtime.

(b) In the negotiation of contracts in excess of $10,000, the contracting officer, consistent with the nature and size of the procurement, shall use his best efforts (1) to ascertain the extent to which proposals and quotations are based on the payment of overtime premiums and shift premiums, and (2) to negotiate contract prices or estimated costs which are not based on the payment of overtime premiums or shift premiums, taking into consideration the practicability of procurement from other sources of all or a part of the requirement.

(c) Excepting (1) firm fixed-price contracts, (2) fixed-price contracts with escalation not providing for labor escalation, and (3) fixed-price contracts providing for price redetermination prospectively only, all contracts in excess of $10,000 shall contain the following clause:

PAYMENT FOR OVERTIME AND SHIFT PREMIUMS (MAY 1960)

The contract price shall not include any amount on account of overtime premiums or shift premiums, except to the extent that they either (i) have been approved in writing on behalf of the Government or (ii) are paid for work—

(A) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(B) By indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby, plant protection, operation of utilities, or accounting;

(C) In the performance of tests, industrial processes, laboratory procedures, loading or unloading of transportation media, and operations in flight or afloat, which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(D) Which will result in lower overall cost to the Government. In cost-reimbursement type contracts, the words "Allowable cost" should be substituted for "The contract price" at the start of the foregoing clause, and the foregoing clause shall be designated (a) and the following subparagraph (b) may be added:

(b) The cost of overtime premiums or shift premiums otherwise allowable under (a) above shall be allowed only to the extent the amount thereof is reasonable and properly allocable to the work under this contract.

(d) Overtime for which overtime premiums will be at Government expense shall not be approved under a contract where the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(e) Where overtime premiums or shift premiums are being paid in connection with the performance of Government contracts, the continued need therefor shall be subject to periodic review, in accordance with Departmental procedures.

(f) Where two or more military contracting activities have concurrent contracts at a single facility, and the approval of payments of overtime premiums or shift premiums by one such activity is likely to affect the performance of, or payments in connection with, contracts of another such activity, the activities concerned will agree as to which will represent them in (1) determining whether such payment shall be approved, pursuant to § 12.102–4, and (2) scheduling of periodic reviews. Decisions of such representative shall be binding upon all contracting activities concerned. Ordinarily, in the absence of evidence to the contrary, a contracting activity may rely on the contractor's statement that such approval will not affect the performance of, or payments in connection with, any contract of another activity. If the contracting activities do not agree within a reasonable time on which one will represent them, the Secretary concerned (or, in the case where two or more military departments are involved, the Assistant Secretary of Defense (Supply and Logistics)) shall be requested to appoint the representative.

§ 12.102–4 Approvals.

(a) Overtime premiums and shift premiums at Government expense may be approved by the Secretary concerned, or his designee, when any such official determines in writing that such approval:

(1) Is necessary to meet delivery or performance schedules, and such schedules are determined to be extended to the maximum consistent with essential military objectives;

(2) Is necessary to make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) Is necessary to eliminate foreseeable production bottlenecks of an extended nature which cannot be eliminated in any other way.

(b) The designee referred to in paragraph (a) of this section may be one or more officers or civilian officials designated personally by a Secretary for the purpose of approving overtime premiums and shift premiums at Government expense.

(c) Such approvals shall ordinarily be prospective, but may be retroactive where justified by the circumstances.

(d) Such approvals may be for an individual contract, project, or program, or for a plant, division, or company, as most practicable.

§ 12.102–5 Exceptions.

Section 12.102–4 does not apply to overtime premiums or shift premiums which are paid for work:

(a) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, or breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(b) By indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(c) In the performance of tests, industrial processes, laboratory procedures, loading or unloading of transportation media, and operations in flight or afloat, which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(d) Which will result in lower over-all cost to the Government.

However, the cost of such overtime premiums or shift premiums may be allowed, or considered in pricing (on the same basis as other indirect costs) only to the extent the amount thereof is reasonable and properly allocable to the work involved.

§ 12.102–6 Construction contracts.

In addition to the foregoing requirements of § 12.102, no expediting action involving additional costs under a construction contract shall be taken without the prior approval of the Assistant Secretary of Defense (Properties and Installations), pursuant to Public Law 85–170 or any substantially identical law.

§ 12.103 Federal and State labor requirements.

It shall be the policy of each Department to cooperate and to require Contractors to cooperate, to the fullest extent possible, with Federal and State agencies responsible for enforcing labor requirements with respect to such matters as safety, health and sanitation, maximum hours and minimum wages, equal pay for women, and child and convict labor.

§ 12.104 Meeting manpower requirements.

It shall be the policy of each Department to cooperate with and to encourage contractors to utilize, to the fullest extent practicable, the United States Employment Service (USES) and its affiliated Local State Employment Service Offices in matters pertaining to meeting contractors' manpower (labor supply) requirements, including the recruitment of workers in all occupations and skills both from local labor market areas and through the Federal-State manpower clearance system to staff new or expanding plant facilities. Local State Employment Service Offices are operated in every State, in the District of Columbia, Puerto Rico, Guam, and the Virgin Islands. In addition to providing recruitment assistance to contractors who need and desire it, cooperation with the Local State Employment Service Offices will further the national program of maintaining continuous assessment of manpower requirements and resources on a national and local basis.

Subpart B—Convict Labor

§ 12.201 Basic requirement.

Pursuant to the policy set forth in the Act of February 23, 1887 (18 U.S. Code 436), and in accordance with the requirements of Executive Order No. 325A

of May 18, 1905, all contracts entered into by any Department involving the employment of labor within the United States, shall, unless otherwise provided by law, contain a clause prohibiting the employment of persons, undergoing sentences of imprisonment at hard labor imposed by State or municipal criminal courts.

§ 12.202 Applicability.

The requirement set forth in § 12.201 applies, except as stated below, to all contracts involving the employment of labor within the United States. The requirement does not prohibit the employment of persons on parole or probation, or of persons who have been pardoned or who have served their terms. Furthermore, the requirement does not apply to the following kinds of contracts:

(a) Any contracts subject to the provisions of the Walsh-Healey Public Contracts Act, (see Subpart F of this part), which contains its own requirement that "no convict labor will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in such contract";

(b) Any contract (1) for the purchase of supplies or services from Federal Prison Industries, Inc., or (2) for the purchase from any State prison of finished supplies which may be secured in the open market or from existing stocks as distinguished from supplies requiring special fabrication.

§ 12.203 Contract clause.

The contract clause required by this subpart shall be as follows:

CONVICT LABOR

In connection with the performance of work under this contract, the Contractor agrees not to employ any person undergoing sentence of imprisonment at hard labor.

Subpart C—Eight-Hour Law of 1912 (Other Than Construction Contracts)

§ 12.300 Scope of subpart.

This subpart deals with the requirements of the Eight-Hour Law of 1912, as amended (40 U.S.C. 324–326), applicable to contracts other than construction contracts as defined and covered in Subpart D of this part.

§ 12.301 Statutory requirement.

In accordance with the requirement of the Eight-Hour Law of 1912, as amended (40 U.S.C. 324–326), certain contracts entered into by any Department shall contain a clause to the effect that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than eight hours in any one calendar day upon such work, unless such laborer or mechanic is compensated for all hours worked in excess of eight hours in any one calendar day at not less than one and one-half times the basic rate of pay.

§ 12.302 Applicability.

The requirement set forth in § 12.301 applies, except as stated in paragraphs (a) to (e) of this section, to all contracts which may require or involve the employment of laborers or mechanics either by a contractor or by any subcontractor. The requirement does not apply to the following kinds of contracts:

(a) Contracts (or portions thereof) to be performed in a foreign country over which the United States has no direct legislative control, to the extent that such contracts (or portions thereof) may require or involve the employment of laborers or mechanics there;

(b) Contracts with a State or political subdivision thereof (although the requirement does apply, and the contract must so provide, to a subcontract thereunder with a private person or firm);

(c) Contracts (or portions thereof) for supplies in connection with which any required services are merely incidental to the sale and do not require substantial employment of laborers or mechanics;

(d) Contracts (or portions thereof) for materials or articles (other than armor or armor plate) usually bought in the open market (although the requirement does apply, and the contract must so provide, with respect to any contract involving the performance of any class of work which is ordinarily, and not merely occasionally or to a limited extent, performed by the Government);

(e) Contracts (or portions thereof) subject to the provisions of the Walsh-Healey Public Contracts Act (see Subpart F of this part).

§ 12.303 Contract clause.

§ 12.303–1 Clause for general use.

Except for those kinds of contracts referred to in § 12.303–2, the contract clause required by this subpart shall be as follows:

EIGHT-HOUR LAW OF 1912—OVERTIME (JAN. 1958)

This contract, to the extent that it is of a character specified in the Eight-Hour Law of 1912 as amended (40 U. S. Code 324–326) and is not covered by the Walsh-Healey Public Contracts Act (41 U. S. Code 35–45), is subject to the following provisions and exceptions of said Eight-Hour Law of 1912, as amended, and to all other provisions and exceptions of said Law:

No laborer or mechanic doing any part of the work contemplated by this contract, in the employ of the Contractor or any subcontractor contracting for any part of the said work contemplated, shall be required or permitted to work more than eight hours in any one calendar day upon such work, except upon the condition that compensation is paid to such laborer or mechanic in accordance with the provisions of this clause. The wages of every laborer and mechanic employed by the Contractor or any subcontractor engaged in the performance of this contract shall be computed on a basic day rate of eight hours per day; and work in excess of eight hours per day is permitted only upon the condition that every such laborer and mechanic shall be compensated for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay. For each violation of the requirements of this clause a penalty of five dollars shall be imposed for each laborer or mechanic for every calendar day in which such employee is required or permitted to labor more than eight hours upon said work without receiving compensation computed in accordance with this clause, and all penalties thus imposed shall be withheld for the use and benefit of the Government.

§ 12.303–2 Clause for contracts with a State or political subdivision.

In the case of contracts with a State or political subdivision thereof (see § 12.302 (b)), the contract clause required by this subpart shall be the clause set forth in § 12.303–1 except that it shall be prefaced by the following provision:

The Contractor agrees to insert the following clause in all subcontracts hereunder with private persons or firms.

Subpart D—Labor Standards in Construction Contracts

§ 12.400 Scope of subpart.

This subpart deals with labor standards for construction contracts as prescribed by the statutes and regulations set forth in § 12.401.

§ 12.401 Statutes and regulations.

(a) *Davis-Bacon Act.* The Davis-Bacon Act (Act of March 3, 1931, as amended; 40 U. S. Code 276a), provides that certain contracts over $2,000 entered into by any Department for the construction, alteration, or repair (including painting and decorating) of public buildings or public works shall contain a provision (see § 12.403) to the effect that no laborer or mechanic employed directly upon the site of the work contemplated by the contract shall receive less than the prevailing wages as determined by the Secretary of Labor.

(b) *Copeland Act.* The Copeland ("Anti-Kickback") Act (18 U. S. Code 874 and 40 U. S. Code 276c) makes it unlawful to induce, by force or otherwise, any person employed in the construction or repair of public buildings or public works (including those financed in whole or in part by loans or grants from the United States) to give up any part of the compensation to which he is entitled under his contract of employment. In accordance with regulations of the Secretary of Labor issued pursuant to the Copeland Act, certain contracts entered into by any Department shall contain a provision (see § 12.403) to the effect that the Contractor and any subcontractor shall comply with the regulations of the Secretary of Labor under the Act.

(c) *Eight-Hour Laws.* See § 12.301. (However, with respect to construction contracts, the applicable statutes are 40 U. S. Code 321–326.)

(d) *Department of Labor regulations.* Pursuant to the foregoing statutes and Reorganization Plan No. 14 of 1950 (15 F. R. 3176), the Secretary of Labor has issued Regulations Part 3, Title 29, Subtitle A, Code of Federal Regulations (7 F. R. 686 as amended) and Regulations Part 5, Title 29, Subtitle A, Code of Federal Regulations (16 F. R. 4430 as amended), providing for the administration and enforcement of these statutes in construction contracts. The requirements under the Davis-Bacon Act and the Copeland Act apply only to the United States and its Territories while the Eight-Hour Laws apply also to other areas over which the United States has direct legislative control.

§ 12.402 Applicability.

These requirements apply to construction contracts. The term "construction contract" as used in this subpart means any contract providing for the actual construction, alteration or repair, including painting and decorating, of a public building or public work, or of a building or work financed in whole or in part from Federal funds. It generally includes construction activity as distinguished from manufacturing, furnishing of materials, or servicing or maintenance work. It does not apply to the following kinds of contracts:

(a) Contracts for supplies (including installations or maintenance work which is only incidental to the furnishing of such supplies); although the requirement does apply (1) where installation involves a substantial amount of construction at the site, such as for heavy generators and large refrigerators, (2) to the transportation of supplies to or from the site of the work by employees of the construction contractor or of a construction subcontractor, and (3) to the manufacturing or furnishing of supplies such as window frames and other millwork, on the site of the work by the contractor or sub-contractor on a construction, alteration, or repair contract otherwise subject to the act, or to the manufacturing or furnishing of supplies under a contract based upon the specifications, and at the site of the work, of a construction, alteration, or repair contract otherwise subject to the act;

(b) Contracts for servicing or maintenance work (including installation or movement of machinery or other equipment, and incidental plant rearrangement) which involve only an incidental amount of construction, alteration, or repair; although the requirement does apply (1) to installation, movement, or rearrangement of machinery or other equipment involving a substantial amount of construction or repair, and (2) to servicing or maintenance work based upon the specifications of a construction contract otherwise subject to the act and which is performed at the site of the construction work involved;

(c) Contracts for the construction or repair of vessels, aircraft, or other kinds of personal property;

(d) Contracts to be performed at a place not known or not reasonably ascertainable at the time the contract is entered into.

§ 12.403 Contract clauses.

§ 12.403–1 Clauses for general use.

Except as provided in § 12.403–4 every construction contract in excess of $2,000 for work within the United States or its Territories shall include the following clauses:

(1) *Davis-Bacon Act (40 U. S. C. 276a–276a–7).*

DAVIS-BACON ACT (40 U. S. C. 276a–276a–7) (AUG. 1953)

(a) All mechanics and laborers employed or working directly upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the Copeland Act ("Anti-Kickback") Regulations (29 CFR, Part 3)) the full amounts due at time of payment, computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor or subcontractor and such laborers and mechanics; and a copy of the wage determination decision shall be kept posted by the Contractor at the site of the work in a prominent place where it can be easily seen by the workers.

(b) In the event it is found by the contracting officer that any laborer or mechanic employed by the Contractor or any subcontractor directly on the site of the work covered by this contract has been or is being paid at a rate of wages less than the rate of wages required by paragraph (a) of this clause, the Contracting Officer may (1) by written notice to the Government prime Contractor terminate his right to proceed with the work, or such part of the work as to which there has been a failure to pay said required wages, and (2) prosecute the work to completion by contract or otherwise, whereupon such Contractor and his sureties shall be liable to the Government for any excess costs occasioned the Government thereby.

(c) Paragraphs (a) and (b) of this clause shall apply to this contract to the extent that it is (1) a prime contract with the Government subject to the Davis-Bacon Act or (2) a subcontract under such prime contract.

(2) *Eight-Hour Laws — overtime compensation.*

EIGHT-HOUR LAWS—OVERTIME COMPENSATION (AUG. 1953)

No laborer or mechanic doing any part of the work contemplated by this contract, in the employ of the Contractor or any subcontractor contracting for any part of said work contemplated, shall be required or permitted to work more than eight hours in any one calendar day upon such work, except upon the condition that compensation is paid to such laborer or mechanic in accordance with the provisions of this clause. The wages of every laborer and mechanic employed by the Contractor or any subcontractor engaged in the performance of this contract shall be computed on a basic day rate of eight hours per day and work in excess of eight hours per day is permitted only upon the condition that every such laborer and mechanic shall be compensated for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay. For each violation of the requirements of this clause a penalty of five dollars shall be imposed for each laborer or mechanic for every calendar day in which such employee is required or permitted to labor more than eight hours upon said work without receiving compensation computed in accordance with this clause and all penalties thus imposed shall be withheld for the use and benefit of the Government: *Provided*, that this stipulation shall be subject in all respects to the exceptions and provisions of the Eight-Hour Laws, as set forth in U. S. C. 321, 324, 325, 325a, and 326, which relate to hours of labor and compensation for overtime.

(3) *Apprentices.*

APPRENTICES (AUG. 1953)

Apprentices will be permitted to work only under a bona fide apprenticeship program registered with a State Apprenticeship Council which is recognized by the Federal Committee on Apprenticeship, U. S. Department of Labor; or if no such recognized Council exists in a State, under a program registered with the Bureau of Apprenticeship, U. S. Department of Labor.

(4) *Payroll records and payrolls.*

PAYROLL RECORDS AND PAYROLLS (AUG. 1953)

(a) Payroll records will be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records will contain the name and address of each such employee, his correct classification, rate of pay, daily and weekly number of hours worked, deductions made and actual wages paid. The Contractor will make his employment records available for inspection by authorized representatives of the Contracting Officer and the U. S. Department of Labor, and will permit such representatives to interview employees during working hours on the job.

(b) A certified copy of all payrolls will be submitted weekly to the Contracting Officer. The Government prime Contractor will be responsible for the submission of certified copies of the payrolls of all subcontractors. The certification will affirm that the payrolls are correct and complete, that the wage rates contained therein are not less than the applicable rates contained in the wage determination decision of the Secretary of Labor attached to this contract and that the classifications set forth for each laborer or mechanic conform with the work he performed.

(5) *Copeland ("Anti-Kickback") Act—Nonrebate of Wages.*

COPELAND ("ANTI-KICKBACK") ACT—NONREBATE OF WAGES (OCT. 1959)

The regulations of the Secretary of Labor applicable to Contractors and subcontractors (29 CFR Part 3), made pursuant to the Copeland Act, as amended (40 U.S.C. 276c) and to aid in the enforcement of the Anti-Kickback Act (18 U.S.C. 874) are made a part of this contract by reference. The Contractor will comply with these regulations and any amendments or modifications thereof and the Government prime Contractor will be responsible for the submission of statements required of subcontractors thereunder. The foregoing shall apply except as the Secretary of Labor may specifically provide for reasonable limitations, variations, tolerances and exemptions.

(6) *Withholding of funds to assure wage payment.*

WITHHOLDING OF FUNDS TO ASSURE WAGE PAYMENT (AUG. 1953)

There may be withheld from the Contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics employed by the Contractor or any subcontractor the full amount of wages required by this contract. In the event of failure to pay any laborer or mechanic all or part of the wages required by this contract, the Contracting Officer may take such action as may be necessary to cause the suspension, until such violations have ceased, of any further payment, advance, or guarantee of funds to or for the Government prime Contractor.

(7) *Subcontracts—termination.*

SUBCONTRACTS—TERMINATION (AUG. 1953)

The Contractor agrees to insert the clauses hereof entitled "Davis-Bacon Act," "Eight-Hour Laws—Overtime Compensation," "Apprentices," "Payroll Records and Payrolls," "Copeland ('Anti-Kickback') Act—Nonrebate

of Wages," "Withholding of Funds to Assure Wage Payment," and "Subcontracts—Termination" in all subcontracts, and the Contractor further agrees that a breach of any of the requirements of these clauses may be grounds for termination of this contract. The term "Contractor" as used in such clauses in any subcontract shall be deemed to refer to the subcontractor except in the phrase "Government prime Contractor."

When using U. S. Standard Form 23, the "Subcontracts—Termination" clause therein shall be used in lieu of the above clause.

§ 12.403–2 Contracts for $2,000 or less.

Except as provided in § 12.403–4, every construction contract for $2,000 or less for work within the United States or its Territories, shall include the following clauses:

(1) *Eight-hour laws—overtime compensation.*

EIGHT-HOUR LAWS—OVERTIME COMPENSATION (AUG. 1959)

The Eight-Hour Laws (40 U.S.C. 321–326) are applicable to this contract. (In substance they provide that laborers and mechanics employed by the Contractor or his subcontractors shall be paid not less than time and a half for work in excess of 8 hours a day. Contractors or subcontractors violating these laws are punishable under the provisions of 40 U.S.C. 322–324.)

(2) *Nonrebate of wages.*

NONREBATE OF WAGES (AUG. 1959)

The Regulations issued by the Secretary of Labor (29 CFR, Part 3) pursuant to the Anti-Kickback Act, as amended (40 U.S.C. 276(c), 18 U.S.C. 874), are applicable to this contract. (In substance they provide that contractors and subcontractors shall (i) make no deductions from wages except those required by law or permitted by the Regulations; (ii) preserve, for 3 years after completion of the work, payrolls which contain the following data for each employee: name, address, correct classification, rate of pay, daily and weekly number of hours worked, deductions made, and actual wages paid; and (iii) submit weekly a statement of compliance, in the form set out in the Regulation.)

(3) *Subcontractors—termination.*

SUBCONTRACTORS—TERMINATION (AUG. 1959)

The Contractor agrees to insert the clauses hereof entitled "Eight-Hour Laws—Overtime Compensation" and "Nonrebate of Wages" in all subcontracts under this contract. The term "Contractor" as used in such clauses in any subcontract shall be deemed to refer to the subcontractor. Breach of the requirements of these clauses may be grounds for the termination of this contract.

§ 12.403–3 Overseas contracts.

Every construction contract for work outside the continental United States and its territories of Alaska and Hawaii but within any other territory or possession or foreign area over which the United States has direct legislative control shall include (a) the Eight-Hour Laws—Overtime Compensation Clause set forth in § 12.403–1 Clause (2), and (b) the Subcontracts—Termination Clause set forth in § 12.403–1 Clause (7), except that the first sentence thereof shall be modified to refer only to the clauses entitled "Eight-Hour Laws—Overtime Compensation", and "Subcontracts—Termination."

§ 12.403–4 Contracts with a State or political subdivision.

In the case of construction contracts with a state or political subdivision thereof, the contract clauses required by §§ 12.403–1 and 12.403–2 whichever is applicable, shall be inserted therein and each clause shall be prefaced by the following provision:

The Contractor agrees to insert the following in all subcontracts hereunder with private persons or firms.

§ 12.404 Administration and enforcement.

§ 12.404–1 General.

The contracting officer shall ascertain that the contractor is fully informed of the labor standards provisions of the contract and of his responsibilities thereunder. Unless it is clear that the contractor is otherwise fully informed, the contractor shall be so informed either by conference or by letter as soon as possible after award of the contract. Whenever the clauses under § 12.403–1 are applicable, the following action shall be taken or required in accordance with procedures prescribed by each respective Department. Whenever the clauses under §§ 12.403–2, 12.403–3, and 13.403–4 are applicable, the following action shall be taken or required, in accordance with procedures prescribed by each respective Department, to the extent pertinent to the applicable clauses.

§ 12.404–2 Wage determinations.

(a) *Requests for.* Requests for the determination of wage rates by the Secretary of Labor shall be submitted on Department of Labor Form DB–11 at least 30 calendar days before required for the advertisement of negotiation of the contract for which the determination is sought. In exceptional cases, the Secretary of Labor may be requested to make a wage determination in less than 30 calendar days upon a proper showing of unusual circumstances justifying the need therefor.

(b) *Limitations.* If the proposed contract for which a wage determination has been secured has not been awarded within 90 calendar days from the date of such wage determination, a new wage determination shall be obtained and made a part of the proposed contract.

(c) *Modifications.* Modifications by the Secretary of Labor of an original wage determination shall be made part of the proposed contract if received prior to the award of the contract, provided that, in a formally advertised procurement, any modification received by the Department concerned less than 5 calendar days before the opening of bids may be disregarded if award is made within 30 calendar days after the opening of bids or within 90 calendar days from the date of the original wage determination, whichever is the earlier.

(d) *Posting.* The Contracting Officer shall ascertain that a copy of the wage determination is kept posted at the site of the work in a prominent place where it can be easily seen by the workers.

§ 12.404–3 Additional classifications.

If any laborers or mechanics not listed in the wage determination attached to the contract are to be employed, their classifications and minimum wage rates shall be established by the contractor or subcontractor, with the approval of the Contracting Officer, conformably to the attached wage determination. A report of any such determination shall be transmitted to the Secretary of Labor. If the interested parties cannot agree upon any such additional classification and wage rate, the matter, accompanied by the recommendation of the Contracting Officer, shall be referred to the Secretary of Labor for final determination.

§ 12.404–4 Apprentices.

The contractor or subcontractors shall be required to furnish certification or other evidence that each apprentice employed is registered in an approved apprenticeship program. (For certification form, see paragraph (c) of § 16.803–1 of this subchapter.)

§ 12.404–5 Subcontracts.

The Contracting Officer shall obtain a list of all subcontracts, together with a description of the work to be performed thereunder.

§ 12.404–6 Payrolls and statements.

(a) *Submission.* Within 7 calendar days after the regular payment date of the payroll week covered, the contractor is required to submit, or cause to be submitted for himself and his subcontractors, (1) copies of certified weekly payrolls in compliance with Clause (4) of § 12.403–1 and (2) weekly payroll statements in compliance with Clause (5) of § 12.403–1. (See § 16.803–1(c) of this subchapter.)

(b) *Examination.* The Department concerned shall make such examination of the certified payrolls and statements as may be necessary to assure compliance with contract, statutory and regulatory requirements. Particular attention should be given to the correctness of classifications and any disproportionate employment of laborers, helpers or apprentices.

(c) *Preservation.* Certified payrolls and statements shall be preserved by the Department concerned for a period of 3 years from completion of the contract and shall be produced at the request of the Secretary of Labor at any time during such period.

§ 12.404–7 Investigations.

(a) The Department concerned shall make such investigations as may be necessary to assure compliance with contract, statutory and regulatory requirements. Contracts of 6 months or less duration shall be investigated before final payment is made, if feasible. Longer contracts shall be investigated with such frequency as may be necessary. Such investigations shall include interviews of employees on a sampling basis.

(b) Special investigations in detail shall be made when required by complaints or other evidence of violations. Complaints of violations shall be given priority.

(c) Statements, written or oral, made by an employee shall be treated as confidential and shall not be disclosed to the employer without the consent of the employee.

§ 12.404–8 Reports of violations.

(a) A report of violations shall be made by the Department concerned to the Secretary of Labor except in cases of nonwillful violations where less than $200 is involved, restitution is made, and assurance is given of future compliance by the contractor or subcontractor concerned. Such reports shall include a statement of the findings as to the violations and information as to restitution made, payment deductions, contract terminations, and the names and addresses of the workers, contractors and subcontractors concerned.

(b) Where there is substantial evidence that violations are willful and in breach of the False Affidavits Act (18 U. S. C. 1001) or other criminal statute, the matter shall be forwarded to the Attorney General for prosecution and the Secretary of Labor shall be informed of such action.

§ 12.404–9 Suspensions and deductions of contract payments.

In the event of failure or refusal to pay all or any part of the wages due workers, the Contracting Officer may suspend further contract payments to the contractor in amounts equal to such unpaid wages until either restitution has been made directly by the contractor or subcontractor concerned or deductions against payment vouchers are made as provided below. If such failure or refusal appears continuing and willful, or in the event of any other failure or refusal to comply with contract, statutory, and regulatory requirements, the Contracting Officer may suspend all future contract payments to the contractor until such violations have ceased. If restitution is not made directly by the contractor or subcontractor within a reasonable time, or, in any event, prior to final payment under the contract, the Contracting Officer shall submit with the contractor's payment voucher or vouchers a "Schedule of Deductions from Payments to Contractors (Act of August 30, 1935)" on Standard Form 1093, and the amount so shown to be due workers shall be deducted from the payments made to the contractor and shall be deposited in the Treasury in accordance with Department procedures.

§ 12.404–10 Restitution.

Restitution of amounts due workers may be permitted at any time at the volition of the contractor or subcontractor and may be ordered by the Department concerned whenever wage underpayments are found to be nonwillful.

§ 12.404–11 Contract terminations.

Whenever a contract is terminated for violation of the labor standards provisions, a report shall be submitted by the Department concerned to the Secretary of Labor and the Comptroller General. The report shall include the name and address of the terminated contractor or subcontractor, the name and address of the contractor or subcontractor who is to complete the work, the amount and number of the latter's contract, and a description of the work thereunder.

§ 12.404–12 Cooperation with Department of Labor.

The Department concerned shall cooperate with representatives of the Department of Labor in the inspection of records, interviews with workers and all other aspects of investigations undertaken by the Department of Labor. When requested, the Departments shall furnish to the Secretary of Labor any available information with respect to contractors, subcontractors, their contracts and the nature of the contract work.

Subpart E—[Reserved]

Subpart F—Walsh-Healey Public Contracts Act

§ 12.601 Statutory requirement.

In accordance with the requirement of the Walsh-Healey Public Contracts Act (Act of June 30, 1936, as amended; 41 U.S. Code 35–45), all contracts entered into by any Department for the manufacture or furnishing of supplies in any amount exceeding $10,000 (a) will be with manufacturers or regular dealers, and (b) shall incorporate by reference the representations and stipulations required by said Act pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, and safe and sanitary working conditions.

§ 12.602 Applicability.

§ 12.602–1 General.

The requirement set forth in the preceding paragraph applies to contracts for the manufacture or furnishing of "materials, supplies, articles, and equipment" which are to be performed within the United States, Puerto Rico, or the Virgin Islands, and which exceed or may exceed $10,000 in amount.

§ 12.602–2 Department of Labor regulations and interpretations.

Pursuant to the Walsh-Healey Act, the Secretary of Labor has issued detailed regulations and interpretations as to the coverage of said Act, and exemptions and procedures thereunder. These regulations and interpretations are compiled in a document entitled "Walsh-Healey Public Contracts Act, Rulings and Interpretations." In addition to the interpretations stated in that domument, attention is directed to an opinion of the Department of Labor that contracts which are originally $10,000 or less, but are subsequently modified to increase the price to an amount in excess of $10,000, are subject to the Walsh-Healey Act; and that contracts in an amount exceeding $10,000 which are subsequently modified to a figure of $10,000 or less, are not subject to said Act with respect to work performed after such modification if modification is effected by mutual agreement.

§ 12.603 Responsibilities of contracting officers.

Whenever the Walsh-Healey Public Contracts Act is applicable, the contracting officer shall, pursuant to regulations or instructions issued by the Secretary of Labor and in accordance with procedures prescribed by each respective military department—

(a) Inform prospective contractors of the possible applicability of minimum wage determinations;

(b) Furnish to the contractor a poster (Form PC–13);

(c) Furnish to the contractor a form letter (Form PC–12) explaining the Walsh-Healey Act;

(d) Prepare and transmit three copies of DD Form 350 (top portion); (see § 16.803–2 (c) of this subchapter);

(e) Report to the Department of Labor any violation of the representations or stipulations required by the Walsh-Healey Act.

§ 12.604 Contract clause.

The contract clause required by this Subpart F shall be as follows:

WALSH-HEALEY PUBLIC CONTRACTS ACT (JAN. 1958)

If this contract is for the manufacture or furnishing of materials, supplies, articles, or equipment in an amount which exceeds or may exceed $10,000 and is otherwise subject to the Walsh-Healey Public Contracts Act, as amended (41 U. S. Code 35–45), there are hereby incorporated by reference all representations and stipulations required by said Act and regulations issued thereunder by the Secretary of Labor, such representations and stipulations being subject to all applicable rulings and interpretations of the Secretary of Labor which are now or may hereafter be in effect.

Subpart G—Fair Labor Standards Act of 1938

§ 12.701 Basic statute.

The Fair Labor Standards Act of 1938 (Act of June 30, 1938; 29 U.S. Code 201–219), as amended, provides for the establishment of minimum wage and maximum hour standards, creates a Wage and Hour Division in the Department of Labor for purposes of interpretation and enforcement (including investigations and inspections of Government contractors), and prohibits oppressive child labor. Said act applies to all employees, unless otherwise exempted, who are engaged in (a) interstate commerce or foreign commerce or (b) the production of goods for such commerce or (c) any closely related process or occupation essential to such production.

§ 12.702 Suits against Government contractors.

Payments made pursuant to the provisions of the Fair Labor Standards Act are usually reimbursable under cost or cost-plus-a-fixed-fee contracts. Consequently, each military department has a direct interest in claims and suits under said Act which are made or brought in connection with such contracts. In this connection, procedures have been established, by agreement between the Department of Justice on the one hand and the military departments on the other hand, governing the defense of such Fair Labor Standards Act suits. These procedures in general contemplate the defense of Fair Labor Standards Act suits by private

counsel employed by the contractor, the employment of whom is approved by the military department concerned. These procedures must be followed if contractors are to be reimbursed for the amount of any judgment under said Act, or for any litigation expenses (including the reasonable fees of such private counsel).

§ 12.703 Rulings on applicability or interpretation.

Contractors or contractor employees who inquire concerning applicability or interpretation of the Fair Labor Standards Act shall be advised that rulings concerning such matters fall within the jurisdiction of the Department of Labor, and shall be given the address of the appropriate Regional Director of the Wage and Hour and Public Contracts Divisions of the Department of Labor.

Subpart H—Nondiscrimination in Employment

§ 12.801 Policy.

The President has stated that the policy of the Government is to promote equal employment opportunity for all qualified persons employed or seeking employment on Government contracts because such persons are entitled to fair and equitable treatment in all aspects of employment on work paid for from public funds, and that contracting agencies and Government contractors are obligated to insure compliance with, and successful execution of, the equal employment opportunity program of the Government. In stating this policy, the President has directed that the head of each contracting agency shall be primarily responsible for obtaining compliance by any contractor or subcontractor and shall take the appropriate measures to bring about compliance. The President's Committee on Government Contracts provides guidance to contracting agencies concerning the program. The Committee has announced that the objectives of the program can best be achieved through the processes of education, persuasion, mediation, and conciliation. (Executive Orders 8802 of June 25, 1941, 9346 of May 27, 1943, 10479 of August 13, 1953, and 10557 of September 3, 1954.) However, when those methods do not bring the proper results, a firmer approach should be adopted. Additional measures should include consideration, prior to an award, of whether a prospective contractor appears to be able to conform to the requirements of the standard nondiscrimination clause. (See §§ 1.903–1(f) and 1.604–2.)

§ 12.802 Basic requirement.

Contracts entered into by the Departments, except as set forth in § 12.804, shall contain the following clause:

NONDISCRIMINATION IN EMPLOYMENT (SEPT. 1954)

(a) In connection with the performance of work under this contract, the Contractor agrees not to discriminate against any employee or applicant for employment because of race, religion, color, or national origin. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion/or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of the nondiscrimination clause.

(b) The Contractor further agrees to insert the foregoing provision in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials.

§ 12.803 Applicability.

The nondiscrimination requirements are applicable to contracts and first-tier subcontracts as herein provided.

(a) The clause set forth in § 12.802 shall be included in all contracts involving the employment of labor, except:

(1) The clause shall not be included in—

(i) Contracts to be performed outside the United States where no recruitment of workers within the United States is involved;

(ii) Contracts to meet special requirements or emergencies, if recommended by the President's Committee on Government Contracts (see § 12.804); and

(iii) Purchase orders on Standard Form 44.

(2) The clause shall be modified in—

(i) Purchase orders for $2,500 or less which are not within the above exceptions, by deleting the last sentence of paragraph (a) and all of paragraph (b).

(ii) Contracts for $5,000 or less, other than purchase orders for $2,500 or less, by deleting the last sentence of paragraph (a) when in the judgment of the contracting officer administration of the posting requirement of a clause is impracticable. For example, contracts for off-the-shelf items and contracts requiring delivery of supplies or performance of services within 60 days from the date of the contract.

(b) Notwithstanding paragraph (b) of the clause, a contractor is not required to insert any nondiscrimination clause in subcontracts of the kind described in paragraph (a) (1) (i) and (ii) of this section.

§ 12.804 Special requirements or emergencies.

Where special requirements or emergencies are such that use of the clause set forth in § 12.802 in a contract or subcontract is impracticable, the contracting officer may request authority to omit or modify the clause. Such requests shall be submitted in accordance with Departmental procedures, together with all pertinent facts, to the Assistant Secretary of Defense (Supply and Logistics), for coordination with the President's Committee on Government Contracts. Prior to the submission of requests for exemption, the Secretary or a designee for the purpose, will in appropriate cases personally discuss with the president of the company concerned the inclusion of the clause in the pending contract.

§ 12.805 Interpretations.

The President's Committee on Government Contracts has published the interpretations set forth below of Executive Orders 10479 and 10557.

(a) "Standard commercial supplies" means an article:

(1) Which in the normal course of business is customarily manufactured for stock and is customarily maintained in stock by the manufacturer or by any distributor or other commercial dealer for the marketing of such article; or

(ii) Which is manufactured and sold by two or more persons for general commercial or industrial use or which is identical in every material respect with an article so manufactured and sold.

(b) The obligation to include the nondiscrimination clause does not depend on the amount of money or other consideration involved in the performance of the contract.

(c) Inclusion of the nondiscrimination clause is not required in contracts the performance of which does not involve the employment of persons.

(d) The nondiscrimination clause does not refer to, extend to, or cover the activities or business of the contractor which are not related to, or involved in, the performance of the contract entered into.

(e) The obligation to include the nondiscrimination clause exists even though the contract is required to be awarded to the lowest responsible bidder.

(f) The obligation to include the nondiscrimination clause exists even though the contract is between the Federal Government and a State agency or subdivision of a State.

§ 12.806 Administration.

§ 12.806–1 General.

The President's Committee on Government Contracts has published "A Manual for the Guidance of Personnel Engaged in Obtaining Compliance with the National Equal Job Opportunity Program" which contains information for all who are engaged in obtaining compliance with the Federal nondiscrimination clause. This publication is to be employed as additional guidance in the overall administration of the nondiscrimination program.

§ 12.806–2 Educational responsibility.

(a) Contracting officers and other personnel concerned with procurement shall, in accordance with Departmental procedures, be apprised of their responsibility in obtaining compliance with the nondiscrimination clause.

(b) The Departments shall publicize the nondiscrimination policy to prospective contractors and shall make available to contractors information concerning their responsibilities under the nondiscrimination clause.

§ 12.806–3 Posting of notices.

In all instances, except where the nondiscrimination clause may have been modified as authorized by § 12.803(a)(2), contracting officers shall furnish to contractors copies of the notice entitled "Equal Economic Opportunity" (U. S. Government Printing Office: 1954 O–300378 or 1955 O–364036), which shall be obtained by contracting officers in accordance with Departmental procedures. Contractors shall obtain from the contracting officer copies for first-tier subcontractors.

§ 12.806–4 Compliance reviews.

(a) Both routine and special compliance reviews shall be conducted in accordance with Departmental procedures to ascertain the extent to which contractors are complying with the provisions of the nondiscrimination clause and to furnish educational data in connection with the program.

(b) A routine compliance review consists of a brief review of the practices of the contractor to ascertain compliance with the requirements of the clause. This type of review shall include a verification that the notice is appropriately posted and that the clause is included in subcontracts where required. A routine compliance review shall be considered a normal part of contract administration.

(c) A special compliance review consists of a comprehensive review of the employment practices of the contractor with respect to the requirements of the nondiscrimination clause. In addition to discussions with management, personnel conducting special compliance reviews should, when appropriate, discuss the contractor's employment practices with employment sources, minority groups, and interested civic groups. Special compliance reviews shall be conducted (1) from time to time, (2) when special circumstances warrant, and (3) when requested by proper authority.

§ 12.806–5 Complaints.

The Departments will promptly investigate complaints based upon alleged noncompliance with the provisions of the nondiscrimination clause, provided such complaints contain the following identifying information:

(a) The name and address of the contractor or subcontractor alleged to have violated the provisions of the nondiscrimination clause;

(b) A description of the acts believed to be in violation of the nondiscrimination clause, including, where known, names of contractor's personnel involved, and dates of alleged incidents;

(c) The name and address of each person who believes himself aggrieved by the alleged violation of the clause; and

(d) Other pertinent information which will assist investigation and resolution of the complaint.

§ 12.806–6 Incomplete complaints.

To avoid unwarranted investigation of allegations which do not provide the essential information set forth in § 12.806–5, Departments may return such allegations to the originating source, specifying the additional information required.

§ 12.806–7 Processing of complaints.

Complaints may be submitted to the President's Committee on Government Contracts, the Secretary of Defense, or the Military Departments. Complaints submitted to the Military Departments in accordance with § 12.806–5, and determined to involve a Government contract or subcontract, shall be processed in accordance with Departmental procedure which will assure:

(a) Prompt investigation of statements and allegations contained in the complaint. Such investigations should include, where necessary, (1) a review of the pertinent personnel practice of the contractor or subcontractor concerned, (2) the circumstance under which the discriminatory action is alleged to have taken place, and (3) such other factors which may determine whether the contractor or subcontractor in the particular case complied with the provisions of the nondiscrimination clause set forth in the contract concerned.

(b) Resolution of complaints by conciliatory means whenever possible.

(c) The preparation and submission, through prescribed channels, of a report to the President's Committee on Government Contracts setting forth (1) a copy of the complaint together with a summary of the investigative action performed by the Department concerned, (2) corrective action taken or recommended by the Department where investigation discloses a need for such action, (3) recommendations or comments in connection with the complaints which investigation disclosed as unfounded, and (4) information that the Department considers should be brought to the attention of the President's Committee.

§ 12.806–8 Reporting channels.

Reports in connection with complaints shall be forwarded, in duplicate, through Departmental channels to the Assistant Secretary of Defense (Supply and Logistics) for transmittal to the President's Committee on Government Contracts.

§ 12.807 Contact with the President's Committee.

After receiving a complaint of discriminatory employment practices against a contractor it may be appropriate for investigative personnel to contact the Regional Office of the President's Committee on Government Contracts, if there is one in the area, to ascertain if that office has additional information concerning the complaint or contractor. The Regional Office may be used as a point of information. However, contact concerning the conduct of or any other matters pertaining to the investigation shall not be made except after coordination with Departmental headquarters.

Subpart I—Employment Restrictions for Security Purposes

§ 12.901 Restrictions on hiring of aliens and other individuals.

It shall be the policy of each Department, in the interest of safeguarding the national security, to require written consent of the Secretary of the Department concerned (in accordance with procedures prescribed by that Department) prior to (a) the employment of any alien on any contract classified "Top Secret," "Secret," or "Confidential," and (b) the employment of any individual on any Top Secret or Secret contract.

§ 12.902 Responsibilities of contractors to employees.

In connection with all classified contracts, it shall be the policy of each Department to require that a contractor will be responsible for furnishing to the Contracting Officer (a) any requested information with respect to his employees, and (b) information and reports regarding any subversive activities of his employees.

§ 12.903 Contracts classified "Atomic Energy Restricted."

Employment restrictions with respect to any contract classified "Atomic Energy Restricted" shall be in accordance with regulations of the Atomic Energy Commission and procedures prescribed by each respective Department.

PART 13—GOVERNMENT PROPERTY

Sec.
13.000 Scope of part.

Subpart A—General

13.100 Scope of subpart.
13.101 Definitions.
13.101–1 Property.
13.101–2 Government property.
13.101–3 Contractor-furnished property.
13.101–4 Material.
13.101–5 Special tooling.
13.101–6 Industrial facility.
13.101–7 Industrial property.
13.101–8 Non-severable industrial facility.
13.101–9 Plant equipment.
13.101–10 Production equipment.
13.101–11 Machine tools.
13.101–12 Accessory item.
13.101–13 Auxiliary item.
13.101–14 Salvage.
13.101–15 Scrap.
13.101–16 Facilities contract.
13.101–17 Educational or other nonprofit organization.
13.102 General policy.
13.102–1 Materials.
13.102–2 Special tooling.
13.102–3 Facilities.
13.103 Control of Government property.
13.104 Responsibility and liability for Government property.
13.104–1 Responsibility of prime contractors for Government property.
13.104–2 Liability of subcontractors for Government property.

Subpart B—Material

13.200 Scope of subpart.
13.201 Fixed-price contracts.
13.202 Cost-reimbursement type contracts.
13.203 Disposal.

Subpart C—Special Tooling

13.300 Scope of subpart.
13.301 Fixed-price procurement; Government-furnished special tooling.
13.302 Fixed-price procurement—contractor-furnished or acquired special tooling.
13.303 Fixed-priced procurement—General policy on acquiring special tooling.
13.304 Fixed-price procurement; special tooling furnished or acquired by subcontractors.
13.305 Cost-reimbursement type (Government-furnished special tooling).
13.306 Fixed-price and cost-reimbursement type—special consideration for tooling with commercial use.

Subpart D—Industrial Facilities

Sec.
13.400 Scope of subpart.
13.401 Award of supply contracts.
13.402 Separate facilities contract.
13.403 Single facilities contract.
13.404 [Reserved]
13.405 Title.
13.406 Nonseverable industrial facilities.
13.406–1 Nondisposable nonseverable facilities.
13.406–2 Abandonment of facilities and restoration of premises.
13.407 Right of contractor to use.
13.408 Maintenance.
13.409 Identification and records.
13.410 Late delivery, diversion and substitution.
13.411 Risk of loss or damage and liability.
14.412 Unusable or unneeded facilities.
13.413 Termination of facilities contracts.
13.413–1 Termination by the Government.
13.413–2 Termination by the contractor.
13.414 Standby provisions.
13.415 Disposition.

Subpart E—Contract Clauses

13.500 Scope of subpart.
13.501 Applicability.
13.502 Government-furnished property clause for fixed-price contracts.
13.503 Government property clause for cost-reimbursement type contracts.
13.504 Special tooling clause for fixed-price contracts.
13.505 Government-furnished property clause for fixed-price type contracts with non-profit institutions.
13.506 Government property clauses for cost-reimbursement type research and development contracts with non-profit institutions.

Subpart F—Use of Government Owned Industrial Facilities on Work Other Than for a Military Department

13.600 Scope of subpart.
13.601 Rental.
13.601–1 General.
13.601–2 Rental rates.
13.601–3 Exceptions.
13.602 Term of use.
13.603 Production equipment.

Subpart G—Use of Government-Owned Industrial Facilities and Special Tooling on Work for Foreign Governments

13.700 Scope of subpart.
13.701 Use without charge.

Subpart H—Transfer of Title to Equipment to Nonprofit Education or Research Institution

Sec.
13.800 Scope of subpart.
13.801 Purpose of the legislation.
13.802 Transfer of title.
13.803 Contract clauses.

AUTHORITY: §§ 13.000 to 13.803 issued under R. S. 161, sec. 2202, 70A Stat. 120; 5 U. S. C. 22, 10 U. S. C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314.

§ 13.000 Scope of part.

This part sets forth the general policies of the Departments with respect to providing property for use by contractors in connection with procurement by the Military Departments and sets forth applicable contract clauses.

Subpart A—General

§ 13.100 Scope of subpart.

This subpart contains definitions of terms used in this part and a statement of general policy.

§ 13.101 Definitions.

As used in this part, the following terms have the meaning stated below:

§ 13.101–1 Property.

Property includes all physical property, both real and personal. For the purpose of this part, it consists of and is treated under three separate categories—material, special tooling, and industrial facilities.

§ 13.101–2 Government property.

"Government property" means all property owned by or leased to the Government, or acquired by the Government under the terms of a contract; except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this Section be classified as Government property. With this exception, Government property includes both Government-furnished property and contractor-acquired property as defined below:

(a) *Government-furnished property.* "Government-furnished property" is property in the possession of or acquired directly by the Government and subsequently delivered or otherwise made available to the contractor; and

(b) *Contractor-acquired property* "Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide," as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property," is intended to include both Government-furnished property and contractor-acquired property.

§ 13.101–3 Contractor-furnished property.

"Contractor-furnished property" means all property used by the contractor in the performance of a contract, other than Government property.

§ 13.101–4 Material.

"Material" means property which may be incorporated into or attached to an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of the contract.

§ 13.101–5 Special tooling.

"Special tooling" means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the contractor for use in the performance of a contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include: (a) Items of tooling or equipment acquired by the contractor prior to the contract, or replacements thereof, whether or not altered or adapted for use in the performance of the contract, (b) consumable small tools, or (c) general or special machine tools, or similar capital items.

§ 13.101–6 Industrial facility.

"Industrial facility" means property, other than material and special tooling, of use for the performance of a contract or subcontract, including real property and rights therein, building, structures, improvements, and plant equipment.

§ 13.101–7 Industrial property.

"Industrial property," as distinguished from military property, means any contractor-acquired or Government-furnished property, including materials, special tooling, and industrial facilities furnished or acquired in the performance of a contract or subcontract.

§ 13.101–8 Non-severable industrial facility.

"Non-severable industrial facility" means an industrial facility which, after erection or installation, cannot be removed without substantial loss of value or damage thereto, or to the premises where installed.

§ 13.101–9 Plant equipment.

"Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, and accessory and auxiliary items, but excluding special tooling) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

§ 13.101–10 Production equipment.

"Production equipment" means those items of plant equipment located within a manufacturing, processing, assembly or service establishment and used for cutting, abrading, grinding, shaping, forming, joining, measuring, testing, heating or treating production materials or work in process.

§ 13.101–11 Machine tools.

"Machine tools" mean those items of production equipment which are power-driven, non-portable machines used for cutting, abrading, grinding, shaping or forming metal.

§ 13.101–12 Accessory item.

"Accessory item" means an item which facilitates or enhances the operation of plant equipment but which is not essential for its operation, such as remote control devices.

§ 13.101–13 Auxiliary item.

"Auxiliary item" means an item without which the basic unit of plant equipment cannot operate, such as motors for pumps and machine tools.

§ 13.101–14 Salvage.

"Salvage" means property recoverable for further use or which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations but which has some value in excess of its scrap value.

§ 13.101–15 Scrap.

"Scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

§ 13.101–16 Facilities contract.

"Facilities contract" means a contract under which industrial facilities are provided by the Government for use in connection with the performance of a separate contract or contracts for supplies or services.

§ 13.101–17 Educational or other nonprofit organization.

"Educational or other nonprofit organization" means any corporation, foundation, trust, or institution operated for scientific or educational purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

§ 13.102 General policy.

§ 13.102–1 Materials.

It is the general policy of the Armed Services that contractors will furnish all materials required for the performance of Government contracts. Exceptions to this policy may be made by a procuring activity when it is determined that it will be in the best interest of the Government to furnish materials in a particular case, or with respect to a particular type of procurement, by reason of economy, standardization, expediting production, or other circumstances.

§ 13.102–2 Special tooling.

It is the general policy of the Armed Services that a Department shall furnish special tooling under its control and determined by it to be available, when such furnishing does not interfere with essential production or program schedules and the cost of such furnishing is less than the cost to the Government of the contractor acquiring or furnishing new special tooling. In determining the cost to the Government of furnishing special tooling to a contractor, consideration shall be given to:

(a) The cost of the preparation of such special tooling and the shipment thereof to the plant of the contractor;

(b) The cost of adapting such special tooling to meet the requirements of the contract;

(c) The cost incident to any delays which may be occasioned; and

(d) The cost of new special tooling.

§ 13.102–3 Facilities.

(a) It is the general policy of the Department of Defense that contractors will furnish all facilities required for the performance of Government contracts. However, subject to and within the limitations of existing authority, facilities may be provided by the Government for use by contractors when such providing is considered necessary to meet essential production or program schedules, or when otherwise considered by the Secretary concerned to be in the best interest of the Government. Before any Government facilities are furnished to a contractor, careful consideration must be given to the full utilization of subcontractors possessing adequate and available capacity to meet military production requirements.

(b) Each contract, lease, or other agreement which provides Government-owned industrial facilities (1) shall require periodic payment or credit of rent or use charge, or (2) where such facilities are provided by the Government without charge, (i) shall provide that no charge for the use of such facilities shall be included in the price or prices of Government supply or service contracts for which such facilities are used and, (ii) shall be documented to show the supply and service contracts for which such facilities are used on the basis of no charge being made in the supply or service contract price or prices. The agreement shall specify rental or use charge as a periodic dollar amount or, where this is inappropriate under the circumstances, it shall set forth the method of computing the amount due. In any case where transportation or installation costs are borne by the Government, such costs shall, for purpose of determining the rental payment, be added to the "acquisition cost" of the facilities in accordance with § 13.601–2. In pricing supply and service contracts for which the use of such facilities is authorized on a no-charge basis, care must be taken to screen out any element of cost—whether direct or indirect—on account of rentals charged for such facilities under other supply or service contracts.

§ 13.103 Control of Government property.

The "Manual for Control of Government Property in Possession of Contractors", § 30.2 of this subchapter, and the "Manual for Control of Government Property in Possession of non-Profit Research and Development Contractors", § 30.3 of this subchapter, are incorporated into this subchapter and made a part thereof.

§ 13.104 Responsibility and liability for Government property.

§ 13.104–1 Responsibility of prime contractors for Government property.

Except with respect to advertised fixed-price contracts, it is the basic policy of the Government not to hold the prime contractor responsible for loss of or damage to Government property caused by certain perils. This policy, as applied in facilities contracts, is set forth in § 13.411, and as implemented for use in other types of contracts, is contained in contract clauses set forth in Subpart E, of this part.

§ 13.104–2 Liability of subcontractors for Government property.

The prime contractor shall be required to hold a subcontractor liable for loss or destruction of or damage to Government property in the possession or control of such subcontractor (the prime contractor, nevertheless, remaining responsible to the Government to maintain the records required by Appendix B or Appendix C of Part 30 of this subchapter: *Provided, however,* That—

(a) A prime contractor on a negotiated fixed-price basis may, with the prior approval of the Contracting Officer, include in any subcontracts thereunder provisions similar to those contained in § 13.502 (f) and designated for use in negotiated fixed-price contracts, with respect to Government property previously furnished to the prime contractor but in the possession or control of the subcontractor, and

(b) A prime contractor on a cost-reimbursement basis may, with the prior

approval of the Contracting Officer, (1) include in any cost-reimbursement type subcontract thereunder provisions similar to those contained in § 13.503 (f), with respect to Government property in the possession or control of such subcontractor, and (2) include in any fixed-price subcontract thereunder provisions similar to those contained in § 13.502 (f) and designated for use in negotiated fixed-price contracts, with respect to Government property in the possession or control of such subcontractor: *Provided, however,* That whenever a fixed-price subcontract intervenes between the prime contractor and a subcontractor on a cost-reimbursement basis, the provisions so included shall be those referred to in subparagraph (2) of this paragraph.

Contracting Officers shall, prior to approving the inclusion in any subcontract of the provisions referred to in this section, satisfy themselves that the degree of protection and care to be afforded Government property in the possession or control of any such subcontractor is sufficient at all times to protect the interests of the Government.

Subpart B—Material

§ 13.200 Scope of subpart.

This subpart sets forth policies governing material furnished by a Military Department in connection with the performance of contracts for supplies or services.

§ 13.201 Fixed-price contracts.

Where supplies or services are contracted for on a fixed-price basis, material may be furnished to the contractor by a Military Department in accordance with the policy stated in §§ 13.102 to 13.102–3. Where a contract is to be entered into as a result of formal advertising, material to be furnished by the Government shall be set forth in the Invitation for Bids. At any time after a fixed-price contract has been entered into, whether as a result of formal advertising or negotiation, the contract may be amended by the parties to provide for the furnishing of Government material or to increase the amount to be furnished, provided the Government receives adequate consideration for such amendment. Pursuant to the clause set forth in § 13.502, the Government may decrease the material furnished or to be furnished under the contract, with equitable adjustment, if appropriate, in the delivery terms, price, or other contractual provisions affected thereby. When a Contracting Officer determines that a contemplated decrease in material would render it inequitable to require performance of the contract, in lieu of issuance of a notice in writing providing for such a decrease, he may, in accordance with departmental procedures, terminate the contract, in whole or in part, pursuant to the clause entitled "Termination for the Convenience of the Government."

§ 13.202 Cost-reimbursement type contracts.

Where supplies or services are contracted for on a cost-reimbursement basis, material may be furnished to the contractor by a Military Department in accordance with the policy stated in § 13.102. At any time after a cost-reimbursement type contract has been entered into, the contract may be amended by the parties to provide for the furnishing of Government material, or to increase or decrease the amount to be furnished under the contract, with equitable adjustment, if appropriate, in delivery terms, fixed-fee, or other contractual provisions affected thereby.

§ 13.203 Disposal.

Disposal of residual Government material shall be in accordance with applicable regulations issued by the Military Departments pursuant to the Federal Property and Administrative Services Act of 1949.

Subpart C—Special Tooling

§ 13.300 Scope of subpart.

This subpart sets forth policies governing the acquisition, furnishing and disposition of special tooling required for the performance of contracts for supplies or services.

§ 13.301 Fixed-price procurement; Government-furnished special tooling.

Where supplies or services are contracted for on a fixed-price basis special tooling required for performance of the contract may be furnished to the contractor by a Military Department in accordance with the policy stated in § 13.102–2. Where a contract is to be entered into as a result of formal advertising, special tooling to be furnished by the Government shall be stated in the Invitation for Bids. At any time after a fixed-price contract has been entered into, whether as a result of formal advertising or negotiation, the contract may be amended by the parties to provide for the furnishing by the Government of special tooling, or to increase the Government-furnished special tooling, provided such furnishing or increase is for the benefit of the Government and the Government receives adequate consideration for such amendment. Pursuant to the clause set forth in § 13.502, the Government may decrease the special tooling furnished or to be furnished under the contract, with equitable adjustment, if appropriate, in the delivery terms, price, or other contractual provisions affected thereby. When a Contracting Officer determines that a contemplated decrease in special tooling would render it inequitable to require performance of the contract, in lieu of issuance of a notice in writing providing for such a decrease, he may, in accordance with departmental procedures, terminate the contract, in whole or in part, pursuant to the clause entitled "Termination for the Convenience of the Government."

§ 13.302 Fixed-price procurement—contractor-furnished or acquired special tooling.

Where special tooling required for the performance of a fixed-price contract for supplies or services is not furnished by the Government, newly made or acquired special tooling may be furnished or acquired by the contractor under one of the following arrangements:

(a) The contract may provide for the acquisition of such special tooling by the contractor and the delivery thereof to the Government as an end item under the contract. In any such case, the rights of the parties in special tooling shall be governed by the provisions of the contract and the Schedule; or

(b) Where the contract does not provide for delivery of such special tooling as an end item under the contract, the clause set forth in § 13.504 shall be used.

§ 13.303 Fixed-price procurement—general policy on acquiring special tooling.

In deciding whether special tooling should be acquired by the Government as a separate end item under the contract or Schedule, or in exercising the Government's rights under the special tooling clause set forth in § 13.504, the contracting officer shall take into consideration the following factors:

(a) The current or probable future need of the Government for the items of special tooling involved;

(b) The residual value of such items;

(c) Administrative and other expense incident to preparation, handling and storage of such items;

(d) The probable cost of reproduction of such items in event of future procurement;

(e) The probable cost of making such items available in the event of future procurement, and the probable reduction in price of such future procurement; and

(f) The amount offered by the contractor for the right to retain such items.

§ 13.304 Fixed-price procurement; special tooling furnished or acquired by subcontractors.

(a) In the event the prime contractor enters into subcontracts or issues any purchase orders, the performance of which involves the use of special tooling to be furnished or acquired by the subcontractor or vendor, there will be included in such subcontracts or purchase orders appropriate provisions to the extent required by paragraph (k) (or by alternate paragraph (k)) of the special tooling clause set forth in § 13.504 giving the prime contractor rights comparable to those granted to the Government by such clause.

(b) The prime contractor shall exercise his rights in such special tooling for the benefit of the Government in accordance with any directions issued by the Contracting Officer, who shall be guided by the policies set forth in § 13.303.

§ 13.305 Cost-reimbursement type (Government-furnished special tooling.)

Where supplies or services are contracted for on a cost-reimbursement basis, special tooling may be furnished to the contractor by a Military Department in accordance with the policy stated in § 13.102–2. At any time after a cost-reimbursement type contract has been entered into, the contract may be amended by the parties to provide for the furnishing by the Government of special tooling, or to increase or decrease the amount to be furnished under the contract, with equitable adjustment, if appropriate, in delivery terms, fixed-fee, or other contractual provisions affected thereby. Special tooling furnished by the Government or acquired by the Contractor shall be subject to the provisions of the Government Property Clause set forth in § 13.503.

§ 13.306 Fixed-price and cost-reimbursement type—special consideration for tooling with commercial use.

When performance of a fixed-price or cost-reimbursement type contract requires a contractor to acquire tooling which would be special tooling as defined in § 13.101–5, except that it has commercial use, the contract may appropriately provide therefor, giving due consideration to the best interests of the Government and the equities of the contractor.

Subpart D—Industrial Facilities

§ 13.400 Scope of subpart.

This subpart sets forth policies with respect to providing industrial facilities for use by contractors in connection with procurement by the Military Departments and for other incidental uses. Nothing in this Subpart D shall be construed as affecting any authority granted under Departmental procedures to employ a lease as a means of making property available to a contractor for performing Government work.

§ 13.401 Award of supply contracts.

Contracts for supplies or services based upon the use of industrial facilities to be provided by the Government should not be awarded until the scope and magnitude of the facilities required have been determined and authorized by the Department concerned.

§ 13.402 Separate facilities contract.

Industrial facilities shall be provided only under a facilities contract separate from any related contract for supplies or services, except that industrial facilities may be provided under suitable clauses in a supply or service contract which incorporates the applicable provisions of this Subpart D.

(a) When the cumulative total acquisition cost (actual or estimated) of the industrial facilities provided to a contractor at one plant or general location does not exceed $50,000;

(b) When the contract is for the performance of construction work;

(c) When the contract is for the performance of work within establishments or installations operated by the Government; or

(d) When the contract is for the performance of services, involving the operation of a Government-owned plant or installation, for a specified period of time, and the facilities provided are to be used only in connection with such contract.

§ 13.403 Single facilities contract.

Except as otherwise provided under § 13.402, or unless in accordance with departmental procedures the Contracting Officer determines it to be impracticable, all industrial facilities provided by a procuring activity for use by a Contractor at any one plant or general location shall be governed by a single facilities contract, amended from time to time as necessary, covering only the facilities at that plant or general location, except that the Contracting Officer may authorize the temporary use of a portion of the facilities at a location other than that covered by the contract. Except as provided in this section and except for facilities for the performance of subcontracts under construction contracts or under contracts for work within establishments or installations operated by the Government, industrial facilities provided to a subcontractor shall be provided pursuant to a separate contract or lease between the Government and the subcontractor.

§ 13.404 [Reserved]

§ 13.405 Title.

Each facilities contract shall provide that title to all industrial facilities furnished to the contractor shall remain in the Government, and that title to industrial facilities acquired by a contractor the cost of which is reimbursable to the contractor shall vest in the Government at the earliest practicable time.

§ 13.406 Nonseverable industrial facilities.

It is the policy of the Department of Defense that nonseverable industrial facilities shall be located on land owned or controlled by the Government, unless the head of a procuring activity determines that such location is not feasible. If the head of a procuring activity determines that location on land not owned or controlled by the Government is necessary he may authorize such location, subject to the limitations set forth in § 13.406–1. In determining whether to authorize such location, consideration shall be given to any nonrecoverable costs involved.

§ 13.406–1 Nondisposable nonseverable facilities.

Nonseverable industrial facilities which are of such a nature as not to be disposable to third parties (other than the contractor) for commercial or industrial operations, after the Government's need therefor has ceased, may be located on other than Government owned or controlled land only under the following circumstances:

(a) The contractor agrees (to the extent authorized by law) that he will purchase the facilities upon the expiration of the facilities contract, or at any time prior thereto, at a price equal to the acquisition cost of the facilities less depreciation at the rate or rates specified in the facilities contract (which rate or rates shall take into consideration the estimated useful life of the facilities), or credit an amount equal to such price against any amounts due the contractor under the facilities contract; or

(b) The estimated useful life of the facilities will not extend beyond the expiration of the facilities contract or the completion of the work for which the facilities were provided; or

(c) The Secretary concerned specifically approves other provisions as being in the interest of national defense.

§ 13.406–2 Abandonment of facilities and restoration of premises.

The Government shall have the right to abandon in place all such nonseverable industrial facilities located on land not owned or controlled by it, and in such event shall not be subject to any obligation to restore or rehabilitate the premises of the contractor, unless otherwise provided in the contract with the prior approval of the head of a procuring activity. The authority of the head of a procuring activity to grant such approval shall not be delegated.

§ 13.407 Right of contractor to use.

(a)(1) Each facilities contract shall limit the right of the contractor to use the industrial facilities to the performance of the contracts and subcontracts specified or otherwise identified in the facilities contract, added thereto by amendment, or approved in writing by the Contracting Officer cognizant of the facilities contract. In the latter event, a record of approved contracts and subcontracts shall be included in the facilities contract file. Where a facilities contract authorizes the use of industrial facilities in the performance of contracts entered into by formal advertising, the facilities contract shall specify a cash rental to be paid in such cases. Facilities contracts may authorize the use of industrial facilities without charge in the performance of contracts other than those entered into by formal advertising if—

(i) The user is not thereby placed in a favored competitive position; and

(ii) The Government receives adequate consideration through reduced cost for supplies or services or otherwise (see § 13.601–1). Such reduced cost may be established in the initial negotiation of new contracts, or by the readjustment of prices (including fixed-fees and allowable costs) of existing contracts, or by price redetermination in the case of negotiated fixed-price contracts where the saving to the contractor cannot be accurately forecast.

(2) Where a facilities contract authorizes the use of industrial facilities without charge to perform subcontracts, it is likewise important to assure that the waiver of a use charge is consistent with the requirements that (i) the subcontractor is not thereby placed in a favored competitive position and (ii) the Government receives adequate consideration through reduced cost for the supplies or services or otherwise (see § 13.601–1); therefore, the use of industrial facilities without charge to perform a particular subcontract shall not be authorized unless the contracting officer determines that these requirements are met.

(3) In order to insure that a concern possessing Government facilities without charge is not thereby placed in a favored position in competing for Government business, either as a prime contractor or a subcontractor, with relation to concerns possessing either a lesser amount of Government facilities or their own facilities, a suitable method for eliminat-

ing any competitive pricing advantage shall be employed. This may be accomplished (i) by charging a rental in a manner prescribed in this Part 13, or (ii) in the price evaluation of competitive proposals, by adding to the proposed contract price of a concern possessing Government facilities without charge an evaluation factor consisting of an amount which it is estimated would equal such rental charge, or (iii) by any other available method which will give effect to the basic policy set forth in this § 13.407 under the facts of the particular case. It is recognized that there may be situations in which there is no need for charging rental or applying equalization factors to assure that the user possessing Government facilities is not thereby placed in a favored competitive position, as, for example, where the only competing concerns possess substantially the same amount of Government facilities on a no-charge basis for use in the performance of a proposed contract, or where the procurement is to be made from a sole source, or where the award is to be made on a basis in which the rental cost of Government-owned facilities is not a controlling factor. Where one of the methods authorized by this section is used to eliminate competitive advantage in the award of a contract for supplies or services, the contract file shall be documented to show the method employed.

(4) Varying methods or techniques may be required to achieve equalization of competitive advantage in different industries or commodity areas, or by reason of the complexity of the facility pattern in contractors' plants, or other considerations. Whatever method or technique is used, it should conform to the basic policy of eliminating competitive advantage in pricing, and should do so in a manner consistent with the rental policy and considerations applicable to the use by contractors of Government facilities. Each Department shall adopt such procedures of administration and review as will accomplish the foregoing objectives.

(b) When use without charge to the contractor is not authorized by (a) above or is not advisable because of the competitive aspect, administrative difficulties, or other considerations, the contract shall require the contractor to pay a fair and reasonable use charge. Such fair and reasonable use charge shall be established on the basis of sound commercial practice, including any prevailing commercial rates, and shall be such as to prevent the contractor from obtaining an unfair competitive advantage by reason thereof. The use charge for production equipment and for other personal property and equipment constituting industrial facilities shall conform to the rates prescribed in § 13.601.

(c) A facilities contract may also provide that the contractor may be authorized by the contracting officer to make incidental use of all or part of the facilities covered by the contract for work other than for an agency of the Department of Defense. However, where a facilities contract is no longer required in connection with the performance of a Government contract or contracts, it shall not be continued solely for the purpose of authorizing commercial use of all or any part of the facilities covered by the facilities contract. The rental rates applicable to Government facilities as provided in § 13.601, shall apply to facilities furnished under a facilities contract for the period that such facilities are authorized for use for commercial purposes.

§ 13.408 Maintenance.

Each facilities contract shall require the contractor, without cost to the Government thereunder, to protect, preserve, maintain, and repair the facilities provided thereunder, in accordance with sound industrial practice, until relieved of responsibility therefor. However, when authorized by the Department concerned, such contract may provide for:

(a) A specified degree of protection, preservation, maintenance and repair that is less than sound industrial practice as to any part or parts of the facilities as are determined by the Department concerned to be nonessential to future utilization of the facilities as a whole;

(b) Reimbursement by the Government for the cost of protecting, maintaining, preserving and repairing facilities not authorized for use by the contractor; and

(c) Reimbursement by the Government for repairs, replacements, and restoration performed by the contractor when such repairs, replacements and restoration are in excess of normal maintenance and are directed or approved by the contracting officer.

The facilities contract shall contain no warranty, express or implied, regarding the condition or fitness for use of any item of industrial facilities. Nothing in this section shall limit a contractor's rights with respect to costs properly allowable under other contracts.

§ 13.409 Identification and records.

Each facilities contract under which industrial facilities are provided by the Government shall require the contractor, without cost to the Government thereunder, to maintain adequate property control records and a system of identification of such industrial facilities in accordance with the provisions of the "Manual for Control of Government Property in Possession of Contractors," (§ 30.2 of this subchapter) as in effect on the date of the contract, and in the case of facilities furnished to non-profit research and development contractors, in accordance with the provisions of the "Manual for Control of Government Property in Possession of Non-Profit Research and Development Contractors", (§ 30.3 of this subchapter) as in effect on the date of the contract. Nothing in this paragraph shall limit a contractor's rights with respect to costs properly allocable under other contracts.

§ 13.410 Late delivery, diversion and substitution.

Each facilities contract shall provide that:

(a) The Government shall not be liable to the contractor for damages or loss of profit by reason of non-delivery or of any delay in the delivery of industrial facilities to be provided by the Government. Provisions for appropriate equitable adjustment should be made in supply or service contracts which may be affected by any such non-delivery or delay.

(b) The Government shall have the right, when it is determined by the Department concerned to be in the best interest of the Government, to direct:

(1) Delivery of any industrial facility or facilities acquired by or furnished to the contractor under the contract to locations other than those specified in the contract; and

(2) Assignment, to the Government or to third parties, of purchase orders or subcontracts of the contractor for any industrial facility or facilities covered by the contract.

Provisions for appropriate equitable adjustment should be made in supply or service contracts which may be affected by such changes or modifications.

(c) The Government shall have the right to furnish any of the industrial facilities, in lieu of acquisition thereof by the contractor. Provisions will be made for reimbursement to the contractor, in such event, of proper costs incurred by it in connection with acquiring such facilities, including the cost of terminating purchase orders of subcontracts therefor.

§ 13.411 Risk of loss or damage and liability.

Each facilities contract—

(a) Shall provide that the Contractor shall not be liable for any loss or damage to the industrial facilities, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(1) Which results from a risk expressly required to be insured under the facilities contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater;

(2) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of said insurance or reimbursement;

(3) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who have supervision or direction of (i) all or substantially all of the Contractor's business, or (ii) all or substantially all of the Contractor's operations at the industrial facility if such facility is a complete plant or unit, or (iii) all or substantially all of the Contractor's operations at any one plant or separate location in which such industrial facilities are installed or located, or (iv) any separate or complete major industrial operation in connection with which the facilities are used; or

(4) Which results from a failure on the part of any of the Contractor's directors, officers, or other representatives mentioned in subparagraph (3) (iii) of this paragraph, (i) to maintain and administer, in accordance with sound industrial practices, a program for the maintenance, repair, protection and preservation of the industrial facilities, so as to insure their full availability and usefulness at all times, or (ii) to take all reasonable steps to comply with any appropriate written directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection of the industrial facilities; provided, that, with respect to any such loss or damage caused by an excepted peril, the Contractor shall be liable under this subparagraph only where such failure of the Contractor's representative, as set forth herein, results from his willful misconduct or lack of good faith. As used in this section, the term "excepted peril" shall mean any peril set forth in paragraph (f) (i) (B) of the clause in § 13,502; and may also include additional provisions for liability in specific cases, in which case such additional provisions shall be included, or specifically referred to, in the general liability clause.

(b) Shall require the Contractor to hold the Government harmless against claims for injury to persons or damage to property of the Contractor or others arising from the Contractor's possession or use of the industrial facilities, provided, however, that so long as there is in effect one or more contracts for supplies or services which require the use of such facilities, the provisions of such contracts shall govern the assumption of liability for such claims arising out of or related to the performance of each such contract and involving the possession or use of Government provided industrial facilities.

(c) Shall require the Contractor to carry insurance in accordance with Part 10 of this subchapter.

Where justified by the circumstances of any particular contract, the Department concerned may require the Contractor to assume greater risks than those enumerated in paragraph (a) of this section.

§ 13.412 Unusable or unneeded facilities.

Each facilities contract shall provide that within 30 days after any industrial facility is determined by the contractor to be lost, damaged, destroyed, no longer usable, or no longer needed for the performance of Government contracts, the contractor shall notify the Contracting Officer thereof. Disposition of such damaged, destroyed, no longer usable or no longer needed facilities will be made in accordance with § 13.415.

§ 13.413 Termination of facilities contracts.

§ 13.413–1 Termination by the Government.

(a) Each facilities contract shall provide that the Government shall have the right, upon notice, to terminate such contract with respect to all or any part of the facilities covered thereby, or to terminate or limit the contractor's right to use any or all of such facilities. Provisions for equitable adjustment should be made in supply or service contracts which may be affected by such termination or limitation of right to use.

(b) A facilities contract shall be terminated by the Department concerned when the facilities covered thereby are no longer required for the performance of Government contracts, unless such termination is detrimental to the Government's interest. The contractor shall not be granted the unilateral right, at its election, to extend the time during which the contractor is entitled to use the equipment provided under the facilities contract.

§ 13.413–2 Termination by the contractor.

(a) Each facilities contract covering Government-furnished facilities shall provide that the contractor shall have the right to terminate the contract at any time, upon reasonable notice, with respect to all such facilities covered thereby, or, by agreement with the Contracting Officer, with respect to a substantial portion of such facilities.

(b) Termination at the option of the contractor shall not relieve the contractor of any of its obligations or liabilities under any supply or service contract affected thereby.

§ 13.414 Standby provisions.

A facilities contract may include appropriate provisions for maintenance or storage of the industrial facilities, or other suitable standby provisions, upon completion or termination in whole or in part of such contract or of the contractor's right to use any or all of the facilities covered thereby.

§ 13.415 Disposition.

Except as to those non-disposable, non-severable industrial facilities, for which specific provision is made in § 13.406, the disposition of industrial facilities shall be in accordance with applicable regulations issued by the Departments pursuant to statutory authority. Each facilities contract shall provide that within the period specified in the contract following the effective date of partial or complete termination, the contractor will account for all facilities with respect to which the contract is terminated. Within ninety (90) days after the contractor accounts for the facilities, the Contracting Officer will notify the contractor as to disposition thereof. The contractor will be required to prepare, protect, remove or ship the facilities as directed by the Contracting Officer. Provision may be made for equitable reimbursement to the contractor for expenses so incurred. If the Contracting Officer fails to notify the contractor as to disposition of the facilities within the ninety (90) day period, herein provided, the contractor may, upon reasonable notice to the Government, remove and store elsewhere at Government risk and expense those facilities located within the plant of the contractor.

Subpart E—Contract Clauses

§ 13.500 Scope of subpart.

This subpart sets forth uniform contract clauses pertaining to Government Property provided for use in connection with the performance of contracts for supplies or services.

§ 13.501 Applicability.

(a) As used in this subpart, the term "fixed-price contract for supplies or services" shall mean any contract (1) entered into either by formal advertising or by negotiation, but excluding purchase orders for $5,000 or less, letter contracts, letters of intent, notices of award and amendments or modifications to contracts or purchase orders; (2) at a fixed-price (with or without provisions for price redetermination, escalation, or other form of price adjustment) as covered in § 3.403 of this subchapter; and (3) for supplies or services other than the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property.

(b) As used in this subpart, the term "cost-reimbursement type contract for supplies or services" shall mean any contract (other than a letter contract, letter of intent, notice of award, or amendment or modification of a contract) entered into by negotiation on a cost or cost-plus-a-fixed-fee basis as covered in § 3.404, for supplies or services other than the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property.

§ 13.502 Government-furnished property clause for fixed-price contracts.

The following clause shall be used in fixed-price contracts for supplies or services (except contracts for experimental, developmental, or research work with educational or nonprofit institutions, where no profit to the contractor is contemplated) under which a Department is to furnish to the contractor, material, special tooling, or such industrial facilities as may be furnished under § 13.402 (a).

GOVERNMENT-FURNISHED PROPERTY
(MAY 1958)

(a) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described in the Schedule or specifications, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (hereinafter referred to as "Government-furnished Property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished Property suitable for use will be delivered to the Contractor at the times stated in the Schedule or, if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished Property is not delivered to the Contractor by such time or times, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor thereby, and shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provision affected by such delay, in accordance with the procedures provided for in the clause of this contract entitled "Changes." In the event the Government-

furnished Property is received by the Contractor in a condition not suitable for the intended use the Contractor shall, upon receipt thereof, notify the Contracting Officer of such fact and, as directed by the Contracting Officer, either (i) return such property at the Government's expense or otherwise dispose of the property, or (ii) effect repairs or modifications. Upon the completion of (i) or (ii) above, the Contracting Officer upon written request of the Contractor shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provision affected by the rejection or disposition, or the repair or modification, in accordance with the procedures provided for in the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government-furnished Property or delivery of such property in a condition not suitable for its intended use.

(b) By notice in writing the Contracting Officer may decrease the property furnished or to be furnished by the Government under this contract. In any such case, the Contracting Officer upon the written request of the Contractor shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provisions affected by the decrease, in accordance with the procedures provided for in the clause of this contract entitled "Changes."

(c) Title to the Government-furnished Property shall remain in the Government. Title to Government-furnished Property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government-furnished Property, or any part thereof, be or become a fixture or lose its identity or personality by reason of affixation to any realty. The Contractor shall comply with the provisions of the "Manual for Control of Government Property in Possession of Contractors" (§ 30.2, Armed Services Procurement Regulation) as in effect on the date of the contract, which Manual is hereby incorporated by reference and made a part of this contract.

(d) The Government-furnished Property shall, unless otherwise provided herein, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer, in accordance with sound industrial practice, a program for the maintenance, repair, protection and preservation of Government-furnished Property, until disposed of by the Contractor in accordance with this clause. In the event that any damage occurs to Government-furnished Property the risk of which has been assumed by the Government under this contract, the Government shall replace such items or the Contractor shall make such repair of the property as the Government directs; provided, however, that if the Contractor cannot effect such repair within the time required, the Contractor shall dispose of such property in the manner directed by the Contracting Officer. The contract price includes no compensation to the Contractor for the performance of any repair or replacement for which the Government is responsible, and an equitable adjustment will be made in the contract price for any such repair or replacement of Government-furnished Property made at the direction of the Government. Any repair or replacement for which the Contractor is responsible under the provisions of this contract shall be accomplished by the Contractor at its own expense.

The following provision (f) is for use in advertised fixed price contracts:

(f) Unless otherwise provided in this contract, the Contractor, upon delivery to him of any Government-furnished Property, assumes the risk of, and shall be responsible for, any loss thereof or damage thereto except for reasonable wear and tear, and except to the extent that such property is consumed in the performance of this contract.

The following provision (f) is for use in negotiated fixed-price contracts except those contracts involving Government-furnished Property relating to labor surplus area or small business partial set-asides for which the provision (f) for advertised contracts shall be used:

(f) (i) Except for loss, destruction or damage resulting from a failure of the Contractor due to willful misconduct or lack of good faith of any of the Contractor's managerial personnel as defined herein, to maintain and administer the program for the maintenance, repair, protection and preservation of the Government-furnished Property, as required by paragraph (e) hereof, and except as specifically provided in the clause or clauses of this contract designated in the Schedule, the Contractor shall not be liable for loss or destruction of or damage to the Government-furnished Property (A) caused by any peril while the property is in transit off the Contractor's premises, or (B) caused by any of the following perils while the property is on the Contractor's or subcontractor's premises, or on any other premises where such property may properly be located, or by removal therefrom because of any of the following perils:

(I) Fire; lighting; windstorm, cyclone, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; sabotage; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the Contractor or any agent or employee of the Contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of a body of water; hostile or warlike action, including action in hindering, combating, or defending against an actual, impending or expected attack by any government or sovereign power (de jure or de facto), or by any authority using military, naval, or air forces, or by an agent of any such government, power, authority, or forces; or

(II) Other peril, of a type not listed above, if such other peril is customarily covered by insurance (or by a reserve for self-insurance) in accordance with the normal practice of the Contractor, or the prevailing practice in the industry in which the Contractor is engaged with respect to similar property in the same general locale.

The perils as set forth in (A) and (B) above are hereinafter called "excepted perils."

This clause shall not be construed as relieving a subcontractor from liability for loss or destruction of or damage to the Government-furnished Property while in its possession or control, except to the extent that the subcontract, with the prior approval of the Contracting Officer, may provide for the relief of the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government-furnished Property in as good condition as when received, except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of the prime contract.

The term "Contractor's managerial personnel" as used herein means the Contractor's directors, officers and any of its managers, superintendents, or other equivalent representatives who have supervision or direction of (I) all or substantially all of the Contractor's business; (II) all or substantially all of the Contractor's operation at any one plant or separate location at which the contract is being performed; (III) a separate and complete major industrial operation in connection with the performance of this contract.

(ii) The Contractor represents that it is not including in the price hereunder, and agrees that it will not hereafter include in any price to the Government, any charge or reserve for insurance (including self-insurance funds or reserve) covering loss or destruction of or damage to the Government-furnished Property caused by any excepted peril.

(iii) Upon the happening of loss or destruction of or damage to any Government-furnished Property caused by an excepted peril, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has directed that no such organization be employed), shall take all reasonable steps to protect the Government-furnished Property from further damage, separate the damaged and undamaged Government-furnished Property, put all the Government-furnished Property in the best possible order, and furnish to the Contracting Officer a statement of: (A) the lost, destroyed and damaged Government-furnished Property (B) the time and origin of the loss, destruction or damage, (C) all known interests in commingled property of which the Government-furnished Property is a part, and (D) the insurance, if any, covering any part of or interest in such commingled property. The Contractor shall be reimbursed for the expenditures made by it in performing its obligations under this subparagraph (iii) (including charges made to the Contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed directly), to the extent approved by the Contracting Officer and set forth in a Supplemental Agreement.

(iv) With the approval of the Contracting Officer after loss or destruction of or damage to Government-furnished Property, and subject to such conditions and limitations as may be imposed by the Contracting Officer, the Contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of Government-furnished Property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the Contractor, that separation is impracticable.

(v) Except to the extent of any loss or destruction of or damage to Govenment-furnished Property for which the Contractor is relieved of liability under the foregoing provisions of this clause, and except for reasonable wear and tear or depreciation, or the utilization of the Government-furnished Property in accordance with the provisions of this contract, the Government-furnished Property (other than property permitted to be sold) shall be returned to the Government in as good condition as when received by the Contractor in connection with this contract, or as repaired under paragraph (e) above.

(vi) In the event the Contractor is reimbursed or compensated for any loss or destruction of or damage to the Government-furnished Property, caused by an excepted peril, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of or damage to the Government-furnished Property, the Contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government-furnished Property for the benefit of the Government.

(vii) [Where applicable] In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government-furnished Property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(g) The Government shall at all reasonable times have access to the premises wherein any Government-furnished Property is located.

(h) Upon the completion of this contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government-furnished Property not consumed in the performance of this contract (including any resulting scrap) or not theretofore delivered to the Government, and shall deliver or make such other disposal of such Government-furnished Property, as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the contract price or shall be paid in such other manner as the Contracting Officer may direct.

(i) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this Clause shall be in writing.

§ 13.503 Government property clause for cost-reimbursement type contracts.

The following clause shall be used in cost-reimbursement type contracts for supplies and services (except contracts for experimental, developmental, or research work with educational or nonprofit institutions, where no profit to the contractor is contemplated) under which a Department is to furnish to the contractor, or the contractor is to acquire for the account of the Government, material, special tooling, or industrial facilities within the policy set forth in § 13.402 (a).

GOVERNMENT PROPERTY (MAY 1960)

(a) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described in the Schedule or specifications, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (hereinafter referred to as "Government-furnished Property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished Property suitable for use will be delivered to the Contractor at the times stated in the Schedule or, if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished Property is not delivered to the Contractor by such time or times, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor and shall equitably adjust the estimated cost, fixed fee, or delivery or performance dates, or all of them, and any other contractual provisions affected by such delay, in accordance with the procedures provided for in the clause of this contract entitled "Changes." In the event that Government-furnished Property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, upon receipt thereof notify the Contracting Officer of such fact and, as directed by the Contracting Officer, either (i) return such property at the Government's expense or otherwise dispose of the property or (ii) effect repairs or modifications. Upon completion of (i) or (ii) above, the Contracting Officer upon written request of the Contractor shall equitably adjust the estimated cost, fixed fee, or delivery or performance dates, or all of them, and any other contractual provision affected by the return or disposition, or the repair or modification, in accordance with the procedures provided for in the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government-furnished Property or delivery of such property in a condition not suitable for its intended use.

(b) Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is reimbursable to the Contractor under the contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, in whole or in the percentage prevailing by reason of the clause of the contract entitled "Allowable Cost, Fixed Fee and Payment," whichever first occurs. All Government-furnished Property, together with all property acquired by the Contractor, title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government Property."

(c) Title to the Government Property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government Property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty. The Contractor shall comply with the provisions of the "Manual for Control of Government Property in Possession of Contractors" (Part 30.2, Armed Services Procurement Regulation), as in effect on the date of the contract, which Manual is hereby incorporated by reference and made a part of this contract.

(d) The Government Property provided or furnished pursuant to the terms of this contract shall, unless otherwise provided herein, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer in accordance with sound industrial practice, a program, for the maintenance, repair, protection and preservation of Government Property so as to assure its full availability and usefulness for the performance of this contract. The Contractor shall take all reasonable steps to comply with all appropriate directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection of Government Property.

(f) (i) The Contractor shall not be liable for any loss of or damage to the Government Property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto) (A) which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents; or other equivalent representatives, who have supervision or direction of (I) all or substantially all of the Contractor's business, or (II) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (III) a separate and complete major industrial operation in connection with the performance of this contract; or (B) which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (A) above, (I) to maintain and administer, in accordance with sound industrial practice, the program for maintenance, repair, protection and preservation of Government Property as required by paragraph (e) hereof, or (II) to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under paragraph (e) hereof; or (C) for which the Contractor is otherwise responsible under the express terms of the clause or clauses designated in the Schedule; or (D) which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or (E) which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement; provided that, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception. This clause shall not be construed as relieving a subcontractor from liability for loss or destruction of or damage to Government Property in its possession or control, except to the extent that the subcontract, with the prior approval of the Contracting Officer, may provide for the relief of the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government Property in as good condition as when received, except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of the prime contract.

(ii) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the Government Property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(iii) Upon the happening of loss or destruction of or damage to the Government Property, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has designated that no such organization be employed), shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the Contracting Officer a statement of (A) the lost, destroyed and damaged Government Property, (B) the time and origin of the loss, destruction or damage, (C) all known interests in commingled property of which the Government Property is a part, and (D) the insurance, if any, covering any part of or interest in such commingled property. The Contractor shall

make repairs and renovations of the damaged Government Property or take such other action, as the Contracting Officer directs.

(iv) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government Property, it shall use the proceeds to repair, renovate or replace the Government Property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where the subcontractor has not been relieved from liability for any loss or destruction of or damage to Government Property, the Contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government Property for the benefit of the Government.

(v) If this contract is for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involves the furnishing of aircraft by the Government, the clause of this contract entitled "Flight Risks" shall control, to the extent it is applicable, in the case of loss or destruction of, or damage to, aircraft.[1]

(g) The Government shall at all reasonable times have access to the premises where any of the Government Property is located.

(h) The Government Property shall remain in the possession of the Contractor for such period of time as is required for the performance of this contract unless the Contracting Officer determines that the interests of the Government require removal of such property. In such case the Contractor shall promptly take such action as the Contracting Officer may direct with respect to the removal and shipping of Government Property. In any such instance, the contract may be amended to accomplish an equitable adjustment in the terms and provisions thereof.

(i) Upon the completion of this contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit to the Contracting Officer in a form acceptable to him, inventory schedules covering all items of the Government Property not consumed in the performance of this contract, or not theretofore delivered to the Government, and shall deliver or make such other disposal of such Government Property as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct. The foregoing provisions shall apply to scrap from Government Property provided, however, that the Contracting Officer may authorize or direct the Contractor to omit from such inventory schedules any scrap consisting of cutting and processing waste, such as chips, cuttings, borings, turnings, short ends, circles, trimmings, clippings, and remnants, and to dispose of such scrap in accordance with the Contractor's normal practice and account therefor as a part of general overhead or other reimbursable cost in accordance with the Contractor's established accounting procedures.

(j) Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's plant or any portion thereof which is affected by the removal of any Government Property.

(k) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this clause shall be in writing.

NOTE: As provided in paragraph (i) of the above clause, the contracting officer may, subject to Departmental procedures, authorize or approve use of the contractor's established scrap disposal and accounting procedures whenever the amount and recoverable value of scrap from the Government property are relatively minor and the contractor's established procedures for accumulating and disposing of scrap and crediting the proceeds thereof to general overhead or other general cost will permit the Government to share equitably in such scrap recovery through a reduction of overhead or other cost factor affecting reimbursement under the contract.

§ 13.504 Special tooling clause for fixed-price contracts.

The following clause shall be used in fixed-price contracts for supplies or services (except contracts for experimental, developmental, or research work) for the performance of which the contractor furnishes special tooling, under the conditions set forth in § 13.302 (b), but is not for use in contracts in which special tooling is called for as a separate item in the Schedule (see § 13.302(a)).

SPECIAL TOOLING (SEPT. 1958)

(a) The term "special tooling", as used in this clause, means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the Contractor for use in the performance of this contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include: (i) Items of tooling or equipment heretofore acquired by the Contractor, or replacements thereof, whether or not altered or adapted for use in the performance of this contract, (ii) consumable small tools, or (iii) general or special machine tools, or similar capital items.

(b) The Contractor agrees not to use any items of special tooling except in the performance of this contract, or except as otherwise provided by this clause, without prior written approval of the Contracting Officer. The Contractor may, with the approval of the Contracting Officer, use the special tooling in the performance of other contracts with the Government, or subcontracts under Government contracts, provided that the Contractor agrees not to include in the price or prices for any such contracts or subcontracts, involving the use of such special tooling, the cost of such tooling or any allowance or charge to cover depreciation or amortization which has previously been charged against this contract.

(c) As and when any substantial portion of usable special tooling is no longer needed by the Contractor for the performance of this contract, and of other Government contracts and subcontracts as to which approval has been obtained under paragraph (b) above, the Contractor shall promptly notify the Contracting Officer thereof, and shall furnish to the Contracting Officer a list of the products, parts or services for the manufacture or performance of which such special tooling was used or designed. Upon completion or termination of all work under this contract, or of this contract and other Government contracts and subcontracts as to which approval has been obtained under paragraph (b) above, the Contractor shall furnish a final list in the same form covering all items not previously reported under this paragraph. Special tooling which has become obsolete as a result of changes in design or specification need not be reported, except as provided for in paragraph (d).

(d) In the event of any changes in design or specifications which affect interchangeability of parts, the Contractor shall, unless otherwise agreed to by the Contracting Officer, give the Contracting Officer notice of any part which is not interchangeable with the new or superseding part and the usable special tooling for each part covered in such notice shall be retained by the Contractor subject to the provisions of paragraph (i), pending disposition under paragraph (f).

(e) At the time it furnishes any list or notice under (c) or (d) above, the Contractor may designate those items of special tooling (either specifically or by listing the particular products, parts, or services for which such items were used or designed) which it desires to retain, together with a written offer: (i) to retain any or all of such items, free and clear of any Government interest, for an amount designated therein, which should ordinarily not be less than the then fair value of such items (which fair value takes into account, among other things, the value of such items to the Contractor for use in further work by it); or (ii) to retain any or all such items for such period of time and subject to such terms and conditions as may be agreed to by the parties hereto, subject to ultimate retention or disposition of such items in accordance with paragraph (f) hereof.

(f) Within 90 days after receipt of any list or notice under paragraph (c) or (d) hereof, or such further period as may be agreed upon by the parties, the Contracting Officer shall furnish to the Contractor: (i) a list specifying the particular products, parts, or services for which the Government may require special tooling, together with a request that the Contractor transfer title (to the extent not previously transferred under any other clause of this contract) and deliver to the Government all usable items of special tooling which were used or designed for the manufacture or performance of any designated portion of such products, parts, or services, and which were on hand when production of such products or parts, or performance of such services, ceased; or (ii) an acceptance or rejection of any offer made by the Contractor under paragraph (e) above, or a request for further negotiation with respect thereto; or (iii) subject to the provisions of paragraph (j) hereof, a direction to the Contractor to sell, or to dispose of as scrap, for the account of the Government, any or all of the special tooling covered by such list; or (iv) a statement with respect to any or all of the special tooling covered by such list that the Government has no further interest therein and waives its rights therein; or (v) any combination of the foregoing, as the circumstances warrant. The Contractor shall promptly comply with any request by the Contracting Officer under this paragraph to transfer title to any items of special tooling, and shall, subject to the provisions of paragraph (j) hereof, (1) immediately prepare such items for shipment by proper packaging, packing, and marking, in accordance with any instructions which may be issued by the Contracting Officer, and shall promptly deliver such items to the Government, as directed by the Contracting Officer, or (2) if a storage agreement has been entered into, prepare such items for storage in accordance therewith, as directed by the Contracting Officer. Any items of special tooling so delivered or stored shall be accompanied by such operation sheets or other appropriate data as are necessary to show the manufacturing operations or processes for which such items were used or designed. If the Contracting Officer has requested further negotiations under (ii) of this paragraph, the Contractor agrees that it will enter into such negotiations in good faith with the Contracting Officer. Any items of special tooling which are not disposed of by transfer of title and delivery to the Government, or by acceptance of an offer of the Contractor made under paragraph (e), or of such offer as modified in the course of negotiations, shall be disposed of in the manner set forth in (iii) or (iv) of this paragraph.

(g) If the Contracting Officer accepts an offer of the Contractor to retain any items of special tooling, or if any such items are sold to third parties or disposed of as scrap, the net proceeds shall: (i) be deducted from the amounts due to the Contractor under this contract and the contract amended accordingly; or (ii) be otherwise paid as the Contracting Officer may direct.

(h) The Contractor agrees that it will follow its normal industrial practice in maintaining property control records on all the special tooling, and that it will make such records available for inspection by the Government at all reasonable times. The Contractor further agrees that, to the extent practicable, it will identify by appropriate stamp, tag or other mark all special tooling subject to this clause.

(i) The Contractor agrees that between the date any usable items of special tooling are no longer needed by it, within the meaning of this clause, and the date of final disposition of such items under this clause, it will take all reasonable steps necessary to maintain the identity and existing conditions of such items, unless the Contracting Officer has directed that such items be disposed of as scrap or has given notice under (f) (iii). The Contractor shall not be required to keep any such items in place.

(j) Any preparation of items for shipment required of the Contractor under paragraph (f) of this clause, or any disposal as scrap under paragraph (f) (iii), or any action required of the Contractor under paragraph (i), shall be taken pursuant to written instructions of the Contracting Officer, which shall (i) provide for an equitable adjustment of the contract price to cover any additional cost, to the Contractor, not taken into account in the negotiation of this contract, of complying with such instructions, which adjustment shall be made in accordance with the procedure set forth in the clause of this contract entitled "Changes," or (ii) otherwise provide for payment to the Contractor of any such additional cost. Any failure of the Contracting Officer to issue the Contractor specific disposition instructions shall be construed as an instruction to the Contractor to take the action required under paragraph (i) with provision for equitable adjustment or payment as provided for above.

[1] This subparagraph may be omitted where it is clearly inapplicable.

The following paragraph relating to subcontracts shall be used in cases where the Contracting Officer deems the use of such paragraph to be necessary in order to protect the Government's interest in special tooling which may be acquired under such subcontracts:

(k) The Contractor agrees that, in placing any subcontracts or purchase orders under this contract which involve the use of special tooling, the full cost of which is charged to such subcontract or purchase order, it will include therein appropriate provisions to obtain rights comparable to those granted to the Government by this clause, and agrees that it will exercise such rights for the benefit of the Government, as the Contracting Officer may direct.

In appropriate cases, the following alternative clause, relating to subcontracts may be used:

(k) The Contractor agrees that, in placing any subcontracts or purchase orders under this contract which involve the use of special tooling, the full cost of which is charged to such subcontract or purchase order, it will to the extent consistent with its normal business practice include appropriate provisions therein to obtain rights comparable to those granted to the Government by this clause, and agrees that it will exercise such rights for the benefit of the Government, as the Contracting Officer may direct.

§ 13.505 Government-furnished property clause for fixed-price type contracts with non-profit institutions.

The following clause shall be used in fixed-price research and development contracts with non-profit institutions (provided such contracts are executed on a non-profit basis) under which a Department is to furnish property to the contractor:

GOVERNMENT-FURNISHED PROPERTY (OCT. 1959)

(a) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described in the Schedule or specifications, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (hereinafter referred to as "Government-furnished Property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished Property suitable for use will be delivered to the Contractor at the times stated in the Schedule, or, if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished Property is not delivered to the Contractor by such time or times, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor thereby, and shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provision affected by the delay. In the event that Government-furnished Property is received by the Contractor in a condition not suitable for its intended use, the Contractor shall, upon receipt thereof, notify the Contracting Officer of such fact and, as directed by the Contracting Officer, either (i) return such property at the Government's expense or otherwise dispose of such property, or (ii) effect repairs or modifications. Upon completion of (i) or (ii) above, the Contracting Officer upon timely written request of the Contractor shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provision effected by the return, disposition, repair or modification. The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government-furnished Property or delivery of such property in a condition not suitable for its intended use.

(b) By notice in writing the Contracting Officer may decrease the property furnished or to be furnished by the Government under this contract. In any such case, the Contracting Officer upon timely written request of the Contractor shall equitably adjust the delivery or performance dates or the contract price, or both, and any other contractual provisions affected by the decrease.

(c) Title to the Government-furnished property shall remain in the Government. Title to Government-furnished property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government-furnished property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

In accordance with § 13.802, the following alternative paragraph (c) may be used in contracts for basic or applied research:

(c) Title to Government-furnished property shall remain in the Government, except for that equipment the title to which is transferred to the Contractor pursuant to this paragraph. The Contracting Officer may at any time during the term of this contract, or upon completion or termination, transfer title to equipment to the Contractor upon such terms and conditions as may be agreed upon: *Provided*, That, the Contractor shall not under any Government contract, or subcontract thereunder, charge for any depreciation, amortization, or use of such equipment as is donated under this paragraph. Upon the transfer of title to equipment under this paragraph, such equipment shall cease to be Government-furnished property. Title to Government-furnished property, not otherwise transferred to the Contractor, shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government-furnished property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(d) The Government-furnished Property shall, unless otherwise provided herein, and except as may be otherwise approved by the Contracting Officer, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer, in accordance with sound business practice, a program for the maintenance, repair, protection and preservation of Government-furnished Property, until disposed of by the Contractor in accordance with this clause. In the event that any damage occurs to Government-furnished Property the risk of which has been assumed by the Government under this contract, the Government shall replace such items or the Contractor shall make such repair of the property as the Government directs; provided, however, that if the Contractor cannot effect such repair within the time required, the Contractor may reject such property. The contract price includes no compensation to the Contractor for the performance of any repair or replacement for which the Government is responsible, and an equitable adjustment will be made in the contract price for any such repair or replacement of Government-furnished Property made at the direction of the Government. Any repair or replacement for which the Contractor is responsible under the provisions of this contract shall be accomplished by the Contractor at its own expense.

(f) The provisions of Part III, Appendix C, Armed Services Procurement Regulation, Manual for Control of Government Property in possession of Non-Profit Research and Development Contractors, as in effect on the date of this contract are hereby incorporated by reference and made a part of the contract, insofar as they relate to Government-furnished Property. The Contractor agrees to comply with the provisions thereof relating to the keeping of property control records, identification and marking, segregation and commingling, taking of inventories, and control of salvage and scrap, and the Contractor also accepts the responsibilities set forth in said Part III with respect to Government-furnished Property.

(g) The Contractor agrees to make available to authorized representatives of the Contracting Officer at all reasonable times at the office of the Contractor all of its property records under this contract, and access to any premises where any of the Government-furnished Property is located.

(h) (i) The Contractor shall not be liable for any loss of or damage to the Government-furnished Property, or for expenses incidental to such loss or damage except that the Contractor shall be liable for any such loss or damage (including expenses incidental thereto):

(A) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives who have supervision or direction of all or substantially all of the Contractor's business, or all or substantially all of the Contractor's operations at any one plant, laboratory, or separate location in which this contract is being performed; or

(B) Which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (A) above, to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection and preservation of Government-furnished Property as required by subparagraph (e) above; or

(C) For which the Contractor is otherwise responsible under the express terms of the clause or clauses designated in the Schedule; or

(D) Which results from a risk expressly required to be insured under some other provision of this contract, or of the schedules or task orders thereunder, but only to the extent of the insurance so required to be procured and maintained or to the extent of insurance actually procured and maintained, whichever is greater; or

(E) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

Provided, That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(ii) The Contractor represents that it is not including in the price hereunder, and agrees that it will not hereafter include in any price to the Government, any charge or reserve for insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to the Government-furnished Property, except to the extent that the risk of loss is imposed on the Contractor under (i) (C) above, or insurance has been required under (i) (D) above.

(iii) Upon the happening of loss or destruction of or damage to any Government-furnished Property, the Contractor shall notify the Contracting Officer thereof and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has directed that no such organization be employed) shall take all reasonable steps to protect the Government-furnished Property from further damage, separate the damaged and undamaged Government-furnished Property, put all the Government-furnished Property in the best possible order, and furnish to the Contracting Officer a statement of:

(A) The lost, destroyed and damaged Government-furnished Property;

(B) The time and origin of the loss, destruction or damage;

(C) All known interests in commingled property of which the Government-furnished Property is a part; and

(D) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall be reimbursed for the expenditures made by it in performing its obligations under this subparagraph (iii) (including charges made to the Contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed directly), to the extent approved by the Contracting Officer and set forth in a Supplemental Agreement or amendment to this contract.

(iv) With the approval of the Contracting Officer after loss or destruction of or damage to Government-furnished Property, and subject to such conditions and limitations as may be imposed by the Contracting Officer, the Contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of Government-furnished Property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the Contractor, that separation is impracticable.

(v) Except to the extent of any loss or destruction of or damage to Government-furnished Property for which the Contractor is relieved of liability under the foregoing provisions of this clause, and except for reasonable wear and tear or depreciation, or the utilization of the Government-furnished Property in accordance with the provisions of this Contract, the Government-furnished Property (other than property permitted to be sold) shall be returned to the Government in as good condition as when received by the Contractor in connection with this contract, or as repaired under paragraph (e) above.

(vi) In the event the Contractor is reimbursed or compensated for any loss or destruction of or damage to the Government-furnished Property, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(vii) (Where applicable). In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government-furnished Property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms applicable.

(i) Upon completion or expiration of this contract, any Government property which has not been consumed in the performance of this contract, or which has not been disposed of as hereinafter provided in subparagraph (i) of this article, or for which the Contractor has not otherwise been relieved of responsibility, shall be disposed of in the same manner, and subject to the same procedures, as is provided in subparagraph (g) of the clause of this contract entitled "Termination for the Convenience of the Government" with respect to termination inventory. The proceeds of any such disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract, or shall otherwise be credited to the price or costs of the work covered by this contract, or shall be paid in such other manner as the Contracting Officer may direct. Pending final disposition of such property, the Contractor agrees to take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation thereof.

(j) If the Contracting Officer determines that the interests of the Government require removal of any Government-furnished Property, or if the Contractor determines any Government-furnished Property to be in excess of its needs under this contract, such Government-furnished Property shall be disposed of in the same manner as covered by paragraph (i) above. In the event that the Contracting Officer requires the removal of any Government-furnished Property under this subparagraph (j) or subparagraph (i) above, upon timely written request of the Contractor, an equitable adjustment shall be made in the contract price to cover the direct cost to the Contractor of such removal and of any property damage occasioned thereby.

§ 13.506 Government property clauses for cost-reimbursement type research and development contracts with non-profit institutions.

The following clause shall be used in cost-reimbursement type research and development contracts with non-profit institutions (provided such contracts are executed on a no-fee basis) under which a Department is to furnish Government property to the contractor, or the contractor is to acquire property for the account of the Government:

GOVERNMENT PROPERTY (OCT. 1959)

(a) The Government shall deliver to the Contractor, for use, in connection with and under the terms of this contract, the property described in this contract, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (hereinafter referred to as "Government-furnished Property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished Property suitable for use will be delivered to the Contractor at the times stated in the Schedule of this contract or, if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished Property is not delivered to the Contractor by such time or times, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor and shall equitably adjust the estimated cost, or delivery or performance dates, or both, and any other contractual provisions affected by such delay. In the event that the Government-furnished Property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, upon receipt thereof, notify the Contracting Officer of such fact and, as directed by the Contracting Officer, either (i) return such property at the Government's expense or otherwise dispose of such property, or (ii) effect repairs or modifications. Upon completion of (i) or (ii) above, the Contracting Officer upon timely written request of the Contractor shall equitably adjust the estimated cost, or delivery or performance dates, or both, and any other contractual provision affected by the return, disposition, repair or modification. The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government-furnished Property or delivery of such property in a condition not suitable for its intended use.

(b) The Government may deliver to the Contractor Government-furnished Property in addition to that set forth in this contract. Upon such delivery this contract may be amended, if appropriate, to accomplish an equitable adjustment in its terms and provisions.

(c) Title to all property furnished by the Government shall remain in the Government.

Title to all property purchased by the Contractor, for the cost of which the Contractor is to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is to be reimbursed to the Contractor under this contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, whichever first occurs. All Government-furnished property, together with all property acquired by the Contractor, title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government property."

In accordance with § 13.802, the following additional language may be added to paragraph (c) in contracts for basic or applied research :

Notwithstanding the provisions of this paragraph (c) relative to title, the Contracting Officer may at any time during the term of this contract, or upon completion or termination, transfer title to equipment to the Contractor upon such terms and conditions as may be agreed upon: *Provided,* That the Contractor shall not under any Government contract, or subcontract thereunder, charge for any depreciation, amortization or use of such equipment as is donated under this paragraph. Upon the transfer of title to equipment under this paragraph, such equipment shall cease to be Government property.

(d) Title to the Government Property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government Property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(e) The Government Property provided or furnished pursuant to the terms of this contract shall, unless otherwise provided herein and except as may be otherwise approved by the Contracting Officer, be used only for the performance of this contract.

(f) The Contractor shall maintain and administer in accordance with sound business practice a program for the maintenance, repair, protection and preservation of Government Property so as to assure its full availability and usefulness for the performance of this contract. The Contractor shall take all reasonable steps to comply with all appropriate directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection of the Government Property.

(g) The provisions of Part III, Appendix C, Armed Services Procurement Regulation, Manual for Control of Government Property in Possession of Non-Profit Research and Development Contractors, as in effect on the date of this contract, are herein incorporated by reference and made a part of this contract. The Contractor agrees to comply with the provisions thereof relating to the keeping of property control records, identification and marking, segregation and commingling, taking of inventories, and control of salvage and scrap, and the Contractor also accepts the responsibilities set forth in said Part III with respect to Government Property.

(h) The Contractor agrees to make available to authorized representatives of the Contracting Officer at all reasonable times at the office of the Contractor all of its property records under this contract, and access to any premises where any of the Government Property is located.

(i) (1) The Contractor shall not be liable for any loss of or damage to the Government Property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(i) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who has supervision or direction of all or substantially all of the Contractor's business, or all or substantially all of the Contractor's operations at any one plant, laboratory, or separate location in which this contract is being performed;

(ii) Which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in (i) above, (A) to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection and preservation of Government Property as required by (f) above, or (B) to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under (f) above;

(iii) For which the Contractor is otherwise responsible under the express terms of the clause or clauses designated in the schedule;

(iv) Which results from a risk expressly required to be insured under some other provision of this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement: *Provided,* That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(2) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the Government Property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(3) Upon the happening of loss or destruction of or damage to the Government Property, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has designated that no such organization be employed), shall take all reasonable steps to protect the Government Property from further damage, separate the damaged and undamaged Government Property, put all the Government Property in the best possible order, and furnish to the Contracting Officer a statement of:

(i) The lost, destroyed and damaged Government Property;

(ii) The time and origin of the loss, destruction or damage;

(iii) All known interests in commingled property of which the Government Property is a part; and

(iv) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government Property or take such other action as the Contracting Officer directs.

(4) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(5) (Where applicable.) In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government Property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(j) The Government Property shall remain in the possession of the Contractor for such period of time as is required for the performance of this contract unless the Contracting Officer determines that the interests of the Government require removal of such property. In such case the Contractor shall promptly take such action as the Contracting Officer may direct with respect to the removal and shipping of Government Property. In any such instance, this contract may be amended to accomplish an equitable adjustment in its terms and provisions.

(k) Upon completion or expiration of this contract, any Government Property which has not been consumed in the performance of this contract, or which has not been disposed of as hereinafter provided in subparagraph (i) of this clause, or for which the Contractor has not otherwise been relieved of responsibility, shall be disposed of in the same manner, and subject to the same procedures, as is provided in subparagraph (g) of the clause of this contract entitled "Termination for the Convenience of the Government" with respect to termination inventory. The proceeds of any such disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract, or shall otherwise be credited to the cost of the work covered by this contract, or shall be paid in such other manner as the Contracting Officer may direct. Pending final disposition of such property, the Contractor agrees to take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation thereof.

(l) If the Contracting Officer determines that the interests of the Government require removal of any Government Property, or if the Contractor determines any Government Property to be in excess of its needs under this contract, such Government Property shall be disposed of in the same manner as provided by subparagraph (k) above. In the event that the Contracting Officer requires the removal of any Government Property under this subparagraph (l) or subparagraph (k) above, the direct cost to the Contractor of such removal and of any property damage occasioned thereby shall constitute an allowable cost thereunder.

(m) Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's plant or any portion thereof which is affected by the removal of any Government Property.

(n) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this clause shall be in writing.

Subpart F—Use of Government Owned Industrial Facilities on Work Other Than for a Military Department

§ 13.600 Scope of subpart.

The preceding subparts of this part are intended to be applicable only to those situations in which Government property is provided to contractors or subcontractors of any tier, for use in connection with procurement by the military departments. This subpart relates to making available to contractors, former contractors, or other parties, Government-owned industrial facilities under the control of a military department for use solely or principally on work other than for a military department. (As to making industrial facilities available principally for use in connection with procurement by the military departments, and incidentally for use on work other than for a military department, see § 13.407.) The question of making industrial facilities available for use on work other than for a military department may arise with respect to such property in the possession of the Government (e.g., machine tools in reserve storage) or in the possession of the potential user (e.g., where a contractor has completed the contract under which the property was originally provided). Basic authority to permit the use of Government property on work other than for a military department is found in statutes authorizing the Secretaries to lease property under their control (see 10 U.S.C. 2667 and 50 U.S.C. App. 1173).

§ 13.601 Rental.

§ 13.601–1 General.

Whenever industrial facilities are made available for use on work other than for an agency of the Department of Defense, the user shall be charged a fair and reasonable rental: *Provided*, That under Departmental procedures consistent with § 13.407 (a) rental may be waived with regard to such property furnished solely for use in performing work for Government agencies. Such rental, unless otherwise specified herein, shall be established on the basis of sound commercial practice, including any prevailing commercial rates. Except as otherwise provided in § 13.601–2, such rental may, where permitted by the law under which the contract or agreement is executed, take into consideration obligations assumed by the user to protect and maintain the property as well as to perform other services as all or part of the consideration for the contract or agreement. The rental shall, in any event, be such as to prevent the user from obtaining an unfair competitive advantage by reason thereof over competitors who own their facilities or obtain them from private sources. The rental shall be charged on the basis of the time during which the property is available for use rather than on the basis of the time during which the property is actually used, except in the case of facilities, other than those covered by § 13.601–2, where it is determined by the Secretary concerned, or his representative duly authorized to approve the contract or agreement by which the property is made available, to be impracticable or contrary to the best interest of the Government. The Government shall make no warranty, express or implied, regarding the conditions or fitness for use of any item of property.

§ 13.601–2 Rental rates.

Except as provided in § 13.601–3, rental charged for industrial facilities shall conform to the following rates.

(a) As to production equipment of the types listed in § 13.603, rent shall be at the appropriate rate set forth below regardless of the extent and value of any obligations undertaken by the user to provide maintenance or other services.

Age of equipment	*Monthly rental rate*
0 to 2 years	1¾% of acquisition cost.
Over 2 to 6 years	1½% of acquisition cost.
Over 6 to 10 years	1% of acquisition cost.
Over 10 years	¾% of acquisition cost.

The acquisition cost to be used in determining rental shall be the purchase price of the equipment charged the Government plus costs of transportation to, and installation in, the place where the equipment will be used under the contract or agreement, if such costs are borne by the Government. Transportation and installation costs may be estimated by the contracting officer where the actual costs are not known. When special tooling or accessories are rented with the equipment, equipment acquisition cost shall be increased to include the price charged the Government for such tooling or accessories. When equipment is modernized by substantial rebuilding at Government expense so as to enhance the original capability of the tool, the acquisition cost of the equipment shall be adjusted upward properly to take account of the increased value that such rebuilding and modernization represents. If the purchase price is not available or cannot be obtained from the manufacturer of the equipment, the Department concerned shall obtain an estimated purchase price from the Office of the Assistant Secretary of Defense (Supply and Logistics). On January 1 following the date of manufacture of each item of equipment, such item shall be considered one year old, and on each succeeding January 1 it shall become one year older; and contracts or agreements shall so provide. For example, if an item of equipment is manufactured on July 15, 1958, it will be considered to be one year old on January 1, 1959, two years old on January 1, 1960, three years old on January 1, 1961, etc. The item of equipment will be considered "over two years" old on and after January 1, 1960, "over six years" old on and after January 1, 1964, and "over ten years" old on and after January 1, 1968.

(b) As to personal property and equipment constituting industrial facilities other than production equipment covered in paragraph (a) of this section, and with respect to which there are not prevailing commercial rates, a rent at the rate of not less than 1 percent per month of the original acquisition cost of such property or equipment shall be charged.

(c) Charges to be made under the provisions of paragraphs (a) and (b) of this section shall conform to the following. For any period in which use of personal property and equipment constituting industrial facilities is authorized, the contractor, regardless of the character and extent of his use of the facilities, shall be charged a full month's rental for each month or fraction thereof, computed in accordance with the above rates, reduced by the amount of rental which would be properly allocable to Government contracts and subcontracts on which use of the facilities without charge has been authorized. The portion of the rental charge properly allocable to such Government contracts and subcontracts may be determined either prospectively or retroactively, as provided in the facilities contract, and shall be computed by multiplying the full rental for the period by a fraction whose numerator is the amount of use of the facilities by the contractor on a no charge basis and whose denominator is the total amount of use of the facilities both on a rental and no charge basis. For purposes of the above formula, amounts of use may be determined on the basis of direct labor hours, sales, hours of use, or any other method which the contracting officer determines will result in an equitable apportionment of the rental charge.

(d) As to real property constituting industrial facilities a fair and reasonable rent shall be charged.

Except to the extent otherwise permitted by Departmental procedures in the case of property covered by paragraph (b) of this section, the contract or agreement under which property covered by this section is made available shall require the user to protect, preserve, maintain, and repair the property in accordance with sound industrial practice without cost to the Government under such contract or agreement.

§ 13.601–3 Exceptions.

The requirements of § 13.601–2 shall not be applicable:

(a) In the case of industrial facilities involved in leases of wholly-owned Government facilities operated by private contractors on a fee basis;

(b) To non-defense leases of complete industrial facilities (including land, buildings, and equipment) which have been approved by the Congressional Committees on Armed Services in accordance with 10 U. S. C. 2662 where the total acquisition costs of the included production equipment of the classes listed in § 13.603 is less than 10 percent of acquisition costs of the entire facility. In each such instance, however, a report giving pertinent details shall be submitted to the Assistant Secretary of Defense (Supply and Logistics). It will include the names of the facility and the lessor, the total amount of rental or other fees paid to the Government, the planned use of the facility, a list of the production equipment (of the types covered by § 13.603) including the date of manufacture and acquisition cost of each item, the period of non-defense use, and such other data as is considered significant.

(c) To items of production equipment which are such that the size, complexity, or performance characteristics present unusual problems reflected in the time required in connection with preparing for shipment, shipping from storage or supply point, installing, and making ready for operation: *Provided*, The Office of Defense and Civilian Mobilization has approved the over-all program involving such equipment.

(d) To personal property and equipment which is a part of industrial facilities left in place or installed in a contractor's plant for mobilization, emergency, or future production purposes of the Government: *Provided*, That the requirements of § 13.601–2 shall apply to so much of such personal property of equipment, or of its capacity, as is used or authorized for use at any one time.

(e) As otherwise excepted by the Office of Defense and Civilian Mobilization.

§ 13.602 Term of use.

(a) Leases of industrial facilities shall be for a specific term which shall not exceed the period of time expected to be required to fulfill the purpose for which the facilities are made available.

(b) With respect to equipment leases, the lessee shall not be granted, by an option or otherwise, the unilateral right to extend the period of use.

§ 13.603 Production equipment.

The production equipment to which the provisions of § 13.601–2 shall be applicable are:

Production equipment code No.	*Description*
3411–341999	Machine tools.
3441–34490	Secondary metal forming and cutting machines.
34510–34519	Electric arc welding machines.
34520–3452129 345220–34529	Electric resistance welding machines.
345330–345339	Gas (flame) cutting machines—excluding hand torches.
357211–357219	Metal heat treating furnaces—Box type.
357221–3572249	Metal heat treating furnaces—Bath type.
357231–357239	Metal heat treating furnaces—Basket type.
357241–3572439	Metal heat treating furnaces—Bell type.
357261–357269	Metal heat treating furnaces—Pit type.
357271–357279	Metal heat treating furnaces—Pot type.
3572841–3572849	Induction heating devices.
54160000	Transformers, power, uninstalled, 501 kva and above, 50 and 60 cycle only.
5561–556159	Powered trucks, industrial.
5563–5563994	Tractors, industrial.
5564–556420162	Trailers for industrial tractors.
563908	Profilometers.
563914	Magnetic particle inspection machines.
5651–56519	Hardness testing machines.
5653–56539	Pressure testing machines.
5656–5656323	Balancing machines.
56572–565729	Gear measuring and treating machines.
56573–565739	Hob, worn and cutter measuring machines.
565742	Surface finish measuring machines.

Subpart G—Use of Government-Owned Industrial Facilities and Special Tooling on Work for Foreign Governments

§ 13.700 Scope of subpart.

This subpart covers use by contractors of Government-owned industrial facilities and special tooling on work for a foreign government.

§ 13.701 Use without charge.

Upon the request of a foreign government, industrial facilities and special tooling located within the United States, its Territories, its possessions, or Puerto Rico, may be authorized for use, without charge, on contracts of the foreign government or subcontracts thereunder, if:

(a) Such use is approved by the Secretary or his designee;

(b) The foreign government would be authorized to place the contract with the Department concerned under the Mutual Security Act of 1954 as amended, or such use is legally authorized by an agreement with the foreign government;

(c) The foreign government's placing of the contract directly with the contractor is consistent with the best interests of the United States;

(d) Such use will not interfere with foreseeable United States requirements;

(e) Such use does not place the user in a favored competitive position; and

(f) The contractor agrees that no charge for the use of the facilities or tooling shall be included in the price charged the foreign government under the contract.

Subpart H—Transfer of Title to Equipment to Nonprofit Education or Research Institutions

§ 13.800 Scope of subpart.

This subpart implements P.L. 85–934, section 2 which gives the Department of Defense discretionary authority to vest in nonprofit institutions of higher education or nonprofit organizations whose primary purpose is the conduct of scientific research, without further obligation to the Government or on such other terms and conditions as may be appropriate, title to equipment purchased with funds available for grants or contracts for the conduct of basic or applied research.

§ 13.801 Purpose of the legislation.

The general purpose of the legislation implemented by this subpart is to facilitate the scientific research performed under contract for the Government by the nonprofit institutions and organizations described in § 13.800. It is intended to permit the elimination of the record-keeping required when the Government retains title to equipment furnished or purchased under a research contract, in those cases where the cost of such record-keeping to the contractor or to the Government is out of proportion to the value of the equipment. It is further intended to reduce where desirable the time and labor involved in formally circulating through the Government long lists of highly specialized or minor items of equipment or in relocating major equipment when such relocation is impracticable or uneconomical and not required for other research programs of the Government. Finally, it is intended to provide a measure of administrative flexibility when, from the standpoint of increased research effectiveness and in the absence of other Departmental or Governmental requirements, it is desirable to transfer title to equipment to such research contractors.

§ 13.802 Transfer of title.

(a) Contracts with nonprofit institutions of higher education or nonprofit organizations whose primary purpose is the conduct of scientific research may provide, or may be amended to provide, that the contracting officer may transfer title to equipment to the contractor. In connection with any such contract which so provides, the contracting officer may vest in the contractor title to any equipment purchased at any time with funds which were available for grants or contracts for the conduct of basic or applied research, if not prohibited by controls governing the equipment involved, and if it is determined that such vesting is in furtherance of the objectives of the Department or agency concerned, and either—

(1) As to each item of equipment having an acquisition cost of $1,000 or less, that—

(i) Retention of title in the Government would create an administrative burden not warranted by the value of the equipment, or

(ii) The keeping of inventory and records by the contractor would become prohibitively complicated or expensive; or

(2) As to any item of equipment—

(i) That the item is of such nature that it would be impracticable or uneconomical to remove it from the contractor's possession, or

(ii) After a reasonable check by the contracting officer, commensurate with the value of the item involved, that there is no requirement within the Department of Defense for the item: *Provided*, That, if the acquisition cost of the item exceeds $25,000, the item shall be further screened in accordance with Departmental procedures.

(b) The vesting of title as provided in paragraph (a) of this section shall be accomplished following a written determination by the contracting officer that

the applicable criteria in paragraph (a) of this section have been met. With respect to items of equipment having an acquisition cost in excess of $1,000, such determination shall be subject to prior approval in accordance with Departmental procedures.

(c) Where title to equipment is vested pursuant to paragraph (a) of this section, the contractor shall be without further obligation to the Government with respect to such equipment, except that the contractor must agree, as a condition to taking title, that no charge will be made to the Government for any depreciation, amortization, or use charge with respect to such equipment under any existing or future Government contract.

§ 13.803 Contract clauses.

Where it is anticipated that title to equipment may be vested in the contractor in accordance with this Part, the alternate clause in § 13.505(c) shall be included in fixed-price research and development contracts and the alternate clauses in § 13.506 (c) and (d) will be inserted in cost-reimbursement research and development contracts.

PART 14—INSPECTION AND ACCEPTANCE

Sec.
14.000 Scope of part.

Subpart A—Inspection

14.100 Definitions.
14.100–1 Inspection.
14.100–2 Testing.
14.101 General.
14.102 Activities responsible for inspection.
14.103 Inspection interchange agreements.
14.104 Contractor responsibility.
14.105 Places of inspection.
14.105–1 General.
14.105–2 Inspection at source.
14.105–3 Inspection at destination.
14.106 Inspection of small purchases ($2,500 or less).
14.107 Rejection of nonconforming supplies or services.
14.108 Government inspection under subcontracts.
14.109 Inspection for foreign governments.

Subpart B—Acceptance

14.201 General.
14.202 Delivery under F.O.B. origin contracts.
14.203 Point of acceptance.
14.204 Responsibility for acceptance.
14.205 Acceptance of supplies or services not conforming with contract requirements.

AUTHORITY: §§ 14.000 to 14.205 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 14.000 Scope of part.

This part deals with inspection and acceptance under contracts for supplies (other than construction contracts or services).

Subpart A—Inspection

§ 14.100 Definitions.

§ 14.100–1 Inspection.

Inspection means the examination (including testing) of supplies and services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether the supplies and services conform to contract requirements, including all applicable drawings, specifications, and purchase descriptions.

§ 14.100–2 Testing.

Testing is an element of inspection and generally denotes the determination by technical means of the physical and chemical properties or elements of materials, supplies, or components thereof, involving not so much the element of personal judgment as the application of established scientific principles and procedures.

§ 14.101 General.

(a) Inspection on behalf of the Government shall be conducted in all cases prior to acceptance, except as permitted by § 14.204. Inspection shall be accomplished by or under the supervision of Government personnel. Except as otherwise provided in the contract, test requirements may be performed in the contractor's or subcontractor's laboratory or any other commercial laboratory acceptable to the Government. The contractor may be required under the terms of the contract to establish and maintain an acceptable inspection or quality control system to assure compliance with contract specifications with a minimum of Government inspection supervision. A manufacturer's certificate or other statement of quality or quantity may be considered in determining whether supplies or services are in conformity with the contract; but no provision of the contract shall preclude the Government from performing inspection.

(b) The type and extent of inspection needed depend on the particular procurement. For example, on items which would involve small losses in the event of defects and which would probably be replaced by suppliers without contest, inspection may consist only of checks for identity, quantity, and shipping damage.

§ 14.102 Activities responsible for inspection.

Inspection, or the arrangement therefor, is the responsibility of the contracting activity. Where a department or activity uses the inspection services of another department or activity, the department or activity performing such inspection has primary inspection cognizance and its inspection determinations are binding on the department or activity for which the inspection services are performed. In coordinated or interdepartmental procurements, where Government inspection is to be made at the source, it generally will be made by inspectors of the contracting agency; but this general rule does not alter inspection interchange agreements or preclude the use of inspections of another department or activity located at or servicing the contractor's plant. Where Government inspection at destination is required in coordinated or interdepartmental procurements, the requiring agency or activity may be requested to arrange for the inspection.

§ 14.103 Inspection interchange agreements.

By appropriate inspection interchange agreements, departments and activities shall provide for the use of inspection services of other departments or Government agencies to assure the most economical and effective inspection consistent with the best interest of the Government. Wherever there are multiple Government inspection assignments in a supplier's plant, each of the activities involved shall arrange for the interchange of inspection services, except that contracts involving special requirements may be exempted in accordance with policies established by the Department of Defense. Inspection interchange agreements should be designed to eliminate duplication, overlapping, or multiple assignments of Government inspection activities in any one plant. Departmental procedures generally should permit detailed inspection interchange agreements to be initiated and completed at the operating level. Inspection interchange agreements shall be in accordance with the following:

(a) When inspection is to be made by other military procuring activities or military departments, such inspection shall be performed without reimbursement except to the extent that reimbursement in kind is practicable;

(b) When inspection is to be made by or for other Government agencies, such inspection will be on a mutually acceptable basis; and

(c) All agreements shall include specific provisions for: (1) Use of the practices, records, and forms of the activity performing inspection, unless the use of others is mutually agreeable; (2) channels of communication; and (3) designation of source and delivery date of any Government inspection equipment to be supplied.

§ 14.104 Contractor responsibility.

The standard inspection clauses in Part 7 of this chapter require the contractor to maintain an inspection system acceptable to the Government and records of all inspection work performed by the contractor. The contractor's inspection system should be such as to provide reasonable assurance that the supplies subject to inspection will conform to contract requirements and should include any quality control procedures necessary to this end. Contracts for complex supplies shall include the Quality Control System clause in § 7.104–28 of this chapter. This clause specifically requires contractors to maintain a quality control system acceptable to the Government. In this regard the Contracting Officer, or his representatives, shall assure that the contractor maintains quality control measures for all manufacturing processes and documentation pertinent to quality, testing and inspection, fabrication, and delivery. Government inspection activities shall plan and conduct systematic evaluation and verification of suppliers' inspection systems, quality control systems, and supplies, for the purpose of obtaining the maximum assurance of quality consistent with efficient use of Government and contractor manpower and facilities. In any case, when Military or Federal specifications are used to establish requirements in the contract, the supplier shall be required to perform all examinations and tests called for by the specifications except those which the Government is expressly required to make.

§ 14.105 Places of inspection.

§ 14.105–1 General.

Each contract shall designate the place or places of inspection. Inspection of supplies and services shall be made at such times and places (including any stage at the period of manufacture, and including subcontractors' plants) as are necessary to determine that the supplies and services conform to contract requirements. Where the contract provides for inspection at source, shipment prior to inspection may be authorized if it is determined to be in the best interest of the Government. In such cases, to the extent appropriate, the contract should be modified prior to shipment with respect to (a) risk of loss in transit and (b) shipping and other expenses incurred in the event of rejection at destination.

§ 14.105–2 Inspection at source.

Supplies and services shall be inspected at source where:

(a) Inspection at any other point would require uneconomical disassembly or destructive testing;

(b) Considerable loss would result from the manufacture and shipment of unacceptable supplies or from the delay in making necessary corrections;

(c) Special instruments, gauges, or facilities required for inspection are available only at source;

(d) Inspection at any other point would destroy or require the replacement of costly special packing and packaging;

(e) Quality control and inspection are closely related to production methods;

(f) Supplies requiring technical inspection are destined for points of embarkation for oversea shipment; or

(g) Otherwise determined to be in the best interest of the Government.

§ 14.105–3 Inspection at destination.

Supplies and services shall be inspected at destination where:

(a) Deliveries of supplies purchased "off the shelf" are made from a point other than that of manufacture;

(b) Necessary testing equipment is located only at destination;

(c) Biologicals being purchased are processed under direct control of the National Institutes of Health or the Federal Food and Drug Administration;

(d) Perishable subsistence supplies are purchased within the United States, except that perishable subsistence supplies destined for oversea shipment will normally be inspected for condition and quantity at points of embarkation;

(e) Brand name items are purchased for authorized resale, except that where supplies are destined for direct overseas shipment, inspection (and acceptance) will be made by the contracting officer or the official charged with such responsibility on the basis of a tally sheet evidencing receipt of shipment signed by the port transportation officer or other designated official at the transshipment point; or

(f) Otherwise determined to be in the best interest of the Government.

§ 14.106 Inspection of small purchases ($2,500 or less).

(a) This section applies to all small purchases, including items described in Federal and Military specifications, and qualified products. In determining the type and extent of Government inspection to be required on small purchases, the smallness of possible losses and the likelihood of uncontested replacement of defective articles shall be considered.

(b) Generally, inspection of small purchases shall be at destination. Purchasers, users, and installers may be considered inspectors for small purchase inspection purposes.

(c) Unless detailed technical inspection is necessary, inspection shall consist of examination of (1) type and kind, (2) quantity, (3) damage, (4) operability, if readily determinable, and (5) packaging and marking, if applicable.

(d) Detailed technical inspection shall be performed if special specifications are involved or if defective supplies can harm personnel or equipment.

(e) Detailed technical inspection may be limited to a check of characteristics that require separate specifications and of those likely to cause harm. Such inspection may be limited to inspection of occasional purchases of the same item from the same manufacturing source when there is good reason to rely upon the integrity of the manufacturer because of known safeguards and a significant history of defect-free purchases.

(f) Adjustments for short shipments or defective supplies shall be requested from suppliers when recovery will benefit the Government.

§ 14.107 Rejection of nonconforming supplies or services.

Contractors ordinarily shall be given an opportunity to correct or replace nonconforming supplies or services if this can be done within the required delivery schedule. Unless the contract provides otherwise, such correction or replacement shall be without additional cost to the Government. Notices of rejection of nonconforming supplies or services need not be in writing unless (a) the supplies have been delivered to a point other than the contractor's plant, (b) the contractor persists in offering nonconforming supplies or services for acceptance, or (c) delivery or performance is overdue without excusable cause. The reasons for

rejection normally shall be stated, and the contractor may be given any suggestions that might help in eliminating the cause of rejection. If timely notice of rejection is not furnished to the contractor, acceptance may in certain cases be implied as a matter of law from such omission. Therefore, notices of rejection should be furnished promptly to contractors whenever rejection is intended.

§ 14.108 Government inspection under subcontracts.

Government inspection of subcontracted supplies shall be made only when required in the interest of the Government. The primary purpose of subcontract inspection is to assist the Government inspector at the prime contractor's plant in determining the conformance of supplies with contract requirements. It does not relieve the prime contractor of any of his responsibilities under the contract. Supplies that do not qualify under the criteria in § 14.105–2 for Government inspection at source shall not be inspected by the Government at the subcontractor's plant. Supplies for which certificates, records, reports, and similar evidence of quality are available at the prime contractor's plant shall not be Government inspected at the subcontractor's plant except occasionally to verify such evidence. However, Government inspection shall be performed at a subcontractor's plant whenever the Government contract requires. All oral and written statements and contract provisions relating to the inspection of subcontracted supplies shall be worded as not to (a) affect the contractual relationship between the prime contractor and the Government or between the prime contractor and the subcontractor, (b) establish a contractual relationship between the Government and the subcontractor or (c) constitute a waiver of the Government's right to inspect or reject supplies.

§ 14.109 Inspection for foreign governments.

Inspection will be performed only for friendly foreign governments or international agencies and shall be administered in accordance with the foreign policy and security objectives of the United States. Such inspection will be provided only where consistent with or required by legislation, executive orders, or Department of Defense or Departmental policies concerning mutual security programs, setting forth foreign policy and security objectives. When inspection is performed outside the United States, the levels of technical capability and the administrative procedures not already prescribed in existing laws, Executive Orders, or Department of Defense policies will be in accordance with arrangements suitable and acceptable to United States country teams or commanders of unified and special commands, as appropriate.

Subpart B—Acceptance

§ 14.201 General.

As used in Department of Defense contracts, "acceptance" generally means the act of an authorized representative of the Government by which the Government assents to ownership by it of existing and identified supplies, or approves specific services rendered, as partial or complete performance of the contract. Except as provided in § 14.205, and subject to other terms and conditions of the contract, the Government thereby acknowledges that the supplies or services are in conformity with contract requirements, including those of quality, quantity, packaging, and marking. Depending upon the provisions of the contract, acceptance may be effected prior to, at the time of, or after delivery. However, supplies and services shall not be accepted prior to inspection, except as permitted in § 14.204. Acceptance shall ordinarily be accomplished by execution of an acceptance certificate on the applicable inspection and receiving report form (for example, DD Form 250, DD Form 1155, or Standard Form 44). Where acceptance is accomplished at a point other than destination, supplies shall not be reinspected at destination for acceptance purposes.

§ 14.202 Delivery under F.O.B. origin contracts.

(a) Satisfactory evidence of delivery is required before payment other than progress or advance payments may be made under fixed-price supply contracts. Under contracts calling for deliveries F.O.B. origin, the contracting officer or his authorized representative, in certifying that delivery has been made, may in his discretion rely on the contractor's signed statement on his invoice that delivery has been made on a specified date to a named carrier or to a representative of the Government. When necessary to protect the Government's interest, the contracting officer may require either that the contractor furnish a receipted copy of the bill of lading or postal receipt, or that a representative of the Government certify as to actual delivery on the applicable inspection and receiving report form. Invoicing instructions to F.O.B. origin contractors shall require that the contractor state on all invoices (1) the date of shipment, name of carrier, and bill of lading number, or (2) the name and title of the Government representative to whom delivery was made and date of such delivery.

(b) Where payment has been made on the basis of a certificate, and the supplies have not been received at destination, prompt follow-up and remedial action will be initiated.

§ 14.203 Point of acceptance.

Each contract shall specify the point of acceptance. Contracts which provide for delivery F.O.B. destination shall provide for acceptance at destination whether inspection is to occur at destination or at origin. Contracts which provide for delivery F.O.B. origin shall ordinarily provide for acceptance (and inspection) at origin.

§ 14.204 Responsibility for acceptance.

(a) Acceptance is the responsibility of the contracting officer, or his authorized representative. Where an activity uses services of another activity or Department for the purpose of acceptance, acceptance by the other activity or Department is binding on the activity for which the services are performed.

(b) A supplier's certificate of conformance with requirements may be considered a proper element incident to acceptance of supplies or services. A contractor's certificate may be used for Government acceptance prior to inspection. At the discretion of the contracting officer, a clause may be inserted in contracts requiring the contractor to certify that supplies comply with contract requirements. Where acceptance precedes inspection, however, a clause will be used to reserve the Governments' right after acceptance to inspect the supplies within a reasonable time after delivery and to reject defective items. Certificates of conformance shall be required by the contract when the value of supplies or the condition of purchase, delivery, receipt, or use thereof make it desirable to have additional assurance that supplies conform to contract requirements.

§ 14.205 Acceptance of supplies or services not conforming with contract requirements.

When supplies or services tendered for acceptance do not conform with contract requirements, the applicable contract provisions shall govern the action to be taken. See § 14.107. For reasons of economy or the urgency of the requirement, acceptance of supplies or services which do not meet all contract requirements may occasionally be desirable. Prior to such acceptance, the contracting officer shall obtain the approval of the requiring activity where the nonconformity with contract requirements (a) affects matters such as safety, durability, performance, or interchangeability of parts or assemblies, (b) results in material increases in weight, where weight is a significant consideration, or (c) affects the basic objectives of the specifications. Acceptance of these types of nonconforming supplies or services shall be covered by an appropriate modification of the contract. Acceptance of other types of nonconforming supplies and services shall be covered by contract modification if determined necessary by the contracting officer.

PART 15—CONTRACT COST PRINCIPLES AND PROCEDURES

Sec.

15.000 Scope of part.

Subpart A—Applicability

15.101 Scope of subpart.
15.102 Cost-reimbursement supply and research contracts with concerns other than educational institutions.
15.103 Cost-reimbursement research contracts with educational institutions.
15.104 Cost-reimbursement construction contracts.
15.105 Cost-reimbursement facilities contracts.
15.106 Use of cost principles for fixed-price contracts.
15.107 Advance understandings on particular cost items.

Subpart B—Principles and Procedures for Use in Cost-Reimbursement Type Supply and Research Contracts With Commercial Organizations

15.201 Basic considerations.
15.201–1 Composition of total cost.
15.201–2 Factors affecting allowability of costs.
15.201–3 Definition of reasonableness.
15.201–4 Definition of allocability.
15.201–5 Credits.
15.202 Direct costs.
15.203 Indirect costs.
15.204 Application of principles and procedures.
15.205 Selected costs.
15.205–1 Advertising costs.
15.205–2 Bad debts.
15.205–3 Bidding costs.
15.205–4 Bonding costs.
15.205–5 Civil defense costs.
15.205–6 Compensation for personal services.
15.205–7 Contingencies.
15.205–8 Contributions and donations.
15.205–9 Depreciation.
15.205–10 Employee morale, health, and welfare costs and credits.
15.205–11 Entertainment costs.
15.205–12 Excess facility costs.
15.205–13 Fines and penalties.
15.205–14 Food service and dormitory costs and credits.
15.205–15 Fringe benefits.
15.205–16 Insurance and indemnification.
15.205–17 Interest and other financial costs.
15.205–18 Labor relations costs.
15.205–19 Losses on other contracts.
15.205–20 Maintenance and repair costs.
15.205–21 Manufacturing and production engineering costs.
15.205–22 Material costs.
15.205–23 Organization costs.
15.205–24 Other business expenses.
15.205–25 Overtime, extra-pay shift and multi-shift premiums.
15.205–26 Patent costs.
15.205–27 Pension plans.
15.205–28 Plant protection costs.
15.205–29 Plant reconversion costs.
15.205–30 Precontract costs.
15.205–31 Professional service costs; legal, accounting, engineering, and other.
15.205–32 Profits and losses on disposition of plant, equipment, or other capital assets.
15.205–33 Recruiting costs.
15.205–34 Rental costs (including sale and leaseback of facilities).
15.205–35 Research and development costs.
15.205–36 Royalties and other costs for use of patents.
15.205–37 Selling costs.
15.205–38 Service and warranty costs.
15.205–39 Severance pay.
15.205–40 Special tooling costs.
15.205–41 Taxes.
15.205–42 Termination costs.
15.205–43 Trade, business, technical and professional activity costs.
15.205–44 Training and educational costs.
15.205–45 Transportation costs.
15.205–46 Travel costs.

Subpart C—Research Contracts With Educational Institutions

15.301 General.
15.302 Definitions.
15.302–1 Research agreements.
15.302–2 Apportionment.
15.302–3 Allocation.
15.302–4 Sponsoring agency.
15.302–5 Original complement.
15.302–6 Other institutional activities.
15.303 Direct costs.
15.304 Indirect costs.
15.305 Applicable costs.
15.306 Determination of indirect costs.
15.306–1 General.
15.306–2 Apportionment.
15.306–3 Allocation.
15.306–4 Overhead determinations acceptable under special circumstances.
15.307 General standards for selected items of cost.
15.307–1 Purpose and applicability.
15.307–2 Costs applicable to instruction.
15.307–3 Allowable and unallowable costs.

Subpart D—Construction Contracts

15.401 Definition of construction contract.
15.402 General basis for determination of costs.
15.403 Examples of items of allowable costs.
15.404 Examples of items of unallowable costs.
15.405 Examples of subjects requiring special considerations.
15.406 Cost interpretation of pension and retirement plans.

Subpart E—[Reserved]

Subpart F—Guidelines for Application in the Negotiation and Administration of Fixed-Price Type Contracts and in the Negotiation of Termination Settlements

15.600 Scope of subpart.
15.601 Definition of fixed-price type contracts.
15.602 Basic considerations.
15.603 Cost principles and their use.

AUTHORITY: §§ 15.600 to 15.603 issued under R. S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 15.000 Scope of part.

This part contains general cost principles and procedures for the determination and allowance of costs in connection with the negotiation and administration of cost-reimbursement type contracts and contains guidelines for use, where appropriate, in the evaluation of costs in connection with certain negotiated fixed-price type contracts and contracts terminated for the convenience of the Government.

Subpart A—Applicability

§ 15.101 Scope of subpart.

This subpart describes the applicability of succeeding subparts of this part to the various types of contracts in connection with which cost principles and procedures are used.

§ 15.102 Cost-reimbursement supply and research contracts with concerns other than educational institutions.

This category includes all cost-reimbursement type contracts (§ 3.404 of this chapter) for supplies, services, or experimental, developmental, or research work (other than with educational institutions, as to which § 15.103 applies), except that it does not include facilities contracts (see § 15.105) or construction contracts (see § 15.104). The cost principles and procedures set forth in Subpart B of this part shall be incorporated by reference in cost-reimbursement supply and research contracts with other than educational institutions as the basis—

(a) For determination of reimbursable costs under such contracts, including cost-reimbursement type subcontracts thereunder, and the cost-reimbursement portion of time-and-materials contracts (§ 3.405–1 of this chapter);

(b) For the negotiation of overhead rates (Subpart G, Part 3 of this chapter); and

(c) For the determination of costs of terminated cost-reimbursement type contracts where the contractor elects to "voucher out" its costs (Subpart D, Part 8, of this chapter), and for settlement of such contracts by determination (§ 8.209–7 of this chapter).

§ 15.103 Cost-reimbursement research contracts with educational institutions.

This category includes all cost-reimbursement type contracts (§ 3.404 of this chapter) for experimental, developmental, or research work with educational institutions. The cost principles and procedures set forth in Subpart C of this part shall be incorporated by reference in cost-reimbursement research contracts with educational institutions as the basis—

(a) For determination of reimbursable costs under cost-reimbursement type contracts, including cost-reimbursement type subcontracts thereunder;

(b) For the negotiation of overhead rates (Subpart G, Part 3 of this chapter); and

(c) For the determination of costs of terminated cost-reimbursement type contracts where the contractor elects to "voucher out" its costs (Subpart D, Part 8, of this chapter), and for settlement of such contracts by determination (§ 8.209–7 of this chapter).

In addition, Subpart C of this part is to be used in determining the allowable costs of research and development performed by educational institutions under grants.

§ 15.104 Cost-reimbursement construction contracts.

This category includes all cost-reimbursement type contracts (§ 3.404 of this chapter) for the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property. It also includes cost-reimbursement type contracts for architect-engineer services related to such construction. It does not include contracts for vessels, aircraft, or other kinds of personal property. The cost principles and procedures set forth in Subpart D of this part, shall be incor-

porated by reference in cost-reimbursement construction contracts as the basis—

(a) For determination of reimbursable costs under cost-reimbursement type contracts, including cost-reimbursement type subcontracts thereunder;

(b) For the negotiation of overhead rates (Subpart G, Part 3, of this chapter); and

(c) For the determination of costs of terminated cost-reimbursement type contracts where the contractor elects to "voucher out" its costs (Subpart D, Part 8, of this chapter), and for settlement of such contracts by determination (§ 8.209–7 of this chapter).

§ 15.105 Cost-reimbursement facilities contracts.

[Reserved]

§ 15.106 Use of cost principles for fixed-price contracts.

Subpart F of this part provides guidance for the use of Subparts B, C and D of this part where appropriate, in the evaluation of costs in connection with the negotiation of certain fixed-price type contracts and termination settlements.

§ 15.107 Advance understandings on particular cost items.

The extent of allowability of the selected items of cost covered in Subparts B to E of this part has been stated to apply broadly to many accounting systems in varying contract situations. Thus, as to any given contract, the reasonableness and allocability of certain items of cost may be difficult to determine, particularly in connection with firms or separate divisions thereof which may not be subject to effective competitive restraints. In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that prospective contractors, particularly those whose work is predominantly or substantially with the Government, seek agreement with the Government in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such agreement may also be initiated by contracting officers individually, or jointly, for all defense work of the contractor, as appropriate. Any such agreement should be incorporated in cost-reimbursement type contracts, or made a part of the contract file in the case of negotiated fixed-price type contracts, and should govern the cost treatment covered thereby throughout the performance of the contract. But the absence of such an advance agreement on any element of cost will not, in itself, serve to make that element either allowable or unallowable. Examples of costs on which advance agreements may be particularly important:

(a) Compensation for personal services;

(b) Use charge for fully depreciated assets;

(c) Deferred maintenance costs;

(d) Pre-contract costs;

(e) Research and development costs;

(f) Royalties;

(g) Selling and distribution costs; and

(h) Travel costs, as related to special or mass personnel movement.

Subpart B—Principles and Procedures for Use in Cost-Reimbursement Type Supply and Research Contracts With Commercial Organizations

§ 15.201 Basic considerations.

§ 15.201–1 Composition of total cost.

The total cost of a contract is the sum of the allowable direct and indirect costs allocable to the contract, incurred or to be incurred, less any allocable credits. In ascertaining what constitutes costs, any generally accepted method of determining or estimating costs that is equitable under the circumstances may be used, including standard costs properly adjusted for applicable variances.

§ 15.201–2 Factors affecting allowability of costs.

Factors to be considered in determining the allowability of individual items of cost include (a) reasonableness, (b) allocability, (c) application of those generally accepted accounting principles and practices appropriate to the particular circumstances, and (d) any limitations or exclusions set forth in this subpart, or otherwise included in the contract as to types or amounts of cost items.

§ 15.201–3 Definition of reasonableness.

A cost is reasonable if, in its nature or amount, it does not exceed that which would be incured by an ordinarily prudent person in the conduct of competitive business. The question of the reasonableness of specific costs must be scrutinized with particular care in connection with firms or separate divisions thereof which may not be subject to effective competitive restraints. What is reasonable depends upon a variety of considerations and circumstances involving both the nature and amount of the cost in question. In determining the reasonableness of a given cost, consideration shall be given to:

(a) Whether the cost is of a type generally recognized as ordinary and necessary for the conduct of the contractor's business or the performance of the contract;

(b) The restraints or requirements imposed by such factors as generally accepted sound business practices, arm's length bargaining, Federal and State laws and regulations, and contract terms and specifications;

(c) The action that a prudent business man would take in the circumstances, considering his responsibilities to the owners of the business, his employees, his customers, the Government and the public at large; and

(d) Significant deviations from the established practices of the contractor which may unjustifiably increase the contract costs.

§ 15.201–4 Definition of allocability.

A cost is allocable if it is assignable or chargeable to a particular cost objective, such as a contract, product, product line, process, or class of customer or activity, in accordance with the relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government contract if it—

(a) Is incurred specifically for the contract;

(b) Benefits both the contract and other work, or both Government work and other work, and can be distributed to them in reasonable proportion to the benefits received; or

(c) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

§ 15.201–5 Credits.

The applicable portion of any income, rebate, allowance, and other credit relating to any allowable cost, received by or accruing to the contractor, shall be credited to the Government either as a cost reduction or by cash refund, as appropriate.

§ 15.202 Direct costs.

(a) A direct cost is any cost which can be identified specifically with a particular cost objective. Direct costs are not limited to items which are incorporated in the end product as material or labor. Costs identified specifically with the contract are direct costs of the contract and are to be charged directly thereto. Costs identified specifically with other work of the contractor are direct costs of that work and are not to be charged to the contract directly or indirectly. When items ordinarily chargeable as indirect costs are charged to Government work as direct costs, the cost of like items applicable to other work of the contractor must be eliminated from indirect costs allocated to Government work.

(b) This definition shall be applied to all items of cost of significant amount unless the contractor demonstrates that the application of any different current practice achieves substantially the same results. Direct cost items of minor amount may be distributed as indirect costs as provided in § 15.203.

§ 15.203 Indirect costs.

(a) An indirect cost is one which, because of its incurrence for common or joint objectives, is not readily subject to treatment as a direct cost. Minor direct cost items may be considered to be indirect costs for reasons of practicality. After direct costs have been determined and charged directly to the contract or other work as appropriate, indirect costs are those remaining to be allocated to the several classes of work.

(b) Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring the costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Commonly, manufacturing overhead, selling expenses, and general and administrative expenses are separately grouped. Similarly, the particular case may require subdivisions of these groupings, e.g., building occupancy costs might be separable from those of personnel administration within the manufacturing overhead group. The number and composition of the groupings should be governed by practical considerations and should be such as not to complicate unduly the allocation where substantially the same results are achieved through less precise methods.

(c) Each cost grouping shall be distributed to the appropriate cost objectives. This necessitates the selection of a distribution base common to all cost objectives to which the grouping is to be allocated. The base should be selected so as to permit allocation of the grouping on the basis of the benefits accruing to the several cost objectives. This principle for selection is not to be applied so rigidly as to complicate unduly the allocation where substantially the same results are achieved through less precise methods.

(d) The method of allocation of indirect costs must be based on the particular circumstances involved. The method shall be in accord with those generally accepted accounting principles which are applicable in the circumstances. The contractor's established practices, if in accord with such accounting principles, shall generally be acceptable. However, the methods used by the contractor may require re-examination when:

(1) Any substantial difference occurs between the cost patterns of work under the contract and other work of the contractor; or

(2) Any significant change occurs in the nature of the business, the extent of subcontracting, fixed asset improvement programs, the inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances.

(e) A base period for allocation of indirect costs is the period during which such costs are incurred and accumulated for distribution to work performed in that period. Normally, the base period will be the contractor's fiscal year; however, use of a shorter period may be appropriate in case of (1) contracts whose performance involves only a minor portion of the fiscal year, or (2) where it is general practice in the industry to use a shorter period. In any event the base period or periods shall be so selected as to avoid inequities in the allocation of costs. When the contract is performed over an extended period of time, as many such base periods will be used as will be required to represent the period of contract performance.

§ 15.204 Application of principles and procedures.

(a) Costs shall be allowed to the extent that they are reasonable (see § 15.201–3), allocable (see § 15.201–4), and determined to be allowable in view of the other factors set forth in §§ 15.201–2 and 15.205. These criteria apply to all of the selected items of cost which follow, notwithstanding that particular guidance is provided in connection with certain specific items for emphasis or clarity.

(b) Costs incurred as reimbursements to a subcontractor under a cost-reimbursement type subcontract of any tier above the first fixed-price subcontract are allowable to the extent that allowance is consistent with the subpart of this part which is appropriate to the subcontract involved. Thus, if the subcontract is for supplies, such costs are allowable to the extent that the subcontractor's costs would be allowable if this subpart were incorporated in the subcontract; if the subcontract is for construction, such costs are allowable to the extent that the subcontractor's costs would be allowable if Subpart D of this part were incorporated in the subcontract.

(c) Selected items of cost are treated in § 15.205. However, § 15.205 does not cover every element of cost and every situation that might arise in a particular case. Failure to treat any item of cost in § 15.205 is not intended to imply that it is either allowable or unallowable. With respect to all items, whether or not specifically covered, determination of allowability shall be based on the principles and standards set forth in this subpart and, where appropriate, the treatment of similar or related selected items.

§ 15.205 Selected costs.

§ 15.205–1 Advertising costs.

(a) Advertising costs mean the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, trade papers, outdoor advertising, dealer cards and window displays, conventions, exhibits, free goods and samples, and the like. The following advertising costs are allowable:

(1) Advertising in trade and technical journals: *Provided,* Such advertising does not offer specific products or services for sale but is placed in journals which are valuable for dissemination of technical information within the contractor's industry;

(2) Help-wanted advertising, as set forth in § 15.205–33, when considered in conjunction with all other recruitment costs;

(3) Costs of participation in exhibits—

(i) Upon invitation of the Government, or

(ii) Which exhibits are for the purpose of disseminating technical information within the contractor's industry; however, such costs are not allowable under this subdivision if the exhibit offers specific products or services for sale;

(4) Advertising for the exclusive purpose of obtaining scarce materials, plant, or equipment, or disposing of scrap or surplus materials, in connection with the contract.

(b) Except as provided above, all other advertising costs are unallowable.

§ 15.205–2 Bad debts.

Bad debts, including losses (whether actual or estimated) arising from uncollectible customers' accounts and other claims, related collection costs, and related legal costs, are unallowable.

§ 15.205–3 Bidding costs.

Bidding costs are the costs of preparing bids or proposals on potential Government and non-Government contracts or projects, including the development of engineering data and cost data necessary to support the contractor's bids or proposals. Bidding costs of the current accounting period of both successful and unsuccessful bids and proposals normally will be treated as allowable indirect costs, in which event no bidding costs of past accounting periods shall be allowable in the current period to the Government contract. However, if the contractor's established practice is to treat bidding costs by some other method, the results obtained may be accepted only if found to be reasonable and equitable.

§ 15.205–4 Bonding costs.

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor. They arise also in instances where the contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the contract are allowable.

(c) Costs of bonding required by the contractor in the general conduct of his business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

§ 15.205–5 Civil defense costs.

(a) Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire fighting training and equipment, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the contractor's premises pursuant to suggestions or requirements of civil defense authorities are allowable when allocated to all work of the contractor.

(b) Costs of capital assets under paragraph (a) of this section are allowable through depreciation in accordance with § 15.205–9.

(c) Contributions to local civil defense funds and projects are unallowable.

§ 15.205–6 Compensation for personal services.

(a) *General.* (1) Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor during the period of contract performance. It includes, but is not limited to, salaries, wages, directors' and executive committee members' fees, bonuses (including stock bonuses), incentive awards, employee stock options, employee insurance, fringe benefits, and contributions to pension, annuity, and management employee

incentive compensation plans. Except as otherwise specifically provided in this § 15.205–6, such costs are allowable to the extent that the total compensation of individual employees is reasonable for the services rendered and they are not in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder.

(2) Compensation is reasonable to the extent that the total amount paid or accrued is commensurate with compensation paid under the contractor's established policy and conforms generally to compensation paid by other firms of the same size, in the same industry, or in the same geographic area, for similar services. In the administration of this principle, it is recognized that not every compensation case need be subjected in detail to the above tests. Such tests need be applied only to those cases in which a general review reveals amounts or types of compensation which appear unreasonable or otherwise out of line. However, certain conditions give rise to the need for special consideration and possible limitation as to allowability for contract cost purposes where amounts appear excessive. Among such conditions are the following:

(i) Compensation to owners of closely held corporations, partners, sole proprietors, or members of the immediate families thereof, or to persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of profits.

(ii) Any change in a contractor's compensation policy resulting in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy.

(iii) The contractor's business is such that his compensation levels are not subject to the restraints normally occurring in the conduct of competitive business.

(3) Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits.

(4) In addition to the general requirements set forth in subparagraphs (1) through (3) of this paragraph, certain forms of compensation are subject to further requirements as specified in paragraphs (b) through (i) of this section.

(b) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, products, or services, and are allowable. However, premiums for overtime, extra-pay shifts, and multi-shift work are allowable to the extent approved pursuant to § 12.102–4 of this chapter or permitted pursuant to § 12.102–5 of this chapter.

(c) *Cash bonuses and incentive compensation.* Incentive compensation for management employees, cash bonuses, suggestion awards, safety awards, and incentive compensation based on production, cost reduction, or efficient performance, are allowable to the extent that the overall compensation is determined to be reasonable and such costs are paid or accrued pursuant to an agreement entered into in good faith between the contractor and the employees before the services were rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payment. (But see § 15.107.) Bonuses, awards, and incentive compensation when any of them are deferred are allowable to the extent provided in (f) below.

(d) *Bonuses and incentive compensation paid in stock.* Costs of bonuses and incentive compensation paid in the stock of the contractor or of an affiliate are allowable to the extent set forth in paragraph (c) of this section (including the incorporation of the principles of paragraph (f) of this section for deferred bonuses and incentive compensation), subject to the following additional requirements:

(1) Valuation placed on the stock transferred shall be the fair market value at the time of transfer, determined upon the most objective basis available; and

(2) Accruals for the cost of stock prior to the issuance of such stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive such stock and their interest in the accruals will be forfeited.

Such costs otherwise allowable are subject to adjustment according to the principles set forth in paragraph (f) (3) of this section. (But see § 15.107.)

(e) *Stock options.* The cost of options to employees to purchase stock of the contractor or of an affiliate is unallowable.

(f) *Deferred compensation.* (1) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals. It includes (i) contributions to pension, annuity, stock bonus, and profit sharing plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation, whether paid in cash or in stock.

(2) Deferred compensation is allowable to the extent that (i) except for past service pension and retirement costs, it is for services rendered during the contract period; (ii) it is, together with all other compensation paid to the employee, reasonable in amount; (iii) it is paid pursuant to an agreement entered into in good faith between the contractor and employees before the services are rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payments; and (iv) for a plan which is subject to approval by the Internal Revenue Service, it falls within the criteria and standards of the Internal Revenue Code and the regulations of the Internal Revenue Service. (But see § 15.107.)

(3) In determining the cost of deferred compensation allowable under the contract, appropriate adjustments shall be made for credits or gains, including those arising out of both normal and abnormal employee turnover, or any other contingencies that can result in a forfeiture by employees of such deferred compensation. Adjustments shall be made only for forfeitures which directly or indirectly inure to the benefit of the contractor; forfeitures which inure to the benefit of other employees covered by a deferred compensation plan with no reduction in the contractor's costs will not normally give rise to adjustment in contract costs. Adjustments for normal employee turnover shall be based on the contractor's experience and on foreseeable prospects, and shall be reflected in the amount of cost currently allowable. Such adjustments will be unnecessary to the extent that the contractor can demonstrate that its contributions take into account normal forfeitures. Adjustments for possible future abnormal forfeitures shall be effected according to the following rules:

(i) Abnormal forfeitures that are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation, shall be reflected by an adjustment of current costs otherwise allowable; and

(ii) Abnormal forfeitures, not within (i) above, may be made the subject of agreement between the Government and the contractor either as to an equitable adjustment or a method of determining such adjustment.

(4) In determining whether deferred compensation is for services rendered during the contract period or is for future services, consideration shall be given to conditions imposed upon eventual payment, such as, requirements of continued employment, consultation after retirement, and covenants not to compete.

(g) *Fringe benefits.* Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. Costs of fringe benefits, such as pay for vacations, holidays, sick leave, military leave, employee insurance, and supplemental employment benefit plans are allowable to the extent required by law, employer-employee agreement, or an established policy of the contractor.

(h) *Severance pay.* See § 15.205–39.

(i) *Training and education expenses.* See § 15.205–44.

§ 15.205–7 Contingencies.

(a) A contingency is a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at a present time.

(b) In historical costing, contingencies are not normally present since such costing deals with costs which have been incurred and recorded on the contractor's books. Accordingly, contingencies are generally unallowable for historical costing purposes. However, in some cases, as for example, terminations, a contingency factor may be recognized which is applicable to a past period to give recognition to minor unsettled factors in the interest of expeditious settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those which may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; *e.g.*, anticipated costs of rejects and defective work; in such situations where they exist, contingencies of this category are to be included in the estimates of future cost so as to provide the best estimate of performance costs; and

(2) Those which may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; *e.g.*, results of pending litigation, and other general business risks. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately, including the basis upon which the contingency is computed in order to facilitate the negotiation of appropriate contractual coverage (see, for example, §§ 15.205–16, 15.205–20, and 15.205–39).

§ 15.205–8 Contributions and donations.

Contributions and donations are unallowable.

§ 15.205–9 Depreciation.

(a) Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life has reference to the prospective period of economic usefulness in the particular contractor's operations as distinguished from physical life.

(b) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable element of contract cost: *Provided*, That the amount thereof is computed:

(1) Upon the property cost basis used by the contractor for Federal income tax purposes (see section 167 of the Internal Revenue Code of 1954); or

(2) In the case of nonprofit or tax-exempt organizations, upon a property cost basis which could have been used by the contractor for Federal income tax purposes, had such organizations been subject to the payment of income tax; and in either case

(3) By the consistent application to the assets concerned of any generally accepted accounting method, and subject to the limitations of the Internal Revenue Code of 1954, as amended, including—

(i) The straight line method;

(ii) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in subdivision (i) of this paragraph;

(iii) The sum of the years-digits method; and

(iv) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used had such allowances been computed under the method described in subdivision (ii) of this subparagraph.

(c) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives set forth in paragraph (a) of this section, vary with volume of production or use of multi-shift operations.

(d) In the case of emergency facilities covered by certificates of necessity a contractor may elect to use normal depreciation without requesting a determination of "true depreciation" or may elect to use either normal or "true depreciation" after a determination of "true depreciation" has been made by an Emergency Facilities Depreciation Board. The method elected must be followed consistently throughout the life of the emergency facility. Where an election is made to use normal depreciation, the amount thereof for both the emergency period and the post-emergency period shall be computed in accordance with paragraph (b) of this section. Where an election is made to use "true depreciation," the amount allowable as depreciation:

(1) With respect to the emergency period (5 years), shall be computed in accordance with the determination of the Emergency Facilities Depreciation Board and allocated rateably over the full five year emergency period; provided no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(2) After the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life (but see paragraph (e) of this section); provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered "true depreciation."

(e) Depreciation on idle or excess facilities shall not be allowed except on such facilities as are reasonably necessary for standby purposes.

(f) No depreciation, rental, or use charge shall be allowed on the contractor's assets which have been fully depreciated when a substantial portion of such depreciation was on a basis that represented, in effect, a recovery thereof as a charge against Government contracts or subcontracts. Otherwise, a reasonable use charge may be agreed upon and allowed. (But see § 15.107.) In determining this charge, consideration should be given to cost, total estimated useful life at time of negotiation, and effect of any increased maintenance charges or decreased efficiency due to age.

§ 15.205–10 Employee morale, health, and welfare costs and credits.

Reasonable costs of health and welfare activities, such as house publications, health or first-aid clinics, recreational activities, and employee counseling services, incurred, in accordance with the contractor's established practice or custom in the industry or area, for the improvement of working conditions, employer-employee relations, employee morale, and employee performance, are allowable. Income generated from any of these activities shall be credited to the costs thereof unless such income has been irrevocably set over to employee welfare organizations.

§ 15.205–11 Entertainment costs.

Costs of amusement, diversion, social activities and incidental costs relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable (but see §§ 15.205–10 and 15.205–43).

§ 15.205–12 Excess facility costs.

Costs of maintaining, repairing, and housing idle and excess contractor-owned facilities, except those reasonably necessary for standby purposes, are unallowable. Any costs of excess plant capacity reserved for defense mobilization production which are to be paid for by the Government should be the subject of a separate contract.

§ 15.205–13 Fines and penalties.

Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the contract, or instructions in writing from the contracting officer.

§ 15.205–14 Food service and dormitory costs and credits.

Food and dormitory services include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations or similar types of services for the contractor's employees at or near the contractor's facilities. Reasonable losses from the operation of such services are allowable if they are allocated to all activities served. Profits (except profits irrevocably set over to an employee welfare organization of the contractor in amounts reasonably useful for the benefit of the employees at the site or sites of contract performance) accruing to the contractor from the operation of these services, whether operated by the contractor or by a concessionaire, shall be treated as a credit, and allocated to all activities served.

§ 15.205–15 Fringe benefits.

(See § 15.205–6(g).)

§ 15.205–16 Insurance and indemnification.

(a) Insurance includes insurance which the contractor is required to carry, or which is approved, under the terms of

the contract, and any other insurance which the contractor maintains in connection with the general conduct of his business.

(1) Costs of insurance required or approved, and maintained, pursuant to the contract, are allowable.

(2) Costs of other insurance maintained by the contractor in connection with the general conduct of his business are allowable subject to the following limitations:

(i) Types and extent of coverage shall be in accordance with sound business practice and the rates and premiums shall be reasonable under the circumstances;

(ii) Costs allowed for business interruption or other similar insurance shall be limited to exclude coverage of profit;

(iii) Costs of insurance or of any provision for a reserve covering the risk of loss of or damage to Government property are allowable only to the extent that the contractor is liable for such loss or damage and such insurance or reserve does not cover loss or damage which results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers, or other equivalent representatives, who has supervision or direction of (*a*) all or substantially all of the contractor's business, or (*b*) all or substantially all of the contractor's operations at any one plant or separate location in which the contract is being performed, or (*c*) a separate and complete industrial operation in connection with the performance of the contract;

(iv) Provisions for a reserve under an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks; and

(v) Costs of insurance on the lives of officers, partners, or proprietors are allowable only to the extent that the insurance represents additional compensation (see § 15.205–6).

(3) Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the contract, except:

(i) Costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound business practice, are allowable; and

(ii) Minor losses not covered by insurance, such as spoilage, breakage, and disappearance of small hand tools, which occur in the ordinary course of doing business, are allowable.

(b) Indemnification includes securing the contractor against liabilities to third persons and any other loss or damage, not compensated by insurance or otherwise. The Government is obligated to indemnify the contractor only to the extent expressly provided for in the contract, except as provided in paragraph (a)(3) of this section.

§ 15.205–17 Interest and other financial costs.

Interest on borrowings (however represented), bond discounts, costs of financing and refinancing operations, legal and professional fees paid in connection with the preparation of prospectuses, costs of preparation and issuance of stock rights, and costs related thereto, are unallowable except for interest assessed by State or local taxing authorities under the conditions set forth in § 15.205–41. (But see § 15.205–24.)

§ 15.205–18 Labor relations costs.

Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of shop stewards, labor management committees, employee publications, and other related activities, are allowable.

§ 15.205–19 Losses on other contracts.

An excess of costs over income under any other contract (including the contractor's contributed portion under cost-sharing contracts), whether such other contract is of a supply, research and development, or other nature, is unallowable.

§ 15.205–20 Maintenance and repair costs.

(a) Costs necessary for the upkeep of property (including Government property unless otherwise provided for), which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see § 15.205–9):

(1) Normal maintenance and repair costs are allowable;

(2) Extraordinary maintenance and repair costs are allowable, provided such are allocated to the periods to which applicable for purposes of determining contract costs. (But see § 15.107.)

(b) Expenditures for plant and equipment, including rehabilitation thereof, which, according to generally accepted accounting principles as applied under the contractor's established policy, should be capitalized and subjected to depreciation, are allowable only on a depreciation basis.

§ 15.205–21 Manufacturing and production engineering costs.

Costs of manufacturing and production engineering, including engineering activities in connection with the following, are allowable:

(a) Current manufacturing processes such as motion and time study, methods analysis, job analysis, and tool design and improvement; and

(b) Current production problems, such as materials analysis for production suitability and component design for purposes of simplifying production.

§ 15.205–22 Material costs.

(a) Material costs include the costs of such items as raw materials, parts, subassemblies, components, and manufacturing supplies, whether purchased outside or manufactured by the contractor, and may include such collateral items as inbound transportation and intransit insurance. In computing material costs consideration will be given to reasonable overruns, spoilage, or defective work (concerning correction of defective work, see the provisions of the contract relating to inspection and correction of defective work). These costs are allowable subject, however, to the provisions of paragraphs (b) through (e) of this section.

(b) Costs of material shall be suitably adjusted for applicable portions of income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap and salvage and material returned to vendors. Such income and other credits shall either be credited directly to the cost of the material involved or be allocated (as credits) to indirect costs. However, where the contractor can demonstrate that failure to take cash discounts was due to reasonable circumstances, such lost discounts need not be so credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs, provided such adjustments relate to the period of performance of the contract.

(d) When the materials are purchased specifically for and identifiable solely with performance under a contract, the actual purchase cost thereof should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable. When estimates of material costs to be incurred in the future are required, either current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Charges for materials, services, and supplies sold or transferred between plants, divisions or organizations, under a common control, ordinarily shall be allowable to the extent of the lower of cost to the transferor or current market price. However, a departure from this basis is permissible where (1) the item is regularly manufactured and sold by the contractor through commercial channels, and (2) it is the contractor's long-established practice to price interorganization transfers at other than cost for commercial work: *Provided*, That the charge to the contract is not in excess of the transferor's sales price to its most favored customer for the same item in like quantity, or the current market price, whichever is lower.

§ 15.205–23 Organization costs.

Expenditures, such as incorporation fees, attorneys' fees, accountants' fees, brokers' fees, fees to promoters and organizers, in connection with (a) organization or reorganization of a business, or (b) raising capital, are unallowable.

§ 15.205–24 Other business expenses.

Included in this item are such recurring expenses as registry and transfer charges resulting from changes in ownership of securities issued by the contractor, cost of shareholders' meetings, normal proxy solicitations, preparation and publication of reports to shareholders, preparation and submission of required reports and forms to taxing and other regulatory bodies; and incidental costs of directors and committee meetings. The above and similar costs are allowable when allocated on an equitable basis.

§ 15.205–25 Overtime, extra-pay shift and multi-shift premiums.

Premiums for overtime, extra-pay shifts, and multi-shift work are allowable to the extent approved pursuant to § 12.102–4 of this chapter, or permitted pursuant to § 12.102–5 of this chapter.

§ 15.205–26 Patent costs.

Costs of preparing disclosures, reports, and other documents required by the contract and of searching the art to the extent necessary to make such invention disclosures, are allowable. In accordance with the clauses of the contract relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See § 15.205–36.)

§ 15.205–27 Pension plans.

See § 15.205–6.

§ 15.205–28 Plant protection costs.

Costs of items such as (a) wages, uniforms, and equipment of personnel engaged in plant protection, (b) depreciation on plant protection capital assets, and (c) necessary expenses to comply with military security requirements, are allowable.

§ 15.205–29 Plant reconversion costs.

Plant reconversion costs are those incurred in the restoration or rehabilitation of the contractor's facilities to approximately the same condition existing immediately prior to the commencement of the military contract work, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon before the costs are incurred. Whenever such costs are given consideration, care should be exercised to avoid duplication through allowance as contingencies, as additional profit or fee, or in other contracts.

§ 15.205–30 Precontract costs.

Precontract costs are those incurred prior to the effective date of the contract directly pursuant to the negotiation and in anticipation of the award of the contract where such incurrence is necessary to comply with the proposed contract delivery schedule. Such costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (but see § 15.107).

§ 15.205–31 Professional service costs; legal, accounting, engineering, and other.

(a) Costs of professional services rendered by the members of a particular profession who are not employees of the contractor are allowable, subject to paragraphs (b) and (c) of this section, when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (but see § 15.205–23).

(b) Factors to be considered in determining the allowability of costs in a particular case include:

(1) The past pattern of such costs, particularly in the years prior to the award of Government contracts;

(2) The impact of Government contracts on the contractor's business (i.e., what new problems have arisen);

(3) The nature and scope of managerial services expected of the contractor's own organizations; and

(4) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

Retainer fees to be allowable must be reasonably supported by evidence of bona fide services available or rendered.

(c) Costs of legal, accounting, and consulting services, and related costs, incurred in connection with organization and reorganization, defense of antitrust suits, and the prosecution of claims against the Government, are unallowable. Costs of legal, accounting, and consulting services, and related costs, incurred in connection with patent infringement litigation, are unallowable unless otherwise provided for in the contract.

§ 15.205–32 Profits and losses on disposition of plant, equipment, or other capital assets.

Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short or long term investments, shall be excluded in computing contract costs (but see § 15.205–9(b) as to basis for depreciation).

§ 15.205–33 Recruiting costs.

Costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate labor force, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, and travel costs of applicants for interviews for prospective employment are allowable. Where the contractor uses employment agencies, costs not in excess of standard commercial rates for such services are also allowable. Costs of special benefits or emoluments offered to prospective employees beyond the standard practices in the industry are unallowable.

§ 15.205–34 Rental costs (including sale and leaseback of facilities).

(a) Rental costs of land, building, and equipment and other personal property are allowable if the rates are reasonable in light of such factors as rental costs of comparable facilities and market conditions in the area, the type, life expectancy, condition, and value of the facilities leased, options available, and other provisions of the rental agreement. Application of these factors, in situations where rentals are extensively used, may involve among other considerations, comparison of rental costs with the amount which the contractor would have received had it owned the facilities.

(b) Charges in the nature of rent between plants, divisions, or organizations under common control are allowable to the extent such charges do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, and maintenance: *Provided*, That no part of such costs shall duplicate any other allowed cost.

(c) Unless otherwise specifically provided in the contract, rental costs specified in sale and leaseback agreements, incurred by contractors through selling plant facilities to investment organizations, such as insurance companies, or to private investors, and concurrently leasing back the same facilities, are allowable only to the extent that such rentals do not exceed the amount which the contractor would have received had it retained legal title to the facilities.

(d) The allowability of rental costs under unexpired leases in connection with terminations is treated in § 15.205–42(e).

§ 15.205–35 Research and development costs.

(a) Basic research, for the purpose of this subpart, is that type of research which is directed toward increase of knowledge in science. In such research, the primary aim of the investigator is a fuller knowledge or understanding of the subject under study, rather than any practical application thereof. Applied research, for the purpose of this subpart, consists of that type of effort which (1) normally follows basic research, but may not be severable from the related basic research (2) attempts to determine and expand the potentialities of new scientific discoveries or improvements in technology, materials, processes, methods, devices, and techniques, and (3) attempts to "advance the state of the art." Applied research does not include any such efforts when their principal aim is the design, development, or test of specific articles or services to be offered for sale, which are within the definition of the term development as hereinafter provided.

(b) Development is the systematic use of scientific knowledge which is directed toward the production of, or improvements in, useful products to meet specific performance requirements, but exclusive of manufacturing and production engineering.

(c) A contractor's independent research and development is that research and development which is not sponsored by a contract, grant, or other arrangement.

(d) A contractor's costs of independent research as defined in paragraphs (a) and (c) of this section shall be allowable as indirect costs (subject to paragraph (h) of this section), provided they are allocated to all work of the contractor.

(e) Costs of contractor's independent development, as defined in paragraphs (b) and (c) of this section (subject to

paragraph (h) of this section), are allowable to the extent that such development is related to the product lines for which the Government has contracts, provided the costs are reasonable in amount and are allocated as indirect costs to all work of the contractor on such product lines. In cases where a contractor's normal course of business does not involve production work, the cost of independent development is allowable to the extent that such development is related and allocated as an indirect cost to the field of effort of Government research and development contracts.

(f) Independent research and development costs shall include an amount for the absorption of their appropriate share of indirect and administrative costs, unless the contractor, in accordance with its accounting practices consistently applied, treats such costs otherwise.

(g) Research and development costs (including amounts capitalized), regardless of their nature, which were incurred in accounting periods prior to the award of a particular contract, are unallowable except where allowable as precontract costs (see § 15.205–30).

(h) The reasonableness of expenditures for independent research and development should be determined in light of all pertinent considerations such as previous contractor research and development activity, cost of past programs and changes in science and technology. Such expenditures should be pursuant to a broad planned program, which is reasonable in scope and well managed. Such expenditures (especially for development) should be scrutinized with great care in connection with contractors whose work is predominantly or substantially with the Government. Advance agreements as described in § 15.107 are particularly important in this situation. In recognition that cost sharing of the contractor's independent research and development program may provide motivation for more efficient accomplishment of such program, it is desirable in some cases that the Government bear less than an allocable share of the total cost of the program. Under these circumstances, the following are among the approaches which may be used as the basis for agreement: (1) review of the contractor's proposed independent research and development program and agreement to accept the allocable costs of specific projects; (2) agreement on a maximum dollar limitation of costs, an allocable portion of which will be accepted by the Government; (3) an agreement to accept the allocable share of a percentage of the contractor's planned research and development program.

§ 15.205–36 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of acquiring by purchase a patent or rights thereto, necessary for the proper performance of the contract and applicable to contract products or processes, are allowable unless:

(1) The Government has a license or the right to free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Special care should be exercised in determining reasonableness where the royalties may have been arrived at as a result of less than arm's length bargaining; e.g.:

(1) Royalties paid to persons, including corporations, affiliated with the contractor;

(2) Royalties paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Royalties paid under an agreement entered into after the award of the contract.

(c) In any case involving a patent formerly owned by the contractor, the amount of royalty allowed should not exceed the cost which would have been allowed had the contractor retained title thereto.

(d) See § 15.107, regarding advance understandings.

§ 15.205–37 Selling costs.

(a) Selling costs arise in the marketing of the contractor's products and include costs of sales promotions, negotiation, liaison between Government representatives and contractor's personnel, and other related activities.

(b) Selling costs are allowable to the extent they are reasonable and are allocable to Government business (but see §§ 15.107 and 15.205–1). Allocability of selling costs will be determined in the light of reasonable benefit to the Government arising from such activities as technical, consulting, demonstration, and other services which are for purposes such as application or adaptation of the contractor's products to Government use.

(c) Notwithstanding paragraph (b) of this section, salesmen's or agents' compensation, fees, commissions, percentages, or brokerage fees, which are contingent upon the award of contracts, are allowable only when paid to bona fide employees or bona fide established commercial or selling agencies maintained by the contractor for the purpose of securing business.

§ 15.205–38 Service and warranty costs.

Such costs include those arising from fulfillment of any contractual obligation of a contractor to provide services, such as installation, training, correcting defects in the products, replacing defective parts, making refunds in the case of inadequate performance, etc. When not inconsistent with the terms of the contract, such service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

§ 15.205–39 Severance pay.

(a) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages, by contractors to workers whose employment is being terminated. Costs of severance pay are allowable only to the extent that, in each case, it is required by (1) law, (2) employer-employee agreement, (3) established policy that constitutes, in effect, an implied agreement on the contractor's part, or (4) circumstance of the particular employment.

(b) Costs of severance payments are divided into two categories as follows:

(1) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant; or, where the contractor provides for accrual of pay for normal severances such method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period, and if amounts accrued are allocated to all work performed in the contractor's plant; and

(2) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis in the event of occurrence.

§ 15.205–40 Special tooling costs.

The term "special tooling" means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the contractor for use in the performance of a contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include: (1) Items of tooling or equipment acquired by the contractor prior to the contract, or replacements thereof, whether or not altered or adapted for use in the performance of the contract, (2) consumable small tools, or (3) general or special machine tools, or similar capital items. The cost of special tooling, when acquired for and its usefulness is limited to one or more Government contracts, is allowable and shall be allocated to the specific Government contract or contracts for which acquired.

§ 15.205–41 Taxes.

(a) Taxes are charges levied by Federal, State, or local governments. They do not include fines and penalties except as otherwise provided herein. In general, taxes (including State and local income taxes) which the contractor is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, are allowable, except for:

(1) Federal income and excess profits taxes;

(2) Taxes in connection with financing, refinancing or refunding operations (see § 15.205–17);

(3) Taxes from which exemptions are available to the contractor directly or available to the contractor based on an exemption afforded the Government except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government; and

(4) Special assessments on land which represent capital improvements.

(b) Taxes otherwise allowable under paragraph (a) of this section, but upon which a claim of illegality or erroneous assessment exists, are allowable: *Provided*, That the contractor prior to payment of such taxes:

(1) Promptly requests instructions from the contracting officer concerning such taxes; and

(2) Takes all action directed by the contracting officer arising out of subparagraph (1) of this paragraph or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, including cooperation with and for the benefit of the Government to (i) determine the legality of such assessment or, (ii) secure a refund of such taxes.

Reasonable costs of any such action undertaken by the contractor at the direction or with the concurrence of the contracting officer are allowable. Interest and penalties incurred by a contractor by reason of the nonpayment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to assure timely direction after prompt request therefor, are also allowable.

(c) Any refund of taxes, interest, or penalties, and any payment to the contractor of interest thereon, attributable to taxes, interest, or penalties which were allowed as contract costs, shall be credited or paid to the Government in the manner directed by the Government, provided any interest actually paid or credited to a contractor incident to a refund of tax, interest or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest or penalties.

§ 15.205–42 Termination costs.

Contract terminations generally give rise to the incurrence of costs, or the need for special treatment of costs, which would not have arisen had the contract not been terminated. Cost principles covering these items are set forth below. They are to be used in conjunction with the remainder of this subpart in termination situations.

(a) Common items: The cost of items reasonably usable on the contractor's other work shall not be allowable unless the contractor submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the contractor, the contracting officer should consider the contractor's plans and orders for current and scheduled production. Contemporaneous purchases of common items by the contractor shall be regarded as evidence that such items are reasonably usable on the contractor's other work. Any acceptance of common items as allocable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) Costs continuing after termination: If, in a particular case, despite all reasonable efforts by the contractor, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this subpart, except that any such costs continuing after termination due to the negligent or willful failure of the contractor to discontinue such costs shall be considered unallowable.

(c) Initial costs, including starting load and preparatory costs, are allowable, subject to the following:

(1) Starting load costs are costs of a non-recurring nature arising in the early stages of production and not fully absorbed because of the termination. Such costs may include the cost of labor and material, and related overhead attributable to such factors as—

(i) Excessive spoilage resulting from inexperienced labor,

(ii) Idle time and subnormal production occasioned by testing and changing methods of processing,

(iii) Employee training, and

(iv) Unfamiliarity or lack of experience with the product, materials, manufacturing processes and techniques.

(2) Preparatory costs are costs incurred in preparing to perform the terminated contract, including costs of initial plant rearrangement and alterations, management and personnel organization, production planning and similar activities, but excluding special machinery and equipment and starting load costs.

(3) If initial costs are claimed and have not been segregated on the contractor's books, segregation for settlement purposes shall be made from costs reports and schedules which reflect the high unit cost incurred during the early stages of the contract.

(4) When the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately prior to termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(5) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead.

(6) Initial costs attributable to only one contract shall not be allocated to other contracts.

(d) Loss of useful value of special tooling, special machinery and equipment is generally allowable, provided—

(1) Such special tooling, machinery or equipment is not reasonably capable of use in the other work of the contractor;

(2) The interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) The loss of useful value as to any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, special machinery and equipment was acquired.

(e) Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated contract, less the residual value of such leases, if—

(1) The amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

There also may be included the cost of alterations of such leased property, provided, such alterations were necessary for the performance of the contract, and of reasonable restoration required by the provisions of the lease.

(f) Settlement expenses including the following are generally allowable:

(1) Accounting, legal, clerical, and similar costs reasonably necessary for—

(i) The preparation and presentation to contracting officers of settlement claims and supporting data with respect to the terminated portion of the contract, and

(ii) The termination and settlement of subcontracts; and

(2) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(g) Subcontractor claims, including the allocable portion of claims which are common to the contract and to other work of the contractor are generally allowable.

§ 15.205–43 Trade, business, technical and professional activity costs.

(a) *Memberships.* This category includes costs of memberships in trade, business, technical, and professional organizations. Such costs are allowable.

(b) *Subscriptions.* This item includes cost of subscriptions to trade, business, professional, or technical periodicals. Such costs are allowable.

(c) *Meetings and conferences.* This item includes cost of meals, transportation, rental of facilities for meetings, and costs incidental thereto, when the primary purpose of the incurrence of such costs is the dissemination of technical information or stimulation of production. Such costs are allowable.

§ 15.205–44 Training and educational costs.

(a) Costs of preparation and maintenance of a program of instruction at non-college level, designed to increase

the vocational effectiveness of bona fide employees, including training materials, textbooks, salaries or wages of trainees (excluding overtime compensation which might arise therefrom), and

(1) Salaries of the director of training and staff when the training program is conducted by the contractor; or

(2) Tuition and fees when the training is in an institution not operated by the contractor;

are allowable.

(b) Costs of part-time education, at an under-graduate or post-graduate college level, related to the job requirements of bona fide employees, including only:

(1) Training materials;

(2) Textbooks;

(3) Fees charged by the educational institution;

(4) Tuition charged by the educational institution, or in lieu of tuition, instructors' salaries and the related share of indirect cost of the educational institution to the extent that the sum thereof is not in excess of the tuition which would have been paid to the participating educational institution; and

(5) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours;

are allowable.

(c) Costs of tuition, fees, training materials and textbooks (but not subsistence, salary, or any other emoluments) in connection with fulltime scientific and engineering education at a post-graduate (but not under-graduate) college level related to the job requirements of bona fide employees for a total period not to exceed one school year for each employee so trained, are allowable. In unusual cases where required by military technology, the period may be extended.

(d) Maintenance expense, and normal depreciation or fair rental, on facilities owned or leased by the contractor for training purposes are allowable to the extent set forth in §§ 15.205–20, 15.205–9, and 15.205–34, respectively.

(e) Grants to educational or training institutions, including the donation of facilities or other properties, scholarships or fellowships, are considered contributions and are unallowable.

§ 15.205–45 Transportation costs.

Transportation costs include freight, express, cartage, and postage charges relating either to goods purchased, in process, or delivered. These costs are allowable. When such costs can readily be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items (see § 15.205–22). Where identification with the materials received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the contractor follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the contract, shall be treated as a direct cost.

§ 15.205–46 Travel costs.

(a) Travel costs include costs of transportation, lodging, subsistence, and incidental expenses, incurred by contractor personnel in a travel status while on official company business.

(b) Travel costs may be based upon actual costs incurred, or on a per diem or mileage basis in lieu of actual costs, or on a combination of the two, provided the method used does not result in an unreasonable charge.

(c) Travel costs incurred in the normal course of over-all administration of the business are allowable and shall be treated as indirect costs.

(d) Travel costs directly attributable to specific contract performance are allowable and may be charged to the contract in accordance with the principle of direct costing (see § 15.202).

(e) Necessary, reasonable costs of family movements and personnel movements of a special or mass nature are allowable, subject to allocation on the basis of work or time period benefited when appropriate. (But see § 15.107.)

Subpart C—Research Contracts With Educational Institutions

§ 15.301 General.

(a) It is the intent of these principles to provide Department of Defense agencies and educational institutions with a common basis for determining the allowable costs of research sponsored by the Federal Government. Application of these principles should enable such agencies and institutions to identify the allowable direct costs of such research, plus the allocable portion of the allowable indirect costs, less applicable credits. The tests of allowability of costs applied in these principles are reasonableness and allocability under consistently applied generally accepted cost accounting principles and practices; however, these provisions are subject to any limitations as to types or amounts of costs set forth in the research agreement.

(b) These principles do not attempt to identify the circumstances or dictate the extent of agency and institution participation in the financing of a particular research and development project, but rather are confined to the subject of cost determination. Arrangements concerning financial participation are properly the subject of negotiation between the contracting officer and the educational institution concerned.

(c) These principles should be applied to all Department of Defense sponsored research at an educational institution, including research conducted at locations other than the main campus of the institution.

(d) A negotiated fixed amount in lieu of indirect costs may be appropriate in certain instances for off-campus or segregated research projects where (1) research agreements are charged directly for the cost of many of their administrative or housekeeping services, or (2) the cost of benefits derived from an institution's indirect services cannot be readily determined by use of apportionment or allocation bases normally employed, or (3) the costs of apportioning and allocating expenses to research agreements are excessive. The negotiated amount should not exceed a conservative estimate of anticipated indirect costs.

§ 15.302 Definitions.

As used in this subpart, the following terms have the meanings stated in §§ 15.302–1 to 15.302–6.

§ 15.302–1 Research agreements.

"Research agreements" are agreements to perform Federally sponsored research through grants, cost-reimbursement type contracts, cost-reimbursement type subcontracts, and fixed-price contracts and subcontracts for research.

§ 15.302–2 Apportionment.

"Apportionment" is the process by which the indirect costs of the institution are assigned to (a) instruction and research, and (b) other institutional activities.

§ 15.302–3 Allocation.

"Allocation" is the process by which the indirect costs apportioned to instruction and research are distributed to research agreements.

§ 15.302–4 Sponsoring agency.

"Sponsoring agency" means the Federal agency for which the institution is performing research. Its use in this document does not imply a change in concept or intent for those agencies that have traditionally used a grant rather than a contractual instrument.

§ 15.302–5 Original complement.

"Original complement" means the complement of equipment initially placed in buildings to perform the functions currently being performed in such buildings. If a permanent change in the function of a building takes place, a redetermination of the original complement of equipment may be made at that time to establish a new original complement.

§ 15.302–6 Other institutional activities.

"Other institutional activities" means all organized activities of an institution not directly related to the instruction and research functions, such as residence halls, dining halls, student hospitals, student unions, intercollegiate athletics, book stores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, financial campaigns, and other similar activities or auxiliary enterprises. Also included under this definition is any category of cost treated as "unallowable," provided such category of cost identifies a function or activity to which a portion of the institution's general overhead expenses are properly allocable.

§ 15.303 Direct costs.

Direct costs are those identified as having been specifically incurred to perform a particular research agreement. The general types of direct costs are:

(a) "Direct salaries and wages", including employee benefit expenses and pension plan costs (see § 15.307) to the extent that they are consistently treated by the educational institution as a direct rather than an indirect cost, are those applicable directly to the performance of a research agreement. Such salaries and wages should be charged at the actual rates paid by the institution. Where professional staff paid on a salary basis work directly part time on a research agreement, current and reasonable estimates of time spent may be used in the absence of actual time records;

(b) "Direct material costs" include raw materials, purchased or supplied from stock, which are directly consumed or expended in the performance of a research agreement, or are otherwise applicable directly to a research agreement; and

(c) "Other direct costs" include other expenses related directly to a particular research agreement or project, including abnormal utility consumption. This may include services purchased from institution service operations, provided such are consistently treated as direct rather than indirect costs and are priced under a recognized method of costing or pricing designed to recover only actual costs and conforming to generally accepted cost accounting practices consistently followed by the institution. Purchases of equipment will be included under this heading only to the extent expressly provided for in the research agreement or approved pursuant to such agreement.

§ 15.304 Indirect costs.

Indirect costs are those which, because of their incurrence for common or joint objectives, are not readily subject to treatment as direct costs of research agreements or other activities. The general types of indirect costs are:

(a) "General administration and general expenses" are those incurred for the general executive and administrative offices of educational institutions and other expenses of a general character which do not relate solely to any specific division of the institution. Employee benefit expenses and pension plan costs may be included in this category to the extent that they are consistently treated by the educational institution as an indirect rather than a direct cost;

(b) "Research administration expenses" are those which apply to research administered in whole or in part by a separate organization or an identifiable administrative unit. Examples of work relating to research which is sometimes performed under such organizational arrangement are: contract administration, security, purchasing, personnel administration, and editing and publishing of research data;

(c) "Operation and maintenance expenses" are those incurred for operating and maintaining the institution's physical plant. They include expenses normally incurred by the institution for administration or supervision of the physical plant; janitorial service; repairs and ordinary or normal alterations of buildings, furniture and equipment; care and maintenance of grounds; utilities; and other expenses customarily associated with the operation, maintenance, preservation and protection of the physical plant;

(d) "Library expenses" are those incurred for direct operation of the library plus a use allowance for library books. The use allowance shall not exceed eight cents per volume per year;

(e) "Use allowance" is a means of compensation for the use of buildings, capital improvements, and equipment over and above the expenses for operation and maintenance when depreciation or other equivalent costs are not considered. The use allowance for buildings and improvements shall be computed at an annual rate not to exceed two percent (2%) of acquisition cost. The use allowance for equipment shall be computed at an annual rate not exceeding six and two-thirds percent (6⅔%) of acquisition cost of usable equipment in those cases where the institution maintains current records with respect to such equipment on hand. Where the institution's records reflect only the cost (actual or estimated) of the original complement of equipment, the use allowance shall be computed at an annual rate not exceeding ten percent (10%) of such cost. In those cases where no equipment records are maintained, the institution will justify a reasonable estimate of the acquisition cost of usable equipment which may be used to compute the use allowance at an annual rate not exceeding six and two-thirds percent (6⅔%) of such estimate. Computation of the use allowance shall exclude the portion of the cost of buildings and equipment paid for out of Federal funds and the cost of grounds; and

(f) "Indirect department expenses" are those incurred for departmental administration, such as salaries of deans or heads of colleges, schools, departments or divisions, and related secretarial and other administrative expenses.

§ 15.305 Applicable costs.

(a) The cost of a research agreement is comprised of the allowable direct costs incident to its performance, plus the allocable portion of the allowable indirect costs of the institution, less applicable credits.

(b) When any types of expense ordinarily treated as indirect costs are charged to a research agreement as direct costs, the costs of similar items applicable to other activities of the institution must be eliminated from indirect costs allocable to the research agreement.

(c) Where a particular understanding has been reached regarding specific items of cost to be reimbursed, the research agreement should clearly state such understanding.

(d) Section 15.307 provides standards to be applied in determining the allowability of certain items of cost and also identifies certain types of expenditures which relate solely to instruction and therefore do not enter into the costs of research agreements, either as direct costs or indirect costs; such costs of instruction shall be excluded from the computations provided herein.

§ 15.306 Determination of indirect costs.

§ 15.306–1 General.

(a) In determining the indirect costs applicable to Federally sponsored research agreements, the allowable indirect costs should first be apportioned equitably between (1) instruction and research activity and (2) other institutional activities, as provided in § 15.306–2.

(b) The amounts of indirect costs apportioned to instruction and research should then be allocated in an equitable manner to research agreements, as provided in § 15.306–3.

(c) Actual conditions must be taken into account in determining the most suitable method or methods to be used in the apportionment and allocation of indirect costs. The objective should be the selection of a method or methods which will distribute the indirect costs in a fair and equitable manner to the Government research and development work and other work of the institution, giving due consideration to the nature and extent of the use of the institution's facilities by research personnel, academic staff, students and other personnel or activities, and to the materiality of the amounts involved. The methods used should conform with generally accepted cost accounting practices, provide uniformity of treatment for like cost elements, be applied consistently, and produce equitable results. Any significant change, such as in the nature or extent of Government work or other activities sponsored or conducted by the institution, may require reconsideration of the methods previously in use to determine whether they continue to be equitable.

§ 15.306–2 Apportionment.

Where indirect costs relate to research, instruction, and other activities, such indirect costs shall be apportioned as between instruction and research activities, and other institutional activities as defined in § 15.302–6. The apportionment shall be made as follows:

(a) General administration and general expenses, on the basis of total expenditures: if more appropriate in the circumstances, however, other bases may be used;

(b) Operation and maintenance of the physical plant, if not separately costed, on the basis of total square or cubic footage of the buildings; and

(c) Other types of indirect costs normally do not require apportionment, where they do, an equitable basis for making the apportionment should be selected.

§ 15.306–3 Allocation.

(a) After determination of the total amount of indirect costs applicable to instruction and research activities, such indirect costs shall in turn be allocated between instruction activities and research agreements as described in paragraphs (b), (c), (d), and (e) of this section.

(b) The following criteria should be used with such appropriate modifications as will under the circumstances produce reasonably equitable allocation of the indirect costs associated with research agreements:

(1) "General administration and general expenses" should normally be allocated on the basis of total expenditures (exclusive of capital expenditures and use allowances) if equitable, direct sal-

aries and wages, or other bases appropriate in the circumstances;

(2) "Research administration expenses" should be allocated to (i) applicable research agreements and (ii) other research benefiting therefrom on the basis of records reflecting the proportion fairly applicable to each or, in the absence of such records, on the basis of a reasonable estimate;

(3) "Operation and maintenance expenses" should be allocated on a basis that gives primary emphasis to space utilization. The amount allocated may be developed as follows:

(i) Where actual space and related cost records are or can readily be maintained without significant change in the accounting practices, the amount allocated to research agreements should be based on such data;

(ii) Where the space and related cost records maintained are not sufficient for purposes of subdivision (i) of this subparagraph, a reasonable estimate of the proportion of total space assigned to research agreements normally will suffice, and this proportion of operation and maintenance expense should be allocated to research agreements. Where it can be established that the cost of maintaining space assigned to research varies significantly from the cost of maintaining other space, appropriate weighting factors may be used to give effect to such variations;

(iii) Where more definitive information is not available, either of the following simplified techniques for determining space may be used, as most appropriate—

(*a*) Reduce the total space identified with instruction and research by the amount of space occupied by undergraduate students, including appropriate portions of classrooms and access and related space. Reduce by the same proportion the amount of maintenance and operation expense that has been apportioned to instruction and research, and then allocate to research agreements on the basis of the relationship that direct salaries and wages of research agreements bears to direct salaries and wages of instruction and research; or

(*b*) Prepare a reasonable estimate of the average gross space assigned per research worker, and extend to the equivalent annual number of research workers under research agreements. The resulting product should then be related to total space assigned to instruction and research in order to obtain the proportion of space utilized for research agreements. The resulting proportion should then be applied to operation and maintenance expense to obtain the amount allocable to research agreements; or

(c) Where it can be demonstrated that an area or volume of space basis of allocation is impractical or inequitable, other bases may be used provided consideration is given to the use of facilities by research personnel and others, including students;

(4) "Library expenses" should normally be allocated to research agreements on the basis of population including students and other users. Where appropriate, consideration may be given to weighting segments of the population figures as necessary to produce equitable results;

(5) "Use allowance for buildings and equipment" should, if depreciation or other equivalent costs are not considered, be computed in accordance with § 15.304(e). The cost of buildings and equipment used by "other institutional activities" (as defined in § 15.302–6) should be excluded from any computation of use allowances. If available records permit, use allowances may be specifically allocated in whole or in part to research agreements. In the absence of such usable records, use allowance may be allocated to research agreements on the same basis as that used for allocating operation and maintenance expenses; and

(6) "Indirect departmental expenses:" the salaries and wages of departmental heads and their offices, including the allocated portion of deans of schools and their offices, which jointly benefit both research agreements and other activities should be allocated between research agreements administered or supervised by the department and other work of the department on any equitable basis, possibly direct salaries and wages, total direct expenditures, or approximate time so devoted. Where equitable results would be obtained, the distribution may be made on a composite base which would include all schools and departments.

(c) Indirect costs allocated to research agreements normally should be treated as a common pool. The costs in such common pool should then be distributed to individual research agreements benefiting therefrom on a single rate basis. This rate will be the percentage which the indirect cost pool is of direct salaries and wages of the applicable research agreements. If appropriate, total direct expenditures may be used rather than salaries and wages.

(d) It is recognized that in certain cases, due to the nature of the work, the facilities or personnel involved, or other considerations, the application of a single indirect expense rate on research agreements may produce inequitable results to the institution or to the Government. In such cases, it may be necessary to develop two or more indirect expense rates by means of: (1) Appropriate adjustment to the basic indirect expense rate developed through use of the common pool, or (2) segregation of the indirect expenses allocated to research agreements into two or more indirect expense pools. In the latter case, the costs in each such pool will be distributed to the specific research agreements benefiting therefrom on the basis of direct wages and salaries or total direct expenditures, as appropriate. Examples of conditions which may justify the development of two or more pools of indirect expense are:

(i) Where the nature of a particular type of overhead cost requires a different basis of allocation to produce equitable results;

(ii) Where a research agreement or group of agreements or the facility in which such agreement(s) is performed provides its own services to a significant degree, as may be in the case of a hospital or a segregated or off-campus facility;

(iii) Where a research agreement requires significantly different degrees of indirect services from the institution. For example, such conditions may exist where: (*a*) Significant amounts of Government-owned facilities or equipment are provided in lieu of that normally furnished by the institution, (*b*) a research agreement requires an unusual amount of power or other utilities, (c) the cost of a special library provided in lieu of regular library services is reimbursed by the Government, or (*d*) construction constitutes a significant portion of the work; and

(iv) Where it is appropriate to associate certain costs more directly with the activities benefited, such as where the research work is performed on one campus of a multicampus university.

(e) Where research is separately administered, in whole or in part, or separate services are provided in lieu of those services normally provided by the institution, the cost of the normal institutional administration or other services replaced thereby shall be excluded from allocation to such research.

§ 15.306–4 Overhead determinations acceptable under special circumstances.

(a) Indirect costs may be claimed at a rate which is anticipated to be less than that which would otherwise be allowable with provisions made in the research agreement for adjustment if actual costs subsequently proved to be less than the claimed rate.

(b) The degree of preciseness required in the computation of indirect costs will be influenced by considerations such as the materiality of the amounts involved, the size of the educational institution, and the aggregate dollar volume of Government-sponsored research at the institution. Generally, where the total direct cost of Government-sponsored research and development work at an institution does not exceed $250,000 in a year, the use of abbreviated procedures in the determination of allowable indirect costs may be acceptable when the results obtained are equitable. For example, educational institutions which have a relatively small dollar volume of Government-sponsored research may compute allowable indirect expenses on the basis of data available in the institution's financial reports. One permissible method in such cases would contemplate the use of a single indirect expense pool composed of:

(1) General and administrative expenses, exclusive of unallowable costs (§ 15.307), but inclusive of allocable salaries and expenses of deans of schools and department heads:

(2) Operation and maintenance expenses; and

(3) Library expenses.

The indirect expense pool should then be allocated to research agreements and other activities of the institution on any equitable basis, possibly total expenditures (exclusive of capital expenditures).

§ 15.307 General standards for selected items of cost.

§ 15.307–1 Purpose and applicability.

(a) Section 15.307 provides standards to be applied to the extent deemed practicable in determining the allowability of certain items of cost. These standards should apply irrespective of whether a particular item of cost is properly treated as direct cost or indirect cost. Failure to mention a particular item of cost in the standards should not imply that it is either allowable or unallowable; rather determination as to allowability in such case should be based on the treatment or standards provided for similar or related items of cost.

(b) In case of discrepancy between the provisions of a specific research agreement and the applicable standards, the provisions of the research agreement should govern.

§ 15.307–2 Costs applicable to instruction.

Except as specifically noted, the following types of costs apply only to instruction and therefore do not enter into the costs of research agreements, either as direct costs or indirect costs, unless specific provision is made therefor in the research agreement:

(a) Commencement and convocation costs;

(b) Sabbatical leave costs, including leave of absence to employees for performance of graduate work or sabbatical study, travel, or research;

(c) Scholarships, fellowships, tuition and other forms of student aid costs. However, in certain cases such costs may be allocable in part to research agreements under the conditions set forth in § 15.307–3; and

(d) Student services costs, including such activities as deans of students, administration of student affairs, registrar, placement offices, student advisers, student health and infirmary services, and such other activities as are identifiable with student services. However, in the case of students actually engaged in work under research agreements, a proportion of student service costs measured by the relationship between hours of work by students on such research work and total student hours including all research time may be allowed as a part of research administration expenses.

§ 15.307–3 Allowable and unallowable costs.

(a) Advertising costs include the cost of advertising media and related technical and administrative costs. Only the following advertising costs are allowable: (1) Help wanted advertising, (2) other advertising necessary for the performance of the research agreement to the extent authorized.

(b) Bad debts including losses (whether actual or estimated) arising from uncollectible accounts and other claims, related collection costs, and related legal costs are unallowable.

(c) Capital expenditures are unallowable except as provided for in the research agreement. This includes costs of books, equipment and buildings, as well as repairs which materially increase the value or useful life of such equipment or buildings.

(d) Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first aid training and supplies, fire-fighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when apportioned to all activities of the institution. Capital expenditures for civil defense purposes shall not be allowed, but a use allowance may be permitted in accordance with provisions set forth elsewhere. Costs of local civil defense projects not on the institution's premises are unallowable.

(e) Communication costs including telephone services, local and long distance telephone calls, telegrams, radiograms, postage and the like are allowable.

(f) Compensation for personal services: Each institution shall maintain control over its salary and wage rates according to its established policy consistently applied: *Provided, however,* That the excess of salary and wage rates paid to personnel working on Government research agreements over salary and wage rates paid to personnel working on the institution's departmental research or other research will not be allowed unless specifically provided in the agreement or approved by the contracting officer. This principle does not prohibit the charging of the full salary of any temporary employee in whose favor a salary differential exists solely by virtue of the nature of his employment in accordance with the regular practice of the institution concerned. Faculty members shall be considered as employed for the period represented by the sum of all semesters and other periods during which they are required to work under the practice of the institution concerned. (Example: Professor of X institution is required to work two semesters of 4½ months each, or a total of nine months out of the academic year. His compensation is $5,400.00. During the summer months, July, August, and September, he works full time on Government research projects in the institution laboratory. Unless the established practice of the institution relating to summer compensation, not based on Government contract experience, would result in a different computation, his compensation for that period, chargeable by the institution to the Government research agreement, will be $1,800.00, computed as follows: ($5,400.00÷9=$600.00; $600.00 multiplied by 3=$1,800.00)).

(g) Contingency provisions to provide for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable.

(h) Deans of faculty and graduate schools, or their equivalents, including their staffs and related expenses are allowable.

(i) Employee morale, health, and welfare costs and credits, such as house publications, health or first aid clinics and/or infirmaries, recreational activities, and employees' counseling services, incurred in accordance with the institution's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee performance, are allowable. Such costs shall be equitably apportioned to all activities of the institution. Income generated from any of these activities shall be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organization.

(j) Entertainment costs including costs of amusement, social activities, entertainment, and incidental costs relating thereto, such as meals, lodging, rentals, transportation, and gratuities, are unallowable.

(k) Equipment and other facilities: The cost of equipment or other facilities, including books purchased specifically for use on the project, are allowable where such purchases are approved by the sponsoring agency concerned or provided for by the terms of the research agreement.

(l) Fines and penalties: Costs resulting from violations of, or failure of the institution to comply with, Federal, State, and local laws and regulations are unallowable except when incurred as a result of compliance with specific provisions of the research agreement, or instructions in writing from the contracting officer.

(m) Insurance and indemnification:

(1) Insurance includes those types of insurance which the institution is required to carry, or which is approved, under the terms of the research agreement, and any other insurance which the institution maintains in the general conduct of its activities. Indemnification includes securing the institution against liabilities to third persons and other losses not compensated by insurance or otherwise.

(2) Costs of insurance required or approved, and maintained, pursuant to the research agreement, are allowable.

(3) Costs of other insurance maintained by the institution in connection with the general conduct of its activities, are allowable subject to the following limitations:

(i) Types and extent and cost of coverage shall be in accordance with sound institutional practice;

(ii) Costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to Government-owned property are unallowable except to the extent that the Government shall have required or approved such costs;

(iii) Contributions to a reserve for an approved self-insurance program are allowable to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks;

(iv) Costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted; and

(v) Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the research agreement, except: (*a*) Costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound business practice are allowable; and (*b*) minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools, which occur in the ordinary course of doing business, are allowable.

(n) Interest costs for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable.

(o) Investment counsel and staff costs are unallowable.

(p) Labor relations costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employees' publications, and other related activities are allowable.

(q) Losses on other research agreements or contracts. Any excess of costs over income under any other research agreement or contract of any nature is unallowable. This includes, but is not limited to, the institution's contributed portion by reason of cost-sharing agreements or any under-recoveries through negotiation of flat amounts for overhead.

(r) Maintenance and repair costs necessary for the upkeep of property (including Government property unless otherwise provided for) which neither add to the permanent value of the property nor appreciably prolong its intended life but keep it in an efficient operating condition, are allowable.

(s) Material costs of purchased materials, supplies, and fabricated parts directly or indirectly related to the research agreement are allowable. Purchases made specifically for the research agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores withdrawals conforming to sound accounting practices consistently followed by the institution. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the research agreement, and due credit should be given for any excess materials retained, or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the research agreement. Where Government-donated or furnished material is used in performing the research agreement, such material will be used without charge.

(t) Memberships, subscriptions, and professional activity costs: (1) Membership costs of the institution's membership in civic, business, technical, and professional organizations are allowable.

(2) Subscription costs of the institution's subscriptions to civic, business, professional, and technical periodicals are allowable, excepting those obtained for the library for which a use allowance is made.

(3) Meetings and conferences. This item includes cost of meals, transportation, rental of facilities for meetings, and costs incidental thereto, when the primary purpose of the incurrence of such costs is the dissemination of technical information. Such costs are allowable.

(u) Patent costs: Costs of preparing disclosures, reports, and other documents required by the research agreement and of searching the art to the extent necessary to make such invention disclosures, are allowable. In accordance with the clauses of the research agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Government, are allowable. (See also paragraph (ff) of this section.)

(v) Pension plan costs are allowable if in accordance with the established policies of the institution, provided such policies meet the test of reasonableness and the methods of cost allocation are not discriminatory, and provided appropriate adjustments are made for credits or gains arising out of normal and abnormal employee turnover or any other contingencies that can result in forfeitures by employees which inure to the benefit of the institution.

(w) Plant security costs including wages, uniforms and equipment of personnel engaged in plant protection, and necessary expenses to comply with Government security requirements, are allowable.

(x) Preresearch agreement costs are those which are incurred prior to the effective date of the research agreement whether or not they would have been allowable thereunder if incurred after such date. Such costs are unallowable unless specifically set forth and identified in the research agreement.

(y) Professional service costs; legal, accounting, engineering and other.

(1) Costs of professional services rendered by the members of a particular profession who are not employees of the intitution are allowable, subject to subparagraphs (2) and (3) of this paragraph, when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government. Retainer fees to be allowable must be reasonably supported by evidence of services rendered.

(2) Factors to be considered in determining the allowability of costs in a particular case include:

(i) The past pattern of such costs, particularly in the years prior to the award of Government research agreements;

(ii) The impact of Government research agreements on the institution's total activity;

(iii) The nature and scope of managerial services expected of the institution's own organization; and

(iv) Whether the proportion of Government work to the institution's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under Government research agreements.

(3) Costs of legal, accounting, and consulting services, and related costs, incurred in connection with organization and reorganization, and the prosecution of claims against the Government, are unallowable. Costs of legal, accounting and consulting services, and related costs, incurred in connection with patent infringement litigation, are unallowable unless otherwise provided for in the research agreement.

(z) Profits and losses on disposition of plant, equipment, or capital assets. Profits or losses of any nature arising from the sale or exchange of plant, equipment, or other capital assets, including sale or exchange of either short- or long-term investments, shall be excluded in computing research agreement costs.

(aa) Proposed costs are the costs of preparing bids or proposals on potential Government and non-Government research agreement or projects, including the development of engineering data and cost data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as indirect costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods shall be allocable in the current period to the Government research agreement. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the method used, the results obtained may be accepted only if found to be reasonable and equitable.

(bb) Public information services costs such as news releases pertaining to specific research or scientific accomplishment are unallowable unless specifically authorized by the sponsoring agency.

(cc) Rearrangement and alteration costs: Ordinary or normal rearrangement and alteration costs are allowable. Special arrangement and alteration costs incurred specifically for the project are allowable when such work has been approved in advance by the sponsoring agency concerned.

(dd) Reconversion costs are those incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of Government research agreement work, fair wear and tear excepted. Reconversion costs are allowable, only to the extent of the cost of removing Government property and the restoration or rehabilitation costs caused by such removal.

(ee) Recruiting costs such as "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, travel costs of employees while engaged in recruiting personnel, and travel costs of applicants for interviews for prospective employment, are allowable. Where the institution uses employment agencies, costs not in excess of standard commercial rates for such services are also allowable. Costs of special benefits or emoluments offered to prospective employees beyond recognized practices for recruiting such personnel are unallowable.

(ff) Royalties and other costs for use of patents. Royalties on a patent or amortization of the cost of acquiring a patent or invention or rights thereto, necessary for the proper performance of the research agreement and applicable to tasks or processes thereunder, are allowable unless:

(1) The Government has a license or the right to free use of the patent;

(2) The patent has been adjudicated to be invalid or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent has expired.

(gg) Severance pay is a payment, in addition to regular salaries and wages, by institutions to employees whose services have been terminated. Severance pay is allowable as a cost only to the extent that it is required by law, employer-employee agreement, established policy that constitutes in effect an implied agreement on the institution's part, or circumstances of the particular employment. Severance payments are divided into two categories as follows:

(1) Those due to normal, recurring turnover. The actual costs of such severance payments shall be regarded as expense applicable to the current fiscal year and equitably apportioned to the institution's activities during that period; and

(2) Those due to abnormal or mass terminations. Abnormal or mass severance pay is of such a conjectural nature that measurement of cost by means of an accrual will not achieve equity to both parties. Thus accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(hh) Special services costs, such as general public relations activities, catalogs, and alumni activities, are unallowable.

(ii) Staff benefits are allowances and services provided by the institution to its employees as compensation in addition to regular wages and salaries. Costs of such staff benefits are allowable and include vacations, holidays, sick leave, military leave, employee insurance, social security taxes and workmen's compensation insurance. The payment of tuition or remission of tuition for employees and their families are allowable to the extent that such payments or remissions are made under established policies consistently applied.

(jj) Taxes: In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles, and payments made to local governments in lieu of taxes which are commensurate with the local government services received are allowable, except for:

(1) Taxes from which exemptions are available to the institution directly or which are available to the institution based on an exemption afforded the Government and in the latter case when the sponsoring agency makes available the necessary exemption certificates; and

(2) Special assessments on land which represent capital improvements.

Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as research agreement costs, shall be credited or paid to the Government in the manner directed by the Government provided any interest actually paid or credited to an institution incident to a refund of tax, interest, and penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the institution had been reimbursed by the Government for the taxes, interest, and penalties.

(kk) Transportation costs: Transportation costs include freight, express, cartage, and postage charges relating either to goods purchased, in process, or delivered. These costs are allowable. When such costs can readily be identified with the items involved, they may be direct costed as transportation costs or added to the cost of such items. Where identification with the materials received cannot readily be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the institution follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the research agreement, should be treated as a direct cost.

(ll) Travel costs: (1) Travel costs consist of transportation, lodging subsistence, and incidental expenses.

(2) Travel costs incurred by institution personnel in a travel status while on specific research business are allowable.

(3) Travel costs incurred in the normal course of over-all administration of the institution and applicable to the entire institution are allowable. Such costs shall be equitably apportioned to all work of the institution.

(4) Subsistence and lodging, including tips or similar incidental costs, are allowable either on an actual or per diem basis. The basis selected shall apply to an entire trip and not selected days of the trip.

(5) Costs of personnel movement of a special or mass nature are allowable only when authorized or approved in writing by the sponsoring agency or its authorized representative.

(mm) Termination costs: (1) Contract termination generally gives rise to the incurrence of costs or to the need for special treatment of costs, which would not have arisen had the contract not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of this subpart in the case of contract termination.

(2) The cost of common items of material reasonably usable on the institution's other work shall not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the institution's plans and orders for current and scheduled work. Contemporaneous purchases of common items by the institution shall be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allowable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(3) If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of termination, such costs are generally allowable within the limitations set forth in this subpart, except that any such costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs shall be considered unacceptable.

(4) Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided:

(i) Such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution;

(ii) The interest of the Government is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(iii) The loss of useful value as to any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, special machinery, and equipment was acquired.

(5) Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated cost, less the residual value of such leases, if:

(i) The amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable, and

(ii) The institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the contract, and of reasonable restoration required by the provisions of the lease.

(6) Settlement expenses including the following are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for:

(*a*) The preparation and presentation to contracting officers of settlement claims and supporting data with respect to the terminated portion of the contract; and

(b) The termination and settlement of subcontracts; and

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(7) Subcontractor claims, including the allocable portion of claims which are common to the contract and to other work of the contractor are generally allowable.

Subpart D—Construction Contracts

§ 15.401 Definition of construction contract.

The term "construction contract" as used in this subpart means any contract for the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property. It does not include a contract for the manufacturing, producing, furnishing, construction, alteration, repair, processing or assembling of vessels, aircraft, or other kinds of personal property, regardless of the terms of any such contract as to payment or title.

§ 15.402 General basis for determination of costs.

The total cost of a cost-reimbursement type contract for construction or for architect-engineer services related to construction is the sum of the allowable costs incident to the performance of the contract, less applicable income and other credits. The tests used in determining the allowability of costs also include (a) reasonableness and (b) any limitations as to types or amounts of cost items set forth in this subpart or otherwise included in the contract. Failure to mention any item of cost in this subpart is not intended to imply that it is either allowable or not allowable. Income and other credits arising out of operations under the contract, where the related cost was reimbursed or accepted as an allowable cost, will be credited to the Government.

§ 15.403 Examples of items of allowable costs.

Subject to the requirements of § 15.402 with respect to the general basis for determining allowability of costs, the following items of cost are considered allowable within the limitations indicated:

(a) Bonds and insurance, including self-insurance, to the extent authorized by the contracting officer;

(b) Camp operations (but see § 15.404 (h));

(c) Freight, transportation, and material handling;

(d) Land and structures, temporary use thereof;

(e) Materials and supplies, including inspection, storage, salvage, and other usual expenses incident to the procurement and use thereof;

(f) Patents, purchased designs, and royalty payments, to the extent authorized by the contracting officer;

(g) Plant and equipment, purchase or rental thereof;

(h) Recruiting of personnel (including "help wanted" advertising);

(i) Restoration and cleanup of site and facilities, as directed by the contracting officer;

(j) Structures and facilities of a temporary nature;

(k) Subcontracts;

(l) Taxes, fees or charges, except those imposed upon, by reason of, or measured by the contractor's fee;

(m) Traveling expenses, to the extent authorized by the contracting officer;

(n) Utility services, such as communication, power, gas, and water;

(o) Vacation, holiday and severance pay, sick leave and military leave, to the extent required by law or specifically provided for elsewhere in the contract;

(p) Wages and salaries; and

(q) Pension and retirement plans in accordance with the interpretation set forth in § 15.406 and group health, accident and life insurance plans (but see § 15.404 (b), (d), and (m)).

§ 15.404 Examples of items of unallowable costs.

The following items of costs are considered unallowable, except as indicated and then only subject to the requirements of § 15.402:

(a) Advertising (including advertising in trade or technical journals), except "help wanted" advertising;

(b) Central office expenses of the contractor, such as supplies, equipment, rent, or any other expenses incident to its maintenance and operation, except to the extent authorized by the contracting officer;

(c) Commissions and bonuses (under whatever name) in connection with obtaining or negotiating for a Government contract;

(d) Compensation and traveling expenses of any officer or employee in the central office organization of the contractor, except to the extent authorized by the contracting officer;

(e) Contingency reserves;

(f) Contributions and donations;

(g) Dividend payments;

(h) Entertainment, except for on-site recreational activities for the contractor's employees as authorized by the contracting officer;

(i) Interest on borrowings (however represented), bond discount and expense, and financial charges;

(j) Legal, accounting and consulting fees and related expenses, except to the extent authorized by the contracting officer;

(k) Losses on other contracts;

(l) Memberships in trade, business, and professional organizations;

(m) Premiums for insurance on the lives of directors, officers, proprietors, or other persons, where the contractor is the beneficiary directly or indirectly;

(n) Storage of contract records after completion of contract operations, irrespective of contractual or statutory requirements regarding the preservation of records; and

(o) Taxes, fees, or charges imposed upon, by reason of, or measured by the contractor's fee.

§ 15.405 Examples of subjects requiring special considerations.

The following examples are illustrative of subjects affecting cost which may require special consideration:

(a) Costs incurred incidental to work covered by the contract but prior to the execution of the contract, with specific identification of the types thereof and the period involved;

(b) Government-furnished property, general nature and extent;

(c) Indirect cost basis (1) actual, (2) negotiated rate or amount, or (3) other;

(d) Insurance;

(e) Intracompany and intercompany transactions;

(f) Liability to third persons;

(g) Operation of restaurants and cafeterias;

(h) Overtime compensation (see § 12.102 of this chapter);

(i) Patents, purchased designs, and royalty payments;

(j) Personnel movement of a special or mass nature;

(k) Plant facilities fully depreciated or amortized on the contractor's books of account or acquired without cost (possible compensation for utilization in the form of a use or rental charge);

(l) Rearrangement or relocation of facilities or plant sites;

(m) Research programs of a general nature;

(n) Security measures of a special nature;

(o) Sharing of cost of research projects of the type which an educational or other nonprofit institution might undertake as a part of its own educational or research program;

(p) Subcontracting, nature and extent thereof and relation to fee or profit;

(q) Subsistence and housing of employees;

(r) Termination expenses;

(s) Tooling and equipment;

(t) Traveling expenses of a special or unusual nature; and

(u) Wages or salaries of partners or sole proprietors.

§ 15.406 Cost interpretation of pension and retirement plans.

(See § 15.403(q).)

(a) Costs of pension and retirement plans, including reasonable incidental benefits, such as disability, withdrawal, insurance or survivorship allowances which are deductible from taxable income in accordance with the Internal Revenue Code and the regulations of the Bureau of Internal Revenue, are allowable except to the extent they are determined to be unreasonable or unallowable under any other provision of this cost interpretation. Costs of such plans established by nonprofit or other organizations not subject to payment of Federal income taxes are also allowable except to the extent they are determined to be unreasonable or unallowable under any other provision of this cost interpretation.

(b) Pension or retirement plans of a contractor which are subject to approval of the Bureau of Internal Revenue must have been so approved before costs under the plans may be accepted as charges to Government contracts. Many plans of nonprofit or other tax exempt organizations are also reviewed and approved by the Bureau of Internal Revenue—when not so reviewed and approved, each such plan will be reviewed, and approved or disapproved, by the Department to which audit cognizance is assigned, using, insofar as applicable, the criteria and standards of the Internal Revenue Code and the regulations of the Bureau of Internal Revenue. In any case where the Bureau of Internal Revenue withdraws approval of a plan, approval of amounts allocated to contract costs will be withdrawn accordingly.

(c) The approval of a pension or retirement plan by the Bureau of Internal Revenue will, as a general rule, be the only approval required by the Departments; however, the right is reserved to require submission of any plan for consideration by a Department and to disapprove such plan in its entirety or any feature thereof whenever the circumstances in a particular case are deemed to warrant such action. Such consideration will be the responsibility of the Department to which audit cognizance is assigned, and the subsequent action taken by that Department will generally be accepted by the other Departments.

(d) Approval of a pension or retirement plan by the Bureau of Internal Revenue or by the Departments does not imply that the cost thereof for any particular year will be allowable for apportionment to contract costs, except to the extent costs for that year meet all other requirements of the Bureau of Internal Revenue as a deduction for income tax purposes, and are acceptable under the provisions of this cost interpretation and other provisions of this Section.

(e) Pension and retirement costs constitute a part of the total compensation by a contractor to any individual covered by the plan, and accordingly, are subject to the provisions of this Section with respect to reasonableness of the total compensation paid to the individual for the services rendered.

(f) Where contributions to pension or retirement plans are based on profits: *Providing*, That provisions of the Internal Revenue Code and regulations of the Bureau of Internal Revenue have been met, the amount allowable for apportionment to contracts in any one year shall be the amount contributed to the pension trust(s) for that year, but not to exceed 15 percent of the total compensation otherwise paid or accrued in that year to the individuals covered under the plan(s).

(g) The allowability of costs of lump sum purchases of annuities or of periodic cash payments made to provide pension or retirement benefits for retiring or retired employees, other than incurred under approved pension or retirement plans, will be subject to consideration on an individual case basis.

(h) Credits which became available or are foreseeable must be taken into account in an equitable manner in determining pension and retirement costs subject to apportionment to a military contract. In some instances, this may require adjustments to costs in anticipation of the realization of credits. For example, such action would normally be appropriate where contractors' organizations are substantially expanded for the performance of military contracts and there is a reasonable expectation that, upon completion of the contracts, the services of practically all or a large number of the additional employees will be terminated with the result that contractors will benefit from contributions made on behalf of these employees, because such personnel will not acquire vested rights under the terms of the plans.

(i) In any current or future contract no cost allowance will be made which would duplicate, in whole or in part, an allowance previously made under a prior contract.

Subpart E—[Reserved]

Subpart F—Guidelines for Application in the Negotiation and Administration of Fixed-Price Type Contracts and in the Negotiation of Termination Settlements

§ 15.600 Scope of subpart.

This subpart provides guidance for the use of Subparts B, C, and D of this part (a) in the evaluation of costs in pricing of negotiated fixed-price type contracts and subcontracts in those instances where such evaluation is required to establish prices for such contracts and (b) in the negotiation of termination settlements.

§ 15.601 Definition of fixed-price type contracts.

"Fixed-price type" contracts include, for purpose of this chapter, the following:

(a) Firm fixed-price contracts (§ 3.403–1 of this chapter)

(b) Fixed-price contracts with escalation (§ 3.403–2 of this chapter)

(c) Fixed-price contracts providing for the redetermination of price (§ 3.403–3 of this chapter)

(d) Fixed-price incentive contracts (§ 3.403–4 of this chapter)

(e) Non-cost-reimbursable portion of time and materials contracts (§ 3.405–1 of this chapter)

(f) Labor-hour contracts (§ 3.405–2 of this chapter)

§ 15.602 Basic considerations.

(a) Under fixed-price type contracts, the negotiated price is the basis for payment to a contractor whereas allowable costs are the basis for reimbursement under cost-reimbursement type contracts. Accordingly, the policies and procedures of Subpart H, Part 3, of this chapter, are governing and shall be followed in the negotiation of fixed-price type contracts. Cost and accounting data may provide guides for ascertaining fair compensation but are not rigid measures of it. Other types of data, criteria, or standards may furnish reliable guides to fair compensation. The ability to apply standards of business judgment as distinct from strict accounting principles is at the heart of a negotiated price or settlement.

(b) Among the different types of fixed-price type contracts, the need for consideration of costs varies considerably as indicated below:

(1) *Retrospective pricing and settlements.* In negotiating firm fixed prices or settlements for work which has been completed at the time of negotiation (e.g., final negotiations under fixed-price incentive contracts, redetermination of price after completion of the work, or negotiation of a settlement agreement under a contract terminated for the convenience of the Government), the treatment of costs is a major factor in arriving at the amount of the price or settlement. However, even in these situations, the finally agreed price or settlement may represent something other than the sum total of acceptable costs plus profit, since the final price accepted by each party does not necessarily reflect agreement on the evaluation of each element of cost, but rather a final resolution of all issues in the negotiation process.

(2) *Forward pricing.* The extent to which costs influence forward pricing varies greatly from case to case. In negotiations covering future work, actual costs cannot be known and the importance of cost estimates depends on the circumstances. The contracting officer must consider all the factors affecting the reasonableness of the total proposed price, such as the technical, production or financial risk assumed, the complexity of work, the extent of competitive pricing, and the contractor's record for efficiency, economy and ingenuity, as well as available cost estimates. He must be free to bargain for a total price which equitably distributes the risks between the contractor and the Government and provides incentives for efficiency and cost reduction. In negotiating such a price, it is not possible to identify the treatment of specific cost elements since the bargaining is on a total price basis. Thus, while cost data is often a valuable aid, it will not control negotiation of prices for work to be performed, or a target price under an incentive contract.

§ 15.603 Cost principles and their use.

(a) When, pursuant to § 15.602, costs are to be considered in the negotiation of fixed-price type contracts, the appropriate subpart of this part shall be used as a guide in the evaluation of cost data required to establish a fair and reasonable price in conjunction with other pertinent considerations as set forth more fully in Subpart H, Part 3, of this chapter, and—in the case of negotiated termination settlements—Subpart C, Part 3 of this chapter.

(b) In retrospective pricing, whenever an occasion arises in which acceptability of a specific item of cost becomes an issue, the appropriate part of this Part 15 will serve as a guide for the contracting officer in his conduct of negotiations.

(c) In applying this part to fixed-price contracts, contracting officers will: (1) Not be expected to negotiate agreement on every individual element of cost; and (2) be expected to use their judgment as

to the degree of detail in which they consider the individual elements of cost in arriving at their evaluation of total cost, where such evaluation is appropriate. However, the negotiation record should fully substantiate and justify the reasoning leading to any negotiated price.

(d) In order to permit the proper evaluation of cost data submitted by contractors for use in negotiating prices, it may be necessary to obtain breakdowns or account analyses in respect to some cost items particularly those whose treatment may be dependent upon special circumstances as stated in the principles. Contractors will be expected to be responsive to reasonable requests for data of this kind.

PART 16—PROCUREMENT FORMS

Sec.
16.000 Scope of part.

Subpart A—Forms for Advertised Supply Contracts

16.100 Scope of subpart.
16.101 Separate award type (Standard Forms 30, 31, 32, 26, and 36, and DD Form 1260).
16.101-1 General.
16.101-2 Conditions for use.
16.102 Combination type (Standard Form 33).
16.102-1 General.
16.102-2 Conditions for use.

Subpart B—Forms for Negotiated Procurement

16.200 Scope of subpart.
16.201 Request for quotation (Standard Form 18).
16.201-1 General.
16.201-2 Conditions for use.
16.202 Negotiated contract forms (DD Forms 1261 and 1270).
16.203 Request for Proposals, Proposal and Acceptance (DD Forms 746, 746-1, 746-2).
16.203-1 General.
16.203-2 Conditions for use.
16.204 General Provisions; Cost-Reimbursement Supply Contract (DD Form 748).
16.205 General Provisions; Fixed-Price Supply Contracts (Standard Form 32).
16.206 Cost and Price Analysis Forms (DD Forms 633, 633-1, 633-2, and 633-3).
16.206-1 General.
16.206-2 DD Form 633 (Cost and Price Analysis).
16.206-3 DD Forms 633-1, 633-2, and 633-3.
16.207 Cost Analysis for Contract Price Redetermination (DD Form 784).
16.207-1 General.
16.207-2 Conditions for use.
16.207-3 Forms superseded.

Subpart C—Purchase and Delivery Order Forms

16.300 Scope of subpart.
16.301 Receipt for cash—subvoucher (Standard Form 1165).
16.302 Purchase Order-Invoice-Voucher (Standard Form 44).
16.303 Order for supplies or services (DD Forms 1155, 1155r, 1155c, 1155c-1, and 1155s).
16.303-1 General.
16.303-2 Conditions for use.
16.303-3 Forms superseded.
16.304 Blanket purchase order.

Subpart D—Construction Contract Forms

16.400 Scope of subpart.
16.401 Standard Forms 19, 19A, 20, 21, 22, 23 and 23A, and DD Form 1260.
16.401-1 General.
16.401-2 Use of forms for negotiated construction contracts.
16.401-3 Conditions for use.
16.401-4 Terms, conditions and provisions.

Subpart E—Special Contract and Order Forms

16.500 Scope of subpart.
16.501 Negotiated utility service contract forms.
16.501-1 Estimated annual cost $2,400 or less (DD Form 671).
16.501-2 Estimated annual cost over $2,400.
16.502 Negotiated contract form for stevedoring services (DD Form 674).
16.502-1 General.
16.502-2 Conditions for use.
16.502-3 Single job stevedoring services.
16.503 Master Contract for Repair and Alteration of Vessels (DD Forms 731 and 731-1).
16.503-1 General.
16.503-2 Inviting bids or quotations for job orders.
16.503-3 Issuance of job order (DD Form 731-1).
16.503-4 Emergency work required prior to issuance of a job order.
16.503-5 Repair costs not readily ascertainable.
16.503-6 Modification of master contracts.
16.504 Order for Paid Advertisements (Standard Forms 1143 and 1144).
16.505 Novation agreements.
16.505-1 Scope of section.
16.505-2 Agreement to recognize a successor in interest.
16.505-3 Agreement to recognize change of name of contractor.
16.506 Communication Service Authorization (DD Form 428).

Subpart F—Forms for Coordinated Procurement

16.600 Scope of subpart.
16.601 Military Interdepartmental Purchase Request (DD Form 448, 448-1).
16.602 Requisition for Coal, Coke, or Briquettes (DD Form 416).

Subpart G—Contract Termination Forms

16.700 Scope of subpart.
16.701 Notices of termination.
16.702 Settlement proposal forms.
16.702-1 Settlement proposal; inventory basis (DD Form 540).
16.702-2 Settlement proposal; total cost basis (DD Form 541).
16.702-3 Settlement proposal for cost-reimbursement type contracts (DD Form 547).
16.702-4 Settlement proposal; short form (DD Form 831).
16.702-5 Inventory schedules (DD Forms 542, 543, 544, 545, and 832).
16.702-6 Schedule of accounting information (DD Form 546).
16.703 Application for partial payment (DD Form 548).
16.704 Notice of audit status date (DD Form 547s).
16.705 Forms of settlement agreement.
16.706 Instructions for use of termination forms.

Subpart H—Miscellaneous Forms

16.800 Scope of subpart.
16.801 Statement and Certificate of Award (Standard Form 1036).
16.802 Statement on Contingent Fees (Standard Form 119).
16.803 Compliance with labor laws, regulations and clauses.
16.803-1 Construction contracts.
16.803-2 Supply contracts.
16.804 U. S. Government Tax Exemption Certificate (Standard Form 1094—Revised).
16.804-1 Conditions for use.
16.804-2 Supply of forms.
16.805 Bond forms.
16.806 Royalty Report Form (DD Form 783).
16.807 Individual Procurement Action Report (DD Form 350).
16.808 Duty Free Entry Certificate (Customs Form 7501). [Reserved]
16.809 Report of Inventions and Subcontracts (DD Form 882).
16.810 Bidders Mailing List Application (Standard Form 129) and Bidders Mailing List Application Supplement (DD Form 558-1).
16.810-1 General.
16.810-2 Conditions for use.
16.810-3 Item listings for information of bidders.
16.811 Security Requirements Check List (DD Form 254).
16.812 Release and assignment forms.
16.813 Change order price analysis (DD Form 1107).
16.813-1 General.
16.813-2 Conditions for use.
16.813-3 Forms superseded.
16.814 Experience data forms.
16.814-1 Architect-engineer experience data (DD Form 1071).
16.814-2 Construction contractor experience data (DD Form 1072).
16.815 Contract modification forms.
16.815-1 Change Order (DD Form 1319).
16.815-2 Supplemental Agreement (DD Form 1320).

AUTHORITY: §§ 16.000 to 16.815-2 issued under R. S. 161, sec. 2202, 70A Stat. 120; 5 U. S. C. 22, 10 U. S. C. 2202. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U. S. C. 2301-2314.

§ 16.000 Scope of part.

This part prescribes forms for use in connection with the procurement of supplies and services. In using these forms for procurement outside the United States, its Territories, its possessions, and Puerto Rico, contract provisions which are made inapplicable to such procurement by this subchapter or by departmental procedures may be deleted.

Subpart A—Forms for Advertised Supply Contracts

§ 16.100 Scope of subpart.

This subpart prescribes forms for use in procuring supplies by formal advertising; it is not applicable to specialized procurements for which other instructions are given by this subchapter or departmental procedures.

§ 16.101 Separate award type (Standard Forms 30, 31, 32, 26 and 36, and DD Form 1260).[1]

§ 16.101-1 General.

Except as provided in § 16.102, the following supply contract forms shall be used in effecting procurements by formal advertising:

(a) Invitation and Bid (Standard Form 30);

(b) Schedule (Standard Form 31);

(c) General Provisions (Supply Contract) (Standard Form 32);

(d) Any other special terms for the invitation for bids or additional contract provisions which are prescribed by this subchapter or Departmental procedures;

(e) Award (Standard Form 26);

(f) Continuation Sheet (Standard Form 36) (when needed with Standard Forms 31 or 26 or DD Form 1260[1]); and

(g) Amendments to Invitation for Bids (DD Form 1260[1]) when needed.

§ 16.101-2 Conditions for use.

(a) The Invitation for Bids (Standard Form 30), and the Schedule (Standard Form 31) shall be prepared in accordance with § 2.201.

(b) Standard Form 32 and any additional general provisions may be attached to each copy of the Invitation for Bids. Alternatively, one copy only of Standard Form 32 and any additional general provisions need be furnished to each bidder, for retention, if such provisions are specifically incorporated by reference, including each form name, number and date, in Standard Form 30 or 31. Provisions which are inapplicable to a particular procurement, or to military procurements generally may be deleted by appropriate reference in an "Alterations in Contract" clause.

(c) Award of contracts shall be accomplished by furnishing a completed Standard Form 26 to each successful bidder. Papers previously forwarded to bidders need not accompany the successful bidder's copy of Standard Form 26. The required use of Standard Form 26 does not preclude the additional use of informal documents, including telegrams, as notices of award.

(d) DD Form 1260[1] (Amendment to Invitation for Bids) shall be used when it is necessary to issue an amendment.

[1] Filed as part of the original document.

§ 16.102 Combination type (Standard Form 33).

§ 16.102-1 General.

Standard Form 33, which is a combination Invitation for Bids, Bid, Schedule, and Award, may be used to effect procurement by formal advertising, in lieu of Standard Forms 30, 31 and 26, whenever the space available on Standard Form 33 for the Schedule and the Award is sufficient. The following forms are prescribed for use with Standard Form 33:

(a) General Provisions (Supply Contract) (Standard Form 32);

(b) Any other special terms for the invitation for bids or additional contract provisions, which are prescribed by this subchapter or Departmental procedures;

(c) Continuation Sheet (Standard Form 36) (when needed with Standard Form 33 or DD Form 1260[1]); and

(d) Amendment to Invitation for Bids (DD Form 1260), when needed.

§ 16.102-2 Conditions for use.

(a) The Invitation for Bids and Schedule portions of Standard Form 33 shall be prepared in accordance with § 2.201.

(b) Standard Form 32 and any additional general provisions shall be utilized in accordance with the conditions specified in § 16.101-2(b).

(c) Award of contracts shall be accomplished by completing the Award portion of Standard Form 33 and furnishing a copy of the form, so completed, to each successful bidder. The required use of the Award portion of Standard Form 33 does not preclude the additional use of informal documents, including telegrams, as notices of award.

(d) DD Form 1260[1] (Amendment to Invitation for Bids) shall be used when it is necessary to issue an amendment.

Subpart B—Forms for Negotiated Procurement

§ 16.200 Scope of subpart.

This subpart prescribes forms for use in procuring supplies or services by negotiation (see also Subpart C of this part, Purchase and Delivery Order Forms); it is not applicable to specialized procurements for which other instructions are given by this subchapter or departmental procedures.

§ 16.201 Request for quotation (Standard Form 18).

§ 16.201-1 General.

Standard Form 18 is prescribed to obtain price, cost, delivery, and related information from suppliers.

§ 16.201-2 Conditions for use.

Standard Form 18 is authorized for use when it appears reasonably certain that the procurement will be consummated by (a) a fixed-price type contract involving extensive negotiation or, (b) a cost-reimbursement type contract. Standard Form 36 (Continuation Sheet), or DD Form 1155c (Continuation Sheet) may be used as required. Standard Form 18 may be used for negotiated procurements in excess of $2,500 and shall be used for negotiated procurements of $2,500 or less (including purchase orders) when written solicitations (other than by telegram) of quotations are used (see § 3.603 of this chapter). A quotation submitted on this form is not to be construed as an offer which can be accepted by the Government to form a binding contract. Therefore, issuance by the Government of a purchase order pursuant to a supplier's quotation does not constitute a contract, but the purchase order is an offer by the Government to the supplier to buy certain goods or services upon specified terms and conditions.

§ 16.202 Negotiated contract forms (DD Forms 1261 and 1270).

(a) *General.* (1) DD Form 1261 [1] (Negotiated Contract) is designed for use in entering into negotiated contracts where the signature of both parties on a single document is appropriate.

(2) DD Form 1270 (General Provisions (Short Form Negotiated Contract)) is designed for use with DD Form 1261 as set forth in (b) below, but need not be used in contracts to be performed outside the United States, its Territories, its possessions or Puerto Rico.

(3) DD Form 1261 (Negotiated Contract), in conjunction with appropriate General Provisions (as provided in paragraphs (b), (c), and (d) of this section), is prescribed for use in entering into negotiated contracts except:

(i) Contracts for which DD Forms 746, 746–1, and 746–2 are used in accordance with § 16.203;

(ii) Contracts for the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property;

(iii) Procurements for which special contract forms are prescribed by this subchapter (for example, §§ 16.501, 16.503, 16.504, 16.505, and 16.506); and

(iv) Procurements for which purchase order and related forms are authorized by Subpart C of this part.

(b) *Short form negotiated supply and services contracts.*

(1) Except as provided in paragraph (a) (2) and (3) of this section, DD Form 1261 (Negotiated Contract), and DD Form 1270 (General Provisions (Short Form Negotiated Contract)), shall be used for negotiated fixed-price type supply contracts which do not exceed $10,000 and which are for standard or commercial items not involving special inspection due to complicated specifications. These forms may be used also for nonpersonal services contracts which do not exceed $10,000. Standard Form 36 (Continuation Sheet) shall be used for the Schedule and Continuation Sheet.

(2) No clause on DD Form 1270 may be deleted or altered, and no other clause covering the subject matter of any clause set forth in this subchapter may be used, except:

(i) Deletions and additions of clauses authorized for use by overseas activities may be made in accordance with Departmental procedures;

(ii) The "Variation in Quantity" clause (§ 7.103–4 of this subchapter) and implementing provisions may be inserted in the Schedule where appropriate;

(iii) The "Preference for Certain Domestic Commodities" clause (§ 6.305 of this subchapter) may be inserted in the Schedule, where required by Subpart C, Part 6 of this subchapter.

(iv) Where the contract is solely for the procurement of data, one of the clauses set forth in §§ 9.203 through 9.206 of this subchapter may be added as required by the instructions in Subpart B, Part 9 of this subchapter.

(v) The "Soviet-Controlled Areas" clause (§ 6.403 of this subchapter) shall be inserted in the Schedule where appropriate;

(vi) Where the contract is for services, the Termination for Convenience of the Government clause set forth in § 8.705 of this subchapter shall be inserted in the Schedule, and Paragraph 7 of the General Provisions deleted;

(vii) The "Priorities, Allocations and Allotments" clause (§ 7.104–18 of this subchapter) may be inserted in the Schedule where required; and

(viii) The "Federal, State and Local Taxes" clause (§ 11.401–1 of this subchapter) may, in the discretion of the contracting officer, be inserted in the Schedule.

(c) *Long form negotiated supply contracts.* (1) Except as provided in paragraphs (a) (3) and (b) of this section, DD Form 1261 [1] (Negotiated Contract) shall be used with Standard Form 32 (General Provisions (Supply Contract)), any other forms containing contract provisions which are prescribed by this subchapter or Departmental procedures, and Standard Form 36 (Continuation Sheet) for entering into negotiated fixed-price type supply contracts to which Part 7, Subpart A of this subchapter, is applicable.

(2) Except as provided in paragraph (a) (3) of this section, DD Form 1261 [1] (Negotiated Contract) shall be used with DD Form 748 (General Provisions-Cost-Reimbursement Supply Contracts), any other forms containing contract provisions which are prescribed by this subchapter or Departmental procedures, and Standard Form 36 (Continuation Sheet) for entering into negotiated cost-reimbursement type contracts to which Part 7, subpart B of this subchapter, is applicable.

(d) *Special negotiated contracts.* DD Form 1261 [1] (Negotiated Contracts) may be used for special procurements, where clauses other than those on DD Form 1270,[1] Standard Form 32, or DD Form 748 have been authorized. For example, cost-reimbursement type research and development contracts with clauses prescribed by Part 7, subpart D of this subchapter; contracts for stevedoring services (DD Form 674); time and materials contracts; personal and professional services contracts; and contracts for instruction of military personnel at educational institutions.

(e) *Corporate certificate.* Where a corporate certificate is considered necessary or desirable, it may be executed on a typed sheet, identified by contract number, and attached to DD Form 1261.[1]

(f) *Schedule and continuation sheet.* Standard Form 36 (Continuation Sheet) shall be used for the Schedule and Continuation Sheets; however, where the columns thereon are not required, a blank sheet may be used in lieu thereof, *provided* the contract number, page number, and name of contractor are shown thereon.

(g) Amendment to Request for Proposals (DD Form 746s), when needed.

§ 16.203 Request for Proposals, Proposal and Acceptance (DD Forms 746, 746–1, 746–2).

§ 16.203–1 General.

The following forms are prescribed for use under the conditions set forth in § 16.203–2 in effecting negotiated fixed-price procurement of supplies or services (other than personnel);

(a) Request for Proposals and Proposal (Negotiated Fixed-Price Contract) (DD Form 746);

(b) Schedule, Request for Proposals and Proposal (DD Form 746–1);

(c) General Provisions (Supply Contract) (Standard Form 32) (only when procuring supplies);

(d) Any other forms containing contract provisions which are prescribed by this subchapter or departmental procedures;

(e) Acceptance of Proposal (Negotiated Fixed-Price Contract) (DD Form 746–2); and

(f) Continuation Sheet (Standard Form 36) (when needed with DD Form 746–1 or DD Form 746–2).

§ 16.203–2 Conditions for use.

(a) DD Forms 746 and 746–1 (together with authorized contract provisions) shall be used in connection with the negotiation of fixed-price contracts for supplies or services (other than personal) when it appears desirable to commence negotiations by soliciting written offers which, if there is written acceptance by the Government, would create a binding contract without further action.

(b) When proposals have been submitted on DD Forms 746 and 746–1 and it is in the interest of the Government and is in accordance with § 3.805–1(b) of this chapter to accept a prospective contractor's proposal without further negotiation, price and other factors considered, DD Form 746–2 shall be used. In such instances, the contract will consist of the appropriate documents listed in § 16.203–1.

(c) When a proposal submitted by a prospective contractor leads to further negotiation, the resulting contract shall be prepared in accordance with § 16.202, except that: (1) If the circumstances are such that the prospective contractor can amend its proposal in writing to reflect any necessary changes, the amended proposal may be accepted on DD Form 746–2; or (2) if all the terms and conditions agreed to as a result of such further negotiation are specifically and clearly set forth in identifiable writings, but such writings are unsuitable or too voluminous to permit acceptance of the amended proposal on DD Form 746–2 and if the circumstances of the procurement require prompt acceptance of the modified proposal, the proposal as thus modified by such further negotiation may be accepted by the issuance of a notice of award in substantially the format set forth below. In cases within subparagraph (1) of this paragraph, the use of DD Form 746–2 does not preclude the additional use of informal documents, including telegrams, as notices of award. In cases within subparagraph (2) of this paragraph, all of the terms and conditions of the contract thereby created shall be, without change or modification, promptly consolidated into a contract using the forms authorized by § 16.202, and a signed copy thereof, shall be submitted to the General Accounting Office.

(Name and Address of Purchasing Office)

Date _____

(Name and Address of Contractor)

Contract No. _____

Gentlemen:

Your proposal dated _____, (in response to Request for Proposals No. _____, dated _____) as amended by [list and identify all documents or portions thereof, such as letters, telegrams, and printed matter, from the prospective contractor and the Government, which together set forth the terms and conditions of the contract] for the furnishing of _____, at a total price of $_____, is accepted and award is hereby made.

A contract in the usual form, dated and numbered as set forth above, incorporating all the terms and conditions of the contract hereby created is being prepared and will be forwarded to you in the near future.

This contract is authorized by and has been negotiated pursuant to 10 U.S.C. 2304 (a)( ).

UNITED STATES OF AMERICA

By _____

(Name) Contracting Officer

(d) Standard Form 32, if applicable, and any other general provisions may be attached to each copy of the Request for Proposals. Alternatively, one copy only of Standard Form 32 and any other general provisions need be furnished to each supplier, for retention, if such provisions are specifically incorporated by reference, including each form name, number and date, in DD Form 746–1. Provisions which are inapplicable to a particular procurement, or to military procurements generally, may be deleted by appropriate reference in an "Alterations in Contract" clause.

(e) When a cost breakdown is required in connection with a proposal, DD Form 633 shall be used to the extent provided in § 16.206.

(f) This section does not preclude the use of the purchase order forms prescribed in Part 16, Subpart C of this subchapter.

(g) When it is necessary to issue an amendment to a request for proposals, DD Form 746s (Amendment to Request for Proposals) shall be used.

§ 16.204 General provisions; Cost-Reimbursement Supply Contract (DD Form 748).

DD Form 748 shall be attached to any negotiated contract to which Subpart B of this part is applicable. It contains all of the clauses required by § 7.203 of this subchapter and some of the clauses set forth in §§ 7.204 and 7.205 of this subchapter. The addition of other clauses set forth in Part 7, Subpart B, of this subchapter, or of other clauses not inconsistent with this subchapter, shall be accomplished by appending such clauses as "Additional General Provisions," numbered consecutively. The deletion or modification of clauses contained in the form or in the "Additional General Provisions" shall be accomplished by appropriate reference or provision in an "Alterations in Contract" clause. These instructions must be read in conjunction with Part 7, Subpart B, of this subchapter, to make certain that current clauses are in use at all times.

§ 16.205 General provisions; Fixed-Price Supply Contracts (Standard Form 32).

Any negotiated contract to which Part 7, Subpart A, of this subchapter is applicable will include Standard Form 32. The addition of other clauses set forth in Part 7, Subpart A, of this subchapter, or of other clauses not inconsistent with ASPR, shall be accomplished by including such clauses as "Additional General Provisions" numbered consecutively. The deletion or modification of clauses contained in the form or in the "Additional General Provisions" shall be accomplished by appropriate reference or provision in an "Alterations in Contract" clause. These instructions must be read in conjunction with Part 7, Subpart A, of this subchapter, to make certain that current clauses are in use at all times.

§ 16.206 Cost and Price Analysis Forms (DD Forms 633, 633–1, 633–2, and 633–3).

§ 16.206–1 General.

DD Forms 633, 633–1, 633–2 and 633–3 are designed for submission of cost data by contractors. Contractor reproduction of these forms is authorized.

§ 16.206–2 DD Form 633 (Cost and Price Analysis).

This form ordinarily shall be used whenever price analysis is required, except:

(a) The contractor may submit necessary data in a format acceptable to the contracting officer where the contractor's accounting system makes the use of this form impracticable;

(b) Other forms authorized by the Department concerned if approved by the Office of the Assistant Secretary of Defense (Comptroller) (See DOD Instruction No. 7760.1, dated September 30, 1955) may be used; or

(c) The Special Cost and Price Analysis Forms referenced in § 16.206–3 may be used.

§ 16.206–3 DD Forms 633–1, 633–2, and 633–3.

The following forms may be used as appropriate:

(a) DD Form 633–1 (Cost and Price Analysis—Technical Personnel Services Procurement);

(b) DD Form 633–2 (Cost and Price Analysis—Contract Negotiations for Technical Publications Preparation); or

(c) DD Form 633–3 (Cost and Price Analysis—Motion Picture Procurement).

§ 16.207 Cost Analysis for Contract Price Redetermination (DD Form 784).

§ 16.207–1 General.

DD Form 784 (Cost Analysis for Contract Price Redetermination) is designed to assure, to the fullest extent practicable, the uniform submission of cost data by contractors when such data are required for contract price redetermination. Contractor reproduction of the form is authorized.

§ 16.207–2 Conditions for use.

DD Form 784 shall be prepared by the contractor for the submission of cost data required for contract price redetermination except in those instances where the contractor and the appropriate departmental official have agreed upon an alternative method of cost analysis presentation.

§ 16.207–3 Forms superseded.

This form replaces existing departmental forms currently used solely for this purpose.

Subpart C—Purchase and Delivery Order Forms

§ 16.300 Scope of subpart.

This subpart prescribes forms for use (a) when purchases are authorized or required to be made by the purchase order or imprest fund method, and (b) as delivery orders.

§ 16.301 Receipt for cash—subvoucher (Standard Form 1165).

Standard Form 1165 may be used in connection with procurements by the imprest fund (petty cash) method in accordance with § 3.604 of this subchapter.

§ 16.302 Purchase Order-Invoice Voucher (Standard Form 44).

Standard Form 44 is authorized for use to accomplish small purchases in accordance with § 3.605 of this subchapter.

§ 16.303 Order for Supplies or Services (DD Form 1155, 1155r, 1155c, 1155c–1, and 1155s).

§ 16.303–1 General.

(a) The following forms are prescribed for use in accordance with the conditions set forth in §§ 16.303 to 16.303–2:

(1) DD Form 1155 (including its reverse side, 1155r), Order for Supplies or Services, provides in one document:

(i) A purchase order, delivery order under a contract, or delivery order on Government agencies outside the Department of Defense;

(ii) A receiving and inspection report;

(iii) A property voucher; and

(iv) A public voucher.

(2) DD Form 1155c, Continuation Sheet, provides additional Schedule space.

(3) DD Form 1155c–1, Commissary Continuation Sheet, provides columns suited for commissary procurements.

(4) DD Form 1155s, Additional General Provisions, Modification, and Acceptance, used with the DD Form 1155 in negotiated procurements of not more than $2,500, provides:

(i) Additional general provisions;

(ii) A block for the contracting officer to mark if the contractor's written acceptance is requested; and

(iii) A space for the contractor's signature when a written acceptance is requested.

(b) The foregoing forms may be used as snap-out manifold forms, as cut sheets, or as reproducible masters, as prescribed by Departmental procedures. DD Form 1155 is designed for mailing in window envelopes, and the use of such envelopes is encouraged.

[1] Filed as part of the original document.

§ 16.303–2 Conditions for use.

(a) *General.* The foregoing forms shall be used, as appropriate, regardless of the number of deliveries or payments contemplated, except where utility services are procured under GSA area contracts as provided in Part 5, Subpart H, of this subchapter. When used as purchase orders these forms shall be used only for the purchase of supplies as defined in § 7.102, or for services other than personal services.

(b) *Use as a purchase order of not more than $2,500:* DD Form 1155 is authorized for negotiated purchases of not more than $2,500: *Provided:*

(1) The procurement is unclassified;

(2) No clauses covering the subject matter of any clause set forth in this Regulation, other than clauses set forth on the back of DD Form 1155, and clauses referred to in subparagraphs (3), (4), (5) of this paragraph, and in paragraph (c) of this section, are to be used;

(3) Where the contract is solely for the procurement of data, one of the clauses set forth in §§ 9.203 through 9.206 of this chapter shall be added as appropriate in accordance with the instructions contained in Subpart B, Part 9 of this chapter;

(4) Where DD Form 1155s is not used and the procurement is for more than $1,000, the following clause shall be added:

RENEGOTIATION (NOV. 1958)

This contract, and any subcontract hereunder, is subject to the Renegotiation Act of 1951, as amended (50 U. S. C. App. 1211 et seq.), and shall be deemed to contain all the provisions required by Section 104 thereof, and is subject to any subsequent act of Congress providing for the renegotiation of contracts.

(5) When required by Part 6, subpart D, the contract clause set forth in § 6.403 of this chapter shall be added; and

(6) The DD Form 1155 shall not be used as a public voucher in a procurement of more than $1,000.

(c) *Use of DD Form 1155s.* DD Form 1155s is authorized for use in conjunction with DD Form 1155 if it is deemed to be in the best interest of the Government to consummate a binding contract between the parties before the contractor undertakes performance. No additional clauses are authorized except as provided in paragraph (b) (2) of this section.

(d) *Use as a delivery order.* Except as to specialized procurements for which other instructions are given by this subchapter or military department procedures, DD Form 1155 shall be used without monetary limitation as a delivery order for ordering supplies and services:

(1) under indefinite delivery type contracts (see § 3.405–5), including such contracts made by Government agencies outside of the Department of Defense: *Provided,* (i) The order is issued in accordance with, and subject to the terms and conditions of, such contract, and (ii) the order refers to the particular contract involved; and

(2) from Government agencies outside the Department of Defense.

(e) DD Form 1155c (Continuation Sheet) or Standard Form 36 (Continuation Sheet) shall be used if additional space is required, as provided by Departmental procedures.

§ 16.304 Blanket purchase order.

See Part 3, Subpart F, of this subchapter, and particularly § 3.606.

Subpart D—Construction Contract Forms

§ 16.400 Scope of subpart.

This subpart prescribes forms for use in connection with construction contracts, which are defined for the purposes of this subpart as contracts for the construction, alteration or repair (including painting and decorating) of buildings, bridges, roads, or other kinds of real property.

§ 16.401 Standard Forms 19, 19A, 20, 21, 22, 23, 23A, and DD Form 1260.

§ 16.401–1 General.

The following forms are prescribed for use in formally advertised construction contracts where the work is to be performed in the United States and its possessions:

(1) Standard Form 19—Invitation, Bid and Award (Construction, Alteration, or Repair).

(2) Standard Form 19A—Labor Standards Provisions—Applicable to Contracts in excess of $2,000.

(3) Standard Form 20—Invitation for Bids (Construction Contract).

(4) Standard Form 21—Bid Form (Construction Contract).

(5) Standard Form 22—Instructions to Bidders (Construction Contract).

(6) Standard Form 23—Construction Contract.

(7) Standard Form 23A—General Provisions (Construction Contract).

(8) DD Form 1260—Amendment to Invitation for Bids, on an optional basis.

(9) Continuation Sheet.—There is no prescribed form of Continuation Sheet for construction contracts. A blank sheet, incorporating (i) the contract or invitation number, as appropriate, (ii) page number and number of pages, and (iii) name of bidder or contractor may be used for this purpose. Standard Form 36, Continuation Sheet (Supply Contract) shall not be used for construction contracts.

§ 16.401–2 Use of forms for negotiated construction contracts.

Use of the forms prescribed in § 16.401–1 is optional for negotiated construction contracts. When used for negotiated contracts, the forms shall be adapted by lining out or obliterating the words "sealed" and "publicly opened" and adding language to (1) indicate the authority for negotiation, and (2) provide that wherever the words "invitation" and "bid" occur they shall be deemed to refer to "solicitation" and "offer," respectively.

§ 16.401–3 Conditions for use.

(a) *Contracts estimated not to exceed $2,000.* Standard Form 19 shall be used for construction contracts not in excess of $2,000 executed as a result of formal advertising. Standard Form 22 also may be used. When the contract may exceed $2,000, the following language shall be inserted in the space provided in the bid portion of Standard Form 19 prior to the issuance of the invitation:

If this bid exceeds $2,000, the bidder shall furnish with its bid a bid bond in an amount equal to ------ % of its bid; failure to submit the bond on time is cause for rejection of the bid. The undersigned further agrees, if this bid exceeds $2,000 (i) to comply with the Labor Standards Provisions Applicable to Contracts in Excess of $2,000 (Standard Form 19A) in lieu of Provision 10 hereof; (ii) to pay not less than the minimum hourly rates of wages set forth in the specifications; and (iii) to furnish a performance bond in an amount equal to ------ % and a payment bond in an amount equal to 50% of the contract price with surety or sureties acceptable to the Government.

(b) *Contracts estimated to exceed $2,000 but not to exceed $10,000.* Standard Forms 19 and 19A shall be used for these construction contracts executed as a result of formal advertising. Standard Form 22 also may be used. The additional language set forth in paragraph (a) of this section shall be inserted in the bid portion of Standard Form 19 prior to issuance of the invitation.

(c) *Contracts estimated to exceed $10,000.* Standard Forms 20, 21, 22, 23, and 23A shall be used for these construction contracts executed as a result of formal advertising.

§ 16.401–4 Terms, conditions and provisions.

(a) The use of additional contract provisions consistent with those contained in the above forms is authorized, and, where required elsewhere in this subchapter, the use of such additional provisions is mandatory.

(b) Changes or additional provisions inconsistent with those contained in the standard forms shall be incorporated when required by this subchapter, and may be incorporated when authorized by this subchapter, or when approved pursuant to § 1.109 of this subchapter. A copy of any such approval pursuant to § 1.109–2 shall be forwarded by the approving authority to the General Services Administration.

(c) The provisions of paragraphs (a) and (b) of this section shall not be construed to authorize the reinstatement in Standard Form 19 of clauses which appear in Standard Form 23A and which have either been condensed or omitted in the development of Standard Form 19 in the interests of simplification and uniformity. Where such reinstatement is deemed essential, the matter shall be handled as a deviation as provided in § 1.109–3 of this subchapter.

(d) Clause 3 of Standard Form 19 entitled "Disputes" may be altered by inserting in the schedule or in the specifications, the following:

Alterations. As used in Clause 3 of the general provisions "head of the Federal agency" means the "Secretary" of the (insert name of Military Department).

(e) During a period of national emergency, Clause 5(c) of Standard Form 23A may be changed by deleting the word "unforeseeable" and inserting the phrase "other than normal weather" after the word "causes" where it first appears in the first sentence.

(f) Deletion or modification of provisions in the above forms shall be accomplished in the "Alterations" paragraph of Standard Form 23, or in an "Alterations" paragraph added in the schedule of Standard Form 19, or in the specifications, as may be appropriate.

(g) Whenever Standard Forms 19 and 19A are used for formally advertised contracts the Covenant Against Contingent Fees need not be included.

(h) Pending revision of Standard Form 23A, in order to reflect the amendment of the Copeland (Anti-Kickback) Act, the word "statements" shall be substituted for the word "affidavits" in Clause 24, line 9, of that form.

Subpart E—Special Contract and Order Forms

§ 16.500 Scope of subpart.

This subpart prescribes special forms for procuring certain supplies and services.

§ 16.501 Negotiated utility service contract forms.

This paragraph prescribes forms for the negotiated procurement of utility services which, as used herein, includes only electric, gas, water, sewage, and steam services, except where such services are procured under GSA area contracts as provided in Part 5, Subpart H, of this subchapter.

§ 16.501–1 Estimated annual cost $2,400 or less (DD Form 671).

(a) Utility services shall be procured without a written contract when the supplier's rates are regulated by a Federal, State, or other public regulatory body and when the annual cost of the services to be procured is estimated at the time of initiation of the service to be $2,400 or less: *Provided,* That, such services shall be procured by a written contract whenever—

(1) The supplier requires the execution of a contract or application form;

(2) A connection charge is involved; or

(3) The negotiation and execution of a contract is deemed to be advantageous to the Government.

(b) When utility services are purchased without written contract the citation of procurement authority, and the certification of receipt of service as billed by the supplier, will be accomplished in a simplified manner in accordance with departmental procedures. Rate schedules will not be required with each monthly billing when—

(1) The applicable rate schedule is in the possession of the procuring activity; or

(2) The invoice or billing indicates the total units of service rendered, the rate charged per unit, and the total charge.

(c) When the annual cost of the procurement is $2,400 or less and no connection charge is involved, but a written contract is required pursuant to paragraph (a) of this section, DD Form 671 (Negotiated Utility Service Contract) (Short Form) shall be used. Additional clauses, not inconsistent with those on the form, may be included in accordance with departmental procedures. Deviations from the provisions of the form are authorized when necessary in order to comply with State or local laws and regulations.

(d) Procurement of utility services where a connection charge is involved shall be in accordance with departmental procedures.

§ 16.501–2 Estimated annual cost over $2,400.

When the estimated annual cost of the services to be procured is over $2,400, the procurement shall be in accordance with departmental procedures.

§ 16.502 Negotiated Contract Form for Stevedoring Services (DD Form 674).

§ 16.502–1 General.

DD Form 674 is a Schedule prescribed for use in the procurement of stevedoring services within the United States. In negotiated contracts for stevedoring services, DD Form 674 (Schedule Page) shall be used in conjunction with the appropriate forms described in § 16.202. When contracting for stevedoring services outside the United States, the provisions of the Schedule will be used as a guide only.

§ 16.502–2 Conditions for use.

(a) Since conditions vary at different ports and sometimes within the same port, standard provisions covering all phases of stevedoring operations are impractical. While DD Form 674 will cover most situations adequately, the various provisions of Clause 1 of the Schedule may be deleted, added to, or modified as necessary to meet local conditions. Similarly, the various rate or price schedules in Clause 2 of the Schedule are included merely by way of illustration and may be modified as required. An index may be added if desired.

(b) DD Form 674 covers the loading and discharging of vessels only. If car loading and unloading or other dock and terminal work is to be performed under a stevedoring contract, specifications appropriate for such dock and terminal work should be added as separate items to Clauses 1 and 2 of the Form.

§ 16.502–3 Single job stevedoring services.

DD Form 674 is designed to cover stevedoring services for a period of time, usually a year, and is not required for use with respect to single job stevedoring services, such as the loading or discharging of a single vessel. In such cases, the form should be used as a guide in drafting a contract to meet the requirements of the particular procurement.

§ 16.503 Master Contract for Repair and Alternation of Vessels (DD Forms 731 and 731–1).

§ 16.503–1 General.

DD Form 731 is prescribed to establish in advance the terms upon which a contractor will effect repairs, alterations and additions to vessels under the provisions of job orders issued by contracting activities from time to time. The Master Contract (DD Form 731) shall be entered into with all prospective contractors located within the United States who request ship repair work and who possess the organization and facilities to perform such work satisfactorily. When using Master Contracts in work with prospective contractors located outside of the United States, DD Form 731 shall be used as a guide.

§ 16.503–2 Inviting bids or quotations for job orders.

When a requirement arises for the type of work covered by the Master Contract within the United States, bids or quotations will be solicited from prospective contractors who have previously executed a Master Contract, and also from prospective contractors, who possess the necessary qualifications and agree to execute a Master Contract before issuance of a Job Order. Whenever a prospective contractor is invited to submit a bid or quotation, the contracting officer shall notify the prospective contractor in reasonable detail of (a) the nature of the work to be performed, (b) the date the vessel will be available, and (c) the date the work is to be completed. In the event the prospective contractor is willing and able to perform the work, he shall be afforded an opportunity to inspect the work to be accomplished, and then he shall submit a bid or quotation for the performance of the work in accordance with the invitation for bids or request for quotations. If the contracting officer requests prospective contractors to negotiate, he shall also request a breakdown of the price quoted indicating the estimated cost of (1) direct labor, (2) material, (3) overhead, (4) any amount included for contingencies and profit, and (5) such other information as the contracting officer may consider necessary.

§ 16.503–3 Issuance of Job Order (DD Form 731–1).

After the receipt and evaluation of bids or quotations and selection of the contractor, the price for the work and other pertinent data shall be set forth in a Job Order (DD Form 731–1). The Job Order, by its terms, is subject to the provisions of the Master Contract. When the procurement has been formally advertised, issuance of a Job Order, signed by the Contracting Officer only, constitutes an award. When the procurement of the services has been negotiated the Job Order must also be signed by the contractor, and returned to the Contracting Officer.

§ 16.503–4 Emergency work required prior to issuance of a job order.

In the following circumstances, the Contracting Officer, without inviting bids or requesting quotations, may issue a written order for work to a contractor who has executed a Master Ship Repair contract: (a) when a vessel, its cargo, or stores would be endangered by delay in the performance of necessary repair work, or (b) when military necessity requires immediate work on a vessel. Contractors who sign the Master Contract

agree to perform the work required by such written orders within their capabilities. As soon as practical after the issuance of such written orders, the parties are required by the Master Contract to negotiate a price for the work. When agreement is reached upon a price, the Contracting Officer will issue a Job Order covering the work. The Master Contract provides for a procedure to resolve disputed questions with respect to price. However, the contractor is required to proceed diligently with the work pending a decision upon such disputes.

§ 16.503–5 Repair costs not readily ascertainable.

If the nature of any repairs is such that their extent and probable cost are not readily ascertainable, the Contracting Officer may issue a Job Order, on a negotiated or formally advertised basis, to determine the nature and extent of required repairs. The Job Order shall also provide that upon such determination, the contractor, if requested by the Contracting Officer, shall negotiate prices for the performance of such work as the Contracting Officer may deem necessary to accomplish the repairs. The prices so agreed upon shall be set forth in an amendment to the Job Order.

§ 16.503–6 Modification of master contracts.

(a) Since master contracts prescribe the terms and conditions under which contractors submit bids and competitive quotations for vessel repair work, it is essential that the provisions of all outstanding master contracts be kept uniform. It is also necessary that master contracts be kept up to date and reflect changes in statutes, executive orders, and procurement regulations applicable to vessel repair work. The DD Form 731 will be revised periodically, not more frequently than annually, to incorporate all changes made necessary by this subchapter revisions unless revision is required by statute or executive order. All outstanding master contracts shall be replaced using the latest revised form, effective as to all job orders issued on or after 60 days after the promulgation of such revision.

(b) To minimize interim amendments to Master Contracts, revisions to this subchapter changing clauses in the Master Contract form will provide appropriate direction with respect to any required amendments to Master Contracts. To the extent possible, amendments will be required only in matters resulting from changes in statutes or executive orders.

§ 16.504 Order for Paid Advertisements (Standard Forms 1143 and 1143a).

The following forms will be used to order and effect payment for advertisements in newspapers (see § 1.1005):

(a) Standard Form 1143, Advertising Order (original) (face) Public Voucher for Advertising (original) (reverse); and

(b) Standard Form 1143a, Advertising Order (memorandum) (face) Public Voucher for Advertising (memorandum) (reverse).

§ 16.505 Novation agreements.

§ 16.505–1 *Scope of section.* This section prescribes the policy and procedures for recognition of (a) a successor in interest to Government contracts when such interests are acquired incidental to a transfer of all the assets of a contractor or such part of its assets as is involved in the performance of the contracts or (b) a change of name of a contractor.

§ 16.505–2 Agreements to recognize a successor in interest.

(a) The transfer of a Government contract is prohibited by law (41 U.S.C. 15). However, the Government may recognize a third party as the successor in interest to a Government contract where the third party's interest is incidental to the transfer of all the assets of the contractor, or all that part of the contractor's assets involved in the performance of the contract. Examples include, but are not limited to:

(1) Sale of such assets;

(2) Transfer of such assets pursuant to merger or consolidation of corporations; and

(3) Incorporation of a proprietorship or partnership.

(b) Where it is consistent with the Government's interest to recognize a successor in interest to a Government contract, the Department concerned shall execute an agreement with the transferor and the transferee, which shall ordinarily provide in part that:

(1) The transferee assumes all the transferor's obligations under the contract;

(2) The transferor waives all rights under the contract as against the Government;

(3) The transferor guarantees performance of the contract by the transferee (a satisfactory performance bond may be accepted in lieu of such guarantee); and

(4) Nothing in the agreement shall relieve the transferor or the transferee from compliance with any Federal law. A form for such an agreement for use when the transferor and transferee are corporations, and all the assets of the transferor are transferred, is set forth below. This form may be adapted to fit specific cases, and may be used as a guide in preparing similar agreements for use in other situations.

AGREEMENT (FEB. 1959)

This Agreement, entered into as of ----------, 19--, by and between the ABC Corporation, a corporation duly organized and existing under the laws of the State of ---------- with its principal office in the City of ---------- (hereinafter referred to as the "Transferor"); the XYZ Corporation [formerly known as the LMN Corporation], a corporation duly organized and existing under the laws of the State of ---------- with its principal office in the City of ---------- (hereinafter referred to as the "Transferee") and the United States of America (hereinafter referred to as the "Government").

WITNESSETH:

Whereas, the Government, represented by various Contracting Officers of the Department of the ----------, has entered into certain contracts, letter contracts and purchase orders with the Transferor, [namely: ----------] or [as set forth in the attached list marked "Exhibit A" to this Agreement and herein incorporated by reference;] and the term "the contracts" as hereinafter used means the above contracts, letter contracts, and purchase orders, and all other contracts, letter contracts and purchase orders, including amendments and change orders thereto, heretofore made between the Government, represented by various Contracting Officers of the Department of the ----------, and the Transferor (whether or not performance and payment have been completed and releases executed, if the Government or the Transferor has any remaining rights, duties or obligations thereunder), and including amendments and change orders thereto hereafter made between the Government and the Transferee;

Whereas, as of ----------, 19--, the Transferor assigned, conveyed and transferred to the Transferee all the assets of the Transferor by virtue of a [term descriptive of the legal transaction involved] between the Transferor and the Transferee;

Whereas, the Transferee, by virtue of said assignment, conveyance and transfer, has acquired all the assets of the Transferor;

Whereas, by virtue of said assignment, conveyance and transfer, the Transferee has assumed all the duties, obligations and liabilities of the Transferor under the Contracts;

Whereas, the Transferee is in a position fully to perform the Contracts, and such duties and obligations as may exist under the Contracts;

Whereas, it is consistent with the Government's interest to recognize the Transferee as the successor party to the Contracts;

Whereas, there has been filed with the Government evidence of said assignment, conveyance or transfer [add if desired, "in the form of a certified copy of the list of the documents required by § 16.505–2 (c), below"];

[Where a change of name is also involved, such as a prior or concurrent change of name of the transferee, an appropriate recital shall be used; for example:

Whereas there has been filed with the Government a certificate dated ----------, 19--, signed by the Secretary of State of the State of ----------, to the effect that the corporate name of LMN Corporation was changed to XYZ Corporation on ----------, 19--];

Now therefore, in consideration of the premises, the parties hereto agree as follows:

1. The Transferor hereby confirms said assignment, conveyance and transfer to the Transferee, and does hereby release and discharge the Government from, and does hereby waive, any and all claims, demands, and rights against the Government which it now has or may hereafter have in connection with the Contracts.

2. The Transferee hereby assumes, agrees to be bound by, and undertakes to perform each and every one of the terms, covenants, and conditions contained in the Contracts. The Transferee further assumes all obligations and liabilities of, and all claims and demands against, the Transferor under the Contracts, in all respects as if the Transferee were the original party to the Contracts.

3. The Transferee hereby ratifies and confirms all actions heretofore taken by the Transferor with respect to the Contracts with the same force and effect as if the action had been taken by the Transferee.

4. The Government hereby recognizes the Transferee as the Transferor's successor in interest in and to the Contracts. The Transferee hereby becomes entitled to all right, title, and interest of the Transferor in and to the Contracts in all respects as if the Transferee were the original party to the Contracts. The term "Contractor" as used in the Contracts shall be deemed to refer to the Transferee rather than to the Transferor.

5. Except as expressly provided herein, nothing in this Agreement shall be construed as a waiver of any rights of the Government against the Transferor.

6. Notwithstanding the foregoing provisions, all payments and reimbursements heretofore made by the Government to the Transferor and all other action heretofore taken by the Government, pursuant to its obligations under any of the Contracts, shall be deemed to have discharged pro tanto the Government's obligations under the Contracts. All payments and reimbursements made by the Government after the date of this Agreement in the name of or to the Transferor shall have the same force and effect as if made to said Transferee and shall constitute a complete discharge of the Government's obligations under the Contracts, to the extent of the amounts so paid or reimbursed.

7. The Transferor and the Transferee hereby agree that the Government shall not be obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes or other expenses, or any increases therein, directly or indirectly arising out of or resulting from (i) said assignment, conveyance and transfer, or (ii) this Agreement, other than those which the Government, in the absence of said assignment, conveyance and transfer, or this Agreement, would have been obligated to pay or reimburse under the terms of the Contracts.

8. The Transferor hereby guarantees payment of all liabilities and the performance of all obligations which the Transferee (i) assumes under this Agreement, or (ii) may hereafter undertake under the Contracts as they may hereafter be amended or modified; and the Transferor hereby waives notice of and consent to any such amendment or modification.

9. Except as herein modified, the Contracts shall remain in full force and effect.

In Witness whereof, each of the parties hereto has executed this Agreement as of the day and year first above written.

(c) Prior to the execution of such agreement one copy of each of the following, as applicable, shall be deposited by the contractor with the Department concerned:

(1) A properly authenticated copy of the instrument by which the transfer of assets was effected, as for example, a bill of sale, certificate of merger, indenture of transfer, or decree of court;

(2) A list of all contracts, letter contracts, and purchase orders, which have not been finally settled between the Department concerned and the transferor, showing the contract number, the name and address of the respective procuring activities involved; and, if determined necessary, the total dollar value of each contract as amended, the type of contract involved, and the balance remaining unpaid;

(3) A certified copy of the resolutions of the Boards of Directors of the corporate parties authorizing the transfer of assets;

(4) A certified copy of the minutes of any stockholders meetings of the corporate parties necessary to approve the transfer of assets;

(5) A properly authenticated copy of the certificate and articles of incorporation of the transferee if such corporation was formed for the purpose of receiving the assets involved in the performance of the Government contracts;

(6) An opinion of counsel for the contractor parties that the transfer was properly effected in accordance with applicable law; and to the extent necessary;

(7) Evidence of the capability of the transferee to perform the contracts;

(8) Balance sheets of the transferor and the transferee as of dates immediately prior to and after the transfer of assets; and

(9) Evidence of security clearance requirements.

(10) Consent of sureties on all contracts listed under subparagraph (2) of this paragraph where bonds were required.

§ 16.505–3 Agreement to recognize change of name of contractor.

(a) Where only a change of name is involved, so that the rights and obligations of the parties remain unaffected, an agreement between the Department concerned and the contractor shall be executed effecting the amendment of all existing contracts between the parties so as to reflect the contractor's change of name. A form for such an agreement, which shall be adapted for specific cases, is set forth below.

AGREEMENT (MAR. 1956)

This agreement, entered into as of ----------, 19--, by and between the ABC Corporation [formerly the XYZ Corporation and hereinafter sometimes referred to as the "Contractor"], a corporation duly organized and existing under the laws of the State of ----------, and the United States of America, represented by the Department of the ----------, (hereinafter referred to as the "Government").

WITNESSETH:

Whereas the Government, represented by various Contracting Officers of the Department of the ----------, has entered into certain contracts, letter contracts and purchase orders with the XYZ Corporation, [namely: ----------] or [as set forth in the attached list marked "Exhibit A" to this Agreement and herein incorporated by reference;] and the term "the Contracts" as hereinafter used means the above contracts, letter contracts, and purchase orders, and all other contracts, letter contracts, and purchase orders, including amendments and change orders thereto, entered into between the Government, represented by various Contracting Officers of the Department of the ----------, and the Contractor (whether or not performance and payment have been completed and releases executed, if the Government or the Contractor has any remaining rights, duties, or obligations thereunder);

Whereas the XYZ Corporation, by an amendment to its certificate of incorporation, dated ----------, 19--, has changed its corporate name to the ABC Corporation;

Whereas a change of corporate name only is accomplished by said amendment, so that rights and obligations of the Government and of the Contractor under the Contracts are unaffected by said change; and

Whereas there has been filed with the Government documentary evidence of said change in corporate name;

Now therefore, in consideration of the premises, the parties hereto agree that the Contracts covered by this Agreement are hereby amended by deleting therefrom the name "XYZ Corporation" wherever it appears in the Contracts and substituting therefor the name "ABC Corporation."

In witness whereof, each of the parties hereto has executed this Agreement as of the day and year first above written.

(Corporate Seal)

(b) Prior to the execution of such agreement, one copy of each of the following shall be deposited by the contractor with the Department concerned:

(1) A copy of the instrument by which the change of name was effected, authenticated by a proper official of the State having jurisdiction;

(2) An opinion of counsel for the contractor that the change of name was properly effected in accordance with applicable law; and

(3) A list of all contracts, letter contracts, and purchase orders, which have not been finally settled between the Department concerned and the contractor, showing contract number, and the name and address of the respective procuring activities involved.

§ 16.506 Communication Service Authorization (DD Form 428).

DD Form 428 shall be used in accordance with Departmental procedures as an order for facilities and services under contracts for telephone and telegraph communications facilities and services.

Subpart F—Forms for Coordinated Procurement

§ 16.600 Scope of subpart.

This subpart prescribes forms to be used by a requiring Military Department to request that supplies be furnished by another Military Department or Agency in accordance with the provisions of Subpart K, Part 5 of this subchapter.

§ 16.601 Military Interdepartmental Purchase Request (DD Form 448, 448–1).

When an assignment of procurement responsibility has been made by the Secretary of Defense, DD Form 448, Military Interdepartmental Purchase Request (MIPR), shall be used by the requiring Military Departments to—

(a) Request the procurement of supplies by the procuring Department or agency; and

(b) Permit the procuring Department or Agency to authorize manufacture of the necessary supplies.

DD Form 448 is authorized for use in effecting other types of coordinated procurement pursuant to Subpart K, Part 5 of this subchapter. When a continuation sheet is necessary, DD Form 448–1 (MIPR Continuation Sheet) shall be used.

§ 16.602 Requisition for Coal, Coke, or Briquettes (DD Form 416).

DD Form 416 shall be used in lieu of DD Form 448 by the requiring Departments to request coal, coke, or fuel briquettes from the Procuring Department.

Subpart G—Contract Termination Forms

§ 16.700 Scope of subpart.

This subpart prescribes forms for use in connection with terminated contracts (see Part 8 of this chapter).

§ 16.701 Notices of termination.

There are no Department of Defense forms prescribed for use in issuing termination notices. However, § 8.801 sets forth texts of telegraphic and letter notices of termination which may be used.

§ 16.702 Settlement proposal forms.

Although the forms prescribed below are deisgned for use by prime contractors, they are equally suitable for use by subcontractors.

§ 16.702–1 Settlement proposal; inventory basis (DD Form 540).

DD Form 540 is prescribed for use by contractors in presenting claims resulting from the termination of fixed-price contracts when such claims are computed on the inventory basis. See § 8.802–1 of this chapter.

§ 16.702–2 Settlement proposal; total cost basis (DD Form 541).

DD Form 541 is prescribed for use by contractors in presenting claims resulting from the termination of either fixed-price or cost-reimbursement type contracts when such claims are computed on the total cost basis. See § 8.802–2 of this chapter.

§ 16.702–3 Settlement proposal for cost-reimbursement type contracts (DD Form 547).

DD Form 547 is prescribed for use by contractors in submitting claims resulting from the termination of cost-reimbursement type contracts. (See § 8.803 of this chapter.)

§ 16.702–4 Settlement proposal; short form (DD Form 831).

DD Form 831 is prescribed for use by contractors in submitting claims resulting from the termination of fixed-price contracts when the total claim is less than $1,000. (See § 8.802–3 of this chapter.)

§ 16.702–5 Inventory schedules (DD Forms 542, 543, 544, 545, and 832).

(a) The following forms are prescribed for use by contractors to support settlement proposals submitted on DD Forms 540, 541, or 547:

(1) DD Form 542 (Inventory Schedule A—Metals in Mill Product Form) and DD Form 542c (Continuation Sheet). See § 8.802–4 of this chapter.

(2) DD Form 543 (Inventory Schedule B—Raw Materials) and DD Form 543c (Continuation Sheet). See § 8.802–5 of this chapter.

(3) DD Form 544 (Inventory Schedule C—Work in Process) and DD Form 544c (Continuation Sheet). See § 8.802–6 of this chapter; and

(4) DD Form 545 (Inventory Schedule D—Dies, Jigs, Fixtures, etc., and Special Tools) and DD Form 545c (Continuation Sheet). See § 8.802–7 of this chapter.

In addition, the inventory schedule forms may be used for reporting inventory in connection with adjustments under the Changes clause and inventory excess to completed contracts.

(b) DD Form 832 (Termination Inventory Schedule E—Short Form) is prescribed for use by contractors to support settlement proposals submitted on DD Form 831. See § 8.802–8 of this chapter.

§ 16.702–6 Schedule of accounting information (DD Form 546).

DD Form 546 is prescribed for use by contractors in connection with settlement proposals (see § 8.307–1 of this chapter). See § 8.802–9 of this chapter.

§ 16.703 Application for partial payment (DD Form 548).

DD Form 548 is prescribed for use by contractors when applying for partial payments (see § 8.212–1(a) of this chapter). See § 8.802–10 of this chapter.

§ 16.704 Notice of audit status date (DD Form 547s).

DD Form 547s is prescribed for use by disbursing officers to fix the audit status date in accordance with § 8.405–4 of this chapter. See § 8.804 of this chapter.

§ 16.705 Forms of settlement agreement.

There are no Department of Defense forms prescribed for settlement agreements. However, appropriate approved texts for settlement agreements are set forth in § 8.806 of this chapter.

§ 16.706 Instructions for use of termination forms.

DD Form 1114 consists of instructions for the use of contract termination settlement and inventory schedule forms. See § 8.807 of this chapter.

Subpart H—Miscellaneous Forms

§ 16.800 Scope of subpart.

This subpart prescribes miscellaneous forms other than contract forms, for use in connection with the procurement of supplies and services.

§ 16.801 Statement and Certificate of Award (Standard Form 1036).

Standard Form 1036 (Statement and Certificate of Award), which briefly recites the circumstances relating to contract awards, shall be prepared and executed by the Contracting Officer in connection with every contract entered into after formal advertising, as required by § 2.407–7 of this subchapter, and shall be attached to the copy of the contract which is forwarded to the General Accounting Office.

§ 16.802 Statement on Contingent Fees (Standard Form 119).

Standard Form 119 is prescribed for use in accordance with §§ 1.506 through 1.509 of this subchapter.

§ 16.803 Compliance with labor laws, regulations and clauses.

§ 16.803–1 Construction contracts.

(a) Department of Labor Form DB–11 (Request for Determination) shall be used in accordance with the provisions of § 12.404–2 of this subchapter, for the submission of requests for the determination of wage rates by the Secretary of Labor.

(b) Standard Form 1093 (Schedule of Deductions from Payments to Contractors) shall be used in accordance with the provisions of § 12.404–9 of this subchapter, to report deductions against payment vouchers of contractors on account of failure to comply with labor laws, regulations and clauses.

(c)(1) The weekly payroll statement required by the contract clauses prescribed by § 12.403–1 or § 12.403–4 of this subchapter, should be in one of the following forms:

(i) "Payroll (For Contractor's Optional Use)," Form Sol. 184 (4–30–59) U.S. Department of Labor.

(ii) "Contractor's Weekly Payroll Statement," DD Form 879.

(iii) The contractor's own combined payroll-statement form, provided the statement is reproduced in exactly the language of Form Sol. 184 or DD Form 879 and the signer certifies on the statement: "The language of this statement is exactly the language of ----------."

(2) When the contract clauses prescribed by § 12.403–2 of this subchapter are applicable, contractors shall submit the weekly payroll statement but should omit or delete paragraphs (2) and (3).

(3) A supply of DD Forms 879 may be furnished to the contractors for their use. Forms Sol. 184 may be purchased from the Government Printing Office.

§ 16.803–2 Supply contracts.

(a) Department of Labor Form PC–12 (Rev. 3/49), a form letter explaining the Walsh-Healey Act, shall be furnished to the contractor in accordance with the provisions of § 12.603 of this subchapter.

(b) Department of Labor Form PC–13 (Rev. 1/50), is a poster required to be furnished to the contractor in accordance with the provisions of § 12.603 of this subchapter.

(c) DD Form 350 shall be used in accordance with the provisions of § 12.603 of this subchapter to furnish the Department of Labor with certain information in lieu of utilizing the Department of Labor Form PC–1 as required by administrative regulations of the Secretary of Labor.

§ 16.804 U.S. Government Tax Exemption Certificate (Standard Form 1094—Revised).

§ 16.804–1 Conditions for use.

Except when a different form is required by a cognizant state or local tax jurisdiction, Standard For 1094—Revised is prescribed for use as a certificate of exemption from State and local taxes when exemption is authorized by contract provisions and Departmental procedures. The form shall not be used as a certificate of exemption from Federal taxes.

§ 16.804–2 Supply of forms.

Supplies of Standard Form 1094—Revised will be obtained in accordance with Departmental procedures.

§ 16.805 Bond forms.

The bond forms listed below are available for use in accordance with departmental procedures. (See Part 10, Subparts A and B, of this subchapter.)

(a) Bid Bond (Standard Form 24).

(b) Annual Bid Bond (Standard Form 34).

(c) Performance Bond (Standard Form 25).

(d) Payment Bond (Standard Form 25A).

(e) Performance Bond (Corporate Co-Surety) (Standard Form 27).

(f) Payment Bond (Corporate Co-Surety) (Standard Form 27A).

(g) Continuation Sheet (Corporate Co-Surety) (Standard Form 27B).

(h) Affidavit of Individual Surety (Standard Form 28).

(i) Annual Performance Bond (Standard Form 35).

§ 16.806 Royalty report form (DD Form 783).

DD Form 783 is approved for use by contractors in making reports as required by the Reporting of Royalties (Foreign) clause of § 9.110 of this chapter. While it is preferred that contractors use DD Form 783 (and contractor reproduction of the form is authorized), the contractor may submit the royalty information in such other form as is considered desirable by the contractor: *Provided*, Such other form contains all of the information required by the reporting of royalties clause of the contract.

§ 16.807 Individual procurement action report (DD Form 350).

DD Form 350 is designed to provide essential procurement records and statistics through a single uniform reporting program as a basis for required recurring and special reports to the President, the Congress, the Office of Civil and Defense Mobilization, the General Accounting Office, the Renegotiation Board, the Small Business Administration, and other Federal agencies. Some of these requirements are referred to in §§ 1.302–2, 3.103, 3.211–4 and 3.216–4 of this subchapter. It also provides the Departments with a wide variety of significant data for procurement policy and management control purposes, and provides the Department of Labor with data required in connection with the administration of the Walsh-Healey Public Contracts Act.

§ 16.808 Duty Free Entry Certificate (Customs Form 7501).

[Reserved]

§ 16.809 Report of Inventions and Subcontracts (DD Form 882).

Form 882 is approved for optional use by contractors in reporting information required by paragraph (c)(ii), (c)(iii), and (h) of the Patent Rights clause set forth in § 9.107–2 of this subchapter.

§ 16.810 Bidders Mailing List Application (Standard Form 129) and Bidders Mailing List Application Supplement (DD Form 558–1)

§ 16.810–1 General.

Standard Form 129 shall be used in connection with the establishment and maintenance of bidders' lists as prescribed in § 2.205 of this subchapter. Supplemental information, where required, may be obtained by using DD Form 558–1 (Bidders' Mailing List Application Supplement).

§ 16.810–2 Conditions for use.

Additions to the bidders mailing list of a purchasing activity shall be made only after considering a properly completed application on Standard Form 129. The application shall be submitted and signed by the supplier (the manufacturer or regular dealer), as distinguished from an agent of the supplier. However, suppliers are not precluded from designating, in the Standard Form 129, their agents to receive Invitations for Bids and Requests for Proposals.

§ 16.810–3 Item listings for information of bidders.

In order to enable suppliers to indicate readily the items on which they will generally desire to submit bids or proposals, there shall be attached to Standard Form 129 forwarded to suppliers for completion, a list of items, or item groups, or an index to such listing of the items, procured by the purchasing activity maintaining the list, which are considered applicable to the supplier's type of business.

§ 16.811 Security requirements check list (DD Form 254).

The "Military Security Requirements" clause (§§ 7.104–12 and 7.204–12 of this subchapter) is included in all contracts which are classified "Confidential" including "Confidential—Modified Handling Authorized" or higher and in any other contracts the performance of which will require access to such classified information or material. Except where a letter or other written notice of classification is authorized by § 7.104–12, contracting officers shall inform contractors of the security classifications assigned to the various documents, materials, tasks, subcontracts, and components of classified contracts by using DD Form 254. Instructions for preparation are included in the form. The contracting officer is responsible for preparation of the form and shall insure that it is physically attached to the copies of the contract forwarded to the contractor, the material inspector, the security office of the cognizant Military Department of the facility receiving the prime contract or a subcontract thereunder, and such other interested agencies as may be determined by the Military Departments.

§ 16.812 Release and assignment forms.

(a) The forms set forth below are approved for use in complying with the assignment and release provisions of paragraph (f) of the compensation clauses for cost-plus-fixed-fee and cost-plus-incentive-fee contracts set forth in § 7.203–4 (a) and (b) of this subchapter. Forms differing from the approved forms may be used if the contracting officer determines that such forms meet the applicable requirements of the clause. Checks received by Army and Air Force contracting officers pursuant to paragraph 2 of the assignments in paragraphs (d) and (e) of this section shall be forwarded to the finance officer named in the contract.

(b) Set forth below is an approved form for the contractor's release required by paragraph (f) of the clauses in § 7.203–4 (a) and (b) of this subchapter.

CONTRACTOR'S RELEASE (JULY 1956)

Contract No. ------

Pursuant to the terms of Contract No. ------ and in consideration of the sum of -------- Dollars ($------) which has been or is to be paid under the said contract to ------ ---------- (herein-
(Contractor's name and address)
after called the Contractor) or its assignees, if any, the Contractor, upon payment of the said sum by the United States of America (hereinafter called the Government), does remise, release, and discharge the Government, its officers, agents, and employees, of and from all liabilities, obligations, claims, and demands whatsoever under or arising from the said contract, except:

1. Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor, as follows:

---

2. Claims, together with reasonable expenses incidental thereto, based upon the liabilities of the Contractor to third parties arising out of the performance of the said contract, which are not known to the Contractor on the date of the execution of this release and of which the Contractor gives notice in writing to the Contracting Officer within the period specified in the said contract.

3. Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of the said contract relating to patents.

The Contractor agrees, in connection with patent matters and with claims which are not released as set forth above, that it will comply with all of the provisions of the said contract, including without limitation those provisions relating to notification to the Contracting Officer and relating to the defense or prosecution of litigation.

In witness whereof, this release has been executed this ------ day of ---------- 19 ---.

(Contractor)

By ----------

Title ----------

Witnesses:

NOTE: In the case of a corporation, witnesses are not required, but the certificate below must be completed.

CERTIFICATE

I, ----------, certify that I am the ------

(Official title)

of the corporation named as Contractor in the foregoing release; that ---------- who signed said release on behalf of the Contractor was then ---------- of said corporation; that said release was duly signed for and in behalf of said corporation by authority of its governing body and is within the scope of its corporate powers.

[CORPORATE SEAL]

The following sentence shall be added to the final paragraph of the above release form when the related contract provides for reimbursement on a cost-plus-incentive-fee basis:

The Contractor further agrees that payments on account of claims not released as set forth above shall be subject to adjustment in accordance with paragraph (i) of the clause of the contract entitled "Allowable Cost, Incentive Fee, and Payment."

(c) Set forth below is an approved form for the assignee's release required by paragraph (f) of the clauses in § 7.203–4 (a) and (b) of this subchapter.

ASSIGNEE'S RELEASE (MAY 1958)

Contract No. ------

Pursuant to the terms of Contract No. ------ and in consideration of the sum of ------ Dollars ($------) which has been or is to be paid under the said contract by the United States of America (hereinafter called the Government) to the Contractor or its assignees, the ----------

(Assignee's name and address)

(i) A corporation organized and existing under the laws of the State of ----------,

(ii) A partnership consisting of ----------,

(iii) An individual trading as ----------,

(hereinafter called the Assignee), upon receipt of that part of the said sum due under its assignment, does remise, release and discharge the Government, its officers, agents, and employees, of and from all liabilities, obligations, claims, and demands whatsoever under or arising from the said contract and assignment, except:

1. Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor, as follows:

2. Claims, together with reasonable expenses incidental thereto, based upon the liabilities of the Contractor to third parties arising out of the performance of the said contract, which are not known to the Contractor or Assignee on the date of the execution of this release and of which the Contractor or Assignee gives notice in writing to the Contracting Officer within the period specified in the said contract.

3. Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of the said contract relating to patents.

The Assignee agrees, in connection with claims which are not released as set forth above, that final payment under the said contract does not modify the requirements and limitations imposed on the Contractor or Assignee by the contract or the assignment, including without limitation those provisions relating to notification to the Contracting Officer and relating to the defense or prosecution of litigation.

In witness whereof, this release has been executed this ------ day of ---------- 19---.

(Assignee)

By ----------

of said corporation; that said release was duly signed for and in behalf of said corporation by authority of its governing body and is within the scope of its corporate powers.

[CORPORATE SEAL]

The following sentence shall be added to the final paragraph of the above release form when the related contract provides for reimbursement on a cost-plus-incentive-fee basis:

The Assignee further agrees that payments on account of claims not released as set forth above shall be subject to adjustment in accordance with paragraph (i) of the clause of the contract entitled "Allowable Cost, Incentive Fee and Payment."

(d) Set forth below is an approved form for the contractor's assignment of refunds, rebates, credits, and other amounts, required by paragraph (f) of the clauses in § 7.203–4 (a) and (b) of this subchapter.

CONTRACTOR'S ASSIGNMENT OF REFUNDS, REBATES, CREDITS, AND OTHER AMOUNTS (MAY 1958)

Contract No. ------

Pursuant to the terms of Contract No. ------ and in consideration of the reimbursement of costs and payment of fee, as provided in the said contract and any assignment thereunder, the ----------

---
(Contractor's name and address)

(hereinafter called the Contractor) does hereby:

1. Assign, transfer, set over and release to the United States of America (hereinafter called the Government), all right, title and interest to all refunds, rebates, credits, and other amounts (including any interest thereon) arising out of the performance of the said contract, together with all the rights of action accrued or which may hereafte. accrue thereunder.

2. Agree to take whatever action may be necessary to effect prompt collection of all refunds, rebates, credits, and other amounts (including any interest thereon) due or which may become due, and to promptly forward to the (------*) checks (made payable to the Treasurer of the United States) for any proceeds so collected. The reasonable costs of any such action to effect collection shall constitute allowable costs when approved by the Contracting Officer as stated in the said contract and may be applied to reduce any amounts otherwise payable to the Government under the terms hereof.

3. Agree to cooperate fully with the Government as to any claim or suit in connection with refunds, rebates, credits, or other amounts due (including any interest thereon); to execute any protest, pleading, application, power of attorney, or other papers in connection therewith; and to permit the Government to represent it at any hearing, trial, or other proceeding, arising out of such claim or suit.

In witness whereof, this assignment has been executed this ------ day of ---------- 19---.

[CORPORATE SEAL]

§ 16.813 Change order price analysis (DD Form 1107).

§ 16.813–1 General.

DD Form 1107 (Change Order Price Analysis) provides a standard format for the submission of cost data by contractors when such data are required for the pricing of change orders under fixed-price or for cost-reimbursement type contracts. Contractor reproduction of the form is authorized.

§ 16.813–2 Conditions for use.

The contracting officer shall request the contractor to submit data required for the pricing of change orders on DD Form 1107, except where the contractor and the contracting officer have agreed otherwise.

§ 16.813–3 Forms superseded.

This Form supersedes Departmental forms currently used solely for this purpose effective when existing stocks of Departmental forms are exhausted or 1 January 1958, whichever is earlier.

§ 16.814 Experience data forms.

§ 16.814–1 Architect-engineer experience data (DD Form 1071).

This form is designed to assure the uniform submission of experience and organizational data by architect-engineer firms and shall be used in lieu of any corresponding Departmental form.

§ 16.814–2 Construction contractor experience data (DD Form 1072).

This form is designed to assure the uniform submission of experience and organizational data by construction contractors and shall be used in lieu of any corresponding Departmental form.

§ 16.815 Contract modification forms.

Sections 16.815—16.815–2 prescribe forms for the modification of contracts for the procurement of supplies or services.

§ 16.815–1 Change Order (DD Form 1319).

This form shall be used for any change order issued pursuant to the Changes clause of a contract and for any other contract modification for which the contractor's agreement is clearly not required. Examples of the latter include the correction of typographical mistakes, changes in the paying office, and changes in accounting and appropriation data.

§ 16.815–2 Supplemental Agreement (DD Form 1320).

This form shall be used for supplemental agreements, as defined in § 1.201–19 of this chapter.

PART 17—EXTRAORDINARY CONTRACTUAL ACTIONS TO FACILITATE THE NATIONAL DEFENSE

Sec.
17.000 Scope of part.
17.001 Approval of regulations and deviations.

Subpart A—General

17.101 Previous authority.
17.102 General policy.
17.103 Types of actions.
17.104 Definitions.

Subpart B—Requests for Contractual Adjustment

17.200 Scope.
17.201 Authority of the Secretaries.
17.202 Contract Adjustment Boards.
17.202–1 Organization.
17.202–2 Authority.
17.203 Authority of other officers and officials.
17.204 Standards for deciding cases.
17.204–1 General.
17.204–2 Amendments without consideration.
17.204–3 Mistakes.
17.204–4 Informal commitments.
17.205 Limitations upon exercise of authority.
17.205–1 General limitations.
17.205–2 Additional limitations upon authority below Secretarial level.
17.206 Contractual requirements.
17.207 Submission of requests by contractors.
17.207–1 Filing requests.
17.207–2 Form of requests by contractors.
17.207–3 Records.
17.207–4 Facts and evidence.
17.208 Processing cases.
17.208–1 Investigation.
17.208–2 Disposition below secretarial level.
17.208–3 Submission of cases to the Contract Adjustment Board.
17.208–4 Processing by Contract Adjustment Boards.
17.208–5 Maintenance of records.
17.208–6 Interdepartmental coordination.

Subpart C—Residual Powers

17.300 Scope.
17.301 Delegations of authority.
17.302 Standards for using residual powers.
17.303 Procedures.
17.304 Maintenance of records.

Subpart D—Records of Requests and Dispositions

17.400 Scope of subpart.
17.401 Preliminary records.
17.402 Final records.
17.403 Sample format for preliminary and final records.

Subpart E—Act and Executive Order

17.500 Scope of subpart.
17.501 Act of August 28, 1958 (Public Law 85–804, 50 U.S.C. 1431–1435).
17.502 Executive Order No. 10789 of November 14, 1958 (23 F.R. 8897).

AUTHORITY: §§ 17.000 to 17.502 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 17.000 Scope of Part.

As distinguished from the normal principles and procedures set forth in the other parts of this subchapter, this part establishes uniform regulations for entering into and amending or modifying contracts to facilitate the national defense under the extraordinary emergency authority granted by the Act of August 28, 1958 (Public Law 85–804); 72 Stat. 972; 50 U.S.C. 1431–1435, set forth in § 17.501, referred to in this part as "the Act," and Executive Order No. 10789, dated November 14, 1958 (23 F.R. 8897), set forth in § 17.502, referred to in this part as "the Executive Order." The Act empowers the President to authorize departments and agencies exercising functions in connection with the national defense, to enter into contracts or into amendments or modifications of contracts and to make advance payments, without regard to other provisions of law relating to the making, performance, amendment, or modification of contracts, whenever he deems that such action would facilitate the national defense. This extraordinary authority may be exercised only in the unusual circumstances described in this part. This part does not cover advance payments (see Defense Contract Financing Regulations, AR 715–6; NAVEXOS P–1006; AFR 173–133, Part 163, Subchapter E, of this title).

§ 17.001 Approval of regulations and deviations.

The Executive Order authorizes the Secretaries of Defense, the Army, the Navy and the Air Force, respectively, under regulations prescribed or approved by the Secretary of Defense, to exercise this authority. This part has been concurred in by the Secretaries of the Army, the Navy, and the Air Force in accordance with §§ 1.101 and 1.105 of this chapter and has been approved by the Secretary of Defense. Notwithstanding § 1.105 of this chapter, any amendments to this part developed in accordance with the procedure specified in § 1.105 of this chapter and any deviations proposed to be made under the procedure specified in § 1.109 of this chapter shall be concurred in by the Secretaries of the Army, the Navy, and the Air Force, and approved by the Secretary of Defense.

Subpart A—General

§ 17.101 Previous authority.

Title II of the First War Powers Act, as amended and extended, expired June 30, 1958. Executive Order No. 10210, dated February 2, 1951; and the following joint regulations are thus no longer applicable:

(a) "Regulations Governing the Exercise of Certain Authority Granted by Title II of the First War Powers Act, as Amended, and Executive Order No. 10210, Issued Thereunder", dated February 21, 1951; and the amendment thereto dated January 12, 1954;

(b) "Coordinated Procedures to be Applied by the Army, Navy and Air Force for the Disposition of Requests by Contractors under Title II of the First War Powers Act, as Amended by Public Law 921, 81st Congress", dated June 23, 1951; and

(c) "Regulations Governing the Authority To Contract Under Title II of the First War Powers Act, as Amended, and Executive Order No. 10210, Issued Thereunder", dated July 17, 1951.

§ 17.102 General policy.

(a) The authority conferred by the Act shall be delegated by the Secretaries of the Military Departments in a manner which will best serve the logistic functions of the Departments and, at the same time, retain control over the exercise of the authority at a level high enough to insure uniformity of action.

(b) The authority conferred by the Act shall not be utilized so as to encourage carelessness and laxity on the part of persons engaged in the defense effort nor be relied upon by a Military Department where other adequate legal authority exists in the Department.

(c) The actions authorized under the Act shall be processed as expeditiously as practicable consistent with the care, restraint, and exercise of sound judgment, appropriate to such extraordinary authority. The interests of other departments and agencies of the Government shall be considered.

§ 17.103 Types of actions.

Three types of actions may be taken by or pursuant to the direction of an approving authority under the Act. These are—(a) contractual adjustments such as amendments without consideration, correction of mistakes, and formalization of informal commitments (see Subpart B of this part); (b) making advance payments (not covered by this part); and (c) exercise of "residual powers," which refers to all other authority, under the Act (see Subpart C of this part).

§ 17.104 Definitions.

(a) The term "approving authority" as used in this part means a Contract Adjustment Board, or an officer or official having authority to approve actions under the Act. This authority is distinguished from authority to take appropriate contractual action pursuant to such approval.

(b) The term "Secretarial level" as used in this part means an official at or above the level of an Assistant Secretary or his Deputy, and a Contract Adjustment Board established by the Secretary concerned.

Subpart B—Requests for Contractual Adjustment

§ 17.200 Scope.

This subpart provides for the establishment of a Contract Adjustment Board within each Military Department and describes certain delegations of authority. It also sets forth standards and the procedures for disposition of requests for contractual adjustment under the Act.

§ 17.201 Authority of the Secretaries.

The Secretary of each Department may delegate in writing his authority under the Act and the Executive Order, subject to the following limitations:

(a) Authority to approve actions under the Act obligating the United States in an amount in excess of $50,000 shall not be delegated below the Secretarial level; and

(b) Authority to approve any amendment without consideration which increases the stated contract price or unit price may not be delegated below the Secretarial level except in extraordinary cases or classes of cases as to which the Secretary involved finds that there are special circumstances clearly justifying delegation to a lower level.

The delegations described in §§ 17.202 and 17.203 shall not be construed as limiting the authority of the Secretaries to modify or make other delegations. Copies of all delegations and successive redelegations shall be transmitted to the Assistant Secretary of Defense for Supply and Logistics at the time of issuance.

§ 17.202 Contract Adjustment Boards.

§ 17.202–1 Organization.

A Contract Adjustment Board has been established within each Military Department by the Secretary thereof. Such Boards consist of a Chairman and not less than two or more than six other members, one of whom may be designated the Vice-Chairman. A majority constitutes a quorum for any purpose and the concurring vote of a majority of the total Board membership constitutes an action of the Board. Alternates may be appointed to act in the absence of members.

§ 17.202–2 Authority.

The Contract Adjustment Board in each Department has been given authority to approve, authorize and direct appropriate action under the standards set forth in § 17.204 in any case submitted to it by an officer or official listed in § 17.203 or otherwise designated by the Secretary concerned, and to make all determinations and findings which are necessary or appropriate. Where deemed necessary to the exercise of the foregoing authority, such Boards may authorize any appropriate action not precluded by § 17.205, including the modification or release of any obligations. The decisions of such Boards shall be final, but each Board may reconsider and modify, correct, or reverse any of its previous decisions. Such Boards shall determine and adopt their own procedures and have authority to do all acts and things necessary or appropriate for the conduct of their functions.

§ 17.203 Authority of other officers and officials.

(a) The following authority has been delegated to the officers and officials listed in paragraph (b) of this section:

(1) Authority to deny any request for contractual adjustment under this subpart;

(2) Subject to the limitations set forth in § 17.205, authority to approve, authorize and direct appropriate action, and to make all determinations and findings which are necessary or appropriate, in the examples of mistake and informal commitment described in §§ 17.204–3 and 17.204–4, including, where necessary thereto, authority to modify or release unaccrued obligations of any sort and to extend delivery and performance dates; and

(3) Authority to submit to the cognizant Contract Adjustment Board for its determination, together with his recommendation—

(i) Any case where the officer or official recommends a specific adjustment which he does not have authority to approve under subparagraph (2) of this paragraph; and

(ii) Any doubtful or unusual case.

The foregoing authority may be redelegated only with the written approval of the Secretary concerned.

(b) The delegations of authority which have been made are as follows:

(1) The Army:

Deputy Chief of Staff for Logistics;
Chief, Contracts Branch, Procurement Division, Office of the Deputy Chief of Staff for Logistics;
Z.I. Army Commanders;
Commanding General, Military District of Washington, U.S. Army;
Commander in Chief, United States Army Europe;
Commanding General, United States Army Alaska;
Commanding General, United States Army Caribbean;
Commanding General, United States Army Japan;
Commanding General, Hawaii/25th Infantry Division;
Chiefs of Technical Services; and
Chief, National Guard Bureau.

(2) The Navy:

Chief of each Bureau;
Chief of Naval Research;
Aviation Supply Officer, Philadelphia;
Commander, Military Sea Transportation Service;
Commandant of the United States Marine Corps;
Executive Director, Military Medical Supply Agency, New York; and
Executive Director, Military Petroleum Supply Agency.

(3) The Air Force:

Chief of Staff; Vice Chief of Staff; and Deputy Chief of Staff, Materiel;
Commander, Air Materiel Command;
Commander, United States Air Force, Europe;
Commander, Pacific Air Force;
Commander, Alaska Air Command;
Commander, Caribbean Air Command;
Commander, Air Materiel Force, European Area; and
Commander, Air Materiel Force, Pacific Area.

§ 17.204 Standards for deciding cases.

§ 17.204–1 General.

The mere fact that losses occur under a Government contract is not, by itself, a sufficient basis for the exercise of the authority conferred by the Act. Whether, in a particular case, appropriate action such as amendment without consideration, correction of a mistake or ambiguity in a contract, or formalization of an informal commitment, will facilitate the national defense is a matter of sound judgment to be made on the basis of all of the facts of such case. Although it is obviously impossible to predict or enumerate all the types of cases with respect to which action may be appropriate, examples of certain cases or types of cases where action may be proper are set forth in §§ 17.204–2 to 17.204–4. Even if all of the factors contained in any of the examples are present, other factors or considerations in a particular case may result in a denial of the request. These examples are not intended to exclude other cases where a Contract Adjustment Board determines that the circumstances warrant action.

§ 17.204–2 Amendments without consideration.

(a) Where an actual or threatened loss under a defense contract, however caused, will impair the productive ability of a contractor whose continued performance on any defense contracts or whose continued operation as a source of supply is found to be essential to the national defense, the contract may be adjusted but only to the extent necessary to avoid such impairment to the contractor's productive ability.

(b) Where a contractor suffers a loss (not merely a diminution of anticipated profits) on a defense contract as a result of Government action, the character of the Government action will generally determine whether any adjustment in the contract will be made and its extent. Where the Government action is directed primarily at the contractor and is taken by the Government in its capacity as the other contracting party, the contract may be adjusted if fairness so requires; thus, where such Government action, although not creating any liability on its part, increases the cost of performance, considerations of fairness may make appropriate some adjustment in the contract.

§ 17.204–3 Mistakes.

A contract may be amended or modified to correct or mitigate the effect of a mistake, including the following examples:

(a) A mistake or ambiguity which consists of the failure to express or to express clearly in a written contract the agreement as both understood it;

(b) A mistake on the part of the contractor which is so obvious that it was or should have been apparent to the contracting officer; and

(c) A mutual mistake as to a material fact.

Amending contracts to correct mistakes with the least possible delay normally will facilitate the national defense by expediting the procurement program and by giving contractors proper assurance that such mistakes will be corrected expeditiously and fairly.

§ 17.204–4 Informal commitments.

Informal commitments may be formalized under certain circumstances to permit payment to persons who have taken action without a formal contract; for example, where any person, pursuant to written or oral instructions from an officer or official of a Military Department and relying in good faith upon the apparent authority of the officer or official to issue such instructions, has arranged to furnish or has furnished property or services to a Military Department or to a defense contractor or subcontractor without formal contractual coverage for such property or services. Formalization of commitments under such circumstances normally will facilitate the national defense by assuring such persons that they will be treated fairly and paid expeditiously.

§ 17.205 Limitations upon exercise of authority.

§ 17.205–1 General limitations.

(a) The Act is not authority for:

(1) The use of the cost-plus-a-percentage-of-cost system of contracting;

(2) The making of any contract in violation of existing law relating to limitation of profit or fees;

(3) The negotiation or purchases of or contracts for property or services required by law to be procured by formal advertising and competitive bidding; or

(4) The waiver of any bid, payment, performance or other bond required by law.

(b) No contracts, amendments, or modifications shall be entered into under the authority of the Act:

(1) Unless a finding is made that the action will facilitate the national defense;

(2) Unless other legal authority in the Department concerned is deemed to be lacking or inadequate; and

(3) Except within the limits of the amounts appropriated and the statutory contract authorization.

(c) No contract shall be amended or modified:

(1) Unless the request therefor has been filed before all obligations have been discharged and final payment made thereunder; and

(2) If the contract was negotiated under 10 U.S.C. 2304(a)(15), to increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder.

(d) No informal commitment shall be formalized (1) unless a request for payment has been filed within six months after arranging to furnish or furnishing property or services in reliance upon the commitment and (2) unless it is found that at the time the commitment was made it was impracticable to use normal procurement procedures.

§ 17.205–2 Additional limitations upon authority below Secretarial level.

The exercise of authority by officers and officials below the Secretarial level pursuant to § 17.203(a)(2) shall be subject to the following additional limitations:

(a) The action shall not deal with or directly affect any matter which has been submitted to the General Accounting Office;

(b) The action shall not obligate the Government in an amount in excess of $50,000;

(c) The action shall not release a contractor from performance of an obligation—

(1) Priced in excess of $50,000; or

(2) Where reprocurement is contemplated, unless the approving authority finds that the estimated actual or potential increase in cost to the Government will not exceed $50,000;

(d) The action shall not involve the disposal of Government surplus property;

(e) Mistakes shall not be corrected by action obligating the Government in an amount in excess of $500 unless notice of the mistake was given to the contracting officer before completion of the contractor's work or the effective date of contract termination; and

(f) The correction of a contract because of a mistake in its making shall not result in increasing the original contract price above the next lowest responsive bid of a responsible bidder in the case of a formally advertised procurement, or the amount of the next lowest responsible proposal of a responsible offeror considered in the case of a negotiated procurement.

§ 17.206 Contractual requirements.

Every contract entered into or amended or modified pursuant to this part shall contain:

(a) A citation of the Act and Executive Order;

(b) A brief statement of the circumstances justifying the action;

(c) A recital of the finding that the action will facilitate the national defense;

(d) The contract clause, entitled "Covenant Against Contingent Fees," as set forth in § 7.103–20 of this chapter;

(e) The contract clause, entitled "Examination of Records," as set forth in § 7.104–15 of this chapter except as provided in § 6.701 of this chapter as to purchases made under the Mutual Security Act;

(f) The contract clause entitled "Nondiscrimination in Employment," as set forth in § 12.802 of this chapter, wherever required under Subpart H, Part 12 of this chapter;

(g) The contract clause, entitled "Assignment of Claims" as set forth in § 7.103–8 of this chapter;

(h) If otherwise applicable, the contract clauses entitled "Walsh-Healey Public Contracts Act," "Davis-Bacon Act," "Copeland ('Anti-Kickback') Act—Nonrebate of Wages," and "Eight-Hour Laws—Overtime Compensation," as set forth respectively in §§ 12.604, and 12.403 of this chapter; and

(i) Any other clauses set forth in this subchapter which are appropriate to the particular procurement.

§ 17.207 Submission of requests by contractors.

§ 17.207–1 Filing requests.

Any person seeking an adjustment under the standards set forth in § 17.204 called the "contractor" in this part) may file a request in duplicate with the cognizant contracting officer or his duly authorized representative. If such filing is impracticable, requests will be deemed to be properly filed if filed with the following addressees for forwarding to the cognizant contracting officer:

(a) In the Army,

Deputy Chief of Staff for Logistics
Attn: Chief, Contracts Branch
Department of the Army
Washington 25, D.C.;

(b) In the Navy,

The Navy officer or official listed in § 17.203

(b)(2) appearing to be cognizant of the contract or commitment involved; and

(c) In the Air Force,

Commander, Air Materiel Command
Attn: Readjustment Division, MCPR
Wright-Patterson Air Force Base, Ohio

§ 17.207–2 Form of requests by contractors.

The contractor's request shall normally consist of a letter to the contracting officer stating:

(a) The precise adjustment requested;

(b) The essential facts summarized in chronological narrative form;

(c) The contractor's conclusions based on such facts and showing, in terms of the standards set forth in § 17.204, why the contractor considers itself entitled to the adjustment requested;

(d) Whether all obligations have been discharged under the contracts involved;

(e) Whether final payment has been made under the contracts involved;

(f) Whether any proceeds from the request will be subject to any assignment or other transfer, and to whom; and

(g) Whether the contractor has sought the same, or a similar or related, adjustment from the General Accounting Office or any other part of the Government, or anticipates doing so.

§ 17.207–3 Records.

At the time the request is filed, a preliminary record as described in this subpart shall be prepared by the activity responsible for the case under § 17.203. A copy of each such record prepared during each month shall be forwarded within 30 days after the close of the month as follows:

(a) Army activities, to DCSLOG, Attn: Procurement Division;

(b) Navy activities, to the Office of Naval Material. (Navy Contract Adjustment Board); and

(c) Air Force activities, to the Air Force Contract Adjustment Board, Office of the Assistant Secretary of the Air Force (Materiel).

§ 17.207–4 Facts and evidence.

(a) The contracting officer, or any officer, official, or Contract Adjustment Board, having authority to act upon the contractor's request, may, where considered pertinent, request the contractor to furnish additional facts, and evidence, as described in this paragraph, and, in addition, where applicable, as described in paragraph (b), (c), (d), or (e) of this section (in complying with such requests, the contractor may also submit other statements and evidence which he may consider helpful to the case):

(1) If written contracts are involved, a brief description of the contracts, indicating the dates of execution and amendments thereto, the items being procured, the price or prices and delivery schedule and revisions thereof, and such other special contractual provisions as may be relevant to the request;

(2) A history of performance indicating when work under the contracts or commitments was begun, the progress made to the present, an exact statement of the contractor's remaining obligations, and the contractor's expectations regarding completion thereof;

(3) A statement of payments received, payments due, and payments yet to be received or to become due, including advance and progress payments, and amounts withheld by the Government, and information as to other obligations of the Government; if any, which are yet to be performed under the contract;

(4) A statement giving a detailed analysis of the monetary elements of the request including precisely how the actual or estimated dollar amount of the request was arrived at, the effect of approval or denial on the contractor's profits before Federal income taxes, and whether the costs for which reimbursement is requested have been included as a part of its gross costs in statutory renegotiation proceedings, together with the contractor's renegotiation status for the relevant years;

(5) If a written contract is involved, a statement of the contractor's understanding of why the subject matter of the request cannot now be and could not at the time it arose be disposed of under the terms of the contract itself;

(6) The best evidence available to the contractor in support of any facts alleged by the contractor, including contemporaneous memoranda, correspondence, affidavits, and any other material tending to establish matters of fact;

(7) Relevant financial statements, cost analyses, or other such data, preferably certified by a certified public accountant, including such additional financial data as is necessary to explain fully and to support the monetary elements of the request for adjustment;

(8) A list of persons (within the Department of Defense, in the employ of the contractor, or otherwise connected with the contract) who have some factual knowledge of the subject matter, including where possible the name, office or title, address and telephone number of each such person;

(9) A statement and evidence of steps taken to mitigate loss and reduce claims to a minimum; and

(10) Such other statements or evidence as may be requested by the contracting officer.

(b) Amendments without consideration under § 17.204–2(a): In addition to the facts and evidence listed in paragraph (a) of this section, where a request involves possible amendment without consideration, and essentiality to the national defense is a factor, the contractor may be asked to furnish:

(1) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances and profit;

(2) A statement and evidence of the contractor's present estimate of total costs under the contracts involved if enabled to complete, broken down between costs accrued to date of request, and run-out costs, and as between costs for which the contractor has made payment and those for which it is indebted at the time of the request;

(3) A statement and evidence of the contractor's estimate of the final price of the contracts involved giving effect to all escalation, changes, extras and the like, known or contemplated by the contractor;

(4) A statement of any claims known or contemplated by the contractor against the Government involving the contracts in question, other than those stated in response to subparagraph (3) of this paragraph;

(5) An estimate of the total profit or loss under the contracts involved if enabled to complete at the final contract price (see (3) above) broken down between profit or loss to date, and runout profit or loss;

(6) An estimate of the total profits from other Government business, and all other sources, during the period from the date of the first contract involved to the estimated date of completion of all the contracts involved;

(7) A statement of the amount of any tax refunds and an estimate of those anticipated during or for the period from the date of the first contract involved through the estimated completion date of all the contracts involved;

(8) A statement in detail as to efforts the contractor has made to obtain funds from commercial sources to enable it to complete performance of the contracts involved;

(9) A statement of the minimum amount necessary as an amendment without consideration to enable the contractor to complete performance of the contracts involved, and the detailed basis for that amount;

(10) An estimate of the time required to complete each contract, if the request is granted;

(11) A statement of the factors which have caused the loss under the contracts involved;

(12) A statement as to the course of events anticipated if the request is denied;

(13) Balance sheets, preferably certified by a certified public accountant, as of the end of the contractor's fiscal year first preceding the date of the first contract, as of the end of each subsequent fiscal year, as of the date of request, and projected as of the date of completion of all the contracts assuming the contractor is enabled to complete the contracts at the final prices estimated pursuant to subparagraph (3) of this paragraph, together with income statements for annual periods subsequent to the date of the first balance sheet. Balance sheets and income statements should be both consolidated, and by affiliates, and should show all transactions between the contractor and its affiliates, stockholders, and partners, including loans to the contractor guaranteed by any stockholder or partner; and

(14) A list of all salaries, bonuses and all other forms of compensation of the principal officers or partners and of all dividends and other withdrawals, and all payments to stockholders in any form since the date of the first contract involved.

(c) Amendments without consideration under § 17.204–2(b). In addition to the facts and evidence listed in paragraph (a) of this section, where a request involves possible amendment without consideration because of Government action, and essentiality to the national defense is not a factor, the contractor may be asked to furnish:

(1) A clear statement of the precise Government action which the contractor considers caused a loss under the contract with evidence to support each essential fact;

(2) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit;

(3) The estimated total loss suffered under the contract, with detailed supporting analysis; and

(4) The estimated loss resulting from the Government action, with detailed supporting analysis.

(d) Correction of mistakes: In addition to the facts and evidence listed in paragraph (a) of this section, where a request involves possible correction of a mistake, the contractor may be asked to furnish:

(1) A statement and evidence of the precise mistake or error that was made, the ambiguity that exists, or the misunderstanding that arose, showing of what it consisted and how it occurred, and the intention of the parties;

(2) A statement explaining when the mistake was discovered, when notice of mistake was given to the contracting officer, and whether given before completion of work under, or the effective date of termination of, the contract;

(3) An estimate of loss or profit under the contract with detailed supporting analysis; and

(4) An estimate of the increase in cost to the Government resulting from the adjustment requested with detailed supporting analysis.

(e) Formalization of informal commitments: In addition to the facts and evidence listed in paragraph (a) above, where a request involves possible formalization of an informal commitment, the contractor may be asked to furnish:

(1) Copies of any written instructions or assurances, or a statement under oath of any oral instructions or assurances made to the contractor, with identification of the Government officer or official making such statement;

(2) A statement as to when the property or services were furnished or arranged to be furnished, and to whom;

(3) Evidence that the contractor relied upon the instructions or assurances, with a full description of the circumstances which led it so to rely, and that the contractor intended; at the time of performing the work, to be compensated directly for it by the Government and did not anticipate recovery of the costs in some other way;

(4) A cost breakdown supporting the amount claimed as a fair compensation for the work performed; and

(5) A statement and evidence of why it was impracticable to provide for the work performed in an appropriate contractual instrument.

§ 17.208 Processing cases.

§ 17.208–1 Investigation.

Officers and officials listed in § 17.203 (b) shall be responsible in all cases for making a thorough investigation of all facts and issues relevant to a request. Facts and evidence shall be obtained

from contractor and Government personnel, and shall include signed statements of material facts within the knowledge of individuals where documentary evidence is lacking, and audits where considered necessary to establish financial or cost facts. The investigation shall establish (a) the facts essential to meeting the standards for deciding the particular case and (b) the essential facts as to who has authority to approve the request.

§ 17.208–2 Disposition below Secretarial level.

(a) *Disposition.* In each case where the request for relief is denied or approved finally below Secretarial level (see § 17.203), the approving authority shall sign a Memorandum of Decision, whether approving or denying the request, which memorandum shall be dated and shall contain the following:

(1) The name and address of the contractor, the contract identification, and the nature of the request;

(2) The decision reached and the actual cost or estimated potential cost, if any, of the decision;

(3) A concise description of the property or services involved;

(4) A statement of the circumstances justifying the decision;

(5) If some adjustment action is approved, a statement in substantially the following form, "I find that the action authorized herein will facilitate the national defense"; and

(6) Identification of any of the foregoing information which is classified "Confidential," including "Confidential—Modified Handling Authorized," or higher.

(b) *Records.* Each of the following documents shall be submitted to the addressees set forth in § 17.207–3 within 30 days after the close of the month during which it is executed:

(1) Two copies of the Memorandum of Decision;

(2) One copy of the contractual document implementing any decision, approving contractual action; and

(3) One copy of a final record, as prescribed in Subpart D of this part, prepared by the activity responsible for the case under § 17.203. The item in subparagraph (2) of this paragraph will not be submitted in the case of the Army.

§ 17.208–3 Submission of cases to the Contract Adjustment Board.

(a) *Statement to Board.* Cases to be submitted for consideration of the cognizant Contract Adjustment Board shall be forwarded by means of a letter signed by the officer or official responsible for the case under § 17.203. The letter shall state:

(1) The nature of the case;

(2) The basis for the Board's authority to act under §§ 17.202 and 17.203;

(3) The findings of fact essential to the case (see § 17.207–4) arranged chronologically with cross-references to supporting enclosures;

(4) The conclusions drawn from applying the standards for deciding cases, as set forth in § 17.204, to the findings of fact; and

(5) The disposition recommended, and, if contract action is recommended, the opinion of the signer that such action will facilitate the national defense; and

(6) Where the case involves a Mutual Security Act purchase within the scope of § 6.701–1(b) of this chapter, a recommendation as to the impracticability of inclusion of the Examination of Records clause set forth in § 7.104–15 of this chapter (see §§ 17.206(e) and 6.701).

The letter shall inclose copies of the contractor's request, the evidentiary materials, and all indorsements, reports and comments of cognizant Government officials. The letter and enclosure shall be in duplicate.

(b) *Amendments without consideration under § 17.204–2(a).* A letter to the Board recommending an amendment without consideration under the standards of § 17.204–2(a), should, in addition to the requirements of paragraph (a) of this section, ordinarily cover, with supporting data as appropriate, the findings and conclusions with respect to all of the items set forth in § 17.207–4(b) and, in addition, findings as to:

(1) The contractor's performance record, including the quality of product, rate of production and promptness of deliveries;

(2) The importance to the Government, particularly to the operating forces, of the performance of the contract by contractor and the importance of the contractor to the national defense;

(3) Forecast of future contracts with the contractor; and

(4) Other available sources of supply for the supplies or services covered by the contract, and the time and cost of having contract performance completed by such other sources.

(c) *Forwarding to Boards.* Cases to be submitted to the Boards shall be forwarded through the following channels:

(1) In the Army and the Navy, normally, each case shall be sent from the Head of a Procuring Activity directly to the Board;

(2) In the Air Force, normally, each case shall be sent from Air Materiel Command, through the Deputy Chief of Staff, Materiel, Headquarters USAF, and after review there, to the Board; or if the case comes from an overseas command, it shall be sent through the Commander, Air Materiel Command, ATTN: Readjustment Division, MCPR, and after review there, to the Board through the Deputy Chief of Staff Materiel, Headquarters, USAF.

§ 17.208–4 Processing by Contract Adjustment Boards.

(a) *Disposition.* Upon receipt of cases, the Contract Adjustment Boards, each in accord with its own procedures, shall render decisions as expeditiously as practicable. The chairman shall sign a Memorandum of Decision disposing of the case, which shall be dated and shall contain the information required by § 17.208–2(a) 1 to (5). The Memorandum of Decision shall omit any information classified "Confidential," including "Confidential—Modified Handling Authorized," or higher. The Board's decision will be communicated to the appropriate officer or official for implementing action.

(b) *Records.* When the Board decisions are implemented, the documents listed in § 17.208–2(b) (2) and (3) shall be prepared and submitted to the cognizant Board, except that, in the case of the Army, the record required by § 17.208–2(b)(3) shall be forwarded to the Programs and Budget Branch, Procurement Division, DCSLOG. The activity which forwarded the case to the Board shall be responsible for the preparation and submission of these documents.

§ 17.208–5 Maintenance of records.

The records required by §§ 17.207–3, 17.208–2(b) and 17.208–4(a) and (b) shall be maintained in the Army by DCSLOG and in the Navy and Air Force, by the respective Boards.

§ 17.208–6 Interdepartmental coordination.

(a) *General.* Where a case involves matters of interest to more than one department or agency, any interested Military Department shall maintain liaison with other Military Departments and other departments and agencies of the Government and may take such joint action as may be proper under the circumstances, including holding joint meetings or hearings.

(b) *Cases involving funds of other Military Departments.* Requests for adjustment within any category, where the funds of other than the procuring Department may be required, shall not be approved by the procuring Department until advice is requested and received from the requiring Department that additional funds will be made available. The request for such advice shall disclose the following data:

(1) Contractor's name;

(2) MIPR number;

(3) Contract number;

(4) Amount of proposed relief;

(5) Brief description of the procurement; and

(6) Accounting classification—fund citation.

If such additional funds are made available, the action to be taken on a particular request, however, shall be solely the responsibility of the Department considering such request.

(c) *Amendments without consideration involving other Military Departments.* Requests for amendments without consideration, where essentiality to the national defense is an issue and involves another Military Department, shall not be finally determined by one Department until advice on such issue is requested and received from the other Department. When such advice is received, the responsibility for taking the appropriate action, if any, shall be with the Department considering the request.

Subpart C—Residual Powers

§ 17.300 Scope.

This subpart describes the delegations of authority, and the standards and procedures for the exercise of residual powers under the Act. The term "residual powers" as used in this subpart includes all the authority under the Act except that which is covered by Subpart B of this part and the authority to make advance payments.

§ 17.301 Delegations of authority.

Authority to take actions under the residual powers of the Act is vested in the Secretary of each Department and may be defined and delegated in writing by him within his Department: *Provided, however,* That authority to approve actions obligating the United States in an amount in excess of $50,000 shall not be delegated below the Secretarial level, and authority to approve actions obligating $50,000 or less shall not be delegated below the Head of a Procuring Activity in the Army and the Navy, and in the Air Force, the Director of Procurement and Production, Headquarters, AMC. Copies of all delegations and successive redelegations shall be transmitted to the Assistant Secretary of Defense for Supply and Logistics at the time of issuance.

§ 17.302 Standards for using residual powers.

Subject to the limitations contained in § 17.205–1, the residual powers may be used in accordance with the policies set forth in § 17.102 where such use is deemed necessary and appropriate under all the circumstances.

§ 17.303 Procedures.

(a) All proposals for the exercise of residual powers shall be forwarded except as Departmental regulations may otherwise provide through normal channels within the Military Departments to the Assistant Secretary or other approving authority.

(b) The approving authority shall sign a Memorandum of Approval containing the information set forth in § 17.208–2(a).

(c) Every contract entered into or amended or modified under the residual powers shall comply with the provisions of § 17.206.

§ 17.304 Maintenance of records.

DCSLOG in the Army, and the respective Contract Adjustment Boards in the Navy and the Air Force, shall be responsible for maintaining two copies of each Memorandum of Approval required by § 17.303(b).

Subpart D—Records of Requests and Dispositions

§ 17.400 Scope of subpart.

In order that adequate records of actions by each Department pursuant to the Act may be maintained, § 17.207–3 requires the preparation of a preliminary record when each request is filed for an adjustment under the standards set forth in § 17.204, and §§ 17.208–2(b)(3) and 17.208–4(b) require the preparation of a final record indicating the disposition of the request. This subpart describes in detail the information which should be included in these records.

§ 17.401 Preliminary records.

Each preliminary record prepared pursuant to § 17.207–3 should contain the following information:

(a) *Type of record.* The fact that the record is a preliminary record should be indicated;

(b) *Date of contractor's request.* The date on the face of the contractor's request for adjustment should be inserted;

(c) *Date received by Government.* The date the request for adjustment is received in any Government office to which the contractor may properly submit his request should be inserted;

(d) *Name and address of contractor.* The full and correct name and address of the contractor filing the request should be inserted. If the contractor is a small business, this fact should be indicated;

(e) *Name and address of the contractor's representative, if any.* If a particular named person (employee, attorney, etc.) is the point of contact with the contractor, his full name and address should be inserted;

(f) *Cognizant contracting officer or office.* The contracting officer administering the contract for which an adjustment was requested or, if none, the contracting officer or office cognizant of the request should be inserted;

(g) *Procuring activity.* The name of the procuring activity with jurisdiction over the contracting officer or office referred to in paragraph (f) of this section, should be inserted;

(h) *Property or service involved.* A brief description of the item being procured or services being rendered should be inserted;

(i) *Extent of performance as of date of request.* A brief indication, as of the date of request, of the degree of completion of the contract should be inserted; whether the work is completed but final payment is yet to be made or, for example, 50 percent completed, or performance not yet begun, should be indicated;

(j) *Contract number and date.* The identifying numbers and dates of the contracts for which an adjustment is requested should be inserted. If there is no contract, then the word "None" should be inserted. If the question arises under a letter of intent, then that fact and the date of such letter should be inserted;

(k) *Advertised or negotiated.* Whether the contract was entered into pursuant to advertising or negotiation should be indicated. If negotiated, the specific authority should be indicated. Example: "Neg.—10 USC 2304(a)(14)";

(l) *Firm FP, FP Redet, or Cost.* The basic pricing characteristic of the contract or the procurement should be inserted as follows: "Firm FP" or "FP Redet" or "Cost";

(m) *Category of case.* Whether the request involves an amendment without consideration, a mistake, or an informal commitment should be inserted. If the elements of the case are mixed, then two or more categories should be indicated; however, the primary theory of the request should be indicated by the first category inserted;

(n) *Amount or description of request.* If the request is expressed in dollars, as a change in price, then that fact should be inserted as follows: "$5,250 increase" or "$5,250 decrease." If the request seeks an adjustment which cannot be expressed in monetary terms, then some brief description of it should be inserted, such as "Cancellation" or "Modification of Terms." The fact that an adjustment is not easily expressed in dollar terms should not deter an estimate if such an estimate is made by the contractor in his request;

(o) *Date of this record.* The date on which the record is signed and forwarded should be inserted; and

(p) *Signature.* The record should be signed by an authorized representative of the reporting authority.

§ 17.402 Final records.

Each final record prepared pursuant to §§ 17.208–2(b)(3) or 17.208–4(b) should contain the information listed in § 17.401 (b) to (p) and, in addition, should contain the following information:

(a) *Type of record.* The fact that the record is a final record should be indicated;

(b) *Action below Secretarial level.* The disposition of the case, the office which took action, and the date thereof should be inserted. The disposition should be indicated as: "withdrawn," "denied," "approved," or "forwarded." If the request was approved in whole or in part, the dollar amount or nature of the action should be indicated in a manner similar to that described in § 17.401 (n). The date should correspond with the date of the Memorandum of Decision or of the letter forwarding the request to the Board.

(c) *Action by Contract Adjustment Board and date.* The disposition of the case by the Contract Adjustment Board and the date thereof should be indicated in a manner similar to that described in paragraph (b) of this section; and

(d) *Implementation and date.* The contractual action or correspondence which implements the decision of the approving authority or of the Board, should be inserted as follows: "amendment," "new contract," or "letter of denial."

§ 17.403 Sample format for preliminary and final records.

The preliminary and final records described in §§ 17.401 and 17.402 may be prepared in a format substantially as follows:

☐ Preliminary		Final ☐
Date of Request	RECORD OF REQUEST FOR ADJUSTMENT PUBLIC LAW 85-804	Date Received by Government
Contractor's Name and Address		☐ Small Business
Name and Address of Contractor's Representative, if Any		
Cognizant Contracting Officer or Office	Procuring Agency	
Property or Service Involved	Extent of Performance as of Date Request Received	
Contract Number / Date	Advertised or Negotiated	Firm FP, FP Redet, or Cost
Category of Case	Amount or Description of Request	
Action Below Secretarial Level		Date
Action by CAB		Date
Implementation		Date
Additional Data or Remarks		
Date of This Record	Signature	

Subpart E—Act and Executive Order

§ 17.500 Scope of subpart.

This subpart sets forth in full the Act and Executive Order.

§ 17.501 Act of August 28, 1958 (Public Law 85-804, 50 U.S.C. 1431-1435).

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President may authorize any department or agency of the Government which exercises functions in connection with the national defense, acting in accordance with regulations prescribed by the President for the protection of the Government, to enter into contracts or into amendments or modifications of contracts heretofore or hereafter made and to make advance payments thereon, without regard to other provisions of law relating to the making, performance, amendment, or modification of contracts, whenever he deems that such action would facilitate the national defense. The authority conferred by this section shall not be utilized to obligate the United States in an amount in excess of $50,000 without approval by an official at or above the level of an Assistant Secretary or his Deputy, or an assistant head or his deputy, of such department or agency, or by a Contract Adjustment Board established therein.

SEC. 2. Nothing in this Act shall be construed to constitute authorization hereunder for—

(a) The use of the cost-plus-a-percentage-of-cost system of contracting;

(b) Any contract in violation of existing law relating to limitation of profits;

(c) The negotiation of purchases of or contracts for property or services required by law to be procured by formal advertising and competitive bidding;

(d) The waiver of any bid, payment, performance, or other bond required by law;

(e) The amendment of a contract negotiated under section 2304(a)(15), title 10, United States Code, or under section 302(c)(13) of the Federal Property and Administrative Services Act of 1949, as amended (63 Stat. 377, 394), to increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder; or

(f) The formalization of an informal commitment, unless it is found that at the time the commitment was made it was impracticable to use normal procurement procedures.

SEC. 3. (a) All actions under the authority of this Act shall be made a matter of public record under regulations prescribed by the President and when deemed by him not to be detrimental to the national security.

(b) All contracts entered into, amended, or modified pursuant to authority contained in this Act shall include a clause to the effect that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment, have access to and the right to examine any directly pertinent books, documents, papers, and records of the contractor or any of his subcontractors engaged in the performance of and involving transactions related to such contracts or subcontracts.

SEC. 4. (a) Every department and agency acting under authority of this Act shall, by March 15 of each year, report to Congress all such actions taken by that department or agency during the preceding calendar year. With respect to actions which involve actual or potential cost to the United States in excess of $50,000, the report shall—

(1) Name the contractor;

(2) State the actual cost or estimated potential cost involved;

(3) Describe the property or services involved; and

(4) State further the circumstances justifying the action taken.

With respect to (1), (2), (3), and (4), above, and under regulations prescribed by the President, there may be omitted any information the disclosure of which would be detrimental to the national security.

(b) The Clerk of the House and the Secretary of the Senate shall cause to be published in the Congressional Record all reports submitted pursuant to this section.

SEC. 5. This Act shall be effective only during a national emergency declared by Congress or the President and for six months after the termination thereof or until such earlier time as Congress, by concurrent resolution, may designate."

§ 17.502 Executive Order No. 10789 of November 14, 1958 (23 F.R. 8897).

AUTHORIZING AGENCIES OF THE GOVERNMENT TO EXERCISE CERTAIN CONTRACTING AUTHORITY IN CONNECTION WITH NATIONAL-DEFENSE FUNCTIONS AND PRESCRIBING REGULATIONS GOVERNING THE EXERCISE OF SUCH AUTHORITY

By virtue of the authority vested in me by the act of August 28, 1958, 72 Stat. 972, hereinafter called the act, and as President of the United States, and in view of the existing national emergency declared by Proclamation No. 2914 of December 16, 1950, and deeming that such action will facilitate the national defense, it is hereby ordered as follows:

PART I—DEPARTMENT OF DEFENSE

Under such regulations, which shall be uniform to the extent practicable, as may be prescribed or approved by the Secretary of Defense:

1. The Department of Defense is authorized, within the limits of the amounts appropriated and the contract authorization provided therefore, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts, whenever, in the judgment of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, or the Secretary of the Air Force, or the duly authorized representative of any such Secretary, the national defense will be facilitated thereby.

2. The Secretaries of Defense, the Army, the Navy, and the Air Force, respectively, may exercise the authority herein conferred and, in their discretion and by their direction, may delegate such authority to any other military or civilian officers or officials of their respective departments, and may confer upon any such military or civilian officers or officials the power to make further delegations of such authority within their respective commands or organizations: *Provided*, That the authority herein conferred shall not be utilized to obligate the United States in an amount in excess of $50,000 without approval by an official at or above the level of an Assistant Secretary or his Deputy, or by a departmental Contract Adjustment Board.

3. The contracts hereby authorized to be made shall include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of property or services necessary, appropriate, or convenient for the national defense, or for the invention, development, or production of, or research concerning any such property or services, including, but not limited to, aircraft, missiles, buildings, vessels, arms, armament, equipment or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment without any restriction of any kind as to type, character, location, or form.

4. The Department of Defense may by agreement modify or amend or settle claims under contracts heretofore or hereafter made, may make advance payments upon such contracts of any portion of the contract price, and may enter into agreements with contractors or obligors modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under surety or other bonds. Amendments or modifications of contracts may be with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished hereunder, irrespective of the time or circumstances of the making, or the form, of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof.

5. Proper records of all actions taken under the authority of the act shall be maintained within the Department of Defense. The Secretaries of Defense, the Army, the Navy, and the Air Force shall make such records available for public inspection except to the extent that they, or their duly authorized representatives, may respectively deem the disclosure of information therein to be detrimental to the national security.

6. The Department of Defense shall, by March 15 of each year, report to the Congress all actions taken within that department under the authority of the act during the preceding calendar year. With respect to actions which involve actual or potential cost to the United States in excess of $50,000, the report shall (except as the disclosure of such information may be deemed to be detrimental to the national security)—

(a) name the contractor;

(b) state the actual cost or estimated potential cost involved;

(c) describe the property or services involved; and

(d) state further the circumstances justifying the action taken.

7. There shall be no discrimination in any act performed hereunder against any person on the ground of race, religion, color, or national origin, and all contracts entered into, amended, or modified hereunder shall contain such nondiscrimination provision as otherwise may be required by statute or Executive order.

8. No claim against the United States arising under any purchase or contract made under the authority of the act and this order shall be assigned except in accordance with the Assignment of Claims Act of 1940 (54 Stat. 1029), as amended.

9. Advance payments shall be made hereunder only upon obtaining adequate security.

10. Every contract entered into, amended, or modified pursuant to this order shall contain a warranty by the contractor in substantially the following terms:

"The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona-fide employees or bona-fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or, in its discretion, to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee."

11. All contracts entered into, amended, or modified pursuant to authority of this order shall include a clause to the effect that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor or any of his subcontractors engaged in the performance of, and involving transactions related to, such contracts or subcontracts.

12. Nothing herein contained shall be construed to constitute authorization hereunder for—

(a) The use of the cost-plus-a-percentage-of-cost system of contracting;

(b) Any contract in violation of existing law relating to limitation of profits or fees;

(c) The negotiation of purchases of or contracts for property or services required by law to be procured by formal advertising and competitive bidding;

(d) The waiver of any bid, payment, performance, or other bond required by law;

(e) The amendment of a contract negotiated under section 2304(a)(15) of title 10 of the United States Code to increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder; or

(f) The formalization of an informal commitment, unless the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, or the Secretary of the Air Force, or the duly authorized representative of any such Secretary, finds that at the time the commitment was made it was impracticable to use normal procurement procedures.

13. The provisions of the Walsh-Healy Act (49 Stat. 2036), as amended, the Davis-Bacon Act (49 Stat. 1011), as amended, the Copeland Act (48 Stat. 948), as amended, and the Eight Hour Law (37 Stat. 137), as amended, if otherwise applicable, shall apply to contracts made and performed under the authority of this order.

14. Nothing herein contained shall prejudice anything heretofore done under Executive Order No. 9001 of December 27, 1941, or Executive Order No. 10210 of February 2, 1951, or any amendments or extensions thereof, or the continuance in force of an action heretofore taken under those orders or any amendments or extensions thereof.

15. Nothing herein contained shall prejudice any other authority which the Department of Defense may have to enter into, amend, or modify contracts, and to make advance payments.

PART II—EXTENSION OF PROVISIONS OF PARAGRAPHS 1–14

21. Subject to the limitations and regulations contained in paragraphs 1 to 14, inclusive, hereof, and under any regulations prescribed by him in pursuance of the provisions of paragraph 22 hereof, the head of each of the following-named agencies is authorized to perform or exercise as to his agency, independently of any Secretary referred to in the said paragraphs 1 to 14, all the functions and authority vested by those paragraphs in the Secretaries mentioned therein:

Department of the Treasury.
Department of the Interior.
Department of Agriculture.
Department of Commerce.
Atomic Energy Commission.
General Services Administration.
Office of Civil and Defense Mobilization.
National Aeronautics and Space Administration.
Federal Aviation Agency.
Tennessee Valley Authority.
Government Printing Office.

22. The head of each agency named in paragraph 21 hereof is authorized to prescribe regulations governing the carrying out of the functions and authority vested with respect to his agency by the provisions of paragraph 21 hereof. Such regulations shall, to the extent practicable, be uniform with the regulations prescribed or approved by the Secretary of Defense under the provisions of Part I of this order.

23. Nothing contained herein shall prejudice any other authority which any agency named in paragraph 21 hereof may have to enter into, amend, or modify contracts and to make advance payments.

24. Nothing contained in this Part shall constitute authorization thereunder for the amendment of a contract negotiated under section 302(c)(14) of the Federal Property and Administrative Services Act of 1949 (63 Stat. 394), as amended by section 2(b) of the act of August 28, 1958, 72 Stat. 966, to increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder.

PART 30—APPENDIXES TO ARMED SERVICES PROCUREMENT REGULATIONS

Sec.

30.1 Appendix A—Armed Services Board of Contract Appeals.
30.2 Appendix B—Manual for control of Government property in possession of contractors.
30.3 Appendix C—Manual for control of Government property in possession of non-profit research and development contractors.
30.4 Appendix D—Rules for notice and hearing under gratuities clause in Armed Services Procurement Regulation 7.104–16.
30.5 Appendix E—Defense Contract Financing Regulations.

AUTHORITY: §§ 30.1 to 30.5 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 30.1 Appendix A — Armed Services Board of Contract Appeals.

PART I—CHARTER

1. There is hereby created, as a joint board of the Departments of the Army, Navy, and Air Force, the Armed Services Board of Contract Appeals, which shall be responsible directly to the Secretary of the Army, the Secretary of the Navy, and the Secretary of the Air Force, jointly, for the proper performance of the delegated authority hereinafter conferred. The Board shall operate under general policies established or approved by the Assistant Secretary of Defense (Supply and Logistics).

2. The Board shall consist of persons trained in the law. There shall be a president of the Board. The chairmen of the Army, Navy, and Air Force panels of the Board (as hereinafter described) shall each in that order serve as the president of the Board on a yearly rotational basis. In the absence of the president the panel chairman next in order of succession shall act as president. If it shall be determined at any time that additional members of the Board are necessary in order to process appeals with reasonable dispatch, the president of the Board, with the advice of the panel chairmen, shall recommend to the pertinent Assistant and Under Secretaries of the three Departments for appointment such additional members of the Board as are deemed necessary, and shall similarly make recommendations for the filling of any vacancy on the Board. Appointments will be made by joint action of the pertinent Assistant and Under Secretaries of the three Departments.

3. There shall be three panels of the Board. One of the panels shall be known as the Army contract appeals panel, and shall consist of such members of the Armed Services Board of Contract Appeals as shall be assigned to the panel by the Under Secretary or the Assistant Secretary of the Army, whichever is appropriate, who shall also designate the chairman of said panel; one of the panels shall be known as the Navy contract appeals panel, and shall consist of such members of the Armed Services Board of Contract Appeals as shall be assigned to the panel by the Under Secretary or the Assistant Secretary of the Navy, whichever is appropriate, who shall also designate the chairman of said panel; and one of the panels shall be known as the Air Force contract appeals panel, and shall consist of such members of the Armed Services Board of Contract Appeals as shall be assigned to the panel by the Under Secretary or the Assistant Secretary of the Air Force, whichever is appropriate, who shall also designate the chairman of said panel. The president of the Board may assign members (other than the chairman) from one panel to duty with another panel on a temporary basis as the workload of the particular panels may require. Each of the departmental panels shall function under the supervision of its panel chairman.

4. The Armed Services Board of Contract Appeals is hereby designated and shall act as the authorized representative of the respective Secretaries of the Army, Navy, and Air Force in hearing, considering and determining as fully and finally as might each of the Secretaries (a) appeals by contractors from decisions on disputed questions by contracting officers or their authorized representatives or by other authorities pursuant to the provisions of armed services contracts requiring the decision of appeals by the head of a Department of the armed services or his duly authorized representative or board, or pursuant to the provisions of any directive whereby the Secretary of a Department of the armed services has granted a right of appeal not contained in the contract; (b) appeals by armed services contractors pursuant to section 13(c)(1)(i) and section 17(c) of the Contract Settlement Act of 1944. When an appeal is taken pursuant to a disputes clause in a contract which limits appeals to disputes concerning questions of fact, the Board may nevertheless in its discretion hear, consider, and decide all questions of law necessary for the complete adjudication of the issue. Unless the contract provides otherwise, when in the consideration of an appeal it appears that a claim for unliquidated damages is involved therein, the Board shall, insofar as the evidence permits, make findings of fact with respect to such claims without expressing opinion on questions of liability.

5. When a contract requires the Secretary of a Department of the armed services, personally, to render a decision on the matter in dispute, the Armed Services Board of Contract Appeals, in accordance with the procedure set forth in paragraph 6, shall make findings and recommendations to the Secretary of the Department with respect thereto.

6. The president of the Board shall be responsible for assigning appeals to the departmental panels for decision. In general, appeals shall be assigned to the panel of the Department whose contract or procurement is directly involved. Each of the three panels of the Board shall act in divisions which shall normally consist of three or more members of the panel, to be selected by the chairman of the panel. A majority of the members of a division shall constitute a quorum for the transaction of the business of the division and the decision of a majority of the division shall constitute the decision of the panel and of the Board, provided that all three panel chairmen signify that in their opinion a review by the three panel chairman is not required; if a majority of the members of a division are unable to agree on a decision, or if one or more panel chairmen do not waive review, determination of the appeal shall be made by a majority of the three panel chairmen: *Provided*, That on request of the appellant, and subject to the concurrence of the Department concerned, an appeal involving $5,000 in amount or less shall be decided under an accelerated procedure by a single member of the Board subject to such concurrence by a division or panel as the Department may direct.

7. It shall be the bounden duty and obligation of the members of the Armed Services Board of Contract Appeals to decide appeals to the best of their knowledge and ability in accordance with applicable contract provisions, and in accordance with the law pertinent thereto.

8. The Board shall have all powers necessary and incident to the proper performance of its duties, and with the approval of the pertinent Assistant and Under Secretaries of the Army, Navy, and Air Force shall adopt its own methods of procedure, and rules and regulations for its conduct and for the preparation and presentation of appeals and issuance of opinions. The Board is authorized to communicate directly with any person whomsoever in regard to any matter which relates to the business of the Board. The Departments shall jointly or severally maintain an adequate staff of military and/or civilian legal and clerical personnel who shall prepare and present the contentions of the Departments in relation to appeals filed with the Board. It shall not be necessary for the Board, unless it otherwise desires, to communicate with more than one trial attorney in each of the three Departments concerning the preparation and presentation of appeals and the procurement of all Department records deemed by the Board to be pertinent thereto.

9. Any member of the Board or any examiner, designated by the president of the Board with the concurrence of the chairman of the pertinent panel, shall be authorized to hold hearings, examine witnesses, receive evidence and argument, and report the evidence and argument to the designated division of the panel for consideration and determination of the appeal.

10. A vacancy in the Board or any panel or division thereof shall not impair the powers nor affect the duties of the Board, panel, or division, nor of the remaining members of the Board, panel, or division, respectively. In the absence of a panel chairman, the member of the panel designated by him to act in his absence shall serve as acting chairman of the panel. Should no such designation be made, the member present on the panel having seniority of service as a member shall serve as acting chairman of the panel.

11. The Board shall have a seal bearing the following inscription: "Armed Services Board of Contract Appeals". This seal shall be affixed to all authentications of copies of records, and to such other instruments as the Board may determine.

12. There shall be a recorder of the Board, who shall be a person trained in the law. He shall be appointed by the president of the Board. Each Department will provide such materials, facilities, and nonmember clerical and professional personnel to its respective panel as may be required by the panel in the performance of its duties as a panel of the Armed Services Board of Contract Appeals. The salaries of the members and of the nonmember personnel as originally assigned to the Board shall be borne by the respective Departments upon the basis of an original agreement between the three Departments. The apportionment may be reconsidered from time to time but not more often than once per year. In each case heard the expense of transcripts, travel, and per diem of members, and the expense of witnesses required by the Government shall be absorbed by the Department which executed the contract under which the appeal was taken.

13. The Board will submit to the respective Secretaries of the three Departments and the Assistant Secretary of Defense (Supply and Logistics), during the month of July of each year, a report containing an account of its transactions and proceedings for the preceding fiscal year. During each calendar month the Board shall forward a report of its proceedings for the preceding calendar month to the pertinent Assistant and Under Secretaries of the Departments and the Assistant Secretary of Defense (Supply and Logistics). Such reports shall disclose the number of appeals received, cases heard, opinions rendered, current reserve of pending matters, and such other information as shall be deemed pertinent by the president of the Board or requested by the Assistant or Under Secretaries.

14. All appeals pending before the Board under the "Charter for the Armed Services Board of Contract Appeals" which became effective on May 1, 1949 shall continue to be subject to the jurisdiction of the Board under this revised Charter.

15. This revised Charter will become effective February 1, 1959.

PART II—RULES OF THE ARMED SERVICES BOARD OF CONTRACT APPEALS

PREFACE TO RULES

The Armed Services Board of Contract Appeals is the authorized representative of the Secretaries of the Army, Navy, and Air Force in hearing, considering and determining as fully and finally as might each of the Secretaries:

(a) Appeals by contractors from decisions on disputed questions by contracting officers or their authorized representatives or by other authorities pursuant to the provisions of Armed Services contracts requiring the determination of appeals by the head of a Department of the Armed Services or by his duly authorized representative or board, or pursuant to the provisions of any directive whereby the Secretary of a Department of the armed services has granted a right of appeal not contained in the contract;

(b) Appeals by armed services contractors pursuant to section 13(c)(1)(i) and section 17(c) of the Contract Settlement Act of 1944.

When an appeal is taken pursuant to a dispute clause in a contract which provides only for appeals from decisions on questions of fact, the Board may, in its discretion, hear, consider, and decide all questions of law necessary for the complete adjudication of the issue. Unless the contract provides otherwise, when in the consideration of an appeal it appears that a claim for unliquidated damages is involved therein, the Board, insofar as the evidence permits, makes findings of fact with respect to such claims without expressing opinion on questions of liability.

When a contract requires the Secretary of a Department of the armed services personally to render a decision on the matter in dispute, the Board submits its findings and recommendations to the Secretary of the Department.

There are three panels of the Board: The Army, Navy, and Air Force panels. In general, appeals are assigned for decision to the panel of the Department whose contract or procurement is directly involved. Each of the panels acts in divisions, which normally consist of three or more members of the panel. Hearings may be held by a division, by a designated member, or by a duly authorized examiner. The decision of a majority of a division constitutes the decision of the panel and of the Board, provided that all three panel chairmen signify that in their opinion a review by the three panel chairmen is not required. If a majority of the members of a division do not agree upon a decision, or if one or more of the panel chairmen do not waive review, determination of the appeal is made by a majority of the three panel chairmen. However, on request of the appellant and subject to the concurrence of the Department concerned, an appeal involving $5,000 in amount or less may be decided by a single member of the Board subject to such concurrence by a division or panel of the Board as the Department concerned may direct.

SCOPE OF RULES

1. *General.* Except to the extent otherwise provided pursuant to Rule 31 (Optional Accelerated Procedure for Cases Involving $5,000 in Amount or Less), Rules 2 through 30 govern the procedure in all cases before the Board. They shall be construed for the purpose of securing just and inexpensive determination of appeals without unnecessary delay. All pleadings provided for hereunder shall be so construed as to do substantial justice.

PROCEEDINGS PRELIMINARY TO HEARINGS

2. *Appeals, how taken.* Notice of an appeal must be in writing, and the original, together with two copies, may be filed with the contracting officer from whose decision the appeal is taken. The notice of appeal must be mailed or otherwise filed within the time specified therefor in the contract or allowed by applicable provision of directive or law.

3. *Notice of appeal, contents of.* A notice of appeal should indicate that an appeal is thereby intended, and should identify the contract (by number), the department and agency or bureau cognizant of the dispute, and the decision from which the appeal is taken. The notice of appeal should be signed personally by the appellant (the contractor making the appeal), or by an officer of the appellant corporation or member of the appellant firm, or by the contractor's duly authorized representative or attorney. The complaint referred to in Rule 5 may be filed with the notice of appeal.

4. *Duties of contracting officer.* When a notice of appeal in any form has been received by the contracting officer he shall endorse thereon the date of mailing or the date of receipt if otherwise filed and within 10 days shall forward the notice of appeal, and the complaint if filed therewith, to the Board. The contracting officer shall promptly thereafter compile and transmit to counsel for the Government copies of all documents pertinent to the appeal, including the following:

(1) The findings of fact and the decision from which the appeal is taken, and the letter or letters or other documents of claim in response to which the decision was issued;

(2) The contract and pertinent plans, specifications, amendments, and change orders;

(3) Correspondence between the parties and other data pertinent to the appeal;

(4) Transcripts of any testimony taken during the course of the proceedings on the matter in dispute prior to the filing of the notice of appeal with the Board;

(5) Such additional information as the contracting officer may consider material.

When the Board has received the original notice of appeal the Board will promptly so advise the contractor and the contracting officer, and will forward to the contractor a copy of these rules.

NOTE: Attention is invited to Rule 31, below, providing an Optional Accelerated Procedure for cases involving $5,000 in amount or less. It is the duty of the contracting officer to advise the contractor of the Optional Accelerated Procedure in connection with an appeal involving $5,000 in amount or less.

5. *Complaint.* Within 30 days after receipt of notice of docketing by the Board of the appeal, or within such longer period of time as may be allowed by the Board, the appellant shall file with the Board, if not previously filed with the notice of appeal, a complaint setting forth simple, concise and direct statements of each of his claims showing that he is entitled to relief including the dollar amount claimed. If the amount claimed involves $5,000 or less, he may, in his complaint, request that the appeal be handled under the Optional Accelerated Procedure (Rule 31). Each claim shall be stated with as much particularity as is practical. No technical form is required, but each claim should be separately identified. Documentary evidence in support of claims may be filed as exhibits to the complaint. All documents filed as exhibits to the complaint shall be plainly listed and identified in the complaint. An original and three copies of the complaint shall be filed. Upon receipt thereof the recorder of the Board shall serve a copy of the complaint on counsel for the Government.

6. *Answer.* Within 60 days after service of the complaint, or within such longer period of time as may be allowed by the Board, counsel for the Government shall prepare and file with the Board an answer thereto. The answer shall set forth simple, concise, and direct statements of the Government's defenses to each claim asserted by appellant. Each defense shall be stated with as much particularity as is practical. Defenses which go to the jurisdiction of the Board may be included in the answer, or may be raised by motion pursuant to the provisions of Rule 10. If the appellant requests recourse to the Optional Accelerated Procedure (Rule 31), the answer shall contain a statement as to whether such request is concurred in by the Department concerned. Counsel for the Government shall at the same time file with the Board the following documents, which shall be plainly listed and identified:

(1) The findings of fact if any and the decision from which the appeal is taken, and the letter or letters or documents of claim in response to which the decision was issued by the contracting officer;

(2) The contract and pertinent plans, specifications, amendments, and change orders.

Documentary evidence in support of the Government's defenses may be filed as exhibits to the answer. All documents filed as exhibits to the answer shall be plainly listed and identified in the answer. An original and three copies of the answer shall be filed with the Board. Upon receipt thereof the Recorder shall serve a copy of the answer on appellant or his attorney.

7. *Appeal file; inspection of file.* The notice of appeal, the complaint and exhibits attached thereto, the answer and exhibits attached thereto, and the documents required to be filed therewith pursuant to Rule 6, all papers filed by the parties with the Board pursuant to these rules, and all correspondence exchanged between the Board and the parties or their attorneys shall constitute the appeal file, which shall be available for inspection by appellant and Government counsel at the offices of the Board. Prior arrangements for inspection of the file should be made with the recorder of the Board.

8. *Amendments of pleadings.* At any time before oral hearing or before submission of a case by the parties without an oral hearing the Board in its discretion may permit a party, within the proper scope of the appeal, to amend its complaint or answer, upon conditions just to both parties. The Board upon its own initiative or upon application by a party may, in its discretion, order a party to make a more definite statement of its complaint or answer, or to reply to an answer. When issues within the proper scope of the appeal but not raised by the complaint and answer are tried by express or implied consent of the parties, they shall be treated in all respects as if they had been raised therein. Such amendment of the complaint and answer as may be necessary to cause them to conform to the evidence may be made upon motion at any time, even after decision, but failure so to amend does not affect the result of the trial of these issues. If evidence is objected to at the hearing on the ground that it is not within the issues made by the complaint and answer, the hearing member or examiner may allow the pleadings to be amended within the proper scope of the appeal and shall do so freely when the presentation of the merits of the action will be served thereby and the objecting party fails to satisfy the hearing member or examiner that the admission of such evidence would prejudice him in maintaining his case or defense upon the merits. The hearing member or examiner may, however, grant

a continuance to enable the objecting party to meet such evidence.

9. *Trial briefs.* The Board in its discretion may order the submission of trial briefs prior to assignment of a case for oral hearing.

10. *Motions to dismiss.* Defenses which go to the jurisdiction of the Board may be raised by motion. Filing of motions to dismiss for lack of jurisdiction shall not be unreasonably delayed. The Board, however, has the right at any time to recognize its lack of authority to proceed in a particular case. Motions to dismiss for lack of jurisdiction shall, on application of either party, be heard and determined before oral hearing on the merits unless the Board orders that determination of the motion be deferred pending oral hearing on both the merits and the motion.

11. *Failure to state a case.* In the event, after completion of the pleadings, the Board finds that appellant has failed to state a case on which any relief could be granted by the Board, the Board may give notice to appellant to show cause why the appeal should not be dismissed on the ground that no useful purpose would be served by setting the case for oral hearing on the merits. Appellant, in such event, will be afforded the opportunity to be heard orally for the purpose of showing cause why the appeal should not be dismissed on that ground, and if appellant so desires to move to amend the complaint, within the proper scope of the appeal. If the Board thereafter finds appellant has failed to show cause, and finds that the complaint, with such amendments as may be offered by appellant, fails to state a case on which the Board could grant relief, the appeal shall be dismissed.

12. *Depositions.* Depositions which a party desires to take for the purpose of offering in evidence shall be taken in accordance with the procedure set forth in Appendix to Rules.

13. *Interrogatories to parties; inspection of documents; admission of facts.* Under appropriate circumstances, but not as a matter of course, the Board will entertain applications for permission to serve written interrogatories upon the opposing party, applications for an order to produce and permit the inspection of designated documents, and applications for permission to serve upon the opposing party a request for the admission of specified facts. Such applications shall be received and approved only to the extent and upon such terms as the Board in its discretion considers to be consistent with the objective of securing just and inexpensive determination of appeals without unnecessary delay, and essential to the proper pursuit of that objective in the particular case.

14. *Prehearing conferences.* In any case the Board in its discretion, upon its own initiative or upon the application of one of the parties, may call upon the parties or their attorneys or representatives to appear before a member or examiner of the Board for a conference to consider:

(1) The simplification of the issues;

(2) The necessity or desirability of amendments to the pleadings;

(3) The possibility of obtaining admissions of fact and of documents which will avoid unnecessary proof;

(4) The limitation of the number of expert witnesses;

(5) Such other matters as may aid in the disposition of the appeal.

The presiding member or examiner, at the conclusion of such a conference, shall make such order as in his discretion is found to be appropriate with reference to action taken at the conference, amendments allowed or to be made to the pleadings, agreements made by the parties as to any of the matters considered, and limitation of issues for trial.

15. *Service of papers.* Service of papers in all proceedings pending before the Board may be made personally, or by mailing the same in a sealed envelope, registered, return receipt requested, with postage prepaid, addressed to the party upon whom service shall be made, and the date of the registry receipt shall be the date of service. Waiver of the service of any papers may be noted thereon or on a copy thereof, or on a separate paper, signed by the parties or their attorneys and filed with the Board. When any party has appeared by attorney, service upon the attorney will be deemed proper service upon such party.

HEARINGS

16. *Where and when held.* (a) Hearings will be held at the office of the Board in Washington, D.C., unless it is otherwise ordered by the Board. Hearings will not ordinarily be held elsewhere, but if a request therefor is seasonably made and good cause therefor appears, the Board may order a hearing to be held at another location. (For hearings under the Optional Accelerated Procedure, see Rule 31.)

(b) Hearings will be scheduled at the discretion of the Board with due consideration to the regular order of appeals and other factors. However, on request or motion of either party the Board, in its discretion, may advance the hearing for good cause shown.

17. *Notice of hearings.* Appellant and Government counsel shall be given at least 15 days' notice of the time and place of hearing.

18. *Submission without a hearing.* If either party does not wish to appear or be represented at a hearing, the Board shall be so advised. A party who so advises the Board may submit a brief within 20 days after the date assigned for the hearing, or within such other period of time as may be allowed by the Board. If both parties advise the Board that an oral hearing is not desired, briefs may be submitted by the parties within such period of time as may be allowed by the Board. (For submission on the record under the Optional Accelerated Procedure, see Rule 31.)

19. *Absence of parties or counsel.* The unexcused absence of a party or his authorized representative at the time and place set for the hearing will not be the occasion for delay. In such event the hearing will proceed and the case will be regarded as submitted by the absent party.

20. *Nature of hearings.* Hearings shall be as informal as may be reasonably allowable and appropriate under all the circumstances. Appellant and Government counsel may offer at a hearing on the merits such relevant evidence [1] as they deem appropriate and as would be admissible under the generally accepted rules of evidence applied in the courts of the United States in nonjury trials, subject, however, to the exercise of reasonable discretion by the presiding member or examiner in supervising the extent and manner of presentation of such evidence. Letters or copies thereof, affidavits, or other evidence, not ordinarily admissible under the generally accepted rules of evidence, may be received in evidence at the discretion of the presiding member or examiner. The weight to be attached to evidence presented in any particular form will be determined by the Board in the exercise of reasonable discretion under all the circumstances of the particular case. Stipulations of fact agreed upon by the parties may be regarded and used in evidence at the hearing. The parties may stipulate the testimony that would be given by a witness if the witness were present. The Board may, however, in any case, require additional evidence.

21. *Examination of witnesses.* Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated or the Board member or examiner shall otherwise order. If the testimony of a witness is not given under oath the Board may, if it seems expedient, warn the witness that his statements may be subject to the provisions of Title 18, United States Code, sections 287, 1001; section 19 of the Contract Settlement Act of 1944 (41 U.S.C. 119), and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

22. *Copies of papers.* When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may be substituted therefor, during the hearing or at the conclusion thereof.

23. *Briefs.* All briefs shall be filed within 20 days after conclusion of the hearing, or within such other period of time as may be allowed by the Board.

[1] For procedure to be followed in taking depositions, see "Appendix to Rules."

24. *Transcript of proceedings.* Testimony and argument at hearings shall be reported verbatim, unless the Board otherwise orders except that under the Optional Accelerated Procedure the stenographic record will not be transcribed unless requested by either of the parties. Transcripts of the proceedings shall be supplied to the parties at such rates as may be fixed by contract between the Board and the reporter. If the proceedings are reported by an employee of the Government, the appellant may receive transcripts upon payment to the Government at the same rates as those set by contract between the Board and the independent reporter.

25. *Withdrawal of exhibits.* After a decision has become final the Board may, upon request and after notice to the other party, in its discretion permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto. The substitution of true copies of exhibits or any part thereof may be required by the Board in its discretion as a condition of granting permission for such withdrawal.

REPRESENTATION

26. *The contractor.* An individual appellant may appear before the Board in person, a corporation by an officer thereof, a partnership or joint venture by a member thereof, or by an attorney at law duly licensed in any State, Commonwealth, Territory, or in the District of Columbia. The Board may authorize a contractor to appear by a duly authorized representative other than those mentioned in a special case, but for the purposes of that case only.

27. *Status of Government counsel.* Government counsel designated by the various departments to represent the departments, agencies, and bureaus cognizant of the disputes brought before the Board may in accordance with their authority represent the interests of the Government before the Board. They shall file notices of appearance with the Board, and notice thereof will be given appellant or his attorney in the form specified by the Board from time to time. Government counsel may, when it appears to them that there are questions of fact as to which there is no substantial controversy, agree with appellant or his attorney as to such facts by written stipulation or otherwise. Whenever at any time it appears that appellant and Government counsel are in agreement as to disposition of the controversy, the Board may suspend further processing of the appeal in order to permit reconsideration by the contracting officer: *Provided, however,* That if the Board is advised thereafter by either party that the controversy has not been disposed of by agreement the case shall be restored to the Board's calendar for hearing without loss of position.

DECISIONS

28. (a) Decisions of the Board will be made in writing and authenticated copies thereof will be forwarded simultaneously to both parties. The rules of the Board and all final orders and decisions (except those required for good cause to be held confidential and not cited as precedents) shall be available to public inspection at the offices of the Board in Washington, D.C.

(b) Under the Optional Accelerated Procedure the decision shall be as brief as the circumstances permit and will ordinarily state only a summary of the facts and issues and the conclusions of the Board member. Such decision will not be published or distributed except to the parties and will not be regarded or cited as precedent for future cases. The Board member will also prepare a written memorandum of the basis for his decision which will not be published or distributed. Such memorandum will be available for examination by the parties.

MOTIONS FOR RECONSIDERATION

29. A motion for reconsideration, if filed by either party, shall set forth specifically the ground or grounds relied upon to sustain the motion, and shall be filed within 30 days from the date of the receipt of a copy of the decision of the Board by the party filing the motion.

DEFINITIONS

30. (a) As used in these rules the term "contracting officer" includes any officer or other authority whose decision may be reviewed by the Board pursuant to the Board's charter.

(b) As used in these rules the term "Board" means the full Board, president of the Board, panel, chairman of a panel, member, or examiner, as may be appropriate, except that in Rule 11 the term "Board" refers to action of the Board by written decision in accordance with the procedures set forth in the Board's charter.

31. *Optional accelerated procedure for cases involving $5,000 in amount or less.* An appeal involving $5,000 in amount or less shall be processed under this rule at the request of the appellant, subject to the concurrence of the Department concerned. Under this rule:

(a) The appeal will be decided by a single member of the Board, designated by the chairman of the panel concerned, who shall have for this purpose all the authority and power of the full Board to hear, consider, determine and reconsider the matter, subject to such concurrence by a division or panel as the Department concerned may direct.

(b) The appeal shall be deemed submitted for decision on the record unless the appellant or the Government, within 10 days after receipt of the Government's answer by the appellant, requests the Board to schedule an oral hearing.

(c) Such oral hearing shall be fixed at such time and place as shall be agreeable to the parties and to the chairman of the panel concerned, taking into consideration any request therefor of the appellant.

(d) For the purpose of this rule, the amount involved in an appeal shall be the difference between the amount of the appellant's claim as stated in his complaint and the amount, if any, determined by the decision from which the appeal is taken.

(e) If the Board member assigned to the case under this rule determines that the amount involved exceeds or may exceed $5,000, the parties shall be so informed, and the appeal shall be disposed of in accordance with Rules 2–30, inclusive. The determination so made shall be final and conclusive.

EFFECTIVE DATE AND APPLICABILITY

32. These revised rules shall take effect on the first day of the second month following the month in which they are approved by the cognizant Assistant Secretaries of the Department of the Army, Department of the Navy, and the Department of the Air Force. Except as otherwise directed by the Board, these rules shall not apply to appeals which have been docketed prior to their effective date.

APPENDIX TO RULES

DEPOSITIONS

1. *When depositions may be taken.* After an appeal has been docketed by the Board either party may take the testimony of any person by deposition upon oral examination or written interrogatories for use as evidence in the appeal proceedings.

2. *Before whom taken.* Depositions to be offered in evidence before the Board may be taken before and authenticated by any person authorized by the laws of the United States, or by the laws of the place where the deposition is taken, to administer oaths.

3. *Written interrogatories.* (a) A party desiring to take the deposition of any person upon written interrogatories shall serve them upon the opposite party with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the person before whom the deposition is to be taken. Within 15 days thereafter the party so served may serve cross interrogatories upon the party proposing to take the deposition.

(b) A copy of the notice and copies of all interrogatories served shall be delivered by the party taking the deposition to the person designated in the notice who should proceed promptly to take the testimony of the witness in response to the interrogatories.

4. *Oral interrogatories.* When either party desires to take the testimony of any person by deposition upon oral examination, unless the parties stipulate as to the time and place where the deposition is to be taken and the name of the person before whom it is to be taken and the name and address of the witness, such party shall give the opposite party at least 15 days written notice of the time and place where such deposition will be taken and the name and address and official title of the person before whom it is proposed to take the deposition, and the name and address of the witness.

5. *Form and return of deposition.* Each deposition should show the docket number and the caption of the proceedings, the place and date of taking, the name of the witness, and the names of all persons present. The persons taking the deposition shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and shall enclose the original deposition and exhibits in a sealed packet with postage and other transportation prepaid and forward same to the Recorder, Armed Services Board of Contract Appeals.

6. *Introduction in evidence.* Either party to the appeal may offer depositions in evidence. The entire deposition must be offered unless otherwise stipulated by the parties or directed by the Board.

§ 30.2 Appendix B—Manual for control of Government property in possession of contractors.

PART I—INTRODUCTION

101. *Scope of manual.* This manual sets forth basic requirements to be observed by the Departments of the Army, Navy and Air Force, for establishing and maintaining control over Government property furnished to or acquired by contractors pursuant to the terms of their contracts.

102. *Applicability of Manual.* This Manual applies to all types of contracts, leases and bailments pursuant to which Government property is furnished to or acquired by a contractor.

103 *Definitions.* As used in this Manual, the following terms have the meanings shown:

103.1 "Contract administrator" means the individual duly designated by appropriate authority in the Military Departments to administer the contract. In the case of the Army and Air Force, usually this is a contracting officer, and in the Navy, usually this is the authorized representative of the contracting officer having administrative cognizance over the contract.

103.2 "Property administrator" means the Government representative responsible to the contract administrator for:

(i) Reviewing and approving the contractor's property control procedures;

(ii) Examining the records maintained by the contractor of Government property;

(iii) Making usage analyses of Government property; and

(iv) The maintenance of such Government property records as are required by this Manual.

103.3 "Government property" means all property owned by or leased to the Government, or acquired by the Government under the terms of a contract; except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this Manual be classified as Government property. With this exception, Government property includes both Government-furnished property and contract-acquired property, as defined below:

(i) Government-furnished "property" is property in the possession of or acquired directly by the Government and subsequently delivered or otherwise made available to the contractor; and

(ii) "Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide," as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property," is intended to include both Government-furnished property and contractor-acquired property.

103.4 "Industrial facility" means property, other than material and special tooling, of use for the performance of a contract or subcontract, including real property and rights therein, buildings, structures, improvements, and plant equipment.

103.5 "Industrial property," as distinguished from military property, means any contractor-acquired or Government-furnished property, including materials, special tooling, and industrial facilities furnished or acquired in the performance of a contract or subcontract.

103.6 "Real property," for purposes of accounting classification means (i) land and rights therein, (ii) utility distribution systems, and (iii) buildings, structures, and improvements thereto, excluding plant equipment.

103.7 "Utility distribution system" means a system (including distribution and transmission lines, substations, and installed equipment forming an integral part of the system), by which gas, water, steam, electricity, sewerage, or other utility services are transmitted between (i) the outside of the building or structure in which the services are used, and (ii) the point of origin or disposal, or the connection with some other system. For the purpose of this Manual it does not include communication services.

103.8 "Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, and accessory and auxiliary items, but excluding special tooling used or

capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

103.9 Minor plant equipment means an item of plant equipment having a unit value of less than $200 and other plant equipment, regardless of cost, when so designated by the Government.

103.9 "Minor plant equipment" means an item of plant equipment having a unit value of less than $100 and other plant equipment, regardless of cost, when so designated by the Government.

103.10 "Production equipment" means those items of plant equipment located within a manufacturing, processing, assembly or service establishment and used for cutting, abrading, grinding, shaping, forming, joining, measuring, testing, heating or treating production materials or work in process.

103.11 "Machine tools" mean those items of production equipment which are power-driven, non-portable machines used for cutting, abrading, grinding, shaping or forming metal.

103.12 "Accessory item" means an item which facilitates or enhances the operation of plant equipment but which is not essential for its operation, such as remote control devices.

103.13 "Auxiliary item" means an item without which the basic unit of plant equipment cannot operate, such as motors for pumps and machine tools.

103.14 Special tooling means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the contractor for use in the performance of a contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include: (i) Items of tooling or equipment acquired by the contractor prior to the contract, or replacements thereof, whether or not altered or adapted for use in the performance of the contract, (ii) consumable small tools, or (iii) general or special machine tools, or similar capital items.

103.15 "Material" means property which may be incorporated into or attached to an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of the contract.

103.16 "Salvage" means property recoverable for further use or which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations but which has some value in excess of its scrap value.

103.17 "Scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

103.18 "Property account" means the official records of the Government property provided to a contractor by a Department, which are established and maintained under the provisions of this Manual. Separate property accounts will be maintained either on an individual contract basis or contractor basis.

103.19 "Stock record" means a perpetual inventory form of record which shows, by nomenclature, the quantities received and issued, and the balances on hand.

PART II—GENERAL PROVISIONS

200. *Scope of part.* This part sets forth (i) the duties and responsibilities of Government representatives and contractors charged with the control of Government Property, (ii) the sources from which Government Property may be received or acquired, and (iii) the manner in which Government Property will be controlled, both physically and administratively.

201. *Duties and responsibilities of the Contract Administrator with respect to the control of Government Property.* (a) The function of the Contract Administrator with respect to the control of Government Property is to insure that the Contractor complies with the provisions of the contract and this manual pertaining to Government Property and that the Government's interests therein are fully protected at all times. He shall require the Contractor to (i) exercise reasonable care and proper usage of all Government Property, (ii) establish and maintain adequate records therefor and (iii) maintain controls that will assure the recording of all debits and credits to the property record as hereinafter defined.

(b) It is incumbent upon the Contract Administrator to familiarize himself with the provisions of this manual and the contract involved.

(c) He shall require the Contractor to correct all deficiencies in complying with the provisions of the contract and this manual pertaining to Government Property.

(d) He shall take proper action with respect to recommendations of the Property Administrator relating to usage or control of Government Property.

(e) He shall make appropriate written findings with respect to the Contractor's liability for Government Property lost, damaged, destroyed, or unreasonably consumed in production, as may be required by this manual.

202 *Designation of property administrator.*

(a) A property administrator shall be designated for each Government contract involving Government property. In appropriate cases the contract administrator may be assigned the additional duty of property administrator. An assistant property administrator may be appointed for specific contracts. The property administrator will not be required to post a bond by virtue of the duty as property administrator.

(b) It is the policy of the Department of Defense that a single property administrator shall be designated for all Department of Defense contracts performed at one location by a contractor. Within each Military Department, responsibility for the direction, administration, and review of the property administration interchange program shall be assigned to a single office at the Department level. This office, designated to direct and administer the program, shall have the following responsibilities:

(1) Implementation of pertinent Department of Defense directives, instructions, and regulations.

(2) Review of field contract administration activities for compliance with Department of Defense and Departmental directives pertinent to the property administration interchange program.

(3) Resolution of intra-departmental interchange problems.

(4) Resolution of inter-departmental interchange problems.

(c) Property administration interchange agreements shall be negotiated only by those offices administering current contracts or orders with the contractors. Property administration interchange agreements shall be effected at the field level between representatives of the procuring activities having contract administration responsibility. In formulating such agreements, the following factors, among others, shall be considered:

(1) Comparative value and types of Government property in the possession of the contractor and the Government property yet to be provided under Government contracts.

(2) Existence of a resident property administrator or accessibility of an itinerant property administrator.

(3) Other contract administration functions which may have a bearing on property administration such as quality control, industrial mobilization planning and audit cognizance.

(d) Based on the above factors, when two or more offices are equally concerned with property administration at a contractor's location, that office which has contracts or orders that indicate the greatest continuous duration of future interest in Government property shall be given primary consideration for property administration cognizance. When all contracts or orders of the Department designated to perform property administration have been completed at a contractor's location, that Department shall cease to have cognizance at that location unless all military contracts providing for Government property are scheduled to expire within a succeeding three-month period. When all contracts or orders of the Department designated to perform property administration have been completed at a contractor's location where other Departments continue to perform contracts or orders which are not scheduled to expire within a succeeding three-month period, property administration cognizance shall be determined by negotiation between those Departments which continue to perform contracts or orders providing for Government property with the suppliers. When a Department that previously had no contracts at a contractor's location at the time the existing property administration interchange agreement was made acquires a contract providing for Government property of greater continuous duration of future interest than those involved in the existing agreement, the cognizance agreement shall be reviewed and either confirmed or revised by a new agreement.

(e) When the Departments are unable to reach property administration interchange agreements, those unresolved property administration assignments shall be referred to the Assistant Secretary of Defense (Supply and Logistics) for resolution.

(f) Property administration functions required by the Armed Services Procurement Regulation will be performed by the designated property administrator who will generally follow his current operating procedures in performing property administration. Each Department will provide the designated property administrator with manuals, instructions, and directives pertaining to reports and documentation required by contractual provisions. Documents and records required by this Appendix B for property administration of current contracts, subcontracts, and purchase orders involving Government property will be provided to the designated property administrator prior to the effective date of an agreement. Copies of such contracts, subcontracts, and purchase orders and amendments thereto or extracts of property provisions thereof will accompany the transmittal. The name of the individual designated as property administrator for such contracts will be furnished to the procuring activity performing contract administration. New contracts, subcontracts, purchase orders and amendments thereto or extracts of property provisions thereof where Government property is involved will be transmitted to the designated property administrator. Contracts containing the Special Tooling clause (§ 13.504) will likewise be transmitted to the designated property administrator for necessary surveillance.

(g) The designated property administrator may correspond directly with the contractor and appropriate Department of Defense personnel on matters pertaining to Government property. The contract administrator will keep the property administrator informed as to all communications, correspondence, and actions affecting property matters under the assigned contract.

(h) Property administration interchange agreements shall be in the general format shown below. Where required, appendices shall be added thereto.

1. Purpose: This is a local interchange agreement providing for property administration at the designated contractor's location by (Department-procurement office) in accordance with ASPR B–202.

2. Effective date: This agreement becomes effective on ----------.

3. Contractor's location:

(Identify specific location covered by this agreement)

(Signatures of authorized representatives of Departments concerned)

203 *Duties and responsibilities of the property administrator.*

(a) The property administrator shall familiarize himself with the provisions of this Manual and the contract provisions pertaining to Government property.

(b) He shall, as the authorized representative of the contract administrator or administrators, insure compliance with the contract requirements relative to Government property and insure fulfillment of all obligations imposed by this Manual. He shall at the inception of the contract review and approve in writing the contractor's property control records and procedures.

(c) He shall be responsible for property management data required by contractual provisions and, when acting as property administrator under a property administration interchange agreement, shall also provide the procuring activities concerned with such management data and with information, documents, records, and assistance required by the latter for conformance with the provisions of this Appendix B and/or Departmental procedures, including, but not limited to, those for the following purposes:

(1) Public vouchers.

(2) Fulfilling managerial and financial requirements for property report cards.

(3) Marking and identification of property under Departmental procedures.

(4) Disposition of excess.

(5) Approval of the contractor's property control procedures and records.

(6) Relief from responsibility for property loss, damage, unauthorized use, or unreasonable consumption.

(7) Final property clearance.

(d) He shall examine the documents, including but not limited to consumption or usage reports, adjustment reports, reports of spoilage or shrinkage, sales, shipments, transfers, etc., recorded by the contractor in the property account, to the extent necessary to establish the correctness and completeness of such records.

(e) It shall be his responsibility to determine whether the contractor is using Government property for the purposes authorized by the contract, and whether the contractor is exercising the degree of care in the handling of Government property prescribed in the contract.

(f) He shall make usage analyses to determine the reasonableness of the consumption and expenditure of Government property. Control records shall be utilized in the performance of the usage survey and, to the extent necessary, selective physical inspections of Government property shall be made in the appropriate states of production.

(g) He shall periodically examine all property records to determine whether such records reflect the status of Government property and indicate compliance with the provisions of the contract and applicable directives. He shall report promptly in writing to the contract administrator any noncompliance by the contractor with the contract provisions and applicable directives.

(h) He shall advise the contract administrator on all property matters.

204. *Duties and responsibilities of the Contractor.* The Contractor shall be directly responsible for and accountable for all Government Property in accordance with the provisions of the contract. The Contractor shall maintain and make available such records as are required by Part III of this manual and must account for all Government Property until relieved of responsibility therefor in accordance with the procedures as set forth in Part IV of this manual. Liability for loss, damage, or excessive use of property in a given instance will necessarily depend upon all the circumstances surrounding the particular case and must be considered and determined in accordance with the provisions of the contract. The Contractor shall furnish all necessary data substantiating any request for discharge from responsibility.

205. *Sources from which Government property may be furnished or acquired.*

205.1 *Military installations or other Contractors' plants.* Government Property may be shipped to a Contractor from military installations or plants of department contractors.

205.2 *Direct purchase by the Contractor.* Direct purchases shall be subject to a determination by the Contract Administrator that the items are allocable to the contract involved and are reasonably necessary therefor. For purposes of property control within the scope of this manual, it shall be considered that property purchased by a Contractor, for which reimbursement is to be requested, becomes Government Property upon its receipt by the Contractor. This provision shall not be deemed to alter or modify contractual provisions relating to passage of title.

205.3 *Withdrawal from Contractor-owned stores.* For purposes of property control, within the scope of this manual, property withdrawn from Contractor-owned stores, for direct charge to the contract, shall be considered Government Property at the time of approval of the claim for reimbursement, or at the time of issuance for use of such property for the performance of the contract, whichever is earlier.

205.4 *Contract provisions, termination, contract changes.* Pursuant to specific contractual provisions, or as a result of termination of a contract, or change orders issued under a contract, the Government may acquire title to property.

205.5 *Advance, progress, or partial payments.* Pursuant to the terms of a contract the Government may acquire title to property upon the making of advance, progress, or partial payments to the Contractor. Property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments shall not be subject to the provisions of this manual.

206. *Segregation or commingling of Government property and contractor's property.* Ordinarily Government property, particularly material, will be segregated and kept physically separate from contractor-owned property at all times. There will be occasions, however, where commingling of property would be advantageous to the Government. Commingling may be allowed in the following types of cases:

(a) Where a production line is engaged solely in Government work, contractor and Government special tooling and plant equipment may be commingled. Normally no approval is required for commingling in this category, but the property administrator may prohibit it at his discretion if it is considered not to be in the best interest of the Government.

(b) Where Government-furnished special tooling or plant equipment is held by a contractor in storage, pending its use under a production contract, the property administrator may give permission in writing for commingling with contractor property.

(c) Where approved by the property administrator in connection with research and development contracts.

(d) Any commingling, other than that set forth herein, may be permitted by the property administrator upon the approval of the cognizant Department in accordance with Departmental procedures.

207 *Physical inventories.*

207.1 *Before termination or completion.* It shall be the responsibility of the property administrator to review and approve the type and frequency of physical inventories to be taken. In this respect, he may accept and approve in writing the contractor's established procedures if he determines that they adequately protect the interests of the Government and are in conformity with applicable regulations.

207.2 *Upon termination or completion.* Upon termination or completion of a contract, a physical inventory adequate for disposal purposes shall be required of all Government property applicable to the contract in the custody, control or possession of the contractor.

207.3 *Joint physical inventories or selective examinations under 207.1 and 207.2.* (a) The property administrator may, at his discretion, require physical inventories to be taken jointly by his designated representatives and the contractor.

(b) In lieu of a joint physical inventory, selective examinations of the inventory being taken by the contractor may be made when the property administrator determines that such procedure is more economical and will adequately protect the interests of the Government. When selective examinations are made they must embrace a representative number of items in the account and must adequately cover, by class and price range, all Government property involved.

207.4 *Quantitative and monetary control.* As directed or required by proper authority, the contractor's physical inventories shall be prepared on both a quantitative and monetary basis and classified by categories such as material, special tooling, plant equipment, etc.

207.5 *Discrepancies.* Any discrepancies disclosed as a result of inventorying will be adjusted in accordance with the provisions of Part III and Part IV of this § 30.2.

PART III—RECORDS TO BE MAINTAINED

301. *General.* (a) In order satisfactorily to perform work under a Government contract, a contractor must maintain some form of control records for all Government property, whether furnished to or acquired by a contractor for the account of the Government. It is the Government's policy to designate and use such records as the official contract records, and not to maintain duplicate property control records, other than those required by paragraph 303, and other than industrial facility records. With respect to industrial facilities, additional records shall be maintained by the property administrator or higher headquarters, as may be required by the respective Departments pursuant to paragraph 303.1 (c). Exceptions to the above policy may be authorized by the respective Departments in special circumstances, such as where the administrative expense of maintaining Government personnel at the contractor's plant or providing frequent official visits to the plant would exceed the cost of maintaining Gov-

ernment records or otherwise not be in the best interest of the Government.

(b) The contractor's property control records and procedures shall be reviewed and approved in writing by the property administrator at the inception of the contract. Any necessary corrective action will be required of the contractor prior to approval. Such corrective action will normally be effected by the property administrator through mediation with the contractor. Where corrective action would involve substantial increased costs or where agreement as to the corrective action is not reached through mediation, the differences will be referred to the contract administrator.

(c) The contractors' property control system will provide financial accounts for Government-owned industrial facilities in the contractors' possession or control. The system will be subject to internal control standards and be supported by property records for such facilities; in the manner described in paragraph 304.

(d) The official records shall be kept in such condition that at any stage of completion of the work under a contract the status of Government property may be readily ascertained.

(e) Separate property records for each contract are desirable but a consolidated property record may be maintained provided that the consolidated record provides the information set forth in paragraph 304.

(f) Property records shall be established for any usable components which are permanently removed from items of Government property, as a result of modification, or otherwise.

(g) Special tooling and equipment fabricated from materials which are the property of the Government will be appropriately recorded immediately upon fabrication. Special tooling and equipment fabricated from materials which are the property of the contractor will be appropriately recorded at the time title passes to the Government.

(h) Departmental policies will govern the establishment of monetary levels below which individual item records of plant equipment will not be required.

302. *Pricing.* Property records shall show a unit price for each item.

(a) The unit price of Contractor-acquired property shall be determined in accordance with the system established by the Contractor in conformance with sound accounting principles and consistently applied.

(b) The unit price of Government furnished property shall be determined by the Government and furnished to the Contractor.

303. *Records to be maintained by Government personnel.*

303.1 *Records of specific contracts where property is involved.* (a) Where a contract provides for the use of Government Property a copy of the contract shall be made available or furnished to the Property Administrator.

(b) The property administrator shall maintain a record of each contract assigned to him for property administration. That record shall contain the following minimum information:

(i) Contract number and name of Contractor.

(ii) Type of contract (CPFF, fixed price, research and development, etc.)

(iii) End item to be produced or services to be performed, and the points of inspection and acceptance.

(iv) Record of amendments and changes pertaining to Government Property.

(v) Listing and type of all subcontracts which involve Government Property.

(vi) Provisions of contract pertaining to liability of the Contractor for loss, damage or improper use of Government Property.

(vii) Record of Contract Administrators and dates of tenure.

(viii) Record of Property Administrators and dates of tenure.

(ix) Record of Plant Representatives (or Officers-in-Charge) and dates of tenure.

(x) Record of written approval of Contractor's property control procedures.

(xi) Record of deviations granted in property procedures. (The deviations granted shall be in accordance with procedural regulations issued by each department.)

(xii) Record of property audits and inspections performed by the responsible agencies in each department.

(xiii) Records of property inspections during production and usage analyses performed.

(xiv) Record of any deficiencies found in property control and the corrective action taken.

(xv) Interim and final clearance data for Government property.

(c) The contractor shall be required to furnish written receipts for all, or specific classes of Government provided property only in those instances where such action is determined by the property administrator to be essential for maintenance of minimum acceptable property controls. In these instances the property administrator shall maintain for each contract a file of such documents or property record cards. Where such evidence of receipt is required, it shall be provided by the contractor not later than the time he submits his application for payment (public voucher). Otherwise, the property administrator shall utilize the contractor's file of documents evidencing receipt and not establish a duplicate file.

(d) The Property Administrator shall maintain for each contract a file containing copies of all instruments affecting relief from responsibility for Government Property.

303.2 *Control records to be maintained.* The Property Administrator shall maintain a system of file control that will permit the ready location of any document that he is required by this section to maintain.

303.3 *Record of completed products.* The Property Administrator shall maintain a record of all completed products produced under the contract, based upon authenticated receiving reports or processed vendors' shipping documents, as follows:

(a) When there is no lapse of time between Government inspection and acceptance of the completed products and shipment from the plant site, the records shall, as a minimum, consist of a summarization of quantities accepted and shipped. When end items are accepted by the Government and stored with the Contractor the record shall show the quantities stored and location.

(b) Some contracts provide that completed products are to be retained by the Contractor for further use under the contract. Upon acceptance of such items they shall be considered to be "Government-furnished property" and shall be recorded as prescribed in paragraph 304.

304 *Records to be maintained by the contractor.* It is the contractor's responsibility (i) to maintain adequate control records in accordance with the requirements of this Manual of all Government property provided under a contract, including property provided under such contract as may be in the possession or control of a subcontractor, and to establish separate property accounts to be located at the subcontractor's plant and at the contractor's secondary site when so requested by the property administrator.

304.1 *Records of material.* All Government material furnished to the contractor, as well as all other material, title to which has passed to the Government, by reason of allocation from contractor-owned stores, or by reason of purchase by the contractor for direct charge to a Government contract, or otherwise, shall be recorded in accordance with the contractor's property control system, as follows:

(a) *Contractor's property control system.* Except as provided in (d) below, the contractor's property control system shall be such as to provide the following information:

(1) Contract number.
(2) Nomenclature or description of item.
(3) Quantity received.
(4) Quantity issued.
(5) Balance on hand.
(6) Posting reference.
(7) Date received or issued.
(8) Unit price.
(9) Location.
(10) Disposition action taken.

(b) *Consolidated stock record.* Where a contractor has more than one Government contract, under which Government property is provided, a consolidated record for materials may be authorized, provided the total quantity of any item is allocated to each contract by contract number and each requisition of property from contractor-owned stores is charged to the contract on which the property is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

(c) *Custodial records.* Custodial records shall be maintained for tool crib items, guard force items, protective clothing and other items issued for the use of individuals in the performance of their work under the contract.

(d) *Use of receipt and issue documents.* Based on a determination of the property administrator in accordance with paragraph 301(b), the contractor may maintain in lieu of "stock records" a file of appropriately cross-referenced documents representing receipt, issue, and adjustments of Government-provided material in performance of a Government contract. Such determination shall be consistent with generally accepted accounting practices and a low frequency of receipt and issue of the items of material specified (i.e. usually issued directly upon receipt). Accordingly:

(i) The property administrator may authorize this method of property control for Government-provided material, including but not limited to items used in manufacturing or maintenance, office supplies, etc.; and

(ii) This method of property control may be used for research and development contracts.

304.2 *Records of special tooling.* The Contractor's property control system shall be such as to provide the following minimum information regarding each item of Government owned special tooling:

(a) Contract number or equivalent code designation.
(b) Nomenclature or description of item.
(c) Identification number and item on which used.
(d) Quantity received or fabricated.
(e) Voucher reference.
(f) Location.
(g) Disposition action taken.
(h) Unit price or group price.

304.3 *Records of plant equipment.* Plant equipment shall be accounted for by individual item except as provided in subparagraphs (a), (b), (c), and (d) below. The form of property records to be maintained for plant equipment will include as a minimum the information prescribed by Exhibit A.

(a) *Record of accessory and auxiliary equipment.* Individual records for accessory and auxiliary equipment which is attached to or otherwise a part of an item of plant equipment and which is required for its normal operation need not be maintained, but the description of such accessory and auxiliary equipment shall be entered on the respective plant equipment records.

(b) *Record of manufacturing systems.* Where plant equipment and accessory type items are assembled and interconnected to form a single operating unit designed to perform continuously the same manufacturing process, such equipment may, for property and inventory control purposes, be grouped and reported as a single item of plant equipment on one plant equipment record in lieu of an individual record for each component comprising the item of plant equipment. This does not preclude the requirement for completely describing the component items nor does it preclude the use of more than one plant equipment record when additional space is required.

(c) *Record of minor plant equipment.* Summary stock records, rather than individual item records, shall be maintained for minor plant equipment, except in cases where individual item records are necessary for effective control.

(d) *Record of plant equipment costing between $200 and $500.* Summary stock records, rather than individual item records, shall be maintained for plant and production equipment costing between $200 and $500, except in cases where individual item records are necessary for effective control.

304.4 *Records of real property.* Records of real property shall consist of maps, drawings, plans and specifications supplemented, where necessary, to reflect building installations such as heating, electrical, sanitary, ventilating, drainage, sprinkler systems, etc. Appropriate changes will be made to the records to reflect alterations, additions, or extensions to real property. Where the maps, drawings, plans, and specifications do not adequately reflect descriptive data as to building installations, supplemental records will be maintained. The foregoing records (a) will be complete, (b) will show the original cost of the property and improvements, and the cost of changes and additions thereto, and (c) will be appropriately indexed.

304.5 *Records of scrap.* The contractor shall maintain separate or consolidated records of all scrap or salvage generated. These records may be in accordance with the contractor's system of scrap or salvage control, if approved in writing by the property administrator, who shall take into consideration the need for protecting the Government's interest in the proration, disposition and allocation of proceeds resulting therefrom.

304.6 *Records of related data and information.* Except as provided in this subparagraph, the requirements of this § 30.2 are not applicable to manufacturing or assembly drawings, installation, operation, repair or maintenance instructions, or other similar data and information furnished by the Government to the contractor. The contractor shall maintain property control and accountability with respect to such Government-furnished Property in accordance with sound industrial practice.

304.7 *Financial control accounts.* The contractors' property control system should be such as to provide annually, or not more often than quarterly if required in accordance with Departmental procedures, the dollar amounts of Government-owned industrial facilities in the following classifications.

(i) Land and rights therein,
(ii) Utility distribution systems,
(iii) Buildings, structures and improvements thereto, excluding plant equipment,
(iv) Plant equipment, excluding production equipment and minor plant equipment, and
(v) Production equipment.

The contractor's accounts will be susceptible to local reconciliation in total and subtotals as to whether contractor-acquired or Government-furnished.

305. *Numbering property accounts.* A property account, consisting of records maintained either by a Contractor or Government personnel, shall be assigned a property account number.

PART IV—MISCELLANEOUS PROVISIONS

401. *Identification.* All Government property shall be recorded and identified as such by the contractor promptly upon receipt, and it shall remain so identified so long as it remains in the custody, control or possession of the contractor.

(a) *Extent of Identification.*

(i) As a general rule, all Government material and minor plant equipment shall be identified as Government property except in those cases where:

(A) No materials or minor plant equipment of the same type at the same location are owned by the contractor, its employees, or other contracting agencies;

(B) Adequate physical control is maintained over tool-crib items, guard force items, protective clothing and other items issued for use by individuals in the performance of their work under the contract;

(C) Property is of bulk type or by its general nature of packing or handling precludes adequate marking, as may be determined by the property administrator; and

(D) Where property is commingled, as authorized by paragraph 206 hereof.

(ii) Government-owned special tooling shall be marked with the designation of the Military Department responsible for funding and control of such tooling, as follows: Army—"USA", Navy—"USN", and Air Force—"USAF", unless it is determined that such marking will damage the special tooling or is otherwise impracticable. Marking and identification procedures may be expanded by the Department having cognizance over the tooling to include end item reference, drawing number, and such other information as may be desired in a given case.

(iii) Unless already marked in accordance with these instructions, all Government-owned plant equipment, including industrial reserve plant equipment, shall be marked by the contractor with an identification number, except minor plant equipment; or when the size of the equipment or nature of the material for which it is made makes it impracticable, and in which case such item will be assigned an identification number for record purposes, which number shall be shown in the plant equipment property record; or the equipment is accessory or auxiliary and attached to or otherwise a part of an item of plant equipment and is required for its normal operation (see 30.2, 304.3(a)), in which case such item shall be entered and described on the record of the equipment to which it is attached or of which it is otherwise a part. Once an identification number has been affixed to an item of plant equipment, the identification will be permanent and will not be changed so long as the equipment remains under the control of the same Military Department (but see (iv) below). Identification shall be effected by affixing a metal, fibre, plastic or other plate directly to the equipment; by using indelible ink, acid or electric etch, steel dies, or any other legible, permanent, conspicuous, and tamperproof method. Identification shall consist of the following markings:

(A) An indication of Government-ownership and of the Military Department responsible for funding and control of the plant equipment, as follows: Army—"USA", Navy—"USN", and Air Force—"USAF"; however, the identification "U. S." property shall not be changed solely to conform to the provisions of this paragraph;

(B) A two-part identification number, furnished by the Government, consisting solely of numerals except as provided in (C) below. The first part shall be the property account number, and the second part shall be a serial number. In case plant equipment furnished by the Government is already identified as property of a Military Department, no change shall be made in the markings, except as provided in (iv) below; and

(C) In the case of items included within a standard Departmental registration system, for example, automotive, construction, or weight-handling equipment, application for a proper registration number will be made to the cognizant Department, which number shall be used in lieu of any other identification number.

(iv) Government identification markings shall be removed prior to sale or scrapping. The markings so removed shall be shown on the appropriate documents involved. In the case of a transfer of funding and control responsibilities to other Military Departments, new identification markings, in accordance with the requirements of (ii) or (iii) above, may be affixed upon receipt of the equipment by the receiving Military Department.

(b) *Recording identification numbers.* Assigned property identification numbers will be recorded on all applicable receiving documents, shipping documents, and other documents pertaining to the property accounts.

402. *Contractor's responsibility and liability.*

402.1 *Contractor's responsibility.* A Contractor shall be responsible for all Government Property in his custody or control in accordance with the terms of the contract. The Contractor may be relieved of responsibility for Government Property by any of the following methods, subject in any case to specific contract provisions or specific instructions of the Contract Administrator within the scope of the contract:

(a) *Consumption of property in the performance of the contract.* To the extent that the Property Administrator determines that property has been consumed or expended for proper purposes and in reasonable amounts in the performance of the contract, the Contractor shall be relieved of responsibility for such property.

(b) *Retention by the Contractor.* This may occur when the contract is completed, terminated or otherwise amended during the performance of the contract. The Contractor shall be relieved of responsibility for all property which has been retained by the Contractor, provided that the Government shall have approved the retention and shall have been reimbursed therefor in accordance with the terms of the contract or applicable regulations.

(c) *Sale of property.* The Contractor shall be relieved of responsibility for Government Property sold pursuant to the instructions of the Contract Administrator, in accordance with applicable regulations, provided, however, that the proceeds from such sale shall have been received by or credited to the Government.

(d) *Shipment of Government Property from a Contractor's plant.* The Contractor shall be relieved of responsibility when Government Property is shipped from the Contractor's plant pursuant to the instructions of the Contract Administrator.

(e) *Written advice of Contract Administrator.* The Contractor shall be relieved of responsibility for Government Property lost, damaged, destroyed, or consumed, in excess of that normally anticipated in the manufacturing or processing operation, as the result of appropriate action by the Contract Administrator to determine the liability of the Contractor, provided such determination is furnished to the Contractor in writing and the Government shall have been adequately reimbursed when appropriate.

402.2 *Contractor's liability.* Subject to the terms of the contract, the contractor may be liable when shortages of Government property are disclosed or when Government property is lost, damaged, or destroyed, or when there is evidence of unreasonable use or consumption of Government property as measured by the allowances provided for by the terms of the contract or the appropriate bill of materials.

(a) The property administrator will require the contractor to report to him in all cases of loss, damage, or destruction of Government property in his possession, as soon as such fact becomes known. The property administrator will forward such report to the contract administrator, together with his own report of the facts of the case and his recommendations thereon. If the contract administrator is the contracting officer, or a designated representative of the contracting officer for that purpose, he will thereupon determine the contractor's liability in accordance with the terms of the contract; otherwise he will forward the papers to the contracting officer, who will make such determination. In making any such determination, consideration will be given to the reports and recommendations submitted and to any additional facts which the contractor may submit. The contractor and the property administrator shall be furnished with a written copy of such determination. A copy shall be held in the files of the contract administrator.

(b) When inventory adjustments or usage analyses disclose consumption of property which is considered unreasonable by the property administrator, or when instances of losses, damages to, or destruction of Government property, which have not been reported by the contractor, are discovered by the property administrator, he shall prepare a statement of the items and amount of loss involved. This statement shall be furnished the contractor for investigation and written justification. Further procedure shall be in accordance with that prescribed in subparagraph (a) above.

(c) When completed products or end items are lost, destroyed, or damaged beyond repair while such property is in the physical possession or control of the Contractor, the action prescribed in subparagraph (a) above will be required.

(d) Where it has been determined that the Contractor is liable to the Government by reason of the loss, damage or destruction of Government Property, a letter of advice from the Contract Administrator shall be considered a valid credit to the official Government Property records, provided:

(i) When the Contractor pays by check, the letter of advice will identify the check received by number, date and amount.

(ii) When settlement is made by offset against amounts due the Contractor on a public voucher, the letter of advice will cite the actual voucher (Form 1034) on which the deduction is made.

(iii) When collection of the claim against the Contractor is to be made by the fiscal office designated for the contract, the letter of advice will have attached thereto a copy of the document used by the Contract Administrator to notify the fiscal office to effect collection.

(e) When property is rendered unserviceable by damages thereto, the letter of advice from the Contract Administrator will be considered a valid credit to the Government Property account when supported by or appropriately cross-referenced to shipping documents or listing covering proper disposition of the unserviceable items.

402.3 *Shipment and receipt of Government-furnished property.* In the case of Government property shipped to a contractor's plant from a military installation or from another contractor's plant, the contractor becomes responsible therefor upon delivery of the property to his plant. The shipping activity shall furnish the property administrator, who is responsible for the receiving contractor's property account, with copies of the documents necessary to permit the property account to reflect the transaction. On receipt of the property the contractor, where required, shall furnish the property administrator with documented evidence of such receipt. The property administrator shall take the action necessary to insure that his records of these transactions are complete. (See pars. 203 and 204.)

403. *Control of scrap and salvage.*

403.1 *Sources.* Scrap originating from Government Property includes, but is not limited to, the following:

(a) Cutting and processing waste, such as chips, cuttings, borings, turnings, short ends, circles, trimmings, clippings, and remnants.

(b) Spoiled partially manufactured materials, parts and assemblies, including parts and assemblies damaged in handling or installation.

(c) Materials and supplies and small tools and special equipment, when worn out or damaged beyond repair, used packaging materials, and nonreusable containers.

(d) Unusable materials generated in the performance of overhaul or conversion contracts.

403.2 *Salvage.* A salvage procedure shall be established by the Contractor whereby all Government Property that can be salvaged shall be recovered and returned to Government stock.

403.3 *Approval of scrap procedure by the property administrator.* The property administrator shall review and approve the contractor's procedures relating to the physical control of scrap and records relating thereto. The property administrator shall periodically assure by actual inspection and selective examinations that the approved procedures are effectively carried out. If the property administrator determines that corrective measures are necessary to protect the Government's interests, he shall so advise the contractor and the contractor shall take necessary corrective action. Where corrective action would involve substantial increased costs or where agreement as to the corrective action is not reached through mediation, the differences will be referred to the contractor administrator.

EXHIBIT A

403.4 *Minimum essential requirements of Contractor's scrap procedures.* The Contractor's scrap procedures must include the following:

(a) Appropriate inspection and study to determine the possibility of reworking or converting for use the scrap resulting from operations under the contract.

(b) Prompt accumulation of all scrap generated and storage thereof under adequate protection.

(c) Recording the scrap data on appropriate records to provide the basis for control by weight or other unit of measure.

(d) Sorting of scrap, including the segregation of the various metals to prevent contamination.

(e) Recording of scrap shipments out of the plant.

403.5 *Segregation of scrap and salvage.* Where the Contractor is engaged in work involving both Government-owned and Contractor-owned materials from which scrap of a uniform nature is produced, the physical segregation of Government-owned and Contractor-owned scrap and salvage may be impracticable. In such cases, the Contract Administrator shall require proration of such basis as will result in equitable recovery by the Government.

404. *Auditing property accounts.* Records of Government property shall be audited by the Departments as frequently as conditions warrant. Any such audit or audits may take place at any time during the performance of the contract, upon completion or termination of the contract, or at any time thereafter. These audits will include records maintained by the contractor and such records as may be maintained by Government personnel in connection with such property. The property administrator and the contractor shall make all property records, including correspondence related thereto, available to the auditors.

§ 30.3 Appendix C—Manual for control of Government property in possession of nonprofit research and development contractors.

PART I—INTRODUCTION

100 *Scope of manual.* This Manual sets forth basic requirements to be observed by the Departments of the Army, Navy and Air Force, for establishing and maintaining control over Government property furnished to or acquired by contractors in the case of research and development contracts with educational or other nonprofit organizations, provided such contracts are executed on a nonprofit basis.

101 *Reserved.*

102 *Applicability of manual.* Subject to paragraph 100 above, this Manual applies to all types of contracts, leases, and bailments, pursuant to which Government property is furnished to or acquired by a contractor.

103 *Definitions.* As used in this Manual, the following terms have the meanings shown:

103.1 "Educational or other nonprofit organization" means any corporation, foundation, trust, or institution operated for scientific or educational purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

103.2 "Contract administrator" means the individual duly designated by appropriate authority in the Military Departments to administer the contract. In the case of the Army and Air Force, this is a contracting officer, and in the Navy, the authorized representative of the contracting officer having administrative cognizance over the contract.

103.3 "Government property" means all property owned by or leased to the Government, or acquired by the Government under the terms of a contract, except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this Manual be classified as Government property. With this exception, Government property includes both Government-furnished property and contractor-acquired property, as defined below:

(a) "Government-furnished property" is property in the possession of or acquired directly by the Government and subsequently delivered or otherwise made available to the contractor; and

(b) "Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide" as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property" is intended to include both Government-furnished property and contractor-acquired property.

103.4 *Classification of Government property.* The terms "classify" and "classification" as used herein with reference to Government property refer to the grouping of property into different categories having different incidents. For purposes of this Manual, Government property shall be classified in five categories, defined as follows:

(a) "Real property" means lands, buildings, structures, improvements and appurtenances thereto. It does not include plant equipment as defined in subparagraph (b) below.

(b) "Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, and accessory and auxiliary items, but excluding special tooling) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

(c) Minor plant equipment means an item of plant equipment having a unit value of less than $200.00 and other plant equipment, regardless of cost, when so designated by the Government.

(d) "Material" means property which may be incorporated into or attached to, an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of the contract.

(e) "Special tooling" means all jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, other special equipment and manufacturing aids, and replacements thereof, acquired or manufactured by the contractor for use in the performance of a contract, which are of such a specialized nature that, without substantial modification or alteration, their use is limited to the production of such supplies or parts thereof, or the performance of such services, as are peculiar to the needs of the Government. The term does not include (i) items of tooling or equipment acquired by the contractor prior to the contract, or replacements thereof, whether or not altered or adapted for use in the performance of the contract, (ii) consumable small tools, or (iii) general or special machine tools, or similar capital items.

103.5 "Property administrator" means the Government representative responsible to the contract administrator for reviewing and approving the contractor's property control procedures, for examining the records maintained by the contractor of Government property, for making usage analyses of Government property, and for the maintenance of such Government property records as are required by this Manual.

103.6 "Property account" means the official records of the Government property provided to a contractor by a Department, which are established and maintained under the provisions of this Manual. Separate property accounts will be maintained either on an individual contract basis or contractor basis.

103.7 "Stock record" means a perpetual inventory form of record which shows by nomenclature the quantities received and issued, and the balances on hand.

103.8 "Salvage" means property which is recovered for further use or which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations, but which has some value in excess of its scrap value.

103.9 "Scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

PART II—GOVERNMENT ADMINISTRATIVE PROVISIONS

200. *Scope of part.* This part sets forth (i) the duties and responsibilities of Government representatives charged with the control of Government property (ii) the sources from which Government property may be received or acquired, and (iii) the instructions to Government representatives for the control of Government property, both physically and administratively.

201. *Duties and responsibilities of the Contract Administrator with respect to the control of Government property.* (a) The function of the Contract Administrator with respect to the control of Government property is to insure that the Contractor complies with the provisions of the contract and this manual pertaining to Government property and that the Government's interests therein are fully protected at all times. He shall require the Contractor to (i) exercise reasonable care and proper usage of all Government property, (ii) establish and maintain adequate records therefor, and (iii) maintain controls that will assure the recording of all debits and credits to the property record as hereinafter defined.

(b) It is incumbent upon the Contract Administrator to familiarize himself with the provisions of this manual and the contract involved.

(c) He shall require the Contractor to correct all deficiencies in complying with the provisions of the contract and this manual pertaining to Government property.

(d) He shall take proper action with respect to recommendations of the Property Administrator relating to usage or control of Government property.

(e) He shall make appropriate written findings with respect to the Contractor's liability for Government property lost, damaged, destroyed, or unreasonably consumed, as may be required by this manual.

202. *Designation of property administrator.* (a) A property administrator shall be designated for each Government contract involving Government property. In appropriate cases the contract administrator may be assigned the additional duty of property administrator. An assistant property administrator may be appointed for specific contracts. The property administrator will not be required to post a bond by virtue of the duty as property administrator.

(b) It is the policy of the Department of Defense that a single property administrator shall be designated for all Department of Defense contracts performed at one location by a contractor. Within each Military Department, responsibility for the direction, administration and review of the property administration interchange program shall be assigned to a single office at the Department level. This office, designated to direct and administer the program, shall have the following responsibilities:

(1) Implementation of pertinent Department of Defense directives, instructions and regulations.

(2) Review of field contract administration activities for compliance with Department of Defense and Departmental directives pertinent to the property administration interchange program.

(3) Resolution of intra-departmental interchange problems.

(4) Resolution of inter-departmental interchange problems.

(c) Property administration interchange agreements shall be negotiated only by those offices administering current contracts or orders with the contractors. Property administration interchange agreements shall be effected at the field level between representatives of the procuring activities having contract administration responsibility. In formulating such agreements, the following factors, among others, shall be considered.

(1) Comparative value and types of Government property in the possession of the contractor and the Government property yet to be provided under Government contracts.

(2) Existence of a resident property administrator or accessibility of an itinerant property administrator.

(3) Other contract administration functions which may have a bearing on property administration such as quality control, industrial mobilization planning and audit cognizance.

(d) Based on the above factors, when two or more offices are equally concerned, with property administration at a contractor's location, that office which has contracts or orders that indicate the greatest continuous duration of future interest in Government property shall be given primary consideration for property administration cognizance. When all contracts or orders of the Department designated to perform property administration have been completed at a contractor's location, that Department shall cease to have cognizance at that location unless all military contracts providing for Government property are scheduled to expire within a succeeding three-month period. When all contracts or orders of the Department designated to perform property administration have been completed at a contractor's location where other Departments continue to perform contracts or orders which are not scheduled to expire within a succeeding three-month period, property administration cognizance shall be determined by negotiation between those Departments which continue to perform contracts or orders providing for Government property with the suppliers. When a Department that previously had no contracts at a contractor's location at the time the existing property administration interchange agreement was made acquires a contract providing for Government property of greater continuous duration of future interest than those involved in the existing agreement, the cognizance agreement shall be reviewed and either confirmed or revised by a new agreement.

(e) When the Departments are unable to reach property administration interchange agreements, those unresolved property ad-

ministration assignments shall be referred to the Assistant Secretary of Defense (Supply and Logistics) for resolution.

(f) Property administration functions required by the Armed Services Procurement Regulation will be performed by the designated property administrator who will generally follow his current operating procedures in performing property administration. Each Department will provide the designated property administrator with manuals, instructions, and directives pertaining to reports and documentation required by contractural provisions. Documents and records required by this Appendix C for property administration of current contracts, subcontracts, and purchase orders involving Government property will be provided to the designated property administrator prior to the effective date of an agreement. Copies of such contracts, subcontracts, and purchase orders and amendments thereto or extracts of property provisions thereof will accompany the transmittal. The name of the individual designated as property administrator for such contracts will be furnished to the procuring activity performing contract administration. New contracts, subcontracts, purchase orders and amendments thereto or extracts of property provisions thereof where Government property is involved will be transmitted to the designated property administrator.

(g) The designated property administrator may correspond directly with the contractor and appropriate Department of Defense personnel on matters pertaining to Government property. The contract administrator will keep the property administrator informed as to all communications, correspondence, and actions affecting property matters under the assigned contract.

(h) Property administration interchange agreements shall be in the general format shown below. Where required, appendices shall be added thereto.

1. Purpose. This is a local interchange agreement providing for property administration at the designated contractor's location by (Department-procurement office) in accordance with ASPR C–202. _____

2. Effective date. This agreement becomes effective on _____.

3. Contractor's location (Identify specific location covered by this agreement)

_____
_____
(Signature of authorized representatives of Departments concerned)

203 *Duties and responsibilities of the property administrator.*

(a) The property administrator shall familiarize himself with the provisions of this Manual and the contract provisions pertaining to Government property.

(b) He shall, as the authorized representative of the contract administrator or administrators, insure compliance with the contract requirements relative to Government property and insure fulfillment of all obligations imposed by this Manual. He shall at the inception of the contract review and approve in writing the contractor's property control records and procedures.

(c) He shall examine any documents, including but not limited to consumption or spoilage or shrinkage, sales, shipments, transfers, etc., recorded by the Contractor in the property accounts, to the extent necessary to establish the correctness and completeness of such records.

(d) It shall be his responsibility to report to the Contracting Officer any instances of what he deems to be improper usage of Government property. To the extent necessary to fulfill this function selective physical inspections of Government property shall be made.

(e) He shall periodically examine property records to determine whether such records usage reports, adjustment reports, reports of reflect the status of Government property and indicate compliance with the provisions of the contract and applicable directives. He shall report promptly in writing to the Contract Administrator any non-compliance by the Contractor with the contract provisions and applicable directives.

(f) He will observe the following procedure in connection with loss, damage, and destruction of Government property in the possession of the contractor:

(i) He will require the contractor to report to him all cases of loss, damage, or destruction of Government property in his possession, as soon as such fact becomes known. He will forward such report to the contract administrator, together with his own report of the facts of the case and his recommendation thereon. If the contract administrator is the contracting officer, or a designated representative of the contracting officer for that purpose, he will thereupon determine the contractor's liability, in accordance with the terms of the contract; otherwise he will forward the papers to the contracting office, who will make such determination. In making any such determination, consideration will be given to the reports and recommendations submitted and to any additional facts which the contractor may submit. The contractor and the property administrator shall be furnished with a written copy of such determination. A copy shall be held in the files of the contract administrator.

(ii) When inventory adjustments or usage analyses disclose consumption of property which is considered unreasonable by the property administrator, or when instances of losses, damages to, or destruction of Government property which have not been reported by the contractor, are discovered by the property administrator, he shall prepare a statement of the items and amount of loss involved. This statement shall be furnished the contractor for investigation and written justification. Further procedure shall be in accordance with that prescribed in (i) above.

(iii) When end items are lost, destroyed, or damaged beyond repair while such items are in the physical possession or control of the Contractor, the action prescribed in subparagraph (i) above will be required.

(iv) Where it has been determined that the Contractor is liable to the Government by reason of the loss, damage, or destruction of Government property, a letter of advice from the Contract Administrator shall be considered a valid credit to the official Government property records, provided:

(A) When the Contractor pays by check, the letter of advice will identify the check received by number, date, and amount.

(B) When a settlement is made by offset against amounts due the Contractor on a public voucher, the letter of advice will cite the actual voucher (Form 1034) on which the deduction is made.

(C) When collection of the claim against the Contractor is to be made by the fiscal office designated for the contract, the letter of advice will have attached thereto a copy of the document used by the Contract Administrator to notify the fiscal office to effect collection.

(v) When property is rendered unserviceable by damage thereto, the letter of advice from the Contract Administrator will be considered a valid credit to the Government property account when supported by or appropriately cross-referenced to shipping documents or listing covering proper disposition of the unserviceable items.

(g) He shall take the action necessary to insure that his records of the transactions discussed in paragraph 204 below are complete.

(h) He shall review and approve the contractor's scrap procedures and records as provided in paragraph 212 of this manual.

(i) He shall advise the Contract Administrator on all property matters.

204 *Shipment and receipt of government-furnished property.* In the case of Government property shipped to a contractor's plant from a military installation or from another contractor's plant, the contractor becomes responsible therefor upon delivery of the property to his plant. The shipping activity shall furnish the property administrator, who is responsible for the receiving contractor's property account, with copies of the documents necessary to permit the property account to reflect the transaction. On receipt of the property the contractor, where required, shall furnish the property administrator with documented evidence of such receipt. The property administrator shall take the action necessary to insure that his records of these transactions are complete. (See par. 203.)

205. *Sources from which Government property may be furnished or acquired.*

205.1 *Military installations or other Contractor's plants.* Government property may be shipped to a Contractor from military installations or plants or department contractors.

205.2 *Direct purchase by the Contractor.* Direct purchases shall be subject to a determination by the Contract Administrator that the items are allocable to the contract involved and are reasonably necessary therefor. For purposes of property control within the scope of this manual, it shall be considered that property purchased by a Contractor, for which direct reimbursement is to be requested, becomes Government property upon its receipt by the Contractor. This is "Contractor-acquired" property. This provision shall not be deemed to alter or modify contractual provisions relating to passage of title.

205.3 *Withdrawal from Contractor-owned stores.* For purposes of property control, within the scope of this manual, property withdrawn from Contractor-owned stores, for direct charge to the contract, shall be considered Government property at the time of approval of the claim for reimbursement, or at the time of issuance for use of such property for the performance of the contract, whichever is earlier. This also is "Contractor-acquired" property.

205.4 *Contract provisions, termination, contract changes.* Pursuant to specific contractual provisions, or as a result of termination of a contract, or change orders issued under a contract, the Government may acquire title to property.

205.5 *Advance, progress, or partial payments.* Pursuant to the terms of a contract the Government may acquire title to property upon the making of advance, progress, or partial payments to the Contractor. Property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments shall not be subject to the provisions of this manual.

206. [Reserved]

207. *Contractor's records.*

207.1 *General policy.* In order to satisfactorily perform work under a Government contract, a contractor must maintain adequate control records for all Government property, whether furnished to or acquired by a contractor for the account of the Government. It is the Government's policy to designate and use such records as the official contract records, and not to maintain duplicate property control records, other than those required by paragraph 213, and other than such real property and plant equipment records as may be required by the respective departments. Exceptions to this policy may be authorized by the respective departments in special circumstances, such as where the administrative expense of maintaining Government personnel at the Contractor's plant or providing frequent official visits to the plant would exceed the cost of maintaining Government records or otherwise not to be in the best interest of the Government.

207.2 *The Contractor's property control system.* The contractor's property control system shall be reviewed and approved in writing by the property administrator. If any corrective action is necessary, it will be required of the contractor prior to approval. Such corrective action will normally be effected through mediation with the contractor. Where corrective action would involve substantial increased costs or where agreement as to the corrective action is not reached through mediation, the differences will be referred to the contract administrator. Consistent with the provisions of the contract, the principles and requirements stated in the subparagraphs below shall be observed by the property administrator in approving the contractor's property control system.

207.3 *Records for material in stores.* For material maintained by the Contractor in stocks or stores, the Contractor's property control system shall be such as to provide the following information:

(i) Contract number, or equivalent code designation.
(ii) Nomenclature or description of item.
(iii) Quantity received.
(iv) Quantity issued.
(v) Balance on hand.
(vi) Posting reference.
(vii) Date received or issued.
(viii) Price.
(ix) Disposition action taken.

207.4 *Records for material issued directly upon receipt, for minor plant equipment, and for special tooling.* For material, whether Government-furnished or contractor-acquired, issued by the contractor directly so as to be considered expended under the contract, for minor plant equipment, and for special tooling, the Government invoices, contractor's purchase documents, or other documentary evidence of acquisition and issue, will be accepted as adequate property control records.

207.5 *Records of plant equipment.* (a) Individual records of each item of plant equipment shall be maintained unless summary stock records are maintained as provided in (b) below. The following information shall be available from such records.

(i) Name and address of contractor.
(ii) Name and address of manufacturer of the plant equipment item.
(iii) Model number of the plant equipment item.
(iv) Year built or acquired.
(v) Serial number.
(vi) U. S. Government identification number.
(vii) Description and classification of the item.
(viii) Acquisition reference and date.
(ix) Disposition reference and date.
(x) Contract number under which acquired.
(xi) Cost (F. O. B. Manufacturer).

(b) Summary stock records may be maintained in lieu of individual property records for those items of plant equipment having a value of less than $500 each when designated by the contract administrator in accordance with departmental procedures. Full consideration should be made of the contractor's existing property control system. The following information shall be available from such records:

(i) Name and address of contractor.
(ii) Description and classification of the item.
(iii) Acquisition reference and date.
(iv) Disposition reference and date.
(v) Contract number under which acquired.
(vi) Cost (F. O. B. Manufacturer).
(vii) Quantity received.
(viii) Quantity transferred or disposed of as authorized in par. 203 (f) above.
(ix) Balance on hand.

In addition, where appropriate as determined by the contract administrator, the serial number or the U. S. Government identification number for each item shall be recorded in a permanent manner on the summary stock record and upon disposition a line drawn through the appropriate number.

207.6 *Records of real property.* Records of real property shall be as provided in paragraph 306 (d).

207.7 *Separated components.* Property records shall be required for any usable components which are permanently removed from items of Government property, as a result of modification, or otherwise, to the same extent as would be the case if such components had been provided separately by the Government; provided that the Contractor shall not be required to augment his property control system for the purpose of recording minor plant equipment, special tooling or materials, except upon return to stocks or stores.

207.8 *Custodial records.* Custodial records normally should be maintained for items issued from tool cribs or the like, guard force items, protective clothing and other items issued for the use of individuals in the performance of their work under the contract. However, it is the general policy of the Government to accept for the control of Government property of the above character the same system as employed by the Contractor for his own similar property.

207.9 *Consolidated stock record.* Where a Contractor has more than one Government contract, under which Government property is provided, a consolidated record for materials may be authorized, provided the total quantity of any item is allocated to each contract by contract number and each requisition of property from the Contractor's stores is charged to the contract on which the property is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

207.10 *Pricing.* Property records shall show a unit price for each item except for items constructed for research or development purposes by the Contractor. In the case of Contract-acquired property the price shall be determined in accordance with the system established by the Contractor in conformance with sound accounting principles and consistently applied. The unit price of Government-furnished property shall be as determined by the Government and furnished to the Contractor.

208. [Reserved]

209. *Identification.* Government property shall be recorded and identified by the contractor as provided in paragraph 307.

210. *Segregation or commingling of Government property and contractor's property.* Ordinarily Government property, particularly material, should be segregated and kept physically separate from contractor-owned property at all times. There will be occasions, however, where commingling of property would be advantageous to the Government. The property administrator should consider and arrange with the contractor plans for segregation and commingling of property. This agreement reached with respect to commingling shall be reduced to writing by the property administrator. Commingling may be allowed in the following types of cases:

(i) Where each commingling is approved by the property administrator; and

(ii) Where the Government property involved is plant equipment, special tooling or minor plant equipment which is clearly identified or marked as Government property and is supported by appropriate control records.

211. *Physical inventories.*

211.1 *Before termination or completion.* It shall be the responsibility of the property administrator to review and approve the type and frequency of physical inventories to be taken. In this respect, he may accept and approve in writing the contractor's established procedures if he determines that they adequately protect the interests of the Government and are in conformity with applicable regulations.

211.2 *Upon termination or completion.* Upon termination or completion of a contract, a physical inventory adequate for disposal purposes shall be required of all Government property applicable to the contract in the custody, control or possession of the Contractor. Standard items that have been modified may be described as standard items, with a general description of the modification. Items that have been constructed, such as test equipment, should be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

211.3 *Inventories and selective examinations by the property administrator.* (a) The property administrator may, at his discretion, join with the contractor in taking of any inventory required to be made by the contractor.

(b) The property administrator should make selective examinations of the inventory being taken by the contractor when he determines that such procedure is necessary to protect the interests of the Government. When selective examinations are made they must embrace a representative number of items in the account and must adequately cover, by class and price range, all Government property involved.

211.4 *Quantitative and monetary controls.* As directed or required by proper authority, the property administrator shall require the contractor's physical inventories to be prepared on both a quantitative and monetary basis and be classified by categories such as material, special tooling, and minor equipment, plant equipment, etc.

211.5 *Discrepancies.* The property administrator shall proceed to adjust any discrepancies disclosed as a result of inventorying in accordance with the provisions of the contract and this Manual.

212 *Control of scrap and salvage.* Procedures for the control of scrap and salvage shall not be applicable to nonprofit research and development contracts unless the property administrator determines that the scrap or salvage is substantial in amount and that the Government is not receiving sufficient benefits from the use or disposal thereof, in which event the procedures set forth in paragraph 403 of § 30.2, shall be applied.

213. *Records to be maintained by Government personnel.*

213.1 *Records of specific contracts where property is involved.* (a) Where a contract provides for the use of Government property a copy of the contract shall be made available or furnished to the Property Administrator.

(b) The property administrator shall maintain a record of each contract assigned to him for property administration. That record shall contain the following minimum information:

(i) Contract number and name of Contractor.
(ii) Type of contract (CPFF, fixed price, research and development, etc.)
(iii) End item to be produced or services to be performed, and the points of inspection and acceptance.
(iv) Record of amendments and changes pertaining to Government property.
(v) Listing and type of all subcontracts which involve Government property.

(vi) Provisions of contract pertaining to liability of the Contractor for loss, damage or improper use of Government property.

(vii) Record of Contract Administrators and dates of tenure.

(viii) Record of Property Administrators and dates of tenure.

(ix) Record of Plant Representatives (or Officers-in-Charge) and dates of tenure.

(x) Record of written approval of Contractor's property control procedures.

(xi) Record of deviations granted in property procedures. (The deviations granted shall be in accordance with procedural regulations issued by each department.)

(xii) Record of property audits and inspections performed by the responsible agencies in each department.

(xiii) Records of property inspections during production and usage analyses performed;

(xiv) Record of any deficiencies found in property control and the corrective action taken.

(xv) Interim and final clearance data for Government property.

(xvi) A file of all documents evidencing receipt of Government-furnished property by the contractor where required in accordance with C–305; and

(xvii) A file containing copies of all instruments affecting relief from responsibility for Government property.

213.2 *Control records to be maintained.* The Property Administrator shall maintain a system of file control that will permit the ready location of any document that he is required by this manual to maintain.

213.3 *Record of end items.* The Property Administrator shall maintain a record of all end items produced under the contract, based upon authenticated receiving reports or processed vendors' shipping documents, as follows:

(a) When there is no lapse of time between Government inspection and acceptance of the end items and shipment from the Contractor, the records shall, as a minimum, consist of a summarization of quantities accepted and shipped. When end items are accepted by the Government and stored with the Contractor, the record shall show the quantities stored and location.

(b) Some contracts provide that end items are to be retained by the Contractor for further use under the contract. Upon acceptance of such items, they shall be considered to be "Government-furnished property" and shall be recorded by the Contractor as required by the terms of the contract.

214. *Numbering property accounts.* A property account, consisting of records maintained either by a Contractor or Government personnel, shall be assigned a property account number.

215. *Auditing property accounts.* Records of Government property shall be audited by the Departments as frequently as conditions warrant. Any such audit or audits may take place at any time during the performance of the contract, upon completion or termination of the contract, or at any time thereafter. These audits will include records maintained by the contractor and such records as may be maintained by Government personnel in connection with such property. The property administrator and the contractor shall make all property records, including correspondence related thereto, available for inspection by the auditors.

PART III—CONTRACTOR'S OBLIGATIONS

300. *Scope of part.* This part covers (i) the duties and responsibilities of the Contractor with respect to Government property, (ii) the liability of the Contractor for Government property lost, damaged, or for which the Contractor is otherwise unable to account, and (iii) the obligations of the Contractor with respect to the control of Government property, both physically and administratively. This Part III of this manual is designed so that it may be incorporated by reference in the contract, as desired.

301. *General.* The contractor shall be directly responsible for and accountable for all Government property in accordance with the provisions of the contract. The contractor shall maintain and make available such records as are required by Part III of this Manual and must account for all Government property until relieved of responsibility therefor in accordance with the procedures as set forth hereinafter. Liability for loss, damage, or excessive use of property in a given instance will necessarily depend upon all circumstances surrounding the particular case and must be considered and determined in accordance with the provisions of the contract. The contractor shall furnish all necessary data substantiating any request for discharge from responsibility.

302. *Definitions.* The definitions used in Part I of this manual apply to those terms defined therein when used in this Part III of this manual or in the contract.

302.1 *Contracting Officer.* As used in this Part III, the term "Contracting Officer" shall include any authorized representative of the Contracting Officer acting within the limits of his authority, including the Contract Administrator and the Property Administrator, as those terms are defined in paragraphs 103.2 and 103.5 of Part I.

303. *Contractor's responsibility.* A Contractor shall be responsible for all Government property in his custody or control in accordance with the terms of the contract. The Contractor may be relieved of responsibility for Government property by any of the following methods, subject in any case to specific contract provisions or specific instructions of the Contracting Officer within the scope of the contract:

(a) *Consumption of property in the performance of the contract.* To the extent that property has been consumed or expended for proper purposes and in reasonable amounts in the performance of the contract, the Contractor shall be relieved of responsibility for such property.

(b) *Retention by the contractor.* This may occur when the contract is completed or terminated, or otherwise in accordance with the provisions of the contract. The Contractor shall be relieved of responsibility for all property which has been retained by the Contractor, provided that the Government shall have approved the retention and shall have been reimbursed therefor in accordance with the terms of the contract or applicable regulations.

(c) *Sale of property.* The Contractor shall be relieved of responsibility for Government property sold with the approval of the Contracting Officer, in accordance with applicable regulations, provided, however, that the proceeds from such sale shall have been received by or credited to the Government.

(d) *Shipment of Government property from a contractor's plant.* The Contractor shall be relieved of responsibility when Government property is shipped from the Contractor's plant pursuant to the instructions of the Contracting Officer.

(e) *Written advice of contracting officer.* The contractor shall be relieved of responsibility for Government property lost, damaged, destroyed, or consumed, in excess of that normally anticipated in the manufacturing or processing operation, as the result of appropriate action by the contracting officer to determine the liability of the contractor: *Provided,* Such determination is furnished to the contractor in writing and the Government shall have been adequately reimbursed when appropriate. If the contract administrator is the contracting officer or a designated representative of the contracting officer for that purpose, he will thereupon determine the contractor's liability.

304. *Contractor's liability.* Subject to the terms of the contract, the Contractor may be liable when shortages of Government property are disclosed or when Government property is lost, damaged, or destroyed, or when there is evidence of unreasonable use or consumption of Government property as measured by the allowances provided for by the terms of the contract or the appropriate bill of materials.

305. *Receipting for Government property.* The contractor shall be required to furnish a written receipt for all, or specific classes of Government provided property only in those instances where such action is determined by the property administrator to be essential for maintenance of minimum acceptable property controls. In these instances the property administrator shall maintain for each contract a file of such documents or property record cards. Where such evidence of receipt is required, it shall be provided by the contractor not later than the time he submits his application for payment (public voucher).

306. *Property control records.* The Contractor shall maintain proper control over all Government property in accordance with methods which have been established by the contractor and approved by the property administrator consistent with the following:

(a) *Material issued directly upon receipt, minor plant equipment and special tooling*—

(i) *Fixed price contracts.* In the case of Government-furnished material which is issued directly by the contractor upon receipt so as to be considered expended under the contract, and in the case of minor plant equipment, and special tooling, the documents evidencing receipt and issue maintained by the contractor will be accepted as property control records; and

(ii) *Cost type contracts.* For material, whether Government-furnished or contractor-acquired, issued by the contractor directly so as to be considered expended under the contract, for minor plant equipment, and for special tooling, the Government invoices, contractor's purchase documents or other documentary evidence of acquisition and issue, will be accepted as adequate property control records.

(b) *Material maintained in stocks.* In the case of material furnished by the Government under fixed price contracts, and in the case of material furnished by the Government or procured by the Contractor, title to which vests in the Government, under cost-type contracts, which material is maintained by the Contractor in stock or stores, the Contractor shall compile and maintain appropriate records covering the description, cost when known, acquisition and disposition, and such other information as may be required to identify the property. Records of consumption on a unit or accumulated basis shall also be maintained. The Contractor shall be prepared to locate such property within a reasonable time after request therefor.

(c) *Plant equipment.* In the case of plant equipment furnished by the Government under fixed price contracts, or in the case of plant equipment furnished by the Government or procured by the Contractor, title to which vests in the Government under, cost-type contracts, the Contractor shall compile and maintain individual property records covering the description, cost, acquisition, and disposition of each item of plant equipment and such other information as may be required to identify the property. The Contractor shall be prepared to locate any item of such property within a reasonable time after request therefor.

(d) *Real property.* In the case of real property furnished by the Government under fixed price contracts, and in the case of real property furnished by the Government or acquired by the Contractor, title to which vests in the Government, under cost-type contracts, the Contractor shall maintain a continuous itemized record of the description, location, acquisition cost, and disposition of all Government real property, including unimproved real property, all alterations and all construction work, and any site connected with such alteration or construction, acquired by purchase, lease or otherwise. This itemized record may be in the form of a cross-reference to maps, drawings, plans and specifications.

(e) *Records of related data and information.* Except as provided in this subparagraph, the requirements of this § 30.3 are not applicable to manufacturing or assembly drawings, installation, operation, repair or maintenance instructions, or other similar data and information furnished by the Government to the contractor. The contractor shall maintain property control and accountability with respect to such Government-furnished property in accordance with sound industrial practice.

307. *Identification.* All Government property shall be recorded and identified as such by the contractor promptly upon receipt, and it shall remain so identified so long as it remains in the custody, control or possession of the contractor.

(a) *Extent of identification:*

(i) As a general rule, all Government material shall be identified as Government property except in those cases where—

(A) no materials of the same type at the same location are owned by the contractor, his employees, or other contracting agencies;

(B) adequate physical control is maintained over tool-crib items, guard force items, protective clothing and other items issued for use by individuals in the performance of their work under the contract;

(C) property is of bulk type or by its general nature of packing or handling precludes adequate marking, as may be determined by the property administrator; or

(D) property is commingled, as authorized by paragraph 210 hereof;

(ii) Government-owned special tooling shall be marked with the designation of the Military Department responsible for funding and control of such tooling, as follows: Army—"USA", Navy—"USN", and Air Force—"USAF", unless it is determined that such marking will damage the special tooling or is otherwise impracticable. Marking and identification procedures may be expanded by the Department having cognizance over the tooling to include end item reference, drawing number, and such other information as may be desired in a given case. The identification "U. S." property shall not be changed solely to conform to the provisions of this paragraph;

(iii) Unless already marked in accordance with these instructions, all Government-owned plant equipment, including industrial reserve plant equipment, shall be marked by the contractor with an identification number, except minor plant equipment; or when the size of the equipment or the nature of the material from which it is made makes it impracticable, in which case such item will be assigned an identification number for record purposes, which number shall be shown in the plant equipment property record; or the equipment is accessory or auxiliary and attached to or otherwise a part of an item of plant equipment and is required for its normal operation, in which case such item shall be entered and described on the record of the equipment to which it is attached or of which it is otherwise a part. Once an identification number has been affixed to an item of plant equipment, the identification will be permanent and will not be changed so long as the equipment remains under the control of the same Military Department (but see (iv) below). Identification shall be effected by affixing a metal, fibre, plastic or other plate directly to the equipment; by using indelible ink, acid or electric etch, steel dies, or any other legible, permanent, conspicuous, and tamper-proof method. Identification shall consist of the following markings:

(A) An indication of Government ownership of the Military Department responsible for funding and control of the plant equipment, as follows: Army—"USA", Navy—"USN", and Air Force—"USAF"; however, the identification "U. S." property shall not be changed solely to conform to the provisions of this paragraph;

(B) A two-part identification number, furnished by the Government, consisting solely of numerals except as provided in (C) below. The first part shall be the property account number and the second part shall be a serial number. In case plant equipment furnished by the Government is already identified as property of a Military Department, no change shall be made in the markings, except as provided in (iv) below; and

(C) In the case of items included within a standard Departmental registration system, for example, automotive, construction, or weight-handling equipment, application for a proper registration number will be made to the cognizant Department, which number shall be used in lieu of any other identification number.

(iv) Government identification markings shall be removed prior to sale or scrapping. The markings so removed shall be shown on the appropriate documents involved. In the case of a transfer of funding and control responsibilities to other Military Departments new identification markings, in accordance with the requirements of (ii) or (iii) above, may be affixed upon receipt of the equipment by the receiving Military Department.

(b) *Recording Identification Numbers.* Assigned property identification numbers will be recorded on all applicable receiving documents, shipping documents, and other documents pertaining to the property accounts.

(c) *Components.* Components which are permanently removed from items of Government property as a result of modification, or otherwise, shall be marked or identified by the Contractor according as to whether the component is classified as material, plant equipment, minor equipment or special tooling. Material, minor equipment and special tooling permanently removed from Government property need not be marked or identified except when returned to stock or stores.

(d) *Method of identification.* Identification shall be effected by affixing a metal, fibre, plastic or other plate directly to the equipment; by using indelible ink, acid or electric etch, steel dies, or any other legible, permanent, conspicuous, and tamperproof method. Identification shall consist of the following markings:

(i) An identification of Government ownership, viz., the letters "U. S."

(ii) The Contractor shall affix to each item of plant equipment the identification number furnished by the Government. In case the plant equipment furnished by the Government is already identified as property of the U. S. Government, the markings shall not be removed. In addition to the markings prescribed by the Government, the Contractor may use a severable marking of its own, for its own records, provided that the Contractor shall remove such marking upon return of the equipment to the Government, or upon making any other disposition.

308. *Segregation and commingling.* The contractor shall keep Government property segregated, except where commingling is approved by the property administrator as being to the mutual benefit of the Government and the contractor, or where the Government property involved is plant equipment, special tooling or minor plant equipment which is clearly identified or marked as Government property and is supported by appropriate control records.

309. *Inventories.* (a) *Interim physical inventory.* The contractor shall take a physical inventory of Government property whenever required by the property administrator, but such inventory shall not normally be required of the cnotractor more often than once a year. The inventory shall show the quantity and monetary value of each item of property inventories, and shall normally be limited to materials and minor equipment held in stocks and stores, and plant equipment. It shall be classified by categories of whatever items are inventories, such as material, special tooling, minor equipment, plant equipment, etc.

(b) *Joint physical inventory and selective examinations.* The property administrator, if he desires, may join with the contractor in taking the inventory required to be taken by the contractor. The property administrator shall have the right to take an inventory or make selective examinations, whenever he deems it necessary to protect the Government's interest.

(c) *Terminal physical inventory.* The contractor shall take upon completion or termination of the contract, a physical inventory adequate for disposal purposes of all Government property applicable to the contract in the custody, control, or possession of the contractor. The inventory shall be prepared on both a quantitative and monetary basis and be classified by categories, such as material, special tooling, minor equipment, plant equipment, etc. Standard items that have been modified may be described as standard items, with a general description of the modification. Items that have been constructed, such as test equipment, should be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

310. *Control of scrap and salvage.* Procedures for the control of scrap and salvage shall not be required unless the property administrator determines that the scrap or salvage is substantial in amount and the Government is not receiving sufficient benefits from the use or disposal thereof in which event the following procedures shall be applicable:

(a) The contractor shall establish a procedure whereby all Government property that can be salvaged shall be returned to Government stock, which procedure shall be subject to the approval of the property administrator; and

(b) If the property administrator determines that the contractor's scrap procedures and records are adequate to protect the Government's interest, he shall approve same in writing and furnish the contractor a copy thereof. If the property administrator determines that corrective measures are necessary to protect the Government's interests, he shall so advise the contractor. Where corrective action would involve substantial increased costs or where agreement as to corrective action is not reached through mediation, the difference will be referred to the contract administrator.

§ 30.4 Appendix D—Rules for notice and hearing under gratuities clause in Armed Services Procurement Regulation 7.104–16.

1. *Introduction.* Section 631 of the Department of Defense Appropriation Act, 1952, Public Law 179, 82d Congress,* and similar statutory requirements in subsequent Department of Defense appropriation acts, require all contracts, other than contracts for personal services, which call for the expenditure of funds appropriated for the military departments under the Act to contain a clause permitting the termination of the contractor's right to proceed under any such contract and permitting the Government to pursue the remedies that it could pursue in the event of breach of contract if it is found after notice and hearing by the Secretary of the department with which the contract was made, or by his duly authorized representative, that gratuities (in the form of entertainment, gifts or otherwise) were offered or given by the contractor or by his agent or representative to any officer or employee of the Government with a view toward securing a Government contract or favorable treatment with respect to the awarding or amending, or the making of any determination with respect to the performing of such contract. The military departments have prescribed the use of such clause, as set forth in the Armed Services Procurement Regulation, paragraph 7.104–16, in contracts as required by the above Act and in other procurement contracts. It is the purpose of these rules to make provision for the giving of the notice of hearing, for the conduct of the hearing, and for other procedural matters incident to the exercise of the rights and special remedies provided by the prescribed clause, wherever it is now or may hereafter be used in contracts of the military departments. In the interest of uniformity in proceedings before the three military departments, these rules are hereby adopted. Nothing herein shall be construed to affect or impair (1) the pursuit of other remedies available to the Government in any instance, or (2) the right of termination of any contract for any reason available to the Government under the terms of such contract.

2. *Definitions. Department.* The term "department" means the Department of the Army, the Department of the Navy, or the Department of the Air Force.

Secretary. The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of any military department.

Designee. The term "designee" means the person or board to whom authority has been delegated by the Secretary under Rule 3. The designee is the Secretary's authorized representative.

3. *Delegation of authority.* The Secretary may delegate to any person, military or civilian, or board of such persons within his Department all the authority of the Secretary conferred by statute or the prescribed contract clause to give notice of hearings, to conduct hearings and to make findings of fact with respect to (i) whether a gratuity was offered or given by a contractor or any agent or representative of such contractor to a Government officer or employee with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performance of such contract; and (ii) where appropriate, the amount of the costs incurred by the contractor in providing such gratuity. If the Secretary delegates his authority to a board, one of the members thereof shall be a person trained in the law, and the Secretary shall designate one member to be the presiding officer of the board.

4. *Notice and contents.* Whenever information coming to the attention of the Department indicates that the procedures provided herein may be properly invoked, the Department may cause a written notice to be served upon the contractor in the manner hereinafter provided. The notice shall be signed by the Secretary or his designee and dated and shall include the following items:

(a) A statement of the time, place, and purpose of the hearing, and the authority and jurisdiction under which it will be held. The statement as to purpose need only identify the contract clause, the contract or contracts involved, and the ultimate facts to be determined. The time of the hearing shall not be less than 10 days after service of the notice.

(b) Brief allegations setting forth the circumstances surrounding the offering or giving of the gratuity, including a description of the alleged gratuity itself and its estimated cost to the contractor; an identification of the offeree or donee and of the offerer or donor and the latter's relationship to the contractor; and the approximate date and place of the alleged offer or gift. Such allegations need be only sufficient to apprise the contractor reasonably of the issues involved in the hearing.

(c) A request that the contractor answer in writing the allegations of the notice, including in his answer such facts or argument as he may wish, and that he attend the hearing to adduce such evidence with respect to the alleged offer or gift as he may desire.

A suggested form of notice is set out as an appendix to these rules.

5. *Service of notice.* Service shall be made by mailing or delivering a copy of the notice to the contractor. Delivery of a copy means handing it to the party to be served, or, if the party is a corporation, partnership, or unincorporated association, handing it to an officer, partner, managing or general agent, or any other agent authorized by appointment or by law to receive service of process, or by leaving the copy at the contractor's office with the person in charge thereof. Service by mail shall be made only by certified mail and service shall be complete upon mailing. The manner of service shall be evidenced by the signed endorsement of the person making the service upon a copy of the notice to be included in the record of the proceeding. Service of notice may be accepted or waived by the contractor by written endorsement on a copy of the notice.

6. *Continuances and delays.* The authority to grant continuances or to adjourn the hearing shall rest with the person presiding at the hearing. Continuances will only be allowed for the most compelling reasons.

7. *Parties.* The parties to the hearing will be the contractor concerned and the Government. No intervention by other persons shall be permitted.

8. *Representation and hearing assistants.* The parties may be represented at the hearing and proceedings incident thereto by legal counsel. Upon the appearance of record of legal counsel of the contractor in the proceedings, service of papers as may thereafter be required may be made upon such legal counsel. The Department will make available such technical assistants, including a reporter, secretary or notary, as may be required.

9. *Transcript.* Testimony and arguments shall be reported verbatim. The reporter or secretary shall make available to the contractor and to the Government transcripts of the proceedings, including all testimony and copies of all documentary exhibits upon the payment of the reasonable costs thereof as the Department may by order fix.

10. *Hearings.* Hearings shall be conducted by the Secretary or his designee. Hearings will be as informal as may be reasonably appropriate under all the circumstances. Evidence and testimony, although not ordinarily admissible under legal rules of evidence, may be received subject to the discretion of the person presiding at the hearing. Immaterial, irrelevant, or unduly repetitious evidence shall be excluded. The parties may stipulate as to any facts or testimony. The testimony of witnesses shall be under oath and witnesses shall be subject to cross-examination. The hearing officer shall make such rulings with respect to the conduct of hearings as circumstances may require to ensure the orderly and expeditious presentation of evidence in a manner fair to the parties and consistent with these Rules and requirements of due process of law.

11. *Depositions.* Following service of the notice of hearing, a deposition may be taken as herein provided, and placed in evidence whenever the ends of justice will be served thereby.

(a) *Notice to take.* When either party desires to take a deposition, unless the parties stipulate as to the time when, and place where, the deposition is to be taken, the name of the officer before whom it is to be taken, and the names and addresses of the witnesses, the moving party shall give to the opposite party at least ten days' notice of the time when and the place where such deposition will be taken, the name and address and official title of the officer before whom it is proposed to take the deposition, and the names of the witnesses. A deposition may be taken either upon written interrogatories or upon oral examination, as may be specified in the notice. If the deposition is to be taken upon written interrogatories, copies thereof must accompany the notice to take depositions; if the opposite party desires to submit cross-interrogatories, written cross interrogatories should be served upon the party giving the notice within 5 days from the receipt of the notice to take the deposition. Notices may be served upon the contractor as provided by Rule 4 or upon his legal counsel of record. Service upon the Government may be made upon the person signing the notice of hearing or the Government representative of record. If service is made by mail, the mail shall be registered and service will be complete upon mailing.

(b) *Taking depositions.* Depositions may be taken before and authenticated by any officer, military or civil, authorized by the laws of the United States or by the laws of the place where the deposition is taken, to administer oaths. Witnesses shall be under oath and shall be subject to cross-examination as at the hearing. Objections will be reserved for determination at the hearing; provided, however, objections as to the form of questions shall be made and noted in the deposition. Each deposition shall show the caption of the proceeding, the place and date of taking, the names of the witnesses, and the party by whom called. The officer taking a deposition shall enclose the original deposition and exhibits, in a sealed packet, with postage or other transportation prepaid, and forward the same to the Secretary or his designee.

(c) *Use of deposition.* Testimony taken by deposition will not be considered until offered in whole or in part and received in evidence. A deposition taken by one party may be offered by the opposite party.

12. *Submissions without appearance: absence of parties.* If the contractor fails or refuses to appear or to make a written submission without appearing at the hearing, the hearing shall proceed upon such evidence as the Government may offer. The unexcused absence of any party shall not be occasion for delay of the hearing. Notwithstanding the nonappearance of the contractor at the hearing, proposed findings, conclusions, and argument may be submitted in writing on the contractor's behalf as provided in Rule 13.

13. *Argument and request for findings.* Within the discretion of the person presiding at the hearing, limited oral argument may be presented by the parties upon the completion of the hearing. Within ten days after the hearing is completed, both parties may file in writing with the person or board conducting the hearing proposed findings and conclusions with reasons and argument in support thereof. Copies will be provided to the opposite party.

14. *Findings and decision.* As soon as practicable after completion of the hearing and the timely submission of proposed findings and conclusions, the person or board that conducted the hearing shall make written findings and conclusions with respect to all material issues; reasons for the findings will be included at such length as may be appropriate. The findings where adverse to the contractor will include, in addition to other appropriate items, the following: (i) a description of the gratuity that was offered or given; (ii) a statement of the costs incurred by the contractor in providing the gratuity; (iii) the name and relationship to the contractor of the person by whom the gratuity was offered or given on the contractor's behalf; (iv) the name and position of the officer or employee of the Government to whom the gratuity was offered or given; (v) a description of the contract which the Contractor sought to secure by the offering or giving of the gratuity, or a statement as to the nature of the favorable treatment so sought with respect to the awarding or amending, or the making of any determinations with respect to the performing of a contract. When the findings are made by a designee they shall be forwarded to the Secretary with recommendations as to whether the right of the contractor to proceed under any contract mentioned in the notice of hearing shall be terminated, and as to the exemplary damages to be imposed against the contractor, which shall be in an amount which shall not be less than three nor more than ten times the costs incurred in providing the gratuity.

Approved this 5th day of July 1952 by: Earl D. Johnson, Assistant Secretary of the Army; H. R. Askins, Assistant Secretary of the Navy; Roswell L. Gilpatric, Under Secretary of the Air Force.

APPENDIX TO RULES

Form of Notice

Before the _____ of the _____.

File No. _____

In the Matter of the XYZ Corporation, Contract _____: Proceedings Pursuant to Clause _____ of Contract No. _____.

To: XYZ Corporation,
Rockefeller Plaza,
New York City, New York.

1. You are hereby notified that at ___ M. on _____ 1952, at room ____ of the _____ Building, _____, a hearing will be held before _____ to determine whether or not under the provisions of clause _____ of Government contract _____ a gratuity has been offered or given on behalf of the XYZ Corporation to an officer or employee of the Government of the United States with a view toward securing (a contract) (favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing of a contract). If it is found that a gratuity was so offered or given, your right to proceed under the contract may be terminated, and a penalty imposed in accordance with the contract clause mentioned above. In the event of such termination the Government will be entitled to pursue the remedies available for breach of contract.

2. The hearing at the time and place aforesaid will be held under the authority of (cite applicable Public Law and clause of contract(s)). Enclosed is a copy of the Rules promulgated by the Secretary of the _____ pursuant to which the hearing will be conducted. Papers pertaining to the proceedings may be captioned as above.

3. The contract(s) involved in the hearing, and which is (are) subject to termination if a gratuity is found to have been given or offered to secure favorable action as aforesaid, is (are) identified as follows:

Contract number _____ dated _____ under the cognizance of _____ and executed by _____ on behalf of the Government as the Contracting Officer.

4. The gratuity offered or given and the circumstances relating thereto are alleged to be as follows: (Include in a concise statement the nature of the alleged gratuity; a fair estimate of the costs incurred by the contractor in providing the gratuity; the identity of the offeree or donee and his position with the government; the identity of the offerer or donor and his relationship to the contractor; and the approximate date, time, and place of the alleged offer or gift. Also allege as appropriate, that the gratuity was (offered) (given) with a view toward securing a Government contract or favorable treatment with respect to awarding or amending, or the making of a determination with respect to the performing of a Government contract. Identify or describe the contracts involved). On proof of the facts alleged as aforesaid, the Government, in accordance with the applicable statutory and contract provisions mentioned in paragraph 2, may terminate your right to proceed under the contract identified in paragraph 3 and to pursue the remedies available for breach of contract; also to impose exemplary damages as provided in such law and contract provision.

5. If you desire to be heard in this matter, you are requested to file with the Department on or before the time of the hearing a written answer and to appear at the hearing.

Dated: _____

By direction of the _____ of the _____.

NOTE: Portions set apart by parentheses should be stricken or modified as appropriate to conform to the facts.

§ 30.5 Appendix E—Defense Contract Financing Regulations.

The regulations with respect to Defense Contract Financing Regulations are contained in Part 163, Subchapter E, of this chapter.

*The provisions of § 631 of Public Law 179, 82d Congress have been enacted as permanent law (5 U.S.C. 174).

SUBCHAPTER B—PERSONNEL; MILITARY AND CIVILIAN

PART 41—ADMINISTRATIVE DISCHARGES

Sec.
41.1 Purpose and cancellations.
41.2 Applicability.
41.3 Administration.
41.4 Definitions.
41.5 Pre-service activities.
41.6 Standards for discharge.
41.7 Reasons for discharge.
41.8 Procedures for discharge.

AUTHORITY: §§ 41.1 to 41.8 issued under sec. 161 of the Revised Statutes (5 U.S.C. 22); sec. 1162 and Chapters 361, 569, and 861 of Title 10, United States Code.

§ 41.1 Purpose and cancellations.

This part revises the standards and procedures governing the administrative discharge of enlisted persons from the Armed Forces. Former Part 44 (13 F.R. 5879) and any other existing regulations in conflict with the provisions of this part are superseded and cancelled ninety days after date of issue of this part.

§ 41.2 Applicability.

The policies and regulations set forth herein are applicable to the Army, the Navy, the Air Force, the Marine Corps, and by agreement with the Secretary of the Treasury, to the Coast Guard, and to all Reserve components thereof.

§ 41.3 Administration.

Each of the Armed Forces to which these policies and the regulations in this part are applicable will, prior to the cancellation date of former Part 44 (13 F.R. 5879) issue appropriate regulations under this part.

§ 41.4 Definitions.

(a) *Military behavior.* "Military behavior" as used herein refers to the conduct of the individual while a member of an Armed Service.

(b) *Military record.* "Military record" as used herein includes an individual's military behavior and performance of duty, and reflects the character of the service he has rendered while a member of an Armed Service.

(c) *Honorable Discharge.* An "Honorable Discharge" is a separation from an Armed Service with honor.

(d) *General Discharge.* A "General Discharge" is a separation from an Armed Service under honorable conditions of an individual whose military record is not sufficiently meritorious to warrant an Honorable Discharge.

§ 41.5 Pre-service activities.

Except for misrepresentations (including omissions) made in connection with his enlistment or induction, activities that a member of the Armed Forces engaged in before he acquired status in the Armed Forces may not be considered in determining the type and character of discharge or separation to be issued. The type and character of the discharge will be determined solely by the member's military record.

§ 41.6 Standards for discharge.

The type and character of discharge or separation and the reasons therefor will be determined in accordance with the following standards:

(a) *Honorable Discharge.* Issuance of an Honorable Discharge is conditioned upon:

(1) Proper military behavior: Ordinarily, an Honorable Discharge will not be issued if an individual has been convicted of an offense by General Court-Martial or has been convicted by more than one Special Court-Martial in the current enlistment, period of obligated service, or any extensions thereof.

(2) Proficient and industrious performance of duty having due regard to the rate, rank or grade held and the capabilities of the individual concerned.

(3) Eligibility for discharge by virtue of one of the following reasons:

(i) Expiration of enlistment or fulfillment of service obligation, as applicable.

(ii) Convenience of the Government.

(iii) Hardship or dependency.

(iv) Minority.

(v) Disability.

(vi) Unsuitability.

(vii) Security.

(viii) When directed by the Secretary of the Department concerned.

(ix) Resignation—own convenience.

Special considerations: An individual may, where otherwise ineligible, receive an Honorable Discharge if he has, during his current enlistment, period of obligated service, or any extensions thereof, received a personal decoration as defined by the respective services, or is discharged as a result of a disability incurred in line of duty. In each of the above situations, the individual's military record should form the basis for the action taken.

(b) *General Discharge.* Issuance of a General Discharge is conditioned upon:

(1) Military record not sufficiently meritorious to warrant an Honorable Discharge.

(2) Eligibility for discharge by virtue of one of the reasons listed in paragraph (a)(3) of this section.

(c) *Undesirable Discharge.* An Undesirable Discharge is an administrative separation from the service "Under Conditions Other than Honorable." It is issued for unfitness, misconduct or for security reasons. It will not be issued in lieu of trial by court-martial except upon the determination by an officer exercising General Court-Martial jurisdiction or by higher authority that the interests of the service as well as the individual will best be served by administrative discharge.

Special considerations: Notwithstanding the foregoing, whenver the particular circumstances in a given case so warrant, an administrative discharge other than an Undesirable Discharge may be issued.

§ 41.7 Reasons for discharge.

(a) *Expiration of enlistment or fulfillment of service obligation (as applicable).* Discharge with an Honorable or a General Discharge as warranted by the individual's military record (§ 41.6 (a) or (b), as applicable).

(b) *Convenience of the Government.* Discharge with an Honorable or a General Discharge as warranted by the individual's military record, for the following reasons:

(1) General demobilization, reduction in authorized strength or by an order applicable to all members of a class of personnel specified in the order.

(2) Acceptance of a commission or appointment in any branch of the Armed Services, for active duty only.

(3) National health, safety or interest.

(4) To permit immediate enlistment or reenlistment.

(5) Erroneous induction or enlistment.

(6) To provide for the discharge of individuals serving in unspecified enlistment.

(7) In the case of women, marriage, pregnancy, parenthood, or custody of children under age 18.

(8) For other good and sufficient reasons when determined by the Secretary of the Department concerned.

(c) *Resignation — own convenience.* Discharge with an Honorable or a General Discharge as warranted by the individual's military record, on an individual basis, in accordance with regulations of the Service concerned. Such discharge may be effected as early release for the convenience of the Government.

(d) *Dependency or hardship.* (1) Discharge or separation or release by reason of dependency or hardship with an Honorable or a General Discharge, as warranted by the individual's military record. Discharge may be directed when it is considered that undue and genuine dependency or hardship exists, that the hardship or dependency is not of a temporary nature, and that conditions have arisen or been aggravated to an excessive degree since entry into the Service and the member has made every reasonable effort by means of application for Family Allowance and voluntary contributions which have proven inadequate; that the discharge of the individual will result in the elimination of, or will materially alleviate the condition and that there are no means of alleviation readily available other than by such discharge.

(2) Undue hardship does not necessarily exist solely because of altered present or expected income or because the individual is separated from his family or must suffer the inconveniences normally incident to military service.

(e) *Minority.* Discharge by reason of minority with an Honorable or General Discharge as warranted by the individual's military record, or release by voidance of enlistment upon determination that the individual's age was misrepresented upon enlistment or induction as follows:

(1) Males, if enlisted and under 17 years of age, or inducted and under 18 years and six months of age, when verified, release from military control by discharge, release or voidance of enlistment.

(2) If an enlisted man, enlisted without proper consent and having passed his 17th birthday, but not his 18th birthday, discharge upon application of parent or legal guardian as prescribed by law.

(3) If an enlisted man having passed his 18th birthday when verified—retain if otherwise qualified.

(4) Females, if enlisted and under 18 years of age, or inducted and under the age prescribed by law for such induction, release from military control by discharge, release or voidance of enlistment.

(5) If an enlisted woman enlisted without proper consent, having passed her 18th birthday, but not her 21st birthday, when verified—discharge upon application of parent or legal guardian as prescribed by law.

NOTE: The enlistment of a minor with false representation as to age without proper consent will not in itself be considered as fraudulent enlistment.

(f) *Disability.* Discharge by reason of physical disability, with an Honorable or General Discharge as warranted by the individual's military record, when it has been determined as a result of medical findings that the individual is physically unfit to perform the duties of his office, rank, grade or rating.

(g) *Unsuitability.* Discharge by reason of unsuitability, with an Honorable or General Discharge as warranted by the individual's military record. Such discharge will be effected when it has been determined that an individual is unsuitable for further military service because of:

(1) Inaptitude: Applicable to those persons who are best described as inapt, due to lack of general adaptability, want or readiness of skill, unhandiness, or inability to learn.

(2) Character and behavior disorders: Character and behavior disorders, disorders of intelligence, and transient personality disorders due to acute or special stress as defined in "Joint Armed Forces Nomenclature and Method of Recording Psychiatric Conditions—1949" (SR 40–1025–2; NavMed P–1303; AFR 160–13A).

(3) Apathy, defective attitudes and inability to expend effort constructively: As significant observable defect, apparently beyond the control of the individual, elsewhere not readily describable.

(4) Enuresis.

(5) Alcoholism: Chronic, or addiction to alcohol.

(6) Homosexual tendencies.

(7) Special considerations: For other good and sufficient reasons when determined by the Secretary of the Department concerned.

(h) *Security.* Discharge with the character of discharge and under conditions stipulated by the Secretary of Defense in directives which deal explicitly with this matter when retention is not clearly consistent with the interest of national security.

(i) *Unfitness.* Discharge by reason of unfitness, with an Undesirable Discharge, unless the particular circumstances in a given case warrant a general or honorable discharge, when it has been determined that an individual's military record is characterized by one or more of the following:

(1) Frequent involvement of a discreditable nature with civil or military authorities.

(2) Sexual perversion including but not limited to (i) lewd and lascivious acts, (ii) homosexual acts, (iii) sodomy, (iv) indecent exposure, (v) indecent acts with or assault upon a child, or (vi) other indecent acts or offenses.

(3) Drug addiction or the unauthorized use or possession of habit-forming narcotic drugs or marijuana.

(4) An established pattern for shirking.

(5) An established pattern showing dishonorable failure to pay just debts.

(6) For other good and sufficient reasons when determined by the Secretary concerned.

(j) *Misconduct.* Discharge by reason of misconduct, with an Undesirable discharge, unless the particular circumstances in a given case warrant a general or honorable discharge, when one or more of the following conditions have been determined:

(1) Conviction by civil authorities (foreign or domestic) or action taken which is tantamount to a finding of guilty of an offense for which the maximum penalty under the UCMJ is death or confinement in excess of one year; or which involves moral turpitude; or where the offender is adjudged a juvenile delinquent, wayward minor, or youthful offender as a result of an offense involving moral turpitude. If the offense is not listed in the MCM Table of Maximum Punishments or is not closely related to an offense listed therein, the maximum punishments authorized by the U.S. Code or the District of Columbia Code, whichever is lesser, applies. For the purpose of this subparagraph only, an individual shall be considered as having been convicted even though an appeal is pending or is subsequently filed.

(2) Procurement of a fraudulent enlistment, induction or period of obligated service through any deliberate material misrepresentation or concealment which, except for such misrepresentation or concealment, may have resulted in rejection.

(3) Prolonged unauthorized absence: When unauthorized continuous absence of one year or more has been established, but punitive discharge has not been authorized by competent authority.

§ 41.8 Procedures for discharge.

In accordance with the standards outlined in this part, the following procedures will be adhered to in effecting administrative discharges:

(a) *Honorable Discharge.* A separation with an Honorable Discharge may be effected by the individual's commanding officer or higher authority when the individual is eligible for or subject to discharge and it has been determined that he merits an Honorable Discharge under the prescribed standards.

(b) *General Discharge.* A separation with a General Discharge may be effected by the individual's commanding officer or higher authority when the individual is eligible for or is subject to discharge and it has been determined under the prescribed standards and in accordance with any prescribed administrative procedures that a General Discharge is warranted.

(c) *Discharge for unsuitability.* An individual recommended for an honorable or general discharge for reason of unsuitability shall be afforded the opportunity to make a statement in his own behalf.

(d) *Undesirable Discharge.* An Undesirable Discharge will be effected only by authority of a properly approved administrative action conforming to the prescribed standards, during which the following procedures and safeguards have been observed:

(1) The individual if subject to such discharge will, if his whereabouts is known, be properly advised of the basis for the contemplated action and afforded an opportunity to request or waive, in writing, the following privileges:

(i) To have his case heard by a Board of not less than three officers. In the case of non-regular component members, all boards so convened shall include appropriate numbers from the Reserve components. In the case of female members, all boards so convened shall include at least one female officer.

(ii) To appear in person before such board, subject to his availability, e.g., not in civil confinement.

(iii) To be represented by counsel, who, if reasonably available, should be a lawyer.

(iv) To submit statements in his own behalf.

(2) Separation with an Undesirable Discharge may be effected by an officer exercising general court-martial jurisdiction or by higher authority (including departmental headquarters) after review of the findings and recommendations made by any board which was convened to consider the case.

(3) Except for Reservists, Departmental Secretaries are authorized to waive the requirements set forth in subparagraph (1) of this paragraph (except subdivision (iv)), when such action is deemed in the best interest of the military service. Departmental Secretaries will advise the Assistant Secretary of Defense (Manpower, Personnel and Reserve) by memorandum not later than 15 July each year of any such actions taken during the preceding fiscal year, and the reasons therefor. The reporting requirement of this paragraph has been assigned Report Control Symbol DD–MP&R(A) 370.

FEDERAL REGISTER

VOLUME 25 Number 254

Washington, Saturday, December 31, 1960

THE UNIVERSITY OF MICHIGAN
JAN 9 1961
MAIN READING ROOM

Regulations of the Secretary of Defense

(Continued)

PART 44—ENLISTMENT AND DISCHARGE OF INDIVIDUALS WITH JUVENILE AND YOUTHFUL OFFENDER RECORDS

Sec.
44.1 Purpose.
44.2 Policy.

AUTHORITY: §§ 44.1 and 44.2 issued under R.S. 161, 5 U.S.C. 22.

§ 44.1 Purpose.

The purpose of this part is to establish uniform policies in the enlistment and separation regulations and procedures of the armed services concerning individuals with juvenile and youthful offender records.

§ 44.2 Policy.

(a) Enlistment of applicants with juvenile and youthful offender records. (1) The fact of adjudication as a youthful offender or juvenile delinquent by a State or disposition by Federal juvenile authorities is not in itself a bar to enlistment if the applicant is otherwise eligible. An applicant is to be judged as to his fitness for the armed services by his character as of the time of his application for enlistment.

(2) During enlistment processing each applicant will be specifically questioned concerning juvenile and youthful offender records; the policies of the services in this regard and the necessity for complete and accurate statements will be thoroughly explained to the applicant; and he will be required to sign a written statement as to whether or not he has any type of record of juvenile delinquency or of being a youthful offender. If he admits such record, or if he does not admit one and the enlisting agency has reason to believe such a record does exist, enlistment action will be held in abeyance pending a complete investigation of the facts in the case. Contact will be made with the civil authorities for information as to the applicant's character and rehabilitation, the actual offenses committed, circumstances in the case, disposition by the courts, actual confinement served and whether any form of civil restraint still exists. The evaluation of the civil court and its probation officers will be an important consideration. Any other information deemed relevant to an evaluation of the case may also be requested. Where civil authorities refuse to furnish information, the enlistment will be held in abeyance and the applicant advised that the burden of obtaining and furnishing the information is upon him.

(3) If civil restraint no longer exists and if the applicant's over-all rehabilitation appears to be satisfactory and if otherwise qualified for service he may be accepted for enlistment. If the applicant's over-all rehabilitation has not been satisfactory or if the investigation discloses him to be morally unacceptable for military service and unfit to associate with members of the military service, he shall be rejected for enlistment. Such rejection will be on the above grounds and not due to the fact that the applicant was adjudged a youthful offender or juvenile delinquent.

(4) Recruiting personnel will be thoroughly trained in and familiar with all aspects of the interrogation procedure.

(b) Disposition of enlistees who denied upon enlistment that they had juvenile and youthful offender records. (1) Upon discovery subsequent to enlistment that an enlistee denied a juvenile or youthful offender record, action will be taken to ascertain all the facts in the case. Contact will be made with the civil authorities for information as to the actual offenses committed, circumstances in the case, disposition by the juvenile or youthful offender courts, actual confinement served and whether any form of civil restraint still exists. Any other information deemed relevant to an evaluation of the case may also be requested. In addition, the man will be afforded the privilege of making a statement after being advised of his rights under Article 31, MCM, 1951.

(2) In the interest of conservation of manpower, the concealment of such records should not automatically preclude the retention of the individual unless investigation shows the individual morally unsuited for military service and association with other members of the military service.

(3) The facts in the case, the man's statement, the determination of the court and its officers, and the military service rendered by the enlistee since enlistment will be evaluated in order to determine whether subject should be discharged or retained in the service.

(4) If discharge is determined to be

proper, it will be for unsuitability under honorable conditions unless circumstances are such as to warrant a lower type discharge, in which case a discharge by reason of misconduct (fraudulent enlistment) may be effected. If retention in the service is deemed appropriate, subject will be granted a waiver and notation thereof made in his service record.

(5) In the event investigation reveals that civil restraint exists and the man's retention is desired, the civil authorities will be requested to terminate or suspend such restraint for the duration of the enlistment.

PART 48—OPTIONAL RETIREMENT

Subpart A—General Information

Sec.
48.101 Purposes.
48.102 Definitions.

Subpart B—Election of Options

48.201 Options.
48.202 Limitation on number of annuities.
48.203 Election of options.
48.204 Modification or revocation of election.
48.205 Requirement for statement from member who does not desire coverage.
48.206 Election form.
48.207 Information regarding elections.

Subpart C—Designation of Dependents

48.301 Designation.
48.302 Substantiating evidence regarding dependency and age of dependents.
48.303 Condition affecting entitlement of widow or widower.

Subpart D—Reduction of Retired Pay

48.401 Computation of reduction.
48.402 Effective date of deduction.
48.403 Payment of non-withheld reduction of retired pay.
48.404 Age to be used.
48.405 Refund of reduction.

Subpart E—Annuity

48.501 General information.
48.502 Effective date of annuity.
48.503 Claims for annuity payments.
48.504 Payment to children.
48.505 Establishing eligibility of annuitants.
48.506 Determination that designated annuitant is ineligible.
48.507 Reconsideration of determination of eligibility for the benefits of the act.

Subpart F—Miscellaneous

48.601 Annual report.
48.602 Organization.
Appendix I—Uniform Tables of Actuarial Equivalents.
Appendix II—Information Required for Annual Report.

AUTHORITY: §§ 48.101 to 48.602 issued under sec. 1444, 70A Stat. 111; 10 U. S. C. 1444. Interpret or apply E. O. 10499, 18 F. R. 7003, 3 CFR, 1953 Supp.

Subpart A—General Information

§ 48.101 Purpose.

The purpose of the Uniformed Services Contingency Option Act of 1953 is to permit each member of the uniformed services to elect to receive a reduced amount of any retired pay which may be awarded him as a result of service in his uniformed service in order to provide one or more of the annuities specified in section 4 of the act, payable after his death in a retired status to his widow, child, or children, subject to certain limitations specified in the act and elaborated in this part.

§ 48.102 Definitions.

(a) The term "uniformed services" means the Army of the United States, Navy, United States Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service, including all components and members thereof.

(b) The term "member" means a commissioned officer, commissioned warrant officer, warrant officer, nurse, flight officer, or a person in an enlisted grade (including an aviation cadet), of any of the uniformed services and a person entitled to retainer pay in the Fleet Reserve or Fleet Marine Corps Reserve with credit for sixteen or more years of naval service.

(c) The term "active member" means a member on the active list of a regular or reserve component of a uniformed service, or a member of a reserve component of a uniformed service who has completed 20 or more years of satisfactory Federal service, as defined in section 302 of the Army & Air Force Vitalization and Retirement Equalization Act of 1948.

(d) The term "retired member" means a member or former member of a uniformed service, who is or has been awarded retired, retirement, or retainer pay or equivalent pay as a result of service in one of the uniformed services.

(e) The term "widow or widower" refers only to the lawful spouse at the date of retirement of an active member or, in the case of a retired member on the effective date of the act, to the lawful spouse on the effective date of the act.

(f) The term "child" means:

(1) A legitimate child under 18 years of age and unmarried.

(2) A stepchild, under 18 years of age and unmarried, who is in fact dependent on the member for support.

(3) A legally adopted child, under 18 years of age and unmarried.

(4) A child, as defined in subparagraphs (1), (2) and (3) of this paragraph, who is over 18 years of age and unmarried, and who is incapable of self-support because of being mentally defective or physically incapacitated if that condition existed prior to reaching age eighteen.

(5) In all cases, the term "child" refers only to an active member's child, as heretofore defined, who was born and is living and meets the requirements of this paragraph at the date of retirement of the active member, or to a retired member's child who was born and is living and meets the requirements of this paragraph on November 1, 1953.

(g) The term "stepchild" means a child of a spouse by a former marriage. The stepchild relationship will terminate upon the divorce of the parent spouse but not upon the death of the parent spouse.

(h) The term "in fact dependent" means that the stepchild must be dependent on the member for over half of his or her support.

(i) The term "retired pay" includes retirement pay, equivalent pay, and retainer pay.

(j) The term "department concerned" means (1) The Department of the Army with respect to the Army, (2) the Department of the Navy with respect to the Navy and Marine Corps, (3) the Department of the Air Force with respect to the Air Force, (4) the Treasury Department with respect to the Coast Guard, (5) the Department of Commerce with respect to the Coast and Geodetic Survey, and (6) the Department of Health, Education, and Welfare with respect to Public Health Service.

(k) The term "dependents" as used in this part means the prospective annuitants described in paragraphs (e) and (f) of this section.

Subpart B—Election of Options

§ 48.201 Options.

(a) As provided in § 46.203, an active member, former member, or a retired member may elect any one or more of the following annuities in amounts equal to one-half, one-quarter, or one-eighth of the reduced amount of his retired pay. Such amounts must be specified at the time of election.

(1) An annuity payable to or on behalf of his widow, the annuity to terminate upon her death or remarriage, whichever first occurs.

(2) An annuity payable to or on behalf of his surviving child or children, the annuity to terminate when there ceases to be at least one such surviving child, unmarried and under eighteen years of age, except that if there is a child unmarried and over eighteen years of age incapable of self-support because of being mentally defective or physically incapacitated and that condition existed prior to his reaching eighteen years of age, the annuity to terminate upon his marriage, death, or recovery from the disability, whichever first occurs. Each payment under such annuity shall be paid in equal shares to or on behalf of of the surviving children remaining eligible at the time the payment is due.

(3) An annuity payable to or on behalf of his widow and surviving child or children, the annuity to terminate upon: The death or remarriage of the widow; or, if later, the first day of the month in which there is no surviving child of the member who is under eighteen years of age and unmarried, except that if there is a child, unmarried and over eighteen years of age incapable of self-support because of being mentally defective or physically incapacitated and that condition existed prior to his reaching eighteen years of age, the annuity to terminate upon his marriage, death or recovery from the disability, whichever first occurs. Such annuity shall be paid to the widow until death or remarriage, and thereafter each payment under such annuity shall be paid in equal shares to or on behalf of the surviving children remaining eligible at the time the payment is due.

(4) An annuity payable under the same terms and conditions as specified in subparagraphs (1), (2), and (3) of this paragraph, with the additional provision that no further deductions shall be made from the retired pay of the member commencing with the first day of the month following that in which there was no beneficiary who would have been eligible to receive, upon the death of the member, an annuity payable under the election made by him.

§ 48.202 Limitation on number of annuities.

Where an active or retired member desires to provide more than one annuity, he may elect § 48.201(a) (1) and (2), with or without the provisions of subparagraph (4) thereof, but in no case may the combined amounts of the annuities exceed 50 per centum of the amount of his reduced retired pay. It is pointed out that in the case of families in which the dependent widow and dependent child or children are living in separate households the options under § 48.201(a) (1) and (2) might prove more desirable.

§ 48.203 Election of options.

(a) An active member who on November 1, 1953, has completed over 18 years' service which is creditable in the computation of basic pay may elect to receive a reduced amount of any retired pay which may be awarded him as the result of service in his uniformed service in order to provide one or more of the annuities as specified in §§ 48.201 and 48.202 payable after his death in a retired status to or on behalf of his surviving widow, child, or children. To be effective the election by such member on active duty must be signed, witnessed, and delivered to appropriate service officials or postmarked not later than November 1, 1954. For such members not on active duty, the election must be signed and postmarked not later than November 1, 1954, or signed by the member and delivered to appropriate service officials not later than November 1, 1954. The appropriate service official receiving the election will record the date and time of delivery by stamping the election letter or envelope accompanying the election, or by issuing an indorsement or other form of receipt as evidence of the date and time of delivery of such election.

(b) An active member who on November 1, 1953, has not completed over 18 years' service which is creditable in the computation of basic pay may elect to receive a reduced amount of any retired pay which may be awarded him as the result of service in his uniformed service in order to provide one or more of the annuities as specified in §§ 48.201 and 48.202 payable after his death in a retired status to or on behalf of his surviving widow, child, or children. The election by such member on active duty must be signed, witnessed, and delivered to appropriate service officials or postmarked not later than the day preceding the date of completion of 18 years' service or November 1, 1954, whichever is later. For such members not on active duty the election must be signed and postmarked or signed and delivered to appropriate service officials not later than the day preceding the date of completion of 18 years' service or November 1, 1954, whichever is later. In cases of elections not postmarked, the appropriate service official receiving the election will record the date and time of delivery by stamping the election letter or envelope accompanying the election, or by issuing an indorsement or other form of receipt as evidence of the date and time of delivery of such election. A member who fails to make an election prior to the completion of 18 years' service on November 1, 1954, whichever is later, may not thereafter be covered by any provision of the act.

(c) An active member retired for physical disability who is awarded retired pay after November 1, 1953, and prior to the completion of eighteen years service may make an election to receive a reduced amount of any retired pay which may be awarded him by his uniformed service in order to provide one or more of the annuities as specified in §§ 48.201 and 48.202 payable after his death in a retired status to or on behalf of his surviving widow, child, or children. The election of contingency options by such member shall be submitted not later than the time he selects the method of computation of retired pay.

(d) Missing member: An active member who, as a result of or in connection with military or naval operations, is in a status of missing, missing in action, interned in a neutral country, captured by a hostile force, or beleaguered or besieged, and because of that status is unable to make the election prior to the completion of the eighteen years of service, or an active member who is in that status on November 1, 1953, and has theretofore completed the eighteen years of service, may make the election. In order to be effective, the election must be made within six months of his return to the jurisdiction of his uniformed service.

(e) A person who is a former member on November 1, 1953, and who is thereafter awarded retired pay by a uniformed service may make such election. In order to be effective, the election must be made at the time he is awarded re-

tired pay. Any former member who is thereafter reenlisted or reappointed is governed by paragraphs (a) and (b) of this section.

(f) A member or former member who was awarded retired pay before November 1, 1953 has until April 30, 1954 to make such election. Notwithstanding any other provision of this section, a member, including those with less than 18 years' service, retired during the period November 1, 1953 and April 30, 1954, shall have until April 30, 1954 to make such election. A member retired during the period May 1, 1954 and November 1, 1954, shall have until November 1, 1954, to make such election.

(g) Incompetent member: Whenever an active member, former member, or retired member is determined to be mentally incompetent by medical officers of the service concerned or of the Veterans' Administration, or is adjudged mentally incompetent by a court of competent jurisdiction, and because of such mental incompetency is incapable of making any election within the time limitations prescribed by the act, the head of the department concerned may make the appropriate election on behalf of such member if so requested by the spouse or if there be no spouse by or on behalf of the child or children of such member. If such member is subsequently determined to be mentally competent by medical officers of the Veterans' Administration, or where appropriate is subsequently adjudged mentally competent by a court of competent jurisdiction, he may within one hundred and eighty (180) days of such determination or judgment, modify, or terminate the election made on his behalf. In such a case, the modification or revocation will be effective the date of the member's request for such modification or revocation. Deductions theretofore made shall not be refunded.

(h) Any election made and not cancelled prior to November 1, 1953, will be considered as having been made on November 1, 1953.

(i) A member who declines or fails to make an election within the time limits specified in this section may not thereafter be covered by any provision of the act. A member who has declined to select any option may thereafter elect the option or options provided each election is made within the time prescribed in this section.

§ 48.204 Modification or revocation of election.

(a) A modification of election is a change in the percentage of the reduced amount of retired pay under any option or a change in any option or options selected. A revocation is a cancellation of a previous election and constitutes a withdrawal from coverage under the act.

(b) An active member may modify the terms of his election as often as he may desire prior to his retirement. Such modification shall become effective five years after the date of execution unless the member is retired in the interim period. If the member is retired prior to a date five years from the date of modification the terms of the original election as modified over five years prior to the date of retirement will be effective.

(c) Any active member may revoke an election at any time but he shall not thereafter be permitted to withdraw or modify his revocation and after it becomes effective he shall not be permitted to be covered in any way by this act. If the member retires within five years after a revocation, such revocation shall have no effect.

(d) A retired member may not modify or revoke his election.

(e) In cases where an election has been made by the head of the department concerned on behalf of an incompetent member and the member is subsequently adjudged competent and desires to modify or revoke the election, such modification or revocation is effective the date of the request notwithstanding paragraphs (a) and (b) of this section, provided such modification or revocation is made within one-hundred and eighty days following determination that member is competent.

(f) Notification of a change of dependent is not a modification of election.

§ 48.205 Requirement for statement from member who does not desire coverage.

It is desirable that all members make a positive statement of desire to be covered by the act or not to be covered. For active duty members this may consist of return of the form stating that no election is desired, or a statement forwarded by the Commanding Office during the individual's 18th year of service for basic pay purposes or at the completion of the six months period as the case may be, stating that the benefits of the act have been explained to the individual concerned. For retired members and inactive reserve members a return of a post card acknowledging receipt of a letter of information will suffice. A member who has declined to select any option may thereafter elect an option or options provided such election is made within the time prescribed under the act.

§ 48.206 Election form.

The form for making elections will be submitted as indicated by the department concerned. All copies forwarded will be signed and any signed copy may be used to substantiate the fact of election.

§ 48.207 Information regarding elections.

(a) All retired members and members of the reserve components on inactive duty who have completed seventeen years service for basic pay purposes will be provided an individual letter of instructions and an option election form.

(b) It is the responsibility of the command or unit to which the member is assigned to promulgate information concerning the benefits of the act to all members on active duty. Such commands or units will also provide election forms to the members assigned.

(c) Former members and active members retired for physical disability prior to the completion of eighteen years service will be provided the forms for submission at the time of retirement.

Subpart C—Designation of Dependents

§ 48.301 Designation.

(a) An active member without dependents may make an election. If a member has dependents they should be named at the time of election or when they are acquired. The named dependents within an elected option may be changed until the date of retirement provided such changes are limited to the same option. In any case such spouse and all children must be named at the date of retirement.

(b) It is emphasized that if a member without dependents does not make an election at the appropriate time, he may not thereafter be covered by the act regardless of whether he subsequently acquires dependents.

(c) On the date of retirement the names of eligible dependents under the elected option(s) and the date of birth of each will be indicated to the agency responsible for paying retired pay and to the member concerned. If the widow, child, or children therein named are not eligible dependents under the elected option(s), it is the responsibility of the member concerned to establish eligible dependents under the elected option(s).

§ 48.302 Substantiating evidence regarding dependency and age of dependents.

At the time of submitting election or at the time of retirement as the case may be, the member must indicate the date and place of his marriage, the full name of his wife, prior to their marriage, and if requested by the Department concerned submit proof of dissolution of prior marriages, if any, of either spouse. The age of the dependent will be indicated by date of birth and must be substantiated by a birth certificate or other corroborative evidence. The birthdate of the member must be shown for verification with information in the service record.

§ 48.303 Condition affecting entitlement of widow or widower.

A member may have a different lawful spouse at time of retirement than the lawful spouse he had at the time of election. Consequently, once an election is made for a widow, the eligible widow will be the spouse to whom the member was lawfully married at the time of retirement.

Subpart D—Reduction of Retired Pay

§ 48.401 Computation of reduction.

(a) The reduction to be made in the retired pay of an active or retired member who has made an election shall be computed by the uniformed service concerned in each individual case based upon tables showing percentage reduction in retired pay. These tables [1] show-

[1] These tables have been filed with Federal Register Division as part of the original document. Copies are available for reference through administrative channels of each of the uniformed services.

ing the percentage reduction of retired pay are set forth in Appendix I. The computation of reduction shall be made based upon the tables in effect on the date of retirement in the case of an active member and the date of election in the case of a retired member.

(b) If the active member has no dependents on the effective date of retirement no reduction in retired pay shall be made.

(c) An adjustment may be made in the reduction of retired pay upon the finding of an administrative error or a mistake of fact.

§ 48.402 Effective date of deduction.

(a) The effective date of deduction in retired pay will be the effective date of retirement in the case of an active member and the first day of the month in which election is effective in the case of a retired member. The deduction in retired pay will be terminated on the effective date of termination of retired pay of the member.

(b) In the event the member has elected the option under § 48.201(a)(4), the reduction in retired pay shall be terminated the first day of the month following that in which there was no dependent who would have been eligible to receive, upon the death of the member, an annuity payable under the election made by him.

§ 48.403 Payment of non-withheld reduction of retired pay.

(a) A retired member of a uniformed service who has made an election shall, during any period including periods on active duty in which he is not receiving retired pay, deposit the amount which would have been withheld from his retired pay had he been receiving that pay.

(b) Such deposit will be payable to the Treasurer of the United States and shall be forwarded monthly to the agency which would normally pay the member concerned retired pay.

(c) The aforementioned agency will in all cases inform the members concerned of the amount to be deposited and when such deposits are to be made.

(d) The aforementioned agency will, after 30 days have elapsed since due date of a deposit, inform the member concerned that he is delinquent from such due date and thereafter his widow, child, or children will not be eligible for the annuity provided under the act until the arrears have been paid. The notification of delinquency will advise the member that 15 additional days have been granted to him in which to remit his deposit, and that if the amount required to be deposited is not remitted within that period the member will be charged interest to include the first day of delinquency. In no case will the expiration date of the 15 days exceed a date later than 45 days from the date the deposit was due. The interest will be compounded annually and the rate will be that in effect at the time the reduction in retired pay commenced or should have commenced. If such member becomes in receipt of retired pay, any arrears with compound interest will be withheld from the retired pay.

§ 48.404 Age to be used.

Ages to be used for calculating reduction of retired pay will be the ages of the member and his named dependents on their nearest birthday as of the date of retirement in the case of an active member and as of the date of election in the case of a retired member.

§ 48.405 Refund of reduction.

(a) Any member or former member on the temporary disability retired list established pursuant to Title IV of the Career Compensation Act of 1949, Public Law 351, 81st Congress, who has elected to receive reduced retired pay in order to provide one or more of the annuities specified in the act, and who is subsequently removed from the list due to any reason other than permanent retirement shall have refunded to him a sum which represents the difference between the amount by which his retired pay has been reduced and the cost of an amount of term insurance which is equal to the protection provided his dependents during the period he was on the temporary disability retired list.

(b) If the member concerned is returned to active duty, he may continue the election as previously made or he may modify or revoke the election as provided in § 48.204.

Subpart E—Annuity

§ 48.501 General information.

No annuity payable under the act shall be assignable, either in law or equity, or be subject to execution, levy, or attachment, garnishment, or other legal process. Annuities payable under this act shall be in addition to any pensions or other payments to which the beneficiaries may now or hereafter be entitled under other provisions of law and shall not be considered income under any law administered by the Veterans Administration.

§ 48.502 Effective date of annuity.

All annuities payable under this act shall accrue from the first day of the month in which the retired member dies and shall be due and payable not later than the fifteenth day of each month following that month and in equal monthly installments thereafter, except that no annuity shall accrue or be paid for the month in which entitlement to that annuity terminates.

§ 48.503 Claims for annuity payments.

Upon official notification of death of a retired member who has elected to receive reduced retired pay, the Department concerned shall forward to the eligible surviving dependents necessary information and forms for making application for annuity payments; such information shall include the place to which the application should be forwarded and to which questions regarding annuity payments should be addressed.

§ 48.504 Payment to children.

Annuities for child or children will be paid to the child or guardian, or will be payable on behalf of the child to the person who has care, custody, and control of the child.

§ 48.505 Establishing eligibility of annuitants.

Eligibility for the annuity will be established by such supporting evidence as may be required by the Department concerned.

§ 48.506 Determination that designated annuitant is ineligible.

(a) The Head of the Department concerned is empowered to use any means provided by law to recover amounts of annuities erroneously paid to any individual under this act. The Head of the Department concerned may authorize such recovery by adjustments in subsequent payments to which the individual is entitled.

(b) There need be no recovery as provided in paragraph (a) of this section when, in the judgment of the Head of the Department concerned, and the Comptroller General of the United States, the individual to whom the erroneous payment has been made is without fault and recovery would be contrary to the purpose of the act or would be against equity and good conscience.

§ 48.507 Reconsideration of determination of eligibility for the benefits of the act.

Determinations regarding eligibility to the benefits of the act may be reconsidered by the Head of the Department concerned or his designee upon application of the applicant.

Subpart F—Miscellaneous

§ 48.601 Annual report.

A report will be prepared annually by the Department concerned. Such report will be submitted to the Joint Committee for the preparation of the consolidated report required of the Secretary of Defense. The information required is shown in Appendix II. The format will be as directed by the Board of Actuaries.

§ 48.602 Organization.

(a) A joint committee composed of representatives of the Departments concerned will meet annually or as often as required prior to the time of meeting of the Board of Actuaries.

(b) The duties of the committee will include but not be limited to the following:

(1) Prepare the joint report required in § 46.601

(2) Make recommendations for changes to this part.

(3) Make recommendations for legislative changes in the act.

(4) Make recommendations to insure uniform operating policies insofar as practicable.

(5) As directed by the Board of Actuaries prepare tables of percentage reduction of retired pay.

(6) As directed by the Board of Actuaries determine a cost of term insurance as required in § 48.405 which will be used by all Departments.

(c) The position of Chairman of the joint committee will be rotated annually

on a fiscal year basis between the Military Departments.

(d) The coordinating and executive agency of the Committee shall be the Department which the Chairman is representing.

APPENDIX I—UNIFORM TABLES OF ACTUARIAL EQUIVALENTS [1]

APPENDIX II—FOR EACH INDIVIDUAL PARTICIPANT THE FOLLOWING DATA WILL BE REQUIRED FROM THE UNIFORMED SERVICES BY THE BOARD OF ACTUARIES FOR THE ANNUAL REPORT

I. *Elections made by persons not yet retired.* Information requested herein concerning elections made by persons not yet retired shall come from transaction records showing the elections and modifications made over the last year (or since the last report). It is not necessary for the purposes of this annual report that current records be maintained showing the effective elections or modifications in force for all members who have made elections in prior years.

(a) *Original elections.*

(1) Status of member (active or inactive).

(2) Sex of member.

(3) Completed years service (for pay purposes) at time of election.

(4) Month and year of election.

(5) Option elected: a, a-d, b, b-d, c-d.

(6) Amount of survivor annuity elected: ½, ¼, ⅛.

(b) *Modifications of previous elections.*

(1) Status of member (active or inactive).

(2) Sex of member.

(3) Completed years service at time of election.

(4) Month and year of this modification.

(5) Last previous election made: a, a-d, b, b-d, c, c-d.

(6) Amount of survivor annuity of last previous election: ½, ¼, ⅛.

(7) Option elected under this modification: a, a-d, b, b-d, c, c-d.

(8) Amount of survivor annuity elected under this modification: ½, ¼, ⅛.

II. *Members drawing or entitled to draw reduced retired pay.*

(1) Sex of member.

(2) Option in effect: a, a-d, b, b-d, c, c-d.

(3) Amount of option: ½, ¼, ⅛.

(4) Applicable table:

Disability.

Non-disability prior to May 1, 1954.

Non-disability after May 1, 1954.

(5) Age of member at election or retirement whichever is later.

(6) Age of spouse at election or retirement whichever is later.

(7) Age of youngest child at election or retirement whichever is later, if applicable.

(8) Full monthly retired pay—before any deductions.[2]

(9) Reduced monthly retired pay—full pay less cost of option only.[1]

(10) Amount of monthly benefit payable to survivors.[2]

(11) Month and year of retirement or of election if later.

(12) Years of service completed at retirement.

(13) Sex of youngest child, if applicable.

(14) Total number of eligible children, if applicable.

Termination data:

(15) Month and year reduced retired pay terminated.

(16) Cause of termination:

Death of member.

No eligible beneficiary where Option 4 has been elected.

Removal of member from temporary disability list without being entered on permanent disability list.

(17) Type of beneficiaries:

Widow only.

Child or children only.

Both spouse and child or children.

(18) Number of eligible children, if applicable.

(19) Identification Code for the election of multiple options.

Where a combination of options has been elected (such as a and b; or a–d and b–d) two cards will be maintained, one for each survivor annuity and each carrying the appropriate proportion of the retired member's pay. In these cases each of the two cards will carry an "identification code" of "05" showing that the card was in reality "half" of the retired member. All elections other than these combination elections (a and b, a–d and b, a and b–d, a–d and b–d) shall be coded "10" to indicate that the card is in reality a "whole" retired member.

III. *Beneficiaries receiving survivor annuities.*

(1) Option under which claim arose: a, a–d, b, b–d, c, c–d.

(2) Amount of survivor annuity under which claim arose: ½, ¼, ⅛.

(3) Month and year survivor benefits began.

(4) Age of spouse when survivor benefits began (if applicable).

(5) Age of youngest child when survivor benefits began (if applicable).

(6) Sex of spouse.

(7) Sex of youngest child.

(8) Number of eligible children when survivor benefits began.

(9) Monthly amount of survivor benefit payable.

Termination data:

(10) Month and year of termination.

(11) Cause of termination:

Death of spouse.

Remarriage of spouse.

Death of child under 18.

Marriage of child under 18.

Attainment of age 18.

(12) Age of last beneficiary, if a child.

IV. A special file should be maintained for cases where the survivor benefit is payable solely because of there being a child beyond age 18 who is mentally incapacitated or physically disabled. Such file should merely identify these cases so that desired information may be obtained by reference to the supporting records.

[1] Filed as part of the original document.

[2] Where options a and b have been elected separate cards are maintained for each option. Each card shall carry the proper proportion (as determined according to instructions for using the tables) of gross retired, reduced retired pay, and benefit payable to survivors.

PART 50—FULFILLING THE MILITARY SERVICE OBLIGATION

Sec.

50.1 Purpose.

50.2 Cancellation.

50.3 Applicability.

50.4 The military service obligation.

AUTHORITY: §§ 50.1 to 50.4 issued under secs. 4, 6, 62 Stat. 605, as amended, 609, as amended, sec. 651, 70A Stat. 27, as amended, sec. 516, 72 Stat. 1439; 50 U.S.C. App. 454, 456, 10 U.S.C. 651, 516. Interpret or apply sec. 262, 69 Stat. 600, as amended, secs. 1, 2, 70 Stat. 333; 50 U.S.C. 1013, 1411, 1412.

§ 50.1 Purpose.

The purpose of this part is to prescribe uniform policy with respect to fulfilling the statutory military service obligation.

§ 50.2 Cancellation.

DoD Directive 1200.3, "Reserve Obligations Under section 4(d), Universal Military Training and Service Act, as amended," dated March 2, 1953, and DoD Directive 1300.4, "Discharge of Reservists for the Purpose of Immediate Entry into the U.S. Military Academy, the U.S. Naval Academy, the U.S. Air Force Academy, or the U.S. Coast Guard Academy, to Prevent Such Individuals from Having Dual Military Status While Enrolled Therein," dated May 3, 1954, are hereby superseded and cancelled.

§ 50.3 Applicability.

This part applies to all military departments in the administration of the regular and reserve components.

§ 50.4 The military service obligation.

(a) *Subsections 4(d) (1) and (2) of the Universal Military Training and Service Act, as amended, hereinafter referred to as the UMT&S Act, as amended.* Members of the Armed Forces, including the reserve components thereof, who possess a statutory reserve obligation as a result of the operation of subsections 4 (d) (1) and (2) of this act are relieved of that obligation by being discharged from military status at the discretion of the Secretary concerned.

(b) *Subsection 4 (d) (3) of the UMT&S Act, as amended*—(1) *Statutory provisions*—(i) *The eight year obligation.* "Each person who * * * [between June 20, 1951 and August 9, 1955, inclusive] * * * is inducted, enlisted, or appointed, under any provision of law, in the Armed Forces, including the reserve components thereof * * * prior to attaining the twenty-sixth anniversary of his birth, shall be required to serve on active training and service in the Armed Forces * * * and in a reserve component, for a total period of eight years, unless sooner discharged on the grounds of personal hardship, in accordance with regulations and standards prescribed by the Secretary of Defense * * *. Each such person, on release from active training and service in the Armed Forces * * * shall * * * be transferred to a reserve component of the Armed Forces, and shall serve therein for the remainder of the period which he is required to serve * * *."

(ii) *The six year obligation.* "Each person who, subsequent to * * * [August 9, 1955] * * * is inducted, enlisted, or appointed, under any provision of law, in the Armed Forces, including the reserve components thereof, except a person enlisting pursuant to the provisions of section 262 of the Armed Forces Reserve Act of 1952, or a person deferred under the next to the last sentence of section 6 (d) (1) of this act, as amended, prior to attaining the twenty-sixth anniversary of his birth, shall be required to serve on active training and service in the Armed Forces and in a reserve component, for a total period of six years, unless sooner discharged on the grounds of personal hardship, in accordance with regulations and standards prescribed by the Secretary of Defense * * *. Each such person on release from active training and service in the Armed Forces * * * shall * * * be transferred to a reserve component of the Armed Forces, and shall serve therein for the remainder of the period which he is required to serve * * *."

(2) *Implementation.* (i) For the purpose of administering subsection 4 (d) (3) of the UMT&S Act, as amended:

(*a*) The terms "inducted," "enlisted," and "appointed" refer to initial entry into any of the Armed Forces, including a reserve component thereof.

(*b*) Except as provided in (*d*) of this subparagraph, its provisions apply to male persons who were inducted, enlisted, or appointed as described in (*a*) of this subparagraph, prior to attaining the 26th anniversary of their birth.

(*c*) Its provisions do not apply to persons who had previously acquired a military service obligation under any other provision of law.

(*d*) The six-year requirement set forth in subparagraph (1) (ii) of this paragraph, does not apply to individuals who enlist in the Reserve under the provisions of section 262 of the Armed Forces Reserve Act of 1952, as amended hereinafter referred to as AFRA, as amended, which requires performance of an initial period of three to six months of active duty for training or to graduates of ROTC or other officers' training programs who perfom six months of active duty for training as authorized by subsection 6 (d) (1) of the UMT&S Act, as amended. Such individuals incur an eight-year military service obligation.

(ii) Subject to the considerations set forth in subdivision (i) of this subparagraph, qualified individuals affected by the provisions of subsection 4 (d) (3) of the UMT&S Act, as amended are required to serve a total period of eight or six years, as the case may be, from the date of their induction, enlistment, or appointment. For personnel accounting purposes, they shall not be considered as Reservists until transferred to a reserve component, unless originally entering on their obligated period of service in that status. Transfer to a reserve component of the Armed Force concerned of persons who have a portion of their obligation remaining upon release from active training and service, and who are determined by the appropriate Secretary to be physically and mentally qualified for enlistment or appointment therein, shall be accomplished without discharge from military status.

(3) *Fulfillment of the military service obligation.* (i) Upon completion of the military service obligation, the individual shall be discharged or otherwise separated unless his enlistment or obligated period of service is extended under any provision of law.

(ii) The military service obligation acquired under provisions of subsection 4 (d) (3) of the UMT&S Act, as amended is considered terminated upon a discharge for the purpose of complete separation from military status, or upon revocation or termination of commission or appointment, acceptance of resignation, dropping from the rolls or dismissal.

(iii) An individual subject to the provisions of subsection 4 (d) (3) of the UMT&S Act, as amended may upon his written application be discharged from the Reserve, irrespective of having performed the total required period of service, for the purpose of taking final vows in a religious order. Such application should be accompanied by a statement or certificate signed by the appropriate official of the religious order showing that to proceed further with his acceptance into the order it is necessary that he be separated from military status.

(iv) The military service obligation acquired under provisions of subsection 4 (d) (3) of the UMT&S Act, as amended is not considered terminated upon discharge or other type of separation for the purpose of immediate entry or reentry in the same or any other component of the Armed Forces in the same or any other status or for the purpose of entry into an officers' training program in which the individual has military status. Additional service performed after such discharge or other type of separation will be counted toward fulfillment of such obligation.

(v) An enlisted member of the Armed Forces who accepts appointment as a cadet or midshipman at a service academy or as a midshipman in the United States Naval Reserve shall not be separated from his enlisted status by reason of such appointment, and the period of time served as cadet or midshipman at a service academy or as a midshipman, United States Naval Reserve shall be counted toward fulfillment of his military service obligation under subsection 4 (d) (3) of the UMT&S Act, as amended.

(vi) A service academy cadet or midshipman, or a midshipman, United States Naval Reserve, who initially entered the Armed Forces in such status shall be transferred, in order to complete his military service obligation under subsection 4 (d) (3) of the UMT&S Act, as amended, to a reserve component in a grade deemed appropriate by the Secretary concerned in the event the appointment of such cadet or midshipman is terminated prior to graduation.

(vii) A person whose enlistment or appointment is terminated as being void on the grounds of minority shall not, as a result of such enlistment or appointment, be considered to have acquired

the military service obligation described in subsection 4 (d) (3) of the UMT&S Act, as amended, nor is service under any enlistment or appointment which was so terminated creditable toward the fulfillment of any subsequently acquired obligation.

(viii) The discharge or other separation of a person from an Armed Force prior to the date he has completed his military service obligation under subsection 4 (d) (3) of the UMT&S Act, as amended, will be effected by the appropriate Secretary in accordance with standards prescribed by the Secretary of Defense. A member of the Armed Forces normally shall not be discharged by reason of personal or community hardship prior to the date he has completed his military service obligation; the provisions of Part 125 of this subchapter shall apply in such cases.

(ix) Interservice transfers of Reservists who are subject to the provisions of subsection 4 (d) (3) of the UMT&S Act, as amended, shall be accomplished as prescribed in DoD Directive 1205.5 "Transfer of Persons between Reserve Components of the Armed Forces under Section 209, Armed Forces Reserve Act of 1952".

(x) Apart from any military service obligation that an individual may possess under subsection 4 (d) (3) of the UMT&S Act, as amended, certain persons are entitled to deferment or exemption from induction. Liability for induction terminates upon attainment of age 26 except when, by reason of deferment, liability for induction has been extended to age 28 or, in other instances, to age 35.

(*a*) *Subsection 4 (c) (2) of the UMT &S Act, as amended.* A person who was an enlisted member of a reserve component on June 25, 1950 and whose application for two years of active duty has been denied is deferred so long as he serves satisfactorily in such reserve component in accordance with provisions of Part 45 of this subchapter.

(*b*) *Subsection 6 (c) (1) of the UMT &S Act, as amended.* A person who was a member of an organized unit of a reserve component on February 1, 1951 is exempt so long as he participates satisfactorily in accordance with provisions of Part 45 of this subchapter.

(*c*) *Subsection 6 (c) (2) (A) of the UMT&S Act, as amended.* An individual who enlists prior to age 18½ in an organized unit of the Army National Guard or Air National Guard is deferred so long as he serves satisfactorily as a member of such organized unit.

(*d*) *Subsection 6 (c) (2) (C) of the UMT&S Act, as amended.* An individual who enlists prior to age 18½ in an organized unit of the Reserve is deferred so long as he serves satisfactorily as a member of such organized unit in accordance with provisions of Part 45 of this subchapter.

(*e*) *Subsection 6 (d) (1) of the UMT &S Act, as amended.* A graduate of ROTC or related officers' training program who has not performed active military service is deferred from induction so long as he continues in Regular or Reserve status pursuant to the terms of his enrollment contract.

(*f*) *Subsection 6 (d) (2) of the UMT &S Act, as amended.* A member of the Reserve commissioned upon graduation from officers' candidate school and not ordered to active duty in commissioned status is deferred so long as he performs satisfactory service in accordance with provisions of Part 45 of this subchapter.

(*g*) *Section 262 of AFRA, as amended.* A person who enlists in the Ready Reserve for eight years and undergoes three to six months of initial active duty for training is deferred so long as he serves satisfactorily in accordance with provisions of Part 45 of this subchapter.

(*h*) *Subparagraph 2 (b), Executive Order No. 10714 (22 F. R. 4273).* An individual without prior military service who enlisted in a reserve component and who is deferred under the provisions of subparagraph 2 (b), Executive Order No. 10714, dated June 13, 1957 incurred a six or eight year military service obligation as indicated in subparagraph (1) of this paragraph.

(xi) An individual who is enlisted or appointed in the Ready Reserve of any of the Armed Forces pursuant to the provisions of section 262 of AFRA, as amended or subsection 6 (c) of the UMT&S Act, as amended and who subsequently fails to participate satisfactorily in Reserve training will not be discharged by reason thereof. The provisions of Part 45 of this subchapter will apply in such cases. An individual who is inducted under the provisions of subsection 6 (c) (2) (E) of the UMT&S Act, as amended and who completes the required period of active training and service, continues, despite his induction, to hold his appointment or enlistment contract to serve as a Reserve, and shall be required to fulfill the term thereof unless discharged therefrom by the Secretary concerned.

This part is effective immediately. Copies of Service Directives implementing its provisions will be furnished the Assistant Secretary of Defense (Manpower, Personnel and Reserve), within 90 days.

PART 53—OCCASIONS UPON WHICH THE UNIFORM OF ANY OF THE ARMED FORCES MAY BE WORN BY PERSONS HONORABLY DISCHARGED THEREFROM

Sec.
53.1 Purpose.
53.2 Policy.

AUTHORITY: §§ 53.1 and 53.2 issued under sec. 772, 70A Stat. 35; 10 U.S.C. 772.

§ 53.1 Purpose.

The purpose of this part is to prescribe the occasions upon which the uniform of any of the Armed Forces may be worn by persons honorably discharged therefrom.

§ 53.2 Policy.

(a) *Eligibility.* Any person who has served honorably in the Army, Navy, Air Force, or Marine Corps, of the United States during war, and whose most recent service was terminated under honorable conditions, shall, although not in the active military service of the United States, be entitled to wear the uniform of the highest grade held during his or her war service upon the following occasions of ceremony:

(1) Military funerals, memorial services, and inaugurals.

(2) Patriotic parades on national holidays; or other military parades or ceremonies in which any active or reserve United States military unit is taking part.

Nothing in the foregoing shall prevent the wearing of uniforms when otherwise authorized by law.

(b) *Persons awarded the Medal of Honor.* Persons awarded the Medal of Honor are authorized to wear the uniform at any time except as prohibited below.

(c) *Occasions upon which prohibited.* Wearing of the uniform is prohibited:

(1) At any meeting or demonstration which is a function of, or sponsored by, any organization, association, movement, group, or combination of persons which the Attorney General of the United States has designated as totalitarian, fascist, communist, or subversive, or as having adopted a policy of advocating or approving the commission of acts of force or violence to deny others their rights under the Constitution of the United States, or as seeking to alter the form of government of the United States by unconstitutional means.

(2) In connection with non-military activities of a business or commercial nature.

(3) Under any circumstances which would tend to bring discredit or reproach upon the uniform.

(d) *Travel.* Authority to wear the uniform includes periods while traveling to and from the ceremony, provided such travel in uniform is performed within 24 hours of the time of the ceremony. When the uniform is worn under the provisions of this instruction by honorably discharged personnel who served during World War II, the Honorable Discharge Emblem shall be worn.

PART 55—PHYSICAL EXAMINATIONS AND ANNUAL CERTIFICATES OF PHYSICAL CONDITION

Sec.
55.1 Purpose.
55.2 Applicability.
55.3 Policy.

AUTHORITY: §§ 55.1 to 55.3 issued under section 1004(a), Title 10, U.S. Code.

§ 55.1 Purpose.

To establish a uniform policy relating to physical examinations and certificates of physical condition for reservists (other than retired reservists) when not on active duty.

§ 55.2 Applicability.

This part applies to all Military Departments in the administration of members of reserve components.

§ 55.3 Policy.

(a) Each member of the Ready Reserve who is not on active duty shall be examined as to his physical fitness at least once every four years, or more often as the Secretary concerned considers necessary, and shall execute and submit annually a certificate of physical condition.

(b) Each member of the Standby Reserve in an active status, or on an inactive status list, shall execute and submit annually a certificate of physical condition.

(c) Members of the Standby Reserve may be examined as to their physical condition if the Secretary concerned considers such action necessary.

(d) Physical examinations will be reported on Standard Form 88, "Report of Physical Examination" and Standard Form 89, "Report of Medical History." To accomplish physical examinations, the Military Departments are authorized to use jointly all available medical facilities and to award points creditable toward retirement to medical reservists not on active duty for administering physical examinations or to use civilian physicians on a reimbursable basis where governmental medical facilities are not available.

(e) The following action may be taken in regard to those reservists failing to submit such information as may be requested by the appropriate Secretary after every reasonable effort has been made to obtain such information:

(1) Reservists having obligation under the Universal Military Training and Service Act, as amended, may be ordered to active duty or active duty for training, as deemed appropriate under the provisions of section 672(b), Title 10, U.S. Code, for the purpose of securing the necessary information.

(2) All other reservists may be considered for discharge pursuant to section 1162(a) of Title 10, U.S. Code.

PART 56—INTER-SERVICE TRANSFER OF OFFICERS (REGULAR)

Sec.
56.1 Purpose.
56.2 Applicability.
56.3 Policy.
56.4 Procedure.

AUTHORITY: §§ 56.1 to 56.4 issued under sec. 716, Title 10, United States Code.

§ 56.1 Purpose.

The purpose of this part is to establish the policies which will govern implementation of section 716, Title 10, United States Code, with respect to the transfer of commissioned officers between the Regular components of the Army, Navy, Air Force and Marine Corps.

§ 56.2 Applicability.

(a) This part is applicable to officers holding Regular commissions in the armed services, except officers of the medical services. The inter-service transfer of officers holding commissions in the medical services will continue to be accomplished under existing regulations (DoD Instruction 1205.1, "Implementation of the Universal Military Training and Service Act with Respect to Medical, Dental, and Allied Specialist Registrants", Section XI).

(b) Policy and procedure for the transfer of Reserve officers on extended active duty is contained in DOD Directive 1300.5, Part 120 of this subchapter.

(c) Transfer of officers of the Reserve components not on active duty (except officers of the medical services) will continue to be accomplished under applicable Service regulations for conditional resignation and appointment.

(d) No officer of a Reserve component will be transferred to a Regular component under this authority.

§ 56.3 Policy.

(a) It is the policy of the Department of Defense that an officer of any military service who is especially qualified to contribute to the success of an activity of another service will be given an opportunity to do so without interruption of his service career, by being transferred from one service and appointed in another.

(b) No officer will be so transferred without his consent, nor will an officer transferred from one service be appointed in another service with a higher rank or precedence than that he held on the date prior to his transfer.

(c) Transfers will be made only within authorized strength limitations.

(d) While intended for use primarily in the technical fields to permit the full utilization of specialists, this authority to transfer between services is not restricted to technical specialists.

§ 56.4 Procedure.

(a) Request for transfer will normally be initiated by an appropriate agency of the military department desiring the services of an officer serving in another department, or by the officer himself.

(1) (i) If initiated by the officer himself, the request will be forwarded through military channels to the Secretary of the military department in which he is presently commissioned, and will be accompanied by a justification of the requested transfer as being in the interest of national defense and the individual officer.

(ii) The Secretary of the losing Department will forward the request to the Secretary of Defense through the Secretary of the gaining Department. Both Departmental Secretaries will indicate their concurrence or non-concurrence in the requested transfer.

(2) If initiated by other than the officer himself, request for transfer will be routed to the Secretary of Defense through the Secretaries of the gaining and losing Departments and will be accompanied by a statement that the officer concerned consents to the proposed transfer.

(b) The Secretary of Defense will recommend to the President such requested transfers as he considers in the best interests of the Department of Defense.

(c) Termination of presently held commissions and reappointment in another service will be accomplished by the two Services affected without interruption of the continuity of the officer's total military service.

(d) An officer transferred under provisions of this part will be placed on the applicable promotion list or lineal list of the armed force to which he is transferred in an appropriate position as determined by the amount of promotion-list service with which he was credited in his parent service on the day prior to his transfer. His permanent grade and date of rank will be determined by applying that amount of promotion-list service to the appointment laws in effect for the service to which he is being transferred. His temporary grade and date of rank will remain the same as that he held in his parent service on the day prior to his transfer.

(e) An officer transferred under provisions of this part will be credited with the unused leave with which he was credited at the time of transfer, and with the total military service with which he was credited on the date prior to his transfer.

PART 60—EARLY RELEASE OF MILITARY ENLISTED PERSONNEL FOR COLLEGE ENROLLMENT [ADDED]

Sec.
60.1 Purpose.
60.2 Policy.
60.3 Release criteria.
60.4 Exceptions.
60.5 Applicability.
60.6 Action required.

AUTHORITY: §§ 60.1 to 60.6 issued under R.S. 161, sec. 202, 61 Stat. 500, as amended; 5 U.S.C. 22, 171a.

§ 60.1 Purpose.

The purpose of this part is to establish a uniform policy among the Services with respect to discharge or release of enlisted personnel from active service prior to expiration of service period for the purpose of entering or returning to a college, university, or equivalent educational institution.

§ 60.2 Policy.

(a) In the interest of contributing to a high educational level in the United States, it is the policy of the Department of Defense that the maximum assistance practicable will be given to enlisted personnel who are qualified and demonstrate a desire to further their education. Personnel who would be unduly penalized in the pursuit of their education if required to remain in service until expiration of their term of enlistment or induction may be released early subject to meeting all of the requirements shown in §§ 60.3 and 60.6. Separation will be for the convenience of the Government.

(b) The effective date of release from service under this policy will not be earlier than ten days prior to the date of registration prescribed by the educational institution.

(c) Aliens seeking to qualify for citizenship by completion of three years active military service will be excluded from release under this policy prior to performance of such qualifying service.

§ 60.3 Release criteria.

(a) Latest acceptable registration date of school must fall within the last three months of remaining service. In general, personnel who will have a reserve obligation upon separation will not be released under this program until they have completed a minimum of 21 months' active duty on their current term of service.

(b) The individual's services must not be essential to the mission of his assigned organization.

(c) Applicants must furnish documentary evidence that they have been accepted for enrollment without qualification commencing with a specific school term in a recognized institution of higher education in a full-time course of instruction leading to a baccalaureate or higher degree. A "recognized institution" is one listed in Part III of the Educational Directory published by the United States Department of Health, Education, and Welfare whose credits are accepted by accredited institutions.

(d) An applicant must demonstrate his ability and willingness to make the required payment of an entrance fee if he has not already done so.

(e) It must be established clearly by applicant that the specific school term for which he seeks release is academically the most opportune time for him to begin or resume his education and that delay of enrollment until normal expiration of service would cause undue handicap.

§ 60.4 Exceptions.

On an individual basis the Secretaries of the Departments may authorize the release of persons not fully meeting the criteria as exceptions to policy (e.g., personnel who desire to enter and are accepted by theological schools not listed in Part III of the Educational Directory).

§ 60.5 Applicability.

This policy is applicable to all enlisted personnel world-wide, other than reservists ordered to 6 months' active duty for training.

§ 60.6 Action required.

(a) Each military department will establish procedures to guard against abuse of this policy by personnel seeking to utilize it as a means of evading completion of their full term of military service.

(b) Requests for early release from applicants who meet established criteria will be approved unless cogent military circumstances prevent.

PART 63—RECRUITING POLICY FOR SECONDARY SCHOOLS

Sec.
63.1 Purpose.
63.2 Policy.

AUTHORITY: §§ 63.1 and 63.2 issued under R.S. 161, sec. 202, 61 Stat. 500, as amended; 5 U.S.C. 22, 171a.

§ 63.1 Purpose.

The purpose of this part is to provide the Military Departments with policy guidance for both active and reserve recruiting elements in dealing with secondary school authorities.

§ 63.2 Policy.

(a) Students in secondary schools will be encouraged by recruiters to stay in school and graduate.

(b) Students enrolled in secondary schools will not be accepted for active duty enlistment without prior notice to the school and without parents' consent.

(c) When desired by local school authorities, joint arrangements with school authorities for in-school student time will be made by one representative selected by the military recruiting elements of the Military Departments in each community.

(d) Secondary schools are to be encouraged and given every assistance in teaching the vocational-career opportunities of the Armed Forces at the same time other occupational opportunities are taught in schools.

(e) All contacts with school authorities soliciting their cooperation on military career programs will be jointly arranged by the recruiting services to the greatest practical extent.

(f) The National Guard, Air National Guard and Coast Guard, as appropriate, will be encouraged to participate in this secondary school program.

PART 66—RELEASE OF INFORMATION FROM MEDICAL RECORDS

Sec.
66.1 General.
66.2 Individuals and. agencies to whom medical records may be released.

AUTHORITY: §§ 66.1 and 66.2 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 66.1 General.

This policy governs the release of information from the medical records of members and former members of the Armed Forces by those bureaus and offices designated by the Secretaries of the Army, Navy and Air Force, to the individuals and agencies hereinafter named. Those bureaus and offices will determine the extent of and the form in which medical information will be furnished. The information will be treated as confidential. Only that information will be furnished which is necessary to the accomplishment of the legitimate purpose for which the information is required.

§ 66.2 Individuals and agencies to whom medical records may be released.

(a) Department of the Treasury.
(b) Department of the Army.
(c) Department of Justice.
(d) The Post Office Department.
(e) Department of the Navy.
(f) Department of Commerce (Coast and Geodetic Survey).
(g) Department of Labor (Bureau of Employees' Compensation).
(h) Department of the Air Force.
(i) Department of State and Central Intelligence Agency (for use in considering prospective employees).
(j) Civil Service Commission (to consider claims under section 2, Act of June 27, 1944, Chapter 287, as amended (5 U.S.C. 851)). In addition, for personnel security investigations conducted under pertinent acts and Executive Orders, accredited agents of the Civil Service Commission may have access, for review purposes, to material designated as records of medical treatment included in official personnel folders of former civilian or military personnel of the military departments, subject to the following conditions:

(1) Access to these records shall be only for investigations required by law or Executive order, or pursuant to special agreement between the Civil Service Commission and the Military Department concerned.

(2) Information contained in the medical treatment records shall be considered confidential in nature and will be used only as a basis for determining security risk.

(3) Such medical information or any other information which may be contained in any reports or other communications contained therein from any agency or source other than the Department of Defense may not be extracted or otherwise used without the prior permission of the originating agency.

(4) Except for the restrictions set forth in subparagraph (3) of this paragraph, the information extracted under the policies set forth herein may be furnished to the employing agency to be used only as a basis for determining security risk.

(k) Department of Health, Education, and Welfare (Public Health Service).
(l) Selective Service.
(m) Veterans' Administration.
(n) Federal Aviation Agency (for use in connection with airman certificates under section 602, Federal Aviation Act of 1958 (49 U.S.C. 1422)).
(o) Duly accredited representatives of the National Academy of Sciences-National Research Council, when engaged in cooperative studies undertaken at the specific request or with the consent of the Surgeon General, U. S. Army; the Surgeon General, U. S. Navy; or the Surgeon General, U. S. Air Force.
(p) Federal or State mental hospitals or penal institutions when the member or former member is a patient or inmate therein.
(q) Registered civilian physicians, upon request of the individual or his legal representative, when required in connection with the treatment of the member or former member of the above services.
(r) The member or former member upon request, except information contained in the medical record which would prove injurious to his physical or mental health. In the latter case the medical information may be furnished to the next of kin, upon request of the individual, or to his legal representative upon his furnishing a certified copy of the court order of appointment (see section 3, act of August 27, 1940 (54 Stat. 859), as amended (50 U. S. C. App. 403 (a)) and subsection 9 (a) Universal Military Training and Service Act (62 Stat. 614; 50 U. S. C. App. 459 (a)).
(s) Directly to the next of kin or legal representative (upon submission by the latter of a certified copy of the court order of appointment), when the member or former member has been adjudged insane or is dead. Next of kin or legal representative will be required to furnish the releasing office with a copy of the court order adjudging the member or former member to be insane, or to furnish adequate proof of death of the member or former member in cases where proof of death is not on file in the office concerned.
(t) A representative, other than a physician or legal representative, specifically authorized in writing by the individual whose records are involved, who is to perform a service for such individual. The next of kin may likewise authorize a representative, where the member or former member is insane or dead. The purpose for which the information is to be used and the nature of the service to be performed must be furnished.
(u) Under procedures established by the Surgeon General of the service concerned, access to individual medical records may be granted to qualified individuals for the purposes of medical research and study.

NOTE: Nothing in this part is intended to preclude the release of appropriate information concerning the current health and welfare of the individuals in the Armed Services, or vital statistical data, including proof of death, concerning such personnel, nor to preclude compliance with court orders calling for the production of medical records in connection with litigation or criminal prosecutions, nor to preclude release of information from medical records when required by law.

PART 70—MEDICAL CARE FOR DEPENDENTS OF MEMBERS OF THE UNIFORMED SERVICES

Sec.
70.1 General information.
70.1–1 Purpose.
70.1–2 Scope.
70.1–3 Definition of terms used in this part.
70.1–4 Administration.
70.2 Determination of eligibility and identification of dependents.
70.2–1 Determination of dependents' eligibility.
70.2–2 Identification of dependents.
70.3 Determination of sources from which eligibile dependents receive medical care.
70.3–1 Among uniformed services facilities.
70.3–2 Between civilian medical facilities and uniformed services facilities within United States and Puerto Rico.
70.3–3 Exceptions; emergency care and other circumstances.
70.3–4 Between civilian medical facilities and uniformed services facilities outside the United States and Puerto Rico.
70.4 Medical care for dependents at medical facilities of the uniformed services.
70.4–1 Authority for providing medical care to dependents.
70.4–2 Facilities available.
70.4–3 Medical care authorized.
70.4–4 Medical care not authorized.
70.4–5 Dental care.
70.4–6 Admission of dependents for medical care.
70.4–7 Cross-utilization of service medical facilities.
70.4–8 Charges for dependent medical care.
70.4–9 Transportation of patients.
70.5 Medical care in civilian facilities.
70.5–1 Eligibility for civilian medical care.
70.5–2 Medical and hospital care authorized from civilian sources.
70.5–3 Terms of reference and rules for the provision of authorized medical care from civilian sources.
70.5–4 Medical care not authorized.
70.5–5 Admission of dependents for medical care to civilian sources.
70.5–6 Charges.
70.5–7 Administration.
70.5–8 Hospitalization beyond period of 365 days.
70.5–9 Government liability for payment of civilian medical care costs.
70.5–10 Administration of changes to this part effective 1 January 1960.
70.6 Medical care in medical facilities not otherwise provided for.
70.7 Medical care for members of the uniformed services.
70.8 Medical care for retired members of the uniformed services.
70.8–1 Retired members eligible for care.
70.8–2 Ration allowance for retired enlisted members.
70.8–3 Charges for officers' subsistence.
70.9 Budgeting and accounting for medical and dental care furnished in facilities of the uniformed services.
70.10 Implementation.
70.11 Effective date.

AUTHORITY: §§ 70.1 to 70.11 issued under 10 U.S.C. 1071–1085.

§ 70.1 General information.

§ 70.1–1 Purpose.

The purpose of this part is to prescribe policy for administering the Dependents' Medical Care Act.

§ 70.1–2 Scope.

This part is applicable to the uniformed services.

§ 70.1–3 Definition of terms used in this part.

(a) "Uniformed services" means the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Commissioned Corps of the Coast and Geodetic Survey, and the Commissioned Corps of the Public Health Service.

(b) "Member of a uniformed service" means a person appointed, enlisted, inducted or called, ordered or conscripted in a uniformed service who is serving on active duty or active duty for training pursuant to a call or order that does not specify a period of thirty days or less.

(c) "Retired member of a uniformed service" means a member or former member of a uniformed service who is entitled to retired, retirement, or retainer or equivalent pay as a result of service in a uniformed service, other than a member or former member entitled to retired or retirement pay under Title III of the Army and Air Force Vitalization and Retirement Equalization Act of 1948 who has served less than eight years on full time duty in active military service other than active duty for training.

(d) "Dependent" means any person who bears to a member or retired member of a uniformed service, or to a person who died while a member or retired member of a uniformed service, any of the following relationships:

(1) The lawful wife;
(2) The unremarried widow;
(3) The lawful husband, if he is in fact dependent on the member or retired member for over one-half of his support;
(4) The unremarried widower, if he was in fact dependent upon the member or retired member at the time of her death for over one-half of his support because of a mental or physical incapacity;
(5) An unmarried legitimate child (including an adopted child or stepchild), if such child has not passed his twenty-first birthday;
(6) A parent or parent-in-law, if the said parent or parent-in-law is, or was at the time of the member's or retired member's death, in fact dependent on said member or retired member for over one-half of his support and is, or was at the time of the member's or retired member's death, actually residing in the household of said member or retired member. For the purposes of this directive, the requirement of actually residing in the household shall be fulfilled when the parent or parent-in-law actually resides or was residing at the time of death of a member or retired member, in a dwelling place provided or maintained by said member or retired member; or
(7) An unmarried legitimate child (including an adopted child or stepchild) who (i) has passed his twenty-first birthday, if the child is incapable of self-support because of a mental or physical incapacity that existed prior to his reaching the age of twenty-one and is, or was at the time of the member's or retired member's death, in fact dependent on him for over one-half of his support, or (ii) has not passed his twenty-third birthday and is enrolled in a full-time course of study in an institution of higher learning as approved by the Secretary of Defense or Secretary of Health, Education, and Welfare and is, or was at the time of the member's or the retired member's death, in fact dependent on him for over one-half of his support.

(e) "Dependents eligible for civilian medical care" means the lawful wife or the dependent lawful husband (spouses) and children who are dependents of members of the uniformed services.

(f) "Secretary of a uniformed service" means the Secretary of the Army, Navy (for the Navy and Marine Corps), or Air Force, or for the other uniformed services (Coast Guard, Public Health Service, Coast and Geodetic Survey), the Secretary of Health, Education, and Welfare. The latter may delegate his duties and responsibilities in relation to dependent medical care to The Surgeon General of the Public Health Service.

(g) "The United States" means all of the States and the District of Columbia.

(h) "Executive agent" means the party who acts for the uniformed services in negotiating and administering contracts for medical (physicians) and hospital services under the policy guidance of the Department of Defense.

(i) "Contractor" means the legal entity with which the Government enters into a contract for the purpose of implementing the Dependents' Medical Care Act, such as a state medical society, an insurance company, Blue Shield or Blue Cross.

(j) Miscellaneous medical and technical terminology:

(1) "Diagnosis": A determination of the existence and nature, or absence, of disease or injury by history with physical and mental findings, including physical examinations and the utilization of medically accepted diagnostic procedures, e. g., laboratory tests and pathology and X-ray examinations.

(2) "Outpatient care": The medical services which are normally performed in locations such as the home, a physician's office, or the outpatient department of a hospital, clinic, or dispensary.

(3) *Maternity and infant care.* Medical and surgical care for the mother incident to pregnancy including prenatal care, delivery, post-natal care, including care of the infant, and treatment of complications of pregnancy.

(4) "Domiciliary care": Care which is normally given in a nursing home, convalescent home, or similar institution to a patient who requires personal care rather than active and definitive treatment in a hospital for an acute medical or surgical condition. It includes but is not limited to nursing care required as a result of old age or chronic disease.

(5) "Chronic disease": This term shall be construed to include non-acute conditions and disabilities in which the prognosis indicates long continued duration of the ailment.

(6) "Nervous and mental disorders": This term means those conditions classi-

fied as neuroses, psychoneuroses, psychopathies, or psychoses.

(7) "Dental care as a necessary adjunct to medical or surgical treatment": Dental care determined by the cognizant physician and dentist to be required for the proper treatment of a medical or surgical condition.

(8) *Adjuncts to medical care.* Prosthetic devices such as artificial limbs, artificial eyes, hearing aids, orthopedic footwear, spectacles, and similar medical supports or aids.

(9) "Adjuncts to dental care": Removable or fixed prosthetic or fixed prosthodontic restorations and similar dental supports or aids.

§ 70.1–4 Administration.

(a) The Secretary of Defense has jurisdiction over the Army, Navy, Air Force, Marine Corps, and the Coast Guard when operating as a service with the Navy.

(b) The Secretary of Health, Education, and Welfare has jurisdiction over the Public Health Service and for medical care purposes over the Coast and Geodetic Survey, and the Coast Guard when not in service with the Navy.

§ 70.2 Determination of eligibility and identification of dependents.

§ 70.2–1 Determination of dependents' eligibility.

(a) The uniformed services will require dependents (or their sponsors) who request medical care to furnish proof of their eligibility for such care. In order to develop uniformity in the criteria utilized by the uniformed services to determine dependents eligible for medical care, the uniformed services will utilize, as soon as practicable, DD Form 1172,[1] "Application for Uniformed Services Identification and Privilege Card." Implementation and use of this form shall be completed not later than December 31, 1957. Pending use of this DD Form, existing procedures for determining dependents' eligibility for medical care, employed by the respective services, will be continued. Modifications of DD Forms 1172 and 1173 may be made, subject to the approval of the Office, Secretary of Defense.

(b) The Secretaries of the uniformed services and their designees are hereby authorized to make determinations of dependency for purposes of this part.

§ 70.2–2 Identification of dependents.

(a) Upon an affirmative determination by the Secretary of a uniformed service or his designee that a dependent is eligible for medical care, such dependent will be issued a "Uniformed Services Identification and Privilege Card", DD Form 1173.[1] The DD Form 1173 will serve as the primary means of identifying dependents eligible for medical care.

(b) The administrative provisions governing the application for the DD Form 1173 and its issuance to dependents of members and dependents of retired members of the uniformed services and dependents of persons who died while a member or a retired member of a uniformed service will be as prescribed by the Secretary of the uniformed service concerned. However, such regulations for active duty members with dependents will include but not be limited to provisions for the following:

(1) *Issuance.* Application for, and issuance of, DD Form 1173 will be accomplished at the following times:

(i) Upon entry on active duty for a period in excess of 30 days.

(ii) Upon re-enlistment.

(iii) Upon change in dependency status stated on current authorization card.

(iv) Upon certification of loss.

(v) Upon retirement or death.

(2) *Surrender.* The DD Form 1173 shall be surrendered:

(i) Whenever a new card is issued except to replace loss.

(ii) Upon expiration date.

(iii) Whenever the cardholder becomes ineligible.

(iv) Upon death, retirement or release of member to inactive duty.

(3) *Expiration date.* The DD Form 1173 shall be effective for the contracted period of service of the sponsor upon whom the entitlement is based in the case of dependents of the uniformed services, or in the case of minors the 21st birthday if it occurs prior to the termination of the service of the sponsor, except that for entitlement to medical care, the provisions of paragraph (d) (7) of § 70.1–3 will apply. The departments will insure that sponsors are directed to notify the appropriate authority immediately upon any change in status that would terminate or modify the right to any of the benefits for which the card may be used.

(4) *Dependents listed.* Each dependent, ten years or over, entitled to medical care, will be issued DD Form 1173. Certification of minor dependents, under ten years of age, for eligibility for medical care will be the responsibility of the dependent, accompanying parent, member or acting guardian.

(5) *Entitlement to care in civilian facilities.* All DD Forms 1173 will contain an appropriate notation as to those dependents who have entitlement to medical care at both medical facilities of the uniformed services and civilian medical facilities. Thus, each card covering a dependent eligible for civilian medical care (see § 70.1–3(e)) will have a notation thereon showing that care in civilian facilities is authorized even though the situations in which such care may be obtained at Government expense are limited. For example, such a dependent residing with the sponsor, or living in an area to which the sponsor is assigned, and whose freedom of choice has been restricted pursuant to § 70.3–2 shall not be entitled generally to receive medical care in civilian facilities at Government expense, but shall be so entitled only in the case of an emergency and under other circumstances outlined in this part or in the joint regulations.

(c) The original issuance and use of the DD Form 1173 will be accomplished by all the uniformed services as soon as practicable, but in no event later than 31 December 1957.

§ 70.3 Determination of sources from which eligible dependents receive medical care.

§ 70.3–1 Among uniformed services facilities.

Normally, a dependent requesting care at a uniformed services facility will be expected to use the facilities servicing the area in which the dependent resides.

§ 70.3–2 Between civilian medical facilities and uniformed services facilities within United States and Puerto Rico.

(a) Dependents eligible for civilian medical care who are not residing with their sponsors, or in an area to which their sponsor is assigned, shall have free choice between uniformed services medical facilities and civilian medical facilities.

(b) Outpatient medical care at Government expense for dependents eligible for civilian medical care is not authorized from civilian sources, except that certain specified treatment for such dependents who are not hospitalized, will be authorized when in accordance with § 70.5–2(f); § 70.5–3(d) (1), (2), and (3); or § 70.5–6(i).

(c) Dependents eligible for civilian medical care who reside with their sponsors, or in an area to which their sponsor is assigned, shall have free choice between uniformed services medical facilities and civilian medical facilities except that the Secretary of a uniformed service with the approval of the Secretary of Defense or the Secretary of Health, Education, and Welfare, as appropriate, may require such dependents in a prescribed area to seek medical care in a uniformed services medical facility if he finds that:

(d) When necessary restrictions on freedom of choice for a particular medical facility are imposed, the Secretary of a uniformed service may prescribe a local geographic area which the medical facility concerned shall serve normally. In determining the boundaries of the geographic area, consideration shall be given to normal commuting time, distance, and unusual geographic and transportation factors such as toll bridges or ferries which would increase unreasonably the time and expense of travel. It shall be the responsibility of the Secretary of a uniformed service, when imposing necessary restrictions upon the freedom of choice of a dependent, to ensure liaison and coordination among all uniformed services and civilian medical facilities in and adjacent to the geographical area in which restrictions have been imposed. When any restrictions on freedom of choice have been imposed or removed, the Executive Agent shall be so advised.

(e) In lieu of the restrictions described in paragraphs (c) and (d) of this section, the Secretary of Defense may specify a date as of which the restrictions described below will be effective. On and after the specified date, a restriction on freedom of choice shall be effective as to dependents in the United States and Puerto Rico, who are eligible for civilian medical care, who reside with

[1] Filed as part of the original document.

their sponsors, or in an area to which their sponsor is assigned, who require care authorized under this Part 70 from civilian sources but have not commenced receiving such care from civilian sources on the aforesaid specified date (or, in the case of a maternity patient, whose care by her civilian physician on that date has not reached the second trimester), and who reside in an area where adequate medical facilities of a uniformed service are available for such dependents. No restriction on freedom of choice will be imposed on such dependents residing in areas where adequate medical facilities of a uniformed service are not available. However, in order that the restriction may be appropriately administered, each dependent who resides with the sponsor, or in an area to which the sponsor is assigned, and who requires care authorized under this Part 70 from civilian sources but has not commenced receiving such care from civilian sources on the specified date (or, in the case of a maternity patient, whose care by her civilian physician on that date has not reached the second trimester), will be required to contact a uniformed services installation. For those residing in areas where an adequate medical facility of a uniformed service is not available, DD Form 1251, "Nonavailability Statement", authorizing care from civilian sources at Government expense will be issued. Such a statement may also be issued to a dependent residing with the sponsor, or residing in an area to which the sponsor is assigned, when the capability does not exist in the medical facility (or facilities) of the uniformed services in the area to provide the required care because of lack of necessary staff, facilities, or space. The DD Form 1251, issued in the manner described above, shall be evidence of entitlement of the dependent to care authorized under this Part 70 from civilian sources at Government expense. In determining whether a dependent covered under this paragraph (e) is residing in an area where adequate medical facilities of a uniformed service are available, the criteria outlined in paragraphs (c) and (d) of this section shall apply. Detailed procedures concerning the format of the DD Form 1251 and the manner in which it is to be issued may be set forth in the Joint Regulations. Spouses and children are considered to be residing with their sponsor if they reside in the area to which the sponsor is assigned, in the area of his permanent duty station, or the home port or home yard of a ship, even though the sponsor may be temporarily away, by reason of temporary duty with his unit or ship, from the area to which he is assigned, the permanent duty station or his home port or home yard respectively, or by reason of the sponsor's absence on individual temporary duty or temporary additional duty order.

§ 70.3–3 Exceptions: emergency care and other circumstances.

(a) Any restrictions on freedom of choice and the requirement for the DD Form 1251[1] described in § 70.3–2(e) shall be waived:

(1) When circumstances indicate that it was necessary for the eligible dependent to obtain authorized medical care from civilian facilities due to a bona fide emergency, e.g. serious injury following an accident or illness or sudden onset requiring immediate treatment authorized to be obtained from civilian sources at the nearest available medical facility to preserve life, health, or to prevent undue suffering; or

(2) During the period of absence on a trip of the eligible dependent from the area to which the sponsor is assigned. This exception is not to be used to circumvent the restrictions imposed on freedom of choice.

(3) When an eligible dependent wife, whose husband dies while on active duty, is pregnant at the time of his death. (See § 70.5–5(e)).

(b) Additionally, the restrictions initially imposed by the Secretary of Defense on a specified date pursuant to § 70.3–2(e) and the requirement for a DD Form 1251[1] described therein shall be waived with regard to any eligible dependent who has commenced receiving care authorized under this Part 70 from civilian sources prior to that specified date (except that, for maternity patients, care in the second trimester by her civilian physician on that date must have commenced prior thereto). The dependent involved will be entitled to complete any care which was authorized under this Part 70 prior to the date specified by the Secretary of Defense and which has been commenced in accordance with the preceding sentence.

§ 70.3–4 Between civilian medical facilities and uniformed services facilities outside the United States and Puerto Rico.

Dependents eligible for civilian medical care who are not residing with their sponsors, or in an area to which their sponsor is assigned, shall have free choice between uniformed services medical facilities and professionally acceptable local civilian sources. Where medical facilities of the uniformed services are available within the area and are capable of providing the required care, spouses and children outside the United States and Puerto Rico who are residing with their sponsors, or in an area to which their sponsor is assigned, will utilize these facilities for such care. In areas where medical facilities of the uniformed services are nonexistent or incapable of providing adequate medical care, spouses and children who are residing with their sponsors, or in an area to which their sponsor is assigned, may be authorized civilian medical care from professionally acceptable local sources in accordance with this Part 70.

§ 70.4 Medical care for dependents at medical facilities of the uniformed services.

§ 70.4–1 *Authority for providing medical care to dependents.* Whenever requested, medical care shall be given dependents of members and dependents of retired members of the uniformed services, and dependents of persons who died while a member or a retired member of a uniformed service, in medical facilities of the uniformed services subject to the availability of space and facilities, and the capabilities of the professional staff. Determinations made by the medical officer in charge of the medical facility, or by his designee, as to availability of space, facilities, and the capabilities of the professional staff, shall be conclusive. The furnishing of medical care to dependents shall not interfere with the primary mission of those facilities.

§ 70.4–2 Facilities available.

In making the determination of the availability of medical facilities at a specific location, the following criteria shall be applied:

(a) Mission of the uniformed services medical facility.

(b) Adequacy of professional care available for diagnosis and treatment.

(c) Maximum number of patients who can be treated without sacrificing high professional medical standards.

(d) Optimum utilization of facilities of the uniformed services.

§ 70.4–3 Medical care authorized.

(a) Medical care of dependents in the facilities of the uniformed services shall be limited to the following:

(1) Diagnosis.

(2) Treatment of acute medical conditions, including acute exacerbations or acute complications of chronic diseases.

(3) Treatment of surgical conditions.

(4) Treatment of contagious diseases.

(5) Immunization.

(6) Obstetrical and infant care.

(b) Treatment may be provided for acute emergencies of any nature which are a threat to the life, health, or well-being of the patient including acute emotional disorders. Hospitalization is authorized at Government expense for such emergencies only pending completion of arrangements for care elsewhere unless the illness or condition also qualifies for care under paragraph (a) (1), (2), (3), (4) or (6) of § 70.4–3. With special exceptions as authorized by the Surgeon General of a uniformed service, additional care in a hospital of the uniformed services on a space available basis may be provided in accordance with paragraph (b) of § 70.4–4.

(c) When a hospitalized dependent patient requires care beyond the capabilities of the medical facility, the commanding officer or officer-in-charge of the facility is authorized to:

(1) Transfer the patient to the nearest medical facility of the uniformed services where the required treatment is available. Government transportation may be utilized to effect such transfer; or

(2) Procure from civilian sources the necessary supplemental material and professional and personal services required for the proper care and treatment of the patient in his facility.

The authorization provided by this paragraph (c) is applicable after admission of the patient when the patient's condition so requires.

[1] Filed as part of the original document.

§ 70.4–4 Medical care not authorized.

Dependents shall not be provided:

(a) Hospitalization at medical facilities of the uniformed services for the following:

(1) Chronic diseases. (See paragraph (j)(6) of § 70.1–3 and paragraph (a)(2) of § 70.4–3.)

(2) Nervous and mental disorders. (See paragraph (j)(7) of § 70.1–3.)

(3) Medical or surgical care that is desired or requested by the patient which, in the opinion of cognizant medical authority is not medically indicated; e. g., surgery solely for cosmetic purposes.

(4) Domiciliary Care. (See paragraph (j)(4) of § 70.1–3.)

(b) However, in special and unusual cases, exceptions may be made by a Surgeon General of the uniformed services and hospitalization may be provided for such disorders or diseases as set forth in paragraph (a) (1) and (2) of this section. In no instance, may the period of hospitalization exceed 12 months.

(c) Artificial limbs, artificial eyes, hearing aids, orthopedic footwear and spectacles, except that outside of the United States and at remote stations within the United States, as designated by the Secretary of the uniformed service concerned and approved by the Secretary of Defense where adequate civilian facilities are not available, those items, if available from Government stocks, may be provided to dependents at invoice cost to the Government.

(d) Ambulance service, except in acute emergency as determined by the medical officer in charge.

(e) Home calls, except in special cases where it is determined by the cognizant medical authority to be medically necessary.

§ 70.4–5 Dental care.

(a) Dental care for dependents is not authorized except:

(1) Emergency dental care to relieve pain and suffering, but not to include any permanent restorative dentistry or dental prosthesis;

(2) Dental care as a necessary adjunct to medical or surgical treatment. (See paragraph (j)(8) of § 70.1–3; and

(3) Outside the United States, and in remote areas within the United States as designated by the Secretary of the Army, Navy, or Air Force and approved by the Secretary of Defense where adequate civilian dental facilities are not available to personnel at or near military installations; or as designated by the Surgeon General, U.S. Public Health Service, and approved by the Secretary of Health, Education, and Welfare for those facilities over which jurisdiction is provided in § 70.1–4(b).

§ 70.4–6 Admission of dependents for medical care.

(a) As indicated in § 70.2–2, the DD Form 1173 will serve as the primary means of identifying dependents eligible for medical care. However, pending use of DD Form 1173, existing methods and procedures for identifying dependents eligible for medical care may be continued within each of the respective services with such immediate modifications of established procedures as are required to permit all eligible dependents access to medical care.

(b) Procedures for admission of dependents requesting medical care at uniformed services medical facilities prior to 1 January 1958 will be as currently established by the admitting facility.

(c) Procedures for admission of dependents requesting medical care at uniformed services medical facilities after 31 December 1957 will be as follows:

(1) Identification will be by means of a DD Form 1173. Uniformed services medical facilities may prescribe such additional local procedures as necessary. However, these procedures should not complicate, delay or preclude treatment of an eligible dependent nor discriminate against the dependent of members of other services.

(2) Under emergency conditions and similar circumstances, the admitting authority may waive the requirement of producing DD Form 1173. However, in each such instance at uniformed services medical facilities certification will be required attesting to the dependent's eligibility for medical care. This certification will be executed by either the dependent, the member, retired member, parent or guardian as appropriate.

§ 70.4–7 Cross-utilization of service medical facilities.

To provide effective cross-utilization of medical facilities of the uinformed services, eligible dependents, regardless of service affiliation, shall be given equal opportuinty for medical care. Such dependents may request and be furnished medical care at the medical facility of the uinformed service serving the area in which they reside or in the medical facility of the sponsor's own uniformed service depending upon the capability of the medical facilities concerned. In areas where medical facilities of two or more uniformed services are available, the appropriate officials of each service, with due consideration for the relative size and capabilities of the medical facilities, shall participate jointly in determining the capabilities and establishing areas of medical responsibility. Delineation of such areas shall be published jointly and will include zones in which dependents are permitted to use either the facilities of the sponsor's own service or the facilities which have medical responsibility for the area in which the dependent resides. In addition, commanders of uniformed services hospitals will establish necessary liaison and coordination with the representatives of the local medical society and the civilian hospital facilities as appropriate, to ensure to the maximum extent possible, the smooth referral of excess dependent patient loads to civilian medical facilities when such referrals appear desirable.

§ 70.4–8 Charges for dependent medical care.

When medical care is provided dependents in facilities of the uniformed services, the patient shall pay the following charges:

(a) *Inpatient care.* The per diem rate of charge for inpatient care provided dependents is $1.75 which includes cost of subsistence.

(b) *Outpatient care.* As a restraint on excessive demands for medical care, uniform minimal charges may be imposed for outpatient care only after a special finding by the Secretary of Defense after consultation with the Secretary of Health, Education and Welfare that such charges are necessary. The Secretaries of the uniformed services shall have continuing responsibility for determining the nature and extent of possible abuses of outpatient care in uniformed services medical facilities and shall so advise the Secretary of Defense when their findings are in the affirmative.

§ 70.4–9 Transportation of patients.

Commercial or civilian transportation to move dependent patients to medical facilities of the uniformed services, between medical facilities of the uniformed services, or from a civilian medical facility to a medical facility of the uniformed services is not authorized at Government expense.

§ 70.5 Medical care in civilian facilities.

§ 70.5–1 Eligibility for civilian medical care.

Under the provisions of this section, wives, dependent husbands and children who are dependents of members of the uniformed services are eligible to receive at Government expense specified medical or dental care from civilian sources.

§ 70.5–2 Medical and hospital care authorized from civilian sources.

Medical and surgical care from civilian sources is authorized for spouses and children who are dependents of members of the uniformed services for the following:

(a) Treatment of acute medical conditions, including acute exacerbations or acute complications of chronic diseases only during hospitalization except as otherwise provided in this part.

(b) Treatment of surgical conditions only during hospitalization except as otherwise provided in this part. (See § 70.5–4(c)).

(c) Treatment of contagious diseases during hospitalization.

(d) Complete obstetrical and maternity care.

(e) Three hundred sixty-five days' hospitalization in semi-private accommodations for each admission, including all necessary services and supplies furnished by the hospital during hospitalization.

(f) Services required of a physician or surgeon prior to and following hospitalization for a bodily injury or surgical operation.

(g) Treatment in a hospital for an acute emotional disorder is authorized provided that such disorder is considered to constitute an emergency which is a threat to the life or health of a patient. In general, care will be provided for an acute emotional disorder under this section only until the disorder subsides, until arrangements are made for care elsewhere, or until the end of 21 days of hospitalization, whichever occurs earliest. Under procedures to be established by the Executive Agent, or his representative, within the United States and Puerto Rico, and by the Secretaries of the uniformed services, or their representatives, outside the United States and Puerto Rico, extension beyond 21 days may be granted on a case-by-case basis where the member or the dependent, or the representative of either, shows that, due to absence (e.g. overseas assignment when dependent is in the United States), the member was unable to make arrangements for care elsewhere within the 21-day period. With special exceptions, as authorized by the Surgeon General of a uniformed service, additional care for an acute emotional disorder in a hospital of the uniformed services on a space available basis may be provided in accordance with § 70.4–4(b). The commanding officer of a uniformed services hospital, or the Surgeon General of a uniformed service having jurisdiction over a hospital, may authorize transfer of any patient, hospitalized in a civilian hospital under any of the above subparagraphs, to that uniformed services medical facility on the basis of space, facility, and personnel availability. (See §§ 70.4–2 and 70.4–3.) In cases covered by the two preceding sentences, Government transportation may be utilized to effect transfer to a uniformed services hospital.

(h) Diagnostic tests and procedures including laboratory tests and pathology and X-ray examinations, when ordered by the attending physician, only during hospitalization, except as otherwise provided in this part.

(i) Dental care which is a necessary adjunct to medical or surgical treatment rendered in a hospital to a dependent who is a hospital inpatient. Such dental care shall not include removable or fixed prosthodontic restorations, orthodontia, restorative dentistry, and prolonged periodontal treatment.

§ 70.5–3 Terms of reference and rules for the provision of authorized medical care from civilian sources.

(a) *Applicable terms.* (NOTE: These terms are primarily for use in the United States and Puerto Rico and may be modified in other areas.)

(1) *Hospital.* The word "hospital" shall mean only an institution which is operated in accordance with the laws of the jurisdiction in which it is located pertaining to institutions identified as hospitals, is primarily engaged in providing diagnostic and therapeutic facilities for surgical and medical diagnosis, treatment and care of injured and sick persons by or under the supervision of staff physicians or surgeons, and continuously provides 24-hour nursing service by registered graduate nurses. It shall specifically exclude any institution which is primarily a place of rest, a place for the aged, a place for the treatment of drug addiction or alcoholism, a nursing home, a convalescent home, or a facility operated by the Federal Government or any agency thereof, except Freedmen's Hospital, Washington, D. C. If the experience of the Executive Agent indicates that the care provided in a hospital is substandard, or charges of a hospital are excessive, Government approval of its use in the future may be withdrawn and payment of charges by the Government denied for patients admitted subsequent to the withdrawal of approval unless the case is certified as an emergency by the attending physician or surgeon.

(2) *Semi-private accommodations.* The term "semi-private accommodations" signifies the presence of 2, 3, or 4 beds in a room in which a patient is hospitalized. Private accommodations means one bed in a room.

(3) *Ward accommodations.* The term "ward accommodations" signifies the presence of 5 or more beds in a room in which the patient is hospitalized. Where ward accommodations are furnished under the circumstances described herein, a portion of the cost will be borne by the Government in accordance with paragraph (a) of § 70.5–6. Ward facilities may be used for pediatric cases whenever this is the normal medical practice. Further, when the attending physician admits his patient to a hospital in which all semi-private accommodations are occupied, care furnished therein shall be considered authorized care, but the patient should be transferred to a semi-private accommodation as soon as possible. Finally, when the patient is admitted to an otherwise eligible institution which furnishes only ward accommodations, care furnished therein shall be considered authorized care.

(4) *Necessary services and supplies.* Those services and supplies ordered by the attending physician which are customarily provided and charged for by the hospital.

(5) *Physician or surgeon.* A person who is legally qualified to prescribe and administer all drugs and to perform all surgical procedures.

(6) *Dentist.* A person who is legally qualified to prescribe and administer all drugs and perform all procedures related to the teeth, jaws, and to structure contiguous to one or the other.

(7) *Local schedule of allowances.* Professional fees for payment of physician's services applicable to a local area negotiated with the physicians' representatives and approved by the Executive Agent for the Department of Defense and Department of Health, Education, and Welfare.

(b) *Hospital care.* (1) Hospital care under this section is defined as inpatient care for 18 consecutive hours or more, except for shorter periods of hospitalization for surgical procedures, treatment of fractures or other bodily injuries, or in instances in which death occurs in a lesser period of time.

(2) Hospital care shall include board and room and necessary services and supplies up to a maximum of 365 days for each admission.

(c) *Nursing care.* If, while receiving authorized hospital care, private-duty nursing care is required for proper care and treatment, and if the patient's attending physician certifies to such a requirement, a portion of the cost will be borne by the Government in accordance with § 70.5–6 (d).

(d) *Professional services—(1) Professional services related to hospitalization.*

(i) The payment of physicians' fees according to the local schedules of allowances, including those of necessary consultants, for treatment of medical and surgical conditions during a period of hospitalization is authorized.

(ii) All diagnostic and therapeutic tests and procedures authorized by the attending physician and accomplished during a period of hospitalization are authorized for payment by the Government. In those instances during the period of hospitalization when treatment by the use of X-ray, radium or radioisotopes is prescribed, such treatment may be continued or carried out on an outpatient status.

(iii) The approved local schedules of allowances payable to a physician or surgeon for treatment in a hospital of a bodily injury or for a surgical procedure shall include pre-hospitalization care and normal after-care following a period of hospitalization.

(iv) Those surgical procedures that are legitimately cared for by a dentist (e. g., cleft lip, cleft palate, etc.) may be treated by a dentist who is a member of the staff of a hospital and normally performs these surgical procedures in that hospital. The removal of teeth, gingivectomies, and alveolectomies are not authorized surgical procedures under the Program unless they meet the criteria of adjunctive dental care as defined in this part. When authorized surgical treatment is performed by a dentist, other procedures, diagnostic tests, services, and supplies authorized or ordered by him may be paid to the same extent as if a physician or surgeon authorized or ordered them under this part.

(v) Although the Dependents' Medical Care Act provides primarily for professional services during hospitalization and does not permit medical care normally considered to be outpatient care at Government expense, certain limited benefits are authorized as indicated elsewhere in this section and below:

(*a*) Payment is authorized in an amount not to exceed $75.00 at Government expense for necessary diagnostic tests and procedures performed or authorized by the attending physician prior to hospitalization for the same bodily injury or surgical procedure for which hospitalized.

(*b*) Payment is authorized in an amount not to exceed $50.00 at Government expense for necessary tests and procedures performed or authorized by the attending physician for proper aftercare of the same bodily injury or surgical procedure for which hospitalized.

(*c*) The monetary limitations in (*a*) and (*b*) of this subdivision are intended only to define the liability of the Government under the stated conditions and in no way modify, alter, or affect the fees for individual procedures contained in the local schedules of allowances; and also, they do not restrict the physician

in the performance or authorization of necessary tests or procedures.

(*d*) The monetary limitations in (*a*) and (*b*) of this subdivision may be exceeded only in special and extraordinary cases provided that the physician authorizing the tests and procedures, for which charges exceed the amounts specified above, submits a special report which shall be reviewed by a contractor's physician review board. This board will make appropriate recommendations to the Executive Agent who may authorize such additional payments.

(2) *Obstetrical and maternity services.* (i) Complete obstetrical and maternity services shall include prenatal care, delivery, and postnatal care in a hospital, office, or home. Payments for prenatal care, delivery, and post-partum care shall be made to the physician performing the respective service in accordance with the local schedule of allowances.

Allowances are authorized for laboratory tests, pathology or radiology examinations, and other procedures performed or authorized by the attending physician in the management of the pregnancy. In instances of home or office confinements, payments are not authorized for the purchase or rental of beds, bassinets, or similar equipment, nor for services of private duty nurses. (See paragraph (f) of § 70.5–6.)

(ii) Where a consultant's services are required for proper care and treatment of the patient, such care is authorized.

(iii) Necessary or required infant care shall be provided during the period of hospitalization following delivery. If the infant require. further hospitalization following delivery, such care is authorized as a continuation of the original admission. Also, in the case of a home or office delivery, necessary or required infant care may be provided on an outpatient basis for a period not to exceed 10 days following the date of delivery.

(iv) Under procedures established by the Executive Agent, or his representative, within the United States and Puerto Rico, and by the Secretaries of the uniformed services, or their representatives, outside the United States and Puerto Rico, required in-hospital care can be furnished to obstetrical and maternity patients who develop acute emotional disorders complicating pregnancy or constituting postpartum psychosis occurring within the six weeks postpartum period authorized for maternity care.

(3) *Other professional services.* The authorized payments for the treatment of bodily injuries when a patient is not hospitalized, including diagnostic and therapeutic tests and procedures authorized by the attending physician, are limited to treatment of fractures, dislocations, lacerations, and other wounds as prescribed in the local schedules of allowances. Treatment of fractures, dislocations, lacerations, and other wounds that are legitimately cared for by dentists, including related diagnostic and therapeutic tests and procedures authorized by the attending dentist, may also be paid for hereunder. (See § 70.5–6 (i)).

(e) *Supporting services.* Wherever the attending physician authorizes the services of a physical therapist or of an anesthetist who is other than a physician in rendering authorized care to an eligible dependent, and certifies as to the necessity therefor, the services may be paid for hereunder.

§ 70.5–4 Medical care not authorized.

Medical care specified in this section shall not be authorized for any of the following:

(a) Chronic diseases. (See paragraph (j)(6) of § 70.1–3 and paragraph (a) of § 70.5–2.)

(b) Nervous and mental disorders (see § 70.1–3(j)(6), including acute emotional disorders except that (1) care of this type may be furnished to a dependent requiring same during the period of hospitalization of that dependent for a condition that does qualify as authorized care under § 70.5–2 (a) through (f); (2) care for acute emotional disorders may be furnished in connection with obstetrical and maternity services in accordance with § 70.5–3 (d)(2)(iv); and (3) care for acute emotional disorders may be furnished in accordance with § 70.5–2(g).

(c) Services of a surgical nature desired or requested by the patient which are not medically indicated. The opinion of the cognizant medical authority (charge physician) will determine whether the services are medically indicated and therefore payable under this part, except that the types of surgery described in subparagraph (1) of this section are not authorized for payment under this part under any circumstances; and the types of surgery described in subparagraph (2) of this section are authorized only under the conditions stipulated therein.

(1) *Examples of types of surgical care not authorized.* (i) Cosmetic surgery—any surgery for improvement or change of appearance or for psychological reasons.

(ii) Ears—reconstruction and/or revision of the external ear; surgery based on psychological reasons.

(iii) Congenital defects of skeletal and/or central nervous system which are readily identifiable as representing chronic long-term conditions and characteristically respond poorly to surgical intervention.

(iv) Sterilization procedures for multiparity, socioeconomic and/or psychological reasons.

(v) Procedures designed to correct a state of infertility or sterility.

(vi) Removal of tatoos.

(2) *Examples of types of inpatient surgical care authorized for payment only if certain conditions prevail.* (i) Ears—surgery for restoration or improvement of hearing is allowable.

(ii) Eyes—surgery for glaucoma, cataracts, strabismus (squint) or other conditions to aid or improve vision of the affected eye(s) is allowable.

(iii) Harelip and/or cleft palate—surgery for initial repairs, including surgery for subsequent repair known and established as a requirement at the time of original surgery is authorized. Subsequent revisions are not authorized.

(iv) Rhinoplasties—authorized only for improvement of nasal respiratory physiology.

(v) Skeletal defects (e.g. club foot, congenital dislocated hip)—surgical treatment is authorized only when treatment is required as an "in-hospital" patient to improve function. Care normally provided on an out-patient basis and not requiring hospitalization is not authorized.

(vi) Surgical treatment for removal of supernumerary digits or for correction of syndactylism is authorized only for improvement of function.

(vii) Scars—surgical treatment is authorized only when a scar is ulcerated, shows clinical evidence of malignancy, or when a contracture impairing anatomical function is present.

(viii) Surgical treatment for removal of nevi, hemangiomas and/or telangiectatic lesions is authorized only if they are bleeding, ulcerated, painful, or show clinical evidence of malignancy, or if size and location produce functional impairment.

(ix) Surgical treatment for removal of planter warts, verrucae, sebaceous cysts, condylomata or moles is authorized only if they are bleeding, ulcerated, painful, or show clinical evidence of malignancy, or if size and location produce functional impairment.

(x) Mammaplasty is authorized only when severe pain or marked disability is present.

(xi) Tubal ligation or other sterilization procedures—surgical procedure is authorized only when, in the opinion of the charge physician and consulting physician(s), the procedure is a necessary requirement in the proper medical management of an otherwise unrelated medical or surgical condition for which treatment is authorized under this part.

(d) Non-acute medical conditions (see § 70.5–2(a)). Examples of types of care not authorized are set forth below:

(1) Procedures designed to determine state of infertility or sterility.

(2) Pseudocyesis (false pregnancy) or pregnancy suspected but not proven.

(3) Tests to determine pregnancy, except when patient is in fact pregnant and when tests are required for proper conduct of maternity or postpartum care (hydatid mole).

(4) Diagnostic evaluation and hospital admissions in connection therewith when patients are not acutely ill or when diagnostic surveys are not followed by surgery.

(5) Rehabilitation procedures for persons with congenital defects, cerebral palsy, or poliomyelitis (except when related to "in-hospital" care of surgical procedure performed for improvement or restoration of function).

(6) Treatment for tuberculosis—inactive (non-acute) when determined by clinical tests. Treatment is authorized only for the active (acute) phase as determined by acceptable medical standards (positive sputa; positive gastric washings; or positive chest or other X-rays).

(7) Tests and procedures such as the following:

(i) Psychological, psychometric, or intelligence measuring tests.

(ii) Speech and/or hearing therapy, remedial reading, or orthoptic training.

(iii) Child guidance therapy.

(e) Domiciliary care. (See paragraph (j)(4) of § 70.1–3.)

(f) Treatments or procedures normally considered to be outpatient care.

(g) Ambulance service, or other civilian transportation used for movement of spouses or children to or between civilian medical facilities or from a civilian medical facility to a medical facility of the uniformed services.

(h) Adjuncts to medical care (See § 70.1–3(j)(8)).

§ 70.5–5 Admission of dependents for medical care to civilian sources.

Dependents requesting medical care from civilian sources will be required to observe the following procedures:

Prior to 1 January 1958, identification will be established by the best available means, including the DD Form 720, "Dependent's Identification Card," or DD Forms 1173 which have been issued, and such other means of identification currently provided by the uniformed services. In addition, dependents or or their parent, sponsor or guardian, as appropriate, will be required to execute a certification form to be prescribed by the Executive Agent and made available to the source of medical care. This form will serve the purpose of assisting both in the identification of dependents and the ultimate billing made by civilian physicians, surgeons, and civilian medical facilities. In developing this form, the Executive Agent will insure that it will include appropriate provision for:

(1) Identification of the patient.

(2) Identification of sponsor member or uniformed service on active duty.

(3) Certification of the dependent, accompanying parent, member or acting guardian as to the eligibility of the dependent for care under P. L. 569—84th Congress.

(4) Diagnoses, medical services furnished and charges.

(5) Certification by the source of medical care that services were provided in accordance with P. L. 569—84th Congress.

(b) *After 31 December 1958.* (1) Identification will be by means of the DD Form 1173 and, in addition, execution of the form described in paragraph (a) of this section will also be required.

(2) Under emergency conditions and similar circumstances, the admitting authority may waive the requirement of producing a DD Form 1173. However, in each instance of this nature, the form prescribed by the Executive Agent and referred to in paragraph (a) of this section will be executed.

(c) On and after the effective date specified by the Secretary of Defense pursuant to § 70.3–2(e), an eligible dependent who is residing with the sponsor, or in the area to which the sponsor is assigned, and who has not commenced receiving care from civilian sources prior to that date (or, in the case of a maternity patient, whose care from her civilian physician on that date has not reached the second trimester), in addition to complying with paragraphs (a) and (b) of this section, will be required to present a DD Form 1251, "Nonavailability Statement", to the attending physician and the hospital, when both are involved, and to the appropriate party when only one is involved, for attachment to the claim form. Sources of civilian care other than the hospital or the attending physician may, in lieu of attaching a DD Form 1251 to the claim form, accept a statement from the person signing the certification in accordance with paragraph (a) of this section that a DD Form 1251 has been furnished to the attending physician (identifying him by name) or to the hospital (identifying it by name). The DD Form 1251 shall be obtained from uniformed services installations and shall cover only care authorized to be obtained from civilian sources under this Part 70. A statement by the person signing the certification in accordance with paragraph (a) of this section that the patient is not residing with the sponsor, or in the area to which the sponsor is assigned, may be accepted by the source of care unless that source has actual knowledge to the contrary. The requirement for the DD Form 1251 shall be waived in the case of an emergency, and in other circumstances outlined in § 70.3–3. A statement from the attending physician on the claim form that the case is an emergency (see § 70.3–3(a)(1)) will be away on a trip from the area to which the sponsor is assigned will be sufficient to justify an exception, unless the source of care has actual knowledge to the contrary. Where representations are made by the source of civilian medical care that it was not aware of the requirements contained in this paragraph (c) and that it furnished care authorized under this Part 70 to a person claiming to be a spouse or child eligible for civilian medical care, and possessing a valid DD Form 1173, then the matter will be brought to the attention of the uniformed service concerned for determination whether a Nonavailability Statement can be issued. If it is determined by the uniformed service concerned that the DD Form 1251 cannot be furnished, then the matter will be brought to the attention of the member concerned as an unpaid debt. In special circumstances, and where the source of civilian care shows that collection has not been possible, then the Executive Agent or his designee may authorize payment to be made to that source, provided the claim covers care authorized under this Part 70 and was otherwise executed in accordance with all requirements except those set forth above concerning the Nonavailability Statement.

(d) In cases of spouses and children receiving treatment in a civilian medical facility at Government expense at the time entitlement to receive medical care from civilian sources ceases (by reason of release from active duty, or otherwise), the Government's responsibility ceases, insofar as the source of civilian care is concerned, as of the date of receipt of knowledge by the source of care that the dependent's entitlement to medical care from civilian sources has terminated or the normal expiration date on the DD Form 1173, whichever is earlier. In any case, the Government's responsibility ceases, insofar as the dependent or member is concerned, as of the date the dependent ceases to be entitled to receive care (by reason of release of the member from active duty, or otherwise) from civilian sources at Government expense. (See § 70.2–2(b)(5.) Notwithstanding the foregoing, the Government will be responsible for paying for care rendered to patients covered by paragraph (c) of this section, only if the conditions set forth in that paragraph are met.

(e) Exceptions to the policy in § 70.5–5(d) are authorized under the following circumstances:

(1) Spouses and children of members of the uniformed services receiving treatment in a civilian medical facility at Government expense at the time of death of the member, or such spouses and children requiring care in a civilian facility as a result of being in the same accident or the same episode which proved fatal to the member, if continued hospitalization is required, shall be transferred to a uniformed services medical facility as soon as the physical condition of the patient permits, subject to space, facilities, and personnel availability. Government transportation may be utilized to effect transfer to a uniformed services hospital. The cost of medical and hospital care authorized from civilian sources (see § 70.5–2) which was furnished to the dependent during the period of hospitalization in the civilian facility shall be borne by the Government subject to the charges provided in § 70.5–6, but not after the date on which feasible arrangements for transfer have been made.

(2) Additionally, a dependent wife who is eligible for civilian medical care (see § 70.1–3(e)), whose husband dies while on active duty, who is pregnant at the time of his death and is delivered on or after July 28, 1959, may be provided from civilian sources at Government expense the obstetrical and maternity care authorized under this part to include, where applicable, prenatal care, delivery, and postpartum care. Neonatal care authorized elsewhere in this part is authorized for a child born under these circumstances. Care authorized in this subparagraph includes authorized prenatal care obtained before, on, or after July 28, 1959 and authorized postpartum care for the child. The restrictions on freedom of choice described in § 70.3–2 shall not apply to dependents covered in this § 70.5–5(e)(2).

§ 70.5–6 Charges.

(a) When the entire period of hospitalization has been in other than private accommodations, the patient shall pay to the hospital the greater of subparagraph (1) or (2) of this paragraph.

(1) The first twenty-five dollars ($25.00) of the expense incurred.

(2) An amount determined by multiplying the number of days of hospitalization by the per diem rate established in paragraph (a) of § 70.4–8.

(b) If hospital care in a private room is obtained by the patient because it is required for the proper care and treatment, and if the patient's attending physician so certifies, the amount of private room charges less the patient's payment set forth below will be paid by the Government. The patient will be required to pay to the hospital the greater of subparagraph (1) or (2) in addition to subparagraph (3) of this paragraph.

(1) The first twenty-five dollars ($25.00) of the expense incurred.

(2) An amount determined by multiplying the number of days of hospitalization by the per diem rate established in paragraph (a) of § 70.4–8.

(3) Twenty-five percent (25%) of the difference between private room charges and weighted average cost of semi-private room charges, when private room charges are more costly.

NOTE: For hospitals having only private rooms, the term "weighted average cost of semi-private room charges" is defined as 90 percent of the daily hospital charges for the room furnished the dependent or $15.00 per day, whichever is lesser.

(c) If hospital care in a private room is provided at the specific request or desire of the patient or of the sponsor, the patient will be required to pay to the hospital the greater of subparagraph (1) or (2), and in addition subparagraph (3) of this paragraph.

(1) The first twenty-five dollars ($25.00) of the expense incurred.

(2) An amount determined by multiplying the number of days of hospitalization by the established per diem rate. (See paragraph (a) of § 70.4–8.)

(3) The difference between private room charges and weighted average cost of semi-private room charges, when private room charges are more costly.

(d) Except as provided in paragraph (b)(3) of this section, if hospital care in a private room is provided in a hospital which has only private rooms, the Government will pay 90 percent of the daily hospital charges for the room provided the dependent, or $15.00 per day, whichever is the lesser. The patient will be required to pay the hospital the greater of subparagraph (1) or (2), and in addition subparagraph (3) of this paragraph:

(1) The first twenty-five dollars ($25.00) of the expense incurred.

(2) An amount determined by multiplying the number of days of hospitalization by the established per diem rate. (See paragraph (a) of § 70.4–8.)

(3) Ten percent (10%) of the daily hospital charges for the private room provided the dependent or the total daily hospital charges for such room, less $15.00 per day, whichever is the greater.

(e) If while receiving authorized hospital care, private-duty nursing care is required for proper care and treatment, and if the patient's attending physician so certifies, 75 per cent of the charges in excess of $100.00 for such private-duty nursing care will be paid by the Government.

(f) All admissions to a hospital of an obstetrical patient as an inpatient for care required in direct connection with the pregnancy, including direct complications thereof, rendered during the period of pregnancy up to and including delivery and postpartum inpatient care following delivery, or immediate postpartum inpatient care for patients delivered outside the hospital, shall be considered as one admission for the purpose of determining charges to the dependent. Admission for a non-obstetrical diagnosis in the course of a pregnancy would require the patient to pay the charges for a separate admission. Patients who are delivered in a home or office shall pay the first $15.00 of charges in connection with the delivery, if not subsequently hospitalized.

(g) Patients who previously were admitted to a hospital for authorized care, who paid at least $25.00 of the hospital charges for that admission and who are readmitted to a civilian hospital within 14 days following discharge from the previous admission for authorized treatment of the original condition for which initially hospitallized, or direct complications thereof, will not be required to pay the first twenty-five dollars ($25.00) of subsequent hospitalizations, but will be required to pay an amount determined by multiplying the number of days of the current hospitalization by the established per diem rate (See paragraph (a) of § 70.4–8), plus any additional charges that might be specified elsewhere herein. Hospitals will be responsible for obtaining from the patient, physician, sponsor, or other hospital(s) satisfactory evidence that the patient is entitled to the lesser charge.

(h) When a patient who is in an inpatient status is transferred to another hospital to obtain as an inpatient necessary treatment not available in the first hospital and no break in hospitalization occurs except for time in transit, it shall be considered one admission for the purpose of payment of charges by the patient in accordance with this section.

(i) When a patient is treated for injury other than as an inpatient in a hospital in occordance with § 70.5–3(d)(3), the payments made shall be in accordance with the local schedules of allowances. Payments not to exceed a maximum of $75.00, except as provided for under § 70.5–3(d)(1)(v)(*d*), are also authorized for laboratory tests, pathology and radiology examinations provided they are procedures performed by or authorized by the attending physician or surgeon. Payment of charges is also authorized for use of hospital outpatient facilities required for the treatment of the injury, e.g., a cast room. The patient shall pay the first $15.00 of the physician's charges for each different cause or accident for which treatment and services are rendered, except that multiple injuries to the same person resulting from a single accident shall be considered as one injury for payment of the maximum required fee ($15.00) by the patient. The Government shall pay for all costs in excess of $15.00 as authorized in the local schedules of allowances. However, payment by the Government for laboratory tests and pathology and radiology examinations shall not exceed the $75.00 maximum except as provided for under § 70.5–3(d)(1)(v)(*d*).

§ 70.5–7 Administration.

(a) The Secretary of the Army, acting as Executive Agent for the Secretary of Defense, shall contract for medical care within the United States and Puerto Rico in accordance with the Armed Services Procurement Regulations with authority to redelegate such responsibilities within the Department of the Army. The Department of the Army personnel authorization and funds will be increased by the Office of the Secretary of Defense, upon justification, to provide for the personnel required for the dependent medical care program and to carry out the responsibilities of the Executive Agent. The Secretary of the Army shall be responsible for the provision of personnel, space, equipment, facilities and supplies, including related budgeting, funding, administrative control of funds, facility control, training, manpower control and utilization, personnel administration, security administration and other administrative provisions and services necessary to carry out assigned missions as Executive Agent. The Executive Agent's authority does not extend to the conduct of the medical care program in medical facilities of the uniformed services.

(b) The Executive Agent shall be responsible within the United States and Puerto Rico for the following:

(1) Preparation of the terms and placement of the contract or contracts to be established to include but not limited to:

(i) Local schedules of allowances to be used in full payment of bills presented by physicians and surgeons.

(ii) A provision for review and, if necessary, an adjustment of administrative payments not later than 120 days after the first year the plan or plans have been in effect and each year thereafter.

(iii) Determination of administrative responsibilities of the contractors and methods of determining administrative costs.

(iv) Adequate procedures for paying claims for authorized care provided to eligible dependents by physicians, treatment facilities, dentists, private-duty nurses, physical therapists and anesthetists.

NOTE: Claims may be paid under a contract or by appropriate arrangements such as direct billings between the Government and claimants. Detailed procedures may be covered in the Joint Regulations or in contracts.

(2) Administration of the contract:

(i) Liaison activities with the contractor.

(ii) Payment of bills.

(iii) The development of any budgetary information required by the uniformed services as prescribed by the Joint Regulations.

(iv) Audit.

(v) Preparation of such statistical information as may be necessary including that for the annual report of the Secretary of Defense to Congress.

(vi) The Executive Agent's responsibility shall not include as a matter of routine a detailed supervision of civilian medical procedures or a detailed inspection of civilian medical facilities.

(vii) The Executive Agent shall be responsible for the processing of complaints with reference to civilian medical care and hospitalization.

(viii) Contractors shall have detailed responsibility for resolving medical disputes through local grievance committees composed of civilian physicians.

(c) *Care in civilian facilities outside the United States and Puerto Rico.* The Secretary of a uniformed service is authorized, with authority to redelegate such responsibilities as appropriate, to contract or provide for payment for authorized civilian medical care for spouses and children outside the United States and Puerto Rico. (See § 70.3–4.) The responsibilities of the uniformed services, where appropriate, shall be the same as those listed for the Executive Agent in § 70.5–7(b).

(d) A Secretary of a uniformed service shall be responsible for the following:

(1) Initial eligiblty determinations and means of identification of the dependent for medical care as prescribed in §§ 70.2–1—70.2–2.

(2) Budgeting and funding for that portion of the total cost including administrative expenses which is properly attributable to his service.

(3) Reimbursement in accordance with cross-servicing agreements for care contracted by one service for dependents of another service. Any amounts received through such reimbursement shall be deposited to the credit of the appropriation supporting such contracts for medical care.

(4) Furnishing such information as required by the Executive Agent for the performance of his duties, including such data as the Executive Agent may require on dependent medical care from sources overseas other than uniformed services facilities.

§ 70.5–8 Hospitalization beyond period of 365 days.

When a spouse or child, who is a dependent, requires a period of hospitalization in excess of 365 days, the hospital shall notify the contractor who shall forward a copy of this notification to the Executive Agent or his representative. This notification normally will be submitted not later than 300 days after admission of the patient. Advance notice will permit arrangements to be made for proper transfer of the patient to a hospital of the uniformed service if this is determined to be feasible. Government transportation may be utilized to effect transfer to a uniformed services hospital. When transfer is not feasible, continuation of care in the civilian hospital at the expense of the Government may be authorized subject to the Joint Regulations.

§ 70.5–9 Government liability for payment of civilian medical care costs.

As prescribed in § 70.2, the uniformed services shall provide dependents with means of identification. When spouses and children of members of the uniformed services are provided civilian medical care, it is expected that the attending physician and medical facility will use reasonable care and precaution in identifying them. When medical care has been provided in good faith by the attending physician and medical facility and it is subsequently determined that the persons concerned were not in fact entitled to medical care at Government expense under Public Law 569, collection and other legal action shall be taken only against the sponsor or individual who was not entitled to the medical care. Where fraud is involved, the matter may be referred to the Attorney General of the United States with recommendation for prosecution. Notwithstanding the foregoing, the Government will be responsible for paying for care rendered to patients covered by § 70.5–5(c), only if the conditions set forth in that paragraph are met.

§ 70.5–10 Administration of changes to this part effective 1 January 1960.

(a) The changes to this part made effective on January 1, 1960 (referred to in this § 70.5–10 as the "effective date") restored certain types of care to the Medicare Program. On and after that date certain additional treatment specified in those changes constitutes authorized care which was not authorized on the preceding day. That additional treatment is referred to generally in this § 70.5–10 as care of a type restored to the Program. The following rules are promulgated governing administration of treatment of certain patients who commenced receiving that type of care before the effective date.

(1) *Hospitalized patients.* Where a patient is admitted to a hospital before the effective date for a type of care restored to the Program and is still in the hospital on that date receiving that care, payment may be made to the sources furnishing that care for the current uninterrupted period of hospitalization. Where a period of hospitalization commencing prior to that day is payable, then payment for pre- and post-hospitalization diagnostic tests and procedures which were considered necessary by the attending physician or dentist and were performed by or authorized by him are payable in accordance with § 70.5–3(d)(1)(v).

(2) *Outpatient injury cases.* Section 70.5–3(d)(3) covers care of this type that has been restored to the Program. Payment is authorized for care covered by that section furnished to a patient by an authorized civilian source only in those cases where the injury occurred prior to the effective date but subsequent to December 1, 1959 and where the patient is still under the care of a physician on or after the effective date, for the same injury, from the date of commencement of care. Payment is also authorized, in cases covered by the preceding sentence, for necessary laboratory tests, pathology and radiology examinations if the procedures are performed by or authorized by the attending physician or dentist (see §§ 70.5–3(d)(3) and 70.5–6(i)).

(b) Nothing in this § 70.5–10 shall waive the restrictions on freedom of choice set forth in § 70.3–2(e) nor the requirement for payment by the patient of the charges specified in § 70.5–6.

§ 70.6 Medical care in medical facilities not otherwise provided for.

(a) When dependents eligible for civilian medical care receive medical care authorized by this part, on an emergency basis, in a medical facility which is not included in the definition of a hospital as provided for in paragraph (a) (1) of § 70.5–3 or is not a uniformed services medical facility, the dependent will pay the charges listed in § 70.5–6 and the Government will pay the difference between the amount payable by the dependent and the reimbursable cost. Payments by the Government for such care rendered in Federal medical facilities other than those of a uniformed service will be on a reimbursable basis between the Executive Agent and the Department or agency concerned. This paragraph does not apply to paragraph (c) of this section.

(b) When dependents receive medical care authorized by this part in the governmental facilities of a foreign government (not civilian), the dependent will pay the charges listed in § 70.5–6 and the difference between the total cost and the amount paid by the dependent will be paid by the United States Government. In instances where a reciprocal agreement between a foreign government and the United States is in effect, which provides for no charge or a lesser charge to the dependent than those listed in § 70.5–6, such charges, if any, under the reciprocal agreement shall prevail.

(c) This part does not affect dependents' medical care furnished under the provisions of section 105 of Public Law 153, 83rd Congress, as amended by section 107 of Public Law 453, 83rd Congress, which authorizes medical and dental care for eligible dependents of military personnel in Canal Zone Government medical facilities.

§ 70.7 Medical care for members of the uniformed services.

Persons in the uniformed services on active duty or active duty for training are entitled to and shall be provided medical and dental care and adjuncts thereto. Under ordinary circumstances such members will receive medical care at the medical facility of the uniformed service which serves the organization to which the member is assigned. A member who is away from his duty station or is on duty where there is no medical facility of his own service available, may receive care at the nearest available medical facility of the uniformed services. Commissioned officers and warrant officers on active duty or active duty for training shall pay an amount equal to the portion of the charge established under paragraph (a) of § 70.4–8 that is attributable to subsistence when hospitalized in a medical facility of the uniformed

services. Nothing in this part shall affect the existing provision for providing medical care to members of the uniformed services through civilian or other sources.

§ 70.8 Medical care for retired members of the uniformed services.

§ 70.8–1 Retired members eligible for care.

Retired members shall be furnished required medical and dental care and adjuncts thereto to the same extent as provided for active duty members in any medical facility of a uniformed service, subject to mission requirements and the availability of space, facilities and capabilities of the medical staff as determined by the cognizant medical authority in charge of the medical facility. Nothing in this part is intended to change or modify the provisions of Executive Order 10122, 14 April 1950, as amended by Executive Order 10400, 27 September 1952.

§ 70.8–2 Ration allowance for retired enlisted members.

Retired enlisted personnel, including members of the Fleet Reserve, and the Fleet Marine Corps Reserve, shall not be charged for subsistence when hospitalized in a medical facility of a uniformed service.

§ 70.8–3 Charges for officers' subsistence.

Retired commissioned officers and retired warrant officers shall pay an amount equal to the portion of the charge established under paragraph (a) of § 70.4–8 that is attributable to subsistence when hospitalized in a medical facility of the uniformed services.

§ 70.9 Budgeting and accounting for medical and dental care furnished in facilities of the uniformed services.

The Secretaries of the uniformed services shall budget for supporting the maintenance and operation and/or subsistence of their service medical facilities for the medical and dental care of their members, retired members and dependents furnished in the medical facilities of their respective service. The Secretaries of the uniformed services shall also budget for reimbursement for the medical and dental care of their members, retired members and dependents receiving inpatient care in facilities of another uniformed service. Reimbursement shall be made between departments (Army, Navy, Air Force, and United States Public Health Service) for inpatient care furnished by one service for members, retired members, and dependents of another service at rates to be prescribed by the Bureau of the Budget to reflect the average cost of providing such care. Any amounts received through reimbursements or through local collection for subsistence and/or medical care in facilities of the uniformed services shall be deposited to the credit of the appropriation(s) supporting the operation and maintenance of the service medical facility furnishing care.

§ 70.10 Implementation.

Joint implementation in accordance with this part, covering care of dependents, shall be accomplished as appropriate by the uniformed services.

§ 70.11 Effective date.

This part is effective for planning purposes immediately and for implementation on 7 December 1956.

PART 74—APPOINTMENT OF DOCTORS OF OSTEOPATHY AS MEDICAL OFFICERS

Sec.
74.1 Purpose.
74.2 Policy.

AUTHORITY: §§ 74.1 and 74.2 issued under 10 U.S.C. 3294, 5574, 8294.

§ 74.1 Purpose.

The purpose of this part is to implement the provisions of Public Law 763, 84th Congress (70 Stat. 608), relating to the appointment of doctors of osteopathy as medical officers.

§ 74.2 Policy.

In the interest of obtaining maximum uniformity, the following criteria are established for the appointment of doctors of osteopathy as medical officers:

(a) To be eligible for appointment as Medical Corps officers in the Army and Navy or designated as medical officers in the Air Force, a doctor of osteopathy must:

(1) Be a citizen of the United States;

(2) Be a graduate of a college of osteopathy whose graduates are eligible for licensure to practice medicine or surgery in a majority of the States, and be licensed to practice medicine, surgery, or osteopathy in one of the States or Territories of the United States or in the District of Columbia;

(3) Possess such qualifications as the Secretary concerned may prescribe for his service, after considering the recommendations for such appointment by the Surgeon General of the Army or the Air Force or the Chief of the Bureau of Medicine and Surgery of the Navy;

(4) Have completed a minimum of (3) years college work prior to entrance into a college of osteopathy;

(5) Have completed a four-year course with a degree of Doctor of Osteopathy from a school of osteopathy approved by the American Osteopathic Association; and

(6) Have had subsequent to graduation from an approved school of osteopathy 12 months or more of intern or residency training approved by the American Osteopathic Association.

PART 77—MORTGAGE INSURANCE FOR SERVICEMEN TO AID IN CONSTRUCTION OR PURCHASE OF HOMES

Sec.
77.1 Purpose.
77.2 Definitions.
77.3 Policy.
77.4 Forms.

AUTHORITY: §§ 77.1 to 77.4 issued under sec. 222, 68 Stat. 603; 12 U.S.C. 1715m.

§ 77.1 Purpose.

This part sets forth policy guidance to the military departments in implementation of section 124, 68 Stat. 590; to provide for the delegation of authority conferred upon the Secretary of Defense by said law to issue certificates of eligibility and to prescribe other necessary instructions.

§ 77.2 Definitions.

The following definitions are applicable:

(a) "Serviceman" means a person to whom the Secretary of Defense or his designee has issued a certificate of eligibility indicating that such person is serving on active duty in the Armed Forces of the United States and has so served for a period of more than two years and requires housing. A person ordered to active duty for training purposes only is not an eligible serviceman.

(b) "Period of ownership by serviceman" as defined by the FHA means that period of eligibility during which the military service concerned is required to pay the mortgage insurance premiums to the Federal Housing Administration. For purposes of administration by the Department of Defense this period shall commence with the date the FHA endorses a loan for mortgage insurance hereunder and shall terminate when the Secretary of Defense or his designee furnishes the Commissioner of the FHA with certification that the service concerned will no longer be liable for the mortgage insurance premiums by reason of the death, discharge or separation from active duty (except when reenlisted the next day), termination of ownership of the property covered by such loan or other termination of eligibility by the serviceman, or at the request of the serviceman.

(c) "Housing" as used herein means a dwelling unit designed for a one family residence for occupancy by the serviceman as his home.

(d) "FHA" as used herein means the Federal Housing Administration.

§ 77.3 Policy.

(a) It is the policy of the Department of Defense that the servicemen's home loan provisions of 68 Stat. 590 shall be made available to members of the armed forces eligible therefor.

(b) The respective military services will issue a certificate of eligibility to any member of the armed forces currently serving on active duty who has served for more than two years, and who certifies that he requires housing. No certificate may be issued to an individual called to active duty for training purposes only. A further certificate may be issued when the period of ownership has terminated, a serviceman surrenders an expired certificate of eligibility or when he certifies an unused or expired certificate has been lost or destroyed.

(c) Where mortgage insurance premiums are currently being paid by a military service on a serviceman's loan, an additional certificate will not be issued.

(d) If a serviceman has acquired a loan under the terms of this part, he may be issued, subject to paragraph (c) of this section, an additional certificate of eligibility only in those instances where, as a result of military orders or situations of an emergent nature, the denial of such certificate would cause hardship or an inequity to the serviceman as determined by the Secretary of the military department concerned.

(e) Payments for all mortgage insurance premiums on loans will be made by a designated activity of the military departments following receipt of vouchers forwarded directly to it by the Federal Housing Administration.

(f) The purchase of property by a serviceman receiving a certificate of eligibility under this part will be governed by applicable FHA regulations.

(g) The authority vested in the Secretary of Defense under section 124, 68 Stat. 590 to issue certificates of eligibility and termination of eligibility is hereby delegated to the Secretaries of the Army, Navy and Air Force for their respective departments and to Commanders of echelons within each of the services where personnel records are maintained.

§ 77.4 Forms.

(a) DD Form 802,[1] Request for and Certificate of Eligibility, will be used to make a request for Certificate of Eligibility, Certification by the Military Service and recording of the FHA action as to indorsement or rejection.

(b) DD Form 803, Certificate of Termination, will be used by the military services for the purpose of notifying FHA of termination of ownership.

[1] This form has been filed with the Federal Register Division. Copies are available through administrative channels of each of the military services.

PART 85—ADVANCE PAY FOR MILITARY PERSONNEL

Sec.
85.1 Purpose.
85.2 Policy.

AUTHORITY: §§ 85.1 and 85.2 issued under Act of October 5, 1949, ch. 600, 63 Stat. 703–704; 37 U.S.C. 310c, 310d.

§ 85.1 Purpose.

The purpose of this part is to provide for uniform implementation of 63 Stat. 703–704; 37 U.S.C. 310c, 310d within the Department of Defense. That law permits payment of up to three months' advance pay upon permanent change of station when needed to furnish temporary relief from extraordinary expenses incident to the move. It also permits payment of advance pay and allowances under those circumstances where pay and allowances cannot be disbursed regularly.

§ 85.2 Policy.

(a) Advance pay for permanent change of station:

(1) *Personnel eligible.* Upon permanent change of station if such change is not incident to separation from the service or trial by court-martial, commissioned and warrant officers and enlisted personnel may be paid, under existing law, an advance of pay, not to exceed three months' basic pay (less income tax withholdings, Soldiers Home and FICA tax deduction and scheduled liquidation of an indebtedness, including any unliquidated amount resulting from an advance made on a different set of permanent change of station orders. All known indebtedness that has not been scheduled for collection will be scheduled or taken into account prior to effecting an advance of pay.)

(i) Normally the amount of an advance shall be limited to one month's basic pay less the deductions set forth in this subparagraph.

(ii) All advances of pay to enlisted members shall be approved by the Commanding Officer, and this approval shall be indicated on the pay order. The pay order will also include a certificate stating that the enlisted member will have at least enough time left to serve on his current enlistment to completely repay the advance (i.e., if six months are allowed for repayment, the certificate will state that the enlisted member has at least six months to serve on his current enlistment beginning with the first of the month following the month in which the advance is made). Advances of pay should not be made to officers where it is apparent that the officer's tour of duty (obligated service) will terminate prior to completion of the scheduled repayment of the advance. Commanding Officer's approval is not required on advances of pay to commissioned or warrant officers

(2) *Temporary duty.* The fact that there may be temporary duty enroute to permanent change of station will not preclude the payment of an advance of pay if the person is otherwise eligible.

(3) *Time of payment.* The advance of pay may be made at any time after receipt of orders involving a permanent change of station, but may not be made later than thirty days after reporting to the new duty station. It may be made in one, two or three installments, and is in addition to any amount otherwise due on the day the advance is made.

(4) *Liquidation of advance.* (i) Normally the amount of each advance of pay shall be fully liquidated within a period of six months (starting on the first of the month following the month in which the advance was made). Liquidation of the second or third installment, if any, will start on the first of the month following the month in which the installment is received.

(ii) In certain exceptional cases, such as assignments to MAAG or Military Mission duty in foreign countries, which involve unusually large expenditures of funds, the Secretary of the Department concerned or his designated representative, may authorize liquidation of the advance in pay over a period of not to exceed 12 months. Such cases must be fully justified by compelling reasons of hardship which would be caused if the repayment period were shorter.

(iii) An advance of pay will not be made in an amount which will require the stoppage of insurance allotments or class Q allotments. No allotment, other than a class Q allotment, will be established after the advance is made if it will prevent liquidation within the allowed period.

(iv) In the event a member is to be separated from the service prior to the expiration of the liquidation period, the liquidation of the advance will be accelerated by stopping payment of all allotments (except class Q allotments) to the extent necessary to liquidate the advance. However, class Q allotments shall be modified to the extent necessary, but not to an amount less than the basic allowance for quarters, to permit liquidation of the advance prior to discharge.

(b) Advance pay and allowances for duty at a distant station:

(1) *Personnel eligible.* Any member of the Armed Services, when ordered to duty at a distant station where pay and allowances cannot be disbursed regularly, may be paid an advance of basic pay and allowances normally not to exceed three months' basic pay and allowances (less income tax withholdings, Soldiers Home and FICA tax deductions, scheduled liquidation of indebtedness to the Government, and the total of all allotments in force.)

(2) *Procedure.* (i) Requests for such advance payments of pay and allowances for both officers and enlisted members shall be approved by the Commanding Officer. The Commanding Officer will take into consideration the lack of regularity of disbursements, and will approve only such payments as may be necessary to alleviate hardship caused by lack of regular disbursements.

(ii) Requests for authority to make payments in excess of three months' basic pay and allowances for duty at distant stations will be submitted by the Commanding Officer to the officer designated in the regulations of the Service concerned for approval.

(3) *Liquidation of advance pay and allowances.* The amount of pay and allowances advanced to members under the provisions of this paragraph shall be liquidated in full before any subsequent payment is made. (However, as an exception, liquidation on installment in accordance with an approved schedule is authorized when the distant duty is terminated earlier than anticipated, and the Secretary of the Department concerned, or his authorized representative, determines that installment liquidation is justified to prevent hardship. The approved schedule will take into consideration the end of enlistment or separation date of the member concerned.)

(c) Recording payment and liquidation of advances: Payments and liquidation of advances of pay or pay and allowances shall be recorded in members' pay accounts in accordance with the procedures prescribed by the Service concerned.

(d) Death or separation: In the event the member dies or is separated from the service before expiration of the allowed liquidation period, any unpaid pay and allowances which the member may have been entitled to on the date of death or separation will be used in the liquidation of the advance.

(e) A member will not be entitled to both an advance of pay for permanent change of station and an advance of pay and allowances for duty at a distant station when both advances are based on the same set of orders.

PART 87—DROPPING RETIRED MILITARY PERSONNEL FROM THE ROLLS OF THE ARMED FORCES

Sec.
87.1 Purpose.
87.2 Scope.
87.3 Policy.
87.4 Action.

AUTHORITY: §§ 87.1 to 87.4 issued under sec. 161, R.S., 5 U.S.C. 22; sec. 8, 68 Stat. 1145, 5 U.S.C. 2287. Interpret or apply secs. 1161(b), 1163(b), 6408(b) of 10 U.S.C.

§ 87.1 Purpose.

To prescribe a uniform policy governing the dropping from the rolls of the armed forces of members who are entitled to receive retired pay and who have been convicted by civil authorities.

§ 87.2 Scope.

This part applies only to members of the armed forces who are not on active duty and who are entitled to receive retired pay.

§ 87.3 Policy.

In view of the Act of August 25, 1958, Public Law 85–754 (72 Stat. 847; 10 U.S.C. 1161, note), by which Congress restored the retired pay of certain members who were dropped from the rolls of the armed forces for conviction by civil authorities, it is the policy of the Department of Defense that members of the armed forces who are entitled to receive retired pay may be dropped from the rolls of the armed forces for conviction by civil authorities only under section 8 of the Act of September 1, 1954, ch. 1214 (68 Stat. 1142; 5 U.S.C. 2281–2288); that is, when they are deprived of retired pay under that Act. This is in furtherance of the Department of Defense view that retired pay is earned and should be withheld only under extremely limited circumstances. In carrying out this policy, members shall be treated uniformly under substantially identical circumstances, regardless of their components.

§ 87.4 Action.

Recommendations for dropping members from the rolls of the armed forces in accordance with this Part shall be forwarded to the Secretary of Defense for transmission to the President in accordance with Department of Defense Instruction 1320.4, "Military Officer Actions Requiring Presidential or Congressional Approval".

PART 88—RECOUPMENT OF REENLISTMENT BONUS (MILITARY)

Sec.
88.1 Purpose
88.2 Policy.

AUTHORITY: §§ 88.1 and 88.2 issued under Pub. Law 217, 82d Congress (37 U.S.C. 238); Pub. Law 506, 83d Congress (37 U.S.C. 239)

§ 88.1 Purpose.

The purpose of this part is to furnish policy guidance to the Military Departments for conforming to the provisions of Public Law 217, 82d Congress, approved October 26, 1951, and Public Law 506, 83d Congress, approved July 16, 1954, as they relate to the recovery by the Government of portions of reenlistment bonuses in cases where the individual does not complete the term of enlistment for which the bonus was paid.

§ 88.2 Policy.

For the purpose of complying with the provisions of Public Law 217, 82d Congress and Public Law 506, 83d Congress, the following is submitted for guidance: (a) No individual shall be retained in the service beyond the date he would otherwise be discharged solely for the purpose of recoupment of reenlistment bonus, and (b) in applying the term "who voluntarily or as a result of his own misconduct" a pro rata portion of the reenlistment bonus shall be, upon the determination of the Secretary concerned, recovered for:

(1) *Separation by reason of transfer to the Fleet Reserve, Fleet Marine Corps Reserve, or Army or Air Force Reserve.* This item deals with only those cases where an individual is transferred to the Fleet Reserve, Fleet Marine Corps Reserve, or to the Army or Air Force Reserve and placed on the retired list of the Regular Army or Air Force. In the case of personnel so retired or transferred and retained on continuous active duty, such active duty shall be considered as a part of the enlistment being served in at the time of transfer and shall not be used in computing the pro rata share of the reenlistment bonus to be recouped. Retirement by reason of disability is not included under this section.

(2) *Separation for the purpose of reenlistment.* This entry concerns the following:

(i) Individuals granted discharges for the purpose of reenlistment for an unspecified period, and

(ii) Individuals granted discharges for the purpose of reenlistment for a specific reason, i.e., to attend a service school, to complete a tour of duty or for filling own vacancy.

(3) *Separation by reason of marriage.* This item concerns those enlisted women given discharges by reason of marriage.

(4) *Separation by reason of resignation.* This item concerns those individuals who are discharged by reason of acceptance of their resignations.

(5) *Separation as a result of Writ of Habeas Corpus.* This entry concerns those individuals who are discharged from the service as a result of their application, or an application submitted in their behalf, to the civil courts for a Writ of Habeas Corpus.

(6) *Separation by reason of reduction to permanent grade.* This entry concerns those individuals who are erroneously reenlisted in a higher temporary grade rather than in their permanent grade, and who elect discharge, or transfer to a reserve component if required by law, after being reduced to the lower grade and subsequently promoted to a temporary grade.

(7) *Separation by reason of disability resulting from misconduct, wilful neglect, or incurred during a period of unauthorized absence.* Included herein are those individuals discharged for disability as a result of the individual's intentional misconduct or wilful negligence or incurred during a period of unauthorized absence.

(8) *Separation by reason of a sentence of a court-martial.* This entry concerns those individuals discharged as a result of the approved sentences of courts-martial.

(9) *Separation by reason of unfitness or misconduct.* This provision concerns those individuals who are discharged administratively by reason of unfitness or misconduct as defined in section VII, Paragraphs I. and J. of DoD Directive 1332.14 (24 F.R. 1707, Part 41 of this Subchapter).

(10) *Separation by reason of disloyalty or subversive activities.* This provision concerns those individuals who are discharged administratively for disloyalty or subversive activities of the types set forth in section VIII, Para-

graphs C., 2 a through i, of DoD Directive 5210.9, "Military Personnel Security Program".

(11) *Separation directed by the Secretary of the Service concerned in individual cases.* This entry concerns those individuals whose discharge, or transfer to a reserve component, if required by law, is directed for the convenience of the Government by authority of the Secretary of the Service concerned, upon the application and in the interest of the individual, because of special or unusual circumstances, including discharges on account of erroneous enlistment for various reasons; to permit attendance at a civilian school; to permit enlistment in another service; and to permit enlistment of aliens in the armed forces of their native country.

PART 90—NATURALIZATION OF ALIEN SPOUSES AND/OR ALIEN ADOPTED CHILDREN OF MILITARY AND CIVILIAN PERSONNEL ORDERED OVERSEAS

Sec.
90.1 Purpose.
90.2 Applicability.
90.3 Policy.
90.4 Procedure.

AUTHORITY: §§ 90.2 to 90.4 issued under R.S. 161; 5 U.S.C. 22.

§ 90.1 Purpose.

The purpose of this part is to establish uniform procedure, acceptable to the Immigration and Naturalization Service of the Department of Justice, for military certification of alien dependents seeking naturalization under the Immigration and Nationality Act of 1952, sections 319(b), 320, 321, 323 (a), (b) and (c) (8 U.S.C. 1430(b), 1431, 1432, 1434).

§ 90.2 Applicability.

The provisions of this part are applicable to alien spouses and/or alien adopted children of military and civilian personnel of the Department of Defense who are authorized to accompany or join their sponsors overseas and who wish to obtain United States citizenship prior to departure.

§ 90.3 Policy.

(a) It is the policy of the Department of Defense that maximum assistance will be given by military installation commanders to alien dependents of personnel ordered overseas, to expedite their naturalization in order to accompany or join their sponsors when authorized to do so by regulation and approval of the oversea commander.

(b) It is further the policy of the Department of Defense that the certification as to dependents' authority to accompany or join their sponsors abroad, essential to the naturalization proceedings under the statutes cited in § 90.1, will be uniform for all Services and will be issued only at the times and in the manner described herein.

§ 90.4 Procedure.

The following procedure has been developed in conjunction with the Immigration and Naturalization Service, Department of Justice, to effect the timely and orderly processing of alien dependents eligible for naturalization under the statutes cited in § 90.1. Deviation from prescribed procedure, use of non-standard forms of certification, or failure to submit required documentation may result in delay in the attainment of citizenship prerequisite to the issuance of passport, which will in turn delay the dependents' overseas movement.

(a) Application for petition for naturalization will be made by the alien dependent on Immigration and Naturalization Form N–400 (adult) or N–402 (child), as applicable. These forms may be obtained from any office of the Immigration and Naturalization Service, or from any court having naturalization jurisdiction. The application may be filed when it is definitely established that the sponsor is being assigned overseas, or may be deferred until date of scheduled departure of the dependent is certified by the appropriate military commander (see paragraph (b) of this section).

(1) Application for petition for naturalization will be submitted to the nearest Immigration and Naturalization Service office and must be accompanied by:

(i) Three identical photographs.

(ii) Form FD 258, Fingerprint Card, bearing fingerprints of the applicant.

(2) No further action in naturalization proceedings can be taken until certification of the dependents' scheduled departure for overseas is made by the appropriate military commander.

(b) Certification of Dependents' authorization to Proceed Overseas: DD Form 1278,[1] "Certificate of Oversea Assignment to Support Application to File Petition for Naturalization", will be issued to alien dependents by military commanders at the times indicated below in order that the alien may file such certificate with the nearest Immigration and Naturalization Service office to initiate naturalization proceedings. Only DD Form 1278 will be accepted by the Immigration and Naturalization Service and military commanders will not issue memoranda or letters of any kind in lieu thereof.

(1) When dependents are authorized automatic concurrent travel, DD Form 1278 will be issued not earlier than 90 days prior to the scheduled date of travel of the individual.

[1] Filed as part of the original document.

(2) When advance application for concurrent travel is required, DD Form 1278 will be issued after approval is received and not earlier than 90 days prior to the scheduled date of departure of the individual.

(3) When concurrent travel is not authorized, DD Form 1278 will be issued after authorization for dependents' movement is received, and not earlier than 60 days prior to scheduled date of dependents' travel.

(c) Filing with Immigration and Naturalization Service: Upon receipt of DD Form 1278, the alien will file this form, together with the application for petition for naturalization, if not previously filed, with the nearest office of the Immigration and Naturalization Service. Further processing of the application for citizenship is as prescribed by the Immigration and Naturalization Service. Upon completion of the naturalization process, immediate application for passport should be made, in order that it can be issued prior to scheduled departure of the dependent for overseas.

PART 95—EXEMPTION OF CERTAIN PERSONNEL FROM OPERATION OF SECTIONS 281, 283, 284, 434 AND 1914 OF TITLE 18, UNITED STATES CODE

§ 95.1 Exemption of certain personnel from operation of sections 281, 283, 284, 434, and 1914 of Title 18, United States Code, and section 190 of the Revised Statutes.

Any person employed under the authority of section 704 of the Second Supplemental Appropriation Act, 1951, Public Law 911, 81st Congress, is hereby exempted, with respect to such employment, from the operation of sections 281, 283, 284, 434 and 1914 of Title 18 of the United States Code, and section 190 of the Revised Statutes (5 U.S.C. 99), except as specified in the following paragraphs:

(a) Exemption hereunder shall not extend to the negotiation or execution, by an appointee under section 704, aforesaid, of Government contracts with the private employer of such appointee or with any corporation, joint stock company, association, firm, partnership or other entity in the pecuniary profits or contracts of which the appointee has any direct or indirect interest.

(b) Exemption hereunder shall not extend to making any recommendation or taking any action with respect to individual applications to the Government for relief or assistance, on appeal or otherwise, made by the private employer of the appointee or by any corporation, joint stock company, association, firm, partnership, or other entity in the pecuniary profits or contracts of which the appointee has any direct or indirect interest.

(c) Exemption hereunder shall not extend to the prosecution by the appointee, or participation by the appointee in any fashion in the prosecution, of any claims against the Government involving any matter concerning which the appointee had any responsibility during his employment under section 704, aforesaid, during the period of such employment and the further period of two years after the termination of such employment.

(d) Exemption hereunder shall not extend to the receipt or payment of salary in connection with the appointee's Government service under section 704 from any source other than the private employer of the appointee at the time of his appointment under section 704, aforesaid.

(e) Exemption from section 434 of Title 18, United States Code, shall not extend to persons appointed as experts or consultants under section 704 aforesaid.

(Sec. 704, 64 Stat. 1236; 5 U.S.C. 171v)

PART 101—PARTICIPATION IN RESERVE TRAINING PROGRAMS

Sec.
101.1 Purpose.
101.2 Applicability.
101.3 Reserve participation.
101.4 Compliance measure.
101.5 Cancellation of draft deferment.
101.6 Revocation of commission.

AUTHORITY: §§ 101.1 to 101.6 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply secs. 4, 6, 16, 62 Stat. 605, as amended, 609, as amended, 624, as amended, sec. 207, 72 Stat. 1428; 50 U.S.C. App. 454, 456, 466, 10 U.S.C. 270.

§ 101.1 Purpose.

The purpose of this part is to:

(a) Prescribe regulations providing specific exceptions to training requirements established by sec. 270 of 72 Stat. 1438, 10 U.S.C. 270.

(b) Prescribe regulations governing determination by the Secretaries of the military departments of:

(1) Failure to perform training duty satisfactorily, in connection with employment of the 45-day compliance measure under sec. 270 of 72 Stat. 1438, 10 U.S.C. 270.

(2) Satisfactory service required for deferment from induction for active training and service, under provisions of paragraph (2), subsection 4 (c) of 62 Stat. 606, 50 U. S. C. App. 454, of individuals who were reserve component members on June 25, 1950, and whose applications for two years of active duty have been denied.

(3) Satisfactory participation required for exemption from induction for active training and service, under provisions of paragraph (1) of subsection 6 (c) of 62 Stat. 610, 50 U. S. C. App. 456, of individuals who were members of organized units of the Reserve Forces on February 1, 1951.

(4) Satisfactory service required for deferment from induction for active training and service, under provisions of clause (C), paragraph (2), subsection 6 (c) of 62 Stat. 610, as amended, 50 U. S. C. App. 456, of individuals who enlist in organized units of the Reserve prior to attaining age 18½ years.

(5) Satisfactory performance of service for deferment from induction for active training and service, under provisions for paragraph (1), subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, of graduates of ROTC or other officers' training programs who have undergone six months of active duty for training.

(6) Failure to perform satisfactory service, in connection with revocation of commissions of graduates of ROTC or other officers' training programs who have undergone six months of active duty for training, under provisions of paragraph (1), subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456.

(7) Satisfactory participation with respect to the identification of an "organized unit" as defined in subsection 16 (h) of 62 Stat. 625, 50 U. S. C. App. 466.

(c) Provide guidance to the Secretaries of the military departments in their determination of:

(1) Satisfactory service for deferment from induction for active training and service, under provisions of section 262 of 69 Stat. 600, 50 U. S. C. 1013, of individuals who enlist for eight years in the Reserve.

(2) Satisfactory service for deferment from induction for active training and service, under provisions of paragraph (2) of subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, of individuals enlisted in the Reserve who thereafter are commissioned upon graduation from an Officers' Candidate School.

(3) Failure to perform satisfactory service, in connection with the revocation of commissions of Officers' Candidate School graduates, under provisions of paragraph (2) of subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456.

(d) Standardize procedures for the employment of compliance measures.

§ 101.2 Applicability.

The provisions of this part are applicable to all military departments in their implementation of the provisions of law cited in § 101.1.

§ 101.3 Reserve participation.

(a) Each individual inducted, enlisted or appointed in any armed force of the United States on and after August 10, 1955, who becomes a member of the Ready Reserve, other than by virtue of becoming a member of the National Guard of the United States or the Air National Guard of the United States, is required by sec. 270 of 72 Stat. 1438, 10 U.S.C. 270, during his statutory period in the Ready Reserve, to participate in "not less than 48 scheduled drills or training periods * * * and not more than 17 days of active duty for training during each year, or * * * annually not more than 30 days of active duty for training," except as specifically provided by regulations prescribed by the Secretary of Defense. Failure to perform such training duty satisfactorily in any year renders such an individual liable to be ordered without his consent to perform additional active duty for training for not more than 45 days. For the purpose of administering section 270 of 72 Stat. 1438, 10 U.S.C. 270, the terms "enlisted" or "appointed" refer to initial entry into an armed force through enlistment or appointment.

(b) Within the general policy that the number of drills and amount of annual training prescribed will be the minimum required to maintain the proficiency of the unit and the skill of the individual, the following exceptions are authorized for individuals subject to the training requirements of section 270 of 72 Stat. 1438, 10 U.S.C. 270:

(1) An individual who has performed active training and service may be placed in Training Category G (no training), as defined in DoD Directive 1215.6, subject: Uniform Training Categories and Pay Groups Within the Reserve Forces, dated 5 March 1956, when the Secretary of the military department concerned determines that, because of the mobilization requirements of the service concerned, the degree of skill acquired by the individual, or the civilian occupation of the individual, no training requirement exists.

(2) An individual in any training category other than Category G, as defined in Department of Defense Directive No. 1215.6, subject: Uniform Training Categories and Pay Groups Within the Reserve Forces, dated March 5, 1956, by reason of assignment to a unit, need not be required to participate in training additional to that prescribed for such training category. In assigning an individual to a particular training category, consideration may be given to personal circumstances to the degree that it is consistent with military requirements.

(3) An individual while participating in any officers' training program under provisions of paragraphs (1) and (2) of subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, will not be required to participate in training additional to such officers' training program.

(4) Commissioned officer students of medicine or dentistry and practicing physicians or dentists may be permitted to participate to whatever lesser extent is considered by the military department concerned to be necessary to maintain military proficiency.

(c) Criteria established by the Secretaries of the military departments for determining satisfactory performance of training duty by individuals subject to the provisions of section 270 of 72 Stat. 1438, 10 U.S.C. 270, may include consideration of manner of performance of such training duty, but may not permit more than 10 per cent unexcused absence from scheduled drills or training periods. Failure to attend scheduled drills or training periods or annual active duty for training as the result of sickness, injury or emergency or other circumstances beyond the control of the individual, may be excused. For individuals subject to revocation of commission under provisions of paragraph (1), subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, criteria for performance of satisfactory service shall be the same as that prescribed above for those subject to provisions of section 270 of 72 Stat. 1438, 10 U.S.C. 270. In the interest of uniformity, the same criteria should apply to individuals subject to revocation of commission under paragraph (2), subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456.

(d) Individuals exempt under provisions of paragraph (1), subsection 6 (c) of 62 Stat. 610, 50 U. S. C. App. 456, may continue to be so exempt by participation in the training program of an organized unit, as defined in subsection 16 (h) of 62 Stat. 625, 50 U. S. C. App. 466, in Training Categories A, B, C, or E, as defined in Department of Defense Directive 1215.6, subject: Uniform Training Categories and Pay Groups Within the Reserve Forces, dated March 5, 1956 in the degree of participation stated in paragraph (c) of this section.

(e) Individuals in order to continue in a draft-deferred status under the provisions of paragraph (2), subsection 4 (c) and paragraph (1), subsection 6 (d) of 62 Stat. 606, 611, 50 U. S. C. App. 454, 456, shall be required to meet the standards of satisfactory performance of training duty set forth in paragraph (c) of this section, or, as appropriate, participate satisfactorily in an officers' training program as provided in paragraph (b) (3) of this section. However, membership of such individuals in the Standby Reserve as a result of the screening process prescribed in Part 53 of this subchapter will constitute satisfactory performance of service for continued deferment. In the interest of uniformity, standards for continued deferment under section 262 of 69 Stat. 600, 50 U. S. C. 1013, and paragraph (2) subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, should be the same as those prescribed in this paragraph.

(f) Individuals in order to continue in a draft-deferred status under provisions of clause (C), paragraph (2), subsection 6 (c) of 62 Stat. 610, as amended, 50 U. S. C. App. 456, shall be required to meet the standards of satisfactory performance of training duty set forth in paragraph (c) of this section, or participate satisfactorily in an officers' training program as provided in paragraph (b) (3) of this section.

§ 101.4 Compliance measure.

Individuals subject to the participation requirements of section 270 of 72 Stat. 1438, 10 U.S.C. 270, except those enlisted in the Reserve under provisions of clause (C), paragraph (2), subsection 6 (c) of 62 Stat. 610, as amended, 50 U. S. C. App. 456, may for failure to perform training duty satisfactorily as defined above, be ordered to active duty for training for not more than 45 days. A member who fails to comply with orders to perform such active duty for training becomes liable to disciplinary action under the Uniform Code of Military Justice.

§ 101.5 Cancellation of draft deferment.

(a) Except for an individual enlisted under the provisions of clause (C), paragraph (2), of subsection 6(c) of 62 Stat. 610, as amended, 50 U.S.C. App. 456, no individual enlisted in the Reserve in a draft-deferred status should be certified to the Selective Service System for induction for two years active training and service unless application of the 45-day compliance measure has failed to induce satisfactory performance of training duty. No such individual will be so certified, however, until he has registered with Selective Service.

(b) The following individuals shall be reported to the local Selective Service Board for induction:

(1) Subject to considerations set forth in paragraph (a) of this section, persons enlisted in the Reserve under provisions of clause (C), paragraph (2), subsection 6 (c), of 62 Stat. 610, as amended, 50 U. S. C. App. 456, and section 262 of 69 Stat. 600, 50 U. S. C. 1013, who fail to serve satisfactorily.

(2) Individuals, who have been appointed as Reserve officers under subsection 6 (d) of 62 Stat. 611, 50 U. S. C. App. 456, and have not been required to perform active training and service, who fail to perform satisfactory service.

§ 101.6 Revocation of commission.

Revocation of commission under the provisions of subsection 6(d) of 62 Stat. 611, 50 U.S.C. App. 456, will be effected only after the individual concerned has been certified to Selective Service as provided in § 101.5(b)(2).

PART 105—RESERVE OFFICERS' TRAINING CORPS AND RELATED OFFICERS' TRAINING PROGRAMS

Sec.
105.1 Purpose.
105.2 Applicability.
105.3 General.
105.4 Commissioning of graduates.
105.5 Assignment of graduates.
105.6 Participation in Reserve training programs.

AUTHORITY: §§ 105.1 to 105.6 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 6, 62 Stat. 609, as amended; secs. 591, 593, 70A Stat. 24, 25; 50 U. S. C. App. 456, 10 U. S. C. 591, 593.

§ 105.1 Purpose.

The purpose of this part is to prescribe policies relating to the subject programs with respect to:

(a) Physical examination of enrollees.
(b) Commissioning of graduates.
(c) Assignment of graduates.

§ 105.2 Applicability.

This part applies to all military departments in the operation and administration of officers' training and procurement programs, within the purview of subsection 6(d)(1) of 62 Stat. 611, 50 U.S.C. App. 456.

§ 105.3 General.

(a) To reduce to an absolute minimum the loss at graduation of persons found physically disqualified for appointment as commissioned officers, thorough and complete physical examinations will be conducted at the time of, or immediately prior to:

(1) Enrollment in the Advanced Courses of Army and Air Force Reserve Officers' Training Corps programs. In addition, the military departments are urged to conduct physical examinations of enrollees in the Basic Courses of Army and Air Force Reserve Officers' Training Corps programs where entrants therein evidence an intention to pursue the Senior Division curricula to completion.

(2) Initial enrollment in all other applicable officers' training and procurement programs.

Such examinations will, in all respects, be equal to the examinations conducted to determine physical qualifications for appointment as commissioned officers. The physical standards applicable at the time of enrollment shall obtain at the time of graduation.

(b) Enrollees who acquire exemption or deferment from induction by virtue of their enrollment in subject programs shall be required to execute agreements as provided in subsection 6 (d) (1) of 62 Stat. 611, 50 U. S. C. App. 456. Enrollees other than those described above may be required to execute such agreements as may be prescribed by the Secretary of the military department concerned.

§ 105.4 Commissioning of graduates.

Upon the successful completion of the required course of instruction, a graduate of a program referred to in this part shall, if otherwise qualified, be appointed a Regular or Reserve Officer in the appropriate Armed Force. Such appointments shall be for an indefinite term.

§ 105.5 Assignment of graduates.

(a) Subject programs shall be operated with the greatest possible stability to produce officers to meet the approved mobilization requirements of the military departments.

(b) A graduate who has executed an agreement pursuant to § 105.3(b) shall:

(1) If his services are required at the time of his appointment, serve on active duty with the Armed Force in which appointed under the terms of his agreement.

(2) If not needed on active duty at the time of his appointment, be ordered to active duty for training for a period of six months with the Armed Force in which appointed.

(c) Graduates shall be called to active duty or active duty for training as soon as possible within a twelve-month period following their appointment as commissioned officers in accordance with the ability of the military departments to absorb them into units and training programs of the appropriate military services. Schedules for the calling of such graduates to active duty or active duty for training shall be prepared, and each graduate shall be advised at the time of his graduation as to the approximate date he will be required to report for such duty. During the period between appointment and the date of reporting for active duty or active duty for training, graduates shall be given appropriate Ready Reserve assignments.

(d) Graduates who have fulfilled their active military training and service obligation, or who have enlisted Reserve status and have performed six months active duty for training under the provisions of section 262, 69 Stat. 600, 50 U. S. C. 1013, or subsection 672 (d), 70A Stat. 28, 10 U. S. C. 672 (d), following their appointment as commissioned officers and in accordance with Service requirements, may:

(1) Be ordered to active duty or active duty for training per paragraph (c) of this section, pursuant to the terms of any agreements they have have entered into with the military departments concerned, or

(2) Be given appropriate Reserve assignments.

(e) Selection among graduates for assignment to active duty or active duty for training shall be made impartially by the Secretary of the military department concerned in accordance with the requirements of the respective military services. Maximum consideration shall be given to the preference of each individual. However, if it becomes necessary to select graduates for active duty from among those who preferred active duty for training, those with major academic specialties appearing below may be selected for active duty only if specific assignments utilizing such specialties exist, or if total active duty requirements cannot otherwise be met. The major academic specialties for which the special procedures described above are applicable are:

Chemistry.
Engineering (all branches).
Geology.
Geophysics.
Mathematics.
Microbiology.
Parasitology.
Pharmacology.
Physics.
Physiology (Medical).

(f) A graduate may be delayed from being ordered to active duty or active duty for training under regulations promulgated by the appropriate Secretary if he is the recipient of a scholarship, has been accepted by a recognized institution of higher education for graduate studies, would suffer undue personal hardship, or is otherwise precluded from reporting as ordered for cogent and acceptable reasons. If delayed, he shall remain subject to the assignment criteria prescribed above and shall be assigned to active duty or active duty for training, as appropriate, at such time as the cause of his delay ceases to exist.

§ 105.6 Participation in Reserve training programs.

Regulations governing participation in Reserve training programs and employment of compliance measures are prescribed in Part 101 of this subchapter.

PART 110—MILITARY COLLEGES IN THE RESERVE OFFICERS' TRAINING CORPS PROGRAMS; SUBSISTENCE AND UNIFORM COMMUTATION RATES FOR ENROLLED MEMBERS OF THE ROTC

Sec.
110.1 Purpose.
110.2 Applicability.
110.3 Policy.
110.4 Commutation rates.
110.5 Inspection.

AUTHORITY: §§ 110.1 to 110.5 issued under 10 U.S.C. 4386, 4387, 6901, 9386, 9387.

§ 110.1 Purpose.

The purpose of this part is to: (a) Define the classification of ROTC institutions; and (b) establish uniform rates for commutation in lieu of subsistence and uniforms for enrolled members of the Reserve Officers' Training Corps under the appropriate provisions of law (10 U.S.C. 4386, 4387, 6901, 9386, and 9387).

§ 110.2 Applicability.

The provisions of this part are applicable to the enrolled members of the Reserve Officers' Training Corps programs of all the military departments.

§ 110.3 Policy.

(a) *Classification of ROTC Units.* Senior division, military schools division, and junior division units are classified according to the type of institutions at which such units are established.

(1) *Senior Division.* The senior division units are classified as follows:

(i) *Class MC* (Military Colleges). For the purpose of qualifying as a military college within the meaning of subsection 6(a), Universal Military Training and Service Act, as amended: Units established in essentially military colleges or universities which confer baccalaureate or graduate degrees at which the average age of the students at the time of graduation is not less than 21 years; which require a course in military training throughout the undergraduate course for all qualified undergraduate students; which organize their military students as a Corps of Cadets under constantly maintained military discipline; which require all members of the Corps including those members enrolled in the ROTC to be habitually in uniform when on campus; which have as their objectives the development of the military students' character by means of military training and the regulation of their conduct in accordance with disciplinary principles; and which in general meet military standards similar to those maintained at the Service academies.

(ii) In the application of the above definition and criteria for the qualification of an institution as Class MC (Military College) the designation "all qualified undergraduate students" is defined as all physically fit male students except:

(*a*) Foreign nationals.

(*b*) Individuals who are not liable for induction by virtue of having honorably completed active training and service.

(*c*) Students who are pursuing special undergraduate courses in excess of four years after completion of the required military training.

(*d*) Certain categories of students who are specifically excused by (Board of Trustees) administrative decisions.

(iii) *Class CC.* ROTC units established at civilian colleges and universities which are not operated on an essentially military basis; which confer baccalaureate or graduate degrees; and at which the average age of the student at graduation is not less than 21 years.

(2) *Military Schools Division.* The military schools division is composed of units at designated schools which have been specifically authorized one of the following type units:

(i) *Class MJC.* Units established at essentially military schools which provide high school and junior college instruction but do not confer baccalaureate degrees. These units meet all other requirements of Class MC and accept and maintain the specially designated program of instruction prescribed by the appropriate Secretary for this class of institution.

(ii) *Class MI.* Units established at essentially military schools of secondary level of instruction which meet the military training requirements of Class MC or Class MJC and accept and maintain the specially designed program of instruction prescribed by the appropriate Secretary for this class of institution.

(3) *Junior Division.* The junior division units classified as Class HS are units established at high schools and other educational institutions of comparable academic level which do not meet the requirements prescribed by any of the preceding classes.

(b) *Qualifying for Class MC special rate of commutation.* In order to qualify for the Class MC special rate of commutation in lieu of uniforms a designated military college must meet the following requirements in addition to those contained in paragraph (a)(1)(i) of this section.

(1) Organize and maintain within their undergraduate student bodies a self-contained Corps of Cadets in which not less than 300 male students are enrolled as members at all times throughout the academic year.

(2) Require all members of the Corps of Cadets to be in appropriate uniform at all times while on the campus.

(3) House all members of the Corps of Cadets in barracks separate from nonmembers of the Corps of Cadets.

(4) Require all members of the Corps of Cadets to be under constantly maintained military discipline on a 24-hour-per-day, 7-days-a-week basis.

(5) Require all physically qualified members of the above Corps of Cadets except foreign nationals, individuals who are not liable for induction by virtue of having honorably completed active training and service, or other individuals whose enrollment is precluded by provisions of appropriate regulations of the military departments to be enrolled in the basic course of ROTC. Further, to require such members of the Corps of Cadets upon completion of the basic course to apply, and if qualified and selected, to be enrolled in the advanced course at the proper time.

(6) Only those members of the Corps of Cadets meeting the requirements set forth in subparagraphs (1), (2), (3), (4), and (5) of this paragraph, who are enrolled in the basic and advanced course of the ROTC will be entitled to the special MC rate of commutation. Institutions designated as military colleges may enroll in the ROTC of the appropriate services those students who for various reasons are not required to be members of the Corps of Cadets. These institutions will receive, for such students, only the standard commutation rate prescribed annually for students in Class CC institutions.

§ 110.4 Commutation rates.

The commutation rates established below became effective July 1, 1956:

(a) *Subsistence.* A rate of 90 cents per day is established as the rate of commutation in lieu of subsistence for enrolled members of the:

(1) Advanced course, senior division, Army and Air Force ROTC or of the MST 5 and 6 course of the military schools division, Army ROTC.

(2) Contract Naval Reserve Officers' Training Corps program during their junior and senior years.

(b) *Uniforms.* The rates of commutation in lieu of uniforms are established as follows:

(1) $7 per year for a period not to exceed 3 years for each enrolled member of the junior division or of the MST 1 and 2 course of the military schools division, Army ROTC.

(2) $25 per year for a period not to exceed 2 years for each enrolled member of the basic course, senior division at Class CC institutions, Army and Air Force ROTC, or of the MST 3 and 4 course of the military schools division, Army ROTC.

(3) $50 per year for a period not to exceed 2 years for each enrolled member of the basic course, senior division, Army and Air Force ROTC at Class MC institutions.

(4) $100 covering a 2-year period for each enrolled member of the advanced course, senior division at Class CC institutions Army and Air Force ROTC or of the MST 5 and 6 course of the military schools division, Army ROTC.

(5) $200 covering a 2-year period for each enrolled member of the advanced course, senior division, Army and Air Force ROTC at Class MC institutions.

§ 110.5 Inspection.

An inspection system will be established to insure that ROTC units meet the prescribed standards for the award or retention of the Class MC classification and the special rate of commutation in lieu of uniforms. At institutions having both Army and Air Force units, a joint inspection will be held. Membership on the inspection team will be composed of equal ranks and numbers of Army and Air Force personnel, in addition to which each service will on alternate years provide a team chief. Inspections will be held within 30 days of the opening of the fall term of school. While final on-the-spot approval authority is vested in the team, disapprovals will be subject to review and resolution or confirmation by the services. The team may advise the institutional authorities of its findings at the conclusion of the inspection. In instances of disapproval the service review and final notification of the institution will be accomplished within the next 30 days.

PART 115—ASSIGNMENT TO AND TRANSFER BETWEEN RESERVE CATEGORIES, AND DISCHARGE FROM RESERVE STATUS

Sec.
115.1 Purpose.
115.2 Applicability.
115.3 Original assignment to Reserve status.
115.4 Transfer to the Standby Reserve.
115.5 Transfer from the Standby Reserve.
115.6 Discharge.

AUTHORITY: §§ 115.1 to 115.6 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply secs. 4, 6, 16, 62 Stat. 605, as amended, 609, as amended, 624, as amended, secs. 269, 1003, 1162, 1163, 70A Stat. 12, 79, 89; 50 U. S. C. App. 454, 456, 466, 10 U. S. C. 269, 1003, 1162, 1163.

§ 115.1 Purpose.

The purpose of this part is to establish policy guidance for assignment to and transfer between reserve categories, and discharge from reserve status.

§ 115.2 Applicability.

This part is applicable to all military departments

§ 115.3 Original assignment to Reserve status.

(a) *Ready Reserve.* Original membership in the Ready Reserve may be attained by:

(1) Transfer thereto under the provisions of paragraph (3), subsection 4 (d) of 62 Stat. 607, 50 U. S. C. App. 454, and sec. 269 (a), 70A Stat. 12, 10 U. S. C. 269 (a), upon release from active duty;

(2) Appointment as a Reserve Officer and assignment to the Ready Reserve under provisions of subsection 6 (d), 62 Stat. 611, 50 U. S. C. App. 456, and sec. 269 (a), 70A Stat. 12, 10 U. S. C. 269 (a);

(3) Entry (appointment or enlistment) into the National Guard of the United States or Air National Guard of the United States in accordance with provisions of sec. 269 (b), 70A Stat. 12, 10 U. S. C. 269 (b), as affected by secs. 101, 3077 and 8077 thereof;

(4) Direct entry under the provisions of sections 261 and 262 of 69 Stat. 600, 50 U. S. C. 1012, 1013, or of clause (C), paragraph (2), subsection 6 (c) of 62 Stat. 610, as amended, 50 U. S. C. App. 456; or

(5) Direct voluntary entry (appointment or enlistment) of an individual into the Ready Reserve, other than as provided above.

(b) *Standby Reserve.* Direct assignment to the Standby Reserve without prior membership in the Ready Reserve may be attained:

(1) In accordance with the provisions of paragraph (3), subsection 4 (d) of 62 Stat. 607, as amended, 50 U. S. C. App. 454, and paragraph (1) of subsection 269 (e), 70A Stat. 12, 10 U. S. C. 269, upon release from five or more years of active training and service; or

(2) By direct voluntary entry of an individual not serving under a statutory obligation and not otherwise subject to military service.

(c) *Retired Reserve.* Direct assignment and transfer to the Retired Reserve may be accomplished under the provisions of Department of Defense Directive No. 1200.4, subject: The Retired Reserve of the Reserve Forces, dated December 20, 1957.

§ 115.4 Transfer to the Standby Reserve.

(a) Each individual who has served five or more years on active training and service in the Armed Forces of the United States but who has an unfulfilled portion of his total military obligation remaining upon release therefrom, shall, if otherwise qualified therefor and a suitable vacancy exists, be afforded the opportunity to execute a written request to be assigned to the Ready Reserve for a period of at least one year. If such opportunity is declined, the individual shall be placed in the Standby Reserve.

(b) Individuals enumerated below shall, if otherwise qualified therefor and a suitable vacancy exists, be afforded the opportunity to remain in the Ready Reserve for a period of at least one year. If such opportunity is declined, they shall be transferred to the Standby Reserve.

(1) Those who have served on active duty and participated satisfactorily in accredited training programs of the Ready Reserve for a combined total of five or more years;

(2) Those who have completed the periods of active duty and Ready Reserve participation prescribed in section 263 of 69 Stat. 602, 50 U. S. C. 1014;

(3) Those who qualify for such transfer under provisions of paragraphs (3) and (4) of subsection 269 (e), 70A Stat. 12, 10 U. S. C. 269, unless such transfer would render them liable to induction for active training and service.

(c) All voluntary agreements to be assigned to or remain in the Ready Reserve will provide that:

(1) The Reservist may be transferred to the Standby Reserve by the appropriate Secretary at any time for cogent reasons;

(2) Under provisions of subsection 269 (e), 70A Stat. 12, 10 U. S. C. 269, the individual waives his right to transfer to the Standby Reserve while serving under such agreement;

(3) The period of voluntary membership shall be of not less than one year's duration.

(d) Transfer to the Standby Reserve under the screening process prescribed in Part 125 of this subchapter of individuals otherwise subject to continued membership in the Ready Reserve will be accomplished under the authority of subsection 269 (f), 70A Stat. 13, 10 U. S. C. 269.

(e) Transfer to the Standby Reserve of members of the National Guard of the United States or Air National Guard of the United States will be subject to the provisions of subsection 269 (g), 70A Stat. 13, 10 U. S. C. 269.

(f) Assignment to the Inactive Status List of the Standby Reserve is governed by Department of Defense Directive No. 1200.2, subject: Inactive Status List of the Standby Reserve, dated June 25, 1959, and retention thereon by Department of Defense Directive No. 1235.1, subject: Policy on Direct Appointments and on Adjustments, at Time of Entry into Active Military Service, of Grades of Civilian Specialists in the Reserve Forces Who Are Not Otherwise Expressly Provided for by Law, dated July 11, 1955.

(g) Individuals may be voluntarily retained in or transferred to the Standby Reserve for periods beyond expiration of statutory obligation, under such directives as may be issued by the Secretaries of the military departments.

§ 115.5 Transfer from the Standby Reserve.

(a) Any member of the Standby Reserve who has not completed his obligated period of military service in the Ready Reserve may be transferred to the Ready Reserve whenever the reasons for his transfer to the Standby Reserve no longer exist, provided he is otherwise qualified and a requirement exists.

(b) Whenever persons with critical skills who performed active duty for training for six months pursuant to Executive Order No. 10650, Regulations Governing the Selection of Certain Persons who have Critical Skills for Enlistment in Units of the Ready Reserve of the Armed Forces, dated January 6, 1956, published at 21 F. R. 167 (3 CFR, 1956 Supp.), and were subsequently transferred to the Standby Reserve in accordance with the screening process prescribed in Part 125 of this subchapter, are no longer engaged in critical skills in critical defense supporting industries or research, the Selective Service System will notify the appropriate military department. Upon receipt of such notification, the military department shall transfer such person to the Ready Reserve if he is otherwise qualified and a requirement exists.

(c) A member of either the Standby Reserve or the Retired Reserve may upon his own request be transferred to the Ready Reserve if qualified and a requirement exists for him. Such voluntary transfer will be accomplished under authority of sec. 269 (d), 70A Stat. 12, 10 U. S. C. 269 (d), subject to provisions of § 115.4(c).

(d) In any case, where an individual is transferred from the Standby Reserve to the Ready Reserve or the Retired Reserve, notification thereof to the Selective Service System will be made by the military department concerned.

§ 115.6 Discharge.

(a) Enlisted members of the Ready Reserve or the Standby Reserve who have completed their statutory obligation or who are not subject to a military obligation will be discharged unless they voluntarily remain under conditions specified in paragraph (c) or (g) of § 115.4.

(b) Any person who while a member of a reserve component becomes a regular or duly ordained minister of religion shall be discharged from such reserve component upon request under authority of subsection 233 (h), 69 Stat. 599, 50 U. S. C. 961. The definition of regular or duly ordained minister of religion provided in subsection 16 (g) of 62 Stat. 624, 50 U. S. C. App. 466, shall be used in connection with this part.

(c) Those commissioned officers of the Reserve who have accepted indefinite appointments will not be subject to mandatory discharge upon completion of the statutory obligation.

(d) Discharge from the service obligation for hardship or other causes will be governed by pertinent provisions of Department of Defense Directive No. 1200.3, subject: Fulfilling the Military Service Obligation, dated May 23, 1958 (Part 50 of this subchapter).

(e) Discharge from the reserve components is governed by provisions of sections 1003, 1162, 1163, 70A Stat. 79, 89, 10 U. S. C. 1003, 1162, 1163.

(f) Upon the discharge of members of the Standby Reserve, due notification thereof will be made to the Selective Service System by the military department concerned.

PART 120—INTER-SERVICE TRANSFER OF RESERVE OFFICERS ON EXTENDED ACTIVE DUTY

Sec.
120.1 Purpose.
120.2 Applicability.
120.3 Policy.
120.4 Procedure.

AUTHORITY: §§ 120.1 to 120.4 issued under sec. 716, Title 10, United States Code.

§ 120.1 Purpose.

The purpose of this part is to establish the policies which will govern implementation of section 716, Title 10, United States Code, with respect to the transfer of Reserve commissioned officers on extended active duty between the Reserve components of the Army, Navy, Air Force and Marine Corps.

§ 120.2 Applicability.

(a) This part is applicable to officers on extended active duty holding Reserve commissions in the armed services, except officers of the medical services. The inter-service transfer of officers holding commissions in the medical services will continue to be accomplished under existing regulations, DoD Instruction 1205.1, "Implementation of the Universal Military Training and Service Act with Respect to Medical and Dental Registrants", Section XI.

(b) Policy and procedure for the transfer of Regular officers on extended active duty is contained in Part 56 of this subchapter.

(c) Transfer of officers of the Reserve components not on active duty (except officers of the medical services) will continue to be accomplished under applicable Service regulations for conditional resignation and appointment.

§ 120.3 Policy.

(a) It is the policy of the Department of Defense that an officer of any military service who is especially qualified to contribute to the success of an activity of another service will be given an opportunity to do so without interruption of his service career, by being transferred from one service and appointed in another.

(b) No officer will be so transferred without his consent, nor will an officer transferred from one service be appointed in another service with a higher rank or precedence than that he held on the date prior to his transfer.

(c) Transfers will be made only within authorized strength limitations for the active duty forces.

(d) While intended for use primarily in the technical fields to permit the full utilization of specialists, this authority to transfer between services is not restricted to technical specialists.

§ 120.4 Procedure.

(a) Request for transfer will normally be initiated by an appropriate agency of the military department desiring the services of an officer serving in another department, or by the officer himself.

(1) (i) If initiated by the officer himself, the requests will be forwarded through military channels to the Secretary of the military department in which he is presently commissioned, and will be accompanied by a justification of the requested transfer as being in the interest of national defense and the individual officer.

(ii) The Secretary of the losing Department will forward the request to the Secretary of Defense through the Secretary of the gaining Department. Both Departmental Secretaries will indicate their concurrence or non-concurrence in the requested transfer.

(2) If initiated by other than the officer himself, request for transfer will be routed to the Secretary of Defense through the Secretaries of the gaining and losing Departments and will be accompanied by a statement that the officer concerned consents to the proposed transfer.

(b) The Secretary of Defense will approve such requested transfers as he considers in the best interests of the Department of Defense.

(c) Termination of presently held commissions and reappointment in another service will be accomplished by the two Services affected without interruption of the continuity of the officer's active duty.

(d) An officer transferred under the provisions of this part will be awarded a permanent reserve grade and date of rank as determined by applying the

amount of his promotion service to the appointment laws in effect for the Service to which he is being transferred. His temporary grade and date of rank will remain the same as that he held in his present Service on the day prior to his transfer.

(e) An officer transferred under provisions of this part will be credited with the unused leave with which he was credited at the time of transfer, and with the total military service with which he was credited on the date prior to his transfer.

PART 123—TRANSFER OF PERSONS BETWEEN RESERVE COMPONENTS OF THE ARMED FORCES

Sec.
123.1 Purpose.
123.2 Applicability.
123.3 Policy.

AUTHORITY: §§ 123.1 to 123.3 issued under sec. 512, 70A Stat. 18; 10 U.S.C. 512 and sec. 595, 70A Stat. 25; 10 U.S.C. 595.

§ 123.1 Purpose.

The purpose of this part is to establish a uniform policy governing interservice transfers of persons not on active duty who have an obligation for service under the provisions of the Universal Military Training and Service Act, as amended or the Armed Forces Reserve Act of 1952, as amended, between reserve components of the Armed Forces.

§ 123.2 Applicability.

This part is applicable to all military departments in the implementation of sections 512 and 595 of Title 10, U.S. Code.

§ 123.3 Policy.

(a) Interservice transfers of persons not on active duty who have an obligation for service under the provisions of the Universal Military Training and Service Act, as amended or the Armed Forces Reserve Act of 1952, as amended between reserve components of the Armed Forces may be accomplished only in cases wherein the reservist requests or consents to such transfer and wherein it is mutually agreed by the two Secretaries concerned that such transfers are in the best interest of the Armed Forces, except as provided in paragraph (b) of this section. An Armed Force may request the transfer of a particular reservist from a reserve component of another Armed Force. Such request will normally be made only when the initiating Armed Force has a specific vacancy for the individual concerned in an organized unit within a reasonable distance of the individual's domicile or place of business. It may be approved only when:

(1) The losing Armed Force has no organized unit within a reasonable distance of the domicile or place of business of the individual to which the reservist may be usefully assigned, or

(2) The reservist has special experience or professional, educational or technical background which is clearly of greater use to the gaining Armed Force and which use outweighs the value of his previous training in the losing Armed Force.

(b) At the time of enrollment in an officer candidate program of another service, an enlisted reservist will be transferred to the reserve component of the service conducting such program, provided that it is mutually agreed by the Secretaries concerned that such transfer is in the best interest of the Armed Forces.

(c) Interservice transfers between reserve components of the Armed Forces will be accomplished by discharge from the reserve component in which serving for the purpose of immediate enlistment or appointment in the reserve component of the Armed Force concerned. Where membership in the officer training program does not confer military status, discharge will be for the purpose of immediate enlistment in the reserve component of the gaining Armed Force. Discharge for this purpose shall not constitute a fulfillment of the military obligation. Additional service performed after such discharge will be counted toward fulfillment of such obligation.

PART 125—SCREENING THE READY RESERVE UNDER PROVISIONS OF THE ARMED FORCES RESERVE ACT OF 1952, AS AMENDED

Sec.
125.1 Purpose.
125.2 Policy.
125.3 Regulations for screening the Ready Reserve.
125.4 Ministerial students.
125.5 Persons who become liable for induction if screened into the Standby Reserve.
125.6 Reservists transferred to Standby Reserve.
125.7 Reports to the Secretary of Defense.
Appendix A—Standards and requirements applicable to Ready Reservists who are apprentices.
Appendix B—Standards and requirements applicable to Ready Reservists who are students.

AUTHORITY: §§ 125.1 to 125.7 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 208, 69 Stat. 598, 599; secs. 269, 273, 70A Stat. 12, 13; 50 U. S. C. 928, 10 U. S. C. 269, 273.

§ 125.1 Purpose.

The purpose of this part is to provide the Services with policy and regulations for screening the Ready Reserve.

§ 125.2 Policy.

(a) Each Service shall continuously screen its Ready Reserve in peacetime in order to provide a Ready Reserve composed of individuals (1) who meet Service standards of mental, moral, professional and physical fitness, and possess the required military qualifications in the various ranks, grades, ratings and specialties and (2) who are immediately available for military service during a national emergency without seriously impairing production and research vital to the national military effort, or activities necessary to the maintenance of the national health, safety or interest, or without creating extreme personal or community hardship.

(b) In selecting members of the Ready Reserve to be transferred to the Standby Reserve who are otherwise equally eligible for transfer under the criteria established in this part, the Service concerned shall accord preference for transfer in the following order: (1) Those who have participated in combat; and (2) those with the least remaining obligated service in the Ready Reserve.

§ 125.3 Regulations for screening the Ready Reserve.

Screening of the Ready Reserve shall be in accordance with the provisions of Executive Order 10651 (3 CFR, 1956 Supp.) and the following implementing instructions. Citations refer to specific paragraphs in the Executive Order. Persons who enter the Ready Reserve under the provisions of section 263(a) and 263(b) of the Armed Forces Reserve Act of 1952, as amended, shall not be eligible for transfer to the Standby Reserve under the provisions of paragraphs 4, 5, and 6 of the Executive Order.

(a) *Reference paragraph 2 (a) of Executive Order 10651; fulfilled Ready Reserve obligation.* Members of the Ready Reserve who have completed their ready reserve obligation will be transferred to the Standby Reserve as provided for by Department of Defense Directive 1205.6, (Part 115 of this subchapter) "Assignment to and Transfer between Reserve Categories, and Discharge from Reserve Status."

(b) *Reference paragraph 3 of Executive Order 10615; extreme hardship.* Positive action shall be taken to insure that all Ready Reservists are informed of the provisions of paragraph 3 of the Executive Order and the following implementing instructions relative to hardship:

(1) *Extreme personal hardship.* An individual desiring transfer from the Ready Reserve to the Standby Reserve must establish by documentary evidence that his dependents would, by his call to active duty in an emergency, suffer extreme hardship greater than that which dependents of other Reservists can be expected to experience from the Reservist's order to active duty. In order to insure a uniform standard, the criteria established by the Services should conform generally with current Selective Service regulations on extreme hardship deferment (see § 1622.30 (b) and (c) (1) of this title). In those cases where the reservist is registered with Selective Service, documentary evidence may include a recommendation by the State Director of Selective Service of the State in which the registrant's Local Board is located. Requests for consideration under this paragraph must be initiated by the Reservist or by his dependents.

(2) *Extreme community hardship.* An individual desiring transfer from the Ready Reserve to the Standby Reserve must establish by documentary evidence that his withdrawal from the community in a national emergency would have a substantial adverse effect on the health, safety or welfare of the community. In those cases where the reservist is registered with Selective Service, documentary evidence may include a recommendation by the State Director of Selective Service of the State in which the registrant's Local Board is located. Requests for consideration under this paragraph must be initiated by the Reservist.

(c) *Reference paragraph 4 of Executive Order 10651; critical military skills and critical civilian occupations*—(1) *Critical military skills.* (i) A critical military skill is one appearing on the List of Critical Military Skills for Use in Screening the Ready Reserve published by the Department of Defense. This list is subject to periodic revision.

(ii) The criteria used in establishing the List of Critical Military Skills are as follows:

(*a*) The military skill must be indispensable to the success of the Ready Reserve mobilization mission.

(*b*) A long period of mobilization-accelerated training in the Reservist's individual military specialty to include prerequisite specialty training (totalling at least 6 months) must be needed to develop the degree of skill required.

(*c*) An appreciable shortage (at least 10 percent of Ready Reserve requirements) of available personnel with the skill exists or is anticipated.

(iii) The Department of Defense list will be revised from time to time by the Assistant Secretary of Defense (Manpower, Personnel and Reserve), as necessitated by changes in the military missions and manpower requirements of the Services.

(iv) The Military Departments may furnish special justification for those skills which in their judgment should be included on the List of Critical Military Skills where manning circumstances justify a deviation from the above criteria.

(v) To the maximum extent possible, Services will utilize overages in critical military skills in one geographical area to meet the requirements for such skills in other areas.

[Subparagraph (1) amended, 23 F.R. 1725, Mar. 13, 1958]

(2) *Critical civilian occupations.* (i) The Department of Labor has issued a List of Critical Civilian Occupations for Screening the Ready Reserve. This list was developed by an Interagency Committee on which the Department of Defense is represented, and is subject to periodic revision.

(ii) To the extent that such assistance may be needed, authority is granted the Services to request the technical advice of the Department of Labor's affiliated State Employment Service Offices in classifying the civilian occupations of particular individual Reservists, other than Farm Operators and Assistants. There are some 1,700 full-time and 2,100 part-time Employment Service Offices located in communities throughout the country. The County Agricultural Stabilization and Conservation Committees of the Department of Agriculture may be used in a similar manner with respect to Farm Operators and Assistants. These committees, which exist in all agricultural counties in the country, generally have their headquarters in the county seats.

(3) *Utilization of volunteers with critical civilian occupations.* A Ready Reservist with a critical civilian occupation in excess of requirements in the Ready Reserve who has been selected for transfer to the Standby Reserve in accordance with paragraphs 4 and 7 of the Executive Order, and who then volunteers to remain in the Ready Reserve, under the provisions of Department of Defense Directive 1205.6 (Part 115 of this subchapter) dated January 16, 1956, "Assignment to and Transfer between Reserve Categories, and Discharge from Reserve Status", shall be given a military assignment utilizing his critical civilian occupation. If no military requirement exists for his critical civilian occupation and he possesses another critical military skill, he shall be utilized in that skill. If no requirement exists for him in a critical civilian occupation or in a critical military skill, he shall be utilized, insofar as possible, in a related military assignment.

(d) *Reference paragraph 5 of Executive Order 10651, apprentices and students.* Ready Reservists who are apprentices or students shall be transferred to the Standby Reserve in accordance with the following regulations except

that no person shall be transferred under this part who (1) has not had active training and service, (2) possesses a critical military skill, or (3) volunteers to remain in the Ready Reserve and executes a written agreement to remain in such Reserve for a minimum period of one year, as provided in Department of Defense Directive 1205.6, dated January 16, 1956, "Assignment to and Transfer between Reserve Categories, and Discharge from Reserve Status." (Part 115 of this subchapter.)

(1) *Apprentices.* Ready Reservists who are undergoing apprenticeship training in critical civilian occupations appearing in Department of Labor List of Critical Occupations for Screening the Ready Reserve, in such numbers as are in excess for such occupations, and who meet the standards and requirements described in Appendix A below shall be transferred to the Standby Reserve. At such time as the Reservist ceases to qualify for consideration as an apprentice under the regulations in this part, he should be considered for transfer to the Ready Reserve.

(2) *Students.* Ready Reservists who are students in colleges or universities pursuing studies that will qualify them for critical civilian occupations appearing in Department of Labor List of Critical Occupations for Screening the Ready Reserve and who meet the standards and requirements described in Appendix B below shall be transferred to the Standby Reserve. Excluded from consideration are those students enrolled or enlisted in programs leading to appointment to commissioned rank. At such time as the Reservist ceases to qualify for consideration as a student under the regulations in this part, he should be considered for transfer to the Ready Reserve.

§ 125.4 Ministerial students.

Any Ready Reservist who is preparing for the ministry in a recognized theological or divinity school shall be transferred to the Standby Reserve unless he executes a written agreement to remain in the Ready Reserve for a minimum of one year, as provided in Department of Defense Directive 1205.6, dated January 16, 1956, "Assignment to and Transfer between Reserve Categories, and Discharge from Reserve Status."

§ 125.5 Persons who become liable for induction if screened into the Standby Reserve.

Certain individuals covered by section 6(b)(2) and individuals covered by section 6(c)(1) of the Universal Military Training and Service Act are exempt from induction so long as they serve satisfactorily as members of organized units of the reserve. Similarly, persons covered by section 6 (c) (2) are deferred so long as they continue to serve satisfactorily as members of organized units of the reserve. Therefore, persons in these groups within the ages of Selective Service liability cannot be screened into the Standby Reserve without losing such exempt or deferred classification. Such persons who meet the criteria for transfer into the Standby Reserve shall be informed of the above facts and given ample opportunity to volunteer to remain in the Ready Reserve, if they are qualified.

§ 125.6 Reservists transferred to Standby Reserve.

Separate instructions govern the administrative actions involved in the transfer of individuals to the Standby Reserve. These instructions include the procedures which Selective Service and the Military Departments follow when Ready Reservists are transferred to the Standby Reserve. They also describe the type of information which will have to be forwarded by the Military Departments to Selective Service upon such transfer.

§ 125.7 Reports to the Secretary of Defense.

(a) In order that the Secretary of Defense may review progress of the screening of the Ready Reserve, and report to the President as required by paragraph 10 of Executive Order 10651 quarterly reports of the status of the initial screening operations will be required of each Service. The first quarterly report will be submitted on or before July 31, 1956, covering the period ending June 30, 1956. Annual status reports on the continuing screening operation will be required after January 1, 1958.

(b) In these reports, the following data will be provided for each critical civilian occupation:

(1) Service requirements for occupation.

(2) Current Service strength in occupation.

(3) If there are excesses in strength over requirements:

(i) The number actually transferred to the Standby Reserve.

(ii) The number not transferred because the possessors have other critical military skills.

(iii) The number of volunteers not transferred who are being used in noncritical military skills.

A Department of Defense Directive, to be published, will govern submission of such reports to the Secretary of Defense under assigned Report Control Symbol.

APPENDIX A—STANDARDS AND REQUIREMENTS APPLICABLE TO READY RESERVISTS WHO ARE APPRENTICES

I. The Reservist must have completed not less than 2,000 hours of apprenticeship training, exclusive of any training while in the military service, in an occupation appearing on the List of Critical Occupations for Screening the Ready Reserve.

II. The apprentice program must meet the following standards and requirements:

A. The apprentice training program must be an organized plan, written or implied, embodying the terms and conditions of employment, training and supervision of one or more apprentices in one or more apprenticeable occupations as defined in paragraph 1 below, and subscribed to by a sponsor who has undertaken to carry out the apprentice training program. The sponsor may be an employer of labor, a joint apprenticeship committee, a trade union, a group of employers of labor, or an association of journeymen.

1. The apprentice training programs must offer apprentice training in an occupation which:

a. Customarily has been learned in a practical way through training on-the-job;

b. Requires 4,000 or more hours of work experience to learn;

c. Is clearly identified and commonly recognized throughout the industry;

d. Requires during each year of apprenticeship the completion of 144 hours or more of organized and systematic related trade instruction designed to provide the apprentice with learning in theoretical and technical subjects related to the occupations;

e. Is not merely a part of an occupation normally learned through apprenticeship;

f. Involves a development of skill sufficiently broad to be applicable in like occupations throughout an industry rather than of restricted application to the products of one employer;

g. Does not fall within any of the following categories:

(i) Selling, retailing or similar occupations in the distributive field;

(ii) Managerial occupations;

(iii) Clerical occupations;

(iv) Professional or semi-professional occupations including occupations for which entrance requirements customarily include education of college level; or

(v) Agricultural occupations which include occupations such as the growing of crops, fruits or nuts, and the raising of livestock or poultry.

2. The apprentice training program must have been in operation with apprentices actually being trained therein for a period of at least one year.

III. Certification as to the apprenticeship status of the Reservist as well as the sufficiency of the program to meet the standards described above should be obtained by the Reservist from the sponsor of the program.

APPENDIX B—STANDARDS AND REQUIREMENTS APPLICABLE TO READY RESERVISTS WHO ARE STUDENTS

I. The following criteria and standards will be applicable to those Ready Reservists pursuing academic studies that will qualify them for occupations appearing on the List of Critical Occupations for Screening the Ready Reserve:[1]

a. *Undergraduate students.* Students who are satisfactorily pursuing studies in their final year of undergraduate work at a college, university or similar school of learning and who are majoring in a field of study preparatory to entering a professional occupation appearing on the List of Critical Occupations for Screening the Ready Reserve, provided that during their last completed year of undergraduate work they achieved a scholastic standing which ranked them for that year within the upper three-fourths of the full-time male students for that year or have attained a score of 70 or more on the Selective Service College Qualification Test.

b. *First year graduate students.* Students who have been accepted for admission by a graduate school for the first class commencing after they have been accepted for a full-time course of instruction as a candidate for a graduate degree in a professional occupation appearing on the List of Critical Occupations for Screening the Ready Reserve, other than those covered under c. and e. below, and, if such class has commenced, have entered upon such course, provided that during their last full-time undergraduate year at a college, university or similar institution of learning, they achieved a scholastic standing on that year's work which ranked them for that year within the upper one-fourth of the full-time male students in their class or else attained a score of 80 or more on the Selective Service College Qualification Test, and provided that the graduate school has certified that they are currently meeting degree requirements and are expected to attain their degrees.

c. *First year students in professional schools of medicine, dentistry and allied health specialties.* Students who have been accepted for admission by a professional school of medicine, dentistry or allied health specialties appearing on the List of Critical Occupations for Screening the Ready Reserve for the first class commencing after they have been accepted and, if such class has commenced, have entered such school, provided that during their last full-time under-graduate year at a college, university or similar school of learning they achieved a scholastic standing on that year's work which ranked them for that year within the upper one-half of the full-time male students in their class or else attained a score of 70 or more on the Selective Service College Qualification Test, and provided that the school has certified that they are satisfactorily pursuing a full-time course of instruction leading to their graduation.

d. *Graduate students who have completed their first year of graduate school.* Students who have satisfactorily completed their first year in graduate schools and are satisfactorily pursuing full-time courses as a candidate for a graduate degree in a professional occupation appearing on the List of Critical Occupations for Screening the Ready Reserve, other than those covered under c. and e. herein. In general, requirements for the Master's degree should be completed in not more than two calendar years and for the Doctoral degree in not more than five calendar years of graduate study.

e. *Students who have completed their first year of study in professional schools of medicine, dentistry and allied health specialties.* Students who have satisfactorily completed their first year in a professional school of medicine, dentistry or allied health specialties appearing on the List of Critical Occupations for Screening the Ready Reserve and are satisfactorily pursuing full-time courses leading to their graduation.

II. Certification as to the student status of the Reservist, including his class standing as specified herein, should be obtained by the Reservist from appropriate college or university officials. Information on scores attained on the Selective Service College Qualification Test should be furnished by affidavit of the Reservist. It should be noted that only those Reservists who took the test prior to entering the Armed Forces will be eligible for transfer to the Standby Reserve on the basis of test scores. Persons are not eligible to take the test after they have completed their active military service obligation.

[1] Except those enrolled or enlisted in programs leading to appointment to commissioned rank and those possessing critical military skills.

PART 127—ORDERING THE READY RESERVE TO ACTIVE DUTY IN A NATIONAL EMERGENCY DECLARED BY THE PRESIDENT

Sec.
127.1 Purpose.
127.2 Applicability.
127.3 Statutory provisions.
127.4 Policy.

AUTHORITY: §§ 127.1 to 127.4 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 2, 69 Stat. 599, sec. 673, 70A Stat. 28; 50 U. S. C. 961, 10 U. S. C. 673.

§ 127.1 Purpose.

The purpose of this part is to prescribe uniform policy governing the ordering to active duty of units and individuals in the Ready Reserve in a national emergency declared by the President.

§ 127.2 Applicability.

This part is applicable to all military departments in the employment of authority, contained in subsection 673(a), 70A Stat. as amended by subsection 2(f), 69 Stat. 599, to order to active duty in a national emergency declared by the President, units and individuals in the Ready Reserve.

§ 127.3 Statutory provisions.

(a) In time of national emergency declared by the President subsequent to January 1, 1953, or when otherwise authorized by law, subsection 673(a), 70A Stat. as amended by subsection 2(f), 69 Stat. 599, provides that any unit or any member not assigned to a unit organized to serve as such in the Ready Reserve may by authority designated by the Secretary concerned, be ordered to active duty for a period not to exceed 24 consecutive months, without the consent of the persons affected, except that numbers in excess of 1,000,000 may not be required to perform active duty involuntarily at any time unless authorized by the Congress.

(b) When the authority cited in paragraph (a) of this section is employed, subsection 673 (b), 70A Stat. requires that in the interest of fair treatment as between members in the Ready Reserve being considered for involuntary recall to duty, attention shall be given to the duration and nature of previous service with the objective of assuring such sharing of hazardous exposure as the national security and the military requirement will reasonably permit, to family responsibilities, and to employment found to be necessary to the maintenance of the national health, safety, or interest. At such time as the screening of the Ready Reserve under provisions of Part 125 of this chapter, becomes current, the requirements of cited subsection 673 (b), 70A Stat. will be considered as having been satisfied.

(c) In any expansion of the active Armed Forces of the United States which requires that units and members of the reserve components be ordered into the active military service of the United States, subsection 672 (c), 70A Stat. provides that, insofar as practicable, members of units organized and trained for the purpose of serving as such shall be ordered involuntarily to active duty only with their units, but does not prohibit the reassignment of personnel of such units after being ordered into the active military service of the United States. Policy governing application of this provision is contained in Department of Defense Directive Number 1235.6, subject: Integrity of Units, dated June 25, 1959.

§ 127.4 Policy.

(a) The authority contained in subsection 673(a), 70A Stat. to order units or members of the Ready Reserve involuntarily to active duty shall be exercised only on direction of the President.

(b) Where the nature of the emergency permits, the Secretary of Defense, with the advice of the Joint Chiefs of Staff, will determine the numbers and composition of forces to be ordered involuntarily to active duty from the Ready Reserve by each Service, subject to the conditions of paragraph (a) of this section within the 1,000,000 authorized by law or within whatever larger number may have been authorized by the Congress.

(c) Where the nature of the emergency precludes procedures contemplated in paragraph (b) of this section, the 1,000,000 members of the Ready Reserve authorized by law to be ordered involuntarily to active duty may be so ordered by authorities designated by the Secretaries concerned, subject to the conditions of paragraph (a) of this section, in numbers previously allocated to the military services by the Secretary of Defense.

(1) The Joint Chiefs of Staff shall be responsible for providing to the Secretary of Defense on a current basis the recommended numbers which each Service will be authorized to order involuntarily to active duty under such circumstances, based on appropriate war or mobilization plans.

(2) The Joint Chiefs of Staff shall periodically review the allocation made by the Secretary of Defense, for the purpose of recommending such changes as new conditions may dictate.

(d) Where the nature of the emergency indicates imminent attack upon the continental United States, those authorities having been designated by the Secretaries concerned may order to active duty, subject to the conditions of paragraph (a) of this section, those Ready Reserve forces previously determined by the Secretary of Defense, on the recommendation of the Joint Chiefs of Staff, as required for the immediate defense of the continental United States.

(e) The designation of individuals and units of the Ready Reserve to comprise the forces to be ordered involuntarily to active duty by each Service, within numbers determined by the Secretary of Defense in accordance with paragraphs (b), (c), or (d) of this section, shall be the responsibility of the Secretary of the military department concerned.

PART 132—RESERVE FORCES ACTIVE DUTY FOR TRAINING FOR BASIC TRAINING

Sec.
132.1 Purpose.
132.2 Applicability.
132.3 Policy.

AUTHORITY: §§ 132.1 to 132.3 issued under 62 Stat. 604, 50 app. U.S.C. 451, and 66 Stat. 431, 10 U.S.C 1a.

§ 132.1 Purpose.

The purpose of this part is to prescribe uniform policy:

(a) Governing active-duty-for-training programs established to provide basic training for persons enlisting directly into the Reserve Forces in draft-deferred status.

(b) Pertaining to certain aspects of programs for direct enlistment into the Reserve Forces.

§ 132.2 Applicability.

This Part is applicable to all military departments offering active duty for training for basic training to individuals without prior military service who enlist directly into the Reserve Forces under provisions of subsection 6(c)(2) of the Universal Military Training and Service Act, as amended, section 262 of the Armed Forces Reserve Act of 1952, as amended or Title 10, Title 32, and Title 50, United States Code. Active duty for training for basic training may include, in addition to recruit or basic individual training, basic unit training and various types of specialist training.

§ 132.3 Policy.

(a) The primary objective of the active-duty-for-training programs dealt with herein is to provide the Reserve Forces with trained young men.

(b) Except for the Alaskan Scouts and as provided in paragraph (c) of this section, the period of active duty for training for basic training shall be of six consecutive months duration.

(c) As approved by the Secretary of Defense, special programs of active duty for training for basic training of less than six months may be established to provide recruit training alone for individuals entering the Reserve Forces under provisions of subsection 6(c), paragraph (2), clause (A) of the Universal Military Training and Service Act, as amended. The period of active duty for training for basic training under such special programs, however, in addition to being less than six months shall also be of less than three consecutive months duration, including travel time.

(d) In the case of a military service accepting enlistments under authority of section 262 of the Armed Forces Reserve Act of 1952, as amended, or subsection 6(c), paragraph (2), clause (C) of the Universal Military Training and Service Act, as amended, the Department concerned shall submit its proposed annual enlistment quotas therefor with its annual manpower programs to the Secretary of Defense for approval.

(1) Approval by the Secretary of Defense will be on the advice of the Joint Chiefs of Staff, taking into consideration the need to maintain a military manpower pool of such size as to provide an adequate source of long-term volunteers for the Active Forces.

(2) Approved quotas for enlistments under section 262 of the Armed Forces Reserve Act of 1952, as amended, and for entry into active duty for training for basic training of persons enlisted under subsection 6(c), paragraph (2), clause (C) of the Universal Military Training and Service Act, as amended, shall be within the 250,000 annual maximum imposed by law.

(e) Irrespective of quotas allocated in accordance with paragraph (d) of this section, no enlistment shall be accepted under section 262 of the Armed Forces Reserve Act of 1952, as amended, if such enlistment would cause the strength of the Ready Reserve authorized for the component concerned to be exceeded. Subject to this limitation and to related Department of Defense policies and programs, such as Qualitative Distribution, enlistment of qualified individuals within quotas allocated shall be on a first-come-first-accepted basis.

(f) (1) Individuals entering the reserve components under programs requiring entry on active duty or active duty for training shall enter on either active duty or active duty for training with minimum practicable delay after enlistment. The delay shall not exceed 120 days, except those in the following category:

Individuals pursuing a course in high school may be delayed until they cease to pursue that course satisfactorily, graduate, or become 20 years of age, whichever occurs first. However, no individual may be enlisted in any program requiring entry on active duty or active-duty-for-training if it appears that his entry on that duty will have to be delayed for more than one year because he is pursuing a course in high school.

Whether or not an individual shall or shall not participate and, if participating, whether he shall be in a paid or nonpaid status during the delay period will be as determined by the Departmental Secretary concerned.

(2) Individuals enlisted in the reserve components to pursue officers' training programs are exempt from this prescribed policy.

(g) In order to assure uniformity of training and discipline, all members of the Army National Guard or Air National Guard who volunteer for active duty for training for the purpose of basic training shall enter upon such training in Federal status.

(h) It is in the best interest of all the Services that a degree of uniformity and equity in reserve enlistment programs be maintained. Accordingly, proposed changes in existing reserve enlistment programs as well as proposed new programs will be submitted for approval prior to implementation. Proposals will include the division of the total obligation to be served on active duty or active duty for training in the Ready Reserve and in the Standby Reserve.

PART 136—MANAGEMENT AND MOBILIZATION OF THE STANDBY RESERVE

Sec.
136.1 Purpose.
136.2 Applicability.
136.3 Responsibilities for Management of the Standby Reserve.
136.4 Mobilization.
136.5 Addresses of State Directors, Selective Service System.

AUTHORITY: §§ 136.1 to 136.5 issued under RS 161; 5 U.S.C. 22. Interpret or apply sec. 672 of Title 10, U.S.C.

§ 136.1 Purpose.

The purpose of this part is to prescribe uniform policies with respect to management and mobilization of the Standby Reserve.

§ 136.2 Applicability.

This part is applicable to all military departments in exercising military control over persons transferred to the Standby Reserve and in calling members of the Standby Reserve to active duty pursuant to subsection 672(a) of Title 10, United States Code.

§ 136.3 Responsibilities for Management of the Standby Reserve.

(a) *Military departments.* The Secretaries of the military departments are responsible for:

(1) Exercising military control over members of the Standby Reserve.

(2) Maintaining such personnel records for members of the Standby Reserve as may be required by law and determined by the military departments to be necessary.

(3) Advising individuals who are transferred to the Standby Reserve of their duty to furnish local boards with information as prescribed by § 1690.10 of this title (Selective Service Regulations).

(4) Discharging members of the Standby Reserve in accordance with the provisions of § 115.6 of this chapter.

(5) Furnishing information promptly to the Selective Service System upon the assignment or transfer of a Reservist to or from the Standby Reserve and upon any change in military status of a member of the Standby Reserve.

(i) Upon the assignment or transfer of a Reservist to the Standby Reserve pursuant to the provisions of Part 125 or 115 of this chapter, the military department will complete DD Form 889[1] in accordance with the instructions printed thereon. If the Reservist concerned is a Selective Service registrant, the DD Form 889 will be sent to the State Director of the State in which the Reservist is registered. The appropriate State Director can be determined from the Selective Service number. The number is composed of four elements, the first of which is the State code. The key to State codes and the addresses of the various State Directors are shown in § 136.5. If the Reservist is not a registrant, the completed form will be sent to the State Director of the State in which the Reservist maintains his current mailing address.

(ii) Upon the transfer, discharge, or removal for any other reason of a Reservist from the Standby Reserve, the military department will promptly complete the left side of DD Form 889 and forward it to the same State Director to whom notification of the Reservist's entry into or membership in the Standby Reserve was previously addressed in accordance with subdivision (i) of this subparagraph.

(b) *Selective Service.* The Director of Selective Service is responsible by law for determining the availability of members of the Standby Reserve for involuntary order to active duty in time of war or national emergency declared by the Congress. To fulfill this statutory responsibility, the Director of Selective Service has prescribed that the Selective Service System will:

(1) Maintain current information pertaining to the civilian status of each member of the Standby Reserve.

(2) Determine, through local boards and appeals procedures of the Selective Service System, the availability of Standby Reservists for involuntary active duty. In making such determinations, local boards will be guided by Selective Service System policies which provide that:

(i) Consideration will be given to the military need for members of the

[1] Filed as part of original document.

Standby Reserve who have critical military occupations as well as to the need for critical civilian occupations in the supporting economy.

(ii) A Standby Reservist shall be declared nonavailable if continuance in his civil employment, occupation, activity, or other endeavors in time of war or national emergency declared by the Congress is found to be more essential to the maintenance of the national health, safety, welfare, or interest than the performance by him of active duty in the Armed Forces, or if it is determined that his performance of duty in the Armed Forces in time of war or national emergency declared by the Congress would result in extreme hardship or privation to his bona fide dependents.

(iii) The availability designation of a Standby Reservist is subject to periodic reevaluation and may be changed at any time such action would better serve the national interest.

(3) Furnish the military departments periodically with information concerning the Selective Service determination of availability of individual members of the Standby Reserve.

§ 136.4 Mobilization.

(a) *Availability of Standby Reservists for active duty.* In time of war or national emergency declared by Congress, or when otherwise authorized by law, Standby Reservists who have been found available by the Director of Selective Service may be involuntarily ordered to active duty by the military departments, provided it has been determined that there are not enough qualified members of the required category in the Ready Reserve.

(b) *Inactive Status List.* A Standby Reservist on the Inactive Status List who has been certified by the Director of Selective Service as being available for active duty will not be called into active military service without his consent unless the Secretary of the appropriate military department determines that adequate numbers of qualified members of the reserve components in an active status or in the inactive National Guard in the required category are not readily available. The provisions of DOD Directive No. 1235.1, Policy on Direct Appointments and on Adjustments, at Time of Entry into Active Military Service, of Grades of Civilian Specialists in the Reserve Forces Who Are Not Otherwise Expressly Provided for by Law, dated July 11, 1955, shall apply when Standby Reservists on the Inactive Status List are ordered to active duty.

(c) *Volunteers for active duty.* A member of the Standby Reserve who volunteers in writing for active duty shall be considered available for active duty and may be ordered into active military service by the appropriate military department pursuant to subsection 672(d), Title 10, United States Code. A determination of availability by the Director of Selective Service is not required and shall not apply in such cases. The appropriate State Director will be notified in such cases.

(d) *Nonavailable members of the Standby Reserve.* The Director of Selective Service has prescribed that members of the Standby Reserve who have been certified as not available for active duty shall be considered periodically to determine their availability to meet future requirements. Eighteen months after the initiation of general mobilization, the military departments shall review the cases of those Standby Reservists who have not been certified by the Director of Selective Service as available for active duty and, in the absence of cogent considerations to the contrary, shall separate such members from the Reserve.

§ 136.5 Addresses of State Directors, Selective Service System.

150.21 Appendix 1—Form for assignment of errors.
150.22 Appendix 2—Form for cover page of brief.
150.23 Appendix 3—Form for contents of brief on behalf of accused.

AUTHORITY: §§ 150.0 to 150.23 issued under sec. 866, 70A Stat. 59; 10 U.S.C. 866.

DEFINITIONS

§ 150.0 Definitions.

So far as the terms defined in Article 1 of the Uniform Code of Military Justice are used in this part they are used in the sense of their respective definitions therein unless the context indicates otherwise. As used in this part:

(a) "Appellate counsel" shall mean any counsel representing any party before a board of review.

(b) "Appellate defense counsel" shall mean any officer appointed by the Judge Advocate General to represent an accused before a board of review pursuant to Article 70, Uniform Code of Military Justice.

(c) "Appellate Government counsel" shall mean any officer appointed by the Judge Advocate General to represent the Government before a board of review pursuant to Article 70, Uniform Code of Military Justice.

(d) "Civilian counsel" shall mean civilian counsel provided by the accused to represent him before a board of review.

(e) "Appellate counsel for the accused" shall be construed to include appellate defense counsel and civilian counsel.

(f) "Defense counsel" shall mean any person who represented an accused at the trial by court-martial or who served as his counsel in the field.

RULES

§ 150.1 Quorum.

A majority of the members of a board of review will constitute a quorum for the purpose of hearing and determining any matter referred to the board. The determination of any matter referred to a board of review will be according to the opinion of a majority of its members. In the absence of a quorum the senior member present may make all necessary orders touching any proceedings pending in the board preparatory to hearing or decision thereof.

§ 150.2 Place for filing papers.

When the filing of a notice of appearance, brief, or other paper in the Office of a Judge Advocate General is required by this part, such papers will be filed in the Office of the Judge Advocate General of the appropriate armed force. If transmitted by mail or other means, they are not filed until received in such office.

§ 150.3 Signing of papers.

All formal papers must be signed and must show, typewritten or printed, the name and address of the person signing same, together with his military rank, if any, and the capacity in which he signs the paper. Such signature constitutes a certificate that the statements made therein are true and correct to the best of the knowledge, information, and belief of the person signing the paper, and that the paper is filed in good faith and not for purposes of unnecessary delay. Papers will be filed only by the duly authorized counsel for the parties in interest and proof of such authorization may be required.

§ 150.4 Computation of time.

Times referred to in this part are calendar days. If the last day falls on a Saturday, Sunday, or holiday compliance may be made on the next working day.

§ 150.5 Counsel.

(a) *Qualifications.* In any proceeding before a board of review the accused may be represented by civilian counsel provided by him or by assigned appellate defense counsel. Civilian counsel must be a member in good standing of the bar of a Federal court or of a court of record of any State of the United States, and may be required to file a certificate setting forth such qualifications. Appellate defense and Government counsel will be qualified in accordance with Article 70(a) and 27(b)(1) of the Uniform Code of Military Justice.

(b) *Conduct of counsel.* The conduct of counsel appearing before a board of review will be in accordance with the rules of conduct prescribed by paragraph 42*b*, Manual for Courts-Martial, United States, 1951 (16 F. R. 1303).

(c) *Request for appellate defense counsel.* A request for representation by appellate defense counsel will be forwarded to the convening authority for attachment to the record or dispatched to the Office of the Judge Advocate General within ten days from the date of sentence. In cases referred to a board under Article 69, Uniform Code of Military Justice, the accused will have two days from the time he receives notice of such reference to forward a request for appellate defense counsel to the Office of the Judge Advocate General unless he has already forwarded such request. Any request for appellate defense counsel should be accompanied by a statement as to the errors or other matters urged as grounds for relief. Such statement need not be in technical form and the assistance of counsel in the field will be available for its preparation. In the event defense counsel files a brief as provided in Article 38 (c), Uniform Code of Military Justice, such brief may be submitted in lieu of this statement.

(d) *Civilian counsel provided by accused.* (1) Notice that an accused has retained or has taken action to retain civilian counsel to represent him before a board of review will be forwarded to the convening authority for attachment to the record or dispatched to the Judge Advocate General within ten days from the date of sentence. In cases referred to a board of review under Article 69, Uniform Code of Military Justice, the accused will forward such notice within two days after receipt of notice by him of such referral unless he has already forwarded such notice. The notice of representation by civilian counsel will be signed by the accused or his representative and will state the name and address of such civilian counsel. When the accused has forwarded a timely notice of intention to retain civilian counsel, a notice of retainer stating the name and address of such counsel must be received in the Office of the Judge Advocate General within ten days of receipt of the notice of intention. Such civilian counsel will thereafter be notified of the receipt of the record of trial in the Office of the Judge Advocate General, the number of the case, the board to which the case has been referred, and the arrangements made, or to be made, for a hearing.

(2) If the accused has forwarded a timely notice of intention to retain civilian counsel, appellate defense counsel shall be assigned to represent the interests of the accused pending appearance of civilian counsel.

(e) *Failure to request or give notice of appellate counsel.* Failure of an accused to request appellate defense counsel or to give notice of retainer of civilian counsel or of intention to retain civilian counsel within the times prescribed may be regarded as a waiver of such right and a board may take final action in the case. Upon application made to the Judge Advocate General at any time before the board of review has taken final action in a case, and for good cause shown, the times prescribed herein may be extended.

(f) *Mandatory assignment of appellate defense counsel.* In all cases in which the United States is represented by counsel before a board of review, the accused will be assigned appellate defense counsel if not already represented by counsel.

(g) *Direct communication.* Civilian counsel may communicate directly with appellate defense or Government counsel. Appellate defense counsel may render such appropriate assistance in connection with the appellate review of the case as may be requested by civilian counsel.

(h) *Notice of appearance of counsel.* Appellate defense and Government counsel in a case before a board of review will file a written notice of appearance in the Office of the Judge Advocate General within five days of assignment to the case. Civilian counsel will file such notice within ten days from the

date of receipt of the notice of retainer. Unless separate notice of appearance is filed, an assignment of errors, brief, or other formal paper will constitute a notice of appearance.

§ 150.6 Records of trial.

Civilian counsel who do not have a copy of the record of trial may make arrangements with appellate defense counsel to examine a copy of the record of trial in the Office of the Judge Advocate General and to make a copy of the whole or any part thereof without expense to the Government.

§ 150.7 Assignment of errors.

Within fifteen days after appellate defense counsel for the accused has been notified of the receipt of the record in the Office of the Judge Advocate General, appellate counsel for the accused shall file an assignment of errors setting forth separately and particularly each error asserted and intended to be urged (§ 150.21). An original and five clear copies, prepared in accordance with the provisions of § 150.8(a), will be submitted. It will contain the information prescribed in § 150.8(d)(1). A reply to this assignment may be filed within fifteen days. For good cause shown the Judge Advocate General may extend these times.

§ 150.8 Briefs.

(a) *General provisions.* The assignment of errors prescribed in § 150.7 may be included in, or filed in lieu of, a brief for the accused. An original and five clear copies of all briefs will be submitted. Briefs will be typewritten, double-spaced on 8" x 12½" (legal cap) white paper, securely fastened at the top. All references to matters contained in the record will show record page numbers and any exhibit designations.

(b) *Number of briefs.* Appellate counsel will be limited to the filing of one brief for each side unless the board otherwise permits or directs.

(c) *Time for filing.* Any brief for an accused will be filed within fifteen days after his appellate counsel has been notified of the receipt of the record in the Office of the Judge Advocate General. If the Judge Advocate General has directed appellate Government counsel to represent the United States, such counsel may file a brief on behalf of the Government within fifteen days after any brief or an assignment of errors has been filed on behalf of an accused. If no brief is filed on behalf of an accused, a brief on behalf of the Government may be filed within fifteen days after expiration of the time allowed for the filing of a brief on behalf of the accused. For good cause shown the Judge Advocate General may extend the times prescribed herein, giving due notice of such extension to the opposing party.

(d) *General contents.* (1) Each brief will indicate on the cover page (§ 150.22):

(i) The designation of the board of review to which the case has been referred,

(ii) The number of the case, if known, and the caption with designation of parties,

(iii) Title of the document,

(iv) Names and addresses of all counsel submitting the document.

(2) An index containing:

(i) Divisions of the brief, including a summary of the argument,

(ii) Table of authorities cited with references to the page of the brief where cited.

If the brief is less than ten pages long this index may be omitted.

(e) *Contents (Accused)* (§ 150.23). The brief for an accused will contain the following arranged in the order indicated:

(1) A summary of the proceedings showing the findings and sentence as approved and the action of the convening authority thereon;

(2) A concise statement of the facts of the case containing all that is material to the consideration of the questions presented with appropriate page references to the record;

(3) The substance of the errors or points intended to be urged, prepared in accordance with § 150.7:

(4) The argument exhibiting clearly the points of fact and law being presented, citing the authorities and statutes relied upon, and quoting the relevant parts of such authorities and statutes as are deemed to have an important bearing;

(5) A conclusion stating concisely why the case should be decided as urged.

(f) *Contents (Government).* (1) A brief on behalf of the Government will be of like character as that prescribed for the accused except that the matters prescribed in paragraph (e) (1), (2), and (3) of this section need not be given unless deemed necessary in correcting any inaccuracy or omission in the brief of the accused.

(2) Appropriate proof of service of a copy of the brief will appear on the cover sheet when the accused is represented by civilian counsel.

§ 150.9 Hearings.

(a) *Oral arguments.* Cases where the parties are not represented by counsel will be considered as submitted without oral argument. All other cases will be set for argument unless, upon request of counsel, a board permits a case to be submitted without argument. The accused does not have a right to be present at the hearing before the board of review.

(b) *Notice of setting of arguments.* A board of review will give appellate counsel at least ten days notice of the time and place of oral argument, unless waived.

(c) *Time limits.* The length of oral arguments will be within the discretion of a board of review and ordinarily will not exceed thirty minutes for each side.

(d) *Number of counsel; opening and closing.* A board in its discretion may limit the number of counsel making an oral argument. The defense will have the right to make opening and closing arguments.

(e) *Failure to appear.* Failure of appellate counsel to appear at the time and place set for oral argument may be regarded as a waiver thereof and the board may proceed to act on the case as submitted without argument or, in its discretion, may continue the case for argument at a later date, giving due notice thereof.

(f) *Matters outside record.* Matters outside the record of trial will not be presented to or argued before a board of review except with respect to:

(1) A petition for new trial referred to a board under Article 73, Uniform Code of Military Justice,

(2) A question of jurisdiction,

(3) Matters affecting the sanity of an accused tending to show that further inquiry as to his mental condition is warranted in the interest of justice,

(4) Matters as to which judicial notice may be taken in military law.

When requested by the Judge Advocate General, a board of review may hear and report to him on any matter outside the record in mitigation of the sentence, or otherwise in the interest of justice.

§ 150.10 Decisions of a board of review.

(a) *Notice of decisions.* Notice of the decision of a board of review will be accomplished as prescribed in paragraph 100, Manual for Courts Martial, 1951 (16 F. R. 1303). In any case where a board affirms a sentence without opinion, notice upon the accused and appellate counsel for the accused, in accordance with paragraph 100c (1) (*a*), Manual for Courts Martial, 1951, may be accomplished by any equally expeditious means of communication.

(b) *Copies of decisions.* A copy of the decision of a board of review will be furnished appellate counsel for the accused.

§ 150.11 Continuances and interlocutory matters.

Except as otherwise provided in this part a board, in its discretion, may extend any time limits prescribed, may grant continuances for such time and as often as may appear to be just, and may dispose of any interlocutory or other matters, not specifically covered by these rules, in such manner as may appear to be required for a full, fair, and expeditious consideration of the case.

§ 150.12 Reconsiderations.

(a) *General provisions.* A board of review, in its discretion, may on its own motion or upon petition by appellate counsel reconsider its decision in any case within ten days from the time an accused is notified of the decision of the board, provided, a petition for Grant of Review or a Certificate for Review has not been filed with the Court of Military Appeals, or a record of trial for review under Article 67(b)(1) of the Code has not been received by the court.

(b) *Petition for reconsideration.* A petition for reconsideration shall be supported by a certificate of appellate counsel to the effect that the petition is presented in good faith and not for delay, and shall briefly and directly state the grounds for reconsideration including a statement of facts showing jurisdiction in the board. No reply or oral argument will be received on a petition for reconsideration unless ordered by the board. Consecutive petitions, and petitions that are out of time under this rule, will not be received. A petition that is received will delay the inception of the thirty day appeal period prescribed by Article 67 (c) of the Code until the time the accused is notified of the final disposition of his petition by the board.

APPENDIXES

§ 150.21 Appendix 1.

Form for assignment of errors. (§ 150.7.)

IN THE OFFICE OF THE
JUDGE ADVOCATE GENERAL OF THE AIR FORCE[1]

Before Board of Review No. ------

UNITED STATES
v.
Private JOHN RICHARD ROE, U. S. Air Force, AF00000000, 3000th Training Squadron, 4000th Technical Training Group.

Case No. ------. Tried at ----------, on ---------- 19----, before a G. C. M. appointed by CG ---------- Air Force.

ASSIGNMENT OF ERRORS

SUMMARY OF PROCEEDINGS

Upon trial by general court-martial the accused pleaded not guilty to, and was found guilty of, absence without leave from 2 June 1951 until 1 July 1951 in violation of U. C. M. J. Art. 86, and of the larceny of a watch of a value of $75.00 the property of Private Schmidt, in violation of U. C. M. J. Art. 121. On ----------, 19---- he was sentenced to dishonorable discharge, forfeiture of all pay and allowances, and confinement at hard labor for 4 years. The convening authority approved the sentence, forwarded the record of trial to the Judge Advocate General of the ---------- and directed that pending completion of appellate review the accused be transferred to the command of ----------, where he is presently confined in the base stockade, ---------- Air Base, ----------.

ERRORS

The following errors are assigned:

1. The law officer erred in admitting in evidence as Prosecution's Exhibit No. 1, an alleged extract copy of the morning report of the 3000th Training Squadron dated 2 June 1951 (R. 17).

The exhibit shows that the alleged morning report was signed, and indicates that the entry as to the accused's alleged unauthorized absence was made, by Sergeant William Q. Johns, 3000th Training Squadron. Under pertinent regulations in effect at the time the alleged entry was made, a noncommissioned officer was not the proper person to sign the morning report and had no official duty to record the fact of unauthorized absence.

2. The court erred in its findings of guilty of absence without leave (R. 29), as there was no competent evidence of the alleged unauthorized absence.

3. ----------

4. ----------

(a) ---------- ----------,
JOHN J. DOE,

INDEX OF BRIEF

(Omit if brief is less than 10 pages long)

Summary of proceedings.
Statement of facts.
Assignment of errors.
Argument:
I. An extract copy of a morning report entry, which entry was made by a noncommissioned officer who had no official duty to make the entry, is not admissible in evidence as an exception to the hearsay rule.
a. Such an entry is not an official record.
b. The local practice of permitting unauthorized persons to sign morning reports in violation of Departmental regulations cannot create a custom having the force of law so as to impose upon the maker of the writing a duty to record the facts contained therein.
c. An extract copy of an alleged morning report is not a business entry.
II. The improper cross-examination of an accused, who has testified only as to the circumstances under which an alleged confession had been obtained, concerning the issue of guilt or innocence constitutes fatal error.
Conclusion.

AUTHORITY: §§ 155.1 to 155.5–3 issued under R.S. 161, sec. 202, 61 Stat. 500, as amended; 5 U.S.C. 22, 171a. E.O. 10501, Nov. 5, 1953, 18 F.R. 7049; 3 CFR (1953 Supp.) 115; E.O. 10865, Feb. 20, 1960, 25 F.R. 1583.

§ 155.1 General.

§ 155.1–1 Authority.

Part 155 is issued pursuant to the authority vested by law, including Executive Order 10865 (reproduced as Appendix A), in the Secretary of Defense. By an exchange of letters between the Secretary of Defense and the Administrators of the Federal Aviation Agency and the National Aeronautics and Space Administration, and as provided for in section 1(b), Executive Order 10865, the Department of Defense has been authorized to act for and in behalf of the Federal Aviation Agency and the National Aeronautics and Space Administration in the performance of the administrative and personnel services set forth in this Part 155.

§ 155.1–2 Purpose.

(a) The Secretary of Defense and the Administrators of the Federal Aviation Agency, and the National Aeronautics and Space Administration have prescribed specific requirements, restrictions, and other safeguards which they consider necessary to protect (1) releases of classified information to or within United States industry that relate to bids, negotiations, awards, or the performance or termination of contracts with their department or agency, and (2) other releases of classified information to or within industry which their department or agency has responsibility for safeguarding. In this connection, this Part 155 prescribes uniform standards, criteria, and procedures for processing to final determination all cases which come within the scope of the Industrial Personnel Access Authorization Review Program.

(b) Pursuant to the agreement made between the Department of Defense, and the Federal Aviation Agency, and the National Aeronautics and Space Administration (provided for in section 1(b), Executive Order 10865), this Part 155 has been extended to apply to protect the releases of classified information specified in paragraph (a) of this section. The boards and instrumentalities provided for in this Part 155 are hereby authorized to assume jurisdiction over, and as hereinafter provided, to process and make determinations in cases arising out of such releases of classified information.

(c) This Part 155 is issued to conform the Industrial Personnel Access Authorization Review Program to the requirements of Executive Order 10865.

§ 155.1–3 Definitions.

(a) Whenever the words "Department of Defense", or "Department of Defense agency or activity", or "military department" are used in this Part 155, they shall be deemed to include where applicable the Federal Aviation Agency, or the National Aeronautics and Space Administration.

(b) *Access authorization.* An authorization to have access to one or more categories of information classified in accordance with Executive Order 10501. (NOTE: Actual access, when authorized, requires both an access authorization and a "need to know.") In the case of a contractor, an "access authorization" is an authorization for the contractor involved to have access to specific categories of classified information provided such access is (1) required in connection with the bidding, negotiation, award, performance, or termination of contracts with a Department of Defense agency or activity or (2) required in connection with other releases of classified information to or within industry. In the case of a contractor employee, an "access authorization" is an authorization for the employee to have access to specific categories of classified information provided such access is (i) required for the performance of his work with a particular contractor on contracts with a Department of Defense agency or activity or (ii) required in connection with the release of classified information to or within industry.

(c) *Administrator.* The Administrator of the Federal Aviation Agency, or the National Aeronautics and Space Administration.

(d) *Agency case.* A case arising out of the release of classified information to or within industry directly by the Federal Aviation Agency or the National Aeronautics and Space Administration in connection with the bidding, negotiation, award, or performance or termination of a contract by one of those agencies.

(e) *Applicant.* Any person who is eligible to have the matter of granting, revoking, or denying him an access authorization determined or reconsidered under the Industrial Personnel Access Authorization Review Program (Part 155) as provided for in §§ 155.1–6 and 155.5–2.

(f) *Contractor.* An industrial, educational, commercial, or other entity which has executed a contract or a Department of Defense Security Agreement (DD Form 441) with a Department of Defense agency or activity.

(g) *Personal appearance proceeding.* A proceeding before the New York, Washington, or Los Angeles Industrial Personnel Access Authorization Field Board convened and conducted in accordance with this Part 155. The use of the terms "personal appearance proceeding" or "proceeding" in this Part 155 does not imply, and shall not be construed to mean, that such procedures are subject to the provisions of the Administrative Procedure Act, or that the rules of evidence customary in the courts of the United States shall be applied.

§ 155.1–4 Policy.

(a) The responsibilities of the Department of Defense, including those imposed by the President in Executive Order 10865, necessitate application of policies designed to minimize the possibility of compromise incident to placing classified information in the hands of industry. Adequate measures will be taken to insure that no person is granted, or is allowed to retain, an authorization for access to classified information unless the available information justifies a finding that such access authorization, at the specific classification category granted, is clearly consistent with the national interest.

(b) A determination that granting or retaining authorization for access to information of a specific classification category is not clearly consistent with the national interest shall result in denying or revoking authorization for such access. Any determination under this Part 155 adverse to an applicant shall be a determination in terms of the national interest and shall in no sense be a determination as to the loyalty of the applicant concerned. A determination under this Part 67 favorable to an applicant is not, in and of itself, an access authorization; nor is it in any sense a determination that the applicant concerned actually requires access to classified information. Since an access authorization relates only to access to classified information, denying or revoking such an authorization does not preclude participation in unclassified work.

(c) In the absence of the power to subpoena witnesses, the Secretary of Defense, through the Director, Office of Industrial Personnel Access Authorization Review, may issue in appropriate cases invitations and requests to appear and testify, and may defray reasonable and necessary expenses incurred by such witnesses, in order that the applicant may have the opportunity for cross-examination provided by this Part 155. So far as the national security permits, investigative agencies under the control of the Department of Defense shall cooperate by identifying to the Office of Industrial Personnel Access Authorization Review, persons who have made statements adverse to the applicant and by assisting in making such persons available for cross-examination.

(d) All personnel involved in the processing of cases under the Industrial Personnel Access Authorization Review Program shall comply with the applicable directives pertaining to the safeguarding of classified information and the handling of investigative reports. No classified information, nor any information which might compromise investigative sources or methods or the identity of confidential informants, shall be disclosed to any applicant, or to his counsel or representatives, or to any other person not authorized to have access to such information. In cases involving individual applicants, the employer concerned may be advised only of the final determination in the case and of any interim decision to suspend an access authorization previously granted. Except at the written request of the applicant, the Department of Defense shall not release copies of the Statement of Reasons or findings relative thereto outside of the Executive Branch of the Government.

§ 155.1–5 Program.

The Industrial Personnel Access Authorization Review Program is hereby revised, modified, and continued in accordance with this Part 155. The Program shall be administered by the Director, Office of Industrial Personnel Access Authorization Review, who shall have a staff for that purpose. The Office of Industrial Personnel Access Authorization Review shall consist of the following elements:

(a) The Office of the Director.

(b) The Industrial Personnel Access Authorization Screening Board (hereinafter called the Screening Board).

(c) The Industrial Personnel Access Authorization Field Boards (hereinafter called the Field Boards).

(d) The Central Industrial Personnel Access Authorization Board (hereinafter called the Central Board).

§ 155.1–6 Scope of program.

(a) Except as provided in subparagraph (4) of this paragraph the procedures established in this Part 67 shall be applicable to cases in which the applicant is eligible under the Armed Forces Industrial Security Regulation for consideration as to the granting or continuing of an access authorization and in addition thereto:

(1) A Department of Defense agency or activity has recommended that an access authorization of a contractor or contractor employee be denied or revoked;

(2) A Department of Defense agency or activity has suspended an access authorization of a contractor or contractor employee;

(3) A Department of Defense agency or activity has denied or withdrawn a temporary access authorization from an individual, other than a foreign national, who falls within such categories as may be established under this subparagraph (3); or

(4) Action is requested by the Secretary of Defense, or the Secretary of any military department or the Administrator concerned.

(b) Once access authorization has been suspended, or a Statement of Reasons has been issued, or a temporary authorization for access has been withdrawn or denied in the case of applicants included in categories established under paragraph (a) of this section, these procedures may be invoked by an applicant even though his employment has been terminated.

§ 155.2 Organization.

§ 155.2–1 Office of Industrial Personnel Access Authorization Review.

(a) *Organization.* (1) The Office of Industrial Personnel Access Authorization Review shall be established in the Office of the Secretary of Defense and will function under the administrative jurisdiction of the Assistant Secretary of Defense (MP&R). The Office shall be headed by a civilian Director appointed by the Secretary of Defense after consultation with the Assistant Secretary of Defense (MP&R) and the Secretaries of the Army, Navy and Air Force. Policy guidance for the operation of the program including manpower and personnel requirements shall be provided by the Assistant Secretary of Defense (MP&R). The Director shall be responsible for administering the Industrial Personnel Access Authorization Review Program, including its constituent boards; he shall advise and consult with the Secretaries of the Army, Navy and Air Force in carrying out this responsibility. He shall be responsible for ensuring that the Screening, Field and Central Boards are provided with such advice, assistance and personnel, including legal and security advice, as he considers necessary to enable these elements properly to carry out their functions under this Program. He shall have such professional, technical, and clerical staff as he may require to carry out his responsibilities, as set out herein, and such other related responsibilities as may be prescribed. The Director is authorized to obtain information, assistance, and advice directly from any agency or activity of the Department of Defense, and, in accordance with established policies, from other agencies of the Government. He shall prepare monthly reports showing caseloads and the status of pending cases. The Director may issue such supplemental instructions, not inconsistent with this Part 155, as may be desirable for the administration and efficient operation of this Program, including rules for the processing of cases, the conduct of screenings, personal appearance proceedings, determinations and reviews, and for guidance in the application of the standard and criteria set forth in § 155.3. In any particular case, the Director may request additional investigation to be made subject to the provisions of any agreements with investigative agencies outside the Department of Defense.

(2) The Office of Industrial Personnel Access Authorization Review shall be located in the Pentagon and shall be supported administratively by the Office of the Secretary of Defense. The military departments shall make appropriate allocations of funds, military and civilian personnel, and personnel spaces.

(3) Communications shall be addressed to the Director, Office of Industrial Personnel Access Authorization Review, The Pentagon, Washington 25, D.C.

(b) *Department counsel.* The Office of Industrial Personnel Access Authorization Review shall include within its staff a sufficient number of qualified attorneys, who may be stationed in Washington, D.C. or at such other locations as the Director may select, to act as counsel for the Department of Defense in each case in which a personal appearance proceeding is held under this Part 155. When designated by the Director to serve in this capacity, department counsel shall perform the functions normally and customarily associated with said position. Department counsel shall also advise and assist the Screening Board as required, and shall represent the Department of Defense before the Central Board when appropriate.

(c) *Files.* The complete files of all review cases pertaining to industrial personnel shall be maintained by the Department of the Army.

§ 155.2–2 Industrial Personnel Access Authorization Screening Board.

(a) The Screening Board shall be located in the Office of Industrial Personnel Access Authorization Review and shall be responsible for the performance of the duties and functions hereinafter prescribed.

(b) The Secretary of each military department shall appoint one or more members, military or civilian, to the Screening Board as the caseload requires. Appropriate official designated by each Secretary will submit nominations through the Director, who will review the qualifications of each nominee and make an appropriate recommendation to the Secretary concerned. Except as provided in § 155.2–6, any three members so appointed, one from each military department, shall constitute a quorum-panel so that more than one panel may be convened at the same time. The Director shall designate one member to serve as Chairman of the Screening Board.

(c) The Screening Board shall have jurisdiction over all cases which are re-

ferred to it in accordance with this Part 155.

§ 155.2–3 Industrial Personnel Access Authorization Field Boards.

(a) There shall be three field boards, which shall be known as the New York, the Washington and the Los Angeles Industrial Personnel Access Authorization Field Boards and which shall be located in said cities. Additional field boards may be established by the Director with the approval of the Secretaries of the Army, Navy and Air Force. Panels of existing field boards may be convened at other locations to provide prompt and convenient personal appearance proceedings. Each field board shall be responsible for the performance of the duties and functions hereinafter prescribed.

(b) The Secretary of each military department shall appoint one or more members, military or civilian, to each field board as the caseload requires. Appropriate officials designated by each Secretary will submit nominations through the Director, who will review the qualifications of each nominee and make an appropriate recommendation to the Secretary concerned. The Director shall designate either one member of the board or a staff member to serve as administrative director of each board who will be responsible for the immediate operations of the board. A quorum-panel may consist of any one civilian member who is a qualified attorney, or of any three members, one from each military department, of whom at least one shall be a civilian and at least one shall be a qualified attorney. When a panel of three members is convened, the administrative director shall designate one member to act as Chairman. A quorum-panel may exercise all of the authority conferred on the board or Chairman by this Part 155.

(c) Each field board will have jurisdiction over all cases referred to it in accordance with this Part 155.

§ 155.2–4 Responsibilities of military departments for Administrative support.

(a) Except as provided in paragraph (b) of this section, the field boards shall be supported administratively by the following military departments, which shall appoint such other personnel as may be required by the Director to assist each field board:

New York Industrial Personnel Access Authorization Field Board Department of the Army.

Washington Industrial Personnel Access Authorization Field Board Department of the Air Force.

Los Angeles Industrial Personnel Access Authorization Field Board Department of the Navy.

(b) Whenever, pursuant to direction of the Director, a panel of a field board established under § 67.2–3(a), is convened at any of the following named locations, the commanders named, respectively, shall arrange or provide for the administrative support needed by such board panel in order to discharge its official business at such locations:

Alaska: Commander, Alaskan Air Command.

Virgin Islands, Canal Zone, and Puerto Rico: Commanding General, USA, Carribean.

Guam, American Samoa, Wake, Midway, Guano Island and Hawaii: Commandant, 14th Naval District.

(c) Where a panel of a field board is convened at a location other than its principal office or at a location outside the jurisdiction of the commanders named in paragraph (b) of this section, the military department requested by the Director shall provide space, facilities and clerical personnel for each personal appearance proceeding and for the prompt making of a verbatim transcript thereof.

(d) As a verbatim transcript will be required of each personal appearance proceeding before a field board, it is the responsibility of each of the above mentioned commanders to provide the necessary personnel and facilities for the prompt making of such transcripts.

§ 155.2–5 Central Industrial Personnel Access Authorization Board.

(a) There is hereby established a Central Board, which shall be located in the Office of Industrial Personnel Access Authorization Review, and shall be responsible for the performance of the duties and functions hereinafter prescribed.

(b) The Secretary of each military department shall appoint one or more members, military or civilian, to the Central Board as the caseload requires. Appropriate officials designated by each Secretary will submit nominations through the Director, who will review the qualifications of each nominee and make an appropriate recommendation to the Secretary concerned. The Director shall designate one member to serve as Chairman of the Central Board. Except as provided in § 155.2–6, any three members so appointed, one from each military department, shall constitute a quorum-panel so that more than one panel may be convened at the same time. One of the members of each quorum-panel must be a qualified lawyer and each quorum-panel shall include at least one civilian.

(c) The Central Board shall have jurisdiction over all cases referred to it in accordance with this Part 155.

§ 155.2–6 Composition of boards in agency cases.

(a) Whenever an agency case is referred for consideration and determination under the Program the Administrator concerned shall be entitled to appoint one member to the Screening Board and two members to the Central Board. Such appointments shall conform to the requirements of § 155.2–7.

(b) Whenever an agency case is referred to the Screening or Central Boards, the Director shall notify the Administrator concerned thereof. The Administrator, or his designee, shall, in their absolute discretion, exercise or waive the right of his agency to be represented on the board involved and shall notify the Director thereof in writing, which notification shall be made a permanent part of the record in the case. If the right is exercised, the Screening Board panel to which the case is referred shall consist of four members and the Central Board panel of five members, instead of the usual three members; if it is waived the board shall be constituted as provided in § 155.2–2, or § 155.2–5.

§ 155.2–7 Access authorization of nominees.

No person shall be appointed Director, board member, or staff member under this Program until such person has been granted an authorization for access to Top Secret information, or its equivalent, based on a background investigation.

§ 155.3 Standard and criteria.

§ 155.3–1 Standard for issuing an access authorization.

Authorization for access to classified information of a specific classification category shall be granted or continued only if it is determined that such access by the applicant is clearly consistent with the national interest.

§ 155.3–2 Criteria for application of standard in cases involving individuals.

(a) Commission of any act of sabotage, espionage, treason, or sedition or attempts thereat or preparation therefor, or conspiring with, or aiding or abetting, another to commit or attempt to commit any act of sabotage, espionage, treason or sedition.

(b) Establishing or continuing a sympathetic association with a saboteur, spy, traitor, seditionist, anarchist, revolutionist, or with an espionage agent or other secret representative of a foreign nation whose interests may be inimical to the interests of the United States, or with any person who advocates the use of force or violence to overthrow the Government of the United States or the alteration of the form of Government of the United States by unconstitutional means.

(c) Advocacy of use of force or violence to overthrow the Government of the United States, or of the alteration of the form of Government of the United States by unconstitutional means.

(d) Membership in, or affiliation or sympathetic association with, or participation in the activities of any foreign or domestic organization, association, movement, group, or combination of persons which is totalitarian, fascist, communist, or subversive, or which has adopted or shows, a policy of advocating or approving the commission of acts of force or violence to deny other persons their rights under the Constitution of the United States, or which seeks to alter the form of Government of the United States by unconstitutional means.

(e) Intentional, unauthorized disclosure to any person of classified information, or of other information, disclosure of which is prohibited by law.

(f) Performing or attempting to perform his duties, or otherwise acting, so as to serve the interests of another government in preference to the interests of the United States.

(g) Participation in the activities of an organization established as a front for an organization referred to in paragraph (d) of this section, under circumstances indicating that his personal views were sympathetic to the subversive purposes of such organization.

(h) Participation in the activities of an organization with knowledge that it had been infiltrated by members of subversive groups under circumstances indicating that the individual was a part of, or sympathetic to, the infiltrating element or sympathetic to its purposes.

(i) Sympathetic interest in totalitarian, fascist, communist, or similar subversive movements.

(j) Sympathetic association with a member, or members, or an organization referred to in paragraph (d) of this section. (Ordinarily, this will not include chance or occasional meetings, nor contacts limited to normal business or official relations.)

(k) Currently maintaining a close continuing association with a person who has engaged in activities or associations of the type referred to in paragraph (a) through (i) of this section. A close continuing association may be deemed to exist if the individual lives at the same premises as, frequently visits, or frequently communicates with such person.

(l) Close continuing association of the type described in paragraph (k) of this section, even though later separated by distance, if the circumstances indicate that renewal of the association is probable.

(m) Willful violation or disregard of security regulations.

(n) Any behavior, activities, or associations which tend to show that the individual is not reliable or trustworthy.

(o) Any deliberate misrepresentations, falsifications or omission of material facts from a Personnel Security Questionnaire, Personal History Statement, or similar document.

(p) Any criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, habitual use of intoxicants to excess, drug addiction, or sexual perversion.

(q) Acts of a reckless, irresponsible or wanton nature which indicate such poor judgment and instability as to suggest that the individual might disclose classified information to unauthorized persons, or otherwise assist such persons, whether deliberately or inadvertently, in activities inimical to the national interest.

(r) Any illness, including any mental condition, of a nature which, in the opinion of competent medical authority, may cause significant defect in the judgment or reliability of the employee, with due regard to the transient or continuing effect of the illness and the medical findings in such case.

(s) Any facts which furnish reason to believe that the individual may be subjected to coercion, influence, or pressure which may be likely to cause action contrary to the national interest.

(t) The presence of a spouse, parent, brother, sister, or offspring in a nation whose interests may be inimical to the interests of the United States, or in satellites or occupied areas of such a nation, under circumstances permitting coercion or pressure to be brought on the individual through such relatives which may be likely to cause action contrary to the national interest.

(u) Refusal by the individual, without satisfactory subsequent explanation, to answer questions before a Congressional or legislative committee, or Federal or State court or other tribunal, regarding charges of his alleged disloyalty or other misconduct.

§ 155.3–3 Guidance for the application of the standard and criteria.

(a) The activities and associations listed in § 155.3–2, describe conduct which may, in the light of all the surrounding circumstances, be the basis for denying or revoking an access authorization. The conduct varies in implication, degree of seriousness and significance depending upon all the factors in a particular case. Therefore, the ultimate determination of whether an authorization should be granted or continued must be an over-all common-sense one on the basis of all the information which may properly be considered under this Part 155 including but not restricted to such factors, when appropriate, as the following: the seriousness of the conduct, its implications, its recency, the motivations for it, the extent to which it was voluntary and undertaken with knowledge of the circumstances involved and, to the extent that it can be estimated and is appropriate in a particular case, the probability that it will continue in the future.

(b) Legitimate labor activities shall not be considered in determining whether access authorization should be granted or continued.

(c) It is essential to the efficient, economical, and equitable operation not only of the Industrial Personnel Access Authorization Review Program, but of the total procedures whereby the Department of Defense authorizes access to classified information, that applicants provide full, frank and truthful answers when they complete official questionnaires or other similar documents, or respond to official inquiries. Accordingly, the deliberate giving of false or misleading testimony or information on relevant matters, may be sufficient standing alone to justify denying or revoking access authorization and shall be weighed carefully before a determination is reached under this Program.

(d) The granting or continuing of an authorization for access to a contractor is not clearly consistent with the national interest if the access authorization of an owner, officer, director, or any executive of the contractor who is required to have such an access authorization, has not been, or would not be, granted under the standard and criteria set forth in §§ 155.3–1 and 155.3–2.

§ 155.4 Processing of cases.

§ 155.4–1 Emergency action.

Department of Defense activities or agencies may not make a final determination denying or revoking an authorization for access. In exceptional cases officials authorized by the military department concerned may suspend an authorization previously granted to an individual (but not to a facility) when, in the opinion of the authorized official, the individual's continued access to classified information, pending action by the Screening Board, would constitute an immediate threat to the national interest. Any such suspension action shall be reviewed by the Screening Board to determine its propriety.

§ 155.4–2 Forwarding cases.

Department of Defense activities or agencies shall forward to the Director all cases prescribed in § 155.1–6(a), together with the complete file, including the recommendation in the case, the reasons therefor, and all other available information and material relevant to a determination. After ensuring that the file has been properly prepared and transmitted, the Director shall forward it to the Screening Board for appropriate action.

§ 155.4–3 Initial adjudication procedures (Screening Board action).

(a) The Screening Board shall review each case referred to it by the Director and shall determine in accordance with the standard and criteria set forth in § 155.3 of this Part 155 whether the reported information warrants (1) authorizing or continuing to authorize access at the specific classification category requested or (2) further processing as set forth below.

(b) With respect to any case pending before it, the Screening Board may request the Director to:

(1) Request further investigation, specifying the particular points on which the Board feels its information is not adequate.

(2) Issue to the applicant such written interrogatories as the Board may deem desirable.

(3) Arrange for an interview with the applicant.

(4) Arrange for an interview with any witness who has given information relevant to a decision in the case.

(c) The Screening Board may, with respect to any case pending before it, determine at any time that an existing authorization shall be suspended. Upon any such determination, the Director shall notify the applicant, the contractor, the office of the cognizant military department and the agency or activity which forwarded the case to him.

(d) If the Screening Board determines that access at the specific classification category requested should be granted or continued in effect, it shall prepare its determination in accordance with the instructions set out in paragraph (i) of this section. The Director shall notify the agency or activity which forwarded the case to him of the determination and instruct it to effect the authorization where appropriate. The Screening Board shall reconsider its determination at the request of the Secretary of Defense, the Secretary of a military department, or the Administrator concerned.

(e) If the Screening Board concludes on the basis of the information available

to it and in accordance with the standard and criteria set forth in § 155.3 that the case does not warrant a determination favorable to the applicant, it shall prepare a Statement of Reasons informing the applicant of the grounds upon which his access authorization may be defined or revoked. This Statement of Reasons shall be as comprehensive and detailed as the national security permits. At the time a Statement of Reasons is issued, any access authorization previously granted for Secret or Top Secret shall be suspended or limited to Confidential unless such access authorization was granted pursuant to board action under any industrial personnel review program in which case the Screening Board shall determine whether the access authorization should be suspended or limited. The Screening Board shall also determine whether any access authorization previously granted for Confidential should be suspended or limited.

(f) The Director shall forward the Statement of Reasons and a copy of this Part 155 to the applicant and shall inform him of the status of his access authorization pending a final determination. An applicant who has been served with a Statement of Reasons and who has filed under oath or affirmation a written reply thereto which complies with the requirements of paragraph (g) of this paragraph shall be afforded:

(1) An opportunity to appear personally before a field board for the purpose of supporting his eligibility for access authorization and of presenting evidence in his own behalf.

(2) A reasonable time to prepare for that appearance.

(3) An opportunity to be represented by counsel without cost to the Government.

(4) The opportunity to cross-examine adverse witnesses prescribed in § 155.4–5 (b).

(g) Before an applicant is afforded an opportunity to make a personal appearance before a field board he must submit a detailed written answer under oath or affirmation specifically admitting, denying or disclaiming knowledge of each allegation and each supporting fact alleged in the Statement of Reasons. The applicant's answer must either admit or deny each allegation or supporting fact, giving such explanation as may be available to him, or disclaim knowledge thereof. A general denial or other similar answer is not sufficient. The applicant must set out his position with sufficient particularity to disclose the basis thereof, in order that the Department of Defense may determine in advance of the personal appearance proceeding whether the allegations and supporting facts are wholly denied, denied in part, or wholly admitted and make arrangements to produce such information in support as may be required. The Director may decline to accept answers which do not meet the above requirements and, upon notice to the applicant, may refuse to continue to process his application. In that event, the Director shall suspend any access authorization then in effect and give appropriate notice. In the alternative, the Director may forward the case to a field board which may treat allegations or supporting facts with respect to which the Director finds the answer is insufficient as established for the purpose of making a determination under this Program.

(h) Where the applicant:

(1) Files an answer which complies with paragraph (g) of this section, and requests a personal appearance proceeding, or where, although the answer is insufficient, the Director elects to proceed as provided for in said paragraph (g) of this section, the Director shall assign the case to a field board for a proceeding.

(2) Files an answer which complies with paragraph (g) of this section, but elects not to request a personal appearance proceeding, the Director shall assign the case to the Central Board for determination on the basis of all available information including the answer and all documents in support thereof.

(3) Does not answer, the Director shall instruct the department which forwarded the case to deny or revoke access authorization, as appropriate, and shall advise the applicant.

(i) All determinations by the Screening Board shall be made in executive session. A determination to grant or continue access authorization shall be by unanimous vote. No person other than members of the Board shall be present when the Board deliberates and reaches its determination.

(j) Decisions adverse to the applicant announced by the Director in accordance with paragraph (h)(3) of this section, may be reconsidered by the Screening Board at the request of the Director, or at the request of the applicant addressed through the Director, after a finding by the Screening Board that there is newly discovered evidence or that other good cause has been shown.

§ 155.4–4 Personal appearance.

(a) Promptly after being notified by the Director that a case has been referred for a personal appearance proceeding, the Chairman of the field board shall set a time and place for the proceeding and inform the applicant thereof. Personal appearance proceedings shall be held as soon as practicable, allowing the applicant and the Department of Defense a reasonable time to prepare. Postponements may be granted by the Chairman in his sound discretion upon application by either party with notice to the other.

(b) Normally, a personal appearance proceeding shall be held at the home office of the field board concerned. When the applicant so requests and when in the discretion of the Chairman equity to him requires that the proceeding be held in a different place, or when the interests of the government would be served thereby, field boards, subject to the overall authority of the Director, may arrange to convene at such times and places as will best meet the above objectives.

(c) It is to the advantage of both the applicant and the Department to shorten and simplify the proceedings before the field board by stating the issues and arriving at an agreed-upon version of the facts in the case when it is possible to do so. Department counsel is authorized to consult directly with the applicant, or if he has counsel or representative, with them, for purposes of reaching mutual agreement upon arrangements for an expeditious proceeding in the case. Such arrangements may include clarification of issues, and stipulations with respect to testimony and the contents of documents and other physical evidence. Such stipulations when entered into shall be binding upon the applicant and the Department of Defense for the purpose of these proceedings.

(d) The applicant is responsible for producing witnesses in his own behalf or presenting other evidence before the field board to support his reply to the Statement of Reasons. When specific assistance is requested, however, the department counsel and the Chairman of the field board may provide such assistance, upon a showing that it is practicable and necessary. In the Chairman's sound discretion, invitations to attend the proceeding as witnesses in the applicant's behalf, or requests for specific documents or other physical evidence, may be tendered upon application, provided a showing of the necessity for such assistance has been made.

(e) Department counsel is responsible for producing at the proceeding witnesses and information relied upon by the Department to establish these facts alleged in the Statement of Reasons which have been controverted. Every reasonable and practicable effort shall be made to obtain witnesses and to facilitate their appearance in accordance with the policy set out in § 155.1–4(c). When requested all Department of Defense agencies and activities shall cooperate in carrying out this policy.

(f) Where an applicant who has requested an opportunity to appear fails without sufficient reason therefor to appear at the time and place set for the proceeding, or at any postponement thereof, and has not requested that his case be determined on the basis of all available information including any written material he may have submitted, the field board shall return the case to the Director without further action. The Director shall then take action under § 155.4–3(b)(3).

§ 155.4–5 Procedures for personal appearance proceedings.

(a) *General provisions.* (1) Personal appearance proceedings are designed to ascertain all the relevant facts in a case to aid in reaching fair and impartial determinations. Such proceedings are not to be conducted with the formality of a court proceeding or of an administrative hearing conducted under the Administrative Procedure Act, but rather as administrative inquiries held for the purpose of affording the person concerned an opportunity to appear for the purpose of supporting his eligibility for an access authorization and to permit the Department of Defense to inquire fully into the matters related to the particular case. As provided in paragraph (b)(1) of this section, the customary rules of evidence shall not be controlling.

(2) Personal appearance proceedings conducted under this Part 155 are not adversary in nature. Nevertheless, a careful and searching inquiry into the facts is necessary if the objectives of this Part 155 are to be effectuated. Field Boards shall be alert to the necessity for identifying and resolving disputed issues of fact whenever possible and shall make their rulings with these considerations in mind.

(3) Personal appearance proceedings shall be conducted in an orderly manner and in an atmosphere of dignity and decorum. They may be attended only by the members of the field board, the applicant and his counsel or representatives, authorized personnel of the Department of Defense and necessary clerical personnel. Unless the Chairman of the field board rules otherwise, a witness may be present only when he is testifying.

(4) The Director shall designate a qualified attorney to represent the Department of Defense and to act as department counsel in each case. He shall represent the Department, and shall be responsible for making a complete record and for placing before the field board all material which may properly be incorporated therein. He shall question Department of Defense witnesses and cross-examine witnesses produced by the applicant, although the field board may also question any witness.

(5) After the proceeding has been convened, and the Statement of Reasons and the applicant's answer thereto have been entered into the record, normally the applicant shall have the right to make a general opening statement either in person or by counsel, and to present his case. He may call witnesses, testify in his own behalf if he so desires and present documents, or other information, in support of his application for access authorization and cross-examine witnesses produced by the Department of Defense.

(6) Witnesses before the field board shall testify subject to the provisions of sec. 1001, Title 18, U.S. Code. Before testifying they shall be informed that said section makes it a criminal offense punishable by a maximum of five years imprisonment, $10,000 fine, or both, knowingly and willfully to make a false statement or representation to any department or agency of the United States as to any matter within the jurisdiction of any department or agency of the United States. Written interrogatories must be sworn to before a notary public or other official authorized to administer oaths.

(7) When appropriate the field board shall amend the Statement of Reasons to conform it with the information available and enter the amendment into the record. When such amendments are made, the Chairman of the field board shall grant the applicant such additional time as, in his sound discretion, he deems appropriate to answer such amendments and to secure and present evidence pertaining thereto.

(8) The field board may recess the proceeding at any time at the request of the applicant or his counsel, department counsel, or upon its own motion.

(9) Before the Chairman of the field board adjourns the proceeding, he shall ask the applicant whether he desires additional time to secure and present additional evidence or to submit a brief. If the applicant desires to present such additional material, the field board shall determine the time within which it must be presented and the form in which it will be received. The Chairman shall also advise the applicant that announcement of the determination in his case will be made by the Director, Office of Industrial Personnel Access Authorization Review.

(10) A verbatim transcript (in triplicate) shall be made of the proceedings and such transcript shall become a permanent part of the record. The transcript shall not include information introduced in accordance with the provisions of paragraph (b)(5) and (6) of this section. The applicant or his designated representative shall be furnished without cost one copy of the transcript, less the exhibits, upon his request. The transcript shall be reviewed by the board prior to release to ensure that it contains no classified information, nor any information which might compromise investigative sources or methods or the identity of confidential informants.

(11) If the applicant or his counsel desires to submit corrections in the transcript to the field board, he shall note the corrections on a separate statement designating the page and line. The statement of corrections must be filed within the time set by the field board which shall determine what corrections are allowable, shall enter on the transcript by marginal notation the corrections which are allowed, and shall enter on the statement filed by the applicant the corrections which are rejected. This statement shall be made a permanent part of the record. The Chairman of the field board in his discretion may call upon the applicant or his counsel for a discussion of the corrections. Corrections shall be allowed solely for the purpose of conforming the transcript to the actual testimony.

(12) Whenever the field board concludes with respect to an issue of fact that the investigation is inadequate or that all of the information has not been fully developed or explored, it may request that further investigation be conducted and in appropriate cases may recess the proceeding pending such investigation. Such requests shall be addressed to the Director through the department counsel. Information developed through supplemental investigation shall be made available to the board in the same manner as information developed in the original investigation.

(b) *Introduction of information.* (1) The record shall consist exclusively of all information presented by the Department of Defense in accordance with this Part 155, together with all information submitted by the applicant. The record shall not be limited to evidence admissible in the courts of the United States. Any oral or documentary evidence may be received if otherwise admissible under this Part 155 and accorded the weight deemed appropriate, but irrelevant, immaterial or unduly repetitious material may be excluded, in the sound discretion of the Chairman of the field board. Efforts shall be made to obtain the best evidence available.

(2) Unless permitted by subparagraphs (5) and (6) of this paragraph, the record may contain no information adverse to the applicant on any controverted issue unless (i) the information or its substance has been made available to the applicant and he offers no objection to its presentation; or (ii) the information or its substance is made available to him and the applicant is afforded an opportunity to cross-examine the person providing the information either orally or by written interrogatories. The foregoing shall not apply to information bearing upon the characterization in the Statement of Reasons of any organization or individual other than the applicant. Information the admission of which is not prohibited by this subparagraph (2), or by any other provision of this Part 155, may be received and made part of the record and may be considered by any board or official charged with making determinations under this Part 155.

(3) Prior to the referral of a case to a field board for a personal appearance proceeding, the Director, Office of Industrial Personnel Access Authorization Review, upon application by either the applicant or the department counsel, shall rule whether, in the light of all the circumstances, testimony shall be taken personally, by deposition, or through cross-interrogatories. In making this ruling, the Director shall exercise his sound discretion and shall state his reasons therefor. He may direct the applicant or his counsel, and department counsel to frame written interrogatories and upon application by either party shall rule upon the relevancy and materiality of any question to be incorporated therein. Once the case has been referred to the field board, the Chairman of the field board shall perform this function. Any action taken by the Director under this subparagraph (3) shall be reflected in the record where appropriate.

(4) Notwithstanding any other provision of this Part 155, records compiled in the regular course of business, or other physical evidence other than investigative reports as such, may be received and considered subject to rebuttal without authenticating witnesses, provided such information has been furnished by an investigative agency pursuant to its responsibilities in connection with assisting the Secretary of Defense or the Administrator of the Federal Aviation Agency or the National Aeronautics and Space Administration to safeguard classified information within industry pursuant to Executive Order 10865. Such documents shall be exhibited to the applicant and when received by the field board shall be made a part of the record in the case.

(5) Records compiled in the regular course of business, or other physical evidence other than investigative reports as

such, relating to a controverted issue, which, because they are classified, may not be inspected by the applicant, may be received and considered provided that (i) the Secretary of Defense or when appropriate, the Administrator of the Federal Aviation Agency or the National Aeronautics and Space Administration, or the Director, Office of Industrial Personnel Access Authorization Review, who has been designated as their special designee for that purpose pursuant to section 5b, Executive Order 10865, has made a preliminary determination that said physical evidence appears to be material, and that failure to receive and consider it would, in view of the level of access sought, be substantially harmful to the national security, and (ii) to the extent that the national security permits, a summary or description of said physical evidence shall be made available to the applicant. In every such case, information as to the authenticity and accuracy of such physical evidence furnished by the investigative agency involved shall be considered.

(6) A written or oral statement by a person adverse to the applicant on a controverted issue, and not relating to the characterization in the Statement of Reasons of any organization or individual other than the applicant, may be received and considered without affording an opportunity to cross-examine the person making the statement only in circumstances described in either of the following subdivisions (i) and (ii), provided however that a summary of the statement as comprehensive and detailed as the national security permits shall be made available to the applicant:

(i) The head of the department supplying the statement certifies that the person who furnished the information is a confidential informant who has been engaged in obtaining intelligence information for the Government and that disclosure of his identity would be substantially harmful to the national interest.

(ii) The Secretary of Defense or when appropriate, the Administrator of the Federal Aviation Agency or the National Aeronautics and Space Administration, or the Director, Office of Industrial Personnel Access Authorization Review, who has been designated as their special designee for that particular purpose pursuant to paragraph 4a(2) of Executive Order 10865, has preliminarily determined, after considering information furnished by the investigative agency involved as to the reliability of the person and the accuracy of the statement concerned, that the statement concerned appears to be reliable and material, and has determined that failure to receive and consider such statement would, in view of the level of access sought, be substantially harmful to the national security and that the person who furnished the information cannot appear to testify (*a*) due to death, severe illness, or similar cause, in which case the identity of the person and the information to be considered shall be made available to the applicant, or (*b*) due to some other cause determined by the Secretary or the Deputy Secretary of Defense, or when appropriate, by the Administrator or Deputy Administrator of the Federal Aviation Agency or the National Aeronautics and Space Administration to be good and sufficient.

(7) A written or oral statement of a person relating to the characterization in the Statement of Reasons or any organization or individual other than the applicant may be received and considered without affording the applicant an opportunity to cross-examine the person making the statement, irrespective of whether the statement is adverse to the applicant or relates to a controverted issue, provided the applicant is given notice that it has been received and may be considered by the board, and is informed of its contents to the extent permitted by § 155.1–4 of this part 155.

(8) Whenever information is made a part of the record under the exceptions authorized by subparagraph (5) or (6) (i) or (ii) of this paragraph, the record shall contain certificates evidencing that the determinations required therein have been made. Such certificates shall include the reasons therefor and shall be made available to the applicant unless their disclosure is prohibited by § 155.1–4 of this Part 155.

(9) In any case where information is received by the field board pursuant to subparagraph (5) or (6) (i) or (ii) of this paragraph, a final determination adverse to the applicant in a Department of Defense case shall be made only by the Secretary of Defense, and in an agency case by the Administrator of the Federal Aviation Agency or of the National Aeronautics and Space Administration, as appropriate, based upon their personal review of the case.

§ 155.4–6 Field Board's report.

(a) As promptly as possible after the proceeding and after full consideration of the record and of any arguments made or briefs submitted, the field board shall prepare a report which shall include a recommended decision in the case, prepared in accordance with the standard and criteria set forth in § 155.3. The field board's report shall contain a recitation of the questions presented, a summary of the evidence received, findings of fact with respect to each allegation made, and its conclusion on each question presented for consideration. The field board's report shall be forwarded through the Director to the Central Industrial Personnel Access Authorization Board. The report shall not be made available to the applicant.

(b) Whenever an applicant has made a personal appearance before a field board, a decision adverse to him may be made only on grounds stated in the Statement of Reasons and any amendments thereto and must be based upon a record that is in conformity with Executive Order 10865 and this Part 155. A field board or the Central Board may not receive or consider any information with respect to any fact in issue, unless such information is made available to such board in accordance with this Part 155.

(c) In every case where applicable, the field board shall give appropriate consideration to the fact that the applicant did not have the opportunity to inspect classified information or to identify or cross-examine persons constituting sources of information. It shall also give appropriate consideration to whether information was given under oath or affirmation, and whether or not the person concerned has had an opportunity to rebut it. In every case where classified physical evidence is involved, information as to the authenticity and accuracy of said physical evidence furnished by the investigative agency shall be considered.

§ 155.4–7 Action by the Central Industrial Personnel Access Authorization Board.

(a) Whenever a case is referred to the Central Board, it shall make a final determination subject to the provisions of § 155.4–9(c) of this Part 155, in cases which do not fall within the provisions of § 155.4–5(b) (5) or (6) (i) or (ii), specifying the specific category of classified information to which access shall be granted or continued where appropriate.

(b) In cases where the provisions of § 155.4–5(b) (5) or (6) (i) or (ii) apply, the Central Board shall (1) prepare a final determination where the decision is to grant or continue access at the specific classification category requested, or (2) where it concludes that access at that specific classification category is not warranted, it shall so notify the Director.

(c) Before the Central Board makes a final decision, it shall take the following action, as applicable:

(1) If the board reaches a tentative decision adverse to the applicant, it shall, through the Director, give notice thereof to the applicant together with notice of its proposed findings for or against him with respect to each allegation in the Statement of Reasons, and shall provide him with an opportunity to make an appearance before it, in person or by counsel, or to file a written brief. Within ten (10) calendar days after his receipt of such notice, the applicant may file with the board a written notice of intention to appear or to file a written brief. If the applicant files such written notice of intention, the board shall fix as early a date as practicable for filing a written brief or making a personal appearance before it, and, through the Director, shall give notice thereof to both the applicant and department counsel and at the same time shall furnish department counsel with copies of the tentative decision and proposed findings as previously furnished to the applicant.

(2) If the board reaches a tentative decision favorable to the applicant, it shall, through the Director, give notice thereof to the department counsel together with notice of its proposed findings for or against the applicant with respect to each allegation in the Statement of Reasons, and shall provide department counsel with an opportunity to make an appearance before it, or to file a written brief. Within ten (10) calendar days after receipt of this notice, department counsel may file with the board a written notice of intention to appear or to file a written brief. If department counsel files such written notice of intention, the board shall fix as early a date as practicable for filing written brief or making personal appearance before it, and, through the Director, shall give notice thereof to both department counsel and the applicant and at the same time shall furnish the applicant with copies of the tentative decision and proposed findings as previously furnished to department counsel.

(3) Personal appearances before the Central Board and written briefs filed with the Central Board are intended to permit the applicant and department counsel to present their positions based exclusively upon the record made before the field board, and shall not be used as a substitute for proceedings before such a board. Argument may be made, but witnesses shall not be heard and testimony shall not be taken.

(4) Under subparagraphs (1) and (2) of this paragraph, when the applicant or department counsel, as the case may be, has filed a written notice of intention, the other shall be entitled at the designated time to appear personally or file a written brief as he may prefer. Failure by him to utilize this opportunity shall be deemed a waiver thereof.

(5) After the applicant and department counsel have submitted written briefs or appeared before the Central Board, as provided in subparagraphs (1) and (2) of this paragraph, the board shall reach a final determination in all cases in which it is authorized to do so, and shall refer all other cases to the Director for action by him in accordance with § 155.4–8 of this Part 155. If the applicant under subparagraph (1) of this paragraph, or department counsel under subparagraph (2) of this paragraph, fails to file written notice of intention, or fails, after filing such notice, to appear or file a written brief in a timely manner, the tentative decision of the board shall automatically become final in all cases in which the board is authorized to make a final determination and notice thereof shall be given in accordance with § 155.4–9; in all other cases the tentative decision shall be referred to the Director for action by him in accordance with § 155.4–8.

(d) In reaching a determination or conclusion as hereinabove provided, the Central Board may adopt, modify or reverse the findings, conclusion, or recommendation of the field board, or may request further investigation or may return the case through the Director to the field board with instructions to take further testimony or conduct other proceedings. In each case it shall consider the matters set out in § 155.4–6(c).

(e) In cases in which it is authorized to reach a final determination, the Central Board shall prepare an opinion which shall include an analysis of the evidence, findings of fact and the reasoning on which the determination is based. The determination shall be reached by majority vote, shall be signed by the members, and made a permanent part of the record in the case. If a determination is not unanimous, a minority opinion shall be filed.

§ 155.4–8 Action by the Secretary of Defense or the Administrators.

Whenever a case falls within the provisions of §§ 155.4–5(b) (5) or (6) (i) or (ii), and the Central Board concludes that access at the specific classification category requested is not warranted, the Director shall forward the case to the Secretary of Defense or the Administrator of the Federal Aviation Agency, or the National Aeronautics and Space Administration as appropriate for determination. The determination shall include a review of any determinations made pursuant to § 155.4–5(b) (6) (ii) (*b*) by any official other than the Secretary or the Administrator.

§ 155.4–9 Procedure after final determinations.

(a) Final determinations reached by the Central Board shall be announced by the Director who shall notify the applicant of the determination in his case. Where the determination is favorable to the applicant he shall be notified only of the final conclusion reached. Where the determination is adverse to the applicant, he shall be notified only of (1) the final conclusion reached, and (2) whether a finding was for or against him with respect to each allegation in the Statement of Reasons. The Director shall also give appropriate notice to the other parties concerned.

(b) Final determinations reached by the Secretary of Defense or the Administrator concerned shall be announced by the Director. Where the determination is favorable to the applicant he shall be notified only of the final conclusion reached. Where the determination is adverse to the applicant, he shall be notified only of (1) the final conclusion reached and (2) whether a finding was for or against him with respect to each allegation in the Statement of Reasons. The Director shall also give appropriate notice to the other parties concerned.

(c) Determinations of the Central Board shall be final subject only to:

(1) Reconsideration on its own motion, or at the request of the applicant, addressed through the Director, after it has made a finding that there is newly discovered evidence or that other good cause has been shown.

(2) Reconsideration by the Central Board at the request of the Secretary of Defense, the Secretary of any military department, the Director, or when appropriate, the Administrator concerned.

(3) Reversal by the Secretary of Defense or in agency cases reversal by the Administrator concerned after consultation with the Secretary of Defense.

§ 155.4–10 Authority of the Secretary of Defense, and the Administrators, Federal Aviation Agency and the National Aeronautics and Space Administration.

Nothing contained in this Part 155 shall be deemed to limit or affect the responsibility and powers of the Secretary of Defense or of any Administrator personally, and without respect to this Part 155, to deny or revoke an access authorization in a case affecting his department or agency when he personally determines that the provisions of this Part 155 cannot be invoked consistent with the national security and that the security of the nation requires such denial or revocation of access authorization. Such determination shall be conclusive.

§ 155.5 Miscellaneous.

§ 155.5–1 Pending cases.

All cases presently pending in the Office of Industrial Personnel Access Authorization Review or before any board constituted under any industrial personnel review program shall be processed under this Part 155 unless a Statement of Reasons has been issued in the case and the applicant has been afforded a personal appearance proceeding substantially in accordance with the provisions of this Part 155.

§ 155.5–2 Reconsideration of prior decisions.

(a) Decisions rendered under any industrial personnel review program prior to the effective date of this Part 155 which denied or revoked an access authorization may be reconsidered by such boards as the Director deems appropriate at the request of the applicant, addressed through the Director, after a finding by the appropriate board that there is newly discovered evidence or that other good cause has been shown. Whenever a final determination of denial or revocation based upon a personal appearance proceeding is found to have been unauthorized at the time it was made, authority is hereby delegated to the Director, Office of Industrial Personnel Access Authorization Review, to vacate such final determination and all subsequent administrative action predicated thereon and to take such other steps as may be deemed necessary to complete reconsideration of the case.

(b) In cases where an access authorization has been previously granted and a Department of Defense agency or activity receives additional derogatory information which was not considered by a board at the time it decided the case, such agency or activity, when it is of the opinion, after reviewing the complete file including the record of any prior proceedings, that revocation of said authorization is warranted, shall forward the case to the Director through appropriate channels for referral to the Screening Board in accordance with § 155.4–2.

§ 155.5–3 Monetary restitution.

If an applicant suffers a loss of earnings resulting directly from a suspension, revocation, or denial of his access authorization, and at a later time a final administrative determination is made that the granting to him of an access authorization at least equivalent to that which was suspended, revoked or denied, would be clearly consistent with the national interest and it is determined by the board making a final favorable determinaiton that the administrative determination which resulted in the loss of earnings was unjustified, reimbursement of such loss of earnings may be allowed in an amount which shall not exceed the difference between the amount the applicant would have earned at the

rate he was receiving on the date of suspension, revocation, or denial of his access authorization and the amount of his interim net earnings. The filing and processing of any such claim shall be in accordance with such regulations as the Secretary of Defense may prescribe after consultation with the Administrators. As used herein, earnings shall not include profits. Payment shall be limited to claims administratively determined to be just and equitable. No applicant shall be compensated for any increase in his loss of earnings caused by his voluntary action in unduly delaying the processing of his case under any industrial personnel review program. Payments under this provision shall be in full satisfaction of any and all claims, of whatever nature they may be, which the applicant has or may assert against the United States, or the Department of Defense or any of its agencies or activities, or the Federal Aviation Agency, or the National Aeronautics and Space Administration, or any of them, by reason of or arising out of the suspension, revocation or denial of access authorization.

SUBCHAPTER E—DEFENSE CONTRACT FINANCING

PART 160—STATEMENT OF POLICY FOR TREATMENT OF DEPRECIATION ON EMERGENCY FACILITIES

Sec.
160.1 Purpose.
160.2 Applicability.
160.3 Basic principles.
160.4 Procedures.

AUTHORITY: §§ 160.1 to 160.4 issued under sec. 704, 64 Stat. 816, as amended; 50 U.S.C. App. 2154.

§ 160.1 Purpose.

The purpose of this part is to restate and amend Department of Defense implementation of Defense Mobilization Order No. III–1 (former DMO–11), Amendment 1, issued by the Acting Director of Defense Mobilization, effective July 21, 1952, as amended by Amendment 2, issued by the Director of Defense Mobilization, effective May 10, 1954, with respect to the extent to which accelerated amortization may be allowed as a cost in negotiated contract pricing. The pertinent paragraphs of this amended order read as follows:

6. For the purpose of cost computations in negotiated contract pricing, true depreciation, which includes any extraordinary obsolescence reasonably assignable to the emergency period, is allowable. Any accelerated amortization of depreciation which is in excess of true depreciation, regardless of whether such excess is included in tax amortization certificates, is not allowable as an element of cost in negotiated contract pricing.

7. It is recognized that cost determination in negotiated contract pricing is a function of the procurement agency concerned. With respect to facilities to be used in the performance of negotiated contracts for which certificates have been or will be issued, the procurement agencies concerned will, to the extent required for the purpose of cost computations in connection with the negotiation of contract prices, have the responsibility for determining true depreciation. The Office of Defense Mobilization will, on request, furnish the procurement agency concerned with such information as it has or is readily available to it which is pertinent to the determination of true depreciation.

§ 160.2 Applicability.

(a) The principles and procedures set forth in this part shall be applicable in the consideration of costs for purposes of pricing or repricing of all negotiated contracts of the Departments of the Army, Navy, and Air Force, the performance of which requires the use of emergency facilities. The term "negotiated contracts", as used in this part, means all contracts, other than those awarded pursuant to formal advertising, in which costs are a factor in contract pricing; it includes cost-reimbursement-type contracts, contracts containing price redetermination clauses, incentive-type contracts, and fixed-price contracts where estimated costs are used in negotiating firm prices. The term "negotiated contracts", as used in this part, also covers subcontracts of the same types as prime contracts to the extent that the policies of the respective military departments make their representatives responsible for the approval or disapproval of prices or costs of such subcontracts. With respect to subcontracts under negotiated prime contracts the procurement agency concerned shall have no greater responsibility than heretofore.

(b) These principles and procedures shall be applicable to all negotiated contracts placed after the effective date hereof and to all existing negotiated contracts (including letters of intent) at that date where firm prices have not been finally determined or redetermined and to all existing cost-reimbursement-type contracts not completed at that date except as to predetermined overhead rates or fixed amounts of overhead which have finally been agreed upon for particular periods.

§ 160.3 Basic principles.

(a) As indicated by DMO–11, Amendment 1, "for the purpose of cost computations in negotiated contract pricing, true depreciation which includes extraordinary obsolescence reasonably assignable to the emergency period, is allowable. Any accelerated amortization of emergency facilities which is in excess of true depreciation, regardless of whether such excess is included in tax amortization certificates, is not allowable as an element of cost in negotiated contract pricing."

(b) The meaning of the term "true depreciation" shall conform to the generally accepted concept of depreciation accounting which may be defined as follows: A system of accounting which aims to distribute to the cost of operations, the cost of capital assets calculated to have expired for any accounting period due to such causes as wear and tear, action of the elements, and prospective inadequacy or obsolescence. Obsolescence of facilities may be brought about by reduced economic utility of facilities without loss of productive utility, such as by technological changes affecting the demand for the products of an industry, as well as by changes affecting the economic use of individual machines. Special requirements for relocation of facilities may also result in obsolescence.

(c) Obsolescence of emergency facilities due to prospective loss of economic utility after the emergency period is a special hazard in some industries. However, in some cases possible overcapacity in an industry is really represented in pre-existing facilities which are in fact obsolete; in such cases the new facilities may be expected to displace the old facilities after the emergency, and it may not be said necessarily that there is extraordinary obsolescence applicable to the new facilities during the emergency period. In cases where the introduction of emergency facilities may cause prospective obsolescence of existing facilities after the emergency period (when such existing facilities are not already obsolete, in fact), true depreciation for emergency facilities should not include allowances for prospective extraordinary obsolescence of the existing facilities; however, in such cases extraordinary obsolescence applicable to the existing facilities, when used in military production, should be considered separately to the extent appropriate in the circumstances.

(d) In the case of emergency facilities covered by Certificates of Necessity, for the purpose of depreciation computations in contract pricing, an arbitrary assignment of five years from date of completion of construction or acquisition of the respective facilities shall be made as representing the period of the emergency. The entire cost of such facilities first shall be fairly apportioned as between the emergency period and the post-emergency period; secondly, the portion of the cost of such facilities assigned to the emergency period shall be prorated over the fiscal periods thereof for purposes of determining overhead costs in any fiscal period to be allocated to the cost of performance of defense or other contracts.

(e) The allocation of the cost of facilities as between the emergency period and post-emergency period shall be made with consideration of the following:

(1) The estimated prospective post-emergency usefulness of the facilities in number of years of useful productive life. Consideration should be given to the post-emergency use (both civilian and military) which it is expected the facilities will have. In this connection, the character of the expected post-emergency use may be different than the emergency-period use.

(2) The additional costs of special-construction features of the facilities fairly assignable exclusively to defense requirements.

(3) Subject to the application of the principles outlined herein, consideration shall be given to the portion of the cost of emergency facilities certified for amortization plus so-called normal depreciation for tax purposes during the emergency period on the uncertified portion of the cost of such facilities. (See particularly paragraphs (f) and (g) of this section.)

(4) (i) The normal peacetime life of facilities having a normal peacetime utility. If Bulletin F of the Bureau of Internal Revenue is used in connection herewith, care must be exercised in its use, as its data may not be typical of any specific contractor or industry, especially in the emergency period.

(ii) It must be emphasized that this is a process of cost allocation which does not contemplate an appraisal of the resale value (other than residual salvage value) or replacement cost of emergency facilities at the end of the emergency period. Potential "use value" to the particular contractor concerned after the emergency period should be the primary basis on which loss of economic usefulness, and therefore true depreciation, is determined.

(f) Certificates of Necessity have been issued in some cases providing for the amortization of emergency facilities for tax purposes during the emergency period in amounts in excess of true depreciation. It is also possible that Certificates of Necessity may have been issued in isolated cases providing for the amortization of emergency facilities for tax purposes in amounts less than true depreciation. Such variances may be attributable to the granting of other incentives than true depreciation, or to the practice of following industry-wide patterns of certification without reference to true depreciation in specific cases. The excess of tax amortization over estimated true depreciation shall not be allowable as a cost for the purpose of pricing negotiated contracts, either directly or indirectly as a factor of "contingencies" or profit allowance.

(g) It is the intent of this part to give contractors a reasonable and properly allocable allowance to cover the estimated loss of economic usefulness of their emergency facilities in production under defense contracts. The procedures for determining such allowances must be such as will expedite determination; this requires avoidance of an impossible perfectionism. There is no intent to limit the cost allowance to depreciation that would be allowable for income tax purposes if there were no Certificates of Necessity, nor to necessarily require that the allowance be below tax amortization covered by certificates. Each case must be judged on its merits in the light of these principles. If the result obtained by the application of the principles outlined herein indicates substantial justification of the total amount of amortization and depreciation allowable for tax purposes during the emergency period, as a reasonable measure of true depreciation, such amount shall be accepted, without adjustment, as true depreciation. In those isolated cases where substantial justification can be shown for a larger amount of true depreciation than the total amount of amortization and depreciation allowable for tax purposes during the emergency period, the larger amount shall be allowable as a cost for purposes of contract pricing.

(h) Contractors may use normal depreciation without requesting a determination of true depreciation, or may elect to use either normal or true depreciation after a determination of true depreciation has been made. Once either method is elected, it must be followed consistently throughout the life of the emergency facility. Where an election is made to use normal depreciation, § 15.205–9(f) of this chapter is not intended to apply to assets fully amortized on the contractor's books of account under Certificates of Necessity. Where an election is made to use true depreciation, it shall be prorated over the full five year emergency period, and proportionate amounts shall be allocated to contracts only for those fiscal periods during which the contracts are performed during the five year period. Care must be exercised to assure that no other allowance is made under the contract which would duplicate the factors, such as extraordinary obsolescence, considered in the determination of true depreciation. In addition, where an election is made to use true depreciation, contract pricing for the post-emergency period will be based on depreciation computed by allocating the undepreciated cost of the emergency facility at the end of the emergency period (cost less true depreciation for that period) over the estimated remaining life of the facility, provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered true depreciation.

§ 160.4 Procedures.

(a) Cost determination in negotiated contract pricing is a function of the procurement agency concerned. With respect to emergency facilities used in the performance of negotiated contracts for which Certificates of Necessity have been or will be issued, the procurement agency concerned shall be solely responsible for estimates of such depreciation for contract pricing purposes in the light of the principles set forth in this part. The Office of Defense Mobilization will, on request, furnish the procurement agency concerned with such information as it has or is readily available to it which is pertinent to the determination of true depreciation—such requests should be held to a minimum.

(b) In order to expedite administration of the determination of true depreciation for the emergency period for a specific contractor, it will be appropriate to make over-all determinations of true depreciation of emergency facilities covered by Certificates of Necessity on a plant-wide or product-wide basis of classification of such facilities by such groupings as may be appropriate in consideration of general similarity of the facilities from the standpoint of length of useful productive life.

(c) In the case of contracts to which this part is applicable which are in force at the effective date of this part, price redeterminations, cost-incentive adjustments, and cost reimbursements may

continue to be made in accordance with the pricing formula established in the initial pricing negotiations, provided the contractors are agreeable, and provided there is no evidence that the contractor has been allowed more than true depreciation in pricing, either directly or indirectly. When costs of such contracts are redetermined in the light of the principles set forth herein, consideration shall be given to possible redetermination of the entire allowable costs and profit (or fees), as pricing factors, to the extent required to avoid excessive or duplicate allowances in costs or profits for such true depreciation. Allowances for contingencies and profits in initial price negotiations in some cases may have included indirect allowances for the excess of true depreciation or tax amortization over normal depreciation; in such cases no more should be allowed in total pricing for this factor than true depreciation.

(d) Contractors shall be required to set forth to the authorized representatives of the procurement agencies, all the pertinent facts having a bearing on estimates of true depreciation together with their evalaution thereof. Such authorized representatives of the procurement agencies will be expected to exercise reasonable judgment in their review and evaluation of the facts in arriving at estimates of true depreciation, in the light of the basic principles set forth in this part, recognizing the impossibility of having absolutely demonstrable proof of the conclusions reached.

(e) Where the emergency facilities of any contractor at one plant or at one general location are used in the performance of contracts for more than one of the military departments, one of these departments shall make determinations of true depreciation binding upon each other department. The responsible department shall be the one, if any, having plant cognizance procurement assignment; in the absence of such assignment the responsible department shall be the one, if any, having single-service audit responsibility; otherwise the responsible department shall be the one having the largest interest in effecting current procurement at the time of the determination. Similarly, each military department shall be responsible for delegating responsibility therein in a manner to avoid duplications in determinations of true depreciation within that department.

(f) The following additional procedure is appilcable to Emergency Facilities covered by Certificates of Necessity issued after July 1, 1954:

Whenever a major portion of the cost of facilities in substantial amount is to be reimbursed to a contractor as an element of product prices during a relatively short period, it will be expected in appropriate cases that consideration will be given in negotiation to protecting, by appropriate agreement, the Government's interest in the continued availability of the facilities for Defense use.

PART 163—DEFENSE CONTRACT FINANCING REGULATIONS

Sec.
163.1 Scope; financing defined.
163.2 Purposes.
163.3 Application.
163.4 Implementation.

Subpart A—Introduction

163.5 Scope of subpart.
163.6 Guaranteed loans; authority.
163.7 Guaranteed loans; description.
163.8 Advance payments; authority.
163.9 Advance payments; description.
163.10 Progress payments; authority.
163.11 Progress payments; description.
163.12 Responsibilities.
163.12–1 Organization.
163.12–2 Resolution of disagreements.
163.12–3 Responsibility; administration; contract finance committee.

Subpart B—Basic Policies

163.13 Scope of subpart.
163.14 Acceleration of payments.
163.15 Timely action.
163.16 Uniformity.
163.17 Small business.
163.18 Purpose of contract financing.
163.19 Support of procurement; minimizing monetary loss.
163.20 Reasonable need.
163.21 Working capital purposes.
163.22 Order of preference.
163.23 Financing not a handicap.
163.23–1 Non-indication of contract financing need.
163.24 Financial responsibility of contractors.
163.24–1 Small volume of work.
163.24–2 Large volume of work.
163.24–3 Unrealistic cost estimates.
163.24–4 Technical and engineering evaluation.
163.24–5 Importance of type of contract; development.
163.24–6 Engineering, production, and purchase plans.
163.26 Coordination before contract award.
163.27 Financial information and analysis.
163.28 Appropriate information; purposes.
163.28–1 Cash flow forecast, and estimated financial statements.
163.28–2 Realistic assumptions.
163.28–3 Estimated profit and loss statements and balance sheets.
163.29 Termination financing.
163.30 Report of adverse developments; prompt decisions.
163.31 Reports.
163.32 Deviations; amendments.
163.33 Interpretations.
163.33a Foreign procurement.
163.33a–1 Progress payments on contracts for foreign performance.
163.33a–2 Advance payments on contracts for foreign performance.
163.33a–3 Guaranteed loans for foreign contract performance.

Subpart C—Guaranteed Loans

163.34 Scope of subpart.
163.35 Federal Reserve banks.
163.36 Board of Governors of the Federal Reserve System.
163.37 Procedure on application of a private financing institution.
163.38 Loan guarantees to Federal Reserve banks.
163.38–1 Other government agencies.
163.39 Loan guarantees for terminated contracts.
163.40 Guaranteeing agency.
163.40–1 Effect on preponderance of progress payments or denial of certificate of eligibility.
163.40–2 Shifting of preponderance.
163.41 100 percent guarantees.
163.42 Asset formula.
163.43 Amount and maturity of guaranteed loans.
163.44 Assignments of claims under contracts.
163.45 Other collateral security.
163.46 Contract surety bonds in relation to loan guarantees.
163.47 Other borrowings.
163.48 Eligibility certifications.
163.49 Procedure for certificate of eligibility.

Subpart D—Advance Payments

163.50 Scope of subpart; references.
163.50–1 Advance payments on subcontracts.
163.51 Types of contracts that may have advance payments.
163.52 Advance payments in addition to progress payments.
163.53 Interest.
163.54 Standards; amounts; need.
163.55 Statutory requirements.
163.56 Responsibility; delegation of authority.
163.56–1 Delegation of authority.
163.57 Public Law 85–804; formally advertised contracts.
163.57–1 Special contract provisions.
163.57–2 Data.
163.58 Uses of advance payments.
163.59 Standards for advance payment determinations; all contracts.
163.60 Findings, determinations and authorization.
163.61 Application for advance payment.
163.62 Action by contracting officer; approval.
163.62–1 Action by contracting officer; disapproval.
163.63 Security; supervision; covenants.
163.64 Forms of contract provisions and supplemental agreements.
163.64–1 Forms of agreement for special bank account.
163.64–2 Advance payment provisions.
163.65 Pooled advance payments; general.
163.65–1 Distinction between pool contracts and designated pool contracts.
163.66 Advance payment pool agreements; special features.
163.67 Liquidation; designated pool contracts; administering office.
163.68 Pooled advance payments; understandings.
163.68a Excluded advance payments.

Subpart E—Progress Payments Based on Costs

163.69 Scope.
163.69–1 References.
163.69–2 Exclusions.
163.69–3 Contract coverage.
163.70 Percentage or stage of completion.
163.71 General.
163.71–1 Requests for proposals.
163.72 Customary progress payments; standards.
163.72–1 Applicability of percentages.
163.72–2 Amendment to reduce percentages.
163.72–3 Indefinite quantity contracts.
163.72–4 Administration.
163.73 Formal advertising; small business restricted advertising.
163.73–1 Progress payment provision in invitations for bids.
163.73–2 Small business restricted advertising.
163.73–3 Progress payments exclusively for small business.
163.73–4 Notice to bidders.
163.73–5 Total costs clause preferable.
163.73–6 Non-responsive bids; uninvited progress payment condition.
163.74 Unusual progress payments; standards; procedure.
163.75 Accounting system and controls.
173.76 Information required.
163.77 Advance payments.
163.78 Definitions.
163.78–1 Progress payments.
163.78–2 Customary progress payments.
163.78–3 Unusual progress payments.
163.78–4 Costs.
163.78–5 Incurred costs.
163.73–6 Unliquidated progress payments.
163.78–7 Contract price.
163.78–8 Amendments, supplements, and modifications.
163.78–9 Deviation.
163.79 Contract clauses.
163.79–1 Total costs clause.
163.79–2 Direct labor and materials cost clause.
163.79–3 Schedule provision for progress payments to subcontractors.
163.80 General instructions for progress payment clauses.
163.80–1 Contracting officer.
163.80–2 Variation in percentages.
163.80–3 Total cost basis; percentage other than 70 percent.
163.80–4 Limited cost basis; other percentages.
163.80–5 Cost basis less than direct labor and material costs.
163.80–6 Other protective provisions.
163.81 Progress payment liquidation.
163.81–1 Ordinary method.
163.81–2 Alternate method.
163.81–3 Liquidation percentages.
163.82 Subcontracts.
163.82–1 Subcontractor progress payments.
163.82–2 Adaption of uniform clause for subcontracts.
163.82–3 Substitution of new clause for old clause.
163.83 Progress payments on subcontracts under cost-reimbursement types of prime contracts.
163.84 Letter contracts.
163.85 Transition.
163.85–1 Separate contracts.
163.85–2 Existing indefinite quantity contracts.
163.85–3 Supplements, amendments, and modifications; when new clause not required.
163.85–4 Supplements, amendments, and modifications; gradual operation of new clause.
163.85–5 Supplements, amendments, and modifications; concerning progress payments.
163.85–6 Amendments reducing the rate of progress payments.
163.86 Contract financing office clearance.
163.87 Coordination.
163.87–1 Control lists.
163.87–2 Hold-up list.
163.88 Contractor's request.
163.89 Audit.
163.90 Administration; general.
163.90–1 Extent of supervision.
163.90–2 Use of progress payments by contractors.
163.91 Adjustments; retroactive price reduction; refunds.
163.92 Maximum unliquidated amount.
163.92–1 Quarterly statements on price revision contracts.
163.93 Suspension or reduction of payments; general.
163.93–1 Failure to comply with contract.
163.93–2 Unsatisfactory financial condition.
163.93–3 Excessive inventory.
163.93–4 Delinquency in payment of costs of performance.
163.93–5 Fair value of undelivered work.
163.93–6 Erroneous cost estimates.
163.94 Government title.
163.94–1 Loss, theft, destruction, or damage.
163.94–2 Government-furnished property.
163.94–3 Special tooling.
163.94–4 Termination for convenience of the Government.
163.94–5 Scrap; excess property.
163.95 Consideration for progress payments; awards.
163.96 Amendments to provide progress payments.
163.97 Consideration for amendments providing for progress payments.

AUTHORITY: §§ 163.1 to 163.97 issued under R. S. 161, sec. 2202, 70 Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply sec. 301, 702(d), 64 Stat. 800, 816, as amended, secs. 2307, 7364, 70A Stat. 131, 455, as amended, sec. 1, 72 Stat. 972; 50 U.S.C. App. 2091, 2152(d), 10 U.S.C. 2307, 7364, 50 U.S.C. 1431, E.O. 10480, 18 F.R. 4939, 3 CFR, 1953 Supp., E.O. 10789, 23 F.R. 8897.

§ 163.1 Scope; financing defined.

This part covers the financing of contracts and subcontracts for the national defense. It is applicable to contract financing for all types of contracts for all kinds of work, supplies and services, except as provided in § 163.69–2 or as otherwise indicated herein. The term "financing" as used in this part covers Government guaranteed loans, advance payments and progress payments (not including partial payments for delivery of one or more completed units called for under a contract) necessary for both performance and termination purposes, to the extent authorized by law.

§ 163.2 Purposes.

This part is intended to (a) state basic contract financing policy, (b) assure proper uniformity in policies procedures and forms, (c) provide for application of the fundamental management principle of internal check and balance, (d) insure that the need for advance or progress payments by contractors will not be treated as a handicap in awarding contracts, (e) facilitate and accelerate the making of progress payments requested by small business concerns under Government contracts, and (f) emphasize the usefulness and desirability of providing proper contract financing assistance to small business concerns.

§ 163.3 Application.

This part supersedes all regulations, directives, procedures and instructions inconsistent herewith, including the joint regulations dated December 17, 1956, issued as AR 715–6, NAVEXOS P–1006 (NPD 31–001) and AFR 173–133.

§ 163.4 Implementation.

The content of this part shall be distributed promptly to all personnel concerned with procurement and with contract financing, including contracting officers, for information and compliance. Copies of all implementing regulations, directives, procedures, and instructions, as issued from time to time within the Military Departments, at all levels, shall be furnished promptly through channels to the Army Comptroller, in the Department of the Army, the Assistant Comptroller, Accounting and Finance, in the Department of the Navy, and the Deputy for Contract Financing to the Assistant Secretary (Financial Management) in the Department of the Air Force, with an additional copy to be forwarded by those contract financing offices, respectively, to the Assistant Secretary of Defense (Comptroller). Changes and additions for this part will be developed within the Contract Finance Committee, in the manner contemplated by §§ 163.12–3 and 163.32.

Subpart A—Introduction

§ 163.5 Scope of subpart.

This subpart describes the methods of contract financing by guaranteed loans, advance payments and progress payments, and states basic authority and responsibilities.

§ 163.6 Guaranteed loans; authority.

(a) Under section 301(a) of the Defense Production Act of 1950, as amended, and section 301 of Executive Order No. 10480, the Department of the Army, the Department of the Navy, and the Department of the Air Force, among others, are designated as "guaranteeing agencies," and authorized by section 302 (a) of Executive Order No. 10480 "to guarantee in whole or in part any public or private financing institution (including any Federal Reserve Bank), by commitment to purchase, agreement to share losses, or otherwise, against loss of principal or interest on any loan • • • which may be made by such financing institution for the purpose of financing any contractor, subcontractor, or other person in connection with the performance of any contract or other operation deemed by the guaranteeing agency to be necessary to expedite production and deliveries or services under Government

contracts for the procurement of materials or the performance of services for the national defense, or for the purpose of financing any contractor, subcontractor, or other person in connection with or in contemplation of the termination, in the interest of the United States, of any contract made for the national defense."

(b) As defined in section 702(d) of the Defense Production Act of 1950, as amended, "the term 'national defense' means programs for military and atomic energy production or construction, military assistance to any foreign nation, stockpiling, and directly related activity."

§ 163.7 Guaranteed loans: description.

Guaranteed loans, usually called "V-loans," are essentially the same as other loans made by financing institutions without guarantee, except that under a standard form of guarantee agreement the guaranteeing agency is obligated on demand of the lender to purchase a stated percentage of the loan and to share losses in the amount of the guaranteed percentage. Guaranteed loans afford an especially convenient medium for financing borrowers who hold subcontracts, or numerous prime contracts, or prime contracts with several contracting agencies. Funds are disbursed and collected by the lending institution, and its personnel administer the loan. Government funds are not involved except for purchases of the guaranteed portion of loans or settlement of losses.

§ 163.8 Advance payments: authority.

Advance payments on all contracts are authorized in accordance with the provisions of 10 U.S.C. 2307. When appropriate, advance payments are also authorized pursuant to the Act of August 28, 1958 "to authorized the making, amendment and modification of contracts to facilitate the national defense" (Pub. Law 85–804, 72 Stat. 972), Executive Order No. 10789, and Department of Defense Directive No. 7830.1. Navy advance payments for salvage operations are also authorized by 10 U.S.C. 7364.

§ 163.9 Advance payments; description.

Advance payments are advances of money, made by the Government to a contractor prior to, in anticipation of, and for the purpose of complete performance under a contract or contracts. Advance payments are made only to prime contractors. They are expected to be liquidated from payments due to the contractor incident to performance of contracts. Since they are not measured by performance, they differ from partial, progress, or other payments made because of and on the basis of performance or part performance of a contract. Advance payments may be made to prime contractors for the purpose of making sub-advances to subcontractors.

§ 163.10 Progress payments: authority.

Progress payments are authorized in accordance with the provisions of 10 U.S.C. 2307.

§ 163.11 Progress payments: description.

The term "progress payments," as used herein, signifies payments made as work progresses under a contract, upon the basis of costs incurred, of percentage of completion accomplished, or of a particular stage of completion. As used in this part this term does not include payments for partial dellveries accepted by the Government under a contract, or partial payments on contract termination claims.

§ 163.12 Responsibilities.

Sections 163.12–1 to 163.12–3 set forth organization and responsibilities.

§ 163.12–1 Organization.

In terms of organization, the financing function should be separated from the procurement function, but close cooperation between the procurement and financing functions should be preserved at all times. Insofar as progress payments are concerned, it is contemplated that contract financing officers will ordinarily participate in the development of appropriate regulations and standard contract provisions designed to avoid undue risk to the Government, but will otherwise participate only in specific cases involving policy questions or unusual financial arrangements and conditions.

§ 163.12–2 Resolution of disagreements.

If a disagreement arises between the financing office and the interested procuring activity in any Department as to whether, to what extent, or in what form, financing should be furnished, the matter will be referred immediately to and resolved in the higher echelons of authority responsible respectively for financing and procurement functions, subject to any issue being resolved ultimately by the Secretary of the Department concerned.

§ 163.12–3 Responsibility; administration: Contract Finance Committee.

(a) The responsibility for insuring uniform administration of financing in accordance with directions shall be in the Assistant Secretary of Defense (Comptroller). Specific cases need not be referred to the Office of the Assistant Secretary (Comptroller), unless policy or important procedural problems are involved, and the day-to-day financing operations shall be the responsibility of the Military Departments.

(b) Responsibility for financing in each Department shall be in the Under or Assistant Secretary responsible for the comptroller function, with the focal point of such activities at Departmental headquarters although contract financing offices may be established at the operational level determined by that Department.

(c) There shall be a Contract Finance Committee composed of a representative of the Assistant Secretary of Defense (Comptroller) as Chairman, a representative of the Assistant Secretary of Defense (Supply and Logistics) and two representatives of each Military Department (one representing procurement and one representing the contract finance office), which Committee shall meet upon call by the Chairman, upon his own initiative or when requested by a member of the Committee. This Committee shall advise and assist the Assistant Secretary of Defense (Comptroller) in assuring proper and uniform application of policies and the development of procedures and forms, and may from time to time recommend to the Secretary of Defense through the Assistant Secretary of Defense (Comptroller) and the Assistant Secretary of Defense (Supply and Logistics) such further policy directives on the subject of financing as may appear desirable. This Committee shall be responsible also for the formulation, revision and promulgation of uniform regulations on contract financing (§ 163.32). For matters involving guaranteed loans, a representative of the Board of Governors of the Federal Reserve System may be invited to meet with the Committee. The Committee also may from time to time secure the advice of representatives of other branches of the Government and other persons and may invite such representatives and persons to its meetings.

Subpart B—Basic Policies

§ 163.13 Scope of subpart.

This subpart sets forth basic policies applicable to guaranteed loans, advance payments, and progress payments. Policies and procedures more particularly pertaining to the specific methods of contract financing are contained in the sections of this part relating to each method of financing.

§ 163.14 Acceleration of payments.

Payments must be made promptly on all contracts when due. It is of continuing importance that there be acceleration of all proper payments earned by contractors, including progress payments.

§ 163.15 Timely action.

In connection with requests for provision of progress payments, advance payments, or loan guarantees, there must be timely action, no unwarranted delay, and no hesitation to make proper contract financing provisions.

§ 163.16 Uniformity.

Uniform financing policies and, so far as practicable, uniform procedures and standard forms are to be used by the Military Departments and, to the extent mutually agreed upon by the Military Departments, facilities and personnel are to be used in common.

§ 163.17 Small business.

Immediate and continuing attention must be given at all levels to insure that constructive measures will be taken to facilitate and accelerate necessary contract financing assistance to small business concerns. Every reasonable effort must be made to assist small business concerns in the resolution of their problems relative to the financing of contract performance, including any cases in which it may be reasonably necessary to increase the rate for progress payments and to assist them in understanding and complying with the requirements of performance as to payment forms, inspection and cost accounting. However, the issuance of a certificate of competency by the Small Business Administration shall not be considered as a requirement that contract financing must be provided by a Military Department.

§ 163.18 Purpose of contract financing.

The providing of funds for payment of expenses of performance of contracts is an essential element of defense production. Contract financing is to be regarded as a useful working tool that may be used to the benefit of the Government, for aiding procurement by expediting performance of defense contracts and subcontracts. The contract financing system makes possible production in volume that could not be accomplished otherwise. Prudent contract financing supports procurement and production and fosters the small business policy by providing necessary funds to supplement other funds available to contractors for contract performance.

§ 163.19 Support of procurement: minimizing monetary loss.

Financing must support procurement and should be designed to aid, not impede, essential procurement, but should be so administered as to avoid the risk of monetary loss to the Government to the extent compatible with aiding essential procurement.

§ 163.20 Reasonable need.

Government financing for production or services should be provided only if, and to the extent, reasonably required for prompt and efficient performance of Government contracts and subcontracts.

§ 163.21 Working capital purposes.

(a) Guaranteed loans under section 301 of the Defense Production Act of 1950, as amended, will be used primarily for working capital purposes. Such guarantee authority will not be used for loans for facilities expansion.

(b) It is not the intent of these regulations, however, to preclude guarantees in cases in which a relatively small part of the loan might be used for facilities expansion of a minor or incidental nature: *Provided*, That the borrower's financial condition is such that the facilities expansion will not delay or impair repayment of a guaranteed loan which would be granted on a commercial banking basis.

(c) Since advance payments and progress payments should be self-liquidating from contract performance, they also will not be used to finance fixed asset acquisitions for contractor ownership.

(d) These limitations are not intended to apply to contracts under which facilities are being acquired for Government ownership.

§ 163.22 Order of preference.

In determining what form of financing shall be recommended or made available to suppliers, the following order of preference generally should be observed, recognizing that there may be valid exceptions in specific cases or classes of cases:

(a) Private financing on reasonable terms (without governmental guarantee)—supplemented when reasonably necessary by Government financing to the extent reasonably required;

(b) Customary progress payments, as described herein (§163.72) including progress payments incident to "Small Business Restricted Advertising" or incident to procurement by formal advertising, as authorized herein (§ 163.73) except that guaranteed loans may be preferable in customary progress payments when so indicated by a contractor and financing institution; or progress payments based on a percentage or stage of completion, confined to contracts for construction (§ 10.101–6 of this chapter), shipbuilding and ship conversion, alteration or repair;

(c) Guaranteed loans (with financing institutions participating to an extent appropriate to the risk involved);

(d) Unusual progress payments, as described herein (§ 163.74), not including contracts involving advance payments;

(e) Advance payments (§ 163.58).

§ 163.23 Financing not a handicap.

The need for advance payments or for progress payments or for a guaranteed loan (with reasonable percentage of guarantee) shall not be treated as a handicap in awarding contracts to those qualified contractors who are deemed competent and capable of satisfactory performance (§§ 1.903–1 and 2.407 of this chapter and §§ 163.24 and 163.26). The ability of the contractor to perform the contract, including the availability of money or credit necessary for performance, must be reasonably assured in all cases. Awards which are otherwise proper must not be deterred by the necessity for providing reasonable contract financing. A contractor deemed reliable, competent, capable and otherwise responsible, must not be regarded as any less responsible by reason of the need for reasonable contract financing provided or guaranteed by a Military Department. Responsible personnel must endeavor to assure that full, proper and prudent use is made of contract financing, in such ways that financial difficulties will not bring about delay or failure in performance or result in monetary losses to the Government. In selection of an appropriate method for provision of funds, contractors will not be expected to seek or obtain loans or credit (a) at excessive interest rates or other exorbitant charges, or (b) from agencies of the Government outside the Department of Defense.

§ 163.23–1 Non-indication of contract financing need.

Before contract awards, contractors sometimes indicate that contract financing by guaranteed loan, progress payments or advance payments will not be required. In some of those cases, the need for such contract financing later arises, usually from changed circumstances differing from those projected at the time of the award. The fact that a contractor did not indicate before award that he would require contract financing, or that he stated that he would not require such financing, does not disqualify the contractor for proper contract financing conforming to these regulations and should not be permitted to deter such financing. Each such case should be dealt with and decided on its merits, without giving weight to the contractor's earlier error with regard to the need for contract financing.

§ 163.24 Financial responsibility of contractors.

Procuring activities in placing contracts must give due regard to the financial capabilities of the supplier. Financial difficulties encountered by contractors and subcontractors may (a) disrupt production schedules, (b) cause wastage of manpower and materials, and (c) if connected with guaranteed loans, advance payments, or progress payments, result in monetary loss to the Government. Also, if financial crises occur in the course of a contractor's production, the need for continued production may make guaranteed loans or advance payments imperative for continuance of such production, even though monetary losses may be likely under the circumstances. In order to reduce these hazards so far as possible, contracts should be entered into only with those potential contractors who meet the requirements of § 1.903–1, or § 2.407 of this chapter, and who have the financial capacity or credit (giving due regard to the availability of progress payments, guaranteed loans, and advance payments), technical skill, management competence, and plant capacity and facilities (including subcontracting capacity) reasonably to assure their ability to perform their contracts in accordance with their terms. Care should be taken also to the extent practicable to avoid the placement of additional contracts or subcontracts with contractors in situations where additional contracts will overload the contractor's production capacity, overextend his financial resources and credit, and thus tend to interfere with timely performance of contracts on hand, and create need for additional contract financing arrangements, which may be impossible to establish on a prudent basis. In all cases, whether involving formal advertising or negotiation, it must be determined that the contractor is financially and otherwise able to perform the contract. In addition, consideration must be given to the judgment, skill, and integrity of the potential contractor, and to his reputation and experience, including prior work of a similar nature done by him, and the other factors set forth in § 1.903–1, § 2.407 or § 3.101 of this chapter, as appropriate. Persons placing subcontracts, at all levels of subcontracting, should be encouraged to apply these standards in placing subcontracts. Some practical examples of important points which should be kept in mind are set out below.

§ 163.24–1 Small volume of work.

Unduly small volume of work, in relation to amount of overhead expense, may result in losses to such extent as

to interfere with or prevent performance of contracts. The order backlog on hand and reasonably foreseeable should be sufficient to enable operations to continue at least through the contemplated term of the contracts for which contract financing is being considered.

§ 163.24–2 Large volume of work.

Unduly large volume of work to be performed concurrently with a contract may result in insufficiency of cash or credit to support the work, or in delays or collapse on account of inadequacy of plant space, production equipment, engineering or production personnel, or unavailability of materials, parts or components. An apparently unduly large backlog may or may not be a deterrent, depending upon the relationship of the scheduling of all the work to the available credit, facilities, personnel, suppliers and subcontractors.

§ 163.24–3 Unrealistic cost estimates.

Incompetence, carelessness, or over-optimism of management may cause or permit the making of bids or proposals for work involving techniques, processes or "know-how" on which the contractor has no sufficient experience. Such work may be for the end items under a Government contract or for end items under other contracts (whether existing or prospective). In either case, unforeseen difficulties of performance and unanticipated excess of costs over contract prices may prove ruinous. In such cases, the proposed price, or cost estimates, whether or not based on past performance and experience of qualified competent contractors for the same or similar kinds of end items, may be unrealistic for the inexperienced contractor and may make the company's financial projections completely unrealistic. Comparative bids or proposals by others are important and useful factors in evaluation of the adequacy or inadequacy of proposed prices. However, a proposed price that seems unduly low may in fact be founded solidly on superior efficiency or on the discovery of new and improved techniques or processes that will enable the contractor to perform at costs substantially less than those of other contractors.

§ 163.24–4 Technical and engineering evaluation.

While management and technical competence must be evaluated largely on the basis of past performance of management and technical personnel, in doubtful cases financial forecasts cannot be analyzed adequately without the benefit of technical and engineering judgments based upon detailed scrutiny of the contractor's production plans and contemplated processes in relation to the quantity and quality of available facilities and personnel. However, while inexperience of the contractor in production of a contemplated end item or similar kinds of end items is a danger signal requiring close collaboration of all personnel concerned with the various elements of contract awards and contract financing, close analysis of the facts may provide sound reasons for belief that the prospective contractor, with proper and prudent contract financing assistance, will be able to perform on terms and conditions, including price, beneficial to the Government.

§ 163.24–5 Importance of type contract development.

The type of contract may constitute the dividing line for decision as to ability or inability to perform and the related question of the prudence or imprudence of providing contract financing. If the contemplated end items are essentially development items—whether or not the contract is labeled a development contract—a fixed-price type of contract, whether firm fixed-price, fixed-price with escalation or fixed-price subject to price revision with a ceiling, may prove impossible of performance within the contract price and may result in non-delivery of acceptable end items and in disaster to the contractor. Except for those contractors who are exceptionally strong financially, it is imperative in these cases that financial analysis and evaluation be based upon the closest possible scrutiny by, and stated judgments of, qualified engineering and technical personnel with regard to the details and difficulties of performance and their relation to projected costs of the work.

§ 163.24–6 Engineering, production, and purchase plans.

Company plans may contemplate engineering costs, tooling costs, direct labor costs, or prices of materials, parts or components that are unduly low. Financial forecasts cannot be made intelligently or usefully without the benefit of careful and competent analysis of all significant elements of the engineering, production and purchasing aspects—by qualified technical personnel. Such analysis would need to evaluate the company's estimated costs for each significant performance element against the probable costs to be encountered for all elements necessary for actual performance. It may, for example, be foreseeable upon analysis that the company has materially underestimated the amount of engineering and testing necessary for completion of a satisfactory preproduction model, or the quantity and quality of special tooling or other manufacturing aids that may be required for production of the end items, or the amount of direct labor that will be required, or the purchase prices of necessary materials, parts or components. The company may also have been in error as to the probable technical ability of contemplated subcontractors to provide acceptable parts or components. The company may even—in some cases—be expecting to have significant portions of the work done by technically or financially irresponsible subcontractors, some of whom may be affiliated with the contractor or related financially to the contractor's ownership or management. All these elements, in appropriate cases, require analysis and evaluation by competent engineering and technical personnel and bear upon the soundness or lack of soundness of the evaluations of financial capability and of the risks of monetary losses that would be involved in contract financing.

§ 163.26 Coordination before contract award.

For effective application of the principles stated in § 163.26, each purchasing office should be staffed with and use the services of persons qualified and competent to evaluate credit and financial problems, or each contracting officer should have available within his procuring activity, and should use the services of persons so qualified and competent to evaluate credit and financial problems. Among other things, the duties of such persons would be to arrange, prior to contract awards, and so far as practicable, prior to subcontract arrangements, that financing for performance of contemplated contracts and subcontracts is reasonably assured prior to or contemporaneously with the making of contracts. In those exceptional cases where there is substantial doubt that a prospective contractor has the financial capacity or credit resources essential to the performance of the contemplated contract, the interested procuring activity, after having determined that no satisfactory alternative sources of supply are readily available on terms equally as favorable to the Government, should, prior to placement of the contract, consult with the appropriate contract financing office of the interested Department, to determine whether financing can prudently be arranged. These contract financing offices are the Army Comptroller, in the Department of the Army, the Assistant Comptroller, Accounting and Finance, in the Department of the Navy, and the Deputy for Contract Financing to the Assistant Secretary (Financial Management), of the Air Force. In such consultation it should be resolved, if placement of the contract is deemed beneficial to the interests of the Government, whether and by what means financing should be provided.

§ 163.27 Financial information and analysis.

(a) The necessity for financial information and analysis, and the scope, depth and detail of analysis of the financial capability of contractors, for contract financing purposes, must vary reasonably with the circumstances of particular cases. The extent of accumulation of data, and the evaluation thereof, must necessarily be determined by the informed judgment of competent, responsible personnel. Essentially, this process must be neither over-done nor under-done. For example, financial analysis would serve no useful purpose in connection with provision of customary progress payments (1) for contractors who are known from experience to be so strong and so competently managed as to be fairly relied upon to perform their contracts satisfactorily, or (2) for contractors who are known to be in satisfactory financial condition and operating profitably, where the items involved are regularly produced by the contractor and the contract amounts are well within the normal sales volume of the contractor. In such cases, the financial evaluation might well consist of no more than scrutiny of readily available published balance sheets and operating statements. In doubtful cases, the financial analysis would have to be as broad, and as meticulously and painstakingly detailed, as is necessary to fit the circumstances of the case. The obtaining of information relevant to financial capability, and the analysis and proper evaluation of that data, are of particular importance where (1) the contractor is a new supplier to the procuring activity, or (2) the contractor has not supplied the item or a substantially similar item to the procuring activity within the preceding twelve months, or (3) the contractor is a newly organized concern, or (4) the contractor is on a list requiring pre-award clearances or special clearance prior to awards, or (5) the contractor is on any current list indicating current or past contract defaults or delinquencies, or (6) the contractor is known to be involved in performance difficulties as a supplier or subcontractor for private customers on either Government or commercial work, or (7) the contractor is listed on the consolidated list of contractors indebted to the Government (Hold-Up List), or (8) there are any known facts or circumstances which support reasonable doubts as to the contractor's financial capability of performance.

(b) When only minimum information is reasonably necessary, such as a current balance sheet and operating statement and similar financial statements for the next preceding fiscal year, these may be either published statements, audited statements, certified statements, or any combination of those, from any convenient source.

§ 163.28 Appropriate information: purposes.

The kinds of information and data that may be appropriate under the circumstances of particular cases (§ 163.27) for adequate disclosure of the contractor's financial condition, for full understanding of the propriety and reasonable necessity for contract financing, for evaluation of the contractor's ability to perform its contracts without loss to the Government, and for informed judgment with regard to the terms, conditions and protective provisions that may be appropriate and prudent for the protection of the Government, are outlined below. It is emphasized that only those items which are appropriate to the particular case will be required.

(a) Balance sheet and profit and loss statement for the most recent fiscal year prepared and certified by an independent public accountant (including his comments, if any), and, if available, similar financial data for the two previous years; also latest available interim balance sheet and profit and loss statement of the current fiscal year; also a separate statement of amounts of defense and commercial sales. If audit reports are not available, then corresponding statements should be submitted, certified by an authorized officer, partner, or individual proprietor as truly and fully setting forth the financial condition and operating results of the applicant; also, if a proprietorship, partnership or joint venture, personal financial statements of proprietor, partners, or members of joint venture and description of individual liabilities of partners or members of joint venture on contracts of partnership or joint venture;

(b) Summary history of contractor and its principal management personnel, indicating particularly any past insolvencies of the contractor or a predecessor or of the officers, partners, or proprietors; also a description of its products or services;

(c) Statement of all affiliates of the contractor, showing financial interests of the contractor in affiliates and of affiliates in the contractor, and also mutual officers, directors, and major stockholders or owners, and disclosing character and amount of business transactions with affiliates or with officers, directors, major stockholders or owners of the contractor or its affiliates; also, if a corporation, list of major stockholders, and shares held;

(d) Statement of compensation payable to each officer, partner, proprietor, and principal executive, and to each key employee receiving comparable compensation, including bonus, commission, and profit-sharing arrangements, together with similar data for the past two years; also past and projected dividends, unless obtained with paragraph (a) of this section;

(e) Schedule of principal contracts and orders on hand, showing defense orders and civilian orders separately, and showing face amounts, unfinished amounts, and unliquidated advance or progress payments, and also indicating bids outstanding and contemplated and explanation concerning contracts under negotiation;

(f) Cash forecast, showing estimated disbursements and receipts for the period or periods involved (see §§ 163.28–1 and 163.28–2);

(g) Estimated profit and loss statements and estimated balance sheets (see § 163.28–3);

(h) Comparison of past financial results with estimates previously furnished by the contractor;

(i) Credit agency ratings of the contractor, and, when significant, credit agency ratings of principal subcontractors and of principal business customers (defense and commercial) of the contractor;

(j) Existing and contemplated credit or financing arrangements, names of parties and relationship, if any, to contractor, amounts available or to be available, periods of availability, and required or contemplated payments, including (1) loans and credits, (2) advances and progress payments, (3) projected equity capital increases, (4) deferred trade credit, if any, (5) creditor subordinations or standbys, and (6) mortgages, liens, pledges, assignments, conditional sales, lease-purchases, hypothecations, and other encumbrances or security arrangements, both existing and contemplated;

(k) Status of all tax accounts, particularly federal income, excise, and withholding taxes, and social security taxes or contributions (including verification with Internal Revenue Service, when appropriate) with special attention to the matter of federal tax delinquencies (which are covered by the lien and right of distraint and levy provided by sections 6321 and 6331 of the Internal Revenue Code);

(l) Appropriate information, explanation and schedules to indicate (1) leases, deferred purchase arrangements, and patent or royalty arrangements, outlining terms and showing relationship, if any, of other parties to the contractor, (2) insurance maintained and to be maintained, (3) contemplated capital expenditures, debt reduction or retirement, and acquisitions of capital stock, (4) delinquencies on contracts, subcontracts or purchase orders, and status thereof, (5) pending or anticipated liability for contract price refunds, or for renegotiation, or for other Government claims, (6) anticipated losses on contracts, (7) contingent liabilities, including those on endorsements, guarantees, warranties, surety bonds, and material litigation pending or threatened, (8) aging and collectibility of accounts and notes receivable, status of disputed receivables, identification of any amounts included in receivables but not currently due and payable, (9) obsolescence of inventory and method of valuing inventory, (10) aging of accounts and notes payable, identifying major creditors and interest rates and other charges, if any, and status of significant disputed items, (11) adequacy of reserves for depreciation, ventory to annual sales, (2) inventory (12) analysis of surplus;

(m) Significant ratios such as (1) inventory to sales, (2) inventory to current assets, (3) liquid assets to current assets, (4) liquid assets to current liabilities, (5) current assets to current liabilities, and (6) net worth to debt:

(n) Comments and opinion of audit agency concerning contractor's accounting system and controls, and available audit agency analysis of important elements of financial statements or projections;

(o) Other facts that may be appropriate for the purposes stated at the beginning of this section. See §§ 163.24–1 to 163.26.

§ 163.28–1 Cash flow forecast, and estimated financial statements.

In doubtful cases, an estimated cash budget (Cash Flow Forecast) and related estimated Profit and Loss Statements and estimated Balance Sheets prepared by the contractor, will be very useful for the purpose of arriving at an informed judgment as to the cash requirements (both for the contract and for the contractor's other activities), cash receipts for the contract period, and cash or credit needed to supply any excess of projected expenditures over projected receipts. When considered useful or necessary, such estimates should be requested from the prospective contractor, analyzed by financial personnel, and discussed to the extent necessary or appropriate with the prospective contractor.

Many contractors will have such projections readily available, perhaps not including estimated balance sheets. The failure of the contractor to have prepared such estimates, or resistance to their preparation, or difficulties and delays in preparation, or poor quality of the projections, or the use of unreasonable or unrealistic assumptions in their preparation, may well constitute warning signals that the company's planning has been insufficient and that significant financial troubles may be encountered during the contemplated period of contract performance.

§ 163.28–2 Realistic assumptions.

Cash forecasts can, of course, be no more reliable and representative of probable financial developments than the assumptions on which these forecasts are based. Each cash forecast and related projection should disclose the important underlying assumptions. Most important of these assumptions are the:

(a) Estimated amounts and timing of purchases of materials, parts, components, sub-assemblies, services, and payments therefor;

(b) Estimated amounts and timing of purchases of machinery and equipment, other production or test facilities, other fixed assets, and purchases or production of special tooling, and payments therefor;

(c) Schedule of fixed cash charges, such as debt installments, interest, rentals and taxes;

(d) Projected manufacturing and production schedules;

(e) Projected shipments, or delivery acceptances;

(f) Estimated amounts and timing of billings to customers (including progress payments), and customer payments;

(g) Estimated amounts and timing of cash receipts from lenders or other credit sources, and liquidation of loans; and

(h) Estimated amounts and timing of cash receipts from other sources.

The assumptions underlying cash forecasts should be checked for reasonableness and realism—with the contractor, Government personnel responsible in the areas of engineering, production scheduling, cost and price analysis, and with others (including prospective supply, subcontract, and loan or credit sources)—as may be prudent in the circumstances of the case.

§ 163.28–3 Estimated profit and loss statements and balance sheets.

(a) The cash budget or cash forecast does not show anticipated profit or loss, and is limited to the forecast of movements within a company's cash account. The concurrent submission of an estimated profit and loss statement covering the same period serves to tie in the anticipated cash transactions with the estimated sales and expense activity, and culminates in the estimated balance sheet position. The estimated profit and loss statement also can serve as a guide for evaluating the company's projections with respect to sales volume, cost of goods sold, gross profit and net profit in relation to the known results of past performance.

(b) The inter-relationship between the cash budget, estimated profit and loss statement and estimated balance sheet, covering a given period, is illustrated in charts 1 and 2:

§ 163.29 Termination financing.

It is recognized that adequate protection against the financial impact of termination of Government contracts and subcontracts should encourage suppliers to invest their own funds in performance under such contracts and that financing for termination purposes will be an important aid to ultimate reconversion of industry to peacetime activities. Accordingly, termination financing may be made available, with appropriate protection of the Government's interest, either in connection with or independently of performance financing.

§ 163.30 Report of adverse developments; prompt decisions.

When materially adverse developments concerning a borrower having a guaranteed loan, or concerning a contractor having advance payments or progress payments, become known to a procuring activity, pertinent facts, including report of remedial or protective action taken or proposed, should be reported by the procuring activity to the contract financing office of the Department principally concerned with the contract financing, so that timely appropriate protective or remedial action may be taken by coordinated action of all concerned. However, the filing of such reports shall not relieve the personnel responsible for administration of the contract from taking such action as is deemed proper, prudent, and beneficial to the Government. When there are reasons to doubt the prudence of continuing progress payments or advance payments in cases involving performance difficulties or financial deterioration, decision must be made promptly and with proper regard to the harmful effects of delay on the continued operation of the contractors concerned.

§ 163.31 Reports.

Each Department shall submit reports of financing activities at such times and in such form as may be prescribed or approved by the Assistant Secretary of Defense (Comptroller).

§ 163.32 Deviations; amendments.

Actions in the exercise of the judgment and discretion allowed by these regulations are not deviations. Actions contrary to or inconsistent with or varying from these regulations would be deviations. Deviations will be permitted only when necessary in exceptional circumstances, after (a) the proposed deviation has been presented to the Contract Finance Committee, (b) the recommendations of that Committee have been obtained, and (c) the approval of the Assistant Secretary of Defense (Comptroller) or his designated representative has been given. The above procedure will be followed also for amendments to these regulations. (See § 163.4.) The provisions of Subchapter A pertaining to deviations (§§ 1.109–2 and 1.109–3 of this chapter) and to amendments (§ 1.105 of this chapter) do not apply to these contract financing regulations.

§ 163.33 Interpretations.

It is important that this part and the clauses set forth herein be applied fairly and uniformly for all contractors. When a serious question of interpretation or application of this part arises within a procuring activity, and is regarded as being of general importance, if the circumstances reasonably permit the obtaining of an advance opinion on the question from Departmental headquarters, the question should be presented, through procurement channels, to the procurement policy office of the Department primarily interested, namely, the Deputy Chief of Staff for Logistics, Office of Naval Material, or Deputy Chief of Staff/Materiel. If the circumstances do not reasonably permit request for advance opinion, report of an interpretation made (if regarded as important and of general interest for uniform application or interpretation of these regulations) should be made to the appropriate one of the procurement policy offices mentioned. Those are expected to take appropriate and timely action to obtain the views of interested offices of the other Departments, including the contract financing offices (§ 163.26). When questions submitted are considered to be of importance in the general interest of uniformity and of fair and effective administration of this part, appropriate revision of this part, will be considered in the manner outlined in § 163.4. In periods between any amendments of this part, it is contemplated that information on important interpretations of general interest, reported to or made at Departmental headquarters, will be made available to procuring activities for dissemination to interested purchasing offices.

§ 163.33a Foreign procurement.

The regulations in this part apply equally to domestic and foreign procurement, with the exceptions and qualifications stated in this section and in §§ 163.33a–1 to 163.33a–3. The enforceability of a contract provision in a foreign jurisdiction is dependent on local law and procedure. It may sometimes become necessary to take action in foreign countries to enforce collateral security or other contract financing protective provisions, or to recover property pursuant to a progress payment clause, and to collect contract financing indebtedness. In such cases, the nature and extent of remedies available for enforcement of contract provisions is necessarily determined by the laws, rules and procedures of the country in which the relief is sought.

§ 163.33a–1 Progress payments on contracts for foreign performance.

When progress payments (Subpart E of this part) are contemplated for contracts to be performed wholly or partly in a foreign country, appropriate legal advice should be obtained with respect to the validity, enforceability and effectiveness of the contemplated progress payment clause (§§ 163.79–1, 163.79–2 and 163.80) and of any proposed guarantees, pledges or other special protective arrangements, within the foreign country involved. Such legal advice should also cover the need, if any, for additional protective provisions (§ 163.80–6) or for deviations (§ 163.78–9) from the uniform clauses, that may be required to comply with the applicable foreign law and to provide for the most effective protection and enforcement of the interests of the United States. Section 163.86 requires that proposed deviations (§ 163.78–9) must have prior approval of the contract financing office (§ 163.26) after the coordination mentioned in § 163.87.

§ 163.33a–2 Advance payments on contracts for foreign performance.

When advance payments are proposed (Subpart D of this part) for contracts to be performed wholly or partly in a foreign country, the recommendation (§ 163.62) for advance payments should include appropriate legal advice along the lines of that outlined in § 163.33a–1. When advance payments are proposed to be made on contracts with foreign governments, it is expected that the advance payment arrangement, if approved (§ 163.56), would not include provisions generally unsuitable for government-to-government agreements, such as those for special bank accounts, unilateral withdrawal of funds, liens, insurance, additional security, or representations, warranties and covenants of the kinds set forth in § 163.64–2 (p) and (r). It is recognized that advance payments to foreign governments, when authorized, will

need to be adapted to the special circumstances of each case to provide appropriate protection in the light of the relationship of the United States to each affected foreign government and with due recognition of the sovereign status of the contracting parties.

§ 163.33a–3 Guaranteed loans for foreign contract performance.

When contracts or subcontracts are to be performed in a foreign country, financing by means of loans guaranteed by the military departments seldom will be practicable because of difficulties of loan administration and enforcement. When loans are to be utilized for financing of such contracts or subcontracts, it is considered generally preferable that the loans be provided within the internal financial system of the foreign country concerned, without military department guarantee.

Subpart C—Guaranteed Loans

§ 163.34 Scope of subpart.

This subpart covers the policies, organization, and procedure particularly applicable to guaranteed loans.

§ 163.35 Federal Reserve banks.

Under section 302(b) of Executive Order No. 10480, pursuant to section 301(b) of the Defense Production Act of 1950, as amended, each Federal Reserve Bank is designated and authorized to act, on behalf of each guaranteeing agency, as fiscal agent of the United States in the making of contracts of guarantee and in otherwise carrying out the purposes of section 301 of the Defense Production Act of 1950, as amended, in respect of private financing institutions. Pursuant to Regulation V of the Board of Governors of the Federal Reserve System, any private financing institution may submit to the Federal Reserve Bank of its district an application for guarantee of a loan or credit. This application is in substantially standard form, as approved by the Board of Governors of the Federal Reserve System, after consultation with the guaranteeing agencies. Forms of application, and information and guidance concerning applications, are available at all Federal Reserve Banks.

§ 163.36 Board of Governors of the Federal Reserve System.

Under section 302(c) of Executive Order No. 10480, all actions and operations of Federal Reserve Banks, as fiscal agents, are subject to the supervision of the Board of Governors of the Federal Reserve System (hereinafter referred to as "Federal Reserve Board"). The Federal Reserve Board is authorized, after consultation with the heads of the guaranteeing agencies, (a) to prescribe such regulations governing the actions and operations of fiscal agents as it may deem necessary, (b) to prescribe, either specifically or by maximum limits or otherwise, rates of interest, guarantee and commitment fees, and other charges which may be made in connection with loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through such fiscal agents, and (c) to prescribe regulations governing the forms and procedures (which shall be uniform to the extent practicable) to be utilized in connection with such guarantees.

§ 163.37 Procedure on application of a private financing institution.

A defense contractor or subcontractor (at any level) or supplier, who requires operating funds may apply to the private financing institution selected by him, for the necessary loan or revolving credit, and furnish necessary information to the financing institution. If the financing institution is willing to extend credit, but considers Government guarantee necessary, it may file application for guarantee with the Federal Reserve Bank of its district. The Federal Reserve Bank promptly submits copy of the application to the Federal Reserve Board listing defense contracts, for transmittal to the interested guaranteeing agency, so that determination may be made as to eligibility of the prospective borrower. For the purpose of expediting, the Federal Reserve Bank may also, pursuant to general instructions of the guaranteeing agencies, submit schedules of defense contracts to the interested contracting officers, who are expected at once to take appropriate steps for determination of eligibility, and to submit their findings and report, including certificate of eligibility where appropriate, to the designated central procurement office, or contract financing office as the case may be, within the guaranteeing agency. Concurrently with the process for determination of eligibility, the Federal Reserve Bank makes any necessary credit investigation, to the extent and in the manner that it considers investigation or verification appropriate to supplement information furnished by the applicant financing institution, all with a view to expediting necessary defense financing in such a way as to afford the best reasonable protection against monetary loss. The report and recommendation of the Federal Reserve Bank are sent to the Federal Reserve Board, which transmits them to the interested guaranteeing agency, in Washington. If the application is approved on such terms and conditions as may be deemed appropriate by the responsible officer or official within the guaranteeing agency, the guaranteeing agency then authorizes the Federal Reserve Bank, by standard form of authorization transmitted through the Federal Reserve Board, to execute and deliver to the financing institution a standard form of guarantee agreement, with the terms and conditions approved for the particular case. The Federal Reserve Bank, as fiscal agent for the guaranteeing agency, then issues the guarantee to the financing institution which makes the loan. Substantially the same procedure may be followed on application for guarantee of loans to be made to a potential defense contractor who is actively negotiating or bidding for defense business, except that the guarantee is not authorized until the prospective defense contract has been executed.

§ 163.38 Loan guarantees to Federal Reserve Banks.

The Defense Production Act of 1950, as amended, and Executive Order No. 10480 also authorize guarantees for loans made or participated in by Federal Reserve Banks. The procedure outlined in § 163.37 applies also to loan guarantees where a Federal Reserve Bank is making or participating in the loan, except that in such cases the interested Federal Reserve Bank, as a financing institution, does not act as fiscal agent, and when approved, the guarantee agreement is executed by an official of the guaranteeing agency.

§ 163.38–1 Other Government agencies.

Loan guarantees are not issued to other departments or agencies of the Government.

§ 163.39 Loan guarantees for terminated contracts.

(a) Guaranteed loans ordinarily provide for financing based on the borrower's recoverable investment in defense production contracts, including those contracts which have been terminated for the convenience of the Government. Guaranteed loans also may be established after total or partial termination of contracts for the convenience of the Government, or before such termination when it is known that termination of particular contracts for the convenience of the Government is about to occur. Such guaranteed loans are expected to provide necessary financing pending termination settlements and payments, and also to provide any funds necessary for continuing performance of defense production contracts that are eligible for financing under the guaranteed loan.

(b) The procedure on applications for such guarantees will be substantially the same as that outlined in § 163.37, except that certificates of eligibility (§§ 163.48 to 163.49(k) will not be required for contracts which have been wholly terminated, nor for the terminated portion of contracts which have been partially terminated. It is of course expected that necessary precautions, appropriate to the circumstances of individual cases, will be taken, as in other cases, to avoid losses and to cause such loans to be self-liquidating from the proceeds of defense production contracts. This type of loan guarantee, intended primarily for contract termination financing, is not provided before the imminence of particular contract terminations, for the reasons outlined in § 163.47(b). Further reasons include the difficulty of determining whether contract terminations will occur in the future and will require guaranteed loan financing, and the expense and administrative burden that would be involved in establishing commitments which may in fact never be used.

§ 163.40 Guaranteeing agency.

The guaranteeing agencies which have been designated under section 301 of the Defense Production Act of 1950, as amended, are the Departments of the Army, Navy, Air Force, Agriculture, Commerce and Interior, General Services Administration, and Atomic Energy Commission. All of the guaranteeing agencies have concurred in the following policy:

> Where a prospective borrower under a V-loan has defense contracts or subcontracts in which more than one of the guaranteeing agencies are interested, the guaranteeing agency in such case will be in general that agency which, as of the time of the application for the guarantee, has the preponderance of interest in such contracts and subcontracts on the basis of the dollar amount of the prospective borrower's unfilled and unpaid balances of such contracts and subcontracts and estimated claims under terminated contracts (exclusive of contracts with advance payments, if such advance payments are not to be liquidated by the proposed guaranteed loan). If the application is approved and a guarantee agreement is executed on behalf of such agency having the preponderance of interest, that agency will bear all losses and expenses and receive all revenues under such guarantee without allocation to other agencies of the Government. In this connection, among the Military Departments, single service procurement contracts are deemed those of the purchasing department.

§ 163.40–1 Effect on preponderance of progress payments or denial of certificate of eligibility.

Among the Military Departments, the determination of preponderance of interest, under § 163.40, is made without regard to the existence of progress payments on particular contracts, and without regard to the issuance or nonissuance of certificates of eligibility on particular contracts.

§ 163.40–2 Shifting of preponderance.

During the course of a guaranteed loan, preponderance of interest in the borrower's defense production contracts may shift from one of the Military Departments, as guaranteeing agency, to another Military Department. When such preponderance has shifted materially so that substantial preponderance is in one of the Military Departments other than the guaranteeing agency, action on requests for increases in the amount of guaranteed loans, and on requests for extensions of maturity for a period of more than six months, ordinarily will be taken by the Military Department then having such preponderance of interest. However, in the above situation, action will be taken by the Military Department which has guaranteed the loan, if the loan is in distress, with fairly foreseeable losses, and the requested extension or increase is for the purpose of orderly liquidation of the loan in a manner designed to reduce the amount of the loss. If such a loan is not in distress, and losses are not fairly foreseeable, and the greater part of the borrower's defense production contracts are determined to be eligible for a continuing guaranteed loan, and the circumstances of the case are such that favorable action would have been taken by the then guaranteeing agency if it had remained preponderantly interested in the borrower's defense production contracts, similar favorable action will be taken by the Military Department then having such preponderance of interest. In these cases, while new application for guarantee is required, the file of the contract financing office which has authorized the existing guarantee will be transferred to the contract financing office of the Military Department then having preponderant interest in the case, and the information to be submitted with the application need be only current financial information, data concerning the borrower's defense production contracts, and other pertinent facts concerning the borrower and its operations, to the extent necessary to supplement and bring up to date the information previously furnished to the guarantor. In order not to disturb or impair any security for the existing loan, and for the convenience of all concerned, it is preferable that the new guarantee merely replace the former guarantee, with appropriate recitals as to cancellation of the former guarantee, and with appropriate revision of the existing loan agreement and of such collateral security instruments as may require revision.

§ 163.41 100 percent guarantees.

It is the policy of the guaranteeing agencies that 100 percent guarantees shall be limited to the greatest extent compatible with the requirements of the national defense. Applications for 100 percent guarantees will be approved only in cases in which the guaranteeing agency determines that the circumstances are exceptional, that the operations of the borrower are vital to the national defense, and that no other suitable means of financing are available.

§ 163.42 Asset formula.

It is the policy of the guaranteeing agencies that borrowings under guaranteed loans made primarily for working capital purposes should be limited, in accordance with an asset formula, to amounts which do not exceed specified percentages (90 percent or less) of the borrower's investment in defense production contracts. The formula may include all items for which the borrower would be entitled to payment on performance or termination of defense contracts, but would not include any amounts (for which no work has been done nor expenditures made by the borrower) to become due as the result of later performance under the borrower's contracts. However, any such asset formula would be subject to relaxation in appropriate cases to the extent and for the time actually necessary for contract performance where the contractor's working capital and credit are inadequate. This "asset formula" does not include "cash collateral" or bank deposit balances.

§ 163.43 Amount and maturity of guaranteed loans.

(a) Subject to the limitations of the asset formula (§ 82.42), the maximum amount of guaranteed credit in individual cases, and the maturity date of guaranteed loans or credits, are fixed to conform reasonably to the borrower's financing requirements for defense production contracts on hand at the time of application for guarantee. If additional defense production contracts are entered into after the application and before authorization of a guarantee, to such extent as to require increase in the maximum amount, or longer maturity for the requested guaranteed loan, adjustments may be made to provide for the borrower's additional financing requirements. Also, guarantee agreements for existing guaranteed loans may be amended, on submission of pertinent information and Federal Reserve Bank report to the guaranteeing agency concerned, to provide financing for defense production contracts entered into by the borrower during the term of the guaranteed loan.

(b) Also, within the limits of the applicable loan formula and ceiling amount, there is generally no objection to inclusion in the borrowing base, of assets under defense production contracts entered into after the date of the guarantee agreement. However, in exceptionally weak cases, and in the cases of guaranteed loans established for financing only one or a small number of contracts, it is the practice to require that financing of relatively substantial additional defense contracts under existing guaranteed loans be done only with the consent of the guarantor.

§ 163.44 Assignments of claims under contracts.

(a) Assignments of claims under the borrower's defense production contracts are generally required, including assignment of proceeds of such contracts entered into after issuance of the guarantee if after acquired contracts are eligible for financing under the guaranteed loan in a given case. However, assignments need not be required in particular cases, (1) where the borrower's financial condition is so strong as to cause assignments of any contracts to be considered not necessary for the protection of the loan, or (2) where incident to assignment of major contracts it is considered not necessary for the protection of the loan to require initial assignment of relatively small contracts, or (3) where the large number of contracts of the borrower for small dollar amounts, would cause the making and administration of contract assignments to be unduly burdensome and inconvenient so long as not deemed essential for the protection of the loan.

(b) It is required, as standard practice, that defense production contracts, not theretofore assigned, will be assigned whenever requested by the guarantor or the financing institution.

(c) Subcontracts and purchase orders issued to subcontractors are not considered acceptable for financing under guaranteed loans if and so long as the issuer of the subcontracts or purchase orders (1) reserves the privilege of making payments directly to the assignor or to the assignor and assignee jointly after notice of the assignment, or (2) reserves the right to reduce or set off assigned proceeds under defense production contracts by reason of claims against the borrower arising after notice of assignment and independently of defense pro-

duction contracts under which the borrower is the seller.

§ 163.45 Other collateral security.

Ordinarily, mortgages on fixed assets are not required, but they are required where considered essential to protect the Government. Liens or other security arrangements pertaining to inventories are also seldom required, except when desired by financing institutions or in exceptional circumstances when deemed necessary to protect the Government. Depending upon the circumstances of individual cases, endorsements, guarantees, subordinations, and stand-bys of other indebtedness, and other special security devices are required when deemed necessary for the protection of the Government.

§ 163.46 Contract surety bonds in relation to loan guarantees.

In most jurisdictions, upon default by a contractor and performance of the surety's obligations, the surety's right of subrogation gives to the surety, ahead of a financing institution which had made a loan for contract performance, prior claim to payments made on the bonded contract after default, and in performance of its obligations the surety also has the benefit of materials on hand that have been paid for by the contractor, even though progress on the contract before default has been financed by loans from the financing institution.

(a) Because of the foregoing, on loan guarantees in connection with prime contracts, the guarantor's loss on the loan, payable to the financing institution, may serve to take away from the Government the benefit of performance of the surety's obligations on its bond; and in subcontract cases the loan may serve to benefit the surety at the expense of the financing institution and guarantor.

(b) Except to the extent that surety bonds are required by law, bonds are generally not required. Yet it sometimes may be necessary to rely upon a contractor whose capacity to perform is so doubtful that a bond is required for the protection of the Government. The guarantee of a loan to a contractor of such doubtful capacity to perform necessarily involves unusual risks of monetary loss. Contract surety bonds, and guaranteed loans for financing bonded contracts are regarded as fundamentally incompatible unless the interests of the surety are subordinated in favor of the guaranteed loan.

(c) In order to maintain the advantages of performance bonds existing in favor of the Government on prime contracts, in cases where the Government contract or contracts covered by surety bonds are substantial in relation to the contractor's total backlog of defense production contracts or where the amount of the bond is substantial in relation to the contractor's net worth, applications for loan guarantees are approved only if the surety or sureties on the bonds involved will subordinate their rights and claims in favor of the guaranteed loan.

(d) In cases involving relatively substantial subcontracts covered by surety bonds, approval of an application for loan guarantee will also be contingent upon the establishment of a reasonable allocation agreement between the surety or sureties and the financing institution, which would have the effect of giving the financing institution the benefit, with regard to payments to be made on the contract, of that portion of its loans fairly attributable to expenditures made under the bonded subcontracts prior to notice of default.

§ 163.47 Other borrowings.

Since V-loans are generally measured, and limited by, stated percentages of the borrower's investment in defense production operations and terminated defense contracts, it is evident that borrowings outside the guarantee may be necessary in some cases to support the borrower's nondefense activities. It has been recognized in practice, that while prohibition of borrowings outside the guaranteed loan is preferable where practicable in a given V-loan case, such other borrowings should be permitted when necessary.

(a) However, in cases where borrowings outside the V-loan are not prohibited, some restrictions on unguaranteed borrowings appear necessary for protection of the Government interest. These include reasonable limitations on the amount of, and collateral security for, such unguaranteed borrowings, and usually a provision that collateral security, if any, for such unguaranteed loans made by the same financing institutions should also be secondary collateral for the V-loan.

(b) If a credit is to be guaranteed under section 301 of the Defense Production Act, in circumstances where there may be borrowings either under or outside the guarantee, the guaranteed credit, having been established, and being susceptible to use at any time, should be utilized first and fully, and not reserved as free insurance pending such time and circumstances as may make its use convenient to the financing institution. It has therefore been determined, in line with the practice developed toward the end of the past war, that for those cases in which borrowings outside the V-loan are not prohibited, it should be required uniformly that other borrowings outside the V-loan may be incurred and remain outstanding without the consent of the financing institution and the guarantor only when the V-loan is being used to the full extent permitted by the V-loan agreement. Appropriate certificates of the borrower, in the same form as those used to measure the amount that may be outstanding under the V-loan, but submitted at intervals not longer than 30 days, could be used to determine when there may be borrowings outstanding outside the V-loan.

(c) It is of course recognized that appropriate exceptions will have to be made in individual cases to permit the continuation of outstanding term loans, to permit future unguaranteed term loans for expansion of facilities, and to permit continuance of such financing as may be necessary to supplement a V-loan.

§ 163.48 Eligibility certifications.

(a) Financing through guaranteed loans may be made available to a supplier in cases where (1) the production or service is essential and (2) no alternative source is readily available without prejudice to the national defense. However, in connection with applications for guarantees or loans to be made to small business concerns, and in connection with increases or extensions of maturities of guaranteed loans made to small business concerns, and if they otherwise qualify, the factor of ready availability of alternative sources will not be considered, and the statement that the contracts or subcontracts involved cover materials or services which cannot be procured readily from an alternative source without prejudice to the national defense will be omitted from the certificate of eligibility. When financing through loan guarantees is requested, the interested procuring activity shall certify that the case meets the requirements set forth in this section, and shall accompany such certification with adequate supporting data pertinent to the case.

(b)(1). The certificates of eligibility and supporting data furnished by principally interested procuring activities, are the basis for the ultimate findings, incident to authorization or approval of loan guarantees, that the case meets the requirements of section 301 of the Defense Production Act of 1950, as amended, and of section 302 of Executive Order No. 10480.

(2) In its present form this certificate includes findings that the materials or services involved are deemed essential to the national defense, that (except for small business concerns) these cannot be procured readily from an alternative source without prejudice to the national defense, and that the contractor has the technical ability and the required facilities to perform. It is required that supporting data be contained in or accompany the certificate. It has been provided on the approved form of certificate, as the standard for guidance in considering issuance of certificates of eligibility, that:

> This is not intended as a statement that there is absolutely no alternative source other than this contractor. The certification is founded on practical considerations. These considerations include the urgency of supply schedules, technical and plant capacity and unwillingness of other suppliers, time and expense involved in reletting all or parts of contracts (including expense of termination for convenience, and delays incident to future determinations of default), comparative prices, effect of interruptions of established subcontracting arrangements, and other pertinent practical factors.

§ 163.49 Procedure for certificate of eligibility.

It is important that the processing of certificates of eligibility be accomplished expeditiously. It is necessary that there be application of uniform and consistent standards in determining eligibility.

(a) As indicated in § 163.48(b), the determination in the certificate of eligibility is based upon giving full weight to practical considerations. It is also intended that in determining whether the materials or services can be procured readily from an alternative source without prejudice to the national defense, due consideration will be given to the effect of the use of alternative sources on the established major policies affecting procurement, such as those relating to the mobilization base, and industrial dispersal. If the reletting of contracts with other sources would involve conflict with any of such policies, such reletting in conflict with any such policy should be deemed prejudicial to the national defense. Also, in considering the practicability of alternative sources, in addition to the considerations outlined above, regard should be given to the question whether such potential alternate sources would require Government financing by progress payments, or advance payments, or Government supported financing by means of a guaranteed loan. If such financing would be required for alternative sources, such alternate sources may be fairly considered not "readily available" within the meaning of the certificate of eligibility.

(b) Ordinarily, if the certificate of eligibility is not issued by the interested procuring activity, it does not follow that the contract involved will be terminated unless the contractor is in default to the extent that termination for default is considered desirable, or unless it has been determined that the contractor will be unable to perform his contract. Thus, in determining whether alternate sources are readily available without prejudice to the national defense, consideration should be given to the effect on supply schedules, and costs to the Government, if the contractor should default at a later date and be unable to perform by reason of inadequate financing.

(c) In determining eligibility of small business concerns, the factor of ready availability of alternative sources will not be considered, and the paragraph of the form of certificate of eligibility pertaining to alternative sources will be deleted in cases of small business concerns. In such cases the fact that the particular items or services involved are being procured under or pursuant to a contract of a Military Department is considered adequate to support and require the finding that the materials or services involved are deemed essential to the national defense. However, this does not mean that the certificate of eligibility should be provided automatically for small business concerns, or that any less care and diligence should be exercised for determining eligibility for small business cases than for other cases. See paragraph (d).

(d) It is necessary in all cases, whether or not involving a small business concern, that, in considering issuance of a certificate of eligibility, emphasis be placed on the factors of the contractor's technical ability management competence and reliability, plant capacity and facilities, and generally on his ability to perform satisfactorily if adequate financing is provided. If these factors are not favorable, the certificate of eligibility should not be issued. See §§ 163.23 and 163.24.

(e) With regard to contracts existing at the time of request for the certificate of eligibility, the percentage of guarantee requested by a financing institution is not a factor to be considered in connection with issuance of the certificate.

(f) In all cases, the supporting data furnished to the contract financing office should be sufficient to support the findings made in the certificate of eligibility. This data should contain available information pertinent to the matter of ability to perform satisfactorily, including known information as to past performance and available information on the relation of the contractor's operations to supply schedules, and available pertinent information on other practical factors such as comparative prices and the time and expense that would be involved if reletting the contracts should become necessary (§ 163.28 does not apply). All of this information, including particularly an indication as to whether or not the contractor is considered an important source for materials or services, is necessary and important for consideration by the contract financing offices in determining the ultimate question whether, on their evaluation of all the circumstances of particular cases (including the contractor's financial condition and financial record), the authorization of a guarantee would be prudent and in the best interests of the Government. When the certificate of eligibility is not furnished, the facts and reasons leading to declination of the certificate should be furnished.

(g) In those cases of subcontracts, where the prospective borrower is financially weak in relation to the financial condition of his defense contract customer, and the interests of the Government would be fostered by the making of progress payments to the subcontractor by his customer, it is appropriate that steps be taken, by coordinated effort of the procuring activity and the contract financing office, to arrange to the extent practicable for such progress payments to the subcontractor by his customer. By such means, in appropriate cases, the guaranteed loan may become unnecessary, or necessary in lesser amount, and the risks of loss are borne wholly or partly by the prime contractor or subcontractor responsible for selection of the prospective borrower as his subcontractor.

(h) If materially adverse information of any character concerning the prospective borrower is known to a procuring activity, such materially adverse information should be fully reported to the interested contract financing office. However, procuring activities are not expected to make any special investigation of the prospective borrower's financial condition in connection with applications for loan guarantees, as reports concerning financial condition of prospective borrowers are made by the Federal Reserve Banks.

(i) When certificates of eligibility are requested within a Department, or by one Department from another Department, reply will be made as promptly as possible, on a priority basis, as delays in financing may retard contract performance. Ordinarily, requests for certificates of eligibility, and pertinent data, will be made only with respect to those contracts deemed of material consequence under the circumstances of particular cases.

(j) In cases involving several contracts or subcontracts, including contracts or subcontracts relatively minor in relation to dollar amounts of other contracts involved, the processing of certificates of eligibility should not be delayed pending determinations concerning the relatively minor contracts. When any office within a procuring activity has on hand information concerning the substantial preponderance of amount of contracts with which it is concerned, its action concerning the certificate of eligibility should be completed without awaiting information on which to make determinations or recommendations concerning minor contracts. Basically, in situations involving numerous contracts, the determination as to eligibility should be founded upon the need of the prospective borrower's operation in the defense production program, and if his operation is considered necessary for performance of substantial preponderance of his contracts, it usually should be unnecessary to make determinations concerning the eligibility of any particular minor contracts.

(k) When a contracting officer or other person within a procuring activty responsible for processing requests for certificates of eligibility has reason to believe that an application for loan guarantee has been filed or is about to be filed, relating to a contract or subcontract within his cognizance, he should, without awaiting request for a certificate of eligibility or request for information bearing on issuance of a certificate of eligibility, initiate the completion and transmittal of such information and certificate to the appropriate office within his Department, for forwarding to the contract financing office within the Department.

Subpart D—Advance Payments

§ 163.50 Scope of subpart; references.

This subpart covers policy and procedure for advance payments on prime contracts, including advance payments on subcontracts under all types of prime contracts. It applies to all advance payments hereafter authorized pursuant to any legislation or other authority, except as provided in § 163.68a. It is to be applied in conformity to the policies stated in Subpart B of this part. Sections 163.1, 163.2, 163.3, 163.4, 163.5, 163.8, 163.9, 163.12–2 and 163.12–3 are also applicable to advance payments.

§ 163.50–1 Advance payments on subcontracts.

The policies, standards and procedures of Subpart D of this part are applicable to advance payment to subcontractors under all prime contracts, including fixed-price types and cost-reimbursement types of prime contracts. For the prime contractor to receive advances for or to be reimbursed for such advance payments, it is required that the prime contract make provision for advance payments conforming to this Part, with appropriate provision for advance

payments by the prime contractor to subcontractors or suppliers. See § 163.64–2(q).

§ 163.51 Types of contracts that may have advance payments.

Advance payments may be made on any approved type of contract, as defined in § 1.201–4.

§ 163.52 Advance payments in addition to progress payments.

Where necessary and in accordance with these regulations, advance payments may be authorized in addition to progress payments on the same contract. See § 163.77.

§ 163.53 Interest.

(a) Interest will be charged on all advance payments hereafter authorized, at the rate of five percent per annum on the unliquidated balance: *Provided, however,* Advance payments may be approved without interest when in connection with nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work, or on nonprofit contracts in the dependents' medical care program, or on contracts solely for the management and operation of Government-owned plants, or, in unusual cases when specifically authorized by the Under or Assistant Secretary responsible for the Comptroller function. In this connection, contracts for acquisition of facilities at cost, for Government ownership, in combination with or in contemplation of supply contracts or subcontracts, will be treated as ordinary profit contracts requiring interest on advance payments.

(b) Contracts with interest-free advance payments, hereafter authorized, should provide that the contractor will charge interest at the rate of five percent per annum on sub-advances or down payments to subcontractors, and that interest charged on such sub-advances or down payments will be credited to the account of the Government. However, interest need not be charged on sub-advances on nonprofit subcontracts with nonprofit educational or research institutions for experimental, research, or development work.

(c) Interest on advance payments will not be allowed as a cost under any cost-reimbursement type contract nor cost-reimbursement subcontract thereunder, and no such contract or subcontract may provide or be amended to provide for allowance of such interest as an item of cost.

§ 163.54 Standards; amounts; need.

(a) Advance payments should be used sparingly and care should be taken to see that advances outstanding are sufficient for but do not exceed the actual reasonable requirements for the contracts. The amount of the advance payment in any case should be based upon an analysis of the cash flow required under the contract, and as a general rule should not exceed the interim cash needs arising during the reimbursement cycle.

(b) Generally, except for (1) nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work, and (2) contracts solely for the management and operation of Government-owned plants, advance payments should not be authorized unless no other means of adequate financing is available to the contractor (not including loans or credit (i) at excessive interest rates or other exorbitant charges, or (ii) from agencies of the Government outside the Department of Defense), and the amount of the authorization is predicated upon use of the contractor's own working capital to the extent possible.

§ 163.55 Statutory requirements.

The authorizing statutes (§ 163.8) apply equally to negotiated contracts and to contracts awarded or to be awarded by formal advertising. It is required for all advance payments, that—

(a) The contractor give adequate security; (§ 163.63)

(b) The advance payments shall not exceed the unpaid contract price;

(c) The making of advance payments is in the public interest, as determined by the authorized official concerned (§§ 163.56 and 163.56–1), when the action is pursuant to the authority of Title 10, U.S. Code, Section 2307;

(d) The making of advance payments will facilitate the national defense, as determined by the authorized official concerned (§§ 163.56 and 163.56–1), when the action is pursuant to Pub. Law 85–804, and Executive Order No. 10789.

§ 163.56 Responsibility; delegation of authority.

Except as provided in § 163.56–1 the responsibility and authority for making findings and determinations with respect to advance payments, and in each case for approval of contract provisions for advance payments, or for approval of the terms and conditions thereof, shall be in the Under or Assistant Secretary responsible for the comptroller function in each Military Department, or the authorized deputy of either of them. The Government may not be committed, in any manner, directly or indirectly to make an advance payment without the approval of the Under or Assistant Secretary responsible for the comptroller function, or the authorized deputy of either of them (or in appropriate cases, of a person to whom advance payment approval authority has been delegated in accordance with § 163.56–1), and no procurement involving advance payments may become final until such approval is obtained.

§ 163.56–1 Delegation of authority.

The authority in each case to make findings and determinations with respect to advance payments and to approve contract provisions for advance payments, or to authorize the terms and conditions thereof, may be delegated within each Department no further than, to the Comptroller of the Army (and an alternate within his office) in the Department of the Army, to the Assistant Comptroller, Accounting and Finance (and an alternate within his office) in the Department of the Navy, and to the Deputy for Contract Financing to the Assistant Secretary (Financial Management) of the Air Force (and an alternate responsible to such Deputy for Contract Financing). However, to the extent deemed necessary or prudent and efficient under exceptional circumstances, further delegations of this advance payment authority may be made with the approval of the Assistant Secretary of Defense (Comptroller).

§ 163.57 Public Law 85–804: formally advertised contracts.

(a) Pursuant to Public Law 85–804, and Executive Order No. 10789, the Department of Defense, the Department of the Army, the Department of the Navy, and the Department of the Air Force are authorized to make advance payments under contracts heretofore or hereafter made, without regard to other provisions of law relating to contracts, including advance payments under contracts awarded on competitive bids after formal advertising, and to amend such contracts to provide for advance payments.

(b) Pursuant to the above statute and executive order (as well as 10 U.S.C. 2307) and subject to these regulations, advance payments may be granted at or after awards of contracts made on competitive bids after formal advertising (as well as on negotiated contracts) notwithstanding the absence of provision for or with regard to advance payments in the invitations for bids. Bids will be rejected if they are conditioned, qualified, or limited in such way that binding awards can be made only with provision for advance payments. Bids shall not be treated as nonresponsive because they contain, or are accompanied by or supplemented by request for advance payments or other indication that advance payments are desired or needed, so long as the advance payment aspect is not a condition, qualification or limitation of the bid. In the cases mentioned in the previous sentence, or if the need for advance payments becomes apparent in the course of inquiry as to whether the necessary funds will be available for performance by the prospective contractor, (1) the award may be made with provision for advance payments, in conformity with these regulations, or (2) the award may be made without provision for advance payments if the prospective contractor is determined to be a responsible contractor and advance payments are considered not necessary, or (3) the award may be denied because funds for performance are not otherwise available to the prospective contractor and the making of advance payments has been declined in accordance with these regulations.

§ 163.57–1 Special contract provisions.

All contracts providing for advance payments under the authority of the above-cited Act (P.L. 85–804) and Executive Order shall—

(a) Make reference to the Act and Executive Order; and

(b) Include appropriate clauses required by the Act and Executive Order (§ 17.102 of this chapter), or by other applicable regulations. (See §§ 7.203–7, 7.402–7 of this chapter).

§ 163.57–2 Data.

Complete data shall be maintained by each Department as to all contracts and amendments to contracts relating to advance payments made pursuant to the above-cited Act (Pub. Law 85–804) and Executive Order.

§ 163.58 Uses of advance payments.

Advance payments are last in the general order of preferences stated in § 163.22. Subject to the provisions of this part, advance payments are considered useful and appropriate for (a) nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work (§ 163.54), (b) contracts solely for the management and operation of Government-owned plants (§ 163.54), (c) contracts for acquisition of facilities at cost, for Government ownership, (d) contracts involving operations so remote from a financing institution that the financing institution could not be expected to provide suitable administration of a guaranteed loan, (e) contracts of such highly classified nature that the Department considers it undesirable for national security to permit assignment of claims under the contract, (f) rare but essential contracts of those contractors, unusually weak or overextended financially, in those cases in which performance may be better fostered and risks of financial loss most effectively minimized by very close control of funds and supervision of performance by personnel of the Department concerned, (g) contracts for the financing of which a financing institution will not (1) assume a reasonable portion of the risks under a guaranteed loan, or (2) provide funds except at excessive interest rates or other exorbitant charges, and (h) exceptional cases in which the utilization of advance payments will be more beneficial to the interests of the Government than any other available method of financing. Circumstances will occur, especially on contracts with small-business concerns, in which advance payments will be more beneficial to the interests of the Government and more suitable to the situation of the contractor than other methods of contract financing. If, incident to a bid or proposal, or after award of a contract, an otherwise qualified contractor is found to require advance payments, there should be no hesitation in recommending to higher authority that advance payments be established.

§ 163.59 Standards for advance payment determinations; all contracts.

It is not required for the granting of advance payments that the contractor be the sole or only source or prospective source for the required supplies or services. Important practical factors include comparative prices, urgency of supply schedules, and the time and expense involved in arranging other sources or in reletting contracts. The governing principles and standards for decision as to whether to make or approve the necessary determinations for advance payments are those set forth in this section and §§ 163.15 through 163.26, 163.54, 163.55, 163.57 and 163.58. Affirmative recommendations should be made in favor of granting advance payments when (a) advance payments are necessary to supplement other funds or credit available to a contractor or prospective contractor, (b) the contractor or prospective contractor is otherwise qualified as a responsible contractor (§§ 1.903–1 and 2.407 of this chapter and § 163.24); (c) there will be a benefit to the Government from performance prospects or other practical advantages, and (d) the case is within one or more of the categories described in § 163.58. These recommendations should be approved unless the responsible contract financing office (§ 163.26), or the Under or Assistant Secretary or other official concerned (§ 163.56), considers that under all the relevant circumstances the making of advance payments would be unreasonable or imprudent or would involve undue risks of monetary loss to the Government, or would otherwise fail to conform to this part.

§ 163.60 Findings, determinations, and authorization.

The following is the standard text of findings, determinations, and authorization (§ 163.62(f)) for use in establishing advance payments.

FINDINGS, DETERMINATIONS, AND AUTHORIZATION FOR ADVANCE PAYMENTS

FINDINGS

1. I hereby find that:

a. The _____ (Procuring Activity) and _____ (Contractor) have entered (propose to enter) into negotiated (formally advertised) Contract No. _____, (dated _____).

[Summary of significant facts concerning contract]

b. Advance payments (in an amount not to exceed $_____ at any time outstanding) (in aggregate amount not exceeding $_____, less the aggregate amounts repaid, or withdrawn by the Government) are required by the contractor in order to perform under the contract. Such amount does not exceed the unpaid contract price, nor the estimated interim cash needs arising during the reimbursement cycle.

c. The advance payments are necessary for prompt and efficient performance of the contract, which will be of benefit to the Government.

d. The proposed advance payment clause contains appropriate provisions for the protection of the Government, as security for the advance payments. These include provision that all payments will be deposited in a special bank account, and that the United States will have a paramount lien upon (1) the credit balance in the special bank account, (2) any supplies contracted for, and (3) any material or other property acquired for performance of the contract. (Advance payment bond is required.) Such security is deemed to be adequate.

e. Within the meaning of applicable regulations, no means of adequate financing other than by advance payments are available to the contractor, and the amount designated above is predicated upon the use of the contractor's own working capital to the extent possible in performing the contract.

f. The contractor is a nonprofit (educational) (and) (research) institution, and the contract is for (experimental) (,) (research and development) work, without profit to the contractor.

g. The contract is solely for the management and operation of a Government-owned plant.

h. The following unusual facts and circumstances favor the making of advance payments to the contractor without interest:

[Recitation of pertinent facts and circumstances]

DETERMINATIONS

2. Upon the basis of the foregoing findings, I hereby determine that the making of the proposed advance payments with interest of five per cent per annum on the unliquidated balance of such advance payments (without interest except as provided by the proposed advance payment clause) (is in the public interest) (will facilitate the national defense).

AUTHORIZATION

3. Such advance payments, of which (the amount at any one time outstanding) (the aggregate amount, less the aggregate amounts repaid, or withdrawn by the Government), shall not exceed $_____, are hereby authorized pursuant to 10 U.S.C. 2307 (The Act of August 28, 1958, Pub. Law 85–804, 72 Stat. 972, and Executive Order No. 10789), upon (terms and conditions substantially as contained in the proposed advance payment clause of which copy (or outline) is annexed hereto) (the following terms and conditions:)

(All prior advance payment authorizations with respect to Contract No. _____ are hereby superseded.)

_____
[Name typed]

_____
[Title of authorized official]

INSTRUCTIONS

1. On requests for advance payment provisions, this document will be prepared, in final form for signature of an authorized official (§ 163.56), by such office as may be designated by the procedures of each Military Department. It will include such of the paragraphs set out above as are appropriate. (See below.)

2. Words and expressions in parentheses and blank spaces in the above paragraphs indicate choices of language, depending upon the facts pertinent to a particular request. Forms will not be prepared in advance which include all of the above paragraphs and all of the alternate language. Each "Findings, Determinations, and Authorization" will be prepared separately to include only those paragraphs and those words (including statutory references) which are pertinent to the particular request.

3. Each such "Findings, Determinations, and Authorization" must include paragraphs 1.a., 1.b., 1.c., 1.d., 2 and 3. Paragraph 1.e. will not be included in the case of nonprofit contracts with a nonprofit educational or research institution for experimental, research and development work, or in the case of contracts solely for the management and operation of Government-owned plants. Paragraph 1.f., 1.g. or 1.h., as appropriate, will be included if the advance payments are to be made without interest to the contractor. The last sentence of paragraph 3 will be included if any advance payments have previously been authorized for the contract. The numbering and lettering of the paragraphs in the completed "Findings and Determinations" will then run consecutively, based on the paragraphs actually used.

4. Modifications to adapt to special facts and circumstances are permitted.

5. 10 U.S.C. 2307 normally will be the statutory authority cited for the advance payment. The Act of August 28, 1958, and Executive Order No. 10789 are reserved for extraordinary situations not falling within the purview of 10 U.S.C. 2307.

§ 163.61 Application for advance payment.

The contractor's application for advance payment, whether incident to the making of a contract or by way of amendment or supplemental agreement for advance payments under an existing contract, may be in the form of a letter request or other writing. The application should refer to the contract or proposed contract under which advance payments are requested, and should include or be accompanied or supported by:

(a) Cash flow forecast (§§ 163.28(f), 163.28–1 and 163.28–2) (limited to estimated cash flow for the contract or contracts to be financed by advance payments when the contracts are of the kinds mentioned in § 163.58(a) or § 163.58(b));

(b) Proposed amount of advance payments;

(c) Name and address of bank suggested as depository for the advance payment special account;

(d) Except for contracts mentioned in § 163.58 (a) and (b) and description of efforts made to obtain private financing, including guaranteed loan; and

(e) Such other information and data (§ 163.28) as may be appropriate under the circumstances of the case for the purposes outlined in § 163.28 (of which, ordinarily, information concerning reliability, technical capability, and adequacy of accounting system and controls should be sufficient for contracts mentioned in § 163.58 (a) and (b).

§ 163.62 Action by contracting officer; approval.

After such investigation as may be appropriate, and analysis of the request and information submitted by the contractor, the contracting officer should transmit to the appropriate office within his Department, with such number of copies as may be required within the Department:

(a) Date and identifying symbol of the approval of the award, citation of the appropriation available, type of contract, dollar amount of contract, the items to be supplied, and schedule of deliveries or performance, status of performance and deliveries, if any, contemplated profit or fee, and (unless excepted by instructions of the Department concerned) copy of contract, if available.

(b) The request and information furnished by the contractor;

(c) Report of investigation, including past dealings with the contractor, and comment on the character and responsibility of the contractor, technical ability, and plant capacity;

(d) Comment on (1) the need for the advance payments for performance of the contract, and (2) the benefits to the Government from the contemplated contract performance;

(e) Proposed advance payment contract provisions or supplemental agreement, including proposed security provisions, unless those are to be provided by the contract financing office or other office;

(f) The appropriate findings, determination and authorization (§ 163.60) (for signature by the approving authority), unless those are to be provided by the contract financing office or other office;

(g) Recommendation that the advance payment be approved; and

(h) Justification of proposal, if any, for waiver of interest charge (§ 163.53).

§ 163.62–1 Action by contracting officer, disapproval.

If the contracting officer determines that the requested advance payment should be disapproved, the contractor's request, information submitted, report of investigation (if any), and statement of reasons for adverse determination should be sent forward immediately to the Army Comptroller, in the Department of the Army, to the Assistant Comptroller, Accounting and Finance, in the Department of the Navy, and to the Deputy for Contract Financing to the Assistant Secretary (Financial Management) of the Air Force. This information may be useful in connection with existing or prospective arrangements for other financing, and for such further action as may be appropriate to enhance uniform application of this part.

§ 163.63 Security; supervision; covenants.

(a) The advance payment agreement, under any applicable statute, should provide for deposit of all payments into special bank accounts and should include suitable covenants to protect the Government's interest. Advance payments under such authorizations should be limited to the contractor's financial needs, and withdrawals from the special bank accounts provided therefor should be closely supervised. The terms governing advance payments should include as security, in addition to or in lieu of the requirements for an advance payment bond or other security, provision for a lien in favor of the Government, paramount to all other liens, upon the supplies contracted for, upon the credit balance in any special account in which such payments may be deposited, and upon the material and other property acquired for performance of the contract, except to the extent that the Government has valid title thereto.

(b) Because of the variations in circumstances of individual cases, no fixed rule can be prescribed for determining adequacy of security in a particular case. The minimum security will be that required by the provisions of approved contract forms, supplemented by such further provisions and arrangements, if any, as may be considered appropriate for the protection of the Government under the circumstances of each case. Advance payment bonds usually will not be required. When and to the extent deemed necessary and appropriate special security provisions will be required, such as, for example, personal or corporate endorsements or guarantees, pledges of collateral, subordination or stand-by of other indebtedness, and controls or limitations on profit distributions, salaries, bonuses or commissions, rentals and royalties, capital expenditures, creation of liens, debt retirement or stock retirement, and creation of additional obligations.

§ 163.64 Forms of contract provisions and supplemental agreements.

The approved forms for agreement covering advance payment special bank accounts, and approved forms of advance payment contract provisions and supplemental agreements for use in connection with the several types of approved contracts are set out below. Variations from the approved forms of contract provisions for advance payments should be made only when necessary in exceptional circumstances, with the approval of the person having authority to approve the particular advance payment contract involved. With regard to variations, it is recognized, for example, that there may be exceptional circumstances in which it will be beneficial to the Government to modify § 163.64–1(b) and the second sentence of § 163.64–2.

§ 163.64–1 Forms of agreement for special bank account.

For all advance payments substantially the following form of agreement will be used for the special bank account or accounts:

AGREEMENT FOR SPECIAL BANK ACCOUNT

Agreement entered into this ------ day of ----------, 19--, between the United States of America, hereinafter called the Government, represented by the Contracting Officer executing this Agreement, ----------, a corporation under the laws of the State of ----------, hereinafter called the Contractor, and ----------, a banking corporation under the laws of ----------, located at ----------, hereinafter called the Bank.

RECITALS

(a) Under date of ----------, 19--, the Government and the Contractor entered into Contract(s) No. ------, or a Supplemental Agreement thereto, providing for the making of advance payments to the Contractor. Copy of such advance payment provisions has been furnished to the Bank.

(b) Said Contract or Supplemental Agreement requires that amounts advanced to the Contractor thereunder be deposited in a Special Bank Account or accounts at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684, as amended; 12 U.S.C. 264), separate from the Contractor's general or other funds; and, the Bank being such a bank, the parties are agreeable to so depositing said amounts with the Bank.

(c) This Special Bank Account shall be designated "----------,
(Name of Contractor)
---------- Special Bank
(Department)
Account."

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, it is agreed that:

(1) The Government shall have a lien upon the credit balance in said account to secure the repayment of all advance payments made to the Contractor, which lien shall be superior to any lien or claim of the Bank with respect to such account.

(2) The Bank will be bound by the provisions of said contract or contracts relating to the deposit and withdrawal of funds in the above Special Bank Account, but shall not be responsible for the application of funds withdrawn from said account. After receipt by the Bank of written directions from the Contracting Officer, or from the Administering Office designated in the advance payment contract mentioned above, or from the duly authorized representative of the Contracting Officer or the Administering Office, the Bank shall act thereon and shall be under no liability to any party hereto for any action taken in accordance with the said written directions. Any written directions received by the Bank through the Contracting Officer upon Department of the ---------- stationery and purporting to be signed by, or by the direction of ---------- or his duly authorized representative, shall, in so far as the rights, duties and liabilities of the Bank are concerned, be conclusively deemed to have been properly issued and filed with the Bank by the Department of the ----------.

(3) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank with respect to such Special Bank Account at all reasonable times and for all reasonable purposes, including (but without limiting the generality thereof) the inspection or copying of such books and records and any and all memoranda, checks, correspondence or documents appertaining thereto. Such books and records shall be preserved by the Bank for a period of six (6) years after the closing of this Special Bank Account.

(4) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account, the Bank will promptly notify----------
----
(Administering Office)

In witness whereof the parties hereto have caused this agreement to be executed as of the day and year first above written.

(Signatures and Official Titles)

§ 163.64–2 Advance payment provisions.

Approved contract provisions for advance payments, with directions for use where appropriate, follow:

(a) *Amount of advance.* At the request of the Contractor, and subject to the conditions hereinafter set forth, the Government shall make an advance payment, or advance payments from time to time, to the Contractor. No advance payment shall be made (1) without the approval of the office administering advance payments (hereinafter called the "Administering Office" and designated in paragraph (n)(4) below) as to the financial necessity therefor; (ii) in an amount which together with all advance payments theretofore made, shall exceed the amount stated in paragraph (n)(1) below; (iii) without a properly certified invoice or invoices.

(b) *Special bank account.* Until all advance payments made hereunder, and interest charges, are liquidated and the Administering Office approves in writing the release of any funds due and payable to the Contractor, all advance payments and all other payments under the contract shall be made by check payable to the Contractor and be marked for deposit only in a Special Bank Account with the bank designated in paragraph (n)(2) below. No part of the funds in the Special Bank Account shall be mingled with other funds of the Contractor prior to withdrawal thereof from the Special Bank Account as hereinafter provided. Except as hereinafter provided, each withdrawal shall be made only by check of the Contractor countersigned on behalf of the Government by the Contracting Officer, or such other person or persons as he may designate in writing (hereinafter called the "Countersigning Agent").

[When considered not reasonably necessary for the protection of the Government, the countersignature requirement may be waived for contractors who are financially strong, with good performance records and good past experience with regard to contract cost disallowances. In such cases, the following sentence may be added to paragraph (b)]:

Until otherwise determined by the Administering Office, countersignature on behalf of the Government will not be required.

(c) *Use of funds.* The funds in the Special Bank Account may be withdrawn by the Contractor solely for the purposes of making payments for direct materials, direct labor, and administrative and overhead expenses required for the purposes of this contract (including, without limitation, payments incident to termination for the convenience of the Government) and properly allocable thereto in accordance with generally accepted accounting principles (subject to any applicable provision of Part 15 of Subchapter A), or for the purpose of reimbursing the Contractor for such payments, and for such other purposes as the Administering Office may approve in writing. Any interpretation required as to the proper use of funds shall be made in writing by the Administering Office.

[In the case of a cost-reimbursement contract, insert the following paragraph instead of paragraph (c) above.]

(c) *Use of funds.* The funds in the Special Bank Account may be withdrawn by the Contractor solely for the purposes of making payments for items of allowable cost as defined in Article ------ of this contract, or to reimburse the Contractor for such items of allowable cost, and for such other purposes as the Administering Office may approve in writing. Any interpretation required as to the proper use of funds shall be made in writing by the Administering Office.

(d) *Return of funds.* The Contractor may at any time repay all or any part of the funds advanced hereunder. Whenever so requested in writing by the Administering Office, the Contractor shall repay to the Government such part of the unliquidated balance of advance payments as shall in the opinion of the Administering Office be in excess of current requirements, or (when added to total advances previously made and liquidated) in excess of the amount specified in (n)(1). In the event the Contractor fails to repay such part of the unliquidated balance of advance payments when so requested by the Administering Office, all or any part thereof may be withdrawn from the Special Bank Account by checks payable to the Treasurer of the United States signed solely by the Countersigning Agent and applied in reduction of advance payments then outstanding hereunder.

(e) *Liquidation.* If not otherwise liquidated, the advance payments made hereunder and interest charges, if any, shall be liquidated as herein provided. When the sum of all payments under this contract, other than advance payments, plus the unliquidated amount of advance payments and interest charges are equal to (------ percent) of the stated contract price of $------, or such lesser amount to which the contract price may have been reduced, plus (i) increases, if any (not resulting from any provisions for price redetermination or escalation), in the above stated contract price not exceeding, in the aggregate $----------,
(Insert here not more than 10 percent of stated contract price above)
and (ii) all increases in contract price resulting from any provision for price redetermination or escalation, the Government shall thereafter withhold further payments to the Contractor and apply the amounts withheld against the Contractor's obligation to repay such advance payments and interest charges until such advance payments and interest charges shall have been fully liquidated. If upon completion or termination of the contract, all advance payments and interest charges have not been fully liquidated, the balances thereof shall be deducted from any sums otherwise due or which may become due to the Contractor from the Government, and any deficiency shall be paid by the Contractor to the Government upon demand.

[The percentage stated above should not be more than 95 percent. In appropriate cases, where more rapid liquidation is desirable, the following sentence may be inserted at the beginning of paragraph (e), with appropriate percentages specified]:

To liquidate the principal amount of any advance payment made to the Contractor hereunder, there shall be deductions of ----- percent from any and all payments made by the Government under the contracts involved.

[In case of a cost-reimbursement contract, insert the following paragraph instead of paragraph (e) above.]

(e) *Liquidation.* If not otherwise liquidated, the advance payments made hereunder and interest charges, if any, shall be liquidated as herein provided. When the sum of all payments under this contract, other than advance payments, plus the unliquidated amount of advance payments and interest charges are equal to the total estimated cost of $------ for the work under this contract (not including fixed fee, if any), or such lesser amount to which the total estimated cost under this contract may have been reduced, plus increases, if any, in this total estimated cost not exceeding, in the aggregate, $----------,
(Insert not more than 10 percent of estimated costs stated above)
(including, without limitation, reimbursable costs incident to termination for the convenience of the Government as estimated by the Contracting Officer), the Government shall thereafter withhold further payments to the Contractor and apply the amounts withheld against the Contractor's obligation to repay such advance payments and interest charges, until such advance payments and interest charges shall have been fully liquidated. If upon completion or termination of the contract all advance payments and interest charges have not been fully liquidated, the balances thereof shall be deducted from any sums otherwise due or which may become due to the Contractor from the Government, and any deficiency shall be paid by the Contractor to the Government upon demand.

(f) *Interest charge.* If required in paragraph (n)(3) below and at the rate therein specified, the Contractor shall pay interest to the Government upon the daily unliquidated balance of advance payments made under this contract. If the full amount of such interest is not paid by deduction or otherwise upon the completion or termination of this contract, the deficiency shall be paid by the Contractor to the Government upon demand. Interest at the rate specified in paragraph (n)(3) shall be computed at the end of each calendar month in the manner herein specified on the average daily balance of the principal of the advance payments outstanding. Notwithstanding monthly computation, interest shall be computed for the actual number of days involved, on the basis of a 365 or 366 day year as the case may be. In determining such balance, (1) charges on account of the advance pay-

ments to the Contractor shall be made as of the date of the checks therefor, and (2) credits arising from deductions from payments to the Contractor shall be made as of the date of issue of the checks for such payments. [For cost-reimbursement contracts, use, instead of (2) above: (2) credits resulting from deductions from cost reimbursements shall be made upon the approval of the vouchers by the Disbursing Officer, as of the dates respectively upon which the Contractor presents to the Contracting Officer or his duly authorized representative full and accurate data for the preparation of each such voucher, which date as to each such voucher shall be certified by the Contracting Officer or his duly authorized representative.] Also, in determining such balance, credits arising from cash repayments to the Government by the Contractor shall be made as of the date the checks therefor are received by the Disbursing Officer. As soon as such monthly computations shall have been made, the interest charge so determined shall be deducted from any payments otherwise due to the Contractor under the contracts on which advance payments have been made. [For cost-plus-fixed-fee contracts, use the following, instead of the next preceding sentence: As soon as such monthly computations shall have been made, the interest charge so determined shall be deducted from any payments on account of the fixed fee which may be made to the Contractor from time to time under the Contract.] In the event the accrued interest exceeds any such payment, the excess of such interest shall be carried forward and deducted from subsequent payments on account of the contract price or fixed fee as the case may be. The interest shall not be compounded, and shall, subject to the provisions of paragraph (k) hereof, cease to accrue with respect to each contract upon which advance payments are outstanding hereunder, upon termination of such contract for other than the fault of the Contractor, or upon the date found by the Contracting Officer to be the date upon which the Contractor completed his performance under the contract.

(g) *Bank agreement.* Before an advance payment is made hereunder, the Contractor shall transmit to the Administering Office, in the form prescribed by such office, an Agreement in triplicate from the bank in which the Special Bank Account is established, clearly setting forth the special character of the account and the responsibilities of the bank thereunder. Wherever possible, such bank shall be a member bank of the Federal Reserve System, or an "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935, 49 Stat. 684, as amended; 12 U.S.C. 264).

(h) *Lien on special bank account.* The Government shall have a lien upon any balance in the Special Bank Account paramount to all other liens, which lien shall secure the repayment of any advance payments made hereunder together with interest charges thereon.

(i) *Lien on property under contract.* Any and all advance payments made under this contract, together with interest charges thereon, shall be secured, when made, by a lien in favor of the Government, paramount to all other liens, upon the supplies or other things covered by this contract and on all material and other property acquired for or allocated to the performance of this contract, except to the extent that the Government by virtue of any other provision of this contract, or otherwise, shall have valid title to such supplies, materials, or other property as against other creditors of the Contractor. The Contractor shall identify by marking or segregation all property which is subject to a lien in favor of the Government by virtue of any provision of this contract in such a way as to indicate that it is subject to such lien and that it has been acquired for or allocated to the performance of this contract. If for any reason such supplies, materials, or other property are not identified by marking or segregation, the Government shall be deemed to have a lien to the extent of the Government's interest under this contract on any mass of property with which such supplies, materials, or other property are commingled. The Contractor shall maintain adequate accounting control over such property on its books and records. If at any time during the progress of the work on the contract it becomes necessary to deliver any item or items and materials upon which the Government has a lien as aforesaid to a third person, the Contractor shall notify such third person of the lien herein provided and shall obtain from such third person a receipt, in duplicate, acknowledging, inter alia, the existence of such lien. A copy of each receipt shall be delivered by the Contractor to the Contracting Officer. If this contract is terminated in whole or in part and the Contractor is authorized to sell or retain termination inventory acquired for or allocated to this contract, such sale or retention shall be made only if approved by the Contracting Officer, which approval shall constitute a release of the Government's lien hereunder to the extent that such termination inventory is sold or retained, and to the extent that the proceeds of the sale, or the credit allowed for such retention on the contractor's termination claim, is applied in reduction of advance payments then outstanding hereunder.

(j) *Insurance.* The Contractor represents and warrants that it is now maintaining with responsible insurance carriers, (i) insurance upon its own plant and equipment against fire and other hazards to the extent that like properties are usually insured by others operating plants and properties of similar character in the same general locality; (ii) adequate insurance against liability on account of damage to persons or property; and (iii) adequate insurance under all applicable workmen's compensation laws. The Contractor agrees that, until work under this contract has been completed and all advance payments made hereunder have been liquidated, it will (i) maintain such insurance; (ii) maintain adequate insurance upon any materials, parts, assemblies, sub-assemblies, supplies, equipment and other property acquired for or allocable to this contract and subject to the Government lien hereunder; and (iii) furnish such certificates with respect to its insurance as the Administering Office may from time to time require.

(k) *Default provisions.* Upon the happening of any of the following events of default, (i) termination of this contract by reason of fault of the Contractor (ii) a finding by the Administering Office that the Contractor (1) has failed to observe any of the covenants, conditions or warranties of these provisions or has failed to comply with any material provision of this contract, or (2) has so failed to make progress, or is in such unsatisfactory financial condition, as to endanger performance of this contract, or (3) has allocated inventory to this contract substantially exceeding reasonable requirements, or (4) is delinquent in payment of taxes or of the costs of performance of this contract in the ordinary course of business; (iii) appointment of a trustee, receiver or liquidator for all or a substantial part of the Contractor's property, or institution of bankruptcy, reorganization, arrangement or liquidation proceedings by or against the Contractor; (iv) service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account; or (v) the commission of an act of bankruptcy; the Government, without limiting any rights which it may otherwise have, may, in its discretion and upon written notice to the Contractor, withhold further withdrawals from the Special Bank Account and withhold further payments on this contract. Upon the continuance of any such events of default for a period of thirty (30) days after such written notice to the Contractor, the Government may, in its discretion, and without limiting any other rights which the Government may have, take the following additional actions as it may deem appropriate in the circumstances; (*a*) withdraw all or any part of the balance in the Special Bank Account by checks payable to the Treasurer of the United States signed solely by the Countersigning Agent and apply such amounts in reduction of advance payments then outstanding hereunder and in reduction of any other claims of the Government against the contractor; (*b*) charge interest on advance payments outstanding during the period of any such default at the rate of six percent (6%) per annum; (*c*) demand immediate repayment of the unliquidated balance of advance payments hereunder; or (*d*) take possession of and, with or without advertisement, sell at public sale at which the Government may be the purchaser, or at a private sale, all or any part of the property on which the Government has a lien under this contract and, after deducting any expenses incident to such sale, apply the net proceeds of such sale in reduction of the unliquidated balance of advance payments hereunder and in reduction of any other claims of the Government against the Contractor.

(l) *Prohibition against assignment.* Notwithstanding any other provision of this contract, the Contractor shall not transfer, pledge, or otherwise assign this contract, or any interest therein, or any claim arising thereunder, to any party or parties, bank, trust company, or other financing institution.

(m) *Information—access to records.* The Contractor shall furnish to the Administering Office signed or certified balance sheets and profit and loss statements monthly, or at such other intervals as may be required, together with a monthly report on the operation of the Special Bank Account in prescribed form, and such other information concerning the operation of the Contractor's business as may be requested. The Contractor shall afford to authorized representatives of the Government proper facilities for inspection of the Contractor's books, records and accounts.

(n) *Designations and determinations*—

(1) *Amount.* The aggregate amount of the ments at any time outstanding hereunder shall not exceed $_____. [or, alternatively:]

(1) *Amount.* The aggregate amount of the advance payments to be made hereunder (less the aggregate amounts paid or withdrawn pursuant to paragraph (d) shall not exceed $_____.

(2) *Depository.* The bank designated for the deposit of payments made hereunder shall be _____.

(3) *Interest charge.* Interest shall be charged in the manner provided herein at the rate of five percent per annum. [In the case of advance payments made without interest, insert the following:] No interest shall be charged for advance payments made hereunder, except as provided for in paragraph (k)(*b*). The Contractor shall charge interest at the rate of five percent per annum on sub-advances or down payments to subcontractors, and such interest will be credited to the account of the Government. However, interest need not be charged on sub-advances on nonprofit subcontracts with nonprofit educational or research institutions for experimental, research or development work.

(4) *Administering Office.* The office administering advance payments is designated as _____.

(o) *Other security.* The terms of this contract shall be considered adequate security for advance payments hereunder, except that if at any time the Administering Office deems the security furnished by the Contractor to be inadequate, the Contractor shall furnish such additional security as may be satisfactory to the Administering Office, to the extent that such additional security is available.

(p) *Representations and warrantics.* To induce the making of the advance payments, the Contractor represents and warrants that:

(1) The balance sheet, the profit and loss statement and any other supporting financial statements, hereto furnished to the Administering Office, fairly reflect the financial condition of the Contractor at the date shown on said balance sheet and the results of the operation for the period covered by the profit and loss statement, and since said date there has been no materially adverse change in the financial condition of the Contractor.

(2) No litigation or proceedings are presently pending or threatened against the Contractor, except as shown in the above statements.

(3) The Contractor, apart from liability resulting from the renegotiation of defense production contracts, has no contingent liabilities not provided for or disclosed in the financial statements furnished to the Administering Office.

(4) None of the provisions herein contravenes or is in conflict with the authority under which the Contractor is doing business or with the provision of any existing indenture or agreement of the Contractor.

(5) The Contractor has the power to enter into this contract and accept advance payments hereunder, and has taken all necessary action to authorize such acceptance under the terms and conditions of this contract.

(6) None of the assets of the Contractor is subject to any lien or encumbrance of any character except for current taxes not delinquent, and except as shown in the financial statements furnished by the Contractor to the Administering Office. There has been no assignment of claims under any contract affected by these advance payment provisions, or if there has been any assignment, such assignments have been terminated.

(7) All information furnished by the Contractor to the Administering Office in connection with each request for advance payments is true and correct.

(8) These representations and warranties shall be continuing, and shall be deemed to have been repeated by the submission of each invoice for advance payments.

(q) *Subadvances.* Substantially the following provision should be included in the contract when subadvances are contemplated:

Subject to the prior written approval of the Administering Office, funds from the Special Bank Account may be used by the Contractor to make advance payments or down payments to subcontractors and materialmen in advance of performance by the subcontractor or materialman. Such subadvances shall not exceed _____ percent of the subcontract price or estimated cost as the case may be, and the subcontractors or materialmen to whom such advances are made shall furnish adequate security therefor. Unless other security is required by the Administering Office, covenants in subcontracts, expressly made for the benefit of the Government providing for a Special Bank Account for the subadvance, with Government lien thereon, and providing for a Government lien, paramount to all other liens, on all property under such subcontract, and imposing upon the subcontractor and the depository bank substantially the same duties and giving the Government substantially the same rights as are provided herein (and in the Agreement for Special Bank Account supplementary hereto) between the Government, the Contractor and the Bank, may be considered as adequate security for such subadvance.

(r) *Covenants.* The following are examples of some special provisions (subject to modification to adapt to the circumstances of individual cases) that may be utilized when and to the extent deemed appropriate in particular cases.

During the period of time that advance payments may be made hereunder and so long as any such advance payments remain unliquidated, the Contractor shall not, without the prior written consent of the Administering Office—

(1) Mortgage, pledge, or otherwise encumber, or suffer to be encumbered, any of the assets of the contractor now owned or hereafter acquired by it, or permit any preexisting mortgages, liens, or other encumbrances to remain on or attach to any assets of the Contractor which are allocated to the performance of this contract and with respect to which the Government has a lien hereunder;

(2) Sell, assign, transfer, or otherwise dispose of accounts receivable, notes or claims for money due or to become due;

(3) Declare or pay any dividends, except dividends payable in stock of the corporation, or make any other distribution on account of any shares of its capital stock, or purchase, redeem, or otherwise acquire for value any such stock, except as required by sinking fund or redemption arrangements reported to the Administering Office incident to the establishment of these advance payment provisions;

(4) Sell, convey, or lease all or a substantial part of its assets;

(5) Acquire for value the stock or other securities of any corporation, municipality, or Governmental authority, except direct obligations of the United States;

(6) Make any advance or loan to or incur any liability as guarantor, surety, or accommodation endorser for any other firm, person, or corporation;

(7) Permit a writ of attachment or any similar process to be issued against its property without procuring release thereof or bonding the same within 30 days after the entry of the writ of attachment or any similar process;

(8) Pay any salaries, commissions, bonuses, or other remuneration in any form or manner to its directors, officers, or key employees in excess of existing rates of payments or of rates provided in existing agreements, in connection with which notice has been given to the Administering Office, or accrue such excess remuneration without first obtaining an agreement subordinating the same to all claims of the Government hereunder, or employ any person at a rate of compensation in excess of $_____ per annum;

(9) Make any substantial change in management, ownership, or control of the corporation;

(10) Merge or consolidate with any other firm or corporation, change the type of its business or engage in any transaction outside the ordinary course of its business as presently conducted;

(11) Deposit any of its funds except in a bank or trust company insured by the Federal Deposit Insurance Corporation;

(12) Create or incur indebtedness for borrowed money or advances other than advances to be made hereunder, except as specified herein;

(13) Make or covenant itself to make capital expenditures exceeding in the aggregate $_____;

(14) Permit its net current assets, calculated in accordance with generally accepted accounting principles, to become less than $_____; or

(15) Make any payments on account of the obligations listed below, except in the manner and to the extent herein provided.

§ 163.65 Pooled advance payment; general.

Advance payments are sometimes useful and convenient for financing the performance of more than one contract, under a single advance payment agreement. Such an agreement is called an advance payment pool agreement. An advance payment pool agreement may be entered into as a separate agreement for advance payments, or may be incorporated initially in a contract for supplies or services, or added to such a contract by amendment or supplement. Advance payment pool agreements are especially convenient for the financing of nonprofit contracts with nonprofit educational or research institutions for experimental, or research and development work, when several contracts or a series of contracts require financing by advance payments. When advance payments are appropriate, pooled advance payments may also be used to finance performance of other types of contracts held by a single contractor. They may be established without regard to the number of appropriations involved, and regardless of the fact that contracts affected may be those of more than one purchasing office, procuring activity, or Military Department. If more convenient or otherwise preferable, there also may be more than one advance payment pool agreement in force at the same time with a single contractor, designed separately to finance contracts of the Military Departments respectively concerned, or of one or more procuring activities respectively. Advance payment pool agreements may be established under either or both of the statutes mentioned in paragraph § 163.8.

§ 163.65–1 Distinction between pool contracts and designated pool contracts.

An advance payment pool agreement may cover a broad area of a contractor's financial needs rather than piecemeal segments related to separate contracts. A pool arrangement is based upon the contractor's financing requirements for a group of Government contracts to be performed at the same time. The monetary requirements for the group of contracts are considered in fixing the maximum dollar amount for the advance payment pool agreement. Advances are not made on each separate contract, but can be made on and charged against one or more large, long term contracts, so as to supply the monetary requirements for smaller contracts included in the advance payment pool. A contract to which the advance payments are charged is called a designated pool contract. All other contracts linked to the pool agreement are called the pool contracts.

§ 163.66 Advance payment pool agreements; special features.

The principal features distinguishing an advance payment pool agreement from an advance payment provision affecting only a single contract are:

(a) The advance payment pool agreement specifies a "designated pool contract" or two or more "designated pool contracts," and provides for substitution from time to time of new or different contracts as the "designated pool contract(s);"

(b) When there is only one designated pool contract, all advance payments are charged against that designated pool contract. When there is more than one designated pool contract, each advance payment made is charged against one of the designated pool contracts, except that when the foregoing is not possible, the advance must be allocated specifically by amounts to two or more designated pool contracts;

(c) Liquidation of advance payments is geared to the stated contract price, or total estimated cost, if applicable, of the "designated pool contract(s);"

(d) The advance payment pool agreement either lists other contracts as "pool contracts," or provides for inclusion of other contracts as "pool contracts" by reference to the advance payment pool agreement in such contracts, and provides for the subsequent inclusion of other contracts as "pool contracts;"

(e) All payments under all of the pool contracts, including designated pool contracts, are made into the advance payment Special Bank Account;

(f) The appropriate provisions of the advance payment clause are made applicable to all pool contracts, including the designated pool contracts.

§ 163.67 Liquidation; designated pool contracts; administering office.

It is imperative for each advance payment pool that effective arrangements be made to insure that there will not be overpayments, and that timely liquidation is accomplished against each designated pool contract. For each pool agreement, there must be a single administering office, and to the greatest extent possible there should be only one finance office or disbursing office for all of the contracts affected by the pool, especially those contracts which are designated pool contracts.

§ 163.68 Pooled advance payments; understandings.

Pooled advance payments affecting contracts of more than one Military Department necessarily require agreement by those concerned with a given case. There has not been sufficient experience with pooled advance payments to permit full coverage by these regulations. However, certain understandings which have been reached on some of the problems involved are set out below, for the guidance of all concerned.

(a) There should be no single exclusive procedure for establishing an advance payment pool agreement. Requests for pooled advance payments may be initiated at the level of the contracting officer, or chief of a procuring activity, or at Departmental headquarters.

(b) When the advance payment pool is to affect contracts of more than one Military Department, the authorizing Department ordinarily would be the one having preponderant interest in the contractor's backlog of unfinished contracts, along the lines of § 163.40. Possible exceptions to the preponderance principle are cases in which it would be more convenient to use a relatively large long term contract of a non-preponderant Department as the "designated pool contract," or where it is fairly expected that preponderance will shift during the term of the advance payment pool agreement.

(c) Inclusion of contracts of another Military Department in an advance payment pool arrangement, either as "pool contracts" or as a "designated pool contract," requires approval of the contract financing office of each Department concerned. This may be accomplished by concurrence in provisions of the pool agreement permitting inclusion of contracts of another Department, or by separate approvals in connection with the addition of such contracts to the advance payment pool.

(d) Situations may occur in which the remaining payments available on all pool contracts are not sufficient to liquidate outstanding advance payments. These circumstances will not affect the normal practice by which the net amount payable by or to the Government on each separate contract is determined by offsetting mutual debits and credits of the Government and the contractor respectively arising under each separate contract. For advance payments that remain outstanding after adjustment for debits and credits under each separate contract, amounts realized from the special pool bank account, from property covered by the advance payment lien, and from any other recoveries available for liquidation of advance payments should be applied first to liquidation of the remaining outstanding advance payments, ratably in proportion to the amount of unliquidated advance payments outstanding on each contract respectively. If there is only one open designated pool contract, the entire advance payment loss should fall on that contract. If there is more than one open designated pool contract on which advance payments remain outstanding after adjustment for debits and credits under each separate contract, the advance payment loss (insofar as contracts of two or more Military Departments are involved) will fall on all of those designated pool contracts, ratably in proportion to the amount of unliquidated advance payments outstanding on each contract respectively.

(e) Records will not be maintained to show separately the amount of advance payments invested in each one of the separate pool contracts. The keeping of such records is unnecessary, and would not be consistent with the purposes of pooled advance payments to provide necessary contract financing in such way as to minimize administrative effort and inconvenience of contractors and the Government.

§ 163.68a Excluded advance payments.

The regulations of this part do not apply to advance payments for:

(a) Extension or connection of public utilities for military installations, as authorized by Military Construction Authorization Acts;

(b) Insurance of official motor vehicles in foreign countries, and expenses of investigations in foreign countries, as authorized by section 603 of the Department of Defense Appropriation Act, 1960 (73 Stat. 378) or by other legislation authorizing payments for such expenses;

(c) Rentals, as authorized by section 606 of the Department of Defense Appropriation Act, 1960 (73 Stat. 378) or by 31 U.S.C. 529i (69 Stat. 314) or by other legislation specifically authorizing advance payment of rent;

(d) Tuition, as authorized by 31 U.S.C. 529i (69 Stat. 314);

(e) Subscriptions to publications, as authorized by 31 U.S.C. 530;

(f) Small purchases of goods or services in foreign countries, when the purchase price does not exceed $2,500 or equivalent amount of applicable foreign currency and advance payment of the purchase price or of a part thereof is required by and made in compliance with the laws or ministerial, i.e., governmental, regulations of the foreign country concerned, as authorized by 31 U.S.C. 529i (69 Stat. 314).

Subpart E—Progress Payments Based on Costs

§ 163.69 Scope.

This subpart provides uniform policies, procedures, and forms for progress payments based on costs.

§ 163.69–1 References.

Sections 163.1, 163. 2, 163.3, 163.4, 163.5, 163.10, 163.11, 163.12, and all of Subpart B apply to all progress payments, whether based on costs or on a percentage or stage of completion.

§ 163.69–2 Exclusions.

This subpart does not apply to (a) cost-reimbursement type contracts, except as to progress payments to subcontractors and suppliers thereunder (§ 163.83), or (b) contracts for construction (as defined in § 10.101–6 of this chapter), or for shipbuilding or ship conversion, alteration or repair, when such contracts provide for progress payments based on a percentage or stage of completion.

§ 163.69–3 Contract coverage.

Except as provided in § 163.69–2, this subpart applies to all contracts (§ 1.201–4 of this chapter) providing for progress payments. This subpart applies to new procurement, to contract changes concerning progress payments, and to existing contracts whenever consistent therewith.

§ 163.70 Percentage or stage of completion.

Progress payments based on a percentage or stage of completion will be confined to contracts for construction (§ 10.101–6 of this chapter), shipbuilding and ship conversion, alteration or repair. For all other contracts, including any separate contracts for engines, machinery, equipment or other components for ships, the only types of progress payment provisions will be those based on costs, as authorized herein. However, on existing contracts which provide for progress payments based on a percentage or stage of completion, it is not required that provision for progress payments based on costs be substituted in connection with future amendments, supplements or modifications, if such substitution is found impracticable. See § 163.85–1.

§ 163.71 General.

It is not and has not been the policy of the Department of Defense that the proper use of progress payments should be stopped or unreasonably curtailed. Progress payments are sometimes necessary and useful to supplement the working funds available to defense contractors of all sizes. It seldom should be necessary for progress payments based on costs to exceed 85 percent of direct labor and material costs, or 70 percent of total costs, of the work done under the undelivered portion of the contract.

§ 163.71–1 Requests for proposals.

Requests for proposals shall state that contract provision for progress payments will be made in conformity with regulations, and that the need for progress payments conforming to regulations will not be considered as a handicap or adverse factor in the award of contracts.

§ 163.72 Customary progress payments; standards.

(a) Certain types of production contracts involve a long "lead time" or preparatory period, normally approximating six months or more between the beginning of work and the first delivery, and may require contractor's predelivery expenditures that will have a material impact on the contractor's working funds. Familiar examples include, among others, contracts for aircraft, engines, complex items of electrical or electronics equipment, heavy handling equipment, production machines and equipment, tanks and other items of heavy ordnance.

(b) Progress payments have been traditional and customary on this class of contracts, on the basis of a percentage of total costs or of direct labor and material costs.

(c) Percentages for customary progress payments shall be not more than 70 percent of total costs or 85 percent of direct labor and material costs of the work done under the undelivered portion of the contract, except that for negotiated contracts with small business concerns and for procurement by "Small Business Restricted Advertising" or pursuant to § 163.73–3, these percentages may be 75 percent of total costs or 90 percent of direct labor and material costs whenever deemed reasonably necessary. Higher percentages will be regarded as unusual, and not within the category of customary progress payments.

(d) The long lead time or preparatory period in these cases, and the accompanying pre-delivery expenditures that may have a material impact on the contractor's working funds, are regarded as making these customary progress payments reasonably necessary, and as making the general preference for private financing not applicable to this class of cases. Provision for customary progress payments will be made as a matter of course when requested by contractors who are known (from experience or adequate pre-award investigation) to be reliable, competent, capable of satisfactory performance, in satisfactory financial condition, and to have an adequate accounting system and controls. In such cases, it is not necessary to require projections of cash receipts and expenditures or other demonstration of actual reasonable need for progress payments. However, in order to minimize administrative effort and expense, progress payments will be discouraged on relatively small contracts of the stronger and larger contractors who are not small business concerns, e.g., contracts for less than $1,000,000. If a small business concern, and the contract involved, meet the above standards for customary progress payments, the smallness of the contract shall not deter the making of provision for customary progress payments to such small business concerns.

§ 163.72–1 Applicability of percentages.

The standard percentages authorized by §§ 163.72 and 163.73 shall apply to new contracts, new procurement effected by supplements, amendments or modifications of existing contracts, definitive contracts superseding letter contracts, instruments effecting new procurement under basic or master agreements, and to all supplements, amendments or modifications which affect or provide for progress payments, as well as to any outstanding contracts which contain optional provision as to progress payment percentages, after due notice by the contracting officer. See § 163.93.

§ 163.72–2 Amendment to reduce percentages.

Contracting officers are authorized and encouraged to negotiate amendments of existing contracts so as to reduce the progress payment percentages therein stated to the standard percentages mentioned in §§ 163.72 and 163.73.

§ 163.72–3 Indefinite quantity contracts.

For indefinite quantity contracts, contemplating requisitions, delivery orders, work orders, task orders, job orders or their equivalent, if the contractor meets all other requirements for customary progress payments, the decision as to whether progress payments come within the customary category will depend upon estimates of the amount of work expected to be done, and the production lead time expected to be necessary for the major part of the work anticipated. In these cases, provision for progress payments in the indefinite quantity contract may be deemed customary if the amounts involved, and the production lead time, will result in the substantial equivalent of the customary progress payments. The standards for unusual progress payments govern when progress payments are not of the customary type.

§ 163.72–4 Administration.

When progress payments are provided in the cases mentioned in § 163.72–3, such as indefinite quantity contracts for overhaul or maintenance, (a) the contract price is deemed to be the total of the amount of requisitions, delivery orders, work orders, task orders or their equivalent issued under the basic contract, (b) costs for progress payment purposes are the cost allocable to all such requisitions, etc., and (c) payments and liquidations will be handled in the same way as if all such requisitions, etc., constituted work under a single fixed-price type contract.

§ 163.73 Formal advertising; small business restricted advertising.

Incident to formal advertising, invitations for bids shall provide for progress payments in the manner and under the circumstances stated below.

§ 163.73–1 Progress payment provision in invitations for bids.

(a) When progress payments are contemplated, the invitations for bids shall state that upon written request by the prospective contractor a progress payment clause (to be included in the invitations for bids or identified by appropriate reference therein, and to be the appropriate one of the contract clauses at 70 percent of total costs or 85 percent of costs of direct labor and material) will be included in the contract at the time of award. These invitations for bids providing for progress payments shall also state that the need for progress payments conforming to regulations will not be considered as a handicap or adverse factor in the award of contracts, and that bids including requests for progress payments will be evaluated on an equal basis with bids not including requests for progress payments.

(b) Provision for progress payments shall be made in invitations for bids whenever the contracting officer considers (1) that the period between the beginning of work and the required first production delivery will exceed six months, or (2) that progress payments will be useful or necessary by reason of circumstances that will involve substantial accumulation of pre-delivery costs that may have a material impact on a contractor's working funds (including but not limited to substantial small business set-asides expected to involve a relatively large predelivery accumulation of materials, purchased parts or components).

(c) Provision for progress payments shall also be made in invitations for bids whenever it is estimated that the procurement will involve approximately $100,000 or more and that bids are likely to be submitted by one or more small business concerns, unless the procurement is within one or more of the excepted categories set out below. Provision for progress payments ordinarily will not be made in invitations for bids when the procurement is for quick turnover items of kinds for which predelivery financing by progress payments is not the custom or practice on sales by members of the industry to private commercial customers, such as (1) subsistence, (2) clothing and apparel, (3) "off-the-shelf" items, and (4) standard commercial items or equivalent items (including

medical and dental supplies), not requiring substantial accumulation of predelivery expenditures.

(d) Reasonable doubts should be resolved in favor of inclusion of progress payment provisions in invitations for bids, in order to (1) facilitate necessary contract financing assistance to small suppliers and (2) avoid the necessity for rejecting, as nonresponsive, bids conditioned on progress payments when the invitations for bids do not provide for progress payments.

§ 163.73–2 Small business restricted advertising.

The above policy and standards also apply to procurement by "Small Business Restricted Advertising," except that in "Small Business Retricted Advertising" (and also for procurement pursuant to § 163.73–3), when deemed reasonably necessary, provision may be made for progress payment percentages up to 75 percent of total costs or 90 percent of costs of direct labor and material.

§ 163.73–3 Progress payments exclusively for small business.

A stated purpose of Public Law 85–800, 72 Stat. 966, is "to improve opportunities for small business concerns to obtain a fair proportion of Government purchases and contracts." One of the sections of this statute amended 10 U.S.C. 2307 by providing that contracting agencies "may—insert in bid solicitations—a provision limiting to small business concerns—progress payments." In furtherance of the purposes of this statute, whenever provision for progress payments is to be made in invitations for bids (as provided by §§ 163.73–1 and 163.73–4), careful consideration shall be given as to whether or not the contemplated availability of progress payments shall be restricted to small busines concerns only. If it is considered by the contracting officer that progress payments should not be reasonably necessary for prospective bidders other than small business concerns, the provision for progress payments (§ 163.73–1) and the notice to bidders (§ 163.73–4) will be supplemented by a limitation to the effect that "The progress payments clause will be available to small business concerns only, and will not be included for contractors who are not small business concerns." (For percentages, see §§ 163.72 and 163.73–2.)

§ 163.73–4 Notice to bidders.

Those invitations for bids that make provision for progress payments (§ 163.73–1) should contain substantially the following notice to biders:

PROGRESS PAYMENTS

The need for progress payments conforming to regulations (Part 163, Subchapter G) will not be considered as a handicap or adverse factor in the award of contracts. Bidders desiring progress payments in accordance with the Progress Payment clause attached hereto, shall include a written request therefor in their bids, and bids including requests for progress payments will be evaluated on an equal basis with bids not including a request for progress payments. Blanks, if any, in the attached Progress Payment clause, will be filled in by the Contracting Officer, before award, in conformity with regulations.[1] If a bid does not contain a request for progress payment provision, the Progress Payment clause will not be included in the contract as awarded.

§ 163.73–5 Total costs clause preferable.

The Total Costs clause (§ 163.79–1) is preferable to the Direct Labor and Materials Cost clause (§ 163.79–2) in procurement by formal advertising and in Small Business Restricted Advertising. When the Total Costs clause (§ 163.79–1) is used, it is not necessary to make the cost estimates and computations that are required before the appropriate percentages can be determined for (a)(3)(ii), (a)(4) and (b) of the Direct Labor and Materials Cost clause (§ 163.79–2). Generally, the principles of §§ 163.92 and 163.93–6 should be simpler to apply to the Total Costs clause (§ 163.79–1) than to the Direct Labor and Materials Cost clause (§ 163.79–2).

§ 163.73–6 Non-responsive bids; uninvited progress payment condition.

To minimize the possibility of misunderstandings, the recipients of invitations for bids, or those included on bidders lists, should be informed and kept aware that when invitations for bids do not provide for progress payments, progress payment clauses cannot be included in the contract at time of award, and that bids conditioned upon provision for progress payments will have to be rejected as nonresponsive. This precautionary warning notice may be included in invitations for bids, or may accompany invitations for bids, or may be otherwise circulated or made known to prospective bidders by such means as are considered appropriate. Also, prospective bidders who are not small business concerns should be given appropriate precautionary warning notice that when invitations for bids provide for progress payments for small business concerns only (§ 163.73–3), progress payment provision cannot be made for contractors who are not small business concerns, and that bids of those who are not small business concerns, if conditioned upon provision for progress payments, will have to be rejected as nonresponsive.

[1] Omit the third sentence, above, when the Total Costs clause (§ 163.79–1) is used.

§ 163.74 Unusual progress payments: standards; procedure.

(a) Progress payments based on costs, other than progress payments of the class and within the limits set forth in §§ 163.72 and 163.73, will be regarded as unusual, and will require special approval. This is deemed necessary for the purpose of minimizing risks, and in order to establish and maintain the greatest practicable uniformity with regard to such progress payments within and among the Military Departments. Any contractor seeking provision for progress payments that is "unusual," within the meaning of these regulations, will be required to demonstrate fully his actual need therefor, with due regard to the preference for private financing, including guaranteed loans. Requests for "unusual" progress payments shall be approved only under exceptional circumstances and must have the specific approval of the Head of a Procuring Activity (§ 1.201–7) or of a general or flag officer designated for that purpose.

(b) Such cases must involve a preparatory period requiring contractor's predelivery expenditures that are large in relation to the contract price and in relation to the contractor's working capital and credit. Contract provisions for progress payments in this category will be only supplementary to private financing, including guaranteed loans, in amounts necessary for contract performance. The percentage rates and cost bases for progress payments on new procurement in this category will be determined on a minimum basis commensurate with the contractor's production schedule requirements and minimum inventory lead time, with due regard to the contractor's projected cash needs, cash resources and their planned application.

(c) All requests involving progress payments at rates exceeding 85 percent (or 90 percent for small business concerns) of direct labor and material costs or exceeding 70 percent (or 75 percent for small business concerns) of total costs, if regarded favorably by the Head of a Procuring Activity (§ 1.201–7) or by a specially designated general or flag officer within a procuring activity, will be forwarded, with supporting information, for approval of a designated office or person at departmental headquarters of the Military Department directly concerned. Such office or person may be the contract financing office at departmental headquarters or such person or persons, located at departmental headquarters and responsible to the Under or Assistant Secretary responsible for the comptroller function, as may be designated for this purpose by such Under or Assistant Secretary. Such requests, before approval, will be coordinated speedily with representatives of the other Military Departments and of the Assistant Secretary of Defense (Comptroller). When approval is given by the contract financing office, or other designated representative of the Under or Assistant Secretary abovementioned, such approval will ordinarily extend to future contracts with the same contractor, so that resubmission of future similar requests for unusual progress payments to that contractor need not be required unless so indicated on the initial approval or thereafter required by the approving authority after review of the contractor's current condition and circumstances.

§ 163.75 Accounting system and controls.

The contractor's accounting system and controls must be adequate for the proper administration of progress payments. If the contractor's accounting system and controls have been found (by experience or by one of the Military audit agencies) to be sufficient and reliable for segregation and accumulation of contract costs, no further examination should be necessary so long as the efficiency and reliability of the contractor's system and controls are maintained. In all doubtful cases, including contracts with contractors with whom a military audit agency has had no experience within the next preceding twelve months, the adequacy of the contractor's accounting system and controls shall be determined, and any necessary changes accomplished, before inclusion of a progress payment clause in a contract. For this purpose, the services of the military audit agencies should be utilized to the greatest extent practicable.

§ 163.76 Information required.

The information required to support a contract provision for progress payments is that which is found necessary under the circumstances of each case to establish that the case complies with Subparts B and E of this part. For guidance as to necessity for financial information and analysis, and the scope, depth and detail of analysis, see particularly §§ 163.27 and 163.28.

§ 163.77 Advance payments.

When advance payments and progress payments are authorized in the same contract, progress payment percentages will not exceed 85 percent of direct labor and material costs or 70 percent of total costs, whichever may be applicable.

§ 163.78 Definitions.

As used in this subpart, the terms in §§ 163.78–1 to 163.78–9 have the meanings set forth.

§ 163.78–1 Progress payments.

See § 163.11. The term "progress payments" must be distinguished from "partial payments." The term "partial payments" describes only (a) payments for partial deliveries accepted by the Government under a contract, or (b) partial payments on contract termination claims.

§ 163.78–2 Customary progress payments.

See §§ 163.72 and 163.73.

§ 163.78–3 Unusual progress payments.

See § 163.74.

§ 163.78–4 Costs.

Costs include all expenses of contract performance which are reasonable, allocable to the contract, consistent with sound and generally accepted accounting principles and practices, and not excluded by the contract. The term "costs" includes "incurred costs" when the contractor is not delinquent in payment of costs of contract performance in the ordinary course of business. It may also include incurred costs, after such delinquency, to the extent provided in § 163.93–4.

§ 163.78–5 Incurred costs.

Incurred costs are those costs identified through the use of the accrual method of accounting and reporting. As to invoices, incurred costs include only invoices for (a) completed work to which the prime contractor has acquired title, (b) materials delivered (to which the prime contractor has acquired title), (c) services rendered, (d) costs billed under cost reimbursement or time and material subcontracts for work to which the prime contractor has acquired title, and (e) invoices for progress payments to subcontractors which have been paid or approved for current payment in the ordinary course of business (as specified in the prime contract), all properly recorded on the books of the contractor and identified with the contract. Costs incurred include costs of direct labor, direct material, and direct services identified with and necessary for the performance of the contract, and also all properly allocated and allowable overhead (indirect) cost as shown by the books of the contractor.

§ 163.78–6 Unliquidated progress payments.

Unliquidated progress payments are the aggregate sum of all progress payments made, less the aggregate sum of amounts applied to reduce progress payments.

§ 163.78–7 Contract price.

The term "contract price" means the total amount fixed by the contract (other than any portion of the contract specifically providing for cost reimbursement only), as amended, to be paid for complete performance of the contract. If the contract provides for escalation or for redetermination of price, this term means the initial price until changed and not the ceiling price. If the contract is of the incentive type, this term means the initial or target price until changed, and not the ceiling or maximum price. For letter contracts and similar preliminary contractual instruments, this term means the maximum expenditure authorized by the contract, as amended.

§ 163.78–8 Amendments, supplements, and modifications.

The terms "amendment," "supplement," and "modification" are used interchangeably, and whenever one of these terms is used it includes the others. The terms "separate new contracts," and "separate contracts," as used herein, do not include "amendments."

§ 163.78–9 Deviation.

The term "deviation" means (a) any change, addition to, or deletion from the contract clauses and certificate forms required by this subpart, (b) any contract provision, outside the progress payment clause, which would have the effect of altering or changing the effect of the progress payment clauses provided herein, and (c) any variation from these regulations. Actions pursuant to § 163.80–6 are not deviations.

§ 163.79 Contract clauses.

Except as otherwise provided in § 163.85, one of the following progress payments clauses shall be used whenever progress payments are to be made to a contractor based upon a percentage of costs, whether or not the contract schedule provides for reimbursement of progress payments to subcontractors. See § 163.79–3.

§ 163.79–1 Total costs clause.

PROGRESS PAYMENTS (APR. 1960)

Progress payments shall be made to the Contractor as work progresses, from time to time upon request, in amounts approved by the Contracting Officer upon the following terms and conditions:

(a) *Computation of amounts.* (1) Unless a smaller count is requested, each progress payment shall be (i) 70 percent of the amount of the Contractor's total costs incurred under this contract plus (ii) the amount of progress payments to subcontractors as provided in (j) below; all less the sum of previous progress payments.

(2) The Contractor's total costs ((a)(1)(i)) shall be reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices. However, such costs shall not include (i) any costs incurred by subcontractors or suppliers, or (ii) any payments or amounts payable to subcontractors or suppliers except for completed work (including partial deliveries) to which the Contractor has acquired title and except for amounts paid or payable under cost-reimbursement or time and material subcontracts for work to which the Contractor has acquired title, or (iii) costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(3) The amount of unliquidated progress payments shall not exceed the lesser of (i) 70 percent of the costs mentioned in (a)(1)(i), above, plus any unliquidated progress payments mentioned in item (a)(1)(ii), above, both of which are applicable only to the supplies and services not yet delivered and invoiced to and accepted by the Government, or (ii) 70 percent of the total contract price of supplies and services not yet delivered and invoiced to and accepted by the Government, less unliquidated advance payments.

(4) The aggregate amount of progress payments made shall not exceed 70 percent of the total contract price.

(5) If at any time a progress payment or the unliquidated progress payments exceed the amount permitted by this paragraph (a), the Contractor shall pay the amount of such excess to the Government upon demand.

(b) *Liquidation.* Except as provided in the clause entitled "Termination For Convenience of the Government," all progress payments shall be liquidated by deducting from any payment under this contract, other than advance or progress, the amount of unliquidated progress payments, or 70 percent[1] of the gross amount invoiced, whichever is less. Repayment to the Government required by a retroactive price reduction will be made after recalculating liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly.

(c) *Reduction or suspension.* The Contracting Officer may reduce or suspend progress payments, or liquidate them at a rate higher than the percentage stated in (b) above, or both, whenever he finds upon substantial evidence that the Contractor (i) has failed to comply with any material requirement of this contract, (ii) has so failed to make progress, or is in such unsatisfactory financial condition, as to endanger performance of this contract, (iii) has allocated inventory to this contract substantially exceeding reasonable requirements, (iv) is delinquent in payment of the costs of performance of this contract in the ordinary course of business, (v) has so failed to make progress that the unliquidated progress payments exceed the fair value of the work accomplished on the undelivered portion of this contract, or (vi) is realizing less profit than the estimated profit used for establish-

[1] For lower percentage for this paragraph, see § 163.81–2.

ing a liquidation percentage in paragraph (b), if that liquidation percentage is less than the percentage stated in paragraph (a)(1).

(d) *Title.* When any progress payment is made under this contract, title to all parts; materials; inventories; work in process; special tooling as defined in the clause of this contract entitled "Special Tooling;" nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, and other similar manufacturing aids not included within the definition of special tooling in such "Special Tooling" clause; and drawings and technical data (to the extent delivery thereof to the Government is required by other provisions of this contract); theretofore acquired or produced by the Contractor and allocated or properly chargeable to this contract under sound and generally accepted accounting principles and practices shall forthwith vest in the Government; and title to all like property thereafter acquired or produced by the Contractor and allocated or properly chargeable to this contract as aforesaid shall forthwith vest in the Government upon said acquisition, production or allocation. Notwithstanding that title to property is in the Government through the operation of this clause, the handling and disposition of such property shall be determined by the applicable provisions of this contract such as: the Default clause and paragraph (h) of this clause; Termination for Convenience of the Government clause; and the Special Tooling clause. Current production scrap may be sold by the Contractor without approval of the Contracting Officer and the proceeds shall be credited against the costs of contract performance. With the consent of the Contracting Officer and on terms approved by him, the Contractor may acquire or dispose of property to which title is vested in the Government pursuant to this clause, and in that event, the costs allocable to the property so transferred from this contract shall be eliminated from the costs of contract performance and the Contractor shall repay to the Government (by cash or credit memorandum) an amount equal to the unliquidated progress payments allocable to the property so transferred. Upon completion of performance of all the obligations of the Contractor under this contract, including liquidation of all progress payments hereunder, title to all property (or the proceeds thereof) which had not been delivered to and accepted by the Government under this contract or which had not been incorporated in supplies delivered to and accepted by the Government under this contract and to which title has vested in the Government under this clause shall vest in the Contractor. The provisions of this contract referring to or defining liability for Government-furnished property shall not apply to property to which the Government shall have acquired title solely by virtue of the provisions of this clause.

(e) *Risk of loss.* Except to the extent that the Government shall have otherwise expressly assumed the risk of loss of property, title to which vests in the Government pursuant to this clause, in the event of the loss, theft or destruction of or damage to any such property before its delivery to and acceptance by the Government, the Contractor shall bear the risk of loss and shall repay the Government an amount equal to the unliquidated progress payments based on costs allocable to such lost, stolen, destroyed or damaged property.

(f) *Control of costs and property.* The Contractor shall maintain an accounting system and controls adequate for the proper administration of this clause.

(g) *Reports; access to records.* Insofar as pertinent to the administration of this clause, the Contractor will (1) furnish promptly such relevant reports, certificates, financial statements, and other information as may be reasonably requested by the Contracting Officer, and (2) give the Government reasonable opportunity to examine and verify its books, records and accounts.

(h) *Special provisions regarding default.* If this contract is terminated pursuant to the clause entitled "Default," (1) the Contractor shall, upon demand, pay to the Government the amount of unliquidated progress payments and (2) with respect to all property as to which the Government elects not to require delivery under the clause entitled "Default," title shall vest in the Contractor upon full liquidation of progress payments, and the Government shall be liable for no payment except as provided by the "Default" clause.

(i) *Reservations of rights.* The rights and remedies of the Government provided in this clause shall not be exclusive, and are in addition to any other rights and remedies provided by law or under this contract. No payment, or vesting of title pursuant to this clause, shall excuse the Contractor from performance of its obligations under this contract, nor constitute a waiver of any of the rights and remedies of the parties under this contract. No delay or failure of the Government in exercising any right, power or privilege under this clause shall affect any such right, power or privilege, nor shall any single or partial exercise thereof preclude or impair any further exercise thereof or the exercise of any other right, power or privilege of the Government.

(j) *Progress payments to subcontractors.* (1) The amount mentioned in item (a)(1)(ii) above shall be the sum of (i) all the progress payments made by the Contractor to his subcontractors and remaining unliquidated, and (ii) unpaid billings for progress payments to subcontractors which have been approved for current payment in the ordinary course of business, when under subcontracts which conform to (2) below.

(2) Subcontracts on which progress payments to subcontractors may be included in the base for progress payments pursuant to paragraph (a) of this clause are limited to those subcontracts in which there is expected to be a long "lead time," approximating six months or more between the beginning of work and the first delivery, containing subcontract progress payment provisions which (i) are substantially similar to and as favorable to the Government as this "Progress Payments" clause, no more favorable to the subcontractor than this clause is to the contractor and on a basis of not more than 70 percent of total costs or 85 percent of direct labor and material costs (except that these percentages may be 75 percent of total costs or 90 percent of direct labor and material costs for those subcontractors which are small business concerns), and (ii) make all rights of the subcontractor with respect to all property to which the Government has title under the subcontract subordinate to the rights of the Government to require delivery of such property to it in the event of default by the Contractor under this contract or in the event of the bankruptcy or insolvency of the subcontractor.

(3) The Government agrees that any proceeds received by it from property to which it has acquired title by virtue of such provisions in any subcontract shall be applied to reduce the amount of unliquidated progress payments made by the Government to the Contractor under this contract. In the event the Contractor fully liquidates such progress payments made by the Government to him hereunder and there are progress payments to any subcontractors which are unliquidated, the Contractor shall be subrogated to all the Government's rights by virtue of such provisions in the subcontract or subcontracts involved as if all such rights had been thereupon assigned and transferred to the Contractor.

(4) The billings described in (j)(1)(ii) above shall be paid promptly by the Contractor in the ordinary course of business not later than a reasonable time after payment of equivalent amounts by the Government to the Contractor.

(5) To facilitate small business participation in subcontracting under this contract, the Contractor agrees to provide progress payments to those subcontractors which are small business concerns in conformity with the standards for customary progress payments stated in paragraph 503 of Appendix E of the Armed Services Procurement Regulation, as in effect on the date of this contract. The Contractor further agrees that the need for such progress payments will not be considered as a handicap or adverse factor in the award of subcontracts.

§ 163.79–2 Direct labor and materials cost clause.

PROGRESS PAYMENTS (OCTOBER 1960)

Progress payments shall be made to the Contractor as work progresses, from time to time upon request, in amounts approved by the Contracting Officer upon the following terms and conditions:

(a) *Computation of amounts.* (1) Unless a smaller amount is requested, each progress payment shall be (i) 85 percent of the amount of the Contractor's costs incurred of direct labor and material[1] only under this contract plus (ii) the amount of progress payments to his subcontractors as provided in (j) below and remaining unliquidated; all less the sum of previous progress payments.

(2) The Contractor's costs above-mentioned ((a)(1)(i)) shall be reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices. However, such costs shall not include (i) any costs incurred by subcontractors or suppliers, or (ii) any payments or amounts payable to subcontractors or suppliers, except for completed work (including partial deliveries) to which the Contractor has acquired title, and except for amounts paid or payable under cost-reimbursement or time and material subcontracts for work to which the Contractor has acquired title, or (iii) costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(3) The amount of unliquidated progress payments shall not exceed the lesser of (i) 85 percent of the costs mentioned in (a)(1)(i), above, plus any unliquidated progress payments mentioned in (a)(1)(ii), above, both of which are applicable only to the supplies and services not yet delivered and invoiced to and accepted by the Government, or (ii)—percent of the total contract price of supplies and services not yet delivered and invoiced to and accepted by the Government, less unliquidated advance payments. [For percentage here and in (a)(4), see the first bracketed instruction in (b) below.]

(4) The aggregate amount of progress payments made shall not exceed _____ percent of the total contract price.

(5) If at any time a progress payment or the unliquidated progress payments exceed the amount permitted by this paragraph (a), the Contractor shall pay the amount of such excess to the Government upon demand.

(b) *Liquidation.* Except as provided in the clause entitled "Termination For Convenience of The Government," all progress payments shall be liquidated by deducting from any payment under the contract, other than advance or progress, the amount of unliquidated progress payments, or ____ percent [insert a percentage which is to 85 percent as the amount of estimated costs forming the basis for progress payments is to the amount of the estimated total costs] of the gross amount invoiced, whichever is less. Repayment to the Government required by a retroactive price reduction will be made after recalculating liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly. [For percentage for this paragraph, lower than the percentage computed pursuant to the above instruction and § 163.81–1(b), see § 163.81–2.]

(c) *Reduction or suspension.* The Contracting Officer may reduce or suspend progress payments, or liquidate them at a rate higher than the percentage stated in (b) above, or both, whenever he finds upon substantial evidence that the Contractor (1) has failed to comply with any material requirement of this contract, (2) has so failed to make progress, or is in such unsatisfactory financial condition, as to endanger performance of this contract, (3) has allocated inventory to this contract substantially exceeding reasonable requirements, (4) is incurring costs, whether or not of the kinds eligible for progress payments under paragraph (a)(1) above, which are higher than the respective estimated costs used for establishing the liquidation percentage in paragraph (b) above, (5) is delinquent in payment of the costs of performance of this contract in the ordinary course of business, or (6) has so failed to make progress that the unliquidated progress payments exceed the fair value of the work accomplished on the undelivered portion of this contract.

(d) *Title.* (Same as paragraph (d) or "Total Costs" clause.)

(e) *Risk of loss.* (Same as paragraph (e) of "Total Costs" clause.)

(f) *Control of costs and property.* (Same as paragraph (f) of "Total Costs" clause.)

(g) *Reports; access to records.* (Same as paragraph (g) of "Total Costs" clause.)

(h) *Special provisions regarding default.* (Same as paragraph (h) of "Total Costs" clause.)

(i) *Reservations of rights.* (Same as paragraph (i) of "Total Costs" clause.)

(j) *Progress payments to subcontractors.* [Same as paragraph (j) of "Total Costs" clause.]

[1] Strike out "labor and" or "and material" if progress payments are limited to single direct cost.

§ 163.80 General instructions for progress payment clauses.

The instructions below apply to the clauses required by § 163.79 and set forth in §§ 163.79–1 and 163.79–2.

§ 163.80–1 Contracting officer.

The term "contracting officer" as used in this subpart means the contracting officer as defined in § 1.201–3 of this chapter.

§ 163.80–2 Variation in percentages.

The percentages stated in (a)(1)(i) of the clauses in §§ 163.79–1 and 163.79–2 are the normal percentages for the customary progress payments authorized by § 163.72. Higher percentages may be provided in the manner and to the extent authorized by § 163.74. Lower percentages may be used in (a)(1)(i) of §§ 163.79–1 and 163.79–2 when agreed, and will be used for unusual progress payments when found adequate in accordance with the standards set forth in § 163.74. Such lower percentages shall not be utilized for progress payments pursuant to § 163.73.

§ 163.80–3 Total cost basis: percentage other than 70 percent.

If a percentage other than 70 percent is specified in (a)(1)(i) of the total costs clause set forth in § 163.79–1, the percentage actually specified in (a)(1)(i) of the Progress Payment clause of the contract shall also be specified in (a)(3)(i), (a)(3)(ii), (a)(4) and (b) of the Progress Payment clause. (As to (b), see § 163.81.)

§ 163.80–4 Limited cost basis; other percentages.

When the Progress Payment clause set forth in § 163.79–2 is used, the percentage actually specified in (a)(1)(i) of the Progress Payment clause of the contract will also be specified in (a)(3)(i). The percentage to be specified in (a)(3)(ii), (a)(4), and (b) of that clause will be computed in the manner provided in § 163.81–1, except that a percentage higher than the percentage so computed may be specified in paragraph (b) if agreed. Subject to this exception permitting use of a higher percentage in (b) (or a lower percentage in (b) established pursuant to § 163.81–2), the percentage to be specified in (a)(3)(ii), (a)(4), and (b) will thus be a percentage which is to the percentage in (a)(1) as the amount of estimated costs forming the basis for progress payments is to the amount of estimated total costs of performance of the undelivered portion of the contract. This same principle will apply if a narrower cost basis, more limited than the cost basis stated in § 163.79–2, is utilized for progress payments. (See § 163.80–5.)

§ 163.80–5 Cost basis less than direct labor and material costs.

Instead of the direct labor and material cost basis provided in § 163.79–2, a narrower and more limited cost basis for progress payments may be utilized for that clause, such as direct labor only, direct material only, or direct labor or material costs applicable only to certain specified items, or specified direct costs other than direct labor or material costs. Appropriate changes will be made in (a)(1)(i) of the clause set forth in § 163.79–2 when such a narrower and more limited cost basis is to be used. For example, if eligible costs are to be limited to direct material costs, the words "labor and" should be deleted from (a)(1)(i); or, if eligible costs are to be limited to direct labor costs, the words "and material" should be deleted from (a)(1)(i).

§ 163.80–6 Other protective provisions.

When deemed reasonably necessary for the protection of the Government, the clauses set forth in §§ 163.79–1 and 163.79–2 may be supplemented by additional protective provisions, such as personal or corporate guarantees, subordinations or stand-bys of indebtedness, special bank accounts, and other protective covenants of the kinds outlined in item (r) of § 163.64–2.

§ 163.81 Progress payment liquidation.

Controlling principles for liquidation of progress payments based on costs are set out below.

§ 163.81–1 Ordinary method.

Except as authorized by § 163.81–2, the required method for liquidation and the applicable liquidation percentages are:

(a) when costs other than for direct labor and material are in the base for progress payments, the percentage of the contract price of delivered items to be applied for liquidation of progress payments will be not less than the percentage of costs upon which progress payments are based, e.g., when progress payments are based on 75 percent of all costs, liquidation will be at a rate not less than 75 percent of the contract price of separate items as they are delivered, or when progress payments are based on 70 percent of all costs, liquidation will be at a rate not less than 70 percent of the contract price of separate items as they are delivered;

(b) when progress payments are based on 90 percent (or specified lesser percentage) of the costs of direct labor and material, the rate of liquidation of progress payments will be not less than 90 percent (or the specified lesser percentage) of the percentage of estimated total costs represented by the estimated costs of direct labor and material. Thus, for example, if the base for progress payments is 90 percent of the costs of direct labor and material, and if estimated costs of direct labor and material are 70 percent of total estimated costs, liquidation will be at a rate not less than 63 percent (90 x 70) of the contract price of separate items as they are delivered. See § 163.81–3.

§ 163.81–2 Alternate method.

(a) The above method for liquidation of progress payments (§ 163.81–1) will not apply if, at the inception of a contract (on the basis of satisfactory cost estimates) or thereafter by amendment (based on satisfactory data on cost experience and estimated future costs) the parties shall agree on a percentage rate of liquidation which will (1) effect liquidation of the amount of progress payments involved in each invoice from which liquidation of progress payments is to be made (i.e., recovery of the portion of costs for which progress payments have been made), (2) permit payment to the contractor of not more than the cost of items delivered and accepted (less allocable progress payments) and his earned profit on those items, and (3) insure that unliquidated progress payments will not exceed the percentage specified in the contract, of the costs forming the base for progress payments, applicable only to that portion of the contract which has not been delivered, accepted and invoiced.

(b) However, when progress payments are made at 75 percent of the total costs, this percentage for liquidation of progress payments, lower than that prescribed by § 163.81–1, to the extent appropriate, shall not be fixed at a rate less than 70 percent except as provided in paragraph (c) of this section. If the progress payment percentage of total costs is less than 75 percent, comparable

relationship between the progress payment percentage and the above minimum liquidation percentage shall be maintained. Similar principles as to minimum liquidation percentages shall be applied when progress payments are to be made at 90 percent of the costs of direct labor and material, or on a more limited cost base, or at lesser percentages of limited costs. For example, when progress payments are made at 70 percent of the total costs, this percentage for liquidation of progress payments, lower than that prescribed by § 163.81–1, to the extent appropriate, shall not be fixed at a rate less than 65.3 percent except as provided in paragraph (c) of this section.

(c) With regard only to items for which final prices have been established under contracts, progress payment liquidation percentages conforming to the standards stated in paragraph (a) of this section, but less than the minimum liquidation percentages stated and outlined in paragraph (b) of this section, (e.g., less than 70 percent when progress payments are based on 75 percent of total cost or less than 65.3 percent when progress payments are based on 70 percent of total costs) may be established by amendment of contracts upon submission of satisfactory information by the contractor showing separately (1) the cost of items that have been delivered, accepted and invoiced, (2) the cost of work not delivered, accepted and invoiced, (3) the estimated costs of completion, and (4) an applicable profit on the items for which final prices have been established that is higher than the amount of profit permitted to be released by application of the progress payment liquidation percentage then specified in the contract.

(d) Liquidation percentage rates as described herein, less than those prescribed by § 163.81–1 will not be established initially or by amendment except on the basis of satisfactory cost data and estimates furnished by the contractor. Contracts may be amended to reduce the liquidation rate not more frequently than once in each period of twelve months. See § 163.81–3.

§ 163.81–3 Liquidation percentages.

(a) Liquidation percentages shall conform to § 163.81–1, except as authorized by § 163.81–2.

(b) In the application of paragraphs (a) and (b) of § 163.81–2, when progress payments are at the rate of 75 percent of all costs, the minimum liquidation percentage of 70 percent would not apply if the estimated profit rate is less than 7.3 percent of total costs. If, for example, the estimated profit rate is 5 percent of total costs, the minimum liquidation percentage permitted by (a) and (b) of § 163.81–2 would be approximately 71.5 percent. At this 5 percent profit rate, assuming (1) price $105, (2) costs $100, and (3) progress payments $75, this minimum liquidation rate of 71.5 percent would be necessary for recovery of the $75 of progress payments from the $105 delivery billing (75÷105=71.5 percent, and 0.715×$105=$75.07). The same principles are applicable when, pursuant to paragraph (c) of § 163.81–2, a liquidation rate lower than the 70 percent minimum is to be established. For example, assuming an established profit rate of 8 percent of total costs of items for which final prices have been established, the minimum liquidation rate for those items would be 69.5 percent when progress payments are at the rate of 75 percent of total costs. Assuming, (i) fixed price $108, (ii) costs $100, and (iii) progress payments $75, the calculation would be: 75÷108=0.6944, and (rounding this upward to 0.695), 0.695×$108=$75.06.

(c) Paragraph (b) of § 163.81–1 provides the standards, and gives an example for establishing the minimum liquidation percentage when progress payments are to be at 90 percent of costs of direct labor and material (or lesser percentages of more limited costs). In the application of paragraphs (a) and (b) of § 163.81–2, when progress payments are at the rate of 90 percent of costs of direct labor and material, examples of the minimum liquidation rates are:

(1) When costs of direct labor and material are 70 percent of total costs, and the profit rate is 5 percent of total costs, the minimum liquidation percentage would be 60 percent. Assuming price $105, costs $100, costs of direct labor and material $70, and progress payments $63, then 63÷105=60 percent. Application of the 60 percent liquidation percentage to the delivery price of $105 recovers the $63 of progress payments.

(2) On assumptions the same as example (1), above, except that costs of direct labor and material are computed at 80 percent of total costs ($80 of the total costs of $100), so that progress payments on the item are $72 (90 percent of $80), the minimum liquidation percentage would be 68.6 percent (72÷105=68.6 percent, i.e., 68.57 percent rounded upward to 68.6 percent). Application of this 68.6 percent liquidation percentage to the delivery price of $105 recovers $72.03 against the $72 of progress payments.

(d) In line with the standards set for progress payments based on 75 percent of all costs, calculation of minimum liquidation rates pursuant to (a) and (b) of § 163.81–2, when progress payments are at 90 percent (or lesser percentage) of costs of direct labor and material (or costs more limited), will not take into account any amount of profit that exceeds 7.3 percent of total costs. Thus, on example (1) next above (assuming profit rate of 7.3 percent of costs or any greater rate), the minimum liquidation percentage would be 58.72 percent (63÷107.3=58.72 percent).

(e) The above principles (paragraphs (a), (b), (c), (d) of this section) apply when progress payments are at the rate of 70 percent of all costs or 85 percent of costs of direct labor and material, or at other percentages. In conformity to the above pattern, liquidation rates would be lower than those set out in (b), (c), and (d), to harmonize with percentages for progress payments that are lower than those mentioned in (b), (c), and (d). Thus, for instance, with regard to (a) above, if progress payments are at the rate of 70 percent of all costs (instead of 75 percent), the minimum liquidation rate comparable to the 70 percent liquidation rate mentioned in paragraph (b) of § 163.81–2, would be 65.3 percent (or a higher percentage if the estimated profit rate is less than 7.3 percent of all costs). In the first example given in paragraph (b) of this section with progress payments at 70 percent of total costs, assuming (1) price $105, (2) costs $100, and (3) progress payments $70, a minimum liquidation percentage of 66.7 percent would be necessary for recovery of the $70 of progress payments from the $105 delivery billing (70÷105=66.7 percent, and 0.667×$105=70.03). In the second example given in paragraph (b) of this section, for application of paragraph (c) of § 163.81–2, assuming (i) fixed price $108, (ii) costs $100, and (iii) progress payments $70, the minimum liquidation rate for the finally priced items would be 64.9 percent (70÷108=64.815, and rounding this upward to 64.9, 0.649×$108=$70.09).

§ 163.82 Subcontracts.

(a) Subcontractors ought to be able to get progress payments from their customers on standards which are the same as those applicable to prime contracts. Contractors should be encouraged to extend progress payments to subcontractors on subcontracts which meet the standards for customary progress payments outlined in § 163.72.

(b) The policies and standards for "unusual" progress payments set forth in § 163.74 are equally applicable to situations where it is contemplated that contracts will provide for progress payments based on "unusual" progress payments made by a prime contractor to a subcontractor. In such cases, when the inclusion of such unusual progress payments on the subcontracts has been approved in the manner set forth in § 163.74, appropriate revision will be made in paragraph (j)(2) of the progress payment clause (See §§ 163.79–1 and 163.79–2) so as to permit inclusion of the unusual progress payments on the subcontract as part of the base for progress payments on the prime contract. Such revisions are deemed not to be deviations, and do not require the clearance called for by § 163.86(b). Sections 163.79–1(a)(2) and 163.79–2(a)(2) apply only to the "contractor's" costs mentioned in § 163.79–1(a)(1)(i) and 163.79–2(a)(1)(i) respectively. Sections 163.79–(a)(2) and 163.79–2(a)(2) do not apply to the progress payments to subcontractors mentioned in §§ 163.79–1(a)(1)(ii) and 163.79–2(a)(1)(ii) respectively. This interpretation governs evisting §§ 163.79–1 and 163.79–2 clauses in contracts as well as new contracts in which a new clarifying reference to "(a)(1)(i)," as set out above, will be included in paragraph (a)(2) of the Progress Payment clause.

§ 163.82–1 Subcontractor progress payments.

When progress payments have been made by a prime contractor to a subcontractor pursuant to the provisions of the applicable prime contract and subcontract, the progress payment to the prime contractor to reimburse him for such progress payment to the subcontractor shall include the full amount of his progress payment made to the subcontractor. When a percentage less than 100 percent has been specified on existing contracts, this lesser percentage will control the amount of progress payments to be made pursuant to paragraph (a)(1)(ii) of §§ 163.79–1 and 163.79–2 and the maximum limit on unliquidated progress payments on account of unliquidated progress payments to subcontractors under paragraph (a)(3)(i) of §§ 163.79–1 and 163.79–2.

§ 163.82–2 Adaption of uniform clause for subcontracts.

(a) Contracting officers are not required to review or approve subcontracts merely because they provide for progress payments. However, they shall check and review subcontracts providing for progress payments to the extent appropriate in the ordinary course of administration of the progress payment clause of prime contracts. The duty rests on the prime contractor to see to it that its subcontracts providing for progress payments, to be included in the base for progress payments pursuant to the provisions of §§ 163.79–1(j) and 163.79–2(j) conform to those provisions of the contract. In adapting the clauses set forth in §§ 163.79–1 and 163.79–2 for use in subcontracts, to conform to §§ 163.79–1(j) or 163.79–2(j), the subcontract progress payment clause should have appropriate changes to reflect the position of the prime contractor as purchaser and of the subcontractor as vendor, and to indicate that the progress payments under the subcontract are being made and administered by the prime contractor. However, the title provision of the progress payments clause of the subcontract shall provide for the vesting of title directly in the Government, as set forth in §§ 163.79–1(d) and 163.79–2(d), and the subcontract will not substitute the prime contractor for the Government as the holder of title under that paragraph of the subcontract. In that title paragraph of the subcontract, reference to the prime contractor should, however, be substituted for the word "Government" in the parenthetical expression concerning drawings and technical data, and also in the second sentence of the paragraph. In the subcontract counterpart of §§ 163.78–1(g) and 163.79–2(g) entitled "Reports—Access to Records" the references to "Contracting Officer" and "Government" should not be deleted, but may in each case be expanded so as to refer to the "Contracting Officer or the prime contractor," (§§ 163.79–1(g)(1), 163.79–2(g)(1), and to the "Government or the prime contractor" (§§ 163.79–1(g)(2), 163.79–2(g)(2)).

(b) With regard to the subcontract counterpart of the "Special Provisions Regarding Default" (§§ 163.79–1(h), 163.79–2(h)) only the substance of the first 26 words of that paragraph (with reference to the prime contractor substituted for "Government"), is required for conformity to the provisions of § 163.79–3.

§ 163.82–3 Substitution of new clause for old clause.

In furtherance of the policy of encouraging the making of proper progress payments to subcontractors (§ 163.82), those contracts which contain a progress payment clause conforming to former §§ 163.79–1 or 163.79–2 as issued 25 May 1959, whether with or without the Schedule provisions authorized by former § 163.79–3, may be amended, for nominal consideration only, so as to substitute one of the §§ 163.79–1—163.79–2 clauses for the existing progress payment clause.

§ 163.83 Progress payments on subcontracts under cost-reimbursement types of prime contracts.

The policies, standards and procedures of this subpart and its references are applicable to progress payments to subcontractors and suppliers on fixed-price types of subcontracts under cost-reimbursement types of prime contracts. For the prime contractor to be reimbursed for such progress payments, it is required that the subcontracts involving progress payments conform to this part. Specifically, the case must meet the standards for customary progress payments (§ 163.72) and progress payment percentages must not exceed those authorized by § 163.72 (unless unusual progress payments to the subcontractor are approved by the procedure described in § 163.74), liquidation must conform to § 163.81, and one of the uniform clauses (§ 163.79) adapted for subcontract use (§ 163.82–2) must be utilized.

§ 163.84 Letter contracts.

When progress payments are to be made under letter contracts or similar preliminary contractual instruments, incorporation of one of the clauses set forth in §§ 163.79–1 and 163.79–2 is required except as follows:

(a) §§ 163.79–1(a)(4) or 163.79–2(a)(4) will be replaced by a provision limiting the aggregate amount of progress payments made under the letter contract to a stated amount, not exceeding 70 percent of the maximum liability of the Government under the letter contract (or such lesser percentage as may be applicable in accordance with the last two sentences of § 163.80–4 if the clause set out in § 163.79–2 is to be used). Separate limits may be prescribed for separate specified parts of the work.

(b) Until unit delivery billing prices are specified, §§ 163.79–1(b) or 163.79–2(b) concerning liquidation will not be operative, and will be supplemented by the additional provision set out below:

> Progress payments made hereunder shall be liquidated in the following manner, unless previously liquidated pursuant to paragraph (b):
>
> (1) If this letter contract shall be superseded by a fixed-price type contract (Subpart D, Part 3 of this chapter), unliquidated progress payments made hereunder shall be liquidated by deducting the amount thereof from the first progress or other payments which shall be made under such contract.
>
> (2) If this letter contract shall be superseded by a cost-reimbursement type contract, progress payments made hereunder shall be liquidated by deducting the unliquidated amount thereof from the first payments which shall be made under such cost-reimbursement contract.
>
> (3) If this letter contract shall not be superseded by a contract calling for the furnishing of all or part of the articles or services covered hereby, unliquidated progress payments made hereunder shall be liquidated by deducting the amount thereof from the amount payable under the provisions of the Termination clause for this letter contract.
>
> (4) If this letter contract shall in part be terminated and shall in part be superseded by a contract, the unliquidated progress payments made hereunder shall be allocated by the Government for the purpose of liquidation to the terminated portion of the letter contract and to the superseding contract in such proportions as the Government shall deem to be equitable, and the part of such progress payments allocated to each shall be liquidated in accordance with the applicable provisions of subdivisions (1), (2), and (3) of this paragraph.
>
> (5) If the method of liquidating progress payments provided above shall not result in the full liquidation thereof, the Contractor shall forthwith pay the unliquidated balance to the Government upon demand.

(c) Any superseding definitive contract will contain appropriate provisions, carried forward from the letter contract, for liquidation of progress payments made under the preliminary instrument. When the superseding contract provides for progress payments, the progress payment clause will be supplemented by further provision as follows:

> The costs, previous progress payments, aggregate progress payments, and unliquidated progress payments, mentioned in paragraph (a) of this progress payments clause, include the costs incurred and progress payments made under the letter contract which has been superseded by this contract.

§ 163.85 Transition.

Contracts in existence on the effective date of this subpart will continue to be administered in accordance with their provisions and this part. The transition to uniform use of a progress payment clause set out in this part (§ 163.79) will be accomplished in an orderly and reasonable manner and as promptly as practicable, as set forth below.

§ 163.85–1 Separate contracts.

To the greatest extent feasible, procurement effected after the effective date of this part, and involving the establishment or continuation of progress payments, will be accomplished by separate new contracts rather than by amendments of existing contracts.

§ 163.85–2 Existing indefinite quantity contracts.

During the specified term of existing indefinite quantity contracts (not including any extension of such term) existing progress payment provisions conforming to § 163.72 with regard to progress payment percentage and conforming to § 163.81 with regard to rate of liquidation do not need to be replaced, incident to new procurement under such contracts, by a clause set forth in § 163.79.

§ 163.85–3 Supplements, amendments, and modifications; when new clause not required.

When it is found necessary to effect new procurement by amendment of a

contract (see § 163.85–1) already providing for progress payments based on costs, rather than by a separate contract, it is not required that the amendment include a clause set forth in § 163.79 if the progress payment clause already in the contract provides for progress payments not exceeding 70 percent of total costs or 85 percent of direct labor and material costs and also provides for liquidation conforming to § 163.81. However, in these cases, a clause set out in § 163.79 should be substituted for the existing progress payment clause whenever feasible.

§ 163.85–4 Supplements, amendments, and modifications; gradual operation of new clause.

(a) When a contract provides for progress payments at rates exceeding 85 percent of direct labor and material costs or exceeding 70 percent of total costs, and it is found necessary to accomplish additional procurement by an amendment rather than by a separate new contract (see § 163.85–1), the amendment should, whenever reasonable and practicable, substitute a clause set forth in § 163.79 for the progress payment clause of the contract, so as to limit all future progress payments on the entire contract to 70 percent of future total costs or 85 percent of future costs of direct labor and materials. When such substitution is made, substantially the following provision should be added:

For the purposes of paragraph (a)(1) of this clause, (i) progress payments made or to be made to the contractor on progress billings submitted to the Government on or before the date of this amendment (in the total amount of $_____), shall be excluded in computing the "sum of previous progress payments" and (ii) costs (and progress payments to subcontractors) (in the total amount of $_____), relating to the progress payments so excluded shall also be excluded in computing costs (and progress payments to subcontractors) eligible for progress payments under this amendment. The amount of progress payments unliquidated at the date of this amendment ($_____), and the amount of progress payments included in progress billings pending at the date of this amendment ($_____), aggregating ($_____), shall be liquidated at the rate of _____ percent instead of the percentage stated in paragraph (b) of this clause. Paragraphs (a)(3) and (b) of this clause shall not apply until liquidation of the aggregate amount of progress payments made or billed at the date of this amendment. Paragraph (a)(4) does not apply.

The expression "(and progress payments to subcontractors)" will be deleted if not applicable. Billings for progress payments pending at the date of the amendment will be paid in accordance with the Progress Payment clause in effect before the amendment. The rate for liquidation of unliquidated progress payments outstanding and to be outstanding pursuant to progress billings pending at the date of the amendment will be specified in accordance with the principles stated in § 163.81.

(b) When, in the circumstances described in paragraph (a) of this section, it is not reasonable and practicable to substitute a clause set forth in § 163.79 so as to limit all future progress payments on the entire contract to 70 percent of costs or 85 percent of costs of direct labor and material as the case may be, the amendment (incorporating a clause set forth in § 163.79, with percentages as specified in § 163.72) ordinarily will provide for segregation of costs attributable to work under the amendment, segregation of payments under the amendment, and administration of progress payments under the amendment on the same basis as if the amendment were a separate new contract. However, when it is found that it will be expensive or otherwise impracticable to separate costs of deliveries attributable to the amendment from those attributable to the other portion of the contract, the amendment will provide for one or the other of the arrangements described in paragraphs (c) and (d) of this section.

(c) When the last sentence of paragraph (b) of this section is applicable (and paragraph (d) of this section is not applied), the amendment will include a clause set forth in § 163.79 (with percentages conforming to § 163.72), with provision that it will become operative as herein provided. The amendment will provide for continuation of progress payments pursuant to the existing progress payment clause and for their liquidation pursuant to § 163.81, until (1) the aggregate amount of progress payments made under the contract, including progress payments previously made, equals (2) the aggregate amount of progress payments that would have been made at the previously established rates if the contract had continued without this amendment (less reductions from time to time to reflect decreases in anticipated total progress payments, resulting from any partial termination of the contract); and (3) when the amount described in subparagraph (1) of this paragraph equals the amount described in subparagraph (2) of this paragraph future progress payments will be governed by the progress payment clause included in the amendment, except that liquidation of the amount of unliquidated progress payments then outstanding will continue at the higher rate required to conform to § 163.81 until liquidation of such amount, and §§ 163.79–1(a)(4) and 163.79–2(a)(4) will not apply.

(d) When the last sentence of paragraph (b) of this section is applicable (and paragraph (c) of this section is not applied) the amendment will substitute a clause set forth in § 163.79 instead of the existing progress payment provision, but with the percentage specified for future progress payments being a weighted average percentage arrived at by dividing the amount described in subparagraph (1) of this paragraph into the amount described in subparagraph (2) of this paragraph (and with the special liquidation provision described in subparagraph (3) of this paragraph):

(1) The total of all future costs, eligible for progress payments, expected to be incurred for performance of the contract and this amendment.

(2) The sum of (i) the total of all future costs, eligible for progress payments, that would have been incurred for performance of the contract without this amendment (not including costs expected to be incurred on account of this amendment) multiplied by the percentage for progress payments theretofore specified in the contract, and (ii) the total of all future costs, eligible for progress payments, expected to be incurred solely on account of this amendment, multiplied by not more than 70 percent (or by not more than 85 percent if eligible costs are limited to direct labor and material).

(3) When such substitution is made, special provision will be added to require that (i) the unliquidated progress payments outstanding at the date of the amendment (and any progress payments made thereafter on progress billings pending at the date of the amendment) will be liquidated in the manner outlined in § 163.81, e.g., at 90 percent of delivery billings if those progress payments had been made at 90 percent of costs, or at percentages authorized by § 163.81–2, and (ii) that liquidation at the percentage specified in the progress payment clause substituted by the amendment will begin when liquidation at the higher rate mentioned in subdivision (i) of this subparagraph has been accomplished.

§ 163.85–5 Supplements, amendments, and modifications concerning progress payments.

Supplements, amendments, and modifications of existing contracts which increase the rate or percentage of progress payments, or enlarge the base for progress payments, or reduce the rate of liquidation of progress payments, or make new provision for progress payments shall conform to this part and in particular to § 163.79.

§ 163.85–6 Amendments reducing the rate of progress payments.

When contracts are amended to reduce the percentage for progress payments (§ 163.72–2), the principles set forth in § 163.85–4 are applicable, even though additional procurement is not involved.

§ 163.86 Contract financing office clearance.

The following types of provisions for progress payments require submission through channels and prior approval by the contract financing office (§ 163.26):

(a) Those involving progress payments at rates exceeding 85 percent of direct labor and material costs or exceeding 70 percent of total costs, except as authorized by §§ 163.72, 163.73 and 163.85–4;

(b) Those involving deviations, as defined in § 163.78–9;

(c) Those exceptional cases, involving unusual risks, described in § 163.26;

(d) Those involving contractors as to whom it is known that within the preceding 12 months (1) request for advance payments has been denied for financial reasons by the contract financing office, or (2) application for guarantee of a loan to the contractor or for increase or extension of maturity of a guaranteed loan, has been disapproved for financial reasons, or (3) an approved application for guarantee of a loan or for advance payment to the contractor has lapsed or has been withdrawn; and

(e) Those involving contractors named on the consolidated list of contractors indebted to the United States, commonly known as the "Hold-Up List."

§ 163.87 Coordination.

The coordination described in the paragraph (c) § 163.74 is required for all cases mentioned in paragraphs (a) and (b) of § 163.86.

§ 163.87–1 Control lists.

To give effect to § 163.86(d), pertinent information will be exchanged between the several contract financing offices, and distributed through normal channels to contracting officers.

§ 163.87–2 Hold-up list.

To give effect to § 163.86(e), and for other proper purposes, the "Hold-Up List" there mentioned will be distributed through normal channels to contracting officers.

§ 163.88 Contractor's request.

All invoices for progress payments on contracts containing the Progress Payment clause set out in § 163.79 (with or without the modifications authorized by § 163.85–4), and on contracts containing any deviation from that clause approved pursuant to §§ 163.86 and 163.87, will be supported by the Contractor's Request for Progress Payment (DD Form 1195) with any supporting information that may be reasonably required. This form of request also will be utilized as soon as practicable (unless incompatible with contract provisions) in connection with progress payments based on costs under existing contracts and other contracts (§§ 163.85–1, 163.85–2, 163.85–3) not containing one of the Progress Payment clauses set out in § 163.79. The use of this form is subject to the instructions set forth on the reverse thereof.

§ 163.89 Audit.

For the making of progress payments, principal reliance will be placed on the adequacy of the contractor's accounting system and controls (§ 163.75) and on the reliability of the contractor's certificates. To conserve administrative effort, hold down expense, and promote prompt payment of proper progress billings, audit before the making of progress payments will be kept to the minimum necessary for the protection of the interests of the Government. Preaudit, that is, audit before the making of a progress payment, will be limited to those situations in which there is reason to question the reliability or accuracy of the contractor's certificate, or reason to believe that the contract will involve a loss. Post-review or post-audit will be made when considered desirable by the contracting officer to determine the validity of any progress payment made on the contractor's certifications.

§ 163.90 Administration; general.

Progress payment clauses cannot be self-executing, and require careful administration to insure against overpayments and losses. In all cases the physical progress of the work should be evaluated periodically to assure that the progress payments are fairly supported by the value of the work actually accomplished on the undelivered portion of the contract in conformity with the contract requirements. Also, the unliquidated progress payments should not be permitted to exceed the percentage specified in the contract, of the costs forming the base for progress payments, applicable only to the partially finished undelivered portion of the contract. It is necessary for adequate supervision of progress payments that the administering office keep itself informed concerning the contractor's overall operations and financial condition, since difficulties encountered and losses suffered in operations outside the particular progress payment contract may affect adversely the performance of that contract and the liquidation of the progress payments. For contracts with those contractors whose financial condition is doubtful or not strong in relation to progress payments outstanding or to be outstanding, or whose management is of doubtful capacity or whose accounting controls are found by experience to be weak, or who are encountering substantial difficulties in performance, full information concerning both the progress under the contracts involved (including the status of subcontracts), and concerning the contractor's other operations and financial condition, should be obtained and analyzed at frequent intervals, with a view to the better protection of the interest of the Government and the taking of such action as may be proper to make contract performance more certain. If there is reason to doubt only minor elements of the costs involved in a progress billing, only the doubtful amounts should be withheld, subject to later adjustment, and the amount clearly due should be paid without awaiting resolution of the differences. So far as practicable in each case, all cost problems, particularly those involving indirect costs, of a kind likely to create disagreements in future administration of the contract, should be identified and resolved at the inception of the contract.

§ 163.90–1 Extent of supervision.

The extent of supervision required, whether for loss prevention or for avoidance of overpayments, should vary inversely with the experience, performance record, reliability, quality of management, and financial strength of contractors, and with the adequacy of their accounting system and controls. Review should be of a kind and degree that will be sufficient, consistent with the circumstances of individual cases, to provide timely knowledge of circumstances that would adversely affect contract performance and the liquidation of progress payments, and timely opportunity for any action that may be appropriate for the protection of the Government. Particular care must be taken to assure that the unpaid balance of the contract price will be adequate to cover the anticipated cost of completion, or that the contractor has adequate resources to complete the contract if the unpaid balance of the contract price is inadequate to cover costs of completion.

§ 163.90–2 Use of progress payments by contractors.

It is expected that the contractor will use the progress payments made by the Government, or equivalent amounts of money, to pay the costs incurred in the performance of the contract under which progress payments are made.

§ 163.91 Adjustments; retroactive price reduction; refunds.

When a retroactive price reduction has been made effective, i.e., by supplemental agreement or by unilateral determination pursuant to the price redetermination provision of the contract, the last sentence of §§ 163.79–1(b) and 163.79–2(b) requires adjustments so that the amount of unliquidated progress payments and the amounts paid or payable for supplies or services accepted will give effect to the price reduction. In this situation, the retroactive price reduction means that too much has been paid or billed for deliveries, and that from those delivery billings too much has been applied as a reduction of the unliquidated progress payment balance. The necessary adjustments would be (a) recomputation of total cash delivery payments on the basis of the reduced billing price resulting from the retroactive price reduction, and repayment by the contractor of the difference between the total recomputed payments and the total cash delivery payments that had been made, and (b) increase of the unliquidated progress payment balance by the excess of the total amounts previously applied to reduce the unliquidated progress payment balance over the amounts that would have been applied to reduce the unliquidated progress payment balance if the reduced delivery prices had been in effect from the date from which the redetermination is applicable. This same principle of upward adjustment of the unliquidated progress payment balance is also applicable in connection with interim refunds made by contractors pursuant to the provisions of incentive and price redetermination contracts, and in connection with voluntary refunds on such contracts.

§ 163.92 Maximum unliquidated amount.

In all cases where the contract price is sufficient to cover all costs of complete performance, and liquidation of progress payments is effected in accordance with §§ 163.79–1(b) or 163.79–2(b), the amount of unliquidated progress payments will never exceed the maximum limit provided by §§ 163.79–1(a)(3)(i) or 163.79–2(a)(3)(i), unless liquidation percentages have been based on cost estimates that are less than actual costs. In such cases, if the contract involves a profit to the contractor, the actual unliquidated progress payment amount will always be less than the maximum limit stated in §§ 163.79(a)(3)(i) and 163.79–2(a)(3)(i) after the first delivery payment unless liquidation percentages have been based on cost estimates that are less than actual costs. So long as performance is satisfactory and there is no reason to believe that the contract

will involve a loss to the contractor or that a liquidation rate fixed pursuant to §§ 163.81–2 or 163.79–2(b) is too low, there will be no need or reason to verify the relationship of the amount of unliquidated progress payments to the maximum limit prescribed by §§ 163.79–1(a)(3)(i) and 163.79–2(a)(3)(i). However, when the rate or quality of performance is unsatisfactory, or the rate of rejections is unduly high, or there is excessive wastage or spoilage, or it appears that unduly low costs have been attributed by the contractor to delivered items, or a loss to the contractor is otherwise indicated, or that the liquidation rate is too low, careful examination should be made to determine whether or not the unliquidated progress payments exceed the maximum amount permitted by §§ 163.79–1(a)(3)(i) or 163.79–2(a)(3)(i). The services of the cognizant audit agency should be utilized to the fullest extent available, together with the services of qualified cost analysis and engineering personnel as required. See § 163.88, Section III, General Instructions, DD Form 1195; and § 163.93–6.

§ 163.92–1 Quarterly statements on price revision contracts.

Many price revision contracts now contain the payment limitation provisions required by Department of Defense Directive No. 4105.7 and substantially as set forth in §§ 7.108 and 7.109 of this chapter. Quarterly statements submitted by contractors pursuant to those contract provisions should be compared from time to time with the Contractor's Request for Progress Payments in order to assure so far as reasonably possible that costs attributed to delivered items on the quarterly statements are excluded from the costs set forth as the basis for unliquidated progress payments on the DD Form 1195 (or on other request forms so long as other forms are in use). If there is apparent disparity, request for completion of Section III of the DD Form 1195 (§ 163.88) would be appropriate.

§ 163.93 Suspension or reduction of payments; general.

In the process of reviewing individual progress payments already existing or hereafter established, action to reduce or slow down progress payments or to increase liquidation rates (unless justified on other grounds, such as overpayments or unsatisfactory performance) should be consistent with contract provisions, and never taken precipitately or arbitrarily. Any such reduction of progress payments on active contracts (other than normal liquidation pursuant to the contract) should be effected only after notice to and discussion with the contractor, and after full exploration of the contractor's financial condition, existing or available credit arrangements, projected cash requirements, effect of progress payment reduction on the contractor's operations, and generally on the equities of the particular situation. Where contract performance is satisfactory, and there is neither overpayment nor anticipated loss, proper progress payments, adequately verified, will be paid promptly when earned and billed in accordance with contract provisions, even though the terms of the particular contract may make the payment discretionary rather than mandatory, and such proper payments will not be held up or denied because of the contractor's lack of need for the payment. §§ 163.79–1(c) and 163.79–2(c) provide that progress payments may be suspended or their rate of liquidation may be increased, whenever any of the circumstances there described are found to exist. The rights reserved to the Government by those paragraphs are for the purpose of protecting the interests of the Government, fostering satisfactory contract performance, and guarding against overpayments and losses. Those paragraphs will be administered with these purposes in mind. Action taken pursuant to those paragraphs will be fair and reasonable under the circumstances of particular cases, and supported by substantial evidence. Findings made under those paragraphs will be in writing.

§ 163.93–1 Failure to comply with contract.

Except for the purpose of correcting overpayments or obtaining amounts due from the contractor, action will not be taken pursuant to §§ 163.79–1(c)(i) or 163.79–2(c)(i) for failure to comply with a requirement of the contract, if such failure has resulted solely from causes beyond the control and without the fault or negligence of the contractor. For examples of such causes, see paragraph (c) of the Default clause in § 8.707(c) of this chapter. Compliance with the material requirements of the contract, within the meaning of §§ 163.79–1(c)(i) and 163.79–2(c)(i) includes compliance with all provisions of the Progress Payment clause.

§ 163.93–2 Unsatisfactory financial condition.

If unsatisfactory financial condition, or failure to make progress, endangering contract performance, as described in §§ 163.79–1(c)(ii) or 163.79–2(2), is found to exist, arrangements reasonably assuring contract completion without loss to the Government will be required in connection with the making of further progress payments and the making of other payments so long as progress payments are unliquidated. Within the meaning of §§ 163.79–1(c)(ii) and 163.79–2(c)(2), performance of the contract includes full liquidation of progress payments. Further payments will be withheld so long as any progress payments remain unliquidated, only upon full consideration of all pertinent facts, and upon concluding that further payments will serve to increase the probable loss to the Government.

§ 163.93–3 Excessive inventory.

When inventory allocated to the contract is found substantially to exceed reasonable requirements (§§ 163.79–1(c)(iii) and 163.79–2(c)(3)), the simplest form of adjustment to correct or avoid overpayment will be to eliminate the costs of such excess inventory from the costs shown in item 7 of the contractor's request set out in § 163.88. If that is not regarded as sufficient in a particular case, or if the adjustment in item 7 of the request will not accomplish full correction, additional deductions, to the extent necessary for the correction, should be made, to liquidate progress payments, incident to billings for payments other than progress payments. Transfer of such excess inventory from the contract should also be required. The expression "reasonable requirements" includes a reasonable accumulation of inventory for future use to assure continuity of operations.

§ 163.93–4 Delinquency in payment of costs of performance.

The contractor's delinquency in payment of costs of contract performance in the ordinary course of business (§§ 163.79–1(c)(iv) or 163.79–2(c)(5)) may be an indication of unsatisfactory financial condition or other circumstances endangering contract performance and involving probability of loss to the Government. If such delinquency is not connected with poor financial condition that is so unsatisfactory as to endanger contract performance or to involve reasonably foreseeable loss to the Government, further progress payments and other payments will not necessarily be denied to protect the unliquidated progress payments and minimize risks of additional losses, and payments may be continued at the contract rate, or in reduced amounts, in connection with appropriate arrangements to (a) cure the contractor's delinquencies in payment of his costs of contract performance, (b) avoid further delinquencies, and (c) reasonably assure completion of the contract without loss to the Government. (See also, § 163.93–3.) Amounts claimed by subcontractors, suppliers and others, but disputed in good faith by the contractor, should not be considered delinquent until determined due by a court (or by arbitration if applicable). However, any such disputed amounts shall be excluded from costs of performances so long as they are disputed.

§ 163.93–5 Fair value of undelivered work.

In connection with determining the relation of the amount of unliquidated progress payments to the fair value of the work accomplished on the undelivered portion of the contract (§ 163.79–1(c)(v) or § 163.79–2(c)(vi)) the principles stated in § 163.92 are applicable. In determining action, if any, to be taken, the contracting officer (utilizing available audit, engineering, inspection, and cost analyst services) will give full consideration to the degree of completion of contract performance, the quality and amount of work performed on the undelivered portion of the contract, the amount of work remaining to be done and the estimated costs of completion of performance, and the amount remaining unpaid under the contract. If the contracting officer finds that the fair value of the work done under the undelivered portion of the contract, in relation to the contract price, is less than the unliquidated progress payments, his actions will be governed by the principles stated in §§ 163.93–2 and 163.93–4. This

fair value could not exceed the contract price of undelivered work under the contract, less the estimated total future costs of completion of the contract. When this fair value is found to be less than the amount of the unliquidated progress payments, all further payments on the contract will be controlled in such a manner as to hold the unliquidated progress payments within the fair value of the work done on the undelivered portion of the contract. See also § 163.94–1.

§ 163.93–6 Erroneous cost estimates.

When liquidation percentages (§§ 163.79–1(b) and 163.79–2(b)) lower than those called for by § 163.81–1 are established pursuant to § 163.81–2, it may occur that actual costs and future costs of performance are higher than the estimated costs used to establish liquidation rates. In such cases (§§ 163.79–1(c)(vi) and 163.79–2(c)(4)) appropriate increase of the liquidation percentage will be necessary to adjust for any under-liquidation that may have occurred, to bring the amount of unliquidated progress payments within the limits of §§ 163.79–1(a)(3) or 163.79–2(a)(3), and to assure the adequacy of future liquidations. Increase of the liquidation percentage will also become necessary even though § 163.81–2 has not been applied in fixing the liquidation percentage, when progress payments are based on costs of direct labor and material only (§ 163.79–2) or any limited cost base (§ 163.80–5), and actual costs forming the base for progress payments are higher than the estimated eligible costs used in establishing the liquidation percentage.

§ 163.94 Government titles.

Since the clauses in § 163.79 give the Government title to all of the materials, work in process, and finished goods under contracts after the making of progress payments thereon, care should be taken to assure, to the extent reasonably necessary, that the title to the Government will be free of all encumbrances. The procedure in this respect will necessarily vary with the particular circumstances of individual cases. Ordinarily, in the absence of reason to believe that the Government title may be subject to encumbrance, the contractor's certificate will be relied on. If any arrangements or conditions are found that would impair the contractor's right of disposition of the property affected by the progress payments, appropriate arrangements should be made to establish and protect the Government title. The existence of any such encumbrance is a violation of the contractor's obligations under the contract.

§ 163.94–1 Loss, theft, destruction, or damage.

Sections 163.79–1(e) and 163.79–2(e) are not intended to apply to normal spoilage. The risk of loss as to property affected by the progress payment clause is on the contractor, except to the extent that by some special provision of the contract (such as that relating to aircraft in the open) the Government shall have expressly assumed the risk of loss. Such express assumption of risk by the Government is not made in the Progress Payment clause, the Default clause, or the Termination clause. Because of problems of administering the contract, especially those connected with property responsibility and inventory control, the risk of loss on property to which the Government holds title because of progress payments must be on the contractor to the same extent that it would be if the contractor held title to the property. This risk of loss carries with it the accompanying duty to repay to the Government the amount of unliquidated progress payments based on cost allocable to lost, stolen or destroyed property or to the damaged portion of the property. If the Government has expressly assumed particular risks of loss, then, to the extent of such express assumption of risk by the Government, the contractor would not be obligated to repay to the Government the amount of unliquidated progress payments based on costs allocable to such lost, stolen, destroyed, or damaged property. See, however, §§ 163.79–1(c)(v) and 163.79–2(c)(6), as to future payments on the contract after such loss, damage, theft, or destruction.

§ 163.94–2 Government-furnished property.

Contract provisions referring to or defining liability for Government-furnished property do not apply to property to which the Government shall have acquired title solely pursuant to the provisions of the Progress Payment clause (§§ 163.79–1(d) or 163.79–2(d). Property to which the Government has acquired title solely pursuant to the Progress Payment clause is not subject to appendixes B and C (§§ 30.2 and 30.3 of this chapter).

§ 163.94–3 Special tooling.

When the contractor furnishes special tooling, as defined in § 13.101–5, pursuant to a special tooling clause (e.g., § 13.504 of this chapter), and such special tooling is not to be delivered to the Government as an end item under the contract, the handling and disposition of such special tooling will be governed by the special tooling clause of the contract, even though title to such special tooling is held by the Government pursuant to the progress payment clause of the contract.

§ 163.94–4 Termination for convenience of the Government.

After the giving of notice of termination under contract provision for Termination for the Convenience of the Government, the property to which the Government has title pursuant to the Progress Payment clause and which is a part of termination inventory will be acquired or disposed of in accordance with the provisions of the termination clause of the contract and of applicable laws and regulations. The acquisition or disposition of such termination inventory shall be governed by the termination clause, even though title to all or a portion of such inventory is in the Government pursuant to the progress payment clause of the contract.

§ 163.94–5 Scrap; excess property.

(a) In the course of proper performance of contracts, contractors are permitted to sell or otherwise dispose of current production scrap in the ordinary course of business, notwithstanding the Government's title under the progress payment clause. Permission of the contracting officer for such disposal of scrap is not required. With the permission of the contracting officer and on terms approved by him, contractors may also acquire or dispose of materials, inventories, or work in process to which the Government has acquired title pursuant to the progress payment clause of the contract, including transfer of such property to other work of the contractor. Proceeds of scrap disposal will be credited against the costs of contract performance. Costs allocable to property, other than scrap, so transferred from the contract will be eliminated from the costs of contract performance, and the contractor shall be required to repay to the Government (by cash or credit memorandum) an amount equal to the unliquidated progress payments allocable to the property so transferred from the contract.

(b) When (1) the contractor has completed all work called for by the contract, and (2) such work has been delivered to and accepted by the Government, and (3) progress payments made under the contract have been fully liquidated, and (4) the contractor has fully performed all its obligations under the contract (including the making of any payments to which the Government may be entitled under the contract, and including compliance with any other provisions of the contract, such as the termination clause or the special tooling clause or the Government-furnished property clause), any excess property remaining is to be regarded as having not been allocated or properly chargeable to the contract under sound and generally accepted accounting principles and practices, and thus outside the scope of the progress payment clause which would have vested title in the Government. Accordingly, the contractor holds title to such excess property and may deal with it as he desires.

§ 163.95 Consideration for progress payments, awards.

When a progress payment clause is included at the inception of a contract, no separate consideration is charged for the Progress Payment clause, and there shall be no provision for interest or other specific charge for progress payments, or for a reduction in payments (other than any agreed discount for prompt payment) by reason of the making of progress payments. The worth of the Progress Payment clause to the contractor is expected to be reflected in one or both of (a) a bid or negotiated price that will be lower than such price would have been if provision had not been made for progress payments, or (b) contract terms and conditions, other than price, that are more beneficial to the Government than they would have been if provision had not been made for progress payments.

§ 163.96 Amendments to provide progress payments.

There should be ordinarily no occasion to amend contracts to provide for progress payments unless there has been material change from the circumstances contemplated by the parties when invitations for bids were issued or the contract was entered into without progress payment provision. However, cases do occur (a) in which the actual lead time or preparatory period between the beginning of work and the first delivery substantially exceeds the estimated lead time and in fact runs or will run over six months (§ 163.72), or (b) in which unusual circumstances bring about unexpected substantial accumulation of predelivery costs having material impact on the contractor's working funds (§ 163.74). These cases may arise from occurrences such as (1) uncertainties or errors in specifications, (2) contract change notices, (3) Government delays in testing, inspection, furnishing of material or equipment, furnishing of stock numbers, packaging or shipping instructions or shipping documents, or completion of contract supplements, (4) stretch-outs or stop-work orders, (5) performance difficulties of subcontractors or suppliers, and (6) causes beyond the control and without the fault or negligence of the contractor, of the kinds mentioned in § 8.707(c) of this chapter. In these kinds of cases, requests of contractors for amendments to provide progress payments should be considered promptly, in the light of the circumstances then existing. If the circumstances then existing approximate conditions under which progress payments would have been properly provided in conformity with this part at contract inception, if the new circumstances had been foreseen, progress payments should be provided by amendment. In this connection, see particularly §§ 163.15, 163.17, 163.18, 163.19, 163.20, 163.23, 163.23–1, and 163.97.

§ 163.97 Consideration for amendments providing for progress payments.

Contracts may not be modified except in the interest of the Government. Contracts which do not provide for progress payments may be amended (§ 82.85–5) to provide for progress payments only when the amendment provides new and valuable consideration moving to the Government. Appropriate price reduction may provide this consideration. In the varying circumstances of individual cases, the consideration for progress payments need not necessarily be monetary. Agreements by the contractor, incorporated in such an amendment, for the benefit of and substantially advantageous to the Government, may constitute sufficient consideration for an amendment providing for progress payments. When estimated financing costs have been included as an element (whether or not identified) in the contract price of a contract not providing for progress payments, it is fair to expect elimination of the applicable portion of that element of the price when progress payments are provided by amendment. The fair and reasonable consideration for the progress payment amendment should approximate in value as nearly as practically ascertainable the amount by which the contract price would have been smaller if a Progress Payment clause had been contained in the contract in the first instance. In the absence of definite information on this point, pertinent factors for estimating the fair and reasonable amount of consideration would include (a) the amounts of progress payments expected to be outstanding for estimated periods of time, (b) the cost of equivalent working funds to the contractor, and (c) the estimated profit rate expected to be earned by contract performance. If not accomplished by a contract price reduction, other concessions or agreements by the contractor, advantageous to the Government and incorporated in the amendment, may be fairly evaluated and accepted as being of value reasonably equivalent to a price reduction. This consideration should be such as is fair, equitable and reasonable in the light of the circumstances of each case. See § 163.96. This consideration should be for the progress payment amendment, and there shall be no provision for interest or other specific charge for progress payments, or for a reduction in payments after the progress payment amendment (other than any agreed discount for prompt payment) by reason of the making of progress payments.

PART 165—PAYMENTS ON INCENTIVE-TYPE AND PRICE REDETERMINATION-TYPE CONTRACTS

165.1 Purpose.
165.2 Policy and action.
165.3 Refunds and adjustments.
165.4 Contract administration.

AUTHORITY: §§ 165.1 to 165.4 issued under sec. 202, 61 Stat. 500, as amended, sec. 2202, 70A Stat. 120; 5 U.S.C. 171a, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 2381, 2383, 70A Stat. 127–133, 136, 137; 10 U. S. C. 2301–2314, 2381, 2383.

§ 165.1 Purpose.

It is the purpose of this part to assure payment of amounts fairly due for items delivered and accepted under incentive-type and price redetermination-type contracts, to reduce the need for refunds, by contractors under such contracts, to facilitate timely adjustment of provisional billing prices and prompt completion of final pricing under these types of contracts, and to reaffirm the policy on progress payments.

§ 165.2 Policy and action.

(a) To accomplish the purpose of this part, all new contracts of the incentive-type and price redetermination-type, all definitive contracts of the incentive- or price redetermination-type replacing or superseding letter contracts, all amendments providing an incentive- or price redetermination-clause in contracts not previously containing such a clause, and all amendments to contracts of the incentive- or price redetermination-type providing for new or additional procurement, entered into on or after July 1, 1956, shall contain one or the other of the provisions set out in subparagraphs 1 or 2 of this paragraph.

(1) Incentive-type contracts:

Notwithstanding any provision of this contract authorizing greater payment, adjustments and refunds shall be made if the total of all amounts billed and paid or payable under this contract for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) until final price revision has been made shall exceed the sum of the following items as reported by the Contractor from time to time as hereinafter provided; (1) the total contract price of all items delivered to (or services performed for) and accepted by the Government for which final prices have been established, and (2) the total amount of costs (estimated to the extent necessary) that have been reasonably incurred for and are properly allocable solely to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established, and (3) the total amount of the established target profit allocable by direct proportion to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established—increased or decreased in accordance with the incentive profit formula of this contract when the amount of costs stated in (2), above, differs from the applicable target costs. Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed for and accepted by the Government) under this contract, and as of the end of each quarter, the Contractor shall submit a statement setting forth the respective amounts of each of the three numbered items next above, together with the total amount of all billings for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) under this contract as of the end of each quarter. If on any quarterly statement these total billings exceed the sum of the three numbered items above, this gross excess less any applicable tax credit under Section 1481 of the Internal Revenue Code of 1954 shall, after deduction of the total refunds (cash or credit memoranda not including any tax credits under the Internal Revenue Code) theretofore made, be paid immediately by the Contractor to the Government or credited against existing unpaid billings covered by such statement; provided that if any portion of such gross excess (less all tax credits under the Internal Revenue Code) has been applied to the liquidation of progress payments, such amount may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payment clause of this contract, instead of making direct refund thereof.

(2) In price revision—or redetermination-type contracts, not of the incentive type:

Notwithstanding any provision of this contract authorizing greater payment, adjustments and refunds shall be made if the total of all amounts billed and paid or payable under this contract for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments), until final price revision has been made to the full extent permitted by this contract, shall exceed the sum of the following items as reported by the Contractor from time to time as hereinafter provided; (1) the total contract price of all items delivered to (or services performed for) and accepted by the Government for which final prices have been established, and (2) the total amount of costs (estimated to the extent necessary) that have been reasonably incurred for and are properly allocable solely to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established, and (3) the total amount of interim profit used in establishing the initial contract price and allocable by direct proportion to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established. Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed for and accepted by the Government) under this contract, and as of the end of each quarter, the Contractor shall submit a statement setting forth the respective amounts of each of the three numbered items next above, together with the total amount of all billings for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) under this contract as of the end of each quarter. If on any quarterly statement these total billings exceed the sum of the three numbered items above, this gross excess (less any applicable tax credit under Section 1481 of the Internal Revenue Code of 1954) shall, after deduction of the total refunds (cash or credit memoranda not including any tax credits under the Internal Revenue Code) theretofore made, be paid immediately by the Contractor to the Government or credited against existing unpaid billings covered by such statement; provided that if any portion of such gross excess (less all tax credits under the Internal Revenue Code) has been applied to the liquidation of progress payments, such amount may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payment clause of this contract, instead of making direct refund thereof. When, after submission by the Contractor of cost data and price-redetermination offer, the Contractor and the Contracting Officer (a) have agreed in writing upon revised billing prices in the light of the cost experience and anticipated future trend (and provided that such revised prices are not higher than the smallest of (i) the existing contract price, (ii) the Contractor's price-redetermination offer and (iii) a price based upon the most recent quarterly statement), and (b) the contractor agrees to promptly make the necessary adjustments to bring payments for past deliveries of items into alignment with the revised billing prices, and (c) so long as the Contractor bills at the agreed revised billing prices (or lower prices thereafter negotiated as final prices preliminary to confirmation by formal contract supplement), the prices so agreed upon or negotiated shall be deemed to be final prices for the purpose of this paragraph until final prices are established by supplement. For any quarter in which only the numbered (1), above, is applicable, the Contractor may furnish a written statement to that effect instead of the quarterly statement above required.

(b) In connection with amendments providing for new procurement, and amendments providing an incentive- or price redetermination-clause in contracts not previously containing such a clause, the above provisions shall be made applicable to the entire contract.

(c) Where the contracting officer has discretion to control payments through withholding provisions under an existing contract of the incentive- or price redetermination-type not containing the above provisions, the contract shall be administered hereafter, to the maximum extent permitted by such withholding provisions, so that on and after January 1, 1956, the total aggregate payments will be limited in the manner provided in paragraph (a) of this section.

(d) In the case of outstanding contracts of the incentive-type or price redetermination-type, where payments cannot be limited within a reasonable time as provided above, the contracting officer shall take prompt action to obtain by mutual agreement amendments of such contract incorporating the above provisions.

(e) Ordinarily, unless the contracting officer has good cause to doubt or question the accuracy of statements furnished in accordance with paragraph (a) of this section, such statements will be relied upon and prompt payments under the contract will continue to be made pending any post-audit or post-review that may be necessary to protect the interests of the Government.

§ 165.3 Refunds and adjustments.

(a) (1) It is essential in all cases that the amount of any indebtedness of contractors to the Government be ascertained promptly, and that the amount of each contractor's indebtedness to the Government be collected expeditiously.

(2) Government personnel will take prompt action so that amendments and supplemental agreements, where appropriate, will be prepared expeditiously and executed without delay.

(b) For use in expediting and controlling adjustments and refunds, current inventory and control lists shall be established and maintained with regard to all incentive-type and price redetermination-type contracts. Aggressive and continuing efforts shall be made to eliminate any unnecessary delays.

(c) All incentive-type and price redetermination-type contracts shall be reviewed systematically and periodically to obtain voluntary interim billing price adjustments and prompt refunds as appropriate. The making of voluntary refunds in anticipation of retroactive price reductions shall be systematically encouraged. No proposed voluntary refund shall be refused or delayed, and all such refunds shall be tendered and accepted without prejudice to final pricing. In connection with voluntary refunds, minimum refunds proposed by contractors in connection with final pricing proposals, and refunds incident to quarterly statements, contractors shall not be required to furnish concurrent itemization of adjustments to be made on past billings, nor to furnish adjusted bills concurrently. Such adjustments as may be essential in connection with refunds will be accomplished by appropriate Government personnel, with such information as may be essential from contractors after refunds are made, and the making, acceptance and deposit of refunds will not be delayed pending the making of any necessary accounting adjustments. When reductions in billing prices are proposed by contractors, they will be made effective immediately without prejudice to further adjustment, and billings voluntarily reduced by contractors shall if otherwise proper be paid at the reduced amounts without awaiting contract amendments.

§ 165.4 Contract administration.

(a) The contracting officer will exercise every effort to bring about prompt redetermination of prices and setting of firm target prices by vigilant and timely attention to the contract administration aspects of each contract, and nothing contained herein will diminish his responsibilities.

(b) Section 1481 of the Internal Revenue Code of 1954 and Section 3806 of the Internal Revenue Code of 1939 provide for certain tax credits in connection with contract price refunds. The contract provisions set out in this part and in superseded Part 84 (32 CFR, 1955 Supp.) do not alter the effect of those statutory provisions. Contracts containing either one of the provisions set out in § 84.3 (a) of superseded Part 84 (32 CFR, 1955 Supp.) shall be administered in such manner as to allow this statutory tax credit whenever applicable under the circumstances. Whenever there is a "gross excess" under those contract provisions, the amount of such tax credit shall be allowed in partial settlement of the gross excess determined without reference to such tax credit, and only the remainder of the excess after such tax credit allowance shall be subject to refund by the Contractor. Also, applicable previous tax credits shall be excluded in computing refunds previously made, and the amount of tax credits shall be deducted from the "gross excess" in computing the amount that may be added or restored to the unliquidated progress payment amount.

(c) It was intended by superseded Part 84 (32 CFR, 1955 Supp.) that subject to the quarterly adjustment required by the contract provisions set out therein, payments at contract billing prices would be made before submission of the first required quarterly statement, and thereafter during the intervals between quarterly statements. Hence, contracts containing the provisions required by superseded Part 84 (32 CFR, 1955 Supp.) will be administered in the same manner as if they contained the first sentence of the contract provisions set out above.

PART 167—UNIFORM NEGOTIATION FOR REIMBURSEMENT OF INDEPENDENT RESEARCH AND DEVELOPMENT COSTS

Sec.
167.1 Purpose.
167.2 Background.
167.3 Establishment of the Armed Services Research Specialists Committee.
167.4 Single assignment for joint negotiation of research and development costs.
167.5 Procedures.

AUTHORITY: §§ 167.1 to 167.5 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202.

§ 167.1 Purpose.

The purpose of this Part 167 is to (a) provide a method for the joint negotiation of reasonable and uniform cost allowance of independent research and development expense of certain contractors performing work for more than one military department; (b) establish the Armed Services Research Specialists Committee which will, when requested by the sponsoring military department, review and assure that contractors have made a proper segregation between their independent research and their independent development programs and which will report to the sponsoring military department the determinations of the Committee concerning the scientific and technical factors which influence the extent to which such programs should be supported; and (c) provide for the assignment of responsibility to a single military department to act as the sponsoring department in the conduct of joint negotiations on the allowability of such contractor's independent research and development costs.

§ 167.2 Background.

(a) Section 15.107 of Subchapter A of this Title 32 (Rev. 2 November 1959) provides for "advance understandings on particular cost items," including "research and development," particularly those aspects relating to "reasonableness and allocability." Specifically, it provides in pertinent part:

In order to avoid possible subsequent disallowance or dispute based on unreasonableness or nonallocability, it is important that prospective contractors, particularly those whose work is predominantly or substantially with the Government, seek agreement with the Government in advance of the incurrence of special or unusual costs in categories where reasonableness or allocability are difficult to determine. Such agreement may also be initiated by contracting officers individually, or jointly, for all defense work of the contractor, as appropriate.

(b) Section 15.205–35 of Subchapter A of this Title 32 (Rev. 2 November 1959) covers allowability of "Research and Development" Costs, and includes:

(h) The reasonableness of expenditures for independent research and development should be determined in light of all pertinent considerations such as previous contractor research and development activity, cost of past programs and changes in science and technology. Such expenditures should be pursuant to a broad planned program, which is reasonable in scope and well managed. Such expenditures (especially for development) should be scrutinized with great care in connection with contractors whose work is predominantly or substantially with the Government. Advance agreements as described in § 15.107 of Subchapter A, Title 32 are particularly important in this situation. In recognition that cost sharing of the contractor's independent research and development program may provide motivation for more efficient accomplishment of such program, it is desirable in some cases that the Government bear less than an allocable share of the total cost of the program. Under these circumstances, the following are among the approaches which may be used as the basis for agreement: (i) review of the contractor's proposed independent research and development program and agreement to accept the allocable costs of specific projects; (ii) agreement on a maximum dollar limitation of costs, an allocable portion of which will be accepted by the Government; (iii) an agreement to accept the allocable share of a percentage of the contractor's planned research and development program.

§ 167.3 Establishment of the Armed Services Research Specialists Committee.

(a) An Armed Services Research Specialists Committee is hereby established to review, when requested by the negotiator representing the sponsoring department, the independent research and development programs of defense contractors and to determine whether there has been an adequate segregation between the independent research and independent development programs of such contractors who are doing business with more than one department and who seek to recover the costs of such research and development programs in procurements of the Department of Defense. In carrying out its responsibilities, the Committee will utilize, where appropriate, the services of other research specialists. The Committee shall report and make recommendations directly to the sponsoring department on the scientific and technical factors affecting the basis or extent to which such programs should be supported.

(b) The Committee shall consist of the following:

Office of Secretary of Defense: A designee of the Director of Defense Research and Engineering.

Department of the Army: A designee of the Chief of Research and Development.

Department of the Navy: A designee of the Chief of Naval Research.

Department of the Air Force: A designee of the Commander, Air Research and Development Command.

(c) The designee of the Director of Defense Research and Engineering shall serve as the Chairman of the Committee. The Committee shall be responsible to the Director of Defense Research and Engineering through its Chairman.

(d) When the negotiator has determined that independent research and development program of a contractor warrants review, the Committee shall review such programs to assure that development work is not classified as "research". The Committee shall report to the sponsoring department its findings and recommendations concerning the scientific factors considered to affect the basis or extent to which such research and such independent development relating to procurement within the product line of the contractor, should be supported by the Department of Defense. Where a contractor's normal course of business does not involve production work, the recommendation shall relate to the development work falling within the contractor's field of effort of Government research and development contracts.

§ 167.4 Single assignment for joint negotiation of research and development costs.

(a) The military departments shall agree to and designate a single department (herein called the sponsoring department) to conduct negotiations with the contractor on the allowability of independent research and development costs in all cases where such costs are substantial in amount, a substantial portion of the contractor's business is with the Department of Defense, and the contractor's defense work involves contracts with more than one military department.

(b) The criteria for selection of the sponsoring department shall generally be the service having the preponderant work; cognizant plant assignments; or any other existing relationships which may have bearing on such selection. However, an equitable division of the work among the departments is the desired goal.

§ 167.5 Procedures.

(a) Contractors doing business with more than one department and seeking reimbursement for independent research and development expense may be required to submit copies of a brochure describing each research and development project and indicating the amount of money budgeted for each project. Normally, the brochure will be submitted to the sponsoring department before the beginning of the contractor's fiscal year in which the cost is to be incurred, or at least within the first 90 days of such fiscal year.

(b) The Armed Services Research Specialists Committee will, when requested, review the brochures to assure that there is adequate segregation between research and development. The Committee will then recommend to the negotiator of the sponsoring department the extent to which it is reasonable to support such programs.

(c) The sponsoring department will establish a time and place, if necessary, for the conduct of the negotiations with the contractor. Other procuring activities having contracts with the contractor will be advised of the pending negotiations and invited to participate. If such procuring activities do not have representatives at the negotiation, they will be deemed to have waived participation. The results of the negotiation will, in any event, be binding upon each department having contracts with the contractor.

(d) In the event that the above procedures have not been effectuated prior to the incurring of costs by the contractor for an independent research and development program, such procedures are available and are to be used in a later review.

SUBCHAPTER F—TRANSPORTATION

PART 171—POLICY GOVERNING TRANSPORTATION AND ACCOMMODATIONS OF MILITARY PERSONNEL AND THEIR DEPENDENTS, CIVILIAN EMPLOYEES AND THEIR DEPENDENTS, WHEN TRAVELING VIA COMMERCIAL, GOVERNMENT OR PRIVATE TRANSPORTATION

Sec.
171.1 Purpose.
171.2 Scope and applicability.
171.3 Air transportation.
171.4 Land transportation.
171.5 Sea transportation.

AUTHORITY: § § 171.1 to 171.5 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 171.1 Purpose.

To establish a uniform Department of Defense policy governing transportation and accommodations, as set forth in §§ 171.3 to 171.5, for military personnel, their dependents, civilian employees and their dependents when traveling via commercial, government or private transportation within, to, from, or outside the continental United States at Government expense. Basic authority for the movement of military personnel and their dependents is contained in the Career Compensation Act of 1949 as amended (63 Stat. 813), implemented by the Joint Travel Regulations. Basic authority for movement of civilian employees and their dependents is contained in section 1 of the Administrative Expenses Act of 1946, as amended (60 Stat. 806), implemented by Standardized Government Travel Regulations promulgated by the Bureau of the Budget.

§ 171.2 Scope and applicability.

(a) *Commercial transportation.* (1) Commercial transportation service will be employed for the movement (within, to, from, or outside the United States) of personnel when such service is available or readily obtainable and satisfactorily capable of meeting military requirements, except as provided in paragraph (b) of this section.

(2) When it is determined that commercial transportation will be provided for travel to, from or outside the United States, aircraft and ships registered under the laws of the United States will be used unless the nonavailability of such aircraft or ships, or the exigencies of the mission, require the use of aircraft or ships registered under foreign flag (aircraft registered under laws of the United States and operated under certificates or permits held by foreign air carriers will be considered foreign flag carriers).

(b) *Government transportation.* Consistent with the chartered responsibilities of Military Sea Transportation Service and Military Air Transport Service to provide transportation service for all military agencies, the employment of commercial transportation to, from, between and within areas outside the United States shall not take precedence over the efficient and economic utilization of the military-owned transportation resources of Military Sea Transportation Service and Military Air Transport Service which have been approved by the Secretary of Defense as essential to national security.

(c) *Private transportation.* (1) Private transportation may be used for travel to be performed at personal expense on a reimbursable basis, by military personnel and their dependents within the continental United States or between the United States and Alaska, Canada (including the Province of Newfoundland), and Mexico, or

(2) When travel is authorized to be performed by privately owned conveyance by civilian employees and their dependents on a reimbursable basis.

(d) *Minimum standards.* Nothing herein will be construed as preventing passengers from accepting accommodations with less than stated minimum standards as shown in § § 171.3 to 171.5 when they meet the requirements of the Services and/or the traveler. Also, nothing in this part will be construed as preventing the Government from furnishing accommodations with less than stated minimum standards for military and civilian personnel when it has been determined by the Service concerned that exigencies of the service require use of such accommodations.

(e) *Civilian employees traveling at government expense.* Civilian employees will not be required to travel via any particular mode of transportation, commercial or military, when the travel order includes a specific statement excluding such mode of transportation. The official requesting the order shall be responsible for this statement after consideration of justification presented by the employee.

(f) *Selection of mode of transportation to be used.* All orders or other travel instructions which authorize a choice or determination between more than one mode of travel will be interpreted by the transportation officers in accordance with these instructions. In cases where two or more modes are available, the service (or transportation officers thereof) sponsoring the travel will determine the mode to be used, giving due consideration to all the facts in the case, including the desires of the traveler.

§ 171.3 Air transportation.

(a) *Commercial air transportation—*(1) *Use of scheduled air carrier within the continental United States.* (i) Individuals will be provided first-class air transportation, which is offered to the general public as first-class.

(ii) Persons traveling in a group travel status of 3-to-14 will be provided coach class or tourist air accommodations when available and the service and schedule meets the requirements. If coach class or tourist air accommodations are not available first-class accommodations will be provided.

(iii) Persons traveling in groups of 15 or more will be provided transportation via scheduled air carriers meeting the standards of service required in Part 184 of this subchapter. Arrangements for the movement of 15 or more persons will be made by the appropriate headquarters designated by the military service concerned.

(2) *Use of scheduled air carriers to and from and outside the continental United States.* (i) Military and civilian personnel traveling in an individual status or in groups of 14 or less will normally be provided first-class air transportation.

(ii) Persons traveling in groups of 15 or more will be provided accommodations in accordance with the standards of service set forth in Part 184 of this subchapter. Arrangements for the movement of 15 or more persons will be made by the appropriate headquarters designated by the military service concerned.

(3) *Use of sleeper-type aircraft, within, to and from and outside the continental United States.* (i) When the use of sleeping accommodations are necessary for the successful accomplishment of the mission, the travel orders will include such authorizations.

(ii) When sleeping accommodations are authorized, sleeping accommodations of the lowest rate in effect on the aircraft to be utilized will be furnished. If, at the time reservations are made, sleeping accommodations of the lowest rate are not available, sleeping accommodations of the lowest rates which are available will be furnished.

(4) *Use of supplemental carriers.* (i) Services provided by Supplemental Air Carriers are considered coach-type air transportation and do not constitute first-class accommodations. Supplemental Air Carriers may be considered for individual or group travel of 14 or less persons subject to the following conditions:

(*a*) The schedule of the proposed flight is satisfactory and will assure arrival to meet requirements of the travel orders.

(*b*) Accommodations on the aircraft to be used are considered comparable to recognized standards of coach-type service with respect to comfort and sanitation, and

(c) Use of such supplemental air carriers otherwise meets military requirements and is acceptable to personnel in an individual travel status.

(ii) Person traveling in groups of 15 or more within the Continental United States will be provided accommodations meeting as near as possible the standards of the Joint Military Passenger Agreements with the Air Carrier Associations.

(iii) Persons traveling in groups of 15 or more to, from, and outside the Continental United States will be provided accommodations in accordance with the standards set forth in Part 209 of this subchapter.

(5) *Use of Supplemental Air Carriers, to, from, and outside the United States.* The services of Supplemental Air Carriers may be considered for group travel of 15 or more. The accommodations provided will be in accordance with the standards set forth in Part 209 of this subchapter.

(b) *Government air transportation within, to and from, and outside the United States—*(1) *Use of Government air transportation.* Government air

transportation includes all government-owned, leased, contract or charter aircraft operated by or for one or more of the Military Services.

(i) *Government-owned aircraft.* An aircraft owned by the United States government and operated by the Department of Defense.

(ii) *Government-chartered or Government-contract aircraft.* An aircraft hired from a commercial source for the exclusive use of the Government for one or more flights.

(2) *Accommodations.* (i) As a general rule, transport type aircraft operating on scheduled or semi-scheduled service with troop seats and safety devices is considered adequate, with the following exceptions:

(*a*) When military or civilian personnel are accompanied by dependents.

(*b*) When individuals are of General or Flag rank, or equivalent civilian status.

(ii) Female passengers and dependents with or without accompanying sponsor will be provided air transportation on scheduled aircraft equipped with upholstered seats and enclosed toilet facilities. Should dependents refuse this accommodation, surface transportation will be provided for such persons. Under such conditions a refusal by the dependent to travel by air, when the exigencies of the service dictate that the principal travel by air, may also be considered as waiving the provisions for nonseparation of families.

(iii) Officers of General or Flag rank or civilians of equivalent status, as shown in table of military-civilian relationships contained in Department of Defense Instruction on "Issuance of Identity Cards Required by the Geneva Convention," will be provided air transportation on aircraft equipped with upholstered seats.

(3) *Minimum standards.* On aircraft equipped to carry General or Flag officers or civilians of equivalent status and/or female passengers, dependents and accompanying sponsor, the following minimum standards are established:

(i) Suitable meals will be available for all passengers.

(ii) A reasonable supply of wash water and potable water shall be aboard the aircraft.

(iii) The configuration of seating arrangements shall be similar to that provided aboard flights of the commercial, passengers, scheduled type operations and the seat spacing shall not be less than the average aircoach space provided by scheduled commercial service.

(iv) Suitable facilities for heating food (formulae) for infants will be available.

(v) Seating arrangements shall be provided on a basis of one seat for each individual, including infants.

(vi) Pressurized cabin aircraft will normally be provided for trans-ocean travel.

§ 171.4 Land transportation.

(a) *Definitions.* For the purpose of this section the following definitions are applicable:

(1) *Individual travel.* Travel of all persons under orders which are not specifically designated "group travel order."

(2) *Group travel.* Three (3) or more military personnel traveling in a group from the same point of origin to the same destination under one order which is specifically designated "group travel order."

(3) *First-class transportation.* Transportation, exclusive of extra fare trains, which is offered to the general public as first-class.

(4) *Lowest first-class accommodations.* Except as hereinafter specifically provided, a lower standard berth shall be considered the lowest first-class rail accommodation for night travel in CONUS.

(5) *Coach-class.* A type of transportation, not affording sleeping facilities, offered by the rail carriers in the CONUS to the general public at a lesser rate and which is normally used for short journeys or day-time travel.

(6) *Bus transportation.* A transportation service, offered to the general public by commercial bus carriers, which is normally used for daytime travel when an entire journey can be completed between the hours of 0600 and 2400 of the same day.

(7) *Night travel.* Any journey which involves travel of four (4) or more hours between the hours of 10:00 p. m. and 6:00 a. m. This definition does not preclude the use of sleeping car service operated between points involving actual running time of less than four (4) hours between the hours specified but allowing occupancy privileges of more than four (4) hours.

(8) *Day travel.* Normally a journey completed from origin to destination between the hours of approximately 6:00 a. m. and 12:00 midnight, including any other journeys not specifically defined as "night travel."

(9) *Member.* Wherever the words "member" or "members" are used in this part, they mean member of the Armed Forces.

(b) *Accommodations.* (1) Members and civilian employees (other than those persons listed in subparagraphs (2), (3), (4) and (5) of this paragraph, including cadets, midshipmen, newly enlisted members traveling from place of enlistment or induction to first duty station, members on temporary disability retired list required to submit to periodic physical examination, members of reserve components upon call to active duty for training and upon relief therefrom, members of Reserve Officers Training Corps when authorized to be furnished transportation to a training camp, and aviation cadets are entitled to:

(i) *For individual travel*—(a) *Day travel by rail.* First-class transportation with one seat in a parlor-car, or sleeping car or lounge car, if available, otherwise to coach-class except as limited by Standardized Government Travel Regulations in the case of civilian employees.

(*b*) *Day travel by bus.* Commercial bus transportation which normally can be completed between the hours of 6:00 a. m. and 12:00 midnight.

(*c*) *Night travel by rail in CONUS, Canada and Mexico.* For journeys, involving one or more nights enroute, first-class transportation and one lower standard berth will be furnished for that portion of the journey where sleeping accommodations are available.

(*d*) *Night travel by rail outside CONUS, Canada and Mexico.* Persons traveling as individuals will be transported in accordance with directives of the oversea commander of the area in which travel is performed.

(ii) *For group travel*—(*a*) *Day travel by rail or bus.* Either rail coach-class transportation or commercial bus transportation, whichever is more advantageous to the Government by reason of the nature of the travel, or service, economy, and sound traffic judgment.

(*b*) *Night travel by rail in CONUS, Canada and Mexico.* For journeys, involving one or more nights enroute; first-class rail transportation, and sleeping accommodations in standard sleeping-cars of the regular section type for the entire journey unless only coach-class accommodations are operated at the beginning or end of the journey. Berth accommodations will be furnished on the basis of sections, two (2) members to a section, that is, equal number of lower and upper berths, but lower berths in sections to extent upper berths are not available in sections, plus lower berth for odd number members, if any. When movement is in special cars containing drawing rooms, the drawing room will be used as a section (one lower and one upper berth), except that the sofa in the drawing room will be used if the use thereof will obviate the operation of an additional sleeping car, the sofa to be used on the basis of one additional lower berth. Whenever special standard sleeping car(s) cannot be made available by the carriers within a reasonable time, accommodations will be furnished, on the same basis as above, in special tourist sleeping car(s).

(*c*) *Night travel by rail outside CONUS, Canada and Mexico.* Persons traveling as groups will be transported in accordance with directives of the oversea commander of the area in which travel is performed.

(2) Members discharged on account of fraudulent enlistment, applicants and rejected applicants for enlistment, registrants and rejected registrants, applicants for flying training, members discharged under other than honorable conditions, and discharged and/or paroled prisoners are entitled to:

(i) *Day travel.* Rail coach-class accommodations or bus transportation, whichever is more advantageous by reason of service and/or economy and sound traffic judgment.

(ii) *Night travel by rail in CONUS, Canada and Mexico.* First-class transportation with one upper standard berth, lower standard berth in sections to be furnished to extent upper berths in sections are not available.

(iii) *Night travel by rail outside CONUS, Canada and Mexico.* Will be furnished transportation as prescribed by the appropriate area commander.

(3) Military prisoners with guards.

(i) *Scope.* When it is determined that commercial transportation be utilized for the movement of prisoners under guard, it is considered desirable that such movement be accomplished in a manner which will permit the least possible contact with the general public. Considering appearance and safety, preventing other passengers from becoming apprehensive, or because of the physical condition of the prisoners, movements will be made in enclosed accommodations, when available, or in special car or chartered equipment. Appropriate certification will be contained in the travel orders for the use of enclosed accommodations.

(ii) *Groups of fourteen or less persons*—(*a*) *General.* Groups of fourteen or less persons will normally be moved in regular equipment of the commercial rail carriers. When rail transportation is not available or circumstances preclude its use, regular equipment of the other commercial modes of transportation may be used provided advance arrangements are made with the carrier concerned to accept prisoners.

(*b*) *Day travel.* First class rail transportation and enclosed accommodations in parlor car or standard sleeping car will be furnished the entire journey or for that portion of the journey over which enclosed accommodations are available. When enclosed accommodations are not available, the use of coach-class rail transportation is authorized.

(*c*) *Night travel.* Through first-class rail transportation and enclosed standard sleeping car accommodations, when available, for journeys involving one or more nights enroute. When enclosed accommodations are not available, open accommodations in standard sleeping cars of the section type are authorized.

(iii) *Groups of fifteen or more persons*—(*a*) *General.* Groups of fifteen or more persons will normally be moved in special car or chartered equipment. Arrangements for such movements will be in accordance with the special regulations of the several military agencies.

(*b*) *Day travel.* For rail movements, special coaches insuring exclusive occupancy will be provided under the provisions of the Joint Military Passenger Agreement with the rail carriers. Movements by other commercial carriers will be made in chartered equipment.

(*c*) *Night travel.* For rail movements, first-class transportation and special standard sleeping cars of the regular section type insuring exclusive occupancy will be provided for journeys of one or more nights enroute. Movements by other commercial carriers will be made in chartered equipment.

(iv) *Government-owned prison cars.* The provisions of subdivisions (ii) and (iii) of this subparagraph do not preclude the use of Government-owned prison cars, when available.

(4) Absentees, stragglers, deserters, members on authorized leave without funds, and any member who loses his transportation while in travel status or who becomes separated from remainder of his party who are in travel status will be furnished the same class of transportation and accommodations as furnished members under subparagraph (1) (i) of this paragraph, except that, when not traveling under guard, they may, if they so desire, be furnished a cheaper class of transportation.

(5) Patients.

(i) *Individual travel*—(*a*) *Day travel, rail.* Will be furnished the same class of transportation and accommodations as furnished under subparagraph (1) (i) (*a*) of this paragraph, except that when the physical condition of a patient requires berth accommodations the responsible medical officer may authorize furnishing a lower standard berth for day travel by certification on the travel orders. (See (*c*) of this subdivision.)

(*b*) *Night travel, rail.* Will be furnished the same class of transportation and accommodations as furnished under subparagraph (1) (i) (*b*) of this paragraph. (See (*c*) of this subdivision.)

(*c*) *Special accommodations.* Whenever it is determined that the type of accommodations provided in (*a*) and (*b*) of this subdivision are not satisfactory due to the condition of the patient, the medical officer may authorize the use of room accommodations for the patient and attendants, if any, by appropriate certification on the travel orders.

(ii) *Group travel*—(*a*) *Day travel, rail.* When the physical condition of the patients warrants the use of seats and daylight schedules are available and adequate, first-class rail transportation and a seat for each patient and attendant will be furnished in a parlor car or standard sleeping car. Where the condition of a patient(s) requires berth accommodations the responsible medical officer, by certification on travel orders, may authorize furnishing a lower berth for each such patient for day travel (See (*c*) of this subdivision.)

(*b*) *Night travel.* Patients will be furnished one lower berth or one upper berth each, whichever may be determined by the responsible medical officer, in standard sleeping cars of the regular section type. Attendants will be furnished berth accommodation in the same car with patients. (See (*c*) of this subdivision.)

(*c*) *Exclusive accommodations.* Whenever the responsible medical officer determines that a patient or a group of patients require exclusive accommodations, the provisions of subdivision (i) (*b*) of this subparagraph will apply.

(*c*) *Use of enclosed accommodations for purposes of security.* Whenever it is determined that enclosed accommodations are required for the purposes of security, the head of the military department concerned or such subordinates as he may designate, may authorize or approve the use of a compartment or other enclosed accommodations including any additional transportation required under the tariffs of the carriers for the exclusive occupancy of such accommodations.

(d) *Utilization of extra-fare trains.* An extra fare train will not be utilized for travel unless the authority directing the travel has determined that its use is in the best interest of the Government and the use thereof is authorized in travel orders.

(e) *Dependent travel.* Dependents of members and civilian employees whose transportation is authorized are entitled to:

(1) *For day travel.* First-class rail transportation when available, with a seat in a parlor car or sleeping car on the basis of one individual seat for each dependent, except as limited by Standardized Government Travel Regulations in the case of dependents of civilian employees.

(2) *For Night Travel in CONUS, Canada and Mexico.* First-class rail transportation with sleeping accommodations in a standard sleeping-car on the following basis:

(i) Authorized dependents will be classified into the maximum number of "pairs" and the minimum number of "individuals" and furnished accommodations at the lowest possible cost to the Government. Pairs are defined as follows:

(*a*) Two dependents under 5 years of age, regardless of sex.

(*b*) Two dependents, same sex, under 12 years of age.

(*c*) Wife and one child, either sex, if child is less than 5 years of age.

(ii) *Individuals.* "Individuals" are defined as dependents (other than a dependent father or mother) who cannot be paired because one of them is 12 years of age or over, except for the wife as indicated in subdivision (i) (*c*) of this subparagraph, or the individuals are of opposite sex and one or both are 5 years of age or over.

(iii) *Dependent wife, father or mother.* Authorized accommodations for a dependent wife, except as indicated in subdivision (i) (*c*) of this subparagraph, or a dependent father or mother, are one lower berth each.

(iv) Except as indicated in subdivision (iii) of this subparagraph, authorized accommodations for dependents shall be determined in accordance with the following table. For this purpose, an upper berth shall never be considered adequate for occupancy by two persons regardless of age: [1]

Dependent	Lower berth	Upper berth
1 individual (no other dependents)	1	-------
2 individuals not capable of being paired	1	1
3 individuals not capable of being paired	2	1
4 individuals not capable of being paired	2	2
1 pair	1	-------
1 pair and 1 other individual	1	1
1 pair and 2 other individuals	2	1
1 pair and 3 other individuals	2	2
1 pair and 4 other individuals	3	2
2 pairs	2	-------
2 pairs and 1 other individual	2	1
2 pairs and 2 other individuals	2	2
2 pairs and 3 other individuals	3	2
2 pairs and 4 other individuals	3	3
3 pairs	3	-------
Each additional individual not scheduled above	-------	1
Each additional pair not scheduled above	1	-------

[1] As a bedroom can be obtained on one adult railroad ticket, such accommodations will be furnished when available in lieu of berth space when otherwise it would be necessary to furnish a half-fare railroad ticket for a child under 5 years of age to obtain an upper berth.

(3) *For night travel outside continental United States, Canada and Mexico.* Dependents will be transported in accordance with directives of the oversea commander of the area in which the travel is performed.

§ 171.5 Sea transportation.

(a) *Commercial water transportation (not procured en-bloc)*—(1) *Selection of steamship line.* When travel at Government expense is authorized in commercial ships, it is mandatory that such travel be performed on ships registered under the laws of the United States unless the nonavailability of such ships or the necessity of the mission requires the use of a ship registered under foreign flag. Any determination of the need for utilizing a foreign flag ship is under the express provision of section 901 of the Merchant Marine Act of 1936 (49 Stat. 2015, Ch. 858, Title IX). When the time permits, a description of the circumstances should be submitted to the Comptroller General for advance decision prior to procuring transportation in a foreign flag ship. When two or more steamship lines operate ships registered under the laws of the United States between competitive points, consideration will be given to the possibility of dividing passenger business among such competing lines, taking into consideration the proximity and accessibility of ports of embarkation and debarkation to the original starting point and destination, with a view to selecting the steamship line which will meet requirements and provide satisfactory service at the least cost to the Government.

(i) *Classes of accommodations.* Passenger ships provide various classes of accommodations designated first-class, cabin-class, second-class, tourist-class, and third-class. On ships providing only one class of accommodations, such accommodations are normally referred to as first-class or cabin-class. On ships providing two or more classes of accommodations, the class next below first-class whether designated second-class, cabin-class, or tourist-class will be considered as second-class accommodations. Accommodations next below second-class are usually designated third-class or tourist-class accommodations.

(2) *Authorized accommodations for individuals*—(i) *Individual defined.* For the purpose of this part, an individual, excluding categories shown in the Joint Travel Regulations, Chapter 5, Parts B, C, and G, but including those shown in Parts A and F, is defined as a member or civilian employee traveling under one order, or dependents without regard to the number.

(ii) *Authorized accommodations.* (a) Members, including categories shown in the Joint Travel Regulations, Chapter 5, Parts A and F, and civilian employees, are entitled to lowest first-class rate accommodations when traveling as individuals. When lowest first-class rate accommodations are not available at the time reservations are made, such persons will be entitled to the lowest first-class rate accommodations available by the facility authorized to be used. When no first-class rate accommodations are available, such persons will be provided the next lowest class accommodations, if available.

(*b*) Dependents are entitled to lowest first-class rate accommodations. When dependents accompany the sponsor or for administrative but not personal reasons they travel at a later date, they are entitled to the lowest first-class rate accommodations available by the facility authorized to be used at the time reservations are made. If delay in travel is for personal reasons, the cost of accommodations in excess of the lowest first-class rate accommodations will not be authorized at Government expense.

(iii) *Authorized accommodations for groups*—(*a*) *Group defined.* For the purpose of this part, a group is defined as a movement of three or more military personnel from the same point of origin to the same destination under one order which is specifically designated as "group travel order." The accommodations authorized for group travel will be equally applicable for categories shown in the Joint Travel Regulations, Chapter 5, Parts B, C, and G, without regard to the number traveling.

(*b*) *Authorized accommodations.* (*1*) Officers and Warrant Officers or civilian employees of equivalent status traveling in a group travel status are entitled to the lowest first-class accommodations available.

(2) Enlisted members or civilian employees of equivalent status traveling in a group travel status are entitled to lowest second-class rate accommodations available at the time reservations are made. When second-class rate accommodations are not available at the time reservations are made, such persons are entitled to the lowest first-class rate accommodations available by the facility authorized to be used. When neither first or second-class accommodations are available, accommodations in third-class or tourist-class (when designated as a class below second-class) will not be used without the specific approval of the appropriate authority in the headquarters of the Military Department concerned.

(iv) *Exclusive use of stateroom for security purposes.* The exclusive occupancy of a stateroom is authorized for security purposes in the transportation of classified documents or Government property, provided specific authority for the exclusive use of a stateroom is contained in the travel orders. The lowest first-class rate stateroom available, which meets the military requirements, will be furnished.

(b) *Commercial water transportation (procured en-bloc by a military agency).* First-class accommodations in commercial ships procured en-bloc on a lease or charter basis are considered to be Government transportation. Second-class, cabin-class, or tourist-class accommodations, when so designated to indicate the class of accommodations next below first-class, similarly procured, are also considered to be Government transportation.

(c) *Military Sea Transportation Service*—(1) *Classes of accommodations.* Ships of the Military Sea Transportation Service provide two classes of accommodations designated cabin-class and troop-class. Cabin-class accommodations in ships of the Military Sea Transportation Service will be considered the equivalent of first-class accommodations in commercial ships. Troop-class accommodations in ships of the Military Sea Transportation Service are primarily designated for military purposes and have no comparable class in commercial ships.

(2) *Authorized accommodations*—(i) *Members and civilian employees.* Male officers, male civilian employees of equivalent status, as shown in table of military-civilian relationships contained in Department of Defense Instruction 1000.1, "Issuance of Identity Cards Required by the Geneva Conventions", female officer members, female enlisted members and female civilian employees are entitled to cabin-class accommodations. Male enlisted members entitled to transportation of dependents at Government expense and male civilian employees of equivalent status when traveling with dependents are entitled to cabin-class accommodations and when traveling without dependents are entitled to troop-class accommodations except that cabin-class accommodations may be furnished provided such assignments can be made without displacing other persons entitled to cabin-class accommodations. Male enlisted members not entitled to transportation of dependents at Government expense and male civilian employees of equivalent status are entitled to troop-class accommodations except that when traveling with dependents cabin-class accommodations may be furnished provided such assignments can be made without displacing other persons entitled to cabin-class accommodations.

(ii) *Dependents.* Dependents of members and civilian employees are entitled to cabin-class accommodations in dependent-carrying troopships.

(iii) *Special categories of Uniformed Personnel.* Midshipmen and cadets of the Service academies are entitled to cabin-class accommodations in dependent-carrying troopships and in austerity troopships.

PART 175—TRANSPORTATION BY MILITARY AIR TRANSPORT SERVICE

Sec.

175.1 Purpose and scope.
175.2 Definitions.
175.3 Uniform.
175.4 Responsibilities.
175.5 Policy.
175.6 Categories.
175.7 Additional authorization.
175.8 Revenue traffic charges.
175.9 Air movement designator requirements.
175.10 Special requirements.
175.11 Baggage allowances.
175.12 Diversion to commercial carriers.

AUTHORITY: §§ 175.1 to 175.12 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 175.1 Purpose and scope.

This part prescribes the responsibilities and policies for the movement of traffic on scheduled Military Air Transport Service aircraft. It applies to all agencies utilizing or controlling space on Military Air Transport Service aircraft.

§ 175.2 Definitions.

(a) *Traffic.* Cargo, mail, passengers, and passengers' baggage.

(b) *Revenue traffic.* Traffic for which reimbursement to, or accounting by, the Department of Defense is required.

(c) *Nonrevenue traffic.* Traffic transported in the primary or official interest of the Department of Defense.

(d) *Baggage.* All equipment, clothing, except one overcoat or raincoat, and items of any other kind carried by or accompanying a passenger and not documented as cargo.

(e) *Air movement designator.* A combination of code letters and numbers assigned by the issuing agency as a medium of identification and for the establishment of precedence of movement of traffic.

(f) *Military Air Transport Service aircraft.* As used in this part, only those aircraft of the Military Air Transport Service organization operated for the purpose of performing transport functions (excludes subordinate nontransport services of Military Air Transport Service, such as Air Weather Service, Air Rescue Service, and so forth).

§ 175.3 Uniform.

Military personnel of the armed services will be in uniform when traveling on military aircraft unless civilian clothing is specifically authorized in competent orders.

§ 175.4 Responsibilities.

The Military Air Transport Service, under the command and direction of the Chief of Staff, United States Air Force, is responsible for air transportation for the Department of Defense as directed by the Secretary of Defense. The Director of Transportation, Headquarters, United States Air Force is responsible for monitoring traffic management aspects of the Military Air Transport Service.

§ 175.5 Policy.

In addition to the competent authorities of the Army, Navy, Air Force, Marine Corps, and Coast Guard listed in paragraph (a) of this section, certain orders issued by Canadian authorities will be honored for the purpose of providing military air transportation in accordance with specific directives governing reciprocal transportation between Canada and the United States. This eligibility listing is not to be construed as indicating the relative order of movement. The following is the only traffic authorized to be carried on transport aircraft operated by the Military Air Transport Service:

(a) That traffic which is directed or authorized by written orders issued by competent authorities of the Departments of the Army, the Navy, and the Air Force authorizing air transportation without reimbursement therefor when the traffic is primarily of official concern to the Department of Defense. The determination of whether traffic is primarily of official concern to the Department of Defense is a responsibility of the Secretaries of Defense, Army, Navy, or Air Force, or by delegation of authority to those agencies authorized to establish priority of movement via military air by current Departments of the Army, Navy, and Air Force directives. The priority of traffic movement shall be determined by the Department concerned in accordance with the classification of military necessity established by the individual Departments. Assigned air movement designator will be included in all orders, movement directives, or shipping documents for all traffic to or from the continental United States or between areas outside the continental United States.

(b) That traffic which is directed or authorized by competent authorities of the Departments of the Army, the Navy, or the Air Force, with reimbursement therefor, in accordance with the provisions of applicable law, when the traffic is of official concern to the executive departments or agencies, or to the legislative or judicial branches of the Government. Requests for transportation in this category should be directed to the Chief of Staff, United States Air Force, with procurement authority chargeable or a clear indication of the method by which reimbursement is to be accomplished.

(c) That traffic which is certified by the interested Department or agency as being in the national interest may be furnished air transportation to or from places outside the continental United States with reimbursement therefor. In cases covered by this section, it will be within the purview of the Secretaries of the Army, Navy, or Air Force to refuse to authorize the transportation if deemed advisable. As a matter of general policy, the aviation organizations of the armed services will not be placed in a position of competing with United States commercial air transportation.

§ 175.6 Categories.

Categories of traffic eligible for transportation via aircraft of the Military Air Transport Service will be limited to traffic moving under competent Army, Navy, or Air Force orders, or movement authorities directing or authorizing air transportation subject to the conditions set forth in paragraphs (a) through (e) of this section:

(a) *Personnel, space requirement, nonrevenue*—(1) *Category 1.* Military personnel of the Department of Defense, including United States Coast Guard, on active duty when traveling under competent permanent change of station, temporary duty, or emergency leave orders, including all foreign military personnel, sponsored by the Secretaries of Defense, Army, Navy, or Air Force.

(2) *Category 2.* Civilian employees of the Department of Defense when traveling under competent permanent change of station orders or properly executed transportation agreements, temporary duty, or emergency leave orders including all civilians specifically sponsored by the Secretaries of Defense, Army, Navy, or Air Force.

(3) *Category 3.* Civilian personnel of Government contractors and technical advisors to military authorities, when engaged in activities of the Department of Defense which require such air travel. Such transportation may be furnished when specified in the contract or determined to be in the best interest of the Department of Defense.

(4) *Category 4.* Members of Congress and other Federal officials when the travel is in the primary interest of the Department of Defense and when authorized by the Secretary of Defense or one of the military departments.

(5) *Category 5.* Military personnel of the National Guard and Reserve Components when traveling on matters of official concern to the Department of Defense.

(6) *Category 6.* Dependents of military and civilian personnel of the Department of Defense traveling pursuant to competent permanent change of station orders or other competent travel authorizations, including such dependents when traveling to and from the continental United States or between oversea areas for medical reasons.

(7) *Category 7.* American Red Cross personnel when serving with the Department of Defense in oversea areas, provided that they are in uniform and such travel is in the performance of Red Cross duties incident to change of station or temporary duty. Emergency leave travel is authorized between oversea areas and zone of interior aerial ports. Military air travel will not be authorized within the zone of interior.

(8) *Category 8.* Dependents of military and civilian personnel of the Department of Defense stationed overseas when traveling to or from the United States for the purpose of attending school (limited to one roundtrip each school year).

(9) *Category 9.* Commissioned officers of the Public Health Service detailed for duty with the Army, Navy, Air Force, Marine Corps, or Coast Guard, or when traveling in connection with matters primarily of official concern to the Department of Defense.

(10) *Category 10.* British, Canadian, and Australian exchange officers on duty with the Army, Navy, Air Force, or Marine Corps while in a duty status, upon presentation of orders issued by competent authority.

(11) *Category 11.* Dependents of officials of the other executive departments or agencies, of the judicial branch, or of the legislative branch when accompanied by their principals when authorized by the Secretary of Defense.

(12) *Category 12.* Military personnel dependents in a patient status in the continental United States whose movement from one military hospital to another within the continental United States has been authorized, or who are initially admitted to a military hospital. When so determined by the hospital commander originating the movement of minor dependents (patients), an adult dependent member of the immediate family may be designated as an attendant and is authorized transportation.

(13) *Category 13.* Any person in case of an emergency involving catastrophe or possible loss of life when other means of suitable transportation are not available, feasible, or adequate.

(14) *Category 14.* Any other individual not listed in this paragraph when traveling on competent orders authorizing military air transportation in connection with matters primarily of official concern to the Department of Defense.

NOTE: The following are limiting conditions governing travel of certain categories of personnel:

(a) Dependents who are beyond the 188th day of pregnancy will not be accepted for air transportation.

(b) Infants under six weeks of age will not be accepted for air transportation.

(c) Children under 12 years of age will not be accepted for air transportation unless accompanied by parent or other responsible adult designated by the parent.

(b) *Personnel, space requirement, revenue*—(1) *Category 15.* Persons traveling in the interest of other governmental departments or agencies, with reimbursement by the department or agency concerned.

(2) *Category 16.* Civilian employees of the Department of Defense in areas outside the continental United States who are recruited from outside the duty area on the basis of a signed employment agreement providing for return transportation and who are separated at an oversea area under circumstances that do not convey eligibility for return transportation at Government expense for the purpose of repatriation to the aerial port which is within the country from which originally recruited and which is most conveniently situated to the oversea command location when military sea transportation service is not available. The direct cost of such travel is to be paid for by the individual or withheld from the money due the individual by the Government. Traffic in this category will be granted the lowest class of priority.

(3) *Category 17.* Civilian personnel or Government contractors and technical advisors to military authorities when engaged in activities of the Department of Defense in areas outside the continental United States who default in their contracts and whose tour of duty is terminated for the convenience of the Government, for the purpose of repatriation to the continental United States when Military Sea Transport Service is not available.

(4) *Category 18.* Nongovernmental passengers upon certification of the head of the interested Executive department or agency that the furnishing of such transportation is in the national interest, and that transportation by commercial means is not available or adequate.

(5) *Category 19.* Officials of the other executive departments or agencies, of the judicial branch, or of the legislative branch, and their dependents, on a nonsponsored trip when authorized by the Secretary of Defense.

(6) *Category 20.* Civilian personnel of Department of Defense agencies operating on nonappropriated funds.

(c) *Personnel, space available, nonrevenue.* The term "space available basis," means space that is surplus after all space requirement traffic has been accommodated and which would otherwise be unused.

(1) *Category 21.* Military personnel of the Department of Defense, U. S. Coast Guard, and foreign exchange officers, including British, Canadian, and Australian, on duty with the Department of Defense when traveling in connection with sick or ordinary leave.

(2) *Category 22.* Persons holding the Congressional Medal of Honor, on space available basis within the continental United States, upon presentation of proper identification. These persons will sign a certificate that the travel is not for personal gain, in accordance with Part 180 of this chapter.

NOTE: Whenever travel is performed in one direction on a permissive basis, that is military personnel on leave, military and civilian personnel under emergency leave or accompanied travel of dependents, there is no guarantee of space on any return flight and the Government will be under no obligation to return the individual to point of origin or to any other destination.

(d) *Cargo-nonrevenue.* (1) Cargo of the Department of Defense.

(2) Mail of the Department of Defense and of military personnel and personal mail of those civilians authorized to use military postal facilities.

(3) Cargo carried as a matter primarily of official concern to the Department of Defense.

(4) Cargo of the American Red Cross for use of the Department of Defense.

(5) Any cargo in case of catastrophe, the lack of which would cause loss of life, when other means of transportation are not available, feasible, or adequate.

(e) *Cargo-revenue.* (1) Cargo moving in the interest of other governmental departments or agencies, with reimbursement from the department or agency concerned.

(2) Nongovernmental cargo upon certification of the head of the interested executive department or agency that the furnishing of such transportation is in the national interest, and that transportation by commercial means is not available or adequate.

(3) Cargo of Department of Defense agencies operating on nonappropriated funds.

§ 175.7 Additional authorization.

(a) Requests for transportation of traffic not covered by this part will be referred to the Chief of Staff United States Army; Chief of Naval Operations, or the Director of Transportation, Headquarters United States Air Force, depending upon the department involved.

(b) All requests for Military Air Transport Service special missions not involving aircraft of the United States Air Force Special Air Mission Fleet will be submitted through appropriate channels to the Director of Transportation, Headquarters United States Air Force.

(c) The general policy of the Department of Defense is to prohibit travel of dependents on other than competent orders when the transportation is in connection with permanent change of station assignment of the principal. However, under extenuating circumstances in individual cases, certain exceptions may be authorized by the Secretary of Defense; Secretaries of the Departments; chairman of the Joint Chiefs of Staff; Chief of Staff, United States Army; Chief of Naval Operations; Chief of Staff, United States Air Force, and Commandant of the Marine Corps, to allow travel on a space-available basis.

§ 175.8 Revenue traffic charges.

(a) Charges will be assessed for the transportation of traffic qualifying under § 175.6(b) and (e). Rates to be charged will be determined by the Chief of Staff, United States Air Force. Such charges will be reasonable and, except as provided in paragraph (b) of this section, not less than the current commercial rates, including taxes. Responsibility for collection of such charges will rest with the Chief of Staff, United States Air Force.

(b) Reimbursement by the Government agency concerned for traffic authorized under § 175.5 will be on the basis of the cost thereof as determined by the Chief of Staff, United States Air Force, in accordance with section 601 of the Economy Act of 30 June 1932, as amended (47 Stat. 417, as amended; 31 U. S. C. 686).

§ 175.9 Air movement designator requirements.

All traffic (passengers and cargo) authorized in this part is subject to the establishment of an air movement designator in accordance with established procedures.

(a) Traffic scheduled for movement to an aerial port of embarkation for shipment to points outside the continental United States will not be forwarded to the aerial port of embarkation unless the traffic has been assigned an air movement designator and appropriately cleared.

(b) Limitation: In the establishment of air movement designators, traffic referred to in § 175.6(a) and (d) will, at all times, be accorded primary consideration. Traffic, the transportation of which is authorized under § 175.6(b) and (e), will not be carried if it can reasonably be handled by United States civil air carriers, nor will such traffic be carried on any given route if in the opinion of the Departments of the Army, Navy, or Air Force, United States civil air carriers are adequate to handle such traffic.

§ 175.10 Special requirements.

(a) All traffic to be moved on Military Air Transport Service aircraft must meet carrier acceptability requirements with respect to packing, marking, and documentation. Appropriate records will be maintained to provide essential information concerning diversions, intransit data, and receipt and delivery of traffic.

(b) Military Air Transport Service will be responsible but not accountable for all traffic carried, with responsibility beginning at the station where traffic is accepted and ending upon delivery at the carrier destination airport.

(c) The Chief of Staff, United States Air Force or the Commander, Military Air Transport Service may effect emergency changes in the transport operations and the diversion of traffic already en route, with notice to the shipping agency as to alternate means of transportation utilized, when such becomes necessary. Any diversion of traffic at aerial ports of embarkation will be the responsibility of the appropriate air traffic coordinating officer.

§ 175.11 Baggage allowances.

(a) *Normal baggage allowance.* The normal baggage allowance for all passengers, except those covered by paragraph (c) of this section, traveling on Military Air Transport Service aircraft will be limited to 65 pounds of baggage.

(b) ***Excess baggage allowance.*** An excess baggage allowance may be granted by agencies authorized to establish air movement designators. Excess allowances, when authorized, will be included in individual's orders.

(c) ***Baggage allowance exceptions.*** (1) A baggage allowance of 100 pounds may be authorized for dependent females and dependent children (male and female) who are traveling to oversea destinations. Any authorized excess baggage will be indicated in the individual's orders.

(2) Military, naval, and air attaches and mission personnel are authorized a baggage allowance of 100 pounds while traveling to oversea destination. Any authorized excess baggage will be indicated in the individual's orders.

(3) Personnel evacuated as patients by air from an oversea area or within the continental United States are authorized 100 pounds of baggage.

(d) ***Baggage not covered by this part.*** This part limits only the baggage which may be carried by passengers on Military Air Transport Service aircraft, as provided in this section, and does not limit or increase the baggage which may be transported by other means of transportation on change of station, as prescribed by existing directives.

§ 175.12 Diversion to commercial carriers.

Diversion of cargo from Military Air Transport Service aircraft and forwarding by commercial carrier to consignee will be in accordance with existing directives.

PART 180—TRANSPORTATION BY AIRCRAFT OTHER THAN MILITARY AIR TRANSPORT SERVICE

Sec.

180.1 Purpose and scope.
180.2 Definitions.
180.3 Uniform.
180.4 Authorization.
180.5 Transportation of dependents.
180.6 Service attachés and mission chiefs (including MDAP and other specialized military missions).
180.7 Additional authorizations.
180.8 Travel with reimbursement.
180.9 Authority for certain nongovernmental transportation.
180.10 General policy on nongovernmental transportation.
180.11 Delegation of authority.
180.12 Certification.
180.13 Release from claim for injury or death.

AUTHORITY: §§ 180.1 to 180.13 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 180.1 Purpose and scope.

This part establishes the policy for the authorization of traffic on aircraft of the Department of Defense other than scheduled aircraft operated by the Military Air Transport Service under the provisions of Part 175 of this chapter.

§ 180.2 Definitions.

(a) *Traffic.* Cargo, mail, passengers, and passengers' baggage.

(b) *Revenue traffic.* Traffic for which reimbursement to, or accounting by, the Department of Defense is required.

(c) *Nonrevenue traffic.* Traffic transported in the primary official interest of the Department of Defense.

(d) *Competent authority.* An official bearing the title of commanding officer or higher authority in the chain of command of the Army, Navy, Air Force, Marine Corps, Coast Guard (when assigned to the operational control of the Navy), the Reserve components of the aforementioned organizations and the National Guard.

§ 180.3 Uniform.

Proper uniform will be worn under all normal conditions. Civilian clothes may be worn in exceptional circumstances when authorized by competent authority.

§ 180.4 Authorization.

Competent authorities listed in § 180.2 (d) may authorize traffic of the following categories transported on military aircraft without reimbursement. Any traffic transported under the provisions of this part will be properly identified.

(a) Military personnel of the United States (including midshipmen or cadets of the Army, Navy, Air Force, and Coast Guard) in active Federal Service, while in a duty status on a requirement basis, or while in a leave status on a space available basis. Orders directing permanent change of station or temporary duty travel, or authorizing leave, will constitute authority.

(b) Military personnel of the National Guard and members of the Reserve components and retired military personnel whose names appear on the published retired list of the Army, Navy, Air Force, Marine Corps, or Coast Guard: Upon presentation of orders issued by competent authority or presentation of proper identification on a space-available basis within the zone of the interior after all priority requirements have been satisfied. The certificate required by § 180.12 must be executed. Proper identification for the services is as follows:

Service	Reserve	Retired
Army	NME 2A (Reserve) Form DD2A (Reserve)	Form DD2A (Retired).
Navy	Form DD2N (Inactive).	Form DD2N (Inactive).
Marines	NavMc 178-PD	Form DD2MC.
Coast Guard	Form DD2CG (Inactive).	Form DD2CG (Retired).
Air Force	Form DD2AF (Reserve).	Form DD2AF (Retired).

(c) State National Guard officials, including State governors, Lieutenant governors, and adjutants general when the travel within the zone of interior is connected directly with the National Guard activities. Other persons as specified by the above when prior approval has been obtained from the Chief of Staff, Army; Chief of Naval Operations; or Chief of Staff, United States Air Force.

NOTE: Provisions governing passengers in National Guard aircraft will be promulgated by the Chief, National Guard Bureau.

(d) Reserve Officers' Training Corps students of the Army, Navy, and Air Force, as follows:

(1) Summer camps: Reserve Officers' Training Corps students of the Army, Navy, and Air Force at summer camps or on active training duty on authorized flights upon approval of Reserve Officers' Training Corps camp commander or upon presentation of orders from competent authority.

(2) During school year, provided that:

(i) Aircraft is on an authorized local flight.

(ii) Students are undergoing formal Reserve Officers' Training Corps and academic training during a regular school term and the flight is in connection with this training.

(iii) Students are in proper uniform.

(e) Civil Air Patrol personnel, as follows:

(1) Civil Air Patrol senior members are authorized to be carried as passengers in military aircraft when engaged in the performance of official Civil Air Patrol duties, upon presentation of orders authorized by the National Commander, Civil Air Patrol, and provided that such transportation does not interfere with normal military activities.

(2) Civil Air Patrol cadets participating in Civil Air Patrol activities when authorized by the National Commander, Civil Air Patrol. Normally, flights will be of local orientation type not involving special hazard, and will be accomplished to permit Civil Air Patrol cadets to travel as passengers on routine training flights without additional expense to the Government.

(f) Properly registered (senior) explorers of the Boy Scouts of America participating in scout activities on local orientation flights, provided that:

(1) Multiengine aircraft is used.

(2) Each explorer presents, through his local scout executive, a completed Boy Scouts of America Form O–1518, Recognition and Approval for Senior Explorers Orientation Flights, which includes a statement of parents' or guardian's consent.

(3) Prior approval is obtained from the Chief of Naval Operations for Navy aircraft.

(g) Persons holding the Congressional Medal of Honor, on space-available basis within the zone of interior upon presentation of proper identification and valid authorization card issued by either the Departments of the Army, Navy, or Air Force. (The certificate required by § 180.12 must be executed.)

(h) Red Cross personnel and personnel of other nationally recognized welfare agencies when serving with the armed services in the field, provided that they are in uniform and when such flights are in the performance of their official duties.

(i) Commissioned officers of the Public Health Service detailed for duty with the Army, Navy, Air Force, or Coast Guard, while in a duty status.

(j) Any person in case of an emergency involving catastrophe or possible loss of life, or in an emergency when other means of suitable transportation are not available, feasible, or adequate.

(k) Any person deputized to participate in fighting forest fires or engaged in disaster relief activities upon request of the responsible Federal or State agency.

(l) Any person when the travel is necessary for the preservation of peace, order, and safety of the Nation when such travel is requested by the responsible Federal or State officials.

(m) Civilian employees of the Department of Defense, of other Government agencies, of Government contractors, and technical advisers to military authorities when engaged in activities for the Department of Defense and traveling on orders issued by competent authority.

(n) Certain Canadian military personnel and civilian employees of the Canadian Defense establishment when traveling on official Canadian orders in accordance with Joint Canadian-United States Reciprocal Agreement on air transportation.

(o) British, Canadian, and Australian exchange officers on duty with the Army, Navy, or Air Force while in a duty status, upon presentation of orders issued by competent authority. These officers may be authorized space-available transportation while in a leave status, upon presentation of proper identification.

(p) Cargo and mail:

(1) Cargo and mail of the Department of Defense.

(2) Cargo of the American Red Cross for use by the Department of Defense.

(3) Any cargo in case of catastrophe, lack of which would cause loss of life when other means of transportation are not available, feasible, or adequate.

§ 180.5 Transportation of dependents.

The general policy of the Department of Defense is to prohibit travel of dependents in military aircraft unless the travel is performed in connection with permanent change of station assignment of the principal. However, under extenuating circumstances in individual cases certain exceptions may be authorized by the Secretary of Defense, Secretaries of the Military Departments, Chairman of the Joint Chiefs of Staff, Chief of Staff, United States Army; Chief of Naval Operations; Chief of Staff, United States Air Force; and the Commandant of the Marine Corps to allow accompanying travel of dependents on a space-available basis.

§ 180.6 Service attachés and mission chiefs (including MDAP and other specialized military missions).

Attachés and military mission chiefs are authorized to permit personnel of the following categories to ride as passengers in attaché or mission aircraft on a space-available nonreimbursable basis within their sphere of accreditation:

(a) Individuals listed in, and under the conditions of, § 180.4.

(b) United States ambassadors and ministers, or in their absence charge d'affaires, and members of their staffs designated by the ambassador, minister, or chargé d'affaires for the conduct of urgent Government business, except for normal permanent change of stations of such personnel.

(c) Distinguished nationals and members of the armed forces of foreign countries.

(d) Accompanying travel of dependents of attaché, mission, or military commission personnel.

(e) Use of attaché aircraft by Members of the Congress: In those instances where Congressional committees or members thereof find it necessary while abroad to request travel in Air Force or Navy aircraft allocated to the attachés or military missions, such trips may be authorized if commercial facilities are not available, if such use of the attaché or mission aircraft will not interfere in any way with the normally assigned mission of the aircraft, and provided that the purpose of the trip is specifically indicated by the chairman of the committee or subcommittee or member as being essential to the mission of the committee, subcommittee, or member. Immediately after such flights the attaché will report to the Chief of Naval Operations or the Chief of Staff, United States Air Force, as appropriate, the following information:

(1) Explanation of circumstances which made the flight desirable.

(2) Dates of departure and return.

(3) List of passengers, with justification for presence of each.

(4) Destination of passengers.

(5) Stops en route and reasons therefor.

(f) Prior approval for travel outside the sphere of accreditation for all passengers not included in § 180.4 must be obtained from the Chief of Staff, United States Army; Chief of Naval Operations; or Chief of Staff, United States Air Force.

§ 180.7 Additional authorizations.

(a) Within the limitations imposed by public law and joint regulations, the Chief of Staff, United States Army; Chief of Naval Operations; Chief of Staff, United States Air Force, or the commander of any oversea echelon reporting direct to the Departments of the Army, Navy, or Air Force may authorize the following transportation without reimbursement: Any traffic, when the transportation is primarily of official concern to the Department of Defense. While nothing contained herein is intended to infringe upon the prerogatives of theater commanders, no such transportation will be authorized unless it is of direct concern to the Department of Defense and is required for the accomplishment of a military mission.

(b) The Secretary of Defense will act on all requests for nonreimbursable transportation received from the following Federal officials: (Requests received by subordinate commands for transportation of officials or accompanying travel of dependents will be forwarded to the appropriate military department for action.)

(1) Officials of other executive departments or agencies or the judicial branch.

(2) Officials of the legislative branch, except as provided in § 180.6(e) of this chapter.

NOTE: Members of Congress who hold valid Reserve status in the Army, Navy, Air Force, Marine Corps, or Coast Guard may continue to utilize air transportation in accordance with the provisions of § 180.4.

(c) Commands listed in § 180.11 may authorize nonreimbursable travel for:

(1) Representatives of information media (that is, press, radio, news, and so forth) on assignments to cover military events. (In addition, these representatives may be furnished transportation in the event of spot news stories of transcendent National interest for which commercial or charter facilities cannot be obtained.)

(2) Inspection personnel of the Civil Aeronautics Administration when engaged in the examination of rated pilot personnel of the armed services for civil pilot certificates or ratings.

(d) Cases arising at Army, Navy, or Air Force installations not covered by this part will be referred to the Chief of Staff, United States Army; Chief of Naval Operations; or Director of Transportation, Headquarters United States Air Force, Washington 25, D. C., depending on the installation involved, with complete information for decision.

§ 180.8 Travel with reimbursement.

In cases not covered by other authority in this part, the Departments of the Army, the Navy, and the Air Force may provide air transportation with reimbursement therefor, and subject to other restrictions, in accordance with the provisions of applicable law, when the traffic is of official concern to the executive departments or agencies, or to the legislative or judicial branches of the Government. Requests for transportation in this category should be directed to the departments concerned with procurement authority chargeable or a clear indication of the method by which reimbursement is to be accomplished.

§ 180.9 Authority for certain nongovernmental transportation.

To facilitate Department of Defense operations at home and abroad, non-Governmental passengers and cargo not within the scope of the foregoing provisions may be furnished air transportation by the Departments of the Army, the Navy, or the Air Force to or from places outside the continental United States, with reimbursement therefor, at not less than current commercial rates (including taxes) on certification by the head of the interested executive department or agency that the furnishing of such transportation is in the National interest. In cases covered in this section it will be within the purview of the Secretary of the Army, the Navy, or the Air Force to refuse to authorize the transportation, if considered advisable.

§ 180.10 General policy on nongovernmental transportation.

As a general policy, the aviation organizations of the armed forces shall not be placed in a position of competing with United States commercial transportation. Therefore, in no case will air transportation under the provisions of §§ 180.8 and 180.9 be provided on any given route, if, in the opinion of the Departments of the Army, Navy, or Air Force, United States civil air carriers adequate to handle the traffic are in operation on the route.

§ 180.11 Delegation of authority.

The following commands may authorize nonreimbursable travel for the individuals listed in § 180.7(c):

Department of the Army: Chief of Staff, United States Army; Commanding Generals, Oversea Commands; Commanding Generals, Continental Armies and Military District of Washington; Chief, Army Field Forces.

Department of the Navy: Chief of Naval Operations; Commanders-in-Chief of Fleets; Commandant, U. S. Marine Corps; Commanding Generals, Fleet Marine Forces; Commanding Generals, Air Fleet Marine Forces; Commander, Air Force, Atlantic Fleet; Commander, Air Force, Pacific Fleet; Chief of Naval Air Training; Commanders, Sea Frontiers; Commandants, Naval Districts and River Commands; Commandant, Coast Guard (when assigned Navy for operational control); Naval Force Commanders.

Department of the Air Force: Chief of Staff, United States Air Force; Commanders, Major Air Commands, Zone of Interior and Overseas; Commander Civil Air Patrol, USAF; Commanders, Numbered Air Forces and their equivalents.

Delegation of this authority below the commands listed above is not authorized.

§ 180.12 Certification.

In all cases when transportation is authorized in accordance with § 180.4 (b), (g), and (h), the following certificate will be accomplished for each individual.

I, _____, hereby certify that my request for, and acceptance of, transportation via military aircraft is not for personal gain nor will the business conducted in connection with this trip result in any form of remuneration to the undersigned.

PART 184—MOVEMENT OF PERSONNEL VIA COMMERCIAL CONTRACT AND CHARTER AIR TRANSPORTATION

Sec.
184.1 Authority and scope.
184.2 Background.
184.3 Policy.

AUTHORITY: §§ 184.1 to 184.3 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 184.1 Authority and scope.

This part prescribes policies for the movement of personnel for the Department of Defense via commercial contract and charter air transportation within the continental United States and to, from and outside the continental United States.

§ 184.2 Background.

Regulations of civil air regulatory agencies govern such matters as the safety of air transportation, airworthiness of aircraft, proficiency of flight and maintenance crews, minimum performance limitations, minimum operating limitations, maximum weight limitations, and requirements for first aid and emergency equipment.

§ 184.3 Policy.

(a) The military departments will not knowingly take any action which will contribute to or result in a carrier violation of any requirement of civil air regulatory agencies.

(b) Pressurized aircraft:

(1) Except as provided in this section, all passenger or convertible aircraft used in service between points in the United States and overseas areas will be pressurized. This requirement may be waived by the procuring agency for certain traffic over specific routes when required by exigencies of the mission.

(2) All other factors being equal, preference will be given to the use of pressurized aircraft when tendered by the carriers for travel between points within the continental United States.

(c) Uniform minimum standards of service for the movement of personnel for the Department of Defense via commercial contract and charter air transportation shall be developed by the Single Manager for Traffic Management and the Single Manager for Airlift Service (in coordination with the military departments) in implementation of this part, as they apply within the continental United States and to, from, and outside the continental United States, respectively. Such standards will provide for comfort of travel and service which will be comparable to that available to and used by the general public. The standards established may be changed or waived by the procuring agency only when such action is required to meet exigencies of the mission.

PART 190—TRANSPORTATION OF HOUSEHOLD GOODS OF MILITARY AND CIVILIAN PERSONNEL

Sec.
190.1 Purpose, applicability and objective.
190.2 Definitions.
190.3 Policies.
190.4 Implementation.
190.5 Required action.

AUTHORITY: §§ 190.1 to 190.5 issued under sec. 202, 61 Stat. 500; 5 U.S.C. 171a.

§ 190.1 Purpose, applicability and objective.

(a) This part assigns authority and responsibilities and establishes policies relative to the transportation of household goods of military and civilian personnel of the Department of Defense (1) between points within the United States and (2) between the United States and other areas in through bill of lading service when the transportation is procured and arranged by an agency of the Department of Defense.

(b) The objective of this part is to assure high quality service to military and civilian personnel of the Department of Defense in the transportation of their household goods at the lowest over-all cost to the Government.

§ 190.2 Definitions.

As used herein:

(a) "Lowest over-all cost" means the aggregate of all costs which are known or can reasonably be estimated in connection with a shipment (including accessorial charges and amounts paid by the Government for loss and damage).

(b) "United States" means the forty-eight contiguous states and the District of Columbia.

§ 190.3 Policies.

(a) *Comparative costs among modes of transportation.* Section 303(c) of the Career Compensation Act of 1949, as amended (63 Stat. 802), provides in part that "* * * members of the uniformed services * * * in connection with a change of station (whether temporary or permanent) [shall be entitled] to transportation (including packing, crating, drayage, temporary storage and unpacking) of baggage and household effects, or reimbursement therefor * * * without regard to the comparative costs of the various modes of transportation." However, comparative costs of the various modes of transportation may be disregarded only when all carriers within the mode(s) which would produce the lowest over-all cost to the Government cannot provide the required services satisfactorily. In such instances the next lowest cost mode in which carriers can provide satisfactory service shall be used. The same principle shall apply in shipping household goods of civilian personnel when the transportation is procured and arranged by an agency of the Department of Defense.

(b) *Quality of service.* The quality of service provided by carriers shall be evaluated, in comparison with uniform standards prescribed by the Single Manager for Traffic Management, on the basis of all available information, including, but not limited to, the following:

(1) Reports of inspections of carrier facilities, transportation equipment, and service practices.

(2) Carrier performance reports by military and civilian personnel in connection with the transportation of their household goods.

(3) Official reports and actions by regulatory bodies which serve as factual indicators of carrier performance.

(4) Claims for loss and damage filed against carriers and the Government, and settlements thereof.

(c) *Qualified carriers.* Only those carriers shall be qualified which:

(1) Are authorized according to law to provide the required services;

(2) Provide adequate evidence of satisfactory transportation equipment and financial responsibility and reliability;

(3) Have made specific arrangements for the use of a satisfactory terminal facility consisting of a warehouse, loading and unloading area, and office sufficiently near the shipping activity or point of origin of the shipment to assure satisfactory service and permit ready inspection of the facility and the household goods stored or serviced therein;

(4) When required, have executed and filed with the appropriate office a household goods service tender or other document authorized in lieu thereof;

(5) Assume full responsibility for arranging for placing in a satisfactory terminal facility those shipments which require storage in transit at destination; and

(6) Provide high quality service.

(d) *Selection of carrier and distribution of traffic.* (1) Only those carriers shall be used which satisfy the requirements of paragraph (c) of this section at the lowest over-all cost to the Government. Connecting carriers on a joint carriage arrangement must meet all of the requirements for a qualified carrier except paragraph (c) (3) and (5) of this section when they are not terminating carriers.

(2) To the extent practicable, traffic shall be distributed by destination state or other area outside the United States among these carriers in equitable proportions, subject to the following:

(i) Carrier's ability to respond to requirements of the traffic offered for movement. When a carrier is offered a shipment and cannot perform, the carrier shall be charged with the offer in the same manner as if it had performed.

(ii) At each shipping activity, additional shipments shall be offered to a carrier or carriers when it has been determined that it or they provide an exceptionally high quality of service as compared with other carriers serving the activity. Such shipments shall not be charged to normal distribution.

(3) For traffic distribution purposes, carriers under effective common financial or administrative control shall be treated as a single carrier. The service tender, or document in lieu thereof, filed by each carrier shall include: (i) Name(s) of any other carrier(s) serving the same shipping activity which are under effective common financial or administrative control with the filing carrier, or (ii) a statement that the filing carrier is independent in finance and administration from all other carriers serving the same shipping activity.

(4) When consistent with other provisions of this paragraph (d):

(i) A request by the property owner for non-use of a carrier because of specific prior unsatisfactory service shall be honored if another carrier is available to move the shipment at the same over-all cost to the Government.

(ii) A preference for a carrier expressed by the property owner shall be honored.

(5) Traffic shall be distributed according to the originating carrier rather than according to agent. When a joint carriage arrangement is utilized, shipments transported thereunder shall be considered as having been received by each participating carrier qualified to serve the origin point.

(6) Records of traffic distribution shall be maintained by destination state or other area outside the United States.

(e) *Non-use of carriers.* (1) Carriers which have indicated in writing a desire to participate in Department of Defense traffic and are not considered to be qualified shall be notified in writing of their deficiencies. Such carriers shall be provided an opportunity to (i) appeal the decision, or to (ii) receive further consideration after correcting the deficiencies causing the refusal.

(2) Carriers which have been qualified, but which subsequently fail to provide high quality service, fail to meet the other requirements of paragraph (c) of this section, or commit unethical acts, shall be suspended in accordance with criteria and procedures established by the Single Manager for Traffic Management. Such carriers shall be provided an opportunity to (i) appeal the decision, or (ii) request requalification after correcting the deficiencies causing the suspension.

(f) *Use of storage in transit.* When commercial temporary storage is required in connection with transportation, storage-in-transit, as defined in carriers' tariffs, shall be used except when it is clearly evident, after considering such factors as over-all cost, and liability of the carrier versus that of the warehouseman, that the best interests of the Government and the property owner can be served only by the use of contract storage.

(g) *Use of United States carriers.* (1) The contracting carrier shall be a United States organization owned and controlled by citizens of the United States except when the Single Manager for Traffic Management has determined that a United States carrier cannot provide timely movement.

(2) When commercial ocean or air carriers or operators are to be used as a part of through bill of lading service between the United States and other areas, only ships of United States registry engaged in regular berth service or United States flag aircraft shall be used except when the Single Manager for Ocean Transportation or the Single Manager for Airlift Service, respectively, has determined they are not available for timely movement.

§ 190.4 Implementation.

(a) The Single Manager for Traffic Management is assigned authority and responsibility for:

(1) Implementing this part by prescribing, in agreement with the heads of the other military services, uniform joint regulations which will include but not be limited to: (i) Service tenders or other documents authorized in lieu thereof; (ii) standards for quality of service; (iii) procedures for measuring and comparing the quality of service provided by carriers; (iv) criteria and procedures for offering additional shipments and for qualifying, selecting, and suspending carriers; and (v) standards, formulae, and procedures for determining the lowest over-all cost.

(2) Assuring compliance with the above-mentioned regulations. Compliance will be accomplished through command channels of the military services, by appropriate means, including action based on recommendations by representatives of the Military Traffic Management Agency resulting from staff visits to all activities of the military services within the United States which ship household goods.

(3) Negotiating with commercial carriers and operators on all matters incident to the transportation of household goods within the United States and between the United States and other areas in through bill of lading service. Negotiations with commercial air or ocean operators for transportation as a part of through bill of lading service between the United States and other areas, or with air carriers for service within the United States under long term contracts, shall be conducted by the Single Manager for Airlift Service or the Single Manager for Ocean Transportation. The agreement of the Single Manager for Traffic Management shall be secured prior to the initiation of such negotiations.

(b) The service tenders or other documents authorized in lieu thereof referred to in paragraph (a)(1) of this section shall require carriers providing through bill of lading service between the United States and other areas to furnish after the fact reports of shipments to the Single Manager for Traffic Management, the Single Manager for Ocean Transportation, and the Single Manager for Airlift Service, as prescribed by uniform joint regulations.

(c) The Single Manager for Traffic Management shall consult with the Small Business Administration and appropriate representatives of the transportation industry on those portions of joint procedures, standards, criteria and regulations directly affecting the transportation industry prior to their publication.

(d) The Single Manager for Traffic Management shall develop, with the joint participation of the heads of the other military services, all standards, programs and procedures relative to the transportation of household goods. He shall also keep the Single Manager for Ocean Transportation and the Single Manager for Airlift Service informed on plans and other matters involving through bill of lading service between the United States and other areas.

(e) The implementation of this part shall not abrogate the functions and responsibilities of the Single Manager for Airlift Service or the Single Manager for Ocean Transportation, nor, in overseas areas, of the military services or the unified or specified commands.

§ 190.5 Required action.

(a) Joint regulations implementing this part shall be issued and action taken to assure uniformity of application in accordance with the schedule in paragraph (c) of this section. Such regulations, amendments thereto, and reissues thereof shall be coordinated with the Assistant Secretary of Defense (Supply and Logistics) prior to publication, and two copies of such documents shall be forwarded to him within thirty days after publication.

(b) Provisions of all regulations of the Military Departments implementing Parts 206 and 208, 32 CFR 1960 Cum. Supp., shall remain in effect until super-

seded by the joint regulations implementing this part.

(c) The schedule for implementation of this part is:

(1) September 1, 1960—Completion of printing and distribution of Implementing Regulations.

(2) September 7–December 1, 1960—Conduct conferences with Transportation Officers throughout the United States and overseas areas. Carriers will be invited to similar conferences.

(3) December 1, 1960—Effective date of Implementing Regulations.

PART 200—OCEAN TRANSPORTATION SERVICE

200.1 Authority and responsibility.
200.2 Background.
200.3 Organization.
200.4 Relationships.
200.5 Fiscal.

AUTHORITY: §§ 200.1 to 200.5 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply secs. 2201, 2202, 70A Stat. 119, 120; 10 U. S. C. 2201, 2202.

§ 200.1 Authority and responsibility.

(a) The Secretary of Defense has designated the Secretary of the Navy as the "Single Manager for Ocean Transportation" with authorities and responsibilities as assigned in Department of Defense notice of May 28, 1956 (21 F. R. 4022).

(b) The Single Manager Operating Agency for Ocean Transportation is titled the "Military Sea Transportation Service (MSTS)."

(c) The Single Manager has designated the Commander Military Sea Transportation Service as the Executive Director for Ocean Transportation.

(d) As a part of the Operating Forces of the Navy, the Military Sea Transportation Service is responsible, through the Commander Military Sea Transportation Service, to the Chief of Naval Operations. As a procuring activity, the Military Sea Transportation Service is responsible, through its Commander, to the Assistant Secretary of the Navy (Material).

(e) The Executive Director for Ocean Transportation is assigned the responsibility for the control, operation and administration of ocean transportation (by government-owned or commercial vessels) for personnel, cargo and mail for all agencies of the Department of Defense (excluding personnel and cargo transported by units of the fleet) and as authorized or directed, for other agencies or departments of the United States, subject to the policies of the Secretary of Defense.

§ 200.2 Background.

The Military Sea Transportation Service was originally established by directive of the Secretary of Defense dated August 2, 1949 (14 F.R. 5203). Pursuant to this directive, terms of reference, preliminary agreements and procedures were determined by designated representatives of the Chief of Staff, U.S. Army, the Chief of Naval Operations and the Chief of Staff, U.S. Air Force. These were promulgated by the Deputy Chief of Naval Operations (Logistics) under Serial 1825P421 of September 2, 1949 and concerned those matters incident to the formation of MSTS, including the transfer of ships, the assignment of personnel and pertinent details of support and operational procedures. All of the actions required by these terms of reference have been accomplished.

§ 200.3 Organization.

(a) The organization of the Military Sea Transportation Service is patterned to provide prompt and efficient means for the ocean transportation requirements of the military services and to afford sufficient flexibility to permit ready transition from peacetime to war or other emergency operations.

(b) Under the Commander Military Sea Transportation Service with headquarters at Washington, D. C., Area Commands, headed by Flag Officers, have been established as follows:

Eastern Atlantic and Mediterranean Area (ELMAREA), London.
Atlantic Area (LANTAREA), New York.
Pacific Area (PACAREA), San Francisco.
Western Pacific Area (WESTPACAREA), Yokosuka.

Sub-area Commands and Port Offices have been established at locations within Area Commands. Such Port Offices are subject to inactivation or relocation as circumstances warrant to meet the sea transportation needs of military personnel and cargo.

§ 200.4 Relationships.

(a) *Seller/customer relationship.* The Military Sea Transportation Service maintains a seller/customer relationship with the Army, Air Force, Navy and Marine Corps as shippers, charging for services rendered on the basis of predetermined tariffs approved by the Assistant Secretary of Defense (Comptroller).

(b) *Departmental headquarters.* The following departmental headquarters' offices are the points of contact with the Military Sea Transportation Service for the ocean transportation requirements of their respective departments:

(1) Department of the Army, Office of the Chief of Transportation.

(2) Department of the Air Force, Office of the Director of Transportation.

(3) Department of the Navy:

(i) Navy (Cargo) Bureau of Supplies and Accounts, (Personnel) Bureau of Naval Personnel.

(ii) Marine Corps (Cargo) Bureau of Supplies and Accounts, (Personnel) Bureau of Naval Personnel.

(c) *Space Assignment Committees.* Space Assignment Committees (or Joint Military Transportation Boards) have been established at headquarters and at each of the Area and Sub-area Commands. These Committees, for both cargo and passenger space allocations, are composed of representatives of each of the shipper services and are chairmanned by a representative of MSTS.

(d) *Joint policies.* Policies governing the transportation of cargo and passengers by the Military Sea Transportation Service have been jointly determined by the Departments of the Army, Navy and Air Force and promulgated by the Chief of Naval Operations.

(e) *Reporting shipping requirements and capabilities.* Procedures for reporting shipping requirements and capabilities and for the utilization of MSTS controlled shipping, berth space availability and reefer (i. e., refrigerated) shipping space have been agreed upon between the Commander, Military Sea Transportation Service and the Chief of Transportation, U. S. Army, on behalf of the Departments of the Army and Air Force. A similar agreement has been concluded with the Chief, Bureau of Supplies and Accounts on behalf of the Department of the Navy.

(f) *Accessorial and miscellaneous services.* The responsibilities of the Military Sea Transportation Service, the shipper services, and vessel operators for the performance of accessorial and other miscellaneous services, for the costs of such services, and for payment for such services have been determined in joint conferences and promulgated by the Secretary of the Navy in conjunction with the Departments of the Army and Air Force.

(g) *Unutilized traffic reservations (dry cargo.)* Agreement on the procedure for determining unutilized traffic reservations (dry cargo) on MSTS controlled ships has been reached between the Military Sea Transportation Service and the Departments of the Army, Navy and Air Force.

(h) *Ship and/or terminal demurrage (dry cargo).* Agreement on procedures for determining ship and/or terminal demurrage (dry cargo) under the MSTS Billing Regulations has been reached between the Military Sea Transportation Service and the Departments of the Army, Navy and Air Force.

(i) *Tanker/terminal demurrage.* Agreement on tanker/terminal demurrage procedure has been reached between the Military Sea Transportation Service and the Departments of the Army, Navy and Air Force.

(j) *Coastwise and intercoastal lift capacity.* Procedures have been developed by the Military Sea Transportation Service to keep the Executive Director of the Military Traffic Management Agency (see 21 F. R. 4355) informed as to the availability of opportune MSTS-operated coastwise and intercoastal lift capacity.

(k) *Technical and material matters concerning ships assigned to MSTS.* The responsibilities of the Commander Military Sea Transportation Service and the Chief, Bureau of Ships, Department of the Navy, for technical and material matters concerning ships assigned or to be assigned to the Military Sea Transportation Service have been promulgated by the Chief of Naval Operations.

(l) *Inspection and certification of ships by U. S. Coast Guard.* An agreement with the U. S. Coast Guard for the periodic inspection and certification of MSTS vessels of commercial types in accordance with the Coast Guard's Merchant Marine Safety Manual, has been promulgated by COMSTS (Commander Military Sea Transportation Service).

(m) In accordance with the policies of the Department of Defense for implementation of Single Manager Assignments, the Secretary of the Navy provides for direct coordination with the other Military Services and the Office of the Secretary of Defense on matters connected with the operation of the Ocean Transportation Service.

§ 200.5 Fiscal.

(a) The operations of the Military Sea Transportation Service are financed under the Navy Industrial Fund (Charter for Operation issued by the Assistant Secretary of Defense (Comptroller).

(b) The Military Sea Transportation Service follows a double-entry commercial type accounting system, maintained on an accrual basis and observes fiscal procedures in accordance with the directives of the Assistant Secretary of Defense (Comptroller) and the Comptroller of the Navy.

(c) Bills are submitted monthly by the Military Sea Transportation Service to each agency to whom services are rendered. Charges are computed on the basis of predetermined tariff rates and other factors calculated to recover the over-all cost of operations.

(d) To keep the customer services apprised of the results of its operations, the Military Sea Transportation Service prepares and distributes quarterly statistical and financial reports. These reports are reviewed and fully discussed with the MSTS staff by representatives of the shipper services at meetings held in conjunction with the monthly meetings of the Administrative Committee (see 21 F. R. 4023) scheduled in pursuance of paragraph III. C. 1 of Department of Defense Directive 5160.12 of January 31, 1956 (Policies for Implementation of Single Manager Assignments).

PART 210—REIMBURSABLE AND NONREIMBURSABLE TRAVEL

Sec.
210.1 Travel without reimbursement.
210.2 Travel with reimbursement.
210.3 Authority for certain nongovernmental travel.
210.4 General policy on nongovernmental travel.

AUTHORITY: §§ 210.1 to 210.4 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 210.1 Travel without reimbursement.

(a) *Sponsored travel.* Sponsored travel is defined as and confined to military air transportation furnished by a military department to its own officials or to Members of Congress and other Government officials or other persons to whom an invitation to travel has been extended by the Office of the Secretary of Defense or by one of the military departments. The military departments (Army, Navy and Air Force) are granted the authority to extend such invitations unilaterally to congressional committees and staff members, individual Members of Congress, and other Government officials, when the purpose of the travel is of primary concern to the military department extending the invitation.

(1) *Officials of the Department of Defense, Military Departments, etc.* Travel without reimbursement by officials and by military and civilian personnel of the Department of Defense, the three military departments and the boards and other agencies of the Department of Defense shall be governed by such regulations as the Secretary of Defense may from time to time prescribe.

(b) *Nonsponsored travel.* Nonsponsored travel is defined as and confined to military air transportation furnished pursuant to an official request upon the Secretary of Defense or to a military department from a department, agency or official of the Government outside of the Department of Defense.

(1) *Officials of other Executive Departments or agencies or Judicial Branch.* Requests for travel without reimbursement by Government officials of the other Executive Departments or agencies or Judicial Branch, whose travel is of primary interest to the Department of Defense, will be screened and approved in writing by the head of the agency to which the official is attached and the approved request then forwarded to the Secretary of Defense for disposition.

(2) *Officials of the Legislative Branch.* (i) Requests for travel without reimbursement by members of Congress and committee staff members, whose travel is of primary interest to the Department of Defense, should be submitted in writing to the Secretary of Defense by the Chairman of the Congressional committee upon which the member of Congress is serving. The committee chairman should state in his request whether or not he believes the travel to be of primary interest to the Department of Defense.

(ii) Members of Congress who hold valid reserve status in the Army, Navy, Air Force or Marine Corps may continue to utilize air transportation in accordance with existing policies of the respective military departments (Army, Navy and Air Force) applicable to the reserve officer and enlisted personnel of those departments.

(3) *Nonofficial passengers (sponsored and/or nonreimbursable trips).* Exceptions to the general policy of prohibiting accompanying travel of dependents on Department of Defense sponsored nonreimbursable trips are as follows:

(i) To permit travel of dependents of attaché mission or military commission personnel as may be designated by the respective Secretaries of the Military Departments, the Chairman of the Joint Chiefs of Staff, the Chiefs of Staff of the Army and Air Force, the Chief of Naval Operations and the Commandant of the Marine Corps in overseas areas on attaché or mission aircraft.

(ii) To permit travel of dependents of other military or civilian personnel of the Department of Defense when authorized by the Secretary of Defense, or by the respective Secretaries of the Military Departments, the Chiefs of Staff of the Army and Air Force, the Chief of Naval Operations or the Commandant of the Marine Corps, as being in the national interest, essential to the proper accomplishment of the mission, desirable because of diplomatic or public relations, or as necessary for the health or morale of the principals concerned.

(iii) To permit the accompanying travel without reimbursement of dependents of officials of the other Executive Departments or agencies, of the Judicial Branch, or of the Legislative Branch, when accompanying their principals on a sponsored trip, and when authorized in each instance by the Secretary of Defense as being in the national interest, essential to the proper accomplishment of the mission, desirable because of diplomatic or public relations, or as necessary for the health and morale of the individuals concerned.

Requests for the accompanying travel without reimbursement on military aircraft by dependents of officials of the other Executive Departments or agencies, of the Judicial Branch, or of the Legislative Branch should be referred to the Secretary of Defense.

(4) *Nonofficial passengers (nonsponsored and/or reimbursable trips).* The rule generally prohibiting passage of dependents on Department of Defense sponsored nonreimbursable trips is also applicable to nonsponsored and/or reimbursable trips. However, exceptions to the rule may be authorized under certain circumstances. Current exceptions to the rule would be: To permit accompanying travel on nonsponsored and/or reimbursable trips of dependents of officials of other Executive Departments or agencies, of the Judicial Branch, or of the Legislative Branch when accompanying their principals and when authorized in each instance by the Secretary of Defense as being essential to the proper accomplishment of the mission, desirable because of diplomatic or public relations, or as necessary for the health or morale of the individuals concerned.

(5) *Use of attaché aircraft by Members of the Congress.* (i) In those instances where Congressional committees or members thereof find it necessary while abroad to request travel in Air Force or Navy aircraft allocated to the attachés or military missions, such trips may be authorized if commercial facilities are not available, if such use of the attaché or mission aircraft will not interfere in any way with its normally assigned mission, if the purpose of the trip is specifically indicated by the chairman of the committee or subcommittee or member as essential to the mission of the committee, subcommittee or member.

(ii) A report of each trip so flown will be made to the appropriate military department by the attaché concerned, which report will indicate the names and numbers of passengers carried, the duration, destinations and purpose of the trip.

§ 210.2 Travel with reimbursement.

In cases not covered by the preceding section, the Department of the Navy and the Department of the Air Force may provide air transportation with reimbursement therefor, and subject to other restrictions thereon, in accordance with the provisions of applicable law, when the traffic is of official concern to the Executive Departments or agencies, or to the Legislative or Judicial Branches of the Government. Requests for transportation in this category should be directed to the Secretary of the Air Force with procurement authority chargeable or a clear indication of the method by which reimbursement is to be accomplished.

§ 210.3 Authority for certain nongovernmental travel.

In order to facilitate Department of Defense operations at home and abroad, nongovernmental passengers and cargo not within the scope of the foregoing provisions may be furnished air transportation by the Department of the Navy or the Department of the Air Force to or from places outside of the Continental United States, with reimbursement therefor, at not less than current commercial rates (including taxes) upon certification by the head of the interested Executive Department or agency that the furnishing of such transportation is in the national interest. In cases covered in this paragraph it will be within the purview of the Secretary of the Navy or the Secretary of the Air Force to refuse to authorize the transportation if deemed advisable.

§ 210.4 General policy on nongovernmental travel.

As a general policy, the aviation organizations of the Armed Forces shall not be placed in a position of competing with United States commercial transportation. Therefore, in no case will air transportation under the provisions of the two paragraphs immediately above be provided on any given route if, in the opinion of the Departments of the Army, Navy or Air Force, United States civil air carriers adequate to handle the traffic are in operation on the route.

SUBCHAPTERS G THROUGH L—[RESERVED]

SUBCHAPTER M—MISCELLANEOUS

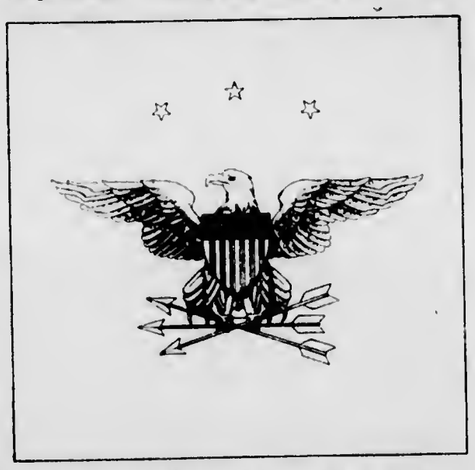
PART 251—PROCUREMENT INSPECTION STAMPING

§ 251.1 Procurement inspection stamping.

(a) Materiel which is government inspected at origin or place of manufacture shall be stamped with the appropriate DOD procurement inspection approval stamp. Such stamping will indicate to government personnel that the materiel has been government inspected and approved for further processing, shipping or subsequent acceptance

(b) The stamping of each individual item is neither required nor prohibited. Ordinarily, the stamping of shipping containers, shipping documents or lot routing tickets adequately serves to provide the necessary indication of inspection status and to control or facilitate the movement of materiel.

(c) The only two authorized forms of DOD procurement inspection approval stamping are:



(1) Stamping to indicate complete compliance with inspection requirements (The square stamp)

(2) Stamping to indicate partial compliance with inspection requirements. (The circle stamp)

(d) When a DOD procurement inspection approval stamp is affixed to any materiel, it shall not be construed to mean that the materiel has or has not been accepted by the government.[1]

(e) The use of the DOD Procurement Inspection Approval Stamps will be governed by the following procedures:

(1) *Complete (Square) Inspection Approval Stamp.* This stamp shall be used by or at the direction of the government inspector to identify prime or sub-contract materiel which has successfully passed complete inspection. Complete inspection approval stamping shall identify for government personnel materiel which is in complete conformance with all inspection requirements applicable to the materiel at the time and place of inspection. Complete inspection approval stamping involving any items, parts or components identified previously for partial inspection approval shall establish that the materiel which was once partially approved has subsequently received complete inspection approval. One imprint of the square stamp will serve to void multiple partial approvals.

(2) *Partial (Circle) Inspection Approval Stamp.* This stamp shall be used by or at the direction of the government inspector to identify prime or sub-contract materiel which has successfully met only some portion of the inspection requirements applicable to the materiel at the time and place of inspection. Partial inspection approval stamping shall identify for government personnel materiel which complies with all inspection requirements applicable at the time and place of inspection, excepting those listed as uninspected on the Materiel Inspection Receiving Report (DD Form 250 series), packing list or comparable document.

(f) The designs of the DOD Procurement Inspection Approval Stamps are shown in this section. Unauthorized use of these stamps is prohibited.

(Sec. 202, 61 Stat. 500, as amended; 5 U.S.C. 171a)

[1] When materiel has been determined to be in conformance with the contract requirements, acceptance on behalf of the government shall ordinarily be accomplished by the execution, and delivery to the contractor, of the acceptance certificate on the applicable inspection and receiving report form, i. e. DD Form 250, DD Form 1155, or Standard Form 44. Refer to Armed Services Procurement Regulation, Section XIV, Part II, Acceptance, for full details regarding government acceptance.

PART 253—PROCUREMENT INSPECTION POLICIES AND PROCEDURES FOR ITEMS COVERED BY MILITARY AND FEDERAL SPECIFICATIONS

Sec.

253.1 Purpose.
253.2 Definitions.
253.3 Policies.
253.4 Situations warranting the execution of particular examinations and tests by the Government.
253.5 Factors influencing extent of Government inspection.
253.6 Standard procedures for Government verification inspection.
253.7 Implementation.
253.8 Review and evaluation of the supplier's inspection procedures.
253.9 Inspection and calibration of the supplier's gages, measuring and test equipment.
253.10 Examination of the supplier's inspection records.
253.11 Performance of product verification inspection by the Government.

AUTHORITY: §§ 253.1 to 253.11 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314.

§ 253.1 Purpose.

In furtherance of the quality assurance concept and policy specified in Department of Defense Instruction 4155.6, "Department of Defense Quality Assurance Concept and Policy," this part establishes uniform Department of Defense policies and procedures for procurement inspection for items covered by military and Federal specifications.

§ 253.2 Definitions.

Terms used in this part are defined in MIL–STD–109, "Inspection Terms and Definitions."

§ 253.3 Policies.

(a) *Supplier responsibilities for inspection.* (1) Except as provided in subparagraph (2), of this paragraph, the supplier shall be required to perform the examinations and tests set forth in the specifications to substantiate conformance of supplies to specification requirements.

(2) Certain inspection requirements may be executed by the Government when it is not advisable to specify that the particular examinations and tests be performed by the supplier. In such cases, these examinations and tests to be performed by the Government shall be explicitly identified in the specification or contract. (Section 253.4 identifies some of the specific situations for which it is advisable that examinations and tests be performed by the Government.)

(3) Suppliers shall either (i) have available adequate test facilities for executing specific prescribed tests, or (ii) make arrangements for the utilization of suitable test facilities.

(4) Records of examinations and tests performed by the supplier shall be maintained by the supplier and made available for use by the Government for the duration of time specified in the contract.

(5) The supplier shall be responsible for compliance with all requirements of the specification and all other technical requirements of the contract.

(b) *Government responsibilities for inspection.* (1) The Government inspector shall make optimum use of the inspection records of examinations and tests performed by or for the supplier in accordance with the quality assurance provisions of commodity specifications, and other pertinent inspection records, in determining acceptability of supplies.

(2) Procurement inspection by the Government to verify the supplier's compliance with specification requirements and other technical requirements of the contract, shall be so planned as to promote adequate assurance of quality by the most efficient utilization of the inspection resources of the military departments. (Section 253.5 identifies specific factors influencing the extent of Government inspection.)

(3) Where the specification or contract requires the supplier to conduct particularly expensive tests involving destruction of supplies, extended periods of time for conducting the tests or other factors contributing to high testing costs, etc., these tests shall be coordinated for simultaneous supplier and Government accomplishment to the maximum extent practicable to preclude the need for subsequent independent Government verification testing.

(4) Government inspection to determine compliance with any requirements of the specification not covered under the quality assurance provisions and other technical requirements of the contract shall be conducted to the extent deemed necessary by the military inspecting activity having cognizance at the supplier's plant.

§ 253.4 Situations warranting the execution of particular examinations and tests by the Government.

While the execution of inspection requirements prior to submission of supplies to the Government normally will be the responsibility of the supplier (see paragraph (a)(1) § 253.3), under certain conditions, it is advisable to state in the specification or contract the particular examinations and tests to be performed by the Government. The following are specific situations for which it may be desirable to designate explicitly in the specification or contract, examination and testing solely by the Government:

(a) Test requirements which necessitate the use of specialized test equipment or facilities not ordinarily available in suppliers' plants or commercial laboratories, e. g. ballistic testing of ammunition, environmental tests, simulated service tests;

(b) Inspection to determine qualification of a supplier's product for inclusion on a Qualified Products List;

(c) Pre-production, pilot-lot or pilot model examination and testing, either at a Government installation or at the supplier's plant.

§ 253.5 Factors influencing extent of Government inspection.

The extent of Government inspection to verify the supplier's compliance with the quality assurance provisions of the commodity specification and with other technical requirements of the contract shall be adjusted to reflect the following factors:

(a) The possible effect of failure of the item on the safety of personnel;

(b) The tactical or strategic importance of the item;

(c) The complexity of the item and the need for high reliability of the item and its components;

(d) The pertinency, completeness and reliability of the supplier's inspection records;

(e) The previous quality history of the supplier's product;

(f) The quantity and technical specialties of available Government inspection manpower;

(g) Technical importance of the item; and

(h) The unit cost of the item.

§ 253.6 Standard procedures for Government verification inspection.

To promote uniformity in Government verification inspection of suppliers' compliance with the quality assurance provisions of specifications and other technical requirements of the contract, the following aspects of verification inspection shall be treated in accordance with the standard procedures contained in §§ 253.8, 253.9, 253.10 and 253.11:

(a) Review and evaluation of the supplier's inspection procedures;

(b) Inspection and calibration of the supplier's gages, measuring and test equipment;

(c) Examination of the supplier's inspection records; and

(d) Performance of product verification inspection by the Government.

§ 253.7 Implementation.

Within ninety (90) days after date of this part, each of the military departments shall submit two copies of the proposed implementing instructions to the Assistant Secretary of Defense (Supply and Logistics) for approval. The policies specified under § 253.3(a), relating to supplier responsibilities for inspection shall be implemented as follows:

(a) *New, revised and amended specifications.* For new specifications and those requiring revision or amendment for other reasons, a statement of supplier responsibilities shall be included in section 4 of the specification.

(b) *Existing specifications in military and Federal series.* When new procurement is initiated for items covered by existing specifications that do not contain a statement of supplier responsibilities, such a statement shall be included in invitations for bids and in subsequent contracts.

After the proposed implementing instructions are approved, the military departments will be advised by memorandum of the date for publication of the approved instructions.

§ 253.8 Review and evaluation of the supplier's inspection procedures.

In reviewing and evaluating the supplier's inspection procedures for determination of his conformance to the detailed sampling, examination and testing procedures prescribed in the specification and contract, the elements specified below shall be included in the review and evaluation by the Government inspector:

(a) *Examination procedures.* (1) Observation of the supplier's procedures concerning lot formation and segregation requirements when specified:

(2) Observation of the supplier's sampling procedures or unit-by-unit examination (see Supply and Logistics Handbook H–105, dated April 27, 1954, "Administration of Sampling Procedures for Acceptance Inspection," for established basic principles of sampling inspection);

(3) Determination that the supplier's examination includes all of the various characteristics or defects listed in the specification or contract and that examination procedures comply with any special gaging and instrumentation requirements;

(4) Review to determine that the acceptability criteria (e. g. acceptance numbers from appropriate sampling plans of MIL–STD–105 corresponding with the specified Acceptable Quality Levels (AQL) are as specified; and

(5) Review of supplier's screening procedures when acceptability criteria for sampling inspection are not satisfied.

(b) *Test procedures.* (1) Observation of the supplier's procedures concerning lot formation and segregation requirements when specified;

(2) Observation of the supplier's sampling procedures or unit-by-unit testing (see Supply and Logistics Handbook H–105);

(3) Review of supplier's schedule and procedures to determine that all required tests are included and to determine that testing methods, analyses and apparatus conform to specification or contract requirements;

(4) Review to determine that acceptability criteria for sampling for testing are in conformance with specification or contract requirements; and

(5) Review of supplier's 100 percent re-test procedures when acceptability criteria for sampling are not satisfied and 100 percent retest is appropriate.

§ 253.9 Inspection and calibration of the supplier's gages, measuring and test equipment.

In inspecting the supplier's inspection equipment, the Government inspector will determine that the supplier has available and utilizes correctly gaging, measuring and test equipment of required accuracy and that the instruments are of proper type and range to make measurements of the required accuracy. The supplier will have available a set of master gages, standards and appropriate instruments for regularly scheduled calibration of his inspection equipment. Records of such regularly scheduled calibration will be maintained by the supplier and made available for review by the Government. Periodically, the calibration of gages, standards and instruments will be checked.

§ 253.10 Examination of the supplier's inspection records.

The Government inspector will examine the supplier's records of examinations and tests in order to determine that these records are pertinent and complete regarding the detailed requirements of the specification and contract. The inspection record form should include provision for entering information on appropriate item identification, lot size, acceptability criteria, results of examination or tests expressed as attributes or variables data and disposition of the materiel as in conformance or nonconformance to acceptability criteria established in the specification or contract.

§ 253.11 Performance of product verification inspection by the Government.

Product inspection by the Government inspector to verify the supplier's compliance with the quality assurance provisions of the specification and other technical contract requirements, shall be conducted to establish that:

(a) *The supplier's inspection records are reliable.* The Government inspector will perform complete or partial re-inspection on either all of the supplier's sample units represented on the records or a sample of these units to establish the reliability of the supplier's inspection records.

(b) *The supplier's inspection records represent true product quality.* The Government inspector will select, independently of the supplier, samples from submitted lots for examination and tests to substantiate that the supplier's inspection records represent the true quality of the product.

PART 255—DEPARTMENT OF DEFENSE POLICIES AND PROCEDURES FOR ASSURING THE QUALITY OF PRODUCTION OF COMPLEX SUPPLIES AND EQUIPMENT

Sec.

255.1 Purpose.
255.2 Applicability.
255.3 Background.
255.4 Policy.
255.5 Minimum requirements for contractors' regulation of quality.
255.6 Documentation.
255.7 Special requirements.
255.8 Minimum requirements for military agencies' inspection practices.

AUTHORITY: §§ 255.1 to 255.8 issued under Chapter 145, 10 U.S.C.

§ 255.1 Purpose.

The purpose of the policies and procedures set forth in this part is to establish uniform and economical practices for determining the acceptability of complex supplies and equipment.

§ 255.2 Applicability.

(a) This part is applicable to the Departments of the Army, Navy and Air Force in the performance of procurement inspection of all supplies and equipment, except (1) standard commercial items, and (2) items for which the policies and procedure included in Part 253 of this chapter (22 F.R. 4254), (DoD Inst. 4155.8, "DoD Procurement Inspection Policies and Procedures for Items Covered by Military and Federal Specifications," May 7, 1957), provide adequate and economical assurance of product acceptability. Ordinarily, the following types of items are included within the scope of this part:

(1) Equipment of complex design, such as aircraft, ships, tanks and guided missiles;

(2) Major components of equipment, such as fire control or navigating systems, engines, turbines and rocket motors;

(3) Parts of these components, such as assemblies, accessories or pieces, when application of this policy is technically or economically desirable.

(b) Departmental Secretaries are authorized to exempt specific contracts from the provisions of this part when this policy is incompatible with the technical objective of the contract, required project management flexibility, or military urgency. Appropriate arrangements shall be made to assure that exceptions to the provisions of this Instruction are subject to effective administrative control at the Secretarial level.

§ 255.3 Background.

Because of configuration, innumerable design characteristics, and life and reliability requirements, complex supplies and equipment are not amenable to adequate evaluation by inspection and testing only. Complex supplies and equipment must be produced under regulated conditions if adequate assurance of quality is to be realized. Systematic control of manufacturing processes by the producer is an essential prerequisite for assuring the quality of such items. Likewise, it is essential that the Government verify systematically that such control is, in fact, established and exercised by contractors.

§ 255.4 Policy.

(a) Contracting officers shall require by contract that suppliers establish and maintain quality control over manufacturing processes of complex equipment.

(b) Contracting officers shall indicate by contract clause, exhibit, or specification reference, the essential prerequisites necessary for the control of the quality of manufacturing and shall include in such contract clause, exhibit or specification, as a minimum, the requirements listed in §§ 255.5 and 255.6.

(c) Military inspection agencies shall verify the adequacy of contractors' quality control and shall incorporate into inspection management the procedures outlined in § 255.8.

§ 255.5 Minimum requirements for contractors' regulation of quality.

Contracting officers shall require that contractors establish and maintain quality control measures appropriate for the product involved. These quality control measures shall be applicable to:

(a) Manufacturing processes for the purpose of assuring that the product is continuously produced in accordance with technical requirements (e.g., pertinent design, proprietary and operational instructions).

(b) Drawings and changes so that manufacturing methods and operations reflect current technical requirements.

(c) Testing and inspection so that practices and equipment provide the

means for optimum evaluation of characteristics subjected to inspection or test.

(d) Fabrication and delivery of products so that nonconforming products are not inadvertently tendered to the Government.

§ 255.6 Documentation.

Contracting officers shall require that contractors establish and maintain quality control measures for documentation. The contractors' measures shall effectively control the preparation, authorization, use and disposition of instructions and records pertinent to quality.

§ 255.7 Special requirements.

Contracting officers' requirements for contractors' regulation of quality need not be limited only to the provisions of §§ 255.5 and 255.6.

§ 255.8 Minimum requirements for military agencies' inspection practices.

Each military agency's program for evaluation of a contractor's control of quality shall encompass:

(a) Systematic planning of the military agency's inspection operations, including:

(1) Identification of the specific products, processes and procedures listed in §§ 255.5 and 255.6 to be subjected to Government examination, as well as identification of the specific characteristics of such products, processes or procedures to be observed;

(2) Provisions for appropriate distribution of the agency's efforts between inspection of products and inspection of the contractor's methods regulating quality.

(b) Maintenance of suitable inspection records by the military agency that reflect:

(1) The nature of all surveillance and inspection actions, together with the number of observations made and the number and type of deficiencies found;

(2) Decisions regarding the acceptability of the products, the processes and the procedures, together with action taken to correct deficiencies found;

(3) Distribution of inspection effort by the military agency.

(c) Management action which:

(1) Is based on analysis of contractor and Government (i) product inspection data and (ii) methods inspection data;

(2) Assures that inspection manpower and facilities are used as effectively as possible;

(3) Assures that in-service product deficiency and failure information received from the using military agencies is effectively analyzed and that necessary corrective action is initiated expeditiously and reviewed for effectiveness.

The inspection practices for military agencies need not be limited to practices required by this section.

PART 257—DEPARTMENT OF DEFENSE ORIGIN PROCUREMENT INSPECTION OF SUBSISTENCE

Sec.
257.1 Purpose.
257.2 Applicability.
257.3 Objectives.
257.4 Assignment.
257.5 Inspection costs.
257.6 Inspection administration.

AUTHORITY: §§ 257.1 to 257.6 issued under sec. 2202, 70A Stat. 120; 10 U. S. C. 2202. Interpret or apply secs. 2451–2456, 70A Stat. 138–140; 10 U. S. C. 2451–2456.

§ 257.1 Purpose.

This part establishes the Department of Defense policy concerning the utilization of the subsistence inspection and grading services and facilities of the Department of Agriculture in origin inspection incident to subsistence procurements.

§ 257.2 Applicability.

The provisions of this part are applicable to the Departments of the Army, Navy (including the Marine Corps), and Air Force. The Department of Agriculture has agreed to carry out the intent of this part.

§ 257.3 Objectives.

Maximum utilization of existing subsistence inspection and grading services of the Department of Agriculture by the Department of Defense is desired to eliminate overlapping and duplication of such services in processing plants, and to effect economies and efficiencies in carrying out the functions of the Government.

§ 257.4 Assignment.

(a) The Single Manager for subsistence is responsible for determining that wholesale stocks of subsistence originating in processing plants comply with the sanitary standards prescribed by the Department of Defense and, in accordance with the provisions of this part, for arranging for the inspection, grading and acceptance of wholesale stocks of subsistence procured for the military departments. Such inspection and grading shall be performed to the satisfaction of the Single Manager.

(b) To accomplish the objectives outlined in § 257.3 within the continental limits of the United States, the Single Manager for subsistence shall:

(1) Make maximum practical use of the Department of Agriculture subject, however, to prior requirements for retention of an adequate food inspection workload to train Veterinary Services personnel and to provide a base for rotation between CONUS and overseas.

(2) Utilize the Veterinary Services to establish an adequate verification inspection program to protect the interest of the Department of Defense.

(3) Adjust plant assignments whenever the interest of economy or efficiency will be served.

(c) The provisions of § 257.4(b) apply to the following categories:

(1) Fresh fruits and vegetables.

(2) Processed fruits and vegetables and related items, including frozen fruits and vegetables.

(3) Grain products.

(4) Meats, meat products and dairy products.

(5) Miscellaneous subsistence not enumerated above or included in paragraph (e) of this section.

(d) The Single Manager for subsistence will continue to utilize the poultry inspection and grading services of the Department of Agriculture in accordance with the terms of the currently existing agreement between them. This agreement provides that in all instances where, at the time of a Single Manager contract award for poultry and poultry products, the Department of Agriculture maintains continuous inspection and grading of poultry and poultry products by Government employees qualified to perform all inspection and grading necessary to assure compliance with contract requirements, such inspection and grading will be performed by the Department of Agriculture.

(e) The Single Manager for subsistence shall perform or arrange for performance of origin procurement inspection of subsistence in those instances where the Department of Agriculture does not provide this service under the provisions of paragraphs (b), (c) and (d) of this section, in accordance with paragraph VI. D. of DoD Directive 5160.11, "Single Manager Assignment for Subsistence."

(f) The following subsistence items shall be inspected by the Single Manager for subsistence or by his designees:

(1) Water foods.

(2) Assembly, unit packaging and shipping of combat, operational and survival rations.

(3) Coffee and tea.

§ 257.5 Inspection costs.

With the exception of the ante-mortem, post-mortem and sanitary inspection incident to red-meat vendors which are performed in accordance with federal statutes and funded by appropriated funds, the Department of Agriculture shall be reimbursed by the Single Manager for all costs of inspection and grading services performed on Single Manager subsistence procurements.

§ 257.6 Inspection administration.

Inspection and grading services performed by the Department of Agriculture for the military departments shall be reported in accordance with prescribed military inspection procedures with a minimum of paperwork. Inspection and acceptance stamps of the Department of Agriculture shall be accepted by all military departments. The Single Manager for subsistence shall fully cooperate in familiarizing Department of Agriculture inspection personnel with military inspection administrative details.

PART 260—PREFERENCE TO BLIND PERSONS IN OPERATING VENDING STANDS

Sec.
260.1 Purpose.
260.2 Background.
260.3 Definitions.
260.4 Policy.

AUTHORITY: §§ 260.1 to 260.4 issued under sec. 1, 49 Stat. 1559, as amended; 20 U. S. C. 107.

§ 260.1 Purpose.

To establish uniform policies for assuring preference to blind persons in operating vending stands on Federal property under the jurisdiction of the Department of Defense.

§ 260.2 Background.

It is the purpose of the Randolph-Sheppard Vending Stand Act to provide blind persons with remunerative employment so as to stimulate efforts by them to make themselves self-supporting. To achieve this purpose, the head of each department or agency of the Government is required after consultation with the Secretary of Health, Education, and Welfare and with the approval of the President to prescribe regulations which would assure preference to certain licensed blind persons to operate vending stands on Federal property, subject to the qualifications prescribed by that Act.

§ 260.3 Definitions.

The following definitions are applicable to this part:

(a) "Federal property" means any building, land, or other real property owned, leased, or occupied by any department or agency of the United States or any instrumentality wholly owned by the United States, or by any department or agency of the District of Columbia or any Territory or possession of the United States.

(b) "Installation" means land and improvements thereon, under the control of the Departments of the Army, Navy or Air Force, which have been established by order of any such department, and at which functions of these departments are administered.

(c) "Jurisdiction" includes control of the maintenance, operation and protection of Federal property.

(d) "Vending machine" is any coin-operated machine which automatically vends or delivers tangible personal property.

(e) "Vending stand" includes such shelters, counters, shelving, display, and wall cases, refrigerating apparatus, and other appropriate auxiliary equipment as are necessary for the vending of merchandise.

§ 260.4 Policy.

(a) The Secretaries of the Army, Navy and Air Force are authorized to permit the construction, establishment or operation of vending stands on military or naval installations or other Federal property under their jurisdiction. Such permission may be granted under a revocable license in which the conditions for occupancy are set forth clearly.

(b) Where a vending stand may be properly and satisfactorily operated by a blind person, the Secretaries of the Army, Navy and Air Force shall give preference as to the operation of such a vending stand to a blind person licensed by a state agency as provided in the Randolph-Sheppard Vending Stand Act. The Secretaries shall provide for cooperation with the appropriate state licensing agency in selecting the type, locations or relocation of vending stands to be operated by licensed blind persons. The foregoing preference may be denied or revoked if it is determined by the local Commanding Officer:

(1) That existing security measures relative to location of the vending stand or to the clearance of the blind operator thereof cannot be followed;

(2) That vending stand standards relating to appearance, safety, sanitation, and efficient operation cannot be met;

(3) That for any other reasons the interests of the United States would be adversely affected or the Department of Defense would be unduly inconvenienced thereby.

(i) Loss of revenue by reason of granting a rent-free permit for operation of a vending stand by a licensed blind person shall not be the basis for denying such permit. However, the permit will not be granted if to do so would seriously affect the primary mission of the Department of Defense by reducing revenue below the point which is necessary for the maintenance of a reasonably adequate morale and welfare program.

Certain types of nonappropriated fund operations such as post exchanges, motion pictures, and restaurants have traditionally been used by the Department of Defense to foster morale and welfare of those engaged in the defense effort. Revenue from these activities is used to supplement appropriated funds in conducting a well rounded morale and welfare program. No permits should be granted that will place the morale and welfare program in jeopardy.

(c) The preference established in paragraph (b) of this section shall be protected from the unfair or unreasonable competition of vending machines. No vending machine shall be located within reasonable proximity to a vending stand operated by a licensed blind person if the vending machine vends articles of a type sold at such stand except that where local needs require the placement of such a vending machine, operation of and the income from such vending machine shall be assumed by the blind vending stand operator.

(d) So far as feasible, items sold at vending stands operated by the blind will consist of newspapers, periodicals, confections, tobacco products, articles dispensed automatically or in containers or wrappings in which they are placed before receipt by the vending stand, and such other suitable articles as may be approved for each vending stand location.

PART 262—CONTRIBUTIONS OF FEDERAL FUNDS TO THE STATES UNDER THE NATIONAL DEFENSE FACILITIES ACT OF 1950, AS AMENDED

Sec.
262.1 Background.
262.2 Policies and procedures.
262.3 Authority of DOD agencies.

AUTHORITY: §§ 262.1 to 262.3 issued under secs. 2231–2238, 70A Stat. 120–123; 10 U. S. C. 2231–2238.

§ 262.1 Background.

(a) The enactment into law of the National Defense Facilities Act of 1950, 64 Stat. 829, established enabling legislation to provide facilities for the training of all Reserve Components of the Armed Forces. 69 Stat. 593 amended certain of the provisions of 64 Stat. 829. The policies promulgated herein are concerned with section 3(b) and 3(c) of the act, as amended, which authorize contributions of Federal funds to the several States and Territories of the United States, Puerto Rico and the District of Columbia (referred to in this part as the State).

(b) The act, as amended, provides for contributions of Federal funds to the State as the Secretary of Defense shall determine to be necessary:

(1) To expand, rehabilitate, or convert facilities owned by such State to the extent required for the joint utilization of such facilities;

(2) To expand, rehabilitate, or convert facilities owned by such State to the extent made necessary or to acquire, construct, expand, rehabilitate, or convert such additional facilities as he shall determine to have been made essential, by any conversion, redesignation, or reorganization of a unit or units of the National Guard of the United States or the Air National Guard of the United States, requested or authorized by the Secretary of the Army or the Secretary of the Air Force, respectively;

(3) For the acquisition, construction, expansion, rehabilitation or conversion by such State of such additional facilities that have been made essential by any increase in the strength of the National Guard of the United States or the Air National Guard of the United States.

(c) It is recognized that many existing State-owned or controlled facilities contain certain types of space, such as drill halls, which were not being fully utilized because of limited support space, such as administrative offices, storage space, locker rooms, etc. Contributions of Federal funds to the State for the expansion of these facilities to provide this additional space will insure the maximum fiscal economy through the full and joint utilization of common space to the maximum extent practicable.

(d) It is also recognized that many existing State-owned or controlled facilities cannot physically accommodate certain equipment involved upon conversion, redesignation or reorganization of the organizational units previously assigned to those facilities. A provision of 69 Stat. 593 (see paragraph (b) (2) of this section) will relieve the States of the inequitable burden of financing the cost of physical changes in existing facilities made necessary by such organizational changes requested or authorized by the Federal Government.

(e) An additional purpose of the act is to authorize contributions to the State for the construction or acquisition of additional facilities. This will relieve, in some measure, the inequitable burden placed upon the several States through the increase in the number of units and the strength of units of the National Guard over that which existed prior to World War II.

§ 262.2 Policies and procedures.

(a) Each project toward which a contribution is granted by the Federal Government under the authority of the act, as amended, shall be covered by an agreement between the United States and the State. The purpose of such agreement is to delineate the equities and obligations involved and thereby assure not only a clear understanding of these obligations but definitely to establish these equities.

(b) The following policies are to be used as a guide in negotiating and executing agreements with States in the implementation of sections 3 (b) and 3 (c) of the act, as amended:

(1) All work authorized pursuant to section 3 (b) or 3 (c) of the act, as amended, shall be done in accordance with the laws of the State in which the project is located, and under the supervision of officials of such State, subject to inspection and approval by the Secretary of Defense, or his delegate. Provisions definitive of such inspection and approval shall be included in said agreement, to accomplish the purpose of assuring that the work performed toward which the Federal contribution is made complies with the plans, specifications, criteria and standards approved for the project by the Secretary of Defense, or his delegate. Except for supervision of a project, which function is reserved by law to State officials, the services of the Chief of Engineers or the Chief of the Bureau of Yards and Docks may be utilized to the extent mutually agreed by the State and the Military Department concerned.

(2) A separate agreement shall be entered into between the State and the Federal Government for each project covering the terms, conditions, equities and obligations of the parties.

(3) The State, as defined in section 7 (c) of the act, as amended, shall certify that it has the legal authority and the necessary funds to accomplish its share of the project, that it will furnish evidence satisfactory to the Department of Defense of a perfected title to, or other adequate property interest in, acceptable and suitable real estate, and that such real estate is located in an area appropriate, under local laws and ordinances relating to location and construction, to the use for which the facilities are intended.

(4) Plans, specifications and cost estimates shall be approved by the Federal Government.

(5) The agreement shall remain in full force and effect for the fixed term of years which represents the estimated useful life of the facility.

(6) When a facility is to be jointly utilized:

(i) The agreement shall identify the space, both within and outside the building or buildings, which is to be maintained and reserved for the exclusive use of those Reserve Components that are designated by the Federal Government;

(ii) The agreement shall identify the space, both within and outside the building or buildings, which is to be utilized in common by all Reserve Components assigned to the facility;

(iii) The agreement shall prescribe the extent of collaboration between the State and the Federal Government in the selection of the site location and the orientation of the facilities to be jointly and exclusively utilized by those Reserve Components which are designated by the Federal Government;

(iv) The agreement shall prescribe the costs to be borne by the Federal Government and by the State in maintaining the common use space, both within and outside the building or buildings, and in general administrative expense for janitorial and similar service. Each such agreement shall take cognizance of the net proceeds derived from leasing the facility or other arrangements and other income in accordance with section 4 (e) of the act, as amended;

(v) The agreement shall prescribe generally for the time and extent of the use by the various components, and prescribe the method of resolving conflicts in schedules for use of the facilities.

(7) Insofar as it is determined at the time the Federal contribution is made that it is impracticable for the State and the Federal Government to delineate the extent of the spaces to be jointly and exclusively utilized by those Reserve Components designated by the Federal Government, the agreement shall contain a covenant on the part of the State substantially as follows:

> To make such facility available for joint utilization to the extent that the State shall hereafter deem it to be practicable.

In the event it is necessary to apply the concept of a "Master Agreement" contemplating future individual agreements with respect to specific projects, such "Master Agreement" shall contain an affirmative covenant on the part of the State in substantially the following form:

> At the time each contribution is made by the Government, to negotiate concerning the extent to which the facility covered thereby will be made available for joint utilization as the term is defined in section 7 (e) of the National Defense Facilities Act of 1950, as amended.

(8) At no time during the term of the agreement shall such State permit any disposition or use to be made of such facility which will interfere with its use for the administration and training of units of the Reserve Components of the Armed Forces of the United States, or in time of war or national emergency of other units of the Armed Forces of the United States or any other use by the Federal Government.

(9) The State shall take necessary action, to the extent of its power or authority, to prohibit utilization by outside interests (such as adjacent land owners, public utility corporations, etc.) that would interfere with the use of the facility for its intended purpose.

(10) The State shall be required to maintain and preserve the facility in a state of good repair except that the Federal Government may contribute to the cost of maintenance to an extent commensurate with the joint utilization of the facility by those Reserve Components which are designated by the Federal Government. The agreement shall specify the basis for determining the extent of such contribution by the Federal Government. Each such agreement shall take cognizance of the net proceeds derived from leasing the facility or other arrangements and other income in accordance with section 4 (e) of the act, as amended. (See subparagraph (6) of this paragraph.)

(11) Where the State accomplishes the project by contract, the State shall let such contract in accordance with the laws of such State, and under regulations in current use by the Federal Government insofar as the application of such regulations by supervisory officials of the State is not precluded by nor inconsistent with the State laws. All contracts, subcontracts and change orders shall be subject to prior approval by the Federal Government.

(12) The Federal Government shall determine what costs incurred or to be incurred by the State are allowable under the terms and conditions of the agreement. When so requested by the State, such determination shall be made prior to the execution of any contract by the State, and the State shall be advised thereof in writing, subject to conformance with applicable Department of Defense policies, criteria, and standards.

(13) The State shall be required to maintain an accounting system which is acceptable to the Federal Government with respect to the construction work, as well as to the subsequent maintenance and operation of those facilities toward which the Federal Government contributes or will contribute funds for such maintenance and operation including those facilities to be jointly utilized by other Reserve Components.

(14) The contribution of funds by the Federal Government to the State shall be in accordance with a system whereby the Federal Government maintains adequate control of the expenditure of such funds until payment is due the contractor for work already completed. Payments, however, may be made periodically as work progresses, and the Federal share of the funds will be obligated upon the approval of the construction contract by the Federal Government, and will be made available in accordance with established fiscal procedures.

(15) The appropriate legal authority of the State shall certify that in his opinion the agreement is legal and binding and that its execution is duly authorized, and, upon request of the Federal Government, the State shall furnish evidence of its authority to enter into the agreement.

(16) The agreement shall contain other clauses which, in the opinion of the cognizant Military Department and the State, are required to more specifically delineate the equities and obligations of both the State and Federal Government and which are not in conflict with the policies enumerated herein.

§ 262.3 Authority of DOD agencies.

Certain authority vested in the Secretary of Defense by the act, as amended, and as referred to in this part, has been delegated to certain officials in the Department of Defense. See 21 F.R. 1749, Mar. 21, 1956.

PART 264—INTERNATIONAL INTERCHANGE OF PATENT RIGHTS AND TECHNICAL INFORMATION

Sec.
264.1 Purpose and cancellation.
264.2 Scope.
264.3 Background.
264.4 Policy.
264.5 Claims for compensation.

AUTHORITY: §§ 264.1 to 264.5 issued under the Mutual Security Act of 1954, as amended (22 U.S.C. 1750 et seq).

§ 264.1 Purpose and cancellation.

The purpose of this part is to restate Department of Defense policy concerning the international interchange for defense purposes of patent rights and technical information. DOD Directive 2000.3, "Technical Property Interchange Agreements", dated April 15, 1954, is hereby superseded and cancelled. Delegation published at 19 F.R. 2523 is cancelled.

§ 264.2 Scope.

This part applies to the activities of all Department of Defense personnel involved in the international interchange for defense purposes of patent rights and technical information. The policy prescribed herein applies to unclassified as well as classified information, owned by the United States Government or privately owned, but does not apply to patents, patent applications, and technical information in the field of atomic energy.

§ 264.3 Background.

(a) Pursuant to the provisions of the Mutual Security Act of 1954, as amended, and of predecessor legislation superseded by that Act, the United States has entered into agreements for the Interchange of Patent Rights and Technical Information for Defense Purposes with Australia, Belgium, France, the Federal Republic of Germany, Greece, Italy, Japan, The Netherlands, Norway, Turkey, and the United Kingdom. The agreements, which are published in the Treaties and Other International Act Series, are basically similar in substance but are not identical. Under the agreements:

(1) Each government undertakes to facilitate the interchange of privately owned patent rights and of technical information through the medium of commercial relationships, to the extent permitted by the laws and security requirements of the contracting governments.

(2) When technical information is supplied by one government to the other for information only, the recipient government undertakes to treat the information as disclosed in confidence and to use its best endeavors to ensure that the information is not dealt with in any manner likely to prejudice the rights of the owner to obtain patent or similar statutory protection.

(3) When technical information supplied by one government to the other discloses an invention which is the subject of a patent or patent application held in secrecy in the country of origin, the recipient government undertakes to accord similar treatment to a corresponding patent application filed in that country.

(4) When privately owned technical information is released by one government to the other and the recipient government uses or discloses the information, the owner shall, subject to the extent that the owner may be entitled thereto under the applicable law and subject to arrangements between the contracting governments regarding the assumption as between them of liability for compensation, receive prompt, just and effective compensation for such use and for any damages resulting from such use or disclosure.

(5) Each government is entitled to use for defense purposes without cost any invention which the other government (including government corporations) owns or to which it has the right to grant a license to use, except to the extent that there may be liability to any private owner of an interest in the invention.

(b) Each of these agreements establishes a Technical Property Committee, consisting of a representative of each contracting government, whose function it is to consider and make recommendations to the contracting governments on all matters relating to the subject of the agreement and to assist where appropriate in the negotiation of commercial or other agreements for the use of patent rights and technical information in the military assistance program.

(1) The Patent Advisor assigned to the Defense Staff of the U.S. Mission to the North Atlantic Treaty Organization and European Regional Organizations (USRO), Paris, France, is the United States representative to the Technical Property Committees in Europe. The J–4, Hq, United States Forces Japan, Tokyo, Japan is the United States representative to the United States-Japanese Technical Property Committee. A member of the Office of Assistant General Counsel, International Affairs, Office of the Secretary of Defense, is the United States representative to the United States-Australian Technical Property Committee. The appropriate representative should be consulted on all problems dealing with patent rights, technical information and related matters under the agreements.

(2) These representatives receive policy guidance from the Department of Defense. The Assistant Secretary of Defense for International Security Affairs is responsible within the Department of Defense for transmitting such policy guidance through appropriate channels. Guidance transmitted for the United States representative in Europe shall be forwarded to the Defense Advisor, USRO; guidance transmitted for the United States representative in Japan shall be transmitted to the Commanding General, United States Forces Japan. Such guidance is formulated, where appropriate, in the Interagency Technical Property Committee for Defense. The Interagency Technical Property Committee comprises representatives of the Departments of Defense, State, Commerce and Justice, the Government Patents Board, and the International Cooperation Administration. A representative of the Assistant Secretary of Defense for International Security Affairs is the Chairman of this Committee. An Industry Advisory Committee established by the Department of Commerce furnishes advice upon request to the Interagency Technical Property Committee, and assists in the dissemination of information with respect to the interchange of patent rights and technical information for defense purposes.

(c) Department of Defense problems arising in the United States in connection with the interchange of patent rights and privately owned technical information should be referred to the patent activity of the appropriate Military Department.

§ 264.4 Policy.

It is the policy of the Department of Defense to encourage and facilitate international interchanges of patent rights and technical information to further the common defense of the United States and friendly nations. In achieving this purpose, the following principles shall be observed.

(a) Classified military information shall be released only through Government channels and only when consistent with the National Disclosure Policy, or when approved as an exception to that policy.

(b) In accordance with the Congressional policy prescribed by section 413(a) of the Mutual Security Act of 1954, as amended (22 U.S.C. 1933(a)), and pursuant to the bilateral agreements referred to in § 264.3, commercial relationships shall be utilized whenever appropriate and to the maximum extent feasible in order to encourage the participation of private enterprise in the Mutual Security Program, to relieve the Department of Defense of administrative burdens, and to reduce the costs to the United States of such interchanges.

(c) In accordance with section 414 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1934), the utilization of commercial channels for the exportation of unclassified privately owned technical information relating to articles designated as arms, ammunition, and implements of war in the United States Munitions List shall be subject to the regulations issued by the Secretary of State pursuant to section 414 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1934) (Title 22, Code of Federal Regulations, Chapter I, Subchapter M). (The term "technical data" is used in those regulations to describe technical information relating to such articles).

(d) Technical information which might be privately owned may be released under paragraph (e) (1) or (2) of this section by Department of Defense Agencies to foreign governments if any one of the following conditions are met:

(1) The owner expressly consents to the proposed release;

(2) The United States, by contract or otherwise, has acquired or is entitled to acquire, the information under circumstances which permit the proposed release; or

(3) The Secretary of the Military Department concerned, or his designee, determines, under the authority of the Mutual Security Act of 1954, as amended, that:

(i) The exigencies of the requirement for release to further the common defense do not allow sufficient time to obtain the consent of the owner; or

(ii) The owner refuses consent and the best interests of the United States would be served by the release.

(e) In accordance with the provisions of the agreements referred to in § 153.3, the release to foreign governments by Department of Defense agencies of technical information which might be privately owned shall normally be in accord with the following two step procedure:

(1) Release for information only.

(2) Permission for manufacture, or use, for defense purposes.

(f) (1) All technical information, whether privately owned or government owned, released to a foreign government by Department of Defense Agencies shall be marked with the following restrictions:

1. This information is accepted for defense purposes only.

2. This information shall be accorded substantially the same degree of security protection as such information has in the United States.

3. This information shall not be disclosed to another country without the consent of the United States.

(2) When technical information which might be privately owned is released for information only, the restrictive marking shall also contain these additional notations:

4. This information is accepted upon the understanding that it might be privately owned.

5. This information is accepted solely for the purpose of information and shall accordingly be treated as disclosed in confidence. The recipient Government shall use its best endeavors to ensure that the information is not dealt with in any manner likely to prejudice the rights of the private owner thereof to obtain patent or other like statutory protection therefor.

6. The recipient Government shall obtain the consent of the United States if it desires that this information be made available for manufacture, or use, for defense purposes.

(g) When technical information which might be privately owned is released under the procedures set forth herein, the owner, if known, shall be furnished:

(1) Notice of the release;

(2) The identity of the recipient, if not contrary to security regulations;

(3) Notice that the recipient has been advised that the information might be privately owned; and

(4) Notice of the restrictions to which the release is subject.

§ 264.5 Claims for compensation.

(a) With respect to interchanges in furtherance of the purposes of the Mutual Security Act of 1954, as amended, section 506 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1758) provides the exclusive remedy for compensation for infringement within the United States of a patent issued by the United States and for damage resulting from the disclosure by the United States of privately owned technical information.

(b) The Secretaries of the Military Departments are hereby authorized to exercise the power and authority conferred by section 506 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1758) to enter into agreements with claimants in full settlement and compromise of any claim against the United States thereunder, subject to such rules and regulations, if any, as the Secretary of Defense may promulgate from time to time. The Secretaries of the Military Departments are authorized to make successive redelegations in writing of this power and authority to any officer, employee, board or agent of their respective departments.

(c) Funds appropriated for military assistance pursuant to the Mutual Security Act of 1954, as amended, which have been made available to a Military Department may be used to settle claims under section 506 of the Mutual Security Act of 1954, as amended (22 U.S.C. 1758). In addition, in those cases where the provisions of 10 U.S.C. 2386 are applicable, funds appropriated for a Military Department available for making or procuring supplies may be used to settle such claims.

PART 266—NATIONAL INDUSTRIAL RESERVE REGULATIONS

Sec.

Subpart A—General

INTRODUCTION

266.100 Scope of §§ 266.100 to 266.107.
266.101 Purpose of regulations in this part.
266.102 Applicability of regulations in this part.
266.103 Effective date of regulations in this part.
266.104 Amendment of regulations in this part.
266.105 Procedures for implementing the regulations in this part.
266.106 Delegations of authority.
266.107 Periodic reports to the Secretary of Defense.

DEFINITIONS OF TERMS

266.201 Definitions.
266.201–1 Act.
266.201–2 National Industrial Reserve.
266.201–3 Excess industrial property.
266.201–4 Machine tool.
266.201–5 Industrial manufacturing equipment.
266.201–6 Industrial plant.
266.201–7 Nonprofit educational institution or training school.
266.201–8 National Security Clause.
266.201–9 Transfer.
266.201–10 Disposal.
266.201–11 Transferee.
266.201–12 Disposal agency.

DELEGATIONS OF AUTHORITY

266.300 Scope of §§ 266.300 to 266.304.
266.301 Delegation of authority by the Secretary of Defense.
266.302 Action by the Assistant Secretaries of Defense; subdelegation.
266.303 Redelegation to Secretaries of military departments.
266.304 Delegation of authority by the Administrator of General Services.

Subpart B—Procedures for Designation and Maintenance of Properties in the National Industrial Reserve

DESIGNATION

266.350 Scope of §§ 266.350 to 266.354.
266.351 Designation of excess industrial properties under the control of disposal agencies.
266.351–1 Reports.
266.351–2 Notice of designation.
266.351–3 Effective date of designation.
266.351–4 Recommendation of property to be designated for National Industrial Reserve.
266.352 Designation of excess industrial properties under the control of transferees.
266.352–1 Property subject to the National Security Clause.
266.352–2 Effective date.
266.352–3 Continuation of property in the Reserve upon termination of lease.
266.353 Property not subject to National Security Clause, designation of, for future inclusion in the Reserve.
266.354 Records.

MAINTENANCE

266.400 Scope of §§ 266.400 to 266.404–2.
266.401 Engineering surveys.
266.402 Periodic inspections.
266.403 Special reports.
266.404 Maintenance standards.
266.404–1 Plants.
266.404–2 Machine tools and industrial manufacturing equipment.

Subpart C—The National Security Clause and Procedures for Transfers of Property

THE NATIONAL SECURITY CLAUSE

266.450 Scope of §§ 266.450 to 266.454.
266.451 Short title.
266.452 Use of the National Security Clause in instruments of transfer.
266.453 Text of the National Security Clause.
266.453–1 National Security Clause for deeds of real property.
266.453–2 National Security Clause for leases of real property.
266.453–3 National Security Clause for sales of personal property.
266.454 Modifications in National Security Clause.

DISPOSALS OF PROPERTY SUBJECT TO THE NATIONAL SECURITY CLAUSE

266.500 Scope of §§ 266.500 to 266.506.
266.501 Specification of National Security Clause.
266.502 Modification of National Security Clause.
266.503 Qualifications of transferees.
266.504 Negotiation of terms of disposition.
266.504–1 Responsibility of head of disposal agency.
266.504–2 Negotiations by General Services Administration.
266.505 Disposal procedures.
266.506 Documentation.

TRANSFERS OF PROPERTY TO GENERAL SERVICES ADMINISTRATION

266.550 Scope of §§ 266.550 to 266.554.
266.551 Certification of unsalability and transfer directive.

Sec.
266.551–1 Determination by head of disposal agency.
266.551–2 Disposition or transfer by Secretary of Defense directive.
266.551–3 Limitation on necessity for modification of conditions.
266.552 Transfer of possession, accountability and responsibility.
266.553 Documentation.
266.554 Transfer of machine tools and industrial manufacturing equipment.

TRANSFERS OF PROPERTY FOR USE OF, OR OPERATION BY, OTHER GOVERNMENTAL DEPARTMENTS AND AGENCIES

266.600 Scope of §§ 266.600 to 266.606.
266.601 Request for transfer.
266.602 Terms of transfer.
266.603 Direction to transfer.
266.604 Accountability and responsibility.
266.605 Inspection and reports.
266.606 Return of property.

LOAN OF PROPERTY IN THE NATIONAL INDUSTRIAL RESERVE TO NONPROFIT EDUCATIONAL INSTITUTIONS AND TRAINING SCHOOLS

266.650 Scope of §§ 266.650 to 266.654.
266.651 Application for loan of property.
266.652 Investigation and report by General Services Administration.
266.653 Action by Secretary of Defense, conditions of loan.
266.654 Authorization to General Services Administration.

DISPOSITION OF EXCESS INDUSTRIAL PROPERTY FREE OF NATIONAL SECURITY CLAUSE WHEN NO LONGER REQUIRED FOR NATIONAL INDUSTRIAL RESERVE

266.700 Scope of §§ 266.700 to 266.701–2.
266.701 Relinquishment or waiver of National Security Clause.
266.701–1 Property under control of disposal agency.
266.701–2 Property under control of a transferee.

AUTHORITY: §§ 266.100 to 266.701–2 issued under sec. 213, 61 Stat. 505, as amended; 5 U. S. C. 171h.

Subpart A—General

INTRODUCTION

§ 266.100 Scope of §§ 266.100 to 266.107.

Sections 266.100 to 266.107 set forth (a) introductory information pertaining to this part (its purpose, applicability, effective date, and arrangement), and (b) instructions for implementing and amending this part.

§ 266.101 Purpose of regulations in this part.

The regulations in this part, issued by the Secretary of Defense, establish for the Department of Defense, the General Services Administration, and disposal agencies of the Government, policies and procedures relating to the establishment and administration of the National Industrial Reserve under the authority of the National Industrial Reserve Act of 1948, Public Law No. 883, 80th Congress (referred to in this subpart as the "act").

§ 266.102 Applicability of regulations in this part.

The regulations in this part shall apply to the administration of all property in the National Industrial Reserve, and to all transfers and dispositions of property into and out of the National Industrial Reserve which may be effected on or after the effective date of the regulations in this part. It shall also apply, to such extent as is practicable, to transfers and dispositions of property effected prior to the effective date of the regulations in this part but shall not be construed to invalidate any action taken or any transfer, disposition, or other transaction effected prior to such effective date. Rules, regulations and directives of the Department of Defense, the General Services Administration, and disposal agencies of the Government or of any department or subdivision of any of them, affecting property in the National Industrial Reserve not in conflict with the regulations in this part, as from time to time amended, shall remain in full force and effect. Anything in this subpart to the contrary notwithstanding, the regulations in this part shall have no application to property of the Army, Navy, or the Air Force which has not heretofore, or is not hereafter, determined to be surplus to its needs and responsibilities by the Department having jurisdiction thereover.

§ 266.103 Effective date of regulations in this part.

The regulations in this part shall be effective on and after April 1, 1949.

§ 266.104 Amendment of regulations in this part.

The regulations in this part may be amended from time to time by the Secretary of Defense. Unless otherwise specifically provided in any amendment, compliance therewith shall not be mandatory until thirty days after the date of its issuance, although compliance shall be authorized from such date.

§ 266.105 Procedures for implementing the regulations in this part.

The Administrator of General Services, and the head of any disposal agency may implement the regulations in this part by prescribing for their respective departments or agencies detailed procedures which are not inconsistent with the regulations in this part. Copies of such procedures shall in each instance be forwarded to all other interested departments or agencies. Questions of interpretation of the regulations in this part shall be resolved by the Secretary of Defense.

§ 266.106 Delegations of authority.

The Secretary of Defense, the Administrator of General Services, and the head of any disposal agency may to the extent permitted by law, delegate, and provide for the sub-delegation of, the authority and administrative functions imposed upon each of them respectively by the act or by the regulations in this part.

§ 266.107 Periodic reports to the Secretary of Defense.

For the purposes of the report required to be submitted by the Secretary of Defense to the Congress on April 1 of each year under section 12 of the act, the Administrator of General Services and the head of each disposal agency having control of properties in the National Industrial Reserve shall, on or before February 1 of each year, submit to the Secretary of Defense a report of: (a) All of the property under his control in the National Industrial Reserve as of January 1 of such year; (b) the properties which have been received by him or certified for transfer to him during the preceding twelve months to become a part of the National Industrial Reserve; (c) the physical condition of each of the properties in the National Industrial Reserve; (d) the probability of disposal of each of such properties under the terms of the National Security Clause; (e) the approximate dates when determination as to disposability of each of such properties will be made; and (f) such recommendations as he may wish to make with respect to the administration of the properties under his control, or with respect to the need for amendment of the act or related legislation.

DEFINITIONS OF TERMS

§ 266.201 Definitions.

When used in the regulations in this part terms shall be defined as set forth in §§ 266.201–1 to 266.201–12.

§ 266.201–1 Act.

The term "act" shall mean the National Industrial Reserve Act of 1948 (Public Law 883, 80th Congress, Ch. 811, Second Session, act of July 2, 1948).

§ 266.201–2 National Industrial Reserve.

The term "National Industrial Reserve" shall mean (a) that excess industrial property which has been or shall be sold, leased, or otherwise disposed of by the United States subject to a National Security Clause, (b) that excess industrial property of the United States which, not having been sold, leased or otherwise disposed of subject to a National Security Clause, shall be transferred to the General Services Administration to be held or disposed of under the provisions of the act, and (c) that excess industrial property under the control of any executive department or independent establishment in the executive branch of the Government, including any wholly-owned Government corporation, which is not required for its immediate needs and responsibilities as determined by the head of such department or establishment and which shall be designated by the Secretary of Defense pursuant to section 4 of the act as a part of the National Industrial Reserve.

§ 266.201–3 Excess industrial property.

The term "excess industrial property" shall mean (a) any machine tool, (b) any industrial manufacturing equipment, and (c) any industrial plant, which tool, equipment, or plant is under the control of any executive department or independent establishment in the executive branch of the Government, including any wholly-owned Government corporation, and which is not required for its immediate needs and responsibilities, as determined by the head thereof.

§ 266.201–4 Machine tool.

The term "machine tool" shall mean any tool which is operated by power and is partly or wholly automatic.

§ 266.201–5 Industrial manufacturing equipment.

The term "industrial manufacturing equipment" shall mean any equipment which is used in the production of an article or product, including all tools and equipment connected with a production line or assembly line, but excluding equipment used solely for nonproductive or administrative purposes. (For example, a dolly used for moving parts from one operation to another on the factory floor would be included within this definition, whereas a general-purpose truck used for collections and deliveries outside of the plant would be excluded.)

§ 266.201–6 Industrial plant.

The term "industrial plant" shall mean any plant (including structures on land owned or leased to the United States substantially equipped with machinery, tools, and equipment) which is capable of economic operation as a separate and independent industrial unit and which is not an integral part of an installation of a private contractor. For purposes of this definition the following factors shall be taken into consideration:

(a) Special structural design establishing special purpose—for example, vaulted ceilings for aircraft assembly plants, establishing purpose, regardless of tooling or other equipment.

(b) The removal of tools and equipment for safe storage shall not be considered to change the character of a structure as an industrial plant, if otherwise meeting the requirements of this definition.

(c) The presence of assembly lines, machine bases, casting pots, special furnaces, or similar installations, shall be given consideration in determining whether a structure is substantially equipped, within this definition.

(d) A plant designed and equipped for one or more, but not all, of the manufacturing processes in the production of a particular material or product, may be an "independent industrial unit," within this definition.

(e) The lease, sale, or transfer of a portion or division of an industrial plant need not be considered to change the character of such industrial plant within this definition, if such portion or division can be restored to its former status by exercise of rights reserved to the Government.

(f) The lease or sale, subject to a National Security Clause, of the land (including protection areas) or underground improvements of an ordnance plant shall not be considered to change the character of such ordnance plant as an industrial plant within this definition.

§ 266.201–7 Nonprofit educational institution or training school.

The term "nonprofit educational institution or training school" means any school, training school, school system, library, college, university, research foundation, or other similar institution, organization, or association which is organized for the primary purpose of carrying on instruction or research in the public interest, and which is not organized or operated for profit.

§ 266.201–8 National Security Clause.

The terms "National Security Clause" and "the Clause", shall mean (a) those terms, conditions, restrictions, and reservations which are presently contained in instruments of transfer or lease of property to assure that such property will be available for purposes of national defense; and (b) those terms, conditions, restrictions and reservations formulated pursuant to the act, to be included in instruments of transfer of property in the National Industrial Reserve, in order to assure that such property will be available for purposes of national defense.

§ 266.201–9 Transfer.

The term "transfer" shall mean transfer or other disposition of property in the National Industrial Reserve made to another department or agency of the Government, pursuant to the provisions of the act.

§ 266.201–10 Disposal.

The term "disposal" shall mean any sale, lease, loan, or other disposition of property in the National Industrial Reserve made to a person other than a department or agency of the Government, pursuant to the provisions of the act.

§ 266.201–11 Transferee.

The term "transferee" shall mean any person, department, or agency to whom property in the National Industrial Reserve shall be transferred or disposed of either by sale, lease, loan or otherwise pursuant to the act.

§ 266.201–12 Disposal agency.

The term "disposal agency" shall mean any Governmental department, agency, or corporation having the authority to dispose of property which is excess to its needs, as well as any agency which has been created for the purpose of disposing of any excess Government property.

DELEGATIONS OF AUTHORITY

§ 266.300 Scope of §§ 266.300 to 266.304.

Sections 266.300 to 266.304 deal with the delegations of the authority of (a) the Secretary of Defense and (b) the Administrator of General Services, under the act.

§ 266.301 Delegation of authority by the Secretary of Defense.

(a) Under date of August 13, 1953, the Secretary of Defense by DOD Directive Number 5131.1, paragraph 17b, made the following delegation to the Assistant Secretary of Defense (Properties and Installations): Administering the responsibilities of the Secretary of Defense with respect to the reserve of plants provided for in the National Industrial Reserve Act of 1948 (Pub. Law 883, 80th Cong.).

(b) Under date of August 13, 1953, the Secretary of Defense by DOD Directive Number 5126.1 Paragraph 16 made the following delegation to the Assistant Secretary of Defense (Supply and Logistics):

* * * and administering the responsibilities of the Secretary of Defense in relation to machine tool and production equipment reserves provided for in the National Industrial Reserve Act of 1948 (Pub. Law 883, 80th Cong.).

§ 266.302 Action by the Assistant Secretaries of Defense; subdelegation.

The authority delegated to the Assistant Secretaries of Defense in § 266.301 may be subdelegated to such subdivisions and agents of the offices of Assistant Secretaries of Defense as the Assistant Secretary concerned may determine.

§ 266.303 Redelegation to Secretaries of military departments.

The Assistant Secretaries may, under the authority delegated to them by the Secretary of Defense, designate the Secretary of any one of the military departments of the Department of Defense to administer the provisions of the National Security Clause applicable to a particular excess industrial property in the National Industrial Reserve in the control of a transferee and may redelegate such authority as may be required to enable such Secretary to carry out such responsibility including, without limitation, authority to consent to alterations in the premises and disposition or removal of production equipment: *Provided, however*, That the provisions of the National Security Clause applicable to the property shall not be modified or waived, nor shall any dormant estate be activated or terminated (other than by its own terms) except pursuant to a determination by the Secretary of Defense.

§ 266.304 Delegation of authority by the Administrator of General Services.

By Transmittal Letter (Manual GS–1, Volume GS 1–2) No. 26 dated January 26, 1954, the Administrator of General Services delegated (GS 1–2 203.07) to the National Industrial Reserve Division, Public Buildings Service, Central Office as follows:

(a) To prescribe policies and procedures covering the maintenance of plants in standby and preparation for layaway, and the storage of NIR tools and equipment.

(b) To transfer, lease, dispose of, or lend property in the NIR in accordance with the direction or authorizations of the Secretary of Defense under section 7 of the NIR Act.

(c) To exercise the authority contained in section 210 (a) (11) of the act.

Subpart B—Procedures for Designation and Maintenance of Properties in the National Industrial Reserve

DESIGNATION

§ 266.350 Scope of §§ 266.350 to 266.354.

Sections 266.350 to 266.354 set forth the procedures applicable to the designation by the Secretary of Defense

of excess industrial properties which are to become a part of the National Industrial Reserve under the provisions of the act. It applies to two general categories of property—Those properties which are under the control of disposal agencies, and those properties which have been disposed of by the United States to private individuals, firms, corporations or other persons, subject to a National Security Clause. It also applies to excess industrial properties which have been disposed of without National Security Clause restrictions and which at a future time may revert to the Government. Sections 266.350 to 266.354 also set forth the procedures by which the latter type of properties may be designated for future inclusion in the National Industrial Reserve.

§ 266.351 Designation of excess industrial properties under the control of disposal agencies.

§ 266.351–1 Reports.

Each disposal agency created for the purpose of disposing of excess Government property generally, shall within 90 days after the effective date of the regulations in this part, furnish the Secretary of Defense with a statement of the industrial plants held by it for disposal, and shall on the 1st days of February and August of each year submit a report to the Secretary of Defense of additional industrial plants received by it for disposal during the six months' period ending the preceding January 1 and July 1, respectively, and of all industrial plants previously designated for the reserve which shall have been disposed of by it, during the said six months. The head of every other disposal agency shall (a) within 90 days after the effective date of the regulations in this part, furnish the Secretary of Defense with a statement of all of the industrial plants under its control which have been determined not to be required for the immediate needs and responsibilities of such agency, and (b) notify the Secretary of Defense immediately upon a determination in the future that an industrial plant under its control is no longer required for the immediate needs and responsibilities of such agency. The Secretary of Defense will specify the inventories and lists of property to be furnished to it by the heads of disposal agencies having machine tools, industrial manufacturing equipment or other personal property under their control as a part of the National Industrial Reserve.

§ 266.351–2 Notice of designation.

In the case of property under the control of a disposal agency and to be designated for the National Industrial Reserve by imposition of National Security Clause restrictions upon its transfer, the Secretary of Defense will designate such property by a written notice to the head of the disposal agency having control of the property of its determination that such property is to become a part of the Reserve, and shall prescribe the provisions of the National Security Clause which shall be applicable to it.

§ 266.351–3 Effective date of designation.

From and after the date of notice of designation, the property specified in such notice shall be deemed to become a part of the National Industrial Reserve.

§ 266.351–4 Recommendation of property to be designated for National Industrial Reserve.

The Secretaries of the military departments of the Department of Defense, the Director of the Office of Defense Mobilization, the Chairman of the Atomic Energy Commission, and the head of any other governmental department or agency having functions involving the national defense, may on behalf of his respective department, board, commission, or agency recommend the designation of specific excess industrial property, whether or not under his control, for inclusion in the National Industrial Reserve. Such recommendation should include a statement of the reasons that are believed to justify the proposed designation and should be forwarded to the Secretary of Defense.

§ 266.352 Designation of excess industrial properties under the control of transferees.

§ 266.352–1 Property subject to the National Security Clause.

The properties heretofore disposed of which may be included in the National Industrial Reserve under section 3(a) of the act by virtue of having been disposed of by the United States subject to a National Security Clause will be designated by the Secretary of Defense. Such designation will be contained in a notice to the transferee to whom such property has been disposed of and to the head of the department or agency which has authority to administer the clause. The notice shall state that the terms and conditions contained in the instrument of transfer for the protection of the Government have been determined to constitute a National Security Clause within the meaning of the act, and that the property has been designated to become a part of the National Industrial Reserve.

§ 266.352–2 Effective date.

From and after the date of notice of designation, the property specified in the notice shall be deemed to have become a part of the National Industrial Reserve.

§ 266.352–3 Continuation of property in the Reserve upon termination of lease.

Upon termination of a lease of property subject to a National Security Clause, the property shall continue to be a part of the National Industrial Reserve unless and until the Secretary of Defense determines that such property is no longer needed therefor, and it shall not be offered for further lease, sale, or other disposition except subject to the conditions of the National Security Clause as prescribed by the Secretary of Defense. The head of the agency responsible for disposition of such property shall, on or before the expiration of the lease, notify the Secretary of Defense of the expiration date thereof and shall in such notice recommend the modifications, if any, that in his opinion should be included in the provisions of the National Security Clause applicable to the property for purposes of further disposition.

§ 266.353 Property not subject to National Security Clause, designation of, for future inclusion in the Reserve.

With respect to property under the control of a transferee by virtue of a lease or other instrument reserving an interest in the Government, but not containing a National Security Clause, the Secretary of Defense may designate such property to be included in the National Industrial Reserve at the expiration of the lease or vesting in possession of such interest in the Government. Such designation shall be in writing addressed to the head of the agency responsible for disposition of the property, and shall include a statement of the terms and conditions of the National Security Clause which shall be included in any future sale, lease, or other disposition of property.

§ 266.354 Records.

The Secretary of Defense will cause a list of the properties constituting the National Industrial Reserve to be maintained in sufficient detail and appropriately classified so as to indicate the nature, number, costs, and condition of the properties in the National Industrial Reserve, together with a statement of justification for their retention. Such records need not, however, include detailed or itemized inventories of small tools and equipment or other numerous articles although such information will be kept available to the extent that it is in existence. The Secretary of Defense will also maintain copies of the pertinent provisions of all instruments of transfer of properties in the National Industrial Reserve, including particularly the provisions of the National Security Clauses applicable thereto.

MAINTENANCE

§ 266.400 Scope of §§ 266.400 to 266.404–2.

Sections 266.400 to 266.404–2 deal with the subject of surveys and inspections of properties in the National Industrial Reserve, standards of maintenance of such properties, and provisions for the enforcement of such standards.

§ 266.401 Engineering surveys.

The General Services Administration shall, when requested by the Secretary of Defense, make an engineering survey of any industrial manufacturing plant that has been designated by the Secretary of Defense for transfer to the General Services Administration as a part of the reserve. Such survey may include a determination of (a) the present maintenance condition and status of the principal components of the plant, (b) the estimated cost of putting it in standby status and annual cost of maintenance in such status, (c) the cost of such rehabilitation and conversion as may be necessary to put the plant into full wartime operating status, (d) the estimated length of time that such rehabilitation and conversion would require, and (e) any other related information that may be requested by the Secretary of Defense. Such survey should also include recommendations of the General Services Administration as to the standards of maintenance to be applied, recommended maintenance standards to be presented in successive steps so as to be readily adaptable to the amount of funds available for purposes of maintenance and rehabilitation of properties in the National Industrial Reserve. The General Services Administration shall submit four copies of each such engineering survey to the Secretary of Defense upon its completion.

§ 266.402 Periodic inspections.

The Secretary of Defense shall cause periodic inspections to be made of properties in the National Industrial Reserve, and such inspections shall be made not less often than annually for each such property. These inspections shall be conducted in such a manner and in such detail as to indicate whether or not the properties are being properly maintained in accordance with the prescribed standards, and whether the covenants of the National Security Clause are being performed.

§ 266.403 Special reports.

In the event that a survey or inspection reveals the existence of a breach of one or more of the covenants of the National Security Clause, or conditions which if permitted to continue would adversely affect the availability of a particular property for national defense, a special report of such breach or condition shall be given by the department, agency, or other person making such survey or inspection to the Secretary of Defense immediately upon the discovery thereof, and notice shall also be given to the transferee in control of the property.

§ 266.404 Maintenance standards.

§ 266.404–1 Plants.

The maintenance responsibilities of disposal agencies with respect to properties in the National Industrial Reserve which are under their control are as follows:

(a) Police protection against theft of property, destruction, and vandalism;

(b) Weather protection, with special emphasis on roofage, windows, water seepage, and drainage problems;

(c) Additional maintenance functions and standards for specific plants to be prescribed by the Secretary of Defense after consideration of the engineering surveys of such plant and other relevant factors.

§ 266.404–2 Machine tools and industrial manufacturing equipment.

Except as noted below, maintenance standards of machine tools and industrial manufacturing equipment which has not been disposed of shall be in accordance with the MIL–STD–107 as it may be amended from time to time. These standards may be modified in their application to specific properties by directive of the Secretary of Defense or, with the approval of the Secretary of Defense, by the agency in control of the property. Except as otherwise provided in the applicable National Security Clause, maintenance of such tools and equipment disposed of for use and operation by the transferee shall be in accordance with standards commensurate with sound business practice, having due regard for the Government's interest in preserving the productive capacity of such property.

Subpart C—The National Security Clause and Procedures for Transfers of Property

THE NATIONAL SECURITY CLAUSE

§ 266.450 Scope of §§ 266.450 to 266.454.

Sections 266.450 to 266.454 deal with the text of the National Security Clause, its incorporation in instruments of transfer, and procedures for its modifications, amendment, revocation, or termination.

§ 266.451 Short title.

The material set forth in § 266.453 shall be known and referred to as the "Standard National Security Clause, revised".

§ 266.452 Use of the National Security Clause in instruments of transfer.

(a) A National Security Clause shall be incorporated in all deeds, bills of sales, leases or other instruments transferring property in the National Industrial Reserve. Contracts of sale or letters of intent, executed in contemplation of such transfers, shall be made on the express condition that the instrument of transfer contain a National Security Clause. In incorporating the National Security Clause in instruments of transfer, the substance of the appropriate clause set forth in § 266.453 shall be used, but may be modified as necessary to conform to the context of the rest of the instrument. For leases of personal property, the real estate lease clause (§ 266.453–2) may be converted.

(b) Nothing in the National Security Clause shall be construed to preclude Government disposal agencies from including whatever terms they deem necessary or desirable in instruments of transfer so long as these other terms do not vitiate the Government's rights and benefits under the National Security Clause. In the case of leases, especially, provisions will have to be included for the purpose of protecting the Government's ownership generally, as distinguished from provisions aimed merely at preserving its national security interests. It is assumed these would include, without limitation, provisions with respect to payment of rent, taxes and charges, etc., insurance, subleasing and assigning, maintenance, nuisances, indemnity against liability, surrender upon expiration of the lease in the same or equivalent condition etc., and a right of entry in the Government to terminate the lease upon the lessee's breach of condition, bankruptcy or insolvency, etc.

§ 266.453 Text of the National Security Clause.

§ 266.453–1 National Security Clause for deeds of real property.

NATIONAL SECURITY CLAUSE

Whereas, the Secretary of Defense pursuant to section 4 (1) of the National Industrial Reserve Act of 1948 (Pub. Law 883, 80th Cong.) has designated the premises hereby conveyed a part of the National Industrial Reserve for the production of [insert designation of end item or basic material as the case may be] at an annual capacity of [insert quantity] and, whereas, pursuant to section 4 (4) of that act, it has authorized their disposal subject to a National Security Clause formulated in accordance with that Act; now therefore, in consideration of their respective obligations under this instrument, the parties hereto, for themselves, their heirs, successors, and assigns, do hereby enter into the terms, covenants, and conditions hereinafter set forth which shall, together with this paragraph, be collectively known and referred to as the National Security Clause.

ARTICLE I. *Definitions.* For purposes of this Clause the following definitions will apply:

(a) The term "premises" means the property transferred by this instrument.

(b) The term "assigned function" means the function for which the premises have been designated a part of the National Industrial Reserve or for which they may be hereafter redesignated under Article IX hereof.

(c) The term "production equipment" means all property other than property transferred by this instrument, at any time in or appurtenant to the premises which is necessary to their assigned function or to their current operations.

(d) The term "facilities" means the sum total of the premises and the production equipment.

ART. II. *Maintenance.* The Grantee hereby covenants and agrees that it will maintain the facilities in such a manner that they can be placed, within a period of 120 days, in a condition adequate to perform the assigned function of the premises.

In addition, the Grantee covenants and agrees,

(a) That it will maintain in accordance with sound practice in the industry, normal wear and tear excepted, that part of the facilities necessary for the assigned function of the premises which is actively being used in its current operations;

(b) That it will not make any alterations to the facilities which would impair performance of the assigned function of the premises, unless each such alteration can be restored in a period of 60 days or less and the sum total thereof restored in 120 days or less; and

(c) That it will not dispose of any production equipment, or any machinery and equipment transferred as a part of the premises by this instrument, the disposal of which would impair performance of the assigned function of the premises, unless the items so disposed of are immediately replaced with equivalent items.

Provided, however, That the provisions of this Article shall not apply to timber structures and their appurtenances for more than 15 years from the date hereof, or to machinery and equipment for more than 10 years from the date hereof; and provided further, that nothing herein contained shall prevent the Grantee from relocating any machinery or equipment within the premises for the purpose of improving operating efficiency or increasing productive capacity so long as the standards of care set forth above are continually observed.

ART. III. *Defaults*—(a) *Inspections.* The Grantee and the Government mutually covenant and agree that the latter may, after reasonable prior written notice to the Grantee, inspect the facilities for the purpose of determining whether the Grantee is in default on its obligations under this Clause.

(b) *Determinations of default.* If, as a result of such inspections, the Government adjudges the Grantee in default, it shall furnish the latter a written statement setting forth in detail the grounds on which the allegations are based, following which the Grantee shall have thirty days to submit evidence to the contrary. If in the light of the evidence so presented, the Government still holds that the Grantee is in default, it shall then advise the latter of the specific defaults to be corrected and the periods of time in which each correction must be completed, such periods to be as reasonable as possible.

(c) *Repairs by the Government.* In the event the Grantee fails to correct its defaults in the times stated, the Government shall then have the right to enter the premises for the purpose of correcting the defaults; and the Grantee, or its sureties, will reimburse the Government for all costs incurred by the Government in making such corrections. The Government, or any contractor employed by the Government for the purpose, shall have such right of access to the premises or any part thereof as may be necessary to permit such repairs or replacements.

ART. IV. *Government utilization* — (a) *Negotiation of contract.* The Grantee and the Government mutually covenant and agree that, whenever the Government considers the productive capacity of the facilities necessary for national security purposes, they will jointly undertake to negotiate a contract for the Grantee to furnish from the facilities the materials or services for which the premises are designated a part of the National Industrial Reserve.

(b) *Repossession.* The Grantee hereby covenants and agrees that, in the event the Government determines such a contract is not feasible, or that the Grantee is not qualified to furnish the materials or services required, or that a mutually satisfactory contract cannot be negotiated, the Grantee will turn over to the Government full possession of the premises together with all structures, improvements, easements, rights-of-way, and other interests appurtenant thereto (including all rights-of-way over and across other property of the Grantee necessary or convenient to the operation or use of the facilities) for such time as the Government deems necessary for national security purposes. The Grantee further agrees that it will lease to the Government, upon the latter's request and for a period co-extensive with the Government's repossession of the premises, any or all of the production equipment owned or controlled by the Grantee. The Government's rights to such possession and usage, together with its right to lease properties of the Grantee hereunder, shall vest on the date set by it in written notice to the Grantee, which date shall be not less than 15 days from the date of notice thereof, and shall expire on the termination date of this National Security Clause as provided for in Article XI below.

(c) *Withdrawal by the Grantee.* The Grantee hereby covenants and agrees that, upon the date set for transfer of the premises to the Government, it will immediately undertake to restore such alterations made by it and to remove such improvements, fixtures, machinery and other equipment installed by it as the Government may direct, such undertakings to be completed in the shortest possible time, but in no event to exceed 120 days from the date of repossession unless otherwise agreed upon between the Grantee and the Government. Thereafter, the Grantee shall have no further right to enter the premises during the period of Government possession except with the prior consent of the latter. During any period of Government possession, the premises may be used, occupied, or operated for or on behalf of the Government by any government department, agency, agent, or by any tenant, contractor, or subcontractor of the Government.

ART. V. *Compensation.* The Government hereby covenants and agrees that, upon any repossession under IV (b) above, it will pay the Grantee:

(a) *At the time of repossession.* (i) Fair and reasonable compensation for all losses, not including loss of profits, incurred by the Grantee or its assignees in respect of work in process in the premises which cannot be completed because of repossession by the Government.

(ii) Fair and reasonable costs incurred by the Grantee or its assignees in complying with Article IV (c).

(b) *During each period of possession.* (i) Fair and reasonable compensation for the use of the premises as agreed on by the parties hereto at a rate not in excess of prevailing rental for similar properties.

(ii) Fair and reasonable compensation for the use of any production equipment as agreed on by the parties hereto at a rate not in excess of prevailing rental for similar properties.

(c) *Upon termination of each period of possession.* Fair and reasonable costs incident to reinstallation of machinery and equipment removed from the premises and restoration of the premises to their condition on the date of repossession by the Government, reasonable depreciation excepted.

Any failure of the parties to reach agreement as to what amounts are fair and reasonable under this Article shall be deemed a dispute of fact within the meaning of Article XIII hereof.

ART. VI. *Insurance.* The Grantee hereby covenants and agrees that the proceeds of any insurance which is required of the Grantee by the terms of this instrument, or by any other agreement between it and the Government, to be placed on the premises or any part thereof will be applied, upon damage to or destruction of the premises by fire or other insurable casualty, to a restoration of the property, unless the Grantee is expressly released from such obligation by the Government.

ART. VII. *Subsequent Transfers.* The Grantee hereby covenants and agrees not to sell, lease, mortgage, or otherwise encumber the facilities without expressly making such sale, lease, mortgage, or encumbrance subject to the provisions of this National Security Clause for the remainder of its term.

ART. VIII. *Parties.* The Grantee and the Government mutually agree that the latter, in exercising its rights and carrying out its obligations under this National Security Clause, shall act through the Secretary of Defense or such departments, agencies, or individuals as he may designate, which may include, without limitation, the Assistant Secretaries of Defense (S and L) and (P and I), Board, the Departments of the Army, Navy, or Air Force, or the General Services Administration. References in this National Security Clause to the Government shall be deemed to refer as appropriate to the Secretary of Defense or such departments, agencies, or individuals as he may designate.

ART. IX. *Redesignation of purpose and use of premises.* The Government hereby covenants and agrees that, upon a petition by the Grantee for a change in the assigned function of the premises, it will re-evaluate the defense potential of the premises, both for the purposes for which they are designated for inclusion in the National Industrial Reserve and those for which it is requested they be redesignated, and will, if it deems the interests of national security are best served thereby, and upon tender by the Grantee of whatever consideration may be requested, change their designation to that requested by the Grantee. Conversely, the Government may, on its own initiative, recommend a redesignation to the Grantee which, if acceptable to the latter, shall be put into effect. Redesignations under this paragraph may be made only by written instrument and may not be requested by the Grantee more often than once in 6 months.

ART. X. *Modification or amendment of the National Security Clause.* The Government hereby covenants and agrees that, upon a petition by the Grantee for a reconsideration of the particular applicability of any of the terms, conditions, reservations or restrictions of the National Security Clause, the Government will, if it deems the interests of national security are best served thereby, modify or amend the Clause to the degree it sees fit upon tender by the Grantee of whatever consideration may be requested. Conversely, the Government may, on its own initiative, recommend modifications or amendments to the Grantee, which, if acceptable to the latter, shall be put into effect.

ART. XI. *Termination or revocation of the National Security Clause.* The Government and the Grantee mutually covenant and agree that their respective obligations under this National Security Clause, except those of the Grantee to reimburse the Government under Article III, or of the Government to furnish compensation under Article V, and except as may be otherwise specified herein, shall terminate 20 years following the date of this instrument or, in the event the Government is in possession at that time in accordance with Article IV (b), upon release of possession by the Government to the Grantee: *Provided, however,* That the Government, at its own election, or upon a petition by the Grantee, may reconsider the necessity for continuing all or any part of the Clause in effect and shall, in the event it determines such necessity no longer exists, and upon tender by the Grantee or whatever consideration may be requested, revoke the Clause, in whole or in part, by executing and delivering to the Grantee a release, quitclaim deed, or whatever instrument is necessary to remove the encumbrance of the Clause, or of a part thereof, from the facilities.

ART. XII. *Covenants.* It is the intention of both the Grantee and the Government that these covenants shall run with the land and bind subsequent purchasers of the premises hereby conveyed: *Provided, however,* That the Grantee shall not be liable for any violation of said covenants by subsequent owners of the premises.

ART. XIII. *Disputes.* Disputes on questions of fact which cannot be resolved by agreement of the parties shall be decided by the Secretary of Defense or the instrumentality duly and expressly designated by him, whose decision shall be final and conclusive. In connection with any proceeding under this Article, the Grantee shall be afforded an opportunity to be heard and to offer evidence in support of its own case. Pending final decision of a dispute hereunder, the Grantee shall proceed diligently with the performance of its obligations under the Clause.

ART. XIV. *Recordation.* The Grantee shall forthwith cause this instrument to be duly recorded and shall furnish satisfactory evidence of such to the Government.

ART. XV. *Saving provision.* The Grantee and the Government mutually covenant and agree that nothing in this Clause shall be construed as affecting obligations of the Grantee under any other provisions of this instrument, except that, in any cases of inconsistency or ambiguity, the provisions of this National Security Clause shall, to the extent that they impose greater obligations on the Grantee, be deemed controlling.

§ 266.453–2 National Security Clause for leases of real property.

NATIONAL SECURITY CLAUSE

Whereas, the Secretary of Defense pursuant to section 4 (1) of the National Industrial Reserve Act of 1948 (Pub. Law 883, 80th Cong.) has designated the premises leased hereunder a part of the National Industrial Reserve for the production of [insert designation of end items or basic material as the case may be] at an annual capacity of [insert quantity] and, whereas, pursuant to section 4 (4) of that act, it has authorized their disposal subject to a National Security clause formulated in accordance with that act; now therefore, in consideration of their respective obligations under this instrument, the parties hereto, for themselves, their heirs, successors, and assigns, do hereby enter into the terms, covenants, and conditions hereinafter set forth which shall, together with this paragraph, be collectively known and referred to as the National Security Clause.

ARTICLE I. *Definitions.* For purposes of this Clause the following definitions will apply:

(a) The term "premises" means the property leased by this instrument.

(b) The term "assigned function" means the function for which the premises have been designated a part of the National Industrial Reserve or for which they may be hereafter redesignated under Article VIII hereof.

(c) The term "production equipment" means all property, other than property leased by this instrument, at any time in or appurtenant to the premises which is necessary to their assigned function or to their current operations.

(d) The term "facilities" means the sum total of the premises and the production equipment.

ART. II. *Maintenance.* The Lessee hereby covenants and agrees that it will maintain the facilities in such a manner that they can be placed, within a period of 120 days, in a condition adequate to perform the assigned function of the premises.

In addition, the Lessee covenants and agrees,

(a) That it will maintain in accordance with sound practice in the industry, normal wear and tear excepted, that part of the facilities necessary for the assigned function of the premises which is actively being used in its current operations;

(b) That it will not make any alterations to the facilities which would impair performance of the assigned function of the premises, unless each such alteration can be restored in a period of 60 days or less and the sum total thereof restored in 120 days or less; and

(c) That it will not dispose of any of its own production equipment, the disposal of which would impair performance of the assigned function of the premises, unless the items so disposed of are immediately replaced with equivalent items.

Provided, however, That the provisions of this Article shall not apply to timber structures and their appurtenances for more than 15 years from the date hereof, or to machinery and equipment for more than 10 years from the date hereof: *And provided further,* That nothing herein contained shall prevent the Lessee from relocating any machinery or equipment within the premises for the purpose of improving operating efficiency or increasing productive capacity so long as the standards of care set forth above are continually observed.

ART. III. *Defaults*—(a) *Inspections.* The Lessee and the Government mutually covenant and agree that the latter may, after reasonable prior written notice to the Lessee, inspect the facilities for the purpose of determining whether the Lessee is in default on its obligations under this Clause.

(b) *Determinations of default.* If, as a result of such inspections, the Government adjudges the Lessee in default, it shall furnish the latter a written statement setting forth in detail the grounds on which the allegations are based, following which the Lessee shall have thirty days to submit evidence to the contrary. If in the light of the evidence so presented, the Government still holds that the Lessee is in default, it shall then advise the latter of the specific defaults to be corrected and the periods of time in which each correction must be completed, such periods to be as reasonable as possible.

(c) *Repairs by the Government.* In the event the Lessee fails to correct its defaults in the time stated, the Government shall then have the right to enter the premises for the purpose of correcting the defaults; and the Lessee, or its sureties, will reimburse the Government for all costs incurred by the Government in making such corrections. The Government, or any contractor employed by the Government for the purpose, shall have such right of access to the premises or any part thereof as may be necessary to permit such repairs or replacements. Where the defaults are such that they jeopardize the Government's interest in the facilities, the Government may take and maintain full possession thereof, without terminating the Lessee's interest or estate therein, for the period necessary to remedy such defaults and until reimbursement therefor has been made by the Lessee.

ART. IV. *Government utilization*—(a) *Negotiation of Contract.* The Lessee and the Government mutually covenant and agree that, whenever the Government considers the productive capacity of the facilities necessary for national security purposes, they will jointly undertake to negotiate a contract for the Lessee to furnish from the facilities the materials or services for which the premises are designated a part of the National Industrial Reserve.

(b) *Repossession.* The Lessee hereby covenants and agrees that, in the event the Government determines such a contract is not feasible, or that the Lessee is not qualified to furnish the materials or services required, or that a mutually satisfactory contract cannot be negotiated, the Lessee will turn over to the Government full possession of the premises together with all structures, improvements, easements, rights-of-way, and other interests appurtenant thereto (including all rights-of-way over and across other property of the Lessee necessary or convenient to the operation or use of the facilities) for such time as the Government deems necessary for national security purposes, on the condition, however, that the Lessee's obligations to pay rent for the premises shall be suspended for the period of Government possession. The Lessee further agrees that it will lease to the Government, upon the latter's request and for a period co-extensive with the Government's repossession of the premises, any or all of the production equipment owned or controlled by the Lessee. The Government's rights to such possession and usage, together with its right to lease properties of the Lessee hereunder, shall vest on the date set by it in written notice to the Lessee, which date shall be not less than 15 days from the date of notice thereof, and shall expire on the termination date of this National Security Clause as provided for in Article X below.

(c) *Withdrawal by the Lessee.* The Lessee hereby covenants and agrees that, upon the date set for transfer of the premises to the Government, it will immediately undertake to restore such alterations made by it and to remove such improvements, fixtures, machinery and other equipment installed by it as the Government may direct, such undertakings to be completed in the shortest possible time, but in no event to exceed 120 days from the date of repossession unless otherwise agreed upon between the Lessee and the Government. Thereafter, the Lessee shall have no further right to enter the premises during the period of Government possession except with the prior consent of the latter. During any period of Government possession, the premises may be used, occupied, or operated for or on behalf of the Government by any Government department, agency, agent, or by any tenant, contractor, or subcontractor of the Government.

ART. V. *Compensation.* The Government hereby covenants and agrees that, upon any repossession under IV (b) above, it will pay the Lessee:

(a) At the time of repossession. (i) Fair and reasonable compensation for all losses, not including loss of profits, incurred by the Lessee or its assignees, in respect of work in process in the premises which could have been completed prior to normal expiration of the lease but which cannot be completed because of repossession by the Government.

(ii) Fair and reasonable costs incurred by the Lessee, or its assignees, in complying with Article IV (c), less a reasonable set-off for those that would ordinarily be incurred on normal expiration of the lease. If, however, the period of Government possession expires prior to the expiration of the lease, and the Lessee, or its assignees, resumes possession for the balance of the term, the Government will compensate the Lessee for the full amount of any set-off previously deducted.

(b) During each period of possession, fair and reasonable compensation for the use of any production equipment as agreed on by the parties hereto at a rate not in excess of prevailing rental for similar properties.

(c) Upon termination of each period of possession, fair and reasonable costs incident to reinstallation of machinery and equipment removed from the premises and restoration of the premises to their condition on the date of repossession by the Government, reasonable depreciation excepted.

Any failure of the parties to reach agreement as to what amounts are fair and reasonable under this Article shall be deemed a dispute of fact within the meaning of Article XIII hereof.

ART. VI. *Subsequent transfers.* The Lessee hereby covenants and agrees not to sub-lease, assign, mortgage, pledge, or otherwise encumber the facilities without the prior written consent of the Government and without expressly making such sub-lease, assignment, mortgage, pledge, or encumbrance subject to the provisions of this National Security Clause for the remainder of its term.

ART. VII. *Parties.* The Lessee and the Government mutually agree that the latter, in exercising its rights and carrying out its obligations under this National Security Clause, shall act through the Secretary of Defense or such departments, agencies, or individuals as he may designate, which may include, without limitation, the Assistant Secretaries of Defense (S and L) and (P and I), the Departments of the Army, Navy, or Air Force, or the General Services Administration. References in this National Security Clause to the Government shall be deemed to refer as appropriate to the Secretary of Defense or such departments, agencies, or individuals as he may designate.

ART. VIII. *Redesignation of purpose and use of premises.* The Government hereby covenants and agrees that, upon a petition by the Lessee for a change in the assigned function of the premises, it will re-evaluate the defense potential of the premises, both for the purposes for which they are designated for inclusion in the National Industrial Reserve and those for which it is requested they be redesignated, and will, if it deems the interests of national security are best served thereby, and upon tender by the Lessee of whatever consideration may be requested, change their designation to that requested by the Lessee. Conversely, the Government may, on its own initiative, recommend a redesignation to the Lessee which, if acceptable to the latter, shall be put into effect. Redesignations under this paragraph may be made only by written instrument and may not be requested by the lessee more often than once in 6 months.

ART. IX. *Modification or amendment of the National Security Clause.* The Government hereby covenants and agrees that, upon a petition by the Lessee for a reconsideration of the particular applicability of any of the terms, conditions, reservations, or restrictions of the National Security Clause, the Government will, if it deems the interests of national security are best served thereby, modify or amend the Clause to the degree it sees fit upon tender by the Lessee of whatever consideration may be requested. Conversely, the Government may, on its own initiative, recommend modifications or amendments to the Lessee which, if acceptable to the latter, shall be put into effect.

ART. X. *Termination or revocation of the National Security Clause.* The Government and the Lessee mutually covenant and agree that their respective obligations under this National Security Clause, except those of the Lessee to reimburse the Government under Article III, or of the Government to furnish compensation under Article V, and except as may be otherwise specified herein, shall terminate upon the normal expiration of the lease or 20 years following the date of this instrument, whichever is sooner: *Provided however,* That in the event the Government is in possession at that time in accordance with Article IV (b), such termination shall occur upon release of possession by the Government to the Lessee; and provided further that the Government, at its own election, or upon a petition by the Lessee, may reconsider the necessity for continuing all or any part of the Clause in effect and shall, in the event it determines such necessity no longer exists, and upon tender by the Lessee of whatever consideration may be requested, revoke the Clause, in whole or in part, by executing and delivering to the Lessee a release or whatever instrument is necessary to remove the encumbrance of the Clause, or of a part thereof, from the facilities.

ART. XI. *Disputes.* Disputes on questions of fact which cannot be resolved by agreement of the parties shall be decided by the Secretary of Defense or the instrumentality duly and expressly designated by him, whose decision shall be final and conclusive. In connection with any proceeding under this Article, the Lessee shall be afforded an opportunity to be heard and to offer evidence in support of its own case. Pending final decision of a dispute hereunder, the Lessee shall proceed diligently with the performance of its obligations under the Clause.

ART. XII. *Recordation.* The Lessee shall forthwith cause this instrument to be duly recorded and shall furnish satisfactory evidence of such to the Government.

ART. XIII. *Saving provision.* The Lessee and the Government mutually covenant and agree that nothing in this Clause shall be construed as affecting obligations of the Lessee under any other provisions of this instrument, except that, in any cases of inconsistency or ambiguity, the provisions of this National Security Clause shall, to the extent that they impose greater obligations on the Lessee, be deemed controlling.

§ 266.453–3 National Security Clause for sales of personal property.

NATIONAL SECURITY CLAUSE

Whereas, the Secretary of Defense pursuant to section 4 (1) of the National Industrial Reserve Act of 1948 (Pub. Law 883, 80th Cong.) has designated the properties hereby transferred a part of the National Industrial Reserve for the production of [insert designation of end item or basic material as the case may be] at an annual capacity of [insert quantity] and, whereas, pursuant to section 4 (4) of that Act, it has authorized their disposal subject to a National Security Clause formulated in accordance with that act; now therefore, in consideration of their respective obligations under this instrument, the parties hereto, for themselves, their heirs, successors, and assigns do hereby enter into the terms, covenants, and conditions hereinafter set forth which shall, together with this paragraph, be collectively known and referred to as the National Security Clause.

ARTICLE I. *Definitions.* For purposes of this Clause the following definitions will apply:

(a) The term "properties" as used herein means those properties (personal property) transferred by this instrument or any other properties subsequently substituted therefor by agreement of the parties and expressly made subject, by a separate written instrument, to the terms and conditions of this National Security Clause.

(b) The term "assigned function" means the function for which the properties have been designated a part of the National Industrial Reserve or for which they may be hereafter redesignated under Article IX hereof.

ART. II. *Maintenance.* The Purchaser hereby covenants and agrees that it will maintain the properties in such a manner that they can be placed, within a period of 120 days, in a condition adequate to perform their assigned function.

In addition, the Purchaser covenants and agrees,

(a) That it will maintain in accordance with sound practice in the industry, normal wear and tear excepted, such part of the properties as is necessary for their assigned function which is actively being used in its current operations; and

(b) That it will not make any alterations to the properties which would impair performance of their assigned function unless each such alteration can be restored in a period of 60 days or less and the sum total thereof restored in 120 days or less.

ART. III. *Defaults*—(a) *Inspections.* The Purchaser and the Government mutually covenant and agree that the latter may, after reasonable prior written notice to the Purchaser, inspect the properties to determine whether the Purchaser is in default on its obligations under this Clause.

(b) *Determination of default.* If, as a result of such inspections, the Government adjudges the Purchaser in default, it shall furnish a written statement to the Purchaser setting forth in detail the grounds on which it bases its allegations, following which the Purchaser shall have 30 days to submit evidence to the contrary. If in the light of the evidence so presented, the Government still holds that the Purchaser is in default, it shall then advise the latter of the specific defaults to be corrected and the periods of time in which each correction must be completed, such periods to be as reasonable as possible.

(c) *Repairs by the Government.* In the event the Purchaser fails to correct its defaults in the times stated, the Government shall then have the right to correct such defaults; and the Purchaser, or its sureties, shall reimburse the Government for all costs incurred by the Government in making such corrections. The Government, or any contractor employed by the Government for the purpose, shall have such right of access to the properties as may be necessary to permit making such repairs.

ART. IV. *Government utilization*—(a) *Negotiation of Contract.* The Purchaser and the Government mutually covenant and agree that, whenever the Government considers the productive capacity of the properties necessary for national security purposes, they will jointly undertake to negotiate a contract for the Purchaser to use the properties in furnishing the materials or services for which the properties are designated a part of the National Industrial Reserve.

(b) *Repossession.* The Purchaser hereby covenants and agrees that, in the event the Government determines such a contract is not feasible, or that the Purchaser is not qualified to furnish the materials or services required, or that a mutually satisfactory contract cannot be negotiated, the Purchaser will turn over to the Government full possession of the properties and all rights of use incident thereto (including a right of entry for removal of such properties) for such time as the latter deems necessary for national security purposes. The Government's rights to such possession and usage shall vest on the date set by it in written notice to the Purchaser, which date shall be not less than 15 days from the date of notice thereof, and shall expire on the termination date of this National Security Clause as provided for in Article XI below.

(c) *Relinquishment by the purchaser.* Upon repossession by the Government, the Purchaser shall have no further right to use the properties during the period of Government possession except with the prior consent of the latter. During any such period of Government possession the properties may be used or operated for or on behalf of the Government by any government department, agency, agent, or by any tenant, contractor, or subcontractor of the Government.

ART. V. *Compensation.* The Government hereby covenants and agrees that, upon any repossession under IV (b) above, it will pay the Purchaser:

(a) At the time of repossession, fair compensation for all losses, not including loss of profits, incurred by the Purchaser or its assignees in respect of work in process which cannot be completed because of repossession by the Government.

(b) During each period of possession, fair and reasonable compensation for the use of the properties as agreed upon by the parties hereto at a rate not in excess of prevailing rental for similar property.

(c) Upon termination of each period of possession, fair and reasonable costs incident to restoration of the properties to their condition on the date of repossession by the Government, reasonable depreciation excepted, and fair and reasonable costs for their reinstallation, if required.

Any failure of the parties to reach agreement as to what amounts are fair and reasonable under this Article shall be deemed a dispute of fact within the meaning of Article XII hereof.

ART. VI. *Insurance.* The Purchaser hereby covenants and agrees that the proceeds of any insurance which is required of the Purchaser by the terms of this instrument, or by any other agreement between it and the Government, to be placed on the properties hereby conveyed or any part thereof will be applied, upon damage to or destruction of the properties by fire or other insurable casualty, to a restoration thereof, unless the Purchaser is expressly released from such obligation by the Government.

ART. VII. *Subsequent transfers.* The Purchaser hereby covenants and agrees not to sell, lease, mortgage, pledge, or otherwise encumber the properties without expressly making such sale, lease, mortgage, pledge, or encumbrance subject to the provisions of this National Security Clause for the remainder of its term, with the right to enforce such provisions expressly stated as vested in the Government.

ART. VIII. *Parties.* The Purchaser and the Government mutually agree that the latter, in exercising its rights and carrying out its obligations under this National Security Clause shall act through the Secretary of Defense or such departments, agencies, or individuals as he may designate, which may include, without limitation, the Assistant Secretaries of Defense (S and L) and (P and I), the Departments of the Army, Navy, or Air Force, or the General Services Administration. References in this National Security Clause to the Government shall be deemed to refer as appropriate to the Secretary of Defense or such departments, agencies, or individuals, as he may designate.

ART. IX. *Redesignation of purpose and use of properties.* The Government hereby covenants and agrees that, upon a petition by the Purchaser for a change in the assigned function of the properties, it will re-evaluate the defense potential of the properties, both for the purposes for which they are designated for inclusion in the National Industrial Reserve and those for which it is requested they be redesignated, and will, if it deems the interests of national security are best served thereby, and upon tender by the Purchaser of whatever consideration may be requested, change their designation to that requested by the Purchaser. Conversely, the Government may, on its own initiative, recommend a redesignation to the Purchaser which, if acceptable to the latter, shall be put into effect. Redesignations under this paragraph may be made by written instrument only and may not be requested by the Purchaser more often than once in 6 months.

ART. X. *Modification or amendment of the National Security Clause.* The Government hereby covenants and agrees that, upon a petition by the Purchaser for a reconsideration of the particular applicability of any of the terms, conditions, reservations or restrictions of the National Security Clause, the Government will, if it deems the interests of national security are best served thereby, modify or amend the Clause to the degree it sees fit upon tender by the Purchaser of whatever consideration may be requested. Conversely, the Government may, on its own initiative, recommend modifications or amendments to the Purchaser which, if acceptable to the latter, shall be put into effect.

ART. XI. *Termination or revocation of the National Security Clause.* The Government and the Purchaser mutually covenant and agree that their respective obligations under this National Security Clause, except those of the Purchaser to reimburse the Government under Article III, or of the Government to furnish compensation under Article V, and except as may be otherwise specified herein, shall terminate 10 years following the date of this instrument or, in the event the Government is in possession at that time in accordance with Article IV (b), upon release of possession by the Government to the Grantee: *Provided, however,* That the Government, at its own election, or upon a petition by the Purchaser, may reconsider the necessity for continuing all or any part of the Clause in effect and shall, in the event it determines such necessity no longer exists, and upon tender by the Purchaser of whatever consideration may be requested, revoke the Clause, in whole or in part, by executing and delivering to the Purchaser a release or whatever instrument is necessary to remove the encumbrance of the Clause, or of a part thereof, from the properties.

ART. XII. *Disputes.* Disputes on questions of fact which cannot be resolved by agreement of the parties shall be decided by the Secretary of Defense or the instrumentality duly and expressly designated by him, whose decision shall be final and conclusive. In connection with any proceeding under this Article, the Purchaser shall be afforded an opportunity to be heard and to offer evidence in support of its own case. Pending final decision of a dispute hereunder, the Purchaser shall proceed diligently with the performance of its obligations under the Clause.

ART. XIII. *Recordation.* The Purchaser shall forthwith cause this instrument to be duly recorded and shall furnish satisfactory evidence of such to the Government.

ART. XIV. *Saving provision.* The Purchaser and the Government mutually convenant and agree that nothing in this Clause shall be contrued as affecting obligations of the Purchaser under any other provisions of this instrument, except that, in any cases of inconsistency or ambiguity, the provisions of this National Security Clause shall, to the extent that they impose any greater obligations on the Purchaser, be deemed controlling.

§ 266.454 Modifications in National Security Clause.

The National Security Clause prescribed in this subpart may be modified or deviated from and specific provisions may be omitted for purposes of specific properties and transactions provided such modifications, deviations, or omissions or substance are approved by the Secretary of Defense before becoming binding upon the Government.

DISPOSALS OF PROPERTY SUBJECT TO THE NATIONAL SECURITY CLAUSE

§ 266.500 Scope of §§ 266.500 to 266.506.

Sections 251.500 to 251.506 deal with the procedures for disposing of property in the National Industrial Reserve to private individuals, firms, corporations, or other persons, subject to the National Security Clause.

§ 266.501 Specification of National Security Clause.

The Secretary of Defense may authorize disposition of specific properties, and will specify the National Security Clause and will notify the head of the disposal agency having control of each such property. If not otherwise specified, the National Security Clause formulated in this part shall be considered to be applicable.

§ 266.502 Modification of National Security Clause.

In the event that any agency charged with the disposal of excess property in the National Industrial Reserve is unable to dispose of such property because the terms of the National Security Clause imposed upon it are unacceptable without modifications and substance, the head of such agency shall promptly notify the Secretary of Defense thereof, indicating the modifications in the disposal of the property. Upon receipt of such notification, the Secretary of Defense may, in his discretion, direct what, if any, modifications shall be made in the provisions of the National Security Clause applicable to the property, which modifications may, but need not, conform to the recommendations of the head of the disposal agency.

§ 266.503 Qualifications of transferees.

In addition to any other requirements, disposals of property in the National Industrial Reserve shall be made only upon proof, satisfactory to the head of the disposal agency having control of such property, of the financial responsibility and integrity of the transferee, and of his or its ability to operate the property and knowledge of the technical problems involved.

§ 266.504 Negotiation of terms of disposition.

§ 266.504–1 Responsibility of head of disposal agency.

Except as provided in § 266.504–2, negotiations for the sale, lease, or other disposition of a property in the National Industrial Reserve shall be the responsibility of the head of the disposal agency having control of the property. The terms of such disposition shall in all cases include the provisions of the National Security Clause as specified by the Secretary of Defense for the property, with such modifications as may be approved, but in other respects may be upon such terms and conditions as shall be mutually agreed upon by the head of the disposal agency and the transferee.

§ 266.504–2 Negotiations by General Services Administration.

In the case of negotiations for the sale, lease or other disposition of a property in the National Industrial Reserve by the General Services Administration, terms and conditions negotiated by the General Services Administration, shall not become effective until they have either been approved by the Secretary of Defense or the Secretary of Defense has indicated that his approval of the particular transaction or type of transaction is not required.

§ 266.505 Disposal procedures.

Subject to the regulations in this subchapter and to the extent not inconsistent with it, disposals of property in the National Industrial Reserve subject to the National Security Clause shall be governed by the rules, regulations, and procedures established by the disposal agency having control of such property.

§ 266.506 Documentation.

Each disposal of property shall be documented in accordance with the rules, regulations and procedures of the disposal agency having control of the property, and, in addition, the Secretary of Defense shall be furnished with at least three conformed copies of all documents of transfer including any letters of intent agreements and other documents containing the commitments of the parties to enter into the transaction.

TRANSFERS OF PROPERTY TO GENERAL SERVICES ADMINISTRATION

§ 266.550 Scope of §§ 266.550 to 266.554.

Sections 266.550 to 266.554 deal with the procedures for transfers of property to the General Services Administration to be held by it as a part of the National Industrial Reserve. Such property will ordinarily come to the General Services Administration as a result of the failure of other disposal agencies to dispose of it subject to the National Security Clause or authorized modifications thereof. It may be held by General Services Administration as custodian for an indefinite period of time, or it may be transferred or disposed of by the General Services Administration in accordance with directives of the Secretary of Defense.

§ 266.551 Certification of unsuitability and transfer directive.

§ 266.551–1 Determination by head of disposal agency.

Upon a determination by the head of a disposal agency that a particular excess industrial property in the National Industrial Reserve which is under its control cannot be disposed of subject to the National Security Clause, or a National Security Clause as modified in accordance with the provisions of § 266.502, after every practicable effort has been made, he shall give written notice to the Secretary of Defense certifying that such property is not salable subject to a National Security Clause.

§ 266.551–2 Disposition or transfer by Secretary of Defense directive.

Upon receipt of a certification that a property is unsalable under the provisions of a National Security Clause, the Secretary of Defense may, in his discretion: (a) Direct the disposition of such plant in accordance with the provisions of §§ 266.600 to 266.606 or; (b) direct the certifying agency to transfer such property to the General Services Administration in accordance with the provisions of this subpart.

§ 266.551–3 Limitation on necessity for modification of conditions.

It shall not be necessary, as a condition precedent to certification, transfer or disposal under §§ 266.551–1 and 266.551–2, to seek to dispose of any property under a modified National Security Clause, or to attempt to dispose of any property for a use other than the use for which it was designated for the National Industrial Reserve.

§ 266.552 Transfer of possession, accountability and responsibility.

Transfer of possession, accountability and responsibility pursuant to directive of the Secretary of Defense in accordance with the provisions of § 266.551–2 shall be in accordance with such procedures as may be prescribed by the General Services Administration. Unless otherwise prescribed by the Secretary of Defense, transfers shall include the entire interest of the Government at the location of the property being transferred including the assignment of responsibility for administration of all agreements relating to such property; other than agreements secured by mortgage, lien, or other interests; the General Services Administration to assume the obligation of all such agreements as of the date of transfer. All such transfers shall be without reimbursement or transfer of funds and the property transferred shall continue to be held as a part of the National Industrial Reserve unless other instructions shall be received from the Secretary of Defense.

§ 266.553 Documentation.

Each transfer of property to the General Services Administration shall be documented according to procedures specified by the General Services Administration, and the Secretary of Defense shall be furnished with at least three conformed copies of all documents of transfer.

§ 266.554 Transfer of machine tools and industrial manufacturing equipment.

Machine tools and industrial manufacturing equipment which may be designated as a part of the National Industrial Reserve shall not be offered for disposal except as part of a plant which is to be disposed of, but shall be transferred to the General Services Administration in accordance with the provisions of this subpart. Transfers of such machine tools and equipment shall be accomplished without reimbursement or transfer of funds.

TRANSFERS OF PROPERTY FOR USE OF, OR OPERATION BY, OTHER GOVERNMENTAL DEPARTMENTS AND AGENCIES

§ 266.600 Scope of §§ 266.600 to 266.606.

Sections 266.600 to 266.606 deal with the procedures for transfers of property in the National Industrial Reserve in the custody of the General Services Administration to other governmental departments and agencies, to be used or operated by such other departments or agencies while the property in question continues to constitute a part of the National Industrial Reserve.

§ 266.601 Request for transfer.

The head of any governmental department or agency may present a written request to the Secretary of Defense for the transfer to his department or agency of any property in the National Industrial Reserve which is being held by the General Services Administration for the use of, or operation by, the department or agency on behalf of which the request is made. Such request shall be in writing, and shall set forth in detail the uses that are intended to be made of the property, the standard of maintenance that is contemplated, the effect of such use or operation upon the availability of the property for the purpose of national defense, and other contemplated terms and conditions of the proposed transfer. The department or agency so making a request shall furnish the Secretary of Defense with such additional information relating to the proposed use and operation of the property as the Secretary of Defense may request.

§ 266.602 Terms of transfer.

The Secretary of Defense may deny any such request, or may offer to transfer the property requested upon terms other than those contained in the request.

§ 266.603 Direction to transfer.

The Secretary of Defense may, in his discretion and without request, direct that property in the National Industrial Reserve under the control of the General Services Administration be transferred to any one of the military departments of the Department of Defense or any other department or agency, with his consent for the use of, or operation by, such department or agency, without reimbursement.

§ 266.604 Accountability and responsibility.

Upon completion of the transfer of the property, in accordance with the terms of transfer prescribed by the Secretary of Defense, and pursuant to the regulations and procedures of the disposal agency having control of the property prior to the transfer, the department or agency to which the property has been transferred shall be responsible for the the proper maintenance of the property and for its availability for purposes of national defense, as prescribed by the Secretary of Defense in the terms of transfer.

§ 266.605 Inspection and reports.

While subject to the use of, or operation by, such other governmental department or agency, the property shall be available for the engineering surveys and inspections provided for in §§ 266.400 to 266.404–2, and such department or agency shall adhere to the maintenance requirements specified in said § 266.400 and shall make such reports to the Secretary of Defense from time to time concerning the property's condition and availability, together with accounts of its operation, as may be requested by the Secretary of Defense.

§ 266.606 Return of property.

Whenever such governmental department or agency has no further need for the use or operation of property transferred to it under this §§ 266.600 to 266.606 it shall promptly notify the Secretary of Defense. Upon receipt of such notice, the Secretary of Defense shall cause a review to be made of the justification for the retention of such property in the National Industrial Reserve, and if such retention is determined to be justified, the Secretary of Defense may (a) cause it to be transferred to another department or agency for its use in accordance with terms and conditions to be prescribed, or (b) direct it to be transferred to the General Services Administration to be held by it in the National Industrial Reserve.

LOAN OF PROPERTY IN THE NATIONAL INDUSTRIAL RESERVE TO NONPROFIT EDUCATIONAL INSTITUTIONS AND TRAINING SCHOOLS

§ 266.650 Scope of §§ 266.650 to 266.654.

Sections 266.650 to 266.654 deal with the rules and procedures governing loans of property in the National Industrial Reserve by the General Services Administration to nonprofit educational institutions and training schools, as provided in the act. Such loans will be limited to certain machine tools and industrial manufacturing and laboratory equipment under the control of the General Services Administration.

§ 266.651 Application for loan of property.

The head of any nonprofit educational institution or training school as defined in § 266.201–7 may make a written application to the General Services Administration for the loan of specific machine tools or industrial manufacturing equipment for the use of such institution or school in connection with a program of instruction. The application shall specify in detail the property requested, the nature of the program, and the number, age, and qualifications of the persons expected to participate in the program.

§ 266.652 Investigation and report by General Services Administration.

Upon receipt of an application for a loan of property in the National Industrial Reserve the General Services Administration will cause an investigation to be made to determine (a) whether the applicant conforms to the definition contained in § 266.201–7, (b) the accuracy of the statements contained in the application, (c) the ability of the applicant properly to care for and maintain the property, (d) the importance of the property in question to the program of instruction, (e) the relative importance of the program as a means of training critically-needed skills, compared to the importance of preserving the productive capacity of the property for future use, and (f) such other facts as may be material. The results of such investigation will be reported by the General Services Administration to the Secretary of Defense together with its recommendation with respect to the granting or denying of the application.

§ 266.653 Action by Secretary of Defense, conditions of loan.

The Secretary of Defense may in his discretion authorize or refuse to authorize such loan. In the event that it is authorized, the loan of the property applied for will be upon terms (a) requiring the property to be fully cared for and maintained by the applicant according to such standards as the Secretary of Defense may prescribe, (b) requiring the property to be kept available for immediate return upon request to the General Services Administration or such other Governmental department or agency, or other person as the Secretary of Defense may designate, and (c) requiring the applicant to assume all costs of transportation, maintenance, and insurance of the property while subject to the loan, so that the loan will be without expense to the Government.

§ 266.654 Authorization to General Services Administration.

In the event that the Secretary of Defense approves the loan, the General Services Administration will be notified of such approval, and will be authorized to make the loan upon the conditions prescribed in § 266.653, and such other terms as the General Services Administration may prescribe.

DISPOSITION OF EXCESS INDUSTRIAL PROPERTY FREE OF NATIONAL SECURITY CLAUSE WHEN NO LONGER REQUIRED FOR NATIONAL INDUSTRIAL RESERVE

§ 266.700 Scope of §§ 266.700 to 266.701–2.

Sections 266.700 to 266.701–2 deal with procedures for disposition of property in the National Industrial Reserve when it is no longer needed for such reserve.

§ 266.701 Relinquishment or waiver of National Security Clause.

Whenever the Secretary of Defense shall determine that the retention of the productive capacity of an excess industrial property in the National Industrial Reserve (including a lesser part or interest than the entire property) is no longer essential to the national security, it will authorize the relinquishment or waiver of a part or all of the provisions of the National Security Clause applicable to such property.

§ 266.701–1 Property under control of disposal agency.

If the property is under the control of a disposal agency, the Secretary of Defense will notify the head of such disposal agency of the relinquishment or waiver of the National Security Clause, and the property shall thereafter be offered for disposition free from the provisions so relinquished or waived.

§ 266.701–2 Property under control of a transferee.

If the property has been disposed of to a transferee subject to a National Security Clause, the Secretary of Defense will relinquish or waive the National Security Clause.

PART 268—USE OF STANDARDIZATION DOCUMENTS ISSUED BY INDUSTRY GROUPS

Sec.
268.1 Purpose.
268.2 Authority.
268.3 Policy.
268.4 Definitions.
268.5 DoD participation and representation.
268.6 DoD control of DoD requirements.
268.7 Identification of approved industry documents.

AUTHORITY: §§ 268.1 to 268.7 issued under Chapter 145, Title 10, United States Code.

§ 268.1 Purpose.

This part prescribes a uniform policy for implementation of that portion of DoD Directive 4120.3 Defense Standardization Program, documents to assure the most economic employment of standardization resources.

§ 268.2 Authority.

The Defense Standardization Program is conducted under the authority of Chapter 145, Title 10, U.S.C. Responsibility for this program is assigned to the Assistant Secretary of Defense (Supply and Logistics) by DoD Directive 5126.1, (24 F.R. 6098). Administration of the Program is delegated to the Armed Forces Supply Support Center by DoD Directive 5154.14.

§ 268.3 Policy.

In furtherance of the Defense Standardization Program, it is the policy of the Department of Defense to make maximum utilization of industry effort expended in the development of standardization documents. Industry standardization documents shall be used whenever considered feasible by the cognizant technical activity in the fields of research, design, development, and acquisition of material. DoD activities are encouraged to make optimum use of the facilities of industry groups in the development of industry standardization documents having a present or potential DoD use. An industry document which has received that degree of DoD approval presently required for issuance of a coordinated Federal or military specification or standard shall be approved for use within the Department of Defense. An industry document, coordinated and approved by a military service in the same manner as that service coordinates and approves military specifications and standards for limited coordination status, shall have the equivalent status. Only complete industry standardization documents of a specified issue will be selected by DoD for either coordinated status or limited coordination status equivalent. The referencing of industry standardization documents in their entirety, or in part, in military and Federal specifications and standards is authorized.

§ 268.4 Definitions.

For purposes of this part, the following terms shall have the meanings described below:

(a) *Industry group.* A nongovernmental organization conducting professional standardization activities. (An individual or a concern organized for profit is not an industry group within the sense of this instruction.)

(b) *Industry document.* Any standardization document issued by an industry group, as herein defined, with the intent to establish common technical requirements (including requirements for a physical item, technical process, engineering practice, etc.)

§ 268.5 DoD participation and representation.

The following principles shall govern DoD participation and representation in industry groups:

(a) *Participation.* (1) Military services shall participate to the extent practicable in the work of industry groups to further the objectives of the Defense Standardization Program. Participation shall be consistent with DoD Directive 5500.2, "Policies Governing Participation of DoD Liaison Representatives in Activities of Technical Societies, Associations and Groups".

(2) Each assignee shall provide or arrange for active DoD participation in those industry group projects in which DoD has a real interest based upon a current or anticipated military requirement. An assignee shall insure that DoD participation so provided or arranged for represents the interests of all the services and is in fact a DoD representation.

(3) Each assignee will ascertain prior to providing or encouraging DoD participation, that the industry project will result in a timely document. If it is determined that the efforts of the in-

dustry group will not have a timely result, then DoD efforts should be directed toward drafting an appropriate military document.

(b) *Representation.* While adequate DoD representation in the work of industry groups is essential to the attainment of DoD standardization objectives, excessive DoD representation in terms of numbers of official DoD participants is to be discouraged. The number of persons officially representing DoD as participants in projects of an industry group shall be consistent with the importance of the project to DoD and shall be limited to that minimum needed for effective representation of DoD interests.

(c) *Coordination of DoD effort.* (1) Each assignee will avoid unnecessary duplication of effort in standardization projects, whether military or industry.

(2) It is the responsibility of an assignee to keep other interested DoD activities and the Armed Forces Supply Support Center informed of industry standardization action pertinent to the Defense Standardization Program.

(3) In partial fulfillment of this responsibility to coordinate DoD standardization effort, each assignee shall, within the area of its assignments, provide for establishment and maintenance of DoD representation on committees of industry groups for matters pertaining to standardization and the development of specifications and standards to the extent that common interest exists and actual benefit to DoD results. A copy of a list of liaison representation identifying the industry groups will be furnished the Standardization Division, AFSSC, semiannually on 30 December and 30 June.

§ 268.6 DoD control of DoD requirements.

Approval of an industry document for use in DoD procurement shall be granted only for a specified issue (see § 268.7(a)) which meets the requirements of the Department of Defense.

(a) *Approved industry documents having coordinated status.* An industry document which has received that degree of DoD approval precently required for issuance of a coordinated Federal or military specification or standard shall be approved for use within the Department of Defense. In order for an industry document to be approved for use, it must be subjected to the identical DoD administrative processes required for approval of a coordinated Federal or military specification or standard.

(1) *Existing industry documents.* With respect to existing industry documents, an assignee has the following standardization responsibilities within areas of its assignment:

(i) Select those having a potential for DoD use.

(ii) Establish projects for:

(*a*) Obtaining the requisite coordination within DoD on the documents selected;

(*b*) Obtaining such additional industry coordination as is necessary on these documents;

(*c*) Arranging for their final DoD approval; and

(*d*) Identifying them as approved industry documents in the index prescribed by § 268.7.

(2) *Proposed industry documents.* With respect to proposed industry documents, an assignee has the following standardization responsibilities within the area of its assignment:

(i) Maintain a continuing awareness of existing projects intended to result in an industry document.

(ii) Encourage industry groups to initiate new projects for documents which will satisfy a current or potential DoD requirement.

(iii) Insure active DoD participation (see § 268.5) in all projects in which DoD has a real interest based upon a current or anticipated DoD requirement.

(iv) Establish projects for:

(*a*) Obtaining formal coordination within the DoD on proposed industry documents resulting from these industry groups' projects;

(*b*) Submitting to the industry group concerned the official DoD comments on such a proposed document;

(*c*) Encouraging the industry group to make that circulation of the proposed industry document to industry which would be made were it a proposed DoD document;

(*d*) Ascertaining that the industry document finally promulgated is consistent with all essential DoD comments;

(*e*) Obtaining such additional industry coordination as is necessary;

(*f*) Arranging for final DoD approval; and

(*g*) Identifying the approved industry document in the index prescribed in § 268.7.

(b) *Approved industry documents having limited coordination status.* An industry document coordinated and approved by a military service in the same manner as that service coordinates and approves military specifications and standards for limited coordination status shall have the equivalent status.

(c) *Criteria for approval.* The primary criteria for determining whether an industry document will be approved for use by the Department of Defense are: The technical sufficiency of the document in terms of DoD requirements; the extent and degree to which an industry document is circulated for comment among, and is acceptable to, interested industry elements; and the assurance that sufficient copies of the document will be available to satisfy demands generated by DoD.

(1) When, in the judgment of the assignee, coordination of the industry document by the industry group has been effected to at least the minimum extent and degree required for a DoD-conducted industry coordination of a military specification or standard, the industry coordination process need not be repeated. If, however, the industry coordination by the industry group does not meet the foregoing coordination criterion, technical requirements of the document may be incorporated into a military document and processed within the military series, after securing the required industry coordination.

(2) An industry document will not be approved for either coordinated-status equivalent or limited coordinated-status equivalent unless it has first been ascertained that:

(i) Sufficient copies are available from the industry source to handle the total estimated DoD demands at no more than a nominal charge for each copy, and

(ii) If the document is copyrighted, that the Government has been granted a royalty-free license for reproduction for its own use and for future reproduction on the contingency that the industry source may cease to make sufficient copies available at some future date.

§ 268.7 Identification of approved industry documents.

Each industry document approved for use within the Department of Defense in accordance with the procedures herein prescribed shall be identified in a separate section of each existing departmental index entitled "Index of Military Specifications and Standards" and shall be bound integrally therewith. The departmental indexes are also referred to as "Military Indexes for Specifications and Standards (Vols. II, III, and IV).

(a) *Identification data for industry documents.* A military series of numbers shall not be assigned to DoD-approved industry documents. The index will identify each such document by industry group, symbol, number, title, date of the most recent DoD-approved issue and Assignee Activity within DoD. (E.g., ASA C7.1–1953, 2d edition, Soft or Annealed Copper Wire, Specifications for.) Each listed industry document shall be identified in the index as either coordinated-status equivalent or limited coordinated-status equivalent. This identification of status will be in the same form as that now being used in the Index for identifying military specifications and standards as either coordinated or limited coordinated.

(b) *Identification of industry source.* Whenever the distribution requirements for an indexed industry document are to be met wholly or partially by the industry source, an appendix to the Index will list the name and mailing address of the industry distribution point for each indexed document except for any document generally available in technical or public libraries (e.g., Pharmacopoeia of the United States).

271.26 Duplicating copy for Department of Defense.

AUTHORITY: §§ 271.1 to 271.26 issued under R.S. 161; 5 U.S.C. 22.

§ 271.1 General.

(a) *Purpose.* Sections 271.1 to 271.26 acquaint correspondents with their responsibilities while under the jurisdiction of the Armed Forces in area commands as designated by the Secretary of Defense and serve as a directive to Armed Forces personnel in their relationship with correspondents under jurisdiction of the Armed Forces.

(b) *Policy.* The policy of the Department of Defense is to give the public timely and, so far as it is compatible with national defense, complete information of Army, Navy, Air Force, Marine Corps, and Coast Guard activities and to afford opportunities to correspondents of recognized public information agencies to gather and transmit such news.

§ 271.2 Definitions.

For the purpose of simplification and understanding, certain terms used in this part are defined below:

(a) "Public information agencies" shall mean a press, radio, or pictorial organization regularly engaged in the collection and dissemination of news to the public, including press associations, news and pictorial feature services, newspapers, periodicals, radio and television broadcasting organizations, and newsreel companies.

(b) "Correspondents" shall mean journalists, press reporters, photographers, columnists, editors and publishers, radio and television reporters, commentators and cameramen, and newsreel and other documentary picture production personnel who are duly accredited to the Department of Defense and regularly engaged in the collection and dissemination of news to the public.

(c) "News material" shall mean all news material, whether of information or opinion and whether visual or auditory, for dissemination to the public.

(d) "Press traffic" shall mean news material transmitted in writing or by means of telecommunications (in form customarily employed by news media agencies in transmitting such news material before publication) to newspapers, news periodicals, and broadcasting organizations.

(e) "Official photographs" shall mean those stills made by military photographers or civilian photographers employed by the Department of Defense, as distinguished from photographs made by war correspondent photographers. Unclassified official and unclassified captured photographs will be made available to all interested news photo agencies and media when practicable.

(f) "Official motion pictures" shall be those motion pictures made by military photographers or civilian photographers employed by the Department of Defense, as distinguished from motion pictures made by war correspondent photographers. Unclassified official motion pictures as well as unclassified captured motion pictures will be made available to all interested theater newsreel and television news film companies and other media if practicable.

§ 271.3 Status and privileges.

All possible assistance within the limits dictated by military necessity will be given correspondents to assist them in performing efficiently and intelligently their work of keeping the public informed of the activities of the Armed Forces of the United States.

(a) Correspondents accompanying the Armed Forces of the United States are subject to the orders of the military commander of the unit to which attached. They are subject to military law in accordance with the Uniform Code of Military Justice, Article 2, (10), (11), and (12). They must wear the prescribed uniform and be prepared to identify themselves when called upon to do so by proper authority. They shall at all times observe the same military security regulations as service personnel, including censorship of personal correspondence.

(b) Correspondents are not, in general, entitled to the benefits provided by law for persons in the Armed Forces.

(c) In the event of capture by enemy forces, correspondents are entitled to treatment as prisoners of war, provided they are in possession of an identity card issued by the Department of Defense establishing their status. (Article 4, Geneva Convention Relative to the Treatment of Prisoners of War, of August 12, 1949.) (§ 271.7 (a) and (b).)

(d) Correspondents will not exercise command, will not be placed in a position of authority over military personnel, nor will they be armed. They will have the same obligations as military personnel in regard to personal conduct, the settlement of accounts, and compliance with standing orders.

(e) A correspondent becomes subject to military law, as indicated above, upon physically entering a theater of operation in an accredited status, or upon boarding Government transportation en route thereto.

(f) As far as facilities permit, correspondents will be treated as commissioned officers, with the assimilated rank of major or comparable grade, in such matters as messing, living accommodations, and transportation. They will be accorded the same privileges and have the same obligations as officers in the use of post exchanges, ship stores, clothing sales stores, and recreational facilities. Use of such facilities must be without cost to the Government.

(g) Correspondents may converse freely with Armed Forces personnel, unless such conversation interferes with the discharge of military duties. They are expected, however, to refrain from conversing with Armed Forces personnel at work or on guard, or from discussing or soliciting information known to be classified.

§ 271.4 Application.

Application for the accreditation of any individual correspondent will be submitted by the sponsoring employer to the Office of Public Information, Department of Defense, Washington 25, D.C.

§ 271.5 Limit on number.

The following considerations shall govern the number of correspondents accredited to any theater of operations:

(a) The number of correspondents accredited to a theater will be within quotas established by the theater commander after coordination with the military department concerned and the Department of Defense. Quotas will be determined by the size of the command and the availability of facilities and logistical support.

(b) When limitation of quotas is necessary, the Department of Defense will give preference in the consideration of application to agencies reaching broad segments of the American public and to selections which maintain a balanced representation of the various informational media.

§ 271.6 Agreement.

Before final acceptance, a correspondent will be required to sign an agreement in quadruplicate as follows:

OFFICE OF THE SECRETARY OF DEFENSE
OFFICE OF PUBLIC INFORMATION
Washington 25, D. C.

(Date)

AGREEMENT

As a correspondent accredited to and authorized by the Department of Defense to join ---
(Name of unit)
for the purpose of obtaining new material for public dissemination, I subscribe to the following conditions:

1. As a correspondent, I understand that I am subject to military law in accordance with the provisions of Article 2 (10), (11), and (12) of the Uniform Code of Military Justice, and to all regulations for the Government of the Armed Forces.

2. My movements and actions shall be in accordance with the regulations of the Department of Defense and the instructions of

the commanding officer of the headquarters to which I am attached.

3. I agree to submit for censorship all news material obtained during the period of this accreditation, whether for release while with the armed forces or thereafter as long as security is a consideration.

4. I agree to comply with all currency control regulations in effect in the places visited under this authorization.

5. I guarantee to meet all financial obligations incurred by me while accompanying the armed forces under this authorization.

6. I waive all claims against the United States for loss or damage to my property or for personal injury, sustained in connection with my activities as a war correspondent, during the period covered by this authorization.

7. This authorization is for the period ---------- to ---------- and subject to revocation at any time, for cause, by the Department of Defense.

Signed ----------
Representing ----------
(Company, syndicate, or agency)
Witnessing officer ----------
(Name)

1 copy—Office of Public Information, Department of Defense.
1 copy—Military Department concerned.
1 copy—Commanding officer, headquarters concerned.
1 copy—Correspondent.

§ 271.7 Credentials.

The issuance and use of credentials shall be as outlined below:

(a) When an application for accreditation as a correspondent is approved, the applicant will be furnished credentials, including a correspondent's identification card (SD Form 36), by the Office of Public Information, Department of Defense. Possession of this identification card establishes the physical identity of the correspondent, his connection with a recognized public information agency, and the completion of a file check by appropriate Federal security agencies.

(b) The correspondent shall be furnished an identity card by the Department of Defense (DD Form 489), stating that he is an accredited correspondent serving with the Armed Forces of the United States and entitled to treatment as a prisoner of war in accordance with Article 4, Geneva Convention Relative to Prisoners of War, of August 12, 1949. For the purpose of insuring proper treatment in the event of capture, the identity card will provide the assimilated rank of major or comparable grade.

(c) A correspondent's accreditation card does not authorize the bearer to have access to classified military information.

(d) Correspondents will produce identification cards upon request of an officer, warrant officer, or enlisted man in the execution of his duty.

(e) Where conditions warrant, in addition to Department of Defense credentials, major headquarters commanders may issue passes or credentials with regulations governing their use.

§ 271.8 Termination of accreditation to a theater of operation.

An accredited correspondent may leave a theater of operations at any time upon military orders issued by the commander concerned.

(a) If accompanying the Armed Forces beyond the territorial limits of the United States, and the return journey is made by Government transportation, relief does not become effective until arrival in the United States. If the journey is made by other than Government transportation, relief becomes effective at the time of departure from the theater of operation or base command.

(b) Accreditation as a war correspondent to a theater of operation will be terminated upon:

(1) Severance of employment with the sponsoring agency.

(2) Revocation of accreditation.

(c) Revocation of accreditation is a responsibility solely of the Secretary of Defense. In general, disaccreditation will result from:

(1) Personal misconduct of a criminal or moral nature.

(2) Violation of security regulations.

(3) Membership in, close relationship to, or adherence to subversive organizations.

(d) Upon termination of accreditation, the correspondent will leave the theater of operations or base command upon instructions of the commander concerned. Correspondents whose accreditation has been terminated will surrender their credentials to the theater or base commander before departure for the continental United States, at which time they will be issued temporary credentials covering the return journey. The theater or base commander will forward the expired credentials to the Office of Public Information, Department of Defense.

§ 271.9 Uniform.

(a) Accredited correspondents accompanying the Armed Forces of the United States in a theater of operation will wear the following officer-type service uniforms:

(1) *Winter.* Jacket and/or shirt and trousers, wool, shade 33; or fatigue clothing; necktie, shade 51, trench coat, shade 79; garrison cap, wool, shade 33.

(2) *Summer.* Cotton khaki shirt, trousers and cotton khaki garrison cap, shade 1; or fatigue clothing; necktie, shade 51.

(b) Correspondents accompanying the Armed Forces of the United States will wear civilian insignia conforming to the following specifications: On a khaki-colored cloth background 2½ inches in height and 3 inches in width, a dark blue equilateral triangle of 1¼ inches, bearing the letters U. S. in khaki color ¼ inch in width and ½ inch in height. The word WAR will appear above the blue triangle and the word CORRESPONDENT below it in dark blue letters ¼ inch in height. This insignia will be worn on the left breast pocket of outer garments or in a comparable position on outer garments having no pockets. It will also be worn on the left front of the garrison cap.

(c) Correspondents may wear military decorations awarded to them as civilians accompanying the Armed Forces. They may also wear decorations or service ribbons awarded them for previous active military service.

(d) Correspondents may not wear military insignia or divisional or unit insignia. Civilians accompanying the Armed Forces are not eligible for the award of service medals.

(e) Articles of special clothing and equipment may be issued to correspondents on memorandum receipt where required.

(f) Accredited correspondents will not wear civilian clothing while accompanying the Armed Forces in a theater of operation. Exceptions may be made for special groups under escort visiting military areas for limited periods.

§ 271.10 Transportation.

(a) When commercial facilities are inadequate, Government transportation may be furnished to accredited correspondents, for travel to and from the command to which attached, whenever such transportation is available and essential military personnel are not displaced.

(b) Within the theater, or other command of attachment, correspondents may request Government transportation required for the accomplishment of their missions.

(c) The baggage of correspondents normally will be moved with that of the headquarters to which attached. Its weight and content will be within the limits prescribed by the commander concerned.

§ 271.11 Reporting upon arrival.

Upon arrival at the headquarters to which attached, correspondents will report to the Public Information officer, who will provide the assistance and guidance required for the accomplishment of their missions.

§ 271.12 Change in assignment.

Changes in assignment will be effected as follows:

(a) Correspondents officially assigned to the headquarters of a senior commander may, at their request, be attached to a subordinate headquarters. Such changes of assignment will be subject to the approval of the commanding officers concerned.

(b) A correspondent's movement to a theater other than that to which currently assigned will be accomplished only with the approval of the commanders concerned and the Department of Defense.

§ 271.13 Discipline.

Disciplinary action may be taken as follows for violation of §§ 271.1–271.26 or other regulations:

(a) The privileges accorded an accredited correspondent may be suspended for the use of words or expressions in a news dispatch intended to mislead or deceive a censor and cause approval of otherwise objectionable dispatches.

(b) In extreme cases of offense, the correspondent may be placed in arrest to await evacuation or disciplinary action.

(c) Information of the conduct of a correspondent warranting disciplinary action together with that of any action taken or contemplated, will be forwarded through appropriate channels to the Office of Public Information, Department of Defense.

§ 271.14 Communication with sponsoring agency.

When the behavior or activities of a correspondent are of such nature, commendable or otherwise, as to warrant calling the facts to the attention of the sponsoring agency, commanders will forward all pertinent information to the military department concerned. Recommendations relative to the case will be sent by the department to the Office of Public Information, Department of Defense, for action.

§ 271.15 Filing of material.

(a) Prior to transmittal, all news material will be submitted for review to the appropriate censorship authority, as directed by the commander of the force to which the correspondent is attached (§ 271.16).

(b) Correspondents will employ only those communications facilities designated by the commander of the force or unit to which attached.

(c) When commercial communications facilities are not available, the use of Armed Forces facilities by correspondents is authorized subject to the following conditions:

(1) Press traffic will not interfere with operational military traffic.

(2) When military necessity requires that priority of transmission of news material be established, procedures (pooling, priorities, word limit restrictions, etc.) will be prescribed by the commander concerned.

(3) Press traffic originating on military facilities will be refiled commercially at the commercial refile point for the area concerned.

(4) Press traffic will be refiled Collect when transferred to a commercial facility.

(5) Press traffic will be prepared and filed in the manner prescribed for the type of communications facility over which it is to be transmitted.

(6) The provisions of section 327, Communication Act of 1934, as amended (48 Stat. 1091; 47 U. S. C. 327) will be applicable to all press traffic and related service messages accepted for transmission via the Naval Communications Service.

§ 271.16 Censorship.

Censorship in time of war or national emergency is a measure vital to the security of the people of the United States and to the military forces thereof. The following regulations will apply:

(a) All communications, by whatever means, will be subject to established censorship regulations. Material intended for publication may not be sent as personal mail but must be submitted for press censorship.

(b) In general, news material may be released for dissemination to the public provided it does not supply information of value to the enemy.

(c) News material prepared by correspondents after their return to the United States from a theater of operation which contains information that might be of value to the enemy, such as tactical doctrine, classified equipment, future plans, combat efficiency or state of training, etc., will be submitted for review to the Office of Public Information, Department of Defense, prior to publication.

§ 271.17 Pictorial coverage.

Accredited news cameramen will be afforded every reasonable opportunity to photograph the activities of the Armed Forces but the Armed Forces are not responsible for the quantity or quality of their output. It is recognized that:

(a) Still and motion pictures are essential in keeping the public informed of the war effort and in the official documentation of the war.

(b) News events must be photographed as they occur.

(c) Control should be exercised over the release of photographs rather than the taking of them. Photographers are expected, however, to refrain from taking pictures that violate security or hamper the Armed Forces or their allies in the discharge of military duties.

§ 271.18 Still picture pools.

Military necessity, such as lack of space, transportation, or other facilities, or diverse and extensive military operations, may require that still picture photographic coverage of the activities of the Armed Forces of the United States be undertaken by recognized still picture photographic agencies in a pool operation. When pooling is required, all pictures taken by any representative of any participating agency will be distributed to all other agencies in the pool.

§ 271.19 Exclusive still pictures.

At the discretion of the Department of Defense and the military department concerned, a special war correspondent photographer may be accredited to a theater of operation to undertake an exclusive assignment. All pictures secured by a temporarily accredited cameraman, other than those specified in advance, whether taken by himself or secured from another source, are subject to pooling if a pool is in operation.

§ 271.20 Release dates.

Except under unusual circumstances, the Department of Defense will not establish release dates for still picture pool photographs. All pool photographs will be released simultaneously on a date established by, and agreeable to, the majority of pool members.

§ 271.21 Still picture censorship, developing, and shipping.

All still pictures made in a theater of operation will be subject to current censorship directives. When laboratory facilities are available, photographs and accompanying captions will be censored prior to shipment or radio transmission from the theater. When laboratory facilities are not available, negatives, clearly marked as such, and captions to accompany them will be shipped through such Armed Forces or other channels as are specified by the theater commander concerned to accomplish transmittal to the United States in the shortest possible time. They will be directed to the Office of Public Information, Department of Defense, Washington 25, D. C. Photographs, after being developed and censored, will be delivered by the Department of Defense to the agency employing the photographer who made the picture. This agency will then make prints or copy negatives available to other pool companies if it is a pool photograph. The original negative is the property of the agency whose photographer made it. Negatives and prints not released by the censor wil be held by the Department of Defense until releasable.

§ 271.22 Copies of stills for Department of Defense.

Three prints of all photographs made by war correspondents in theaters of operations will be turned over free of charge, to the Office of Public Information, Department of Defense, for its archives. The Department of Defense does not have the right to sell, reproduce, or distribute these pictures in any way without permission of the company owning the negative.

§ 271.23 Theater newsreel or television news film pools.

Military necessity such as lack of space, transportation, or other facilities, or diverse and extensive military operations, may require that motion picture coverage of the activities of the Armed Forces of the United States be undertaken by recognized photographic agencies in a pool operation which will require that all film taken by any representative of any participating agency be distributed to all other agencies in the pool. When pooling is necessary, separate pools will be established for theater newsreel and television news film companies.

§ 271.24 Exclusive motion pictures.

At the discretion of the Department of Defense and the military department concerned, a special war correspondent motion picture cameraman may be accredited to a theater of operation to undertake an exclusive assignment. All film secured by a temporarily accredited movie cameraman, other than that specified in advance, whether taken by himself or secured from another source, is subject to pooling if a pool is in operation.

§ 271.25 Motion picture censorship, developing, and shipping.

All motion pictures made in a theater of operation will be subject to current censorship directives. Underdeveloped motion picture negatives, clearly marked as such, will be shipped from the theater of operations through Armed Forces channels by fastest practicable means to the Office of Public Information, Department of Defense, Washington 25, D.C. Films will be developed at a laboratory specified by or acceptable to the Department of Defense. The Office of Public Information, Department of De-

fense, will determine the final release of classified as well as unclassified motion pictures so that there will be no censorship or delay at the source in forwarding the undeveloped negatives or in permitting motion pictures to be taken. After censorship, the negatives will be delivered to the company employing the photographer who made the pictures. This company will then make duplicating prints or negatives available to other pool members when such action is indicated. The original negative is the property of the agency whose photographers made it. Film not released by the censor will be held by the Department of Defense until releasable.

§ 271.26 Duplicating copy for Department of Defense.

A duplicating print or negative will be furnished the Department of Defense by the theater newsreel or television news film company owning the negative. The Department of Defense does not have the right to sell, reproduce, or distribute these films, in any way without permission of the company owning the negative.

SUBCHAPTER N—COMMERCIAL INSURANCE

PART 276—SOLICITATION OF COMMERCIAL LIFE INSURANCE ON MILITARY INSTALLATIONS

Sec.
276.1 Purpose and scope.
276.2 Policy.
276.3 Minimum requirements for companies.
276.4 Supervision of solicitation.
276.5 Use of the allotment system.
276.6 Withdrawal of solicitation privilege.
276.7 Reports.

AUTHORITY: §§ 276.1 to 276.7 issued under sec. 202, 61 Stat. 500, as amended; 5 U.S.C. 171a.

§ 276.1 Purpose and scope.

The purpose of this part is to establish Department of Defense policy with respect to the solicitation of members of the Armed Forces for the purchase of life insurance on U.S. military installations.

§ 276.2 Policy.

(a) *General.* The conduct of a private business, including the sale of life insurance, on a military installation is a privilege the control of which is a responsibility vested in the installation commander subject to such regulations as may be prescribed by the Secretary of the military department concerned.

(b) *Withdrawal of privilege.* The privilege to solicit on military installations may be withdrawn for cause.

(c) *Solicitation on military installations in the United States, a territory or possession.* Commanders of installations over which exclusive jurisdiction has been ceded to the United States will not permit solicitation by the representative of any commercial company, unless both the company and its agents are properly licensed by any one of the states, the territory or the District of Columbia. Where the state has retained exclusive or concurrent jurisdiction over any part of the installation, the company and its agents must qualify under the laws of that particular state to be eligible to solicit on the installation.

(d) *Solicitation on U.S. military installations in foreign areas; companies.* The Department of Defense will grant permission to companies to solicit on military installations in foreign oversea areas under this part. Applications will be submitted to the Department of Defense during the month of April each year. Accreditation will be valid for one year unless sooner withdrawn.

(e) *Solicitation on U.S. military installations in foreign areas; agents.* An agent may solicit business on military installations in foreign areas if:

(1) The company he represents has been granted permission to solicit under this part;

(2) His name appears on the list maintained by the Chairman of the DOD Life Insurance Board; and

(3) He has been granted permission by the commanding officer of the military installation on which he desires to solicit.

(f) *Counseling.* Commanders will provide counseling for the personnel under their command concerning the purchase of life insurance. It should be thoroughly explained that the insurance contract is intended to continue over a period of years, and that, if the insurance policy is allowed to lapse, the individual may not recover more than the cash value at the time the policy lapsed. Commanders should ensure that such transactions are entered into in good faith and only after a full understanding of the agreement by the military member. Counseling is mandatory for personnel of pay grades E–1, E–2, and E–3. It is encouraged for all others.

(g) *Department of Defense Life Insurance Board.* The Department of Defense Life Insurance Board has been established by DoD Instruction 5120.23 (see also § 277.3 of this subchapter) as the principal advisor to the Secretary of Defense in all matters pertaining to the sale of commercial life insurance to members of the Armed Forces. It is a function of this Board to recommend final action on applications received from insurance companies to solicit commercial life insurance on installations in foreign areas. The functions of the Board also include the recommendation of final action against companies for cause, including the withdrawal of soliciting privileges. In this connection the Board receives and reviews reports of violations of regulations.

§ 276.3 Minimum requirements for companies.

(a) *Qualification statements by companies.* Before a company may be authorized to solicit on a military installation, the commanding officer will require the company to submit a notarized statement by its president or vice president: (1) Listing all policies, together with their form numbers, to be offered on the military installation; (2) assuring that only the policies listed are to be so offered and that such policies comply with paragraph (b) of this section; and (3) indicating the name(s) of the agent(s) authorized to solicit and that the company assumes full responsibility for the actions of the agent(s) named with respect to such solicitation.

(b) *Minimum policy requirements.* The minimum requirements for insurance policies offered on military installations are as follows:

(1) Reserves at least equal to those produced by the Commissioners Reserve Valuation Method as defined in the Standard Valuation Law when calculated according to the Commissioners 1941 Standard Ordinary Mortality Table with interest at a rate not in excess of 3½ percent per annum;

(2) Policies must comply with the Standard Non-Forfeiture and Valuation Law as interpreted by the "Working Committee of the Life Insurance Committee, National Association of Insurance Commissioners" (commonly known as the Hooker Committee). Attention is particularly directed to the need for complying with at least the minimum values provided by the Standard Non-Forfeiture and Valuation Law.

(3) The existence of exclusion or restrictive clauses or provisions, including War Clauses, Geographic Limitations, Aviation Exclusion Provisions, Demolition, etc., must be plainly indicated on the face of the policy.

(4) Statements referring to dividends must indicate that the dividends are estimates and are not guaranteed.

§ 276.4 Supervision of solicitation.

(a) *Command supervision.* (1) The Secretary of each military department will issue regulations to ensure that solicitation on military installations is properly supervised and controlled. These regulations will include a prohibition against:

(i) The soliciation of recruits or trainees and "mass" or "captive" audiences;

(ii) Practices involving rebates or elimination of competition; and

(iii) Military personnel on active duty representing any insurance company.

(2) An official identification card may not be used to gain entrance to a military installation to solicit the sale of life insurance.

(b) *Information to be required of agents.* For each proposed sale to enlisted personnel in the grades of E–1, E–2, and E–3, the agent must provide the applicant and the commander the following information:

(1) Name and address of the company;
(2) Name and address of the agent;
(3) Type of policy;
(4) Amount of life insurance;
(5) Premium;
(6) Full name of person insured;
(7) Death benefit, guaranteed cash value, extended insurance, pure endowment (if any), at the end of the first to the fifth years inclusive and the tenth, fifteenth, and twentieth years; and
(8) List of all exclusion provisions which are incorporated in the policy, such as War Clauses, Geographic Limitations, Aviation Exclusion Provisions, Demolition, etc.

Commanders will use the foregoing information in connection with counseling.

(c) *Limitations.* Solicitation will be on an individual basis, preferably by appointment, in a specific appropriate location(s), and at specified times designated by the installation commander.

(d) *Installation regulations.* Commanders may issue regulations governing solicitation on their installations. When a commander desires to prescribe additional safeguards which require companies to meet more restrictive requirements than contained in regulations of the military departments, such additional requirements or restrictions must first be reviewed and confirmed by the appropriate military department. Additional regulatory controls with regard to individual agents are not required to be so reviewed and confirmed.

(e) *Statement by agent.* Before being permitted to solicit, the agent will be furnished a copy of the applicable insurance regulations and required to indicate in writing that he understands them and that any violation of the regulations may result in the withdrawal of the privilege of solicitation.

§ 276.5 Use of the allotment system.

(a) Allotments of military pay will be made in accordance with DOD Directive 7330.1, "Voluntary Military Pay Allotments."

(b) *Allotment forms may not be issued to agents.* The possession of allotment forms by agents is cause for withdrawal of the privilege of solicitation.

(c) At least seven days must elapse between the signing of an insurance application and the certification of an allotment for personnel in pay grades E–1, E–2, and E–3. Allotment forms will be completed before signature.

(d) When the enlisted member in grade E–1, E–2, or E–3 purchases insurance on a military installation and pays at least the first full monthly premium in cash, the 7-day waiting period will not be made applicable but the prescribed counselling will be accomplished.

§ 276.6 Withdrawal of solicitation privilege.

(a) The Secretary of Defense may withdraw the privilege of solicitation from companies and agents upon receipt of information evidencing the utilization of any manipulative, deceptive, or fraudulent device, scheme, or artifice, including misleading advertising or other misleading sales literature.

(b) The military departments may permit installation commanders to suspend an agent for cause for a reasonable period. When such suspension occurs, the agent, the company he represents, the military department concerned, and the insurance commissioners of the States in which he is licensed will be promptly notified. The department concerned will ensure that complete investigation is made and that a report of such investigation is submitted to that department.

(c) The withdrawal of the soliciting privilege should be resorted to only for good and sufficient reasons. Final action to withdraw from an agent the privilege of soliciting on all installations within the command rests with the military department or, as to installations in foreign areas, with the theater commander. When such action is taken, the agent, the company he represents, the insurance commissioners of the States in which the agent is licensed, the other military departments, and the Assistant Secretary of Defense (Manpower, Personnel and Reserve) will be notified. When the privilege of solicitation is withdrawn by one military department, such withdrawal will be effective in the other military departments.

(d) For serious or repeated violations, a commander may suspend a company temporarily. Where such action is instituted, the military department concerned will be promptly notified. The military department will then forward detailed information to the Office of the Secretary of Defense. Companies may be permanently prohibited from soliciting on military installations only by action of the Secretary of Defense.

§ 276.7 Reports.

The military departments will report to the Assistant Secretary of Defense (Manpower, Personnel and Reserve) the following violations or actions in duplicate immediately after such violations or actions occur. As a minimum the agent's name, the company's name and a description of the violation will be reported.

(a) Violations by agents resulting in suspension of the solicitation privilege on a limited basis. Notifications will be made as indicated in § 276.6(b).

(b) Violations by agents resulting in suspension of the solicitation privilege throughout the military departments. Additional notifications will be made as indicated in § 276.6(c).

(c) Action taken to suspend the privilege of solicitation in the case of any life insurance company.

PART 277—SOLICITATION OF COMMERCIAL LIFE INSURANCE ON MILITARY INSTALLATIONS IN OVERSEA AREAS

Sec.
277.1 General.
277.2 Application.
277.3 Department of Defense Life Insurance Board.
277.4 Minimum requirements for companies.
277.5 Announcement of findings.
277.6 Change in status.

AUTHORITY: §§ 277.1 to 277.6 issued under sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 171a.

§ 277.1 General.

Pursuant to § 276.3 of this subchapter, companies desiring to sell commercial life insurance to members of the Armed Forces on military installations under United States jurisdiction in oversea areas may, on application, be authorized to do so in accordance with DOD Instruction 1344.1, dated December 15, 1955, subject: "Solicitation of Commercial Life Insurance on Military Installations." (Part 276 of this subchapter.)

§ 277.2 Applications.

(a) Applications will be submitted to the Department of Defense during April of each year. They will not be accepted or considered at any other time. Applications will be in letter form and appropriately documented. They must be signed by the President or Vice President of the company and attested to. Formats A[1] (Selected Financial Information); B[1] (Lapse Ratio and Military Business Statement); and C[1] (Operations Statement) to be used in submitting technical information may be obtained upon request by companies requesting accreditation for the first time. Companies currently accredited will be supplied Formats A, B, and C without making a request. (The information required on the formats has been approved in accordance with the Federal Reports Act by the Bureau of the Budget under approval number 22–R188.) The application must furnish the following information:

(1) Foreign countries and commands (e.g.: Army, Europe; Air Force, Europe; Navy, Far East; Air Force, Northeast; etc.) where it is desired to solicit on military bases or installations.

(2) Plans for control of and supervision to be exercised by the company over its agents.

(3) List of States and jurisdictions in which the company is licensed and dates of such licensing.

(4) Use Format A, cited above, to submit information from each of the last five annual statements to include:

(i) Admitted assets.

(ii) Net reserve.

(iii) Combined paid up capital and surplus, or surplus.

(iv) Insurance in force, reported by classes.

(5) A statement that the company has complied with or will comply with the applicable laws of the country or countries wherein it proposes to solicit (by "laws of the country" is meant all national, provincial, city or country laws or ordinances of any country, as applicable), and upon being authorized to do business in such country or countries, a statement to that effect.

(6) An authenticated copy of the current annual statement, notarized and sworn to by authorized company officials in the space provided at the bottom of page 1 of the annual statement, as filed with the insurance department of the state of domicile.

(7) An authenticated copy of a current convention or "association type" report of examination if the company is licensed by more than one state, otherwise, a current report of one insurance department.

(8) A sworn statement covering the following items:

(i) That the policies to be offered adhere to the standards prescribed by § 276.4 of this subchapter (Paragraph IV B, DOD Instruction 1344.1).

(ii) The amount of unassigned surplus and paid up capital or only surplus if a non-stock company. In computing the amount of unassigned surplus, include as liabilities all debts due or to become due, contingent or otherwise, as provided in the Life Insurance Act of the District of Columbia Act of June 19, 1934; C 672, 48 Stat. 1125, as amended, and a statement that the amount of unassigned surplus and paid up capital has been computed by the method prescribed in the aforesaid act.

(iii) That the policies to be offered for sale (*a*) do not contain other than standard provisions such as those prescribed by the Life Insurance Act of the District of Columbia (cited in subdivision (ii) of this subparagraph), and (*b*) do not provide for a variation in the amount of death benefit depending upon the length of time the policy has been in force.

(iv) That none of its officers, directors, or principal stockholders, or any members of his immediate family, receives or has any contract to receive commissions, directly or indirectly, from military business currently transacted by the company, or if the company cannot so attest, a disclosure and justification for such contracts.

(v) That the company has not made any loan (except policy loans) to any director, officer, or principal stockholder or any member of his immediate family within the last year, and there is not currently outstanding any loan to such person made prior to that period.

(vi) That the company will be responsible for the acts of its agents actually connected with the sale of insurance to military personnel.

(9) Use Format B, cited above, to report the rate of lapse of policies sold to military personnel (including only life insurance, but excluding group life insurance) for each of the last five years and an explanation of the methods or formulae used in computing the ratio of military business to total business (including only life insurance, but excluding group life insurance) annually for the last five years computed on the basis of the following:

(i) Number of policyholders.

(ii) Insurance in force.

(iii) Premium income.

(10) Name, age, legal residence, citizenship and present address of each agent who will solicit overseas, the state or states in which such agents are licensed; the date of licensing, expiration dates, and the area in which each agent will solicit.

(b) Any explanatory remarks that will assist the Department of Defense in evaluating applications are invited.

(c) Applications and any correspondence relating thereto should be addressed to:

Chairman, Life Insurance Board, Department of Defense, The Pentagon, Washington 25, D.C.

§ 277.3 Department of Defense Life Insurance Board.

(a) The Department of Defense Life Insurance Board is established to act as principal advisor to the Secretary of Defense on all matters pertaining to the sale of commercial life insurance to servicemen.

(b) Duties and functions: In addition it is the duty and function of the Board to:

(1) Recommend final action on applications received from insurance companies to solicit commercial life insurance on overseas bases and installations under U.S. jurisdiction.

(2) Maintain a current list of agents representing life insurance companies authorized to solicit on military installations overseas.

(3) Receive and review reports of violations of regulations governing solicitation on bases and installations.

(4) Recommend final penalty action against companies for cause to include the withdrawal of soliciting privileges.

(5) Perform such other related functions as may be directed.

§ 277.4 Minimum requirements for companies.

(a) The Department of Defense will require, among other things, that the following minimum standards be met by companies authorized to solicit on overseas bases and installations.

(1) The company must have demonstrated continuous successful operation in the life insurance business within the continental limits of the United States or a territory or possession for a period of five years, immediately preceding the date of application (for this purpose, use Format C, cited above) except that a company or a division of an existing company organized to write life insurance and affiliated or connected with a company already writing other lines of insurance may be granted a waiver of the otherwise mandatory five-year requirement, if the company to which it is connected has been in business twenty years and has a record of financial stability and sound management.

(2) The company affirms its intentions and ability to comply with the applicable laws of the country or countries wherein it proposes to engage in business.

(3) The company must be licensed to do business by any twelve (or more) of the states, a territory, or the District of Columbia; or must comply with the following:

(i) Be licensed to do business in at least one of the states, territories, or the District of Columbia.

(ii) Meet minimum standards for initial licensing under current laws where domiciled even though presently doing business under statutes previously enacted.

(iii) Have unassigned surplus and paid up capital (or surplus, if a non-stock company) at least equal to the amounts currently required by the state of domicile or the District of Columbia, whichever is larger.

(b) In making its recommendation the Board will also consider the integrity and stability of the company's management as evidenced by the information submitted in § 277.2 and such other relevant information as may be officially brought to its attention.

§ 277.5 Announcement of findings.

(a) Final action upon applications for authorization will be forwarded by registered mail. Approvals shall not be construed or interpreted as Department of Defense indorsement of any company.

(b) In the event the finding is unfavorable, specific reasons for such finding shall be included.

(c) Upon receipt of notification of an unfavorable finding, the company shall have 30 days in which to file an appeal for reconsideration. Such appeals will be accompanied by substantiating evidence.

§ 277.6 Change in status.

(a) It is incumbent on companies to maintain with the Department of Defense a current list of agents, together with areas in which doing business. Changes must be promptly reported. Failure to report such change will result in non-acceptance of the agents credentials by overseas commanders.

(b) Material changes affecting the company's status as certified to in accordance with § 277.2 must be reported promptly. The Department of Defense reserves the right to withdraw authorization for failure to report such changes when such change is material to the original authorization.

SUBCHAPTER O—MILITARY POSTAL SERVICE

PART 280—USE OF THE MILITARY POSTAL SERVICE

Sec.
280.1 Purpose
280.2 Scope
280.3 Background
280.4 Policy
280.5 Implementation

AUTHORITY: §§ 280.1 to 280.5 issued under sec. 201, 61 Stat. 499, as amended; 5 U. S. C. 171 note.

§ 280.1 Purpose.

The purpose of this part is to establish a single policy defining the organizations, agencies and personnel entitled to use the facilities of the Military Postal Service; and to establish procedures to coordinate the uniform implementation of this policy and related postal matters.

§ 280.2 Scope.

The Military Postal Service represents the postal facilities of the Army, the Navy and the Air Force which are maintained and operated for the purpose of providing complete postal services for the U.S. Armed Forces. The Military Postal Service is maintained in areas where the U.S. Civil Postal Service does not operate or in any other place where the military situation requires. It is an extension of the U.S. domestic postal system and operates in conformity with the Postal Manual, U.S. Post Office Department, Title 39, Code of Federal Regulations, and other Post Office Department instructions, as well as military regulations and directives. Mail to, from and between oversea military post offices is subject to the U. S. domestic rate of postage.

§ 280.3 Background.

(a) The establishment, operation and use of the U.S. Military Postal Service in sovereign foreign countries is contingent upon agreement with the host government, since it is customary among nations to preserve a monopoly of postal service, including postage revenue and control of customs. International agreements permitting establishment of military postal facilities usually contemplate limiting the use of such facilities to the Armed Forces and certain civilian agencies and organizations serving with or related to the Armed Forces. In time of hostilities or occupation, however, use of military postal facilities may be extended more liberally to U.S. civilian organizations, since reliable international postal service usually is not available then.

(b) The cost of operating military postal facilities overseas is borne by the Military Departments. Currently, that cost includes the transportation of military mail between the United States and oversea areas, exclusive of territories and possessions, both by air and surface transport, commercial as well as military.

§ 280.4 Policy.

(a) The following personnel and organizations are entitled to use the facilities of the Military Postal Service:

(1) Members and units of the Armed Forces of the United States, including the U. S. Coast Guard, on active duty.

(2) U. S. citizen employees of the Department of Defense including the Military Departments of the United States who are serving at military activities in foreign countries.

(3) Accredited technicians on duty with and accompanying the Armed Forces of the United States.

(4) Representatives of the American Red Cross who are citizens of the United States attached to and accompanying the Armed Forces of the United States.

(5) Dependents of the above personnel.

(6) International military commands and agencies of the North Atlantic Treaty Organization (NATO).

(7) Masters and civilian crews of ships under the operational control of the Military Sea Transportation Service, under conditions prescribed by the Military Departments.

(b) The following are entitled to use the facilities of the Military Postal Service to the extent that the Military Postal facilities of the command permit; or, in the case of an occupied area where the military Commander-in-Chief deems the local civil postal service to be inadequate or insecure:

(1) Members of the Armed Forces of allies or contingents thereof assigned or attached to the U. S. Armed Forces.

(2) U. S. Governmental Departments and independent agencies, U. S. citizen employees thereof, and their dependents when accompanying the principal.

(3) Retired personnel of the Armed Forces of the United States who are U.S.

citizens, and their dependents, when accompanying the principal.

(c) When foreign military units are serving with U. S. Armed Forces, including foreign naval vessels operating in the waters of the United States or U. S. territories or possessions, closed mails may be transmitted through U. S. military channels when requested by the foreign country concerned, in places where adequate international postal facilities are not available.

(d) Requests for authority for persons and organizations not enumerated above to use the Military Postal Service in time of peace may be submitted to the Adjutant General in the case of the Army, the Chief of Naval Operations in the case of the Navy, or the Air Adjutant General in the case of the Air Force. Requests which warrant consideration will include the comments and recommendations of the cognizant military area or theater commander when forwarded to the Department. This comment will include a statement concerning eligibility under any existing agreement between the United States and the host country.

(e) In the event of national emergency, hostilities or occupation, when international postal service is not available, cognizant military commanders may grant to citizens of the United States in affected areas overseas the privilege of using the facilities of the Military Postal Service.

(f) Organizations, agencies and individuals not authorized military postal service under the provisions of this part, but who are currently authorized to use such service, will discontinue the use of the Military Postal Service not later than 60 days subsequent to the date of this part.

(g) The use of the Military Postal Service in a sovereign foreign country shall be in compliance with any existing agreement between the United States and the host country.

§ 280.5 Implementation.

The Military Departments will take action necessary to insure:

(a) That Title 39, Code of Federal Regulations, and local restrictions are enforced to preclude the acceptance of prohibited items of mail by military post offices.

(b) That the provisions of any existing agreement with sovereign governments are enforced.

(c) That all persons and organizations using the Military Postal Service comply with local customs requirements.

(d) That persons or organizations authorized to use the Military Postal Service do not act as intermediaries for persons or organizations not authorized use of the Service.

(e) That postal privileges are withdrawn from retired military personnel and civilians when there is evidence of abuse of the privilege.

(f) That the provisions of § 280.4(d) are uniformly implemented. To this end, the Military Departments will, through mutual coordination and agreement, specifically approve or disapprove all requests made upon the Department of Defense or any of its agencies for authorization to use facilities of the Military Postal Service which are not provided for under this part.

(g) That problems pertaining to these matters which cannot readily be solved by the Military Departments will be referred to the Assistant Secretary of Defense (Manpower and Personnel) for consideration.

(h) That the Military Postal Service is not used by individuals or agencies for commercial or business purposes or to transmit items intended for resale.

SUBCHAPTER P—RECORDS

PART 285—RELEASE AND AUTHENTICATION OF COPIES OF OFFICIAL RECORDS

Sec.
285.1 Purpose and authority.
285.2 Definition.
285.3 Applicability.
285.4 Exemptions and conditions.
285.5 Terms and conditions.
285.6 Responsibilities.
285.7 Authentication.

AUTHORITY: §§ 285.1 to 285.7 issued under R.S. 161; 5 U.S.C. 22.

§ 285.1 Purpose and authority.

The purpose of this part is to provide the policies and procedures within the Department of Defense, exclusive of the three military departments, governing (a) the release of copies of official records which may be made available to persons properly concerned, and (b) the authentication under the seal of the Department of Defense of copies of official records, as required. These instructions are consistent with section 506 (a) of the Federal Records Act of 1950, the Administrative Procedures Act, 60 Stat. 238, 5 U. S. C. 1002, and section 1733 of Title 28 of the United States Code.

§ 285.2 Definition.

The term "official records", as used in this part, includes all papers, books, maps, photographs, and other documentary material regardless of physical form or characteristics made or received in the Department of Defense, exclusive of the three military departments in pursuance of Federal law or in connection with the transaction of business as evidence of the organization, functions, policies, decisions, procedures or other activities because of the informational value of the data contained therein.

§ 285.3 Applicability.

The provisions of this part apply to requests or orders directed to the Secretary of Defense for the release and/or authentication of copies of official records of the Department of Defense, exclusive of the three military departments for the purposes stated in this section. Requests for the release and/or authentication of official records from the military departments should be addressed to the department concerned.

(a) Official use of other departments, agencies or bureaus of the Federal Government.

(b) Use in courts of record in cases of private litigation.

(c) Use in courts of record in criminal prosecutions in which the United States of America is not a party.

(d) Use of other party or parties submitting the request.

Nothing contained in this section shall be construed to require authentication of Department of Defense directives, orders, or other similar documents required in the day-to-day internal operation and management of the Department of Defense including the three military departments.

§ 285.4 Exemptions and conditions.

(a) *Original copies.* Requests for original copies of official records shall not be honored.

(b) *Confidential material.* Confidential material, as defined in the Administrative Procedure Act, section 3 S, 60 Stat. 238, 5 U. S. C. 1002, and other appropriate statutes, shall not be released.

(c) *Personnel records.* Individual personnel records may be released only in accordance with the provisions of Federal Personnel Regulations.

(d) *Classified security information.* Classified security information shall be released only when permitted under the provisions of Executive Order 10501 and appropriate agency security regulations or when approved by the head of the agency or his designated representative.

§ 285.5 Terms and conditions.

(a) *General.* Requests or orders for the release of and/or authentication of copies of official records must be addressed to the Secretary of Defense and must describe the records in sufficient detail to identify the particular record desired without question.

(b) *Government requests.* (1) Requests from departments, agencies and bureaus of the Federal Government must be made over the signature of the head of the agency.

(2) Requests from committees or subcommittees of Congress must be made over the signature of the chairman of the main committee unless power of issuing subpoenas is conferred on the chairman of the subcommittee in the resolution establishing the subcommittee.

(3) Requests by individual members of the Congress must be made over the signature of the member making the request.

(c) *Orders from a court of record*—(1) *Criminal cases.* The court order or certificate must recite that the information requested is essential to the issues of the case and to the proper administration of justice. The order or certificate must bear the seal of the court in which the case is to be tried.

(2) *Private litigation.* The court order or certificate must recite that the information requested is essential to the issues of the case and to the proper administration of justice. When personnel records are involved the order or certificate must recite that the person whose records are requested or his attorney has been given notice of the application for such order of the court and an opportunity to be heard thereon. Personnel records when received by the court will be impounded with the Clerk of the Court and will not be opened or subject to inspection prior to the trial except with the consent of the individual whose records are involved, or his attorney. Furthermore, the order or certificate must bear the seal of the court in which the case is to be tried.

(3) *A request of an individual.* A request for official records by an individual must be subscribed and sworn to before a Notary Public or other official authorized by law to administer oaths or affirmations. The request must specifically state the need for the copy or copies of authenticated records, and the purpose or purposes for which the record or records are to be used.

§ 285.6 Responsibilities.

The Administrative Assistant, Office of the Secretary of Defense, is responsible for controlling the release of and releasing, when appropriate, copies of official records pursuant to the provisions of this part. He is also responsible for authenticating copies of official records, when necessary.

§ 285.7 Authentication.

The Administrative Assistant, Office of the Secretary of Defense, is hereby designated as the custodian of the Department of Defense seal. Only the Administrative Assistant, Office of the Secretary of Defense, or his designee acting in his behalf, are authorized to attest to the authenticity of official records under the Department of Defense seal.

PART 288—SCHEDULE OF FEES AND CHARGES FOR COPYING, CERTIFICATION AND SEARCH OF RECORDS

Sec.
288.1 Purpose.
288.2 Authority and applicability.
288.3 Definitions.
288.4 Fees.
288.5 Disposition of collections.
288.6 Changes in existing law.
288.7 Review of schedule of fees.
288.8 Implementation.
Exhibit A—Schedule of Fees.

AUTHORITY: §§ 288.1 to 288.8 issued under sec. 501, 65 Stat. 290; 5 U. S. C. 140. Interpret or apply 70 Stat. 297; 5 U. S. C. 140a.

§ 288.1 Purpose.

(a) To designate the type of services relating to copying, certification and search of records that are rendered to the public by the Department of Defense for which a fee shall be collected.

(b) To establish an amended schedule of fees that shall be collected for specified services.

§ 288.2 Authority and applicability.

Title V of the Independent Offices Appropriation Act of 1952 (5 U. S. C. 140) provides that it is the sense of Congress that fees shall be charged for services rendered the public by Federal Agencies in order that such services may be performed on a self-sustaining basis to the fullest extent possible. This act further provides that the President shall prescribe policies to insure uniform application of fees within the Executive Branch. The general policy and implementing instructions for the Executive Branch are prescribed in Bureau of the Budget Circular No. A-26, dated January 23, 1954, subject: "Fees for Copying, Certification, and Search of Records". The provisions of this part and of Exhibit A set forth below are applicable to all components of the Department of Defense.

§ 288.3 Definitions.

(a) *Public.* As used in this part, the public shall include any person or group of persons, including associations, organizations, partnerships, corporations, businesses, municipalities, counties, state or territorial governments. Public does not include agencies or branches of the Federal Government.

(b) *Armed Forces.* As used in this part the term Armed Forces include the Army, Navy, Air Force and Marine Corps and their civilian components.

(c) *Services.* As used in this part, services shall refer to the furnishing of information or documentation, certification or search of records as listed or described under Exhibit A.

§ 288.4 Fees.

(a) *Services and fees.* The types of services rendered the public by the Department of Defense and its component agencies for which a fee shall be collected, subject to the exemptions indicated in paragraph (b) of this section, are contained in Exhibit A. The specific charges for such services are also indicated in Exhibit A. If fees can be determined in advance, such fees shall be collected in advance prior to rendering the services.

(b) *Exemptions.* No fee shall be imposed for the following types of services when requests are received from the sources specified, provided the furnishing of such services is consistent with established policy, does not interfere with the mission of the furnishing agency, and the cost of the services can be provided with available funds:

(1) Any services requested by members of the Armed Forces when the document or information requested is required by such personnel in their capacity as members of the Armed Forces of the United States.

(2) Any services requested by members of the Armed Forces, who are in a casualty status, or by their next of kin or legal representative; and requests for information from any source relating to a casualty.

(3) The address of record of an active duty member or former member of the Armed Forces when it can be furnished informally through local directory (locator) reference, when requested by a member of the Armed Forces or a relative or legal representative of a member of the Armed Forces or the address of record requested by any source when the address is required for the purpose of paying monies or forwarding property to a member or former member of the Armed Forces.

(4) Any services requested by or on behalf of a member or former member of the Armed Forces pertaining to requests for:

(i) Information required to obtain financial benefits.

(ii) Document showing membership and military record in the Armed Forces if discharge or release was under honorable conditions.

(iii) Information relating to a decoration or award or information required for memorialization purposes.

(iv) Review or change in type of discharge or correction of records.

(v) Personal documents, e. g. birth certificates, when such documents were required to be furnished by the individual.

(5) Those services which are furnished free in accordance with statutes or Executive Orders.

(6) Information from or copies of medical and dental records and/or X-ray films of patients or former patients of military medical or dental facilities when such information is required for further medical or dental care and requests for such data are (i) submitted by an accredited medical facility, physician or dentist or (ii) requested by the patient, his next of kin or legal representative.

(7) Any services furnished the general public relating to or in furtherance of the Armed Forces recruiting programs and any services furnished representatives of public information media or the general public in the interest of public understanding of the Armed Forces.

(8) Any services involving confirmation of employment, disciplinary or other records or salaries of active or separated civilian or military personnel when requested by prospective employers or recognized sources of inquiry for credit or financial purposes.

(9) Any services requested by and furnished to a Member of Congress for official use.

(10) Any services requested by a State, territorial, county, or municipal government or an agency thereof which is carrying on a function related to or in furtherance of an objective of the Department of Defense.

(11) Any services requested by a court when the furnishing of such will serve as a substitute for personal court appearance of a military or civilian employee of the Department of Defense.

(12) Any services requested by a nonprofit organization which is carrying on a function related to or in furtherance of an objective of the Federal Government or in the interest of public health and welfare.

(13) Any services requested when the cost of such services ultimately would be charged to the Federal Government.

(14) Any services requested by donors with respect to their gifts.

(15) Any request which results in an unsuccessful search of records other than requests to determine the existence or non-existence of a record.

(16) Requests for services which are occasional and incidental (including any request from a resident of a foreign country), not of a type that is requested often, if it is administratively determined that a fee would be inappropriate in such an occasional case.

(c) *Existing fees.* Services to the public (other than those services indicated in Exhibit A) for which fees are currently being collected in accordance with charges established prior to date of Part 288, published at 19 F.R. 7295 shall be continued in effect provided that such services are not exempted from charge by the provisions of paragraph (b) of this section. The charge for such services shall be in conformity with the cost standards established by Bureau of the Budget Circular No. A-28.

§ 288.5 Disposition of collections.

Funds received from the public in payment of the prescribed fees for services financed by working capital funds shall be credited to the appropriate working capital fund. In all other cases, such funds shall be credited to the appropriate General Fund Miscellaneous Receipt Account. No refunds of fees shall be made by reason of change in regulations, directive or fee schedule, or overpayments of one dollar ($1.00) or less.

§ 288.6 Changes in existing law.

In any case when the collection of a fee for service of the type contained in Exhibit A is prohibited by statute or Executive Order, proposed drafts of such legislation or change in Executive Order as may be necessary to permit the fixing of fees as required by this part shall be submitted by the military department concerned under applicable legislative procedures.

§ 288.7 Review of schedule of fees.

The schedule of fees shall be reviewed whenever significant changes in costs occur and at least once every two years to determine whether a fee should be collected for any additional services rendered the public or whether any of the fees prescribed in the schedule should be changed or discontinued. Appropriate recommendations for change in the schedule of fees shall be submitted to the Assistant Secretary of Defense (Comptroller). The cost standards contained in Bureau of the Budget Circular No. A-28 shall be applied in establishing fees for additional services and for changing existing fees.

§ 288.8 Implementation.

The amended schedule of fees shall be placed into operation as soon as practicable but in no event later than ninety (90) days after February 14, 1956.

EXHIBIT A—SCHEDULE OF FEES

Applicable to authorized services of copying, certifications, and search of records rendered to the public by components of the Department of Defense. Requests involving:

	Fee
1. Training and education, each (Including requests for transcripts, certificates, and verification of attendance, course completion, and graduation from service schools and other facilities.)	$1.00
2. Medical and dental records of civilians and dependents of military personnel, each (Includes requests for information from or copies of medical records including clinical records, outpatient records, dental records, and loan of X-rays.)	2.00
3. Military membership and record:	
a. Address of record, each	1.00
b. Certificate in lieu, statement or verification of service, or report of separation, each	1.50
c. Copy or extract of order or other record (excluding medical, dental, and X-ray records), each	1.00
4. Photography:	
a. Still pictorial or Documentary Photographic Prints 8 x 10 black and white and not more than three prints may be sold from any individual negative on each order. Larger standard sizes of black and white prints will be furnished, if available, at proportionately higher fees.	
Single-weight glossy finish, each	.55
Double-weight matte finish, each	.60
4 x 5 color transparencies or color negative, each	5.00
8 x 10 color transparencies or color negative, each (In quantities not to exceed three copies any one view.)	10.00
Color prints will not be furnished for public use.	
b. Aerial Photographic Prints, contact prints, or exact negative sizes, single-weight glossy or double-weight semi-matte.	
Size 7 x 9" or 9 x 9", in quantities:	
1-100, each	.70
101-1000, each	.55
Over 1000, each	.50
Size 9 x 18", in quantities:	
1-100, each	1.40
101-1000, each	1.10
Over 1000, each	1.00
c. Aerial Photographic Indexes and Mosaic Copies in any number, size 20 x 24, each	1.20
d. Reproduction of Cover Overlays:	
Transparent Foil Film Overlays, each	1.50
Transparent Paper Overlays, each	.60
Transparent Paper Plot Maps, per square foot	.10
Photostat Plot Maps (maximum size 17½ x 23), each	.65
e. Motion Picture:	
16 mm or 35 mm black and white unedited footage and/or optical sound track, per foot	.10
Color unedited footage:	
16 mm, per foot	.20
16 mm inter-negative	.25
35 mm, per foot:	
Viewing or release print, each	.25
Separation master positive (3 required)	.75
Color inter-positive, each	.55
Color inter-negative, each	.55
Magnetic Tape (per foot):	
16 mm (Direct Dubb), each	.05
35 mm (Direct Dubb), each	.05
Searching (including overhead):	
Each hour or fraction thereof (per hour)	5.00
All film used in duplication to furnish a requested end product shall be charged for on a per foot basis.	
Minimum charge (including stock search per order)	10.00
5. Construction and engineering information.	
Copies of aerial photographic maps, specifications, permits, charts, blueprints, and other technical engineering documents.	
Searching per hour (includes overhead costs)	2.00
First print	.50
Each additional print of same document	.25
6. Copies of medical articles and illustrations	[1]
7. Claims and litigations	
a. Requests from litigants pertaining to private litigation. (If not covered in 2 above.)	
Searching per hour (includes overhead costs)	2.00
Each photocopy	.20
Certification and validation with seal, each	.50
Certification and validation without seal, each	.25
b. Requests pertaining to cases in which the U.S. is a party and where court rules provide for reproduction of records without cost to the Government.	
Searching per hour (includes overhead costs)	2.00
